"AS LIBRARIAN AT WINDSOR CASTLE I could not undertake the task without first asking and obtaining the permission of Her Majesty. . . . Many little fables have from time to time grown up respecting the early life of Queen Victoria. Trees and animals, landscapes and scenes from human life, combine to form a most beautiful and varied series of artistic drawings; the text which they illustrate has been newly written for the occasion; and together they present a Picture of Switzerland, such as no work has hitherto equalled, and certainly none surpasses.

GERUSALEMME LIBERATA di TORQUATO TASSO, Nuova edizione, Arricchita di Figure in Rame, ed' Annotazioni, Colla Vita dell Autore, *with fine portraits, frontispieces, and the very interesting series of splendid old engravings, vignettes, head and tail pieces, etc.*, by Castelli and others, original impressions, A VERY FINE EDITION, in 2 vols, royal 8vo, *old Spanish calf gilt*, 6.50, In Venezia, 1760. 535

Boccaccio, il Decamerone, nuovamente corretto et con diligentia stampato, small 4to, *old calf, neat*, RARE, 6.75, Firenze, Giunta, 1527 (Venezia, 1729.) 536

This is a copy of the so-called forgery or facsimile, executed at Venice, for Consul Smith, under the care of Stefano Orlandini and Salvatore Ferrari, in 1729, OF WHICH 300 COPIES ONLY WERE PRINTED. The excessive rarity of the original Giunta edition by many bibliographers considered the best, is too well known to amateurs to require any comment. It is the best of the early editions, and the copy followed by nearly all published since that time. *The above so-called Forgery is very rare and is so like the original that an unpractised eye would be deceived by it.*

KNOX (G. Wolfgang) et J. E. Walch, DE NATUURLYKE Historie der VERSTEENINGEN, of Uitvoertge Afbeelding en Beschryving Van de VERSTEENDE ZAAKEN, *nearly 300 splendidly colored plates, many folding, containing many thousand representations of fossil remains of Plants, Mollusca, Crustacea, etc.*, 3 stout folio vols, *calf gilt and gilt edges*, IN FINE STATE, and will be appreciated in the natural history department of a good public library, 12.50, Amsterdam, MDCCLXXIII. 537

A very desirable copy of the above valuable work, which is, without exception, one of the most beautifully illustrated of its class ever published in any country. The plates contain thousands of figures, and the colouring of many of them is very fine.

ABELAIS, SES ŒUVRES Text collationne

sur les editions Originales avec Vie de l'Auteur des Notes et un Glossaire, *splendidly printed on fine paper, with several hundred of what many believe to be the LARGEST, MOST SPIRITED, AND REMARKABLE WOOD ENGRAVINGS EVER PRODUCED (many of them the full size of the page), by GUSTAVE DORE, 2 vols, royal folio, original cloth gilt, in fine state, 25.50, Paris, 1873.* 613

Cardinal Duprat was so enamored of Rabelais' works that he was never without a copy of them. Wherever he went, his Rabelais went with him. Cardinal Jean du Bellay was possessed of the same feeling; he admired Rabelais so much, that he refused a learned individual of the day a seat at his table because he had not read *the Book*, for so Rabelais' singular narrative was called. Boileau styled him, good sense under a mask. La Bruyère spoke of him as follows: "Rabelais is incomprehensible. His book is an inexplicable enigma; a chimera. It is the face of a beautiful woman, in other respects terribly deformed. It is a monstrous complication of moral beauty and vile corruption; what is bad of it is of the worst description, the height of vulgarity; what is good, is most exquisitely so, the perfection of delicacy."

Sterne is well known to have been a great admirer of Rabelais, and not a little of the spirit of the *Curé de Meudon*, is defused through his writings. The quaintness and abruptness of his style may be traced also to Rabelais.

Rabelais is more celebrated than read. In every page of his satire may be traced the character of the man, whose words on his death bed were—*Je n'en vais chercher un grand péché.*

Swift, who has been called by some the English Rabelais, perhaps caught the idea of his Tale of a Tub, and of Gulliver, from a knowledge of the *Curé de Meudon's* productions.

"Whoever desires to understand the ideas and opinions of those times (the Civil Wars of France), fully, must read Rabelais. In the picture of licentiousness, full of repulsive nudities, which he unfolds, lies concealed a profound seriousness. Rabelais is one of the few masters of satire who has depicted the failings of a whole epoch in great and truthful outlines. He cites the errors of all classes before the tribunal of sound human understanding;—the extravagance of the chiefs of the land, permitted by over-indulgent kings; the disorders of the capital, which the King, to the astonishment of strangers, did not better suppress by the administration of justice; the abuses of justice itself—its forms confusing and entangling the cause—its multiplied documents in the process—and at last its decisions arrived at as if by the chances of the dice."—*Athenæum*.
