A. VANDERBECK STATES POLICY

Millerton, N. B. Sept. 24, 1921
To the Electors of Northumberland: Ladies and Gentlemen,

Having been nominated at a Labor-Farmer convention, held in Newcastle on the 29th of August, to contest the County in the coming bye-election on Oct. 3rd, I wish through the medium of this letter to declare to you the stand I take, and to set at rest some misrepresentations that have already been made as to my attitude.

To the farmers, let me say I have studied the policies and platform of the United Farmers, and have come to look upon them as a body of progressives, united in their demand for good business government, not with any selfish or ulterior motives as some claim for them.

I firmly believe the legislation they seek, would be in the interests of the province and county in general, and here pledge myself to support all reasonable demands of the Labor and Farmer elements.

To the electorate at large, I wish to state that I look upon public office as a public trust, and if elected, my desire is to serve you in the best interest of the whole county. This I feel you will agree with me, was the aim and purpose of my late lamented father, who served you for a good many years in the County Council, and who you elected with such a handsome vote last October; to his supporters I will endeavor to render the same good service.

I furthermore pledge myself that if elected I will appear before my constituents in each parish, before each session of the legislature, and consult them as to local aims and needs.

As the time is short, I will not be able to interview you all personally and so have taken this means of declaring myself, and so solicit your hearty support.

Yours faithfully,
A. VANDERBECK.

Stumpage On Damaged Timber Cut In Half

The Provincial Government in session Thursday morning gave lengthy consideration to the matter of stumpage rate particularly as the lumbering interests of the province has requested a substantial reduction in the rate on Crown Lands because of the depressed condition of the lumber market.

Premier Foster announced at noon that a recommendation would be made to the Department of Lands and Mines touching on the matter and that an announcement would be made to the lessees by that Department after details had been worked out. The object was to encourage the cutting of timber injured by the bud-worm and in other ways, and to protect the growing timber.

Minister's Statement

Hon. C. W. Robinson, Minister of Lands and Mines, stated on behalf of his Department that the rate on timber injured by the bud-worm and in other ways, would be cut in half being reduced from five dollars to \$2.50. Upon sound standing timber there would be no reduction. The reduced rate of stumpage would be upon spruce, and fir and would hold only for the current year which includes the logging season of 1921-22. Pulpwood is classed the same as other timber in regard to the reduced stumpage. There is no reduction in the rate on ties.

Improved Conditions

Hon. Mr. Robinson when asked concerning the conditions of the lumber market at present said that there was an encouraging sign in the American market where a gradual improvement is observable and is expected to continue. A revival in building operations is believed to be the cause of that improvement.

DENOUNCES THE YELLOW TOP WEED

Halifax, N. S.
Sept. 17, 1921

The Mayor
Newcastle, N. B.
Dear Sir,

The secretary of our Agricultural Society here in passing through your town a short time ago noticed the weed Ragwort (Senecio Jacobaea) growing near the railway.

You may or may not be aware that this plant has been and is the cause of the disease in cattle known as the Pictou Cattle disease.

Unfortunately this plant has spread over Pictou, Antigonish and some of the counties of Cape Breton (brought from Scotland)

For many years cattle died year after year on farms in Pictou and Antigonish counties and after much experimenting and great cost the Dominion Agricultural Department proved that hay containing this weed in a dry state eaten by cattle set up cirrhosis of the liver and caused the death of the cattle, also

horses and sheep. Farm laborers were depleted of their stocks. Now the farmers are careful to pick the weed from the hay, but this is very inconvenient and costly; besides the weed spreads over the pasture lands and checks the good pasturage.

If ragwort has not got too big a start you can keep it down and it is no exaggeration to say that its eradication will save your province millions. The plant looks something like tansy, has yellow flowers, with yellow petals an irregular leaf not unlike tomato leaves.)

BANKRUPTCY CASE IS DISMISSED

Before His Honor, Chief Justice McKeown, in the Bankruptcy Court Tuesday the matter of the petition of the Derby Lumber Company, asking for an order of Bankruptcy against Archibald Alcorn, lumber dealer of Blackville, was considered.

The petition asked that the formation of a company known as the A. Alcorn, Ltd., the transfer of Mr. Alcorn's business to the company, the mortgage given by the company to the Eastern Trust Company to secure issue of \$1,000,000 in bonds, and the transfer of the bonds to the bank of Nova Scotia as security for indebtedness, constituted an act of bankruptcy, as being fraudulent preference to a creditor.

The Derby Lumber Company also alleged that Mr. Alcorn was indebted to it in the sum of \$5,000.

In his defence filed and recorded, disputing the claim, Mr. Alcorn, denied that he was indebted to the Derby Lumber Company. He asserted that the million dollars of bonds were not delivered to the bank, that no bonds were delivered to the bank so as to constitute a preference to a creditor, and he denied that he was or is insolvent, but, on the contrary, contended that he had and has, in addition to the property transferred to A. Alcorn, Ltd. property belonging to himself amounting in value to more than \$100,000.

He contended that he has all the capital stock of A. Alcorn, Ltd. amounting to \$1,500,000, that A. Alcorn Ltd., is bound by its charter to assume and pay the debts of Archibald Alcorn; further, that an audit was made by a chartered accountant from Toronto, engaged by the Bank of Nova Scotia, who finds by his report that the company was worth more than \$400,000, over and above all Alcorns or the company's liabilities of every kind.

Mr. Alcorn further alleges that his business was put in the form of a company in order that financial arrangements could be made to carry the business on and not for any other purpose whatever. The financial arrangements were made and the business is being carried on.

Albert J. Reilly, K. C., of Moncton, and P. J. Hughes, Fredericton, were counsel for the petitioner; W. P. Jones, K. C. Woodstock, and F. R. Taylor, K. C., appeared for Mr. Alcorn and the Bank of Nova Scotia.

After argument, the Chief Justice dismissed the motion and set aside the petition, with costs to be paid by the Derby Lumber Co.

The highest aim of real statesmanship should be to frame policies which will furnish the maximum amount of profitable and diversified employment to all people.

STRONG EVIDENCE AGAINST MULATTO

St. John, N. B., Sept. 21—Strong evidence against John Paris, mulatto, in connection with the death of little Sadie McAuley on August 2, was given in the police court this morning by Walter Humphrey. During the recital Paris sat in the prisoner's box with his arms folded, a smile on his face and his eyes gleaming. Occasionally he would lean forward and stare intently at the evidence against him the magistrate told him he could ask the witness any questions he wished. He emerged from the box, went over and leaned on the clerk's desk, placed one hand on his hip and stared at the witness while questioning him. He was not represented by counsel this morning, but it is understood that G. H. Vernon, a lawyer in Toronto is coming here to defend him. The magistrate remarked this

morning that in thirty-two years he had never been faced by such an array as presented themselves this morning. Of the four men in the box three were facing charges of murder or manslaughter and one charged with escaping from jail. The magistrate desires if possible to finish the murder cases up this week as the Supreme Court meets next Tuesday.

The case was adjourned until tomorrow morning.

Walter Humphrey, 133 Prince St., said:—

"On August 2, between 10.45 and 11.30 I rowed John Paris, the accused, across the river. He asked me to go to Riverview Park. I left him and came across in the boat next day. He asked us to send him across the river again."

"The witness recounted something which he said Paris told him had occurred in Riverview Park the afternoon before and continued:

"After we got to the shore Paris got out and said, 'come on up to the park.' I said to him, 'John I don't look fit.' He said, 'come on up anyway.' I said 'no I wouldn't go up any way with that little girl missing up there.'"

"He said to me 'Bun I want you to help me to cover up that kid.' 'I said to him, what is it John?'"

"I said to him, 'John did you do that?'"

"He said, 'never mind, Bun, its between you and I.'"

"I said to him, 'here's where you and I draw the line.'"

"I left him there on the beach and rowed across the river again. I tied the boat in the slip and came up home."

"Humphrey said that on the day they first rowed across (the day of the murder) Paris wore a soft hat, brown coat and khaki riding breeches and soiled tan shoes. He wore a blue suit, he thought, on the second day."

Paris put a lot of questions to the witness and to one Humphrey replied that Paris had asked him to put Walter Cooke out of the road and get his insurance money. Humphrey lived with Cooke.

UNITED STATES PRESIDENT OPPOSES CLASS ORGANIZATIONS

President Harding, with the full support of his cabinet, has determined to put a stop to class organizations, when these appear to be against the interests of the majority. As will be seen from the following Washington despatch, which is taken from the New York "Herald," the President has issued a warning to all blocs,—farm labor and sectional.

"A restraining hand is to be laid by the Harding administration upon group and sectional organization in American government.

The President, with the full cooperation of his Cabinet, is determined to stop class organization and class action when this action is in the minority and against the best interests of the people of the United States.

With the Administration giving its primary thought to big movements for international comity, release from heavy tax burdens and a restoration of normal conditions at home, much pressure has been brought to bear for group action or group representation, in one way or another.

President Harding is bitterly opposed to this situation. His opposi-

tion has been felt in the organization of the American personnel for the conference on unemployment in the United States.

Hereafter, it was authoritatively and officially declared today, executive action on any of the pressing problems of the moment will not be influenced or directed by class organizations or group organizations. The Administration will not yield to the pressure, public or insidious, that can be exerted because of political organizations by various groups of any community.

It was announced officially that the armament conference and the unemployment conference will be without group or class organization. Those representing the Government of the United States and the interests of the people will have a free and broad mind that contemplates the welfare of the entire people and not of any organized groups.

The determination of the Administration will extend to legislative as well as executive action. Blocs in the Senate and in the House will be opposed by the Administration when their proposals are for the benefit of a community, or group of citizenship, as opposed to the benefit of the people as a whole.

It is known President Harding has in mind in this respect the agricultural bloc in the Senate and House, and with its subdivisions into the fruit growers, the livestock growers, the grain farmers and the cotton growers. This bloc has become bold and often has threatened, if not attacked party lines. Its work is to be opposed as unstatesmanlike, against the common welfare, and as opposed to political organization. There are other blocs in Senate and House, particularly the labor bloc, which unites on all labor questions irrespective of party lines. Then there is the sugar bloc, the industrial bloc, including representatives of the manufacturing communities of the country, and the lumber bloc.

The Price of Success

Big business is not an accident—it is a result. It is the fruit of purpose, energy, persistency and ADVERTISING.

You know the story of Rip Van Winkle—the man who went to sleep for 20 years and who, when he awoke, expected to find the world the same as it was when he entered slumberland.

There are men today very much like Rip Van Winkle—their point of view and their practices are those of a generation past. They do not believe in advertising.

To succeed in these modern days one must be in accord with the spirit of today. For a merchant this means that he must advertise, if he would prosper.

IN THE FIELD

For some time past Mr. E. A. McCurdy of Newcastle, has been pressed by many of Northumberland County's representative citizens to allow his name to go before a County Convention of Government supporters as a candidate in the coming federal election. Mr. McCurdy, who is a busy man, has eventually decided that he will do so, and the Government party is to be congratulated in securing a man of Mr. McCurdy's standing and ability.

Mr. McCurdy is well and favorably known throughout the length and breadth of Northumberland County, as well as throughout the Maritime Provinces. For over 23 years he was the capable and efficient manager of the Newcastle branch of the Royal Bank of Canada, and built this business up from one of small dimensions to one of the most important branches of the institution in the Maritime Provinces. As manager of the Bank he took a keen and active interest in all matters pertaining to the County of Northumberland and is thoroughly acquainted with all sections, and understands the conditions existing from one end of the county to the other. He has been for many years Secretary of the Board of Trade and in this capacity has always shown a keen interest in public matters and has secured many important improvements and public services for the County. He is a man of sterling character and business integrity and when given a piece of work to attend to, attends to it.

The Hon. F. B. McCurdy, minister of Public Works in the new Meighen Cabinet is a brother of Mr. E. A. McCurdy. In Mr. McCurdy's willingness to stand for nomination at the Government County Convention the County of Northumberland has secured a man, whom the electors can look up to, as one who will look after the Counties' interests and strive to secure, that which it is justly entitled to.

THE CABINET

Premier Meighen has a way of rising to every occasion, and he has not disappointed his friends in the reconstruction of the cabinet. The task was not an easy one, but the way was made smoother by the action of his colleagues in voluntarily placing their resignations in the hands of the First Minister. Some of Mr. Meighen's former colleagues had grown old in the service and preferred to spend their declining years outside the hurly-burly of the House of Commons. We shall miss the familiar figure of Sir George E. Foster, but after nearly forty years in political life, in the Government and in opposition, he will retire, with the respect and admiration of a host of friends, to a less tumultuous sphere in which it is hoped he

will be spared a good many years to give wise counsel. Of the new ministers, the people of New Brunswick know most of Mr. Baxter and Mr. Bennett. Mr. Baxter is one of the ablest men this province has ever produced. He is keen and logical in debate and will be a marked addition to the strength of the government in Parliament and in the country. Mr. Bennett, though for many years resident in the West, is New Brunswick born. He first saw the light in the neighboring County of Albert, practised law in Chatham for a time, and was a member of the Chatham town council, and also of the Northumberland County Municipal Council. Going west in the late nineties, he was soon elected to the Alberta legislature, in which he served several terms. His first venture for the House of Commons was in 1900, when he stood for the city of Calgary, but was defeated. He was subsequently returned to the legislature and in the 1911 election stood again for the Commons and was successful. He was not a candidate in 1917 and is not now a member of the House. Mr. Bennett stands high in his profession, is a keen business man, has been identified largely with the civic life of the city of Calgary, in which he has made his home, and is also identified with colonization and irrigation work. Still a young man, comparatively, Mr. Bennett is destined to play an important part in the public life of the country.

Next in interest in these provinces to the selection of Mr. Baxter and Mr. Bennett for Cabinet positions come the Quebec appointments. Those who have made some study of Quebec affairs say that Premier Meighen's selection of Dr. Normand has been fortunate. Dr. Normand has long been recognized as a leader in his profession in the province, has been president of the College of Physicians and deeply interested in hygiene and social welfare work. He is described as a man of the highest type, clever and sober-minded. Mr. Belley has had some previous political experience and Mr. Monty is well known throughout the province. On the whole, it is a cabinet of strong men, and comparatively young men, representative of all classes and creeds, and just such a cabinet as the country needs in the coming years.

**MUCH ILL HEALTH
DUE TO BAD BLOOD**

If the Blood is Kept Rich and Red You Will Enjoy Health

More disturbances to health is caused by weak, watery blood than most people have any idea of. When your blood is impoverished, the nerves suffer from lack of nourishment and you may be troubled with insomnia, neuritis, neuralgia or sciatic Muscles subject to strain are under-urished and you may have muscular rheumatism or lumbago. If your blood is thin and you begin to show symptoms of any of these disorders try building up the blood with Dr. Williams' Pink Pills. These pills have a special action on the blood and as it becomes enriched your health improves. The value of Dr. Williams' Pink Pills in cases of this kind is proved by the experience of Mr. D. J. McDonald, North River bridge, N. S., who says: "For some years I suffered severely with headache pains in the back and run-down condition. At times the pain in my back would be so bad that I would sit up in bed all night. From time to time doctors were treating me, but did not give me more than temporary relief. And then one day when I was suffering terribly a neighbor came to see me, and urged me to try Dr. Williams' Pink Pills. After taking two boxes more and before they were all gone I felt as though they were giving me new life, as in every way they built up and improved my health and strength. I am now working as a barker in a pulp mill, ten hours a day and feeling none the worse after my day's work. I say with pleasure that this condition is due to Dr. Williams' Pink Pills."

You can get Dr. Williams' Pink Pills from any medicine dealer or by mail at 50 cents a box, or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

CITIZENS and VOTERS
Save New Brunswick from This Fate

The Montreal Standard says that "Montreal is the Canadian Metropolis of the Booze Business. That it is seething with crime. That crime in Montreal is open; wide open.

Every iniquitous practise conceivable is being carried on by the dwellers of crook-dom, cocaine peddlers, hold-up men, thieves, confidence men. All these and more ply their trade with no apparent fear of apprehension.

Crime in Montreal is no secret. The traffic in vice and drugs is an open letter to those who would read and so confident has the Montreal criminal become that now even a cursory attempt at concealment is considered unnecessary.

Drugs are as easy to buy in Montreal as a loaf of bread and a score or more of boot-leggers are ready to slake the thirst of the rum-hounds."

Contrast this with what the St. John Standard says about conditions in St. John during Exhibition week:

"The traffic police about the gates announced that over two hundred cars had been parked under their supervision during the evening. The police and liquor inspectors within the grounds reported the large crowd a most orderly and law-abiding one. The inspectors state that they have not even seen a sign of liquor within the gates of the big show this year. The prevailing sobriety establishes somewhat of a record and a most commendable one at that."

The Prohibition Act in New Brunswick in operation helps make the difference on October 10.

A Vote will be taken to decide as to whether the importation of Liquors may be forbidden.

We submit below a copy of the ballot to be used.

WEDDINGS

GOODFELLOW—CORTS

An interesting event took place on Wednesday Sept. 14th when Miss Daisy the only daughter of Mr. and Mrs. Stafford Corts of Williamstown was united in marriage to Mr. William Goodfellow son of Mr. J. D. Goodfellow of Cassilis. The ceremony was performed in the afternoon at Boiestown by the Rev. Mr. Gregg, who had presided at the marriage of the bride's parents and also afterwards at her own christening. The couple were attended by Mr. Ira Goodfellow of Cassilis and the groom's sister Miss Alice Goodfellow.

The ceremony having been performed the wedding party returned back to Williamstown where a reception was held for them at the Corts' home. The evening passed very pleasantly indeed and the abundance of valuable gifts and the number of friends present both testified to the high esteem in which the happy couple are held. They are at present both residing at Williams town.

SUFFERING OF YOUNG WOMEN

This Letter Tells How It May be Overcome—All Mothers Interested.

Toronto, Ont.—“I have suffered since I was a school girl with pain in my left side and with cramps, growing worse each year until I was all run down. I was so bad at times that I was unfit for work. I tried several doctors and patent medicines, but was only relieved for a short time. Some of the doctors wanted to perform an operation, but my father objected. Finally I learned through my mother of Lydia E. Pinkham's Vegetable Compound, and how thankful I am that I tried it. I am relieved from pain and cramps, and feel as if it has saved my life. You may use my letter to help other women as I am glad to recommend the medicine.”—Mrs. H. A. GOODMAN, 14 Rockvale Ave., Toronto.

Those who are troubled as Mrs. Goodman was should immediately seek restoration to health by taking Lydia E. Pinkham's Vegetable Compound.

Those who need special advice may write to Lydia E. Pinkham Medicine Co. (confidential), Lynn, Mass. These letters will be opened, read and answered by a woman and held in strict confidence.

OF INTEREST TO TEACHERS AND PARENTS

To the Editor of The Gazette: Sir:—As the schools have just reopened, I wish to make a few remarks re the above subject. I am an Old Country teacher with long experience in an English school, and I very strongly condemn the system of home lessons that is in existence in this city. A child is sent to school to be taught. Why send them home to be taught by their parents after school hours? No matter how much these parents know, or how willing to impart knowledge, how few of them are teachers! Teachers are (or should be) taught to teach, and everyone to their business or profession. When a man has done his day's work, no matter in what capacity (like the children) he needs his recreation at night, and ought not to be worried with children's lessons. I say nothing of the poor mother, who is harassed all day with all kinds of duties. Imagine the child, who, after school, has to “tackle” two or three hours home work, often about subjects, about which, he (or she) is totally ignor-

Everybody knows that in Canada there are more

ant. Say, if a child is learning to play an instrument, where is the time for practice, or where has an older child time to help a tired mother in the evening; last, and by no means least, where is the child's time for play? Childhood is the time for play; no time for play for the school child of Montreal.

Home lessons, like all other lessons, to be effective, must be carefully corrected. How can any teacher with justice to herself or her pupils correct the individual home work of thirty or forty children? I have been a successful teacher all my life, but I would not attempt it. If teachers and children do their duty during school hours, home work would be unnecessary and education much better. In English schools, where education is paramount, there is little or no home work. I know in this letter I am attacking a system that is general throughout Montreal. I am speaking chiefly in the interests of the children whose champion I have always been.

I know there are times, bad weather, etc., when children require the use of books. When a child has a good reading book he or she can always spend an hour to advantage, reading learning spelling, meanings of words, etc. Again, why not encourage a taste for reading good, light literature, “which is always knowledge gained, and, if these books are well chosen, how much of history, travel, and elementary science may be learned from them, which is far more interesting than writing columns of spellings, etc., which injures eyesight and nerves, without very much benefit. The latter point is well proven by the laxity of education in this city. The eye and nerve strain were exemplified to me a few months ago, when I heard a little child of nine years of age say, after “pouring” over home work: “Oh, mamma, I can't do any more, I can't see it.” This decided me (with the editor's courtesy, to express my opinion on home lessons.

Yours truly,

SCOUTING

The practical aspect of Scouting will be seen in its Law. Of its ten actions, the one most evidently practical is most frequently emphasized, his is the Good Turn to Someone Every Day.” The Law in full follows:

1. A Scout's honor 's to be trusted
 2. A Scout is loyal to the King, his Country, his officers, his parents, his employers, and to those under him.
 3. A Scout's duty is to be useful and to help others. A Scout must endeavor to do a good turn to someone every day.
 4. A Scout is a friend to all and a brother to every other Scout.
 5. A Scout is courteous.
 6. A Scout is a friend to animals.
- A Scout obeys orders of his parents, patrol leader, or Scoutmaster without question.
8. A Scout smiles and whistles under all difficulties.
 9. A Scout is thrifty. He does not spend needlessly; he saves against a rainy day.” must create a “next egg which” may some day help to start him in business, or send him to college.
 10. A Scout is clean in thought, word and deed.

There are four classes of Scouts, Tenderfoot, Second Class, First Class and King's Scout.

The following are some of the practical tests passed by boys qualifying Tenderfoot Scouts, and as Second Class Scouts:

- Know the composition and history of the Union Jack and the correct way to it.
- Be able to tie and explain the special use of six specified knots.
- Have a practical knowledge of elementary First Aid.
- Know the Semaphore and Morse Signalling codes.
- Follow a track a half mile, or describe the contents of a shop window, remember 16 out of 24 articles observed for one minute (to develop observation and memory).
- Go a mile in 12 minutes at Scout's pace (alternately 20 steps running and 20 steps walking)—to develop endurance, judgment and self-control. The distance must be covered within 30 seconds of 12 minutes—not more, and not less.
- Lay and light a wood fire in the open in any weather, using not more than two matches.
- Cook a quarter of a pound of meat and two potatoes without cooking utensils, over a camp fire.
- Know the sixteen principal points of the compass.

The above tests are expanded and others are added for the boy qualifying as a First Class Scout. By meeting further tests the First Class Scout may become a King's Scout. When older he may become a Rover Scout.

Scouting is strictly non-sectarian in principal and character. Its programme, however, may readily be used as supplementary to that of any church or other religious body. A large percentage of Scout Troops are connected with churches, these being of all denominations.

Obviously anything that benefits the boy, the future citizen of a community—benefits that community. This is an aspect of Scouting frequently overlooked. It may also be pointed out that the Boy Scout's Association is not concerned merely in the creation of Boy Scout Troops; that the organization of a Troop is not the only end sought. The position of the Association is that of standing ready to provide any community with a tried and proven means of solving the community boy problem. When called upon, Provincial Headquarters of the Boy Scouts Association will furnish the information, literature and general guidance necessary to the carrying out of this tried and successful programme.

Old France in Canada

A Made-in-France exhibition train is now touring Canada, over the Canadian Pacific Railway. It was opened at the C. P. R. Place Viger Station, Montreal, on August 29th, amongst those present being Premier Arthur Meighen, Mayor Martin of Montreal, and Senator C. P. Beaudin, who organized the bringing of the French exhibition goods to Canada and the tour of the train throughout the Dominion.

The object of the train carrying French goods is to promote cordial, social, and commercial relations, reciprocally advantageous to both countries.

The train consists of a baggage car, eight exhibition cars, a tourist, a diner, and two sleeping cars. The eight coaches of the train carry goods representative of:

- (1) The intellectual development of France;
 - (2) Industries, commerce and tours;
 - (3) French styles;
 - (4) Leather industries;
 - (5) Chemical goods, perfumery;
 - (6) Instruments of various kinds, electrical goods, toys;
 - (7) Agriculture, horticulture, food;
 - (8) Jewellery, objects of art, clocks, watches.
- But this list only gives an idea of the hundreds of things on exhibition. In the tour of the Dominion the train will travel a total of 7,992

(1) “Made in France” Train at Place Viger Station.
(2) The car illustrating “The Intellectual Development of France,” put up by the “Ministere des Beaux Arts” of France, in which the public can see some fine paintings and pieces of sculpture.

During the four days which the train remained in Montreal it was visited by thousands of interested persons. It was a huge success for the Toronto Fair and is attracting large numbers everywhere it goes through the country.

A member of the staff of the Canadian Government commercial intelligence service is travelling with the train, partly in order to study the results obtained from a business point of view. The information gleaned is to be used in fixing up the “load” of Canadian products which it is stated is to be sent later on to tour France and probably the United Kingdom and other European countries.

WONDERFUL GAIN IN WEIGHT REPORTED

Young Woman Only Weighed 76 Pounds—Now Weighs Over 100 And Is Gaining Every Day

"Before I began taking Tanlac I only weighed 76 pounds, I now weigh over one hundred and am gaining every day," said Miss McRae Davis, of Chattanooga, Tenn.

"I bought my first bottle of Tanlac at Gas City, Ind., and it helped me so much that I continued using it. I have always been very delicate and suffered a great deal from stomach trouble and rheumatism. I rarely ever had any appetite and simply could not relish anything. I fell off until I only weighed 76 pounds and was so thin I looked perfectly awful. This is the condition I was in when I began taking Tanlac. "Oh, I feel so different now. Even my complexion is improved. My appetite is good and I can hardly get enough to eat. Tanlac is simply grand and I can truthfully say it is the only medicine that has ever done me any good."

Tanlac is sold by all leading druggists everywhere.

THOSE WHO MAY VOTE IN COMING FEDERAL ELECTION

The inauguration of a general election campaign directs attention to the franchise and its operation, to the citizen's rights as an elector and the manner in which he will be called upon to exercise those rights says the Montreal Gazette. The election to be held this fall will see the first general application of the new, or remodelled, Dominion Electors Act, and it is possible that some uncertainty may prevail as to the manner and extent in which the position of the elector is affected by the provisions of that act. There is, or ought to be, no room for confusion in this respect; the act as amended embodies the same fundamental practice as was contained in preceding legislation, that of what is virtually universal suffrage. This has been known in Canada as manhood suffrage, the right to vote being enjoyed, theoretically, by all adult males, but the extension of the franchise to include women, upon practically equal terms with men, renders the term "universal suffrage" more appropriate. The fact that women will have the right to vote in all provinces necessitates the preparation of what will be substantially new lists, and will add, incidentally, to the expense of the election.

The voters lists for federal purposes are based upon the provincial lists, provided the latter are not more than two years old. In this Province the provincial lists are those of the municipalities and are revised, either annually or bi-annually, by the municipal authorities under statutory direction. These lists will be employed in the coming election as far as they go, but as being based upon the manhood not being based upon the manhood suffrage principle, and does not accord to women the right to vote, very considerable additions will have to be made. This will be done by registration.

The qualification of electors under the provisions of the Dominion Elections Act requires that every voter, whether male or female, shall be:
 (a) A British subject;
 (b) Twenty-one years of age;
 (c) Shall have ordinarily resided in Canada for one year immediately preceding the date of the issue of the writ of election;
 (d) Shall have ordinarily resided in the electoral district for the two months immediately preceding that date; and
 (e) Is not expressly denied the right to vote.

WHO IS RESPONSIBLE?

This morning I had an interesting conversation with a street car conductor.

"How's things?" I asked as we stood waiting for a car.

"Not too bad," he replied. The only thing I see wrong is the way prices are keeping up. I expected prices to drop when the war was over."

"The prices do keep up." I continued. "But there is quite a drop on several articles."

"The prices do keep up." I continued. "But there is quite a drop on several articles."

"Darn few!" he exclaimed. "Take my own case, Rent \$35 coal \$17.50, food is down a few cents, and boots, but not much. Can't see that there is any change to brag about."

"What do you think about the chance for things getting better?" I questioned.

"Not a chance in the world!" he said with some force, "until we have an election."

"How's that," I asked.

"What is the government doing to make things better? If they were any good they would make lots of work, and give everybody a chance."

"If everybody had jobs and money he continued in a moment, "we wouldn't give a hoot about prices. That's the way everybody was during the war. Everybody got good wages and spent it and everybody was happy."

"You fellows didn't benefit much from war conditions," I interjected. "You had good wages but not excessive. How did the high prices get you?"

"Pretty hard!" he replied. "I know I have found it mighty hard to make both ends meet."

"Who was to blame for that?" I questioned.

He paused for a moment. "Guess it was the reckless way that the war-workers bought," he replied. "They had lots of money and they bought regardless of price, and for the future and prices went up."

Well, who was to blame for that?" I queried with interest.

"That's plain to see," he answered. "We all were." Queer I never looked at it that way before.

His car came along and he boarded it.

The interests of every laboring community requires diversity of occupations, pursuits and objects of industry. The more that diversity is multiplied or extended, the better

CASTORIA

Fletcher's Castoria is strictly a remedy for Infants and Children. Foods are specially prepared for babies. A baby's medicine is even more essential for Baby. Remedies primarily prepared for grown-ups are not interchangeable. It was the need of a remedy for the common ailments of Infants and Children that brought Castoria before the public after years of research, and no claim has been made for it that its use for over 30 years has not proven.

What is CASTORIA?

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other narcotic substance. Its age is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic and Diarrhoea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep. GUARD THE CHILDREN FROM AUTUMN COLDS

The Fall is the most severe season of the year for colds—one day is warm, the next cold and wet and unless the mother is on her guard, the little ones are seized with colds that may hang on all winter. Baby's Own Tablets are mothers' best friend in preventing or banishing colds. They act as a gentle laxative, keeping the bowels and stomach free and sweet. An occasional dose of the Tablets will prevent colds, or if it does come on suddenly their prompt use will relieve the baby. The Tablets are sold at all medicine dealers or at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

THE "WORLD" ASTRAY
The World says "Mr. George M. McDade in response to the urging of many influential people, has consented to allow his name to go before a county convention of Government supporters as a candidate for Parliament. He will get every Conservative vote, and every Liberal vote that was cast for Mr. Loggie in the last contest, and will be elected.

We would remind the World that there are many other influential people in Northumberland, other than those of whom it speaks, who do not hold the same views. This will be demonstrated to our contemporary at the proper time.

The World is also very much astray in its prediction, that Mr. McDade will get every Conservative and Liberal vote that was cast for Mr. Loggie in the last election, and will be elected. Demonstration of error in this respect will also be shown our contemporary on election day.

The World has made a mighty poor guess this time and will see the error of its way, perhaps when it is too late. It did so, since the last Provincial Election and will do it again this time. Try another guess.

HOLD UP NEAR DERBY NORTH'D CO.

Information has just been given out by the police here of a hold-up near Derby on September 17, the victim being Chester Doak, collector for the Singer Sewing Machine Co. Mr. Doak was driving home to Newcastle from Blackville and when near the overhead bridge at Derby three men came out of the bushes and firing a revolver, the bullet from which came close to Mr Doak's head, ordered him to hold-up. The bandits then ordered Mr. Doak to hand over his money. This he did, the amount being \$37.00. He was then allowed to proceed.

Mr. Doak notified the Newcastle police at the time but the matter was kept quiet in the hope of getting some tidings of the hold-up men. The only description of the men Mr. Doak could give was that one wore a hat and the other two, caps. The police have been unable to get any trace of the parties.

A People's Candidate In The Field

To the Electors of the County of Northumberland: Ladies and Gentlemen:

I will be a candidate at the approaching bye-election for the Legislative Assembly on October 3rd, and respectfully solicit your vote and support.

I desire it to be understood that I am not a candidate of any class whatsoever, either farmer, labor or otherwise, but purpose to stand for the common good of the people of the County irrespective of class or interest. Briefly, I am the people's candidate.

If elected, I will be in opposition to the present administration. I do not believe that the present Government is giving to the Province of New Brunswick such measures as are conducive to the development of this Province.

Class legislation must inevitably fail. Only measures which will serve to advance the interest of the people generally should be placed upon our statute books. Conditions are such, that all classes are entitled to fair, just and equitable representation within the legislative walls, and only measures that will result in making this country a happy and prosperous place of abode for all people should be introduced into our law.

Farming, lumbering and fishing are the three outstanding industries on the Miramichi. It is my firm conviction that farmers, laborers and business or profession-

al men should enjoy representation. I wish it distinctly understood that I am not opposed to labor. No one will concede more than I, that they are entitled to fair representation.

I am a believer in advanced agricultural education, and in the introduction of any methods of improved farming, which will serve to make the task of the farmer more easy.

I am in favor of good roads. Not necessarily the construction of costly Tarvia roads in one particular section of the County, but in the building of stable gravel roads, involving an expenditure of about one-quarter as much as the cost of Tarvia roads. The by-roads of the County should

also receive every attention.

Ladies and Gentlemen, I come before you as a candidate of no class or clique. I make a firm, straight-forward, conscientious appeal for your support, and I desire to be elected not through any sharp methods, but solely and entirely by the will of the people of the County. Standing as I do, I very respectfully ask your endorsement, and promise to give you the very best that I can towards a clean, honest and progressive administration of public affairs, and particularly to advance the interest of the whole people of this great County.

I again appeal to you with confidence for your vote and support.
