

FOREST FIRES SPREADING; SITUATION DESPERATE

Sunny Brae Near Moncton Had a Close Call Yesterday -- Fire Department of That City Fought the Flames -- Many Farms Along the North Shore Have Been Destroyed.

(Special to the Sun.) MONCTON, N. B., Aug. 22.—Only increasing and strenuous efforts on the part of some two hundred men who, with buckets of water, brush and other implements, fought off the fire from the village of Sunny Brae, one of Moncton's largest suburbs, would have been destroyed this afternoon by a forest fire which swept down to its borders. So close, in fact, did the fire come that the residents hung wet blankets and mats over their house roofs to prevent ignition from stray sparks. One barn did catch on fire, but the blaze was extinguished before very much damage was done.

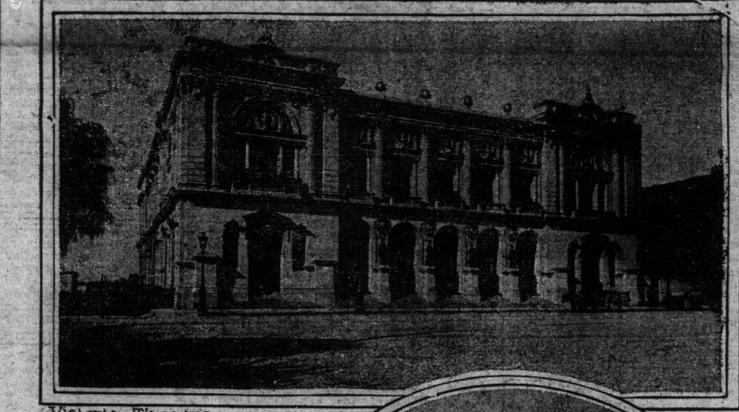

It was about noon when the fire assumed a dangerous aspect in the Humphrey woods along the McLaughlin road. It had been burning more or less fiercely for the past few days, originating from some small brush fire which, it is presumed, had been carelessly allowed to spread. Shortly before noon, fanned by the fresh breeze, the blaze swept in the direction of Sunny Brae. The latter is a village of some four or five hundred population, with a lumber mill near by and a large number of new houses going up, and the residents immediately became apprehensive for their safety.

Several prominent residents of the suburb at once summoned help from other nearby points and about five o'clock this afternoon the Moncton fire department was called out by the ringing in of a general alarm and sent to aid in the combat against the flames. They were led by Fire Chief Ackman to whom a great deal of credit is due for the manner in which the fire was warded off. Two hundred men fought to keep the flames under control. Hoses were stretched from a well a quarter of a mile distant from the fire, but on account of the shortness of the hoses the firemen were unable to get near the flames. Every team in the village was out and in vessels from all kinds from large water barrels down to milk cans water was carried. Finally the efforts began to tell and the flames gradually subsided, being put out when within a few feet of one dwelling. Tonight the situation is greatly improved and the fire is not burning, although freshening wind may at any time fan it into renewed activity. Residents of the vicinity still feel somewhat uneasy.

The barn which caught on fire belonged to William McKinnon, and the damage was very slight. Incipient blazes in other houses were also stamped out as soon as noticed. Fire also got into the rural cemetery but was quickly extinguished. Tonight a haze of smoke from the forest fires all over the surrounding district covers this city, while the burned particles float through the air borne in by wind from some large conflagration. From Lakeville, some seven miles distant from Moncton, comes a report tonight of another very bad forest fire which is causing much apprehension among residents near by. One house is reported to be in a very dangerous position, directly in line with the fire, and two hundred men are out fighting the flames. This land is part of the Humphrey property, and the damage to timber will be very extensive. Another fire is also raging in the woods south of Lakeville, but no houses are in danger. At Salisbury a crowd of men were out all afternoon fighting fires which raged in the adjacent woods. At one time Wright's mill was seriously threatened, but hard work by the fire fighters saved it from catching. The fires are now pretty well

DEATH LIST IN VALPARAISO IS NOW PLACED AT FIVE HUNDRED.

The Fire Has Been Stopped Through the Use of Dynamite — Relief Organizations Are Being Formed.

Victoria Theatre.

SANTIAGO DE CHILE, Aug. 20.—Five hundred persons are dead at Valparaiso as a result of the earthquake shocks, according to the latest advices based on the reports of refugees who reached this city this morning. The monetary loss at Valparaiso runs into the millions. Six or eight other cities have been destroyed. The railroad, street railway, telegraph and telephone systems are thoroughly demoralized. The known dead in this city number twenty. Madame Mont, wife of Admiral Mont, who was reported killed, is alive, but seriously injured. It is expected that the street railway and nighting systems in this city will be restored today.

NEW YORK, Aug. 20.—Startling but conflicting reports regarding the fatalities and monetary losses attendant upon the seismic disturbances in Chile on August 16 and 17 continue to reach this city. Details from Valparaiso direct are still meagre and are conflicting. From the survivors, however, the stories of refugees from the stricken city are heard, and compared by a less excited populace, come more conservative estimates of the devastation wrought.

The latest news this morning is contained in a cable despatch to the Associated Press. The correspondent estimates the dead at Valparaiso at 500. The monetary loss amounts to millions. Six or eight cities besides Valparaiso have been destroyed. The steam railroads and street lines remain tied up while telegraph and telephone service is paralyzed. Cable despatches from South America printed in the morning papers here under yesterday's date, include the following:

LIMA, Peru, Aug. 19.—The latest news from Valparaiso is to the effect that the panic is subsiding. The mansion of Mr. Edwards is about the only building remaining on Victoria street. It is estimated that the number of dead in Valparaiso will reach 1,000. The dead in other places are: At Quillota, 30; Limache, 170, and Petorca, 11. Among the killed at Valparaiso were the director of the Lyceum, Charles Hosselin, and family. BUENOS AYRES, Aug. 19.—The cut-off in the Santiago telegraph line has been repaired and hundreds of private messages have been received. They report everything in a satisfactory condition there and say the people are not alarmed.

Refugees who are arriving at Santiago from Valparaiso on horseback and who left there during the worst panic, bring wild stories concerning the number of deaths by the earthquake and fires. These refugees say the death number is 10,000, and that there are 60,000 refugees in the mountains. One rumor, which is not confirmed, is believed to be untrue, is that the dead number 11,000 and the injured 20,000. Public relief subscriptions were opened in Buenos Ayres today. The Jockey club gave 60,000 pesos. The Argentine government will pass an appropriation for the relief of the sufferers.

RIO DE JANEIRO, Aug. 19.—The free use of dynamite, according to despatches received here, was very effective against the progress of fire at Valparaiso. The firemen were thoroughly exhausted when the flames were finally subdued. Hundreds of people took refuge on the ships in the harbor. It is stated that a new danger is threatened by the volcano Woinin, which has become very active. Despatches are beginning to arrive here from Santiago. All of Chile was apparently affected by the shocks as well as numerous points in Argentina in the vicinity of the Andes. LONDON, Aug. 20.—The Tarapaca and Argentina Bank has received the following cable despatch from Valparaiso: "Every building here is damaged and many of the principal business premises are completely wrecked or burned. There have been many casualties. All the trains have stopped running. The railroad line has been destroyed in places. "Martial law has been proclaimed. Absolutely no work is being done owing to the continuous small shocks since the two severe shocks of Thursday. We cannot get workmen to clear away the debris from the premises.

FIRES RAGING ALL OVER KINGS CO. TIMBER LANDS

Farmers Meeting With Big Losses and no Relief in Sight—Hundreds Praying for Rain—Heat at Sussex is Oppressive and Workmen Have to Cease Operations

(Special to the Sun.) SUSSEX, N. B., Aug. 20.—Sussex has undergone an experience in the last two days that cannot be recalled by any member of the oldest inhabitants. The heat yesterday was unbearable, and today the conditions were even worse. At the Dominion observatory the thermometer showed 88 in the shade on both days, but in the business section it was much hotter, and one large concern shut down part of its plant. It was impossible for flesh and blood to stand it. To make matters worse fires are burning on every side and the air is heavily laden with oppressive smoke. The woods are in such a condition that it is almost impossible to cope with the flames. At Smith's Creek, three miles from here, fire started this afternoon, and a hundred men were called upon to fight for their homes. John King's barn was on fire several times, but was extinguished, and a number of other places were

threatened. It will require constant vigilance to guard against disaster unless rain falls soon. It is now over seven weeks since there has been rain in the county, and the situation is desperate in some sections. From Cornhill comes intelligence of worse condition than prevail here. Fire is running in all directions, and to make the troubles of the people worse many farms are without water. Springs have dried up and water is being hauled for long distances to provide for household and stable wants. The loss is a very serious one and has passed the stage when it can be viewed with complacency. Kings county is dropping dollars fast, and with no relief in sight many anxious hours are spent in store for the farmers. Lumbermen are preparing to protect their properties and have rangers on their holdings watching for outbreaks of fire. So far no serious injury has been reported to timber limits.

UNITED STATES ARE ANXIOUS TO SETTLE QUESTIONS SOON

International Boundary Disputes May all be Dealt With at One Time Except That of the St. John River—Reports Will be Made Early Next Year When Countries Will Take Action

(Special to the Sun.) OTTAWA, Ont., Aug. 22.—The United States authorities apparently want to settle all international boundary questions at one time, except that of the St. John river. The waterway commissions of the two countries agreed unanimously as to what should be done at Sault Ste Marie. The United States secretary of war endorsed the finding. The United States secretary of state, however, has recommended that the settlement of the Sault Ste Marie question should not be agreed to and a treaty adopted until the other questions before the commission should have been reported upon by the commissioners.

The list of questions before the commission for report includes the control of water at Sault Ste Marie and the protection of Niagara Falls, the advisability of adopting uniform marine signals, the question of controlling works to regulate the outlet Lake Erie and the effect of such work on the St. Lawrence levels, of increasing the flow through the Chicago drainage canal, of buying international water boundaries, of suppressing illegal fishing on the great lakes, location and construction of common channels, the diversion southward by the Minnesota Canal and Power Co. of streams in Minnesota now flowing into Canada through Rainy River and Lake of the Woods. The commission has reported upon some of these questions and expect to be able to report on all of them early next year. The two countries will then be in a position to give the recommendations permanent effect in the form of treaties if they desire. The questions are large ones, affecting the interests of both countries, and it is interesting to see them settled without a good deal being heard from some wealthy and influential quarters.

loney, held in the Androscoo hall on Friday evening, was patronized by a fashionable and delighted audience. The programme of fifteen numbers, including a quartet by Miss Eva Stoop, was well sustained. Miss Hudson, Brooklyn, N. Y., presided at the piano, playing the accompaniment for the singers, as well as two instrumental solos. This young lady is a yearly visitor to St. Andrews and is always ready to aid in every good cause. The net proceeds of the function amounted to \$45. Capt. Alexander (Sandy) Maloney of Boston is in town, guest of his brother, John S. Maloney. William Lorimer, wife and boy, of Montreal, are guests of E. A. and Mrs. Cockburn.

MAUGERVILLE. MAUGERVILLE, Aug. 19.—Mrs. Walter Woods and Miss Jennie Moore (Boston) are visiting their sister, Mrs. C. W. Sables. Schools have again opened. Miss Mabel Brown has charge in district No. 1, Miss Jennie Smith in district No. 2 and Miss Turley in district No. 3. The annual temperance picnic will be held next Friday (Aug. 24th) at Lower Jarneg. An able and interested committee has charge of the arrangements, and a good time is expected. Inspector H. V. B. Bridges called on the school in district No. 1 last Tuesday. Mr. Bridges has been appointed principal of the Normal School, Fredericton, and his work as inspector expires the last of the month. We trust his successor, Mr. Brown, will be as well liked. Miss Lizzie Perley, who has been visiting her nephew, W. E. Perley, has returned home. Mrs. Charles Gilbert and daughter are guests of Mrs. T. C. Clowes. Horace Tapley and daughter, St. John, spent last week at A. A. Treadwell's. Miss Estelle Brown left for her school at Central Blissett last Saturday. Mrs. B. H. Thomas, Dorchester, and son are visiting friends here. Miss Burns, St. John, is spending her vacation with Miss Mabel Smith.

PROVINCIAL NEWS

HOPEWELL HILL. HOPEWELL HILL, Aug. 19.—The schooner E. Mayfield of Parrsboro is loading plaster at the Shepody River for C. D. Shaw. Rev. Percy Christopher of Orange, Mass., formerly of Hopewell Cape, who has been enjoying a vacation in Albert county, occupied the pulpit of the Baptist church here this afternoon. Mr. Bousfield of Boston, sang a solo in a very pleasing manner at the close of the service. Archie Stuart, who has been living in Boston for some years, is visiting at this place. S. R. Wetmore, government engineer of Fredericton was in the county recently, and in company with D. W. Stuart, inspector of roads, inspected the Sawmill Creek highway bridge at this place, the Hamilton Creek and Calkin's Creek bridges at Lower Cape, and the Memel bridge near here. It is understood the Sawmill and Hamilton bridges will be rebuilt, and the other structures thoroughly repaired. The Sawmill Creek bridge will be built on stone abutments with a covered span, similar to the Shepody River bridge. Yesterday was considered the hottest day of the season. There was no breeze and the sun glaring through an atmosphere of smoke from the temperature up to a point seldom reached hereabout. In the evening the air cooled rapidly. Hay is progressing without a break, but on account of the drought grain is ripening prematurely and the crops generally are suffering for rain.

ST. ANDREWS, N. B., Aug. 20.—Dr. James Hannay of Fredericton, official reporter of the Local Legislature, arrived by C. P. R. on Saturday. He registered at Kennedy's. Yesterday morning he drove to Bay side, St. Croix, to spend the day at John Mowat's. Benjamin Donahoe of Boston, Will Donohue of the E. & A. railroad, Maine, are visiting their father, B. Donohoe, ex-C. P. R. conductor. Mr. Hynes, with his sister, Miss Hynes, will in the near future leave for Manitoba, where they intend to settle. By their departure St. Andrews will lose and the Northwest gain two desirable citizens. Friday, Saturday and Sunday were three of the hottest days experienced for some time past. The thermometer in the shade ranged from 83 to 87 degrees. The sale and tea by the ladies of the congregation of the R. C. Church of St. Andrews, held in Androscoo Hall on Thursday last, was in every respect a success. The sum realized, including a donation of \$100 by Lady Shaughnessy, was \$550, which is to be applied to contemplated improvements in and seating of the Androscoo. The concert under the auspices and for the benefit of Miss Winnifred Ma-

SANTOS DUMONT, UNABLE TO FIND A SUITABLE PLACE FOR EXPERIMENTING, INVENTS A NEW WAY FOR GETTING HIS BALLOONS STARTED.

M. Santos Dumont in his new aeroplane

PARIS, Aug. 22.—M. Santos Dumont, unable to find a suitable ground for his flying machine experiments, has, with characteristic energy, solved the problem in another manner. Hitherto he has endeavored to acquire the necessary momentum by towing the apparatus for some distance along the ground. Space being limited, he now intends to use an inclined plane and a sort of catapult, the projectile being his machine and himself.

Seen recently at his workshops in the boulevard de la Seine at Neuilly-Saint-James, M. Santos Dumont said:—

"My apparatus is now in that shed, in two pieces. It has cost me much time, much labor and also much money. In these conditions it is easy

to understand that I have no wish to damage it by premature or unskillful experiments. I intend to proceed with the greatest care, not because I fear for my personal safety—I shall not rise to more than five metres above the ground and a fall from that height can scarcely prove fatal—but because I do not wish to destroy my apparatus. Consequently I shall proceed very slowly and carefully.

"For my next trials I shall use this steel cable. It will be attached to two posts about eleven and a half metres high, with a space of about ninety metres between them. I shall suspend my apparatus from this cable and then proceed with rudder tests.

"I must 'get my hand in,' for it is

only by constant practice that defects can be remedied. For instance, I have already hit upon an improvement. The diameter of the steering wheel was too great, with the result that its manipulation was difficult. I have now made a smaller one.

"Once familiar with the working of the steering gear, I shall go on with other experiments. For that purpose I have constructed an inclined plane, from the summit of which the machine is to start. In order to obtain the necessary speed I shall utilize at one end and the same time the motor of the apparatus, the inclined plane and a sort of gun which I have designed."

Leading the way to the shed, the aeronaut explained the working of this

"gun." It consists of two tubes, one held back by powerful springs, while the extremity of the outer tube rests against the flying machine, near the propeller. When a button is pressed the inner tube will be released and will strike the machine with a force nearly three times that of the ascensional force of the propeller.

In conclusion M. Santos Dumont declared that for the present he is devoting all his energy and time to the flying machine. "The Archdeacon Cup is the limit of my ambition for the time being," he added. "To win it, it is sufficient to make a flight of twenty-five metres, and I hope that with my invention I shall be able to fulfil this condition."

A Frenchman who was staying at an hotel in England asked for his bill, and, on its being presented, was astonished to find it so large. He felt that he had been plundered, but he paid the bill and asked to see the proprietor. The landlord rushed up to him.

"Ah, let me embrace you!" he exclaimed. "Let me kiss you!"

"But why do you want to embrace me, sir? I don't understand."

"Ah, sir, but look at this bill!"

"Your bill? Yes, but what of it?"

"Vot of it? Why, it means zat I

shall nevair, nevair see you again, saire!"

"What brought you here, my friend?" asked the philanthropic visitor at the penitentiary.

"Unsuccessful authorship, ma'am," answered the man in cell 44.

"How could there be anything criminal in that? Please explain."

"I was busily engaged on a little work on the national currency, when the secret services men swooped down on me and caught me with the tools in my hand."—Chicago Tribune.

Mamma—I hope you behaved like a little lady while Mrs. Borem was trying to entertain you?

Little Daughter—Yes, mamma. I put my hand over my mouth every time I yawned.—Pick-Me-Up.

"You are a man after my own heart," said the Pittsburg heiress.

"I am glad to hear you say that," replied the Marquis. "I was afraid you might suspect that I was after your money."—Chicago Record-Herald.

CONVICTED OF BRIBERY.

PERRYVILLE, Ark., Aug. 17.—State Senator P. G. Butt was convicted by a jury in the circuit court early this morning on a charge of offering a bribe to another state senator. He was sentenced to two years in the penitentiary and fined \$300.

MONTREAL, Aug. 17.—The Grand Trunk earnings from Aug. 8 to 14 in 1906 were \$354,512, and in 1905 were \$763,540, an increase of \$90,772.

MANY MURDERED IN WARSAW RIOTS.

Soldiers in a Panic Wanted to Shoot Everything in Sight—Young Woman Ill-Treated for Making a Remark About the Guards.

BERLIN, Aug. 16.—A despatch to the Vossische Zeitung from Warsaw dated yesterday, gives details of yesterday's rioting. The despatch says: "The disturbance was due to the determination of the revolutionists to avenge the arrest of one hundred and forty workmen of an enamelled-ware factory. The firing began at 10 o'clock in the morning in various parts of the city, as if by concerted signal. The first shots were fired by young Hebrews who killed a soldier and a policeman and then fled into a shop. A soldier pursued the man and fired, killing the woman who kept the shop. In many places the military tried to crowd in indiscriminately and the exact number killed has not yet been ascertained. Bodies picked up in the streets continue to be brought to the morgue in Theodore street, which is guarded by troops. Many of the wounded conceal themselves because the soldiers arrest all wounded persons. Strong patrols of from 50 to 50 avayrmen are riding through the streets searching passers-by for arms. The streets in the Jewish quarters are deserted because the military patrols knock down with the butts of their rifles everybody they meet.

"A bomb was thrown at 2 o'clock in the afternoon into the window of the police station, wounding 17 policemen and twenty passersby. No body was killed.

"It is characteristic of the panicky condition of the soldiers that when the members of the volunteer hospital corps arrived on the scene of the shooting, the soldiers ordered them to get out of the way, and when they refused to do so, a police official present saved the doctors' lives."

ST. PETERSBURG, Aug. 16.—The young woman who, after being arrested for making sarcastic remarks upon the bearing of the Chevalier Guards, while they were marching along the Nevsky Prospect, August 14th, was subjected to gross indignities in the presence of officers of the regiment, is Anna Smirnova.

It was thought in this country at first that possibly the Mile Smirnova referred to in the despatches was Mile Nelka Smirnova, a relative of representative James W. Wadsworth and Speaker Wadsworth of the New York Assembly and other American cities.

Mile Nelka Smirnova left here for Russia last September, which gave rise to the fears that it was she who suffered at the hands of the Russian Chevalier Guards, and the State Department in Washington had been asked by her relatives to make inquiries relative to the affair.

WARSAW, Aug. 16.—An outbreak occurred today in the central prison among the political offenders confined there, owing to the hospital conditions. The wardens of the prison being unable to cope with the disturbance were forced to call in half a company of the Polish regiment, who subdued the outbreak by a volley which killed two and wounded ten of the prisoners.

BERLIN, Aug. 17.—George Von L. Meyer, the American ambassador to Russia, is going to Kissingen today to take the cure, says the general consensus of opinion in St. Petersburg is that the present lull in the revolutionary movement will continue for several months.

TANGIER, Aug. 17.—A fierce fight occurred yesterday outside the gate of the city between followers of Raisuli, the pretender and Anjera tribesmen. The noise of the fusillade caused a panic and a crowd of people, headed by Pasha El Ghazi, with regular troops, attacked the combatants and drove them away, killing, wounding or making prisoners of several of them. The fight had its origin in a brawl in the market place. Here the followers of Raisuli had two men killed and three wounded.

DREAMS OF TEUTON—MODERN FINANCING

RULE HOLLAND. AMONG THE JAPS

German Prince May Succeed to Heirless Dutch Throne

They are Learning Many of the American Tricks.

Unless People of Holland Alter Succession by Special Legislation—Boldness of Socialist Newspapers is Striking.

Soldiers Degraded for Conduct in the War—The Boycott Against American Goods.

(Special to the Sun)

BERLIN, Aug. 17.—The German dreams of a Teuton-ruled Holland are actively revived by Queen Wilhelmina's misfortune because the probability once more becomes strong that a German prince will succeed to the heirless Dutch throne unless the people of Holland alter the succession by special legislation.

Its legal claimants are all German royalties. First in the line is the widowed young Grand Duke Wilhelm Ernest, of Saxe-Weimar, but it is not necessary for him to renounce his own throne to become King of Holland, he is considered out of the race. Next are the three sons of Prince Albrecht, the Regent of Brunswick, aged respectively thirty-two and twenty-six. They are the Kaiser's cousins, and are members of the Prussian Royal Family. Third in line are the Herzog-Princes and Princesses of Wied.

The occupation of a foreign throne by a German Prince would not, of course, place the hand in question under the suzerainty of the Fatherland, any more than Roumanian or Bulgarian, but in the case of Holland, whose incorporation with the German Empire has long been forecasted by certain militant elements, a German-ruled would undoubtedly be regarded as a first-class guarantee for close relationship.

During the past six months there have been especially active efforts on the part of German chambers of commerce and others to bring about the long-desired systems and postal union with Holland as the first step in the direction of political amalgamation. These efforts have not been discouraged by numerous indications that the Dutch are not anxious to enter into partnership with their powerful eastern neighbor.

Herr Maximilian Harden suggests that Herr Ballin, the managing director of the Hamburg-American Line, may be Prince Buelow's successor as German Chancellor. The writer relates an anecdote illustrating Herr Ballin's intimacy with the Emperor. Herr Ballin was the Emperor's guest at the Imperial hunting lodge at Hubertstuck, and after a walk together, the Emperor, Prince Buelow, and Herr Ballin entered a small room of the lodge set aside for Herr Ballin.

The room contained a bed, a chest of drawers, and one chair. The Emperor swung himself on the chest of drawers and Prince Buelow, sitting on the bed, while Herr Ballin occupied the only chair between them.

A long, serious conversation ensued, and then Prince Buelow suddenly remarked: "If any reporter saw us like this we should be reported that Herr Ballin is shortly to have a seat in the Cabinet." The Emperor added, "Of that he will be Chancellor, my dear Buelow."

The boldness of the socialist newspapers in treating of the situation in Russia is striking. One of the most daring recently appeared in the "Vorwarts," "His honor and honor may be guessed from the title. On the road to the scaffold, it is an elaborate description of the occurrences which immediately preceded the guillotining of Louis XVI, and an equally elaborate attempt to show the affinity of those incidents with the events now happening in Russia. "The Tsar's army can only result," says the "Vorwarts," "in unchaining the revolutionary powers of the people. He has signed the order for his own destruction. He is bloody Sunday he began to tread the way to the scaffold; he now proceeds, step by step, as the successor of Charles Stuart and Louis Capet. His further existence burdens not only Russia, but all civilized humanity; his existence is a mockery of all human dignity; he must fall."

Receive And the Your

Boys

SOME of the boys of a suburb of one of our cities who want to make a summer of it will be a good model for the rest of the country. They do not pretend to earn their money, but they call their time well spent. One of the boys, writes to the editor of the "Sun" and says: "I drew the plan on first, and figured out how much wood we would need. Then we got our wood and had one of the boys build a chicken house. The other boys of the neighborhood were very interested."

It should be understood in England and America that the Tokio Commercial Society has memorialized the Governor General of Liaoning, General Baron Oshima, on the subject of South Manchurian trade. The association wants to know immediately the full carrying capacity of the East China railroad, and has asked that a large amount of land in the vicinity of Dairen be appropriated as quickly as possible to the building of warehouses and other shipping facilities. This activity on the part of the Tokio Commercial Society has inspired the German Association of Shantung, and toward the German minister at Peking an urgent appeal that he put pressure upon the Imperial customs of China to establish a free zone in Manchurian open towns as soon as possible.

Americans and English capitalists are also complaining that their investments are now safe and the following incident is cited to show that the rush of foreign money will not last long. A very large corporation sought to protect the eastern side of its business by promoting an allied Japanese company. It very carefully invested eight million yen, and in order to cover the transactions it had everything done in the name of its Japanese lawyer. This one of the leaders of the enterprise became a Japanese citizen, and the company was formed under the laws of Japan. He was requested to draw up the necessary deeds transferring all the properties from his own name to that of the new body. He replied: "But my fee will be one million yen, and a million had to be paid to him, and the people had no redress."

Captains Shine and Sakurii, Commanders Mizoune and Ogura, and Master Hida, two lieutenants, and one ensign have been dismissed from the army and reduced to the position of commoners.

The report on the foreign trade of China in 1905 as issued from the Statistical Department of the Inspectorate General of Customs at Shanghai is out. Mr. H. B. Morse, the statistical secretary, reviews an interesting paragraph of his report to the question of the boycott against American goods. There has been a considerable dislocation of trade, which appears to have been more marked in the minor discharging centers, and from time to time a recrudescence of the agitation is still reported from one place or another. Much suspicion has been created and much hostility engendered, but the general view is that much injury has yet been caused to the American merchant, while another proof has been given of the solidarity of international trade, and the truth of the observation that injury to the trade of one nation or of one commercial body is certain to react on others in relation with them. The final effect of the boycott, however, Mr. Morse concludes, cannot yet be seen, and the verdict on the movement will have to be deferred till the close of another year, or till an even later date.

DO YOU want a jolly game? Here is Bounce Battle. Each of the players (who by the way must bend above as he will roll on to his hands about thrust a stick round his hands and between his knees and elbow. Now, roused up, the players should attack each other, and push the other so that he will roll on to his hands about thrust a stick round his hands and between his knees and elbow. A gentle shove with your hand will do the trick. Be careful not to hop on the ground and attack, for in that case you be fatal to your own health.

LOBSTERS ARE PLENTIFUL

MONTROSE, Aug. 17.—One of the largest lobster catches that Westmorland county has ever had has been made during the season which closed on Saturday, according to the report of Fisheries Inspector R. A. Chapman, who returned a couple of days ago from a drive along the shore from Shediac to Cape Tormentine. The price this year is exceptionally good, and the season's work has proved a highly remunerative one for the fishermen. The prices average from \$13 to \$14 for pound shells, to some \$17 and \$18 per case for quater pieces.

It is estimated that the total pack in Westmorland will be upwards of fifty per cent greater than that of last year, and will be worth about a quarter of a million dollars. The pannes are now closed, but the rough weather of the last few days has retarded the fishermen in the work of landing their gear. For the last three weeks of fishing, however, the weather was all that could be desired, and the catch in this period was the largest known in many years. In fact, in many cases the lobsters were caught than could be taken care of, and many had to be returned to the sea.

A good deal of trouble with poachers is anticipated, on account of the plentifulness of the fish, and the prevailing high prices. Already a couple of poachers have been captured and fined, and more summarises are to be issued. A steamer will also be placed in the waters to protect against the poachers.

SACKVILLE PERSONALS

SACKVILLE, N. B., Aug. 17.—Miss True of Woodstock, N. B., is the guest of her sister, Mrs. A. W. Dixon.

Mr. and Mrs. Tram of Brookline, Mass., are the guests of Mr. and Mrs. B. B. Ayer, Middle Sackville.

Floyd McLeod of Wolsley, N. W. T., is visiting friends here.

Miss Emmerson of Dorchester is the guest of Mrs. H. C. Rend.

Miss Nellie Thorn of St. John is the guest of her aunt, Mrs. Jos. Avar.

Mrs. Clements of Albany, N. Y., and Mrs. Beal of Shediac, are the guests of Mrs. John Morice, Middle Sackville.

Mrs. Charles Thompson continues in a critical condition. Her son, Dr. Arthur Thompson of Newton, Mass., has been summoned.

KILLED HIS GRIM FOR TWO SHILLINGS

BRUSSELS, Aug. 18.—A boy of ten named Mauleens, living near Antwerp, who was sent out with two shillings to pay a bill, was later found dead by the roadside with his right temple pierced by a dagger and his face and body mutilated.

His money was missing, and suspicion fell on one of the child's school friends, a boy aged twelve, who admitted that he was the murderer, and appeared to glory in the details of the crime.

"I did it to get the two shillings," he said.

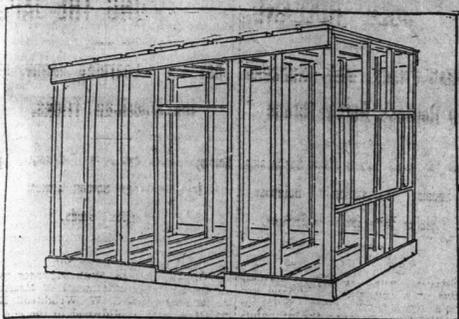

DR. CHASE'S OINTMENT

DR. CHASE'S Ointment cures all kinds of skin diseases, such as itching, bleeding, and protruding piles. See testimonials in the press and ask your neighbors about it. You can use it and get your money back if not satisfied. Sole and exclusive dispensers, BAZES & CO., Toronto.

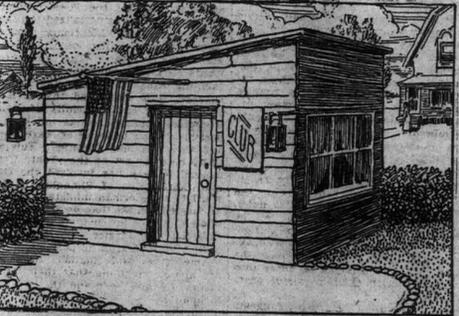

Always pit boys or girls and a weight against it. It is said that Bounce

Receive my body, pretty bed; soft pillow, O receive my head, And thanks, my parents kind, these comforts who for me provide; Your precepts still shall be my guide, your love I'll keep in mind.

Boys' Club House

SOME of the boys in Peytonville, a suburb of one of our large cities, got up a mighty nice-looking club house a summer or two ago, which will be a good model for any of you boys who want to make yourselves one.

Then we set to work and used the studying for our framework. In two places we had to nail two short pieces of studding together to make the correct length.

Bounce Battle

DO YOU want a jolly game that you can play outdoors or indoors, as you please? Here is the game of Bounce Battle.

JOHNNIE was his mother's joy and the pride of his fond father's heart. He had just been sent to school, and his parents expected great things of him.

Puzzles and Problems

Beholding and Curtailing. Behind one of the twelve numbers and leave an architectural curve; curl it one letter, and leave part of a circle.

Another Central Acrostic. Look up the following on your map, set the names (each a five-letter word) down in a column. What word do the central lines spell?

Answers. Beholdings. 1. Snow-snow. 2. Clara-lark. 3. Bread-bread.

The Experiments of Tom Tit

HAVE you ever tried making a fountain? Ask your mother for three tin cans, one quite large, one smaller and the third one very small.

Interesting Things About a Curious Spider

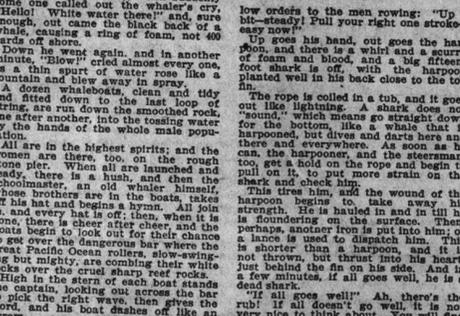

DO YOU want to hear about some curious spiders? said Aunt Amelia one evening to the children seated around her on the porch.

JOHNNIE was his mother's joy and the pride of his fond father's heart. He had just been sent to school, and his parents expected great things of him.

Exciting Shark-Hunt

IT WAS during a visit to beautiful Norfolk Island in the South Pacific that I became acquainted with a shark hunter.

But as this story is about shark hunting, not whale hunting, it must do to tell you that in the end the shark hunter and his whale hunter.

Back-Yard Party

EVERYBODY has a back yard. Have you tried somebody's idea first? It is a "Back-yard Party."

JOHNNIE was his mother's joy and the pride of his fond father's heart. He had just been sent to school, and his parents expected great things of him.

JOHNNIE was his mother's joy and the pride of his fond father's heart. He had just been sent to school, and his parents expected great things of him.

INDEPENDENT CANADIAN LABOR

The annual session of the National Trades Congress to be held in St. John next month promises to be one of the most important labor conventions ever held in Canada, as its leading purpose is to arrange a definite programme for an active campaign leading to a complete freedom of Canadian labor from the domination of the American unions.

UTILIZING WASTE POWER.

The Toronto World calls timely attention to the efforts being made by European engineers to utilize power which, under present industrial conditions, is going to waste.

DUKE OF ORLEANS TURNED DOWN BY BELGIUM

OSTEND, Aug. 18.—The Belgian government has refused to grant letters patent to the Duc d'Orleans for selling under the Belgian flag the Polar ship Belgica, which he has purchased, on the ground that he has not been a resident in Belgium for at least one year, as required by law.

BOSTON, Aug. 18.—Thomas Ryan, aged 22, formerly of Sussex and Boston was drowned while swimming at Coal Point, near Worcester, last night.

The Kind You Have Always Bought

PURE MILK.

The suggestion of Dr. Hodgetts, secretary of the Ontario Board of Health, that milk be made a public utility and that its production and distribution be placed in the hands of the local government, has caused considerable discussion, and has elicited not a little approval.

In Montreal and Toronto especially there has been shocking reason during the last couple of years to believe that the milk supply is adulterated and impure. Even in this city, the recent typhoid outbreak, traced to this source, shows the necessity of some drastic measures to ensure cleanliness and freedom from disease germs or deleterious mixtures in this article of universal diet.

According to this plan, certified dairies must comply with strict conditions. Buildings must be located on high grounds to ensure good drainage; there must be an abundant supply of pure water; the barnyard must be covered with concrete or other hard material; the stable must be well ventilated and well lighted; each cow must be groomed with a curry comb and stiff brush each day, and the udder must be free from disease, and must undergo veterinary examinations once a month; milkers must wear white clothes, which must be washed three times a week; all utensils must be sterilized, and the milk strained through absorbent cotton.

In Rochester the careful inspection of milk has had the best results. In the nine years from 1888 to 1896 there were 6,623 deaths of children under five years of age. In 1897 the new system of inspection was begun. In the next period of nine years the deaths had declined to 4,003. For July and August the contrast was still more striking. In the former period the deaths in those months were 2,005; in the second period they were 1,000.

There are in Rochester between 15,000 and 20,000 children dependent on milk for food, and the city considers itself responsible for their well-being. It undertakes a general inspection of 700 farms lying within a radius of sixty miles.

During July and August four municipal stations and a portable laboratory are maintained by the city. Thither come the mothers of the poor to receive, besides certified milk, instructions printed in four languages as to the care of their infants.

The St. John Board of Health, since the recent epidemic, has exercised greater care in supervising the sale of milk in this city and there is reason to believe that this care has resulted beneficially. But to ensure permanent purity, especially as the city grows, some more comprehensive plan must be adopted and this one which has proved so successful in other places is certainly worthy of consideration.

At a time when industrial prosperity depends largely on cheapness of production, no country, says the World, can afford to ignore the utilization of waste products. In this respect a new country enjoys peculiar advantages since it can profit, if it will, by all the experiences of older nations. If Canada is to receive the full benefit of its exceptional position, its manufacturers will closely watch all industrial developments, and will not be backward in appropriating them. Waste gas power is evidently worth something from an economical point of view, and the position in Germany should be instructive.

BOSTON, Aug. 18.—Thomas Ryan, aged 22, formerly of Sussex and Boston was drowned while swimming at Coal Point, near Worcester, last night. Ryan was an orderly at Worcester City Hospital and got beyond his depth. The body was recovered today. Ryan had been in Worcester since June 5. His relatives live in Sussex, N. B.

EDISON TALKS OF PRIZES MADE ON CANADA

Says He Has Always Been Interested in the Dominion

Jealously Intimates That Marconi Got Married at the Wrong Time—Will Succeed However

MONTREAL, Aug. 17.—Why do you not say "our" country instead of "my" country? To me there is little difference; the people appear the same, and the march of progress is equally visible on both sides of the line. These were the sentiments expressed today by Thomas A. Edison, the great inventor, in the course of an interview with the Sun.

Edison, with a party composed mostly of members of his own family, arrived here by automobile in the morning and left this evening for Quebec.

THE PUGSLEY, 900 YARDS.

H. H. Bartlett, St. A. R. C., cup and \$10,000. Major O. W. Wetmore, 74th Regt., 42. Capt. R. H. Arnold, 8th Hus., 41.

Mr. Edison said he took an especial interest in Canada. As a young man he was a telegraph operator on the old Grand Trunk at Stratford. But the Grand Trunk at that time seemed to be dead. But he was glad to see that the present management had installed new life into the same.

VACATION DAYS IN THE COUNTRY.

Oh, oh! the joys of verdant fields! A country life for me; Come, flee from city dust, and lie beneath your spreading tree.

MOTHER TELLS DYING DAUGHTER'S STORY OF ILL-TREATMENT.

Sensational Evidence Against Husband of Victim in Malpractice Case.

TORONTO, AUG. 17.—The evidence of the mother of Agnes Bridant, given at the investigation into the charge of murder against Edmund Bridant and Lillian today, proved more sensational and pathetic than had been looked for.

OSTEND, Aug. 18.—The Belgian government has refused to grant letters patent to the Duc d'Orleans for selling under the Belgian flag the Polar ship Belgica, which he has purchased, on the ground that he has not been a resident in Belgium for at least one year, as required by law.

CONGREGATIONAL NOTES FOR BUSY MEN.

ROMAN CATHOLIC

It is said that some parts of the Vatican are unsafe, and that the Palace is practically falling to pieces. The Pope's apartments need to be strengthened, and to make the whole building safe will require an expenditure of more than \$100,000.

THE CONGREGATIONALISTS

Chiefly through the Torrey and Alexander revival movement there was an increase in the membership of the Congregational churches in England and Wales during the past year of 16,000, while the number attending the Sabbath schools were reported as 14,000 in advance of the preceding year.

THE METHODISTS

The stationing committee of the Wesleyan church at the conference just closed in order to fill vacancies occasioned by deaths and retirements, had to withdraw sixty students from the Theological College and eighteen ministers from the foreign work to meet the demands of the work at home.

THE ANGLICAN

A new hymnal has appeared in the Motherland intended for use in the Establishment church which is described as a remarkable anthology of sacred hymns, held in veneration in conception and execution, providing for many wants suiting the most varied tastes, but characterized always by restraint of sentiment and the exercise of a fine artistic judgment.

WELL OF ENGLISH UNDEFILED.

Across the club luncheon table a man looked up from his grilled sole and proclaimed that no man in England can carry on a conversation without saying "well." The usual bet, was made. For a week the two friends stared at each other, knowing that "well" is the beginning of most casual sentences.

A CHURCH FOR CHILDREN.

A church for children, with children constituting the official board, a child organist, three child officers, wise deacons, ushers, and congregation, is the plan of Rev. Harry A. King, pastor of the Oakley Methodist Episcopal Church in Kansas City.

A PERAMBULATING EDITOR.

From the Cleveland Plain Dealer. R. T. Lowery is soon to have the distinction of being the only peripatetic editor. He is now publisher of Lowery's Claim at Nelson, B. C., but the Canadian post office has excluded his paper from the mails. Now he has decided to go upon the road, and will issue his paper from whatever town he may happen to be in at the time of going to press. He proposes to visit Spokane for a short time; he will call at Seattle; Portland will number him among her citizens, and he mentions San Diego as one of his stops. Lowery is one of the original bootleggers in the state of Washington. In the last thirteen years he has started and abandoned a dozen or more papers in that commonwealth.

THE BAPTISTS

The Baptist churches in England last year had an increase of nearly 8,000 members, and in Wales of about 24,000, while the additions to the strength of their Sabbath schools numbered over 1,000. It should be said this increase, the largest for ten years was largely due to the Torrey and Alexander revival.

A movement has been started to present Dr. John Clifford, London, with a testimonial on his 70th birthday, in recognition of his great service to the cause of civil and religious liberty. It is hoped to present him with \$35,000, which will provide a comfortable annuity for him when old age comes. The movement ought to be successful. There are sixteen associations of Baptist churches in Ontario and Quebec. Each holds an annual meeting in June. The reports of this year's meetings show a generally encouraging condition. A very gratifying thing is the number of young men—most of them the product of the churches and colleges in the associations, who are resting their strength as preachers and men of affairs.

The annual conference of Baptists in Sweden was held the last week in May. The churches were represented by 360 delegates. All the reports breathed praise to the work during the past year. Hopefulness characterized the representative body gathered and forward was the watchword. A committee was appointed to consider the establishment of a Baptist educational institution in Sweden. Such an institution is urgently needed. Among those knighted recently by King Edward were two Baptists, Joseph Bright, of Nottingham, and Edward Wood, of Leicester. Sir Joseph Bright is an eminent lawyer and Sir Edward Wood is a manufacturer. Both are actively interested in religious work.

WOMEN'S WORK AT THE EXHIBITION

This Booth Will Be One of the Finest in the Building—Decorations Well Under Way.

The work of putting the exhibition building in shape for the fair which opens on Sept. 1st is rapidly proceeding, and is now farther advanced than it ever has been two weeks before the opening of the exhibition. Special attention is being paid to the ladies' department, and this will without doubt be the finest in the whole show. Carpenters and painters have been at work on this section for several days, and are beginning to make things look very artistic. This department will be divided into four different sections. The first section is the resting-room, which is to be a room of the style of an old-fashioned sitting room at the back of the room is a large fireplace, and when this has been given the appearance of having a fire in it by small electric lights, the place will have a most homelike appearance. The second section is the art section. This is the largest of all and is very neatly gotten up, the background being a rich deep green. Next comes the tea room, and this is especially attractive. It is fitted up as a Japanese tea room, with a lawn at the back. This room has a most enchanting effect, as it is all decorated with green and hung with many Japanese lanterns. The ladies' section in this department is the practical room, where lectures are given on nursing, cooking and many other things which are useful around a home. This is a very pretty. Large arches are being built over the different sections, the centre arch being larger than the others. At the top of this arch is a large iron lattice, the top of which is fitted up as a Japanese tea room, with a lawn at the back. This room has a most enchanting effect, as it is all decorated with green and hung with many Japanese lanterns.

STATISTICS OF MURDERS

Hundreds of people say Harry Hays shot Edward White. The crime was brutal, cold-blooded and heinous. It is pointed out that any word from official Valparaiso and other points be taken as indicating cooperation and interest in the reports and extent of damage.

WORK THE EXHIBITION. Will Be One of the Finest Building—Decorations Well Under Way.

EARTHQUAKK AND FIRE LAY WASTE TWO CITIES.

Vaiparaiso and Los Andes Reported Demolished With Great Loss of Life

Except for a few private messages received early yesterday reporting an earthquake in Chile, and damage to buildings in Valparaiso, no direct news from Chile has yet been received. The early reports, coming from different points, stated that the earthquake had resulted in great loss of life and widespread damage to property. Up to 11 o'clock last night, however, there had been nothing to confirm the reports.

MAP OF STRICKEN CITY AND ITS ENVIRONS.

who are themselves unable to get any information bearing upon the situation other than the fact that an earthquake had occurred; that the disturbance has disarranged the telegraphic apparatus and interfered with communications. There is much anxiety tonight among those who have friends and relatives in Chile. The cable companies and newspapers are making every effort to secure definite information.

It is pointed out that the absence of any word from official sources in Valparaiso and other points in Chile may be taken as indicating considerable exaggeration in the reports of loss of life and extent of damage.

The reports received from various quarters of the globe regarding the Valparaiso disaster, have varied greatly, some going so far as to compare the havoc wrought to that of the San Francisco catastrophe, with details which are said to be a violent earthquake, took place and was burning, severely many scores perishing in the flames and the ruins of the fallen buildings.

LONDON, Aug. 17.—Some London dispatches regarding Valparaiso have received telegrams from their agents there. One to James & Alexander Brown, says: "Severe earthquake. Commerce paralyzed. Town safe. Staff safe."

A Hamburg firm is alleged to have sent a dispatch stating that numerous deaths in Chile had been partially or totally destroyed. Valparaiso has been practically demolished, and many ships had been lost and a hundred persons had been killed and many hundreds injured. This dispatch, however, is not well authenticated.

BUENOS AYRES, Aug. 17.—In the absence of telegraphic communication beyond Puente Del Inca, it has been impossible up to this hour to obtain accurate details of the destruction by the earthquake in Chile. The managers of the telegraph companies here state that nothing is coming through. Press reports purporting to come from Chile are purely imaginary. London and New York are eagerly seeking for news from the affected district. Officials of the Pacific Railway say that it is their belief that the damage at Valparaiso is not nearly so serious as has been stated but they express the fear that the town of Los Andes has been destroyed.

NEW YORK, Aug. 17.—One report which reached this city said that portions of Valparaiso were burning all night and that the bodies of hundreds of its residents were buried in the ruins of the buildings.

NEW YORK, Aug. 17.—At 11.30 o'clock tonight, a central cable office of the Western Union Telegraph Company received a service message stating: "The Valparaiso office is closed until 7 o'clock tomorrow morning."

No reason is given for this, and it is believed that the company tonight received definite light upon the situation in Chile.

WOMAN ROYAL ASTRONOMER.

The honor of being elected a member of the Royal Astronomical Society of London has been extended to Mrs. Wilhelmina Paton Fleming, who has

achieved remarkable distinction in the discovery of stars during her work as curator of the Astronomical Photographs at Harvard University. Mrs. Fleming is a native of Dundee, Scotland.

GLADSTONE'S GRANDSON.

W. G. C. Gladstone, the son of the late W. H. Gladstone, M.P., and grandson of William Ewart Gladstone, was born on July 14, 1885.

His majority was celebrated on July 25, when a statue of Mrs. Gladstone was unveiled at Hawarden.

AFRICAN GORILLA IS ALARMING THE COUNTRY

GENEVA, Aug. 17.—A huge gorilla which escaped from captivity a few days ago is spreading terror among the villagers who live on the borders of the forest of Berley, in the Canton of Fribourg. The gorilla was brought from Africa several months ago by a wealthy explorer living near Berley, and was confined in a specially constructed house on his estate. One morning a servant went to feed the animal found the gorilla in the house and the door smashed to bits.

A few hours later a laborer, who was walking through the forest, encountered what he thought was a hairy black man, skipping along in some distance away. The laborer, in his direction, and he fled, shrieking with terror, whereupon the gorilla fled.

It was seen afterwards by several people. On one occasion the gorilla was apparently in a wild rage, and was washing the ground with a heavy piece of timber. At night its howls can be heard by the cottagers.

In consequence the gorilla of Berley is deserted, and the authorities have been appealed to by the terror-stricken residents for protection. Gendarmes armed with rifles have been sent into the forest to kill the gorilla, but so far it has evaded them.

To cure Headache in ten minutes use Kumford Headache Powder, 10 cents.

STATISTICS OF CRIME.

(Columbus, O., Sun.) All comparative immigration statistics in this country begin with the year 1820, when the first comprehensive collection was made. Hereafter comparative statistics of crime in the United States will begin with the year 1906, for experts from the census department, for the first time in the history of criminal judicial statistics. They will take the records of the courts in 2,800 counties, excluding misdemeanors and confining their tables to felonies. The standard of crime there established will be followed in future compilations by the census department.

It is a singular fact that the United States has a larger number of criminals per capita than any other nation of the world in this respect, for in every other important country crime statistics have been kept, sometimes for a long period.

NO DANGER.

(Toronto Star.) Here is Oliver Asselin in a state of mind because French Canada will be assimilated in 1931. In that year he estimates that there will be 25,000,000 people in Canada, of whom only a small proportion will be French. He says that if the size of the House of Commons is cut down to 400 there will only be 20 or 30 French members. The cause of this prophecy is that since 1901 680,000 immigrants have reached the country, of whom 67,000 could not speak a word of French. What good object is served by this counting of French and English heads? What does it matter whether there are thirty or a hundred Frenchmen in the parliament of 1931? If the rights of French-Canadians were in danger, if there were any disposition to place them in a position of bondage or inferiority, we could understand the uneasiness of our friend, Mr. Asselin. There is no such danger.

PRINCE KIDNAPS SON AND NOW IS FUGITIVE

Princess Appeals to Italian Court, But Has No Jurisdiction to Act

MALTA, Aug. 17.—The Prince Antonio Licata di Baulonia has arrived here, a fugitive from Sicily, on board the yacht Orietta, which he had hired. He has with him his only child, Biagio, whom he has taken from his wife. The Princess obtained a separation decree from the courts in Palermo last year, together with the custody of the child. The father was granted the right to receive a daily visit from the boy, and last month during one of these visits the father took him aboard the yacht and carried him away.

The Princess attempted to prevent the Prince's departure from Malta for Tunis, where he has property, but the courts here declare they have no jurisdiction.

SITUATION IN THE BOSTON MARKETS

BOSTON, Aug. 16.—The outside figures for spruce frames are every day becoming more difficult to obtain, and even the strong, conservative sellers, who a fortnight ago resisted the decline, are now willing to accept \$22 for all but really hard orders. Having gained so much, buyers of course are endeavoring to secure a further advantage, and they are telling each other and those from whom they buy of business recently put through at \$21.50. As a matter of fact, there have been sales at this price, but they have not been sufficiently numerous or important enough to justify us in altering our quotations. There are observers who predict confidently that the market will have descended to that level by the end of the week, but there are others equally shrewd who are of quite a different opinion. In this report we are concerned with the present and are content with affirming that at the moment \$22 is about as high as a purchaser can reasonably expect to pay.

The random situation is even more unsatisfactory, perhaps, than at the date of our last report. Buyers are more given to haggling and expecting bargains, and the number of weak-kneed sellers is increasing. Of small sizes, the supply, already superabundant, is growing larger, and the tone of the market is weak and unsettled and there is no sign of improvement.

Spruce boards are not in more than fair demand and for matched \$22 is now rarely obtained, and only when the quality is beyond criticism. Transactions on the stock boards, clipped, at more than \$21 are few. For the northern article no one pretends to get more than \$20.

About shingles buyers are not displaying anything resembling enthusiasm. The expected improvement in demand has not yet materialized, in fact, and unless there is something peculiarly attractive about a brand a seller hardly expects to receive more than \$3.30.

Of laths, it is possible to speak cheerfully. Less exertion is required to sell them, and the feeling as to prices is, no doubt, firmer than it was. For 1 1/2 inch a purchaser can now do better than \$3.50 if he is looking for anything up to standard.

Clapboards continue quiet, but firm. Rates are scarce, but those quoted are high.

The prices below are those quoted the yards by the wholesale men: Spruce lumber, rail shipments—10 and 12 inch dimension, \$24 to 25; 8 inch and 10 inch dimension, \$22 to 23; 10 and 12 inch random lengths, 10 and up, \$24 to 24.50; 2x3, 2x4, 2x5, 3x3, and 2x7, 10 feet and up, \$18 to 19; all other random lengths, 9 inches and under, 10 feet up, \$20 to 22; 2x2, 2x4, 2x6, 2x8, 5 inch and up, \$19 to 20; matched board, 5 inch and up, \$20 to 22; eastern hemlock board, 12, 14 feet, \$20 to 22; bundled firring, clipped to same length, p 1 s, \$19 to 21.

Shingles—Cedar, \$3.30 to 3.40; do clear, \$2.90; do ends, \$2.30 to 2.30; do clear, \$2.20 to 2.15.

Laths—Spruce, 1 1/2 inch, \$3.80; 1 1/4 inch, \$3.60 to 3.75.

Clapboards—Spruce, 4 feet, \$4.50 to 4.30; do clear, \$4.00 to 4.10; do ends, \$3.70 to 3.80; pine, \$4.00 to 4.10; clear, \$4.40 to 4.60; 2x2 clear, \$3.90 to 4.10.

Fresh fish are in fair demand at 9 to 11c for medium scaled. Fresh fish are plentiful and prices are lower. Large cod are worth \$2.50 per 100 lbs. at wholesale; \$1.50 to \$1.75 for medium. Smoked herring are in fair demand at 9 to 11c for medium scaled. Fresh fish are plentiful and prices are lower. Large cod are worth \$2.50 per 100 lbs. at wholesale; \$1.50 to \$1.75 for medium. Smoked herring are in fair demand at 9 to 11c for medium scaled.

NO PREFERENCE.

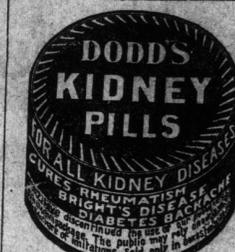

Cholly—I thought perhaps you had a preference for Bobb's Zouze. Mildred—Nonsense! You are just as welcome here as he is. Why, he is the most insufferable bore I know.

MORE OPPORTUNITIES.

"Father, I am not sure whether I shall be a specialist for the ears or the teeth." "Choose the teeth, my son, every one has thirty-two of them and only one pair of ears."

READ THE LITTLE BOOK.

"There's a reason." Read the little book, "The Road to Wellville," in place.

LIVE STOCK DEPARTMENT AT THE DOMINION EXHIBITION.

The Entries Show This Will be a Splendid Feature of the Show—Lodging Bureau Opened for Visitors' Convenience.

The entries for live stock at the Dominion Exhibition in Halifax closed last week and they show that the display in this department of the Big Bear from the Maritime Provinces and from other parts of Canada, will be superb.

Horses were named in the Colt Stakes last week, and this feature of the nine days' racing will be in keeping with the other events of the great meeting, a race meeting in which the fleetest field of horses ever assembled in Eastern Canada will compete for purses aggregating \$9,000.

The committee having the Fisheries Exhibition in charge are leaving nothing undone to ensure a magnificent display—something in keeping with the industry which financially is worth to Nova Scotia fully \$3,000,000 annually. The exhibit will be housed in a magnificent building devoted exclusively to this purpose, and will be one of the great attractions of the Dominion Exhibition.

The problem of providing accommodation for the crowds of visitors expected at the Dominion Exhibition not only from Nova Scotia and the Maritime Provinces, but from Canada generally, is one the Exhibition management are intelligently meeting. An office for head-quarters of the Lodging Bureau, that will have the matter in charge, has been opened at No. 160 Hollis street, where a complete list of boarding houses in which Exhibition visitors may find accommodation for lodging or boarding with a schedule of charges, has been prepared by an official of the bureau. Anyone proposing a visit to the Exhibition should send in name in advance so that places may be reserved. Communications of this kind should be addressed to W. J. Butler, Dominion Exhibition Bureau, 160 Hollis street, Halifax. Send in your name as soon as you are sure you will go, and the sooner the better.

SUNDAY WAS HOT IN OTHER PLACES.

FREDERICTON, Aug. 20.—The thermometer reached 91 in the shade here at three o'clock today making it the warmest day of the summer.

It is the hottest day of the season, the thermometers ranging from 78 degrees at 9 a. m. to 91 degrees at 1 p. m. and falling to 80 degrees at 6 p. m. At 9 p. m. the mercury still registers 78 degrees. These records are from a standard thermometer in the shade under trees. In less secluded and sheltered places the record was as high as 88 degrees, and one house record is given at 110 degrees. These figures have not been paralleled in many years.

REFLECTIONS.

A man is soon forgotten after he is dead, unless you happen to marry his widow.

The best thing about a summer vacation is the way you enjoy being back from it.

Wireless telegraphy is comparatively new, but the kick under the table is as old as marriage.

FOLLOW ALL THE SCHOOLS.

"Are you a follower of the faith cure school?" "Sure, I'm an undertaker."

MORE THAN MONEY

A Minister Talks About Grape-Nuts, "My first stomach trouble began back in 1885," writes a minister in Nebraska, "resulting from hasty eating and eating too much. I found no relief from medicine and grew so bad that all food gave me great distress."

"It was that sore, gnawing, hungry feeling in my stomach that was so distressing and I became a sick man. Grape-Nuts was recommended as a food that could be easily digested."

"Leaving the old diet that had given me so much trouble, I began to eat Grape-Nuts with a little cream and sugar. The change effected in 24 hours was truly remarkable, and in a few weeks I was back to health again."

"My work as a minister calls me away from home a great deal, and recently I drifted back to fat meat and indigestible foods, which put me again on the sick list."

"So I went back to Grape-Nuts and in four days I was put right again. The old dull headaches are gone, stomach comfortable, head clear, and it is a delight to pursue my studies and work."

"Grape-Nuts Food is worth more than money to me and I hope this may induce some sufferer to follow the same course I have."

Name given by Postum Co., Battle Creek, Mich.

"There's a reason." Read the little book, "The Road to Wellville," in place.

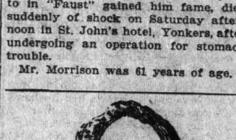

FAMOUS ACTOR DIED SUDDENLY

Lewis Morrison Was Well Known in St. John

Had Just Undergone Operation for Stomach Trouble at Hospitable in Yonkers New York

NEW YORK, Aug. 19.—Lewis Morrison, an actor, whose work as Mephisto in "Faust" gained him fame, died suddenly of shock on Saturday afternoon in St. John's hotel, Yonkers, after undergoing an operation for stomach trouble.

Mr. Morrison was 61 years of age.

LEWIS MORRISON.

He was born of English parentage in Kingston, Jamaica, in 1848. He came to this country at an early age and enlisted in the Union army during the civil war. He rose to the rank of lieutenant and on his honorable discharge at the close of the war, he received the rank of captain for gallant service. During the siege of Vicksburg he swam the messages under fire of the batteries with dispatches for the federal army.

After his discharge from the army, Mr. Morrison entered the theatrical profession as an actor in the old Varieties theatre, New Orleans, making his first appearance with Lawrence Barrett, in 1865. He was afterwards associated with Edwin Booth, Edward Forrest, Thomas O. Salvini, Adelaide Nelson, Charlotte Cushman, Janushech, Rose Coghlan and Agnes Booth. He was also associated for nine years with himself as Mephisto and for nearly twenty years starred in the country and Canada with financial success and popularity.

The elder, however, died this morning and the younger died tonight.

Do not these cases indicate the necessity for better inspection of food in this country? Dr. Hodggets and Dr. Sheard have raised the alarm in regard to hotels and restaurants. Is there delivered at the doors of householders or served in public places in Toronto? Is there any systematic inspection of the pantries and refrigerators of Toronto hotels and restaurants? Is there any guarantee that a customer will not be served with a piece of fish that has become rank poison? Is there any efficient inspection of the meat and vegetables and fruit that are put into cans, of the meat that is made into steaks in restaurants, of the cream or other ingredients of ice cream? The cases to which we refer, taken out of one day's paper, in one city, ought surely to set us thinking.

CASTORIA.

Small sized cyclone near Moncton. Barn blown down and much damage. Done—Purity Campaign Progressing.

MONCTON, Aug. 18.—During the storm Saturday night, which was very light in Moncton, a small sized cyclone seemed to centre around Bonnell's Cove, about eight miles from the city, doing considerable damage to property, place, not even in the locality nearby, was the wind felt, its operations seeming to be confined to a very small extent. A large barn owned by Harvey Trickett, about a hundred feet in length, was torn down and smashed to pieces. Trees were uprooted and a number of fences blown down. The barn was a large structure, about a hundred feet in length, and in it were two horses and a quantity of farm machinery. Although the roof and walls crashed down around them the horses were unharmed, but the farm machinery was damaged to a considerable extent. Near by where this occurred a United Baptist picnic was being held, but nothing more than a heavy rain storm was experienced.

The purity crusade of Provincial Convention will be afforded horsemen to back their opinions with long greens and 2.20, 2.23 and 2.15 class will be events over which there will be the most betting.

There are forty-two entries for the two days' racing and horses yet to arrive are Etta Mae, Tom Abbott and Belfry Chimes, St. John entries; the two St. Stephen horses and Harvey McCoy's string. They will all get here on Monday.

The Women's Baptist Missionary Convention is to be held at Bridgetown, N. S., this week, commencing Tuesday. The following ladies leave on the Prince Rupert today to attend the convention: Mrs. D. Hutchinson, Mrs. J. Wallace, Mrs. Dr. Black, Mrs. W. W. McEwen, Mrs. W. E. McInnes, Mrs. E. M. Sippell, Mrs. H. Everett, Mrs. C. E. Crandall, Mrs. W. H. White, Mrs. Cox, Mrs. A. C. Smith, Mrs. Buerhans, Mrs. H. H. Roach, Miss E. Estabrooks, Miss Wilson, Misses Fullerton.

WANTED

WANTED now, trustworthy men to sell Nursery Stock in New Brunswick. Terms exceptionally good. Established thirty years. Write PELHAM NURSERY CO., Toronto, Ont.

MEN WANTED—Reliable men in every locality throughout Canada to advertise our goods, tack up show-boards on trees, fences, along roads and all conspicuous places; also distributing small advertising matter. Salary \$300 per year, or \$75 per month and expenses \$2 per day. Steady employment to good, reliable men. No experience necessary. Write for particulars. EMPIRE MEDICINE CO., London, Ont.

WANTED—A second or third class female teacher for District No. 12, Parish of Grand Manan, Woodward's Cove, Apply, stating salary for fall term to THE SMALL SECRETARY, Grand Manan, N. B. 27-7-7.

POISON IN FOOD. The following items appeared in Monday's Toronto papers: Poisoned by eating a prepared kidney stew in a city restaurant on Friday, Hugh Macdonald, an electrician, of 10 Dominion avenue, died in St. Michael's Hospital on Saturday. He was 37 years of age and married. The general takes place this afternoon. Macdonald worked till 8 o'clock Friday night in a King street hotel and went out for lunch at a nearby restaurant. After reaching home he was seized with violent fits of vomiting, and Dr. George Smith, who was called, joined later by Dr. McCormick, he was taken to the hospital. He gradually grew worse until his death occurred about 8 o'clock morning.

INGERSOLL, Aug. 11.—H. H. H. eldest son of A. H. Bly, a manufacturer, died suddenly of poisoning from ptomaine poisoning, after eating canned pork and beans. He was soon taken ill. When he was summoned he was in a condition from which he was never revived. The deceased was 31 years of age and unmarried.

TORONTO JUNCTION. Two children, Vera May, aged 4 years, and Allen Carlisle, aged 2 years, daughters of Mr. and Mrs. George Holway of 49 Vane avenue, are dead of ptomaine poisoning as a result of eating ice cream on Friday evening.

The children had been eating apples and berries during the evening and just previous to going to bed had eaten a quantity of ice cream and took immediately ill.

The case was so serious that several prominent doctors were called in and it was hoped that the life of one of the victims of the poisoning would be saved.

Small sized cyclone near Moncton. Barn blown down and much damage. Done—Purity Campaign Progressing.

MONCTON, Aug. 18.—During the storm Saturday night, which was very light in Moncton, a small sized cyclone seemed to centre around Bonnell's Cove, about eight miles from the city, doing considerable damage to property, place, not even in the locality nearby, was the wind felt, its operations seeming to be confined to a very small extent. A large barn owned by Harvey Trickett, about a hundred feet in length, was torn down and smashed to pieces. Trees were uprooted and a number of fences blown down. The barn was a large structure, about a hundred feet in length, and in it were two horses and a quantity of farm machinery. Although the roof and walls crashed down around them the horses were unharmed, but the farm machinery was damaged to a considerable extent. Near by where this occurred a United Baptist picnic was being held, but nothing more than a heavy rain storm was experienced.

The purity crusade of Provincial Convention will be afforded horsemen to back their opinions with long greens and 2.20, 2.23 and 2.15 class will be events over which there will be the most betting.

There are forty-two entries for the two days' racing and horses yet to arrive are Etta Mae, Tom Abbott and Belfry Chimes, St. John entries; the two St. Stephen horses and Harvey McCoy's string. They will all get here on Monday.

REFERENCES MADE TO LATE FREDERICTON MEN.

FREDERICTON, Aug. 19.—At the parish church, where the Rev. A. G. H. Dicker of St. John preached at both services, and at the Methodist church, where the pastor, Rev. Mr. McConnell, officiated, feeling and touching references were made to the sad death which occurred in Fredericton during the past week. The Rev. Sub-dean and Mrs. Street returned last evening from a two weeks' vacation spent in St. John.

G. S. Murphy and wife of Calais, Maine arrived here by automobile today.

Little Stories of Married Life.

Exclusive Provincial Rights Secured by the Sun.

MADONNA OF THE TOYS; A CHRISTMAS STORY.

"I don't know what to give him for Christmas!"

Mrs. Tom looked tragically at the group consulting over their father-in-law in the old-fashioned library. Miss Clara, the unmarried daughter, had left the room.

"We have a picture," announced Mrs. Andrew complacently; "a cathedral interior, beautifully dark and perspective. Little Mary has a cup and saucer, and Francis a whisk broom."

"My boys can give black-bordered silk handkerchiefs," said Mrs. Frank. "Clara suggests that I have that armchair re-covered, the one he never sits in."

"Malcolm had better get him another dozen cases of mineral water," said Mrs. Malcolm. "When it's in the house he drinks it. But that hardly seems enough, father, so generous to us. I shall buy a small refrigerator for his room—it's so useful in sickness."

"What do you think of rubber water-bags in assorted sizes," suggested Mrs. Walter eagerly. "If he had a pair in two or three places at once they'd be very handy."

"Ah!" Mrs. Frank lowered her voice. "I dread coming here to see Mrs. Walter every day. If he had a pair in two or three places at once they'd be very handy."

"I must," answered a girl with reddish hair and pretty, deep-lashed eyes, who was Mrs. Arthur. She had risen, and was throwing a white boa around her neck. Her white teeth flashed suddenly in a smile: "I never was of so much importance before. Good-by, everybody!"

She ran down the hall, looking in at an open doorway to call an audacious "Last tag!" to a tall old man who sat there reading and receiving his usual swift response before she went swiftly homeward.

Violent's appointment with the baby was very important indeed. As she sat afterwards in the darkened nursery with the infant's little downy head against her warm breast, her thoughts went back to grandfather. Somehow his Christmas prospects depressed her—the dark picture and the whisk broom, the re-covered chair, the refrigerator and the rubber bags seemed so unlightsome; there was nothing from which the most willing mind could conjure festivity. The little round white tent, the pink and blue-and-white beds like the baby's at home, when Violent was a little child, Christmas, with music-boxes played, and animals squeaked, and rattling, whirling mechanical toys ran riot.

She stopped at last by a counter laden with glittering ornaments. Opposite were shelves filled with stationary engines varied with an occasional boat or locomotive. There seemed to be no clerk there, but a small boy, seven or eight years of age, with a white sailor cap and a blue and white striped shirt, was making a halo around his short golden curls, was walking backward and forward, regarding the display with rapt, angelic eyes and inclining his head to touch a cylinder or an electric battery. Looking up suddenly he caught Violent's eye; they both smiled, and she came over to him. So might her own little boy look some day.

"Do you like engines?"

"Yes," said the boy with a deep, in-drawn breath. He forestalled criticism. "I'm not too little to have one; my papa says so! He'll run it for me. He's down-stairs now." He pointed to the shelf. "Do you see this one? That's where you pour the alcohol in with the steam gauge—and here's the safety-valve, she's a hummer! And this electric—that's a hummer, too!"

"Oh," said Violent. She sought for words to dole out accomplishment. "What do they do?"

"They go!" answered the little boy. "And they set other things going, too. If you want 'em." He indicated an array near by: fountains, a man sawing wood, a printing press, and the like. "You 'tach 'em by a thread. See that one up there?" He pointed to a large cylinder of grey burnished steel. His tone fell to one of reverence. "It pumps water!"

"Goodness!" exclaimed Violent with delightful appreciation. "I'm so glad to talk to you because I have a little boy myself, but he isn't as big as you—he's only six weeks old."

"Geel!" said the little boy with his angelic smile. "I never knew any one as little as that." He stopped disapprovingly. "Why, that's only a baby!"

"Ah! that's what people call him," said Violent, sagely; "but that he can't even talk. Of course he doesn't really say anything, but we have conversations together—I always know what he means."

"The little boy nodded. "My mamma and I talk that way too," he said simply.

"Then there's another one—I wish you'd tell me what to buy for him—he's about seven or eight years old."

"But that's an old man!" cried the boy in wonder.

Violent shook her head. "Oh, no! Of course, that's what people call him," she explained, again, tolerantly; "but we know better."

The boy looked at her dubiously. "Is it 'Once Upon a Time,' or is it 'A True Story?'" he asked.

"It's both," said Violent.

Their eyes met this time in the joyousness of a new and strange kind of little boy. "I like you, I like you," cried the little boy, and tucked his hand into hers, jumping along with both feet in short, flying leaps. "Come here! I'll show you what to buy for him, I'll show you that! Oh, there's my papa beckoning to me!"

He dropped her hand and disappeared in the crowd by the stairs.

"Well," said Violent to herself, staring in front of her. "Well—why not?"

"I couldn't get here a minute sooner—I had to tie down after I got them all out of the house."

Mrs. Tom, arriving late at the paternal mansion on Christmas afternoon, was taking off her wraps in the hall as she looked in at the circle of sisters sitting around the fire in the drawing-room, warm with the smell of cedar, and bedecked with scarlet holly. Through the open doorway beyond the mahogany table, set with the red and gold lights and gold and silver promise of good things to come.

"How cozy you all look in here—where are the others?" asked Mrs. Tom.

Miss Clara spread out her hands with a gesture of dismay, belied by her beaming face.

"Well, you'll never guess—every man and boy is up-stairs with father, trying to run that crazy engine Violent sent him; it's one of those dreadful electrical things. If I'd had the remotest idea of what was in the box—and she never even told Arthur! You can't get one of them out of that room, except to—listen to that!"

A boy's footsteps came hurrying down the back stairs, and a moment later an excited voice called:

"Will it work?"

"Oh, I see what's the matter. Will it work now?"

"No."

"Wait a moment till I come up."

"They've been doing that for two or three hours," said Mrs. Malcolm placidly. "They have miles of wire trying to attach something—don't ask me what, for I haven't the faintest idea. Of course it won't work; engines never do; if they did all the occupation would be gone. My husband is just as bad as the rest. They all have engines at home, but they say Violent's beats the lot. Just hear that child laugh; she's been up there all the afternoon. We've been having the most beautiful real-time down here by ourselves. I haven't seen father look so happy in months, and in all that clatter! Did you hear that Kate is coming back?"

"Will you listen to that!" said Mrs. Walter.

The inevitable footsteps were clattering again maddly down-stairs, with the accompanying voice:

"No."

"Oh, I guess I see what's the matter with it this time. Will it work now?"

"No."

"Sit till I come up!"

WESTMINSTER THE FOCUS OF ENGLISH POLITICAL LIFE.

Discussion of the Increase of Malady
Known as Appendicitis—An Inter-
esting Letter from London.

By Lady Henry Somerset
(Special to the Sun)

LONDON, Aug. 17.—Westminster Hall has for centuries been the focus of English political life. It is the place where the past lives and speaks, the great hall of William Rufus, the hall which saw the acclamations at the inaugurations of thirty kings, the hall which has witnessed the just sentence of Bacon and the just abolition of Somers, the hall where the eloquence of Stratford had for a moment availed and melted the victorious party into flames, with just resentment, the hall where Charles had confronted the High Court of Justice with the placid courage which has half redeemed his fame.

The other day the sun shone through the deep windows and lit the vaulted roof, eloquent of the light which such an assembly must inevitably bring to the new century. A peace conference was being held, and all countries were assembled there—distinguished men, representatives of great nations.

The two who probably attracted most attention were Apponyi, the Hungarian Minister for Education, and Bryan, Count Apponyi spoke perfect English, and delivered a speech that few will forget, for it was a mixture of real eloquence and charm.

"Patriotism is love," he said. "Why should we be allied with England? Patriotism is self-illumination—why should it be allied with the illumination of others? Patriotism is ambition—why should it be the ambition of the prize-fighter? Why not the victory of the nobler part of man? Patriotism is religion."

Side by side with him stood Mr. Bryan. "Unless some nation takes the lead," he said, "no nation will act," and with a touch of freshness which could only come from an American, and as fresh water to the parched earth, he said: "Men speak of a glorious past. I would rather be living to-day than in any age of the past. It is a story told of the past, but the world is as it was in the old days that influenced the valley in which a man lived."

The note of hope certainly came from America.

PRESENTATION TO REV. FR. CORMIER

MONCTON, N. B., Aug. 17.—In St. Bernard's church tonight the curate, Rev. Fr. Cormier, was presented with a purse of over two hundred dollars in gold besides two addresses, one in French, the other in English, by the congregation and a picture from the altar boys.

Rev. Fr. Cormier leaves tomorrow for Upper Aboujagou where he has been stationed to take the place of the late Rev. P. X. Cormier. Large attendance at tonight's ceremony, the young curate being held in high regard by the congregation. The address in English was read by Fred Gillen, the one in French by A. Leblond and the address from the altar boys by Frank Gillen. To all Father Cormier made suitable responses.

ST. ANDREWS PEOPLE HOME

ST. ANDREWS, Aug. 17.—The following St. Andrews folk from abroad are now visiting their old home and friends: F. O'Neill, M. D., New York, visiting his parents, Charles and Mrs. O'Neill; Rev. Father Frank O'Neill, Elizabeth, New Jersey, guest of his brother Henry O'Neill and Mrs. O'Neill; Robert Clarke, Andover, N. B., C. P. R. station agent; visiting his parents, Capt. William and Mrs. Clarke; Harry Key, C. P. R. freight agent, Houlton, Me., guest of his sister and brother-in-law, Leo, and Mrs. Ross; Mrs. and Miss Jessie Whitlock, St. Stephen, lodging at Mrs. J. Russell Bradford's; Robert Stuart, Houlton, Me., visiting his brother, Mr. Stuart; Mrs. Stuart; Rev. J. Rushton, formerly rector of Christ's church, St. Stephen, lodging at Miss Barbara Morrison's; Thomas Douglis, Rumford Falls, Me., is visiting his brother, Goodrich Douglis.

Miss Susan Waycott, recently returned from visiting friends in California, arrived today with her niece, Miss Helen Coulthard, Fredericton. They are guests of Nathan Trendwell.

Mr. Victor Roy, who has resided in St. Andrews during the building of Governor MacKay's palatial summer residence, left by C. P. R. yesterday for his home at St. Joseph, Lachine, Que.

First Girl—Don't you think these bathing dresses make girls look shorter?

ference—Woodstock News

PARROTSBORO NOTES

PARROTSBORO, N. S., Aug. 17.—Councillor H. T. Smith started for Newfoundland on Tuesday, on a business trip.

Mrs. Clarence Johnson, who has been seriously ill of typhoid fever, is beginning to recover.

Rev. W. J. Cox, of Washington, D. C., formerly curate of this parish, spent Sunday in town, and visited Parrotsboro on Monday. Mr. Cox went to South Africa as one of the chaplains of the Canadian contingent in the Boer war.

Some of the members of the town council are making strenuous efforts to effect a settlement of the middle in municipal affairs. A resolution was recently passed to allow ex-Town Clerk Day ten days to make good the deficiency in his accounts, and failing in that, to collect the amount due the town by process of law. At the expiration of the time allotted Mr. Day had left on a trip to the Northwest without making any settlement. At the regular council meeting held this week a motion was made to take the advice of a lawyer to the shortage and act according to it. The motion was lost, but another motion, empowering the town clerk to take advice as to the best mode of procedure and to report at the next meet of the council, was carried.

The steamer Prince Albert brought over about one hundred excursionists from Wolfville and Kingsport yesterday morning, and took them back in the evening.

ALBERT COUNTY NOTES

HOPEWELL HILLS, Aug. 17.—McClain Bros. team has been finishing up for C. C. West and will be moved to the Russell Brook to saw cut for Elias Benjamin and others.

Since Monday there has been a marked change in the weather so far as temperature is concerned, there being a decided feeling of fall in the air. This is the more noticeable on account of the unusual continued heat that has prevailed for the past two or three weeks, when the thermometer reached 80 and upwards nearly every day, which is very warm for the Shepody country, where the heat is usually tempered by the breezes from the bay. Rain is much needed.

Mrs. Amelia Colpitts, who is expecting to go west this fall, has sold her fine residence here to Howard Stevens of Memel.

FISHERMEN WHO WENT ADRIFT PICKED UP

LIVERPOOL, N. S., Aug. 17.—The bark White Wings, Captain Solomon McLeod, 14 days from New York, arrived this afternoon with Michael Reddy and Harry West of the Plymouth, Massachusetts, fishing schooner aboard. They were picked up by the St. John bark Nettle Troop and transferred to the bark White Wings.

CHATHAM NEWS.

CHATHAM, N. B., Aug. 17.—A small child, three months old, was discovered yesterday morning on the steps of a house on Mitchell street. The woman residing there was awakened early by hearing the cries of a child down stairs. On descending she found a pretty female child about three months old, with light hair and blue eyes, carefully wrapped up in a blue coat. Alongside the child was a parcel containing its clothing wrapped in a newspaper. The John Sun, bearing date August, 1899, was found and addressed to Andrew Arsenault. Shortly afterwards three men were seen crossing the river to Nelson, and it is surmised that the child was brought down by the old Canadian boatman and landed at Newcastle in a boat. A note was left the same night at the woman's door, saying "Take good care of the babe. Its mother will arrive in a few weeks."

ST. ANDREWS PEOPLE HOME

ST. ANDREWS, Aug. 17.—The following St. Andrews folk from abroad are now visiting their old home and friends: F. O'Neill, M. D., New York, visiting his parents, Charles and Mrs. O'Neill; Rev. Father Frank O'Neill, Elizabeth, New Jersey, guest of his brother Henry O'Neill and Mrs. O'Neill; Robert Clarke, Andover, N. B., C. P. R. station agent; visiting his parents, Capt. William and Mrs. Clarke; Harry Key, C. P. R. freight agent, Houlton, Me., guest of his sister and brother-in-law, Leo, and Mrs. Ross; Mrs. and Miss Jessie Whitlock, St. Stephen, lodging at Mrs. J. Russell Bradford's; Robert Stuart, Houlton, Me., visiting his brother, Mr. Stuart; Mrs. Stuart; Rev. J. Rushton, formerly rector of Christ's church, St. Stephen, lodging at Miss Barbara Morrison's; Thomas Douglis, Rumford Falls, Me., is visiting his brother, Goodrich Douglis.

Miss Susan Waycott, recently returned from visiting friends in California, arrived today with her niece, Miss Helen Coulthard, Fredericton. They are guests of Nathan Trendwell.

Mr. Victor Roy, who has resided in St. Andrews during the building of Governor MacKay's palatial summer residence, left by C. P. R. yesterday for his home at St. Joseph, Lachine, Que.

First Girl—Don't you think these bathing dresses make girls look shorter?

Second Girl—I don't know, but they certainly make men look longer.—Ally Clorpey.

MOVEMENTS OF TEACHERS

HARCOURT, N. B., Aug. 17.—R. E. Elmer Black and Miss Lena E. Livingston of Trout Brook have enrolled in the superior school. The Martineau department opened on the 14th. Miss M. Alotha Watson, again in charge. H. H. Stuart resigned the advanced department on the 14th, and Miss Miriam A. Buckley will reopen the primary on the 20th. Miss Grace K. Bailey is teaching in Granville. Miss Margaret J. Pearson, in Emersons. A. E. Pearson, Bass River; Miss Nellie Rogers, Clarkville; Miss M. Elizabeth MacDermott, at Pine Ridge; Miss H. Maudie, at East Galloway; and Miss Margaret J. Pearson, in Emersons. Several districts wanting second grade female teachers cannot get them.

FUNERALS OF FREDERICTON MEN LARGELY ATTENDED.

FREDERICTON, N. B., Aug. 17.—The funerals of the late L. A. W. Tibbitts and Albert W. Edgcombe this afternoon were among the largest seen here in years. The former took place at two o'clock from the residence of Mrs. W. Tibbitts, corner of the parish church where Rev. Mr. Forster conducted the beautiful service of the Church of England. Interment was made at the Rural cemetery. The funerals of the late L. A. W. Tibbitts, H. G. Chestnut, P. P. Tinker, W. F. H. Penney, H. G. Penney, W. F. Penney, six members of the Bicycle and Boating Club acted as pall-bearers. The steamer Prince Albert brought over about one hundred excursionists from Wolfville and Kingsport yesterday morning, and took them back in the evening.

LATE NEWS FROM SANTIAGO, CHILE.

Latest news brought in here from Valparaiso contradicts the first exaggerated statement there, but shows that catastrophe was extremely severe. One of the latest reports from the city is that the first shock of the earthquake was followed by a second, which crowded the streets and caused crying and lamenting. They threw down a number of the buildings, and the second shock was the most severe and resulted in the most of the buildings in the quarter.

Immediately after the earthquake the city was in darkness. This, however, was not the case for long, for the electric lines were not hit up by the first shock. A wireless telegraph station was also struck, but people were in an extreme terror, many believing that the world had come to an end.

The buildings of the Teatro, the Bellas Artes, the Club de Fomento, and the Club de la Esfera, as a large part of the Victoria street, were destroyed. The masses of material thrown into the streets made it almost impossible to pass. The known number of dead exceeded one hundred, but the estimates among the hills surrounding Valparaiso were very high. More than 2000 were killed.

SCAFFOLD FELL; WORKMAN KILLED

OTTAWA, Ont., Aug. 17.—A report of the inland revenue on honey collected all over Canada and analysed showed forty-four pure out of fifty-four examined.

A scaffold on the royal mint, nearing completion here, broke this morning, precipitating James Allredie, a bricklayer, and Enoch Peterson, a laborer, to the ground, a distance of 26 feet. Allredie was hurt about the back, but will recover. Peterson's skull was fractured and he died this afternoon.

Two boys attempted to deliver a load of furniture for a Hull dealer named Chermier this afternoon. They set fire to a mattress with a cigarette. The load and wagon were consumed, but the boys managed to save the horse.

A furious shower does not soak in so well as a steady rain. A double column advertisement once a year is not so good as a half inch fifty-two times a year.—News-Paperdom.

WESTMINSTER THE FOCUS OF ENGLISH POLITICAL LIFE.

Discussion of the Increase of Malady
Known as Appendicitis—An Inter-
esting Letter from London.

By Lady Henry Somerset
(Special to the Sun)

LONDON, Aug. 17.—Westminster Hall has for centuries been the focus of English political life. It is the place where the past lives and speaks, the great hall of William Rufus, the hall which saw the acclamations at the inaugurations of thirty kings, the hall which has witnessed the just sentence of Bacon and the just abolition of Somers, the hall where the eloquence of Stratford had for a moment availed and melted the victorious party into flames, with just resentment, the hall where Charles had confronted the High Court of Justice with the placid courage which has half redeemed his fame.

The other day the sun shone through the deep windows and lit the vaulted roof, eloquent of the light which such an assembly must inevitably bring to the new century. A peace conference was being held, and all countries were assembled there—distinguished men, representatives of great nations.

FUNERALS OF FREDERICTON MEN LARGELY ATTENDED.

FREDERICTON, N. B., Aug. 17.—The funerals of the late L. A. W. Tibbitts and Albert W. Edgcombe this afternoon were among the largest seen here in years. The former took place at two o'clock from the residence of Mrs. W. Tibbitts, corner of the parish church where Rev. Mr. Forster conducted the beautiful service of the Church of England. Interment was made at the Rural cemetery. The funerals of the late L. A. W. Tibbitts, H. G. Chestnut, P. P. Tinker, W. F. H. Penney, H. G. Penney, W. F. Penney, six members of the Bicycle and Boating Club acted as pall-bearers. The steamer Prince Albert brought over about one hundred excursionists from Wolfville and Kingsport yesterday morning, and took them back in the evening.

LATE NEWS FROM SANTIAGO, CHILE.

Latest news brought in here from Valparaiso contradicts the first exaggerated statement there, but shows that catastrophe was extremely severe. One of the latest reports from the city is that the first shock of the earthquake was followed by a second, which crowded the streets and caused crying and lamenting. They threw down a number of the buildings, and the second shock was the most severe and resulted in the most of the buildings in the quarter.

Immediately after the earthquake the city was in darkness. This, however, was not the case for long, for the electric lines were not hit up by the first shock. A wireless telegraph station was also struck, but people were in an extreme terror, many believing that the world had come to an end.

The buildings of the Teatro, the Bellas Artes, the Club de Fomento, and the Club de la Esfera, as a large part of the Victoria street, were destroyed. The masses of material thrown into the streets made it almost impossible to pass. The known number of dead exceeded one hundred, but the estimates among the hills surrounding Valparaiso were very high. More than 2000 were killed.

PROPERTY LOST

Suffering of Home
been Des
Towns and
Disast

There was confusion to the magnitude of Valparaiso caused by shocks which began at 10, and continued a few days throughout the night. Dispatches from the Associated Press state that a magnitude of 2.000, a party loss may be 500, which is as great as San Francisco, which devastated that

A refugee who has also places the known and other means of the first reports of deaths were exaggerated to the state department place the fatalities at 500, which is as great as San Francisco, which devastated that

FOREST FIRES THREATEN TO DO SERIOUS DAMAGE.

Whole of the Northern Part of the Province in Veil of Smoke—Heat is Terrible and Woods are Dry as Tinder.

CHATHAM, N. B., Aug. 19.—An immense amount of damage has already been done by forest fires along the line of the I. C. R. from Bathurst to Roserville, and unless rain comes soon, several settlements are in imminent danger of being wiped out. Fires have swept from Roserville to Barnaby River for a distance of eight or nine miles and a terrible fire is now raging within a short distance of both villages. One hundred and fifty to two hundred men have been fighting the flames for several days, but on Saturday the heat was so intense that the men were forced to abandon the first line of trenches they were digging in an effort to control the flames and were compelled to start on a new line closer to the settlements.

The whole country for miles around is a mass of flames, and a thick pall of smoke hangs over the Miramichi valley, shutting out the sky and turning the sun into a dull colored disc. As yet the fire had been mostly in the government lands, but now some of the best timber lands of this section are threatened and the loss to private owners may be a heavy one. Yesterday the J. B. Snowball Company sent out a gang of men to look after their lands near Barnaby River, and to aid the settlers in fighting the flames.

On Wednesday a fire was discovered by Wm. Knight of Black River in the rear of his farm lands, but before the men that part could gather it had spread beyond control, and this with another supposed to have started on a spot called the Dry Hill, has swept through the lands lying between Napan and Black River, and the latter place was only saved by a shift in the wind to the eastward. This forced the flames towards Bay du Vin, and re-

ports from down river points state that the flames are dangerously near the settlements there and that a stretch of about seven or eight miles of country has been devastated. There are thirty or more men fighting the fire between Napan and Black River—and the McKnight road, which is the thoroughfare to Chatham, has been entirely cut off by the flames, which are sweeping along on both sides of the highway.

Arch Cameron, a milk dealer of Black River, stated on Saturday that the flames were at the fences at the back of his farm, and he had to destroy these to keep the flames from eating their way to his barn.

Gillie's woods are reported destroyed, and the timber lands belonging to John MacRae and James Cameron were closely threatened at a late hour Saturday.

At the present time the wind is from the east, and though light, the flames are still being driven fast in an easterly and southerly direction. Several more fires have been reported since the large ones started, and it is thought that they are caused by blueberry pickers and others carelessly leaving burning embers behind them. The need of rain is very urgent, and unless this comes soon a severe loss of private property and even of life is inevitable.

FREDERICTON, Aug. 19.—Forest fires are raging to a considerable extent in different sections of the country, and this morning the city was well enveloped in smoke.

HAMPTON, Aug. 20.—The air all day has been slightly hazy from forest fires, which, though not near, must be fiercely raging to so affect the atmospheric conditions. Indeed the G. & G. Flawelling Co. have large gangs of men fighting forest fires on the lumber reserves, notably at Hanford Brook and vicinity.

FOUND CARBOLIC IN HER BEDROOM

Bottle Purchased by Mrs. Stillwell Was Partly Emptied.

Coroner Berryman Investigating a Sudden Death Which Occurred in North End on Saturday Night.

Mrs. May Stillwell, employed as a domestic at the Hotel Ferris, Main street, died very suddenly on Saturday evening, after returning from a walk. The cause of death was given as epileptic fits, but there are rumors of suicide, and although a permit for burial was issued by the attending physician, an inquiry into the circumstances of the woman's death was made by coroner D. E. Berryman this morning.

The deceased, in company with her mother, Mrs. Drusilla Ferris, who also works at the same place, came over to the city quite early in the evening and returned about 10 o'clock. Mrs. Ferris a little distance from the hotel stopped and talked with some friends for a short time, while her daughter proceeded to the hotel. According to Mrs. Ferris the young woman went out of the hotel again and returned in a few minutes and retired. Soon after her mother came in and looked into her daughter's bedroom. She found her in a fit and immediately aroused the household. Dr. Case was summoned, but the unfortunate girl expired about the time of his arrival.

The remains were taken to Undertaken Brennan's rooms and are to be taken to Young's Cove, Queens County, for interment.

When Coroner Berryman made enquiries this morning he found a bottle partly filled with carbolic acid in the room occupied by the deceased, and also learned that just before the woman went to the hotel she purchased the poison at Hoban's drug store. There were no signs of acid about her person.

The deceased was a native of Queens County and was only 19 years of age. She came to the city two or three years ago and engaged at house work. About three years ago she was married to George Stillwell, also of Queens County, but they separated after living together less than a week and have lived apart ever since.

WILL BE LOTS OF LIGHTS ON PIKE

This Will be an Attractive Feature of Exhibition—An Indian Village Being Arranged

(From Tuesday's Daily Sun.) Yesterday President A. O. Skinner and Manager C. J. Milligan of the Exhibition Association, with F. G. Spencer, who has charge of the amusement, Meyer Cohen, manager of the moving picture show and H. A. Brown, chief electrician of the St. John Railway Co., visited the exhibition grounds for the purpose of arranging plans for lighting.

Over five hundred lights will be on the Pike. From the exhibition hall along the Pike are three large arches, with "The Pike" in three foot letters over the centre arch. The entire Pike will be lined with incandescent lamps. The sides and all the arch shaped entrances will be studded with lights. The building of the Pike has been finished by contractor Samuel Drury and the painters will start work tomorrow. The Pike will be painted a light green.

The amusement hall front will be lighted with arcs. The two front parts of the Pike are to be occupied by Miles Brox, moving pictures, San Francisco disaster and the Indian village. This last is a new feature.

INQUEST INTO CAUSE OF LITTLE LAD'S DEATH

MONTREAL, Aug. 20.—The inquest on the body of little Sanford Fleming who was killed by an automobile on the Lachine Road last Saturday night was held today and resulted in the jury returning a verdict of culpable homicide. The automobile in question was owned by J. B. Allan, one of the well known shipping families, and was occupied by that gentleman and F. E. Meredith, a leading lawyer. The father of the child expressed himself satisfied with the verdict of the jury.

The Daily Grind Ruins the Nerves

In factories and workshops, offices and stores—yes, and in the home, too—people are being worn out by the monotonous wear and tear of unceasing toil.

In the hot summer time especially the burden is heavy to bear, and without the opportunity for rest or recreation many a victim falls by the way, overcome by nervous exhaustion, heart failure or physical decline.

The world's work must be done. The toiler must toil on. But there is a method of replacing wasted nerve cells and building up the worn-out system, and that is by using Dr. Chase's Nerve Food after each day's work.

It gives vigor and tone to the system and prevents exhaustion and prostration. It is the friend of the worker, for it makes him strong and well and fills him with new hope, new confidence and new vigor and energy.

Dr. Chase's Nerve Food, 50 cents a box, 6 boxes for \$2.50, at all dealers, or Edmondson, Bates & Co., Toronto.

BURGLAR LEFT EXPLANATORY NOTE

(Special to the Sun.) PETTICOAT, Aug. 20.—Brown & Sons' store was broken into on the 17th last, during the night. Over four dollars found in the till was taken by the burglar. A note was left saying: "You frustrated me so I have robbed you." (Signed) A. Trump.

Suspicion rests upon a lad of Petticoat.
