WILSON IN NOTE TO KAISER SAYS U.S. READY TO ENFORCE DEMANDS FOR FULL REDRESS

Germany Must Not Only Avoid Repetition of Attack on Merchant Ships Carrying Non - Combatants, But Must Make Suitable Reparation.

WASHINGTON, May 12. - The Inited States in a note to be sent to fermany tomorrow demands a guarantee that there will be no further attacks by submarines on merchant ships carrying non-combatants. It erves notice also that full reparation vill be sought for the loss of more the sinking of the Lusitania, and for other violations of American rights in the sea zones of war.

While no indication is given of the steps to be taken by the United States in the event of an unfavorable reply, the note informs the German Government that the American Government will leave nothing undone either in diplomatic representations or other action to obtain a compliance with its requests.

No changes were made in the essen tials of the communication as formulated Sunday by the president and approved by the cabinet. Ask Strict Accounting

The United States points out th never admitted Germany's right in the abmarine war zone declaration, and warned the imperial government that it would be held to a "strict accountability" for attacks on American vessels or lives. A strict accounting The usual financial reparation will reminded that no reparation can re-store the lives of those sacrificed in he sinking of the Lusitania and other

lives of non-combatants.
The right of neutrals to travel any point of the high seas, on neutral or pelligerent merchantmen, is asserted. In the name of humanity and inter-national law, the United States demands a guarantee that these rights will be respected and that there be no repetition of attacks on merchantmer carrying non-combatants.

ENEMY'S LOSSES BIG IN EASTERN THEATRE

Since First of May, Casualties Have Been Piling Up.

GENEVA, May 12 .- (Via Paris) -A despatch from Cracow to The Journal de Geneve says that the losses of the Austrians and Germans since May 1 mount to 165,000 officers and men. Losses of the Russians in prisoners

are placed at 50,000. The despatch says the Russians are holding firmly the principal strategic positions, and that both sides are receiving heavy reinforcements.

The President and the Kaiser

Outside of the events in the theatre of war and the situation in Italy the centre of most interest was the protest of Presilent Wilson on behalf of the people of the United States against the piratical destruction of ships of commerce (including the Lusitania) by German submarines without warning and contrary to all the ties of civilized warfare. It means more than one other nail in the coffin of the kaiser. There is immense and rising tide of world-wide public opinion against the madman tactics of Germany, against the ferman peoples who countenance this

One Airmen, The Wounded, Fulfilled Mission of Bombarding Canal Bridge at Don and Another Brought Down German Machine Near Wytschaete.

LONDON, May 12.—Writing of the work of the British aviators in Sunday's engagement near Fromelles, the British eye-witness says: "During the day our aeroplanes attacked several points of importance. One of our airmen, who was sent to bomb the canal bridge near Don, was wounded on his way there, but continued and fulfilled his mission. Near Wytschaete, one of our aviators pursued a German aeroplane and fired a whole belt from his machine gun at it. The Taube suddenly swerved, righted itself for a second, and then descended from a height of several thousand feet straight to the ground.

"On the other hand, a British machine was brought down over Lille by the enemy's anti-aircraft guns, but it is hoped that the aviator

LONDON, May, 12. - The Russian answer to the German rush against the lines of the Dunajec River, in western Galicia, is a counter-stroke in be sought, altho Germany is, in effect, the trans-Dniester region in eastern Hungary, where the Russian troops have made a sudden advance on a 40-mile front stretching from Czernowitz to Obertyn with great success The enemy has evacuated the whole left bank of the Dniester, and has been ejected from Zaleszcyki, 26 miles

northwest of Czernowitz. Word to this effect was received from Petrograd tonight, and is taken to indicate that the Russians have the Galician situation well in hand. The new movement took the enemy by complete surprise, it being expected that the glowing reports sent from headquarters of the German and Austrian armies of the capturing of so many prigoners would have intimidated the Russian generals for a few days, and it is now believed that the enemy

lines on a new front and have stopped the offensive of the Austrians and Germans by counterattacks which have been brilliantly carried out. In order to make their lines conform to those in West Galicia the Russians drew back their troops from Lutowiska to previously prepared positions.

Austrians Defeated on Stry.

The Austrians operating on the Stry and in the direction of Uzsok Pass were also defated with severe losses. Near Rojanka where they exploded a mine and occupied the crater, they were driven out by the Russians in a furious onslaught and fled in confusion, leaving behind them several hun-

Battles of Saturday and Sunday for Ypres-Roulers Road Furious.

LONDON. May 12, 9.30 p.m. - The official British eye-witness, under date of May 11, gives an account of the German attempts on Saturday and Sunday last to break the British lines around Ypres and the commencement of the Anglo-French offensive north of Arras. He says:

"The calm that prevailed Thursday and Friday proved to be only the lull before the storm. Early Saturday morning it became apparent that the Germans were preparing an attack in strength against our line running east and northeast from Tpres, for they were concentrating under cover of a violent artillery fire, and at about 10 oad to within a short distance Menin high road, it being evidently their intention while engaging us closely on the whole of this sector to break our front in the vicinity of the Ypres-Roulers railway to the north, and to the south of which their strongest and most determined on slaughts were delivered.

Special Cable to The Toronto World LONDON, May 12 .- Sir Felix Semon,

Sir Carl Meyer and Leopold Hirsch, both well-known in the world of finance, have written to The Times in response to the suggestion made by Sir Arthur Pinero that naturalized British subjects should publicly avow their disapproval of German methods of warfare. Semon says:

"The inhuman methods of Germans warfare have often, and of late with ever increasing force, induced me to think that it would be right for a German by birth to publicly express his detestation of that policy. I beg to say that I emphatically abhor the barbarous methods, one and all, employed by Germany."

Meyer writes: "Will you allow me to say that I shall be very glad to join in a loyal address to the King to express on behalf of naturalized British subjects of German birth their feelings of detestation at the horrors committed by the Garman array, and payer the present the feelings of detestation of the feelings I cherish."

He therefore suggests that the government of the day should compel restitution and turns over that duty to his successor in office.

So far, so good, but there is a cut and dried appearance about the whole affair. The proceedings at Government House did not lack polish. One could imost hear the varnish crack. Was the injunction suit a surprise either to the old or the new premier? It certainly served as a convenient peg upon which to hang the change of government.

How long is the injunction suit to remain in the courts? Already we hear rumors that the so-called "million dollar mystery" may never be cleared up. Line Broken in Night.

"During the night the fighting continued to rage with ever-increasing fury. It is impossible to say exactly tinued to rage with ever-increasing fury. It is impossible to say exactly what hour our line was broken at different points, but it is certain that at one time the enemy's infantry, poured thru along the Poelcappelle road and even got as far as Wieltje at 9 pm.

"There was also a considerable gap in our front about Frezenberg, where hostile detachments had penetrated. At both points counter-attacks were organized without delay. To the east of the sallent, the Germans first were driven back to Frezenberg, but there they made a firm stand, and under pressure of fresh reinforcements we fell back again toward Verlorenhoek.

Counter-Attack Succeeds.

'Northeast of the salient a counter-attack, carried out by us about 1 a.m., was more successful. Our troops swept the enemy out of Wieltje at the bayonet's point, leaving the village strewn with German dead, and pushing on, regained most of the ground to the north of that point.

Fight Surged To and Fro.

"And so the fight surged to and fro thruout the night. All around the scene of the conflict the sky was lit up by the flashes of the guns and the light of blazing villages and farms, while against this background of smoke and flame, looking out into the murky light over the crumbling ruins of the old

When Sunday dawned there came a short respite, and the firing for a time died down. The comparative lull enabled us to reorganize and consolidate our position on the new line we had taken up and to obtain some rest after the fatigue and strain of the night. It did not last long, however, and in the afternoon the climax was reached, for, under the cover of intense artillery fire, the Germans launched no less than five separate assaults against the east of the salient.

"To the north and northeast their attacks were not at first pressed so hard as on the south of the Menin road, where the fighting was especially fierce. In the latter direction masses of infantry were hunled on with absolute desperation, and were beaten off with corresponding slaughter.

It was on this side, where they had to face the concentrated fire of guns, maxims and rifles, again and again in their efforts to break their way thru, that the Germans incurred their heaviest losses and the ground was literally heaped with dead. They evidently, for the time being at least, were unable to renew their efforts, and as night came on the fury of their offensive gradually slackened, the hours of darkness

passing in quietness. "During the day our troops saw some of the enemy busily employed in stripping the British dead in our abandoned trenches, east of the Hooge Chateau, and several Germans after-wards were noticed dressed in khaki. "So far as the Ypres region is con-

What Ald, Maguire said was that in the reiprocity campaign of 1911 he had known of a president of a Liberal association who had been given \$125 for election expenses, who had taken the noney and then had stated that he would not vote for the government

Four Thousand Prisoners Taken.
Four thousand prisoners were taken in this district between Sunday and

Wednesday That the Germans realized the severe nature of the blow dealt them by General Joffre in the Arras region appears from the hasty way in which they rushed forward reinforcements, but the defeat of three heavy attacks in force on the newly won ground resulted in severe losses to the enemy in killed and wounded and will call or still more assistance Fighting was particularly bloody at Neuville St. Vaast. As an incident the French official report mentions

that in the cemetery alone more than 200 dead Germans were counted, and 106 prisoners were taken. French Official Version-The following is the official French version of the fighting given out toright at Paris and received here:
"The fighting to the north of Arras continues with extreme violence. During the course of last night the cnemy, reinforced, delivered several

counter-attacks which, however, were without result. "In that directed against Neuville St. Vaast our opponents suffered par-ticularly heavy losses. We found in the cemetery alone more than 200 dead Germans, and we took about 100

prisoners. "A second attack, between Carency and Ablain, was likewise repulsed. A third from the direction of Ablain, was also completely checked.'

Progress in Woods. "This morning we made progress in the wood to the east of Carency, takthe wood to the east of Carency, taking 125 prisoners. The progress continued in the afternoon. We have, besides, taken three successive lines of trenches bordering on the wood to the north of Carency, after which we penetrated the wood, thus threatening the last line of communication which remains open to the defenders of that position. position.

Gain Groups of Houses. "In the afternoon we attacked that section of Neuville St. Vaast, which the enemy still holds, and fighting in the streets gave to us the mastery of several groups of houses. Our pro-

gress here continues.
"The total number of prisoners made by us since Sunday had reached this evening 4000.
"On the rest of the front we brought to a sudden halt by our fire three Ger-man attacks — near Berry-au-Bac, Beausejour and Marie Therese-Baga-

Seventy Inspectors Went Thru German Ships at New York.

NEW YORK, May 12.- Customs inspectors to the number of seventy went in two boats late today to the North German Lloyd and Hamburg-American Steamship Co. piers in Hoboken, where many German steamers are tied up, including the giant steamship Vaterland, ostensibly on their re-gular monthly trip of inspection. Ordinarily the squad of inspectors consists of about 12 men. The un-usual size of the detail on today's visit

more than a mere inspection and that the big vessels would be searched thruout. It was rumored that the visit was made upon telegraphic in-structions from Washington. At the office of Dudley Field Ma-lone, collector of the port, it was said that the inspectors were on their usual monthly trip of inspection. Why the size of the force was increased not explained.

as several companies have asked for hydro power in that village. The new agreement with the men is now ready and they will be asked to consider it at an early date. Mayor Church stated yesterday that if the hydro did not soon get some money from the city about 300 men would be thrown out of work, as the money for capital expenditure is used up and about \$850,000 more is required.

The regular monthly report of the medical officer of health was issued yesterday. It contains figures showing the number of births in the city, and deaths of infants under 1 year, from 1897 to 1914. In 1897 there were 4075 births and 664 deaths, and in 1914 13, 949 births and 1553 deaths. These figures prove that the infant death rate is decreasing, despite the statement of Dr. Fraser to the contrary. The sanitary conditions in hotels are reported as excellent.

All the refinements are complete—flush doors, concealed hinges, one-man top, two-piece rain-vision windshield, crowned fenders and rounded radiator front. Ignition and lighting switches, speedometer, ammeter and oil gauge are grouped on a metal instrument plate in the centre of the dash, all illuminated by one dash light.

Exquisite Arrangements of Lace and Nets for the Summer Petticoat.

PARTY FROCK MODELS

Employ Many New Features in Acquiring Desired Lines.

Too much stress cannot be placed on the importance of the petticoat. It is the foundation upon which all success of this season's costume is built, and the nearer the time comes for donning mid-summer garb, the greater this part of the wardrobe.

In considering the summer lingerie or net frock, the underskirt should be style chosen, for just as the flaring skirt of the spring suit could not flare without the extra widths in the voluminous underskirt, so the dainty, airy summer materials would lose their floating ripples and elusive fulness if the foundation of fluffy nets and laces were lacking.

tancy cottons there are smartly scal-loped skirts with full frills of handsome embroidery. These petticoats when laundered are given plenty of starch so that the frills stand out firmly to keep the short skirt chic. The costumes for afternoon and more formal occasions are accompanied by slightly more elaborate models which introduce pretty combinations of exquisitely fine lawns, muslins and lace flounces, with ribbon flowers and

dinky little butterfly bows.

But it's the party frock that wins the luxurious concection of striped taffeta, flowered chiffon, patterned organdie, exquisite laces and yards of beautiful ribbons. One exquisite French model exploited a half skirt of fine net to which was added a deep flounce in three layers—net, pleated chiffon and shadow lace. Lovely

little clusters of French roses in lavender and blue and rose caught the wide folds into frilly scallops—the edges studded with tiny pearls. From now on lingerie will enloy a new lease of life, and elaborate truming on yards of delicate material will delight the devotes for the sum. the whims of the devotee for the sum-

Harmful Habits

Children often contract injurious habits not noticed by parents and teachers until much harm is accomplished. The bones and muscles of growing children are very pliable, and great injury may be done by forming habits of action which change the natural framework of the body. If a child is allowed to sit bent over the desk or table in a humped-up position for any length of time the muscles of the back will become weakened and make the child in time, roundshouldered or a sufferer from spine cur-

vature.

Care should be taken to see that the seat and desk are perfectly comfortable and suited to the size of the child. There are graded and adjustable seats and desk are seen that the value of the child. desks in every school room, so that there is no excuse for dangling legs and tired arms. At home, a box may be used as a foot rest. The feet must rest firmly on the floor or on a provided support; and the back of the chair or eat must properly support the child's

back.

When studying or reading at home, never let the child curl up in a chair or

When studying or reading at home, never let the child curl up in a chair or lie on a couch.

Faulty methods of standing are injurious. Standing on one foot or throwing the weight from one foot to the other may throw the body out of position so that one shoulder will become more elevated than the other, or one hip be raized higher than it should be.

Walking on the sides of the feet, sitting with the legs crossed, sitting with the feet turned in age harmful habits that can be remedied by watchfulness.

There is no beauty or grace of the body that an erect posture cannot heighten, nor is there single bodily attraction that will not be marred or obscured by an ugly stoop. Yet thousands of boys and girls, especially those of rapid growth, are every year acquiring the disfiguring and pernicious habit of round shoulrers. In the cramping of the lungs and stomach that this position induces they carry a perpetual menace to health.

WIFE SAW STRANGER

Report of Gun Soon Followed — No Definite Clue Obtained.

SIMCOE. May 12.—Christopher Schoup, aged 50, a wealthy miller and farmer of the seventh concession of the Township of North Walsingham, while plowing in his fields. The body was found by his wife with a bullet wound in the head. Robbery is thought to have been the motive, the man having been in the habit of carrying considerable money on his person. The wife of the murdered man says she saw a stranger approach the farm shortly before 3 o'clock, but paid no attention to him. She was unable to furnish a description of the person. Shortly afterwards she heard the discharge of a gun.

By a Staff Reporter. OTTAWA, May 12.-The government purchasing commission has been busy completing its organization and dealing with orders for war supplies, which de-

mand immediate attention;
Hon. A. E. Kemp, chairman of the commission, and Messrs. George F. Galt the new body, have been devoting their entire time to the work, and have been engaged from early morning until midnight each day getting their organization into working order.

Mr. Kemp attended the cabinet meet-

ing today and explained the progress which he and his associates have made. Approval was given by council of what has been done, and to the proposed steps

The powers given the commission are very wide, and include dealing with naval as well as military supplies. The purchasing facilities of each department of the government will be utilized, but the staff of the director of contracts, which new works under the commission, will be of the greatest advantage. This means that the staff of the commission itself will not be very large. In a few days the commission will move into comodious quarters.

DERNBURG MUST

Officials Are Searching the Statutes to Find What to Do.

Special to The Toronto World. WASHINGTON, May 12.—It was learned here today that the department of justice was carefully searching the statutes to find a way to send Dr. Berntatutes to find a way to send Dr. Bernhard Dernburg away from this country. The efforts of the department of justice are the result of a discussion of Dr. Dernburg and his utterances at yesterday's cabinet meeting, where the irritation over his conduct was most pronounced.

The most feasible way to get rid of Dr. Dernburg that has been discovered by the department of justice is by his use of the mails to disseminate his propaganda. Under section 211 of the penal code as amended in March, 1911, the use of the mails for received. of the mails for matters of a charac.er
"tending to incite to arson, murder or assassination" is prohibited under the penalty of five years' imprisonment in jail
or a \$5000 fine.

Liable to Penalty.

According to officials Dr. Dernburg's statement at Cleveland on Saturday justifying the sinking of the Lusitania, and Esserting that any ship not carrying the American flag would be as unsafe as a volcano, could be construed as a violation of this section if Dr. Dernburg sent it thru the mails. As viewed by department of justice officials the justification of the sinking of the Lusitania with Americans on board would be encouraging. ericans on board would be encouraging a repetition of this sort of crime, as the loss of American lives on the vessel is regarded as murder and assassination here.

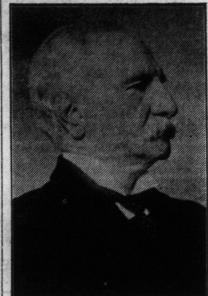

It was pointed out that should Dr. Dernburg be convicted under this sec-tion of the penal code he could be given the alternative of a term in fail or his mediate departure from the United

It is the business heads of the community who will head the march of the citizens of London to Tower Hill tomorrow to insist on the internment of all alien enemies. The only course now left to the govern-ment is to direct this feeling. The cabinet cannot hope to change it. It is only necessary to travel the subways of London today to discover the state of popular sentiment.

A prosperous city merchant held quite a public meeting in a train going to Westminster today. Addressing the crowded carriage, he said: "This government is fooling us. We only are just beginning to find out that this war isn't an absolute certainty for us, as they tried to make us believe. They've been playing with it, treating it as a game and then grumbling when the enemy didn't play according to rules we laid down. London lives on a volcano while 50,000 Germans are allowed to remain here. It's up to us to ettle the question."

These remarks were cheered to the cho, and they do represent exactly he prevalent feeling among all classes If the government were to take this opportunity to summon every man to the colors their orders would be obeyed without a murmur.

THE TWO ORPHANS.

Miss Haswell's next revival will be "The Two Orphans," which will be presented at the Alexandra Theatre next week. It must be twenty-five years ago since the last performance of this play was given in Toronto. One reason for that is that Kaie Claxton, who gained fame and fortune with it, retired from the stage some years ago, and another reason is that a cheap or medicere rlock company dare not attempt to present it, as the principal characters are so strongly and vividly drawn that unless they are well acted the play would be a dismal failure. "The Two Orphans" differs from those other plays so popular with women, as it also appeals strongly to men, on account of the gripping dramatic situations and its interesting story.

Coming to Canada

Good times in the United States mean good times in Canada. If they have been slow in coming to both countries the cause may be found in conditions which in the end will mean more substantial and enduring prosperity. If the war can make the United States prosperous, it will make Canada prosperous. It may therefore be of interest to consider a recent article in the May number of Moody's Magazine dealing with conditions in the United States.

The article starts with the assump tion that the great curse of the United States has been extravagance and that since the outbreak of the war the people, for the first time, have come to appreciate, and, what is better still, to practice the virtue of thrift. Rigid economy depressed business for a time, no doubt, but already the result is being shown in accumulation of capital. That the United States has been heretofore a reckless spendthrift is shown by the way in which railexploitation, not to mention the huge sum spent upon European travel and fires are lighted.

Cermany in Asia Minor quor and tobacco. The Americans have not been thrifty. For every 1000 of population only 29 have money deposited with the government or savings institutions, as against 846 to the 1000 in France and 860 in New Zealand.

Extravagance, too, has been the national vice of Canada. But here as ways have been duplicated and the

in the United States, an era of economy has set in. Capital has begun to accumulate, notwithstanding our vast commitments for public works beyond spendthrift tendencies of our people at home and abroad.

When a people turn from wasteful habits to those of thrift the first effect is depression of business. That was the result in Canada and the United States alike. Now they seem to have reached the brow of the hill on the other side of the line, and the writer in Moody's Magazine argues that prosperity is advancing to the nation with outstretched hands of welcome. We are told that imports from Europe have largely ceased and exports have enormously increased; that belligerent nations are taking at high prices all railroad was represented by the kaithe foodstuffs that can be exported and ser's foreign minister to be purely a are lavishly buying military supplies; that the foreign holders of securities are not eager to liquidate them because they are glad to have their money invested in a country free from that it was really a state enterprise. the ravages of war.

The American tourist will not spend \$150,000,000 this summer in Europe. European fuxuries are not being imported, the war automatically creating the most protective tariff American manufacturers ever enjoyed. Great hopes are founded upon bumper crops in this year of high prices.

But Canada has much the same advantages, and from the standpoint of finance and commerce suffers nothing by being a belligerent instead of a neutral nation. She may suffer something in the end from having so many men withdrawn from productive activities, but their withdrawal for the present has steadied the labor market without depleting the capital of the country. Their subsistence is being financed by the imperial government for the time being, and, altho interest will have to be paid on the money thus advanced, our national debt at the close of the war will be considerably less than the present debt of New York City, which has no natural resources and less than half the present population of Canada.

The United States is getting rich, not because it is neutral, but because it has fertile fields, big factories and the allies have undisputed possession of the geas. We are not in a whit the worse position because we are belligerent. The sea is open to our exports as well as to those of the United States. We are getting big prices for our foodstuffs and big orders for war supplies We have been taking up slack in the past eight months in much the same way as the United States. We have been saving our money, cutting down imports and increasing exports, practising thrift and beginning to accumulate capital. This summer we will

The big boom that is on in the United States is headed for Canada.

Dallying Over the Fire Depart-

What was to have been a reorganization of the fire department appears likely to degenerate into a shuffle in which all the old elements of party interest and personal pull are to have their accustomed weight. We believe Mayor Church can do better for the city than this if he likes, or if he be permitted.

The board of control seems to be anxious to do nothing except as a stalloff, and to take advantage of the twothirds majority rule against the aldermen. If no recommendation is made by the controllers the aldermen will act themselves: Perhaps they will do better than the board of control, but there is apparently no unity of purpose in either body.

The matter has got down to the level where wire-pulling is more regarded than the city interests, and the highly important considerations that have been urged by the board of trade and other authorities have dropped out of sight.

There has been a lot of quibbling about appointing two heads to the fire department. This, of course, is humbug. There will never be satisfactory administration of the departmen with two heads. Two angels could not succeed in such a situation, and appointees of the Toronto City Council are not so be expected to do so The act will not permit the appointment of two heads in any case.

One head is to be appointed, and he cught to be a commissioner with power to organize, reorganize, or do whatever is necessary to get the department into shape. He ought to States, and in some districts sectional have the power to appoint a fire chief, contests are being held, the winners or if the controllers and aldermen to contend among themselves for the prefer to make the fire chief the re- state championship. Had the German plan materialized the large and valuable mineral deposits of Asia Minor, and much land available for cotton growing, would have been opened up to German exploitation. But it was more especially Mesopotamia which formed the goal of German ambition. Germany has no petroleum, which Mesopotamia holds in abundance, and had the Balkan States been brought under Austrian-really German-control, and with Asia Minor in the same position, Germany would have had an independent source of supply, and even been immune from the consequences of a blockade by sea. Failure in this war will deprive Germany of all the advantages she hoped to gain from the long years of patient negotiations with the Turkish Government. That war will deprive Germany of all the after years of thinness, and is also unequalled for repairing the waste of sickness or faulty digestion and for strengthening the nerves. This remarkable discovery is called Sargol. Six strengthgiving, fat-producing elements of acknowledged merit have been combined in

HOLY NAME PARADE HAS BEEN CANCELED

Solemn High Mass Will Be Held on Victoria Day at St. Michael's Cathedral.

At a special meeting last evening of the executive of the Holy Name Union of Toronto, it was finally decided to dispense with, for this year, the parade feature which has so signally distinguished the annual demonstration of the Holy Name body for nearly a decade. It was felt that with the empire engrossed in the conduct of the most costly and disastrous war of history, the public display of a processional nature would be best eliminated at

this time.

To replace the annual outdoor event a celemn high mass and requiem will be celebrated in St. Michael's Cathe-dral at 9 a.m. on the morning of Victoria Day, for the repose of the souls of Catholic soldiers of the Canadian contingents who have given up their contingents who have given up their lives in answer to their country's call. On Sunday, June 13, the day upon which the public demonstration would otherwise have taken place, the members of all the Holy Name branches of the archdiocese will approach the sacraments in their local parish churches, where special prayers will be recited for the dead, for the recovery of the sick and wounded.

CLAIMS HUMBER BAY HOTEL AS DISGUSTING

Strong Language Used by Delegates Urging Against New Hotel License.

BOARD SYMPATHETIC

License Chairman Flavelle Cannot See Reason for Two Hotels.

There is a large element in the population of Humber Bay which is averse to the granting of more than one liquor license for the district. Before the provincial board yesterday a vigorous appeal was made for refusal to grant privileges to the new hotel rising on the site of the old Senate House. The sympathy of the board was with the visitors, and altho the chairman stated that the other side would be heard, he confessed that the appeal was convincing.

the Humber bore the reputation of being a rendezvous for undesirables, and that the scenes of drunkenness and indecency during the summer were disgusting. Instances were quoted of men eleoping by the dozen in the fields

The main plea was that whereas the The main piea was that whereas the one hotel now operating made some attempt to serve as an hostelry, the other was purely a drinking place. One hotel was a clearing house for the other, with Toronto people providing most of the patronage. Stands of taxicabs were in evidence all summer. It was cleared that even those not favorwas claimed that even those not favoring local option were glad to petition
for the cancelation of one license.
W. E. McDonald claimed that the
new hotel was not making accommodation for the farmers or travelers, but for drinkers. There was no driving

"I frankly confess that I cannot see the reason for two hotels there, and they must put up a pretty good argu-ment to the board," said Chairman Flavelle. "The fact that construction has started will not affect us. Any gentleman in that business must take the chance of suffering for the cummunity. Before another year is over many individuals may have to suffer for the common good, altho we do not wish to punish any." Among the delegates were Rev. Au-brey Vincent, W. J. Brown and others.

WARD SEVEN

Despite the wet weather last night at the first drill of the newly formed Ward Seven Company of Home Guards there was a good attendance, and enthusiasm was keen among the men. Several names were handed in It was claimed by one delegate that the Humber bore the reputation of being a rendezvous for undesirables, and that the scenes of drunkenness and indecency during the summer were training, examinations will be held, training, examinations will be held, and the non-come for the West Toronto Company will be chosen from the successful candidates.

Executive Meeting.

The executive of the Ward Seven Liberal-Conservative Association met

last night in St. James' Hall for the transaction of business. The president, J. H. Rowntree, occupied the chair. It was suggested that the as-sociation join the central association of Toronto, and thus become affiliated with the branches in the other wards of the city, but no decision was reached, and the matter will be left to the wnole association for discussion. The officers of the Runnymede executive were present, and it was agreed that a joint meeting be held before the hot weather sets in.

As yet work has not been started on the permanent tracks for the new Gloor street civic line. The street rails have been distributed for some time, and the work was to have com-menced at the beginning of the month, as these must be completed before a start can be made at the paving. The street will be paved this summer from Dundas street to the other terminal of the line at Quebec avenue.

Anti-Teutonic Resolution Passe by the Ossington District Ratepayers.

"That the mayor and board of control be requested to dismiss all Germans in the civic employ until after the war, as it is considered unfair by this association that men and women of German nationality should usurp positions which could be filled equally as well by those of British extraction." This resolution was carried unanimously last night at a largely attended meeting of the Ossington District Ratepayers' Association, in McMurrich school. It was also decided to ask the authorities to close the German citis.

LONDON, May 12.—A despatch to The Daily Mail from northern France says the Princess Patricia's Regiment of Canadian Infantry, backed by other of Canadian Infantry, backed by other British regiments, suffered terribly during the furious bombardment by the Germans of the British trenches west of Zonnebeke on Saturday. The bombardment was almost the heaviest of the war. The Germans had an overwhelming mastery of artillery.

Many deeds of heroism are credited to a small group of the Canadians, who stood back to back, firing in both directions on the enveloping Germans. The trenches in which they were fighting were soon knocked out of shape by the heavy shells, but the Canadians continued fighting, their ranks being cut to pieces. ranks being cut to pieces.

EAFS TRYING TO **GET FIGHT SPIRIT**

Look Over Yankee Fighting Ships and Learn a Few Things-Had Idle Day.

Special to The Toronto World.

NEWARK, N.J., May 12.—Bill Clymer's crew of budding Leafs from Toronto are not likely to hit Newark for a couple of days. The game scheduled for this afternoon, which was to have opened the series between the Canadians and the Indians, has been called off. It will be played Sunday afternoon as part of a double-header, which has been arranged by the Newark management to buck a similar double-bill attraction advertised by the Federal League Club here.

Tomorrow is an off-day.

The series will open on Friday. "Harry Smith Day" will be observed here Saturday with a set of field day games and a banquet at night in a local hotel, to which the Clymers have been invited. Manager Smith who brought the only pennant to Newark since the days of the Little Glants, in 1888, will be the guest of honor at an affair which has been gotten up by the fans who have remained loyal to the International Leaguers.

Altho the plan of postponing today's game was announced this morning by President George L. Solomon of the Newark Club, there would have been no chance of its being played, as rain fell in torrents later in the afternoon for the Polo Grounds, where he had a consultation with Manager John McGraw of the Glants before the game. Asked if any deals were pending as a result of the conference, Clymer intimated that there was something to the interview besides "small talk," but further than that would not commit himself.

A number of the players took the opnorthity to visit the United States hat.

"small talk," but further than that would not commit himself.

A number of the players took the opportunity to visit the United States battleships, dreadnaughts, torpedo destroyers, submarines and cruisers which are assembled for review on the Hudson River. Led by Roxy Roach, the party included Hollander, Trout, Cook, Couchman, O'Hara, Brown, Graham and Sheehan. The other members of the team were entertained at the theatres.

Bill O'Hara, the veteran outfielder, is no longer with the club, having been given his release outright. The news will come as a severe shock to the many friends of the well-known player. Clymer, however, had no other recourse. O'Hara, so it is said, deserted the team at Providence, being disgusted with the way he was going. O'Hara last season was among the leaders in the league, both in batting and fielding. He is one of the charter members of the Leafs, having been with the club for the last five years. As a fielder he was without a peer in this league when in his prime, and but for his weakness in batting against left-handed pitchers would have been a star in the big leagues. He graduated from the Torgatic and left matter. against left-named pitchers would have been a star in the big leagues. He graduated from the Toronto sand-lots, making his professional debut with Montreal as a third-baseman. The Royals secured him from the semi-pro. club at Gananoque. He was in the majors on three occasions, playing with Cleveland, St. Louis and New York.

ILLEGAL TO RUN FIGHT FILMS IN UNITED STATES.

NEW YORK, May 12.-Federal Judge Hough handed down a decision today, holding that the admission into the United States of the moving picture film of lightweight championship fight between Willie Ritchie and Freddie Welsh, in London, England, last July would be a violation of the federal law. Judge Hough held that, altho the fight

may have been classed as a boxing match in England, and in this state, it was within the technical meaning of the term a prize fight or puglistic encounter, and, therefore, came within the scope of the Sims law excluding moving pictures of such contests. of such contests.

NO IRON MEN AT DORVAL.

MONTREAL. May 12.-Three weeks MONTREAL. May 12.—Three weeks from Monday next racing will be resumed on the mile tracks in the vicinity of Montreal, with the opening of the spring meeting of the Dorval Jockey Club at Dorval. In spite of unsettled conditions in the racing world generally every indication points to as big a success for Dorval at the spring meeting as at either of the meetings of last season, when local racing records went by the board.

Owing to circumstances the public will still have to put up with the layer of odds in the ring at Dorval. An erroneous impression has gone abroad that the iron men would oust the flesh and blood bookmakers at Dorval this season. This impression is incorrect.

Dyment Horses Arrive From Barrie, Also Okemus From Windsor.

All the horses likely to face the starter in the King's Plate race are now quartered at the Woodbine. Late yesterday afternoon George Walker arrived with eight horses from the Dyment farm at Barrie. J. F. Dolan's plater, Okemus, got in from Windsor in the forenoon.

Several of the horses in the Brookdale stable have been troubled with the cough, but as far as looks are concerned they are none the worse. Lady Curzon, who was much fancied in the winter books, has not grown much and has lost much flesh. Race time is drawing near, and with a little luck Trainer Walker will have her ready for the big race. Jockey Rufus Shilling will pilot the daughter of Plaudit—the Belle of Mayfair, on plate day.

LACROSSE PRACTICE IN MONTREAL.

MONTREAL, May 12.—Nationals, M. A.A. and Shamrock lacroses teams held workouts last night and all were well attended.

Sprague Cleghorn, of hockey fame, was on the line-up of the M.A.A., and showed a good knowledge of the game. Secours of the Nationals also worked out with the Winged Wheel squad, while Rafferty, Lake, Brady, Secours, S. Cleghorn, J. Walsh, McGee, Anderson and Maher also attended.

Shamrocks have all last year's players and are likely to get Jack Barry and Jack Cligen, two members of the Irish team of several years ago. The following were out at last night's workout: M. Layden, J. Layden, L. Valliere, F. McMullen and F. Mahoney. Harry Smith and Eddle Robinson have charge of the team.

Among those who took part in the National practice were L'Heureux, Deganne, Cadotte, Pitre, Baillargeon, H. Dandurand, De Bellefeuille, Doutre, Lague, Laplante, E. Dufresne, A. Dufresne, Dupras and H. Dansereau.

DAMAGE TO CROPS WAS OVERSTATED

Belief in Chicago Pit Led to But Demand Was Also Heavy Profit-Taking Sales.

LITTLE NET CHANGE

Clearances Had Little Effect.

CHICAGO, May 12.-After 'many rapid changes of price today the wheat trade appeared to be governed chiefly by belief that alarming reports of crop damage in the Hessian fly districts had been exaggerated. The market closed unsettled at 3-8c to 3-4c under last night. Corn finished 5-8c to 3-4c down, oats 3-8c off to 1-8c up and provisions with declines of 5c to 20c. At first the course of the wheat narket, a swift succession of breaks and bulges, seemed to reflect more or less the uncertainty of dealers regard-ing chances that the United States would break off relations with Germany. Attention soon centred, howthe question of the extent of insect linjury to growing domestic crop. Differences of opinion on this subject were wide apart for a while, but gradually the general feeling be-came clearly less bullish.

Despite higher cables and big export clearances the tendency toward a buying stampede disappeared and holders indulged in profit-taking on a large scale. Complaints of dry weather in North Dakota helped the bulls to rally the wheat market to some extent as the session neared an end. There were alo late reports that foreigners were after cash wheat at the

Bryce Report on Horrors Belgium is Terrible Indictment.

NOT ISOLATED ACTS

Huns' System of Making War.

LONDON, May 12.-Viscount Bryce former British ambassador at Wash ington, and now chairman of a spe cial government committee appointe to investigate and report on "outages aneged to have been committed by German troops during the present war," has submitted the report of the committee to Premier Asquith. The document is considered as probably the most severe arraignment thus far made of the Germa military sweep across Belgium, mainly because of the position of Viscount Bryce as an historian, and also because of the care with which the investigation was made, the great number of witnesses whose testimony dence now submitted with the report of the committee. Associated with of the committee. Associated with Lord Bryce on the committee were Sir Frederick Pollock, Sir Edward Clarke, Sir Alfred Hopkinson, H. A. L. Fisher,

Sheffield; Harold Cox and Kenem E 000 words, is based on the testimony Findings as summarized are:
Systematic Massacres

vice-chancellor of the University of

"It is proved:
"First: That there were in many parts of Belgium deliberate and syste-matically organized massacres of the civil population, accompanied by many isolated murders and other out-

"Second: That in the conduct of the war generally innocent civilians, both men and women, were murdered in large numbers, women violated, and children murdered.

"Third: That looting, house-burning, and the wanton destruction of property were ordered and countenanced by the officers of the German army, that elaborate provision had been made for systematic incendiarism at the very outbreak of the war, and that the burning and destruction were frequently where no military necessity could be alleged, being indeed part of a system of general terrorization. "Fourth: That the rules and us-

ages of war were frequently broken, particularly by the using of civilians. particularly by the using of civilians, including women and children, as a shield for advancing forces exposed to fire and to a less degree by killing the wounded and prisoners, and in the frequent abuse of the Red Cross and the white flag.

"Sensible as they are of the gravity of these conclusions, the committee conceive that they would be doing less."

war is over, the nations of the world in council will consider what means can be provided and sanctions devised to prevent the recurrence of such horrors as our generation is now witness

"We are driven to the conclusion that the burning of Louvain, and massacres there were due to a calculated policy carried out scientifically and deliberately.

Some Humanity Shown. "We gladly record the instances where the evidence shows that humanity has not wholly disappeared from some members of the German army, and that they realized that the responsible heads of that organization was employing them not in war but in butchery. 'I am merely executing orders, and I should be shot if I did not execute them, said an officer to a witness at Louvain. At Brussels another officer says: 'I have not done one-hundredth part of what we have been ordered to do by the high German military authorities.'

PROVINCE REFUSES TO PEDDLE PUBLIC BONDS

Successful Flotation Due to Re fusal to Advertise Tenders as Usual.

The success which attended the re cent loan flotations of the provincial reasurer, and which has occasioned considerable comment in financial cireles, is due to a practice of the province which will not be broken on any consideration. The government refuses to peddle bonds in the market by means of advertising tenders. The

In comparison is quoted the case of Quebec, which recently entered the market and received tenders. It was found that a combine had been working to make a large gain out of the provincial exigencies, but it was dis-covered before any deal had been made. It is understood that Quebec would have lost over \$200,000 had the business been concluded in that way Abattoir Comuany 200 cattle: Steers and heifers at \$7.75 to \$8.60; cows at \$6 to \$7.40; bulls at \$6.25 to \$7.40.

things more up to their normal state. The big feature of the market was Maple Leaf, which saw a good deal of fuctuation on a large number of transactions. The stock opened at 64 1-4 and rose quickly to 67. Later it fell away a quarter, closing at 66 3-4.

Barcelona was again stronger, probably on account of the bondholders' meeting which was held in London on Tuesday. Very little stock was on sale and only a few odd lots changed hands, closing for the day at 9 3-4 bid. The local office of the company has been notified that at Tuesday's meeting the bondholders ratified all the financial plans presented. The management gave the necessary guarantee that arrangements had been made to place £700,000 of the prior lien of 7 per cent. bonds as required by the trustees before consent would be given to postponing the present existing bond issue.

Owing to the war it is possible that

all classes displayed marked stability during the greater part of to-day's moderately active session, but fell away in the final hour to the accompaniment of unconfirmed rumors of a disquieting character. Early gains of 1 to 2 points in standard shares, and as much as 3 to 6 in the specialties melted away, the decline being accelerated by a renewal of bearish operations.

The international situation was the one governing factor thruout, the list giving its first manifestation of strength on announcement that Washington had formulated a definite policy respecting the sinking of the Lusitian. The trading element evidently chose to interpret this favorably and proceeded to buy, concentrating its efforts mainly about U. S. Steel. The movement in this stock derived additional impetus from reports that the steel corporation had received large order. Was repetialties were prominent at intermittent periods, Bethlehem Steel, Westinghouse Electric and allied shares being freely absorbed at more or less steady advances. Railroad issues of the investment class were bought, the rise in grangers and Pacifics being based upon excellent crop prospects. Coppers also were conspicuious, the entire group moving upward on a revival of domestic demand for the refined metal. Total sales of stocks amounted to 735,000 shares.

The trading to under yesterday's close. The trading in futures was fair and exporters were buying. Some light contracts for export were consummated overnight. In the cash trade there was a fair inquiry for Nos. 3 and 4 grades of wheat for the Ontario trade. All grades of oats, excepting No. 2 C.W., were wanted, and in barley the low grades were being asked for. Flax was dull. Offerings of wheat, oats and barley were very light and not enough to supply requirements. BAR SILVER UNCHANGED.
