TWENTY THOUSAND HEAR BRYAN'S NEW PLATFORM

Democratic Leader Declares for Government Ownership of All Railways

Would Have Federal Authorities Control Trunk Lines and State the Branch Roads--Scores the Trusts as the Greatest Evil--Favors a Universal Eight-Hour Day--Would Settle International Disputes by Arbitration--Madison Square Garden Packed with Cheering Democrats Thursday Night to Welcome Their Leader--Hearst Gets Rousing Reception, Too.

New York, Aug. 30.—The home coming of William J. Bryan was made complete tonight when he was greeted in Madison Square Garden by a throng numbering more than 20,000. It was such a welcome as seldom has been accorded a private citizen. Mr. Bryan's eyes filled with tears as he acknowledged the cheers. For eight minutes he strode nervously from side to side of the narrow platform. Only once again during the entire evening was there anything approaching such a demonstration, this was when the speaker told his hearers that he had become converted to the cause of government ownership of railroads. "I favor the control of only the trunk

lines by the national government," said Mr. Bryan, "and the ownership of other railroads by the state government." In an instant thousands of voices were raised and faces were turned toward the side of the building opposite the speaker's stand where William Randolph Hearst sat. "Three cheers for Hearst," was the cry which swelled until the speaker's voice was drowned for a moment. Tonight's reception, which was given under the auspices of the Commercial Travelers' Anti-Trust League, proved to be the sounding of the Democratic campaign call. Mr. Bryan's speech was a keen outline of his ideas as to what the Democratic policy should be. The election of United States senators by the people; regulation of the trusts by the government; universal eight-hour day; arbitration of all international disputes by settlement rather than by resort to force, and revision of the tariff—were some of his points. Mr. Bryan declared, however, that he was merely expressing his opinion, and not attempting to forecast the policy of his party. "Trusts the Great Issue." Mr. Bryan declared that the trusts were the great issue of the day. He favored the closest supervision of the organization of corporations and said that no man should be a director of two or more corporations which deal with each other or engage in the same line of business. He called for the enforcement of the criminal clause of the Sherman anti-trust law and the placing of trust controlled articles on the free list. He went into the question of the government ownership of the railroads at great length and declared that what he had seen in other countries had served to strengthen his convictions on the subject. He saw danger in centralization, however, and for this reason advocated the Federal ownership of the trunk lines and state ownership of the local lines. The speaker scored the Republican congress for not passing the legislation urged by President Roosevelt giving publicity to campaign contributions. He gave the president some praise, however, for what he termed his adoption of Democratic ideas. Mr. Bryan said he hoped the income tax might some day be imposed through an amendment to the constitution. He referred briefly to the recent insurance investigation and said smilingly that he believed the disclosures made would result in difficulty in securing large campaign contributions in the future. On the financial question, Mr. Bryan said the unexpected and unprecedented

PRESIDENT OF WRECKED PHILADELPHIA BANK COMMITTED SUICIDE

Hipple Blew His Brains Out and Coroner Kept it Quiet to Avert Panic, He Says.

Philadelphia, Aug. 30.—The suspicion that Frank K. Hipple, president of the embarrassed Real Estate Trust Company, was found dead at his home in Bryn Mawr, Pennsylvania, last Friday, committed suicide, was confirmed today by Coroner Joseph N. King. Dr. Albert H. Read, the coroner's physician, who was standing near, added: "You can say that Mr. Hipple blew out his brains." Since the death of Mr. Hipple, the family physician and the coroner maintained that he died of cerebral hemorrhage while taking a bath. The coroner today said: "When I went to Hipple's home this morning to investigate the sudden death of Mr. Hipple, I discovered he had committed suicide. In order to suppress the fact for a few days in order to prevent a run on the trust company, I thought if there was anything wrong in Mr. Hipple's transactions in legal affairs, they had a chance to make up whatever deficits there were." He added that his action was voluntary, and had been approved by several men prominent in legal affairs. The coroner stated that Hipple had placed the muzzle of a thirty-eight-caliber revolver in his mouth and shot himself. The shooting took place in the bath room early in the morning. Mrs. Hipple was not aware that her husband had killed himself until the arrival of the family physician.

Rebel and Government Forces Are Now Almost in Touch Insurgents Reported Routed in a Fight Thursday With Many Casualties—Machine Guns Going to the Front.

Havana, Aug. 30.—The rattle of machine guns became a familiar sound today on the sea front of Havana, where Major Clegg's corps were trying their weapons and drilling for their new duties. Part of the corps is going to the front tomorrow, but its destination has not been divulged. The only fight of consequence reported today was a three-hour conflict between 150 rural guards and volunteers and an insurgent band estimated to number 400 rebels, twenty miles east of Havana. An American who witnessed the fighting says the firing was continuous and exciting and that there was no volleying. After two hours of this fighting the combatants came closer together and finally the rural guards and volunteers made a fine charge up a hill, routing the insurgents, who scattered and disappeared. At least twelve insurgents were killed and many more were wounded. An official report of the fight which was given out tonight says the combined forces of Captain Collazo's rural guards and General Altiedo Rego's volunteers, 275 in all, met and defeated a force of 400 rebels, fought two hours and then charged and completely dispersed the enemy, who left fifteen dead and three prisoners. Twenty horses and some arms and accoutrements were captured. Captain Collazo was wounded in the arm, but not seriously hurt. Reports of the government in compliance with the government's offer of amnesty are more numerous tonight than heretofore, most of them coming from towns near Havana, to which quite a large number of insurgents have quietly returned.

On the other hand the insurance is receiving some recruits. The only fight of consequence reported today was a three-hour conflict between 150 rural guards and volunteers and an insurgent band estimated to number 400 rebels, twenty miles east of Havana.

Justice Lemieux, of Sherbrooke, was appointed to succeed at Quebec Judge Langelier, elevated to a chief justiceship. Mr. Demers, M. P. for St. John's and the Sinclair trial. The two negro defendants, William E. Washington and Israel Reed, were also found guilty and were fined \$50 each, the court finding their guilt less serious than that of Clark. After the Sinclair case, which came to a sudden halt last Friday morning when Juror Green reported to Judge Harris the fact that he had been approached with an attempt to bribe him. In announcing his findings, Judge Harris said that he felt no doubt whatever that the chief offender in the matter was Clark. Although Clark had been a witness against Sinclair, he did not believe that he was a voluntary one, and he thought that Clark, by his efforts in the direction of the jury, had sought to bring about the damage done by his testimony against his friend. He should accordingly deal with Clark with severity.

When the Liver is out of Order

colic, cascara, salts, strong liver pills and purging mineral waters won't do any permanent good.

When a person is bilious, the liver is not giving up enough bile to move the bowels regularly—and some of the bile is being absorbed by the blood. In other words, the liver is in a weakened, unhealthy condition.

Now, purgatives don't act on the liver at all. They merely irritate the bowels, and afford temporary relief. But FRUIT-A-TIVES are the one true LIVER TONIC. They act directly on the liver—strengthen and invigorate this vital organ—and put it in a normal, healthy condition.

FRUIT-A-TIVES stimulate the glands of the skin—and regulate the kidneys. The kidneys are normally healthy, there can be no biliousness, no constipation, no kidney trouble, no impure blood, no liver disease.

FRUIT-A-TIVES are fruit juices with tonic adjuvants—and are free from alcohol and dangerous drugs. They are the only medicine known to science as so effective in curing Biliousness as these fruit juices.

ATTENDANCE GOOD

The reports of the Grand Chancellor, G. K. of R. S., G. M. of E. and Grand Trustees were, motion, referred to the committee on distribution.

The committee on returns and credentials submitted a report and on motion it was ordered printed on the minutes.

The head of the order was received with supreme honors and then addressed the assembled knights. He delivered a very eloquent speech, dealing with the fraternal relations between the members of grand lodge.

Report of Grand Chancellor.

The Grand Chancellor, H. L. Garter, of this city, in making his report, extended greetings to the various standing committees and their work.

As nearly as he could tell from information received, all the lodges in the domain are in a prosperous condition.

References were made to the celebration of the forty-third anniversary of the founding of the order on February 19th, which was very generally observed throughout the domain.

On April 24th each subordinate lodge was asked to contribute to the relief of the afflicted brethren in the State of California, who had suffered from the earthquake and fire. The sum of \$83.00 was sent to their aid and the lodges in this domain contributed their just share.

A number of lodges were officially visited by the grand chancellor, but he expressed regret that through inability to leave the city he could not visit all.

Dispositions were granted as follows: To Kennebec Lodge, No. 42, of Maine, to confer the rank of Knight on a resident of New Brunswick.

To Union Lodge, No. 2, to change night of meeting from May 23 to 22nd.

To Frontier Lodge, No. 4, to confer the rank of Knight on a named person.

Feeling reference was made to the loss sustained by the order in the death of Past Supreme Representative James D. Fowler, of Fredericton Lodge, No. 6; Past Chancellor Wm. E. Dunmer and Past Chancellor Samuel Blaine of New Brunswick Lodge No. 1.

In concluding he referred again to the fact that he had not been able to attend to the duties of the office as they should be looked after, and expressed his indebtedness to Grand Keeper of Records and Seal, James Moulson, for the valuable assistance he had given him.

He expressed thanks for the great honor done him and said he would always stand ready to do all in his power to advance the cause of Pythianism.

Grand Keeper of Records and Seal.

The Grand Keeper of Records and Seal, James Moulson, reported that sixteen lodges had made an aggregate gain of 157 members, thirteen lodges made an aggregate loss of 54, thirteen lodges expatriated 106 members for non-payment of dues, fifteen members withdrew, and eleven died.

The Uniform Rank.

At 1.30 o'clock the annual meeting of the First Regt. of the Maritime Provinces was held. Colonel F. Parker Gmitter, St. Stephen, presided. The evening was also present Major J. P. Wry, of St. Stephen, Adjutant Alfred Dodge, Quartermaster F. A. Godcoe, Capt. Mackenzie, of New Glasgow, and officers of the various companies. Reports were read from the various officers and routine business transacted.

The Knights of Pythias—visitors and home men—had a royal good time Tuesday night. In the afternoon they enjoyed a sail on the river, and in the evening a banquet in the York Theatre assembly rooms was tendered the supreme chancellor and visiting knights by New Brunswick Lodge No. 1 and Union No. 2, of this city.

A little after 2 o'clock the uniformed knights of Victoria Co. No. 1 and Cymru Co. No. 2, headed by the Artillery Battalion, marched to the river, and there it had been the intention to have the regiment inspected by the commander-in-chief, but owing to a misunderstanding regarding the meeting place, the visiting St. John's knights started on the march to the boat, so it was decided, owing to the lateness of the hour, to dispense with the inspection.

The local companies therefore started on the march to the steamer, via the south side of King square, Charlotte, King, Bocky, Mill and Jean streets. At the corner of Mill and Union streets, the visiting knights were in waiting, accompanied by the Citizens' band of Moncton, and they joined the parade to the boat.

Here the steamer May Queen was boarded, and the sail on the river commenced. As the weather was warm, with just enough breeze to make it comfortable, it is needless to say that everyone on board had a delightful time. Refreshments had been provided and were done full justice.

The supreme chancellor was enthusiastic in his praise of the beautiful New Brunswick's grand waterway. It was a revelation to him, he said. He was also much interested in the reversing falls, which were certainly looking fine. The tide was then high and the water tumbling riverwards. The sail occupied about four hours, the city being reached on return about 7 o'clock.

The uniform rank was then re-formed, and the knights paraded back to their hall. Some 600 knights and their ladies participated in the outing, and all voted it a most enjoyable affair.

It was about 9.45 when the knights, to the number of about 270, sat down to a banquet in the assembly rooms, prepared by Frank White.

The menu card for the banquet was a very handsome affair. The front page, which was in imitation of grained wood, had as a centre piece the insignia of the order on a white panel. The design was in blue and gold and it was surrounded with scroll work in gold.

Above were the words "Grand Lodge of the Maritime Provinces," and beneath, "St. John, N. B., August 28th and 29th, 1906."

The inside title page was inscribed as follows: "Knights of Pythias, Reception and Banquet tendered by New Brunswick Lodge No. 1, and Union Lodge No. 2, St. John, N. B., to Supreme Chancellor Charles E. Shiveley and officers and representatives of the Grand Lodge of the Maritime Provinces, York Theatre, August 28th, 1906."

The banquet itself was a very pleasant function. The bill of fare presented the following variety:

Cold Ham Tongue, Creamed Potatoes, Fruit Salad, Mixed Sandwiches, Biscuits, Chocolate Cream, Celery, Apples, Spiced Peas, Assorted Cakes, Ice Cream, Lemonade.

During the banquet the orchestra, under the leadership of Prof. F. C. Jones, gave the following programme:

March—Hock Harbor, Selection—Frisco Livery Tunes, Waltz—Lovedale, Polka—Spiders Web, March—Hands Across the Sea, Serenade—Southern Dreams, Waltz—Southern Dreams.

After the good things had been done just justice to a number of toasts were proposed and duly honored. The King and the President of the United States were proposed by Robt. Maxwell, chancellor commander of New Brunswick Lodge No. 1, who acted as chairman, and were given musical honors.

Following this, the chairman, in an eloquent address, referred to the principal features of the evening, that of the Supreme Lodge, and he called upon the supreme chancellor to reply. The chairman, on behalf of the members of New Brunswick Lodge No. 1 and Union Lodge No. 2, extended a hearty welcome to the head of the order, and expressed their pleasure at having him here.

The toast was drunk amid great enthusiasm and cheers were given for the distinguished visitor.

Supreme Chancellor Shiveley congratulated the knights on the happy occasion when he had the opportunity of meeting them. It would give him a broader view of Pythianism in the maritime provinces. He spoke of the little he had known of this part of the world, and congratulated the Canadian people. He said the probability was that Canada would become the greatest country of the world. He referred to its great area, its boundless wealth and the friendly relations existing between Canadians and Americans.

He would carry back some of the pleasantest memories of St. John and of this domain and would ever remember the kindness he had received while in Canada. His open-hearted generosity was common to English-speaking people.

At the close of his remarks he was greeted with prolonged applause. The Supreme Representative F. A. Godcoe and LeB. Wilson, of the maritime provinces domain, and E. Allison Powers, of the Quebec division, spoke to the credit of the Supreme Lodge.

A vocal solo by Knight E. E. Thomas was then listened to with much pleasure.

Other Toasts. The toast to the Grand Lodge was proposed by Supreme Representative Powers of Quebec and was responded to by Grand Chancellor H. L. Garter in a happy speech.

Grand Representative A. J. Tingley, of Moncton, delighted all with two well rendered selections.

The St. John's resolutions were proposed by Grand Vice-Chancellor F. A. Marr, of Halifax, and was responded to by Geo. W. Penney, grand master-at-arms of the Quebec division, in a ringing speech, which will long be remembered by those who listened to his remarks. He referred to the probability of the supreme lodge meeting being held in Boston in 1908 and hoped if it did that he would see a goodly number of the knights from the maritime provinces.

A mandolin solo was given by Prof. W. C. Bowden and a mandolin and banjo duet by Messrs. G. S. Hoyt and G. G. Smith. The singing of God Save the King closed the function and concluded the first day's entertainment of the visitors.

The twentieth annual convention of the Grand Lodge Knights of Pythias of the Maritime Provinces was brought to a close Wednesday afternoon and nearly all the visitors have returned to their homes. The meeting was in every way a success and while the legislation enacted by the grand body was not of very great importance, the meeting had for its means of bringing the members of the order together from various parts of the province and it is expected much good will result to the order.

The visit of the supreme chancellor and other prominent Pythians who delivered stirring addresses will no doubt be remembered by all who attended. The visit of the visiting St. John's knights started on the march to the boat, so it was decided, owing to the lateness of the hour, to dispense with the inspection.
