

# FRENCH TO USE LIQUID FIRE IN REPRISAL ON GERMANS

### Superiority of This Terrible Arm Over the Bayonet Has Been Exemplified at Verdun.

A despatch from Paris says: Liquid fire has been the means by which the Germans gained the portions of trenches mentioned in recent official communications, says the Journal Des Debats, and the Military Committee of the Chamber of Deputies is endeavoring into methods for the protection of the French troops against such fire attacks and the use of a similar weapon in reprisal.

"One can understand," says the newspaper, "the superiority of this terrible arm over the bayonet. Even though it may expose the man who carries it to the danger of death in case a fragment of shell should strike it, on the other hand, it gives to an attack the power and cruelty to which our communications are bearing witness."

The newspaper adds that France has every means at her disposal for paying the Germans in their own coin and therefore should employ them.

# BRITISH ENEMY DUGOUTS

### Successful Raids Against German Trenches in La Bassée Region.

A despatch from London says: Sir John Haig reports that the British carried out two successful raids against the German trenches about Gommecourt and the Bethune-La Bassée roads. Three dugouts filled with the enemy were bombed and blown in. The Germans sprang a mine to the north of Arras and two mines north-east of Neuve Chapelle, causing slight damage to the British trenches. A grenade attack to the north of Arras was repulsed.

The German forces which gained a foothold on the small hill of Haucourt a little over half a mile south-west of Malancourt, on the west side of the Meuse on Wednesday, have not yet attempted to increase their gains, and the French still hold part of the hill.

There was no infantry action on the Verdun front Wednesday night or Thursday. Wednesday night the Germans decreased the intensity of their bombardment to the west of the river, which was a special violence as a support to their infantry attack, but continued without lessening of intensity an bombardment on the eastern bank of the river. In the Woëvre the cannonade was intermittent.

On Thursday heavy artillery fire was resumed on the western bank of the Meuse, in the Malancourt region, and on the front between Bethincourt-Le Mortier-Homme-Cumieres, while to the east of the river and in the Woëvre the firing increased in violence.

# FARMERS WILL CROP REDUCED ACREAGE

### Wages Are High and They Expect Trouble in Securing Help.

A despatch from Winnipeg says: Many of the farmers of Manitoba, who cannot secure sufficient help, have decided to put in a smaller acreage. Wages will be beyond the reach of a large percentage of the farmers. The help to be expected from the soldiers will not be as extensive as anticipated. Quite a number of men have been drifting into the city from woods, camp and other places, but the farmers, not knowing when the seeding will start, have been unwilling to secure these men at once and the result is that they are being snapped up by contractors.

# RUSSIA CONSERVING HER MEAT SUPPLIES

A despatch from London says: The Russian Minister of Agriculture will shortly introduce a bill in the Duma prohibiting throughout Russia the killing of live stock on Tuesdays and Thursdays and fixing the number of cattle that may be slaughtered on other days, says a Reuter despatch from Petrograd. The bill will provide for prohibition upon the sale of all kinds of meat in markets, restaurants and hotels on Wednesdays and Fridays and for the closing of butcher shops on those days.

# ITALIAN COMMANDER ARRIVES IN LONDON

### Receives Great Reception from Public of British Capital.

A despatch from London says: General Count Cadorna, chief of the Italian general staff, who left Italy to attend the military and political conference of the Entente nations at Paris arrived in London on Wednesday from the French capital. Gen. Cadorna was met at the station by Field Marshal Earl Kitchener, the British War Secretary. An immense throng of people, English and Italian, greeted Gen. Cadorna enthusiastically.

# SCORES OF THOUSANT WOMEN EMPLOYED

A despatch from London says: David Lloyd George, Minister of Munitions, speaking in the House of Commons on Wednesday, said that scores of thousands of women are now at work in the munition plants. Their participation in this labor, he said, had resulted in an enormous increase in the output of the plants replacing the men who were in the army.

# ENGINEER KILLED IN TRAIN COLLISION

### Toronto Flyer From Chicago Dashed Into Freight at Port Credit.

A despatch from Toronto says: The Toronto Flyer from Chicago on Thursday night crashed into a through freight train, the engine of the passenger train dashed into the caboose of the freight train, cutting through the caboose. The impact of the collision was so great that the locomotive was thrown over on its side amidst the wreckage of the splintered car. The wreck claimed two victims. They are: Harvey Overend, engineer of the Chicago Flyer, instantly killed; James Anderson, fireman of the Flyer, critically injured. The wreck occurred on the main line of the Grand Trunk Railway. At the time of the wreck the Flyer was running at a high rate of speed. As this train is one of the through connections between Chicago and Toronto, the line is supposed to be clear for its passage.

# ROUMANIAN GRAIN BOUGHT BY GERMANY.

A despatch from Berlin says: It is semi-officially announced that contracts have been executed between the official grain-buying associations of Germany and Austro-Hungary and the Roumanian grain export commission for 100,000 car loads of corn and all the wheat, barley and legumes available for export. An agreement has also been reached, according to the announcement, whereby Roumania is to receive certain goods from the central powers. An effort will be made to make commerce mutually as nearly normal as possible, it is added.

# BIG GERMAN STEAMER DESTROYED BY RUSSIANS

A despatch from London says: The sinking by a Russian warship of the steamship Esperanza off Kall Akra, in the Black Sea, off the Roumanian coast is reported in a Reuter despatch filed at Bucharest on Sunday. The Esperanza, a 7,000-ton vessel flying the German flag is said to have been loaded with foodstuffs for Constantinople. The crew was captured by the Russians. The despatch also reports the sinking of a score of small sailing ships with cargoes of food.

# LATEST PEACE TERMS CREDITED TO KAISER

A despatch from Paris says: It is reported here that the Berlin banker, Herr von Bleischoeder, has informed German-American bankers that the Kaiser is prepared to discuss peace on the basis of the cession of Alsace-Lorraine to France in exchange for one of her colonies, such as Madagascar; Russia to have Constantinople, with a protectorate over Turkey in exchange for Poland, which Germany and Austria would divide. No war indemnity is mentioned in the alleged proposals.

# 41,500 DRAW PENSIONS AS SOLDIERS' WIDOWS

A despatch from London says: The number of widows of British soldiers who have so far been reported to Army Council is 41,500, according to William Hayes Fisher, Parliamentary Secretary of the local Government Board, in a speech to the House of Commons committee on the war pensions bill on Thursday. The widows of sailors, Mr. Fisher added, aggregated about 8,000.

# EXPLOSION KILLS 12 IN GERMAN COLLIERY

A despatch from London says: Twenty persons have been killed in an explosion in the Prussian colliery, near Milchowitz, Silesia, says a despatch to the Central News from Amsterdam.

# TURCO-BULGARIAN PEACE MISSION REACHES ROME

A Central News Despatch to London from Rome says that two Turkish and two Bulgarian agents have arrived here to start peace negotiations. The Bulgarians requested safe conduct, and will proceed to Rome.

### PETTY OFFICER IN RIGGING OF A TORPEDOED STEAMER

Recently a small British steamer was torpedoed near the Egyptian coast by a German U boat, the Hans previously invited fishermen to witness the sinking from the hills in the vicinity, so that they might get a good idea of modern barbarism and be correspondingly impressed. The picture shows Petty Officer Johnston in the rigging; subsequently the fishermen were completely routed by General Lukin's column.

# Markets of the World

**Breadstuffs.**  
Toronto, Mar. 28.—Manitoba wheat, new crop—No. 1 Northern, \$1.08 1/4; No. 2, \$1.05 1/2; No. 3, \$1.03 1/4, in store, Fort William.

# ONTARIO GOVERNMENT PROHIBITION MEASURE

### Bill Effective Without Vote of Electors, But Provision Made for Referendum at End of War.

**Main Features of the Bill.**  
Prohibition will go into effect in September—probably on September 15—by direct legislation.  
All licenses, with a few exceptions, will be extended after May 1st until date fixed, upon payment of nominal fee of \$5 or \$10.  
Referendum will be taken after war and a considerable time after return of soldiers.  
New Ontario Temperance Act follows Manitoba Act except for incorporation of improvements taken from Ontario License Act.  
Wholesale druggists will be licensed to sell in wholesale quantities for scientific and mechanical purposes, up on production of affidavit as to use to which liquor will be devoted.  
Retail licenses will be issued permitting sale to individuals upon a doctor's prescription, and to a doctor not more than a pint at a time or a veterinary not more than two gallons at a time.  
Ontario License Board will be reconstituted with membership of three, and charged with administration of new laws.  
Bill not to interfere with importation of liquors for private use or keeping in the home.  
Heavy fines ranging up to \$1,000 and sentences up to eight months are provided for infractions of the law.

# VILLA DEFEATED BY CARRANZA'S MEN

### Several Dead and Wounded Bandits Were Left on the Field.

A despatch from El Paso, Texas, says: Villa was attacked and defeated on Thursday night at Santa Gertrudes by Carranza troops, according to a despatch received by General Gaviira in Juarez. General Gaviira said he had received authentic information that after the skirmish at Santa Clara earlier in the day where Col. Cano's command had defeated Villa, the bandit chieftain was pursued and again attacked late Thursday night at Santa Gertrudes and again was defeated. Villa left several dead and wounded bandits on the field, and Gen. Gaviira says one hundred horses were captured from him by the Carranzistas. From Santa Gertrudes Villa fled to El Oso, where he was reported to be reorganizing his forces. Santa Gertrudes is a settlement in the Cuernavaca district.

# DISABLED SOLDIERS WILL BE TRAINED

### A Start Has Already Been Made in Quebec With Toy-Making.

A despatch from Ottawa says: The Military Hospitals Commission announces there are now 1,300 men, inmates and out-patients in the various convalescent homes. Steps are being taken to provide training in these homes, and Mr. T. B. Kidner, the vocational secretary, has just returned from Quebec, where he made arrangements for the installation of an equipment for elementary vocational training in the Savard Parks Convalescent Home. This home is situated in the city of Quebec, where a number of local ladies have taken great interest in toy-making as an occupation for convalescent soldiers. These letters have procured from the Lord Roberts Memorial Workshops in London a large and valuable collection of models of toys, etc., products of this well-known workshop for disabled soldiers.

# How Ships Are Loaded at the Port of Tuxpam, Mexico.

Many of the most productive oil wells in the State of Vera Cruz, Mexico, are situated near the port of Tuxpam. For some distance from the shore the water there is so shallow that few of the large oil steamers can get into port. The oil companies hit upon the idea of laying submarine pipe lines to points where the largest oil tankers can be conveniently moored for loading in any state of the tide and weather. There are now five of these great iron pipes in duplicate. They are from six to eight inches in diameter, and four of them are nearly a mile long. They terminate in forty-three feet of water, where it is so deep that the waves have no effect on them. When they were laid divers fastened to the end of each 120 feet of flexible hose. When not in use, the free end of the hose is closed and allowed to lie on the sea bottom, where its position is marked by a small buoy attached to the hose by a stout chain. When the tank steamers arrive, they moor themselves to the permanent buoys near by, take up the marked buoy with a derrick, raise the flexible hose to the deck of the ship, and attach it to the tank openings. By means of a signal code, the captains of the ships notify the pumping station on shore, in which are the valves that control the flow of oil through the pipe line. Generally speaking, it takes about twenty-four hours to load one of the large fifteen-thousand-ton tankers, which means that the pipes deliver 4,375 barrels of oil an hour.

# OVER ARMY AGE ACCEPTED.

### 250,000 Britons Between 45 and 70 to Be Home Defence.

Britain's "over age" army—250,000 men between the ages of 45 and 70, who unformed and equipped themselves out of their own pockets and for months past have been drilling, marching and digging trenches—has been officially accepted by the Government for home defence and is henceforth to be considered a portion of the King's forces.  
The volunteers, who not being officially recognized were not allowed to wear khaki and so clad themselves in gray field uniforms not very different in color from those of the German army, are delighted that at last the war office has admitted that even if they are graybeards they are hard as nails and fit to fight. They are now to be allotted to definite stations in the scheme of home defence in case of attempted invasion, thus relieving regular troops and setting them free for service abroad.  
The volunteers' ability to do any kind of work entrusted to them is shown by the duties they have already discharged at their own cost and risk, to the full satisfaction of the military authorities. They have spent week ends for months past in digging trenches on the outer London defences, several thousands being so engaged each week.

# GATHERING IN THE SERBS.

### British Navy Gets German Underseas As Fast as They Are Made.

A despatch from Washington says: One hundred and twenty-seven submarines have been captured by the British navy since the outbreak of the war, according to information from the British Admiralty which has reached the United States coast guard officers.

**Milne In Florida.**  
Dayton, Fla., Marce 24, 1916.

Dear Gazette:—  
Since writing you last we have been very busy on the move and have taken in everything of interest on the south east coast of Florida, many of which, while of intense interest to us on the spot, would not interest your readers, so will only mention very few here.

Have witnessed several National games played at Miami and Palm Beach. Saw the league lawn tennis game played between Herb Throckmorton of Cornell University fame, and J. D. Wright of Chicago, both noted champions. It took several days to play the set and finally, after making new world records, Throckmorton won out by a narrow margin amidst the thunderous applause of an excited multitude from the grand stands and bleachers, and it certainly was the most interesting and hotly contested game I ever saw. Often the ball passed from side to side without touching ground for from fifteen to twenty times.

Next came the boat race for swift gasoline craft on the Bay of Biscayne. On the last day of the Regatta Commodore Kitcher's "Betty II" split the water at the rate of 34 miles an hour, setting a new record and won the laurels. Some of these racers send water and spray 10 to 15 feet high clearing the surface of the sun-shimmering

**CANADIAN PACIFIC**

Sometimes, however, when I receive a new check from the north, we would indulge in having evening dinner at the big hotel and be sitting in with the "swells." Would go in the afternoons, buy our dinner tickets at \$2.00 per and then have access to the tea gardens and sip tea and nearly touch elbows with the Goules, Astors, Vanderbelts, Carnegies, J. Whitcomb Riley, Alexander Graham Bell of telephone fame and scores of other well known persons. During the hours of tea drinking and until about 6:30, the fairy-like dance was going on upon a great platform in the middle of the garden with the palm trees standing through it. As twilight was coming on they would switch on the electric lights into thousands of colored bulbs of different shades strung on wires from tree to tree. The white dresses and sparkling diamonds of the dancers fitting in the distance, surrounded by flowers, to the strains of rich music was a sight which we will never forget. Tea and other refreshments bought in the garden was paid for when ordered and not included in

dinner tickets. The dinner eaten amidst flowers, diamonds, music and low cut gowns takes over an hour and a half to do it proper justice and then not take one-fourth of the menu list. Well, none of us were reported sick or missing at our hotel next morning at breakfast. After dinner the dancing began in the immense ball room of the hotel. I will not attempt to describe the costumes of the dancing belles as they were so smart and cut away so much, that in some cases there was little more than the flashing diamonds visible to the naked eye, in the way of dress. I will give your readers a "tip" that these were some new and startling creations in dancing outfits for sure. At eleven o'clock our auto was announced and we left them still enjoying the music in their light fantastic—very light.

Kindly inform your readers that we do not stop all the time at the Poinciana hotel where they have several hundred waiters and bell boys, because our Mildmay pocket book could not stand the strain very long and this just re-

(Continued from page 4.)  
minds me of what I heard a noted doctor from Boston saying to a friend, "My family and friends in Boston persuaded me against my will to leave my practice for a few months and come to Palm Beach for a change and rest, as it would do me worlds of good as I had been overworked, but I wrote to my family yesterday that they were entirely mistaken about the change and road part and requested them to wire me another

of ask at once for the waters and bell boys had gotten all my "change" and the hotel management got at the "rest" and I was coming home on the next train.

In a former letter I told you about the Seminole Indians who work on the reclaimed lands of the Everglades. The city of Palm Beach wanted to have a great blow out for their winter tourists and guests before they would leave for the north, and they held a Midwinter Fair for stook, fruit, flowers, vegetables, poultry, etc., and it certainly was very good and much beyond what most of us expected, and a success in every way. They engaged a big circus to come and help make the wheels go round, but the most advertised feature of the affair was the great Seminole Indian sun dance and got many of those Indians in their bright and variegated dresses, from their great chief, bucks, squas, maidens and papoose. They landed from their canoes in solemn manner and were met by the chief palefaces of the city and a lot of big guns and had peace conference where they smoked the Pipe of Peace, which looked like a tomahawk turned up side down, then they had a long Pow Wow and started on a line of march past the reviewing grand stand and had their famous but weird Sun Dance and after them came the rest of the autos, people on foot, etc., but the next day was a great day also. We were fortunate enough to get a tip as to where they would land and secured good positions right close to the landing and easily heard the address of welcome and other recitals and then took a short cut to the grand stand and saw the Sun Dance and other ceremonies. After this was the great show of Palm Beach County Better Babies. There were about 46 entries as I counted them from the grand stand. Mrs. Flagler, widow of the great railway and hotel system of the Florida East Coast Line was one of the Judges. There were several prizes for babies, one for decorations of the carriage very were in and I think I never saw a prettier sight than the whole outfit, and as a assure your readers that I was pleasantly surprised to see the title of "Queen of Palm Beach County Better Babies" go to little Katherine, the 9 months old daughter of Mr. and Mrs. Luke W. Lobinsinger of Lakeworth, a town nearby. She won with a score of 97.8 per cent. Luke is a son of our genial liveryman in Mildmay, and I had motored out to Lakeworth a few days before to see them at address given me before leaving Mildmay, and found Luke in a new and comfortable house with handsome wife and very pretty baby.

Yours truly,  
J. S. Gilman.

### Pommelled Husband.

The King of Greece is not the only man who is scared to death of his wife. His counterpart and brother lives right here in Walkerton, and the pommelling the local hen-pecked groom got from his side-partner the other night raised the ire of the neighbors and put blisters on the husband for fair. We would bawl the woman's name right out in print if we thought hubby had sand enough to admit where he got those marks. But as he would no doubt crawl-fish on the job, he would leave us stranded in the box with the cards all stacked against us. We are therefore waiting until she licks him hard enough for the police to interfere, then the leading lady in the scene will get all the honors coming.—Herald-Times.

### The Effect of the War.

There can be no doubt that the war is having a good effect in awakening public sentiment to a higher realization of the seriousness and responsibility of human life. People of all ranks and all stations in life are thinking as they never thought before. The sacrifices that are being made for the maintenance of civilization and justice in the world are coming home to the Canadian people in a way that calls for the putting forth of the best efforts to strengthen and encourage the moral forces that are arrayed against evil influences of every kind in this country. No one can forget the great good that may result from the chastisement that the British Empire and her Allies are undergoing in this war. People who thought little of God, and who lived day in and day out without even so much as acknowledging the existence of a Creator are now mingling their voices with those of Christian worshippers in praise and thanksgiving for mercies vouchsafed in the present life. Not only is there a manifestation of increased spiritual power in the church, but in all departments of social and political activity a spirit of reverence for sacred things is influencing conduct and character to an extent that cannot fail to result in corresponding benefit to the country in general. The lesson in personal sacrifice which the war has taught us in enabling to comprehend more clearly the duty of service and to realize that it is only by self-surrender that the highest duties of citizenship can be fulfilled and the world made better for having lived in it.

## What Ails You?

Have you become run-down, weak, exhausted, pale after a long siege of illness? Does the idea show that the body is clean house now? by riding the body of its accumulated poisons. Refresh the blood with a stimulating tonic. Dr. Pierce's Golden Medical Discovery, free from alcohol or narcotics and extracted from roots and herbs with pure glycerine, benzoin, and other all-purposes and improve matter. It dissolves the impure deposits and carries them out, as it does all impurities, through the liver, bowels, kidneys and skin.

If you have indigestion, sloughy liver, neural or other cerebral weakness or nervousness, get Dr. Pierce's Golden Medical Discovery to-day and start again to replace your impure blood with the kind that puts energy and color into your face and brings back youth and vigor.

All medicine dealers can supply you in either liquid or tablet form. It costs for trial box of tablets to Dr. Pierce, 100 West 11th St., Buffalo, N. Y.

## ASK YOUR NEIGHBOR.

Friend, R. C.—"I am so glad of an opportunity to recommend Dr. Pierce's Golden Medical Discovery; it has cured me of indigestion and constipation which I had every day. A friend gave me a bottleful and I took it. It helped me so much that I bought more and continued using it."—Mrs. C. Williamson, General Delivery.

Dr. Pierce's Pleasant Pellets are the original little liver pills, first put up 40 years ago. They regulate and invigorate stomach, liver and bowels.

There have been various absurd rumors flying wildly throughout rural Ontario as to large salaries paid to patriotic workers; and anecdotes dealing with alleged sales of articles given for the use of our soldiers have been told in many a small town, to the detriment of certain work. The Red Cross Society is determined to trace any such yarns and find out where and with whom they were spread. One of the business women who was a patriotic worker she had been a day for doing some of the war. "It is too coiving such a story," she asked, "when spending a sum of money." All our large one public official for the expenditure of funds so for the public has no excuse for doing the generous motives of these in authority.

## The Third Fizzle.

The third attempt to call a meeting of the shareholders of the Saddlery Hardware Factory here ended, like its twin brothers, in a failure on Tuesday night. The plant, which is situated there idle and hasn't paid taxes, is causing the Town Council some anxious moments as the town is still on its note for \$6000, with the outlook beautiful for losing it unless somebody starts something and gets it in operation: Efforts to get the shareholders together and find out what is going to be done with the plant have failed on three different occasions of late, not enough of them being present at any time to form a quorum. With rust gathering on the machinery and interest eating the plant to death, the sooner the rescue game is started the easier will be the saving. It looks from this angle, however, as if the Town Council will have to step in and take over the works, as the shareholders don't seem interested enough to even hold an inquest on the remains.—Herald-Times.

## New Taxation For Ontario.

New forms of taxation, to meet increased demands upon the public treasury were announced by Hon. T. W. McCarty in his budget speech last week. Increased taxes to be levied on six of the principal Ontario racetracks, namely Woodbine, Dufferin and Hillcrest, all of Toronto, and Hamilton, Windsor and Fort Erie. At present the Government receives \$500 a day from these race tracks. The tax is increased to \$1,200 per day for every day there is racing. The Government now receives \$40,000 per annum from this source. With the increased tax the Government will receive \$100,000 per annum. Taxes on such places of amusement as moving picture shows, theatres, circuses, baseball and increase parks and skating rinks. A tax of 1c to be imposed on each admission, may be increased to 25 cents by regulation order-in-Council. It is estimated that the attendance at such places is about 35,000,000 per year, so that the revenue from that source with a 1c tax on each admission would be \$350,000 a year. Entertainments of philanthropic, religious and patriotic character are excluded.

## The Compress and Vacuum Washer

**HAVE YOU TRIED IT?**

Guaranteed to wash a tub full of clothes CLEAN in from 3 to 6 minutes. No wear on the clothes with this washer. Last a life time. Easy to operate. A child can use it. All for two dollars. When you get to using this washer you will use no other, even supposing you had another machine at your home. Remember I am prepared to prove every word of this statement. For sale at my store.

A full line of the best flours in the country. Also feed and meals: Highest cash prices paid for Butter and Eggs. Get your clover and timothy seeds now as prices are advancing.

# About the House

## Useful Hints and General Information for the Busy Housewife

### Selected Recipes.

**Fried Tomatoes.**—Cut tomatoes in quarters lengthwise; season with salt and pepper, dip in batter and fry in deep fat.

**Cream Cheese Salad.**—Form cream or Neufchatel cheeses into balls of size and shape of birds' eggs. Sprinkle with few grains of red pepper. Serve in nests of lettuce leaves on individual salad plates, garnished with radish flower and dressed with mayonnaise, French dressing or whipped cream.

**A Culinary Secret.**—Delicious pie crust is the pride of one woman's life, and this is her recipe for securing it: She uses hot water instead of cold and puts the soda and cream tartar in the flour, then she stirs the hot water into it. Melted butter and lard is then added. This is easily made and is as light as can be.

**Chicken With Cauliflower.**—Separate chicken into pieces for frying and parboil. Drain and set aside after seasoning with salt, pepper and a little onion and lemon juice. Drain again, roll in flour and saute in hot fat. When tender and well browned arrange in serving dish, garnished with floweret of hot boiled cauliflower. Serve with cream sauce.

**English Muffins.**—Take 2 cups of bread flour, 4 1/2 teaspoonsful of sugar, and 1/2 teaspoonful of salt. Mix together and sift well. Work in 4 tablespoonsful of butter, then add 2 beaten eggs, and 1/2 cup thin cream. Roll to 3/4 inch in thickness and brush with beaten white of egg. Sprinkle over with sugar and bake for 15 minutes. This is the original English recipe. Serve hot.

**Date Sandwiches.**—Bread and butter is good for a child's lunch, but it becomes dry and tasteless if it stands too long in the tiny basket. Most women buy rolls of waxed paper, and

To keep old potatoes from turning dark when boiling add a tablespoonful of sweet milk to the water in which they are boiled.

### Fire Prevention in the Home.

Carelessness is credited with seventy-five per cent. of Canada's enormous fire loss. During 1915 no fewer than 676 fires occurred in dwelling houses. Of this number it is safe to say that a great majority were attributed to the threadbare excuse "cause unknown." Were the cause of many of these fires correctly reported, it would be "careless and untidy housekeeping."

Clean-up day is as necessary inside the house as out. Closets, attics and other out-of-the-way places harbor accumulations of old clothes, discarded furniture, books, waste paper, etc., all greatly increasing the fire hazard. Matches left in the pockets of clothes may easily ignite from friction in swinging against a wall. Sparks from a crack in the chimney passing through an attic may start a fire among the contents. Defective stove-pipes and flues, accumulations of dust, etc., in hot air pipes, wood and inflammable material too near furnaces, are constantly causing fires in dwelling houses.

Canada cannot afford to continue this enormous sacrifice of her created resources. An average annual fire loss of approximately \$23,000,000 for the past five years constitutes the blackest record of any country in the world. When all our power, both financial and physical, is required for the great task in hand, the housewives in Canada should carefully and consistently clean up their homes, remedy all dangerous conditions, remove inflammable material assist in reducing the enormous drain which is taxing the financial resources of our people and our country.

Barbaric German Kultur as Seen in Paris.

A five-story dwelling-house ripped from top to bottom by a bomb in the recent Zeppelin attack on Paris; an example of the barbarism and military futility of German air raids.

sport suits are many of silk jersey, or, as it is perhaps more generally known, Italian silk. These suits are often made with coat of plain color, emerald green, for instance, worn with a hat of black and white cream serge too, and with coat of light blue. The collar and cuffs are of the silk. The hats of other materials with all types of ribbons and bows in spite of the fact that in blouse and jacket of a similar color shown just now that they are as much as in the past, more perhaps, as they are more fascinating than for many a year. This is another practical and economical notion.

**Charming Sport Blouses.** Simplicity of cut, combined with the daintiest possible of linen, voile, or

Plain Coat and Striped Skirt.

gandy, or tub silk is the recipe for the most popular of the summer blouses, to wear with tailored suit, sport coat, or separate skirt. One of the prettiest seen this season was fashioned of a pale pink figured batiste having deep cuffs and sailor collar of white. It was made with open throat and was closed down the front with a white silk cord slipped under a tab on either side of the blouse. The colored lawn and organdy blouse is growing in favor, in fact the colored waist seems to be taking preference over the plain white waist to a marked degree. There is something particularly pleasing about a softly tinted blouse of crepe de Chine, Georgette, or of the new wash fabrics, combined with a tailored suit, that makes its appeal to all. Strictly tailored linen waists of white for morning or sports wear are usually smart and much in vogue, but for the tailored suit and more dressy wear, the tinted blouse is the favorite. There are any number of attractive middie blouses for all sorts

of summer daytime wear. Oftentimes these are made of the same material and color as the skirt, thereby forming a complete costume and again they are of a contrasting color and material to wear with various skirts.

**Attractive Hats.** In compliance with Fashion's decree, that sport clothing be supremely favored, the hat shops are putting forth many attractive, severe little hats which may be appropriately worn with either tailored or sport suit. Many of these are hand-made fabric hats with just a bit of a ribbon, a bow or ornament, by way of trimming. Some chic models of cretonne and others of ratine in soft colorings, are essentially sport hats, our hats of hems, Milans and hand-sewn hats of braid may be worn with either tailored suit or sport costume. Angora braid is one of the most effective of the new braids, in white or a soft color, combined with hemp or Milan. The shiny braids are much in vogue for early tailored wear, in black or colors, trimmed with flowers or ribbon. Patent leather and varnished foliage is most effective for trimming these glazed hats.

These patterns may be obtained at your local McCall dealer or from the McCall Company, Department W., 70 Bond St., Toronto, Ontario.

**One Result of the War.** A delightful old lady of a little town in Nebraska was discovered one morning in the act of killing a chicken. "Why, Mrs. Brown, I thought that you were afraid to kill a chicken," said a neighbor in surprise. "Yes, deary, I did useteh be, but since the war broke out I've done it right smart." "I don't just understand you; what does the war have to do with it?" "Well, you see, it's this way; I useter think that bloodshed was an awful thing, but since I've been readin' about all them men-killin' in Europe I just get a rooster by the feet, lay his head on the block and say to myself, 'Now, Sarah, 'tain't near so bad as killin' a man. Where's your nerve?' And then I just shut my eyes and whack."

**A Blooming Kangaroo.** Although the bravery of our Australian troops is beyond all question, their ideas on discipline vary considerably from those held by soldiers at home. An Australian general, accompanied by his staff, was making an inspection in the trenches "somewhere in Gallipoli" when they came across a wounded private, who was calmly hopping his way to the dressing-station, with a bullet in his foot. When the private saw the general, he promptly hailed him. "Hi, general!" he shouted. The officers looked round in amazement to see who called, whereupon the private added, as he hopped on: "Hi, general I'm a bloomin' kangaroo now all right, ain't I?"

**Different.** Jonnie just got his finger jammed in the door. Gracious, what door? The pantry door. Ah-ha! He didn't get the kind of jam he was looking for that time.

Tommy—"Pa what is a Free-thinker?" Pa—"A Free-thinker, my son, is any man who isn't married!" "When my wife starts talking on an embarrassing subject I always change it." "I've tried that with my wife, but it was no go. She simply exhausted the new subject and then took up the old one where she left off."

# The Strain Upon Faith.

Days Which Witness the Greatest Struggle in Lands of the Highest Civilization

"Now faith is the substance of things hoped for, the evidence of things not seen."—Hebrews, ii, 1.

The other day I heard a man who twenty-five years ago seemed the incarnation of vigorous faith, but today talks a poor, vicious pessimism. There are men who fight splendidly when the response is quick, but who cannot lead what they call a forlorn hope. They fail because they are fundamentally weak in faith. They become backward looking men. The men who permanently help are the men who believe are the men who hope. They are hopeful because they are in the struggle, not out of it. They feel the burden of the world, and try to carry it. It is "the battle of the gods" which, before it came, Cram, the English historian, declared was to be inevitable. This struggle affects all life. The strain upon faith has all the dead drag of

**A Measureless Weight.** It is well to remember, however, that there is a court of last resort within the soul. However hard it be to prove the authority of faith in words, it is hard to prove it in terms of life. Faith never was faith that rested only on what is seen. We men who fling our gaze out beyond the stars, to spaces beyond all vision, are not going to limit our knowledge to things that lie this side the moon. The moon is not the stepping stone to things beyond. Likewise we carry within our souls something that reaches as last the throne of God. No man who is true to himself, and to other men, can miss God. Out of whatever

darkness there be He is bound to come to the light.

We speak of reverence of Jesus Christ to-day in these stern times because somehow we feel that in Him we men find One who speaks for our own inner faith. Whatever we may do in our passion and hate, whatever bitter cup we may press to the lips of earth, we know that behind the veil and below the strife that eats its fill of death there is a faith that nothing can crush. It is greater than his error.

Sins, in the field and trench, from the back to the Christ, to the inner hope and faith, refuse to die. And many a man has found his faith in these hard days who had lost it in other and easier times. Evidently, from the beginning of the world, human hearts have not had easy sailing. We do not inherit our deepest wisdom. We fall heir to knowledge, to facts, to our possessions, but not to the wisdom of life. This we must learn. Fundamentally it is all a question of what we are in the inner heart of us. That is the reason why faith is not dependent on outward things, such as success and prosperity and easy sailing and congenial fellowships and work under soft conditions. Heaven does not run the world on an eight hour day, with long vacations. The greatest lives have generally fallen below their own plans. The most satisfactory man is not satisfactory to himself. He is in reality larger and longs for more than he is or has.—Rev. Pas-cal Harrower.

## THE SUNDAY LESSON

INTERNATIONAL LESSON, APRIL 2.

Second Quarter. Lesson I.—Conversion of Saul—Acts 9. 1-31. Golden Text: I Tim. 1: 15.

**Verse 1.** Threatening, by which he strove to make them blaspheme (Acts 26: 11); slaughter, when he failed, as the imperfect tense in that passage suggests he generally did. The high priest—Caiaphas, whose adroit subservience to the Romans kept him in office till A.D. 37; he was the Jewish "Vicar of Bray." 2. By imperial decree, the high priest and Sanhedrin had jurisdiction over Jews in foreign cities to the same extent as they had in Jerusalem. The Way—More fully "the Way of the Lord," "of God," "of salvation." Often in Acts, as here, it has become a technical term standing alone, appropriate to a religion which consisted in a pilgrim's progress to God along "a true and living way" (compare John 14: 6).

**3.** Paul's own story must be carefully compared, in Acts 22: 6-12 and 26: 12-19. The surface differences are absurdly easy to harmonize. If Luke had been writing fiction, he would have had the sense to be obviously consistent. The repetition is due to the special purposes with which the story is told. Shone—The verb means literally lightened. That the other men knew of nothing but a lightning flash and peal of thunder is likely enough: it was only in Saul's case that they shaped themselves into a vision and a voice. A light—"Above the brightness of the sun" (Acts 26: 13) at noon (also Acts 22: 6).

**4.** He fell, with the others (Acts 26: 14), who, however, quickly recovered (verse 7). Saul—The form of the name is not Graecized at all. So in Acts 26: 14 the voice is "in the Hebrew (that is, Aramaic) language." The doubling of the name is quite characteristic of Jesus. Compare his "Martha, Martha," "Jerusalem, Jerusalem," and rather similarly "Verily, verily," "yea, yea." Me—Compare Luke 10: 16; also John 15: 20.

**5.** Who art thou?—This is consistent with the probable fact that Saul had seen Jesus on earth, and joined in the "persecution" which had its climax on Calvary. He might well fail at first to see that the glorious Face was really the same as that one "marred beyond any man's" on which he had looked "with what bitter triumph" so lately.

**6.** Its Acts 26: 16-18 the Lord's words are expanded by incorporating his own commentary received by Paul in his own within the days of darkness and heart-searching. Must—It is deeply significant that this great little word begins Paul's new life. Even as persecutor he had followed, what he thought to be duty (Acts 26: 9), for him truly the "stern daughter of the voice of God." The (Greek) concordance will strikingly show how the human life of Jesus was ruled from first (Luke 2: 49) to last (Luke 17: 25, etc.) by the must.

**7.** Hearing the sound (margin)—The noun is the same as voice in verse 4, but in a different case which in this context is significant. They thought it had thundered, like the multitude in John 12: 29.

**9.** Three days—Till the appointed time for a resurrection.

**10.** Behold, I—A literal rendering of the Hebrew idiom, used by Luke from his fondness for Old Testament phrase.

**11.** Straight—There is still a street in this ancient city which goes straight through from the eastern gate.

**17.** Laying—A favorite Jewish symbolic action, adopted early in Christianity. It suggested to the mind—as it does among all sorts of people in all times—the passage of a quality or gift from one man to another. Thus it could signify the transference of sin to a victim, as in the ritual of the Scapegoat. In this case it suggested that Holy Spirit, manifestly possessed by Ananias, would pass to Saul; and the symbol helps the development of an appropriating faith. Saul—Again the Aramaic form. The Lord—Saul had thus addressed him (verse 5).

**18.** Scales—One of Luke's medical terms. As sight came to his physical eyes, his spiritual being was illuminated by the Holy Spirit, and he recognized how wrong he had been in opposing Christ. Was baptized—Another symbol that helps faith. The prominence of these symbols is not unconnected with the temperament of people who were specially susceptible to such appeals of the external. Even among Western people they have great effectiveness, and the continued use of them justifies itself by this fact. There are those to whom they do not appeal and this purely practical reason for using symbols does not make them essential to salvation.

### PHOTOS OF KIN FOR TROOPS.

French Admire the British Y.M.C.A. Plan.

The system of the British Young Men's Christian Association, by which photographs of relatives are supplied whenever possible to any British soldier asking for them, is described with admiration by the Paris Figaro, which urges that something similar be undertaken for the French troops. Under the British plan it does not matter if a soldier in the trenches is too poor to buy such photographs or if the relatives themselves are too poor to have them taken. The association has a staff of photographers for the purpose and the aid of the British clergy as well.

### Got Her Holiday.

This pleasant tale of matrimonial methods happened recently. The wife was negotiating with the husband for a holiday that would cost something. "Jane," he said, impressively, "I'd like to have you do it. I'd be glad to let you go." The wife looked her doubts as to whether this was quite the right tone for an affectionate man to take. "Yes, I'll be glad," he said, with conviction. "But the fact is, I can't do it. I have to take up a note for \$20,000 next week, and I can't spare a cent." The wife looked him up and down. "Very well. If you think the man who holds your note can make things any hotter for you than I can—very well, Josiah." She went for her holiday.

Jenkins—"It is a poor riddle that won't work both ways." Wilkins—"I don't know about that. You just say to a mother that she looks so like her daughter you could not tell them apart. Then try it on your daughter!"

# SPRING IMPURITIES IN THE BLOOD

A Tonic Medicine is a Necessity at This Season.

Dr. Williams' Pink Pills for Pale People are an all year round tonic, blood-builder and nerve-restorer. But they are especially valuable in the spring when the system is loaded with impurities as a result of the indoor life of the winter months. There is no other season when the blood is so much in need of purifying and enriching, and every dose of these Pills helps to rid the blood of its impurities, and to build up the system.

1. How to waterproof their overcoats.—Put 1 lb. of alum, 3 ozs. of fish glue (or any other first-class glue) in five quarts of boiling water. When dissolved, add five quarts of cold water. When cold put in the overcoat for a few minutes. When dry it will shed the rain.

2. A sure cure for dysentery.—Put a heaping tablespoonful of the best laundry starch into half a pint of milk. Then put in two tablespoonfuls of blackberry brandy, if that is not handy put in enough red pepper to warm it up. Take this mixture every two or three hours.

3. A cure for vomiting.—Put a heaping tablespoonful of English black currant jam into a glass of cold water, mash well, and take a swallow every few minutes.

4. Best way to make an egg nog.—Put yolk of egg into a tumbler with a teaspoonful of Jamaica rum. Beat up well and put in a teaspoonful of sugar. Then put in half a pint of milk. Never put in white of egg.

5. Cure for pneumonia.—Saturate a ball of cotton (one inch in diameter) with spirits of grain alcohol. Add three drops of chloroform to each ball of cotton. Place between the patient's teeth (after first using vaseline on the gums to prevent burning), and let the patient inhale the fumes in long, deep breaths for fifteen minutes. Then repeat for fifteen minutes or more. Inhale again, and repeat the above twenty times. The result will be that the lungs will relax and expand to their normal condition; in twenty-four hours the sufferer is out of danger, and in forty-eight hours cured, although weak. Change the cotton balls every seven minutes.

You can get these health-renewing Pills through any medicine dealer or by mail post paid at 50 cents a box or six boxes for 2.50 from The Dr. Williams' Medicine Co., Brockville Ont.

## SAW "SAFETY FIRST" FILM.

C.P.R. Officials Viewed Silent Drama to Stimulate Movement.

A realistic moving picture film in the interests of the Safety First Movement was recently displayed in a specially fitted car at Windsor Station, Montreal, before a large audience. The film was produced by Mr. Marlow, general safety agent, New York Central Lines, and tells the story of a railroad man, Jack Foster, whose carelessness endangered the happiness of his wife and home until his friend Jim Stevens, a booster for the Safety First, convinces him by demonstrating awful examples that it is worse to gamble for life than to gamble in any other way. One man loses his leg, and other accidents are realistically portrayed in an exhibition at the Safety Rally to which Jim Stevens takes Jack Foster—such as the shopman who loses an eye through not wearing goggles, the carpenter losing a finger while working at a buzz saw without the guard, the brakeman being run over while running between moving cars, the engineer being killed while boarding the footboard of an engine in motion. Particularly impressive is the picture of a collision due to slowness in flagging.

In order to promote the Safety First Movement in Canada, Mr. Bury has secured a copy of the film, which will be offered to moving picture houses at divisional and other important railroad points along the line of the Canadian Pacific Railway.

## MORE THAN EVER.

Increased Capacity For Week.

Many former tea and coffee drinkers who have mental work to perform day after day, have found a better capacity and greater endurance by using Postum. A woman writes: "I had drunk coffee for about twenty years, and finally had what the doctor called 'coffee heart.' I was nervous and extremely despondent; had little mental or physical strength left; had kidney trouble and constipation." (Tea is just as injurious because it contains caffeine, the same drug found in coffee.)

The first noticeable benefit which followed the change from coffee to Postum was the improved action of the kidneys and bowels. In two weeks my heart action was greatly improved and my nerves steadier.

"Then I became less despondent, and the desire to be active again showed proof of renewed physical and mental strength.

"I formerly did mental work and had to give it up on account of coffee; but since using Postum I am doing hard mental labor with less fatigue." Name given by Canadian Postum Co., Windsor, Ont.

Postum comes in two forms: Postum Cereal—the original form—must be well boiled, 15c and 25c packages.

Instant Postum—a soluble powder—dissolves quickly in a cup of hot water, and with cream and sugar, makes a delicious beverage instantly. 30c and 50c tins.

Both forms are equally delicious and cost about the same per cup.

"There's a Reason" for Postum.—sold by Grocers.

# FOR CANADIAN SOLDIERS.

A Few Recipes Which May Be Found Very Useful.

Hear are a few recipes that I want to give to Canadian Soldiers, writes Mr. Geo. C. MacLean, in the Scottish-American.

1. How to waterproof their overcoats.—Put 1 lb. of alum, 3 ozs. of fish glue (or any other first-class glue) in five quarts of boiling water. When dissolved, add five quarts of cold water. When cold put in the overcoat for a few minutes. When dry it will shed the rain.

2. A sure cure for dysentery.—Put a heaping tablespoonful of the best laundry starch into half a pint of milk. Then put in two tablespoonfuls of blackberry brandy, if that is not handy put in enough red pepper to warm it up. Take this mixture every two or three hours.

3. A cure for vomiting.—Put a heaping tablespoonful of English black currant jam into a glass of cold water, mash well, and take a swallow every few minutes.

4. Best way to make an egg nog.—Put yolk of egg into a tumbler with a teaspoonful of Jamaica rum. Beat up well and put in a teaspoonful of sugar. Then put in half a pint of milk. Never put in white of egg.

5. Cure for pneumonia.—Saturate a ball of cotton (one inch in diameter) with spirits of grain alcohol. Add three drops of chloroform to each ball of cotton. Place between the patient's teeth (after first using vaseline on the gums to prevent burning), and let the patient inhale the fumes in long, deep breaths for fifteen minutes. Then repeat for fifteen minutes or more. Inhale again, and repeat the above twenty times. The result will be that the lungs will relax and expand to their normal condition; in twenty-four hours the sufferer is out of danger, and in forty-eight hours cured, although weak. Change the cotton balls every seven minutes.

## BEST SOLDIERS IN THE WORLD.

British Commander in Balkans Pays High Tribute to the French.

"The best soldiers in the world," is the opinion General Sir Bryan Mahon, commanding the British forces in the Balkans, expressed to the Paris Journal's Salonica correspondent, regarding the French army.

"Our British soldiers, too, have given the world reason for admiration, but we never pretended to set on foot an army really worth anything."

Germany has finished her war, while ours is only beginning, and, in my opinion, no people will venture to execute criminal designs as long as two such gendarmes as England and France are ready to defend the right."

Speaking of the Entente Allies, Sir Bryan Mahon said that what was originally a union of reason, founded on interest, now had become a true marriage of inclination.

## WHEN BABY IS ILL

When baby is ill no other medicine will so quickly relieve him as will Baby's Own Tablets. They go right to the root of most childhood ailments—those derangements of the stomach and bowels which cause difficult teething, colds, constipation, vomiting and simple fevers. They cleanse the bowels and sweeten the stomach and drive out all cause of illness. Concerning them Mrs. Wm. Evers, Gilks, N.B., says:—"We always keep a box of Baby's Own Tablets in the house as we have found them an excellent medicine for little ones." The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

## REAL VALUE OF RATS.

Carried a Guide Wire Through a Conduit 434 Feet Long.

The uses of rats and mice in this world have been problematical until now. A use for the lowly rodent has been discovered, and in this one particular line he is invaluable.

Only a few days ago two rural telephone companies in Canton, Ill., were forced by the public utilities commission, to establish a physical connection between their lines. To do so required that a cable be run through a conduit 434 feet long, and the managers were in despair until one of them hit on the happy idea of attaching a guide wire to the tail of a rat and chasing him through the conduit.

So it came about that a rat with a silk fishline to his tail was started through the small passage. A ferret sent after him to hurry him up was too ambitious and caught the rat.

The entire collection of rats gathered through the medium of a newspaper want ad were sent through the conduit, but the managers were never able to judge properly the ferret's handicap.

Finally a local inventive genius suggested tying a bell on a rat. This was done. The fishline was dragged through by the rat and then in turn a fine copper wire was drawn through hand-over-hand.

The rat neglected to stop and as a reward for faithful service he was permitted to escape.

It costs a lot to live these days—more than it did before. But when you stop to think of it, it's worth a whole lot more.

# "STRUCK OIL"

Remarkable Ways in Which Gold has Been Found.

If every man who washed his own pants discovered a gold mine there would be a slump in washerwomen. But that is how the largest nugget ever found in California was turned out.

It was a young Indian who was washing his clothes in a certain stream when this big lump of fortune came his way. Who will say now that virtue—cleanliness, for choice—does not bring its own reward?

The Californian Eldorado, to which all the world rushed with one accord, was first spotted by a man who went out early one morning to dig onions with a sheath-knife, and found gold adhering to the blade.

Talking of sheath-knives, they were the favorite means of flicking gold in Bendigo days. The diggers used these knives for many things, and wore them in their belts. They used to dig in their "claims," flicking out bits of gold with the point.

Imagine taking thirty-two pounds' weight of gold out of a hole in the earth before breakfast! Yet such an experience was common enough.

And a gold mine in New Zealand was discovered by a man who picked up a stone to throw at a wood pigeon!

## He Feels Like a Young Fellow

WHY MANTOBA MAN PRAISES DODD'S KIDNEY PILLS.

After Experimenting With Other Medicines Max Hanjook Found in Dodd's Kidney Pills the Cure That He Sought.

Pleasant Home, Man. March 20th, (Special).—Mr. Max Hanjook, a well-known resident of this place, who, after an extended period of ill-health is feeling strong and hearty again, is spreading broadcast the good news that he found a new lease of youth in Dodd's Kidney Pills.

"I tried all kinds of other pills, but they didn't help me very much," Mr. Hanjook says. "But Dodd's Kidney Pills have made me feel like a different man. I feel like a young fellow again. I want everybody to know that Dodd's Kidney Pills have done for me everything that has been claimed for them."

Dodd's Kidney Pills have done for me everything that has been claimed for them. They have restored my health all over the body. Dodd's Kidney Pills act directly on the kidneys. They make the kidneys strong and healthy and thus put them in condition to strain all impurities, all the seeds of disease, out of the blood. The cleansed blood circulating all through the body gives new strength and energy everywhere. That's why Dodd's Kidney Pills are popular all over Canada.

## WARNING AGAINST LOSS

Britain Must Adopt a Broad Agricultural Policy

Andrew Bonar Law, Secretary for the Colonies, speaking at the London School of Economics tonight, discussed the problem that will arise after the war, referring particularly to agriculture. He declared that it was necessary for England to adopt a broad program of agricultural development to prevent a too great number of men emigrating to the colonies.

"The Government engaged in carrying on the war," said the Unionist leader, "has no easy task, but the Government which shoulders the duty of reconstruction after the war will have work no less difficult. The war has shown us that agriculture is still the most important of all our industries, and in the British Isles we must have healthy agriculture."

"After the war, large numbers of our soldiers will not be willing to go back to tame industrial life. We know how important is the strength of the Imperial colonies and we wish to see them grow in population with men of our own race and ideals, but we do not want to see the best and most vigorous of our people leaving these shores even for the colonies. For that reason it is essential to make real efforts to place agriculture on an attractive and profitable basis."

## MURINE FOR YOUR EYES

Murine is prepared by our Physicians, as used for many years in their practice, now dedicated to the Public and sold by Your Druggist, right to your door. Try Murine for Redness, Cleanses and Strengthens Eyes after exposure to Cold Cutting Winds and Dust and to restore beautiful tone to Eyes Reddened and made Sore by Overwork and Eye Strain.

Some broadminded Physicians use and recommend Murine while others perhaps jealous of its Success, talk and rush into print in opposition to those whose Eyes need care can guess why, as there is no Prescription fee in Murine. Just hand your Druggist 50c and you have a Complete Eye Book—Murine—Dropper—and Cork Screw—ready for use. Try it in your Eyes and in Baby's Eyes for Eye Troubles—No Smearing—Just Eye Comfort. Write for Book of the Eye Book. Murine Eye Remedy Company, Chicago

## JAPANESE SUICIDE CAUSES.

Why the Japs Are So Prone to Take Their Own Lives.

Unrequited love, debt and the failure of men of education to earn a sufficient living are given by a writer in the well-known Chuo Koron review as the three chief causes of suicides in Japan, the increase of which in recent years has caused medical experts considerable anxiety. The writer expressed the opinion that the number of suicides is larger than appears in the press and is struck by the fact that the number of cases of self-destruction seems to have increased with the development of Western civilization.

# A Dollar-Meal for Five Cents

The most expensive foods are quite often entirely lacking in food value. They do not build muscle or supply energy. Measured by the cost of most foods, a breakfast or luncheon of Shredded Wheat with milk and cream is worth a dollar—and the cost is not over five cents. Two biscuits will supply all the strength needed for a half-day's work or play.

Made in Canada.

He says: "Late spring and early summer seems to furnish the greater number of victims, so that heat has evidently an irritating effect on the mind, producing the melancholy that leads to suicide. In spite of the fact that the habit is regarded as evil, many look to it as the only relief from misery. Though suicide is condemned by both Christianity and Mohammedanism, many Japanese regard it as sometimes a means toward a higher end. The evil is due to a more insistent spirit of pessimism following the wave of materialism in evidence after the wars with Russia and China. Lack of imagination and deep thinking which fail to find solace in material forces and knows no other source of relief naturally leaves the victim in fatal despair."

The writer is pessimistic as to the future, for he finds that not for many years has Japanese society been in such a state of gloom.

Statistics show a large number of suicides among the young and that of seeking death by themselves in the bath and by casting themselves from high places. So death overtook the young man in precipice at the top of the mountain in Japan. It is noted as the sum of the foreign diplomats credited to the country.

## Minard's Liniment Cures Burns, Etc.

The One Drawback.

"You seem to be very comfortable here. Do you like the work of broom-making?" the female visitor to the prison asked a convict.

"I've only one fault to find with my job here, lady," replied the convict.

"And what is that, may I ask?"

"It's altogether too confining."

## Canada's Greatest Muskrat Handler

is the old firm of HIRAM JOHNSON Limited, 410 St. Paul St. W., Montreal.

Ship all your furs there and obtain full value.

50c. Box. All Druggists and Stores

# ALSACE REAINED

Ninety Communes Are Now in the Hands of the French

M. Paul Deschanel, president of the French Chamber of Deputies, who was recently the companion of President Poincare on a visit to the French front in Alsace, has given the following account of his impressions:

"We paid a visit to the troops who had just taken part in the fighting on Hartmannswellerkopf. So long as I live I shall never forget the look in the eyes of those young men, the look that was a reflection of their collective soul, of the same all-pervading inspiration. One felt their inflexible resolution, their pride, their absolute detachment from everything that was not connected with victory; one felt that they were living a higher life. What moral splendour! I cannot think about it without the tears starting to my eyes. I would like the whole of France to see what we have seen."

"We occupy in Alsace the extent of one of our big arrondissements: 90 communes, 90,000 inhabitants, 10,000 school children. Everywhere the enthusiasm for France is the same."

## FLAXSEED AS FOOD

Flaxseed has been known throughout historic time to possess wonderful food and medicinal properties. The Romans fed it to slaves to keep them in condition and health. The civilized palate has generally rebelled at its linseed odor and taste. It has remained for a physician to discover a method of driving oxygen out of the linseed oil by electricity changing the oil into a resin, odorless and tasteless as starch, yet leaving food and medicinal properties unchanged. This is now used in Dr. Jackson's Roman Meal, claimed to be the most nourishing food sold and a positive relief to dyspeptic and constipated. Most grocers sell it.

Made by Roman Meal Company, Toronto, Canada.

## Why is your friend there such a convinced believer in second sight?

"Well, maybe it's because the poor duffer fell in love at first sight."

Minard's Liniment for sale everywhere. It has been said that the darkest has a silver lining, but the average man prefers his clouds gold lined and his life a little more sombre hue.

In Brooms and Brushes we carry a full line at reasonable prices.

The Star Grocery.  
The Store of Quality

## First Over Should Be First Back.

While the advisability of bringing soldiers back from the firing line to take commissions in the new battalions now forming has been severely questioned, yet since the practice has been adopted it is at least desirable that the boys who went to the front first should be the first chosen for the new jobs, and not as in some instances, fellows brought back who entered the trenches long after the first contingent had saved the day and made a name for Canada at the front. As we understand requests are fast pouring into the Bruce Battalion from relatives who want their boys back from the firing line to catch commissions in the new force, some method to this madness might be adopted by giving the second contingent a rest until all the Bruce boys from the immortal first contingent, who fought a harder fight than any of their successors will probably ever be called upon to wage, are first given a show at these coveted positions. As every parent thinks his own son has as much right to be back as another's this system of favoritism or pull, such as might otherwise seem the case.

## NEUSTADT.

Mr. and Mrs. Jake Winkler of Hano- ver spent a few hours in town on Monday.

Messrs. Louis and Fred Loos attended the funeral of the late Louis Breutigam at Ayton on Monday.

Mr. Ed. Loos commenced work as farm hand for the summer at Ed. Zettler's on Monday.

We are glad to report that Mrs. Dave Frey is better again.

Mrs. Harry Schmitz left on Saturday for Berlin after spending a week or so with her parents.

Ayton on Monday. Acquies of the

Lobsinger with Mr. Bill

yet that can go to the

Sunday nights even though the

roads are slushy.

After Lent is over everybody will be keen for a dance. A good ball will be held in the town hall on Easter Monday.

The infant child of Mr. and Mrs. Eli Zimmerman died on Friday evening. The funeral was held on Sunday morning to St. Paul's cemetery.

A number of the younger generation gathered at Wm. Huethers on Saturday evening to celebrate the birthday of Henry. A good time is reported.

## LIVE STOCK MARKETS TORONTO.

Receipts of live stock at the Union Stock Yards on Monday were 125 carloads, 2811 cattle, 1061 hogs, 30 sheep and lambs, 163 calves and 117 horses.

Butchers' Cattle—There would be fully 2000 cattle out of the 2200 of the bovine class that were offered as fat. There was a fair representation of those classed as good, but not as many of the choice as buyers would like to have seen. Choice heavy steers, \$8.25 to \$8.65; choice butchers' cattle, \$8 to \$8.25; good butchers, \$7.75 to \$8; medium butchers, \$7.40 to \$7.85; common butchers, \$6.50 to \$7; choice cows, \$6.75 to \$7; good cows, \$6.25 to \$6.50; medium cows, \$5.50 to \$5.85; common cows, \$5 to \$5.50; canners and cutters, \$4 to \$4.50; choice bulls, \$7 to \$7.25; good bulls, \$6.50 to \$6.75; common bulls, \$5.25 to \$5.75.

Stockers and Feeders.—Receipts of these were light, but from sales reported prices were very firm, and more would have sold. Choice feeders, 800 to 950 lbs., \$7.25 to \$7.50; stockers, 700 to 800 lbs., \$6.75 to \$7; yearlings of good quality and color, \$6.50 to \$6.75.

Milkers and Springers.—Only a limited number of these came forward. The choice ones sold readily, while, as usual, the common and medium were slow sale altho they sold in many instances more than they are worth. Choice milkers and springers, \$85 to \$100; good cows, \$65 to \$75; common cows \$50 to \$60.

Veal Calves.—Choice veal calves, \$10.50 to \$11.50; good calves, \$9 to \$10; medium \$8 to \$9; common, \$4.50 to \$6; heavy fat calves, \$6.50 to \$7.50.

Sheep and Lambs.—There was not enough to make a market. Light sheep, \$9 to \$10.25; heavy sheep, \$7 to \$8; culls, \$6 to \$6.50; choice lambs, \$11.50 to \$13.25; cull lambs, \$9 to \$10; spring lambs \$10 to \$11.50 each.

Hogs.—Selects, weighed off cars, \$10.90; \$10.50 fed and watered; \$10.15 f. o. b. cars. For heavy, fat, thin, light hogs, 50c per cwt. will be deducted; \$2.50 off for sows; \$4 off for stags from prices paid for selects, half of one per cent. off all hogs for inspection.
