

# THE EVENING TELEGRAM

VOLUME XL.

PRICE ONE CENT.

ST. JOHN'S, NEWFOUNDLAND, THURSDAY, MARCH 14, 1918.

\$3.00 PER YEAR.

NUMBER 58.

## BAR IRON!

### BOWRING BROTHERS, LIMITED.

#### Auction Sales!

**AUCTION.**  
**TOMORROW, FRIDAY,**  
 the 15th inst. at 12 o'clock,  
 at the premises of  
**Messrs. HARVEY & CO.,**  
 Limited.  
 50 boxes Sultana Raisins—  
 50 lbs. each.  
 20 boxes Seeded Raisins—  
 36 lbs. each, in packages.  
 Landed from S. S. Melele in a dam-  
 aged condition.  
**A. S. RENDELL & CO. Ltd.**  
 Auctioneers.  
 mar14,11

#### C. Knowling, Ltd.,

have received the following:  
**Assorted Cod Tongues**  
 and **Sounds,**  
 only 8c. per lb.  
**Fresh Frozen Cod,**  
 in splendid condition, 7c. per lb.  
 For sale at our East, West and Cen-  
 tral Stores.  
 mar14,11

#### B. I. S.

A Special Meeting of the  
 B. I. S. will be held this  
 evening immediately after  
 Prayers.  
 By order,  
**T. P. HALLEY,**  
 Secretary.  
 mar14,11

#### Just One Teaspoonful

OF  
**O'Mara's Syrup of**  
**White Pine and Tar**

will protect you from coughs  
 and colds. It is the best thing  
 we have to offer you. The most  
 obstinate cough is quickly  
 relieved and cured by its timely  
 use.

Two sizes: 25 and 50c. bots.\*  
**Peter O'Mara, The Druggist,**  
 46-48 WATER ST. WEST.

#### Oil, Fish, Lobsters

and all kinds of Nfld. Produce  
**BOUGHT & SOLD ON COMMISSION.**

We also carry a full line of  
**Provisions and Groceries.**  
 Prompt returns and every satisfac-  
 tion guaranteed. Write or wire for  
 prices.

**Fred. T. Lukins,**  
 P. O. Box 352, 61 Hayward Avenue.  
 mar14,11

#### NOTICE!

Tenders will be received by the  
 Trustees of Cochrane Street Metho-  
 dist Central Church up to noon on  
 Friday, 15th March, for the purchase  
 of that piece of vacant fresh land  
 bounded by Plavin, Bond and King's  
 Streets. Further particulars on ap-  
 plication to the undersigned.  
 The Trustees are not bound to ac-  
 cept the highest or any tender.  
**ARTHUR MEWS,**  
 Secretary Trustee Board.  
 feb22,17,mar25,8,11,14

#### FOR SALE—Partly finish-

ed Dwelling House, situated on the  
 north side of LeMarchant Road. For  
 particulars apply to Clift & Pinnett,  
 Solicitors, or P. C. O'DRISCOLL,  
 Auctioneer.  
 mar13,11

#### FOR SALE—One Angelus

Piano Player, 4 1/2 doz. Records, all in  
 perfect condition; can be attached to  
 any piano very quickly; will be sold  
 at a bargain. **J. J. MAHER,** care  
 A. Harvey & Co., Ltd. mar13,11

#### WANTED—By a Rejected

Tenants, a position as Office Clerk;  
 apply by letter "REJECTED", this  
 office.  
 mar11,11

#### REINHARD'S LINDENT CUBES

DISTEMPER.

### Auxiliary Power

FOR SAILING VESSELS OF ALL SIZES.

#### MIETZ AND WEISS CRUDE OIL ENGINES,

Sizes 45-600 Brake Horse-Power. Special Features: SIMPLICITY, RELIABILITY, DURABILITY.

Mietz and Weiss Oil Engines are well known in every portion of the globe. They are extensively used by the United States and Allied Governments for all classes of service, one hundred and forty-four Engines of 100 H.P. and upwards being at present used by the Lighthouse Department of the United States Government.

If interested write us for folders and particulars.

#### JOB'S STORES, Limited,

Distributors and Sole Agents for Newfoundland.

mar9,eod,1m

### Steer Brothers.

#### NAVAL STORES.

HERRING NETS—all sizes.

CORDAGE, SEINE LEADS.

TRAP CORKS, CUTCH.

OIL CLOTHING.

PINE TAR—1's and 5's.

COAL TAR.

PAINTS—Mixed and Unmixed.

COPPER PAINT.

OAKUM and RESIN.

BLACK VARNISH—1 Gal. Tins.

### Steer Brothers.

#### PITCH PINE!

We have just discharged a full cargo of

#### Pitch Pine Plank,

#### Timber and Decking.

A large variety of lengths and sizes.

All kinds of Ship Timber and Spars for Sale.

#### HORWOOD LUMBER CO., Ltd.

feb21,101,eod

### Do You Want OVERALLS?

We have just received a shipment, \$1,250.00 worth, of Overall, the best we could obtain. The material, make and shape are right.

The reason we imported these Overall was that by doing so we could give our customers better value than could be obtained with local made goods.

#### SNAG-PROOF Blue and White Overall.

#### R. Templeton

333 Water Street.

#### NOTICE

##### To Property Owners!

If you intend making repairs to your house, anything from foundation to roof, see me before settling with another.

If you intend buying property have a practical man to inspect it for you. My twenty-five years' experience in the carpentering business will prove profitable to you in this particular.

If you have property to sell and want good results, list it with me. A word to the waterfront merchants: I have had considerable experience in what-building and will be glad to call and see anyone intending making repairs or building new wharves.

Address:

#### WM. CUMMINGS,

Carpenter and Builder,  
 Corner Pleasant St. & Brazil's Field.  
 mar6,11

#### TO LET.

1.—BUILDING on the South Side of WATER STREET, at present occupied by MESSRS. A. & S. RODGER as a Dry Goods Store. Possession given April 1st, '18.

2.—BUILDING at corner of JOB'S COVE and WATER STREET, comprising shop and two upper stories. Possession given immediately.

3.—DWELLING with all modern conveniences over shop on North Side of WATER STREET, occupied by MESSRS TRASK & COMPANY. Possession May 1st next.

4.—OFFICES. One double and one single office in Law Chambers, Duckworth St. Possession given immediately.

For further particulars apply to

#### Jas. P. Blackwood,

feb14,11 McBride's Hill.

#### Rubber Soling, etc.

O'SULLIVAN'S RUBBER SOLING, Nos. 6, 8 and 9.

ENGLISH RAZORS, \$1.25 and \$1.50 each.

SAFETY RAZORS. Giant Junior Safety Razor and 4 blades for 60c. Not a toy but a serviceable Safety Razor.

SHOE KNIVES, \$1.70 doz.

WHITE HANDLE KNIVES and FORKS, \$3.50 & \$4.50 doz.

The 'Florizel' Enquiry.

CAPTAIN MARTIN AGAIN CALLED.  
WEDNESDAY PROCEEDINGS.

Captain Martin, on being examined by Mr. Dunfield, said: Our ordinary speed is 12 knots. Sometimes we would go to Halifax in from 44 to 50 hours. One one trip it took 60 hours. I never took the average for winter weather. I don't know if any record is kept at Bowring's. I was expecting to make the trip to Halifax in 48 hours. I was going about 10 knots. Sometimes we would make 12, more or less, according to the weather. Average time from Cape Spear to Cape Race is often less than 5 hours. The longest was 6 1/2 hours. I went in all kinds of weather. The more in all the longer when I haul down. I was reckoning to do it at Cape Race about 3 o'clock or about 4. The swell having made me late was the cause that made me think I would be going slower. I always got notice from the chief engineer if we were going slow or not. She was going full speed until she was ordered reduced. I never ordered reduced speed at any time. I don't know if the engines were doing less than full speed over the log. It was the same coal we had coming down. We just used to take what coal we can get. I economize all I can. I used 12 tons of coal to raise steam on that ship. I had no orders to reduce speed at any time from the owner. The engineers had no such orders, as the chief would tell me if they had.

To Commander MacDermitt—She was going at a reduced speed. I expected she would make more than that. I passed Cape Spear. I did not expect very much for speed on account of slob ice. I reckoned she was going more than 8 knots so I only allowed 8 on account of the slob. I have gone down to Cape Race in slob and all kinds of weather and at one time in pan ice. I often had slob in the Cape. When the slob is thick it piles up on the bow. The slob on this occasion was very light on the top of the water.

To Commander MacDermitt—I could see the slob extended into the land but not packed. It contained no cakes or pieces of ice at all just wash. I did not see any bearing clear of Cape Spear which I took shortly after leaving. I took it before and again after leaving Cape Spear. If I saw any other lights I would take another course. Second officer King said he saw a light on the starboard quarter at 8 o'clock. I knew I could not see a light at that time. At least I was reckoning to be 7 miles off; you could not see a light within a mile and a half. I have no idea and cannot account for the loss of speed without there was an unknown current coming from the south. There was no spray coming on board; she plunged a little. The engineers take the sea temperature. I don't know what it is for. The results are never reported to me.

To Capt. MacDermitt—To my knowledge I was never so far off going up or coming down the shore. I always made Cape Race, going and coming—either saw the Cape or the light. I can give no cause for the accident except some unknown current was running from the south. In fact I felt pleased the way things were going.

Capt. MacDermitt—You said that during the first watch the officer in charge of the watch altered the log. The ship was sagging the log Petty Harbor Bay. Has an officer in charge the right to alter the course except in emergency?

Capt. Martin—No. I told him to do the whistle if he wanted me. Capt. MacDermitt—In this case he altered the course while you were below. Did you give him authority?

Capt. Martin—He would do right to alter the course if he believed there was good reason for it, but the usual course is to call me.  
Capt. MacDermitt—Did he tell you why she was setting in on the land?  
Capt. Martin—He did not tell me why. He said she was setting in on the land and that he had altered the course. I said he did alright. In passing fishing boats tall in and tall out.  
Capt. MacDermitt—In this case the officer altered the course. How long was the course changed, and how much was it changed?  
Capt. Martin—It might have been 15 minutes. When I looked in the binnacle she was on her course again.  
Capt. MacDermitt—From your observation of the compass she could not be off her course more than 15 minutes?  
Capt. Martin—Yes, that was what I reckoned.  
Capt. MacDermitt—Was there a log book kept in the chart room?  
Capt. Martin—Yes.  
Capt. MacDermitt—Was this incident entered in the log book by the officer?  
Capt. Martin—I don't know that he did that. There is a log book there in which such events should be entered, which are written up later in the regular log book.  
Capt. MacDermitt—It was the duty of the officer of the watch to note all occurrences?  
Capt. Martin—Yes.  
Capt. MacDermitt—Did the officers always do so?  
Capt. Martin—Yes.  
Capt. MacDermitt—Did you always see to this?  
Capt. Martin—Yes. And I occasionally consulted the log book. I also kept a private book of my own for noting occurrences besides the official log.  
Capt. MacDermitt—Was the Florizel supplied with an old-fashioned hand-log?  
Capt. Martin—No.  
Capt. MacDermitt—Have you ever heard of the old-fashioned log being used in ice?  
Capt. Martin—No. I have not seen them used except in sailing vessels.  
Capt. MacDermitt—Do you think they could be successfully used?  
Capt. Martin—I don't know. They probably could.  
To Mr. Dunfield—She would go through the slob ice more easily than other ships. She is built spoon shape and should glide over the slob. In thick slob she chokes her injector.  
To Mr. Warren—I have been to the ice in the Florizel.  
On reviewing the passenger list, Capt. Martin said: I saw James Miller on the deck. I don't know what time he was lost. He was fully dressed and wore a life belt. He was in good spirits and offered me sympathy in the loss of the ship. I also spoke to Capt. Joe Kean, and I assisted him to the bridge after he had broken his leg. I saw Mr. Munn on the smoke room a little after daylight. He had his dressing gown on. There was several other passengers there. I did not see any of them go. Joseph Mallowney was in the Marconi Room when I saw him last; he had no coat or life belt on and was very weak. The life belts were in each room. The majority of the passengers had life belts on. Most of those who were saved had life belts on. Those who were on the Smoke Room deck about 20 were swept away with the one sea. I was told it since, that the bridge went with the same sea. The Smoke Room was washed overboard later. There was no disorder not to my knowledge. The Marconi Room was filled when I got there. I don't know how long I stayed there. The mate

took his soundings to get his position. A little after 11 o'clock we had run about 8 miles on a course since 10.10 o'clock. When I go 50 fathoms it indicated I was keeping on my course. My third sounding was between 7 and 5 minutes to 12 o'clock. I estimated I had run about 6 miles. It indicated I was still on the S.W. course. I got much the same course. I then hailed her off to S.S.W. I took no sounding from S.S.W. course as the water was always deep. Leaving port we seldom take soundings. It was because I got thick I took the soundings. Otherwise there would be no need for it as I could see the lights. If the weather was fine I would be steering S.W. In fine weather I would run inside Cape Ballard Bank; the course I was on then steering would take me on the outer side of Cape Ballard Bank thus giving me a clear course around the Cape. At 4 o'clock I was expecting to be over the Ballard Bank. I intended to cast a lead at 5 o'clock. I have sailed that course ever since I have been in the Red Cross Co. I carried out Captain Clark's rules as I sailed with him as second. I never missed Cape Race going or coming. I always saw the light or heard the horn. I would always get a good departure for Halifax by getting my position at Cape Race. I did not take soundings between 12 and 4 because I thought the ship was well off the land. At 4 o'clock on the S.W. course she would be 3 or 4 miles off the land. And as she proceeded she was running further from the land. I did not see Captain Kean in the first watch. I was only speaking to him once and that was at 2 o'clock. I told Mr. King to keep her S.S.W. as I did not like to go over the Bantams. He remarked there was lots of room outside. He remained on watch till 4 o'clock. I only saw strings of slob after 4 o'clock. Myself and the two look-outs kept sharp look out. I saw the last string of ice about 5 minutes before she struck. I looked through the glass and could see water on the other side of the string of ice. The mate looked through the glass and said, Yes, it is a string of ice coming around the Cape. I was confirmed it was slob ice right up till the time she hit. A little after 3 o'clock the mate said he saw a light.  
The second officer and two look-outs were on the bridge. I got the glasses and asked the man on the corner of the bridge if he saw a light. He said he was not sure. Seem very often see lights that do not exist. I made an investigation and was sure that there was no light seen. You could not see any more than a mile at the time. If a current had been running the log would show a speed that the ship was not necessarily making. I have seen tideslips in a change of currents. I have seen them far out to sea. Ships have been often sagged in Petty Harbor Bay. The Regulus went ashore near there. I always consulted the engineer before leaving port also the chief officers. The chief engineer reported that everything was looking fine. Going to Halifax she would make 12 knots. Returning she would do it in ten and three quarters to 11 knots. There is no comparison between the Florizel and Stephano in bad heavy sea, she would make 7 miles where the Stephano would only make 5 in a head on sea. At 4.30 I told the men on watch to throw the log. They mistook what I said and cast the lead. About ten minutes after that I altered her course.  
To Commander MacDermitt—The third mate saw Bull Buils light at 9.45 just after passing the Motion.)  
When I came on deck I could not see it as it was then too thick. I don't think he took any bearing at the time. I met Capt. Kean about two o'clock. I was talking to him for about half an hour. I said "It's nasty night, Captain," he said, "It is hard to see the lights a night like this." I said, my course was fixed for S. S. W. and I was not looking for any lights; he said that's good, I think I'll turn in. Seafaring men when making passages on the steamer, through force of habit would come on deck at all hours through the night. I never take a drink at sea; I never take a drink on sailing day that is a rule I have always stood by; I never play cards at sea; I did not take a drink when I left port; I did not drink going down the shore. I have been master for a little over three and a half years. I have many testimonials, some from the Nfld. Regiment, His Excellency the Governor and others.

To Capt. MacDermitt—I reckoned I could see about a mile, that would be about 2 o'clock.  
At Cape Spear I saw Motion Head, that is six or seven miles. After passing Motion Head I could see about 1/2 a mile. At 10.10 you could not see the land. It was shut out. When Motion Head was abeam we could see the land, that was about 9 o'clock.  
To Capt. MacDermitt—After 2 o'clock I could see about a mile to a mile and a half. The same light conditions prevailed up till the time she hit.  
The first sounding was at 10.10 when it got real thick. I was then about 3 miles off. We got 80 fathoms and a sandy bottom. The soundings are all less water inward. The soundings are 72; 69; 41; and less as you approach the shore.  
Capt. MacDermitt—It must be perfectly clear that he (Capt. Martin)

and second cook Moore, were in the fiddle. Dooley and I went forward. How we got there I don't know. I saw the lamp trimmer first and then the carpenter. They told me they had Mr. Ledingham there. He was badly broken up by being washed around and striking against the winches. I remained there till the next morning.  
To Capt. MacDermitt—I saw a rocket in the morning which fell about 10 yards short of the ship. I did not hear of any rocket going on board the ship. If the line had been got to the shore it is possible some of those would be saved. It is fortunate that we did not get a line on board as no doubt we would have lost our lives. I don't know what time the steamers arrived. I heard a steamer blow. Just before daylight we saw a lifeboat come near. This boat made two or three attempts but was finally swamped. When daylight came we watched our chance to get aft. At this time the whole saloon was flattened and broken in two or three places on deck. One dory made two or three attempts to put a line on board but failed. A line tied to one of the Prospero's boats and secured on board. The first dory took the two ladies. Saw Terra Nova and Prospero and a whaling ship. I think the men who effected our rescue were certainly brave. They deserve the highest praise. The men performed wonders.  
This concluded Capt. Martin's examination by Mr. Dunfield, and the enquiry adjourned till 3 o'clock (Tuesday) afternoon.

TUESDAY'S PROCEEDINGS.  
Capt. Martin cross-examined by Mr. Gibbs, said: The pilot takes the ship to the Narrows then I take charge. It was more than slob that was in the Harbor that night. It was two inches of ice. There was a schooner anchored at the starboard which gave me a little trouble in getting away. It took me a little longer than usual. I then got away without any mishap. I did not see the storm signals when I passed through the Narrows. The wind was S.E. gale with snow when I left. It changed to the N.E. on Sunday morning. The weather report is as often out as it is correct. I am always prepared for those things. There was nothing in the weather that would make me hesitate leaving port. I pay particular attention to the glass. I noticed it all that day. It was steady all day. About 10 o'clock the glass went down very rapidly and at 3 o'clock it was down from 29.90 at 3 o'clock to 29.10 at 3 o'clock. I have always found it to be a short blow. I left the Narrows steering S.E. 1/2 S. I went further off than usual. That is a precaution I take in foggy weather. In fine weather I would get three courses before I would get her straightened up to the run to the Cape. The wind was S.W. when I left. In the bay it was S.W. a moderate breeze. It started to snow between 8.45 and 10 o'clock. I was then about 8 miles from my position off Cape Spear. That is my 8.44 position (as previously asserted). After 10 o'clock it got thick with snow which continued up till 2 o'clock. The wind started to freshen at 12 o'clock going to the south and still veering. It was about S.E. between 12 and 2 o'clock when it started to rain. Up to 4 o'clock it was blowing a moderate gale. There was no water come over the forecastle.

To Capt. MacDermitt—I reckoned I could see about a mile, that would be about 2 o'clock.  
At Cape Spear I saw Motion Head, that is six or seven miles. After passing Motion Head I could see about 1/2 a mile. At 10.10 you could not see the land. It was shut out. When Motion Head was abeam we could see the land, that was about 9 o'clock.  
To Capt. MacDermitt—After 2 o'clock I could see about a mile to a mile and a half. The same light conditions prevailed up till the time she hit.  
The first sounding was at 10.10 when it got real thick. I was then about 3 miles off. We got 80 fathoms and a sandy bottom. The soundings are all less water inward. The soundings are 72; 69; 41; and less as you approach the shore.  
Capt. MacDermitt—It must be perfectly clear that he (Capt. Martin)

nothing else to guide a ship. There are several dangerous places going up the coast. There should be a horn at Bull Head, Ferryland Head and also Cape Ballard, and around the Head there should be one at Mistaken Point. This is a poor coast for whistling buoys as they would be carried away by ice. A lighthouse should be on Ranees Rock. According to where the ship struck, I could not help seeing a light if there had been one there.  
At this point (6 p.m.) the enquiry was adjourned.

and second cook Moore, were in the fiddle. Dooley and I went forward. How we got there I don't know. I saw the lamp trimmer first and then the carpenter. They told me they had Mr. Ledingham there. He was badly broken up by being washed around and striking against the winches. I remained there till the next morning.

To Capt. MacDermitt—I saw a rocket in the morning which fell about 10 yards short of the ship. I did not hear of any rocket going on board the ship. If the line had been got to the shore it is possible some of those would be saved. It is fortunate that we did not get a line on board as no doubt we would have lost our lives. I don't know what time the steamers arrived. I heard a steamer blow. Just before daylight we saw a lifeboat come near. This boat made two or three attempts but was finally swamped. When daylight came we watched our chance to get aft. At this time the whole saloon was flattened and broken in two or three places on deck. One dory made two or three attempts to put a line on board but failed. A line tied to one of the Prospero's boats and secured on board. The first dory took the two ladies. Saw Terra Nova and Prospero and a whaling ship. I think the men who effected our rescue were certainly brave. They deserve the highest praise. The men performed wonders.  
This concluded Capt. Martin's examination by Mr. Dunfield, and the enquiry adjourned till 3 o'clock (Tuesday) afternoon.

TUESDAY'S PROCEEDINGS.  
Capt. Martin cross-examined by Mr. Gibbs, said: The pilot takes the ship to the Narrows then I take charge. It was more than slob that was in the Harbor that night. It was two inches of ice. There was a schooner anchored at the starboard which gave me a little trouble in getting away. It took me a little longer than usual. I then got away without any mishap. I did not see the storm signals when I passed through the Narrows. The wind was S.E. gale with snow when I left. It changed to the N.E. on Sunday morning. The weather report is as often out as it is correct. I am always prepared for those things. There was nothing in the weather that would make me hesitate leaving port. I pay particular attention to the glass. I noticed it all that day. It was steady all day. About 10 o'clock the glass went down very rapidly and at 3 o'clock it was down from 29.90 at 3 o'clock to 29.10 at 3 o'clock. I have always found it to be a short blow. I left the Narrows steering S.E. 1/2 S. I went further off than usual. That is a precaution I take in foggy weather. In fine weather I would get three courses before I would get her straightened up to the run to the Cape. The wind was S.W. when I left. In the bay it was S.W. a moderate breeze. It started to snow between 8.45 and 10 o'clock. I was then about 8 miles from my position off Cape Spear. That is my 8.44 position (as previously asserted). Evening Telegram

W. J. HERDER, Proprietor

THURSDAY, March 14, 1918.

War Bread Exhibition.

With the chief purpose of showing how best to save wheat for the soldiers who are fighting German aggression, coupled with the lust for conquest and world dominion, and to ensure that a sufficiency of flour be at the disposal of the Army Commissariat, not only for the feeding of our own men, but those of the Allies as well, the bread exhibition at the British Hall last evening read a lesson which might well be learned by our people. The need for economy is being emphasized more and more as the war advances. That the end is not yet, and that greater need for still more close and keen frugality in our consumption of foods which are not absolutely necessary to us but are absolutely necessary to the men in the field, is becoming alarmingly apparent. Our thrift will be tried to the utmost during the months to come, and we must be true to ourselves and true to those who are fighting our battles by practicing, as well as preaching, food economy. Are we doing so? No person disputes the preaching, but many cast grave doubts on the practicing. The bulk of our people must be shown the example by those who take the lead in advocating the living of the simple life, and once they are satisfied that the prime desire is for the welfare and ultimate success of the Allied forces, there will not be a man, or woman, or child even, who will hesitate for one moment to follow the lead of those who are so earnestly and so bravely leading the way. The example by those who take the lead in advocating the living of the simple life, and once they are satisfied that the prime desire is for the welfare and ultimate success of the Allied forces, there will not be a man, or woman, or child even, who will hesitate for one moment to follow the lead of those who are so earnestly and so bravely leading the way. Interview

WITH HIS LORDSHIP BISHOP WILLIAMS, OF QUEBEC.

The Telegram had the distinct privilege and pleasure on Tuesday morning of interviewing His Lordship Bishop Williams of Quebec, one of the distinguished dignitaries of the Canadian Church, at the residence of the Misses Browning, Richmond, Topsall Road. His Lordship, it will be remembered was one of the officiating Bishops at the consecration of the Right Rev. W. Charles White, D.D., on Sunday last.

Victoria's Defeated.

The Feldians were victorious in last night's hockey game by a score of three goals to two. The scoring for the Vics was done by Munn and Power, while the Feldians scorers were Bennett, Bugden and White. Bennett was the offender with two penalties meted out.

Sealing Message.

The following message to Messrs. Jas. Baird, Ltd., from Capt. Keen, S. S. Diana, was received this morning, via Belle Isle and Foggo:—

The Passing of the Rt. Rev. Mgr. St. John.

The Rt. Rev. Mons. St. John, Chancellor of the Archdiocese, and P.P. of Torbay, ceased from his labors at 10.30 yesterday morning after a very short illness. Father St. John was ordained on April 4th, 1874, and was therefore in his 44th year of the priesthood. The Massagone was beloved and respected in the different parishes where he had labored, not only by his own parishioners but by those of all denominations. He was a great worker as well as a magnificent leader. Father St. John accompanied the late Archbishop Howley on his last visit to Rome where he was made a prelate to His Holiness the Pope. The Right Rev. Monsignor St. John was born in St. Vincent on October 2nd, 1848, and was therefore in his 70th year. At 16 he entered the College des Lazaristes, Moutfidiar, France. Later he entered St. Kyran's College, Killernay, Ireland. From the latter place he went to All Hallows Missionary College, Drumcondra and entered the Propaganda College at Rome. Ordained on April 4th, 1874 in Rome by Constantine Cardinal Fabrizzi in the Basilica of St. John's on Latero, he left Rome for St. John's where he arrived on June 24th. His first appointment was to the curacy of St. Mary's, the Very Rev. Richard O'Donnell being the then Parish Priest. In the new Presbytery at Falconer he received the appointment of Parish Priest of St. Vincent's, New Brunswick, where his labors of 15 years will ever be remembered. In 1910 Father St. John was appointed to the Parish of Torbay and at same time was made Chancellor of the Archdiocese.

Concert at George St. School Room.

Those who attended the concert given in George Street School Room last evening spent a most enjoyable evening. The programme, which was a very fine one, was rendered in a most efficient manner. The following took part:—Instrumental, Mr. G. Christian; recitation, Mr. Hearner; solo, Mr. Courtney; recitation, Mr. Thomas; solo, Miss Steele; monologue, Mr. Bond; quartette, Messrs. Christian, Messrs. Mews and Trapnell; monologue, Mr. Hutton; solo, Miss Mews; selection, H. M. S. Britton's Band; solo, Private White.

Sealing Message.

The following message to Messrs. Jas. Baird, Ltd., from Capt. Keen, S. S. Diana, was received this morning, via Belle Isle and Foggo:—

A Word of Praise.

The officials and employees of the Gas works are to be congratulated on having worked so determinedly to repair the break down which cut off the city's gas supply on Monday night, and it will be due to their indefatigable efforts that the turning on of the full supply will take place at 10 o'clock to-night.

Myles Aroon at the Casino.

The B. I. S. Dramatic Company will be seen on Monday afternoon and night in the production of Andrew Mack's great American success, "Myles Aroon." The B. I. S. orchestra will be present. It will, no doubt, be remembered that this play has been produced here once before and scored a great hit, and we are glad to know that many of the original cast will again appear. Tickets will be on sale at the Casino box office at noon and it would be advisable for those wishing to secure good seats to be on hand early.

Myles Aroon at the Casino.

The B. I. S. Dramatic Company will be seen on Monday afternoon and night in the production of Andrew Mack's great American success, "Myles Aroon." The B. I. S. orchestra will be present. It will, no doubt, be remembered that this play has been produced here once before and scored a great hit, and we are glad to know that many of the original cast will again appear. Tickets will be on sale at the Casino box office at noon and it would be advisable for those wishing to secure good seats to be on hand early.

Children's Dainty DRESSES.

We are now able to display a very large assortment of designs in Plaids, Checks, Plain Col'rs made from high-grade dainty Gingham and Linen Fabrics. # The Royal Stores Ltd.

## CABLE NEWS.

**ANOTHER RAID.**  
LONDON, March 13. Hostile airships again raided the northeast coast of England to-night. Field Marshal French's report says one or two hostile airships attacked the northeast coast, soon after 9 o'clock to-night. About 30 bombs have fallen close to the coast. There are no reports as to casualties or damage yet.

**PARIS AGAIN RAIDED.**  
PARIS, March 13. Four German machines were brought down and 15 trained aviators mechanics and pilots killed or made prisoners, were the German casualties in last night's attack on Paris. The raid was attempted on a scale hitherto unapproached, nine squadrons participating in the attack. Some machines followed the Rivers Oise and Oureq, while others came along the Soreil-Paris and Soissons-Paris railways. The percentage of units that succeeded in reaching Paris was small. The aerial defence has improved greatly since the time of former raids, and many of the German machines were forced back and obliged to drop their cargoes of bombs in vacant fields. While the raid was in progress French machines executed a counter air offensive upon the enemy's aerodrome from which the German raiders started. More than three tons of bombs were dropped on the Gotha's landing fields, and the probabilities seem to be that many of them made disastrous landings upon their return.

**WEEK'S SINKINGS.**  
LONDON, March 13. The Admiralty reports the loss by mines or submarines of 18 British merchant ships the past week and one fishing ship. Of these 15 were of 1,600 tons or over and 3 under that tonnage.

**THE "MAID OF HARLECH."**  
HALIFAX, March 13. Capt. C. P. Moore, of St. John's, Nfld., and crew of the schr. Maid of Harlech, which was attacked by a German submarine in the Mediterranean Feb. 4th, arrived here to-night and will proceed to Nfld. to-morrow. The Maid of Harlech was on her way to a Mediterranean port with a cargo of fish. She had received her orders at Gibraltar and had only reached the longitude of 02 east when a shot from a submarine whistled across her bow closely followed by seven other shots, some of which took effect. As quickly as possible the ship's boat was launched and all hands left the schooner, the submarine continuing to pelt in shells until 32 in all had been fired and the schooner sank till her decks were awash. The submarine came up alongside the boat and the captain was ordered to come aboard. Capt. Moore says that they kept him on the submarine for three-quarters of an hour while they discussed in German what they had better do. The officers could all speak English fluently. Finally they put him on his own boat and sighting another ship in the distance put off in that direction. Moore and his men rowed all night and early in the morning landed on the Algerian coast. They were finally taken to the port of Oran where officials had them placed aboard another ship. There were a lot of things happened regarding which the captain was ordered to keep silent, and he was very reticent when asked for further particulars.

**AERIAL OPERATIONS.**  
LONDON, March 13. The official statement of aerial operations says there has been poor visibility, but over 500 bombs have been dropped on sidings and ammunition depots at Aulnoye, southeast of Hauder, and other depots south of Valenciennes, southeast of Cambrai and south of Douai. In the air fighting ten enemy machines were brought down in flames. Two British machines are missing. In night bombing two hundred bombs were dropped on sidings and an ammunition dump N.E. of St. Quentin. The enemy dropped a few bombs during the night but lost a four-seated machine which landed in our line, the occupants being taken prisoners. On Monday we made the third daylight raid on Germany in four days. On this occasion factories, stations and barracks at Coblenz were attacked and over a ton of bombs were dropped. Bursts were seen on all the objectives causing a few fires and a hit on a building in the southwest corner of the town, created a large explosion. A few enemy machines were encountered. All of our machines returned safely.

**ENEMY ATTACK FAILS.**  
PARIS, March 13. A German attack in Champagne was repulsed to-day, according to the war office announcement. The enemy suffered great loss.

**CAPE RACE, Yesterday.**  
Wind W, light, with dense fog, preceded by southeast wind and a snow storm this morning. Nothing sighted; bound in since last report. Bar, 29.80, ther. 34.

## To-Day's Messages.

### PATROL SINKS SUB.

LONDON, To-Day. Near Blackod Bay, on the western coast of Ireland, an armed patrol steamer was the victor in a fight with a German submarine in British coastal waters. While the steamer was in Blackod Bay, word was brought that a German submarine was firing on a merchant ship outside Achil Head. The patrol steamer went right out and an hour later sighted a submarine painted black, about two miles off. When the patrol steamer was about 800 yards off she began to use her guns. All the shots were effective and the submarine attempted to get away, but the patrol steamer maintained its fire. Suddenly a lot of smoke was seen coming from the aft side from the conning tower of the U-boat, and it stopped. Its stern then began to sink and soon the conning tower disappeared, and only the fore part of the sub, was above water. After a moment the sub, disappeared entirely, leaving a large cloud of smoke. The patrol steamer waited about the vicinity for two hours but saw no further trace of the U-boat. Sir J. Fortescue Flannery, member for Maldon Division of Essex, announced to-day that he would call attention to the First Lord of the Admiralty, in the Commons, to the remarkable heroism and seamanship displayed by the American crew of the destroyer Parker in rescuing nine survivors, including the unconscious navigating officer, of the hospital ship Glenart Castle, sunk in Bristol Channel late in February.

## Marine Enquiry.

(Wednesday's Proceedings.)

**CAPT. JAMES' CAREER.**  
Chief Officer William James, sworn on and being examined by Mr. Dunfield, said: I was first officer on the Florizel on her last voyage. I am a master mariner. My certificate is No. 376. I have been in her on different occasions since 1911. I went to sea when 17 years old. In Dec. 1900 I came out to Newfoundland. I am a native of Greenwich, Scotland. I am 35 years of age. I was sent out by Baine, Johnston & Co., and I then served my apprenticeship on the Lavinia, which lasted 5 years and 3 months. I passed as ordinary mate and got my certificate in 1906. I then went to sea in the s.s. Stord, owned by Revillon Bros., which voyage lasted a little over a month. I went to Hudson Bay and back as chief officer. I next called as mate in the Clementine, owned by A. Goodridge & Sons; from her I went to the Cordelia as mate. I next joined the Adventure as chief officer in 1905. I remained on her for one and a half years. I was at the ice in her. She is an ice-breaker. She had a cut-away bow and was specially strengthened. I had a lot of experience in slob ice in her. I was sometime in Goodridge's Bella Rose, and the Attila owned by Baine Johnston. I went across in the s.s. Aurora to London when she was sold. I went as chief officer. I joined the Red Cross Line and came out in the s.s. Stephano when she was new. I had experience in her in ice coming from Halifax and New York. I was appointed as third officer in 1911 to the Florizel. I was next transferred to the Rosalind. I was in her nine months, till navigation closed on the St. Lawrence. I was again transferred to the Stephano as 3rd officer but after one trip I was again transferred to the Rosalind and remained on her till she was sold in 1912. I was again sent back to the Florizel as third officer and remained on her till 1914. I was then transferred as second on the Stephano and was on her till she was torpedoed in October, 1916. I was on the Stephano for two winters. I was put in charge of the Neptune in Dec., 1916 for one voyage. In February, 1917 I was in charge of the s.s. Ranger. I was in charge of her till I was transferred to the Florizel on her last trip. The Neptune and Ranger were wooden ice-breaking ships. I had experience in the ice with the Neptune.  
(To be continued.)

## Injured at Cemetery.

Yesterday afternoon a man named Murphy, employed by Mr. S. G. Collier, had one of his legs badly injured while attending a funeral at the C. of E. Cemetery. The accident was caused by Mr. Murphy stepping on one sharp spike that formed part of an ornamental fence surrounding a grave. Cutting through his clothing it inflicted a severe wound in his leg from which the blood flowed freely. He was immediately taken to the General Hospital where his injuries were attended to. He was afterwards sent to his home at George Street.

**RUNAWAY HORSE.**—While the Reid Nrd. Co.'s sweeper was going west yesterday afternoon a horse owned by Cabman John Murray, standing in front of Dicks & Co., on Water St., became frightened and bolted. The terrified animal was brought to a standstill by Cabman Gladney opposite Trappnell's. The sleigh and harness suffered some damage.

## New Dress Goods

We have now to offer a special selection of Dress Goods lately to hand. As these goods were booked some time ago,

**OUR PRICES ARE NOT HALF BAD.**

To show that this is not untrue, we will mention a few prices; but we always believe in "showing the goods," and will be pleased to have you call and inspect them.

**BLACK MERCERISED POPLINS, a Special Lot, only 50c. yard.**

**BLACK and COLOURED MERCERISED POPLINS, at 60c., 80c. and \$1.15 per yard.**

**BLACK and COLOURED CASHMERE TWEETS at 38c. yard.**

**BLACK and COLOURED ALL WOOL WHIPCORDS, only \$1.80 yard.**

**Large Selection BLACK and NAVY DRESS SERGES, Good Values.**

**SHEPHERD CHECKS from 35c. to \$1.50 yard.**

**BLACK and GREY DRESS MATERIALS in various makes.**

**We have a limited amount of COLOURED ALPACAS and CASHMERES at Old Prices.**

**We can still offer a limited amount of our last year's stock of OUR CELEBRATED SILK CORDUROY VELVETEENS at \$1.70 yard.** We have cheaper ones which are good, but this one will make you look like a Princess.

**We have a couple of pieces of WHITE CORDUROY VELVETEENS, which are fine for Summer or Spring Costume Skirts, as they wash well, and nothing wears better than Corduroys.**

**We have at the moment a few pieces left of our last year's stock of AWNING STRIPED DRILLS, only 40c. y. d.** We don't know that we can get any this season, and if so, they will be high.

**IT WILL PAY YOU TO STOP AND SHOP NOW WITH**

**HENRY BLAIR.**

The First Principle of Modern Business is SERVICE.

That is where we shine.

Good Goods well made, moderately priced, and honest effort made to deliver on time. Expert accounting and satisfactory settlements of all claims.

The biggest clothing manufacturing organization in Newfoundland backs up its claim for Superior Service.

WHOLESALE ONLY.

Newfoundland Clothing Co., Ltd.

WM. WHITE, Manager.

WE are still showing a splendid selection of :

**TWEEDS and SERGES.**

No scarcity at **Maunder's.**

However, we beg to remind our customers these goods are selling rapidly, and cannot be replaced at the same price.

**John Maunder,**  
Tailor and Clothier St. John's, Nfld.

NO MATTER HOW THE FIRE IS CAUSED

if you're not insured, you're a loser. Take time to see about your policies. We give you the best companies and reasonable rates.

**PERCIE JOHNSON**  
Insurance Agent.

"A Household Word."

## The Emerson Piano

has become a household word in Newfoundland and stands as a synonym for all that constitutes a musical and enduring Piano-forte.

**CHARLES HUTTON,**  
Sole Agent Newfoundland.

N. B.—Within the last few months I have played on Emerson Pianos that were bought here 25 and 30 years ago, and with the exception of a small portion of the centre, which was a bit worn, the Pianos were practically as good as the day they were sold.

## WISE WATCHFUL WOMEN

Will Wend Their Way With All Celerity to **BLAIR'S**

## White Sale

WHERE THE BUYING IS GOOD.

Wife women who will waste time without following this wonderful opportunity will wake up later and wrinkle their brows through wondering why the wise women wealthily wrapped can wander round the country side in automobiles, and have a mortgage on the most fashionable ice cream parlours, whilst they wisely walk in the warm weather, taking the others dust.

Wise women will tell you you wax wealthy and automobilous on the money you save; that they wax wealthy to a great extent by shopping at BLAIR'S, as they can always save money there.

You may be asked 50 per cent. to 100 per cent. more for White Goods in a few months' time. Now is the time to buy.

**HENRY BLAIR.**

## Six-Man Hockey.

One of the fastest exhibitions of hockey seen in this city for some time is promised the fans to-morrow night when two teams of all stars will clash in a six man contest. The game will be played under the Canadian rules. We understand some big money is being exchanged over the contest.

The proceeds will be in aid of the W. P. A. and will be under the distinguished patronage of His Excellency the Governor. Miss Harris will also attend.

Owing to the GAS having been turned off suddenly at 1.30 this afternoon, the TELEGRAM is obliged to go to press with much matter unproofed. For this we ask the forbearance of our readers.

**CABLE NEWS.**

**LAST NIGHT'S OFFICIAL.**

LONDON, March 13. English troops carried out a successful raid this morning against a German strong point southeast of Polygon Wood, in the Ypres sector, says Field Marshal Haig's report tonight. In addition to losses inflicted on the enemy 37 prisoners and three machine guns were captured. Our casualties were very slight. A raid which the enemy attempted south of Armentieres was repulsed with losses. Hostile artillery has shown considerable activity during the day north of Lens and on both sides of the LaBasse Canal, and also south of the Shrewsbury forest, Polygon Wood and Passchendaele sector.

**BAKER'S STATEMENT.**

PARIS, March 12. Secretary Baker to-day made the following statement concerning Monday night's raid on Paris: "It was my first experience of actualities of war and a revelation of the methods inaugurated by an enemy who wages war against women and children as against soldiers. If his objects are to damage property, the results are trifling when compared with his efforts. If his objects are to weaken the people's morale, the reply is given by the superb conduct of the people of Paris. Moreover, aerial raids on towns which are counterpoint of pitiless submarine war and attacks against American rights, are the very explanation of the reason why America entered the war. We are sending over soldiers to Europe to fight until the world is delivered from these horrors."

**MORE FOOD FOR WORKERS.**

LONDON, March 12. Lord Rhonda speaking here to-day said he hoped in April to be able to give those engaged in very hard physical labor double the ordinary ration.

**OFFICIAL VISITS.**

PARIS, Monday. Marshall Joffre called on U. S. Secretary of War Baker this morning and the Secretary later returned the call at the Marshall's headquarters. The Secretary this afternoon, visited General Tasker N. Bliss, American representative on the Supreme War Council, at Versailles, and expected to see President Poincare this evening.

**LODGE'S OPINION.**

BOSTON, March 12. The belief that Russia would never be a factor in the war again, and that the conflict would be won on the fields of Northern France, was expressed by United States Senator Lodge before the Massachusetts Senate to-day.

**HUN AIRSHIPS DESTROYED.**

Aviation—On March 11th, three German machines were destroyed by our pilots, the fourth was damaged severely. During the night of March 12th three enemy bombing airplanes were brought down by the fire of our anti-aircraft guns.

**AMERICAN ARTILLERY ACTIVITY.**

With the American Army in France, March 12.—There was greater artillery activity by the Americans on the Toul sector to-day than at any time since they took positions there. American shells obliterated at least five groups of gas projectors, which had been set up by the enemy in preparation for an attack. Fires back of the German lines also were caused and a number of explosions were heard. Along the Chemin des Dames the crew of a German raider which fell at Clamecy Monday night was made prisoners by American soldiers.

**At Rest.**

The mortal remains of M. Conolly, Jas. Daley, M. Dunphy and M. O'Driscoll were laid to rest yesterday afternoon. Interment was at Belvidere. The bodies of C. Snow, Geo. A. Moulton, Edwin V. Bereta and Austen Sheppard were interred at the C. of E. Cemetery, the Rev. Dr. Jones conducting the services at the graveside.

The funeral of the late Wilbert Butler took place yesterday afternoon. Interment was at the General Protestant Cemetery.

The above funerals were attended by a large number of mourners.

**Masonic Club.**

The annual meeting of the Masonic Club was held last night and the following officers for the ensuing year were elected:—  
President . . . . . F. Hamlin.  
1st V. P. . . . . L. A. Diamond.  
2nd V. P. . . . . F. J. King.  
Hon. Sec.-Treas. . . . . A. Churchill.  
Committee:—W. A. Thomson, W. J. Jocelyn, G. E. Mott, W. J. Martin, A. E. Wright, D. MacFarlane, W. Charles, F. Moore, W. Pearce and V. Burden.  
Very favourable reports were submitted showing the Club's finances to be in a very healthy state.

**Purse-Opening Inducements that Cannot Fail to Impress Saving-Wise Shoppers**  
**FRIDAY, SATURDAY and TUESDAY.**

**St. Patrick's Day Ribbons.**

## We Have Warner's Corsets

in a fashionable design for every imaginable type of figure.

WARNER'S CORSETS really form the back-bone of our Corset Department—so confident are we of the permanent quality of Warner's Corsets.

And in these times, when we must search the market for dependable merchandise, to now that there is a manufacturer upon whom you can count for guaranteed service, makes Corset selling quite worth while.

If you are not a devotee of WARNER'S CORSETS, try one of the many models in our Corset Department.

**Marshall Bros**

Sole Agents for Newfoundland.

### ARE MORE BECOMING THAN FLAT LENSES.

The edges of Toric Lenses do not show as prominently as those of flat lenses. They fit in close to your eyes. You will find Torics much more becoming and useful. They give you a wider, clearer field vision. You should know about Toric Lenses. Let us explain them.

**R. H. TRAPNELL,**  
Eyesight Specialist,  
St. John's.
