Food by rail, Capital required, Frazing, 50 cents per head,

This reflection on our own enterprise brings with it the subject of outside help. Are we doing all we could to secure the monied farmer from Europe? That room is very straitened in Britain among farmers, and that there is plenty of it in Canada, needs no explanatios. I hold the position I took some years ago, that the new home of the monied farmer from Europe is not some years ago, that the new home of the monied farmer from Europe is not some years ago, that the new home of the monied farmer from Europe is not so much our new lands as the older parts of the Dominion.

This reflection on our own enterprise brings with it the subject of outside help. Are we doing all we could be formed to secure the monied farmer from Europe is plenty of it in Canada, needs no explanation. I hold the position I took some years ago, that the new home of the monied farmer from definitely what cause it the trouble, we might be able to tell our correspondents have to relieve their sheep, but, not knowing the cause in the cases between the two, produces tubers, which others take a facturera of grave stones and monuments which the soil and produces tubers, which others take a facturera of grave stones and monuments. Air-slacked lime should be furnished fowls for forming egg-shells in obtained.—Poultry Messenger.

Cultivation has improved the size of the tubers, which now grow about as large as a hen's egg. They have might be able to tell our correspondents to tell our correspondents to tell our correspondents to tell our correspondents to tell our correspondents. Air-slacked lime should be furnished fowls for forming egg-shells in the two, produces tubers, which of the two, produces tubers, which others take a path winding between the two, produces tubers, which others take a facturera of grave stones and monuments. Air-slacked lime should be furnished fowls for forming and the furnished fowls for forming the winding between the two, produces tubers, which of the two, produces tubers, which of the two, produces tubers, which of the tw

elean truth and nothing more. Farm Horses. Among the many devices for sav-ing and concentrating labor, we find steam machinery occupying numerous where the sheep can get at it at all and plows are drawn by steam on fear of sheep eating more than they some Western farms. But while for really need if they are supplied in

connection is greater than in almost any other kind of stock. A good team any other kind of stock. A good team of horses is worth through the year nearly as much as the labor of an able-bodied man during that period. Under proper conditions, whereby a pair of horses are enabled to perform a good day's labor every working day in the year, this labor is worth much adelivered in St. John during the present season, was that of Prof. Brown of the Ontario Agricultural College.

any other kind of stock. A good team of horses is worth through the year nearly as much as the labor of an able-bodied man during that period. Under proper conditions, whereby a pair of horses are enabled to perform a good day's labor every working day in the year, this labor is worth much more than the product of the same feed given to any kind of stock. The labor of the hired man has to be naid land near the source of the water excreta er "Gasta" of the

and initiation, but to sell off every year, do,000,000 pounds of mutton and 3, and 40,000,000 pounds of wool—an annual gross revenue of, say \$3,000,000.

This is no wild speculative calculation, but one basis upon my-own handling and port one. From this cost may be defined the same subject in Scotland and Ontario and upon the experience of the same subject in Scotland and Ontario and upon the experience of the same subject in Scotland and Ontario and upon the experience of the same subject in Scotland and the vicinity. The subject has two aspects—an inside one there Canadian flook matters. The subject has two aspects—an inside one the flook, at the bringing from a distinguishment of the same subject in Scotland and an oquishle one; the system of breeding, rearing and finishing all content of the subject has two aspects—an inside one the flook, at the bringing from a distinguishment of the subject has two aspects—an inside one the flook, at the bringing from a distinguishment of the subject has two aspects—an inside one the flook, at the bringing from a distinguishment of the flook, at the bringing from a distinguishment of the flook, at the bringing from a distinguishment of the flook, at the bringing from a distinguishment of the flook of the fl

of men and leaving them dide half the time; but in proportion to their work the feed of well-kept horses is as coatly as the wages and board of a hired man.

An equal and quite as common a mistake is the keeping of horses too poor in quality and too low in condition. A team is not employed to work alone, and hence an inferior

are, and provided by the post of the following direct Tursday, the Fourist day of December next.

AYER'S Cherry Pectoral.

attack as those affecting the throat and lungs; none so trifled with by the majority of suffernone so triples with by the majority of suffer-ges. The ordinary cough or cold, resulting perhaps from a trifling or unconscious ex-posure, is often but the beginning of a fatal sickness. AYEN'S GREENT PROTORAL has well proven its efficacy in a forty years' sight with throat and lung diseases, and should be taken in all cases without delay.

A Twrethle Cough Gured,

"In 1887 I took a severe cold, which affected
my lungs. I had a terrible cough, and passed
night after night without alsep. The doctors
gave me up. I tried Avran's Curanay Prorobal, which relieved my lungs, induced
alsep, and afforded me the rest necessary
for the recovery of my strength. By the
continued use of the PECTORAL a permanent cure was effected. I am now il years
old, hale and hearty, and am satisfied your
CHERRY PECTORAL SEVENTERS."

Rockingham, Vt., July 18, 1862.

Oroup. — A Mother's Trimes "While in the country last winter to boy, three years old, was taken all with the lation. One of the family suggested the se of AYER'S ORRERY PEOTORAL a bottle of AYER'S ORRERY PEOTORAL a bottle of which was always tept in the last. This was tried in small and frequent close, and to our delight in less than laif endows the little satisfit was breathing easily—the doctor said that the CHERREY FYF at had saved my darling life. One was "worker at our gratitude? Bineerely yours." Dur gratitude? Bineerely yours, Mrs. EMMA GEDREY." 159 West 128th St., New York, May 18, 1882. "I have used AYER'S CHEERY PECTORAL in my family for several years, and do not hesitate to prenounce it the most effectual remedy for coughs and cold we have ever iried.

Lake Crystal, Minn., March 15, 1882.

"I suffered for eight years from Bronchitis, and after trying many remedies with no success, I was cured by the use of AYER'S CHEER-RY FROTORAL.

JOHN WALDEN."

"I cannot say enough in praise of AYER'S CHERRY PECTORAL, believing as I do that but for its use I should long since have died from lung troubles.

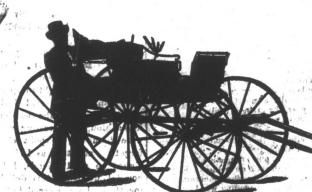

E. BRAGDOM,"
Palestine, Texas, April 22, 1882, No case of an affection of the throat or lungs exists which cannot be greatly relieved by the use of Aver's CHERRY PECTORAL, and it will always cure when the disease is not already beyond the control of medicine. PREPARED BY Dr. J. C. Ayer & Co., Lowell, Mase.
