PROSPECTUS

Of a weekly Journal, which is intended to be published in FREDERICKTON, and called, THE CONSERVATIVE.

MR. R. T. EDGILL, sole Proprietor and Editor.

THE principles of "THE CONSERVATIVE" are sufficiently declared by the name, which seems to have acquired a fixed and determinate meaning. It scarcely need be said, that a "Conservative" means one, whose principle and determination is to defend the time-honored British Constitution, and maintain the valuable institutions of the Empire in their integrity; but who is not averse to the correction of abuses that may have crept into any of them—by length of time, or to real improvement wherever it may be practicable.—This, at least, is the meaning which we attach to the term; and in this sense of it we shall endeavour to justify the title assumed.

The Columns of "The Conservative" shall be always open to Communications in which subjects of local interest are temperately and fairly discussed; and adorned by the most valuable literary materials that can be procured.

The Rights of ALL PARTIES shall be invariably respected and maintained.

The aim of "The Conservative" will be to preserve harmony and good feeling among all classes of His Majesty's loyal subjects in this Colony; and to direct the energies of the people into the most healthful channels.

It remains to be seen, whether the proprietor shall be encouraged to embark in an enterprise of this nature.

An engraving, of original design, will surround the title; and "The Conservative" will be issued on fine paper, with new type.

No money will be looked for until the expiration of the first six months, when the whole of the annual subscription would be required, to enable the Proprietor to meet the heavy engagements which must be contracted before "The Conservative" can commence. At the same time, it shall be optional with subscribers to decline the paper at any moment, on paying the amount of subscription due.

TERMS: TWENTY SHILLINGS per annum. "The Conservative" is intended, will open with a review of the proceedings of our Legislature during the Session which has just closed; and the publication will begin as soon as possible after the undertaking may appear to be justified.

The Editor's address is at the GENERAL AGENCY OFFICE, Fredericton.

Subscription Lists will be prepared forthwith, and Agents appointed.

Fredericton, March 18, 1835.

THE FARMER.

There is not a more independent being in existence than the Farmer. The real farmer, he who attends strictly to the duties of his profession; he who keeps every thing about him snug and tidy, and who seeks every opportunity to introduce such improvements of the day as will tend to add beauty and worth to his farm. Such a farmer is always happy and independent, and he lives as it were in a little world of his own with nothing to trouble him, save the cares of his farm, which by the way are considered rather as pleasures than otherwise. His mind is always at ease and the duties of his calling are performed with a good degree of pleasure. When the tools of the day are over and the "night cometh," he takes his seat at the domestic fire-side and whiles away the evening in sweet converse with his little family circle. The tools of the day have been perhaps rather arduous—but what of that? They are drowned and forgotten in the pleasures of the evening. And then, he feels a sincere pleasure on reflection, that while he rests from his labours his business continues to flourish. His crops are growing and preparing for harvest; his cattle, &c. are fattening ready for market and everything prospers. With such thoughts as these, he can calmly resign himself to the night's repose and rise on the morrow with the returning sun, refreshed and prepared for the duties of another day.

CURE FOR THE WHOOPING COUGH.—Take one fourth of a pint of sweet olive oil, the same quantity of common lard—cut them fine, and simmer them moderately, two or three hours; add honey sufficient to make it palatable; half a table spoonful a portion for an adult. If taken four or five times it will, in a few days, remove this distressing disorder.

THE SEA SERPENT.—Capt. Shibles, of the Brig Mannequin, of Thomaston, from Boston for New Orleans, which arrived here on Saturday last, states that he saw when about nine or ten miles from Race Point light what he as well as the whole crew, supposed

to be a Sea Serpent.—He could distinctly see it with the naked eye, but to be certain he took his glass and saw his eyes, neck and head which was about as large as a barrel—the neck had something that looked like a mane upon the top of it; several times he ran his head seven or eight feet above the water, and for thirty or forty minutes he swam backward and forward with great swiftness. There were two other vessels near, the crews of which were in the rigging looking at the same object. Captain S. states that he should think it was 200 or 250 feet long, and that his head, neck and tail, and his motion in the water, was exactly those of a snake; every time he put his head out of the water, he made a noise similar to that of steam escaping from the boiler of a steam boat.—*Gloucester Democrat.*

UNITED STATES.

The question who shall succeed General Jackson in the Presidency is beginning to be mooted in the American papers. The candidates are (though the subject apparently is only in its infancy) Judge White of Tennessee, Mr. Van Buren, and Judge John McLean of Ohio, one of the Justices Supreme of the Court of the U. States. It is objected, however, to Judge McLean being "no party man."

"At the present moment" says the *New York Morning Courier*, "when the whole country is divided into two great parties—the one denominated Tory, and seeking to concentrate all power in the Chief Magistrate—the other, Whig, earnestly rejecting the encroachments of the Executive, and striving to sustain and establish on a permanent basis the fundamental principles of the Constitution—it is utterly impossible that any man can succeed who is not clearly and distinctly identified with one of these great parties."—*Morning Chronicle of February 2.*

In reference to the above a Correspondent of the *Dumfries & Galloway Courier* has sent them the following:—

JUDGE WHITE OF TENNESSEE. It is with no inconsiderable pride that we claim Judge White, the leading Candidate for the President's chair of the United States of America, as a native GALLOWAY MAN.—His father Mr. Wm. WHITE, in Creech, near Wigton, is still a hale old man, vigorous in intellect, and possessing a fund of shrewd observation, and caustic wit, which have given a weight to his opinions, and a currency to his sayings, alike creditable to his neighbourhood and to himself. He has been an elder in the parish in which he resides (Sorbie) for the last fifty years; and is perhaps now almost the only specimen left in the district of that character on which memory delights to dwell with a profound and something of a poetic veneration—"the Scottish Elder of the olden time." His son, who now holds a high and honorable public station in the State of Tennessee, left this country when quite a boy. Aided solely by his high talents and perseverance, stimulated perhaps by that feeling which forms a leading feature in the character of Gallowayians at home and abroad, a desire to do honour to their fatherland—he has long been a marked man in America, and now aspires with much success time will determine) to the highest elective office in the round world, the supreme executive power in the Free and United States of America. Of his qualifications for an office of such vast importance it is not for us to speak; his fellow citizens in America, by naming him as a Candidate, have evinced their sense of his merits, and brother Jonathan is too shrewd and too sagacious to give his preference on any slender grounds. If the energy and decision of character, the manly frankness, the sterling honesty, the high intellect, and the unflinching moral courage, which distinguish the father in his sphere, characterize the son in the exalted station to which he aspires, the starred and striped banner of American Independence will be flung forth upon the breeze with no feeble hand, and the names of Jefferson and Jackson will suffer no blot in passing along the page of history in connection with that of our respected countryman, Judge White. It is not long since one of our townsmen, in proposing the health of Capt. Sir John Ross at a public dinner, gave a hurried but glowing glance at some of the leading scholars, philosophers, and warriors, whom Galloway claims as her sons: We now take honour to the province for having sent forth another man of note in a different and equally difficult walk,—that of political greatness. To our countrymen whether breasting the billows in the peaceful pursuits of commerce and of science, or "firm paced and slow" advancing shoulder to shoulder on the embattled plain; whether trimming the solitary lamp in the deep abstraction of philosophic or literary research, or, like Judge White, devoting their energies to the lofty and noble ambition of "aiding for their good the political destinies of their fellow men,—to each and all in their honourable though diverging paths, we cordially wish them that success and those rewards, which their toils and their talents so richly merit.

FOR THE ST. ANDREWS STANDARD.

RURAL SOLITUDE.

I love in nature's solitudes,
Far from the crowded haunts of men to stray;
Where amidst the dark o'er spreading woods,
The streamlet threads its winding way,
Beneath whose banks the speckled trout doth play.

Where no intruding sound is heard,
Save the low humming of the laden bee;
Or call of some forest bird,
Or squirrel claiming, angrily,
Despotic empire on his native tree.

There, free from every anxious care,
Upon the mossy bank I would recline;
And musing on the scene so fair,
Earth's tinsel'd crowns and diadems decline,
And deem no Empire beautiful as mine.

Come! thy Creator's works behold,
Proud man; and learn in scenes like these to
Contentment without power or gold; [know
And bow to Him, who doth bestow
Eternal bliss in Heaven, and Peace below.

A new List of Rates of Passages by his Majesty's Packets to different parts, has recently been published by order of the Admiralty, from which we extract the following:—

THE ARMY.

We have it from authority that the Romney troop ship will proceed about the middle of April next with the 43d regiment, now in Cork garrison, to relieve the 96th regt. at Halifax, being the senior regiment in North America, having gone out to that country in 1824. The 1st Battalion Rifle Brigade is the next regt. in succession to return home.—*Limerick Chronicle.*

NEW MAYOR.—William H. Street, Esq., has been appointed Mayor of the City for the ensuing year, in the room of B. L. Peters Esq.—Our sentiments on the needless exercise of this prerogative, annually by the Executive were fully expressed last year, and we now see no good reason to change them.—*Courier.*

EMBEZZLEMENT.—It is with regret we understand that the Cashier of the Charlotte County Bank, (Peter Stubbs, Esq.) abandoned last week, being a defaulter to that Institution to the amount of upwards of £340, and to the Charlotte County Savings Bank, (of which he was also Cashier), to nearly an equal amount.—Mr. Stubbs was formerly a respectable merchant in St. Andrews, and subsequently editor of the *Herald*. He has at different times held highly responsible offices in Charlotte County, the duties of which, heretofore, we believe, he discharged faithfully and with considerable ability: he was formerly a Representative in General Assembly, and is at present one of the Justices of the Inferior Court of Common Pleas for Charlotte County.—*St. John Courier.*

ANOTHER WHALER.—The Ship *Margaret* owned by Mr. Charles C. Stewart, returned to this Port on Thursday morning, from a voyage to the South Seas, with a full cargo of Oil, &c.—viz. 350 barrels of Spermaceti and 1750 of Black Oil, and 20,000 pounds of Whale Bone.—The *Margaret* has been absent about twenty months.—We are glad to find this new branch of trade from our Province, so productive and encouraging.

MRS. HALL'S VIEWS.—We were this morning shown a copy of this work, which will be ready for delivery in a few days, and, we think, will fully meet the expectations of the subscribers.—*Observer.*

SERVICES.—Upwards of Two Hundred Thousand Dollars, in specie, arrived in this City on Thursday last, from the United States, and a further shipment is hourly expected from New-York, by the Brig *Haleyon*, Captain Crowell. There is now, we are informed, a greater amount of money in this City, than at any former period,—and to use a trade phrase we wish soon to see the *quins unlocked*, and the *forms generally distributed*.

The following sentiments being perfectly coincident with our own are presented to our readers as such.

It must be highly gratifying to every right-minded man in this province, to learn that our

late excellent Lieutenant Governor, Sir HOWARD DOUGLAS, has been honoured by His Majesty with the important appointment of Lord High Commissioner of the Ionian Islands.

Sir Howard's wise and impartial administration of the Government of this Province, his freedom from party feeling, the magnanimity of mind which ever led him to treat those who opposed some of his favourite measures as British Legislators ought to be treated,—in short, the honesty and benevolence of his intentions, the goodness of his heart, his accessibility to men of all parties, the zeal with which he laboured for the country's good, added to the manners and habits of a perfect gentleman and an impartial Governor, have endeared him to a people who will never cease to respect him.

"A Public Meeting of the Merchants, Lumberers, and all persons feeling themselves interested in the Timber Trade, is particularly requested to take place at Hamill's Hotel, Newcastle, on Wednesday, the 8th inst. at 12 o'clock noon, at the instance of a number of the Mercantile Gentlemen of this place for the purpose of taking into consideration the propriety of Petitioning His Excellency against the New System of granting Timber Licences.—*Miramichi Gleaner.*

Communications.

Capturing Moses Downing to his Coussing in New Brunswick.

Downingville March 10, 1835

DEAR COUSSING SOL,

I arrived here last night post haste from Washington where I've been, you see, since Father gone to France to see about them ere deminities, and I have picked up some of Dad's credit here. The President is in a great passion with the Senate 'cause they will not fight them Frenchmen. Says he will fight whether Senate will or no if they do not pay them 25 million deminities—so says he

young man, Moser, go down and get your compass ready to start at a moments warning. But since my arrival here you may depend I was no small frightened by seeing in the St. Andrews paper, an account of a petition from the Blue noses as they call them ere people of New Brunswick, to their government to take off their Kings duty on Wheat Flour. You see what comes of having Kings Sol, as I told you when you were agoing to the Provinces. Now you know I am doing a roaring Business down east and as flour is a staple article, the staff of life and the main-spring of our trade, as Zekiel said tother night at the lecture. You know that I am wide awake, now I see this would be a terrible damage to me and my friends in them flourishing towns on the lines: and my houses, stores and wharves would not rent for half price; and all them are fine packets that pay their owners 50 per cent on the first cost in one year, would be as bad property as them small vessels in the Provinces.

Now Sol I will tell you how it would work if them duties on Flour were taken off.—The British merchants would import flour from the Southern States and would sell it as low as we could in Maine. They might import the article in their own vessels in a way that a train of very preffable business might fall into their hands, and we should lose three-fourths of our Customers. Smuggling would cease, which is the life of these Ports. Fegs Sol you must keep them in the dark; tell them one sensible and wide-awake chap in Charlotte, and one or two in St. John, are importing wheat, and manufacturing flour, for only ten shillings profits on a barrel (an purpose to encourage the raising of wheat on spruce lands in New Brunswick. You know I have some good faithful and well tried friends in the Assembly. Give my respects to Mr. LEXURY and them up-river farmers.—Folks here all pretty much the same as when you left.

I am still

TO THE EDITOR OF THE STANDARD.
Sir—Some public spirited Individual signing himself "A. B." called attention in

your paper of the 19th February to the necessity of getting up a COUNTY MEETING, to adopt measures for obtaining the repeal of the Imperial duty on flour. This I am sorry to say has been overlooked, but I hope it is not to be entirely relinquished. I would advise a County Meeting be called by requisition to the High Sheriff.

Yours &c.

QUIT RENTS.—We are sorry to announce that active measures for the collection of the Quit Rents are in operation, and that their payment will be rigorously enforced after the 24th of June next. In the meantime an invitation to those who are willing to commute the demand is courteously held forth in the Royal Gazette—altho' it is evident that the farthing the barley-corn, or the shilling, put severally into grants at different dates, were never intended to be actually collected. In the meantime those who wish to pay, may call on Harris Hatch Esq. who is appointed Receiver for this County.

THE LOST APPROPRIATIONS.

The recent collision of the Legislative Council and House of Assembly has produced a host of writers in the Saint John prints, from whose discussions, it may be expected, much useful information will be elicited on the questions at issue. We regret to observe that some asperity has already crept into their communications, and that a few personal thrusts have been given. In so grave an argument, every thing tending to lead us away from the staid and steady course by which we may arrive at valuable and convincing conclusions, is to be deprecated. Although many interesting facts have been brought into notice, and several good points made on both sides, yet the matter is far from being settled by either; and the public have yet to judge which party will be victorious.

With regard to the productions of Norval and Gracchus, which appeared in this paper, we have to rescue the Editor of the *Observer* from the imputation cast on him in the City Gazette, of having written these articles, and sent them here for publication, in order that he might parade his pseudo auxiliaries in his own Columns. We know both our correspondents; and doubt not that when they hear of this mistake, they will enjoy as much merriment as it was fancied had fallen to our lot.

One of the most striking assertions made in the course of these disputes is that we have no Constitution in this Province but what is founded on the Royal Instructions and the official Despatches of the Colonial Minister to the Lieutenant Governor. We shall not adopt or follow the elaborate reply made in the *Observer* to this position, but endeavour to bring a few simple facts to bear on it.

When the revolution was in progress which severed the British American Provinces and formed part of them into a republic, the great change of political sentiment which led so many to repudiate their allegiance, was vigorously withstood by others, who were too firmly attached to the Crown and Constitution, and two sensible of their rights and privileges as British subjects, to be induced to abandon their principles, and make shipwreck of blessings which had weathered the storms of time and were secured to them by the wisdom and prowess of their progenitors. When bands of these loyal people took refuge in this country, sanctioned by the Government and fostered by the local authorities representing it, what would they have thought if told that they had made a sad mistake in coming to a country which had a constitution founded on the behests of the sovereign, and liable to such mutations as the wisdom or will of the minister might direct—in short that with the semblance of being British subjects they no longer possessed the British constitution? We had written much more to this effect for last weeks paper, but which has been laid aside, being called off to other duties. The question we perceive is taking a wide range and the proceedings in Westminster that party turn which we deprecate.

moting the welfare of his in

istence of this community—the duty on our part. One of our Correspondents some time ago proposed to call a council meeting to consider the propriety of making a vigorous, but respectful, appeal to the parent Government against the pernicious consequences of the impolitic duty on flour; from the respectability of the source from whence the suggestion came.

source from whence the suggestion came, had no suspicion that the idea would have been dropped; and we agree with a writer, our first page, that a county meeting should be called by requisition to the High Sheriff on the early day, especially as in all likelihood there will be an extra Session of the Legislature on account of the present state of the service.

There has been so much written and said, and we believe the conviction is as general correct, on the injurious tendency of duty on flour, that it would be superfluous

duty on flour, that it would be superfluous to urge anything more at present on that point, it will no doubt be fully discussed on the meeting takes place; but we would direct the particular attention of any person who may yet doubt the success of an appeal, to the following facts, which cannot be too fully circulated:

When Mr. Alex. Stewart, (a member of the Nova Scotia Legislature and a gentleman of eminence at the Bar of both Provinces) was

minuence at the Bar of both Provinces) was in England last year, he was earnestly engaged in promoting various interests connected with the prosperity of his Province, in the course of which he was in constant correspondence with the Colonial office and members of the Government. Lord Auckland was then President of the Board of Trade and Mr. P. Hume one of the Secretaries; but the resignation of Mr. Stanley and others

resignation of Mr. S. Quincy and others, made a movement in the offices, which placed Mr. P. Thompson at the head of the Board, and Mr. Rice in the Colonial Office. These situations brought Mr. Stewart many times into contact with Mr. P. Hume, who was a faithful officer of the Government, and it was to be supposed, well informed of its gen- eral motives. On one occasion this gentleman intimated to Mr. Stewart that "there would be no difficulty on the part of His Majesty's Government in assenting to the removal of Mr.

ment in entering into the repeal or modification of the Imperial Duties on Flour." Fortunately Mr. Stewart had received no authority to say any thing on the subject. But I have much to say on it, and the sooner it is done in a general meeting, the better. Let a requisition be properly signed.

Let a requisition be properly signed, there is no doubt the Sheriff will call the meeting; and let the unanimous voice of the people avail them, through Petition, of that measure of relief, which the late government declared itself disposed to afford; which we have no reason to suppose the present regime would be less favourably disposed to grant.

to grant.

COLEMAN MEDICINE put up in small packages, with concise printed directions, will be kept constantly on hand.

In consequence of the Asiatic Cholera having appeared in Halifax, the Subscriber, after carefully examining the most scientific documents on the subject, has been induced to draw up a code of directions for the prevention and treatment of the disease, in order that those who live at a distance from medical assistance may be enabled to render prompt aid until they can procure medical attendance. As this awful disease runs its course, and often ends fatally in a few hours, it is absolutely necessary for families to supply themselves with all the most approved medical remedies, so that no time may be lost on the first appearance of the malady; for in fact, if the patient attends to the preliminary symptoms, and applies the proper medicines, he will almost always be successful in preventing the disease; or at all events rendering the attack much more mild and unobtrusive.

PROSPECTUS

OF A
TREATISE ON AGRICULTURE,
ADAPTED TO THE CLIMATE AND CIRCUMSTANCES OF CANADA.

A BOUNTIFUL Providence has furnished Canada with inexhaustible sources of wealth, in her most fertile soil and climate, which is by no means unfavourable to Agriculture. The due improvement of these, and other natural advantages, is capable of giving riches and every reasonable enjoyment to her people, and a vastly increasing population.

The importance of Agriculture to Canada, must be obvious to every one capable of forming a sound judgement in such matters. It is Agriculture that must afford the main supply of all our groceries, and it must in this, and in every other country be the parent of Manufactures and Commerce, and the best means of promoting civilization, and population; consequently it ever will be the most useful, and most important, to almost all nations, the most profitable and the most honorable pursuit, and the one which will derive their wealth and consequence from their property in land, cultivated and managed by the husbandman.

Agriculture, therefore, and Agriculture alone can support us without the help of others; in certain plenty and wealth. While our ground is covered with corn, and cattle we can want for nothing. Manufactures and delicacies that we may require from without, Corn and Cattle will purchase, if we will only use them in a judicious and economical manner.

The importance of Agriculture and the great interest that is consequently felt on the subject, in the British Isles, and other countries of Europe a varied and voluminous mass of knowledge has been accumulated, which would be of great service to every one who would wish to practice the art with success; himself, or understand when well practiced, for him by others. To combine as far as practicable the portion of this knowledge which I conceive to be the most useful and necessary for the study of the Canadian Agriculturist, is the object of the Treatise which I have now nearly ready for the press, and the plan of which I submit with great deference to the consideration of all those engaged in the art.

I propose to publish the work in four or five parts. The first part will give a short view of the origin, progress, and present state of Agriculture, among some of the ancient and modern nations particularly Great Britain, France, Prussia, the United States &c. I will also give a short view of the progress of the art in Canada. Not so its present state, which is calculated both to excite our curiosity and affect our interests. There is probably no country which I shall refer to, that does not possess some animal or vegetable production, or pursue some mode of culture, or management, that might be beneficially introduced into Canada; but with the exception of the countries I have named and parts of Italy and Switzerland, there are no very interesting reports of the Agriculture of other parts of Europe, with which I am acquainted at present.

The second part will exhibit a concise view of the science of Agriculture, and the principles on which the operations and results thereof are founded. The third and remaining parts, will apply these principles to the practice of Agriculture, adapting them to the climate and other circumstances of Canada; and conclude with a few observations on that portion of the trade and commerce of the country in which farmers may be directly or indirectly interested.

Convinced as I feel, that the produce of Agriculture is the only riches that the people of this country can call their own, and which they never can be deprived of, as of other riches, I am acquainted at present, that I have been engaged in the art, so little to regard its improvement, or prosperity; in fact, it is treated as a subject quite remote from common life, by nearly all who are not immediately engaged in it. They, perhaps, cannot allow themselves to believe that Agriculture alone can furnish the means by which trade and commerce can be carried on successfully in Canada.

I sincerely hope to induce all who may take the trouble of reading my book, to reflect on the great importance of the subject, and that they will join heartily in promoting necessary improvements, and thus advance the wealth and prosperity of the land of their birth, and of their choice.

As a work of this description cannot be published in English and French without incurring considerable expense, it would be necessary for me to have as many subscribers as would insure my expenses. Subscription lists will be left at the several Book Stores in Montreal. The work, I expect, will not exceed four parts, at 1s 3d. each part. The first part to be published when there are a sufficient number of subscribers to warrant the whole might be published before the first of May next, and the four parts will contain from 250 to 300 pages and may be bound in one volume. I shall do all in my power to make the book worthy of the patronage of all who desire to promote the prosperity of Agriculture, as well as of those who practice the art.

GENTLEMEN'S VADE MECUM.

EMBRACING DRAMATIC LITERATURE—SPORTING—THE TURF—FASHIONS—AND VARIOUS SUBJECTS OF INTEREST AND AMUSEMENT.

About the first of January, 1835, will be commenced in PHILADELPHIA, a new periodical, bearing the above comprehensive title. Its contents will be carefully adapted to the wants of that portion of the public who patronize DRAMATIC LITERATURE, THE TURF, SPORTING, and the FASHIONS. From the growing wealth and increasing population of the United States, and the near assimilation of the national appetite with whatever promotes the Rational recreations of Life, it is presumed that this Journal, possessing, as the projector of it will, ample means to diversify its pages, and a determination to render them subservient to the formation of a correct taste in all matters relating to its design, cannot fail to meet with a liberal and creditable support from an enlightened community in every quarter of the country. The difficulty of sketching out such a plan as might be successfully executed with any of the charms of novelty to ensure its popularity and obnoxiousness, has been not the least embarrassing obstacle which the projector of this work, had to surmount in its inception. Feeling confidently assured, however, that its success is certain, when its character becomes properly known, they have already incurred considerable expense in forming correspondents over the Union; and have also ordered regular supplies of the best selected English periodicals to be sent to sustain and enrich its columns.

It is not altogether feasible, when a new publication is contemplated, to present in detail to the public its prospective attractions. It is necessary, nevertheless, that its principal features should be drawn out as far as they can be, and if, it shall any, shall be judged. This is the more readily accomplished, the publishers being satisfied that whatever industry and a watchful zeal can effect in completing the filling up, will be done, and that they will be found deficient or negligent in the prosecution of their enterprise, and in striving to produce a beneficial and profitable result to themselves and to others.

THE DRAMA.—Will form a material portion of the Gentlemen's Vaude Mecum. It is intended to publish alternately every week, one entire play and a scene selected with a single eye to the amusement of the reader, however, will be extended in all cases, to naive productions when they can be obtained. Independent criticisms, carefully excluding all invidious comparisons, and recommended by their integrity, will be inserted.—Wide Diagrams, Sketches, Anecdotes, and Bon Mots, of prominent Comedians of the present and past ages, of which a Care and inexhaustible compilation is in store.

THE TURF.—A faithful record will be kept of all the Running and Trotting matches in this country and England.—Biographical and correct Portraits of celebrated thorough bred Horses will be published once a month. Every fact relative to the breeding, management, keeping, and the diseases of this valuable animal, will be particularly selected.

SPORTING.—Under this caption will be enumerated accounts of Shooting Matches, Feteivals, Races, Gymnastic Exercises, Amusements, Fishing, Gaming, &c. with Anecdotes of noted Dogs.

GENTLEMEN'S FASHIONS.—A quarterly review will be presented, explanatory of the various improvements and changes costumes worn in the fashionable circles constantly undergo; by which it will be rendered an easy task for drapers and tailors at a distance, to suit their customers with the most approved colors, and modern style of dress, at the earliest possible periods. Provided sufficient encouragement shall be given by this portion of the public, a full length engraving, illustrative of the same, will also be prepared and published.

MISCELLANY.—Although the purposes of our sheet may appear to be confined to the four leading subjects which have been stated—we deem it proper to say, that there will be, in addition to these, a considerable space allowed for Miscellaneous matters—such as Tales—Poetry—an Epitome of News—List of Hotels in this city, and places of Amusement—Statistics—the Grain Market—Agriculture—Prices of Stock—List of Broken Banks—Counterfeit Notes—Detectors—and all other matters, regarding which an interest may be supposed to exist at home or abroad.

This work, then, as will be seen by the above explanation of its probable character, is particularly designed as a companion for the patrons of the Turf, the Drama, Sporting, the Fashions, &c. &c. It will prove, also, as all its publication of facts will be authentic, a ready Record of Reference for Travelling Gentlemen, and should consequently be kept in every hotel in the United States. It is worthy of notice, that its patrons, in the course of one year, will be furnished with fifty-two popular Plays and Farces—the price of which, separately at any of our book stores, would be at least thirty dollars in the purchase of a well-stored Dramatic Library—to be had for an unprecedented small sum—not taking into consideration the multiplied care which it is to accompany it without additional charge. Tailors who desire to procure early and correct information of the changes in dress, will find this an invaluable guide.

THE GENTLEMEN'S VADE MECUM, &c. will be published every Saturday, on fine imperial paper, at the largest class, at three dollars per annum, PAYABLE IN ADVANCE.

By enclosing a FIVE DOLLAR NOTE to the publishers, postage paid, two copies of the paper will be forwarded to any direction ordered, for one year. It is respectfully requested that those who desire to be kept in every hotel in the United States. It is worthy of notice, that its patrons, in the course of one year, will be furnished with fifty-two popular Plays and Farces—the price of which, separately at any of our book stores, would be at least thirty dollars in the purchase of a well-stored Dramatic Library—to be had for an unprecedented small sum—not taking into consideration the multiplied care which it is to accompany it without additional charge. CAUTION.

I hereby forbid all persons purchasing a note of hand for Twenty Pounds Currency given by me in favour of William C. Hanson in the month of April 1834, and due in June 1835; for which I have never received value, and therefore I will not pay.

ELIAS POSTER.

RE-PUBLICATION
OF THE
LONDON, EDINBURGH, FOREIGN, AND
WESTMINSTER
QUARTERLY REVIEWS.
Plan of the Work.

The numbers of each work are published separately, and form an exact reprint of the original copies. They are issued as soon after they are received from Europe, as is consistent with their proper publication.

Price for the whole series, comprising the regular numbers of the London, Edinburgh, Foreign, and Westminster Reviews, 88 per annum.

To those who take less than the whole, the terms will be as follows:—
For three of them \$7 per annum.
For two " 5 "
For one " 3 "

These subscriptions are invariably to be paid within three months of the time of subscribing. From this rule there will be no deviation.

Subscribers at a distance must enclose at least one half of a year's subscription in advance, otherwise a second number will not be sent—the terms being so low as not to justify any hazard in obtaining payment.

The cost of these works when imported is \$32. Of the three at present republished, two of them alone, the London and Edinburgh, cost \$10. The Westminster, not being re-published, can only be obtained at the importing price, 88 per annum, or \$2 per number. The Foreign Quarterly is re-published in weekly parts in connection with two other periodicals. When obtained separately, its cost is the same as the Westminster.

TO MAIL SUBSCRIBERS.
Mail subscribers will be furnished with the numbers of this publication free of postage, upon the following terms, to wit:
For either of them \$4 per annum.
For two " 6 "
For three " 8 "
For four " 10 "

The publisher is only enabled to do this by saving the expense of agencies, consequently communication must be made with him personally, or by post.

It will be seen by these conditions, that the subscriber who receives all four of the Quarterly, will obtain them for \$6 exclusive of postage, or \$2 cheaper than he otherwise could; the postage being about \$4 per annum, or 25 cents on each number that is forwarded upwards of one hundred miles.

Postage will not be paid on any number unless payment is received for at least one year's subscription in advance, according to the terms, as here given.

No letters will be taken from the post office, unless sent free of charge.
