

The Union Advocate

Established 1867.

NEWCASTLE, MICHIGAN, N. B. WEDNESDAY, OCTOBER 28, 1891.

Editorial Correspondence

DEAR ADVOCATE—My last letter was dated from Campbellton and since then I have been up river on the New Brunswick side and down to Cross Falls on the Quebec side, and all over the country there is the same report of splendid grain crops and poor potatoes, and it is doubtful whether a more bountiful harvest ever blessed the labors of the husbandman or a poorer potato yield was the result of his labors. But so it is year after year, when one thing fails another makes up for it and in spite of light crops the agriculturist lives comfortably and is the most independent of all the inhabitants of this Province.

NEW ROAD.—Last year we referred to the new piece of road from above Dawsonville towards the bridge across the Upsalishish, which avoided the main grade of the mountain lying further back, and the shorter and easier route by the new road was commenced upon my travels did not take me up quite so far this year having forced the main river a short distance above the junction of the Restigouche and Metapedia, the water being very low for this season of the year. A gentleman however informs me that an additional piece of road has been completed below Dawsonville which does away with the old hilly road and will render travelling much easier. The road started from just below Mr. Dawson's on the bank of the river and is carried down river about half a mile, the outer or exposed side being crib-worked up with the fine corduroy which Restigouche is so famous for, making a fine level piece of road. The work was done under contract with the Government of New Brunswick by Mr. W. G. McBeath, of Tide Head, and from what we can learn he has made a good job of it.

AT WORK. Some necessary work is being proceeded with on the Bay Chaleur Railway, a construction train being engaged in hauling stone and rails from the junction. It is expected that the work will be proceeded with in the spring under the new contractors and the work pushed to completion. The people along the line devoutly hope so, and also hope that the new contractors will be successful in their work, as they have been kept out of it for so long will soon be paid.

SALMON FISHING, ETC. The catch on the Restigouche has been light this season, and appears to have been generally so for several years past. The fish fishermen visiting the Restigouche Salmon Club House did not meet with their accustomed success and the record was not up to that of some former years. A town of the size and importance of Bathurst needs a water supply and effective fire apparatus, and it does not attend to this matter the time will come when a fire will sweep over it from one end to the other. The subject has been frequently brought forward by the principal property owners, but as a man owning property about equal in value to that of the parent town of Smith orally told us his qualification of \$500 or more valued at \$20 or \$30, they feared a small extra tax more than they would the loss of their building, and hence voted against such expenditure for fear of taxation.

THANKS. And now having completed my usual yearly tour through the Northern counties, I wish to return my thanks for the many kindnesses received during my journey, and also for the prompt and satisfactory manner in which our patrons in most instances settled their accounts. It is always a pleasure to meet old friends, but doubly so when business matters are satisfactorily settled, and my hope is that they may long live to successfully prosecute their varied sphere of labor, and continue a happy and content people.

THE DEEP SEA FISHERIES. The deep sea fisheries of a country are a mine of wealth to its inhabitants when they give their time and attention to the prosecution of them. Along our own coast is to be found one of the most valuable deep sea fisheries to be found in the world, but unfortunately for us very few of our people have taken any attention to the prosecution of this most profitable and lucrative industry. If but one quarter of the capital that is now yearly spent by our people in the prosecution of the lumbering and other business was devoted to the deep sea fisheries that are so near to us, they would find that the returns they would get from their export would bring more wealth into the country than the lumber that is now sent out of it. As a proof of the truth of these remarks, we publish the following paragraph from the Leneburg Progress which says that "sixty-six Leneburg bankers this season have taken 50,000 qts. codfish, an average of 763 qts; last year 59 vessels took 44,970 qts, an average of 762; in 1890 a fleet of 66 schooners took 53,285 qts; an average of 585; in 1888 the catch of 47 vessels was 54,390 qts, an average of 1150; and in 1887 a fleet of 36 vessels landed 49,915 qts, an average of 1288."

INCIDENTAL FIRES.—Having satisfactorily concluded my business in Campbellton I left for Bathurst, and arrived there I found the community in considerable excitement over an incendiary fire which had destroyed a large amount of property, and endangered much more. For a town without any fire appliances except that owned by a few individuals, and in which the fire was so extensive and of such magnitude as to draw upon the attention of the fire department, it was almost wonderful that the fire was prevented from spreading further, as it is thought that if the fire had extended to the large warehouses and store erected by K. F. Burns, Esq., M. P., that nothing could have prevented the destruction of the new post office building erected by Mr. N. Johnson, and other buildings.

It was the work of an incendiary that seems to be proved by the fact that while the first fire was raging an attempt was made to set fire to the store of Mr. S. Bishop by placing materials saturated with kerosene oil in the hatch leading into his cellar. As Mr. Bishop's store was being utilized to store goods from one of the burned buildings the smoke led to the incendiary fire being discovered and extinguished. What villains there are in the world, lynching is to good for them, they deserve being cast into the contagion they cause. Plaster is said to have prevailed, and no doubt many families have secured a harvest which will help them through a long cold winter.

The fire started in the basement of the store of H. Mehan & Co., on the basin side of Water street. The building and its contents were entirely consumed. The fire spread to the adjoining buildings and then crossed the street to the store of Messrs. Donnelly and Hickson and Mrs. Sinclair were destroyed with most of their contents. The Merchants' Bank of Halifax building was entirely consumed, the walls alone standing among the ruins. The curling rink and the residences of Mr. James Hickson and Mr. K. F. Burns were also destroyed. The Power House was badly damaged, the side next to the street showing how hard a fight was made here to stay the further progress of the devouring element. The goods in the Burns store and the drug store were removed, and much of the household furniture was carried out. Mr. Burns' residence was insured in the Western for \$2,500, his furniture for \$700, and \$400 on his piano, a total of \$3,600. The Hickson house was insured for \$800 and he is a heavy loser. The curling rink was insured for \$500, the Power building \$500 Donnelly's \$400, Mehan's \$450. There was \$4,000 insurance on Messrs. Mehan's stock. Many are heavy losers by the hurried removals and the persistent stealing which was indulged. The offices interested are the Western, Liverpool, London and Globe, British American, Northern Union, Citizens, City of London, and the Quebec. The total loss will amount to about \$30,000 of which about one third is insured.

While the morning freight train going north was nearing the station of River Charles on Thursday, four cars which were loaded with sugar, flour, coal, etc., were suddenly thrown over the embankment. The St. John express going south passed over about an hour before with perfect safety. On examination of the cars it was ascertained that they had been broken up, the cars were badly broken up, yet the barrels of flour and sugar were very little damaged. Fortunately only one wheel of the passenger car in which the wreck occurred was broken up. The cars were owned by Mr. William McMillan, of Jacques River, who is upwards of eighty years of age, one of the passengers, on coming out of the car and witnessing the wreck and the narrow escape he and his fellow travellers had made, was greatly moved. The track for two or three hundred yards was completely broken up, Mr. Price Superintendent, and also the track master, were soon on the spot with a large number of men. The track was cleared and re-laid in about an hour, and rendered passable for trains. It is considered that the wreck was so badly smashed that they will be burned on the spot to obtain the iron.

Narrow Escape of a Business Office from Demolition. Mr. B. N. Call, son of R. Call, Esq., of this town, at present book keeper at the office of the U.S. and Canadian Machine Company in East Green St., Butte City, Montana, the "Butte Daily Miner" informs us had a close call from total annihilation a few mornings since, and has not yet recovered from the shock. On entering the office at the time stated he discovered what he at first supposed to be a candle lying on the rear portion of the hot stove. Thinking that it might be a match, he cautiously lifted it and then found that it was a stick of giant powder which had been placed there to blow out by the office boy at the request of some workmen who were engaged in excavating at the rear of the house. The boy now refuses to sit while taking his meals.

Sons of Temperance. The following members were installed as officers of Lyttleton Division, No. 384, S. of T., for the present quarter. W. P. Sophia Somers, Mrs. E. Somers, Charles White, A. B. S. Addie Somers, F. S. Maggie McIntosh, Treas. Elizabeth White, W. L. Tozer, Con. Willie Somers, Phebe Blackmore, A. C. James Silliker, O. S. Ernest White, P. W. P. This Division was organized but one year ago with a membership of 35 which has increased in that time to thirty-four, a net gain of twenty nine members and is in a prosperous, and thriving condition.

Armstrong Brook. The people of this fine settlement have a high appreciation of education. They have at present a second-class female teacher with pupil assistant. At last annual meeting they directed the trustees to secure the services of a first class male teacher and a pupil assistant, and voted accordingly \$250 for the school alone, which is the largest sum voted in any school district in the county excepting the towns of Dalhousie and Campbellton. It is to be regretted that as they have done so well, the school law does not admit of them to organize a superior school, for according to the law, one superior school is only allowed in each county for every 100 inhabitants. In Restigouche there are two superior schools already, one in Campbellton and one in Charlo, while there are only a little over 8000 inhabitants in the county. The trustees of this spirited district would do well to lay their case before the Board of Education through the Inspector, and ascertain what can be done towards the organization of a superior school. The citizens are composed of protestants and catholics, who like wise most of the East, work harmoniously in educational as well as other matters. The catholic priest, who resides in the district is deeply interested in the advancement of education in the vicinity.

Socialism in Germany. During the past twenty years the growth of Socialism in Germany has been most remarkable. In 1871 there was but one Socialist deputy, M. Bebel; now there are 35. In 1871 Bebel was the only one that had Socialist electors, now they are not only in the rural but in all the large cities but in the forest districts. The number of Socialists who voted at the elections of 1871, was said to be about 100,000 but since that they have rapidly increased both in numbers and influence. In 1874 there were 331,670; in 1878, 437,158; in 1884, 549,590; and in 1890, 1,341,387. Those who are

Blackville and Derby Agricultural Society.

The annual Ploughing Match and Cattle Show of this Society took place at Indianston on the 14th of October. The following prizes were awarded:—

Table with columns: ARTICLE, NAME, PRIZE. Includes entries for ploughing, harness, and other agricultural equipment.

Railway Disaster.

While the morning freight train going north was nearing the station of River Charles on Thursday, four cars which were loaded with sugar, flour, coal, etc., were suddenly thrown over the embankment. The St. John express going south passed over about an hour before with perfect safety. On examination of the cars it was ascertained that they had been broken up, the cars were badly broken up, yet the barrels of flour and sugar were very little damaged.

Narrow Escape of a Business Office from Demolition.

Mr. B. N. Call, son of R. Call, Esq., of this town, at present book keeper at the office of the U.S. and Canadian Machine Company in East Green St., Butte City, Montana, the "Butte Daily Miner" informs us had a close call from total annihilation a few mornings since, and has not yet recovered from the shock.

In 1871 Bebel was the only one that had Socialist electors, now they are not only in the rural but in all the large cities but in the forest districts.

Hon. MacKenzie Bowell in St. John.

Hon. MacKenzie Bowell and Messrs. Schreiber, Pottinger and Cooke, arrived at St. John on Wednesday last. They spent the early part of the day overlooking the Government property in the city, and then proceeded to the office of the Hon. MacKenzie Bowell regarding the extension of the Intercolonial Railway along the harbor front. The Committee explaining why the city could not sign an agreement forwarded by the Government. The Minister expressed his own willingness to have the objectionable clause left out of the agreement, but explained that he could not consent to such an arrangement without the consent of the Minister of Justice. He promised to bring the matter before the Minister of Justice at once, and assured the delegates that the Government was anxious to provide all possible facilities for trade. In the afternoon the Minister visited the site of the proposed extension.

Provincial Sabbath-School Convention.

The eight annual Convention of the New Brunswick S. S. Association was held at Sussex on Oct. 20th to 22nd. 106 delegates registered and a very large number of visitors also attended the convention. The preliminary meeting was held on Tuesday evening, Oct. 21st, at 7.30 in the Baptist Church, and conducted by Mr. Wm. Reynolds, International Superintendent of S. S. Organization.

The Scott Act in Chatham.

One hundred and twenty cases and six paucuses of liquor, with one basket of champagne, arrived at Chatham station on Thursday. How is this for a Scott Act case with a paid inspector? This liquor comes to regular dealers, who sell it with no pretence of secrecy. They must have an understanding with the inspector, or they would not bring in a case of liquor, as it is all liable to seizure and confiscation. If he shuts his eyes for less than \$100 a year, he is earning a reputation for inefficiency or collusion, as too few figures.

Shipping in Port.

There were four square rigged vessels under way to sea, and one to sea on Monday. Two of them were loaded and ready for sea, and the other two were just commencing to take in their cargoes. There is not a square rigged vessel at sea, as it is all liable to seizure and confiscation. If he shuts his eyes for less than \$100 a year, he is earning a reputation for inefficiency or collusion, as too few figures.

Steamer St. Nicholas.

The steamer St. Nicholas, owned by Hon. J. B. Snowball, of Chatham, has been engaged by the Dominion government to enter the fisheries protection service for the winter. She is to report at Halifax on November 20th, when she will take on board some crew, etc. and will sail for the Bay of Fundy where she will be stationed for the winter months.

Personal.

Mr. Wilson Harris, who learned the drug business with Mr. E. Lee Street of this town, three years ago left for Philadelphia. From there he was sent to Miami police by Mr. E. Lee Street, and later on to Florida, where he was attacked with fever and ague. He returned home the beginning of last week and is already improving. His many friends wish him a rapid recovery.

Given up for lost.

Late dispatches from Gloucester inform us that hope for the return of the Schooners Ferry, of Gloucester, with 12 men, the City Point, of Portland, with 14 men, and the Albert Woodbury, of Beverly, with 10 men, has been given up. It is supposed that they were all lost in the gale which raged during the 6th and 7th September.

The Season.

During the whole of Friday it rained heavily. In the evening the rain turned to snow which continued to fall until nearly morning. On Saturday it was six inches of snow upon the ground and owing to the weather being cold and wintry a large portion of it still remained upon the fields until yesterday, when a heavy rain which continued all day carried it all away.

Pio Social.

Do not forget to attend the Pio Social which takes place in the Temperance Hall, Douglastown, this evening. Owing to the preparation that has been made, those who attend are likely to have good time.

Children Cry for

Pitcher's Castoria.

Blackville and Derby Agricultural Society.

The annual Ploughing Match and Cattle Show of this Society took place at Indianston on the 14th of October. The following prizes were awarded:—

In 1871 Bebel was the only one that had Socialist electors, now they are not only in the rural but in all the large cities but in the forest districts.

Testimony of Nineteen Centuries of Jesus of Nazareth.

From the Henry Hill Publishing Co. of Toronto, we are in receipt of a copy of this highly interesting publication. Its Author, Mr. James Herman Williams, has devoted much time and considerable research in getting the opinions of some eminent and able men upon the character and life of the Divine founder of the Christian religion. In his preface to the work the writer says: "I have indulged the hope that these testimonies, gathered from so many sources, and representing the learning and devotion of nearly every denomination and country in Christendom, might in some degree tend to increase a true catholicity of spirit, and thus promote Christian unity in the world. It seems good, as in this collection, to see Roman Catholics and Protestants of many names, unobtrusively vying with one another in weaving garlands of praise for the Redeemer's crown. It witnesses to the greatness of the fact that there is something deeper and more vital in human nature and human worship than is expressed in the speculative questions that divide men into sects and schools of belief."

Newcastle Curling Club.

The Annual Meeting of the Newcastle Curling Club will be held at the Waverly Hotel on Monday evening next, Nov. 2, at 8 o'clock. Officers and ships will then be elected for the ensuing year. A full attendance requested.

A HARD CORNER.

The age of 80 is a hard corner for a woman to turn, and she will hardly be able to do so unless she has been well prepared for it. It is not only a matter of health, but of the mind, and of the heart. It is a matter of the soul, and of the spirit. It is a matter of the life, and of the death. It is a matter of the now, and of the hereafter. It is a matter of the eternal, and of the temporal. It is a matter of the infinite, and of the finite. It is a matter of the divine, and of the human. It is a matter of the glory, and of the shame. It is a matter of the triumph, and of the defeat. It is a matter of the victory, and of the loss. It is a matter of the gain, and of the loss. It is a matter of the profit, and of the loss. It is a matter of the success, and of the failure. It is a matter of the achievement, and of the disappointment. It is a matter of the fulfillment, and of the frustration. It is a matter of the completion, and of the incompleteness. It is a matter of the perfection, and of the imperfection. It is a matter of the beauty, and of the ugliness. It is a matter of the goodness, and of the evilness. It is a matter of the righteousness, and of the unrighteousness. It is a matter of the holiness, and of the unholiness. It is a matter of the sanctity, and of the profanity. It is a matter of the purity, and of the impurity. It is a matter of the chastity, and of the unchastity. It is a matter of the modesty, and of the immodesty. It is a matter of the discretion, and of the indiscretion. It is a matter of the wisdom, and of the foolishness. It is a matter of the prudence, and of the imprudence. It is a matter of the justice, and of the injustice. It is a matter of the mercy, and of the unmercifulness. It is a matter of the kindness, and of the unkindness. It is a matter of the gentleness, and of the ungentleness. It is a matter of the patience, and of the impatience. It is a matter of the self-control, and of the lack of self-control. It is a matter of the temperance, and of the intemperance. It is a matter of the sobriety, and of the inebriation. It is a matter of the cleanliness, and of the uncleanness. It is a matter of the orderliness, and of the disorderliness. It is a matter of the neatness, and of the slovenliness. It is a matter of the tidiness, and of the untidiness. It is a matter of the cleanliness, and of the uncleanness. It is a matter of the orderliness, and of the disorderliness. It is a matter of the neatness, and of the slovenliness. It is a matter of the tidiness, and of the untidiness.

To Our Subscribers.

A large number of persons are inquired to us for subscriptions, as well as for advertising and job work but more especially the former, and we should be pleased to have the same settled forthwith. It takes so much of our time and space to run a newspaper and when so many of our subscribers are in arrears, it is a matter of some concern. We have therefore decided to publish a list of our subscribers who are in arrears, and we will be glad to receive payment for their arrears and give the paper at the reduced price, and if they are put to the test of the paper, the fact will be their own fault. It is not honest to expect and to have the property of another without paying for it, and we hope all indebted to us will prove they have been thoughtful rather than dishonest by paying up the amount of their indebtedness at once.

A HEROIC MAINTAIN CAPTAIN.

News received in the city yesterday of the death under very sorrowful circumstances of a bright little 5 year old son of Captain David Douglas, of St. John's bay, St. John's, N. B., bound to Bordeaux, France, with the steamer "The City of Montreal" on board. When the barque was five days out from St. John they encountered a terribly heavy storm. About noon, while the captain was dining in his cabin, the ship having gone up on the deck, the ship was a violent roll, when the captain also went on deck. He noticed two of the sailors starting at the water and asked them what they were looking at so steadily. They told him his boy was in the water, the lurch of the ship having thrown him over the side. It was blowing terrifically high but the brave captain heeded them not, and throwing off his coat plunged over into the sea to save his boy. He reached and caught the little fellow, but by the time he had done so they were about a mile astern of the barque. The captain swam on to the boy and started to swim towards the ship. Dozens of times the little fellow was washed off his father's back, and as many times did the heroic father again manage to catch the boy and continue swimming. In the meantime a boat had been launched from the barque and went to the captain's rescue. He was just about an hour in the water when the boat reached him and pulled him and his little son out of the water. They then rowed to the barque which had been lying to, and the boy was unconscious and when they reached the barque all efforts to resuscitate him proved unsuccessful. He was so far gone from the exposure he had endured that he was beyond human aid. The parents were grief stricken at the loss of the little fellow, and the poor father's feelings, after having made such a brave effort to save his boy, can be better imagined than described. Upon arrival at Bordeaux the body was embalmed and brought to Montreal for interment, where the captain belonged.—Herald.

The Family Herald.

We offer the Union Advocate and the Montreal "Family Herald and Weekly Star" for \$1.00 per year.

GEOLOGICAL DISCOVERIES.

AMHERST, Oct. 20.—Mr. Chalmers, of the geological survey of Ontario, his assistant, Mr. Wilson, of St. John, and Baron de Geer, state geologist of Sweden, accompanied by Mr. E. J. Lay of Amherst, spent last Friday afternoon at the Fenwick Lawrence terminals of the Chignecto ship railway examining the deposits laid bare by excavations for the dock. The deposits were found to be made up of (1) marine mud, (2) sand, (3) bed of a sunken forest, (4) stratified sand and gravel, (5) brown clay. The baron measured the depth of the sunken forest and found that while at the water end it was 30 feet below high water mark, at the east end it was only four or five feet. Mr. Wilson found among the deposits a new shell while a specimen each of macera and thalassina minute were found in abundance in the deposits above the forest. The baron is seeking for evidence of glacial, raised beaches, etc.

REV. SAM SMALL ARRESTED.

NEW YORK, Oct. 21.—The Sun's Boston special says, The Rev. Sam Small was arrested in this city on Monday last on a charge of obtaining \$1000 by false pretences made by the Rev. H. U. Mann, an Episcopal clergyman at Newton, Lower Falls. Mr. Small has been stamping this state for the past few weeks in the interest of the prohibition ticket. Mr. Menier, secretary of the prohibition state committee, was called for him, and has been stamping the state ever since. The case was brought in the civil court to avoid the scandal that a criminal case might bring to the cause of prohibition. It is said that the transaction which resulted in the arrest of Mr. Small was agreed upon in August, 1890, when Mr. Small was president of the Olden Union. It is alleged that Mr. Small induced the Rev. Mr. Mann to pay \$1000 for a lot of land which he represented to be worth that sum. The land belonged to the university and it is alleged that the university obtained only \$500 from it and that Mr. Small made \$500 by this transaction. When Mr. Mann heard of this he demanded the return of his money. As it was not forthcoming he ordered the arrest of Mr. Small.

THE SENECA COMMISSIONERS.

The declaration in the suit of the Attorney-General of Canada against Seneca, is practically a resumption of the evidence brought out against him in the Public Accounts Committee. The following are the amounts which he is claimed to have received illegally from different firms as commissions in connection with Government contracts: Toronto Type Foundry, \$1,500 on purchases amounting to \$17,000; National Electrotype Company, \$100 on 1,600 Miller & Richards, \$6,000 on 90,000; Barber Ellis Company, Toronto, \$2,000 on 20,000; W. B. Blackhall, Toronto, \$2,000 on 10,000; Edison Works Company, \$240 on \$7,500; Launcelot Montgomery, Montreal, \$27 on \$1,500; Dominion Type Foundry Company, Montreal, \$1,800 on \$10,000; Bannin, Reid & Co., Montreal, \$200, about \$3,000; Oullon Beauchemin, Montreal, \$100 on \$1,000. Total, 14,317.

RAILWAY ACCIDENT.

STRENGTHENERS, N. S., 24 Oct.—A fatal railway accident happened on the night of Friday last. The C. P. R. train which passed at 11 o'clock struck and instantly killed Daniel Mahar, of New Brunswick, a workman in Dickie's mill. Strange to say, several trains passed during the night and no one observed the body, which was found by section men going the road about daylight with one arm and leg cut off and his brains and skull scattered along the sleepers. The body was almost beyond recognition, but was identified by Thos. McNeill, foreman at Mr. Dickie's mill. A jury was empanelled before coroner Muir, of Timon and brought in a verdict according to evidence that produced, that deceased came to his death by being struck by the engine of No. 29 train and his limbs attached to any of the train fixtures. Since then our evidence has cropped out and here are entertained of foul play. Deceased was a married man and leaves a wife and one child who reside at Joggins, Cumberland County, where the remains were forwarded by the Quebec train Sunday afternoon.

DUPED BY A CLAIRVOYANT.

A PENNSYLVANIA WIDOW SCHEMED IN A NEW WAY BY EXERCISED PEOPLE.

WASHINGTON, PENN., Oct. 21.—Mrs. Asa R. Woods, who a few weeks ago fondly fancied that she had come into property to the value of \$250,000, has made the discovery that she is out of pocket and the victim of a bold charlatan. Mrs. Woods is the widow of a newspaper man, and has been credited with being pretty shrewd in business matters. Therefore when she some time ago told her friends that William H. Jasper, of Lewistown, Idaho, who was a winner of her before she married Woods, had given her deeds, cheques and drafts to the amount of \$340,000, it was accepted as a matter of course, and she was held as the richest widow in the country. The truth which has now come out is less romantic. Mrs. Woods had consulted a clairvoyant who began business by inducing the widow to send \$10 to a certain address, in return for which she received \$20. This game was kept up for some time, and then Mrs. Woods was advised that she would come into a fortune. The next step was the appearance of a stranger, who presented himself as the attorney of her old sweetheart Jasper. He handled her the deeds and cheques already referred to, and was shown every attention while in town and then disappeared after borrowing about \$500 and a gold watch from the widow. He took the deeds with him ostensibly to have them recorded. The banks in which the drafts and cheques were placed for collection soon found that they were not worth the paper they were written upon. Worst of all no trace can be had of the swindler.

TERRIBLE EXPERIENCE.

Or Two Sportsmen on a Scattered Island at Tusk. YARMOUTH, October 23.—L. B. Wyman and Norman Wyman had a most thrilling experience yesterday morning while gunning among the Tusket islands. They went down with some others in the steamer "Hut" on Saturday night to Gull Island. At 4 o'clock Thursday morning they were put on a place called "Scribe Reef" while two others of the party went to another island. When they had been on for some hours they noticed the tide had risen beyond the high water mark and they began to climb up on it and found a solitary raft driven up by the tide and tamed by fright, was with them. The water continued to rise, and soon their pillar was submerged and the waves were up to their waists, while in every direction great white-capped breakers surrounded them. The outlook was gloomy, and it still wanted an hour of high tide. Fortunately the tug came back much sooner than was expected. When it got in sight of the island the boat was sailing but breakers crowded on all steam, till they found the two men standing in the water and their dogs swimming about them. A little dory was launched and Samuel Weare and Arthur Caldwell essayed to rescue the drowning men. Again and again they were beaten off by the waves, but finally one of the men in the water managed to catch the boat and they were taken aboard and with much difficulty got to the steamer. They had a closer call than most men have who lived to tell of it.

THE RUSSIAN FAMINE.

St. Petersburg, Oct. 22.—The famine has extended to Siberia. The governor has compiled a report showing that in the district of Koltobotowah and Patrapatowah what food supplies the inhabitants possessed have been entirely exhausted, and appeals to public charity. Owing to the difficulty of transportation in winter efforts at relief seem almost hopeless. Supplies from Caucasasia are improving in quantity and it is hoped they will avail to stave off the worst effects of the famine. Advice from the interior of the empire are continually of worse import. The people are commencing to riot in Samara and Veronez. Reports from the provinces of Sibirak and Samara show that the local Government is unable to cope with the prevailing distress and that relief has

CANADA FOR OCTOBER.

CANADA is rapidly winning its way into Canadian hearts and homes. The number for October contains, in addition to the continued articles, a beautiful poem called "Una in the Wilderness," by The C. Robson, an imaginative and suggestive essay by Pastor Felix, "The Heart on the Sleeve" a story by L. L. "on the Gaitaneau," some fine verses by Eric on "Indian Summer at Montreal," a rendering in verse of a Danish Legend by the Editor, and some choice selections including a fascinating story from the Independent, "Shon McGinn's Toboggan Ride." All who subscribe for 1892 now will receive the last three numbers of this year free. One dollar will pay for fifteen months. Published by Matthew R. Knight, Benton, New Brunswick.

Pitche's Castoria,

A STRANGE FIND.

The St. John Globe says that a strange find is reported from Barford, Sunbury county. Two model war ships made of lead and of small size with about 1740 engraved on each were unearthed a few days ago by Thos. Earle and Jacob Barker eight feet from the surface. The find has excited great interest, and all hands in the locality are sharing with the expectation of finding treasure.

CHINESE AFFAIRS.

SAN FRANCISCO, Oct. 22.—Shanghai advices state that details have been received of a revolution in the province of Fukir. The centre of the disturbance is in the City of Thins, the leader of the insurgents is named Chen and he has a force of 3,000 men. The first expedition was directed against the salt office, which was stormed and burned. One unfortunate fell into the hands of the insurgents, who mist his hands and feet to a board and cut him up by piecemeal. The insurgents, flushed with success, made a complete circuit around the city. They were met with a stubborn resistance. For three days the city held out. The insurgents finally scaled the walls, when a bloody struggle ensued, resulting in favor of the attacking party. The higher authorities, on learning of the insurrection, despatched over 1,000 soldiers to the place. The latest intelligence is that the insurgents have left the city and are encamped on a hill. The loss on both sides is very heavy. It is said the insurgents butchered all the prisoners who fell into their hands.

POSTAL CHANGES.

On the 1st October the following new offices were established: Ellen's Town, South Esk, Northumberland; Dennis Sauntry; Fairley, Loddow, Northumberland; James St. Fairley, Little Bartholomew; Alwick, Northumberland; Jeremiah Fox Mannel; Hardwick, Northumberland; R. Mannel; Semivagan Bridge, Nelson, Northumberland; Michael Meagher; Upper Nelson, Nelson, Northumberland; James Russell; Upper Pockmuchs, Lakerman, Clonster, John A. Babin. The following offices have been closed: Kent Junction, county of Kent, N. B.

GUILTY BUT SKIPPED.

In the Supreme Court at Quebec on Friday last the jury rendered a verdict of guilty against O. E. Murphy and Robert H. McGreevy for conspiracy to defraud out of \$400,000. When called upon to appear for sentence it was found that they had disappeared and bench warrants were issued for their arrest on Saturday. Finding what was coming, it is said that the two worthies on Friday night fled from the province to Vermont. If they had remained in Quebec they would have been sentenced to not less than seven years in the penitentiary.

"August Flower"

Mrs. Sarah M. Black of Seneca, Mo., during the past two years has been afflicted with Neuralgia of the Head, Stomach and Womb, and writes...

The depression of feeling the last few years is further reason why less care has been taken to feed labor of weeds.

It is not necessary to spend more money in cultivation than in weeding.

One thing at least can be done. That is to prevent these weeds from seeding.

For all forms of pain this Liniment is unequalled, as well as for all Swellings, Lameness, Rheumatism, Neuralgia, Gout, Sprains, Mumps, Headache, Stiff Joints, &c.

OF PURE COD LIVER OIL AND HYPOPHOSPHITES. Prepared by Scott & Bown, Philadelphia.

Some Children Growing Too Fast

become listless, fretful, without energy, thin and weak. Fortify and build them up by the use of SCOTT'S EMULSION.

CHILDREN CRY FOR

CHILDREN CRY FOR PITCHER'S CASTORIA.

THE WINTER WRENS AND BLUE BIRDS.

A pair of winter wrens came to the vine-covered porch of my house one bright morning in May.

Youth's Corner.

HOW THEY BEGIN. Daniel Froham was an errand boy.

UNDERTAKING

The Subscriber is now prepared to attend all orders of undertaking.

Coffins and Caskets

of all kinds, and he will supply BURIAL ROSES and all the furnishings necessary.

"August Flower"

Mrs. Sarah M. Black of Seneca, Mo., during the past two years has been afflicted with Neuralgia of the Head, Stomach and Womb, and writes...

The depression of feeling the last few years is further reason why less care has been taken to feed labor of weeds.

It is not necessary to spend more money in cultivation than in weeding.

One thing at least can be done. That is to prevent these weeds from seeding.

For all forms of pain this Liniment is unequalled, as well as for all Swellings, Lameness, Rheumatism, Neuralgia, Gout, Sprains, Mumps, Headache, Stiff Joints, &c.

DR. KENDRICK'S WHITE LINIMENT

For all forms of pain this Liniment is unequalled, as well as for all Swellings, Lameness, Rheumatism, Neuralgia, Gout, Sprains, Mumps, Headache, Stiff Joints, &c.

JOHNSON'S ANODYNE LINIMENT

Originated by an Old Family Physician. Think of It! Years and still holds. Every sufferer should have a bottle in his cabinet.

NASAL BALM

Instant Relief, Permanent Cure, Failure Impossible. Many so-called cures are simply symptoms of Catarrh.

SCOTT'S EMULSION
