ANNIVERSARY EXERCISES AT ACADIA

Baccalaureate Sermon Will Be Preached by Prof. A. L. McCrimmon, ex-Chancellor of McMaster University.

The Anniversary exercises of Acadia University and affiliated institutions, which will be held the week beginning May 22, give promise of unusual interest.

The Baccalaureate Sermon will be preached on Sunday, May 25, by Professor A. L. McCrimmon, ex-Chancellor of McMaster University. Prof. McCrimmon is widely known as a thorough scholar, an able educator and a speaker of unusual force and brilliance.

Special interest will attach to the laying of the corner stone of the new building on Wednesday afternoon, May 22, at which President Cutten, of Colgate, will officiate. The programme for the week is as follows:

- Thursday, May 22
 - 8 p.m.—Concert by the Acadia Conservatory orchestra, assisted by Mr. W. A. Jones, tenor; Carl Farnsworth, conductor.
- Friday, May 23
 - 8 p.m.—Graduating recital in expression; Marie Sexton, reader, assisted by Minnie Poole, pianist.
- Saturday, May 24
 - 8.15 p.m.—College Play.

 - 8 p.m.—Reception at President's Residence.

WORK PROGRESSING ON NEW ACADIA BUILDING

Much activity is being shown on College Hill these spring days, due to the work on the new building. Progress was made through the winter months with good results. The foundation is now completed; the steel for the superstructure is in position; all of the floors, with the exception of the gallery floor in the auditorium are laid; and the roof trusses are in place. It is hoped that the building will be completed by the beginning of the second semester in 1926.

The ample dimensions and good lines of the building are now plainly evident. The basement will be finished throughout, and will provide some of the best classrooms in the building. The auditorium on the west will seat two thousand; the main floor in the east end will be given over to the class rooms; the second floor, to the offices of administration; and the third floor (lighted from the roof) to the department of geology, with a museum, class laboratory, and class room.

WILL SACRIFICE AMATEUR STANDING

Covey Says That Players in the New Baseball League Will Lose Their Cards

ST. JOHN, N. B., May 12.—Baseball players in Nova Scotia and elsewhere are warned that they will sacrifice their amateur standing if they participate in games within the so-called independent amateur league, which includes Yarmouth, Halifax, and Kentville, or if they play against any of the teams in that league. This admonition was given tonight in a bulletin issued by A. W. Covey, President of the Maritime Provinces Branch of the Amateur Athletic Union of Canada. It had been brought to his attention, Mr. Covey said, that the promoters of this independent league were inducing younger players, who apparently did not realize the danger of losing their amateur standing, to take part in the league. Although the promoters announced that they would use local players, Mr. Covey said, he had learned that to date Yarmouth and Kentville had brought in outside men and Halifax had two. These would replace local men, and then the home town boys would get their walking tickets and would be nowhere, neither amateur nor semi-professional. It was understood, he said, that Gene Tippitts, of Boston, a pitcher with the St. John's Veterans' professional team last year, was one of the men Halifax intended to import.

APPLE BLOSSOMS

"Apple Blossom Time" in the Annapolis Valley along the D. A. R., affords an almost continuous array of fragrant flowers for miles at a stretch, particularly between Windsor and Annapolis. It is anticipated June 8th will be "Apple Blossom Sunday" this year, depending on weather conditions. Thousands of visitors will enjoy the lovely panoramas of pink and white profusion of blossoms in this far-famed "Beautiful Annapolis Valley."

CLAIMANT TO A \$4,000,000 CANADIAN ESTATE

Councillor Curtis of Bridlington, Yorkshire, England, who is pressing a claim for the estate of the late John Curtis, computed to be worth over one million pounds sterling. The property is said to be in Toronto, and the Province of Manitoba and to include silver mines.

ENJOYABLE GRADUATING RECITAL

The graduating recital of Aileen Collier Freeman, of Bridgetown, from the Department of Expression of the Acadia Seminary Conservatory of Music and Fine Arts, took place Monday evening in the Baptist church, in the presence of a large audience. Beautiful flowers, the gifts of admiring friends, adorned the platform. The youthful graduate wore a gown of black net with sequins. Her first selection was Rosalind, by J. M. Barrie, in which her impersonation of the three characters was most apt and entertaining. Miss Freeman evinced throughout her program excellent ability, developed by thorough training. In "Joint owners in Spain," she captivated her hearers in her delineation of the inmates of an old ladies home. She was assisted by Vera Zella Ols, pianist, of Fredericton, a member of the junior class, who played with brilliancy and finish.

The program was as follows:

- Rosalind J. M. Barrie
- Characters
- Same Quickly, a boarding house lady
- Charles, a young man
- Miss Freeman
- Polish Dance, Op. 3, No. 1 . . . Scharzwek
- Miss Ols
- Story, A Source of Irritation . . . F. H. Law
- Miss Freeman
- (a) Prelude, Op. 23, No. 6 . . . Chopin
- (b) Scotch Poem, Op. 31, No. 2 MacDonald
- Miss Ols
- Joint Owners in Spain . . . Alice Brown
- Characters
- Mrs. Mitchell, Director of the Old Ladies Home
- Mrs. Fullerton, Innmate
- Miss Dyer, Innmate
- Mrs. Blair, Innmate
- Miss Freeman

DEATH OF FORMER EMPLOYEE OF THE ACADIAN

The death of James L. Peck, a well known and highly esteemed resident of Kentville, occurred suddenly on Thursday of last week. A few weeks ago, the deceased, who was 51 years of age, suffered two strokes of paralysis. He apparently recovered and was able to be around as usual when the end came with the third stroke.

Some years ago Mr. Peck was a valued employee in the office of THE ACADIAN and during recent years he has been in the employ of the Kentville Publishing Co. He is survived by his widow and one son, who have the sympathy of many friends.

The funeral which took place on Saturday afternoon, was well attended. Rev. D. G. Ross, pastor of the Baptist church, of which the deceased was a faithful member, conducted the service, interment being in The Oaks cemetery.

NEW MARY PICKFORD "TESS" A GREAT HIT

Mary Pickford in her new "Tess of the Storm Country" has taken the public by storm! There is no doubt as to the wisdom and good judgment of the past as worthy material for the making of a still greater film. She has written an important chapter into screen history in the manner in which she has produced this picture for a second time in her brilliant career and, if it is true she essayed this revival with the idea of creating a classic which would live in posterity, there is every indication she has insured herself adequate success in the ambition.

It is confidently predicted by most of the best versed critics that "Tess of the Storm Country" is going to be a popular attraction for decades to come and that future generations are sure to cherish the memory of this great artist through her stirring historic work in this one production.

Our Veteran townsman, Dr. A. deW. Bars, has recently donated the sum of one hundred dollars to the Women's Baptist Missionary Union, in memory of his late wife who was for many years a devoted member of the society. Dr. Bars belongs to a family long noted for generous gifts to the Baptist denomination, his father, the late John W. Bars, being for years a very liberal supporter of his church. All his life Dr. Bars has been identified with community activities.

BOY SCOUT COUNCIL

Annual Meeting Elects Officers—Work Confronted With Serious Problem.

The annual meeting of the Boy Scouts Council, which was convened on Monday evening of last week and adjourned, resumed business on Tuesday evening at the Council Chamber with Prof. Sutherland in the chair. Owing to a misunderstanding as to the hour there were few present at the beginning of the meeting. The numbers soon increased, however, and the gathering was a fairly representative one.

The reports of the Scout Master and treasurer, which were presented at the preceding meeting, were reported upon by the auditor, Mr. R. Creighton, and adopted.

The Scout movement, which has been attended with phenomenal success in Wolfville, is now faced by a problem which will require very wise deliberation. Mr. Brown, in his report, intimated that the undertaking has assumed such proportions as to require a change in methods in order to maintain its efficiency. For the past thirteen years the present Scout Master has devoted himself to the development of the young life of the community and has earned the gratitude and respect of young and old alike. He now recommends the formation of three troops, each with its own committee and Scout Master, and all directed by the Boy Scout Association. As commissioner Mr. Brown would continue to have the oversight of the work and at the same time would act as Scout Master for one of the three troops. While not received wholly with favor by the officers and members of the Association, who naturally would prefer to see the work conducted on present lines, after considerable discussion a committee was appointed to take the whole matter into consideration and report at a subsequent meeting.

GRAND PRE

Miss Doris Eaton, who has been visiting her sister, Mrs. C. L. Grant, in New Glasgow, returned home on Saturday.

Miss Laurie Barron is spending a few weeks in Berwick visiting friends.

Mr. Henry Watson, who has spent the winter months in the United States, has returned home.

Miss Alice Rose is spending at her weeks in Union Square and New Germany.

Mr. and Mrs. W. P. Eaton have just had a new bungalow erected.

Mr. Elton Steele is visiting his mother in Hortonville.

Mr. and Mrs. Norman S. MacRae have moved to Wolfville, where they will reside in the future.

Miss Julia Borden has returned to her home here after spending the winter in Halifax.

Miss Frances MacLachy, who spent the winter in Halifax, has returned home.

Messrs. F. H. Crane, S. A. Bowers and R. L. Harvey went to Digby on Sunday to visit Mr. Geo. Shearer, formerly of Grand Pre, who is very ill.

Miss Mary Eaton spent a few days in Halifax last week, returning on Saturday.

We are pleased to see Mr. John Tremblin is able to be out again after his recent operation at the Payzant Memorial Hospital, Wolfville.

Mrs. G. F. S. Townsend entertained her friends at a dance Friday evening.

Mr. Frank Harris took a party of friends to Cheverie in his boat one day last week.

Miss Mabel Borden, who is a student at Dalhousie, has returned here and will spend the summer with her aunt, Miss Julia Borden.

Mrs. E. Jemers returned to Digby last week, after visiting her sister, Mrs. Henry Chipman.

Mr. and Mrs. J. W. McClelland, of Halifax, have returned to their summer home here and are being welcomed back by their many friends.

A Mother's Day and Rally Concert was held in the Methodist church on Sunday evening and was largely attended.

LONDON MARKET FOR N.S. APPLES

Mr. Howard's Recommendation That More Fruit be Put Up in Boxes Discussed in Assembly

The matter of how Nova Scotian fruit should be packed for the London market was discussed in the House of Assembly last week when estimates of the Agent General's Department were being discussed. Howard Corning, the Conservative member for Yarmouth read from the report of Mr. John Howard, the Agent for Nova Scotia in London, to the effect that apples put up in packages would be more saleable on the London market, and wanted to know if Mr. Howard had taken up the matter with the fruit growers by visiting the Valley during his recent visit to the province.

Hon. D. A. Cameron, the Provincial Secretary, replied that while Mr. Howard had not visited the Valley he had had a conference with a number of fruit growers while in Halifax and had taken the matter up with them.

Hon. John A. MacDonald said that Mr. Elliott Smith and other experts in orcharding had discussed the same matter with the fruit growers in the Valley and also believed that the conference Mr. Howard had had with some of the men interested would do a great deal of good. There was a difference of opinion regarding the matter. All the fruit which is financially practical to pack in boxes, Mr. MacDonald thought, will be put on the English market in that manner, and had Mr. Howard visited the Valley at that time it would have done little good.

Mr. MacDonald took the occasion to pay tribute to the good work done by the Fruit Growers' Association. It has been a great educative force in the development of orcharding. Nova Scotia was today taking the leading place in Canadian apple production.

Mr. Leslie Bishop was in Halifax a day or two last week.

Mrs. John Fenwick spent the day last Wednesday with friends at Canning.

Mr. and Mrs. Ingram Banks, of Kingsport, spent the day with Mr. and Mrs. B. L. Bishop last Thursday.

Miss Georgie Miner, of Melanson, visited her friend Mrs. George Bishop a couple of days last week.

Mr. and Mrs. George L. Bishop and members of their family motored out to Woodville last Thursday evening, and enjoyed to the full the play put on there by the Dramatic Club of Woodville.

Evelyn Forsythe went to Cambridge Thursday morning to visit at the home of her parents, Mr. and Mrs. Edgar Forsythe, who recently moved out there. She returned on Monday, to resume her school work as usual at Wolfville, boarding with her grand parents.

Rev. D. B. Hammon, D.D., of Wolfville, was calling on friends here last Friday.

Mr. and Mrs. Andrew Cobb and little daughter, Betty, of Bedford, spent the week-end at the home of the former's sister, Mrs. B. L. Bishop.

Miss Mildred Nuttall, of Acadia Seminary, Wolfville, spent the week-end with her friend, Miss Rena Cox.

A few from here attended the Expression recital of Miss Freeman, of Acadia Seminary, held on Monday evening at the Baptist church, Wolfville. It was most enjoyed.

Rev. D. B. Hammon, D.D., of Wolfville, was calling on friends here last Friday.

Much interest is felt here by the friends of Rev. F. H. and Mrs. Beals, of Hantsport, in the sermon on Dancing recently, as spoken of by the press. Mr. Beals is a minister of good and high ideals.

OPENING OF KEN-WO COUNTRY CLUB

The ladies of Ken-Wo Country Club held their annual meeting on Wednesday afternoon, May 7th, at the Club House.

Mrs. Herbert Oyley was elected President, Mrs. George E. Graham, Mrs. W. E. Archibald, Mrs. W. C. B. Harris and Mrs. William Grant were elected as the House Committee; Misses Murphy, Ritchie, and Bullock the Handicap and Match Committee. The first Tea of the Season will be held Saturday, June 7th.

The Golf Course is now open and Saturday, May 17th, is fixed for a Rally Day. All members are requested to be there for play that day.

A golf instructor will arrive on June 18th.

It has been suggested that if a little more grading was done the newly reclaimed land on the north side of Main street at "the bridge" would provide plenty of accommodation for quarts and prove a popular institution. Wolfville should have a quoit club. The game provides plenty of interest and healthful exercise, that would be popular with summer visitors as well as citizens.

MARE PRESENTATION TO DEPARTING PASTOR

Dr. and Mrs. A. N. Marshall are Honored by Congregation Before Leaving for Wolfville.

(From an Ottawa paper)

The high esteem in which Dr. A. N. Marshall, pastor of the First Baptist church, Ottawa, is held in the pastorate he has occupied for the last seven years and the respect and sincere admiration accorded Mrs. Marshall was expressed last night at a largely attended reception in their honor, given previous to their departure for Wolfville, Nova Scotia.

During the years of their residence in Ottawa, Dr. and Mrs. Marshall have made many warm friends, many of them ministers and members of the other congregations. At the gathering of last night messages of felicitation and last night messages of felicitation and godspeed were voiced by Rev. A. N. Frith, Rev. C. G. Hepburn, Rev. Dr. W. T. G. Brown, Rev. Wesley Megaw, Rev. H. I. Horsey. As chairman Mr. R. A. Sproule told of the regret felt by the congregation at the loss of Dr. and Mrs. Marshall, who had endeared themselves in so many ways not only by the outstanding ability and fearless justice of the pastor but in the spirit of graciousness that had always been a part of Mrs. Marshall's charm, despite recurrent illness.

The appreciation of the congregation was expressed in tangible form by the presentation of a purse of gold to Dr. Marshall and a silver buffet set to his wife, the address being read by Dr. and Mrs. E. R. Cameron. In reply, Dr. Marshall told of the happy years spent in the First Baptist church and the ties of friendship that would always bind him to his old pastorate, Mrs. Marshall, who received the guests with her husband and Mr. and Mrs. S. S. Morrell, carried a beautiful arm bouquet of American Beauty roses, the gift of the young ladies of the congregation.

The musical programme unusually enjoyable was directed by Miss Bertha LeV. Worden. The opening number was an instrumental quartette by Mr. and Mrs. E. A. Parson, Miss B. Waterman and Miss Agnes Mulligan. Delightful vocal numbers were given by Miss Marjorie Henderson, soprano; Mr. Keith Garrook, tenor; and Miss A. Mulligan, contralto. Miss Worden was the accompanist.

Quantities of lovely flowers and plants were used in decoration. Refreshments were served by the ladies, the guests seated at small tables centred with flowers.

LARGE DECREASE IN N.S. FISHERIES

Drop of Nearly Two Million Dollars in Value Last Year

OTTAWA, May 13.—Statistics of the fisheries of Nova Scotia for 1923 show a decrease in total production for that year as compared with the previous year, says the Bureau of Statistics. The value of fish marketed fresh and canned, cured or otherwise prepared, amounted to \$8,448,385 in 1923 compared with \$10,209,258 in 1922, a decrease of 17 per cent.

The cod fishery shows the largest decrease, the value of the product having dropped from \$3,555,637 in 1922 to \$2,434,492 in 1923. The lobster fishery in 1923 displaced and took first place in order of value with a product valued at \$3,081,647, a slight increase over the previous year. The increase in total value of lobster production is due to higher prices, the quantity of the catch being less than in the previous year. Decreases in catch are shown for nearly all of the chief commercial fishes.

ELECTIONS IN B. C. JUNE 20

VICTORIA, B. C., May 11.—Friday, June 20, has been fixed by the Government as the date of the general Provincial elections. Nominations will be made May 30. Announcement of this date by Premier Oliver followed the formal dissolution of the Legislature by the Administrator Chief Justice Macdonald, just before noon.

Of Moncton writes: "It may be gratifying for you to learn that nowhere throughout the whole of the United States were we able to obtain chocolates that we considered as good as yours". The process of wrapping candy is an interesting one. Take the

old fashioned favorites, Molasses Kisses. Several automatic machines cut these to size, wrap and twist at both ends the paper, used to cover. Each of these machines works at the rate of 130 wrappings a minute. It is estimated that a total of 13,600 cars, or 5,400,000 boxes, of lemons will be produced in California this year, a record crop.

WOLFVILLE'S EMBRYO PARK

Considerable public interest has been manifested in the work which has recently been set in operation in the direction of providing a tourist camp-site that will eventually develop into a park that will prove a real credit to the town. Those who have visited the scene of the Board of Trade's activity have been surprised and delighted with the possibilities in view. So far only a beginning has been made in what should be an aggressive community undertaking. The whole brook from Main street to Gaspereau avenue might be easily made a thing of beauty instead of the public dump into which it has been allowed to become. A thorough cleaning of the bed and banks should be at once undertaken. This with the improvements which the street authorities have in contemplation on Willow avenue would effect a change in that section of the town such as would well repay the effort expended. An inspection of the whole section affected on the part of citizens should convince that the proposed work is well worth while, and if accomplished would very materially improve the town. Residents of the east end would especially profit by having the present conditions remedied.

ANONYMOUS LETTERS

Newspaper correspondents frequently come in for unmerited criticism because they refrain from appending their names to their communications. No doubt in many cases those who have useful suggestions that would be of unquestioned public value are deterred from giving expression to their views by the erroneous opinion that they are not justified in writing unless over their true name. There are cases, without doubt, where the signature of the writer adds force to the sentiment expressed, but this is only where the writer is recognized as an authority on the subject under discussion. Probably as many instances might be cited where the presence of the signature only gave an opportunity for a discussion of the writer instead of his subject. The curiosity of the reader would be better satisfied if only signed articles were admitted for publication, but in our opinion in most cases at least no really good purpose would be served. THE ACADIAN has no place for articles other than of public interest and value but such are always given a place in its columns either with the name of the author appended or otherwise, provided that, of course such name is known to the publishers.

CHURCH UNION

THE ACADIAN has no desire or intention of discussing the subject of church union. There have been enough who have made themselves ridiculous in this connection without our having to take a hand. Very much of the time occupied by speakers on both sides while the subject has been up for consideration before the various legislative bodies might, in our humble opinion, have been much more profitably spent and a considerable pecuniary saving effected for the people thereby.

Moreover we have been wondering why the need of this question being considered by all the provincial legislatures of the country. Why might it not with absolute safety have been left to the federal authorities as in the case of many equally important issues? If it must be pronounced upon by the provincial governments, why not by the county and town councils? Given the same treatment in the other provinces as is handed out in Nova Scotia the bill might be loaded up with amendments which the federal authorities when they came to deal with it would find difficult to adjust.

OLD CEMETERY IMPROVED

When our editorial on the old Main street cemetery was written last week it described truthfully the conditions as they existed in that sacred enclosure. Before THE ACADIAN had reached its readers, however, the town authorities had become busy and as a result of their activity the cemetery now presents a much improved appearance. The weeds and bramble have been removed, the walks cleared and graded and when the sunshine and showers have done their work during the next few weeks these premises will have become a thing of beauty and a credit to the community in place of the disgrace which it has been during the past year or more. It is the intention to exercise a strict supervision of the grounds during the summer, keep the grass neatly trimmed and the present creditable appearance maintained. It is hoped that friends of those who lie buried in this cemetery—either at home or absent—may evidence an interest in the work and assist by generous contributions in carrying it on, as much might yet be done, if funds were available, in the way of further improvements.

An improvement in conditions at the railway station is being instituted for the present season. There will be no more pulling and jostling of passengers on the platform by hotel and taxi men as these will be kept outside the chain which the railway authorities have recently placed at either end of the station. In addition to this a police officer will always be on hand at the arrival of trains as well as a representative of the Board of Trade who will furnish visitors all needed information. Wolfville is expecting a large influx of tourists this summer and is preparing to be in a position to use them well.

The first attempt to introduce professional baseball into the Annapolis Valley is to be given a trial during the coming summer. In other places it has proved disastrous to the spirit of true sport, and its operations here will be watched with interest. In the meantime there will be the usual number of amateur teams who will play good ball.

"There is no institution in any town which does more or as much to build up the community as a well edited newspaper and most papers are as well edited as the town they serve warrants by their patronage."—From an address on community building.

WHAT THE NOVA SCOTIA PUBLICITY BUREAU WILL DO

(Issued by the N. S. Publicity Bureau)

1. The Bureau has prepared and has arranged to insert illustrated advertisements in eleven of the largest and most influential newspapers of North America.

2. The Bureau will distribute hundreds of thousands of booklets, leaflets, folders, maps and photographs describing our Cities, towns and country-rides, our scenic resources and available accommodation.

3. A steady stream of articles descriptive of Nova Scotia will be prepared for publication in newspapers and magazines abroad. In these articles we will acquaint prospective visitors with the recreation facilities and delights of such places as Old Louisbourg, the Bras d'Or Lakes, historic Halifax, the Gulf Shore, the wonderful scenery of Guysboro county, the romantic South Shore and myriad attractions of the Annapolis Valley, the Annapolis Basin and Yarmouth county.

4. Thousands of photographs depicting our scenery, fishing and hunting regions, improved roads, quaint seaside villages, picturesque towns and delightful outdoor life will be furnished to newspapers publishing picture supplements and to other periodicals. Cinematograph films descriptive of Nova Scotia will be made and released to theatres abroad.

5. Specially conducted parties of tourists will be brought into the Province. Some of these are now being arranged for.

6. Inquiries from prospective visitors and others seeking any information about Nova Scotia will be attended to PROMPTLY and EFFICIENTLY.

7. Tourists entering and leaving Nova Scotia will be given advice and direction.

8. The Nova Scotia Publicity Bureau will bring hundreds of thousands of summer visitors into the Province to flood our hotels, summer camps, farm homes and other boarding places and every body will benefit.

Transportation people—Railways, Steamships and Taxis—will benefit because tourists must have conveyances. Proprietors of hotels, summer camps, farm homes and other boarding places will benefit because tourists must be housed.

Merchants will benefit because tourists will buy clothing, leather goods, rugs, sport goods, household articles, books, magazines, confectionery, souvenirs, antiques and curios.

Farmers will benefit because tourists have been appetite for sea foods. Contractors and builders will benefit because tourists frequently build summer homes.

Traders will benefit because tourists buy oil, gas and other auto supplies.

WHAT IS NEWS?

(Winchester Press.)

The daily press in particular, and newspapers in general, received a rather vicious overhauled by a prominent city clergyman recently for what they did publish as well as for what they did not publish. Referring directly to the unnecessary and undue prominence given the notorious criminal "Red Ryan" by certain newspapers, the clergyman did not discriminate, but included the newspapers in general in his denunciation. He wondered why good men did not

receive the same prominence in the newspapers as the notorious criminals. There are, of course, exceptions to every rule, but generally speaking the press of Canada is fairly clean, fair and just. Speaking more particularly for the weekly press, we believe that no agency is doing greater good in the way of promoting civic enterprise and orderly living than the weekly press of Canada. But what is "news" for the newspaper? If John Jones gives his wife a kiss when parting in the morning, the event is not recorded. But if John Jones gives his wife a thumping and nearly breaks her head every one in the town will be looking for a write up of the event in the next issue of the local paper. If Frank Brown gives his employer good service and is not afraid to work over-hours, it is accepted as a matter of course, and no one mentions the fact in particular. But if Frank Brown steals a sum of money from his employer, every one is talking about it and the news is the first looked up in the next issue of the local paper. So, when the clergyman in question seeks to regulate the kind of news that should be published, he simply does not know what he is talking about. It is a newspaper's business to comply with the desires and the demands of the general public in way of furnishing news. All the same, editors suppress much that might prove interesting reading, and set many tongues a-wagging, simply because they do not wish to give publicity to incidents that bring sorrow and shame to many good people who are innocent victims. We think on the whole the average editor may be trusted for wise discrimination as much as the average clergyman.

CHANTEY

A wet sheet and a straining sail,
And a sea of shifting blue;
A wide sky and a rousing gale,
And joy in the heart of you;
A clean line, where the sky hangs low
And a seagull soars and dips;
And the old voice that bids men go—
Go down to the sea in ships.

So go and sail the gold sea, the bold sea,
The cold sea,
The waving, craving, raving sea that's
fringed with silken foam;
Oh, go and sail the green sea, the keen
sea, the mean sea,
But if it's all the same to you, I'll stick
around at home.

The swift twang of the night-wind's whim
And the turn of the hempen strings;
The sharp snap of the halyards slim,
And the spray that cuts and stings.
The wild chorus the breezes hum,
And the waves that prowl and creep;
And the old voice that bids men come—
Come over the tameseep deep.

So go and sail the white sea, the light
sea, the bright sea,
The dashing, crashing, smashing sea,
That dances in the gale;
Go on and sail the sad sea, the bad sea,
The mad sea,
But if it's just the same to you, I'd
rather be in jail.

HANTSPORT HAPPENINGS

Helping Hand Rebekah Lodge, I. O. O. F. No. 40, celebrated its eighteenth anniversary on Friday evening. There was a large attendance. After the usual routine of business all present took their places at beautifully laden tables. After partaking of the "good things" a social hour was spent.

The Ladies Missionary Society in connection with the Baptist church met at the home of Mrs. L. V. Marsters on Tuesday afternoon. After the transaction of business a dainty repast was served by the hostess.

Dr. Mellick spent several days in Bridgetown last week.

Miss Gladys Frizzle, of THE ACADIAN Office, Wolfville, spent the week end at her home here.

Mrs. Geo Woodworth, of Kentville, visited at the home of her brother, Mr. J. K. Allen, last week.

Miss Campbell, who is in charge of the adv. ed. primary department of Hantsport school, was called to her home in Bear River on Thursday on account of the serious illness of her sister.

Miss Thelma Beazley left on Monday for Wolfville, where she has accepted a position in the telephone office.

Mrs. Handley Loomer and little daughter Alice, of Summerville, Hants Co., were guests at the home of Mr. and Mrs. L. V. Marsters en route to the United States, where the latter will receive treatment.

Mrs. F. Hart returned on Saturday from a visit with relatives in Milford. Her mother, Mrs. F. Gordon, accompanied her on her return and is the guest of her sister, Mrs. (Dr.) Dickie.

Under the auspices of the Social Service Council a union meeting of the different churches was held in the vestry of the Baptist church on Wednesday evening.

Mrs. R. W. Churchill and daughter Miss Elsie returned to Hantsport last week after an enjoyable visit of several weeks at the home of Mrs. Churchill's parents, Mr. and Mrs. Armstrong, St. John.

The annual Thankoffering meeting of the W. M. S., of the Presbyterian church, was held at the home of the president, Mrs. (Dr.) Dickie, on Wednesday afternoon of last week, with a good attendance. At the close an hour was spent in social intercourse and delicious refreshments served.

Mrs. McCaughin, of Parrsboro, was in Hantsport last week. We understand that she has purchased a building lot on Prince street from L. V. Marsters.

Mrs. F. Coffil and Mrs. M. Perry attended the closing of Kings College, Halifax, last week. They returned home on Friday accompanied by their daughters Misses Annie Coffil and Foye Perry. Miss Perry was one of the "Aris" graduates this year.

Capt. Baird, of Windsor, was in town on business on Thursday.

AVONLEA DIVISION NO. 991 Mt. Denson.

(From Forward.)
Was re-organized on April 14th, under auspicious circumstances by the Grand Worthy Patriarch, Bro. Macaskill, with 29 members. Three members were initiated on Friday night, April 25th, and two on May 2nd.

Interesting programs are being given and a deep interest in the Temperance Cause is taken by all, producing an excellent influence on the community. We hope to make this our banner year. The following officers were elected for balance of Quarter:

- W. P. - Bro. H. F. Lynch.
- W. A. - Sis. Mrs. H. L. Shaw.
- F. S. - Sis. Miss V. Bowly.
- Treas. - Sis. Mrs. C. Rose.

WHAT MAKES GENIUS?

In the days of Turgenev and Tolstol, of Dostoevski and Chekhov, only half the Russians who lived in the cities could read and write and hardly one in 10 of dwellers in the country. It was a curious happening that the most illiterate country in Europe should have produced at least four writers greater than any four from any other nation.

Today the appalling illiteracy of Russia is being conquered, but the people are not turning to their own classics. They are reading what book reviewers call "virile, wholesome fiction". It is entertaining and harmless but it is not great, as "Smoke" and "War and Peace", "Crime and Punishment" and "The Cherry Orchard" unquestionably are. And no one in Russia today is writing anything that is comparable to the novels and plays of the great age. It is an interesting matter to puzzle over.

TOWN COUNCIL MEETING

The regular monthly business meeting of the Town Council was held on Tuesday evening, May 6th. Present, Mayor Murray, Councillors Bishop, Lawrence, Kirkpatrick and Churchill. Minutes of last meeting read and approved.

The following accounts were passed for payment:
F. Sweet, \$ 75
J. L. Hatfield, \$10 50
Manson Sanford, \$ 3 60
S. Smith, \$42 60

A communication was read from the fire chief stating that one hydrant needed new packing, and one new length of hose was needed. Moved by Coun. Churchill, seconded by Coun. Lawrence, that the clerk order one length of fire hose.

The matter of lease of office to the Canadian Bank of Commerce was again brought up at the request of the manager of the bank. Moved by Coun. Kirkpatrick, seconded by Coun. Smith, that terms of lease remain the same as in the past.

Moved by Coun. Churchill, seconded by Coun. Lawrence, that the Town Clerk be authorized to use monthly statements showing each ratepayer their indebtedness to the town. Moved by Coun. Kirkpatrick, seconded by Coun. Bishop, that civic proceedings be started against all properties owing taxes back of the year 1923.

Moved and seconded that council engage someone to clean firemen's room. The matter of procuring gravel for the streets was left in the hands of the street committee.

DIARY OF MARGARET DICKIE

(Continued from last issue.)
Jan. 15th, 1848. This has been a beautiful day. When I went to bed last night I had the new books on my mind and did not go to sleep till twelve o'clock. I awoke early and arose before six, and got breakfast ready and one book looked through before any of the others were up. I got the work done up by ten. Mr. Fitch came in and then went to Mr. Shaw's to dinner.

Soon after dinner Hibbard came up and brought me two letters from St. Martins, and two for Grandma and one for Uncle Edward Kelly. Then Sam Marsters came down. Hibbard found my diary and read some of it to Sam who said when I got this book written through he would give me a new one. James Mills came in. I hardly knew him. Soon the singing master came along and we went down to Mrs. Nunn's to sing. There were not many there; we learned the "Village Bells", staved till dark then came home. James Mills was here to tea, then we all went down to the meeting house to singing school. The boys were still for a while, but soon got noisy. They fastened up the door but it was burst open by John Shaw. We had a good singing school. Mr. Fitch came home with us and we sat up till midnight singing. Mr. Fitch takes pains to teach us. I like the tunes in the "Boston Academy". He was also teaching us the Farmer's Boy.

Ann came up from singing school and stopped all night.

Jan. 16th. I arose this morning and made a fire about daylight. After breakfast Mr. Fitch sang some, then went home. It rained last night and has been cloudy all day. We all went to meeting but Robert, Mother went to hear the preaching but was disappointed. Mr. Vaughan being sick. After dinner we read some, then John Michener came for us to go to Meroy's in the evening for a sing. Father went to Grandma's. The roads are very muddy.

The rest of this old diary was lost. On Jan. 4th, 1849, Margaret Dickie was married to Simeon Mitchener. The next account I have of the doings of the Hantsport folks begins the following May, 1849. (Mrs. Nettie McKay)

WOMEN'S INSTITUTE

At the monthly business meeting of the local Women's Institute on Friday afternoon a number of important business matters were brought up for discussion. A communication was read from Mr. A. J. Campbell, secretary of the N. S. Publicity Bureau, Halifax, re the tourist question.

Moved and seconded that a vote of thanks be extended to Rev. (Dr) Mellick for his very interesting and instructive illustrated lecture in the Empire Theatre, under the auspices of the Institute. Dr. Mellick exhibited some very beautiful views of the natural parks, waterways, and mountain scenery of Canada. A vote of thanks was also extended to all those who assisted in anyway to make the evening a success.

"The Resources of Nova Scotia" was the subject for the literary part of the meeting. A very interesting paper Resources of Nova Scotia (in general) was read by Mrs. (Dr.) Dickie. Mrs. R. Laurence gave a reading on the fisheries, Mrs. W. A. Bradshaw on forestry, and Mrs. J. Lyon on the gardens of Nova Scotia. Altogether the meeting proved very interesting. The literary part of the programme for the next monthly business meeting will be of a miscellaneous nature.

UNION SUNDAY SCHOOL HOLDS MOTHERS' DAY SERVICE

On Sunday "Mothers Day" was observed in the different churches here with appropriate sermons and music. In the Methodist church in the evening an interesting programme was presented by the Union Sunday School. Much credit is due to Mrs. S. St. Clair Jones, who presided at the organ and under whose direction the musical numbers were prepared. The following programme was rendered:

Presentation of "Good Wishes of the school to Mothers", by the pastor Rev. A. B. Higgins.

Exercise by the primaries, "Toast to the Carnation".

Solo, "O Happy Home", Mrs. George Kewley.

Recitation, "My Mother", Mona Beazley.

Solo, "Little Sunbeams", Alice Hall. Recitation, "Mother Mine", Elsie Perry.

Duet, "Mother Knows", Misses T. Beazley and H. Palmer.

Exercise by Intermediate girls, "Tributes paid by great men to their Mothers".

Recitation, "The Mothers", Miss H. Stoddard.

"Beautitudes on Mothers", by Primaries.

An inspiring and impressive address was delivered by Rev. Dr. Dickie, subject, "The School of a Mother's Heart". A large congregation was present.

PRESENTATION TO DEPARTING CHOIR MEMBERS

On Thursday evening the choir of the Baptist church was very pleasantly entertained at the home of one of its members, Mrs. H. L. Smith. During the evening Mr. and Mrs. George Holmes were presented with a beautiful leather club bag by Miss Claire MacDonald, organist and choir leader, in behalf of the choir. Mr. Holmes responded in a few well chosen words. It is exceedingly regretted by all that Mr. and Mrs. Holmes, with their daughter Miss May Holmes, purpose leaving Hantsport to make their home in the United States in the near future. They will not only be missed in the church where they have been most faithful in performing the duties devolving upon them, but also in the social life of the community as well.

At nine o'clock those assembled repaired to the dining room where covers were laid for fourteen. The tables looked most inviting laden with dainty viands and floral display, the centre piece being a three tier pyramid cake, beautifully decorated, which was cut by the guest of honor, Mrs. Holmes. MAPLES DEFEAT OLD TIMERS

The "Maples" won their fifth game of basketball by defeating the "Old Timers" of Hantsport by a score of 42-25 in the gymnasium on Tuesday evening of last week. Bishop, Beazley, and Folker did most of the scoring for the "Maples", while Smith and Parker scored for the losers. The "Maples" have only lost one game during the season. The line-up was as follows:

Maples—Centre, H. Folker; forwards, F. Beazley, D. Bishop; guards, C. McDonald, K. Beckwith.

Old Timers—Centre, S. Harvie; forwards, K. Parker, M. Smith; guards, E. Beckwith, L. Kewley; sub., H. Rolph.

LECTURE PROCEEDS FOR CEMETERY FUND

Dr. Mellick gave one of his popular lectures in Empire Theatre on Tuesday night of last week, under the auspices of the Hantsport Women's Institute. He exhibited over seventy stereopticon views of the Canadian National Parks, showing some of the most wonderful scenery in the world. Rev. Dr. Dickie was chairman. Two piano duets were beautifully rendered by Misses Claire MacDonald and May Holmes. At the close the chairman moved a standing vote of thanks to Dr. Mellick for his

most instructive lecture and to those in charge of the music, and the Women's Institute. The proceeds will be used by the Women's Institute for the Cemetery Fund.

THE WOLFVILLE ELECTRIC COMMISSION Report of Superintendent

The Wolfville Electric Commission, Wolfville, N. S.

Gentlemen:—

I submit herewith a report covering the operations of the Electric Light and Power System of the Commission for the year 1923.

The improved financial condition of the affairs of the Wolfville Electric Commission which was shown at the end of 1922 continued in 1923. The statement submitted by the auditors will be very gratifying to the citizens of the Town. The books of the system show the following results:—

End of 1921	\$2230.55 Deficit
End of 1922	643.97 Deficit
End of 1923	5093.40 Surplus.

It must be pointed out that these figures, although giving a true basis for comparing the standing at the end of each of the three years, do not show the real deficit or surplus as no payment has actually been made in any of the last three years into the Sinking Fund. This obligation, up to the end of 1923, has accrued to \$2012.42. It is the intention of the Commission, further, to apply to the Board of Public Utilities for authority to establish a depreciation fund effective from 1923 to provide for future contingencies and renewals of poles and line material. This sum has been tentatively set at \$1000.00, and with the sinking fund arrears amounts to \$3012.42 which is included in the Accounts Payable in the balance sheet, and will be paid into the respective funds in 1924.

The result of the past year's operations have made the way clear for

the Commission to give the public the benefit of lower rates. By resolution of the Commission the following changes are being taken in hand:—

1. Abolishing of Meter Rents.
2. A Ten Per Cent. Reduction in Lighting Rates.
3. Improvement in Street Lighting System.

During the past year the electrical generating equipment and the oil engine in the Power House were sold for a total sum of \$3839.69. It is the intention to use this sum for further plant investment when such is necessary.

With regard to the Sinking Fund, the present payment of \$640.00 per year, which is the minimum authorized by the Act relating to the Commission, might be increased. Assuming that our funds continue to earn at least five per cent. on investment, the annual payment, if increased to \$950.00 would just provide sufficient funds to retire outstanding bonds to the value of \$25,000.00 and \$7,000.00 due in 1940 and 1942, respectively.

During 1923 beyond the expense of repairs, renewals and minor improvements to the system no large expenditures were made. However, the recording of some of the features of the season's work may be of interest.

Early in the year the Commission decided to make electrical energy available in Wolfville for power and heating at the lowest possible rates. The Gaspereau River Light, Heat and Power Co. Ltd. agreed to furnish power for such purposes at 2 cents per kw. hr. For lighting purposes the rate paid is 4 cents per kw. hr. A rate to consumers in town of 4 cents per kw. hr., less 10 per cent. paid in 10 days, for power and heating purposes was approved by the Board of Public Utilities, effective from January 1st, 1923. This gives Wolfville practically the lowest rate for electrical ranges for any town or city in the Maritime Provinces. That this rate is being taken advantage of is shown by the fact that at the end of the year there were eleven electric ranges installed, whereas previous to 1923 we had no range load.

For the three months, July, August and September, the average monthly range consumption for residences was 143 kw. hrs., while for the three months October, November and December the corresponding consumption was 160 kw. hrs. These amounts of energy, at 3.6c. per kw. hr., net, result in a cost of \$5.15 and \$5.76 per month respectively. These average costs show the comparatively low expense of electrical cooking. Add to this the extra convenience and cleanliness, and the decided advantage of the low rates offered on 'white coal' in Wolfville is very evident. However, it must be remembered that a kitchen for warmth, during the winter, must have other heating besides the electric range. The profit to the Commission on the power and heating rate is very small, only a fraction of a cent per kw. hr., and more advantage should be taken of this rate especially in respect to electrical ranges.

Our lines with the renewals and repair work which has been done during the past three seasons are now in fairly good shape. There are still sections of town where the matter of light voltage results is not good service, but this is usually a result of long secondaries and small wire, and perhaps can be improved soon. Small service wires, if loaded to any extent, and poor house wiring result in low voltage, and the latter cause is always a direct loss to the consumer which can only be remedied by having the wiring brought up to standard. The interference of trees causes a good deal of trouble with our lines.

The lighting, range and motor loads of the system are increasing steadily. The records of the past two years show the following results:—

Year	Energy Purchased Kw. hrs.	Energy Sold Kw. hrs.	Line and Transformer Loss.	Per Cent.
1922	252,700	206,000	46,700	18.4
1923	263,600	227,300	36,300	13.8
Total energy sold, 1922.....		206,000 kw. hrs.		
Total energy sold, 1923.....		227,300 kw. hrs.		
Increase.....		21,300 kw. hrs.		
Per Cent. Increase.....		10.3		
Energy sold for power and heating, 1922.....		39,974 kw. hrs.		
Energy sold for power and heating, 1923.....		48,630 kw. hrs.		
Increase.....		8,656 kw. hrs.		
Per Cent. Increase.....		21.7		

Measurements made during the past summer of the night lighting load in different sections of the town show average transformer loads of 60 to 180 watts per house. Using the average figures of 150 watts per house, and which is used by a good many electrical companies, we find the majority of our transformers not over loaded. Regarding the two or three exceptions to the last statement some rearrangement of changes will be carried out soon.

After tabulating the transformer loads as determined above the secondary loads off our primary lines were rearranged to a moderate extent so that now the loads on the three phases of our primary lines are balanced about as well as is possible. This condition, of course, gives the best operating results.

The following data relating to our system will be of interest:—

Number of Transformers supplying lighting and range loads, 19.
Total Capacity of same, 130 K. V. A.
Total Installed Motor Load, 55 H. P.
Total installed Transformer capacity for same 53 K. V. A.
Meters in Service, 450.

In order to compare our rates with those of other Nova Scotia towns the following data is presented:—

The Newspaper Has the Greatest Advertising Influence

The Women's Advertising Club of Los Angeles, working through the Women's Clubs of that city, conducted a questionnaire on advertising media and their influence, which should be very interesting to the retail advertiser. The computation was made that 90 per cent. of the buying is done by women and that millions of dollars are squandered every year in an effort to gain their attention. All walks of life were covered and the results figured on the basis of one thousand returns.

"Which of the advertising media influence you most?" was the question. The answer was announced as follows:

SCREEN GOSSIP

Max Sennett, who is responsible for "A Small Town Idol", is a Canadian by birth, but of Irish extraction. He was born in the village of Danville, Quebec, in 1880. Both his father and mother were born in Ireland, and migrated to Canada in their youth. So the comedy king is Irish in every racial impulse, tendency, and sentiment. As a boy the future purveyor of screen humor was possessed of a voice of radiant beauty, and, when age robbed his tones of their limpid soprano quality, found in generous substitution a baritone of great range and expressiveness. This decided tendency towards music carried Mack Sennett into the conventional experiences of choir boy, and later into musical comedy and vaudeville.

Reginald Denny has been temporarily laid up through an accident. After an exhaustive search, Carl Laemmle has been able to secure a successor to Denny in the part of "Kid" Roberts, in the person of Billy Sullivan, a nephew of the famous J. L. Sullivan. When the studio folks took up a home projector and miniature screen to Denny's bedroom, just to show the invalid how Sullivan, his successor, was doing, the former "Leather Pushers" hero wired Carl Laemmle—"I want to express my heartiest approval of the new hero in 'The Leather Pushers', and I congratulate you on signing the best man for the role."

According to a New York paper, the Methodist church in the United States has taken up moving pictures in a very serious way. It is at present actually engaged in producing short subjects for showing in the various parish halls throughout the country. Later on feature pictures may be made. The church people have found the showing of movies to be a wonderful way of getting the young people to become churchgoers.

"Secrets", which Norma Talmadge believes to be her best achievement, was adapted from the play and directed by Frank Borsage. The story opens with Miss Talmadge at the age of 73, and as she nods to sleep over her diary, reveals four separate episodes in her life. It is difficult, after seeing Miss Talmadge in the flaming desert film, "Song of Love", to imagine her anywhere near 70, even with make-up.

According to a recent announcement "Bill" Hart will make no more pictures for the Famous Player-Lasky Company. Bill's ambition is to make a film based on the life of Patrick Henry, but his employers couldn't agree with him on that among other things. Mr. Hart, owing to matrimonial difficulties, income taxes and general expenses, is seriously thinking of returning to the stage, from whence he came some fourteen years ago to the films.

Chauncey Depew is one of the motion picture "stars" who has been appearing at some of the New York theatres. Mr. Depew, who is only 90 years of age, is the first great living American to appear in the De Forest Phonofilm. He was photographed and his personal experiences with Abraham Lincoln.

Myron Selznick has sailed for England to make a picture called "The Passionate Adventurer". Mr. Selznick, among other things, produced "Rupert of Hentzau" and "The Common Law". This, however, will be the first picture he has ever made in England. He hopes to meet the Prince of Wales in person.

Marcus Loew declares that he is determined to make a moving picture based on the novel "Bread", written by Frank Norris. Mr. Loew is in a strategic position, inasmuch as he has not only the facilities for making a picture but owns or controls several hundred theatres to show it in.

John R. Bray has gone to England to discuss the forthcoming film productions based on "The Outline of History" with the author. Mr. Bray is a specialist in the cartoon type of picture, and if he can secure the consent of H. G. Wells will film "The Outline" in that form.

The interesting question as to what colors are at the top of the world will be answered by the cinematographic record of the Mount Everest expedition of 1924. One of the most impressive results of the film of this hazardous climb up the world's highest mountain is expected to be the revelations of the colors seen at the top of the world, as Mount Everest is called in the East. An arrangement has just been made by Explorers' Films, Ltd., with Spectram Films, Ltd., whereby the color process invented by Mr. Claude Friese-

Greene will be used in photographing many of the beauty spots high above the habitations of man.

A great historical film, "Becket", from Lord Tennyson's historical play, is being produced by the Stoll Productions in London. The murder of Thomas A. Becket, at the order of Henry II., is history; but the story behind that murder might have been fiction, so full of drama and romance is it. The Stoll Picture Production of "Becket" is based on the play written by Alfred, Lord Tennyson, which proved such a vehicle for the art of the late Sir Henry Irving, and the picture reproduces on the screen the drama and romance that history and the play provide.

Something like \$750,000 is being asked by John Golden for the motion picture rights to "Lightning", "Chicken Feed", "Thank-U" and "Seventh Heaven". What's more to the point, he is apt to get it. The Warner Brothers, a most progressive group of young men, are said to be probable purchasers. The Warners paid enormous prices for "Daddies", "Main Street", "Baby Face", and "The Gold Diggers", but it is doubtful if any of these pictures will prove as popular as "The Marriage Circle", which cost them practically nothing.

Reginald Barker has chosen two of the screen's greatest character actors for leading parts in his new picture, "Cape Cod Folks". They are Frank Keenan and Joseph Dowling.

HINT TO THE HOUSEWIFE

How to drive a nail without effort: Ask your husband to drive a nail. He will inquire: "Where's the hammer?" Tell him it's where he left it the last time. He will inquire: "Where's that?" Ask him how you should know. He will reply: "Well, who should?" Ask him if he married you so that you might keep track of hammers. He will answer: "Darned if I know what I married you for." State that neither do you. This will hit the nail on the head. If necessary, repeat.

EARLY FARMING IN NOVA SCOTIA

The first settlement to leave its permanent impress on Nova Scotia was that made by the French at Port Royal in 1605. In this year and at this spot was grown the first wheat ever raised in America and here in the same year was erected the first water-wheel to turn millstones for the grinding of wheat on the North American continent. From this time until 1775, the French population was practically the only European population in Nova Scotia. It is noteworthy that these French people selected lands that are today the highest priced in the Maritime Provinces, such, for example, as the Annapolis Valley and the marshland areas along the headquarters of the Bay of Fundy. They were not, like the later British settlers, ready to win farms from the forest, but preferred to utilize these marsh lands which they could wrest from the sea by means of dykes similar to those their forefathers had learned to construct on the Bay of Biscay. With the exception of a few cattle landed on Sable Island in 1518 and others brought out by Cartier in 1541, which were subsequently destroyed, the first permanent introduction of domestic cattle into this continent was at Port Royal, where, in 1606, Poirineau brought some cows. By the middle of the 18th century the early French settlers had gathered together many thousands of cows, oxen, sheep and hogs.

The reason it is so easy for a woman to manage a man is that after centuries of futile resistance he has come to the conclusion that it is easier to let her have her own way and be done with it.

Wants to Be Serious

Ben Turpin, famous comedian, met, and the St. Anne Basilica in course of erection.

"YES!" Ben Turpin is permanently cross-eyed, though his feet are not the monstrosities they appear when made up for the screen. Becoers who discovered this when he and Mrs. Turpin stayed at the Chateau Frontenac recently were also surprised to find them a most retiring, modest, quietly dressed and devoted couple, quite unlike the movie people one imagines.

The manner in which Mr. Turpin has risen supremely over the handicap of these famous eyes is an example of the courageous turning of an impediment to good account. "I love serious acting," said Mr. Turpin when interviewed on the Canadian Pacific en route to Montreal, "and long to play tragic roles, but, of course, I haven't the looks. So I do the next best thing—I make people laugh. Moreover, it's a pretty hard job being funny all the time. Often I feel more like crying. But I've got to make 'em laugh or my head will be chopped off."

Ben is an American of old stock but Mrs. Turpin is a French Canadian. Hence this was not by any means the first visit of the comedian and his wife to Quebec, but the trip on this recent occasion was somewhat in the nature of a pilgrimage from Los Angeles to the Shrine of Ste. Anne de Beaupre.

Ste. Anne de Beaupre will again this year, be the Mecca of thousands of pilgrimages. The new Basilica, work on which is being hurried as much as possible will not be ready for occupation for some two or three years yet, but the little wooden church which, since fire destroyed the old Basilica, has housed the shrine, is serving a useful purpose and this summer will no doubt see many sticks and crutches added to the pile within its doors.

WHY PLANT TREES?

Trees add value to the property. Trees cool the air in summer and retain warmth in winter. Trees furnish homes for thousands of birds that help man in his fight against injurious insects. Trees furnish homes for many animals that are useful to men for food and clothing. Trees help man in his fight for better sanitation.

Trees help to keep the air pure for man and the lower animals. Trees supply a large part of all the fuel in the world. Trees give us wood, and wood furnishes us with building material, furniture, implements, utensils, tools and other useful things. Trees furnish one of the most striking and permanent forms of beauty. Trees improve the climate and conserve soil and water.

MOTHERS AND DAUGHTERS MARCH TO CHURCH

Sunday was a full day in the Baptist church. In honor of mothers the church was beautifully decorated with cut flowers. Fifty mothers and daughters marched in procession to seats reserved for them, led by Mrs. Elderkin, teacher of the Philathea class and her mother, Mrs. Hatfield, who is ninety years of age. The Senior class of the College, numbering fifty-two, also marched in cap and gown.

Dr. Marshall, in his sermon, made fitting reference to both events. At the close of the service, eleven Seminary students were received into the church. Mother's Day was also observed in the Sunday School with interesting exercises.

The first salmon to be taken from the Gaspeau river this season was caught by Policeman Crowell on Saturday. It weighed eight and a half pounds.

GEORGE SHEARER

The death of George Shearer, a former well known resident of Grand Pre, took place at Digby, where for the past few years he has made his home, on Wednesday. The deceased was born in Scotland and was in the 70th year of his age. In early life he resided in P. E. I., where he married his first wife, Miss Margaret McDonald, of Georgetown, who died 35 years ago. By this marriage he leaves one daughter, Mrs. C. B. Chesshire, with whom he has made his home for the past four and a half years, since the death of his second wife, who was before her marriage Miss Emily Weatherby, of Halifax. Many years ago Mr. Shearer came to Grand Pre and purchased the place now occupied by Mr. Leslie Treholm, where he was a successful farmer and fruit grower. He was an active member of St. George's Lodge's A. F. & A. M. The remains will be taken to Halifax for interment on Friday.

An illustrated lecture was given by R. W. Tufts, federal migratory bird officer, in the Baptist church on Monday evening to the pupils of the Wolfville school.

At the close of the evening service at the Baptist church last Sunday the rite of baptism was administered to three candidates by the pastor, Rev. Dr. Marshall.

The ACADIAN has received a daintily printed folder containing the program of the Mt. Allison University closing exercises which are to be held on May 16-21.

We understand that Mr. Hugh Fowler has purchased from Mr. C. M. Gornley a lot on Highland avenue upon which he plans to erect a residence for himself in the near future.

In a good game of baseball played on the Campus yesterday afternoon the Town team defeated the College team by the score of 3 to 1. The batteries were Munro and Barteaux for the Town, and Brown and Phinney for the College.

"One sees evidence of a lower standard of morals everywhere in women's inmodest styles, in their speech and conduct, the jokes that girls laugh at, the books and plays they revel in and their views about marriage." See "Prodigal Daughters" at the Orpheum, May 21-22.

Westwood hospital has been unusually busy during the past few weeks. Patients from different sections have been receiving treatment and the accommodation has been fully taxed. The hospital is growing in popularity and is recognized as a very valuable institution.

A fire in the Randall Woods caused quite an excitement shortly after noon on Sunday. The shrill tones of the fire whistle gave the alarm and firemen and citizens repaired speedily to the scene and extinguished the flames without much damage. Small boys were responsible for the mishap.

At the regular meeting of the Sir Robert Borden Chapter of the I.O.G.E. held last week, the sum of \$200 was voted to the emergency fund of the V.O.N. Mrs. Phinney was appointed delegate to the National Convention meeting in Toronto in June and the sum of \$100 donated towards her expenses.

The town teams have been at work removing the rubbish from the brook on Willow avenue during the week. This accumulation of years' being removed to the dump where it should have been deposited in the first place. The work is a most commendable one and should be continued until the whole section is put in a satisfactory condition.

The turn-out of citizens at the Tourist Camp site on Wednesday afternoon was disappointing. Some good work was done, however, which will be continued next week, weather permitting. It is hoped that citizens will then evidence more public spirit and come prepared to make it a real community undertaking of which as citizens we may be proud.

In the old days when China teas were used, the method when brewing tea was to put in a teaspoonful for each member of the family and one for the teapot. This rule does not hold good today. With a blend of India and Ceylon teas, such as MORSE'S, you simply put in one teaspoonful for each member of the family; in fact even a little less will do.

At 11.30 last Saturday night the fire company was called out because of an alarm from the home of Miss Baras, at the corner of Acadia street and Highland avenue. An electric iron, which by mistake was left turned on, ignited a quantity of material and endangered the premises. Mr. J. E. Hales, who was at his home when the alarm was given, was the first to reach the scene and by quick thought and action was able to extinguish the blaze. When the firemen, who responded promptly, reached the spot the danger was over.

Last Friday evening was Acadia Night at the Orpheum Theatre, when through the generosity of N. Evans, the proprietor, the total gross proceeds, amounting to \$200, were donated to the new college building fund. Nearly every seat was taken when the lights were lowered and "The Man Who Played God" was flashed on the screen. The popular soprano, Miss Evelyn Duncanson, sang several selections, while the Seminary Orchestra accompanied. Dr. MacDonald, in a delightfully entertaining speech, referred to the fact that \$435,000 had already been assured although the campaign had not yet been launched.

INSPECTION OF FISH-LADDER REQUESTED

At a meeting of the Fish, Forest and Game Society held last week the President, Rev. D. B. Hemmson, gave a short address on "Wandering in the Wilds of Newfoundland". Dr. G. E. DeWitt was elected Honorary President of the Association. The Secretary was asked to communicate with the Fishery Officer, Harborville, asking for an inspection of the fish ladder at Gaspereau Dam and for suggested methods of improving the fish-way.

Wolfville's new fire engine arrived this week and will be tested out in a day or two.

Another three-masted schooner, the Gertrude Parsons, was in port last week with a cargo of fertilizer. This makes the fourth cargo and is the last, we believe, for the present season.

We understand that a meeting of the Valley Baseball League will be held here tonight when a schedule for the season will be drawn up. It is expected that the league will be composed of four teams, Wolfville, Windsor, Middleton and Bear River.

Apple growers of the Northwest States have decided on a nation-wide advertising campaign this year which will cost \$360,000. The advertising fund is to be raised by a levy of one cent a box. This course was decided upon at a recent meeting in Yakima.

The people of Hants county will have an exhibition on their own account in the coming autumn. Strong committees have been appointed to look after the various departments of the work and it is expected that the show will prove an attractive and interesting one.

The Women's Institute of Berwick has undertaken to raise the sum of one thousand dollars towards the erection of a new school building at that place. A like amount from the Wolfville women would do wonders in the work now being done to develop a park system in this town.

Yesterday morning H. V. Gates of the Middleton Fish Hatchery brought by truck to Kentville 40,000 trout fry from his hatchery. They were delivered on a truck in charge of Policeman Freeman Crowell, of Wolfville, who deposited them the same day in Beaver Brook and Aylesford Lakes. At the Middleton Hatchery Mr. Gates has produced two million trout. The trout have been pretty well distributed but none of the salmon have been sent out yet.

ANNIVERSARY SERVICES AT METHODIST CHURCH

The Anniversary services of Canning Methodist church, held Sunday, opened with service at 11 A. M. conducted by the pastor. The church was beautiful with flowers and the auditorium filled to its utmost capacity. Rev. Thomas W. Hodgson gave a powerful address stressing the importance of being willing to be called 'Fools for God's Sake' knowing that we have the realization that we are enjoying the true wisdom and the approval of God, which is above rubies. Special music was rendered by the choir, organist, Mrs. Charles Simnett, which was assisted by Mrs. George Osborne Bower and Mr. Gerald McElhiney. The soloist was Mrs. Bower, whose voice always reaches the heart, and the music of the morning was a foretaste of the pleasures of the afternoon. The second session of the Anniversary service was held at 3.30, when the choir assisted by Canning Orchestra held a sacred concert which will long be remembered. The orchestra has never been heard to better advantage, the programme being exceedingly well rendered. The soloist was Mr. Gerald McElhiney, who sang with the expression for which he is noted. Miss Josephine Harris and Mr. McElhiney sang a duet delightfully. Miss Harris's voice being full of sweetness. Programme: Priests' March, Mendelssohn, Orchestra. They That Trust in the Lord, Adams, Choir. Cello solo, Andante Cantabile, Tschalkowsky, Rudolf Schafheitlin. Vocal duet, The Lord is My Light, Dudley Buck, Miss Harris and Mr. McElhiney. (a) Palms, Faure; (b) Chant du Gondolier, Mazzacabo, Orchestra. Jesus Lover of My Soul, Wilson, Choir. March, Lachner, Orchestra. Vocal solo, Fear Not ye O Israel, Dudley Buck, Gerald McElhiney. The Green Cathedral, Hahn, Double Trio. Unfold ye Portals, (From the Redemption), Gounod, Choir and Orchestra. Orchestra Personnel: 1st violins—Mrs. F. F. Chute, Rev. T. W. Hodgson, Otto Schafheitlin. 2nd violins—Mrs. Walter Dickie, Dr. F. F. Chute, Wm. Payzant. Viola—Miss Dora Schafheitlin. Flute—J. Mullett. Cello—Rudolf Schafheitlin. Cornet—Mrs. Charles Cox. Piano—Mrs. Charles Simnett. Choir Personnel:—Mrs. Alfred Ellis, Mrs. F. F. Chute, Mrs. Allan Clark, Miss Josephine Harris, Miss Myrtle DeEll, Mrs. John Brown, Mrs. Walter Dickie, Mrs. Charles Cox, Rudolf Schafheitlin, Clayton Harris, Jack Mullett, Scott Blenkhorn, Gerald McElhiney, Dr. F. F. Chute. The evening service was conducted by Rev. Wilfred Burbridge, one of our own boys, who is to be ordained at the coming Conference. Rev. Mr. Burbridge spoke very fittingly and feelingly on 'Mothers' Day', paying loving tributes to the mothers. The soloist was Gerald McElhiney whose rendering of 'Ninety and Nine' was a sermon in itself. The day will long be remembered by those who came many miles to join in the Anniversary services. The collection amounted to \$160.00.

NEWS OF CANNING

S. S. Glenholme arrived with freight from St. John last week unloading a heavy cargo, and returning well laden. The monthly meeting of the Canning Branch of the Women's Christian Temperance Union was held at the home of Mrs. N. W. Eaton, Thursday afternoon, with a goodly attendance, president Mrs. Eaton, in the chair. An interesting programme of readings, by Mrs. Alfred Ellis, Mrs. L. F. Blenkhorne, Mrs. James Webster, was much enjoyed. Mrs. E. M. Beckwith left on Thursday to spend a few days with Mr. and Mrs. Hardy Vaughan, Medford. Miss Mina Burgess, who has been visiting Mr. and Mrs. Albert Harris, returned to Cambridge on Thursday. Captain Frank Barkhouse, who has been spending a few days in town with his daughters, returned to join his ship in Parrsboro. Mrs. Fred Borden, who has been visiting her mother, Mrs. Elijah Borden, Kingsport, has returned to her home, Borden Street. Mr. Joseph Schofield, whose home was completely destroyed by fire, has moved to Halls Harbor. Mr. Percy Kempton, of the staff of Canning School, a former Acadia student, was a visitor in Wolfville last week. Mrs. Alfred Ellis entertained at the tea hour on Friday, a delightful afternoon being spent. Mr. Reid Pelton has accepted a position in Massachusetts. Miss Lockhart, who has been visiting her father, Mr. Harvey Lockhart, has returned to Halifax. Miss Lockhart, of the teaching staff of Starr's P. L., spent the week end at her home in Parrsboro. Mr. G. H. Ruffee, Wolfville, was a visitor in town on Friday. The Debt Destroying League of United Baptist church, held an enjoyable meeting at the home of Mrs. Reid Pelton last week. Mrs. Earnest Anthony, who is a patient in the Victoria General Hospital, Halifax, is improving, her friends will be glad to know. Miss Pearl Mosher, Parrsboro, is the guest of Mr. and Mrs. H. R. Ellis. Mrs. Joshua Graham, Halifax, is spending ten days in town, accompanied by her sister, Mrs. James Smith, and her grandson, Master John Hill. Mr. and Mrs. George Newcombe, whose son, Mr. Avery Newcombe, is a member of this year's class of Dalhousie Law School, have arrived home from Halifax and are visiting Mrs. E. F. Avery and Mr. and Mrs. C. H. Meek. Mr. and Mrs. Newcombe are spending a few days in Delhaven. Mr. C. H. Meek, who was confined to the house by illness, is improving. Mrs. Ira Cox has returned from spending two months in the States. Mrs. Rufus Cox, who is residing in the West, is visiting Mr. and Mrs. Cox. The King's Daughters, of United Baptist church, with their leader, Mrs. Rufus Eaton, held a successful Pantry Sale on Saturday afternoon, May 10. The room was beautifully decorated with flowers and potted plants, and the splendid sum of \$16.00 was realized for the library fund. The following girls assisted: Misses Clara Meek, Kellie Easton, Ona Ward, Vera Heisler, Sylvia Heisler, Ellen Miller, Ruth Bigelow, Blanche Huntley, Kathleen Harris, Leila Blenkhorne, Winnifred Barkhouse. These young people are taking a very active part in church work, and their society is among our finest activities, reflecting great credit on the leader. The Canadian Girls in Training met in the vestry of United Baptist church Saturday evening, May 11th. President, Miss Emma Bennett, in the chair. It was decided to meet weekly, Friday evenings, and that two of the members be appointed to decorate the church for the devotion services. The following are the officers: Leader—Mrs. (Rev.) W. G. Heisler. President—Miss Emma Bennett. Vice-Pres.—Miss Vera Heisler. Secretary—Miss Pauline Grant. Treasurer—Miss Jean Hatfield. Organist—Miss Nellie Eaton. Assistant—Miss Ruth Bigelow. Rev. W. G. Heisler, pastor of United Baptist church, gave a fine address on 'Mothers' Sunday evening, paying special tribute to them. The ordinance of Baptism followed the service. The choir rendered special music, being assisted by the church orchestra, leader Professor Gordon.

HABITANT WOMEN'S INSTITUTE

A special meeting of Habitant Women's Institute was held at the home of Mrs. Milton Greenough, Tuesday afternoon, May 6th, president, Mrs. William Newcombe, presiding. The speaker was Miss Helen Miller, of Truro, who spoke very encouragingly of the work that is being carried on by Women's Institutes and their far reaching effect. Miss Miller chose for her subject 'Some things I have noticed since working with Institutes, their strong and weak points'. It is only by realizing our faults that we improve. The organization that improves looks at itself. It is my habit in speaking of the work to go back to the growth of the idea of the first Women's Institute. Sometimes we forget we are a Women's Institute and think of ourselves as a society. Women's work is the most important work in the world, that of studying the problems of the home. It is a work of high ideals. Let us see the height of our ideals and realize the bigness of the work in our handling of the home problems. Something educational should come in at every meeting that we may the better carry on our homework—or there is a fall somewhere. Day by day, expert physicians tell us, the proper control of general living and home treatment make for good health, and on whom does it more depend, than on our women? This is the reason we should have a Home Economics Committee in every Institute. How can we have an Institute studying home problems without a Home Economics Committee to function? One that meets the job half way and finishes it. Let us study faithfully the general well being of the family. The things we are the means of inspiration to others from coast to coast. Our primary object is to study home and home problems, and radiate. If our boys and girls are to go out to communities whose ideals are not as high as our own, we must by our Home, School, Agriculture and Public Health Committees improve the conditions. The school is the child's second home. Let us make it a stepping stone to heaven. Let us consider how we may improve our individual Institutes. First in every organization an important factor is its officers. We should stand by them. Too many are handicapped by the diffidence of the members. No one knows their capabilities until they try. Through our Institutes many are finding their capabilities. Each individual should help the officers who should be as a tactful boss. The Institute is the place to express your opinions. We carry into our business meetings our personalities. In an organization we should forget completely our personalities and become each a part of the whole, a cog in the great machine. We must not want undue consideration. The best way to do this is to follow Parliamentary procedure. The member who is of a retiring nature should express herself openly. We bring others along by enthusiasm. Through expression we develop. We will get more out of our meetings and make them 100% working power. We want to publish our work abroad. Every member should feel the responsibility of carrying to the public the good that comes from the Institutes. If we disapprove of some suggestion coming before the meeting, and our side loses, let us help the winning side. Let us put into practice what we preach of Sunday, and forget to do on Monday. Apply the Christian life. Our publicity work is done by giving the right impression to the public of what we are trying to do. Let us build up a better community in a better Province in a better Dominion. The federation of Women's Institutes gives us a united front. Every Institute should respond. In conclusion I would say plan your programmes months ahead, giving the members an opportunity for preparation, and increasing interest will be the result. Realize the importance of the great work of which you are a part, that which stands for the noblest and best, 'Home and Country'. An expression of appreciation was extended to Miss Miller who is a delightfully interesting speaker. Vocal solos by Miss Isabel Meek, accompanied, Miss Mabel Hildey, were followed by a social hour during which tea was served, those assisting being Mrs. Lorne Blenkhorne, Mrs. Harold Kinsman,

HABITANT

Mrs. Greenough, Miss Isabel Meek, Miss Mabel Hildey, Miss Ada Reynolds. Habitant School, teacher Miss Eaton, observed 'Better English' week. The children showed much enthusiasm in their endeavors. Work has once more begun in our Community Tennis Club, which was at last made possible through the efforts of the Women's Institute which is doing so much for our Community. At a business meeting held on Thursday evening the following officers were elected.—President, Wilson Parker; Vice-President, Miss Alice Eaton; Treasurer, Miss Mabel Hildey. Our young men who put the court in such splendid condition last summer, are continuing their good work. All appreciate their efforts and the kindness of Mr. and Mrs. William Newcombe in presenting us with our lease. Mr. and Mrs. George Hall, Boston, who have spent a few days with friends in Habitant left for Halifax last week, to remain a week.

APPLES MOST IN DEMAND

The Dominion Fruit Commissioner has secured some interesting information from wholesale dealers in the leading marketing centres as to the varieties of apples most in demand in different parts of the Dominion. The results of the canvass indicate that McIntosh and Spy rank first and second as the most popular apples. In the opinion of the trade, McIntosh leads in British Columbia, Alberta, Manitoba, Saskatchewan, and Quebec. Spy is supreme in Ontario and Prince Edward Island, and Gravenstein in New Brunswick and Nova Scotia. In all, some seventeen varieties are mentioned. If we omit McIntosh, which is named in all the provinces save Nova Scotia and Prince Edward Island, we find that, in a general way, the prairies favour varieties extensively grown in British Columbia, including Wagener, Wealthy, Winesap, Delicious, and Jonathan, while the eastern provinces incline to Spy, Gravenstein, Baldwin, with King, Greening, Fameuse, Duchesse, Red Astrachan, Sweet-Bougen, and Bishop's Pippin also named. It must not be assumed that demand constitutes the sole consideration for the grower to take into account in making a selection of varieties to plant. Naturally, climate, soil, growing season, and proximity to markets are prime considerations, and have an important bearing on the profitability of any variety.

SOVIET AGENTS ACTIVE AMONG NEW IMMIGRANTS

WINNIPEG.—The Manitoba Free Press, in referring to the arrival there of the first of three thousand Czechoslovaks to settle on Western farms, points out that they were all heads of families and later on will send for their wives and children; but that the only drawback is that as soon as they arrived in Winnipeg, and other points, agents of the Soviet got in touch with them, distributing literature among them, and did their best to persuade them not to go on the farms. Commissioner Gellay says that this menace is becoming more threatening each week. One may thus see the chief object of the Soviet in establishing an official representative in Canada, and in bringing out such quantities of literature for distribution among new settlers.

HINTS TO MOTORISTS

Go over the steering gear occasionally to see if any part is coming loose. If this mechanism fails, there is usually a serious accident. If all parts are tight, put oil or grease wherever necessary, and then see if there is any lost motion at the steering wheel. If there is an inch or so, it should be taken out. Details differ with different designs, but they all have some means of adjustment. Have this attended to at the service station.

THE HARROWING DETAILS

The trustees of an old cathedral in Belgium once decided to repair the vestry, so they employed an artist to touch up a large painting that had grown dingy by time. This painter did his work and presented his bill, amounting to \$33.10 in his currency. The trustees refused to pay the bill unless the items were specified. The artist thereupon made a bill of particulars. Among the items charged were the following: Correcting the Ten Commandments..... \$5.12

Putting new tail on the rooster of St. Peter..... 2.20

Gilding wing of Guardian Angel..... 5.18
Renewing Heaven, adjusting the stars and cleaning up the moon 7.14
Touching up Purgatory and restoring lost souls..... 3.06
Brightening up the flames of Hell and putting new tail on the Devil..... 4.71
Decorating Noah's Ark and putting a head on Shem..... 3.30
Mending shirt of Prodigal Son..... 2.39
The bill was then paid without further protest.

'Fisherman's Luck, Good Business.'

"When you see a deer-ribbon jockey casting the fly on the French River, or exhibiting the skin of a Nipigon trout, you may know him for a good business man."

SOME men are stamp collectors, some play golf, yet others go off across the world in search of big game. Some hunt hidden treasures whether of an archaeological nature or the raw material as found in the Canadian mine. To some men these things are merely hobbies, to others a living.

Some businesses and some occupations call for a breaking down of the eastern partitions which we are apt to erect between what the world is pleased to call "a living" and a "hobby." When we have worked for some time at earning a "living" we are apt to be suddenly aware that something of strength, something of alertness, some "virtue" has gone out of us. And in order to get back, we set about recreating that lost strength. By nature man is not a "specialist." Yet we all know, to our cost, the tendency of modern business-life is to make him so. The pressure of "business" of which we boast, the system, the competition, of which we think so highly, as to be always in pursuit of it, is in reality a juggernaut, a fierce feudal overlord of the worst type, since we are in bondage to it without knowing it. We actually take our chains lovingly to our hearts.

Sometimes the awakening comes in the form of a rude shock. A physician's dictum. But as often as not it comes in another form. That subtle and yet tangible shock received when some younger, fresher mind, some "mere chit of a fellow" beats us at our own game. That is the awakening that hurts. Because we know that at the club, other men are saying "Fall down on the job." Whereas the truth is, "Stuck to his job, not wisely but too well," would be so much nearer the truth. When civilization first began its pressure. When business first began to be so intense we felt we "could not leave it," the number of "break-downs" was terrific. But just about that time we began to see that to go down and out was not playing the game, but surrendering, surrendering not altogether to pressure from without but to weakness within—a failure to stand up against "fearful odds"—unexpected lunges. And so we began to cast about for a means of strength—that iron strength of nerve—which would stand up squarely under ordinary fire and rise like a well-trimmed ship to meet the waves of unexpected storms. This thing has been thought out and acted upon as a positive condition of modern life and business we may say within the past twenty years, and more firmly yet within the last ten years.

Men now go away and leave their business at least once each year. And the wiser take a vacation not only in summer but in winter as well. The more intense the business, the heavier the fire, the greater need for re-inforcing that strength which is burned out. The greater need for the gathering up of new ideas. So, when you see a business-man, a banker or railroad president, or a company official, or any other deer-ribbon jockey casting the fly on the French River, or exhibiting the skin of a Nipigon trout sketched on a board, pleased as any school boy who has carried his hat out so crickety, or kicked a goal for the school team, you know him not so much for a great sport as for a good business man. The very fact that he belongs to those who get back to Nature wins your confidence. You know him for a man who has the business situation of the day in hand. One who is abreast—ahead even—of that tide which surges in the affairs of men. "A live wire," competing youth, calls him—Victoria Hayward.

Here and There

Shipments of grain from Vancouver for the 1923-24 season have now passed the 41,000,000 bushel mark. Officials estimate that the 50,000,000 bushel mark set for the season will be surpassed in the near future.

Reports from England state that it has been universally conceded that Canada's pavilion was in the best condition when the King opened the British Empire Exhibition at Wembley on April 23rd. It was the Canadian building, the reports said, "spick and span and complete to the last nail that led all others in the race to the finish in time for to-day's official opening."

Over 3,000 settlers left Liverpool for Canada on April 24th. Thirteen hundred of these sailed on the Canadian Pacific liner "Montcalm", including a party of 200 skilled workers from Manchester, 38 belonging to engineering trades, 40 to building trades and 42 farm hands. Eighty skilled workers from Leeds and a party of engineers from Barrow-in-Furness were also on board.

A total of 40,000,000 salmon trout eggs has been collected during the last season by the Department of Marine and Fisheries in Lake Huron, Georgian Bay and Lake Superior. The total number obtained compares favorably with the average collections of recent years and is sufficient to fill all the hatcheries on the Great Lakes engaged in the propagation of salmon trout.

Graphic and interesting educational motion pictures will bring Alberta's various resources to the eyes of those who attend the British Empire Exhibition this year. In addition to pictures illustrating the life of Alberta's citizens on the farms, on the ranches and in the mining districts, charts will be used to bring out interesting compilations of statistics illustrative of the province's agricultural and industrial output.

Carrying an invitation to the President of the United States to attend the celebrations of the 140th anniversary of the settlement of Upper Canada by the United Empire Loyalists, which will be held in June, Miss G. Lazier, herself a descendant of the Loyalists, left Belleville recently on horseback to ride to Washington alone, a distance of 600 miles. Elaborate arrangements for the celebrations are being made and it is expected that thousands of visitors will attend.

An attractive booklet entitled "A Week in Quebec in the Spring," by Betty Thornley, internationally known writer associated with "Vogue" and other magazines, has just been added to the series of artistic pamphlets published by the Canadian Pacific Railway. It describes the Ancient Capital and its environs, is illustrated by many striking photographs and bound in cover which reproduces in natural colors the pattern of cloth called *estaigne*, woven by Quebec habitants.

That the Indian village of Hochelaga, which stood on the site of the present city of Montreal, was a place of about fifty wooden houses having a population of some 4,000 souls when Jacques Cartier sailed up the St. Lawrence, was the assertion made by Dr. W. D. Lighthall before the Antiquarian and Numismatic Society of Montreal recently. Dr. Lighthall was able to describe the boundaries of the village and described it as resembling the home of Cedric the Saxon, in "Ivanhoe."

Appropos of the recent "Save the Forest Week," E. W. Beatty, President of the Canadian Pacific Railway, stated: "A week's conservation on saving the forests of Canada is well worth while—much better to make it a 'Forest Saving Year' and, if the forest resources of this country are to be conserved adequately avail the greater Canada of a few years hence it must be a 'Forest Saving Generation.' Forest wastage is to-day tragically too great and we Canadians must pay and are paying for the loss."

WHAT IS MAH JONGG?

The Mah Jongg craze seems to have settled down like an epidemic upon accidental society. It apparently has initiated all opponents as a game of chance. In answer to a query as to what Mah Jongg is, one authority writes: "Take Dominoes. Complicate it. Add an American game called Koon-Can. Confuse it. Stir them both together. Throw in a collection of strange words, such as dragons. Drop in some eggs. Several—all you have in your pocket in fact, without the hope of ever seeing them again. Pour over the top of bewilderment. And serve up four confused and gasping lunatics. That's Mah Jongg."

ABOUT KIPLING

(Heywood Brown, in N. Y. World.)
Speaking of Kipling, a very silly sort of thinking and talking about him has become fashionable. Because he has written nothing of moment for a good many years people are beginning to say that he never could or did, write. His annoying jingoism has obscured his genius as a teller of tales. But though you may hate every political ideal of Kipling and in fact despise each idea which he has advanced, he remains—at least I think he does—the supreme narrative genius of our day.
A few nights ago I heard Prof. C. T. Copeland, of Harvard, read "The Man Who Was". It is a story written with all the mean venom of a professional Slav baiter. It is filled with a childish sentimentality about things military. Kipling never could come within sight of a uniform without pushing like a matinee girl who has just seen John Barrymore. Indeed, the sentiment of this particular story is to me altogether trashy, but it holds me with a hammer-lock. Even the things in which I don't believe make me tingle. Intelligence and sane thinking have nothing on earth to do with the gift of story telling. It is entirely possible that Kipling is an ass. He is also a genius.

Senator McLennan Finds Many Germans Enjoying Life of Leisure

QUEBEC, May 4.—Among the saloon passengers on the R. M. S. Canadian Pacific steamer Empress of Scotland which arrived at Quebec at five o'clock this morning was Senator J. S. McLennan.

In an interview aboard the special saloon passenger train for Montreal, Senator McLennan said he was returning after a two months tour of Italy and France, and that he had found the climate rather cold in Italy, but he was surprised to see the large number of Germans in that country. So far as he could judge they were not going into business there but all the hotels were crowded with them and they spent their money freely.

He also visited the battlefields in France and was very much impressed with the work of the war graves commission in the cemeteries. The Canadian monument at St. Julian, he said, was also very beautiful.

MAH JONGG

When I was young I used to play with cards and dominoes, and got as much of fun therefrom as most boys, I suppose. I played casino and old maid, euchre and high-low-jack. And many kinds of solitaire. Of these there was no lack.

As years went by, my interest in card games seemed to fail. And every game of dominoes seemed really flat and stale. I tried at checkers, but with them I never had success. And never had the courage to attempt a game of chess.

And so, from all these games immune, I strove to be content. Though now and then an hour or two with solitaire I spent. But all at once throughout the land there rose a mighty throng. All eager a new game to try, the Chinese game, Mah Jongg!

As young and old were playing it, I felt I must learn how. I pined when I get a chance, but very seldom now.

I do not care for characters, except the one and nine. I feel the same toward circles, and bamboos are in that line.

I dote on dragons and on winds, especially my own. I block my neighbor, if I can, by holding back the one.

I think he wants me to discard. Once in a while I kong. And feel elated when I find that I can shout, "Mah Jongg!"

The craze that now is country-wide will have its time and die. For everything must have an end and so must you and I. When this old body I discard and join the spirit throng. May I display a better score than when I played Mah Jongg.

Mother: "Tommy, I hear you've been fighting with one of those boys next door and have given him a black eye."

Tommy: "Yes mother. You see they are twins and I wanted some way to tell them apart."

SATISFACTION

A seemingly low price for an article is always attractive, but unfortunately frequently misleading. How often is heard the remark—"I would rather have paid a little more and got the quality I wanted."

As a matter of fact that "little more" was necessary to obtain the better quality. Good goods require a higher price to be good.

There are cheaper teas than "KING COLE"—but would you be satisfied with their quality?

Here and There

It is estimated that over 50,000 acres were sown with corn in Alberta in 1923, as compared with only 1,000 acres in 1919. This is a good indication of how rapidly corn culture is increasing in Western Canada in connection with mixed farming operations.

All previous records of Canadian freight transportation were broken when a solid train-load of automobiles reached the Pacific Coast from Windsor, Ont., over Canadian Pacific lines recently. The distance of 3,000 miles was covered in seven days, on exactly 149 tons and 20 minutes. The train, which consisted of 40 cars, each containing 6 Ford automobiles, was more than a third of a mile long and was handled on practically passenger schedule.

The splendidly sound position of the Canadian Pacific Railway is well shown in the annual report for the fiscal year ended December 31st, 1923, which has just been issued. The gross earnings of the Company for the year were \$196,837,869.61, the working expenses \$168,268,672.54, and the net earnings, \$28,569,197.07.

A large party of Scottish farmers, ploughmen, farm workers and their families, is expected to arrive at Montreal in June. The party, which will sail on the Canadian Pacific steamer "Marburn," will be conducted by the Scottish representative of the Canadian Pacific Department of Colonization and Development.

Alberta has maintained an average yield of spring wheat of 19 1/2 bushels per acre over a period of twenty-six years, according to a chart prepared by the Department of Agriculture. In addition, winter wheat has averaged over the same period 20.19 bushels; oats, 35.79 bushels; barley, 26.10 bushels; rye, 38.84 bushels and flax, 8.71 bushels.

A feature of the annual banquet and convention of the officials of the Canadian Pacific Railway, which were held at Quebec on March 22nd, was the representation, in the banquet hall, of a full-sized locomotive of the latest type emerging from a tunnel. Built of wood at Angus Shops, Montreal, it was in all respects perfect. At a pre-arranged moment, it emitted steam and smoke, the bell rang and the whistle blew, while the headlight became a moving picture projector.

Indications of a great season in immigration are seen by Canadian Pacific officials in the arrival at St. John, N.B., during the week-end of March 29-30, of 2,441 third-class passengers, aboard the Company's steamers Montcalm and Metagama. The Montcalm had on board 1,564 of these passengers, which constitutes a record for the season.

Out of a total production of 10,730,150 pounds of creamery butter in 1923, Manitoba exported 2,363,264 pounds, valued at \$1,513,169. Shipments were made to Great Britain, New York, Chicago and Montreal. In addition, about 200,000 pounds of butter fat were shipped to the United States.

In a speech to the higher officers of the Canadian Pacific Railway on the occasion of the recent convention at Quebec, Mr. E. W. Beatty, President, pointed out that 50 per cent of the company's stock is held in Great Britain, 21 per cent in Canada and 29 per cent in the United States. It is, therefore, a corporation absolutely controlled within the British Empire and, he added, that control is being appreciably strengthened as the years go on.

Quebec's new goldfield in Rouyn township, north of the Des Quinze branch of the Canadian Pacific from Mattawa, is to be made accessible by an aeroplane service to be inaugurated by the Laurentide Air Service Limited, on May 18th. Prospector, tourists and supplies will be able to cross the fifty mile gap between the end of steel and the goldfields, which formerly required two days to cover, in less than an hour in the flying boats to be used in the service.

Miss Marguerite Parks, of Halifax, was the week end guest of Miss Claire Cogswell.

Miss Harry, V.O.N., visited our schools on Friday last, examining the pupils, taking their weight, etc. Later a medical and dental examination will be held. The Women's Institute is the instigator of this movement.

Mr. Cecil Woodworth has purchased a new car.

Mr. Geo. Dodge has been having his bungalow newly painted, much to the improvement of his property.

Mr. and Mrs. S. B. Clute, of Berwick, spent Friday with Mr. and Mrs. M. K. Ellis.

Miss Cassie Faulkner had as her guest over Sunday, Miss Helen Morisy, of West Pubnico, a student at Acadia Seminary.

Mrs. A. K. Gates returned last week from a two weeks visit with her daughter, Mrs. Robt. Mahwinney, at Amherst.

The pulpit of the Baptist church was filled on Sunday morning by Mr. E. L. Curry, of Acadia. His sermon on "The New Birth" was appreciated by all present.

In the evening the Senior and Junior choirs went to New Minas and gave their Easter music.

Mr. and Mrs. Clarence Steele, of Scotts Bay, spent Sunday with Mr. and Mrs. G. C. Ellis.

Mr. Lloyd Jess, Lic., has gone to Port La Tour for the summer months to take charge of the churches on that field.

While digging for the cellar for the new barn in course of building at W. N. Jacques several interesting French relics were excavated. These may be seen any time at Mr. Jacques.

Mr. Marsden MacKinnon, who has been in Lowell, Mass., for the past year, arrived home on a visit to his family on Tuesday.

Miss Rita Hiltz, with her friend Miss Edna Power, of the Wolfville High School staff, spent the week end in Kentville, the guests of Mr. and Mrs. W. B. Hiltz.

The Girl Guides lost to the Wolfville Guides in a game of basketball on Saturday. Together with the Wolfville Girl Guides a demonstration of their work will be given next Saturday in Community Hall at 3.30 o'clock, when this brigade, who have so far been only known as "Tenderfoots," will be regularly enrolled as Guides. Through the interest and enthusiasm of Mrs. G. A. Chase this work has been successfully carried on and it is hoped a large number will take the opportunity of attending the demonstration and encouraging the workers.

The summertime schedule with the stores has gone into effect, closed Wednesday afternoons, open every Tuesday and Saturday evening.

The "Old Maid's Convention" of the young folk of the Lily of Valley Division was repeated at White Rock on Tuesday evening. They were greeted with a full house who enjoyed the play immensely. The proceeds were divided between the two orders, both of which have been putting repairs on their Halls.

Dr. Lillian Chase returned last week to her work at the Medical College of the University of Toronto.

ANNUAL MEETING OF CANNING CITIZENS

The yearly meeting of the town of Canning was held in Slack's Hall, Monday evening, Rev. Thomas W. Hodgeson occupying the chair, secretary, L. M. Ward. The report of the business for the past year was most encouraging, resulting in a very substantial reduction in taxation for the ensuing year. The town water service and the electric light system are both in fine condition and giving the best service. L. W. Slack was elected Commissioner in place of J. W. Melvin, retired. The electric light system has been extended to Woodside, which now completes the system through the whole of the Cornwallis Valley.

The Board of Trade asked the meeting to vote a sum of money for a special town police and traffic officer to be on duty during the summer and regulate the parking of autos and the speed limit, which request they gladly granted. This is a much needed precaution, as it is surprising the people of intelligence who take advantage of our laws by rushing through our streets at breakneck speed endangering the lives of pedestrians, and especially of our children. An example will be made of the first offenders.

At the request of the Board of Trade a goodly sum was also voted for the maintenance of sidewalks, which have been greatly improved during the last two years. The citizens greatly appreciate the public spirit shown at the meeting and the endeavor on the part of the Board of Trade to improve our town.

The question of special financial support for the band, one of our finest organizations, was brought up, and the band was assured that they have the hearty support of the citizens at all times.

"SHOWER" AT HILLATON

Miss Lura MacGowan was the guest of honor at a delightful shower held at the home of Mr. and Mrs. Fred Clarke, Hillaton, Monday evening, more than thirty friends of the bride and groom to be being present. Mr. Henry Blanchard, on behalf of the gathering, presented Miss MacGowan with an address of appreciation accompanied by a purse of money, to which she pleasantly replied. Games and music were then enjoyed, after which supper was served, those assisting being Mrs. Burpee MacGowan, Mrs. Fred Clarke, Miss Sackarissa Clarke, Miss Anna McLeod, The Hillaton quartette, Mrs. Burpee MacGowan, Miss Annie McLeod, Messrs. Clayton Harris, Burpee MacGowan, sang delightfully. Miss Lura MacGowan's piano solos were also much enjoyed.

NOVA SCOTIA PARLIAMENT PROROGUED

The Church Union bill was passed in the Nova Scotia Legislature last Thursday evening, and on Friday morning the legislature was prorogued. Out of 183 bills introduced during the session 152 were passed.

These included several measures of public interest and many of a private and local nature. Outstanding among them were the "Blue Sky Law", a measure providing that no person or company may sell bonds or shares without filing certain information in the Provincial Secretary's office, excepting those companies working under a Dominion incorporation; a bill working in conjunction with the last named being an amendment of the Brokers' act which provides that if any broker violates the Blue Sky Law his license may be summarily revoked; the eight hour day in the coal mines; illegitimate children act, providing increased penalties and legitimizing the child born out of wedlock; succession duty act; the act respecting the jurisdiction of county and municipal courts in which municipal courts are enabled to sue amounts up to five hundred dollars and county courts up to one thousand, and limiting the jurisdiction of supreme courts in action of debts to a minimum of one hundred dollars instead of twenty.

There were a large number of bills providing authority for the utilization of electric energy for municipalities and towns in the province, also a bill providing compulsory treatment for narcotic and drug addicts; an act whereby municipalities are given authority to vote funds toward the Nova Scotia publicity bureau, several motor vehicle and other vehicle act amendments, and amendments to the educational act, and provincial revenue act, forest and game act and the children's protection act. Several amendments were made to the Nova Scotia Temperance Act and there were borrowing bills to the amount of over two million dollars for the purpose of meeting highway and power commission debentures and other maturing debentures.

Twenty Thousand Dollar Baby Christened

THERE was a christening at the Mount Royal Hotel, Montreal, recently, and, quite apropos, it was of the Montroyal. The Canadian Pacific, having on hand a very fine model of their Atlantic steamer, the Empress of Britain, placed it in drydock in Montreal about the same time that the Empress herself went into dock in the Old Country for overhauling and renaming. Upon being overhauled, the model was sent to the Mount Royal Hotel where it will remain on exhibition and where Mr. Vernon G. Cardy, resident manager of the hotel, "cracked" a bottle of champagne over the bow, thus christening the Montroyal as she moved to her new berth.

The model of the Montroyal is complete in every particular and is indeed such an excellent replica on a small scale of the former Empress that it has been insured for \$20,000. The model is fourteen feet in length and provides a deal of entertainment for the visitor whether adult or juvenile.

THE CORNWALLIS VALLEY IN BLOOM

When the sun and winds have banished Snow and ice from field and way, And when April's tears have vanished in the smiles of sunny May, And the fragrance of the blossom Fills the air with rich perfume, Oh! it's heaven in Cornwallis With the apple trees in bloom.

Summer's beauty, color dowered, Rich hues blossoms gladdening scene, Autumn's harvest, fruit-embowered, Sparkling Winter's snowy sheen. But the Spring, when birds are mating And all nature is atone, Oh! it's heaven in Cornwallis With the apple trees in bloom.

Italy's azure skies may win us For an hour to sing their praise, Scotland's beauty may win us Songs of adulation rare. But the land where every prospect Heartiest wish is sure to please, Is the Valley of Cornwallis When the bloom is on the trees.

Geo. D. Hudson, Up. Canard.

It is said that the sale of fertilizer in this section and throughout the province has been phenomenally large this season, with the result that the supply is pretty well exhausted. This is encouraging as furnishing evidence that the farmers of the country are "on the job".

THE PRESTIGE OF A BANK BOOK

SUCCESSFUL businesses and independent incomes, like people and communities, do not spring up overnight, full grown. Wealth comes slowly at first, but every dollar saved brings financial independence nearer. The prestige of a sound banking connection has been a determining factor in the successful careers of many people around you. We offer you that connection.
