## BELL WIRES GO UNDERGROUND EXPENDITURE OF \$50,000

Company Will Spend This Amount in What Will Prove Really First Move to Improve Conditions in London—Board of Works Grants Request to Open Up Streets.

The Bell Telephone Company have decided to place their wires in London underground, and last evening a request was made to the board of works to allow them to open up several streets to do this work.

Plans of the proposed work were submitted by Manager H. Beard, showing the streets that would be affected. The course of the underground work is as follows:

On Ridout street from Bathurst to Grand avenue.

On Waterloo street, Dundas to Horton.

On Dufferin avenue, from Park avenue to Waterloo, up Waterloo to Princess, and down Princess to Colborne street.

On Park avenue from Queen's to Dufferin avenue.

**Praise for the Company.**

"I think we should grant their request at once," said City Engineer Graydon. "It is a step in the right direction, and will greatly improve the city by removing the poles. Very little pavement will be affected, and the streets will be left in good condition."

"The Bell Telephone Company always leave the streets in first-class condition, after they have done any work on them," said Ald. Rose. "If we had no more trouble with other people than with the Bell Telephone Company we would have little or no difficulty."

"It is a progressive step, and we

should grant it," said Ald. Saunders. "It will mean the expenditure of considerable money, and will add to the beauty of the city, so I do not think we should stand in the way a minute. I move that we grant their request."

There was no objection made to this, and the motion carried. Work will be commenced within a short time.

**A Big Expenditure.**

The undertaking will be of considerable magnitude, and it is estimated that the cost will be from \$40,000 to \$50,000. A large percentage of the money will be spent in the city, and as a result the workmen will be largely benefited by it.

The amount of material to be used will be considerable, not less than 300 barrels of cement being required for the work.

In addition there will be 140 cubic yards of sand, and 180 cubic yards of broken stone. It will require 12,500 feet of timber, and 1,500 feet of tubing to be placed under bridges.

Altogether 48,200 feet of 34-inch single clay ducts will be utilized.

**Good for the City.**

There will be sixteen manholes, all of them entailing a great deal of labor and expense.

"It will be a fine thing for the city when all companies place their wires underground," said City Engineer Graydon.

## A WILD NIGHT AT GLACE BAY

Some of the Miners Who Continue to Work Brutally Beaten.

## THE COLLIERIES SHOT UP

One of the Buildings Seized by the Mob and Set Afire.

Glance Bay, N. S., July 8.—Rioting has become so serious that it has been necessary to go to the militia department for assistance. The mob, it is said, have been instigated to violence by the agitators from the United States, and many serious consequences have resulted. No fatalities have occurred, but some of the men, who persisted in going to work, have been brutally beaten, and several of the wildest disorder have prevailed at the collieries.

The disorder continued all night, and the miners are anxiously awaiting the arrival of troops from the garrison at Halifax. The fact that the soldiers have been ordered out seems to have incensed the trouble-makers, and violent acts are becoming common.

**A Dreadful Night.**

A dreadful night was put in at colliery No. 6, and the fact that no one was killed was nothing short of a miracle. The colliery was in a state of siege all night, the strikers surrounding the colliery buildings.

When the disorder was at its worst the mob seized one of the colliery buildings, set it on fire, and its embers and charred supports are all now left to show where it stood.

Besides the commotion at No. 6 colliery, disorder prevailed at the other mines. At No. 1 and Bridgeport where the riot act was read, confusion reigned, and many overt acts were committed. The riot act has also been read at the Caledonia, where many men were beaten last night.

Two batteries of artillery, machine guns and four hundred soldiers from the Halifax garrison are on the way there, and their arrival is eagerly anticipated by the peace-loving section of the community.

**Disension Is Growing.**

The disension among the men of the local unions is growing, and many of them have quit work and thrown their lot with the strikers. Many more have been so intimidated, owing to lack of police protection, that they have been practically forced to abandon their work, and it is felt that, on their account at least, the troops should have been on hand as soon as possible after the strike occurred, and the danger threatened.

After the strenuous night, peace reigned this morning. No disturbances are reported from any of the collieries since daybreak. Something seemed to have calmed down the rioters, for although crowds of striking men congregate around the fences of the collieries, the miners who are not on strike were unmolested, excepting that they were greeted with jeers and derision.

**ARSINIC IN DRUGS.**

Ottawa, July 8.—A bulletin on arsenic in drugs, as found on the Canadian market, has been issued by the inland revenue department. Most of the samples examined were found to be practically free from arsenic.

## BALKS ON REPAIRS TO COURTHOUSE

Board of Works Didn't Like the Idea of Spending \$1,800 at This Time.

## MATTER WAS LAID OVER

Many Petitions for Various Improvements Were Last Night Presented to the City Fathers.

Proposed repairs to the courthouse caused a considerable discussion at the board of works last evening, but nothing definite was done. The matter will be taken up next week.

Secretary Wright read a memo to the committee of the work the county desired, and the estimated cost to the city was \$1,800.

Then there was a "kick." Ald. Gerry objected to that immediately.

"We will not pay that amount of money for the courthouse," he said. "It is not right, and we will not give the county the money. We have not it, in the first place, and I do not think we can afford it."

"It looks like a lot of money," said Ald. Saunders. "According to the estimate, the county can spend \$1,000, and we must pay our share of it. We had better let them do that, and never mind any more."

**A Question of Money.**

"The finance committee has the money," said the speaker. "I suggested City Engineer Graydon. There is not enough money in the estimates for that," said the mayor.

"Yes, there is," answered Mr. Graydon.

"It will be like that street cleaning machine," said Ald. Rose. "We thought No. 3 committee spent money for that purpose, but we cannot get hold of it."

"I do not think the agreement allows us to spend money for that purpose without consulting us, and then assess us for 60 per cent, is right," said Ald. Gerry. "It should be resolved."

It was decided, however, to lay the matter over in order to see if there was sufficient money in the hands of No. 1 committee for this purpose.

**Many Petitions.**

There were many petitions for public works, among them being a sufficiently signed petition for a cement walk on south Grosvenor street, between Sherbrooke and Colborne; for a curb and gutter on Cheapside, from St. George to Richmond street; west of Ridout street, from West avenue to Elizabeth street; north Hymus, Richmond to a point west, all sufficiently signed, and will be advertised in the usual way.

The petitions against the sewer on Simcoe street, between Burwell and Maitland streets, and also against a sewer on Princess avenue, between Elizabeth street and English street, were insufficiently signed, and were filed.

**Sewage in River.**

The Thames Boat Club complained of the sewage in the river at the foot of Dundas street, and also asked for two teams to help them dredge the river next week.

Besides the petition of City Engineer Graydon the city continued to charge the cost to the county. The boat club will be given the teams.

The petition for a boulevard on Cheapside street was also brought up, but action was deferred for a week.

"I think a boulevard will be a mistake," said Ald. Gerry. "If the people want it and are willing to pay for it, let them have it," said Ald. Saunders. "I am not sure whether they are willing to pay for a curb and gutter on both sides of the street, and I would like to know. Let us lay this matter over until the next meeting."

"I think the idea is a good one," said Ald. Rose. "It will improve the city greatly."

The repairs to the boiler in the city hall will be done by day labor at the suggestion of City Engineer Graydon, the work to be superintended by Scott Murray.

**Improvements.**

City Engineer Graydon recommended that a tile sewer be initiated on Dundas street, and the sewer sewer is being used for all purposes at the present time, and another sewer will be necessary. The recommendation was accepted.

The wire fence along the street on Ridout street north is in very bad condition, and the residents of the street suggested that a cement parquette, with iron posts, be erected for which they were willing to pay half the cost. The matter was laid over until City Engineer Graydon gives an estimate of the expense.

C. S. Hyman & Co. asked for permission to lay a steam pipe and a wire from their factory on Richmond street to the Murray Ship Company. The request was granted.

On the suggestion of Ald. Saunders, a curb and gutter will be initiated on Cartwright street.

W. H. Bartlett complained of the condition of Garfield avenue and City Engineer Graydon will report.

**Asphalt Pavement.**

There was a petition presented by the residents of Dundas street, near the park, for a sheet asphalt pavement. City Engineer Graydon thought that it did not run far enough east, and he will report at next meeting of the board.

Those present were: Ald. Gerry, chairman; Ald. Saunders, Ald. Rose, City Engineer Graydon and Secretary Wright.

**Death of Mrs. Gillespie.**

The death occurred in St. Louis on Thursday last of Mrs. H. Gillespie, formerly of this city. Before her marriage Mrs. Gillespie was Miss Nellie George, daughter of the late James George, of 52 Clarence street. Besides her mother, Mrs. Harriet George, who lives at 52 Clarence street, Mrs. Gillespie is survived by her husband and four children, three brothers and four sisters: Albert and Fred George, of this city; Richard, of Port Elgin, and Mrs. John Chapman, Mrs. E. P. Evans, Mrs. Bartlett and Miss Elizabeth, all of London. The funeral was held in St. Louis.

## EUROPEAN PARTY AT LIVERPOOL

Passed Fastnet Light at Seven o'Clock This Morning.

## QUEBECERS AT TORONTO

Continue to Report a Splendid Time—Will Reach London at 6:30 This Evening, C. P. R.

The C. P. R. steamship Empress of Ireland, with The Advertiser's European Party on board, was signalled at the Fastnet light at 7 o'clock this morning and is expected to dock in Liverpool early this afternoon.

This shows that The Advertiser party are only very slightly behind their schedule time, and there will not likely be any change necessary in the itinerary.

**The Quebec Ladies.**

Toronto, July 9.—Last night's trip up the lake would have to be enjoyed to be properly described. We reached here early this morning and haven't had a dull or idle moment since. We spent a good part of the morning in driving through the city in Russell automobiles, kindly supplied by the Canada Cycle and Motor Company for the use of the party. We visited the university, which is said to be the finest bit of architecture on the continent, as well as the Parliament Building, and other such places too numerous to mention. We also drove through Rosedale, the beautiful residential district of Toronto, and out through High Park. Altogether it has been a delightful day.

We will reach home tonight by the Canadian Pacific at 6:30. So on the lookout for us.

## DOMINICK TADDEO AN OLD OFFENDER

Served Five Years in Massachusetts for Raising Postal Notes.

Crown Attorney McKillop received word this morning that Dominick Taddeo, the young Italian found guilty last week of raising postal notes in this city, and who has been on remand for sentence, was some time ago committed for five years to the state reformatory in Norfolk County, Massachusetts. The crime for which Taddeo was sentenced on the former occasion was similar to that which he committed here. He will come up for sentence tomorrow morning, and will, it is expected, receive a long term in Kingston.

## ENGLISH PIT LADS START SERIOUS RIOTING

Great Ferment in the Colliery District of North Staffordshire.

Henley, England, July 8.—Serious rioting occurred today throughout the North Staffordshire coalfields. A dispute regarding time allowed for meals under the new eight-hours act led thousands of the pit lads to cease work. They marched from colliery to colliery, bringing out the adult miners.

Much delivery property was destroyed, and there were many conflicts with the police, several of the men being injured. Some of the works closed down and there were numerous arrests.

Mr. Gladstone, the home secretary, has been appealed to for troops, but tonight declined to grant the petition. The boys are expected to give considerable trouble before pacified.

## EIGHT HUNDRED DOLLAR FIRE ON HORTON STREET

Bad Blaze in a Residence at an Early Hour This Morning.

Several persons made a quick escape from 237 Horton street this morning at 4 o'clock, when the house caught fire.

The house is rented by a lady named Mrs. Phillips, and two or three families have rooms there, among them being Mr. and Mrs. Carson.

They were all sleeping peacefully when a policeman, who noticed the fire, woke them up. They all beat a hasty retreat to the road, leaving most of their belongings behind them.

Some of the furniture was taken out downstairs, but all upstairs was burned and soaked with water.

The fire originated in the attic and is supposed to have caught from a burning match thrown in some rubbish.

It must have been burning several hours before noticed.

The roof was badly damaged and the furniture suffered much loss.

The firemen soon had the blaze under control, and prevented it spreading.

The damage to the house is estimated at \$500, and to the furniture \$800. There is some insurance.

The property is owned by Mr. O. E. Brenner.

## DETECTIVE RIDER TO RESIGN FROM LONDON POLICE FORCE

One of the Ablest Men of the Department Considering the Handing In of His Resignation—A Terror to Evil Doers and an Officer Who Is Known From Coast to Coast.

Londoners will hear with regret that Detective William Rider is likely to hand in his resignation to the police commissioners shortly.

Detective Rider is the oldest member of the force, having joined in 1876 upon his arrival from England.

Chief Williams did not come to London until three years later.

Mr. Rider has always been recognized as one of the shrewdest and cleverest detectives in Canada, and by his skillful work has made a reputation for himself from coast to coast.

**Crooks Fear Him.**

His name is known and dreaded by crooks all over America, and he has figured in many of the most important cases that have occurred in the city.

No police officers that London has ever had has been more popular, and

the news that he is considering resigning will cause his host of friends keen regret.

**A Good Officer.**

"He is one of the best officers I ever had," Chief Williams told The Advertiser this afternoon, "and I never worked with a more reliable man. I am sorry indeed to lose him."

Detective Rider for many years worked together with the late Harry Phair, and they figured in many cases of note. During all the time that he has been a member of the force his work has been of a kind that made him one of its most valued members.

**His Successor.**

The resignation of Detective Rider will necessitate the appointment of another detective, and Sergeants Down and Lucas are the next in line.

## SMALL BOY STRUCK ON HEAD WITH SWING

Accident to Young Lad Named Box at Springbank Park.

The little son of P. C. Marshall Box was painfully injured at Springbank on Wednesday evening by being struck in the head by a swing.

The little fellow was standing at the side watching some other children swing and swing. When the seat of the swing struck him a heavy blow and knocked him over. When several inches long, he had a rather deep laceration in the scalp. He is recovering rapidly.

## JUDGMENT IS AGAINST THE CITY OF HAMILTON

Cannot Enter Into Contract for Power With Commission.

Toronto, July 8.—Mr. Justice Teetzel yesterday gave judgment continuing until Sept. 27, the temporary judgment restraining the corporation of the city of Hamilton from entering into a contract with the hydro-electric commission for a supply of electrical energy.

About two weeks ago, when the ratepayers of Hamilton carried a bylaw authorizing the city to enter into a contract with the hydro-electric commission, Robert S. Morris, a ratepayer, ostensibly acting for the city, entered into such a contract.

Following the installation, ratepayers were served and during the evening addresses of a fraternal character were given by District Deputy Grand Patriarch James Elsey, Deputy Grand Wardens O. Munger, of Mount Brydges, and Grand Patriarch W. Priestley, John Isaac, Ed. Belz and W. Ferguson.

The officers installed were: P.C.P., George Jewell; C.P., Robert Pearce; H. P., John T. Wallace; S.W., William Mitchell; J.W., Charles Miners; R.S., Thomas Ward; treasurer, Joseph Sanders; I.S., W. Garbutt; O.S., W. Richmond; first watch, W. Ferguson; second watch, G. Stack; third watch, C. C. James; fourth watch, H. Pearce; first guard of tent, Robert Wonnacott; second guard of tent, Robert Pollard; guide, S. F. Neely; grand encampment representative, W. Richmond.

The installation, refreshments were served and during the evening addresses of a fraternal character were given by District Deputy Grand Patriarch James Elsey, Deputy Grand Wardens O. Munger and Grand Patriarch Ed. Belz.

## ENGLISH ENGINEERS COMING TO LONDON

Will Be Here on August 21 to Inspect City Works and Get Pointers.

A party of from eight to ten engineering students from London, England, will be in the city on August 21 to inspect the city works, and obtain information as to engineering. While here they will be entertained by the city.

Mayor Stevely received a letter this morning from Mr. Nugent M. Clough, chairman of the committee, stating that they would be in London on the above date, and would spend a day or two here.

The party will be restricted to eight or twelve, owing to the expense. The cities to be visited are Quebec, Montreal, Ottawa, Peterboro, Toronto, London, St. Catharines, Niagara Falls, Brantford, Sarnia, Stratford, Galt and Cobalt.

"We will be pleased to entertain them when they arrive," said Mayor Stevely. "They will be free on the evening of Aug. 21, and the city will take them in charge. As a member of the British Government said that it was not the number coming but the nature of the trip that made it important to the Dominion, we must see to it that they are well treated."

The reason given by his lordship for continuing the injunction was that in addition to applying for the injunction, Mr. Morris was making a bona fide attempt to quash the bylaw passed by the city council under which a plebiscite on the hydro-power question was submitted by the people, and was also a vote on the plebiscite. His lordship remarked that the application for the injunction was made to restrain the council from making a contract which was authorized by the ratepayers with the commission.

In taking that vote, the city clerk furnished lists to the deputy returning officers containing all the names of those entitled to vote for mayor and aldermen, and did not supply a list as the plaintiff contended he should have contained the names arranged in alphabetical order of only those entitled to vote on money by-laws, as it was only this class of voters that was entitled to vote on the hydro-power plebiscite.

His lordship said he was not prepared to say that this was sufficient to invalidate the plebiscite, still there was enough in the contention to justify him in continuing the injunction until the trial in September, as it appeared that the city's interests would not be injured in the least.

As to whether Justice Anglin's decision meant that the city council was free from the contracts made by the council last July, his lordship said he would express no opinion, but would leave that and all other points to be decided by the trial judge.

Another reason his lordship gave for continuing the injunction was that when the council contracted with the commission for power, it would be too late to bring an action to annul the contract, as it would appear from the London and Montreal cases that the hands of the court were tied after a contract was entered into with the commission.

**Appointment Today.**

There will be a meeting of the board of directors of the Y. M. C. A. in the association building this afternoon to consider the appointment of a new physical director to fill the place left vacant by the promotion of Mr. Stanley Brent to the secretaryship of the Stratford Y. M. C. A. A number of names of all men who have made a decided success in this department in other places are entered as applicants. It is understood now that the list of applicants has been narrowed down to two names. The final decision on the matter will be given out at the conclusion of the meeting this afternoon.

## PORTUGUESE PRINCE CHOOSSES AN HEIRESS

Miguel of Braganza to Wed Miss Anita Stewart of New York.

London, July 9.—The Austrian embassy here today announced the engagement of Prince Miguel of Braganza, eldest son of Duke Michael, the pretender to the Portuguese throne, to Miss Anita Stewart, daughter of Mrs. James Henry Smith of New York.

Prince Miguel of Braganza was born at Richenau, lower Austria, Sept. 22, 1878. He is the son of Duke Michael, and his first wife, Princess Elizabeth of Thurn and Taxis, whom he married in 1877. Miss Anita Stewart is the daughter of Mrs. James Henry Smith, who was formerly the wife of William B. Stewart.

### THE PHYSICIANS NOT IN A HURRY TO ACT

Will Not Ask for Legislation to Allow Speedy Punishment of Offenders.

Toronto, July 8.—The legal opinion of Mr. H. S. Osler, K.C., as to the powers of the executive committee of the Ontario Medical Council, was read at this morning's session of the council.

Mr. Osler believed that, at present, the executive committee has not the power to set the discipline committee at work independently of the authority of the council. He added as a rider, however, that as all matters of legal interpretation are open to question, the ultimate way to decide will be in the courts. That is, if the executive committee, acting independently of the Ontario Medical Council, authorized the discipline committee to strike a name off the roll, the owner will probably begin an action against the council. Then the powers of the executive will be decided by the judge.

As soon as the opinion of Mr. Osler was read, President Hardy threw open Dr. Starr's amendment for discussion. "The honor of the profession is at stake, and cases of infamous conduct should be dealt with at the first meeting of the council," said Dr. Starr. "It is practically impossible to get four doctors who will ask for a regulation on their own personal knowledge of unprofessional conduct. Usually not more than one doctor has such knowledge. As I pointed out before, the change which I propose does not delegate the authority of the council to the committee. It would merely set the machinery in motion and save time."

Dr. Starr then repeated his complaint of negligence against Dr. Spankie when he was president of the council.

Needn't Wait for Courts.

"It is not necessary that a man be convicted by the courts before action is taken by this council," said Dr. King, of Toronto, "especially as in this case, when a man escaped on a technicality, so small a technicality that the judges ordered a new trial."

Dr. Gibson, Sault Ste. Marie, made a suggestion.

"When a doctor is convicted by the courts for unprofessional conduct, why not let his name drop automatically from the roll?" he asked. "Or could not the courts remove it without action of the council?"

"The executive committee has distinct power to refer any case to the discipline committee now. This is the procedure."

### BLACK HAND SOCIETY AT THE QUEEN CITY

Book Found With the Names of Those Who Had Been Blackmailed.

Toronto, Ont., July 8.—In today's police court the existence of a Black Hand Society in Toronto was virtually established by the production of a book containing a list of names of those who had paid money. The facts came out in the charge of shooting with intent to kill laid against Joe Russell by Joe Musolino. Russell was arrested on the charge a few days ago and at the same time his wife asked to be taken into custody for her personal safety. This was done, and as a precaution the police searched the complainant's house, where they found the book produced in court this morning. After the magistrate had asked a few questions, the accused was discharged and his accuser arrested. The gang consisted of four men, and the police are now scouring the city for the other three, while descriptions of them are being sent out all over the county. Meanwhile Russell's wife has again got protection in the police matron's rooms.

### DEPUTIES CLASH CAUSE OF CHALLENGE

Rome, July 8.—The minister of posts and telegraphs today sent a challenge to a Republican deputy as a result of the debate in the Chamber of Deputies, last night, on the proposal to give the Italian Lloyd Steamship Company a 25-year subvention for the transportation of mail. Signor Calliani, the deputy in question, today explained his accusation of last night by saying that he did not allude to the personal honesty of the minister, but to his political honesty. Signor Schanzer, minister of posts and telegraphs. The bearers of the challenge were Admiral Mirabello, the minister of marine, and Gen. Spingardi, the minister of war.

### CHURCH COUNCIL SAYS LAW IS WRONG

London, July 8.—By a vote of 224 to 24 the church council, which was attended by the leading bishops, clergy and laymen of the Church of England, today declared that marriage to a deceased wife's sister, recently legalized in this country, was contrary to the moral rules of the church and to the principles of the Scriptures. Furthermore, the use of the prayerbook in the service solemnizing was repudiated in the strongest terms.

### FRUIT BY MOTORS ST. KITTS TO TORONTO

Growers Take Means to Offset the Action of Express Companies.

Toronto, July 8.—Automobiles will bring fruit from the Niagara district for the next few weeks. Two motor cars are ready now at St. Catharines, and more are being prepared.

Mr. W. H. Bunting, of St. Catharines, one of the best known fruit men in Canada, is the authority for the statement that an automobile service is arranged. He went to St. Catharines this morning to compete the details, and by the end of the week the fruit from the peninsula will be coming in fast behind the warning horn.

"We do not know what the express companies might do, and we have to protect ourselves," said Mr. Bunting. "We can put on an automobile service that will bring our product into the market outside all other considerations. I have now two big motor cars ready in St. Catharines. If the express companies want to hold us up in the face of the ruling of the railway commission, that the rate must be reduced from 40 to 30 cents per 100 pounds, we have to do something to protect ourselves, and the fruit season does not allow of any dilly-dallying. The people want the fruit and we want to get it to them. If they can't get it by the regular channels, we will show the railways that we can dispose of our produce by transporting it ourselves. Fruit does not keep as long as law suits," said Mr. Bunting.

He said further that arrangements were well under way for the automobile service, and that it was simply to offset any effort of the express companies to cut out the fruit shipments.

### FINED FOR CHEWING.

Hamilton, July 8.—Police Chief Smith imposed a fine of \$2.50 on Constable Hay, who was on the carpet before the police commissioners yesterday for chewing gum while on duty.

### HAD TO SETTLE.

St. Catharines, Ont., July 8.—Magistrate Campbell heard the case of Jonas Tomason, the mayor, who alleged that after working for John Moore, a farmer, for three years, he was turned off without getting any wages. Moore, who claimed Tomason was no good, was ordered to pay the icelander \$40 and all the costs, all Tomason asked.

### CONSUMER IS VICTIM OF THE TARIFF BUNKO

Republican Party in Congress Fails to Lift the Burden of Taxation From the Ultimate User.

Washington, D.C., July 8.—The ultimate consumer has been bunkoed by the Republican party in Congress.

Seventy-five per cent of the existing rates stand without change in the bills recently passed by the House of Representatives and reported to the Senate today by the committee of the whole of that body. Of the remainder it is conservatively estimated that 15 per cent is raised and slightly under 10 per cent reduced.

The average rate of duties is higher in the house bill than in the Dingley law, and will be even higher in the Senate bill.

It is the claim of the Republicans, of course, that it is unfair to make a summary of this character; that under the revision which has been made and which will be carried out by the conferees of the two Houses, luxuries will be compelled to bear increased duties, while necessities will be relieved to a considerable extent of the burdens now imposed upon them. An examination of both bills, however, fails to show any such satisfactory situation.

The House bill contains rates lower than those enacted by the Senate or at present in force upon the following articles: Barley, coal, tannins, hides, iron ore, lead, pig, lumber in the rough, petroleum products, print paper, shoes, wool waste.

The committee of the whole of the Senate made reductions below the Dingley law and Payne bill in two instances only: Mechanically ground wool pulp and cotton gloves.

Two Schedules Higher.

The bill is higher than those of the existing law. These relate to gloves and stockings. The outcry made by women in all parts of the country was responsible for the restoration of existing rates in the Senate bill with the exception of cotton gloves, the duty upon which was decreased below that fixed in the present law. Among others the bill reported to the Senate increased duties above the Payne bill, and the Dingley law upon the following articles: Automobiles, champagne, cotton cloth, diamonds, jute, lemons, oats, pineapples, potatoes, razors and razor blades, rye, wheat, wire nails, yachts.

These, of course, are only a few articles which will have to be considered in conference. When it is realized that the committee of the whole of the Senate has made something like 1,000 changes in rates and language, the work before the conference committee will be appreciated.

In such matters as increases in the duty on agricultural products it takes no secret to predict that the Senate will give way. When Mr. Adair inserted them in the bill, he did so in the hope of securing the support of senators from the agricultural districts with reference to increases of duties upon manufactured articles in which he is especially interested.

### Used By Senate for Purpose.

In this same connection there is every reason to believe that the Senate, in placing a duty of 15 per cent upon hides, expected to make concessions to the House, which has placed them on the free list, as it is added to the schedule a provision permitting a drawback equal to the amount of the duty paid thereon upon all leather made from imported hides.

The Senate will be willing to reduce the duty to 10 per cent, or, if this be not acceptable, then to be content with a duty on the finer kinds of skins, or, if pressed to the wall, to accept whatever duty may be decided upon finally, with the drawback provision quoted.

So far as can be ascertained, it is the desire of the President to obtain the lowest rates set forth in the Payne bill, and in the Senate bill as rates in the law as it will be placed upon statute books.

In many cases the President's wishes will be complied with, but it is the intention of the standstiller to point out that during the deliberations of the White House that the condition of the treasury must be taken into consideration, and that it is his duty and that of Congress to see that sufficient revenue is provided to meet the expenses of the Government.

The corporation tax will not be productive immediately, although in the end, it is found constitutional, it unquestionably will add anywhere between \$20,000,000 and \$50,000,000 to the government's income. Even this estimate may be cut down by amendments made to the corporation tax provisions today, under which exemptions were granted to fraternal beneficiary societies, orders or associations operating under the local system, including labor organizations, domestic building and loan associations, and corporations or associations organized and operated for religious, charitable or educational purposes.

### ONE FOR SUFFRAGETTES.

London, July 8.—Mrs. Despard and the contingent of suffragettes who have been for the past week in the hope of catching Premier Asquith, have scored a point in their fight for the contention that they have a constitutional right to present a petition to a responsible minister of the crown.

The suffragettes, who informed them that the home secretary was the constitutional channel of communication, and his majesty apparently followed this up with a hint that Mr. Gladstone would be advised to receive the women's deputation. In the face of Premier Asquith's persistent refusal to meet a deputation of suffragettes it is hardly conceivable that his lieutenant would consent to this course as he did without strong pressure. The suffragette reputation will be received by the home secretary this evening.

DUNDAS AND RICHMOND STREETS.

## Strong Lines Out For Saturday Shoppers

If you only get a glimpse of the lines that are slated to be cleared at this store tomorrow, we feel sure some will be at the door waiting when we get down in the morning. The few lines advertised in these columns today should be sufficient, but many others will have sale tickets placed on tomorrow that are not advertised today. For instance, in millinery, where \$5.00 to \$11.00 Hats are clearing for \$1.75 and \$3.50 each, and in the Black Dress Goods, where all lengths under 7 yards are being sold at ¼ off; and so from aisle to aisle and floor to floor you'll find many a spot where your dollar will count two tomorrow.

## These Will Not Be Sold Before Saturday Ladies' \$2.50 and \$3.00 Gold Headed Umbrellas \$1.50

300 in this lot, and the price is the result of a manufacturer overstocked with high grade Umbrellas, being obliged to cut the prices most cases in half. This store being one of the big accounts with this firm, a good shipment of these have come our way. Now, these Umbrellas are standard values at the prices mentioned—\$2.50 and \$3.00 each—and could be stocked and retailed by us at these figures, netting a handsome profit, but this is not our system. We consider when we sell a ladies' \$3.00 gold-headed Umbrella for \$1.50 that single transaction is better than a whole page of newspaper advertising, and that is the kind of advertising we are going to do tomorrow, when 300 Ladies' \$2.50 and \$3.00 Umbrellas will be offered for \$1.50 each. The coverings are extra fine silk and wool, very close rolling, paragon frames with patent bulb runners, 23-inch, convenient size for rain or shine; handles in gold and ruinea gold plated mountings, in mother of pearl, Wedgewood and natural wood styles. We anticipate a quick clearance, so come in the morning for choice of handles. \$2.50 and \$3.00 Umbrellas. . . . \$1.50 EACH SEE DISPLAY IN DUNDAS STREET WINDOW TODAY.

## Let the Shirtwaist Girl Read This Item Half Price Tomorrow

LAWN; NET AND SILK WAISTS, ¾ SLEEVES—All lines in these waists have been arranged for a quick clearance tomorrow. Don't be afraid, we have all sizes if you come early, but in some of the better lines quantities are not large. Four different styles—Lawn Waists, embroidery or lace trimmed \$1.00 Waists for 50c, also fine White Lawn Waists, front of allover embroidery trimmed with clusters of tucks, tucked and fastened at back, \$1.50 for 75c each. Fine White Lawn Waists, front has yoke of fine tucks and lace insertion, back tucked to yoke depth and trimmed with lace insertion, cuffs trimmed to correspond with front. A very pretty style, \$2.00 Waists, half-price, \$1.00

### \$3.50 Jap Silk Waists \$1.75

We will give you an illustration of one. Front trimmed with clusters of fine tucks and three rows of embroidery insertion, tucked and fastened at back. Regular price \$3.50, half-price. . . . \$1.75

### \$7.50 Lace Waists \$3.75

Made over Jap Silk in ecru shade. front and back tucked and trimmed with guipure and Val. insertion in pretty designs of allover lace. Regular \$7.50 Waists for half-price, each. . . . \$3.75

### EX-CHIEF BENOIT MAY FACE PERJURY CHARGE

Sensational Turn Taken to the Montreal Civic Investigation.

Montreal, July 8.—EX-Chief Benoit, of the fire brigade, whose name has been mentioned by many witnesses as the man who profited by the selling of positions, was on the stand today at the civic investigation by the royal commission.

This was Mr. Benoit's first appearance in the case, and it excited great interest. He was examined at length by his counsel as to each of the several witnesses and denied every one of them. While he admitted having received money from some of the witnesses, the ex-chief declared that it was either as a gift, won at cards or else given him by manufacturing firms for his influence in getting them orders from other fire brigades.

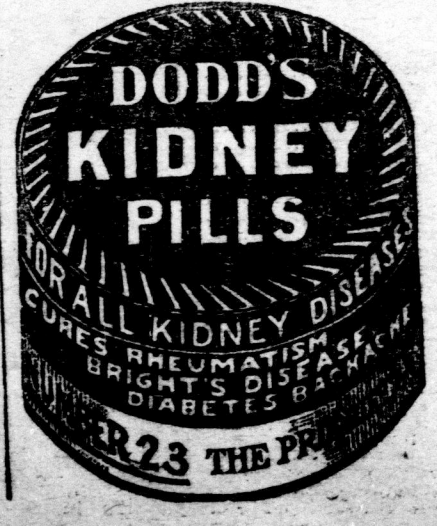

Commissioner Cannon several times undertook the examination of the witness, Benoit said he had known nothing about the selling of positions when he was chief. Judge Cannon named several witnesses and said that either they or the ex-chief had perjured themselves, and that it was his intention to make the whole thing clear.

### ADULTERATED COFFEE.

Kingsport, Ont., July 8.—Two Kingston grocers have been summoned to appear in the police court charged under the pure food act with selling adulterated coffee. This is the first case of the kind to be tried here, and is the outcome of a recent investigation by the inland revenue department.

### CROWN RESERVE LITIGATION.

Montreal, July 8.—The litigation in connection with the Crown Reserve Mining Company, respecting 231,143 disputed shares, took a new turn today when the company was served with a petition, to be heard in the supreme court Saturday, asking for an interlocutory injunction, restricting the company from paying any further dividends on any stock until the company pays dividends on the shares in dispute. The fourth dividend of the company's shares is due July 15.

**Makes the Glassware Fairly Sparkle**

Mirrors and glassware are hard to clean with ordinary soap. The oily matter often leaves streaks and spots that are hard to remove.

But with Taylor's Borax Soap the result is wonderful. The surface is left without a single streak—it glitters and sparkles as though it were diamond.

And your work is only half as hard. For this soap reduces rubbing to a minimum—it works almost like magic.

**Taylor's Soap**

Borax is the most powerful cleanser in the world. It does wonders that are almost unbelievable until you see the results for yourself. When you spend an hour cleaning the bath room, the tub, the wash bowl and the mirrors, you have wasted just half an hour. You would have done less than half the rubbing and finished in half the time with Taylor's Borax Soap.

For this soap does more than any other soap you have ever known. It loosens every bit of dirt instantly, it destroys every possible germ and leaves everything both clean and sweet. Hard water often hardens the hands—it leaves them red and rough. But this delightful borax soap softens the water and so softens the hands—it leaves them whiter and daintier than ever before.

We use only the finest of coconut oil in this soap. We go more than 12,000 miles to the Isle of Ceylon just to be sure this oil is pure and fresh. Then we boil it doubly long and run thousands of gallons of pure water through it to remove every impurity. It is the cleanest and purest of soaps.

It requires twenty-one days to make a single cake. The labor of more than 200 persons is needed.

Yet this soap costs no more than the ordinary. We make millions and millions of cakes every year and are thus able to buy at the lowest of prices.

Why use the ordinary soap any longer when this wonderful soap costs no more?

Try a bar this very day—learn for yourself its real merits.

New York, July 9.—Sailing on the

man and their brother, Master Ro-  
land Harriman, the latter bearing  
a box of 200 cigars.

"That does not look as though dad is so very ill," said Roland, as he pointed to the cigars. He doesn't like the Parls brand and has cabled for me to bring his pet cigars."

The cigars and a note which were delivered to the youth just as the gangplank was being pulled in caused Roland an uncomfortable half hour. Mr Harriman's cable ordering the cigars had been received by Charles P. Tegethaff, his private secretary, an hour before sailing time. A messenger was despatched for the cigars with instructions to make all possible haste to the North German Lloyd pier.

Roland was on the outlook for the

messenger and when the hour for sailing drew nigh and he had given up

all hopes of seeing him, the boy confided to the secretary that he was "broke." Mr. Tegethoff gave him a \$100 bill, which he stuffed into his pocket. When the messenger arrived he bore a note addressed to Roland. This the boy opened, and when he found it contained ten \$100 bills, he profusely thanked Mr. Tegethoff and returned to him the \$100 he had borrowed.

Miss Mary Harriman went on board about ten minutes before the ship cast off. She said that with her sister and little brother she would go direct to Paris and there await instructions from her father, who is in Australia. She said that she did not know what the plans are for their stay abroad, but that she would return early in September.

**Money Alleged to Have Been Given as**

a Bribe Likely to Go to Charity.  
Indianapolis, July 8.—Oscar A. Baker

agent of the American Tobacco Company, who fled the state after being indicted for attempting to bribe a legislator to vote against the anti-cigarette bill, appeared in court for a moment and a verdict of acquittal against him was dismissed. The legislator to whom Baker was charged with giving \$100,000, has since died, and there was no other witness.

"Mr. Baker, I have \$100,000 in my possession, and if you want to give me a receipt for it I will gladly return it to you," said Prosecutor Hoover.

"I don't know anything about that money," Baker replied, declining to fall into the trap. "I never had anything to do with it."

John W. Kern, who was Baker's attorney, in his behalf that Baker disclaimed any part of the \$100,000, and that as far as he was concerned the American Tobacco Company had no claim against him for the same charity.

"I said Kern, 'I understand the Old Folks' Home needs some money.'"

**WEALTHY POETS**

Estates—Victor Hugo's Property.

London, July 8.—That poetry is not so badly paid after all—its province is not Mr. Algernon Charles Swinburne's will, that probate and auctioneer have recently granted in London. His estate has been valued by the sole executor, Mr. Walter Theodore Watts-Dunton, at £24,282 gross, including personality of the net value of £19,996. The whole of the property has been left to Mr. Watts-Dunton.

Tennyson left £57,208. He appointed his son his literary executor and bequeathed to him all his manuscripts, literary works and copyrights, subject to the payment of the income therefrom to Lady Tennyson for her life.

Lord Tennyson's estate of Aldworth, the Farnham estate, the manor of Priors and the rest of his real estate were put under trustee for Lady Tennyson for her life. The copyrights of the late poet laureate's works were valuable, and Tennyson was paid

Robert Browning, of whom will be

Tennyson and F. T. Palgrave were witnesses, left personally in England of the value of £16,775. The will was in Browning's own handwriting, with the initial letters of all the nouns substantive in capitals, and the other words in small.

Victor Hugo, who, like Lord Tennyson, attained the age of 83 years, had personal estate in this country to the amount of £92,126. Dr. Charles Mackay's property was valued at £2,639, and that of Eliza Cook at £5,957.

The personal estate amounted to £10,401. His will, in his handwriting, was one of the shortest that has ever come under probate. It was: "I leave everything of which I die possessed to my wife, Frances Lucy."

Mr. Frederick Locker-Lampson left Mr. Lockery Patmore £8,477 and Mr. William Williams died in 1896, £55,069. In the last named case, however, it is tolerably certain that poetry did not contribute a very

large share of the total.

LONDON, FRIDAY, JULY 9.

## THE RETROGRESSION OF ROSEBERY.

Lord Rosebery has publicly announced that he leaves the Liberal party of England. The policy of the Government is too radical for him, and he can no longer give it the tepid support he has been able to give in the past. The most objectionable feature in the Liberal programme is the plan proposed of raising taxes by levying on the wealthy classes.

This was, we suppose, to be expected. Lord Rosebery himself is a wealthy man. Among his relations by marriage are some of the financial leaders—the moneyed men of the empire. It is quite natural that he should object to a policy which, in his opinion, puts its hands in the pocket of the class to which he belongs.

And yet it is difficult to see what else the Government could have done. It was confronted with the financial problem of raising a large sum of money. To accomplish its purpose it might have adopted some measure of protection which would have placed the burden on the shoulders of the entire people, and made the poor man pay as much in proportion as the rich. It does not appear that Lord Rosebery recommends this course. The only other alternative was the one adopted—to put the burden on the shoulders best fitted to bear it. No rich man will be made poor by the Government's policy. None of that class will be deprived of a single luxury. The burden will be more imaginary than real. At the same time, no man, rich or poor, likes the idea of having to pay more taxes, even though he is perfectly able to pay, so that the opposition of the moneyed interests to the Government's policy is not an unnatural one.

Lord Rosebery, however, does not lay as much stress on the tax as on the method of imposing it. His objection is that a radical change is proposed by the Government without any mandate from the people. It is the constitutional aspect of the question, and not the personal, which affects him. That is a plausible argument, which will be adopted by all who oppose the Government. It is true the precise tax now proposed was not voted on by the people at the last election. But the campaign showed conclusively that the Liberal party had adopted what their opponents termed radical views, and were prepared to carry them out in power. Besides which the Government was confronted with the necessity of raising money. If that could not be done in the manner proposed, it could only have been done by a protective policy, and that the people certainly voted against. The method pursued by the Government has been in accordance with the constitution, and will, no doubt, be sustained by the people.

Lord Rosebery's retirement from the Liberal ranks in all probability means his final passing. For years he has occupied a unique position. An exponent of the empire; a man of high social rank and great wealth, he yet stood aloof, and "plowed his lonely furrow." A Liberal nominally, he gave the party little active support. And yet he was a picturesque personality in the public life of the empire. A most cultured philosopher and an orator of great power, his occasional speeches delivered on important questions were received with marked attention as the utterances of a political prophet—even though at times a pessimistic one. They may still continue to charm an audience, and give work to the reporters. But he has gone out of the stream, and in circling eddies near the shore he will no longer be a power—if, indeed, he has been one since he left the office of premier.

## ENGLISH RAILWAY WORKING AGREEMENTS.

Following close on the failure in Parliament of the combination scheme of two leading English railways, the Great Northern and the Great Central, comes the announcement of a working agreement between three other lines, the London and North Western, the Midland and the Lancashire and Yorkshire. Such agreements can be entered into without parliamentary sanction, and provisionally this latest agreement can be carried out without application to Parliament; but such application is ultimately intended.

The heads of the agreement, which have been officially published, provide for the pooling by the three companies of the net proceeds of competitive traffic, and dividing them on the basis of the actual earnings of each of them. The accountants are to agree as to the pool percentages, the points to be regarded as competitive, and the necessary additions and deductions to be made in arriving at the amount for division. All existing pooling arrangements in which companies not parties to this agreement are interested, are to continue as at present. Those to which the three companies or any two of them alone are parties are to be terminated as from the end of the present year. Each of the three companies is to afford to the others all due and reasonable facilities for interchange of all traffic, whether divisible under this agreement or not, so as to give the public the benefit of the best route.

As soon as possible arrangements will be made with a view to securing the most economical methods of working, combined with the best facilities to the public; but none of the three companies is to be called upon to do anything inconsistent with its obligation to any other company. If, in the opinion of any one of the companies its position has been fundamentally altered and the boards are unable to agree upon a revision of the terms of agreement, the matter is to be referred to arbitration. The agreement is to continue until determined by ten years' notice, but such notice may not be given before Dec. 31, 1918, and at a suitable time Parliamentary powers will be applied for to enter into a more extended arrangement to embrace traffic not now dealt with, and to carry out the fullest working arrangements possible.

Meanwhile a board of trade committee is considering the general principle and policy of railway agreements, and what changes in the law relating to such agreements are desirable, the purpose being to safeguard the various interests affected. Mr. Winston Churchill is heartily in sympathy with combinations of this sort, and in the Commons recently he expressed his regret that the Great Northern-Great Central scheme, which tended towards amalgamation, had been rejected, for he argued, much might be gained in the interest of the public by amalgamation.

## CURIOSITY IN BOUNDARIES.

[London Globe.]

About 600 yards from the station at Hereaux, at the crossroads from Oudenarde to Roubaix, on the way from Tournai to Mons, there is a directing post which from a topographical point of view is a curiosity. This post marks the separation between two countries—France and Belgium; three provinces—Nord, Flanders and Hainault; three bishoprics, Cambrai, Bourges and Tournai. Three races dwell around it, speaking three languages, French, Flemish and Walloon. It is also in three countries, newspapers and parcels will be carried over this line instead of in wagons through the streets. It is estimated that the line would take the place of 450 mail wagons and 700 journeys through the city every day. The railway will be built in a subway five feet high and a little less in width. Each car will carry 80 packages, which is equal to the capacity of a one-horse mail wagon. Trains of 8 cars will be run every twenty minutes from half-past 5 in the morning until 10 o'clock at night. They will carry no passengers, but will be operated from dispatch stations, and will travel about twenty miles an hour.

## ELECTRIC SUBWAY FOR MAIL.

[Vienna Correspondence Pall Mall Gazette.]

Plans are now under consideration for an underground electric railway in Vienna for the transmission of postal matter. It is proposed to link together the chief postoffice and 64 sub-stations and the 9 railway stations in the city. Letters, newspapers and parcels will be carried over this line instead of in wagons through the streets. It is estimated that the line would take the place of 450 mail wagons and 700 journeys through the city every day. The railway will be built in a subway five feet high and a little less in width. Each car will carry 80 packages, which is equal to the capacity of a one-horse mail wagon. Trains of 8 cars will be run every twenty minutes from half-past 5 in the morning until 10 o'clock at night. They will carry no passengers, but will be operated from dispatch stations, and will travel about twenty miles an hour.

## BAR OUT THE UNFIT.

[Brooklyn Standard-Union.]

The continental countries will soon learn that the habit of permitting the unfit to cross the ocean only to be returned is not a sane economic policy. The trip over not only costs money, but represents loss of time to those who are refused admission here. The man who gives up his job on the other side and is sent back disturbs labor conditions by his unexpected reappearance. Hence, it will be wise for the nations across the Atlantic to do some inspecting before opening the gates to would-be immigrants.

## OLD ENGLISH LIBEL SUIT.

[London Chronicle.]

Parliamentary repartee was ably upheld by Lord Brougham, especially during the great reform debates of the last century. On one occasion when anti-reformers were trying to hawl him down by imitating the sounds made by various animals, among which the braying of the ass was most recurrent, he waited for a pause, and then retorted imperiously that by a wonderful disposition of nature every animal had its peculiar mode of expressing itself, and he was too much of a philosopher to quarrel with any of those modes. This was no less severe than the famous libel on the part of the Earl of Limerick, calling him "a thing with human pretensions," which appeared in the Times in 1841, and for which the printer was fined \$500 and confined for an indefinite period in Newgate.—London Chronicle.

## PLEASANT EVENINGS AT PORT STANLEY

Cyril Dwight Edwards, London's Famous Singer, Entertains Some Friends.

[Special to The Advertiser.]

Port Stanley, July 9.—Mrs. Fred Sutherland, of Hill Crest, entertained the ladies of St. John's Church, St. Thomas, at the tea hour Wednesday afternoon.

Miss Hilda Ebby and Miss Gertrude Ruppel, of St. Thomas, have returned home after visiting Miss Nila Fitzsimons at Crown Point cottage. A picnic was given yesterday on Fraser Heights, in honor of Mrs. Charles Smith, of Brandon Man. (nee Mary Haight, of Sparta), by a number of her friends from St. Thomas and Sparta. A most enjoyable time was participated in by all.

A house party comprising the following are at Grove Cottage, Fraser Heights: Mrs. J. W. Jones, Mrs. John Jones and Miss Matheson, of Montreal; Rev. Mr. and Mrs. Martin and daughter, H. Thompson, Miss Teasdale, Mrs. Saunders, Miss Thompson, and Miss Lynd, all of London.

The ladies of Erie Rest have a sidewalk at last, but it is as crooked as a ram's horn. Mrs. Trotman, of London, is spending a few days at Grove Fraser Heights, the guest of Miss Mary Graves.

Mr. and Mrs. Sullivan and daughter, Adda, of Detroit, have returned home after visiting the Misses Hanson at Grantham Cottage, Erie Rest.

Miss Rice, of the Sacred Heart Convent, London, is spending her vacation with Mrs. Rice, of Watlington, at Widemore Cottage, Fraser Heights.

Mrs. Joe Smith, of London, spent Thursday with Mrs. Willson, Erie Rest.

Archie McColl, of St. Thomas, is employed in mowing the grass on Fraser Heights.

Mrs. Rice, of Fraser Heights, spent today in London.

Mr. and Mrs. G. F. Emerson, of London, and Miss McIntyre, of River Road, Southwold, have been spending a few days with Mrs. A. C. Kerr, at Wastera Cottage, Fraser Heights.

Thomas Rowe and family, of London, are occupying their cottage, Ro-Erie, at Erie Rest.

Mr. and Mrs. Wm. Velthe, of Montreal, are spending the summer with their daughter, Mrs. Bryant, at Petro-Fras Cottage, Fraser Heights.

Cyril Dwight Edwards, London's best singer, was a visitor on Fraser Heights last evening. He entertained a few of the cottagers by singing several well-chosen selections.

Mrs. W. R. Jackson, of St. Thomas, gave a very enjoyable dinner party today.

A very interesting game of lawn tennis between London and St. Thomas was played here this evening.

The Knights of Pythias held a banquet here on Tuesday evening.

Dr. and Mrs. Hutchinson, of London, are the guests of Mr. and Mrs. H. M. Douglas, on Fraser Heights.

Miss Edith Fox, of London, is the guest of Mrs. Wm. Turnbull, on Fraser Heights.

C. E. Groszkith, of London, England, and H. Wedmore, of London, Ont., are Port Stanley visitors.

Miss Kathleen Easton, of Leamington; Miss Marjorie Whitaker, Mr. Hilliard Stevely, Mr. Alfred Ezzard, of London, are spending the week with Mrs. Wm. Turnbull, on Fraser Heights.

Thomas Kingsmill, of London, was a visitor to Port yesterday.

The second game, between the Stars and Youngs, will be played at 4 o'clock and a great game is looked for. The teams are rounding into shape rapidly and a classy line of ball will be played for the remainder of the season.

## EATEN BY ALLIGATORS.

Pensacola, Fla., July 9.—With the bones stripped of flesh by alligators, the body of Herman Wilcox, of Chicago, was found yesterday in Good Time Lake, two miles from Camp Walton, a summer resort, where Wilcox had been residing with his mother for the last two months.

Not knowing that the lake contained hundreds of alligators, Wilcox went in for a swim. He had been missing for four days.

## UNHOLY ROBES

Vatican Organ Comments on Immodest Apparel.

New York, July 9.—A P. M. dispatch to the Times says that the issue of the Observatore Romano, the organ of the Vatican, which reached Paris last night, contains a scathing denunciation of the tendencies of the feminine fashions of today.

Taking as its text the petition against the immoral press, forwarded by the Catholic ladies of Bergamo to the minister of the interior, and signed by several thousand Italian women, the Observatore says: "We hope the competent authorities will apply the law against these new and dangerous well-units. We refer to the fashions worn in the streets by women of all ages, and by young girls."

"Those who profess with ardor the Catholic faith and morals should not be indulgent toward women who walk about the streets, wearing immodest garments. All the present-day fashions are designed to excite the passions. It is the shipwreck of virtue. These fashions are prejudicial to beauty, which is the reflection of the bounty of God, and therefore fruitful in moral and well-being."

"Cleanse them of the unholy robes. Rid them of their dresses, which makes the wearers' guardian angels weep. Let your wives and daughters make their own clothes rather than wear dresses which grieve the Holy Spirit and the Father of Truth."

## PAYING PATTI.

Adelina Patti never suffered from the financial timidity of a Jenny Lind. Not only was she a supreme vocalist, but, as Colonel Mapleson remarked, "No one ever approached her in obtaining a manager the manager the greatest possible sum he could by any possibility contrive to pay."

The musical miracle was the spoiled darling of her day, says The Bookman, and she never failed to obtain exactly what she wanted. She was first engaged in London in 1861 by Mapleson to sing four nights "on approval," and in case of success to obtain £40 a week.

The contract was not fulfilled, however, for being hard pressed financially she had borrowed £50 from a rival manager, and her receipt proved practically a contract. This was the beginning of a career so dazzling that its successive steps are simply a series of increasing bank notes.

In 1872 she obtained in London 200 guineas a night, since she insisted on having more than Christine Nilsson, who was receiving £200. She sang twice a night. Ten years later she got \$5,000 a night!

The famous contract to sing in America provided that the money should be paid her at 2 o'clock on the day she sang, also a drawing-room and sleeping-car was to be especially built for her with conservatory, fernery, etc. Further, there was to be deposited to her credit \$50,000 for payment of the last ten performances.

Patti's favorite device, she thus received about twenty times what Mario and Giesi got.

Her private car, incidentally, cost \$60,000, and contained a silver bath, and gold keys to the doors—to say nothing of a \$2,000 piano. Patti only gave to the manager her voice and her costumes. Her drawing capacity justified this. "Lucia," as an example, was sung to an average of \$14,000.

Patti's drawing drew more, since she sang more notes; it was a frequent occurrence among the poorer music lovers to buy a club ticket and each take turns at hearing her for twenty minutes; if one of them overstayed his time he paid for the entire ticket.

Some mathematicians computed, by dividing number of notes sung by sum of the last ten performances—Patti received 42 5-8 cents for each note; this was more than Rossini got for writing the whole opera.

## CHURCH GARDEN PARTY IN THE MAPLE CITY

Attracts a Crowd of 800 to 900 Persons—Gas Company Fined \$20.

Chatham, July 9.—A highly successful garden party was given last night in connection with Holy Trinity Church on the lawn of N. H. Stevens, Dover street. Eddie Piggett, of Toronto, one of Canada's leading comedians was there, and his Irish and Scotch character songs were much enjoyed. Miss Pearl Maggs was accompanist. Between 800 and 900 people must have been present.

Harry Terrington, of Harwich Township, aged 19 years, left his clothing in such a way, near McGregor Creek on Wednesday evening, that everyone thought he was drowned. The rumor-like Mark Twain's famous death—proved to be much exaggerated, for he was only hiding around watching his frigate family aided by the fire department dragging the waters for his cadaver. It appears that some little reprimand was the cause of his extraordinary act.

Before Mr. William Potter, J. P., in the police court yesterday, the Chatham Gas Company was fined \$20 and costs for supplying unpurified gas last April.

### CHAPTER VI.

Kingston Brooks, Philanthropist.

"It is my deliberate intention," Lord Arranmore said, leaning over towards her from his low chair, "to make myself a nuisance to you."

Lady Caroom smiled at him thoughtfully.

"Thank you for the warning," she said, "but I can take care of myself. I do not feel even obliged to deny myself the pleasure of your society."

"No, you won't do that," he remarked. "You see, so many people bore you, and I don't."

"It is true," she admitted. "You pay me nothing but unspoken compliments, and you devote a considerable amount of ingenuity to conceal the real meaning of everything you say. Now some people might not like that. I adore it."

"Catherine, will you marry me?"

"Certainly not! I'm much too busy looking after Sybil, and in any case you've had your answer, my friend."

"You will marry me," he said, deliberately. "In less than ten years—perhaps in less than one. Why can't you make your mind up to it?"

"You know why, Arranmore," she said, quietly. "If you were the man I remember many years ago, the man I have wasted many hours of my life thinking about, I would not hesitate for a moment. I loved that man, and I have always loved him. But, Arranmore, I cannot recognize him in you. If these terrible things which you have committed have withered you up so that there remains no trace of the man I once cared for, do you blame me for refusing you? I will not marry a stranger, Arranmore, and I not only don't know you, but I am a little afraid of you."

He sighed.

"Perhaps you are right," he said, softly. "I believe that the only thing I have carried with me from the be-

"Never mind that," she said, softly. "After all, I have a certain amount of faith. A miracle may happen at any moment."

Sybil came in, dressed in a fascinating short skirt and a toque. Her maid on the threshold was carrying a small green baize box.

"I am going to Prince's, mother, just for an hour, with Mrs. Harrington. How do you do, Lord Arranmore? You'll keep mother from being dull, won't you?"

"It is your mother," he said, "who is making me dull."

"Poor old mummy," Sybil declared cheerfully. "Never mind. Her bark is a good deal worse than her bite. Good-bye, both of you."

Lord Arranmore rose and closed the door after her. Sybil came from a study in the library.

"Sybil is a remarkably handsome young woman," he said. "Any signs of her getting married yet?"

Lady Caroom shook her head. "Not a word," she said. "I think she is waiting for Mr. Brooks."

Lord Arranmore smiled a little bitterly. "Is he in London?"

"I have never seen him, you must remember, since that evening. He is still—unforgiving?"

"Yes! He refuses to be acknowledged. He is taking the bare income which is his by law—comes from a settlement to the eldest son—and he is studying practical philanthropy in the slums."

"I am sorry," she said. "I like him. He's not to be blamed," Lord Arranmore said. "From his point of view I have been the most scandalous parent upon this earth."

Lady Caroom smiled. "Do you know," she said, "that he and Sybil were very friendly?"

"I noticed it," he answered. "She has asked about him once or twice since we got home. I think when she reads about the starting of this new work of his at Stepey she will certainly write to him."

"You mean—"

"I mean that she has sent Sydney to the right-about this time in earnest. She is a queer girl, reticent in a way, although she seems such a chatterbox, and I am sure she thinks about him."

Lord Arranmore laughed a little hardily. "Well," he said, "I am the last person to be consulted about anything of this sort. If he has the least attitude and declines to receive anything from me, his income until my death will be only two or three thousand a year. He might marry on that down in Stepey, but not in this part of the world."

"Sybil has nine hundred a year," Lady Caroom said, "but it would not be a matter of money at all. I should not allow Sybil to marry any one concerning whose position in the world there was the least mystery. She might marry Lord Kingston, of Ross, but never Mr. Kingston Brooks."

"Has—Mr. Brooks given any special signs of devotion?" Lord Arranmore asked.

"Not since they were at Eaton. I dare say he has never even thought of her since. Still, it was a contingency which occurred to me."

"He is a young man of excellent principles," Lord Arranmore said, dryly. "I should imagine he is too well balanced to make anything but a very safe husband. If he comes to me, if he will accept it without coming to me even, he can have another ten thousand a year and Eaton."

"You are generous," she murmured. "Generous! My houses and my money are a weariness to me. I cannot live in the former, and I cannot spend the latter. I am a man really of simple tastes. Besides, there is no glory now in spending money. One can so easily be outdone by one's grocer, or one of those marvellous Americans."

"Yet I thought I read of you last week as giving nine hundred pounds for some unknown tapestry at Christie's."

"But that is not extravagance," he protested. "That is not even spending money. It is exchanging one investment for another. The purple coloring of that tapestry is marvellous. The next generation will esteem it priceless."

"You must go," she asked, for he had risen.

"I have stayed long enough," he answered. "In another five minutes you will yawn, and mine would have been a wasted visit. I should like to time my visit always so that the five minutes which I might have stayed seem to you the most desirable five minutes of the whole time."

"You are an epicurean and a schemer," she declared. "I am afraid of you."

He bought an evening paper on his way to St. James' Square, and leaning back in his brougham, glanced it carelessly through. Just as he was throwing it aside a small newspaper at the bottom of the page caught his attention.

A NOVEL PHILANTHROPIC DEPARTURE.

The First Bureau Opened Today—Interview With Mr. Kingston Brooks.

He folded the paper out, and read through every line carefully. A few minutes after his arrival home he re-issued from the house in a bowler hat and a long, loose overcoat. He took the Metropolitan and an omnibus to Stepey, and read the paragraph through again. Soon he found himself opposite the address given.

He recognized it with a little start. It had once been a mission hall, then a furniture shop, and later on had been empty for years. It was brilliantly lit up, and he pressed forward and peered through the window. Inside the place was packed, Brooks and a dozen or so others were sitting on a sort of slightly-raised platform at the end of the room, with a desk in front of each of them. Lord Arranmore pulled his hat over his eyes and forced his way inside. Almost as he entered Brooks rose to his feet.

"Ask here," he said, "you all come up asking the same question and wasting my time answering you all severally. You want to know what this place means. Well, if you'll stay just here you are for a minute. I'll tell you all together, and save time."

"Hear, hear, guv'nor," said a bibulous old costermonger, encouragingly. "Let's hear all about it."

## TREMENDOUS PROBLEM FACES THE GREAT WEST

Fully 20,000 Extra Harvesters  
Will Be Required Because  
of Increased Acreage.

Winnipeg, July 8.—The question of securing a sufficient supply of laborers to handle the big crop of the west this year promises to be the most serious problem to be encountered by the farmers, and unless some source of immigration is discovered, a most serious situation will arise. In previous years it has always been difficult to secure sufficient help and have the help distributed in time for the harvest, but this year, on account of the great increase in acreage, the problem will be doubly difficult to solve.

According to J. Bruce Walker, Dominion Immigration agent, every man of 20,000 will be required to go into the harvest fields of the west and help in the delivery of the grain in the elevators. Where this 20,000 is to be secured is the great problem.

"We are in desperate straits to get men," said Mr. Walker, "experienced or inexperienced, and it is giving me a great deal of concern, particularly with the approaching harvest, when the demand will become abnormal. Apart altogether from the verbal applications at the counter of the Immigration hall, which I may say are very numerous, there were 288 applications for inexperienced men for farms during the month of June, and out of that number, only 43 men were supplied."

"In the same period, we had 217 applications for experienced help, and only 48 were supplied."

"Besides these, we had to refuse 200 personal applications for help, and altogether, with experienced and inexperienced of one class and another, we had in the month of June 600 applications."

"The employment agents of the city also announce that they have great difficulty in securing farm hands. Many applications have been received offering \$15 to \$20 a month for inexperienced hands, and \$30 to \$35 for experienced men."

The full Canadian Pacific report was received at the local office of the company today. Between Winnipeg and Portage many fields are in the shot blade, others are heading out. Between Portage and Brandon the weather has been hot and dry, and some more rain is needed. On the Emerson branch rain is needed at Otterburne. The grain is 20 inches high there. At Minnedosa there is plenty of rain, and the grain will be headed out next week. On the Napinka section wheat is all in the shot blade. No damage has been suffered except at Waskada, where there have been some hail storms. Arcola section prospects were never better. Last Mountain section has had much rain, and at Balcarres 50 per cent of the wheat is headed out. On parts of the Yorkton section rain is needed. At Pense and Belle Plaine there was hail, but no damage was done. The report on the whole is very gratifying.

Rapid Growth in Alberta.

In Alberta there has been plenty of rain and the grain is making rapid growth. Fall wheat is well headed out, and other grains are looking well. In Saskatchewan the grain is exceptionally high, especially in the northern part of the province. With favorable weather the best results may be expected from Northern Saskatchewan.

In Manitoba grain will be shorter than last year, but the plant is strong and sturdy, and should develop a good deal. West of Portage la Prairie a good rain would be very beneficial, but up to the present the crop is not suffering.

The weeds in the grain are just about the same as other average years, excepting in the Portage Plains, where the farmers are making an effort to kill them, which is already showing good results.

CENTRAL PRISON FARM  
MAY BE IN PEEL

Some Talk of Its Being on C. P. R. Near Brampton.

Toronto, July 8.—There is, according to local report, considerable likelihood that the Provincial Government will locate the new Central Prison farm at Ingewood, in Peel County, situated on the Canadian Pacific Railway, between Brampton and Orangeville, about 25 miles from Toronto.

When interviewed, however, Hon. A. J. Matheson, the acting provincial secretary, did not confirm the rumor. "The farm has been under consideration," said the minister, "nothing definite has been decided, and no action will be taken pending the return of Hon. Mr. Hanna."

"As a matter of fact," he continued, "Mr. Sutherland and Mr. Postlethwaite have been appointed to visit all the farms submitted for the purpose and report individually on each. Their report on the Ingewood farm has not yet been dealt with nor has the matter in any way been finally determined."

TRIED TO REACH COBALT

Adventures of Three Camden Boys Were Most Unpleasant.

Pittsburg, July 8.—After being held up on two nights in succession by highwaymen in the mountains of Pennsylvania, and subsisting for six days on berries, three young gold-hunters were forced to abandon an attempt to reach the Cobalt mining district.

John Edgerton, aged 13, whose father owns a large tract, and has valuable options in Cobalt, and Charles and John Towney, both aged 16, whose father is interested in the Nipissing mine, and formerly lived at Hamilton, Ont., started out from Camden on a bicycle and a tandem

with \$40 in cash between them. Their parents at once notified the police, but they got away and after several days' run they were held up by a robber in the mountains, who took all their cash, and threw the bicycles over the cliff. They tampered on, however, and the next night were met by another robber, who got in a rage because they had nothing, and threw young Edgerton over a precipice, where he caught in a tree 20 feet below and, hung 200 feet above the base. He was rescued by the other boys, and after several days' more of wandering they were caught by the Pittsburg police.

Detroit met the Athletics and Harry Krause, the pitching collegian on the staff of Connie Mack, yesterday, and the Athletics failed, as have the teams in eight other contests this season, to sully the record of the young star from St. Mary's.

Krause's ninth successive conquest of the year was annexed with the score 3 to 1. The Philadelphia fan is a trifle wild. He weakened a bit in the eighth inning, and was found for hits, which gave the league leaders their only tally—but in all other rounds Harry Krause was complete master of the situation at Bennett Park.

Edgar Willett was pitted against the twirling marvel. The Tiger finger was unsteady. A sure arm had much to do with Edgar's lack of control, and several Athletics trotted to first on passes during the game. Willett allowed seven hits. There were six obtained off the pitching of Harry Krause. With the exception of the eighth inning, when Mack's men closed a total of three, there was no other round in which Philadelphia was allowed more than one bingle.

## LITTLE 13-YEAR-OLD SCHOOLBOY DOES WHAT NO OTHER LAD CAN DO

Russell Byron, Milwaukee's Sensational High School Athlete.

Milwaukee, Wis., July 9.—Say, hoys, how would you like to be the best jumper of all the public school boys in the United States? Don't you think you'd feel justified if you permitted your chest to swell just a little?

Well, Russell Byron, 13 years, boasts of this distinction. Russell won the title of champion high jumper when he cleared the bar at five feet inches in the public school meet, held under the auspices of Marquette Academy, this city.

About 250 boys entered the meet and fully 25 competed in the high jump. In the qualifying trials Byron jumped five feet even. In the after-noon the little fellow—his only four feet ten inches in height—showed superb form and sailed over the bar at five feet five inches with ease, raising the record from five feet three inches, made by a New York boy.

Although he has never had the advantage of coaching, Russell has developed his own style in jumping, and while crude, it is effective. Now he has displayed such ability, he will be taken in hand by a trainer, who will endeavor to perfect his form.

In addition to his ability as a high jumper, Russell has some ability as a broad jumper, and in the picture is shown clearing 17 feet.

## EDWARD PAYSON WESTON NEARING THE FINISH

Veteran Pedestrian Walked 63 Miles and After Resting Seven Hours Started Again.

Francisco, Cal., July 9.—Edward Payson Weston arrived here shortly after midnight after a walk of 63 miles. After resting until 7 a.m. he left through the snow sheds toward the Sacramento Valley. Weston was feeling in the best of spirits, and announced that the expected to reach Sacramento Saturday afternoon and San Francisco the following Tuesday.

## ADVERTISER DEMONS BEAT MI LINDAS

Talliaferro Knocked the Filter Out of the Pill and Made the Vegas Look Like Wooden Indians.

The Advertiser Demons were the real things yesterday, and won a fine game of ball from the Mi Lindas of the Vega Gate Company, by a score of 10 to 7. Walden pitched a fine game for the winners, allowing but four hits and striking out ten men. Faura pitched well, striking out six, but his support wobbled at times, clustering errors with bats.

William Talliaferro, the Demons' first baseman, does not claim to be a relative of Ty Cobb, but should he do so no person would dispute the assertion. He made the prize wallop of the game, beating out a three sacker. Incidentally it may be stated that the Vegas promised faithfully to change the pitchers should they gain too great a lead. Well, it was not necessary. N. C. Quintana, the manager of the loser's team, was not allowed to play, but did some prize coaching from the bench.

Wright's catching and throwing was of the George Gibson kind. There were many other features, but they will be omitted. The score by innings:

Advertiser	A.B.	R.	H.	O.	A.	E.
Advertiser	10	4	10	1—10	8	3
Mi Lindas	10	2	11	1—7	4	5

Mr. Frank McGeary was a good umpire.						

**CHANCE APOLOGIZED.**  
Chicago, July 8.—Manager Chance, of the Cubs, has apologized to the national committee, according to B. B. Johnson, for the remarks he made concerning the supreme body's action in the bonus case. Chance wrote that he was entirely mistaken regarding the affair.

**COLTISH VETERAN IS SHOWING 'EM**  
Here he is, fellows, old "Pop" Anson, now travelling with his strong semi-professional team. Anson has been playing a grand game, getting them high, low and wide and stinging the ball as he did when he was the most famous batsman in baseball. For a veteran of his years "Anse" looks and acts like a colt and when the sun shines and the weather is "mushy," only the best of the first-sackers have anything on him.

**Brooklyn Will Protest Game with the Reds**  
Umpire Klem Changed Decision and Series of Runs Followed—Score Was 9 to 8.

Brooklyn, July 8.—Brooklyn outbatted Cincinnati today, but lost the game, 9 to 8, through Ely's wildness and Bergen's bad throwing, the heavy wind bothering him so that the visitors were able to steal five bases. The ninth inning was a lively one. With two men on bases and one out, Alperman singled and Berger threw the ball into the Cincinnati's bench, scoring Burch. Alperman walked to third, where he and Hummel were tagged out. Alperman claimed that the ball was blocked, and Klem agreed with him, allowing Hummel to score and Alperman to take third. After some delay he changed his mind and Alperman was sent back to second and Hummel to third. Griffith changed pitchers, Gasper replacing Campbell. Lennox was passed, and with the bases full and two runs to tie, Jordan made a scratch hit, scoring Hummel. Lennox and McElven, who were also sent in to bat, failed to make the necessary hit. Because of Umpire Klem's change of decision, Brooklyn has decided to protest the game. Score:

# Ideal Wins 2:21 Pace in Straight Heats at London Races

## NETTIE POWERS WINS 2:25 PACE IDEAL COPS IN STRAIGHT HEATS

Great Racing for Third  
Day of Big Meet at  
Queen's Park.

### STONEMAN WON RUNNING RACE

Potent Pulled Up Bleeding in  
the Second Heat—Bernie  
Creamer's Dash.

Four great races were on the card for the third day of the meet of the London Trotting and Pacing Association yesterday, and owned by Mr. C. Barrett, of Parkhill, coping the 2:24 pace, Ideal, by Arbuteskan, belonging to R. Baird, of Hamilton, the 2:21 pace, in straight heats; Bernie Creamer, a Kentucky horse, the mile and one-sixteenth dash, and Stoneman the three-quarter mile run, in two heats.

Stoneman was the favorite of the three-quarter-mile run, and took both heats.

**The 2:24 Pace.**

Nettie Powers finished fifth in the first heat of the first race on the programme, Colonel M., owned by Mr. J. Mero, of Tillsonburg, getting under the wire a nose ahead of Tomozo. The Parkhill mare had it cinched after that, however, and piloted by Barrett, finished the mile ahead of the field in the three following heats. Wa Wa broke in starting the second half of the second heat and spread the horses along the track. Walter K., owned by Kettle of Petrolia, was travelling fast behind and a mix-up was narrowly averted. Nettie Powers and Tomozo were in the lead and were not interfered with.

**Ideal's Good Showing.**

Ideal, piloted by Jack Rombough, gathered in the 2:21 pace in three straight heats, Wilhelmnia, the London mare, being the only contestant. Her hopples broke in the first heat, however, and she finished in sixth place. She got the place in the next two heats, Kneff Knoff putting up a great fight for the second money. Bernin Belle led for the money, and two sixths, won the show money, and the New York mare fourth.

**Four Starters in Dash.**

There were four starters in the mile and a sixteenth dash, but after exercising all kind of patience, the starter sprung the barrier and sent Teeta H. Von Bulow and Bernie Creamer away without Willow Plume. Bernie Creamer copped with McCarthy on Conley on Teeta H. going him a great deal for the money. Johnson, a boy who has great difficulty in getting away, finishing up quite a distance back. The time was 1:54.

**Stoneman's Three-quarter Mile Run.**

Harris' Stoneman, the favorite in the betting, took both heats in the three-quarter-mile run, Niantic getting the place money. Potent, who finished third in the first heat, looked like a noise in the second, but was pulled up bleeding at the nose as he turned into the stretch at the finish. He was well up at the gateway and Main would have given Conley a battle for the money.

Teeta H. was drawn after the first mile. Sixteen horses were entered, twelve were scratched and there was one added starter, Teeta H.

### OPPOSITION TO RULE RE AMERICAN HORSES

Adopted in England Recently—Handicapping Has Proven a Farce, It Is Said.

London, July 9.—The minutes of the meeting of the Jockey Club, held July 1, have just been published. At that meeting the Jockey Club adopted a rule that "No weight shall be allotted to any horse in a handicap until he has run three times in the United Kingdom." The minutes show that Lord Durham, in a long speech, proposing the new rule, cited numerous cases, mostly American, in its support.

He considered that the training and running of American horses this year had been absolutely above reproach. It was not the fault of the owners of the horses, or the jockeys, that the handicapper did not know how to weight the horses, but the fault of the Jockey Club, because it allowed handicappers to adjust weights for horses they had never seen.

**Handicapping a Farce.**

In his opinion, the American horses this year had been strongly and wonderfully handicapped. He then instanced numerous cases, in which, he said, handicappers had either taken the American form or had merely guessed, and he declared that he regarded this kind of handicapping a pure farce.

Lord Brassey, Mr. Rothschild and others opposed the rule. They thought the London wiggler, in the first heat she was sixth, owing to the fact that her hobbles broke. After that she was right up with the leader, and at all times had speed enough on tap to stand off any attempts to head her. She behaved well, and looked like some racehorse. Minor drove a good race, too.

One of the prettiest finishes of the day was that made by Kneff Knoff, the New York mare, in the third heat of the 2:21 pace. The one was met behind when the stretch was entered, but Burnham cut her loose to get fourth money, and the way she ate up the ground was a caution. McDonald gave Planet a hard drive, but the mare just nipped him at the wire, and got the change. Kneff Knoff is a nice-going mare, and showed a world of speed on several occasions during the race, but she was always out of the early pace, and could not get better than fourth money.

Fairview, a half-sister to Ideal, both being by Arbuteskan, paced a very consistent race, finishing fifth on three occasions. That was not bad.

In the slow pace, Nettie Powers was the real thing. After the first heat, she went to the front, and making her own pace, won handsomely, with something left at the end of each trip. She is a sweet-going, nice-mannered, honest little thing, and the win was popular. Charley Barrett looks to have a good one here.

Colonel M., the big gelding, owned by John Mero, of Tillsonburg, had the speed of his party, but his manners were not good, and after winning the first heat, he was way back the rest of the time. As mentioned before, he is a very big rangy horse, and had great difficulty in making the turns on the track. On the straightaway he had the speed, but he danced on the corners. From his size and speed, he should make some noise down the big line in a year or two. At the present time he is not ready, being rough-gaited and not well-balanced.

Art Bedford has another handsome little chap in Tomozo, and from appearances he will make some racehorse when finished properly. Yesterday he was a bang-up second in three heats in the 2:24 pace, and showed a turn of speed all the time. He is a very handsome horse, and was popular with the crowd. He will hear watching.

The track is improving all the time, and yesterday was fast. When The Bel starts this afternoon, it should be very fast, and it will not surprise horsemen if he goes the mile close to 2:04. The Canadian half-mile track record is 2:05½ made at Stratford this season by The Bel. He will beat that.

Esther E. swerved badly in the stretch in the second heat, and shut Lady Belmont out of any chance for bettering her position. Bosenberg was called into the stand and was

### GOSSIP OF THE RACES

Ideal, the Hamilton pacer, well-timed by Jack Rombough, had no trouble in the fast pace of yesterday, marching away with the event in straight heats. There was no contest in the event fast enough to stretch his neck. He's a nice-going chap, and will stand some beating.

One of the surprises of the 2:21 pace was the fine showing of Wilhelmnia, the London wiggler. In the first heat she was sixth, owing to the fact that her hobbles broke. After that she was right up with the leader, and at all times had speed enough on tap to stand off any attempts to head her. She behaved well, and looked like some racehorse. In every inning except the second and the seventh one or more Buffalo men got on, but the only one to get around was Brain, in the sixth, when he was passed, stole second, reached third on Flanagan's hit and counted on McAllister's out. ### UMBRELLAS INDISPENSABLE.

To the visitor in Paris a hat is rather necessary in winter and a backer is desirable, but an umbrella is indispensable. Parisians would be less surprised to see an umbrella person than to see a person going without an umbrella. Only idiots and feeble-minded ever do it. In Paris they do not have a commissioner of insanity to test the sanity of people. They wait until there is a sunny winter day, they have one every three or four weeks—and then they send the suspect out for a walk in the sun. If he goes without an umbrella they put him in an asylum. They know he is crazy. They don't think so, they know it.—Putnam's.

The crowd yesterday was very fair, but not up to expectations, and not as large as the merits of the meet deserved. No better racing has ever been furnished the citizens of London, and it should be appreciated. The attendance today should be very large.

There were visitors present yesterday from Toronto, Strathroy, St. Thomas, Chatham, Windsor, Sarnia, Wingham and many other places. The fact that there have been no reduced rates on the railroads has kept down the attendance somewhat.

There will be racing on Saturday. The association have made arrangements for five races, and they are all well-filled. A carload of horses will arrive in the city today, and there are more to follow.

There were the daily breakdowns yesterday. Von Bulow pulled up very lame in the runs, and will go back to the hack driving business.

Stoneman is a good racehorse, and the class of the party in the runners. He has won regularly.

If the racing is not a success it is not because the officials are not competent. D. Lowery, Sarnia; H. J. Conley, Toronto; and Dr. Routledge, Lambeth, are most competent judges, while Geo. H. Miles is a starter of reputation. Fred Hallam, as acting secretary, is a hard worker, and keeps everything running as smoothly as possible. There are few complaints, and he handles them well. Dr. Routledge, Aid. Donald Ferguson and Arthur H. Brener are doing their part, and the fine racing is due to their efforts. It's a great meet, and the boys should get credit for it.

### LACK OF CONDITION COST KETCHELL FORTUNE

Middleweight Was Taught a Thing or  
Two in Bout With Papke—  
Trained But Nine Days.

Stanley Ketchell has been taught a little lesson in the matter of condition that he won't forget in a hurry. Nine days were not enough, and more than one judge of what a fighter should be said this before the fight. True, the Assassin broke his right hand and bumped his left thumb out of place, but the fact that he began to tire as early as the third round, while Papke smiled, proved that he should have taken more time for the Kewance man.

Papke was never better, and he freely admitted it. Ketchell let at least two weeks slip away that might have been put in on the road. The consequence was that he was working like a stoker the last few days, leaving a lot of energy behind him by ring time. Papke worked slowly and deliberately. The day before the fight he took a rest, while Ketchell worked harder than ever. Having a championship and a remarkable following to hold is mighty important business for a topnotcher.

## SETS FAMINE DATE BUT IT IS NOT NEAR

A Waitressless World in Ten Thousand Years. Says French Prophet.

In ten thousand years all the food will give out.

What about it?

The whole human race will go hungry, no doubt.

(What about it?)

And nowhere, ah, nowhere at all 'neath the sun.

Can you buy a "Ham-and," for, alas, there'll be none!

And nary a waitress will warble "Draw one!"

(What about it?)

Philadelphia, July 8.—A few weeks ago a French scientist made the prophecy which is delicately indicated in the above lines. The race of man, he said, was destined to starve to death because its food supply had already been marked for destruction, and, although the famine date was set some hundreds of centuries in the future, a good many people were worried.

It is, however, an axiom of scholars that science will meet every human need as the need develops, and now, even 10,000 years ahead of time, a German savant has found the answer to his French brother's problem:

We can live on air.

That's a monstrous lot at all. There is no leisure class hadhage about it. The air food, it is true, costs, just now, a fortune to manufacture, and at its present rate the equivalent of a small sirloin with mushrooms would be listed on a cafe menu at about \$300,000; but everything comes high at first, and the progress of the future will work at least a small reduction.

Dr. Fischer Discoverer.

Dr. Emil Fischer is the name of the German scientist who is on the verge of the air food. He is the eminent professor of organic chemistry at Berlin, and if he himself isn't bothering about the food problem he has at least succeeded in building up a genuine food from inorganic substances.

Dr. Robert H. Bradbury, instructor in chemistry in the Southern Manual Training School, Broad and Jackson streets, is an ardent and scholarly disciple of Herr Fischer. He is a member of the German Chemical society, of which Professor Fischer used to be president, and he talked with enthusiasm yesterday of his distinguished colleague's labors.

"Of course," said he, "I do not at all believe in the theory that the food supply of the earth is in any danger. Modern scientific agriculture is the product of only the past 50 years, and is largely the work of one man, Justus von Liebig, but it has shown us the way to take us how to give back to the earth all that we take away from it. To be sure, we used to take and never give, and that way lay ruin, but in the case of other things we have learned how, with proper fertilization, land may be made inexhaustibly productive, and today a given piece of ground produces double what it produced 50 years ago.

Not a Blow at Meat Trust.

"On the other hand, the work of Professor Fischer has not been aimed at a blow at the meat trust. His processes are purely scientific, and he himself, with the immense resources of the rich University of Berlin to back him, has described his experiments as costly, laborious—'kostspielig und mühsam.' But the fact remains that he has produced—and is the first man in history to do so—artificial protein that answers all the tests both of chemistry and the animal digestion applicable to the natural protein or albumen.

"To put the matter more plainly," continued Dr. Bradbury, "Professor Fischer has produced artificially in his laboratory a product which closely resembles natural albumen—albumen and protein being virtually interchangeable terms. By this I mean such albumen as is found in the white of an egg, in the plasma of other vegetable and animal matter. By special methods of his own devising he has linked one group of atoms with another, until he has constructed by his own ingenuity molecules so large and complicated as greatly to resemble substances heretofore obtained only by the labor of nature.

"We chemists have, of course, a group of severe chemical tests for natural albumens, but to all of these the artificial albumen produced by Dr. Fischer responds perfectly. More than that, it deceives—if I may use that term—the sensitive apparatus of the animal, and is acted upon by the digestive juices of the pancreas just as the natural substances were found to give the brute nourishment proper to its nature as a brute would have done."

Dr. Fischer's process being strictly chemical and purely synthetic, Professor Bradbury found it somewhat difficult to translate into the vernacular.

SAYS WIFE FOOLED HIM

Husband Alleges That She Got a Divorce and Remarried While on a Visit.

Atlanta, July 8.—Alleging that his wife got a divorce from him and remarried while on a visit to Atlanta, though all the time she was writing him affectionate letters and asking for money, Jacob Bloomer, a wealthy resident of Louisville, Ky., today filed suit here for annulment of the divorce granted to his wife, who is now Mrs. Lucy Froelich. The second husband is a prominent Atlanta merchant.

Bloomer says that his wife came here in 1906 to visit relatives and that she protracted the visit for two years. During that time, he says, his wife was having a professed love for him and asked for money.

In one letter she said it was necessary to undergo an operation for which \$500 was needed. Bloomer says promises to return continued and culminated in her setting Jan. 22 of this year as his birthday, as the date of the home-

## SAID TO HAVE STOLEN AN ENTIRE CARGO

Rich B. C. Man Waives extradition Proceedings in Sensational Case.

Vancouver, B. C., July 8.—After an interesting argument this morning Judge McInnes decided that the offences charged against Francis Bailey (alias Edward Shannon Kirkconnell) were extraditable. Thereupon the accused waived further extradition proceedings and obtained the necessity of bringing witnesses from New York. Bailey was arrested in Whonnock, a week ago, by provincial police, accompanied by a New York detective. He escaped custody from the American police a year ago, but will cross the line tonight. Mr. W. S. Deacon, for the accused, argued that in the offence charged was not extraditable under the treaties of 1889 and 1901, and that these treaties were not in force in Canada. The information before the court contained charges of obtaining goods under false pretences, and obtaining a certain draft under false pretences. The latter was proceeded with. It was charged that the accused, who is president of an export shipping company in New York, represented to the Keystone Driller Company that he had received an order from Australia for certain machinery, and that the firm had funds in London. He prevailed on the Keystone people to give him the machinery and got a draft from them, which he sent to the Keystone Driller Company. The court found for the prosecution. The defence intimated that it would not fight further. The charge against Bailey in New York amounted to \$200,000. The charge on which he was committed amounted to \$15,000.

It is alleged that in the spring of 1903 Kirkconnell and his brother committed the most colossal theft in the history of the Atlantic coast, boldly sailing away with a whole shipload of goods obtained under false pretences from eastern merchants. The vessel sailed for Honduras, and arrived safe from pursuit with little misadventure. Then began a pursuit which finally ended in capture, though not till the ship containing the alleged stolen goods had landed them safely.

Both alleged thieves were apprehended in Honduras, and one of them, said to be the man captured here, escaped by risking his life at night by diving from the boat on which he was being brought to New York.

It is alleged that the search has never been given up. Several weeks ago Detective Wilmer got trace of Kirkconnell and finally located him in this city. He arrived quietly a few days ago and confirmed his suspicions and the arrest followed last night.

Kirkconnell is an owner of a splendid ranch at Whonnock now and is reputed to be very wealthy.

ASK FOR EMBARGO ON TANBARK EXPORT

Deputation Says There Is Not Enough for Canadians.

Toronto, July 8.—A deputation headed by Mr. W. D. Beaudre and Mr. F. G. Mabee, secretary of the Toronto board of trade, waited upon Hon. Frank Cochrane, minister of lands, forests and mines, today to ask that an embargo be again placed upon the export of tanbark.

"I told them I would consider their request," said Mr. Cochrane afterwards.

It is understood that the chief argument of the members of the deputation was that the easy export of bark to the United States had resulted in a great scarcity for Canadian manufacturers.

Shortly after Mr. Cochrane was appointed minister he made an investigation into the effect of the embargo that was then in force, as it had to do with the lumbermen who held provincial timber limits. He found that thousands of cords were piled up, unable to find a market, and that the prices realized at the American Soo were double what was paid in Canada under a tied up market, and as a result the embargo was removed.

GEORGE MEREDITH'S WILL

Novelist Left Estate Valued at Over \$150,000.

London, July 8.—Mr. George Meredith, the novelist, who died on May 18, aged 81 years, left estate valued for probate at £22,359, of which the net personalty has been sworn at £23,155. Probate has just been granted on his will. The executors are his son, Mr. William Maxse Meredith, Viscount Morley of Blackburn, and Mr. John Croft Deverell, to whom probate has been granted, and Mr. Justice Sullivan, who has renounced probate. Mr. Meredith left 25 legacies to each of the executors, £1,000 each to his son William Maxse Meredith and his daughter, Mrs. Marie Evelyn Sturgis, £250 to his nurse, Adelaide Nicholls, £45 to his housemaid, Frances Yeoman, and £20 to his cook, Annie May, if respectively still in his service.

Appended are the estates left by eminent contemporaries of Mr. Meredith:

Algernon Charles Swinburne . . . £24,282

Robert Browning . . . 18,775

Lord Tennyson . . . 57,206

William Morris . . . 55,000

Charles Dickens . . . 95,000

## THE WOE OF THE AGES 'IS DUE TO THE WOMAN'

Noted Chicago Scholar Attacks the Luxury-Loving Wives.

Chicago, July 7.—Women who are extravagant in their social desires, even those who are granted "innocent and high-minded," were blamed yesterday by Prof. Herbert L. Willett, of the University of Chicago, for immorality, oppression of the poor, reckless speculation, loose marital relations and religious unbelief, which he named as the most unfortunate evils of today.

Prof. Willett, who delivered his criticism in the course of a lecture in Haskell Hall also pictured early Biblical times as an exact replica of the present, stating that to read the Book of Amos, Hosea, or the other great prophets was like perusing a "document printed yesterday." He spoke of the "reprobation of the womanhood of Israel" by Amos as an example of the great need of a social readjustment in our times.

"The moral lives of a nation never rise higher than the women's standard," said Dr. Willett. "It was so in the days of Amos and it is true today. We read in that great prophet's work of men spending money they knew to have been obtained by bribery, for as early as then the commonest of evils was the accepting of bribes by public officials.

The women encouraged their husbands to spend money carelessly, dishonestly, and wanted more. They saw their neighbors were better off than they, and they determined to keep pace. They drove their husbands to secure gold, it did not matter how. They urged them quietly, of course, but none the less effectively. They insisted on living in luxury. Amos denounced this pursuit of luxury, this clamor for gold, this striving for summer and winter houses. He called the women of pleasure to crush the poor and oppress the needy.

"Today we find the same situation. We see even innocent and high-minded women instruments in driving the poor into greater distress and the rich to greater recklessness. They spend all the money they can get, though it be obtained out of integrity.

No Woman Admits It.

"No woman will admit that she is the one referred to. No woman would in the Old Testament. But female extravagance and social desires have driven men to all they may be accused of. It has been to satisfy their wives' desires that husbands do that for which we condemn the social system.

"Every evil of today had a parallel in the time of Amos. We see complaints being made against every class of industry. There is adulteration of food, cheating in weights and measures, unfair business combinations, and graft and extortions of all kinds."

Prof. Willett called Amos a prophet against injustice, and turning to the prophet Hosea, extolled him as an enemy of domestic and religious infidelity.

LOW FRUIT RATE ORDERED RESTORED

Summary Action Taken by the Railway Commission With Express Companies.

Ottawa, July 8.—The railway commission yesterday afternoon summarily ordered the express companies to reduce the rate on fruit shipped from Queenston district to Toronto, and revert to the old rate of 30 cents per hundred.

Chairman Mabee, in the statement of the case from Mr. W. H. Bunting, representing the fruit-growers, made some caustic comments on the high-handed action of the express companies in arbitrarily raising rates while the whole question of express rates was under advisement by the board. "This," he said, "a repetition of what we have seen before with these companies. They are trying to get away from their understanding with us. Despite an understanding some months ago with the board that the express rates would be changed pending a general consideration of the whole question, the Canadian Express Company, finding itself without competition at Queenston, the Dominion Express Company having withdrawn from the field there, notified the fruit-growers last spring that the rates would go up ten cents per hundred."

Mr. Bunting pointed out that the Canadian Express Company had merely carried fruit from Queenston to Toronto at 25 cents per hundred, and when in 1907 the Dominion Express Company entered the field the rate was raised.

Chairman Mabee declared that he would not stop to inquire whether the new rate was too high or too low. The companies must keep their understanding with the board in respect to maintaining the old rates pending the general revision now under way by the board. He accordingly ordered the cancellation of the new rate.

The application of the Dominion Millers' Association and the Manitoba Grain Growers' Association for a reduction in rates charged by the C. P. R. and C. N. R. for elevator service at Fort William and Port Arthur was dismissed. The C. P. R. some time ago increased the elevator charges by one-quarter of a cent per bushel, ostensibly to cover the cost of insuring the grain. The millers and grain-growers maintained that this increase was more than sufficient to cover the insurance, but the companies submitted figures to show that the existing rates were reasonable in view of all the charges of operation and interest on investment. The board agreed that the increase in the rates was justifiable.

POLTAVA DAY.

Names of the Winners in the Different  
Events at the Several Outings.

Yesterday was another record day at Springbank, a very large number of Sunday schools and societies taking advantage of the warm day to enjoy themselves in the shade of the trees and by the river.

Considerably over 200 children and older folk, journeyed to Springbank with the picnic of the St. John's Evangelist Mission. The picnic was held at the western end of the grounds, and a very delightful day was spent. The programme of sports was long and varied, and never for a moment lost its interest for the members and friends of the school. The winners in the different events were as follows:

Boys' senior infant class—George Jacobs, Ed Wilnot.  
Girls' senior infant class—Emma Ross.  
Junior infant class—Reta Wilnot, Kathleen Wilnot, and Long.

Junior boys—Newton Ashman, Irene Somerville.  
Boys, 8 to 10—Philip Walter, Otis Wright, 8 to 10—Minnie Jacobs, Grace Wilnot.

Boys, 10 to 12—Milligan, Callahan and Guest.  
Boys, over 12—Milligan, Erskine.

Girls, over 12—Lucy Howard, Myrtle Land.

Boys' 3-legged race—Wright and Taylor, Milligan and Callahan.

Girls' consolation race—H. Guest, L. Bryce, E. Robb.

Boys' long jump, 10 to 12 years—Milligan, Callahan.

Girls' skipping race—M. Land, B. George.

Boys' long jump, over 12—Erskine, Milligan.

Boys' hop, step and jump, over 12—Erskine, L. Callahan.

Boys' hop, step and jump, over 12—Erskine, L. Callahan.

Girls' walking race—M. Land, B. Robb.

Boys' donkey race—Milligan and Callahan, Wright and Hodgins.

Girls' potato race—E. Fisher and B. Robb.

Boys' consolation race, 10 to 12—Mercer Brett.

Girls' consolation race, 10 to 12—M. Crockett, M. Cobbett.

Boys' consolation race, over 12—Ed Pepper, H. James.

The races were arranged by the Rev. W. T. Hill and Mr. H. B. Ashby, and the starters were Messrs. Brown, Thiney, Guest and Dr. Vane.

At the conclusion of these sports an interesting game of baseball was played by teams captained by Messrs. B. E. Brown and Ashby respectively. The game resulted in a draw which was decided to play off at the picnic next year.

The supper was under the direction of Mrs. Fox and Mrs. Bowen, assisted by the Sunday school teachers.

**Crumlin Picnic.**  
A smaller but no less enthusiastic picnic was that which came from St. James' Sunday School, Crumlin. The members of this school drove as far as Pottersburg, where a Springbank car was provided to take them direct to the park.

An intensely exciting ball game was the feature of the afternoon, after which supper was served in the pavilion, the party returning home in the best of spirits in the evening.

**St. George's, Pottersburg.**  
A special car was chartered to take the hundred odd members of the St. George's Presbyterian Church, London Junction, to Springbank yesterday for their annual picnic. A very delightful time was spent, and nothing occurred to mar the perfect enjoyment of the occasion.

The following was the programme of sports that occupied the greater part of the afternoon.

Girls under 6 years—Myrtle Dear, Mary Rosslyn, Mackay.

Girls under 9 years—Thelma Oettinger, Adeline England, Lily Kingsborough.

Girls under 11 years—Winifred Whetter, Lily Dear, Lenora Dear, Gertrude Hirschleber, Vera Dear.

Boys under 9 years—Laurie Kingsborough, Alfred Enley, Lenora Dear, Roy Bennett, Ernest Percival.

Boys under 13 years—Frank Whetter, Claude Nelson, Willie England and Alfred Denley.

Boys' open race—Winnand Hirschleber, Thomas Patterson, Verne Hall. The judges were Rev. H. McKay and Messrs. McKinnon and George Cairncross. Rev. George Angus acted as starter.

The arrangements for the day, which resulted in such a delightful time for all those who took part were under the direction of Messrs. Geo. Cairncross and Kingsborough.

**Colborne Street Methodist.**  
A combined picnic of the members of the Ladies' Aid and Women's Missionary Society of the Colborne Street Methodist Church and their friends held a very enjoyable picnic at Springbank. Yesterday was the date of the regular monthly meeting of the latter society, and before leaving the church the ladies exercised were held, the remainder of the meeting, consisting of a question-drawer led by Mrs. Harrison was concluded after the party had reached Springbank.

At the conclusion of the meeting the remainder of the afternoon was spent in a social way. The following were the winners in the different sports of the afternoon:

Married ladies' race—Mrs. A. Fletcher, Mrs. W. E. Watson.

Young ladies' race—Miss Dot Jones, Miss Florence Wootton.

Men's race—W. E. Watson, Rev. F. E. Malott.

A race between the president of the Women's Missionary Society, Mrs. T. L. Newton, and the president of the Ladies' Aid Society, Mrs. R. T. Dickey,

## resulted in favor of the former. There was also a very interesting baseball game between two teams captained by W. E. Watson and Wm. Defoe, respectively, in which the former team won by a score of 15 to 1.

The picnic was in charge of the officers of the two societies, as follows: Messdames R. T. Dickey, H. Kerr, W. J. Knott, T. L. Newton, A. G. Manley and George Andrews.

## HUNDREDS OF LONDONERS PICNICKED AT PORT

Church Outings Took a Tremendous Crowd to the Lakeside on Thursday.

Yesterday was another big day for picnickers at Port Stanley, during the morning hundreds of people went down on the Pere Marquette and Southwestern traction lines, and spent the day by the lakeside. The weather was all that could be desired, and the picnickers all had an ideal outing, and returned home unanimous that they had enjoyed the most enjoyable they had ever spent.

The four largest picnics held were those of Dundas Centre, Wellington Street Methodist, Christ Church, and St. Paul's Cathedral Sunday schools. Dundas Centre and the Wellington Street Methodist combined and went down to Port together on the Pere Marquette. Altogether there were between eight and nine hundred people on the train, and in the afternoon many friends and relatives went down.

**A Big Picnic.**  
"It was without doubt the largest and most successful picnic we ever held," said Rev. H. A. Graham to The Advertiser. "The weather couldn't be better, and the arrangements were perfect. The railway gave us a splendid service, and everyone had the best kind of a time."

The sports were held on the hill, the winners being as follows:

Boys, 9 to 11—J. Cox, Walter Broadway, H. Corbett, Frank Simpson.

Girls, 9 to 11—H. Woollett, Dorothy Park, Ora Sullivan, E. Sweeney.

Boys, 11 to 13—F. Delaney, G. Southcott, H. McCormick, W. Loney.

Girls, 11 to 13—Irene Gramlich, Irene Spry, Inez Boyce, Pearl Williams.

Girls, 15 to 16—Queenie Bendall, Inez Boyce, Irene Spry, Pearl Williams.

Young men's race—Major, Roy Craig, H. McCormick, E. Bendle, Roy, 13 to 16—H. McCormick, Geo. Sweeney, J. Jones, Melville Mason.

Young men's race—Miss McCormick, Miss Gillett, Miss Winder and Miss Humphries.

Wheelbarrow race—Miss Doty and W. Jones, Miss Long and Fred Loney, Miss Winder and G. Winder.

Daisy race—H. McCormick and J. D. Dredgen, Miss Winder and G. Winder.

Boys' race—H. McCormick and G. Winder, H. Graves and B. Blackwell, Irwin Jones and Thorpe.

Ladies' potato race—Miss E. Long, Miss Prebble, Daisy race—H. McCormick and J. D. Dredgen, Miss Winder and G. Winder.

The sports were in charge of Superintendent Jeffery and Assistant Superintendent Jackson.

**A Baseball Game.**  
At the conclusion of the sports a hotly contested game of baseball was played on the beach diamond between picked teams from both churches. The men from Wellington Street, who got a lead in the third inning and never lost it again, finally winning out by a score of 12 to 6.

The line-up was as follows:

Wellington Street—Major, s. s.; Roberts, 3b; Merritt, c. f.; Parsons, p; Pinch, 2b; Boyce, c. f.; Bailey, l. f.; Ackison, 1b; Brady, r. f.

Dundas Centre—R. Wilson, c. f.; Fred Johnstone, r. f.; C. Westman, 2b; R. Hooper, s. s.; C. Richardson, 3b; E. Ziegler, l. f.; C. Wortman, 1b; J. P. Morris, p. H. Ashplant, c.

The score—0 1 2 2 3 3—12 10 4. Wellingtons 12, Dundas 4.

0 1 2 0 0 4—6 6 7. Dundas 6, Wellingtons 7.

Butterfield, Parsons and Boyce; Morris and Ashplant, Umpire, Harry Carson.

**St. Paul's Outing.**  
It took six of the large Southwestern traction cars to accommodate the crowd of picnickers from St. Paul's who left yesterday morning for Port at 9:30 and 10 o'clock, and immediately upon their arrival lunch was served in the new casino.

The programme of sports was as follows:

Girls' race, under 9—V. Lee, 2 V. Deacon, 3 B. Mills.

Boys' race, under 9—C. Stark, 2 C. Wright, 3 S. Kingsmill.

Girls, under 12—B. Gosling, 2 A. Leigh, 3 M. Jones.

Boys, under 12—E. Logan, 2 D. Hardy, 3 W. Lenham.

Girls, over 12—O. Leigh, 2 G. Armistage, 3 E. Holland.

Boys, over 12—R. Burridge, 2 H. Logan, 3 E. Logan.

Girls' companion race—L. Hill and E. Hinchingham, 2 O. Leigh and G. Armistage.

Boys' race—1 Logan and Burridge, 2 Nelles and Burdick; 3 Sanborn and Edmonds.

Girls' consolation race—1 Miss Kingsmill, 2 Miss Sharpe, 3 Miss Paxton.

Boys' consolation race—1 C. Hewett, 2 F. Merner, 3 W. Barnard.

Teachers' and officers' race—1 Chester Butler, 2 Mackay Millman, 3 Fred Graham.

Girls' candle race—1 K. Bray, 2 V. Leigh, 3 O. Leigh.

Boys' three-legged race—1, Burridge and Logan, 2 Sanborn and Nelles, 3 K. Bray.

Girls' race—1 L. Hill, 2 E. Birmingham, 3 K. Bray.

Jockey race—1 Burridge and Logan; 2 Logan and Nelles.

Wheelbarrow race—1 Burridge and Nelles, 2 Burridge and Logan.

**Christ Church.**  
Five special carloads of happy youngsters and their parents from Christ Church left the train on Monday morning and arrived at Port in excellent time. A very enjoyable picnic was held, and the afternoon a great many other members of the church came down, and the entire party spent the afternoon enjoying the various amusements and having a good time as they pleased. In the evening supper was served, and afterwards the Sunday school pupils went down to their special cars and arrived home in good time.

**EXPRESS WRECKED.**  
Edmonton, Alta., July 8.—The C. and E. express, while running 100 miles an hour, was dived just north of Innisfail yesterday, and two days later, the colonist, baggage and express, and mail cars were derailed. Four persons were injured, their names being: H. G. Gooding, express messenger; G. Buell, mail clerk; right arm broken and ankle crushed; H. E. Wilson, mail clerk; head cut; Frank Bovey, passenger; arm and thigh injured. Reports of the accident were withheld from the public for some time.

## DRAYMEN WILL NOT MOVE WITHOUT FIGHT

Engage a Local Law Firm to  
Look After Their Interests  
in Matter.

The draymen are going to fight any attempt to move the dray stand on York street.  
At the meeting of the board of works last evening, Purdom & Purdom, barristers on their behalf, wrote, asking that any discussion of the subject be postponed until they could be present and lay their side of the question before the members of the committee. It would be impossible for them to be at hand for this meeting, but they would come at a subsequent session if that were agreeable.

"We had better put this matter over until next week, and notify all parties interested to appear before us," said Ald. Saunders.

This was agreed to.

**A Difficult Matter.**  
"It is going to be a hard question to settle," said Mayor Stevely. "It is all right to say move these men, but before we do it is the purpose of some place to put them. However, we had better notify all parties to be present at the next meeting."

The draymen are organized and they are going to fight any attempt to move them.

The question was fought out once before and I do not think we should have it opened again," said one of them to The Advertiser.

An assessment has been levied on all of the draymen to fight the attempt to oust them, and the committee of the committee to make systematic levies until such a time as the matter is settled.

They will also take a hand in the political aspect of the question, and have organized a committee to watch the council proceedings. They will then stage a fight with the council who opposes them, and have already chartered rigs for polling day.

It looks like an interesting struggle.

## HILL ST. METHODISTS AT PORT STANLEY

Very Pleasant Picnic Was Held  
by South Side Congregation.

One of the happiest crowds of young people has been seen boarding a special traction car on Monday night, in order to enjoy a pleasant evening at the lakeside. Precisely at 8 o'clock the ladies, and wended on the Pere Marquette, where the pleasure boat Glen Erie, which had been previously chartered for the occasion, was waiting for them.

The regular League service were conducted while out on the lake, the following programme being carried out, Miss Long presiding: Hymn; prayer; Mr. Morrow, Mr. Parkins, Mr. S. Piercy; hymn; "Jesus, Saviour, Pilot Me"; address, Rev. O. McRoberts (the quartet sang "Lead Me Gently Home," Misses Selley and Mrs. F. Parker and H. Lewis. On their return to the beach they were the guests of "Louise," the pretty summer home of Mr. and Mrs. H. Lewis. All too soon the warning whistle sounded, and all had to hurry to again take the car for home, each and every one having thoroughly enjoyed themselves, and looking forward to another such outing.

**DRESDEN LADY SUICIDES**  
Throws Herself Into River While Mentally Unbalanced.

Chatham, July 8.—While suffering from acute mental trouble, a young woman, the wife of the senior member of the prominent Dresden firm of Wright & Hughes, jumped into the Sydenham River at Dresden this morning at 7 o'clock and twenty minutes later her body was recovered by Clifford Morrison and Milton Burges. She left her house clad only in a nightgown, and Captain Ribble saw her jump from a distance. She was 40 years old, and married only a year.

**HENRY BUSH DEAD**  
Was Formerly a Well-Known Resident of London Township.

Henry Bush, formerly of London Township, died in the Home for Incurables last night, after an illness extending over some time. Mr. Bush was 60 years old, and for some time had resided in the city. His wife, Mrs. Emily Bush, he is survived by three sons and three daughters, Cyrus and Charles, of Seattle; Joseph, of Calgary; Mrs. Jane Porter, of London; Mrs. Archibald Park, of this city. The funeral will be held tomorrow afternoon at Mount Pleasant Cemetery, the services to be conducted by Rev. H. A. Graham.

**MANY MORE GIRLS  
NOW USE BATHS**  
Attendance Has Increased Fifty Per Cent Since Last Day.

There was an increase of over 50 per cent in the attendance of girls at the swimming bath this morning, due to the part of the children, the increased confidence on the part of the parents in the care exercised, and the very warm weather. Prof. Butterworth has been enabled to offer a number of prizes for competition among the children to take place some time in August. The prizes have been offered by sympathizers with the professor in his kindly efforts on behalf of the children.

The Playgrounds Association have adopted a new method of admission, and instead have admitted all children under fifteen years of age, merely taking their names and addresses. This method, while imposing more labor, has a restraining influence upon those who might be disposed to undue hilarity while in the bath.

Sheriff Cameron has received a letter today from Brockville, asking for particulars as to the way the swimming bath is managed, and expressing a desire to establish swimming facilities there. The writer referred to the fact that the London playgrounds and swimming ponds had been favorably commented upon at the meeting of the International Council of Women recently sitting in London, and expressed the conviction that from what had been ascertained, no better place could be referred to than London as to the best methods to adopt in forming and administering a swimming pond.

The young and old all ride the roller coaster at Port Stanley.

## KEEP EYE PEELED FOR MAPLE SCALE

Mr. W. E. Saunders Says Pest Is at Work in Victoria Park.

Mr. W. E. Saunders was yesterday shown a limb of a tree in Victoria Park which was covered with a number of small white fluffy objects, and at once identified it as the maple scale. The scale was very common here three years ago, and is one of the most dreaded pests that attack the trees. One good feature about it, according to Mr. Saunders, is that it usually dies out by itself at least in this district.

"The scale works by simply boring into the bark and sucking the juice out of the tree," he said, "and if a few thousand of them get on a tree it soon dies of literal starvation."

Mr. Saunders states that the tussock moth is prevalent in London, but a fact that has puzzled entomologists for some time is that although it ravages the trees in Hamilton and Toronto it does not seriously affect them here.

"Apparently conditions are in some way or other unfavorable in London," he said, "because though the tussock moth is here in considerable numbers for some time no great damage is reported."

## HORTON STREET PEOPLE RATHER HARD TO FOLLOW

Apply for Curb and Gutter and Board of Works Smell a Rat.

The Horton street residents almost put a crimp in double-tracking that street last evening, when a petition for a cement curb and gutter was presented to the board of works.

The petition was sufficiently signed, and a motion that it take the usual course was made, when it dawned upon the members of the board that this might be important in the future.

If the curb and gutter were laid along the present lines there could be no double-tracking in the future.

"This is very important," said Mayor Stevely. "If the petition goes through the board of works, it might affect negotiations with the London street railway. We had better let this matter rest for a week or two, at least Mr. Graydon might give us a report as to what effect it would have."

It looks like an attempt to stop double-tracking, said Ald. Saunders. "We have others to consider besides the residents of that street, and we should find out what it means."

The regular meeting of the committee agreed and a coup was narrowly averted.

## GOVERNMENT WILL FIGHT LITIGATION

Municipalities Are To Be Relieved of Responsibility Regarding Septic Tanks.

The Provincial Government will take up the litigation entered by the municipalities against the Dominion against thirty municipalities in the province, and will settle it. Word to that effect was received by Mayor St. David at Dresden this morning.

The cities will have no further responsibility in the matter, and the incident is closed so far as they are individually concerned. All too soon the warning whistle sounded, and all had to hurry to again take the car for home, each and every one having thoroughly enjoyed themselves, and looking forward to another such outing.

**THE LATE E. SIMPSON, B. A.**  
Demise of Highly-Esteemed Resident of Midland, Ont.

Ernestine Simpson, B. A., principal of Midland (Ont.) High School, who passed away on Sunday after suffering for a month with pleurisy and pneumonia, was only 34 years of age. He was born in the neighborhood of Lucan, and was proud of the fact that he was brought up on a farm. He passed with honors through Lucan high school, and for three years taught in a public school. He spent a year in Great Britain, and became foreman of a large electrical plant. But he took to the teaching profession, and so took to the University of Toronto, graduating in 1902 with first-class honors in mathematics and physics. Afterward he taught for two years in Dutton high school, winning high praise from Inspector Seath. Five years ago, when the Midland high school opened, he was its first principal, and his success was due to Mr. Simpson's untiring efforts.

The funeral service, held at deceased's late residence, was conducted by Rev. Mr. Elliott, of the Midland Presbyterian Church, of which Mr. Simpson was a much esteemed member. The pallbearers were Messrs. A. C. Adams, T. Sharpe, W. A. Glass, T. J. Campbell, T. R. Ferguson and Principal Keefe, of Penetanguishene. Interment took place at Lucan. Three children, the youngest two months old, who have the sincere sympathy of the community in their great bereavement.

**SUICIDE IN OAKLAND.**  
Brantford, July 8.—Word reached this city this afternoon of the suicide of a young man, who had been in the hands of the police, who ended her life by taking Paris green while demented. Her husband survives.

**KITCHENER TO ACCEPT.**  
London, July 8.—The Express says that the Canadian and Australian invitations to Lord Kitchener asking him to inspect and report on their defensive forces will be accepted. It has been suggested that Lord Kitchener be appointed inspector in chief of the overseas forces of the crown.

## HYATT AVENUE SUNDAY SCHOOL AT SPRINGBANK

A Splendid Programme Carried Out by Teachers and Scholars.

The scholars and teachers of the Hyatt Avenue Methodist Sunday school, to the number of about two hundred, enjoyed a fine picnic at Springbank yesterday afternoon. It was one of the most successful picnics in the school's history, and had the largest attendance ever recorded.

There was a long series of races and similar athletic events, and handsome cash prizes were given to the winners. But as no record was kept it is impossible to give the names of the fortunate ones.

The arrangements of the picnic were under the management of the Sunday school superintendent, Mr. J. A. Andrews, and the officers and teachers of the school, while the assistance of the pastor, Rev. W. J. Baird, did much toward making the picnic a success.

After a very enjoyable supper the picnic party returned home in the cool of the evening after a very happy and successful day.

## ST. DAVID'S CHURCH ELECTED ITS OFFICERS

First Vestry Meeting Was Held at Pine Lawn Thursday Evening.

The first vestry meeting of the Church of St. David was held last evening in the church on Pine Lawn, at the corner of Hyatt Avenue and Hamilton road, and the officers elected, Rev. T. B. Clarke, the pastor of All Saints' Church, and who is at present in charge of the services there, presided, and the following officers were elected: Rector's warden, Alfred Goss; people's warden, J. G. Jorgensen; vestry clerk Adam Palmer; vestrymen, Messrs. Charles Davies, Richard Cooper, A. Brice-Wilson, A. Jolly and S. Smith.

The church services were discussed at some length, and it was decided to secure a pastor as soon as possible. In the meantime, Mr. Clarke will continue to hold a service each Sunday afternoon.

## CHELSEA GREEN MAN LOST RIGHT EYE

Very Serious Accident to Mr. Samuel W. Haynes at Rolling Mills.

Mr. Samuel W. Haynes, of Chelsea Green, met with an accident last night, which necessitated the removal of his right eye at Victoria Hospital, and which may result very seriously. Mr. Haynes is employed at the London rolling mills, and was cutting some steel with a chisel, when a piece of the chisel flew off. The jagged piece sunk deep into his eye, completely destroying the sight. The wound bled profusely, and for a time it was feared that Mr. Haynes would bleed to death. He was hurried to Victoria Hospital, and Dr. George Clarke, who was called, successfully removed the eye, as there was no hope whatever of saving the sight. Mr. Haynes suffered the most intense pain, and his other eye, it is feared may be affected.

## TRANSFER OF ONE TITLE IS REQUIRED

Before City Can Proceed With the Opening Up of Dufferin Avenue East.

The opening of Dufferin Avenue east was again before the committee last night, but the matter is still as indefinite as ever.

A letter was read from City Solicitor Meredith in which he stated that it would be impossible to close this deal up until the executors of the estate of the late Robert Smith made over the title to the land granted by him.

Up to the present time the transfer had not been made, and Mr. Meredith declared his hands were tied until that were done.

"This is a funny situation," said Ald. Saunders. "On one side the residents of the street say that everything is in the hands of Mr. Meredith, and he says that he lacks one deed necessary to close the matter. Mr. W. C. Fitzgerald informed me that everything had been placed in Mr. Meredith's hands, but there must be something lacking. I suppose some legal steps must be taken, and there is a difference of opinion as to whom should take them."

## TAXES OF LONDON NOW POURING IN

Between \$4,000 and \$5,000 a Day Are Reaching the City Collectors.

The taxes are coming in at a rapid rate. Tax Collector Hayes and his assistants are handling from \$4,000 to \$5,000 a day now.

"The money is coming in remarkably well," said Major Hayes. "We will not have finished sending out the first notices until Saturday, but we have now from \$4,000 to \$5,000 a day coming in. People seem to have the money, and we are kept so busy handling it that we have scarcely time to get the notices out."

## MOONLIGHT EXCURSION FROM PORT STANLEY

Genuine Enjoyment Provided for Lakeside Sojourners—Two Silly Youngsters.

[Special to The Advertiser.]  
Port Stanley, July 8.—The moonlight excursion on the steamer Lakeside under the auspices of the Twenty-fifth Regiment Bugle Band of St. Thomas, was very largely attended. The band discoursed some stirring music.

The Lakeside left for Cleveland this morning, with many passengers, and a large quantity of freight.

Mr. J. Hender, of Hamilton, has located for the summer on Willow Beach.

Mr. Ernest Welsh, of London, was a guest of A. C. Macpherson on Hill Crest last evening.

Mrs. W. Leonard has returned to Hill Crest after a visit in Buffalo.

Mrs. Harold Morley entertained a number of guests last evening in honor of her friends, Mrs. Charles Smith, of Brandon, Man.

Mr. and Mrs. A. C. Macpherson, of

Hill Crest, are spending a few days in St. Thomas.

Dr. Locke, of Grand Rapids, Mich., has returned to his home after visiting his sister, Mrs. W. Leonard on Hill Crest.

Mr. A. O. Hunt and son, of Toronto, are the guests of Mr. Fred Sutherland at Sunbeam Cottage, Willow Beach.

The St. Thomas bowlers, who are staying at the lakeside, would like to meet the London bowlers to arrange for games here.

The other evening a boy and a girl, who are old enough to know better, were amusing themselves by throwing stones from the breakwater into the harbor. After they had hurled all the stones they then began to play with a handcar belonging to the traction company. This last offense is strictly prohibited, and as for the former—well, the Government did not go to the expense of dredging the channel for it up again. These children were from 16 to 18 years old, and should be more thoughtful.

Miss Edna Goodhue, of St. Thomas, has entered the employ of Finlay & Glover.

Jack Gibson, who has been in the Northwest for nine years, is renewing old acquaintances in the village.

Mrs. Wood and family, of London, are summering at Locust Nook.

The recent arrivals from London at Sunbeam Cottage, Willow Beach, are: The Misses Matthews, Forsythe, Johnston, Baker, Loringer, Stinson, Brighton, Moore and Martin.

Mrs. D. C. Matheson and Miss Cora Matheson, of Detroit, are the guests of Mrs. and Miss Tanton, Shoemakers Ridge, Orchard Beach.

Miss Dawson, of Montreal, is visiting Mrs. P. W. Matthews at Eastport Villa, Orchard Beach.

Jack Tanton has won the croquet championship for Orchard Beach.

Mrs. Wheaton and children, of London, are spending a few days with Mr. and Mrs. Seandrett, Orchard Beach.

Mrs. H. E. Nelles, of Los Angeles, Cal., and Miss Ross, of Chicago, are the guests of Mr. and Mrs. Tanton, Sunbeam Ridge, Orchard Beach.

Mrs. G. W. Walsh and Miss Gertrude Walsh, of London, are visiting Mrs. J. J. Cox on Orchard Beach.

## U. S. SENATE PASSES THE TARIFF MEASURES

Ten Republicans and All the Democrats Vote Against It.

Washington, July 8.—The tariff revision bill, which was passed by the House on April 9 and has been before the Senate continuously for a period of twelve weeks and three days, was passed by the Senate at 11:15 o'clock tonight.

The final vote was 45 to 34. All the Democrats, with the exception of Senator McNary, of Louisiana, voted against the bill. Senator McNary voted with the majority of the Republicans. These ten Republicans voted against the measure: Beveridge, of Indiana; Bristow, of Kansas; Brown and Burkett, of Nebraska; Clapp, of Minn-
