THE PREMIER CAUSES DISMAY

His Proposal Regarding Old London's Underground

Railways.

London, Nov. 13. - Premier Balour's intimation that a royal commission may be appointed to consider the various schemes for the relief of London traffic has been received with something like dismay. It is assumed that the reference of the prospective tube bills to a royal commission will involve a grievous delay in their commencement, and possibly drive them over to the parliamentary session of 1904. By that time Yerkes will have almost completed the work of electrifying the district railway.

The appointment of such a commission, according to the view of solicitor of Messrs. Parks Yerkes, and the chairman of the district railway, will involve the hanging up of Mr. Morgan's and other schemes yet unsanctioned for two or three years, as a commission is not likely to report in less than that time. Meanwhile the Yerkes and Speyer schemes will go ahead. The matter was discussed today at a meeting of

the London county council. Mr. John Burns declared that the tube system was already obsolete. The people did not want to travel in bowels of the earth. The solution of traffic congestion lay in electric surface lines connected with congestpoints by shallow underground tracks, the present indications point the eventual establishment central control of all lines, which will have an important influence in the pending schemes.

TO FIGHT PEA WEEVIL

An Additional Campaign Through Farmers Institute.

Toronto, Nov. 13. - Mr. C. C. James Depute Minister of Agriculture, yessent out circulars to all the department correspondents, in order to ascertain the extent of the havoc wrought by the pea weevil this season. Ontario used to produce magnificent pea crops before the weevil got in its malignant work, and Mr. James says that if farmers would treat their peas properly the evil could be checked and profitable crops again grown. To this end the department will inaugurate ail educational campaign this winter through the farmers' institutes, so as to instruct the farmers how to treat their peas to keep the weevil out.

CANADA'S TRADE STILL GROWING

Large Increase in Foreign Business-The Figures for Four Months.

Ottawa, Nov. 12 .- At the rate of expansion revealed by the trade returns of the four months which ended on Oct. 31, Canada's aggregate foreign commerce will show a gain of not less than \$37,000,000 when the fiscal year closes eight months from now. Taking the four months in question, the increase in our aggregate trade, on the basis of imports for consumption and exports of domestic produce only, was \$11,878,615, as compared with the same period of last year. The exports exceeded the imports by over \$10,000,000. The gain in imports as compared with the first four months of the previous fiscal year was \$4,116,658. The increase in exports was \$7,761,957. WHIP FOR ONTARIO HOUSE

Mr. C. M. Bowman, M. P. P., Likely To Be Chosen.

North Ontario and Kingston Petitions May Be Dropped.

Toronto, Nov. 13.-A rumor was circulated today that the petitions against W. H. Hoyle (Conservative). North Ontario, and Mr. E. J. B. Pense

(Liberal), Kingston, would be dropped. NEW WHIP. When the new Legislature meets one of the first things to be done will be the election of a Whip by the Liberal members to succeed Mr. W. J. McKee. who was unsuccessful in the last election. Premier Ross, asked yesterday who was likely to get the appointment, would give no information. "We must wait till we see we have a handle before we get a whip," he said. In outside circles, however, the opinion is expressed that the appointment will likely go to Mr. C. M. Bowman, the member for North Bruce, who served most acceptably as assistant Whip in the

last Parliament. FRONTENAC WILL BE DISMISSED transfer the trial of the Frontenac election petition from Kingston to Toronto, and it will be called here on Saturday, the 22nd. This probably means the dismissing of the protest.

NORTH PERTH. The Conservatives of North Perth renominated Mr. John Monteith for the recently vacated seat in the Legislature. No other name was presented to the convention. Mr. MacLaren was present and denied that there had been any truth in the rumors concerning his candidature.

Great Season for Fishermen.

Toronto, Nov. 13. — Captain Mc-Aulay, of the Provincial fisheries cruiser Gilphie, reports to the department that herring in Georgian Bay are as "thick as water." The German Reichstag Revises the Tariff Bill.

SHARP THRUSTS AT UNCLE SAM

Classification of Goods Changed by Officials at Suggestion of American Trust.

Berlin, Nev. 13.-The Reichstag today adopted by 192 to 71 votes the paragraph of the new tariff bill authorizing the Government to retaliate on any country discriminating against German goods. The agrarians openly affirmed that it was necessary to arm 1,907,222 the Government with weapons for re-10,148 prisal, especially against the United

States' customs practices. Dr. Brumer, National Liberal, related an instance in which he said \$200,00 worth of enameled goods were ordered in Germany for New York, but the Speaker asserted the cusstoms officials "changed the classification at the instance of the American trust, whereupon the New York importer cancelled the ored." Herr Gothein, Radical Liberal, replied that such words were no fitting epilogue to the sentiments ezpressed by Count Posadowski, the pomezy, in the presence of the foreign secretary, Baron von Richtoffen, at Ambassador

White's farewell dinner. "They will make discord," he continued, "among the wishes spoken therefor friendly relations with the United States. Herr Broemel, Radical, remarked that if Germany adopted retaliatory measures against the United States on regulations which applied to the gods of all countries, it would be a serious breach of the existing treaties. AFRO-CANADIAN TRADE Discussed by Sir William Mulock-

Postmaster-General's Views.

Ottawa, Nov. 13. — Sir William Mulock addressed the Ottawa Board of Trade tonight on trade with South Africa. There was a good attendance It has been definitely decided to and the Postmaster-General was given a cordial reception. He spoke for an hour, dealing with present trade condition and taking a most optimistic view of the future. He referred to the recent colonial conference, and said that if Britain would give even a small preference the rest of the empire would fall in line. Sir William said trade within the empire should be the motto of the hour, and dilated on the greatness of the British possessions and the possibility of developing an enormous and profitable trade, independent of the other nations of the world. More steamship lines are required, and the line to South Africa will shortly be extended to Australia, touching the west coast at Freemantle and passing on to New Zealand. The Pacific line from British Columbia is insufficient, only touching at the east coast o' Australia. Mr. Mulock took a hopeful view of the trade with South Africt, and announced that ehe second Elder-Dempster ship would leave on the 18th inst. Already it has a full cargo.

Deceived Dwarf Girl Pleaded Guilty to the Charge of Manslaughter-Gets Light Sentence.

Rochester, N. Y., Nov. 13 .- Stephen Ivanovitch, the gypsy, who, on Monday night, shot and killed Raymond Banks, in this city, was discharged from custody by Coroner Kleindienst. His verdict was as follows: "I find that the shooting of Raymond Banks by said Stephen Invanoviten, or Adam, was justified, as it is clearly shown that his life, as well as others in the camp, was endangered by the lawless actions of said Banks and others in discharging firearms and throwing stones and thus endan-gered his and their lives."

SENT FOR TRIAL. Windsor, Ont., Nov. 12.-Wm. Campbell was yesterday arraigned before Magistrate Bartlett charged with assaulting Attorney J. H. Hanna on the night of Sunday, Oct. 26. The evidence of two witnesses was taken and Campbell was committed for trial at the next assizes in Eandwich in Deember. Mr. Hanna was unable to be present.

TRIAL COST ABOUT \$500,000. New York, Nov. 13.—It has been stimated that the trial of Roland B. Molineux has cost more than any for a capital offense in any country where the English system of jurisprudence is in vogue. The cost to the County of New York of the first trial approxi-mated \$250,000. This was expended in various directions, largely in fees for handwriting experts who were brought from distant states, and for detectives who endeavored to trace Molineux's movements from his fifteenth birthday to the time of his arrest. The defense expended about \$75,000 in the first trial, and it is estimated that the total on both sides for the two hearings will

foot up nearly \$500,000. HELD FOR CONSPIRACY. Montreal, Nov. 13 .- Last evening the jury in the Johnson conspiracy case, in which the accused was charged with having conspired with certain parties unknown to defraud the Canadian Pacific Railway Company, reached a verdict, finding the prisoner guilty with a recommendation to mercy. I is rumored that other arrests may low. The charges briefly are that a number of Canadian Pacific conductors bribed employes of the audit office to give advance information as to the

New Transcontinental Line That May Involve L. E. and D. R. R.

Buffalo, Nov. 12.-When James M. Hill, son of the president of the Great Northern Railroad, came here last week with a party of Erie Railroad officials, the trip was presumed to be for something else than pleasure, and this has now been practically admitted. Considerable time was spent by the party at Black Rock, and it is probable that a decision was reached for a terminal of a new line to be built into Buffalo from St. Thomas. AFTER JACK THE SLUGGIR

Discovery of Murdered Girls' Watch Chain

Perry's Sweetheart Had It-Blood Spots on Suspect's Clothes,

cambridge, Mass., Nov. 12. - The police are still at work on the "Jack the Slugger" murder cases, and are now endeavoring to get at the re-cord of the young negro prisoner, George I. O. Perry, new in custody on suspicion of the murder of Ciara A. Morton and Agnes McPhee.

The police this afternoon received a fragment of watch chain, which in texture and pattern matches that worn by Miss Morton with her watch, from F. R. Murdock, who lives near the house occupied by the Perry family. Mr. Murdock was clearing up his yard, when the glitter of an object caught his eye. The find being rather unusual, and knowing that people traversed his yard to reach the Perry house, he turned the fragment over to an officer.

Tonight the Somerville police found Perry's girl, and after persuasion got her to exhibit, whatever jewelry she had received from Perry. Among the trinkets was a gold chain, which was recognized immediately as having be-longed to Miss McPhee. Private marks on the chain proved the identification and the jeweler who sold it to Miss McPhee later described his own upon it. The chain had been given by the woman to her sister. The officers next secured letters ter missive there is reference to a chain and the instruction not to say a word about it. FACTS FOR BUSINESS MEN.

In writing an advertisement try this recipe: Jot down all the hard hitting things you want to say, all the things that give specific information about the article you wish to advertise. Then cut out all the driftwood, all the superfluous words and weak sentences, leaving a terse, plainly-expressed, easily understood argument. Give instructions to have it set in good, plain type, with a display heading or illustration which bears directly on the matter, and you will have an advertisement that will make buyers.

Weak lungs are made strong by the use of Dr. Pierce's Golden Medical Discovery. It cures obstinate and stubborn coughs, bronchitis, bleeding of the lungs and other symptoms which, if neglected or unskillfully treated, terminate fatally in consumption. The action of Golden Medical Discovery in the curing of wasting diseases is entirely philosophic. Emaciation, and consequent loss of weight, are among the most striking symptoms of what are known as wasting diseases. The body is not being adequately nourished, and the cause of this lack of nourishment is not lack of food but lack of ability in the stomach and the other organs of digestion and nutri-tion to prepare the food for the assimilation and nutrition of the body. Dr. Pierce's Golden Medical Discovery cures diseases of the stomach and the organs of digestion and nutrition, and so enables the body to be nourished back to strength in the only way by which strength can come; that is, by food perfeetly digested and assimilated.

Dr. Pierce's Golden Medical Discovery is a temperance medicine. It contains no alcohol, neither opium, cocaine or any other narcotic.

Accept no substitute for "Discovery." There is nothing "just as good" for you, though many things may pay the dealer

CAUGHT COLD.

"The first day of this year," writes Mrs. Kate Schey, of 716 St. Paul Avenue, Milwaukee, Wis. "I caught a heavy cold, which settled on my lungs and brought on a hemorrhage. From that time on until the first of April I bled from my lungs five different times. I was so weak and undone I could only do the lightest work. The doctor told me I was going into consumption. My breath was short and at times I could hardly get my breath at all. This is the state I was in when I began to take Doctor Pierce's Golden Medical Discovery. After the first bottle I was much better, and I could walk two or three blocks without trouble. My breath was not so short and I was much improved, After taking four bottles I could work all day, and I never felt better in my life. I think your medicine the best in the world and I recommend it to all who are troubled as I was."

Death of a Patient Whose Friends Failed to Call Regular Doctor.

Washington, Nov. 12.-Miss Louise Hoge, of Evanston, Ill., who has been ill here for almost a month, and who had been under treatment by a Christian Scientist healer, died tonight. Miss Hoge is the daughter of Mr. Holmes Hoge, asisstant cashier of the First National Bank of Chicago. She came here Oct. 17, intending to act as bridesmaid for her former school chum, Miss Ethol H. Bogan, the daughter of Dr. Samuel A. Bogan. While the wedding preparations were going on Miss Hoge became ill and remained at Dr. Bogan's house until her death. No physician of the regular school was called in, but the patient, a portion of the time of her illness, has been in charge of Mrs. Ellen Brown Linscott, a Christian Science healer, who said tonight that Miss Hoge had suffered from typhoid fever. The parents of Miss Hoge are Christian Scientists, and they gave directions that their daughter should receive medical attention if she desired, but she preferred the Christian Science treatment. An autopsy will be performed by Cor-

oner Nevitt, to whom the case was re-ported tonight. The parents of the make any statement.

Dreadful Case of Itching Piles

Doctor Wanted to Burn the Skin With a Red Hot Iron-Patient Was Cured by

Dr. Chase's Ointment.

Mr. Alex. McLean, Talbot Vale, N.S., writes: "For two years I worked as sectionman on the Dominion Coal Company's Railroad between Sydney and Glace Bay, N. S., and during that time was exposed to all sorts of weather. Gradually my health failed, and I became a victim of protruding piles. At first I did not know what my ailment was, but consulted a doctor, and though he treated me for piles, they only grew worse.
"I was forced to give up work and

return to my home. My suffering could scarcely be described. I could not walk or lie down, but while the rest of the family was sleeping I would be groaning and aching from the excruciating pains. "Again I decided to consult a doctor.

This one stripped me, and said the piles would have to be burned with a red hot iron. I shivered at the thought of burning the flesh, and told him I young woman were with her at the could not think of undergoing such an time of her death. They refused to operation, so he gave me some salve, for which he charged me two dollars, but it did not do me any good.

Foot soles are curved and soft. Shoe soles are flat and hard!

Breaking in new shoes invariably means shaping the foot soles to the shoe soles, till wear moulds the insoles to the

curves of the feet. The RESILIA is the only shoe which conforms to the shape of the foot sole immediately, from the first moment it is borne upon, and without any "breaking in."

It does this through the compressible nature of the resilient, elastic, cushion centre-sole, which is placed between the leather insole and outsole, instead of the usual scrap filling.

HYPNOTIZED MAN **TOLD OF TRAGECY**

Startling Story of a Double Murder Down South.

SECRET SECURED BY HYPNOTIST

Result May Be the Arrest and Conviction of a Band of Southern

Assassins.

Savannan, Ga., Nov. 12.-A week ago Gugie Bourquin, the head of an old French Huguenot family, and owner of landed estates, including one of the finest game preserves in the South, was assassinated in his buggy on his lands, seven miles from this city. In the buggy with him was an aged negro retainer named Fred Tay-lor, who had been a body servant of Bourquin for more than 40 years. The bodies of both master and servant were found with heads and backs riddled with buckshot.

Thursday an escaped convict named Miller was picked up by the officers. At the police station he made a most vehement declaration that he had shot and killed Bourquin and Taylor. He was put under hypnotic influence by a leading physician. In his trance he said that he had not fired the shot, but that he had heard them and knew who had fired them. Again he was hypnotized and made to go through what he alleges to be his

On being brought under hypnotic influence he was placed in a buggy with two officers and given the reins. drove the horse skillfully through the most crowded streets of the city without the slightest hesitancy or error and took the road leading into the country. On the way he pointed out the objects and places that had attracted him while on the alleged murderous errand. Seven miles in the country he stopped and indicated a

fallen tree. "Sapp came out from behind that." he said; "had a gun and game bag. He made me take them. Sapp showed me a white man and a nigger in a buggy coming down the road. He said the white man had killed his dog and one of his friends and he was going to kill him. Then Sapp went off. Directly I heard two shots from a gun. After a little while Sapp and three other white men came back.

"One of them said: 'Now, let's kill this nigger.' Sapp said; 'No, he can help us; let him go.' They promised me \$25 if I would say I did it. I said I would say it was me, and Sapp said I must meet him at Bunger's store next day and get the money. I was at Bunger's two days, and the money and Sapp did not come. I was waiting for the money when the detectives caught me."

"Why, here is your money," said the physician who was conducting the experiment, placing his hand in that

Cholera Among U. S. Soldiers. Manila, Nov. 13. - Cholera made its appearance yesterday among the men of a detachment of the Fifth Infantry, which is stationed here. Seven men have already died and a number of others are seriously ill.

The detachment of the Fifth Infantry in question had been placed on guard along the Maraquina River, whence Manila receives its water supply, as it was deemed necessary to protect the stream from possible pollution. The cholera developed while the men were on this duty. It was be-lieved that cholera had entirely disappeared from Manila, and its reappearance has created a general feel-

REMARKABLE SUCCESS

A large and constantly increasing majority of the American people are catarrh sufferers. This is not entirely the result of our changeable climate, but because modern investigation has clearly proven that many diseases, known by other names, are really catarrh. Formerly the name catarrh was applied almost exclusively to the common nasal catarrh, but the throat. stomach, liver, bladder, kidneys and intestines are subject to catarrhal diseases as well as the nasal passages. In fact, wherever there is mucous membrane there is a feeding ground for

Dr. Ainslee, in speaking of the new catarrh cure, says: "I have tried the new catarrh remedy Stuart's Cotarrh Tablets, upon 30 or 40 patients with reremarkably satisfactor, results. Detroit, Nov. 13. — The News says: If Mr. and Mrs. Clay Kingsley, of Salem, Mich. are in Detroit, they will convey an everlasting favor and great relief on some 30 or 40 of their relatives, who arrived in the city today to look for them, by making their exact whereabouts known.

Clay, according to the story of one of his relatives who came to the News President Roosevelt Stands for office in the progress of the search, is now 20 years old, but will be 21 to-morrow. For two years, in fact, ever since their wedding day, he and his wife have lived on the farm at Salem, which belongs to Mrs. Charles Kings-

ley, of Ann Arbor.
On Oct. 28 Clay hitched up the family nag and he and his wife in their best store clothes drove away, the wife calling back to the hired man, as they passed out of the barn yard, that they would be back for supper.

Since then Clay and his wife have not been back, and the relatives who set out to ascertain their whereabouts. have only been able to learn that they drew \$500, which they had in the bank at Salem, left the horse and buggy at Plymouth, and took a train.

A Genuine Surplus.

'A few Conservative papers, among them the Ottawa Citizen and the Toronto World, have been fair enough to give Sir William Muloch credit for his business-like administration of the postoffice department, Sir William, however, has given great offense to others, and may expect after this to be a special target for abuse. To reduce the rate of postage and within five years convert a deficit of \$781,000 Into a surplus, is a severe reflection on the management of the postoffice in other hands. His adversaries said It could not be done; that two-cent postage would mean a deficit of \$1,250,060, which would be taken out, of the pockets of the farmers and workingmen. The charge is now made that Sir William has cooked the accounts to produce a surplus by leaving the Yukon out of his calculations. Those who are charging Sir William Mulock with misrepresentation and false bookkeeping on this account have not read his Toronto speech. He expressly stated that for the purpose of comparison, the Yukon would be excluded from the statistics that he would give. When Sir William took hold of the Canadian postoffice there was no postal service in the Yukon. The fact remains that within the same territorial limits, the Canadian postoffice in 1826 showed a deficit of \$781,000 and in 1902 a surplus of \$5,000. The expenses of the Yukon postal service exceeded the receipts this year by \$87 .-485, but this is an entirely new charge since 1896, and it would be unfair and misleading to include it in the comparison. This is precisely what his critics are attempting to do.

Money and Justice.

In New York ended in the acquittal of the prisoner who had been sentenced to death at the first trial. Molineux had a powerful family influence and Oil people know that from experience. unlimited means behind him. The first trial cost the defense \$75,000, the second one about \$45,000. The expenses of the case from beginning to end were Railway. The London Free Press, the about \$500,000. If Molineux had been other day, gave the Premier a column a poor man he would by this time have of abuse on the strength of a report been in his grave. Apart from the that he had been refused this subthere is the ugly fact that money, and money alone, saved his life. It was money that enabled him to employ the best legal talent, to pay for a great erray of expert testimony and to keep up a legal fight for four years, with a persistency without parallel in the criminal courts of the United States. How do the people of the United States reconcile this with their ideals of justice? If Molineux is innocent, as the second jury has pronounced him to be, then an innocent man would have gene to a murderer's grave but for the possession of plenty of cash. In Canada it is very rarely that technicalities ing it can be invoked to interfere with a Mr. Whitney called New Ontario "the conviction for murder. We cannot recall one instance of a conviction being set aside on appeal, though death people to believe that they always saw muted by executive elemency. At the same time there is such a thing in this many years. country as a man financially ruining himself in proving his innocence of a charge or in defending his rights. It is the old question: Should the crown pay the legal expenses of a person whom it fails to convict? The usual reply is that very often the guilty are not convicted, and that the only punishment that can be inflicted upon them is a financial one.

The Balance of Trade.

An Indiana man, writing to the Chicago Record-Herald, wants to know why Americans are making new loans in Europe, and why Europe has not Sent gold to the United States, when Brighter than snow; Dwelt a maid, beloved and cherish'd, By high and low; But with autumn's leaf she perished, in the five years ending June 30, 1902. the exports of the United States exseeded the imports by \$2,663,010,157. He isn't the first one who has been misled by the "favorable balance of trade" theory, but he has the merit of seeking to be enlightened. If the United States had received the balance of \$2,-663,010,157 in cash, Europe would be drained of money and so utterly impoverished that she would be unable to make any purchases at all. The Chicago Record-Herald does not fall to point this out. The fact is. there are a number of invisible exchanges, which in the long run balance the accounts between one nation and others with which it has dealings. For the four years ending June 30, 1900, Professor Bullock, of Williams, gave the following estimate in a North American Review article: Interest on American investments paid foreigners, \$320,600,000 to \$400,000,060; sums paid foreign shipowners on ocean traffic. \$181,600,000; money spent abroad by tourists, \$250,000,000. These three items, therefore, account for a large proportion of the excess of American exports over imports. Were it not that the United States owes immense sums in Europe, that European capital is invested so extensively in the United which is not the title of the book. States, that Americans pay so many millions every year to foreign shipowners, the United States could not have anything approaching the pres-

ent balance of trade, miscalled "favorable," and imports and exports would tend to an equality. The change has apparently begun as for the first nine months of this year, the exports have dropped \$103,158,536, and the imports have increased \$55,678,106. One of the principal reasons why Great Britain imports so much more than she exports is that she has an enormous amount of capital invested abroad drawing interest. Yet many who do not understand the first principles of exchange regard this excess of imports as a calamity. The same delusion, which is known as the mercantile theory, once governed the fiscal policy of nearly every nation in Europe. The great aim was to make exports exceed imports in order that gold might flow into the country. It was believed that otherwise the country would be ruined by the outgo or the non-accumulation of gold. The most extraordinary means were adopted to stimulate exports, and many lines of merchandise were shipped abroad at an actual loss in order to preserve the so-called favorable balance of trade. Great Britain was the first to discard the mercantile theory, but it is still responsible for much vicious legislation. The United States is subject to the ordinary laws of trade and cannot extend its sales beyond a certain limit, unless its foreign purchases increase as well.

Politics and the pea weevil will divide public attention this winter.

"Is Dickens Played Out?"

[London Globe.] The best answer to the question "Is Dickens played out?" is given by his original publishers, Messrs. Chapman & Hall, who have been looking into figures and taking a "box office "estimate of the author. For many years their sales of his books have averaged over a quarter of a million copies, and to these must be added the innumerable issues of the majority that are now out of copyright. So there seems every justification for the new biographical edition. As most people would guess, "David Copperfield" comes second in favor, while the publishers have been able to trace Mr. Martin Harvey on his tour with "The Only Way" by the booksellers' orders for the "Tale of Two Cities." First in favor, of course, comes "Pickwick,"

National Pugnacity.

[Dr. William Osler, of Baltimore, before Canadian Medical Association.] Nationalism has been the great curse of humanity. In no other shape has the demon of ignorance assumed more hideous proportions; to no other obsession do we yield ourselves more readily. For whom do the hosannas ring higher than for the successful butcher of tens of thousands of poor fellows who have been made to pass through the fire of this Moloch of nationalism? A vice of the blood, of the plasm rather, it runs riot in the race, and rages today as of yore in spite of the precepts of religion and the practice of democracy. Nor is there any hope of change; the pulpit is dumb, the press fans the flames, literature panders to it, and the people love to have it so. Not that all aspects of nationalism are bad. Breathes there a man with soul so dead that it does not glow at the thought of what the men of his blood have done and suffered to make his country what it is? There is room, plenty of room, for proper pride of land and birth. What I inveigh against is a cursed spirit of intolerance, conceived in distrust and bred in ignorance, that makes the mental attitude perennially antagonistic, even bitterly antagonistic, to thing foreign, that subordinates everywhere the race to the nation, forgetting the higher claims of human brother-

President and Premier.

[Detroit Tribune.] There is nothing in human government so sensitive and responsible to the popular will as a parliamentary government like the British; nor is there anything organized so ingeniously and so rigidly to resist and defy the popular and parliamentary will as the American executive. A president can go on his way regardless of the people and of their representatives, for four years to a day; the British premier cannot do so for an hour, except by an appeal to the people themselves. The premier has more influence than the president, but in respect to personal and irresponsible power he is a mere pigmy compared to the American quadriennial king. We really have an elective irresponsible monarchy, not a true parliamentary government, this country. We say nothing of the comparative merits or usefulness of the two systems, but it is timt that we called things by their right names.

Fleet Ordered to Hankow to Compel Punishment of Murderers-The Spanish Crisis.

Victoria, B. C., Nov. 13.-Mail advices received here from South China say that in Szrehuan the Boxer movement still progresses.

The Boxers have plundered all the villages between Tzs Chu and Cheng Tu, and in these places massacred 1,200 Catholic converts.

When the last advices were received at Shanghai from Cheng Tu, Yang Hsein was besieged by Boxers and the gates of several cities near by were kept closed and people were let down and pulled up the walls with ropes. One party of Boxers was captured and eleven decapitated. A proclamation has been posted at Cheng Tu offering one hundred taels

Strained His Back and Was Sent Home in Agony.

Laid Up All Winter, But Dodd's Kidney Pills Put Him on His Feet Again and Now He Is Completely Cured.

Indian Brook, Victoria County, N. S., Nov. 12 .- Angus D. McDonald, son of the postmaster here, is prominent among those in this district who swear by Dodd's Kidney Pills as a sure cure for the terrible pains in the back that are one of the surest symptoms of Kidney Disease. And Mr. McDonald has good reason for the stand he takes. While at work in the coal pits he strained his back and was sent home in an agony of pain. The nearest doctor, twenty-five miles away, was sent for, but he could do little to relieve his suffering. This was in October, 1901, and he couldn't do a hand's turn of

work till the spring of 1902. Then a hotel-keeper advised him to try Dodd's Kidney Pills. That hotel-keeper didn't see him again till last August and then his first question was "Angus, how's your back?" "As well as ever it was," answered Angus. "What cured it?" "Dodd's Kidney Pills cured me completely."

And the postmaster at Indian Brook is always ready to testify to the truth of his son's statement. Pains in the Back, Lumbago, Rheumatism, Dropsy and Heart Disease are caused by diseased Kidneys. Dodd's Kidney Pills will cure them

RIFLES IN CAPE COLONY

Complaint That Disloyal Dutch Are Allowed to Keep Arms.

London, Nov. 13 .- The Times' Cape Town correspondent says that a motion by a progressive member of the Cape Town Parliament to provide a continuance of the maintenance of dis-trict mounted troops for guarding towns, raised in Cape Colony in 1901, has been shelved.

The correspondent says that there is considerable feeling caused by the disarming and disbanding of these forces, as it is notorious that in the vicinity of Kimberley the disloyal Dutch retain their rifles, while the loyalists who served during the war are compelled to give theirs up. The peace preservation act, which is a dead letter in many of the districts, probitits all persons from bearing arms. The Progressives want an act passed allowing all approved persons to keep their rifles on registration.

Pounds of Mail Lost.

Victoria, B. C., Nov. 13.-The steamer Amur, from Skaguay, reports that the Yukon has been frozen solid and the steamer Lafrance was caught and held in the ice coming down near Minto. She will remain there all winter, and fears are expressed that she may be crushed by the ice. The steamers Wilburn Cummin, Thistle and Eleanor, which reached White Horse on Nov. 4, were the last in service. The first stage from White Horse reached Dawson on Nov. 9, after six days' travel, and the first stage from Dawson was due at White Horse on Mon-

The matter will be considered by the executive this afternoon, Secretary Woodworth having called a special meeting of the executive for that purpose. Peterboro has only had two home games in the past couple of seasons and as the club has been more than loyal to the union, there is every prospect that their suggestion will be given a favorable reception. Unless some such arrangement is made the Torontos have announced that they will default to the Argonauts on Saturday, as they claim they cannot stand the expense of another trip to London. They desire to be drawn with Peterboro, and in that event the Argonauts will go to London,

LONDON'S PROTEST GOES. Toronto, Nov. 12 .- A meeting of the U. executive was held tonight at the Rossin House, with Vice-President George S. Gibbons in the chair. The other members present were F. Thompson, S. S. Dumoulin, J. Ballard and Secretary Frank D. Woodworth. The London-Toronto protest in regard to Bert Morrison was taken up. After a long discussion the whole western series was declared null and void up to the present, and the clubs will start all over. Each club was considered to have knowledge of Morrison's professionalism. A new schedule was drawn as follows:

Nov. 15-Argonauts II. at Toronto. Nov. 22-Winners at London. Final with Peterboro, Nov. 23, to be arranged by the executive. After this decision was announced Peterboro suggested by telephone to Secretary Woodworth that a new series

be formed, as follows: Nov. 15-Torontos at Peterboro. Nov. 15-Argonauts II. at London. Winners to play off on Nov. 22 on grounds to be fixed by executive. The Torontos agree to this; otherwise will likely default. O. R. F. U. executive will decide in regard to this new pro-

posal this morning.
Captain Gordon Crawford wires:
"Morrison is professionalized, and all games played in the western section of the intermediate O. R. F. U. are thrown out. All three teams will play all over, Argonauts meeting Toronto at Toronto on Saturday next, and the winner meeting London in London on Saturday, 22nd."

A ONE-LEGGED PLAYER. Syracuse, N. Y., Nov. 12.-One of the greatest curiosities ever seen on a football gridiron is Benjamin Owen, of this city, who possesses only one Owen plays guard on the O. team. People noticed him hobbling around on crutches before the game, but no one thought he would take part. When the teams lined was in his place against the Western Union team, and in every attack was a power, holding his opponent easily. When the ball was taken by his team down the field he went leaping along, keeping up with fleetest. When the other side the got the ball he was right in the cen-ter of the scrimmage. His side finally won the game by a score of 10

to 0. AGAINST BRUTALITY. The Syracuse University Weekly speaks editorially of the brutality seen in college football games and argues for the employment of brains as well as muscle in this sport. The editorial is as follows:

"That football is yet in a crude state must be apparent when a team can be so disposed as to crash into one man, known to be a star player, until he is battered to pieces and retired from the game. There is about as much science in massed aggressive plays as there is in the pushing of an equal number of bulls with their stout necks and horns against a Kentucky thoroughbred. The jamming and bruising, the breaking of bones and tearing of aments proves nothing but weight and brawn, and that is not worth the of football.

"Mental and physical skill in blocking plays, and not the smashing men's limbs or ribs; the wit of a game by which successful runs punts are made, and not a brutal knee in the back of an opponent at the bottom of the heap 'to forms of football which are demanded by the public and which must be secured at any cost by revision of rules. Football that kills men or maims them for life, and is revolting to cultured people, is no more justifiable than the cruelty of prize-fighting, even if it pears a college name and is played on

college grounds. The question will force itself also as maims its opponents, knows the game and is capable of playing it. If there is no disposition 'to do up' a star memper of other teams, as sometimes is reasonably suspected, a football team with such a record must stand charged with much to learn before other teams can safely play "It has been claimed that only those ignorant of the game get hurt. But

what of those who do the hurtin? A team with a record for injuring and crippling opposing teams should be left off the schedules of all colleges, because ed with such a strenuous form of sport, if for no other reason. "The test of football should not be

simply the number of touchdowns and goals, but also the small amount of mere massed playing and violence. Nothing is of so high an order as the play of brains."

THE RESULT. London is satisfied with the decision to have the series start anew, though the feeling exists that it would have been simply a case of throwing the team out had a club outside of Toronto so flagrantly violated rules as Toronto H. did in playing Morrison. How long will it be before the big city to he east will recover assurance enough to preach purity to the Philistines beyond its borders? And why should the Argonauts, who are down and out, be admitted to the new series? In meantime, however, it is London's duty to get down to practice. They were shown at Toronto that they are not as speedy as they should be. Now that they have another chance to retrieve have met Feitz in a championship

AT BENNINGS.

Washington, Nov. 12.- The taient secured an even break on the day at Bennings, three favorites first today. Carrier Pigeon won the jumping race handily and Adelaide Prince, after trailing the leaders to the stretch, drew away and captured the Dixie stakes. Cameron, heavily played in the last race, finished the third winning favorite. Track records were lowered by Carrier Pigeon, Adelaide Prince, Demurrer and Cameron in their respective races. Summary: First race, selling, hurdle race, 3-year-olds and up, 1% miles — Carrier Pigeon, 141 (Heider), 8 to 5 and 3 to 5, 1; Silver Twist, 141 (Connelly), 11 to 5 and 4 to 5, 2; Cryptogram, 138 (Dayton), 20 to 1, 3. FAMOUS STARTER SPEAKS OF CANADIAN JOCKEYS

Mr. Chris Fitzgerald Praises | Long Island, about twenty miles from Their Courage and Skill.

Both Wonderly and Burns Are Leaders of the First Class.

His friends in London, of whom there are a great many, will be glad to learn that Mr. Chris. Fitzgerald, various courses around Paris, who the best known and most popular starter on the American turf, has so

nipeg, have challenged for the Stanley ters and especially regarding Otto Wonderly, the young London jockey whose \$15,000 a year contract to ride ized for the season, with S. J. Wright, formerly of Paris, the two younger brothers were his asand W. Kay, are good fast players who sistants. These horses, many of them at least, necessarily unfit to go on a racetrack, were sent out to different races in the spring. That they were unfit was due to no fault of Mr. Littlefield, for he was a most capable young horseman and always most conscientious in the handling of his charges. The fact is he was simply overwhermed by the magnitude of the task imposed upon him. No trainer can really do justice to more than ten or twelve horses; he had 112. It was in consequence of this that Wonderly did not show to as great advantage this year as he did last, when he was practically a free lance and could accept whatever mounts he chose. On many occasions last summer before he was taken ill in August, he had offered to him many mounts that he was obliged to refuse elegible in the same race. Mr. Littlefield, in none too good health before he assumed command of this aggregation of thoroughbreds, died in the lat-

> same time, and thus caused him to lose many thousands of dollars. "I regard Wonderly's handling of Gold Heels, in the Suburban handicap, as being as finished a piece of work as I saw last season. There is I think, little doubt but that he will be much in demand as soon as he is in

"Burns, Jack Martin and Wonderly were in the first class around New York," he said, "and friends tell me that Johnny Walsh was by all odds, the best small boy in the west.

"Canadians who have visited Morris Park, the superb home of the Westchester Racing Association, which cost the late John A. Morris some \$2,-000,000, will learn with regret that it is to be cut up into building lots. The purchased association has, however, Chatham, Ont., Nov. 12.—The inter- property out at Hampstead Plains,

By a good hand, mean practically that the tockey mus possess that intuition necessary to know all sorts of horses as soon as ounts them, in order that he may, so to speak, be able to jolly them and get out of them all that lies in them. Then he must have a good head and be able to see every opportunity, as we'll as quick to take advantage Above all, it is essential that he be absolutely fearless. I regard young Burns, of Chatham, as one of the greatest dare-devils on the American urf today. A jockey is apt to lose his nerve by a serious accident at any time, you understand, and once lost may be years, or he may never get back. One of our leading jockeys sustained a severe fall and lost his nerve four years ago, and it is just this

season that he is getting it back. 'What salary is Burns getting?" "Oh, about \$15,000, the same as Wonderly. He is a clever little rider. He is in Whitney's employ."

Mr. Fitzgerald was asked how such en as Whitney, Belmont and other large stable owners treat these boys whom they have picked up, sometimes almost out of the gutter, and pay such fabulous salaries to. "They treat them too well," he said.

GROSS MISREPRESENTATION OF THE MEDICAL EXPERTS

Protest From Assistant Counsel operated upon with the axe produced in the way Herbert described, would for the Defense.

Crown and Defense Experts Practically Agreed on Four Points.

Mr. J. M. McEvoy, junior counsel for the defense in the Sifton case, was on in the Hamilton Herald, republished | the barn. in the Hamilton Herald and published in Tuesday's Advertiser, and referring to the expert medical evidence given at last week's trial.

Speaking of this article and of other published references to the trial, Mr. McEvoy said that in his experience, and in the literature on the subject, and technical explanations, upon there has been no previous case where which there might have been slight such misrepresentation of the expert evidence has been published, as in the present case.

hear the evidence, and have very little conception of what was said by either Herbert or the expert witnesses. Herbert was not contradicted only by the medical experts for the defense. He was flatly contradicted by the crown medical experts, as he was by the medical experts for the defense. Any man with common sense hearing the evi-dence of Herbert would know that the story he told, if taken in its entirety, erously of their time and experience to a disagreeable task, there are four propositions which ought to be set down clearly. These propositions cover the bulk and body of the medical evidence, in reference to the skull and scalp of the diseased; and these propositions were sworn to, either in chief or cross-examination by every medical expert for both crown and defense.

"Second, all the injuries on the scalp and skull could have been caused by a

fall from the barn, without any injury "Third, the injuries to the skull and scalp could have been caused by a limited number of taps or light blows by

an axe, followed up by throwing the body out at the low hole in the end of "Fourth, there should have been free bleeding from a wound in the side of the head, such as Herbert testifies was made by the first blow at the trapdoor, and evidences of blood should have been found on the barn floor,

straw, hay, and the beams of the barn. "There were, of course, minor details, differences of opinion, but nothing more than one always finds in cases of

opinion evidence. "There was no great hiatus between the crown expert evidence and the de-Richmond street, were married yester-day afternoon. Rev. The difficulty which the medical evidence gave to the jury to the circumstances as related and described by Herbert. What the jury had to decide was whether in all the circumstances, making proper allowance for excitement and unconscious exaggeration, the story of Herbert could be cut down to a statement that Joseph Sifton received one blow, or not more than three light blows at most, with the axe. If the jury could have concluded that the picture given by Herbert of the occurrence could have been reduced to such a proposition as indicated above, then the jury could have said that the story was compatible with the expert evidence on all sides. The jury, who heard Herbert's evidence, saw him describe the nature, force and number of the blows. were not able, in their good judgment, to reduce the story sufficiently to bring it within what the medical evidence on both sides declared to be necessary.'

Over to City.

Last night Inspector McCallum had People's Home and are kept by the city. Before they die they will this property to relatives-people who, as Mr. McCallum said, have cared so little for them that they would not help to keep them out of the home. The inspector's idea is that this property should come to the city, which has kept them in their last days— as much of it at any rate as will pay for their maintenance during the time they were cared for. He proposes to have all the inmates sign over any property which they may have, so that upon their death, it shall revert to the city. This was favorably received by the committee and was laid over until they see the proposed form of assign-

ment. There is a bylaw on the city books which says that all licenses shall be paid on a certain date. If anyone starts in the fall in business requiring a license be must get a license from the preceding February. The bylaw has often been broken-by the permission of the chairmen. The inspector thought that they might as well have bylaw which need not be broken. He proposed an amendment so that all but milk licenses may be dated at any time, for a year. The council will probably be advised to do this. Mr. McCallum brought to the committee's notice, too, a scheme by which some auctioneers evade the payment of their license, and will be supported by the committee in preventing a continuance of the practice.
Mr. Graydon last night suggested

that Covent Garden Market be torn down, but the recommendation which will be made to the council is that the

FRIDAY AT THE GRAND. The famous athletes, the Donazettas, who are a strong feature and mainly responsible for the lasting popularity of the sterling melodrama, "The Span of Life," are not only most skillful and daring acrobats, but are good actors. It was from them Sutton Vane, author of the play, received his idea of having the hero and heroine make an escape from savages over a bridge of human beings. They will be seen at the Grand tomorrow evening. They will add to the sensational character of the scene by presenting some

new acrobatic feats. "FAUST" FOR SATURDAY.
