Technical and Bibliographic Notes / Notes techniques et bibliographiques

The Institute has attempted to obtain the best original copy available for filming. Features of this copy which may be bibliographically unique, which may alter any of the images in the reproduction, or which may significantly change the usual method of filming are checked below.

- ☒ Coloured covers / Couverture de couleur
- ☐ Covers damaged / Couverture endommagée
- ☐ Covers restored and/or laminated / Couverture restaurée et/ou pelliculée
- ☐ Cover title missing / Le titre de couverture manque
- ☐ Coloured maps / Cartes géographiques en couleur
- ☐ Coloured ink (i.e. other than blue or black) / Encre de couleur (i.e. autre que bleue ou noire)
- ☐ Coloured plates and/or illustrations / Planches et/ou illustrations en couleur
- ☐ Bound with other material / Relié avec d'autres documents
- ☐ Only edition available / Seule édition disponible
- ☐ Tight binding may cause shadows or distortion along interior margin / La reliure serrée peut causer de l'ombre ou de la distorsion le long de la marge intérieure.
- ☐ Blank leaves added during restorations may appear within the text. Whenever possible, these have been omitted from filming / Il se peut que certaines pages blanches ajoutées lors d'une restauration apparaissent dans le texte, mais, lorsque cela était possible, ces pages n'ont pas été filmées.
- ☐ Additional comments / Commentaires supplémentaires:

L'Institut a microfilmé le meilleur exemplaire qu'il lui a été possible de se procurer. Les détails de cet exemplaire qui sont peut-être uniques du point de vue bibliographique, qui peuvent modifier une image reproduite, ou qui peuvent exiger une modification dans la méthode normale de filmage sont indiqués ci-dessous.

- ☐ Coloured pages / Pages de couleur
- ☐ Pages damaged / Pages endommagées
- ☐ Pages restored and/or laminated / Pages restaurées et/ou pelliculées
- ☒ Pages discoloured, stained or foxed / Pages décolorées, tachetées ou piquées
- ☐ Pages detached / Pages détachées
- ☒ Showthrough / Transparence
- ☒ Quality of print varies / Qualité inégale de l'impression
- ☐ Includes supplementary material / Comprend du matériel supplémentaire
- ☐ Pages wholly or partially obscured by errata slips, tissues, etc., have been refilmed to ensure the best possible image / Les pages totalement ou partiellement obscurcies par un feuillet d'errata, une pelure, etc., ont été filmées à nouveau de façon à obtenir la meilleure image possible.
- ☐ Opposing pages with varying colouration or discolourations are filmed twice to ensure the best possible image / Les pages s'opposant ayant des colorations variables ou des décolorations sont filmées deux fois afin d'obtenir la meilleure image possible.

This item is filmed at the reduction ratio checked below /
Ce document est filmé au taux de réduction indiqué ci-dessous.

10x		14x		18x		22x		26x		30x	
		12x		16x		20x		24x		28x	32x

The copy filmed here has been reproduced thanks to the generosity of:

National Library of Canada

The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

The last recorded frame on each microfiche shall contain the symbol $\longrightarrow$ (meaning "CONTINUED"), or the symbol ∇ (meaning "END"), whichever applies.

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

L'exemplaire filmé fut reproduit grâce à la générosité de:

Bibliothèque nationale du Canada

Les images suivantes ont été reproduites avec la plus grande attention, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filmage.

Les exemplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par le premier plat et en terminant soit par la dernière page qui comporte une empreinte d'impression ou d'illustration, soit par le second plat, selon le cas. Tous les autres exemplaires originaux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'illustration et en terminant par la dernière page qui comporte une telle empreinte.

Un des symboles suivants apparaîtra sur la dernière image de chaque microfiche, selon le cas: le symbole $\longrightarrow$ signifie "A SUIVRE", le symbole ∇ signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être filmés à des taux de réduction différents. Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaire. Les diagrammes suivants illustrent la méthode.

C. B. MURPHY, PRINTER

The Famous Fox Industry

At a public meeting of fox ranchers Hon. Charles Dalton made a statement and submitted his books to prove it, that in 1910 he shipped to the London fur market between forty and fifty skins. For these he received on an average £270 each or \$1,350. Moreover of all the skins that brought over £100, Mr. Dalton had sixty per cent. This fact, alone with the other equally significant fact, that of all the black foxes in captivity in the world, 85 per cent. are in Prince Edward Island, goes to show that Prince Edward Island may safely be regarded as the natural headquarters for one of the greatest industries in the world today.

"Confidence in the permanence of the market for furs is based primarily on the fact that black fox fur has from time immemorial been affected by the royal families of Europe and by persons of highest wealth and fashion. It is pointed out that the acceptance of this fur as the choicest and most valuable is time-honored and not a vogue, and that its worth is almost as fully standardized as that of the diamond among precious stones. As in the case of diamonds, moreover, the supply appears to have slight competition with the price."—American Consular Report from Wesley Frost, Charlottetown.

× × Dominion Fox Breeding Company, Limited × ×

Organization

The Dominion Fox Breeding Company of Murray Harbor, Ltd., is being formed for the purpose of breeding silver black foxes in captivity with a capital of \$150,000 divided into 1500 shares of \$100 each.

The organizers are all men of integrity and good standing in social, commercial and financial circles as will be seen from a preceding page.

Of the above capital stock of \$150,000 it is proposed to issue \$15,000 on the basis of \$15,000 a pair for three pairs of foxes.

The Foxes

The company has been fortunate in securing two pairs of silver black, pure bred foxes from the Dalton strain of breeding. Another pair of pedigreed, mated foxes have been secured from another ranch and negotiations are under way for an additional pair.

The Ranch

Promises to be one of the most modern, thoroughly equipped and efficiently managed in the Province. Situated in a splendid grove of mixed hard and soft wood and planned to be as perfect an imitation of natural conditions for the foxes as man can devise.

Ranch Management

The ranch will be under the direct care and supervision of Willard L. Jordan who has made a close study of animal life and is an expert in his particular line. Sufficient assistance will be added for day and night watches. Nothing will be left undone to assure comfort and safety.

Veterinary Surgeon

A qualified veterinary specialist will be secured, at a comparatively low fee, to look after the foxes whenever required.

Ranch Expenses

The feeding, caring and suitably ranching the foxes, paying fox taxes, and all fees for managing will be 15 p. c. of the annual increase; the balance going direct to the stock holders as a dividend. No risks for investors—every precaution has been taken to minimize risks.

Estimated 1914 Returns

Options on 1914 pups are selling today, Nov. 1st, at \$12,500 a pair. Figuring the price at \$10,000 a pair the three pairs of our foxes produce a litter of three each, a very conservative mark as many produce up to seven, would give us

9 pups at \$5,000 each.	\$45,000
-------------------------	----------

Less 15 p. c.	6,750
---------------	-------

Leaving	\$38,250
---------	----------

to be distributed in new dividends. This on a capital of \$45,000 issued would equal 85 p. c.

P. E. I. Black Fox "Home"

The buffalo and the beaver are nearly all gone. The sea otter and seal are becoming very scarce and now of the really valuable fur bearing animals the black or silver fox is the only one that is bred in captivity and 85 p. c. of all these are in Prince Edward Island.

Why Pelts are Valuable

We all wear furs, from the king on his throne to the servant in the kitchen and the wealthy will always wear fox fur whenever they can get it—for it is more of an historical habit than a fad.

Sales of furs have dropped back tremendously in the past 20 years and the prices have advanced in pelts alone almost 300 p. c. in that time. At a recent sale in London—a world market—only one black fox pelt was offered for sale and only one fox pelt was sold in America between December 1912 and February 1913. The price paid was \$3,000.

Application for Stock

Stock of the Dominion Fox Breeding Company of Murray Harbor, Ltd., is offered at \$100 a share.

Applications for stock may be made to any of the Provisional Directors, see page one, or to The Canada Fox Exchange and Investment Co., Ltd., Stampers Block, Charlottetown, P. E. I.

Allotment of stock will be made in the order in which the applications are received. Should shares not be allotted amounts will be returned in full.

All checks, drafts, or money orders must be made payable to the order of the Secretary-Treasurer, W. H. Prowse of Prowse & Sons, Murray Harbor, or to the Canada Fox Exchange and Investment Co., Ltd.

For Dividends Declared to Date

Ranch	Authorized Capital	Dividend Per cent.
Spring Park	\$ 90,000	45
Smith	150,000	40
Dalton	625,000	40
Silver Tip	25,000	95
Murray Harbor	50,000	200
Magic	100,000	172
Eureka	30,000	175
Union	190,000	60
O'Leary	40,000	20
North Shore	100,000	25
Tyne Valley	75,000	50

The average CASH DIVIDENDS of the Company is 175.2 per cent.

New Purchase

On Wednesday, Nov. 19th, 1913, the Dominion Fox Breeding Company of Murray Harbor purchased one of the finest pair of foxes to be found in the world. The female is a March pup, a daughter of the famous three-legged Oulton fox and the pelt of her full sister sold for \$2,700 on the London market three years ago. The male is eighteen months and was the father of four pups during the breeding season of 1913, and is from Silas Rayner's best stock, being bred and born in his ranch. Both animals are beautifully furred, strong, vigorous and well developed. After the purchase was made a heavy advance was offered by two different parties for the pair, which the Company declined to accept as they are desirous to secure the finest stock obtainable for their stockholders. The Directors, J. F. Sterns, President, Willard L. Jordan, Vice-President, W. H. Prowse, Sec'y Treas., Hon. John McLean and J. M. McLean, are to be congratulated on their success in securing such a valuable pair for their already well stocked ranch. The purchase was made through the Canada Fox Exchange and Investment Company, Limited, Charlottetown.
