Montreal Stock Market.

MONTREAL STREET AND ROYAL ELECTRIC ADVANCE SHARPLY—GAS STRONG—OTHER STOCKS QUIET.

Stocks this morning demonstrate their remarkable recuperative power, and their ability to quickly regain any loss which may have been sustained during the late slight reaction which seems but to have strengthened the market. Some issues of to-day are remarkable examples of this underlying strength. The realizing which we have had of late seems merely to have been for profit-taking, and so long as the market rests on simple investment conditions, efforts to cause recessions will be futile.

There were however, signs in to-day's trading of big interests actively engaged in augmenting and swaying the bull interests. The stocks which were taken up for this purpose were Montreal Street, Royal Electric, and Montreal Gas. These have been the speculative favorites of late and they are leaders in to-day's trading.

Montreal Street was advanced sharply, all stock in sight being taken with avidity, it made a rapid advance to 325. There were rumors afloat of closer connections being made with the Royal Electric Company, how far this may be correct must be left to conjecture. It started this morning at 319 and closes at 324 some 1,820 shares were dealt in.

Royal Electric came in for its share of patronage closing last night at 177 it opened this morning at 179 selling up to 179½ which was high for the day. Before the close there was considerable realizing proceeding and it closed at 178½ sellers asking 179.

The remaining feature of strength was Montreal Gas selling at one time a point and one half in advance of yesterday's closing price it closes with a gain of a point at 218½. It was fairly active, but seemed to us to be a little heavy at this figure.

The mining stocks were in less demand Montreal & London being decidedly reactionary it closed at 79 having sold at 77. War Eagle was firmer but failed to advance any.

In other respects the market was quiet. • Toronto selling at 117½. Dominion Cotton at 113 and Bell Telephone at 180.

AFTERNOON BOARD.

The market developed a quieter tone and stocks were less active during the second part of to day's trading. Even those which were buoyant this morning were inclined to react from the highest.

Montreal and London regained a little of its early loss selling at 82 and closing at 80. Payne also closes at 407, but this was the only sale recorded to-day and would in all probability have sold lower if any transactions had been carried through. The Bid and Ask being 405 and 400.

CHICAGO MARKET.

CHICAGO MARKET—March 2, 1899.

FROM OUR SPECIAL CORRESPONDENT.

INACTIVITY DEVELOPS INTO WEAKNESS—CABLES DISCOURAGING—LOCAL TRADE BEARISH.

Chicago, March 2.

Owing to lower cables and heavy realizing on the part of the local operators, the market for cereals opened weak at a decline of $\frac{1}{8}$ for May wheat, and $\frac{1}{4}$ to $\frac{1}{2}$ for July.

With a lack of bad news from the wheat belt, the temper of the room became bearish, and professionals worked for a decline. Outside of crop news, there is very little to effect the actual price. Clearances keep up to the high standard of late, with receipts normal. With the advent of fine weather and outside labor these later receipts are apt to fall off, as farmers are busy preparing for spring work.

It seems to be a question of whether the longs will tire out first or whether the shorts will be forced to cover. There is, no doubt, a large long interest amongst those who have bought wheat for a turn and who are waiting for something to turn up, either in the shape of crop damage or large decreases in available supplies. Whereas, on the other hand, the shorts are confident in their statistical position, and predict lower prices yet before the end of March. Recently the lowest prices have ruled during the earlier days of the month, and it might easily be so during March.

NEW YORK EXCHANGE.

NEW YORK STOCK MARKET.—March 2, 1899.

STOCKS IRREGULAR — PROFIT
TAKING AND REALIZING — TO-
BACCO FIRM.

New York, March 2.

The market for Americans in London opened irregular and somewhat dull but has since gained strength under the leadership of Union Pacific com. which is selling at a price which equals 48½ here, presumably the advance in this stock is based on the announcement that the control of the Chicago & Alton has finally passed into the hands of the Harriman syndicate. It is believed that the intentions of this syndicate are now to operate the C. & A. for the benefit of Union Pac. Mop & M. K. T.

The feature of yesterday's market was rather the liquidation of pools and cliques than the liquidation on the part of the public probably the leading commission houses bought as much as they sold and they seem to believe that unless the decline extended to 4 or 5 points further, there will be no heavy liquidation on the part of the outside public.

The explanation is given that the public has made so much money that it takes more of a decline than usual to exhaust the margin in the hands of brokers and cause forced liquidations.

One of the strongest stocks on the list yesterday was American tobacco. It was announced after the close that the directors had held a meeting and had confirmed the purchase of the Union Tobacco Company. An exchange of securities between that Company is contemplated, and, it is proposed to issue \$35,000,000 of new stock.

Yesterday's heavy liquidation in B. Q. and Atchison preferred is credited to Mr. Keene. No doubt his associates have been very much disappointed of the meagre nature of the re-organization scheme, also by the January statement. Mr. Flower is out in an interview this morning stating in his opinion the market will for the rest of the month be a good trading one. This is thought to indicate that he does not intend to take hold of any of his specialties.

On Friday there will be the dividend on Federal Steel preferred and next week a number of companies will declare their spring dividends including Sugar and St. Paul.

The policy of Rock Island has always been the disbursement of extra dividends and at present rate of earnings this could be easily done at the annual meeting in June. We have an exhaustive report on Rock Island by Mr. Prime the crop expert. He speaks exceedingly well of the condition of the road and of the crops, etc., along its lines. It is particularly a flower stock and basing judgment on present earnings and prospects will sell fully fifteen points above going quotations before the end of the fiscal year.
