The Parkhill Gazette says:—Wm.
A. Campbell, of Stratford, has been
recommended by the Dominion Civil
Service Commission for appointment
to the position of Postmaster of
Stratford, left vacant by the death
of the late David Evans, according to
indirect word received last week.
His appointment will no doubt be of-
ficially announced shortly. Accord-
ing to the act passed by the Union
Government some years ago, which
is now in force, no civilian is eligible
for any civil service position in Can-
ada. A veteran of the great war
must be appointed.

Mortgage Sale

Valuable Farm Property
in Township of EKFRID

Under and by virtue of the powers
contained in a certain mortgage,
which will be produced at the time
of sale, there will be offered for sale
by public auction on the premises at
3 o'clock in the afternoon on FRI-
DAY, JULY 18, 1924, the following
property, namely:
In the Township of Ekfrid in the
County of Middlesex and Province of
Ontario, containing one hundred
acres more or less, and being com-
posed of the West Half of Lot Num-
ber Sixteen in the First Range North
of the Longwoods Road in the said
Township of Ekfrid.

This property is situated on the
Longwoods Provincial Highway, con-
venient to markets, churches and
schools. The land is a rich and pro-
ductive clay loam and on the prop-
erty is a frame dwelling, frame barn
and other improvements in good re-
pair.

Terms of Sale.—One-tenth of the
purchase price to be paid down at
the time of sale and the balance
within three weeks thereafter. The
property will be offered subject to a
reserve bid and to conditions of sale
which will be announced at the time
of sale.

For further particulars apply to
ELLIOTT & MOSS, Vendor's Solicit-
ors, Glencoe, Ontario, or T. V. RID-
LEY, Auctioneer, Arkona.

DISTRICT AND GENERAL

A St. Thomas fruit merchant was
fined \$5 for selling mouldy berries.
Petrolia races advertised for last
week were postponed on account of
rain.

Charles W. Stuart, prominent citi-
zen of Forest for over 50 years, died
last week, aged 72 years.

While working in a gravel pit Ivan
Macaulay, a young man of Euphemia
township, fractured his arm.

E. Lashbrook, of Rodney has been
appointed a Justice of the peace in
and for the county of Elgin.

Forest town council has purchased
a new combination oil and water
sprinkling wagon at a cost of \$600.

Hon. Finlay G. McDermid, of the
Provincial Good Roads Department,
advocates a tax on gasoline as one
of the means of raising road building
funds.

The Canadian Weekly Newspaper
Publishers have been invited by the
Premier of Manitoba and the city of
Winnipeg to hold their convention
next June in that Western city.

C. A. Halls, who has been appoint-
ed postmaster of West Lorne, is sit-
ting up the premises in the McKillop
block, formerly occupied by the Mer-
chants Bank, as quarters for the of-
fice.

The London Labor Party is direct-
ing to Premier Ferguson and the
Board of Education a strongly-word-
ed resolution condemning the cadet
movement as militaristic and calling
for its abolition.

Andrew Wilson aged 63, was acci-
dently drowned in the Lily pond at
Queen's Park, London. He was sit-
ting on the curb of the pond, when it
is believed he was seized with a
fainting fit and fell in.

The barns of Geo. Lightfoot, who
lives south of the village of Napier,
were destroyed by fire during an el-
ectrical storm. There were two barns
and a shed. The buildings
were empty. The loss is partially
covered by insurance.

While Mr. and Mrs. Pat Gooding
were attending church on Sunday
thieves entered their home and took
a quantity of provisions which had
been prepared for a bee to be held
the first of the week. Everything
was taken without reserve.

Under the Ontario Motor Vehicles
Act every one who drives a motor
car or truck for pay or gain and also
any one between the ages of 16 and
18 years, who drives his own or his
parent's car, must have a license
apart from the owner's license.

While excavating in a gravel pit
in Bosanquet township, six skulls
and other bones of human beings
were unearthed. The jaws were
very large, with strong white teeth.
The skulls were found inside a space
about two feet square lying on top
of a lot of big bones.

Honoring J. E. Cobban and his
bride, formerly Miss Pearl McLean,
of Stratford, neighbors and friends
of Muncey met recently at the home
of Mr. and Mrs. Thos. Collins, where
the bride and groom were presented
with a handsome clock, a case of flat
silver and a fountain pen.

The other night Mrs. A. Leitch and
her neighbor, T. McCaffrey, of Dut-
ton, left their milk bottles on the
steps of their homes with one dollar
in each for the milkman, but in the
morning the money was gone, having
been stolen during the night.

In the province of Ontario there
are 44 counties, 506 townships, 263
towns and villages and 24 cities. In
a list of 51 towns in Ontario, pub-
lished by the Dundas Star, Walk-
erville has the highest total taxes per
head of population at \$59.64, and Car-
leton Place the lowest at \$17.44.

There are upwards of 100,000 peo-
ple in Canada actively engaged in
converting the products of the forest
into wealth in some form or other,
and with the families they represent
this means that more than half a mil-
lion people in the Dominion are de-
pendent on the forest for their living.

Close-fitting paper caps may be
presented to bobbed hair damsels as
they enter the theater with the re-
quest that they wear them during
the performance. The innovation
comes as the result of numerous
complaints regarding the difficulty of
attempting to see when seated be-
hind a fuzzy-haired damsel.

The recent discovery by means of
drilling of a large and valuable de-
posit of pigment clay within the lim-
its of Arkona village opens a field of
possibilities not possible to estimate.
The deposit, believed to approximate
10,000 or more tons, is considered but
the initial discovery to be made in
the district. The clay is of that par-
ticularly valuable inorganic clay of
the group of hydrates and hydroxides
which includes yellow ochre, raw
umber, raw sienna and capbar-
brown.

DOMINION CHAUTAUQUA

This Popular Annual Event in Glen-
coe Opens on Saturday

Glencoe's annual Dominion Chau-
taqua will open Saturday afternoon
at three o'clock. The big tent ar-
rived from the Toronto office today
and will be placed on the public
school grounds. At a committee
meeting Monday night the report on
season ticket sale was very favor-
able, and everything will be in readi-
ness for the opening Saturday.

The time for the programs
throughout the four-day course will
be as follows:—Children's hour, 10
a.m.; afternoon, 3 o'clock; night,
8.15.

It is urged that the public give the
local committee its unstinted sup-
port by purchasing season tickets,
which are on sale at the downtown
stores.

TEACHING STAFF CHANGES

The three lady teachers in the
Glencoe public school, who have
been doing successful work here for
several years, tendered their resig-
nations to the board last week to ac-
cept city school positions. Miss
Marsh is taking a school at Toronto.
Miss McLachlan will be on the teach-
ing staff of the Windsor schools and
Miss Morrison on the staff of the
Ford City schools. The Glencoe
board has engaged the following
teachers to fill the vacancies:—Third
room, Miss Agnes McEachren; sec-
ond room, Miss Florence Keith; first
room, Miss Frances Sutherland.

MIDDLESEX W. C. T. U.

A definite stand against the intro-
duction of Government control of
liquor in Ontario was made by the
Middlesex County Women's Christ-
ian Temperance Union in a resolu-
tion passed at the annual meeting
held in Stratford on Wednesday and
Thursday.

In the election of officers for the
ensuing year Mrs. Ada McG. Potter,
of Wardsville, was made president;
Mrs. D. Ellwood, of Wardsville, cor-
responding secretary; Miss Manning,
of Parkhill, recording secretary, and
Miss A. Ramsay, of Mount Brydges,
treasurer.

Miss Rivers, of Parkhill, was the
winner of a gold medal for oratory.

HAYING IN MIDDLESEX

Haying, which has been under way
in Essex and Kent for several days,
is now going on in Middlesex, al-
though it is not yet general. The
average yield, except of timothy, will
be fairly good although not heavy,
according to Agricultural Representa-
tive R. A. Finn, of London. "I
have passed three fields which were
being cut during the past day or
two," said Mr. Finn. "One was in
the coil and looked like a fair crop.
As far as could be judged from the
stand and the thickness on the
ground the others were a fair aver-
age crop also. Timothy is poor
and a lot of the clover is uneven.
The acreage of alfalfa in the county
has doubled within the last year or
so, however, and a good second cut-
ting will help out materially."

ELECTED PRESIDENT TORONTO BOND EXCHANGE

FRED G. JOHNSTON, formerly
Vice-President of G. A. Stinson &
Co., who has recently accepted the
appointment as President and Gen-
eral Manager of the TORONTO
BOND EXCHANGE.

Mr. Johnston entered the bond and
banking business over sixteen years
ago and has specialized in Govern-
ment, Municipal and Canadian Na-
tional Railway Bonds. He is a son
of the late Judge Johnston of South
St. Marie, Ontario, and received his
education at Trinity College, Port
Hope and Upper Canada College,
Toronto.

HYDRO-ELECTRIC RATES LOWER

Material Reduction in Service Charges
for Glencoe Announced

The Ontario Hydro-Electric Power
Commission announces a material
reduction in lighting and power rates
for Glencoe, as follows:

Housepower rate to village reduced
from \$7 to \$6.50.

Domestic—Present floor rate dis-
continued, and in lieu thereof a uni-
form service charge of 30c per month
to all consumers. Reduction in rate
from 5c to 3.5c for first 60 k. w.
hours; from 3c to 1.75c for all addi-
tional power used per month. Mini-
mum remains at \$1 per month. Dis-
count for prompt payment 10 per
cent as at present.

Commercial—Reduced from 10c to
7c for first 50 k. w. hours; from 5c
to 3.5c for second 50 k. w. hours; all
additional, 1c per k. w. hour, same
as before.

Power.—\$1 per h. p. for connected
load, same as before. Consumption
rate fixed at 6.1c for first 50 k. w.
hours, 4.1c for second 50 k. w. hours,
and 0.5c for additional k. w. hours,
which is a reduction of 1c on first
cost, 6c on second cost and 6c on
third cost.

Streets.—A reduction from \$18 to
\$17 per year on each 100 watt light.
The new rate for streets applies
from January 1st, 1924, and all other
from June 1st, 1924.

AUTO ACCIDENT AT MELBOURNE

While crossing the street at Mel-
bourne on Friday evening at seven
o'clock, Mrs. Annett, aged 86 years,
of that village, was knocked down
by a motor car and so badly injured
that no hope is held out for her re-
covery. Being about to cross the
street the aged woman stepped from
behind a parked car into the path of
another car containing a party from
Waterloo. The party of motorists
and others went to the assistance of
Mrs. Annett immediately and carried
her into her home. Medical aid and
a trained nurse were called. On ex-
amination it was found that Mrs. An-
nett had one limb broken at the hip,
three ribs broken, shoulder frac-
tured, skull badly fractured and body
very badly bruised. Several citizens
who witnessed the accident state
that the driver did his best to avoid
the accident and was in no way to
blame.

REDUCTION IN FEED PRICES

Following upon representations
made by the committee of agricultur-
al inquiry of the Ontario Legislature,
the Dominion live stock commission-
er has secured a reduction of 2c per
ton in the price of feed at the Tor-
onto stockyards.

As the first tangible result to some
from the work of the committee,
which has only been in progress
since the close of the Legislature
session, the reduction is looked upon
with satisfaction by the committee
members. It is not, however, re-
garded as entirely adequate and far-
ther cuts, both in feed and yardage
costs, will be sought with a view to
restoring confidence amongst agricul-
turalists in the province's live stock
market. The Dominion live stock
commissioner promises co-operation
with the agricultural inquiry commit-
tee in any way that may seem most
desirable.

CALEDONIA SOCIETY OFFICERS

The Caledonia Society of Middle-
sex and Elgin has elected the follow-
ing officers:

President—J. C. Elliott, K.C., Lon-
don.

Vice-president—Neil McLachlan,
St. Thomas.

Chief—Judge D. C. Ross, St. Thom-
as.

Chieftain—P. J. Watt, London.

Secretary—Ross McPherson, St.
Thomas.

Treasurer—John Stuart, London.

TEACHERS FAREWELLED

On the occasion of their resigning
to accept positions elsewhere the
lady teachers of Glencoe public
school were tendered a farewell by
their pupils in Miss McLachlan's
room on Friday afternoon.

Three presentations were made by
the pupils—to Miss Tena Marsh, an
ivory clock; to Miss Jean McLach-
lan, silver coffee spoons, and to Miss
Margaret Morrison a silver pickle
fork and kerchiefs. Addresses were
read to the teachers respectively by
Jean Reith, Wynifred McDonald and
Janet McMurphy, and the presenta-
tions were made on behalf of the pu-
pils by Faye Waterworth, Leah
Tomlinson and Marion McDonald.

A belt or pair of suspenders free
with each pair of pants sold at La-
mont's this week.

MRS. ROSS McEACHREN

Unexpected Death in Detroit of Es-
teemed Glencoe Lady

The death occurred in Harper Hos-
pital, Detroit, on Sunday night of
Kathleen C. Genge, wife of W. Ross
McEachren, of Birmingham, Mich.,
who up to a few weeks ago resided
on the Longwoods Road. Mrs. Mc-
Eachren had not been in the best of
health for some time, and a week or
two ago after visiting her mother at
Alvinston, who is seriously ill, went
to the hospital for treatment, where
her death took place quite unexpect-
edly and was a great shock to her
friends.

Deceased, who was in her 30th
year, was born at Alvinston, where
most of her life was spent. She
came to Glencoe a few years ago
and taught in the public school for
some time and afterwards was united
in marriage to Mr. McEachren. Sur-
viving are her husband and two
small children, also her mother, Mrs.
Susan Genge, of Alvinston, and a
sister, Mrs. Samuel Howard, of Kit-
chener.

The remains were brought to Al-
vinston on Tuesday evening and the
funeral was held from the residence
of P. A. McDermid to Alvinston
cemetery on Wednesday afternoon.

Mr. McEachren and his little fam-
ily have the deepest sympathy of a
large circle of friends and acquaint-
ances in this community in their be-
reavement.

on Sunday.

Mrs. Wilkie and four children, of
Mawer, Sask., are visiting her sister,
Mrs. Alex. Crawford.

Khaki pants at reduced prices this
week at Lamont's special sale.

"When Hearts Command"

By ELIZABETH YORK MILLER

"When hearts command,
From minds the sagest counsellings depart."

CHAPTER XXIII.—(Cont'd.)
Hugo and Alice tried to comfort her without avail, until Alice found an ear and whispered that she wouldn't leave her precious mother, that she wouldn't get married, they'd send a telegram to Philip telling him it was all off. Then Jean came to her senses and started explaining. All that was the matter with her, she said, was Uncle John's bluffing the Italian bank into believing that he had a fortune and wasn't allowing him to draw ten thousand lire on the strength of it. And he didn't know yet whether it was true or not.

Hugo began to laugh.
"But you've been worried about it yourself," she said sharply.
"Not about that I haven't," he said. "You've been worrying about something. What else could it have been?"

"If you don't know I'm not going to tell you." He stopped laughing and looked very cross. "Here—gaze on that!"

He took a crumpled paper out of his pocket and handed it to her.
It was a brief note from the local bank to say that they'd had their telegram from Mercer's; it was quite all right. The balance of the \$5,000 cash was safe right here in Bordighera.

As is usual, relief turned to indignation.
"When did this come?" Jean demanded.

"Last evening. A boy brought it up," Hugo replied.
"Why didn't you tell me?"

"I dunno. I didn't think."
"But I've been nearly mad with anxiety!"

Hugo shrugged his shoulders.
"I don't see why," he grumbled. "I've told you all along that it was safe enough. I don't see why you couldn't believe me."

As usual, she had tried to cross a bridge that didn't exist.
"Could we take a little walk, mummy darling. Not too far, of course, and you might put on my tennis shoes."

Mrs. Carnay's rather tired face broke into bright smiles.
"I'd love a walk," she said. "But first I must find out what Uncle John means to do."

"Without hurting his feelings, could we leave him behind?" Alice asked quickly.

Her mother nodded. There was no need for explanations. This was her very last evening with Alice before life changed entirely, and the fact that her daughter wanted to be alone with her for a little while was natural enough. They had been so rushed getting ready for the wedding, and while there was still another day before the two ceremonies took place, tomorrow would be another rush with Philip Ardeyne at the end of it and anxious to claim Alice and make up for what he had lost of her society.

Mrs. Carnay trotted into the house and found Hugo at the writing bureau in the salon submerged in a sea of calculating. He was a picture of virtuous, clerical energy, his shoulders

humped over the task, his near-sighted gaze bent upon long columns of figures, his lips severely pursed.
"Well, my dear, what is it?" he inquired when Jean had stood by the desk a moment a little loath to interrupt him.

"I only just wanted to know if you'd mind if Alice and I went for a stroll," she replied.

Hugo did mind, since the request so pointedly left him out, and he hated to be left out of anything, but he gave her a grudging permission.

"I dare say I can manage without you for an hour or so. But don't be too long. I want to tell you what I'm planning to do."

"It's the last chance I'll have to be alone with Alice," Jean faltered.

"Oh, I'm not a bit hurt," Hugo assured her.

Jean was silent as they climbed up through the old town, and then farther up to the groves above Sasso.

They sat down to rest beside the path looking towards Monte Nero, the hillside falling away sharply at their feet into a dark gorge, from which came the tinkle and murmur of water rushing over stones. "Black Mountain," indeed, with its hooded crest of sable firs. How lonely it must be up there at night—yet how beautiful.

Jean thought that she would not be really lonely if someone she loved were there. But Hector Gaunt had no body for company, unless one counted old Maria. Hours and hours and hours he spent alone on that mountain-top.

A great log came sailing majestically across the valley from the western slope to the sawmills at Sasso. The steel cable which carried it was almost invisible, and it looked like some new form of aircraft.

"Look!" Alice cried. "There's a man on it! I wish we could get on one and pay Mr. Gaunt a surprise visit." She reached out and squeezed her mother's hand.

"I've never met—except Philip, of course. I'm glad you're going to stay here for a little while, mummy darling. I'll feel happier, somehow, knowing that Mr. Gaunt's keeping an eye on you."

"Will you dear?" Jean asked wistfully.

"You're such a little mother. You need looking after. I'm being so selfish in leaving you!"

"No, you're not," Jean said, her voice bright and quick. Alice mustn't guess for a moment how desperate she was feeling about this parting. "I can't tell you how thankful I am that you've found such a good man. And I want you to be just the happiest girl in the world. As soon as you're nicely settled in your new home I'm coming to pay you a long visit. Dr. Ardeyne asked me, and he also asked Uncle John!" said Alice thoughtfully.

Twice Alice had said "Poor Uncle John!" Would it be too risky to ask her why she thought of him as an object of pity? Since that night when she had asked her terrible questions, Alice had avoided personal reference

WRIGLEYS

after every meal

Its 1-a-s-t-i-n-g flavor satisfies the craving for sweets.

Wrigley's is double value in the benefit and pleasure it provides.

Sealed in its Party Package.

The flavor lasts

to Uncle John. So had her mother. Just the one word "madhouse," or the suspicion of it as figuring in Hugo's past might have altered the whole situation. Alice was so terribly conscientious. She would have insisted upon being told how it might affect herself, since madness runs in families. Oh, there had been so many near shaves, and even now when everything—including Alice's suspicions—seemed lulled into security, an upset might occur at the last moment, at the very altar itself. Jean knew her daughter. Jean was a will of iron, and even love itself would not shake her convictions as to right and wrong.

Why—Mrs. Carnay reflected with acute dismay—if Alice knew the real secret of her birth she was quite capable of breaking her engagement without a single word of explanation to anybody.

It was like a beautiful castle built of cards—a breath could destroy it.

"Sometimes I feel I have no right to be so happy," Alice said slowly. "What have I ever done to deserve it?"

"You've been the best daughter in the world," protested Jean, half choked between emotion and her heavy sense of guilt. "It's I—I, who don't deserve anything!"

"But you're not getting anything, mummy dear. And you are the one who deserves everything, the world could give anybody. Don't think because I'm getting married and it looks

sharp.

But Jean did not reply.

(To be continued.)

as though we'd be separated, that we really will be separated. Letters are wonderful things and there'll be visits. Perhaps you'll come to live in England. I'll have Philip, but I can't do without my mother. You see how selfish I am. If I thought I'd have to do without you!

"Oh, you won't! Yes—yes, I'll come to England. I must be near you, particularly—in case—" Old-fashioned Jean blushed, faltered, and broke off self-consciously.

But Alice was of a generation which looks nature in the face and sees no reason to make secrets of its laws.

"Yes, if I have a child—children—I'd want you, mummy."

Jean squeezed her hand.

"I can't realize it—that it may be possible. Why, you're only a baby yourself! You aren't even married yet. It doesn't seem quite—quite—"

"Oh, darling, how funny you are!" Alice laughed heartily now. "Why, Philip discusses children."

"Not with you!" Mrs. Carnay was horrified.

"Yes, with me, mummy, darling."

"But—"

"He talked so beautifully, it simply made me want to weep."

"How do you mean? What could he have said? Really, Alice—"

"All about the great responsibility of parenthood. How nobody, no intelligent man or woman, had any right to bring children into the world unless they could guarantee them a clean bill of health—mental and physical."

Jean shivered. "I cannot understand any man talking like that to the girl he's going to marry," she said. "But Alice was unperturbed by this criticism."

"Philip's a doctor," she reminded her mother. "He sees a great deal of the misery that parents do inflict upon their children merely by bringing them into the world."

"My dear, those things are better left to a Higher Being."

"I don't believe," Alice said slowly, "that leaving things to chance is the same thing as leaving them to God."

The sun had gone down, and suddenly it was quite chilly. Monte Nero was like a giant shadow, and the little white farm gleamed ghostly in the twilight. A light shone from one of the windows. That would be Hector's dear, untidy sitting-room, the room in which Jean could not help remembering he kept her photograph to bear him company. While Alice and she had been wandering about from pension to pension, Hector had always been there on his mountain-top.

"We must hurry," she said, "or it will be dark before we get home. I hope Uncle John hasn't got into any mischief."

"Why should he?" Alice asked sharply.

But Jean did not reply.

paper held as much above your eyes as you would usually hold it below and you will realize that your field of vision is much better downward than upward. Strip them clear of everything. Let the light come in and you will not realize that you are on the better side of forty."

REMOVING SUMMER STAINS.
Now is the time one must watch most carefully for fruit stains on the table linen and light dresses. If before sending articles through the laundry all fruit stains are well dampened with alcohol or camphor all traces of discoloration will have vanished after they are washed.

If the children get grease from the car or tractor on their clothes, spread butter or lard evenly over the spots and let it remain until the grease is soft, then wash with soft, soapy water.

To remove blood stains, soak the spots in salt water, wash and rinse in the usual way.

Grass stains may be removed by saturating the spot with kerosene before washing the garment in the usual way.

For tea or coffee stains, soak the stains in cold water, wring, spread out and pour a few drops of glycerine on each spot. Let it stand several hours, then wash with cold water and soap.

In removing iron rust, soak the stain with lemon juice, sprinkle with salt and bleach for several hours in the sun.

Mildew stains should be soaked in a weak solution of chloride of lime for several hours and then rinsed in cold water.

There are some fruit stains that will disappear if the fabric is stretch-

ed tightly over the top of a bowl or pan and boiling water is poured slowly on the stained places.

CHOCHECHERRY SANDWICHES.
When our four families gathered for a picnic by a little stream of water under the trees, our chokecherry sandwiches were extremely popular.

It all happened on a rainy day when nothing else could happen. We were making chokecherry jelly, the best jelly in our cellar, when we put our heads together and decided to make chokecherry jam out of the remains.

We squeezed some of the pulp through the sieve and some through the potato ricer and then mixed it with some apple pulp. We added sugar and put the mixture on the stove. The longer it cooked the better it tasted. We stood around the kitchen, spoons in hand, for a good part of the day. Then we cooked it some more, let it stay on the back of the stove all night, and the next morning we tasted it all around again, and made sandwiches of it for the picnic.

Since then we have done some experimenting to find what proportions are best and these are our conclusions: About one-eighth as much chokecherry as apple is best of all. The bitter taste which the cherries on the bushes have turns into a delicate, aromatic one when used as flav-

oring, and the coloring is rich.

Blue Whale's Size.
The blue whale sometimes attains 90 feet in length and 140,000 pounds in weight.

No divinity is absent if prudence is present.

Woman's Interests

1003 Handmade Frocks of Dotted Voile

Simplicity is the keynote of this dainty frock, suitable for all occasions and cool as summer breezes. Sleeveless one-piece slip-on dress with long drooping shoulders falling in graceful folds under the arms. Pretty round neck slightly gathered. Slashed at shoulders and finished with plait edging or rick-rack braid tends to beautify the model. Summer silks, voiles or gingham, are good for this becoming frock. Girls' dress No. 1003 cut in sizes 6 to 14 years. Size 12 requires 3 1/2 yards 36 or 40 inch material.

Pattern mailed to any address on receipt of 20 cents in silver, by the Wilson Pattern Service, 73 Adelaide St. West, Toronto.

DON'T SHUT OUT THE DAY-LIGHT.

Mary Drake was not an old woman—only just the other side of forty. It was annoying to find that her work was slowing up because she no longer could see as of old. She said as much to the doctor who stood in her kitchen for a moment after dropping in to see Grandpa Drake.

The doctor's reply was to reach his long arm up to the top of the dark green window shade and lift it from its fastenings; then he crossed to the north window and did the same thing there. To Mary's great surprise her

For Sore Feet—Minard's Liniment.

The Perfect Pet.

"There's Clem at last," said Nancy at the window. "I knew she had to stop at Mrs. Bonnard's on the way, but—Why, Clem! What have you been doing? What's the matter with your hand?"

Clementina, entering breathless, dropped into the nearest chair. Her left hand was gloved; her right gloveless, was wound in a handkerchief upon which a pink spot was brightening to crimson. She did not answer directly; instead she announced: "I have just discovered my mission in life. It is to found a Society for the Prevention of Cruelty from Animals. It's needed."

"Oh!" exclaimed Mildred, enlightened. "Mrs. Bonnard's parrot?"

"Pretty Polly," assented Clementina ironically. "Nice Polly! Polly want a cracker! Scratch Polly! Well, I thought I'd be obliging to a poor dumb creature, no it wasn't dumb, but I wish it had been—and I did scratch Polly. Polly poked her head down to be scratched and made the bird version of a pur in her throat, and I was still amiably scratching when she twisted her wicked green neck half round in a flash and nearly bit off my thumb. Nice Polly! And when Mrs. Bonnard came down she merely observed airily that she was afraid Polly had nipped me, but I must forgive the poor, dear darling bird; it was as gentle as a dove with her, because it loved her,— 'Didn't oo, Pollywoolykins?' Pious little bird, 'es, oo did!'—but strangers always made it nervous, and sometimes it forgot its manners 'less a tiny bit, poor Polly. Polly didn't understand!"

Nancy, laughing, unwound the stained handkerchief. "I'm going to do this thumb up properly," she said. "It's quite some—peck! Mrs. Bonnard didn't really talk baby talk, did she, Clem? She can't be such a goose!"

"Indeed she can," Milly said before Clementina could answer. "I've heard her talking much to that hateful bird myself. And she ought either to wring Polly's neck or placard the cage 'Dangerous!'"

"When my new society is founded," Clementina said firmly, "she'll have to. She will be notified to that effect on a blood-red post card, printed with a black jaw and a skull and crossed drumsticks!"

"I'll join that society of yours, Clem," said Nancy. "My friends' dogs are the bane of my existence. They don't bite, but they bark and bounce and put their dreadful forepaws on my shoulder,—I'm so absurdly little, you see,—and everybody just laughs, but it leaves me in a nervous tremble all over. Anyone who owns a bouncy dog ought to get a black-paw warning to teach it manners or—"

"I'll teach your manners anyhow! I never knew you truly minded, Nancy," interrupted Mildred compunctiously. "Now with me it's cats. Not that I'm afraid—I plain don't like them, and they're always shedding hair, and your hostess always politely implies that you're reprehensibly failing to appreciate a privilege if you tip one out of your lap. Cats and callers aren't comfortably compatible nine times out of ten."

"O Milly, I think you're mistaken! Cats are so cozy; I'm sure most people like to have them about—"

"Lots don't. If puss doesn't jump up till invited, well and good; but every owner of a presumptuously familiar feline should be blackpawed just as promptly as the possessor of an obnoxious dog. Sooner, because dogs are splendid creatures even when they're rather nuisances, but cats—"

"Don't you malign cats! They're infinitely more refined and dainty housemates than dogs ever—"

"Hush, hush, my children! Mustn't quarrel!" remonstrated Clementina. "As for me, I propose to champion the safe, sane, suave and irreproachable goldfish. He never bites, barks, bounces, molts hairs or invades laps; he is always decorative and decorous although undoubtedly addicted to the flowing bowl—and never brings disgrace upon his possessor. In short, being absolutely unimpetuous and unpettable, he is the one perfect pet!"

An Unaccustomed Word.
The two laborers had a hobby, in common with thousands of their fellow working men. It was racing.

They stood idly chatting together on matters of national importance.

"Say, Jim," asked the first man, "what's going to win the three-thirty today?"

"What about Saucy Sally?" suggested the other.

"What about work?" chimed in the voice of the foreman, who happened to come along at that minute.

"Work?" queried the first speaker, never heard of it. Who trains it?"

Knew His Business.
The elevator boy was green at the job. Two passengers, a man and a woman, got on at the street floor. Ninth, said the latter once they were fairly started. Sixth, said the man. The car sped by the sixth floor and landed at the ninth. On the way back the man said, "Why in thunder didn't you stop at the sixth floor? The sixth is lower than the ninth." "I know that," said the elevator boy, "but the lady said 'Ninth' first."

Vanilla from Jamaica.
The island of Jamaica has become a source of supply for vanilla flavoring extract.

The Busiest Volcano.
Kilauea volcano in Hawaiian Isles is said to be the most continually active volcano in the world.

Rinso
FOR THE FAMILY WASHING

For every wash-day method

RINSO is ideal for any wash-day method you use. You do not have to change any of your usual habits—just use Rinso where you used to use ordinary soap.

If you like to boil your white cottons, Rinso will give you just the safe cleansing suds you need in the boiler. If you use a washing machine, follow the advice of the big washing machine manufacturers—use Rinso.

Just soaking with this new kind of soap loosens all the dirt until a single rinsing leaves the clothes clean and spotless.

However you do your wash, make it easy by using Rinso.

Rinso is sold by all grocers and department stores

COMMONS ADOPTS CHURCH UNION BILL TO BECOME EFFECTIVE IN JUNE, 1925

A despatch from Ottawa says:—The Church Union bill, following closely upon earnest appeals for support of the Brown amendment by a majority of 52 votes, Parliament gave approval to the amendment moved by J. L. Brown (Progressive, Niagara), which stripped from the bill the clauses calling for legal process and two-year delay, and substituted therefor another whereby the original measure becomes effective on June 10, 1925.

The vote followed immediately upon cogent and vigorous pleas by the Prime Minister and the leader of the Opposition against further delay. It was an unrecorded vote of head-count in committee, and showed 110 for the amendment and 58 against.

Rt. Hon. Arthur Meighen, Robert Forke, Hon. Messrs. Lapointe, Graham, Robb, Motherwell, Low, King and Stewart stood with those favoring the amendment. Among those standing in opposition thereto were Right Hon. Mackenzie King, Hon. Messrs. Bland and Macdonald, and Hal McGilverin, chairman of the Private Bills Committee, among the Liberals, and the following Conservatives: Hon. Messrs. Tolmie, Guthrie, Manion, and Messrs. Spence, Ross, Dickie, Clark, MacLaren, Harris and Chiche.

The standing vote represented an attendance of 168 members in a House membership of 234. Expectation that the vote would be deferred until this evening's session, or even until Monday, probably accounted for the large number of absentees.

Only in the hour or two immediately preceding division did the debate attain that standard of excellence naturally to be looked for in a discussion of a subject of such import. The

speech of the Prime Minister, following closely upon earnest appeals for support of the Brown amendment by a majority of 52 votes, Parliament gave approval to the amendment moved by J. L. Brown (Progressive, Niagara), which stripped from the bill the clauses calling for legal process and two-year delay, and substituted therefor another whereby the original measure becomes effective on June 10, 1925.

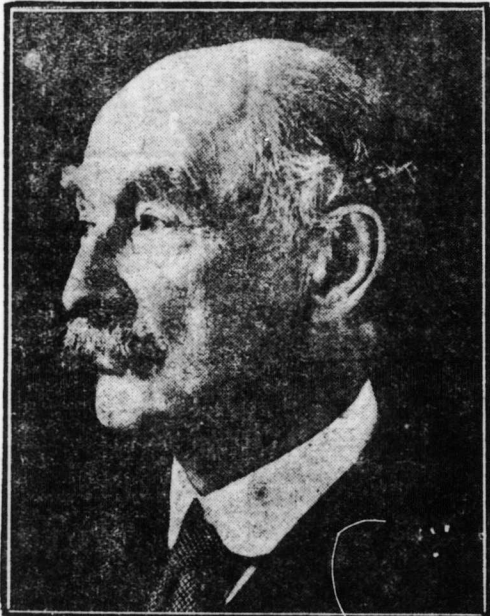

The Leader of the Opposition, coming next, placed incisiveness and earnestness before mere time-wasting eloquence, and on conclusion left the House in mood for immediate action.

Claims Good British Settlers Rejected by Ontario

A despatch from London says:—At a meeting of the British Passenger Agents' Association, Charles Wright, Honorary Secretary, said that the Canadian Government, and the Ontario Government in particular, seemed to-day to be putting obstacles in the way of helping good farm workers to go to the Dominion. The consequence was, he stated, that Australia and New Zealand secured a better supply of Empire builders or the Homeland retained these first-class agricultural workers. Ontario was turning down such applicants, he added, all assistance being stopped for this year. It was difficult to understand this, while the entry of Russians and other foreigners continued, he concluded.

Stadium in Volcano.

Punchbowl, the largest extinct crater of the island of Oahu, Hawaiian Islands, will become one of the greatest athletic stadiums in the world if the plans of prominent athletic officers at Hawaii are consummated.

A recent photograph of Thomas Hardy, English novelist and poet, who has been endorsed by the P.E.N. Club for the Nobel prize for literature.

VANCOUVER EN FETE TO WELCOME FLEET

British Warships Receive a Hearty Demonstration at the Pacific Coast Metropolis.

A despatch from Vancouver says:—Fifty thousand citizens of Vancouver gave the British special service squadron a great welcome when it arrived in the harbor shortly after 2 o'clock on the afternoon of June 25.

When H.M.S. Hood, world's greatest battle cruiser; H.M.S. Repulse, H.M.S. Adelaide and H.M.S. Patriarch rounded Point Grey, after having passed up the Gulf of Georgia from Victoria, they were met by a great flotilla of small craft and excursion steamers, and as they passed through the narrows into Burrard Harbor thousands of men, women and children lined along the Stanley Park shore of the narrows shouted their welcome.

As the squadron passed into the harbor aeroplanes of the Royal Canadian Air Force circled the great craft. At every point of vantage from Point Grey to the city vast crowds at every peak waved and shouted as the mighty warships moved majestically to their anchorage.

The city is in festive attire, the main streets being a mass of color with flags and bunting. A magnificent arch of welcome has been erected by the city at Granville and Georgia streets. A civic dinner and dance was tendered the officers of the fleet. A half-holiday was proclaimed by Mayor Owen.

Australia Has 79,250,000 Bushels of Wheat for Export

A despatch from Adelaide says:—A local authority estimates the last Australian wheat harvest at over 126,000,000 bushels; deducting home requirements this leaves an exportable surplus of 79,250,000 bushels. This season's exports of wheat and wheat flour to date are equal to approximately 6,000,000 bushels of wheat. An average crop is likely in the ensuing season.

Peer Peeps Into Future, Sees Roadhouses in Air

After having taken a peep into the future, Air Minister Lord Thomson came down to the House of Lords recently and assumed the role of prophet. He said that in three years time he hoped to have in the air two kinds of airships suitable respectively to commercial and naval purposes. In ten years he hoped to see at least six airship constructors competing for orders in this country and building up a great and growing industry, serving the purposes of imperial communication, bringing people of the empire and the world closer together and carrying freight as well as mails, says a London despatch.

Some time in the future, the minister said, he foresaw the day when noble lords would leave Parliament House on gliders with light engines, and wing their way westward along the Thames Valley or northward to Scotland. On their way they will need a rest and perhaps they may call in at some great caravanserai floating serene, safe, high up, far removed from terrestrial fuss and noise.

Above is shown, on the left, Sir Jenner Verrall, and, on the right, Dr. Herbert Bruce of Toronto, two widely known medical men, photographed at the latter's home.

ROUND-WORLD FLIERS PASS IN AIR FLIGHT

Major MacLaren, the British Aviator, Reaches Rangoon from Akyab.

A despatch from Rangoon, British India, says:—Major A. Stuart MacLaren, the British aviator who is attempting a round-the-world flight, has arrived here from Akyab, Burma.

A despatch from London says:—A despatch to the Exchange Telegraph from Rangoon says Stuart MacLaren had a stiff flight from Akyab to Rangoon in the continuation of his attempt at a world flight.

Cutting across the Bay of Bengal, MacLaren flew over the United States round-the-world squadron, going in an opposite direction. The Britisher was compelled during his flight to make a landing at Gwa. After another start he was forced to descend at Yandoon, in the Delta, after which his journey to Rangoon was uneventful.

MacLaren said he regretted he arrived at Rangoon too late to meet the United States aviators, who left there for a jump of about 500 miles to Chittagong.

Heroic Work of Everest Expedition Acknowledged

A despatch from London says:—Professor Collier, Acting President of the Mount Everest Committee, sent the following telegram on Thursday to Colonel Norton, leader of the Everest Expedition: "The committee warmly congratulate the whole party on the heroic achievements published to-day. They especially appreciate the consummate leadership displayed. All are deeply moved by the glorious death of the lost climbers near the summit, and send best wishes for a speedy restoration to health of all the surviving members."

All Parts in "Henry VIII." Taken by Women

Shakespeare's "Henry VIII." in which all parts were taken by women, was staged in the open air at Westminster, in Kent, says a London despatch. Girls of the public schools and some of their teachers, as well as daughters of families whose names are associated in empire history and wives of local tradesmen, all took part in the production, which was directed by Gwen Lally, the playwright.

This is the first time a Shakespearean play, calling for a hundred characters, has ever been attempted by a company composed entirely of women. The production was remarkable for the success of the players, as well as for the historical accuracy of the costumes and properties.

Prince Henry to Head British at Olympic Games

Prince Henry, third son of King George, will do the honors for England at the opening of the Olympic Games in the Colombes Stadium, near Paris, on August 5, leading the British athletes in the grand march past the reviewing stand.

This ceremony over, he will retire to the shade of the grandstand, turning over the grilling work of winning points to the sturdy teams, the members of which are now training in two big camps near London.

Canadians Going to Reside in States Must Furnish Passport

A despatch from Sault Ste. Marie, Ont., says:—Besides paying the regular immigration service \$3 head tax, an additional visa certificate, costing \$9, will be demanded of all Canadians going into the United States to reside after July 1, owing to the radical changes in the American immigration laws.

Canadians making trips to the United States, and Americans crossing to the Canadian side of the river, must secure identification cards. These cards are issued free of charge. Each application must be accompanied by two passport pictures; one of the pictures is pasted on the card. The identification card system is intended primarily to facilitate the passing of both American and Canadian commuters across the boundary. It will practically do away with the many questions which those who have not cards are asked at present.

Counter-Actant for Poisonous Gases Found by Englishman

A despatch from New York says:—F. N. Pickett, an Englishman, says that in experimenting during the destruction of ammunition, he discovered a counter-actant against the poisonous gases used during the war. He says, he has already given the formulae to the British and French Governments, and is on his way to Washington to give his process to the United States Government.

He also brings with him a formulae for an arsenical solution which he used against locusts in Egypt, and which he believes will be successful against the boll weevil in the cotton-growing states.

Mr. Benning Arnold of Camelot, Bourne-on-Avon, England, went bowling to celebrate his hundredth birthday.

GENERAL SMUTS'S FALL ATTRIBUTED TO WORK FOR THE BRITISH EMPIRE

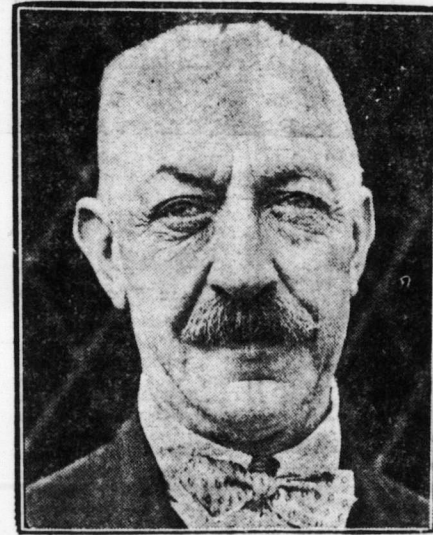

A despatch from London says:—With Premier Jan Smuts's administration gone down to defeat as a result of the South African general elections, the first avowedly republican government in the British Empire has come into existence. General Hertzog, the Dutch nationalist leader, who, with the support of the Laborites, headed by Col. Cresswell, succeeded Premier Smuts, gave assurance in his pre-election campaign that the secession issue would not be raised during the meeting of the newly elected Parliament.

Nevertheless, the outcome of the voting came as an unmistakable blow at the principle of Imperial unity. This feature of the election is stressed by the fact that General Smuts was unable to retain his own seat in the western division of Pretoria, the capital of the Transvaal. A new seat is certain to be found for the soldier-statesman, who in other parts of the British Empire is ranked as one of the greatest of the imperial figures of his time.

His rejection by his own constituents, however, is striking evidence that there is a new drift of opinion in the South African Union. It hardly would be an exaggeration to say that his efforts in the campaign for imperial development and European settlement are the direct cause of the smashing blow his party met at the polls.

With the Hertzog-Cresswell administration now in power, a new chapter opens in the history of South Africa. The Labor party, headed by Colonel Cresswell, holds the balance of power between the South African party and the Nationalists. Momentarily, the most interesting question is whether the combination which came into being with a common desire to oust Smuts as almost the sole bond of union will be able to hold together now that this object has been achieved.

Both parties, however, chiefly are concerned in local interests, and it is now certain that South Africa, under the new regime, will not play the prominent part on the imperial or world stage that it did under General Smuts.

Prof. Cavallieri Caselli, of Italy, who has had patented his apparatus which has proven successful in foretelling earthquakes 15 minutes before occurrence.

Peace River Country Wheat is in Shot Blade

A despatch from Edmonton says:—Wheat is already in the shot blade in the Spirit River district, according to reports received at the offices of the Edmonton, Dunvegan & British Columbia Railway. Frequent rains, together with an abundance of weather favorable to crop growth, has made prospects for a bumper crop particularly hopeful.

Let him not complain of being cheated who buys cloth by the pattern.

Natural Resources Bulletin.

The Natural Resources Intelligence Service of the Department of the Interior at Ottawa says:

It has been said that but for the birds man would soon starve to death, as insects multiply so rapidly that they would early overrun the earth and devour everything edible. Birds are the natural enemies of insects, and as they have voracious appetites, they devour a tremendous quantity of man's worst enemies.

The farmer, as well as the city resident, is commencing to appreciate what the birds are doing for him, and is less antagonistic to them. In the olden days every farmer had a gun awaiting the arrival of the birds, and many of them were shot down while doing the work which the farmer could not do—save his food supply.

Have you ever watched a robin on the lawn, and wondered what he did with all the insects and worms he picked up? The robin eats at certain seasons of the year about double its weight in insects and worms every day. His dinner hour is continuous, commencing at sunrise and not finishing until after sunset; he works long hours, digging and picking, to provide food for his family. Apart from its benefit to man as a savior of his crops, what is more interesting than to watch the wild birds as they go from place to place, from tree to tree, singing or chirping meanwhile? The birds give their protective service to man without charge—they ask no pay except to be let alone. And the farmer is wise who will let his gun rest out behind the kitchen door before he turns it upon his best friends—the birds.

Extension of Old Age Pension Approved by British House

A despatch from London says:—A quarter of a million elderly persons in Great Britain will benefit as a result of the extension of the old age pensions scheme which has received the approval of the House of Commons.

Philip Snowden, Chancellor of the Exchequer, when introducing the necessary financial resolution, said single persons having an income not necessarily earned, of 25 shillings weekly, will be entitled to 10 shillings pension weekly, and married couples whose income is 50 shillings weekly, will be entitled to one pound sterling jointly per week. The cost of the additional scheme will be \$4,000,000 in the first year, but will rise to \$7,000,000.

The proposals, said the Minister, in nowise could be regarded as a final settlement of the problem of old age pensions. He hoped shortly to submit a scheme of mothers' and widows' pensions and to reduce the age limit to 65.

Englishwoman Meets Adventure Painting African Wilds

After fourteen years of painting in the wilds of Australia, South Africa and New Zealand, Miss Mabel Withers, an English artist, is showing three collections of her pictures in London. One of her landscapes, which appears in the South African pavilion of the British Empire Exhibition, has been accepted by Queen Mary, to whom it was offered after she expressed her admiration for the painting.

Miss Withers' search for subjects was not entirely without adventure. Once in South Africa she painted all day long in blissful ignorance of the fact that two lions had been killing cattle within a few hundred yards of her. On another occasion she found a troop of baboons separating her from her guides, but escaped unharmed.

Hayseed Was Growing in Farmer's Eye

Hayseed blew into a man's eye and caused grass to grow there.

This astonishing fact is vouched for by doctors at the Gloucestershire royal infirmary, says a London despatch. A farm-worker having something in his eye which caused pain went to hospital for an operation, a surgeon made an incision above the eye and found a green blade of grass an inch and a half long. He also found hayseed. Apparently the hayseed had become lodged in the corner of the socket and the discharge from the tear duct watered it and light had reached the seed through the eyeball sufficient to make the grass green.

Hematite Has Been Found Near Michipicoten River

A despatch from Sault Ste. Marie, Ont., says:—A very interesting discovery of hematite ore has been made by Isaac and Joseph Ball, about six miles south of the Michipicoten River. Specimens of the ore show it to be a high-grade ore of good quality. The range is about two miles in length, and from 100 to 200 feet in width. Eight claims have been staked and recorded already.

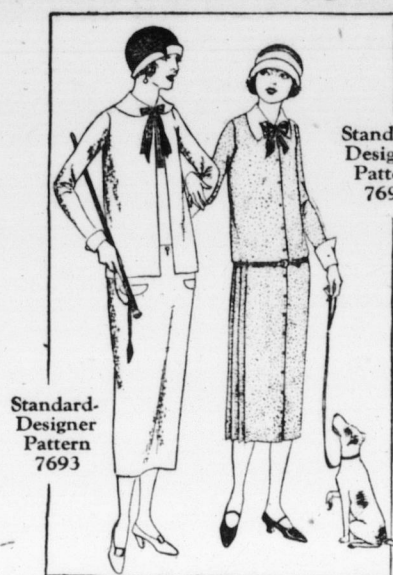

Savants to Study Life Habits of the Lapps

The Lapps, mysterious nomads of the north, are again to be studied by scientists, says a Gothenburg despatch. Dr. G. Clyde-Fisher, of the Museum of Natural History, New York, is now here on his way to Swedish Lapland to observe the life, customs and daily life of these people.

A photograph of the smart-looking trumpeters at the Empire Day thanksgiving service at Wembley, which was attended by the King and Queen and members of the Royal Family.

Say you saw it in The Transcript.

The Transcript

Published every Thursday morning from The Transcript Building, Main Street, Glencoe, Ontario. Subscription—In Canada, \$2.00 per year; in the United States and other foreign countries, \$2.50 per year.

Advertising—The Transcript covers a wide section of territory in Western Ontario, and its readers are the leading farmers and townspeople. It is a first-class advertising medium. Rates on application.

Job Printing—The Jobbing Department has superior equipment for turning out promptly books, pamphlets, circulars, posters, blank forms, programs, cards, envelopes, office and wedding stationery, etc.

A. E. Sutherland, Publisher

Two United States concerns which defrauded the government of \$1,000,000 in wartime marine repairing have been fined \$1,000 each, thus decreasing their illegal profits to a paltry \$998,000. What a blow! Now let 'em be good.

Of one crop we are already assured a large yield even if the season is late in other lines—the fool in charge of a car. He is never traveling faster than 15 miles an hour if he has an accident, but boasts of 40, 50 and 60 miles an hour when he can get away with it.

It is apparent that the evidence supplied to the Ontario Agricultural Enquiry Committee has been valuable in this connection and that through the co-operation of the Provincial and Federal Governments results to the producers may be expected. The committee also went into evidence secured upon the question of ocean freight rates and intend preparing an interim report up on this and related subjects for presentation to the Ontario Government.

With the perfection of the newly-invented radio knife medical experts expect to revolutionize the treatment of cancer and other growth troubles. The principle behind the radio knife is the use of a low-power radio transformer which generates a current. The knife resembles a darned needle forming one terminal and the other terminal is formed by unfil placed at the patient's back. The needle burns itself through tissues and prevents a flow of blood by searing the edges of the wound.

A man may patronize the mail order houses for years—may send them in that time hundreds of dollars—and at the same time they wouldn't accommodate him for a two-cent stamp. This is the plain, unvarnished truth. If you think otherwise try it for yourself and see. These out-of-town houses do not know you—do not care to know you—are not interested in you in any way—only in the money you send them. Spend your money with your own townsmen, who know you for what you really are, who appreciate your worth, your business, your assistance in building up home interests.

The Agricultural Enquiry Committee of the Ontario Legislature met

last week at the Parliament Buildings, Toronto, to review evidence submitted at various meetings throughout Western Ontario during the past month. In regard to the question of exorbitant rates being charged on the Live Stock Exchange at Toronto and complaint of inferior quality of hay and feed and the further question of rough handling of cattle, the committee will press representations through the Ontario Government to the Department of Agriculture at Ottawa with a view to having the complaints remedied as promptly as possible.

Girls who are inclined to accept invitations from strangers or casual acquaintances should take warning from the harrowing experiences of two young ladies one evening recently in another Ontario town. The driver was real nice to the girls until a distance of some miles was made. Then he was not so nice. Indeed, his conduct became most offensive. Imprudent as the girls had been to be picked up on the street, and allowing themselves to be carried to their homes with him. There are men and men, and girls with sense can usually tell one from the other. Wisdom, discretion and sound common sense should constantly be observed by all girls, when approached by strange men, young or old, with automobiles.

AN ASSET WORTH WHILE

London Advertiser—An Armenian came in to inquire about being naturalized in this country. He was not sure how it was done.

Was it for himself that he required the information?

No, for a brother who had not yet come to Canada, but whom he was anxious to have in this country.

His broken language told the following: I want him here in Canada if I can get him in. He has had to flee with the rest of his countrymen three times to escape the Turk; if the Turk again gets control of the place where he now is he will be killed with thousands of others. I want him here in Canada where he can work and go home at night with no person to bother him.

The average Canadian never takes that into consideration when thumbing over his personal or national assets. It never occurs to him that he can go where he likes with no fear of a people organized for butchery assaulting him.

The Canadian accepts these things in a matter-of-fact way, and he may imagine that conditions are the same all over the world.

If our British citizenship means anything to us, it spells freedom and safety; two qualities that the Armenian has never known.

Post-Lecturer Will Be Heard Here at Chautauqua

MARSHALL LOUIS MERTINS

Marshall Louis Mertins, popularly known as "The Poet of the Commonplace," will be heard at the coming Dominion Chautauqua in his great inspirational recital, "The Gold at the Rainbow's End."

Mr. Mertins' lecture-recital is built around his own poems and short stories, many of which have been published by leading magazines and newspapers. Several of his books of poems have gone through a number of editions.

One of Mr. Mertins' outstanding characteristics is his saving sense of humor. He can tell a humorous story, coin an epigram or discuss a funny incident so that his audiences burst forth in unrestrained laughter. He will be one of the outstanding speakers at the Chautauqua here.

The Transcript sells envelopes ready printed for you to comply with the P. O. department's request that you have your name on corner of envelope for return to you if undelivered. Fifty cents per 100, or 15c per package of 25. Full name, business and address for \$4. per 1,000; \$3 per 500.

PACKING FARM BUTTER

The Best Way to Store Butter for Home Use

Keep the Cream Cans Clean—How to Pasteurize the Cream—The Best Storing Packages—Use Care in Curing Alfalfa—Mating Time.

(Contributed by Ontario Department of Agriculture, Toronto.)

We have all heard the expression "The best is none too good." This applies especially to butter for storing. So says Miss Belle Millar of the Ontario Agricultural College. It is necessary to put away the very best, as no butter improves in storage.

Keep the Cream Cans Clean.

The can in which the cream is collected should be clean and free from rust.

The cream should be good flavored and should be churned sweet, or with very little souring. A cream with high acidity will not make a long-keeping butter.

As pasteurized, cream butter will keep very much better than raw cream butter, it would pay to go to the extra trouble of pasteurizing the cream when the butter is going to be held for some time.

How to Pasteurize.

To pasteurize, place the can of cream in a larger vessel containing hot water. Stir the cream gently until the temperature comes up to 170° F. Hold it at that temperature for at least ten minutes, then cool it quickly to a low temperature. Hold it cold for a few hours before churning it.

Churn at a temperature low enough to bring the butter in nice firm granules. Avoid overchurning. Wash the butter twice and salt in the usual way. Work the butter a little to mix in the salt, then let it stand in a suitable place for a few hours before finishing the working.

Have the butter of such firmness that it will stand without working, so that the salt will be evenly distributed, and that it will be close in body and not show water pockets.

The Best Storing Packages.

As butter keeps best in large packages, crocks, tubs and boxes are used. The crocks should be in good condition, free from breaks in the glazing, and should be well scalded before using. Tubs and boxes should be coated with paraffine wax and lined with heavy parchment paper.

Put the butter in in small pieces, pack solidly, using a butter packer or a wooden potato masher. Pack each piece by working from the centre outward. Pound well around the edges and in the corners so as to avoid having holes.

When the box is filled, level off the top and fold the ends of the paper over. If a tub or crock is used place a circle of parchment paper on top. Make a paste by moistening some salt with a little cold water, and spread an even layer over the top of the package, then fasten down the lid.

Further Packing and Storing Hints.

If using crocks it will be necessary to cover the lid with two or three ply of clean wrapping paper and tie it securely.

Butter to keep must be protected from air, light and heat, so after the packages have been made secure they must be placed in a clean, cool, dark place. The temperature should be low and even. Butter made in September is not subjected to heat like the June butter. Those who make butter in June for holding and have not a good place for keeping it would find it to their advantage to place it in a cold storage if there is one in the vicinity. The saving in quality would more than pay the storage fees.—Department of Extension, O. A. College, Guelph.

Use Care in Curing Alfalfa.

Alfalfa leaves, require careful handling if they are to be retained with the stalks in the harvesting of the hay.

Alfalfa, to be harvested properly, wants to be put up while it is still a trifle green, as it will retain the leaves in this state, pack closer in the mow and be a better and brighter color when fed.

It is a common practice to cut the hay in the morning as soon as the dew is off, and then rake into bunches late in the afternoon after it has thoroughly wilted. Often alfalfa that is cut in the morning dries too fast and becomes brittle when cut this way, so that many growers favor the cutting of the hay late one afternoon and putting it up the next afternoon. This allows some of the moisture to go out gradually and gives better quality hay.

Although many times the first cutting is often discolored by moisture it is still valuable as feed, as experiments show that stock eat it as readily as the better grades.

In placing slightly green hay in mow see that it is spread carefully and that no large air spaces are left. Do not open a mow when the hay is undergoing a heating process, and there will be little danger of spontaneous combustion or fire.

Mating Time.

While breeding pens need not be mated until about three weeks before hatching is to begin, yet I mate my breeding pens in January. The hens in my breeding pens have been kept separate from the males since last fall, so I could mate them only ten days before beginning hatching, if necessary, but it is just as convenient for me to mate them early. When hens are put in one pen, two male birds will be used on alternate days. There is an advantage in using two male birds in a pen, as quite often a hen refuses to mate with one male, while this very rarely happens in a pen where two males are used.

Teachers-All Aboard!

Canadian Teachers' Federation Convention at Victoria, B.C., Aug. 12-16

Here is a wonderful opportunity to view and study the scenery of our glorious Dominion at first hand; to see the beauties of Ontario, the rolling prairies, the majestic mountains and the sparkling waters of the great Pacific all in this very complete journey to the Convention centre.

Special Low Fares from all Ontario Points

A special train de Luxe of the Canadian National Railways carrying the most modern type of all-steel equipment, with radio set complete, leaves Toronto, July 26th.

A number of optional routes may be taken on the return trip. Full information, also rail and sleeping car tickets may be obtained from any of the following officers of the Public School Federation.

TORONTO—Mr. A. E. Bryson, 44 Silverthorn Ave.

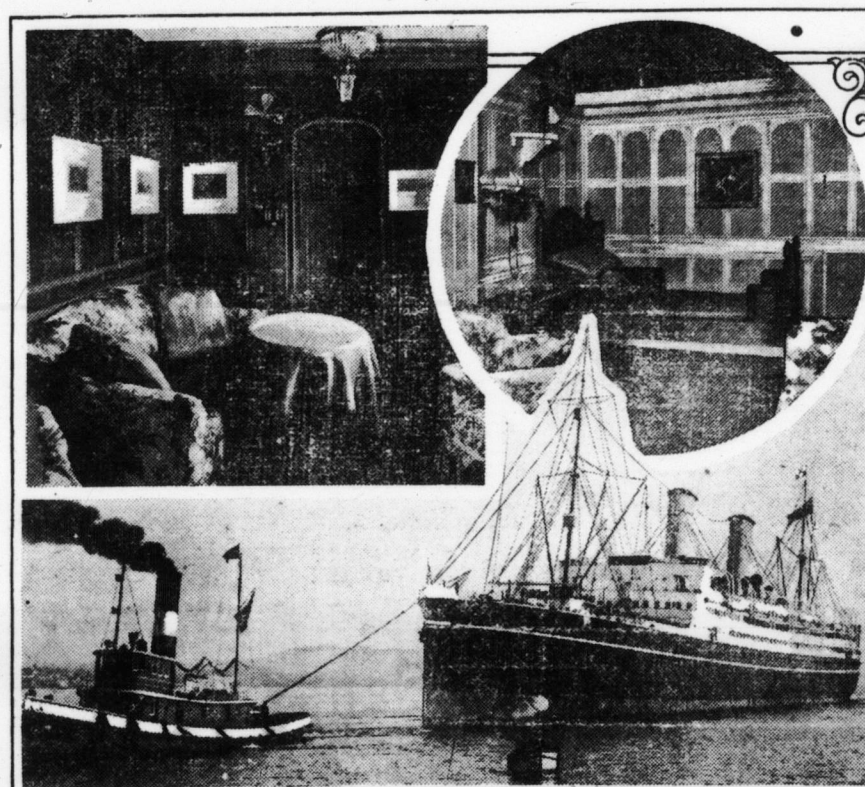

HAMILTON—Mr. L. J. Colling, 98 Barnsdale Ave.

The Passing of Coal and Bunk

AND so the World goes on. Old, as far as human knowledge goes, yet ever changing, ever new. There are still some among us, grey haired men they are, who remember the clipper ships which years ago forced the galleon from the sea, and the great four-masted barques that are now seen only in island trade on southern seas, but these men are the privileged few. Except for a few schooners which ply the fishing banks, the sailing vessels have gone the way of all things, and in their place we see the steam driven vessels, gigantic, palatial, and so different in almost all their aspects from the wind propelled vessels as to almost belie their origin. There came coal. Coal revolutionized the shipping industry. As the marine engine was improved upon and developed, this commodity became more and more in demand until it became a necessity. Larger ships were designed and operated than ever before; they became more spacious, commodious and faster than ever before. Cabins were improved upon, the sleeping bunks could be so arranged as to ensure privacy for the occupant; the state room was evolved.

And so the shipping world goes on. Oil is now coming into its own. The navies of the world are converting their older war ships into oil burning vessels and designing many of the additions to fleets for the use of oil; and for some years past the steamship companies of all nations have been turning their attention to oil as well as to coal supplies and resources.

The Canadian Pacific Steamship Company early appreciated the advantages offered by oil, and the latest conversion to be announced by

the Company is that of the Empress of France. This great liner has for some time held the record for the fastest voyage between the St. Lawrence and Great Britain, and it is anticipated that the time made on the record trip will be beaten by the Empress after her reconditioning. Another important change is the replacement of all sleeping bunks on the ship by regular beds and mattresses and the conversion of the cabins into rooms similar to those one finds in up-to-date hotels. Rooms which were formerly four-berth cabins are now equipped with two brass bedsteads, while cabins that had two berths are now rooms with a single bed. Many of the rooms that are equipped with the bedsteads have also an ingeniously arranged berth which folds into concealment on the wall, thus affording accommodation for an extra member of the family party when so desired. This ship, the Empress of France has been chosen to cruise around the world in 1925 under the Canadian Pacific management. It will sail eastward from New York on January 27th and during its five months itinerary will be the only object in many an ancient port to exemplify the last word in modernity.

TOP LEFT—A COZY PRIVATE SITTING-ROOM ON THE "EMPERESS OF FRANCE." RIGHT—A CORNER OF THE ROYAL SUITE ABOARD THE VESSEL, WHICH IS SEEN ABOVE BEING ASSISTED INTO HER BERTH AT QUEBEC. RIGHT—A CONVERTED CABIN.

WHO CAN FILL THIS ORDER?

More than usual humor attaches to the alleged receipt of the following letter by a Toronto hardware store, because of the fact that this store recently discontinued the sale of seeds for certain reasons. The retailer in question wants to know who can fill the order.

Gentlemen—Having a quarter-acre of ground not good for anything else, I wish to make an attractive and profitable garden. Please send me one dozen strawberry seeds, one bee with hive complete, one dozen plum seeds, ten square yards of grass, one concrete path (winding, six wall

flowers with six pieces of wall, one safety lawn mower and plow combined. Send also enough baskets to hold the strawberry and plum crops, and side and back combs for the honey. The grass should be green—not the withered kind I see in my garden—and the seeds a flavor unpopulated with the chickens.—Flavius Hayseed.

Brantford public schools are adding swimming to their curriculum.

Many mothers can testify to the virtue of Mother Graves' Worm Exterminator, because they know from experience how useful it is.

That his wife bobbed her hair is the excuse a Chatham man gave in police court for getting drunk and going on a rampage.

SPECIAL NOTICES

Mr. and Mrs. John Auld and son Charlie wish to thank their many friends and neighbors for their handsome farewell gifts.

For sale—second-hand hayloade and second-hand wagons; also complete line of Frost & Wood machinery.—W. G. Squire, Glencoe.

Upholstering, fine cabinet work, carpenter work, furniture finishing.—J. D. Brown, first door north of Transcript office; phone 63.

See us for your binder twine—Green Sheaf, Silver Sheaf, Gold Medal—the twine that has stood the test for years.—Wright's Hardware.

For sale—Studebaker touring car, in first-class running order. Price ridiculously low and terms to suit purchaser.—E. Mayhew & Son.

A big bargain at Lamont's this week—men's work shirts, reg. \$1.50, for \$1; \$1.25 shirts for 95c; boys' shirts reduced to 75c and \$1.

For Chautauqua week—25 beautiful voile dresses; everyone different; reduced from \$12 to \$7.95. Also a beautiful ool dress reduced from \$6.95 to \$3.95, suitable for street wear, at Mrs. W. A. Currie's Ready-to-Wear Store.

Mr. and Mrs. B. F. Clarke and an orchestra from Glencoe, composed of Virginia Clarke, Wm. Coad, Donna McAlpine, Hazel McAlpine and Miriam Oxley, motored last week to attend the sixth annual outing of the Ontario Lumber Dealers' Association, held at Orillia and Muskoka. The orchestra rendered excellent selections at the banquet given by the Association, and also on the boat while sailing up the lakes.

Wedding cake boxes at The Transcript office.

The garage building and equipment in Glencoe conducted for some time by W. B. Mulligan was offered for sale by public auction on Saturday by L. L. McTaggart, auctioneer, but the reserve bid was not reached. John McCallum was the highest bidder at \$4,000.

John Andrew Murray, C.N.R. agent at Lawrence Station for nearly 25 years, died in St. Joseph's Hospital, London, on June 24, at the age of 51 years. He is survived by his widow, one daughter, who has been attending high school at Glencoe, and his mother, residing at London.

At George W. Mitchell's clearing sale, conducted by L. L. McTaggart on Friday, the residence property consisting of nine acres of north half lot 24 in the first range north, Ekfrid, with a comfortable brick house and frame stable, was sold to Walter Squire, sr., for \$2,150.

Miss Edna J. King, who has been organist and choir director of the Glencoe Presbyterian church for some three years, has resigned to accept a similar position in the Methodist church at Elora, and she and her mother will make their home in that town after the first of August.

R. A. Finn, of the department of agriculture, has arranged poultry calling demonstrations on the farms of David McDonald, Appin, and Mr. O'Neill, Alisa Craig, during the week of July 14. Thirteen other places where demonstrations will take place during that week will be announced by Mr. Finn later.

The executive of the West Middlesex Liberal Association met in Strathroy on Monday last week, with representatives from every municipality in the riding. It is expected that West Middlesex will be included in the tour of Western Ontario which the Prime Minister has under contemplation. An organization meeting of the party will be held in Strathroy in August.

The death occurred in London on Sunday, June 29th, of Miss Mary McGugan, in her 76th year. Deceased in recent years made her home at Wm. McTaggart's, in Appin. She had resided in London for six years up to the time of her death, and suffered from a long illness. She is survived by three brothers—Donald McGugan, of Strathroy; John McGugan, of London, and Malcolm McGugan, of Melbourne. The funeral service was conducted at the residence of her brother Malcolm on Tuesday afternoon, by Rev. Mr. Oliver, pastor of the Presbyterian church, of which deceased had been a member. Interment was made at Murray's cemetery.

WOODS.—On Wednesday, July 2, 1924, to Mr. and Mrs. Wm. Woods, Walkers, a daughter.

GOD IS LOVE.—Beloved, let us love one another: for love is of God; and everyone that loveth is born of God, and knoweth God.—1 John 4: 7.

Born

McALPINE.—On Sunday, June 22, 1924, to Mr. and Mrs. J. C. McAlpine, Ekfrid, a son.

WOODS.—On Wednesday, July 2, 1924, to Mr. and Mrs. Wm. Woods, Walkers, a daughter.

Glencoe was largely represented at the annual garden party of St. Andrew's church, Napier, on Friday evening.

The secretary-treasurer of the Glencoe tennis club would like members who are in arrears to pay their fees as soon as possible.

Over 500 people attended the second annual picnic of the municipal officers of Middlesex at Springbank Park on Thursday afternoon.

Glencoe taxes in 1922 were \$21 and a fraction per head of population, which, compared with other places, is considerably below the average.

Miss Helen McCutcheon, who has been teaching a school near Blenheim for the past year, has been re-engaged at an increased salary.

Examinations for entrance to high schools commenced yesterday morning in Glencoe high school. There are 65 candidates writing.

Fishing from coast to coast in Canada features the July issue of Rod and Gun among the score of interesting articles and stories.

Mr. and Mrs. William Cyster, of Strathburn, have the sympathy of friends and neighbors in the death of their infant son, William Charles, which occurred on Friday night.

An old inhabitant asks what has become of the old-fashioned girl who used to see that the hammock was hung up in some nice secluded spot along about this time of the year?

In connection with the Chatham Old Boys' Reunion the Masons of Western Ontario have been given the freedom of the city for one day—July 4th. All Masons are invited to be there.

A regular meeting of the Glencoe Book Club was held at the home of Mrs. Peter McArthur on Monday afternoon. After the usual program Mrs. McArthur entertained the gathering at lunch and an exceptionally pleasant time generally was had.

The June number of the Municipal World, that reliable authority on all municipal law, gives a complete synopsis of the amendments to the various acts pertaining to municipal affairs which were enacted at the last session of the Ontario Legislature.

Provincial Constable Stratton, of London, made an official visit to Glencoe last week and at the pool rooms made the seizure of several devices said to be of a gambling nature. The owners will be up for hearing before Police Magistrate Morrison.

James Poole, president of the Glencoe Bowling Club, announced at the greens on Tuesday evening that the London Free Press would offer a silver cup for competition at the Glencoe annual tournament. The announcement was received with much cheering.

Bargains for Saturday at Lamont's—men's fine shirts, reg. price \$1.75, for \$1.40; reg. \$2.50 shirts for \$1.95.

PERSONAL AND SOCIAL

—Miss Nellie Farrell is home from Windsor for the holidays.

—Miss Ruby Sutter, of Toronto, is holidaying at her home here.

—Miss Fern Graham is home from Clinton for the summer holidays.

—Mrs. Rose Stuart is visiting her sister-in-law, Mrs. Maus, in Paris.

—Miss Margaret Morrison spent a few days this week with relatives in London.

—Mrs. T. M. O'Hagan, of London, visited her sister, Mrs. P. J. Morrison, on Sunday.

—Mrs. Harry Hicks, of Detroit, is visiting at the home of her father, George Precious.

—Miss Lorna Hodges, of Toronto, is visiting at the home of Mr. and Mrs. R. W. Oxley.

—Miss McDiarmid, of the Windsor schools teaching staff, is a guest of Miss Nellie Farrell.

—Miss H. S. Blackburn is visiting at the summer cottage of Mrs. White, at Kingsville.

—Miss Hazel Hastings, R.N., of St. Thomas, is a guest of Mr. and Mrs. Peter H. Moore.

—Mr. and Mrs. George McBain, of Winnipeg, are visiting their daughter, Mrs. Joseph Grant.

—D. R. Harrison, of Port Arthur, visited his niece, Mrs. J. A. McCracken, one day last week.

—Misses Cora and Lela Brown, of London, spent last week at the home of Mr. and Mrs. Dan McEachern.

—Mrs. P. D. McCallum and daughter Audrey, of Regina, are visiting the former's mother, Mrs. Wm. Tait.

—Miss Zeldia McMaster, R.N., has returned to Victoria Hospital after spending her vacation at her home in Appin.

—Mrs. Elijah Watterworth and granddaughter, Faye Eileen Watterworth, are visiting in Windsor and Detroit.

—Miss Frances Sterling and little niece, Dorothy Hebblethwaite, of London, are spending the week with Mr. and Mrs. J. A. McCracken.

—Mrs. (Dr.) Harvey, Miss Marion Harvey, Miss MacKay and Mr. and Mrs. G. Clifton Carruthers, of Peterboro, are visiting Mr. and Mrs. J. N. Currie.

—J. G. Lethbridge, M.L.A., is home after spending some six weeks in the activities of the Ontario Agricultural Inquiry Committee, of which he is a member.

—Mrs. Hawkins and daughter Helen, of Detroit, and Mrs. Watson and daughter Margaret, of Alvington, visited Mr. and Mrs. Dan McEachern one day last week.

—Misses Lizzie and Phemie Harris left last week to visit their sister, Mrs. Colquhoun, in Kenora. They were accompanied by their niece, Catharine Colquhoun, who has been spending several months with them in Glencoe.

—Miss Catharine Stuart and Miss Elizabeth McArthur are home holidaying, the former from Macdonald Hall, Guelph, and the latter from Metropolitan Hospital, New York. Both young ladies are leaving the first of August to take a course in dietitianary work in Victoria Hospital, London.

SPECIAL NOTICES

Young pigs for sale.—Wm. A. McCutcheon.
25c trade and 23c cash for eggs, at Mayhew's.

Lawn social at S. S. No. 12, Mosca, July 18. Watch for particulars.
Buy your sugars now; market advancing. Prices right, at W. A. Currie's.

Three pairs of cashmere Sox for \$1; regular price 75c a pair.—D. Lamont.

Call at Scott's Shoe Store before buying elsewhere, and see our prices for cash.

Good overalls for \$1.65 and \$1.95 a pair at Lamont's special sale this week.

Strawberries at their best this week. In quantities or by box, at W. A. Currie's.

Bring us your coupons and get two large cans of Kleenap soap for 25c.—Wright's Hardware.

Sweeping reductions in millinery. Beautiful hats at half price, at Mrs. W. A. Currie's Millinery Store.

See us for your haying supplies.—Plymouth rope, hay cars, slings and pulleys, etc., at Wright's Hardware.

Children's play suits reduced to \$1; boys' khaki bloomers down to \$1, at Lamont's.

You certainly will need a beautiful cool dress for Chautauqua week. At Mrs. W. A. Currie's Ready-to-Wear Store.

Ford cars now on display.—M. J. McAlpine, Ford service and sales, Glencoe; Galbraith Bros., Ford dealers, Appin.

Men's summer underwear to clear out at reduced prices this week, at Lamont's sale.

Another shipment to hand of those celebrated English sweet cakes. Specials at 20c and 25c a lb., at W. A. Currie's.

Have in stock a complete line of hay cars, rope, pulleys and track. Best prices on all lines.—W. G. Squire, Glencoe.

LEGHORNS AS MEAT.

The other day a customer asked me for a stewing chicken, and when I offered her a Leghorn hen she refused in no uncertain terms.

"I don't want a Leghorn!" she exclaimed in a tone that would have been appropriate had I offered her a turkey buzzard. I explained that I had nice plump Leghorn hens, weighing three and a half pounds dressed, that had been specially fattened for two weeks, and that if she wanted a Red she would have to take it right out of the flock without being fattened. That seemed to suit, so I culled out a small Red that night, dressed it and delivered it the next day. This fowl was not in as good condition for the table as the Leghorns which had been confined, but it was perfectly satisfactory to the customer. Evidently the name counted for more than a plump breast and juicy meat.

Some days later another customer, who conducts a high-class tea room, called me up and ordered twenty-five pounds of dressed Leghorn hens for the end of the week. When I delivered them I told her about the other woman who had preferred the unfattened Red to the finished Leghorn.

"I used to have the same prejudice," the proprietor told me, "until on several occasions I had to take Leghorns or do without. I soon found that the well-fattened Leghorn was preferable to a fowl of the larger breeds for my purposes. The flavor is just as good, and I can serve a leg and a piece of breast to a guest economically, which I could not do with a larger fowl."

These two incidents get me to thinking about the unreasonable prejudice against Leghorn meat that is fostered by undiscriminating housewives and cunning poultry dealers, at a cost to the poultryman of many thousands of dollars annually. Many housewives purchase by the eye or by the name; they will sometimes turn down Grimes Golden apples to buy Ben Davis because they are red, and refuse a Leghorn simply because they have heard someone say that it is not good. Dealers in buying from poultry keepers invariably offer less a pound for Leghorns than for buttermilk or even water. Sometimes refuse to handle them at all except at a considerable cut. This cut is not always reflected in the

price to the consumer, especially in markets where the customer knows nothing of the different breeds of poultry, but it goes into the pocket of the dealer at the expense of the poultry keeper.

Yet Leghorn cockerels make better broilers than either Rocks or Reds. Maturing faster, they are well meat and possess delicate flavor, where the youngsters of the heavier breeds at the same age are gawky, scrawny and tasteless. I grow both Leghorns and Reds, and when it comes to a broiler for Sunday dinner it is a Leghorn that gets the ax.

On the other hand, the heavier breeds furnish better roasting chickens, as the mature cockerel is larger and perhaps juicier than the Leghorn. When it comes to stewing chickens the size of the family should determine the choice. A small family requires a three to four pound fowl, which is about the Leghorn weight. A Red or Rock of this weight is undersized and probably carries less meat in proportion to frame than does the small-boned Leghorn. The Leghorn then is the better buy. On the other hand, a large family requires a six pound fowl or larger, and would find the larger breeds preferable, as there would be only one fowl to clean, whereas it would take two of the Leghorns to make the weight. Of course the Leghorns cost less a pound, the difference would again be in their favor, as there would be more drumsticks and second joints to go around. All things considered, I fail to see any need for a difference in price between Leghorns and Rocks and Reds of equal quality, except perhaps in the case of large roasters, which can be furnished by the heavier breeds alone.

We Leghorns can increase our incomes many dollars annually by culling out all small-size individuals from our flocks and never marketing a bird that had not been fattened. Fattening is easily done. I confine my birds to be sold in colony houses for about ten days previous to selling, and feed them, out of a trough, all they will eat of a mixture of three parts of yellow corn meal and one part of laying mash, mixed to a batter for the buttermilk and even water. They get fat and take on a nice yellow color from the corn meal, and it pays big.

15 RECIPES FROM 15 NATIONS

BY JEANNETTE YOUNG NORTON.

What neighboring nations eat is always an interesting matter for speculation. War conditions opened our eyes, and ears for that matter, to the many things to be learned about the nations that heretofore had seemed too remote from us even to excite our curiosity. We now want to know all about their social customs, but most of all we want to know what they eat.

The following recipes may serve as cards of introduction to the food adventurer and if when tested the recipes are liked, add them to the card catalogue:

Chinese Pineapple Fish—Broil or fry any white fish fillets and place in a hot dish. Make a brown sauce of a pint of stock thickened with browned flour, season well, and add a cupful of diced fresh pineapple; canned fruit will do if the fresh pineapple is unavailable. Pour the sauce over the fish and serve.

Okra, Barbadoes Style—Wash and stem two pounds of fresh, young, green okra and put on to boil in enough boiling water to cover it. Cook for a full hour, then add salt, pepper, a heaping tablespoonful of sugar, a dessertspoonful of vinegar, and a tablespoonful of cold oil. Mix and serve hot.

French Creamed Asparagus—Wash, trim and cut into one-inch pieces the tender ends of two bunches of green asparagus. Boil the asparagus (adding a teaspoonful of sugar) until they are tender, then drain it. Place in a smaller saucepan and add to it a cupful of thick cream, salt and pepper to taste, and, when almost at boiling point, the beaten yolks of two fresh eggs. Stir until thickened, then serve at once.

Russian Cabbage Pie—Take a piece of dough from bread that has risen once, add butter to it, roll it out thin and line a deep, buttered dish with it, keeping enough for the top crust. Chop half a small cabbage and an onion fine and put into a saucepan and cook with a half-cupful of butter. Simmer gently; if it grows too moist, dust lightly with a little flour. Add two chopped hard-boiled eggs, salt, pepper, a little sugar, and a tablespoonful of well-washed capers. When soft pour into the crust, moisten the edge and add the top crust. Let stand to rise a few minutes, then bake a delicate brown. Before putting into the oven brush over the top crust with a little milk.

The Eskimo's Venison Stew—Venison shoulder ribs are cut up and stewed in the usual way. Onions are added when available, and dumplings made of the bread dough are put in

the same as we use them. Venison steak is cooked over the coals and a little melted deer fat takes the place of butter. All boiled foods are cooked in snow water during the winter season. Seal meat is much like lamb and is generally boiled. Seal oil is used for frying. Seal roes are dried, then softened in oil and eaten raw. **Hawaiian Pudding**—Grate a fresh coconut, pour a glass of hot milk over it and let it stand for twenty minutes, then drain and put the coconut into a cheesecloth bag and squeeze gently until all the liquid is extracted. Sweeten to taste, then thicken with a little bit of arrowroot dissolved in a little cream. Have ready six sliced bananas and pour the cream over them, adding a teaspoonful of vanilla and a saltspoonful of salt. Pour into a buttered baking dish and bake twenty minutes.

Javanese Curried Chicken—Select a tender chicken, prepare it by having the sinews removed from the legs before cutting off the feet, singe, clean, then wash thoroughly. Joint the chicken and cut the back into four pieces, then boil until tender, adding to the water an onion stuck with four cloves, a few stalks of celery and a bunch of fresh herbs. When the chicken is done lift it, remove the large bones and set aside to keep warm. Strain the broth and set aside for future use. Make a tumblerful of the coconut cream as directed for the Hawaiian pudding above, only do not thicken. Beat two egg-yolks and mix with the cream, adding a teaspoonful of curry powder, salt to taste, a teaspoonful of sugar, a half-saltspoonful of cayenne, and a small lump of butter. Cook gently over water until thick and smooth, put a half-saltspoonful of saffron into a tiny cheesecloth bag and let cook in the curry long enough to color it a pale yellow. Have fresh boiled rice ready and put a ring of it on a hot dish, place the chickens in the centre and pour the hot curry over the chicken. Garnish with tiny dishes of chopped peanuts, chopped pepper, chutney sauce, pepper jam, chopped hard-boiled egg, little strips of salt fish, and spiced banana.

East Indian Fritters—Beat three heaping tablespoonfuls of rice flour with enough boiling water to make a smooth paste, then let it stand to cool. When cool add a saltspoonful of salt, a teaspoonful of sugar and a table-spoonful of rose-water. Break in the yolks of four eggs and the whites of two, then whisk all light. When light drop by the spoonful, dessert size, into hot fat and fry a delicate brown. Serve with fruit sauce.

Austrian Zwieback—Beat the yolks

of four eggs with a half-pound of sugar, then add a half-cupful of pastry flour and the stiffly beaten whites of the four eggs. Add a teaspoonful of vanilla and turn into a shallow buttered pan. When baked and cool cut into thin slices, or fingers, and dry in a cool oven.

Danish Pudding—Put a cupful of tapioca to soak overnight. In the morning boil until clear in a quart of fresh water, add to it a half-teaspoonful of salt and a cut lemon. When done remove the lemon. Beat in a tumbler of currant jelly, then sweeten and put into a mold. Serve with whipped cream.

A Dessert from South America—Put into a double boiler four cupfuls of sugar and six cupfuls of rich milk (goat's milk if procurable) and cook several hours until as thick as a regular jam, then add two teaspoonfuls of rose flavoring. Have ready two layers of good cake and spread the mixture between.

Italian Onion Tart—Slice two Spanish onions thinly and sauté in a little tender in a quarter cupful of butter. Meantime make a batter of two well-beaten eggs, two tablespoonfuls of flour, a saltspoonful each of salt, pepper, and nutmeg, a teaspoonful of sugar, and a cupful of light cream. Mix, add the onions, and after stirring all together pour into a shallow buttered cake tin lined with good pie-crust. Dust the top with Parmesan cheese and bake in a brisk oven.

Ukrainian Beet Soup—Grate two large boiled beets into a quart of well-seasoned veal broth, adding the juice of a lemon, a teaspoonful of sugar, pepper and salt. Cook gently for five minutes, then add the juice of a grated raw beet squeezed through a piece of cheesecloth. Scald and stir in a cupful of sweet whipped cream, or thick soup cream, add a half-cupful of diced boiled beets, the same of stewed celery drained, and three leaves of boiled cabbage cut into small pieces. Serve hot, or ice cold.

Normandy Egg Dish—Butter a fire-proof cooking dish and break six eggs into it without breaking the yolks. Mix a heaping tablespoonful each of butter and flour to a paste and stir in a small saucepan over a moderate heat. When melted add a half-cupful of oyster liquor and the same of sweet cream. When all is smooth add a cupful of oysters and let all cook, stirring constantly, for three minutes. Add a dessertspoonful of Worcestershire sauce, then turn over the eggs. Dust with a tablespoonful of fine crumbs and bake in oven until eggs are set.

Spanish Olla Podrida—Put into a soup kettle a jointed chicken, a slice of ham, a small can of tomatoes, a sliced onion, a few stalks of celery, a bud of garlic, and a bunch of soup greens. Have ready a cupful of Spanish peas (chick peas) that have been soaked overnight, a diced sweet pepper, four leaves of cabbage, and a cupful of button onions. Put all into a cheesecloth bag; tie, then drop into the soup, adding two quarts of water. Add pepper and salt and a tablespoonful of sugar. Cook until the peas are done, lift the bag out and strain the soup. Then put into the soup the things in the bag; reheat, skim and if too thin, thicken slightly and serve hot.

The man who is putting a For Sale sign on his farm now has gone through the worst of it, and is offering some other man the opportunity to buy low and get in on farming on the comeback.

Home Education

"The Child's First School is the Family"—Froebel.

Getting Up in the Morning—By Florence J. Ovens.

"G'by, Ma," called Norton in a stage whisper at the door of his mother's sleeping room. "Nat is outside waiting for me."

"Is Nat going to have breakfast with Philip, too?" she asked.

"Yes, and Mother," his sunny face overcast, "I couldn't find the extra fish-books."

"There is some change on the bureau," she said, "you had better take it; you may have a chance to get some."

After he had gone she lay pondering. It was only half-past five. Usually it was difficult to get Norton up at seven. "Nothing like the prospect of a fishing trip to stimulate the small boy's activity in the early morning," she mused.

How delightfully easy it had been! She had helped him to set the alarm clock the night before, and he had evidently obeyed its first summons. He had bathed and dressed himself without a word to anyone, and when he had come to her room his face had been just glowing with the joy of anticipation.

"I wish he could feel that way about his school," she said to herself. But on further consideration she had to acknowledge that he was fond of his school. It was simply that he had always depended on her, knowing that she would get him up in time. Not at all would he have liked being late. She wondered how it would do to give him the alarm clock and tell him that in the future he must depend upon himself in this matter. But she was afraid he would not get up in time for breakfast and she was not willing that he should go to school without even an experiment. Not being able to think of a way out of this difficulty, she put the question aside.

THE CHILDREN'S HOUR

RAINY DAYS.

To smile is an easy matter
When the sun shines bright,
And if everything around us
Is turning out just right.

But when the day is dreary,
When the dark clouds throng
And when trouble hovers near us
And things are going wrong.

It needs a hero's courage
To play a good game,
To take the bitter with the sweet
And still appear the same.

That's when good cheer is needed,
So let's change our ways,
And cultivate a smile or two
To have on rainy days.

—I. M. Thomas.

BRUIN AND ROLLY PLAY DOCTOR.

"Ho, ho, hum—um," yawned Bruin one bright sunny morning. "The sun is up and I must be getting up, too." As he was dressing he heard a flutter at the window and "Cheer-up, Cheer—chee—ee," over and over again. Peeping between the curtains, he saw a little bird on the window sill singing just as hard as any little bird ever could. And how glad that little bird's song made Bruin feel.

"A lucky day it will be for me, when a little bird sings at my window like that," thought Bruin to himself.

Carefully he put down the curtain and hurried into the pantry for some crumbs for that little bird's breakfast. But when he got back with them the bird was gone.

Of course he had to tell his friend Rolly Rabbit all about it. But Rolly only laughed at him when he told him that this little bird would bring him good luck.

Now the real part of our story begins when Bruin was coming back from the Woodland grocery store that morning. He was nearing the bend in the road when a flutter in the bushes nearby made him stop.

"What was that?" asked Bruin to himself. "Guess I'll have to go over and see."

Carefully he tiptoed in among the bushes that he might not frighten it away with his clumsy feet. He looked and of a sudden he saw a flutter right by his big foot. He had almost stepped on a little bird. It lay so very still that Bruin picked it up. One little wing fell limp at its side.

"You poor little thing," said Bruin, "your wing is broken. How did you ever do it?"

But the bird could only answer him by a faint little "chee—chee" with a note that told how dreadfully it did hurt him.

"I'll take you right home with me and see what we can do for this," said Bruin.

Although the bird did not know the animal language, he seemed to understand what Bruin meant and nestled friendly in his arm.

"What have you there?" asked Rolly as Bruin came in.

"I found this little bird down the road, Rolly. It has a broken wing. And, do you know, Rolly, I think it is the same little bird that was singing on my window sill this morning," answered Bruin.

"No matter what bird it is, we must

RED ROSE

TEA "is good tea"

Folks who want the very best use
RED ROSE ORANGE PEKOE

do something for it, quickly," said Rolly Rabbit.

So together they doctored the bird and mended the broken wing with tiny splinters and fed him everything that little birds should eat. In a few days he was so much better that he could sing to Bruin and Rolly for being so kind to him. It was not long before he could fly about the house. He would light upon first one shoulder and then the other and chirp and sing to them, but always in the strange bird language that neither Rolly nor Bruin knew, but seemed in a way to understand.

Then one bright morning Bruin opened the door and the little bird flew out, but as he went he seemed to say to his two strange friends, "Thank you so much—for what you have done. I'll come back to see you again."

The Production of Good Combs.

A good stock of drawn combs is the most valuable asset that a beekeeper can have, especially if one is a producer of extracted honey. They are of particular value in a season when the honey crop is light, because they enable the bees to store what little nectar is available instead of using it for the building of new comb.

Every beekeeper should endeavor to have a number of new combs drawn during a good season to replace any that may become damaged or broken. A good comb is one that is straight and containing as few drone cells as possible. It must also be firmly attached to the frame on all four sides and strongly supported in the frame.

By means of wire. To produce such combs, the frames must first be tightly wired; No. 28 tinned wire is most commonly used. Full depth Langstroth frames should have at least four horizontal wires, larger frames will need more. It is important that a full sheet of foundation be used for every frame; this must be fastened to the top bars and the wires firmly embedded into the wax by means of an electric or spur wire embedder. The foundation may require trimming, as it must not touch the end or bottom bars of the frame by at least one-eighth of an inch or it will buckle after giving it to the bees. Foundation well fastened in the frame will not melt down or sag and the finished comb will not have distorted cells and will not break in the extractor if carefully handled. Bees will not work on foundation unless there is a plentiful supply of nectar coming in, therefore, it should only be given during a good flow. To get the combs well attached to the frames, the foundation should be drawn out in extracting supers, as bees seldom attached the combs to the bottom bars in a brood chamber.

When extracting the honey from new combs, first take only part of the honey from one side, reverse the comb and empty the other side; again turn the comb and finish the extracting; this will prevent breakage. If all the honey is extracted from one side without removing any from the other, the weight of honey on the inner surface of the comb will crack or even break out the whole centre. —C. B. Gooderham, Dominion Apiarist.

GAS ON THE STOMACH

A very common and unpopular ailment is that generally designated as "gas on the stomach." Its victims usually think of it as a disease in itself, rather than a mere symptom, and are inclined to the belief that it can be disposed of by taking "something to break up the gas."

In their desire for relief they are willing to take soda, charcoal, dyspepsia tablets, or any medicine that any person may suggest to them, but seldom indeed do they seek the real foundation of the trouble and show themselves willing to correct their errors in diet or to seek for the other physical errors that lie at the real seat of the trouble.

Gas on the stomach is not always a trivial matter. It always causes distress that is quite out of proportion to its apparent importance and makes the patient willing to do anything to get relief. Sometimes there is a feeling of pressure upon the heart that terrifies the patient exceedingly, and this terror is not always without foundation, for the poor digestion and sluggishness of the alimentary tract that allow the condition to exist may be dependent upon a genuine heart lesion.

Temporary relief can usually be obtained by taking a glass of hot water containing from half to one level teaspoonful of bicarbonate of soda. But the person who has this warning symptom and is content with something to take in order to get immediate relief is very short of vision. The symptom, if of frequent recurrence, is a warning of more serious things. The patient should at once find out the cause of the trouble. If dietetic errors exist, they should be corrected with promptness and severity, no matter how much denial of appetite is demanded. The heart action and blood pressure should be carefully examined to make sure that all is safe in that direction. The trouble generally calls for an all-round examination and it should be made by a doctor who is not inclined to wave the matter away with talk of "a trifling indigestion," but is willing to go to the bottom of matters.

The best treatment for "gas on the stomach," therefore, is—
a. Careful selection of foods, avoiding those that tend to fermentation; thorough mastication, slow eating.

b. Drink half a pint of hot water, just before each meal, thereby stimulating the action of the stomach.

c. Determine if condition of pro-lapsed stomach exists, and correct it.

d. Ascertain if any disturbance of heart action or blood pressure, and correct it.

e. Maintain regular, daily bowel habit.

Handy Oiler for Hogs.

The hired man one day hunted up two or three burlap sacks and tied them around a big post in the hog lot. He left a few inches of sack loose above the string around the top and filled this place with motor oil that had been taken out of the engine as worn out. You should see the hogs get busy about that sack. It soon was soaked with oil and they proceeded to give the lice on their bodies a good oiling. Old canvas or any stout cloth will serve if burlap sacks are not handy, and crude oil may take the place of motor oil.—A. Hilco.

Sore Shoulders.

Be sure that the horse's collar fits right but do not stop there. When resting the team in the field take a minute to wipe off the sweat under the collar; and at the end of the day's work try this method: Remove the harness from the team, bathe the horse's shoulders with a weak solution of cold salt water and then turn the horses out in the barn lot for a roll and drink. While your horses are enjoying this luxury put their feed in their mangers and in a short time each horse will come into the barn and find his own stall.

Nails in Hard Wood.

A very good carpenter that I know has a small hole bored in the butt end of his hammer filled with beeswax. When he is driving finishing nails into hard wood he sticks the head of each nail into this wax. This helps keep the hammer from glancing from the head of the nail and prevents bending.—M. W.

Test the soils of the farm, apply lime where needed, when needed, and in the amounts needed. Then remember that 1,000 pounds of hydrated lime is equal to about 1,600 pounds of pulverized limestone, or about 2,900 pounds of medium ground limestone!

A feed-hopper, built on runners, may readily be pulled from one part of the farm to another. The colony house, too, may be likewise equipped, and the good old mare will do the trick.

An investigation of successful farming methods indicates that the ones who succeed plan their farming and then work their plans.

When politics gets out of its own field, it upsets things.

HOW TO BE A FATHER

One of the best careers in the world is to be a father. It gives solid satisfaction and pays in level-headed, fine-spirited sons, and clear-eyed, womanly daughters.

"Dad doesn't seem like a parent," said a boy in his teens, "he seems more like a chum or a friend."

Long years of learning how to be a father led to that remark, which showed that the time and effort spent were already bringing results.

This particular father began when his children were under two years of age. He spent very little money on the children. "Come and see with daddy," he devoted hours of his Saturdays and Sundays to playing with the children, reading to them, listening to them, and talking with them. He did not do so much "for" them. He did much "with" them. It was not, "Let daddy make a house for you," or "Let daddy fix it for you," instead he thought it wiser to say, "You build a house with daddy," or "You fix it with daddy," and so the children learned the fun and pleasure of doing things with daddy.

He did not talk to them, but with them, as one man to another, and one friend to another, and the little ones gained dignity and understanding unconsciously. He treated the children as intelligent companions, and they became so.

He never was too busy to explain, to answer their questions, to help with their problems, to solve their childish puzzles. If mother could not answer, she advised, "Be sure and ask daddy and he will tell you."

When the children began to take their share of the work and responsibility of the home, it was with daddy they did many of their little tasks. Before they were five years old this father had begun to say, "Come," He seldom said "Go." It was not "You go and do this," or "You go there." He said "Come on and help me clean up the collar," or "Come and help mother to these dishes," and "Come and clean up the yard with me." The children responded at once, for work with dad was half play and it was great to be trusted with responsibility by a man.

"Tell dad," became a watchword. The struggles and triumphs, the losses and gains, were told him at the end of the day or week. He showed his interest every morning at breakfast and every night at dinner by questions and conversation about their activities, until it was natural that no matter what happened, "Let's tell dad," came spontaneously and the child's natural became the desire to have only the best things to tell.

This father was jolly and played like a chum, yet there were certain lines laid down. None of this dad's playmates could be mean, or cheat or tell untruths, or drink a drink. Each child must obey promptly, work cheerfully, act manfully. Each child must respect, obey and work for mother, who dad said was the Queen of the home.

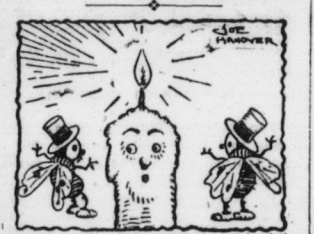

Mother helped this dad learn how to be a father, co-operated with him, helped him understand the little foibles by talking over with him the children's daily experiences, and joined in with his plans. She planned with the children, how to surprise or please dad, and showed in every way what a fine thing it was to have a real father.

It takes thought and effort and years of time to learn how to be a father, for like all careers, it is made up of great desire, hard work and ideals, and the marks of success in this career are not counted in money, but in flesh and blood, brain and heart, in the greatest asset the world possesses—the father's children.

Old Song.

This is a song men made:
Of long toil and little shade;
This is a song with the bite
Of hard stars and a black night,—
A song men came to know
With starting over plow or hoe
At roads where one had need to go.—
A shining speech they poured
From sighs long stored;
From laughter saved till it was golden.
This is a song of slower, older,
Vanished life. Our songs are bright
With rippling play of haste and light;
Smoothly their singing runs, their laughter.

And neither leaves an echo after.
They have no slow residue of gloom,
No ecstasy of purple bloom,
No peace, no hate of hopeless wrongs.
Out of our life we make our songs.
—Frank Ernest Hill.

It is not lawful for man to know what the morrow may bring around. The juice of the ink-plant of New Granada can be used as ink without any preparation. At first the writing is red, but after a few hours it changes to black.

EUGENE LEPAGE GIVES TANLAC FULL CREDIT

Stomach Trouble Vanishes
and Montreal Man Gains
14 Lbs. On Four Bottles.

"Since I began taking this wonderful Tanlac I seem to be getting younger every day. I have gained 14 pounds on four bottles, and everybody speaks about how well I look."

The above statement was made, recently, by Eugene Lepage, proprietor of Prince of Wales Hotel barber shop, Montreal, Canada, one of the most exclusive tonsorial parlors in this city. Mr. Lepage further said:

"Stomach trouble had almost completely wrecked my health. I was a mere shadow of my former self and so run-down and nervous I thought I would have to give up my work."

"Tanlac soon had me eating everything, sleeping like a log at night and feeling as fine as one could ask to feel. My only regret is that I did not learn about Tanlac long before I did."

Tanlac is for sale by all good druggists. Accept no substitute. Over 40 million bottles sold.

Manufacturers of Tanlac.

Surnames and Their Origin

KENNEDY
Variations—Kinnity, Kinnity, O'Kennedy.
Racial Origin—Irish.
Source—A nickname.

For the most part, the Irish clan names, which were virtually family names, and have become so absolutely in modern usage, were formed strictly from given names, from the names of those chieftains who first gathered about them a sufficient number of followers to be designated as a clan. But sometimes these chieftains received nicknames, descriptive of some trait or honor achieved, and it was the nickname which became the clan name. This is the case of the Kennedy clan.

The Gaelic designation of this clan is "O'Ceannata," and with the exception of the last syllable, which has naturally become slurred a bit in the Anglicized form of the name, its pronunciation was precisely that of O'Kennedy.

The founder of the clan was a chieftain named "Fergus" and nicknamed "Ceannata," or "longhead" (in the sense of being far-sighted), who flourished about the time of St. Patrick. Thus this clan or family name is about as old as Christianity in Ireland, and antedates the Christianization of Anglo-Saxon England, which was several centuries to the Norman invasion of that country, with the subsequent formation of English family names.

KEATS
Variations—Keet, Ketts.
Racial Origin—English.
Source—Personal characteristic.

By no means have all family names developed from occupations, places of residence or given names of parents. Probably as large a class as any, in English nomenclature at least, developed from nicknames descriptive, or allegedly descriptive, of personal peculiarities.

Such names were given to men in medieval times in exactly the same manner that a small boy is given a nickname today by his companions. The difference lies only in the fact that the need for the nickname or descriptive surname was greater in those days than today. In this manner such names as Brown and Black have developed, just as boys today acquire such names as Reddy or Skinny. The modern boy lives them down eventually, for he has a family name which better serves the purpose of a surname when he grows up. But in medieval times the nicknames were turned into family names, for populations were growing so fast that a given name was not enough to distinguish a man from all of his fellows.

Names in this group were taken from the word "keet," which since has become obsolete. It meant "fierce" or "bold."

could cross the narrow channel—Smith Sound and Kennedy Channel. In the winter months, kill the musk oxen and return with the pelts to their native country. Incidentally, Greenland has far outstripped the northern Canadian islands in the exportation of furs.

Police to Enforce Rules.

The government decided that it was time to acquaint the Greenlanders with the fact that Canada is a country with a rigid customs barrier, and if they desire to take Canadian furs back with them they must meet the requirements of the law. Hence the establishment of a Royal Canadian Mounted Police post at Cape Sabine, Inspector Wilcox and six other ranks are stationed there.

This summer the department hopes to establish more posts on some of the islands further to the west. Bathurst Island is marked but as one of the islands best suited for the purpose because of its central position.

Have You Heard?

That horse's tongue is considered a great delicacy among the peasants of Scotland?
That a form of wireless telegraphy was used in China at the time of Confucius?
That walrus hide, applied lightly to the scalp night and morning, is a sure cure for baldness?
That in certain tropical islands in the Pacific beetroot grow to the height of fifteen feet?
That at the North Pole the temperature frequently is higher than it is in London?

That there exists a tribe of savages in Central Africa having eight fingers on each hand?
That mice suffer greatly from indigestion?
If you have, then someone has been pulling your leg.—London Opinion.

GREEN TEA IMPORTS LARGER.

Statistics from Ottawa show that in 1923, 153,977 pounds more Green Tea were brought into Canada than in 1921, and 966,728 pounds more than in 1922. The reason given is that the fine quality Green Teas of India and Ceylon have displaced the inferior Japan and China Greens which, due to their low price, were imported heavily some years ago. Salada Tea Company is the largest importer of India and Ceylon Green Teas.

Stockings which are too long or too tight can do as much harm as badly-fitting shoes.

Pride.

Why do I rise at the dawn's early light,
To clean the car after a rain?
When I'm perfectly sure it will be, before night,
Quite dirty and dusty again.

Why do I hasten to give it a bath,
To polish it after a ride?
I'd much rather follow the easier path,
But I can't—it's a matter of pride.

Why do I hunt for a rattle or squeak,
In a most inaccessible spot?
Why am I willing to work for a week,
When the weather is terribly hot?

It's not that I love all the grease and the grime;
That's something I cannot abide;
Moreover, the job takes a lot of my time,
It's merely a matter of pride.

A man may be known by the car he will keep—
The way that he keeps it, I mean;
Perhaps it is one so remarkably cheap,
Or else an expensive machine.

It isn't the money expended that counts,
It isn't the price that's the guide;
It's really the care that he gives—that amounts
To the strength of his personal pride.

—Harold S. Osborne.

Life's Meanings Complicate and Wide.
Life's meanings complicate and wide
Take of us tenderest love, sincerest pride,
As we approach the sea whose solemn tide
Must bear us home.

A bleak-blown stretch before our eyes,
Some sterile rods of bleak-blown shore,
And we must leave familiar lands and skies
Forevermore.

Earth, with your countless gentle ways,
Sky, with your limitless desire,
Take of us tenderest love, sincerest pride,
Ere we retire.

Life, with your meanings complicate,
Your sorrow and your blitheness both,
How are we vain to prove our unfriended fate,
How far we loath!

Friends.

Friends are pearls o' precious price,
That God gives us here on earth;
Bits o' gold from Paradise—
Heaven's jewels of priceless worth.
Sow to bless us for a while,
With their lov'ly ways, an' true
With the sunshine of their smiles—
That God made for me an' you.

We should cherish them above
All things else on this o' sphere,
For they're bringing us their love,
Just to cheer us, an' to be here:
All the silver an' the gold
In this world o' wealth on end,
Couldn't buy for us, or hold
One true, honest, lovin' friend.

They're given you an' me—
Gifts from love from Heaven's heart—
To be with us, an' to be here:
Of our lives a lovin' part;
For the blessings that He sends,
An' the love that lights our way—
In the hearts o' lovin' friends.

—James Edward Hungerford.

A SPLENDID LAXATIVE FOR THE BABY
Mothers should constantly be on guard to keep baby's bowels working freely and his stomach sweet, for nine-tenths of the ailments from which little ones suffer are caused by derangements of the stomach and bowels. Baby's Own Tablets are a splendid laxative for the baby. They are mild but thorough; contain neither opiates nor narcotics, and are absolutely guaranteed to be safe and efficient for either the newborn babe or the growing child. By their action on the bowels and stomach they drive out constipation and indigestion; break up colds and simple fevers and make the dreaded teething period easy. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Love Song.
It must have been the wind that stirred my hair;
Called it my fingers, not the wind,
I would not look, nor ever shall I know,
Whether the touch that put a score of years
To deepest sleep, and rest beyond all sleep,
Was your shy hand, or just some lost light wind.
Nothing in all of love was sweet like this—
To let love sleep;
To ride alone the curling, star-lit deep
And know
That love can go;
That there is rest between the day and night,
That time may flow
Like water singing to its stones below,
And laughing to the light.

Prince of Medals.

In the Woolworth Building, New York, which is today the world's tallest skyscraper, approximately a million pounds of copper was used for roofings, lifts, pipes, and interior decorations.

Probably few people realize the numerous uses to which copper can be put. But one thing is certain. If the supply failed we should soon be without electric lights and bells, telephones, electric trains and tramcars—to say nothing of copper coinage!

At first glance the amount of copper used in the building trade, in comparison with the quantities of iron and steel, would seem to be negligible; but when one takes into consideration the fact that every motor-car has anything from 10lb. to 200lb. of the metal in its composition, and that there are about 3,000,000 in service on the highways, one can appreciate the extent to which the demand for it is increasing.

Escape.

Let me not be caught in the corn,
Or the waves, or the trees;
Not even a bird will I be
When I die.

Once is enough to be born
Into the kinship of these
Strange, strong things of the sea
And field and sky.

When I slip the net that swings
Hot from the sun,
And break this tangle of grass,
I will go
As nothing that stirs or sings,
Unborn, undone,
Into the dark, and pass
To things I know.

—Florence G. Jenney.

A REAL NERVE TONIC
Is a Bountiful Supply of Rich Health-Giving Blood.

Sufferers from what medical men speak of as nervous debility find themselves tired, morose, low-spirited and unable to keep their minds on anything. Any sudden noise hurts like a blow. They are full of groundless fears and cannot sleep at night. Their hands tremble, the legs feel as if they will give away following a walk or any exertion, and the mind is greatly disturbed by the most trivial incidents.

Doctors find the nerves with poisonous sedatives a terrible mistake. The only real nerve tonic is a good supply of rich, red blood. To secure this new, rich blood use Dr. Williams' Pink Pills which have a direct action on the blood and through it stimulate every nerve and organ in the body. Mrs. Alpheus Merritt, Fenwick, Ont., gives her experience with this medicine as follows:—"I had nervous breakdown and was in the Welland County Hospital for some time. As I was not improving my husband took me out and took me up to my mother's. I doctored there but it did not help me. Then I returned home, and was again under a doctor's care, but with no better results. I would tremble and get numb all over, and the least noise would affect me. I was quite unable to do my housework, and was in a terrible condition. Finally I was advised to try Dr. Williams' Pink Pills, and after taking about a dozen boxes I was again a healthy woman. I have used the pills since while nursing my baby, with equally good results, and I strongly advise other ailing women to try them."

You can get these pills through any dealer in medicine, or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

High Living.
Early mountaineers, says the leader of the third attempt to climb Mount Everest, feared lest they should collapse at an altitude much less than that which warranted any such fear. He believes that almost anyone can remain for long periods at heights of twenty-one thousand feet or more if he is not afraid. When European men were supporting at the top of Mont Blanc—at an altitude of less than sixteen thousand feet—there was a road over a pass in India thirteen thousand feet high that had been in constant use for centuries.

The evil wound is cured, but not the evil name.

Hidden treasure has always acted as a lure to the adventurers of the world, but though treasure hunters are many, treasure findings are few.

Trinidad is believed to be a "mine of treasures." Much of the wealth of the richest of the South American cities was conveyed to that island by the sea rovers who plundered the mainland.

In a great cavern in the cliffs on the Auckland Islands lies the General Grant, which was wrecked in 1866, with 50,000 ounces of gold on board. It is known that the bulk is still within the cave, but expeditions from Australia and New Zealand have been baffled by the underflow and the great combers.

Somewhere in the East River, U.S.A., is \$2,500,000 in gold. It has lain there since 1780, when the British frigate Huzzar, carrying money for the Royal forces engaged in the American War, struck a rock opposite the upper end of Randall Island and sank only a hundred yards from shore.

Lovers of romance, too, will find food for dreams in the thought that on the mainland of Panama is a great store of gold hidden by Sir Francis Drake after he had sacked the city of the same name. The treasure was never retrieved, and no one knows where to look for it.

He Forgot.

Mike and Pat were "gentlemen of the road." It was not often they were lucky enough to secure such satisfactory quarters as they had on this particular night, but a kind-hearted gentleman had given them a very cosy bedroom over the stables.

When the pair were comfortably lying in bed with the light out Pat suddenly got up and struck a match. He had a good look around, then blew out the match and lay down again.

"Why did you do that?" asked Mike. "Oh," replied Pat, "you see, I forgot whether I blew the candle out or not, so I just looked to see."

CUTICURA HEALS LARGE PIMPLES

On Face, Itched and Burned. Lost a Great Deal of Sleep.

"I had pimples on my face for several months. They were hard and large, and the skin was sore and red. The itching and burning almost set me crazy at night and I lost a great deal of sleep. The breaking out caused disfigurement. I tried many different remedies but found no relief. I almost despaired of help when I tried Cuticura Soap and Ointment and in a short time I was completely healed." (Signed) Miss Annie Fischer, Box 45, Hatton, Saskatchewan.

Clear the pores of impurities by daily use of Cuticura Soap and occasional touches of Cuticura Ointment as needed to soften, soothe and heal. They are ideal for the toilet, as is also Cuticura Talcum.

Sample Each Free by Mail. Address: Canadian Cuticura, Ltd., 100 St. John St., Montreal. Price: Soap 25c, Ointment 50c, Talcum 25c. Try our new Shaving Stick.

BEFORE MY BABY CAME

I Was Greatly Benefited by Taking Lydia E. Pinkham's Vegetable Compound

Sydenham, Ont.—"I took your medicine before my baby was born, and it was a great help to me as I was very poorly until I had started to take it. I just felt as though I was tired out all the time and would have weak, faint spells. My nerves would bother me until I could get little rest, night or day. I was told by a friend to take Lydia E. Pinkham's Vegetable Compound, and I only took a few bottles and it helped me wonderfully. I would recommend it to any woman. I am doing what I can to recommend this good medicine. I will lend that little book you sent me to any one I can help. You can with the greatest of pleasure use my name in regard to the Vegetable Compound if it will help others take it."—Mrs. HARVEY MILLIGAN, Sydenham, Ont.

It is remarkable how many cases have been reported similar to this one. Many women are poorly at such times and get into a weakened, run-down condition, when it is essential to the mother, as well as the child, that her strength be kept up.

Lydia E. Pinkham's Vegetable Compound is an excellent tonic for the mother at this time. It is prepared from medicinal roots and herbs, and does not contain any harmful drugs. It may be taken in safety by the nursing mother.

Men's and Boys' Clothing at surprisingly low prices.

E. A. MAYHEW & CO.

What did Jesus say about passing judgment on others?—Matt. 7: 1-5.

NEWBURY

Miss Lillian Owens is home from Hamilton for the vacation.
E. Hurdle, of Walkerville, spent a few days last week with his sons, F. J. and Clarence.

The Y.P.S. of Knox church had a social evening on Monday. A feature of the program was the presentation of a cut glass berry bowl and flower basket to Mr. and Mrs. Archie Stewart (nee Susie Bell).

Jack McTavish and his mother, of Toronto, are visiting Mrs. A. G. Munroe.

Mrs. Hetherington, of Thamesville, is visiting her sister, Mrs. Amos Fennell.

Miss Marnie Fennell arrived home from Toronto on Friday and left on Monday for Moosejaw and Pasque, where she will remain for a month, after which she will return to her home, Bessie, of Moosejaw, and Hazel, of Mordant, will take a trip through British Columbia, visiting their brother, Harold, and uncle, George Fennell, at Chu Chua.

Dr. H. C. Bayne, of Sarnia, spent Sunday at his home here.

Wm. Milner and wife, of Walkerville, spent the week-end at A. Holman's.

Mrs. Clunn and daughters, Ada and Mrs. R. Hicks, of Glenoe, called on friends in town last week.

Will Barkie and wife and son Bill, of Tillsonburg, visited Miss Stott last week.

Mr. and Mrs. Manning, of London, have been visiting Mrs. Sellers.

Miss Mamie G. Bayne left on Tuesday for Toronto where she will take a summer course in arts.

Mr. and Mrs. R. J. Haggith and daughter, Mrs. J. Cousins, and baby Bobby arrived on Sunday from Harrow.

Gordon Haggith, wife and family, of Windsor, are visiting his mother, Mrs. Glennie.

Alf Logan met with an accident on Wednesday in which he broke his leg. By a strange coincidence he was working with the same canthook and started to move the log which had been left the day Noble Hurdle broke his leg a few weeks ago, when the hook slipped, and he, too, will be laid up for some time.

Miss Louise Parnall, of Pt. Credit, has been visiting her niece, Miss Helen Parnall.

School closed Friday, and the children, wishing to show their appreciation for their teachers, presented Mrs. Vanduzer with an ivory mirror and comb and Miss Keith with a fountain pen and pencil in a plush case. The presentations were informally made and took the teachers quite by surprise, but both were much pleased with the gifts. It is a sorrow alike to children and parents that Miss Keith is leaving and possibly Mrs. Vanduzer. Miss Jean McEachren, of Glenoe, has been engaged to take Miss Keith's room.

The Newbury-Moss Women's Institute will hold a sale of homemade baking in the Institute rooms on Saturday, July 5, from 2.30 to 4.30 p.m.

WARDSVILLE

Mr. and Mrs. Bollingbroke and Wm. Atkinson attended the Presbytery at Port Stanley last week.

Mr. and Mrs. E. J. Purcell and Mr.

and Mrs. D. L. Purcell were in St. George last week where they attended the funeral of their uncle.

Mr. and Mrs. Alex. — and daughters, of Woodstock, visited Mr. and Mrs. W. H. Parnall last week.

Miss M. Aitchison is spending the week with friends in Windsor.

Miss L. Sheppard left on Tuesday for Montreal to sail for a six weeks' visit in Europe.

Delegates at the W.C.T.U. convention last week were Mrs. Potter, Mrs. Ellwood, Mrs. Elliott, Mrs. Linden and Mrs. McDowell.

Miss Nora Henderson, who has been very ill, is greatly improved.

A social evening was held at the parsonage on Tuesday in compliment to Mr. and Mrs. R. Blain and Mr. and Mrs. E. Campbell. A good number were present and a pleasant time enjoyed by all. Lunch was served at the conclusion of the evening.

The Wardsville girls' ball team and the Tai's Corners team played a game of ball on Friday evening, resulting in a victory for Wardsville, the score being 20-14.

Middle school examinations ended on Monday, and the high school entrance examinations commenced on Wednesday.

Notice. — Monuments, in Scotch and Canadian granites; inscriptions engraved at your cemetery a specialty.—Wardsville Granite & Marble Works; Chas. Minna, proprietor.

SOUTH EKFRID

Will Good has returned home after a pleasant trip to Muskoka with the Glenoe orchestra which accompanied the Lumbermen's Association on their holiday to that place.

George C. Squire is spending his vacation at the home of his brother Roy.

Mrs. John McKay, of Detroit, is visiting at the home of her brother, T. J. McDonnell.

Mrs. A. Jones and Mrs. B. Dobson, of Detroit, are visiting at the home of their parents, Mr. and Mrs. D. McIntyre.

Miss C. McIntyre has returned from a two weeks' visit in Detroit.

Sorry to hear of the serious illness of Mrs. W. T. Cyster.

A splendid meeting was held at the home of Mrs. Roy Squire on Thursday last when the ladies of the U. E. W. O. entertained the Melbourne club.

The program, which was in charge of the Melbourne club, was excellent, consisting of solos, trios and papers, and a splendid discussion on bobbed hair. An excellent lunch was served by the Tai's Corners club. The next meeting will be at the home of Mrs. James McRae on Wednesday, July 30.

Strangled with Asthma is the only expression that seems to convey what is endured from an attack of this trouble. The relief from Dr. J. D. Kellogg's Asthma Remedy is beyond measure. Where all was suffering there comes comfort and rest. Breathing becomes normal and the bronchial tubes completely cleared. This unequalled remedy is worth many times its price to all who use it.

NORTH EKFRID

Maud Laughton returned to her home in London on Sunday after holidaying here for a few weeks.

A number from here were at Appin Sunday evening to hear Rev. Mr. Parr's farewell sermon.

A few from this vicinity motored

to Port Stanley last Wednesday to attend the Masonic picnic.

The Ladies' Aid will hold their anniversary services in the Presbyterian church on July 13th, afternoon and evening.

Sacrament of the Lord's Supper was observed here Sunday afternoon, with the majority of the church members present.

Committees are arranging for our big anniversary to be held July 13th and 14th.

Sandy Livingston is ill with the measles, but is somewhat better.

Mrs. Fred Armstrong has returned home after spending a week with her daughter, Mrs. Thos. Foley, in Chatham.

Wedding cake boxes at The Transcript office.

Send in the local news, and send it in early.

STRATHBURN

Word was received this week of the death of Angus Stewart in Minneapolis. Mr. Stewart was a son of the late Duncan Stewart, of this section.

Mrs. Walter Peters and son Junior, of Chicago, are visiting at John Gould's.

Miss Mae Simpson has returned to Windsor, accompanied by her niece, Miss Catherine Simpson.

John McKae has returned to Niagara Falls after visiting at D. H. McKae's.

Campbell McKae visited at Port Huron last week.

Mrs. Joseph Siddall has returned to her home in Ekfrid after visiting her sisters in Newbury.

Much sympathy is extended to Ross McEachren and family in their sad bereavement.

A fast game of ball was staged on Monday evening between the Woodgreen River Rats and our Kindergarteners. Score 11-8 in favor of our kids.

MIDDLEMISS

The Middlemiss creek bridge has been extensively repaired by the council and is now open for heavy traffic.

Gordon Richards, of Middlemiss, who has been employed by Anderson & Co., St. Thomas, for the past year, has gone to Edmonton.

Albert Fryer's barn was struck by lightning and burned to the ground. A quantity of hay, 150 hens, a horse, seven sets of harness and some implements were also destroyed.

Harry Lucas visited friends here on Sunday.

Miss C. McNabb arrived home on Saturday for the holidays.

The recent rain puts everything in a fair way for a good crop.

The Campbell clan are looking forward to a monster picnic at Springbank on July 17th.

Councillor McDonald attended the county picnic at Springbank on the 26th of June.

Miss Phemia Wrightman, of Detroit, is renewing old acquaintances here this week.

Ralph Perkins and wife spent Sunday with her mother, Mrs. B. Graham.

An Oil of Merit.—Dr. Thomas' Electric Oil, not a jumble of medicinal substances thrown together and pushed by advertising, but the result of the careful investigation of the healing qualities of certain oils as applied to the human body. It is a rare combination and it won and kept public favor from the first.

A trial of it will carry conviction to any who doubt its power to repair and heal.

EKFRID STATION

Mr. and Mrs. Clarence McLean and son Donald have returned to their home in Detroit after spending the holidays with Mr. and Mrs. J. T. McLean.

Oscar Eaton, of Detroit, visited his parents, Mr. and Mrs. Richard Eaton, recently.

Mrs. Holmes, of Bothwell, is visiting her sister, Mrs. J. T. McLean.

Miss Frances Whinn, of Windsor, is home for the holidays.

Miss Sadie Switzer, who has been attending London Normal School, is spending the holidays at her home here.

PRATT'S SIDING

Mr. and Mrs. Kendall and little daughter, of Detroit, are spending a couple of weeks with friends here.

Mrs. Dunc. McCallum and children have returned home after a pleasant visit with friends at Leamington.

On Friday evening a large crowd witnessed an exciting game of softball between Pratt's Siding and Wardsville ladies' at Wardsville. The score was 20-14 in favor of the latter team.

Mr. and Mrs. L. Gardiner spent the week-end with the latter's parents, Mr. and Mrs. McFarlane, Ekfrid.

Miss Ruth Walker, of Chatham General Hospital, is on a visit to her brothers here.

Mr. and Mrs. D. L. Mitchell, of Detroit, spent Sunday with her parents, Mr. and Mrs. E. F. Reyecraft.

Quite a number from here attended the garden party at Napier Friday evening.

Miss Jessie Currie intends going West next week to spend the summer with friends there.

The indications of worms are restlessness, grinding of teeth, picking of the nose, extreme peevishness, often convulsions. Under these conditions one of the best remedies that can be got is Miller's Worm Powders. They will attack the worms as soon as administered and they pass away in the evacuations. The little sufferer will be immediately eased and a return of the attack will not be likely.

MELBOURNE

While attending the funeral of Mrs. Hazen in London, Mrs. Sparling Clark, of this place, was taken suddenly ill. Medical aid was called, but she was unable to return home until Thursday afternoon. Although still confined to her bed and very ill, she is now showing signs of improvement.

Rev. Andrew Boa preached his farewell sermon in the Methodist church here Sunday morning. At the close of his discourse, which was eloquent and masterly, he referred to the happy time he had spent with the Melbourne people and the pleasant relations which existed between himself and the congregation. He wished every success to the people and their new pastor, Rev. Morley Colling, who will have charge of the services on July 6th.

CASHMERE

Mr. and Mrs. Ted Knowler and family, of Bothwell, spent Sunday with Mr. and Mrs. Wed. Dark.

Mr. and Mrs. Emery Kelso returned to their home in Pontiac on Friday after visiting with her mother, Mrs. Charles Tunks.

Miss Elsie Thompson, who has been teaching at McCready school, is spending her vacation at her home here.

Chas. Wilcox, of Chatham, called on Wed. Dark recently.

No need to suffer with corns, or to run the risk of paring them. Remove them surely and painlessly with Holloway's Corn Remover.

APPIN

Don't forget the strawberry social next Friday evening, July 4th.

A pleasant evening was spent last Thursday in the basement of the Methodist church. During the meeting of the Young People's League Rev. M. C. and Mrs. Parr were called forward, while Wilfrid Switzer, Mentor of the Taxis Boys, read a nicely-worded address and Vesta Gast, on behalf of the Taxis Boys and C. G. I. T., presented them with a beautiful bronze electric lamp. Mr. and Mrs. Parr were enthusiastic and energetic workers among the young people, and a mark of appreciation was shown in the present given.

The Methodist church was crowded on Sunday evening to hear the farewell sermon by Rev. M. C. Parr, who has been pastor here for three years. His text was taken from Ephesians 5: 13, 14. Special music was prepared for the occasion. Mr. Parr left this week to take up his work in Tilbury.

Rev. C. Motyer, of Formosa (near Walkerton), new pastor of Appin Methodist church, has moved here and will take up his work immediately.

KILMARTIN

The sacrament of the Lord's Supper will be observed in Burns' church, Mosa, next Sunday morning. Preparatory services will be held on Friday at 11 a.m. and 8 p.m.

The local ball team played at Napier on Friday evening and won by a score of 13 to 1. They also played at Appin on Monday night, winning by 15 to 10, and defeated the Heartbreakers at Fred McGill's on Tuesday by 14 to 11.

Friends and pupils of Miss Corinne Howe met at the school house on Thursday evening and presented her with pieces of silver. Mary McKellar read an address and the presentation was made by Prudence Moore, Mary McLachlan and Zeida Munroe.

After a short program ice cream and cake were served.

Walter Lewis spent the week-end at his home.

Mrs. Johnston, of London, spent the week-end with her parents, Mr. and Mrs. George.

James Blakey, of Detroit, spent Sunday at his home.

A number from here attended the garden party at Napier on Friday.

Miss Margaret Campbell is spending the vacation at her home.

L. H. and Royal Badgley spent Wednesday in London.

Ready-made Medicine.—You need no physician for ordinary ills when you have at hand a bottle of Dr. Thomas' Electric Oil. For coughs, colds, sore throat, bronchial troubles, it is invaluable; for scalds, burns, bruises, sprains it is unsurpassed; while for cuts, sores and the like it is an unquestionable healer. It needs no testimonial other than the use, and that will satisfy anyone as to its effectiveness.

Advertising stimulates trade.
