NUMBER 400

MIXED TRAINS ON G.T.P. NEXT MONTH

Reason for Delay in Inauguration of Service Due to Incompletion of Fences.

The G.T.P. line from Winnipeg to Edmonton is in splendid running order, to wit the record trip of twenty-three hours made by the Cy-Warman's press party on Tuesday last and the run of twenty-five hours, with several stops, made by General Manager Chamberlin, of this G.T.P., who arrived in this city at nine o'clock last evening in his private car "Transcontinental." It is said that the road bed is in a most perfect condition and that any speed within the limits of a railway engine may be safely attained at almost any point along the 800 miles of the new transcontinental line.

Two Causes Given.

Mr. Chamberlin was asked this question this morning by a Bulletin representative. He said there are two barriers, the Railway Commission and the fences. Although the track was entirely satisfactory to the Railway Commission, permission to run a through train to Edmonton from Winnipeg would not be given until the fencing was completed. The fences had been stretched along the line practically as far as Wainwright and to that point permission was accordingly given to operate a through service. Mr. Chamberlin said that the fencing operation had been rushing every available man in service, but found it impossible to complete the stretch from Wainwright to Edmonton.

Mixed Train Service.

"When will the through service be opened?" Mr. Chamberlin was asked. "It will be impossible to have a through service before next spring," was the reply. By that time the fencing will be completed and the order of the Railway Commission will be withdrawn.

How about a mixed train service?

"We expect that by the 15th of November permission will be given to run a tri-weekly mixed train for the benefit of the settlers. The line who are badly in need of passenger service. This service will be maintained until the spring of next winter until through service in the spring can be given."

Good Relations With C.N.R.

Asked as to the relations existing between the G.T.P. and the C.N.R. and that there would be no friction regarding the handling of the passenger and industrial service in the C.N.R. yards. He said that the most northerly of the two G.T.P. lines into the city would be used for industrial service and the south line would be used for the passenger trains. Regarding the crossing on First street, he said that for the present both companies would be able to cross on the C.N.R. tracks across First street, but that the G.T.P. had permission to place two tracks across First street whenever they chose.

Present Station Will Serve.

"The present C.N.R. depot will likely serve the needs of both railway lines for five years as far as the passenger service is concerned," said Mr. Chamberlin, and probably by that time a large union depot may be built, when we have fewer demands for the expenditure of money. A union station, however, would probably have to be built elsewhere than on the present site of the C.N.R. on account of the proximity to a subway may be taken up by that time and remove the difficulty.

As to Branch Lines.

Mr. Chamberlin said that very shortly an important announcement would be made regarding the branch lines of the G.T.P. to be constructed next year. Those for this year have been advanced as well as expected. The Toledo to Calgary line was regarded as far as the cattle river but trails would not likely be laid down until next spring.

As to the closing of the street to the north so as to give the G.T.P. a continuous mile of railway yards.

Mr. Chamberlin said that the city had not closed the street as yet and that he did not know what the city intended to do about it. He said it was important that the street be closed as soon as possible.

Mr. Chamberlin took a look over the G.T.P. shops this morning in company with W. E. Mann, the engineer, and will go this afternoon to the steel head at the Pembina River to see what progress has been made on the bridge and along the line westward from Edmonton.

Packers to Establish Fleet of Steamers.

Vancouver, Oct. 29.—The B. C. Packers' Association, which operates a majority of the Fraser River steamers, sent one of their steamer captains to England today to purchase a steamer for the salt trade in British Columbia. Development of the B. C. packers' association has bought its supplies of fuel from Canadian vessels engaged in the fish business. These have all been absorbed by the New England Fish Company, an American concern. To actively compete with the latter, the salt packers' association has decided to buy a fleet of steamers in England and bring them to this coast.

"GO TO," SAYS SIR JAMES.

Outspoken Answer of Ontario's Premier to Temperance People.

Hamilton, Oct. 29.—At the morning session of the Baptist convention in discussing the report of the moral and social reform committee, Henry Moyle complained bitterly of the lack of support for church work. All the churches except his own had ignored the plea for funds to fight anti-licensing campaigns. The Baptists were swayed by politics.

A. T. Knetchel, of Berlin, recalled that when the temperance deputations went to Toronto to ask for more than they got they were politely told by Sir James Whitney to go to the devil.

D. E. Thompson, K.C., urged dropping politics. Their blind partisanship was their undoing. The time was not ripe for such action. Plebiscites recently taken showed 21 for organic union, where for union of some kind, eight favored the principle.

Charged With Fraud.

Hamilton, Oct. 29.—S. J. Vale, a Regina was arrested here today on a charge of trying to secure \$6,000 from the Bank of Commerce by fraud. Vale sent a letter to the bank purporting to come from Manager of the bank in Regina, stating that Vale had \$6,000 in the Bank of England coming to him. The police allege this letter is a fraud and have communicated with Regina.

\$80,000 TO COMPLETE CALGARY'S CITY HALL

Petition Being Circulated for Rebuilding of the Building to Provide for Completion of Civic Pile—Chas. McLeod Takes Two Years in Edmonton Penitentiary Instead of Six Months in Calgary.

Calgary, Alta., Oct. 29.—A petition will shortly be circulated amongst the business men and other ratepayers of the city requesting the council and the commissioners to again submit a by-law to borrow sufficient funds for the completion of the City Hall. If sufficient sign the petition the by-law will be submitted to the ratepayers on the date of the annual municipal elections. One hundred and fifty thousand dollars has been expended on the building and \$80,000 to complete the building and furnish it.

Preferred Penitentiary.

"Two years in the Edmonton penitentiary rather than six months in the Calgary barracks," was the slogan of Charles McLeod, this morning after having been given the latter sentence by Justice Stuart. McLeod, a well-known contractor, was charged with the assaulting of Provost, R. B. Tucker and Assistant Provost, R. B. MacLary at the police barracks a few days ago.

Not Guilty of Murder.

Corwall, October 29.—The jury in the trial of Isaac Garborough, charged with the murder of young Ross Beckett in May last, returned a verdict of not guilty after fifteen minutes' deliberation. The witness showed the old Garborough couple had been tormented by boys and men for some time until he borrowed a shot gun. On a night of May 18th the house was stoned and Garborough fired at random. The boy's body was found next morning.

Aged Prince Albert Man Dead.

Prince Albert, Sask., Oct. 30.—William Spencer, aged 90 years, died yesterday of a heart ailment. He was the oldest settler in the district and for 60 years was in the employ of the Hudson's Bay Company. He was at one time an officer of the company. He was born at Moose Factory, James Bay.

New Line Will Open Rich Area.

Vancouver, Oct. 29.—From Seattle and Vancouver holders of the charter McKenney and Mann, proprietors of the Canadian Northern railway, have purchased Portland Canal short line railway. T. F. Hopkins, a Seattle engineer, and one of the incorporators, said today that the new owners would build 20 miles of the line this year and more later. It will develop a mining country which borders on the Alaska boundary in the north.

FATAL FIRE AT UXBIDGE.

Uxbridge, Ont., Oct. 30.—Fire was discovered this morning at midnight in the residence of A. McLaughlin, a bookkeeper. The fire gained such headway that it was impossible to enter the building and Mrs. McLaughlin and two youngest children were burned to death. McLaughlin, who was up with a sick child, escaped with it.

Manitoba Apples a Surprise.

London, Oct. 29.—The province of Manitoba is appearing before Londoners in an unexpected role, namely, as apple growers. Samples of perfect apples of several varieties grown by a man named Stephenson at Nelson, Manitoba, now on exhibition in the high commissioners' office, are attracting much attention amongst those interested in the prairie lands, especially with a view to commercial prospects enterprise.

Lethbridge Takes First Prize.

Billings, Mont., Oct. 30.—Lethbridge took first prize in winter wheat in the sheaf with Alberta Red at the Dry Farming Congress being held here.

IS SENTENCED TO 28 YEARS IN PRISON

James Robinson, Suburban Fiend, Acquitted of Murder, Charge But Sentenced on Others.

Suburbary, Ont., October 30.—James Robinson was this afternoon acquitted by a jury of a charge of murder, but, in the meantime, having pleaded guilty to the other charges, was sentenced by Justice Magee to 28 years in prison, viz., fourteen years for incest against his daughter Ellen and fourteen years for incest against a second daughter, Jessie, with 28 years for rape against another daughter, Maggie. The sentences to run concurrently.

Robinson is fifty years old. He listened to the sentence with bowed head and sat down apparently dazed with his head in his hands.

In sentencing him, Judge Magee said: "You appear before me confessing guilt of the most horrible crimes conceivable in a civilized country and have shown no remorse or regret. I hope your crimes will never be paralleled in Canada." The jury was out two hours on the murder charge. It first divided 9 to 3 for acquittal.

MAN HUNT FOR MURDERER.

He Shot and Killed His Pretty Young Wife.

South Braintree, Mass., Oct. 29.—A man hunt stretching from here down the cape to Plymouth, began today for the capture of James E. Miller, who shot and instantly killed his pretty young wife, Ruth, while she held by the hand their 5-year-old son, Delma, her last evening.

Train Crew Injured in Explosion.

River Beaudette, Oct. 29.—The boiler of a Grand Trunk freight train exploded 15 miles west of Coteau Junction this morning and three men were injured, one probably fatally. The injured are: James Bradley, Montreal brakeman, severe internal injuries; Frank Miller, St. Catharines, head and hand crushed; and Arthur Bradley, aged 30 years, engineer. Bonaventure, headly injured, died in hospital in Canada or in the United States. It will certainly be a credit to the City of Edmonton.

Mr. Ross is one of the oldest employees of the Post Office department.

From the printing business in Hamilton he entered the post office service under Alexander McKenzie in 1876. The last visit has been gradually worked up to his present position. At the last distribution of honors by the King he was granted the Imperial Service Order.

Mr. Ross is now returning from the Coast.

He leaves for Saskatchewan on July 2 last, passed through here tonight in custody of Inspector William Greer, of the Ontario provincial police, who is taking the hold-up man back to Fort Frances, and for the first time told how his companion had robbed him of his ill-gotten gains.

According to Dombroski, after the robbery the men separated and later met in a hotel just outside of Ratny River. There they were to have a meal of \$25.00 per annum.

Later Dombroski heard that his partners had come to the soft coal region of Pennsylvania and it was for the purpose of killing them that he came to this country where he was captured about six weeks ago while attempting a ride on a passenger train.

When arrested by Railway Detectives Grady and Richards, Dombroski not only carried a gun but had nitroglycerine and dynamite caps in his possession. He gave the detectives a terrific battle and tonight in the jail he endeavored to make a bid for his spring of an alarm clock. Dombroski declares that he has information that his hold-up companions are in Brazil, South America.

Street Car Ran Wild.

Denver, October 29.—Mrs. Jessie Broderick was instantly killed; Margaret Warford and Arthur Packard fatally injured, and a dozen others hurt when the Park Hill trolley car ran wild and left the track, crashing into telephone poles.

Announcement

Commencing January 1st, 1910, all subscriptions to the SEMI-WEEKLY BULLETIN must be paid strictly in advance.

Subscribers will be notified at least thirty days before their subscription expires, and unless the same is paid promptly THE BULLETIN will be discontinued one week after subscription is due.

CARRIER SERVICE TO BE MUCH IMPROVED

Three Deliveries a Day For the Business Sections and Extension to the Outlying Sections of the City Will Be Given in a Short Time.

That the business sections of the city be given three postal deliveries a day and that the carrier service be extended to the Great sub-division and other outlying parts of the city is the recommendation that will be made to the Post Office Department by Chief Inspector George Rose, of Ottawa, who is in the city today. Mr. Rose was last in Edmonton when he instituted the carrier service. He had been greatly impressed with the development since that time and he at once saw that the growth demanded a better service.

Occupying New Post Office.

Mr. Rose was asked, "That I cannot say definitely, but I hope it will be before the end of the year." He said that the completion of the fittings.

When the new office is completed it will be of the most modern type.

Mr. Rose is one of the oldest employees of the Post Office department. From the printing business in Hamilton he entered the post office service under Alexander McKenzie in 1876. The last visit has been gradually worked up to his present position. At the last distribution of honors by the King he was granted the Imperial Service Order.

Mr. Ross is now returning from the Coast.

He leaves for Saskatchewan on July 2 last, passed through here tonight in custody of Inspector William Greer, of the Ontario provincial police, who is taking the hold-up man back to Fort Frances, and for the first time told how his companion had robbed him of his ill-gotten gains.

According to Dombroski, after the robbery the men separated and later met in a hotel just outside of Ratny River. There they were to have a meal of \$25.00 per annum.

Later Dombroski heard that his partners had come to the soft coal region of Pennsylvania and it was for the purpose of killing them that he came to this country where he was captured about six weeks ago while attempting a ride on a passenger train.

When arrested by Railway Detectives Grady and Richards, Dombroski not only carried a gun but had nitroglycerine and dynamite caps in his possession. He gave the detectives a terrific battle and tonight in the jail he endeavored to make a bid for his spring of an alarm clock. Dombroski declares that he has information that his hold-up companions are in Brazil, South America.

Street Car Ran Wild.

Denver, October 29.—Mrs. Jessie Broderick was instantly killed; Margaret Warford and Arthur Packard fatally injured, and a dozen others hurt when the Park Hill trolley car ran wild and left the track, crashing into telephone poles.

TREATMENT OF STOCK INHUMANE

Shocking Conditions Obtain at C.P.R. Stock Yards at Winnipeg Due to Overcrowding.

Winnipeg, October 30.—A shout of protest loud enough to be heard at the Canadian Pacific general offices, the City Hall and the Humane Society headquarters arose at the C.P.R. stock yards yesterday against conditions at the corrals. The chief grievance of the stock men is lack of room, inadequate yards. Complaints of fumes arising from this defect, which had been long and patiently nursed by the cattle men in anticipation of improved conditions, crystallized in a unanimous protest yesterday, following severe losses from shrinkage through lack of shrinkage. This shrinkage was directly due to stock being left in the cars for many hours after their arrival without food or water, on account of there being no room in the yards for them.

Heavy Losses.

J. P. Prouse, of Yorkton, reached the city yesterday morning with seven cars of cattle. He figures his loss from shrinkage through lack of yard room at \$200 on the shipment. A. D. Brown, a local shipper, declares that he has a heavy loss on this account this season and yesterday suffered several hundred dollars loss. Mr. Brown said to a press representative:

The loss to shippers is not the only cause for complaint at the yards.

"The loss to shippers is not the only cause for complaint at the yards. The suffering to which the animals are subjected. A fair illustration was afforded here today. A train load of 37 cattle from Yorkton and its immediate points reached the terminal at five o'clock yesterday morning and remained in the cars until five o'clock in the evening, without food or water, because there was no place to unload them. Another trainload transferred from the C.N.R. was in a like condition after its arrival. These conditions are of frequent occurrence in the yards."

Crowded into Hog Pens.

"The cattle are also crowded into the hog pens, often among ewes and sheep, and it is not possible to either feed or water the stock. Often the chutes are crowded, and frequently after the cars have been on the pens for forty-eight hours, the cattle are unloaded only to be packed in the chutes, where they stay some days for another ten hours without food or water. This is an idea of the every day condition the cattle men have to contend with."

There is even a more sickening picture of the situation.

Thursday at noon a bullock with a broken leg was pushed on three legs from a car to the chutes. The bullock protruded through the skin, which was literally peeled to the knee of the animal. In this condition it lay until Thursday, all Thursday night and until Friday noon, trampled upon by the other beasts, suffering and slowly dying, when H. A. Mullins came across it and ordered a yard man to put it out of misery, remarking that under such circumstances he would take the responsibility for a claim, if one should arise."

THIS ROBBER WAS ROBBED

John Dombroski Tells How He Was Relieved of Ill-Gotten Gains.

Pittsburg, Pa., Oct. 29.—John Dombroski of St. Paul, Minn., who has confessed to being one of the three men who held up cashier John Greer, of the Rainy River branch of the Bank of Nova Scotia, on July 2 last, passed through here tonight in custody of Inspector William Greer, of the Ontario provincial police, who is taking the hold-up man back to Fort Frances, and for the first time told how his companion had robbed him of his ill-gotten gains.

According to Dombroski, after the robbery the men separated and later met in a hotel just outside of Ratny River. There they were to have a meal of \$25.00 per annum.

Later Dombroski heard that his partners had come to the soft coal region of Pennsylvania and it was for the purpose of killing them that he came to this country where he was captured about six weeks ago while attempting a ride on a passenger train.

When arrested by Railway Detectives Grady and Richards, Dombroski not only carried a gun but had nitroglycerine and dynamite caps in his possession. He gave the detectives a terrific battle and tonight in the jail he endeavored to make a bid for his spring of an alarm clock. Dombroski declares that he has information that his hold-up companions are in Brazil, South America.

Street Car Ran Wild.

Denver, October 29.—Mrs. Jessie Broderick was instantly killed; Margaret Warford and Arthur Packard fatally injured, and a dozen others hurt when the Park Hill trolley car ran wild and left the track, crashing into telephone poles.

SUGAR TRUST ON WAR PATH.

Collector Loeb, New York, Has Gained Enemy of Strong Financial Men.

Washington, Oct. 29.—The sugar trust wants Wm. Loeb, Jr., removed as collector of the port of New York. Information has reached the treasury department that complaints of administration of the New York custom service are to be sent to President Taft and Secretary MacVane, as soon as these officials are in Washington.

Secretary MacVane will take personal charge of the situation.

The complaints, it is said, are to be backed up by powerful political influences in New York. Obviously they are to be based on the action of Mr. Loeb in keeping in office confessed grafters and the reports of indignities offered American citizens upon their return from European tours.

Mr. Loeb observed the line up against him and recognized the power of the combination.

Still he is determined to proceed in the quest of big game he knows to be in the graft jungle. And it is expected President Taft will take part in the house cleaning. Alfred Musica, a member of the cheese importing company was sentenced to one year in the penitentiary and the fine of \$1,000, having pleaded guilty to a charge of conspiring with the customs officials in the weighing of cheese.

GOVERNMENT WILL NOT GRANT SUBSIDY ASKED

Request for Annual Subsidy of 4 per cent for 50 Years on \$6,000,000 Investment in Drydocks Cannot be Granted, Government Considering it Too Much—Importance of Industry Recognized.

Ottawa, Oct. 29.—It is understood that the government after considering the proposals of the company of British and Canadian capitalists as presented on Tuesday last, respecting Federal aid for drydocks and shipbuilding yards at Lewis and St. John, has declined to grant the request for an annual subsidy of four per cent for fifty years on a total contemplated expenditure of about six millions, is too large an order to fill at present.

While fully recognizing the importance of the undertaking the government believes that so large a subsidy, paying as it would be the interest in the whole capital investment, is not warranted as a compromise measure of Federal aid should be sufficient to enable the promoters of the enterprise to go ahead with the plans as outlined.

Other Company May Take It Up.

Failing the decision of the company of British and Canadian capitalists, building plants, unless the full measure of their request is complied with, it is hoped that some other company will undertake the establishment of a great shipbuilding industry.

This is the scheme which is believed to have been submitted to the Laurier government by representatives of Herland & Wolff, the big Belfast shipbuilders. Sir Robert Perks, one of the Empire's greatest contractors and the Canadian Pacific railway company.

Three Per Cent for Twenty Years.

It is proposed that the government should pay annually for twenty years a sum equivalent to 3 per cent of the cost of the dry docks but not exceeding \$45,000 per annum. In support of this scheme influential delegates from Lewis, Que., and St. John, N.B., at which parts it was proposed to build the dry docks and shipyards, waited on the cabinet last Tuesday and were assured that their proposals would receive careful consideration.

Explosion Probably Fatal.

Toronto, October 29.—There are no new developments regarding Parker's dye works explosion on Young street. George Harris, foreman of the French cleaning department, in which the explosion occurred, is hovering between life and death in St. Michael's Hospital. He is badly burned about the head and shoulders and will probably recover. The loss, about \$20,000. The side of the building was blown out.

100 Years of Steam on St. Lawrence.

Montreal, Que., Oct. 29.—The centenary of steam on the St. Lawrence will be commemorated tomorrow by flag flying and decorations, the approaching close of the shipping season preventing a holiday. The S. E. Accommodation was put in commission between Montreal and Quebec on October 30, 1809, the channel, now dredged to thirty feet, then having a minimum depth of ten feet.

Conservatives Oppose Navy.

Kingston, Oct. 29.—The Daily Standard (Conservative) editorially says that "Ninety out of every hundred Conservatives in the city are unalterably opposed to the policy of a Canadian built navy and that in the Conservative county of Frontenac also the proportion of Conservatives are opposed to a Canadian navy is fully as great."

Former Ambassador Dead.

London, October 29.—Sir Edmund Lushington, one of the foremost British diplomats died today. He was recently ambassador in France and did much to bring about the entente cordiale.

REVOLT IN THE NAVY IN GREECE

Lieut. Tiebaldos and 300 Men Seized Arsenal on Salamis—Battle of 20 Minutes.

Athens, Greece, October 29.—An actual revolt in the navy has taken place and the situation is acute. The band of naval officers, which on Wednesday quit the capital and withdrew to the island of Salamis, today seized the arsenal there and the force is now entrenched. The rebels met no opposition. They are led by Lieut. Tiebaldos, and are reported to number 300 men. The government has proclaimed Tiebaldos a traitor and ordered his arrest.

Many of the junior naval officers in Athens disapprove the revolt. Great excitement prevails in this city and the ministry of marine is guarded by troops.

Lieut. Tiebaldos, who heads the revolt, is the commander of a flotilla of torpedo boats and submarines. It is reported that he demands that he be appointed minister of marine and threatens, if this is not conceded, he will overthrow the government and establish a dictatorship.

Battle Lasted Twenty Minutes.

Following the seizure of the arsenal on the island of Salamis today by Lieut. Tiebaldos and three hundred of his followers from the navy a battle that lasted twenty minutes took place this afternoon. The government field batteries on the mainland opened fire on Tiebaldos and his band and the rebels courageously returned fire. The result of the cannonading was a rattle of musketry created intense excitement in the capital. After the firing had ceased the government opened negotiations with the rebels, but whether they will surrender is not known.

Hostile White Flag.

During the brief fight one of the torpedo boats of the rebels was hit by a shell from a government gun but was not put out of action. Tonight it is reported that Lieutenant Tiebaldos and his supporters have fled to sea in the direction of Crete and that the arsenal is again in the hands of the government troops. It is feared that the rebels will attempt to capture Crete. At eleven o'clock tonight the Premier stated that the rebellious marines, who earlier in the day had forcibly taken possession of the arsenal and submarine defenses on Salamis Island, had hoisted the white flag. No serious damage was done by the firing in the battle of this afternoon.

Two Men Wounded.

The casualties of the loyal fleet in today's engagement were two men wounded. The losses of the mutineers are not known, but of their three destroyers one was disabled and another torpedo boat was in the direction of Eleusis and disappeared in the darkness. The third succeeded in reaching the Poros naval station, but it met a hostile reception and was compelled to put to sea again. The loyal fleet is cruising in the Straits of the Peloponnese to prevent any attempt at landing or any attack on the town and also with the object of closing the Strait of Salamis.

Tiebaldos An Active Officer.

Lieut. Tiebaldos, appearing to have been actuated by his disapproval of the tactics of the military league and the junior naval officers in consenting to the mutiny, is a compromise in the mutiny issued by the military league for the enactment of an ordinance suspending all promotions for five years, and the abolition of the posts of rear admiral, vice admiral, and places of lesser rank. Tiebaldos is a prominent part in the military movement last August. He was the first officer to go to the camp at Gouli, outside of Athens, after the Premier's refusal to receive a deputation of officers, and he subsequently was appointed commander of the rebel camp.

At a meeting of the military league yesterday, Tiebaldos said: "I led the last revolt and without me it would have been a failure. Now you abandon me, but I will carry out a second revolt single-handed."

The military league's proclamation disowning Lieut. Tiebaldos, who was in command of a flotilla of torpedo boats and submarines, and commanded the portfolio of minister of marine, ascribes his pretensions to madness and the influence of outsiders, and threatens to have him tried by court martial for treason. The league held a meeting late tonight to discuss what its attitude should be toward the naval officers who took part in today's fight. It is believed that the league is inclined to show them indulgence.

Meanwhile the position of the mutinous torpedo boats resembles that of the Russian battleship Kniaz Potemkin, which mutinied in 1905 and fired on Odessa, and then romped the Black Sea for several weeks, and the government is apprehensive as to where it next will hear from them.

The revolt had its origin when the government, in response to the demands of the naval officers, suspension of promotion for five years and the abolition of certain high naval posts, consented to introduce a navy purification bill, but it insisted that the bill must be absolutely impersonal and declared that it would flatly reject any proposals at individual officers. The military league accepted the solution of the problem, but Lieutenant Tiebaldos spurned it as inadequate.

FRIDAY'S GRAIN MARKETS.

Winnipeg, October 29.—The market opened with quite a small flurry of bidding, especially by one local house, and October advanced to 99 1/2, with a few shorts covering. Then came a period of exceptional dullness; therefore the offerings, but apparently no takers; export men reported little doing and the market dragged along until about five minutes before the closing time, when there was another little spurt and 1/2 of the lost ground was regained and October closed at the same price as Thursday, November and December 1/2 and May 1/2 higher. Oats were dull and unchanged to 1/2 lower.

Chicago closed 1/2 to 3/4 higher and 1/2 to 3/4 under the high point of the morning. Minneapolis, December was up 1/2 and May 1/2. Liverpool was 1 to 1 1/2 up, and world's shipments, exclusive of North America, were estimated at less than 8,000,000. Other news was all bearish in tone.

Duluth flux again advanced sharply, going up 2 1/2 for December, 1 1/2 for May and 1 1/2 for November. Winnipeg flux was 1 lower. Winnipeg cash wheat—No. 1 Northern, 94 1/2; No. 2 Northern, 96; No. 3 Northern, 94 1/2; No. 4, 92; No. 5, 84; No. 6, 77 1/2; rejected 1 1/2 Northern, 94 1/2; rejected 1 1/2 Northern, 93 1/2; rejected 2 1/2 Northern, 93 1/2; rejected 2 1/2 Northern, 91 1/2; rejected 1 Northern for seeds, 92 1/2; rejected 2 Northern for seeds, 91. Oats—No. 2 white, 34 1/2; No. 3 white, 33 1/2; No. 4, 32 1/2; No. 1 N.W., 1 1/2; No. 1 Manitoba, 1 1/2.

CHICAGO GRAIN MARKETS.

Chicago, October 29.—A profoundly nervous feeling was noticeable among wheat traders throughout the entire session today and the market displayed decided strength both early and late. The European market was a factor in creating bullish sentiment, being higher on the prospect of smaller shipments from Russia, cold weather over the United Kingdom and fairly heavy buying by foreign operators. Prices at Berlin were higher on good buying by importers and the prospect that Germany will need 26,000,000 bushels from foreign countries for the year. Northwest receipts were much larger than a year ago at 713 cars, but this fact had little influence with the trade here, because December wheat at Minneapolis advanced one cent and stocks there increased only 5,000 bushels, as compared with 673 bushels the same week last year. Statisticians argue that in wheat and flour combined that point shipped about 225,000 bushels more than the total receipts for the week. Duluth stocks increased heavily. One of the leading cash grain concerns at Duluth reported that it had not a single unit filled wheat sale in its books; two other larger concerns are also out of the market for cash wheat and only one buyer left who expects to quit the field soon. Meanwhile receipts are expected to continue, although there is no place to market any fresh supply with eastern mills or for export. There was a moderate trade in corn with values holding a fair fractional gain throughout the day. Oats sympathized with the strength of the other grains, but the trade was not large. The short hog situation is the bull force under the provision market. Heavy outside buyers, investment operations by local operators and

covering by shorts combined to give January products a decidedly strong tone during the early trading, but there was a sharp reaction at one time under profit taking and selling by packers. Strongly returned, however, at the close, when prices very nearly reached top figures all around.

STRUCK SUBMERGED WRECK

This is Given as Cause of Mishap to Empress of Ireland.

Quebec, Oct. 26.—Capt. Demers, wreck commissioner, opened an investigation at the court house this morning into the recent accident to the Empress of Ireland near Matane. Several witnesses were heard. Captain Forster's testimony was to the effect he was steering a safe course and he could not account for the accident. Julian Duck, second officer, corroborated the captain. He was on the bridge at the time of the mishap. His opinion is that it was not a rock but an old wreck the ship had struck. It came out that the Hiladona had some years ago struck some unknown object near the same place. At the conclusion of the hearing Mr. Demers said he would render judgment in the case later in Montreal and that an inspection of the scene of the accident would be made to determine if possible the cause.

CAPPING OF NATURAL GAS WELL AT PELICAN

Flow of Gas Which Has Been Burning Eleven Years Successfully Stopped by Wm. Pearce, Natural Gas Expert.

Wm. Pearce, well inspector for the department of public works and R. W. Ginter, natural gas expert of Edmonton, have returned from Pelican Rapids on the lower Athabasca river, where they have effectively stopped the flow of natural gas which has been escaping for practically eleven years.

Last July Mr. Pearce was sent by Deputy Minister John Stocks to make an inspection of the gas flow on behalf of R. W. Brock of the Geological branch of the department of the interior at Ottawa. Mr. Pearce recommended that the flow could be effectively stopped and that it could be done without very much trouble.

The result was that Mr. Pearce and Mr. Ginter arrived at the Pelican Rapids on October 3 and by October 12 the work was completed. Gas was found to be escaping from six pipes of different sizes and in addition a great flow of water. The individual pipes were capped and over all was put a ten-inch pipe with the spaces between filled up with concrete. The caps did not fit as properly as Mr. Pearce would have liked and there was still perceptible leakage but a decided change in the weather made it necessary that the party return to Athabasca Landing without further delay.

The well in question was struck eleven years ago by W. A. Fraser, now a novelist who writes Western trails. Mr. Fraser was then connected with the geological branch at Ottawa and was sent into the Athabasca country to explore for oil. The six pipes were struck at different depths but the main pipe went to a depth of 837 feet. Not finding oil the well was abandoned and has been gushing forth gas in large quantities ever since.

PRINCE ALBERT LABOR FAMINE

Many Important Works at Standstill as Result.

Prince Albert, October 27.—The cry for more men is increasing here and important work is at a standstill. During the last few weeks many requests for help at this centre have been sent out, but the demand yet is far from being filled. Work on civic improvements is at a standstill, owing to the lack of men and the lumber mills are unable to work to full capacity because of lack of help. There is practically a labor famine on at present.

A. L. Mattes, manager of the Prince Albert Lumber Company, said this afternoon: "I have had fifteen hundred men to work at once if I could get them. I am unable to get enough help and since logging operations have commenced many more men are wanted in the woods."

NEW YORK IS STIRRED

Over Charges That Tammany Hall is at Head of White Slave Traffic.

New York, Oct. 27.—Never has New York been so stirred in an election as by the charges that Tammany Hall is at the head of white slave traffic in this city. It is the election topic of the hour, and the more it is stirred up the greater and more convincing the proof that the charge is true. Despite the frantic denial of Charles F. Murphy and former Judge Wm. J. Gaynor, the Democratic mayoralty candidate, to the contrary, it is evident that a great majority of the people believe that Tammany Hall, if not an actual trader in this traffic at least protects those engaged in it. Both Wm. E. Bennett and Herbert Parsons, Republican leaders, advanced convincing evidence to the municipal court and the United States government records to show that New York is the centre of the world's white slave traffic and that Tammany Hall's skirts are far from clean.

When a cold becomes settled in the system, it will take several days' treatment to cure it, and the best remedy to use is Chamberlain's Cough Remedy. It will cure quicker than any other, and also leaves the system in a natural and healthy condition. Sold by all dealers.

Get Your Money's Worth THE BEST WEEKLY Newspapers AT Popular Prices

THE BULLETIN has just completed Special Clubbing Arrangements and until December 31st we are able to quote New Subscribers the following rates on these well known Weekly Publications for balance of 1909 and all of 1910.

- The Semi-Weekly Bulletin \$1.00
Semi-Weekly Bulletin and Toronto Weekly Globe - \$1.50
Semi-Weekly Bulletin and Toronto Weekly Mail - \$1.50
Semi-Weekly Bulletin and Winnipeg Free Press - \$1.50

WHAT DID HILL MEAN?

Great Railroader Excites Much Meritment at Dry Farming Congress.

Billings, Mont., Oct. 27.—Senator Aldrich of Rhode Island played the goat at the opening sessions of the Fourth International Dry Farming congress yesterday, for which James J. Hill, wether with intention to this result or otherwise, is uncertain, was responsible. Mr. Hill speaking extemporaneously intended, apparently, to pay a sincere compliment to the Rhode Island statesman: "That great statesman Senator Aldrich" was the beginning and the end of Mr. Hill's compliment.

The convention hall, crowded to the doors with intense dry farmers with the flower of Montana womanhood furnishing life to the color scheme, broke into laughter. Mr. Hill's face was a study. He endeavored to proceed with his address, but the laughter completely drowned out his words. Mr. Hill, himself, saved the situation. He abandoned any idea he may have had of forcing a more exacting program on the congress. "When the exposition is realized the world will be amazed at Christian ethics and catholicity and in the light of it the insignificance of belief of a belief in Christ will be reduced to an absurdity."

A CHRISTIAN EXPOSITION.

Event Will Take Place in London in 1911.

London, Oct. 27.—During the last five months the Rev. Sam Small has been organizing a Christian exposition to be held in London during the summer of 1911. The intention is to show graphically what the Christian religion has accomplished in the world since the King James translation of the Bible 300 years ago. The preliminary work of the conference is finished and the Rev. Mr. Small has just sailed for Canada to bring the Dominion into line. "The reason for holding the expo-

THE BLACK HAND IN CANADA.

Should Be Put Down When It Shows Its Head, Says Judge Snyder.

Hamilton, Ont., Oct. 26.—E. S. Penness, C. Colombo, and M. Wolfe, the three Blackhand men, found guilty by Judge Snyder of sending a threatening letter to S. Sanzone, were sentenced to ten years each in the Kingston penitentiary. The judge said that Canada should not stand for Blackion, the court taking the opinions of estant and all denominations will be represented on equal terms. The archbishops of Canterbury and York have pledged their co-operation and the Anglican free churches have acclaimed the undertaking through the mouths of Dr. John Clifford and others equally powerful. Sir Alfred Jones, whose ships touch the principal ports of the world, has promised to carry the objects to be exhibited free of charge both ways and numbers of the most influential men in British public life have assured me of support.

Thaw Still Legally Insane.

Albany, N.Y., Oct. 27.—Mrs. K. Thaw's contention that he was illegally committed to the Matteawan state hospital for the criminal insane was overruled today by the court of appeals. The court affirmed the appellate division, second department, which upheld a decision of Supreme Court Justice Mills, dismissing a writ of habeas corpus and refusing to order Thaw's release. There was no opinion of the court taking the opinions of hand methods and that the practice

RED DEER.

On Monday two carloads of deer arrived at the depot and a good demand for them was noted. One hundred, and two.

The town is at present in the operation of the C.P.R. It is rumored, probably truth that the party placement of the C.P.R. The C.P.R. surveyors completed operations as of Lake.

"Feeling the Music" tonight by the Red.

LEAGUE CONVENTION ELECTS ITS OFFICERS

Closing Sessions on Wednesday—The New Officers—Summer School to be Held at Sylvan Lake Near Red Deer.

Delegates to the Sunday School convention, attended the closing meeting of the Epworth League at Grace Methodist church, Wednesday night, in large numbers. The biennial conference brought to a close by one of the most inspiring meetings in the history of the Alberta organization.

Too Much of Organization. The first and chief director of the forward movement should be that of definite religious experience. It was to be feared that many religious leaders of today know so much of organization and so little of the deeper religious life.

The Forward Movement. Mr. Marshall emphasized the necessity for forward movement along the line of personal work.

Goal of the League. The strong note of earnest solicitude for young men and for foreigners which had rung through the session had greatly impressed Rev. Mr. Doyle, who delivered the goal of the league.

Church a Workshop. The church was a workshop rather than a house, a place of endeavor rather than a place of rest.

Imperial Veterans Land. The Imperial Veterans Association waited upon Sir Wilfrid Laurier and Sir Frederick Borden this afternoon to ask that men who had served in the Imperial corps in South Africa who are now residents of Canada should be given veterans land grant similar to that received by Canadian South African veterans.

Robbers Kill Two Men. St. Petersburg, Oct. 27.—A dispatch from Nicolayevsk, Asiatic Russia, says that a band of robbers landed a Japanese watchmaker's establishment, and killed two men and severely wounded a Japanese girl.

Spanish Queen to Go to England. London, Oct. 26.—It is stated that Queen Victoria and her children will come to England shortly and will visit the Isle of Wight.

HEINZE SENTENCED TO JAIL. Ice King Fined \$250 and Must Serve Ten Days. New York, Oct. 27.—Arthur P. Heinze, who was convicted in June last in the criminal branch of the Supreme court of obstructing the administration of justice by advising a witness wanted in the United States to evade a grand jury subpoena, was this afternoon sentenced to pay a fine of \$250 and to be imprisoned in the New York city prison for ten days.

HE HAS HAD NINE WIVES. Otto Mueller, Isip Murderer, Makes Full Confession. New York, Oct. 27.—Otto Mueller the self-confessed slayer of Anna Luther, whose body was found in the Isip woods, has a record of nine years in Sing Sing prison, where he was sent in 1886 for robbing a girl named Mary, who had promised to marry him.

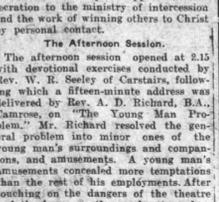

Money in Wheat Lands. A complete list of wheat and mixed farming lands with prices and terms to suit purchasers. Information cheerfully furnished by THE COLES HOME LAND CO., Strathmore Alberta, Canada.

AN OLD GENTLEMAN CURED OF RHEUMATISM. By One Box of Gin Pills. Mr. Wm. Conly is one of the oldest and best known residents of Yarmouth, N.S. Owing to his advanced age Mr. Conly was troubled with his kidneys, which finally developed into Rheumatism.

THE EDMONTON CITY DAIRY, Limited

Established 1916. MANUFACTURERS OF CREAMERY BUTTER.

Also Co. also in Milk, Cream, Eggs, Butter and Buttermilk

Delivered to any part of city daily. Phone 3102.

Dairymen that have never sold their cream will do well to give us a trial.

Why do all the work of making butter and selling it, when you can sell the cream for cash. If you would like to try a few shipments send your care to Edmonton City Dairy, Ltd., Edmonton or Strathcona. We pay express and return same free.

If you haven't any cans write us and we will loan you cans while you give us a trial.

Our factory operates the year round. We are always glad to meet any visitors.

Two years ago he quit the House of Commons and entered the politics of his native Province.

The way was paved for him by the Conservatives, national and provincial. The party organization was placed at his disposal.

Conservative members of the House of Commons stamped the Province in behalf of his candidates.

In no constituency in which a Nationalist candidate stood for election was a Conservative candidate nominated.

Mr. Bourassa and one follower were elected. This moderate success was acclaimed by the party press with every profession of lively satisfaction.

It was indeed difficult to distinguish from the quantity and quality of their editorial congratulations whether there was more general rejoicing that Mr. Bourassa was elected in Quebec or that the Whitney Government was sustained in Ontario.

In the Legislative Assembly Mr. Bourassa has been consistently opposed to the Liberal Government of his Province.

His undoubted talents in debate have been employed, if not in advancement of the Conservative cause, at least in criticism of that of their opponents.

Any success he has won or might have won must be in the nature of things, redound to the political advancement of the Conservative party.

The formal recognition of the new recruit, therefore, seems somewhat tardy.

By this it may, there will be interest in seeing how the alliance now finally acknowledged works out.

The doctrine upon which Mr. Bourassa has built his reputation is sufficiently repugnant to the vast majority of Canadians irrespective of party, but it is especially repugnant to the party whose press now welcomes its champion to the ranks.

Imperialism, the Opposition papers have been telling us for years—and never with more assurance and fervor than during recent months—is an idea ever which the Opposition must be supposed to have some kind of prior and exclusive rights.

Loyalty to the British connection they assert, truly, has ever been a plank in the party platform; and to exalt the virtue in themselves they rather more than intimate that the Liberals have not always been as sympathetic in the Government.

He held that the Empire was one and indivisible and that it must be shown to be one; that while it was composed of many parts, each entitled to separate recognition and to the regulation of its own national affairs, in the vital matter of defence there should be no divisions; that the nations of the world should be given to understand that to invade the most distant dominion of the Empire was to challenge the united power of all its members.

The views Mr. Bourassa then advanced he has championed constantly until today in the House of Commons, on the stump, through the columns of his paper, he has preached through good reports and evil, the doctrine of a nationalism not only distinct from Imperialism, but antagonistic to it.

He is now and has been for many years the recognized head of that small faction which exalts the idea of nationalism at the expense of Imperial connection, and which does not hesitate to avow as its aim the development of nationhood along lines which would sooner or later sever that connection.

Such is the man whom the Mail and Empire say correctly was "not at home" among the Liberals, and whom it now welcomes to the tents of its party as a new recruit of considerable worth.

The welcome is indeed late, for if Mr. Bourassa has not been a Conservative in aim and effort these two years the Conservative press has been shooting off fireworks for nothing with Canada.

The Republic could a large business in this country, and there is not a firm making sales in the Dominion that wishes that business to be in the slightest degree curtailed.

Yet there is a possibility that trade may be severely hampered, and this, not by reason of any act of which Canada has been guilty, but because of the recent tariff legislation at Washington.

When the new tariff was before Congress our neighbors thought it would be an excellent idea if they could use it for the purpose of influencing the policy of other countries, notably that of Canada and Britain, letting upon this principle, they included in the first draft of the measure a clause which set forth that, in the event of Great Britain giving a preference to her duties upon British goods an additional import of 25 per cent. ad valorem.

This proposition did not deny Canada the right to give a preference to Britain, but it did deny to Britain the right to give Canada a preference in return.

The clause was discussed pretty freely, and Congress retreated from it, declaring that the extra duty should not be laid on goods which are given between a colony and a mother country.

Under this arrangement the United States would not have retaliated upon either Britain or Canada for giving preferential treatment to each other; but a preference—or a lower rate of duty than is accorded to the United States—if given to a foreign country, said on which he must stand upon the United States-Senate the policy was once again revised, and as it left that chamber to become law, it cast upon the President of the United States the duty of determining whether the retaliation should or should not be applied.

If he thinks a concession given by us to Britain is an "undue" discrimination against the United States, he must order the addition of 25 per cent. to the duties upon Canadian products.

If, on the other hand, he does not regard our preference as "undue," he refrains from punishing us. If he assumes that our treaty with France gives the French an "undue" favor, he is to add the 25 per cent. to the United States duties upon our goods.

If he thinks the concession is not "undue," he leaves matters as they are.

"It seems to be the feeling in the United States that the President will levy the higher Customs rates, upon us, but instead of being delighted at the prospect, the business of that country views it with apprehension.

There is a good reason for this attitude. The moment the United States States goods must go up also. Canada's law of 1903 makes it plain that such a discrimination as that contemplated across the line has to be answered in kind.

We adopted this policy with regard to Germany, and the rule is general. The good sense of the States objects to a tariff war, and it is that such wisdom is excluded from Congress.

Harveste Suspected of Thief. Aberdeen, Sask., Oct. 29.—Taking the train here today, a man giving his name as McPadden was arrested, charged with robbing a general store here last week.

He is a harveste from Toronto and had a quantity of stolen goods on him. Others are suspected.

The old, old story, told times with, over number, and repeated over and over again for the last 36 years, but it is always welcome story to those in search of health—There is nothing in the world that cures coughs and colds as quickly as Chamberlain's Cough Remedy. Sold by all dealers.

J. H. Morris & Co.

Department Store

270-76 Jasper Ave. E., Edmonton

Fall and Winter Goods

This store has never been in such a good position in regard to fall and winter goods as at present. First quality goods at the lowest possible price.

Conolly, Fort Saskatchewan; Rev. H. E. McLakan, Mannville; Geo. Hamilton, Midnapore; H. Thompson, Mannville; Mr. Dick, Mannville; L. P. Windon, Calgary; J. C. McNarr, Lacombe; J. M. Harrison, McLeod; Mrs. L. H. Cumming, Olds; James Robertson, Olds; Mr. and Mrs. Goodwin, Vegreville.

who are to become teachers are who are to be themselves the most capable for the work in which they are engaged.

Mr. Kenney declared the country boys and girls to be the best in the land and the ones who would be heard in the years to come as they have been in the past in the old days of the pioneers.

Mr. Kenney introduced the question of endorsing a special training book for the study of the teachers of the association. A committee consisting of Messrs. Baker, Mays, Doyle, Farrell and Kenney was appointed to decide on this matter and bring in a report before the close of the convention.

EDMONTON RADIAL RAILWAY CLOSES A YEAR'S OPERATION

A Most One Million and Eight Hundred Thousand Passengers Carried—Despite Lack of Power and Frequent Ties Up, the Department Will About Break Even on Expenditures and Receipts.

With the end of the present week the first year of the operation of the Edmonton Radial Railway will have come to a close. The year has been a unique one in the annals of street car operation in many ways.

In the twelve months almost a million and eight hundred thousand persons have been carried and not one of them has been injured. There have been practically no accidents, and two or three wagons slightly injured in collisions have been the only damages as the result of the operation of the system.

From a financial standpoint, the record will be almost as remarkable. It is something more than passing strange that in the first year of the running of a street railway, expenditures and receipts should be kept about even, but this has been the case in the Edmonton street railway, and the year's financial results will probably show a small balance on the right side.

Lack of Power a Handicap. When it is taken into consideration that the lack of power since the first of November, 1908, has been a tremendous handicap, that for hours and sometimes days, in almost every month of the twelve, the cars have stood idle, owing to the absence of electric energy, with conductors and motormen drawing their pay, while no receipts were coming in, it is almost too much to expect that operations should be carried on with a profit. Such, however, is the surprising fact, and it is learned on good authority that the financial statement, to be issued shortly by Superintendent Taylor, will be a most gratifying one to the citizens, and more especially to those who have looked to the street railway to give another demonstration of the system's municipal ownership of public utilities in Edmonton.

Many Passengers Carried. The books of the department show that during the twelve months there have been carried, approximating the totals for the remainder of this week and Sunday, 1,828,245 passengers. The largest total of any one day was 13,801, on October 1st, the day of the laying of the corner stone of the new Parliament Building.

The total gross receipts for the twelve months are in the vicinity of \$75,000. The total number of passengers carried for each month during the year is as follows: November, 1908, 37,303; December, 1908, 65,000; January, 1909, 76,670; February, 1909, 90,580; March, 1909, 142,400; April, 1909, 162,303; May, 1909, 162,511; June, 1909, 182,306; July, 1909, 204,340; August, 1909, 193,704; September, 1909, 220,628; October, 1909, 210,600; January a Bad Month.

In January the power was particularly bad and the same conditions prevailed throughout the present month. August was the holiday month in Edmonton and consequently a fall off in receipts appears.

A recent number of the Railway and Marine World gives statistics of the fifty-three street railway systems now in operation in Canada for the year ending June 30th, 1908. They reveal a surprising fact, that in the present month, August was the holiday month in Edmonton and consequently a fall off in receipts appears.

The records of the American and European lines show the same.

Bank Wreckers Must Stand Trial. It is officially announced that the Earl of Lanesborough will succeed Sir John H. ...

AN UNKNOWN MAN KILLED. Mangled Remains Found on C.P.R. Tracks at Regina.

Regina, Oct. 27.—The mangled body of a young man was found lying alongside the track near the C.P.R. water tank this evening. There was nothing on the body by which it could be identified, and the head was so mangled as to be unrecognizable.

TO BE DEPUTY MINISTER. Of Department of Marine—Is Qualified to Direct Construction of Canada's Navy.

Ottawa, October 27.—It is definitely decided that Mr. George J. Desbarats, who has been acting deputy minister of the Department of Marine and Fisheries since the retirement of Colonel Gourdeau, will be confirmed in the position. His appointment as deputy minister will be gazetted shortly.

Died From Blood Poisoning. Waskada, October 25.—David Jack, aged 32, a married man with two children, who was injured by a gunshot wound in the wrist last Friday while duck shooting, and who refused to have his arm amputated, died this morning. Gangrene set in last night but the operation came too late.

UNIONIST WON IN BERMONDSEY

The Result of the Election Yesterday Surprise to All the Parties.

London, Oct. 29.—The result of the Bermondsey by-election was a substantial Unionist victory, but the government defeat is not quite so decisive as was hoped for by the Conservatives.

INTERESTING FIGURES IN POST OFFICE REPORT. Since 1900 There Has Been a Steady Increase in Use of Postal Orders.

Ottawa, Oct. 27.—In addition to the figures as to the revenue and expenditure and the increase in the quantity of mail handled, the annual report of the Postmaster General contains a great deal of interesting information. The figures for 1900-1909 period indicate a steady increase in the use of money orders and postal notes.

GRAIN RATES ON A. B. C. ROUTE. Petition is Presented to Railway Commission at Vancouver.

Vancouver, Oct. 27.—Representatives, professional, civic and rural, from Dawson down to the international boundary, gathered this morning for a session in the city hall today. The various applications were discussed and considered with such rapidity that the commission closed their work this afternoon and will proceed to Victoria tomorrow.

ENROACHMENT OF ROMANISM. Baptist Convention in Hamilton Fears Advance of R. C. Church in West.

Toronto, Oct. 27.—The Baptists now in convention at Hamilton are fearful of the encroachments of Romanism in the West will undermine the status of the denominations there. Rev. T. Graham, of Toronto, moving the resolution that the convention should pass a resolution to the effect that the Canadian people will be making a mistake if they allow Rome to encroach upon their rights.

WINTER CARNIVAL AT MONTREAL. Citizens Will Hold Another Fete Similar to Last Year.

Montreal, Oct. 27.—At a well attended meeting of business men at the Windsor Hotel this evening, it was decided that Montreal should again have a winter carnival this season with an ice palace and a big programme of winter sports.

CALGARY Y. M. C. A. RAISE \$50,000 Campaign of Past Few Days Has Successful Result.

Calgary, Oct. 29.—Beatrice Omalley, the 17-year-old daughter of an optician here, was reported to police last night as lost. The police found the girl this morning in the Salvation Army rescue home, where she had gone because her father scolded her.

RUSSO-JAPANESE ENTENTE. Prince Ito's Fatal Visit Said to be in Connection With This.

Paris, Oct. 28.—A St. Petersburg dispatch to the Petit Parisien says that important negotiations are pending between Russia and Japan designed to establish a broad general accord between the two governments.

GENERAL BOOTH HAS LOST SIGHT OF ONE EYE. London, Oct. 27.—General Booth, head of the Salvation Army, has resumed his activities, appearing for the first time since he underwent an operation on his right eye.

BRANTFORD CONGRATULATES HAYS. Brantford, Ont., Oct. 27.—The Brantford board of trade passed a resolution congratulating Charles M. Hays on his elevation in the service of the Grand Trunk Railway company.

SPORTING NEWS. HOCKEY CLUB ORGANIZED. The annual organization of the Edmonton Hockey club was held last evening in the room of the young men's Liberal club.

SUFFRAGETTES THROW ACID ON BALLOT BOXES

Tries to Destroy Ballots But Result is That Election Officers Are Burned—Hose Turned on Prisoner by Keepers Who Were Barred Out.

London, October 29.—Mrs. Chapin, a suffragette, furnished an early morning thrill at the Bermondsey by-election yesterday, when she smashed a bottle containing corrosive acid on a ballot box.

MARKS CLOSE OF OFFICIAL CAREER. Hon. W. T. Finlay Given Farewell Banquet by Staffs of Governmental Departments.

Some measure of the esteem in which the Hon. W. T. Finlay is held in the closing days of his term of office, by those associated with him in the Department of Agriculture and the provincial secretary's department, was shown Thursday in a complimentary banquet which was tendered in his honor at Hurry's Cafe.

EXPRESSIVE WORDS OF THE GUEST. I am at a loss to find words to express my gratitude for the honor daily realized that the work of the department is the most important in the government of this province.

DROWNED IN PUBLIC FOUNTAIN. Intoxicated Man Falls Into Two Feet of Water.

Montreal, Oct. 26.—An extraordinary fatality occurred here this evening when an unknown man was drowned in the fountain on Victoria square, in the very heart of the city shortly after nine. The man, evidently a laborer, had been seen by carter at the cab stand an hour before, evidently very drunk, and with friends, who, after making ineffectual efforts to get him to go home, had taken the man until a little girl today told one of the cabmen that she had seen a body floating in the pond.
