LITTLE HOPE OF AN AGREEMENT

No Equality of Financial Treatment for Manitoba—Control of Lands Also Rejected.

OTTAWA, Feb. 3.—(Special).—The conference which Premier Roblin and Hon. Robert Rogers of Manitoba had with Sir Wilfrid Laurier and Hon. W. Fielding today regarding the extension of the boundaries of Manitoba ended without an agreement having been reached. When the conference was over, Sir Wilfrid Laurier was asked if he had any statement to make. "We are negotiating," was his reply. Premier Roblin was more communicative. He said Sir Wilfrid had promised to make a formal proposal to the province within thirty days. He added that the federal representatives had refused to consider any proposal by which Manitoba would get the same financial treatment as Alberta and Saskatchewan. The Ottawa ministers also refused to allow Manitoba to have the control of all the lands within its boundaries, and so place it on an equality with Ontario, Quebec and other provinces. "From what we saw to-day," said Mr. Roblin, "it is a million dollars to one cent that we shall not be able to come to an agreement with the present administration at Ottawa."

A NOVEL PROPOSITION

Mutual Fire Insurance for All Anglican Church Properties.

MONTREAL, Feb. 3.—At the annual meeting of the diocese of Montreal next week, Mr. J. M. Fleck will put forward a motion which authorizes the delegates of the synod to bring before the general synod the following resolution: "This synod, recognizing the advantage that would accrue to the various parishes of the Church of England in Canada, by forming a mutual fire insurance union to co-operate in carrying the risk on all church property, such as cathedral, churches, rectories, parsonages and their outbuildings, colleges, church schools, halls, etc., through the various dioceses of the Dominion of Canada (or such dioceses as may desire such union) shall bring the subject before the general synod at their next meeting with the view of forming such a union."

WILL ARREST EIGHT

Warrants Out in Connection With Dynamite Explosion.

JERSEY CITY, N.J., Feb. 3.—Warrants are out today for the arrest of eight men in connection with the disastrous dynamite explosion of Wednesday at Communipaw. Those charged with responsibility for the explosion are Arthur Hamilton, general freight agent; John M. Morris, terminal freight agent; Louis T. Sallidetto, pier master, and Charles Ritter, freight checker of the Central Railroad of New Jersey; Frederick Peters, manager, and R. A. Morse, assistant manager of the Dupont-De Nemours Powder Company; Captain Burr, St. John, and James Healing, owner of the steam lighter Catherine W. There is a single charge in each of the warrants, manslaughter. Responsibility is alleged for the death of Michael Massal of Brooklyn, a stevedore. It was expected that all concerned would surrender later in the day and be admitted to bail.

IRATE FATHER INTERFERED

Georn Swore That Girl Was Twenty One and They Were Wedded.

HALIFAX, Feb. 3.—Joseph Murphy and Miss Warren, a young couple, arrived at Annsbury from Prince Edward Island to-day. They sought to be married, but the clergyman applied to refused on account of his belief that the girl was under twenty-one. Murphy swore an affidavit before the issuer of marriage licenses that the girl was twenty-one, and the marriage proceeded. Then the irate father appeared, and had the son-in-law arrested on the charge of perjury.

ONE MORE TOBAGGAN MISHAP

Two men were severely hurt at the Riverside slide last night. They were Alfred Nye, 114 Berkeley-street, and Gilbert Watson, 285 George-street. Both are in the General Hospital. Their sleigh collided with an electric light pole at the foot of the slide. Nye had his left leg broken and was re-housed to the General Hospital upon a toboggan. The other was severely cut about the head and was taken to the hospital upon a sleigh.

CHARGED WITH THEFT OF \$730.

Abraham Fund, 283 Queen-st., was arrested last night by Detective Murray, and is held for the New York police, who want him upon a grand jury indictment for grand larceny of \$730.69 in a restaurant deal in that city. He was arrested some time ago upon the same charge, but as the New York authorities were slow to move he was released. His rearrest followed a series of telegrams from the Gotham police.

SHANIGAN'S P.G.

These are great days for travelers on the C.P.R. between Toronto and Montreal, getting stalled at little way-side stations by snowstorms. On Thursday four carloads of hungry passengers found themselves storm bound at Sittsville at 8 in the morning. By 10 o'clock the conductor wired: "Sir Thomas, Montreal: 'Passengers hungry and kicking.' 'Conductor.' 'Conductor No. 1, Sittsville: 'Get a ham boiled and serve sandwiches and coffee.' 'Shaun.' 'Sir Thomas, Montreal: 'No ham in place.' 'Conductor.' 'Conductor, Sittsville: 'Then kill Shanigan, the section-man's pig, and serve pork chops. But first, they'll eat four apples. Send one ham to me, one to McNeill, and, if there's another, send it to Murphy.' 'Sir Thomas: 'Pork chops served. Shanigan cried for his pig. There's no ham for Murphy, but other two are in express car, as directed.' 'Conductor.' Why doesn't Sir Thomas put a car on his Toronto-Montreal trains these bad nights? That's the way to popularize the North Toronto service."

Things is Workin'!

OTTAWA, Feb. 3.—(Special).—The government is in no hurry to discuss Mr. Fielding's motion to take up the reciprocity deal with the United States. It has brought Sir Wilfrid much trouble, as well as glory. It will cause breakaways of supporters if he forces it to an issue, and it will cause disappointments to many if it falls of going into effect. In this letter respect, New Brunswick is looking to the free entrance of its natural products into the United States as the long-looked-for shower of blessings, and if it does not come the people will need much pacification. So far the proposition has let forces out of the bottle that Sir Wilfrid may not be able ever to enarm back in again. The Conservatives are equally troubled, but they have no responsibilities. Perhaps a new party will be the outcome of the situation.

DRAGGED FIFTY YARDS

G. T. R. Conductor's Coat Caught on Step of Railway Car.

BROCKVILLE, Feb. 3.—(Special).—David White of Toronto, a G. T. R. passenger conductor, running between that point and Montreal, was injured this morning as No. 2 express, west bound, was pulling into the station. As he prepared to step off, the collar of his coat caught in a corner of the step, and he was dragged a distance of fifty yards before the train came to a standstill. When picked up blood was flowing from a gash in his head. He was also bruised about the body. He was able to leave for home to-night.

ARCHBISHOP RYAN BETTER.

PHILADELPHIA, Feb. 3.—The vitality shown by the Most Rev. Patrick J. Ryan has completely puzzled his physicians. Notwithstanding that a bulletin was issued stating the aged prelate would probably not live three or four days, he awoke to-day refreshed by several hours of sound sleep. To-day his condition was more satisfactory than it had been for nearly a week.

NABBED THE PICKPOCKET

In the person of George Graham, alias George Fenton, who gave the address of 130 William-street, but who does not live there, Detective Twigg gathered in a well-known pickpocket yesterday afternoon. He saw him getting into a car at Queen and Spadina, followed to Queen and Spadina, where he saw him with his hand much too close to an old gentleman's pocket. Twigg grabbed him and held on, despite the great fight which the little man put up. He put him in the Easter-street police station, charged with attempting to pick pockets.

TRAMP STEAMER WRECKED.

VANCOUVER, B.C., Feb. 3.—The Norwegian tramp steamer Titania, 2315 tons, heavily laden, with British Columbia coal for Acapulco, Mexico, was wrecked this morning on Stuart Point, San Juan Island, in American waters, at the southern end of the Gulf of Georgia. She carried a crew of 26 men.

GIRDING THEM TO THE CONTEST

Parliament Will Debate Reciprocity on Tuesday—Democrats Will Discuss it in Caucus on Monday.

OTTAWA, Feb. 3.—The debate on the reciprocity agreement will be resumed next Tuesday. This has been definitely agreed on between the parties, and the probabilities are that the discussion will extend over several weeks. That the Conservatives will come out flatfooted against reciprocity present appearances indicate. It is true that a number of members, especially from the west, were inclined to favor reciprocity, but it is said that they will be in line, at least in opposing the general principle of the measure. Hon. Clifford Sifton, who is referred to by The Orange Sentinel as a prospective bolter, is keeping his own counsel. It is known that he is opposed to reciprocity. He has said so plainly in addresses he has delivered before Canadian clubs, and he has been more specific in private conversation. At present he is watching developments and saying nothing.

In Democratic Caucus.

WASHINGTON, Feb. 3.—Democratic representatives will hold a caucus next Monday night to decide upon a party policy as to Canadian reciprocity legislation. The call for the caucus was signed to-day by seventy of the Democrats. The Speaker-elect Clark is emphatically in favor of reciprocity, not only with Canada, but with the south and central American countries. Even some of those who oppose legislation along this line concede that they are in a minority within their party, and one of them who signed the call admitted to-day that he believed that not more than fifty Democrats would vote against reciprocity.

Want Foreign Apple Trade.

BOSTON, Feb. 3.—The members of the Boston Fruit and Produce Exchange have petitioned the Massachusetts senators and representatives in congress to support the Canadian reciprocity agreement. A resolution was adopted declaring that the members heartily commend the terms of the agreement. The resolution points out that thousands of barrels of apples are yearly shipped from Canada to Europe, and expresses the belief that if free trade established between Canada and the United States, Canadian producers will ship their apples to the middle west, leaving a larger portion of the foreign trade to New England farmers.

Various Interests to Be Heard.

WASHINGTON, Feb. 3.—Representatives of the mining industry and barley growers in Minnesota and Wisconsin, and of dairy and agricultural interests in Northern New York, among other portions of the Canadian border, will be heard to-morrow by the ways and means committee in opposition to the proposed reciprocity agreement. Wood pulp and paper manufacturers are expected to appear to-morrow or Monday before the committee.

English Opinions.

LONDON, Feb. 3.—(C.A.P. Cable).—The Morning Post, publishing the text of the proposed reciprocity agreement, complains that, though the same was commingled with Canada at the end of last week, no intimation was given to the press here that it was available. Several papers do not contain the text. The Morning Post says: "American influence over Canadian thought and action will rapidly expand with this link binding the daughter nation and the mother country growing steadily weaker." It reiterates its appeal to the Unionists to co-operate in the cause of imperial union. The Chronicle characterizes the tariff reformers' views of the agreement as "a most pestilent heresy and economically profound delusion." The Financial Post says: "It does not follow that an increase of trade between Canada and the United States will be effected only at the expense of Canada's other customers. There is little danger but that trade of the United Kingdom will continue to show normal expansion. Our capitalists always will receive a return adequate and sometimes handsome."

Popularity of Measure.

LONDON, Feb. 3.—(C.A.P. Cable).—The London Daily Mail, in an article on reciprocity, says: "The action of the Canadian Conservatives in leaving their representatives free to state the strongest testimony to the popularity of the agreement." Amongst the methods of preserving Canada for the empire The Mail suggests free trade in manufactures, a constant stream of British emigrants and the investment of English capital, creating business there, and not merely financing.

A Strong Denial.

LONDON, Feb. 3.—(C.A.P. Cable).—The New York Herald edition in Paris says there is no more staunch advocate of trade of reciprocity with the United States in Canada than Canada's chief king, Mr. MacLaren. Speaking to the Canadian Associated Press, Mr. MacLaren emphatically denied any such advocacy; on the contrary, he is a strong advocate of preference within the empire.

MR. FOSTER THOUGHT HOUSE NOT TOLD ENOUGH

Mr. Fielding, However, Said Some of the Reciprocity Correspondence Was Confidential.

OTTAWA, Feb. 3.—(Special).—Safe-guards for the proper cold storage of food and a mild protest from Mr. Foster that the information given by the finance minister as to the correspondence received by the government on the subject of reciprocity was not sufficiently illuminating, furnished most of the bill of fare of the house of commons to-day. Dr. Reid (Greenville) protested against the public works statements blocking the way to the consideration of those of other departments equally important. E. N. Lewis (Huron) introduced his eighth bill for the session re the cold storage of food. He said the bill did not attempt to cover the entire subject, but it would be sufficient to call the government's attention to the matter. American legislators had devoted much attention to the subject, which had also of late been to the fore thru the destruction in Montreal of a hundred thousand dollars' worth of storage eggs. The high prices were sometimes attributed to lack of storage regulations.

Destroy It After One Year.

Mr. Lewis proposed that food kept over a year in storage should be destroyed. He admitted that some foods spoiled in storage quicker than others, and the bill provided that game, for instance, could not be kept more than six months. The Chisholm (E. Huron) said the matter was one of regulation of storage. Some foods required different temperatures than others. When all foods were kept together at one temperature, there was bound to be deterioration. He recommended that legislation should compel different foods in storage to be kept separately. The bill was read a first time.

Some Were Confidential.

Mr. Fielding said he had received many letters on the subject from members of the house and others. Some of these letters, while not marked confidential, he had regarded as such, and had not brought down. For instance, a man interested in a particular item might disclose the details of his business in a letter, and in all probability intended it only for the eyes of the government. Mr. Lewis wanted to know what about representations the minister had received from members of the house. Mr. Fielding said he regarded such communications as a rule as confidential, unless the member writing the letter indicated his wish that the communication be made public.

Any Discrimination?

Mr. Fielding said he was not sure if the finance minister made any difference between letters from opposition members and letters from government members of the house. Mr. Fielding said the contents of the letters was the means by which he judged whether it should be public or private. Dr. Black (Hants) corrected a mistake in which he said The Toronto Globe had made, in which it was stated that trouble had arisen in the committee over Dr. Roddick's medical bill. The universal practice clause of the bill and others had been unanimously approved, said Mr. Black, and the com-

Get the Sunday World

Don't fail to get a copy of The Sunday World to-night. It will have a striking full-page illustrated article on Hon. Adam Beck, the cheap-power minister in the Whitney cabinet. The artist has given us a fine sketch, which tells at a glance better than columns of type what the popular minister stands for. The page will be printed in four colors, and will mark another step forward of the best once-a-week paper published in the Dominion. Order a copy early from your newsdealer. Last Saturday night the entire edition of The Sunday World was sold out early, and we are making provision for an increased demand to-night.

RECOGNITION OF DOMINIONS

High Commissioners Will Sit Near Throne at Opening of Parliament.

(Canadian Associated Press Cable). LONDON, Feb. 3.—At the opening of parliament on Monday Lord Strathcona will wear his peer's robes, while the other high commissioners will be in levee dress. Seats to the right of the throne have been assigned them near the ambassadors.

The London Daily Mail says: "This is a recognition of the width of the empire and possesses a significance which it is impossible to overlook. It throws open the essential ceremonies of parliament to the Dominions as well as to the United Kingdom."

BIBLE TERCENTENARY

Impressive Ceremonies to Mark Great Historical Event.

Mass meetings to celebrate the 300th anniversary of the issue of the authorized English Bible will be held in all parts of the English-speaking world. King George has signified his interest in the event, and has promised either to be present, or to send a message to the great meeting in Albert Hall, London, England. His grace, the Archbishop of Canterbury, is to preach in connection with this event at the national service in St. Paul's Cathedral, London.

The main meeting in Canada will be held in Massey Hall, Toronto, on Tuesday, Feb. 14, at 8 p.m. His honor, J. M. Gibson, K.C., lieutenant-governor, has promised to be present. Addresses will be delivered by Rev. F. W. Tompkins, D.D., a distinguished clergyman of Philadelphia, rector of the Church of Holy Trinity, "The Influence of our English Bible on National Life, Literature, Art, Music, etc.," and the Rev. J. H. Eiton, M.A., secretary of the British and Foreign Bible Society, London, England, on "The Work of the Translators of the Authorized Version Perpetuated in the Splendid Translation Work of the Bible Society." A massed choir of 600 voices, under the leadership of Dr. Geo. L. Palmer, will lead the singing.

NEW LINE FOR G. T. P.?

BRANDON, Man., Feb. 3.—There has been a persistent rumor here for the last few days that the Grand Trunk Pacific is negotiating with the Great Northern for the purchase of the line between Brandon, Saskatchewan and Hudson Bay line, or for running rights over that road. Calculations are that if the Grand Trunk secures the line or running rights over it that road will be immediately extended north, as the Hudson Bay charter is held by the Pae Mission. This would give the Grand Trunk a route to the coast by the southern route.

NEW SALARY SCHEME.

BRANTFORD, Feb. 3.—The public school board has adopted a new salary scheme for kindergarten teachers. Directors will receive \$400 to \$650, with \$50 increase at the end of the first year, and 10 increases thereafter of \$25 until the maximum is reached. Assistants who are normal trained first year receive \$200, second \$250 and third \$315; assistants not normal trained, \$250.

Cable Rates.

LONDON, Feb. 3.—(C.A.P. Cable).—The morning Post in an article on cable rates complains of the dilatoriness of the government. Ignorance and misunderstanding are inevitable, it says, while the rates remain so high. Surely the ministers might show the cable companies that it would be in their interests to help the promotion of a community thought of the English-speaking people.

A Typographical Error.

Through an error in the typographical department the word "comediant" appeared in a paragraph on this page yesterday in reference to Rose Stahl, the famous comedienne, who will be at the Princess Theatre next week in a new play entitled "Maggie Pepper." by Charles Klein. Miss Stahl, however, is so well known that it is hardly necessary to make the correction.

HOW DIRECTORS AGREED WITH TRAVERS

General Manager Was to Receive Salary on Advancing Scale and Pension if Not Re-engaged—Directors to Get \$20,000 For Services—Receipt for \$10,000.

The agreements by which the provisional directors, now charged with wrongfully obtaining money from the Farmer's Bank and with conspiring to wrongfully secure the certificate of the treasury board by which it was allowed to open its jaws for the funds of the unwary, and C. H. Smith, their secretary and stock seller, and W. R. Travers, who is now under sentence for looting its coffers, make interesting reading. They show how the directors proposed to be paid for their assistance at the berth, and how they actually were paid \$10,000 by Travers. They show how it was proposed to employ Travers at \$5000 per year with a yearly increase of \$1000 for each of four succeeding years, and that, should he not be re-employed at the expiry of that term, he was to receive a pension of \$1500 per annum for the rest of his life. It shows that they turned the office of running the bank over to Travers and Travers has been telling how he ran it.

In an agreement made upon July 4, 1906, between James Gallagher, deceased; Alexander S. Lown, John Ferguson, Alexander Fraser and John Watson, the provisional directors of the bank of the first part; Clark Hamilton Smith of the second part, and W. R. Travers of the third part, Travers took over the claim of the provisional directors to \$20,000 for organization expenses, services, etc., and, as appears from a receipt at the foot of the last page of the agreement, paid them \$10,000 upon the occasion.

AGREEMENT FOR DIRECTORS.

The agreement reads: "Whereas the said parties hereto have made an agreement bearing date the fourth day of July, A.D. 1906, the said parties of the first and second parts were to receive twenty thousand dollars (\$20,000) as remuneration for their services in and about the organization of the said bank, surrender of charter, etc., and whereas they have agreed to assign the same to the party of the third part on the terms hereinafter set out; "Witnesseth that in consideration of the above promises the said parties of the first and second parts hereby covenant and agree to assign all their claims and interest under said agreement to the party of the third part on the following terms and conditions: "The part of the third part agree to accept their claim under the said agreement, and take the responsibility of the same and to pay \$20,000 to the said parties of the first and second parts as follows: "Here follows a list of the names of the parties with spaces left after each name, which is followed by a typewritten 2 signed agreement for the insertion of the respective amounts to be paid to each, but which have been struck out, and the agreement goes on: "Immediately upon their passing the necessary resolution to give the legal notice calling a meeting of the subscribers for the organization of the bank: "In the event of any of the parties of the first or second parts being advanced the sums or part of the sums due them the same to be deducted when making the assignment. "At the foot of this agreement appears the signature of each of the parties and his seal. They are witnessed by D. S. Macquodale.

Below and in script appears the following:

"Received from W. R. Travers the sum of ten thousand dollars, and to this extent he hereby assigns our interest in the said twenty thousand dollars to the said Travers." This, too, is signed by each of the provisional directors, and C. H. Smith. The agreement recites an earlier agreement between Travers and the provisional directors dated March 12, 1906, in which the directors agreed to allow Travers to call all the capital.

HAMILTON HAPPENINGS

LEADING LADY ILL

In Hamilton Hospital With an Attack of Bronchitis.

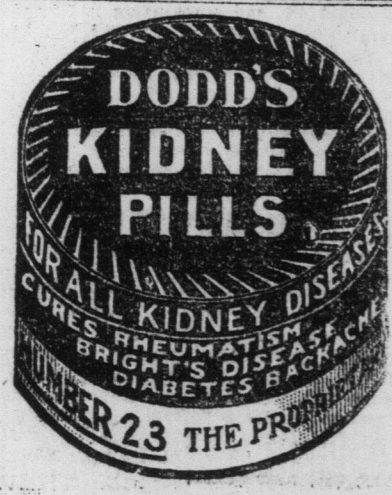

HAMILTON, Feb. 3.—(Special.)—Miss Beesie McCoy, leading lady of "The Echo" Company is seriously ill here with bronchitis, and was unable to appear in the performance at the Grand Opera House to-night. She is in the City Hospital and the management had to announce her inability to be present. This was a disappointment to the audience, but her understudy filled the position very cleverly.

In an address before the Women's Teachers' Association in Centenary Church lecture hall to-night Prof. Bell of Toronto University said he believed that a strong British navy was one of the most potent features in preserving the peace of the world and the integrity of the empire. His subject was "The Building Up of Britain's Sea Power."

The annual dance of the Hamilton Croquet Club was held to-night at the Royal Hotel. There were about 200 present.

Mrs. John Green, 21 West Cannon-street, received word this afternoon that the man found murdered in lower berth, No. 13, some weeks ago on the Chicago and Western Railroad at Flint, Mich., had been identified as her son, Thomas, 17 years of age. Green left here at Christmas time, bound for the west, in company with his father, who is now thought to be in Fort William.

That the Oliver Chilled Flow Works Co. was sincere when it announced that the reciprocity negotiations would not interfere with its plant here, was made evident to-day when an official announcement was made that an assembly building, costing \$200,000, will be erected at once, to be allowed by the building of a foundry, 576 feet long and 135 feet wide, one and a half stories high.

TROUBLE OVER CATECHISM

Morris Shaver Wanted Roman Catholic Forms Abolished—Action Dismissed

Justice Teetzel yesterday dismissed an action by Morris Shaver, which opened up an interesting phase of the sectarian controversy in the schools.

Mr. Shaver, a ratepayer contributing to Union Public School Section No. 12, Cambridge, and No. 11, Russell County, sued the school board and Oliver Thibault, the teacher, to discontinue the denominational religious instruction in the Union School.

He wanted resolutions passed by the board declared invalid, and an injunction restraining Thibault from teaching the prayers and catechism of the Roman Catholic Church.

A resolution allowed half an hour for catechism during class every afternoon. This was repealed, and at the same meeting it was decided to close the school at 3.30 daily for the purpose.

The Lord's Prayer is read at opening and closing. When the school closes, the Protestant children retire, and the Roman Catholic children are detained for instruction by Thibault, who is authorized by the Catholic parish.

In dismissing the action, his lordship did so without prejudice to any proceeding to compel the board to amend the resolutions and provide for additional instruction, should other denominations desire it.

MR. TERRY'S FAREWELL SPEECH

Following the custom of the English stage, Edward Terry has gracefully declined to respond to requests for a speech during his local engagement, reserving it for his farewell appearance at the Royal Alexandra to-night.

It is thought possible that the actor will refer to the disturbances created by the students last Tuesday night.

Should Expropriate Railway

"Resolved, that Toronto should expropriate its street railway at once."

South Parkdale took the affirmative side of the debate on the above subject against Carlton-street Methodist in the M. Y. M. A. series, and was given a decision by the judge, G. A. Preston.

The winners were: H. C. Crews and A. Fry and the losers Messrs. Roe and Crossley.

CLYDESDALE ASS'N OFFICERS

John Bright, Myrtle, President—Avoided Stand on Tariff.

The annual meeting of the Clydesdale Horse Association of Canada was held at the King Edward Hotel yesterday. The following officers were elected: President, John Bright, Myrtle; vice-president, Robt. Graham, Bedford Park; vice-president for Ontario, Peter Christie, Manchester; directors, Wm. Smith, Columbus; John Boag, Queensville; James Torrance, Markham; Dr. Hassard, Markham; George Gormley, Unionville; James Henderson, Bilton; Wm. Graham, Claremont.

The association considered the reciprocity situation, but decided to take no action.

The receipts were \$20,111.55, which left a balance of \$14,547.88, an increase of \$7381.68 over that of last year. The membership is 1274.

When the Odds

Are Against You

You Can Depend on DR. CHASE'S SYRUP OF LINSEED AND TURPENTINE to Help You If You Get the Genuine.

What a fight goes on during the winter season against coughs and colds. The children are careless about keeping dry and warm, and the parents are worried to hear them cough.

The best insurance against serious results is the use of Dr. Chase's Syrup of Linseed and Turpentine.

So well-known is this medicine and so universally used that we need scarcely tell you of its merits. But we do want to warn you against imitations and substitutes.

Once you know that there are at least four imitations of Dr. Chase's Syrup of Linseed and Turpentine on the market, you are not likely to let any dealer talk you into accepting anything but the genuine, on each bottle of which are the portrait and signature of A. W. Chase, M.D., the famous Receipt Book author.

Imitations are sold on the reputation of this great medicine, and not on their own merits, or why should they not have a name of their own? With the genuine Dr. Chase's Syrup of Linseed and Turpentine you can readily overcome croup, bronchitis, whooping cough, throat irritation and the most serious coughs and colds. 25 cents a bottle; Family size, 60 cents; all dealers or Edmanen, Bates & Co., Toronto.

APPEAL TO PRIVY COUNCIL

WINNIPEG, Feb. 3.—Leave to appeal direct to privy council, instead of going to the Supreme Court of Canada, was granted the city this morning, in its case with the Winnipeg Electric Railway Company.

One of the principal points to be decided arises over the provision in the bylaw which says: "The company shall place and keep within the city limits all its engines, machinery, power houses, repair shops and any construction shops it may have."

Another institution imperiled. Paintings by the old masters are selling as low as \$100. Thus little by little the plush album and the chromo are being displaced by bringing art within the reach of the common people.—Washington Times.

LABOR MEN WAX WARM

Treatment of Tampa Cigarmakers Inspires Flery Resolution.

The District Labor Council showed its sympathy with the locked-out cigar makers in Tampa, Fla., by endorsing the following resolution:

Whereas 3000 law-abiding, peacefully inclined citizens have been and are now engaged in a legal authorized strike and lockout in the City of Tampa, Fla., which has continued for about six months; and because these people remained steadfast in their determination to exercise their rights and remained firm in their stand for the union and union conditions, they were unlawfully, illegally and brutally attacked, browbeaten, bulldozed, insulted and subjected to indignities beyond description, their funds tied up, their halls closed, and their officers arrested upon trumped up charges, thrown in jail, and in some instances without bail, and

Whereas this condition was made possible by the banding together of a number of so-called citizens who were unduly excited and alarmed over possible commercial losses, became an easy prey to a lot of open-shop, would-be union crushers, who inspired the acts of lawless brutality and intolerable oppression against these defenseless men and women, which went so far that cold-blooded murder was committed in the lynching of two men, neither of whom were working at the trade of cigar making, but who were suspected of complicity in a shooting affair which occurred on one of the crowded streets.

Whereas, the action of this citizens' committee, led by its open-shop fanatic, in our judgment, an attempt to disrupt and destroy all unions if possible, in that city, as well as being outrageously unfair to the locked-out cigar makers; therefore be it

Resolved, by the council, in regular session assembled, that we characterize the action of the citizens' committee, manufacturers and others involved and responsible, as being unfair, unwarranted, unmanly, unlawful and brutal in the extreme, and we hereby denounce it as such;

Resolved further, that the action of this citizens' committee of Tampa, Fla., betrays the fairness and a square deal, especially in so far as it applies to Tampa, Fla.;

Resolved, that in view of the action so justly complained against, and which we denounce as a high-handed, outrageous interference with the inalienable rights of the workers of that or any other city, we hereby pledge the clear makers of Tampa, Fla., our individual, collective and moral support.

LIFE A BUBBLE.

This life which seems so fair— Is like a bubble blown up in the air. By sporting children's breath, Who chase it everywhere And strive who can most motion it beguile.

And tho' it sometimes seems of its own might, Like an eye of gold to be fixed there, And firm to hover in that empty height,

That only because it is so light, —But in that pomp it doth not long appear; For when 'tis most admired, in a thought, Because it erst was naught, it turns to naught.

—William Drummond.

Fireless Cooking for Dogs.

Feeding the dog's food had been rather a troublesome problem in our household, either because the kitchen range was otherwise occupied or because the cook was, and the long, slow cooking necessary for cereals and soups or because the dog would not eat without friction. Now we put the meat and the bones, with enough water to cover them, in a fireless cooker, and bring the contents of the cooker to the boiling point in about five minutes, and then pack the kettle away in the fireless cooker for five or six hours. The meat is then tender enough to be added to the cereal, and more water is added and the cereal we wish to use. The whole mass is once more brought to the boiling point and put back in the cooker. In another four or five hours we find a supply of richly flavored food, which keeps fresh in a cool place for several days.—Country Life in America.

Making Ice Pure.

Dr. G. G. Nasmith, city bacteriologist, has been conducting a series of experiments with the city's ice supply, and his conclusions arrived at are that if the water is allowed to freeze in the natural way, there is little danger from the ice. The ice formation creates a calm surface, which aids sedimentation and tends to purify the water. The city health department has notified those harvesting ice, however, that the cutting of holes in the ice and letting the water flow over it in order to get an additional thickness, as this prevents the impurities settling any further than the coating of ice which covers the water.

Passion Play Profit

The gross receipts of this year's Passion Play at Oberammergau are officially reported to have been \$53,220. After defraying the costs of production and other incidental expenses, the proceeds, \$4,820, remain to be distributed among the 260 performers.

The managers of the play, the musical directors, the chief cashier and the post-actors of Christ, Pilate, Caiaphas, Herod and the speakers of the principal scenes will receive \$125 each for their six months' services. Other salaries will be in proportion to the importance of the respective roles. The men and women who played so vividly as members of the crowds in the streets of Jerusalem will receive \$5 each, and the school children 30 shillings each. \$255 will be given to the poor, and the balance of \$21,750 will remain in the village treasury for communal purposes.—London Daily Mail.

COOKING THAT IS COOKING

is possible on the "Valera Gas Range." By placing a roast in the broiling oven for about fifteen minutes—just enough to seal up the rich juices, then place it in the upper baking oven until cooked—you will have a roast which will convince you of the excellence of gas for cooking purposes. Gas ranges inspected every three months free of charge.

Motoring in Spain.

A chauffeur holding a license granted by any foreign nation is permitted to drive an automobile in Spain, but such license should always be carried and shown on demand.

The law relative to the importation of automobiles for touring purposes is as follows: The customs duties, which are 1 peseta (19.2 cents) a kilo (2.2 pounds) on chassis weighing more than 1000 kilos, with an addition of 200 pesetas (\$38.00) for each open car, and of 220 pesetas (\$41.76) for each closed car, are to be deposited at the frontier. To obviate the deposit of this, there are agents at all the places on the frontier who, for a commission of from 3 to 5 cents, act as guarantors, and also obtain all the documents necessary for the car to pass the frontier without paying any dues.

The time limit for a trip or tour is one year only, and if the car is not removed from the country before the expiration of that period the duty deposited by the owner or agent is forfeited.

If the owner of a car is a member of the International Automobile Club, the presentation of a certificate to that effect is sufficient to exempt the car from customs duty.

Opposition Leader Decorates Order Paper With Series of Interrogations.

Two consolidation bills were advanced thru the committee stage at the Ontario Legislature yesterday afternoon.

Hon. Dr. Payne explained in reference to the bill respecting the profession of architects that in placing the witness fee for architects at \$5, while that for doctors was at present \$4, it was not intended for the difference to continue, as both would be made alike.

Hon. F. Cochrane gave various technical explanations of the consolidation bill respecting the cutting of ex-slaves.

LEITCH RAPS RAILWAY

Delay in Complying With Board's Order Aroused Chairman.

Toronto railway officials were asked rather sharply by Chairman Leitch of the Ontario Railway and Municipal Board yesterday, why they hadn't made the changes to their cars which the board ordered, and they pleaded for another week's delay.

"The board's order was made on Jan. 19," commented the chairman, "and yet there is this delay."

H. S. Oser, K.C., for the company, contended that on certain small cars it was unreasonable to ask the widening of the steps.

"I don't feel like departing from the order in that respect. If you wish to change the single truck cars into P.A. Y.E. ones you may."

The chairman was inclined to grant the week's grace requested. Then he recalled that both himself and the mayor had been deluged with phone messages asking why the company had not attempted to do as was ordered and he informed the company that they must be ready to settle the matter by 11 o'clock on Monday.

FLIPPING THE METER

Method Employed by Unscrupulous New York Taxi Drivers.

NEW YORK, Feb. 3.—The mystery of "flipping the meter," known only to initiate chauffeurs, has been unwittingly explained by an offending adept to the chief of the city bureau of licenses, and as a result he set departmental machinery in motion to-day which will compel the taxi-cab company to take down 400 meters, with permission to assemble them again only when they have been so altered that crooked chauffeurs cannot swindle the public by their aid.

While Chief Oliver was riding in a taxicab the other night he saw the chauffeur jiggle the flag above the meter, whereupon the hand on the dial jumped from \$2 to \$4.60. The astonished chief investigated and learned that the practice has been general among the unscrupulous experts, and is known as "flipping the meter."

Negro to Be Electrocutted. TRENTON, N.J., Feb. 3.—John Sears, the negro convicted of the murder of Rev. and Mrs. Anzell L. Armstrong near here last November, was to-day sentenced by Justice Reed to be electrocuted during the week beginning March 13.

Mrs. Rachel Sears, mother of the condemned man, who was held by the police in connection with the double crime, will not be prosecuted.

BLUE RIBBONERS IN CONCLAVE

One Thousand Delegates to Convention, Opening Feb. 14, Expected.

Arrangements are almost completed for the big provincial temperance convention to be held in Cooke's Presbyterian Church Feb. 14, 15 and 16. The convention proper will be preceded by a workers' conference on Tuesday, Feb. 14, when campaign methods will be discussed.

Already the following gentlemen have agreed to take part: Rev. Dr. John Neil, Mayor P. W. Pearson, Newmarket; W. B. Roney, K.C., W. E. Smallfield, Newfrew; J. R. Cavers, Galt; D. A. McDermid, Rev. H. Kentlewell; L. C. Miller, Orillia; Rev. John Cockburn, E. J. Moore, B.A.

At noon on Thursday, by arrangement, a deputation will wait upon the government.

Thursday afternoon a report of the deputation will be presented and reports of committees received.

From 6 to 8 Thursday evening a "social reception" will be held in the parlors of the church; this will be followed by a public mass meeting.

The convention will determine the policy and lay down the plans which will govern the actions of the organized temperance forces in the Province of Ontario for the next twelve months.

Pain in Heart

"For two years I had pain in my heart, back and left side. Could not draw a deep breath or lie on left side, and any little exertion would cause palpitation. Under advice I took Dr. Miles' Heart Remedy and Nervine. I took about thirteen bottles, am in better health than I ever was, and have gained 14 pounds."

MRS. LILLIE THOMAS, Upper Sandusky, Ohio.

For many years Dr. Miles' Heart Remedy has been very successful in the treatment of heart troubles, because of its tonic effect upon the heart nerves and muscles. Even in severe cases of long standing it has frequently prolonged life for many years after doctors had given up all hope, as proven by thousands of letters we have received from grateful people.

WHO PAYS THE DUTY? You or our foreign competitor? You pay. About that there is no room for doubt. And it's more than likely you believe in the necessity of the tariff. But—of what earthly good is it if you pay the duty? The foreigner laughs at duties imposed by our government as long as you are willing to cash up. Take beer, for instance. The Famous National Drink is the purest and best beer brewed on this continent. The formula and entire process of brewing "Salvador" is a secret and absolutely controlled, on this side of the Atlantic, by Reinhardt's of Toronto.

IT IS DIFFERENT NOW SCIENCE, NOT THE PUNCH In Olden Days It Was the Wallop That Won in the Ring— Many Changes. What has become of the fighter with the punch? Where are the Jim Jeffries, the Bob Fitzsimmons, the Johnny Sullivan, the Joe Walcotts, the Kid Lavignes and the Terry McGovern?

Knockouts Few. Now take the present crop of champions, Jack Johnson has knocked out only a few of his opponents and apparently will have a punch out of the world. He has knocked out twenty-four of his opponents, only a few of them lasting more than three rounds. Pedlar Palmer, Billy Kitchford, Patsy Haley and Jack Ward were the first to be knocked out, while some of the others took the fatal count were such famous fighters as Tommy White, Joe Gans, Oscar Gardner, Eddie Lemmy, Eddie Santy and Anna Herrera.

Abbe Attell, known as the cleverest of the clever, lacked the punch a few years ago, but in the last few campaigns he has probably sent more boxers down than any other pugilist. Getting down to the lighter division, neither Moran nor Wolgast has ever done anything. Wolgast can count the good men he has sent to the floor with one hand and have a few digits left, while Moran has always been known more as a boxer than a fighter. Wolgast, for instance, went into twenty years in the ring without a decision rendered. He had one draw, a twenty-round victory over Lew Powell, and knocked out four men, three of whom were obscure pugilists.

Why has the sleep-producing wallop been sidetracked? There are several reasons. First of all ten and twelve round bouts are generally all that are allowed in the present times. As a result the fighters train for short encounters and plan their battles accordingly, trusting to win on points rather than by the knockout route. Of course, if they see a chance to knock the finishing jolt across, they do so, but as a rule when two well-matched fighters meet nowadays each is paying as much attention to his feet as he is to hitting the other effectively, and the chance to score a knockout is lessened. More science has been introduced into the game, and the jabber has succeeded the fighter who fast his head down, rushed in and fairly smothered his adversary beneath an avalanche of blows, as did Terry McGovern when he was in his prime.

MARSHALL, UNDEFEATED, WINS CHESS TOURNAMENT. NEW YORK, Feb. 3.—By half a point, Frank J. Marshall, who was already champion of the United States, today won the national chess masters' tournament, which has been in progress for two weeks. His final game was drawn with Kreymborg, but this left him with the remarkably good score of ten points out of a possible twelve, or eight wins and four drawn games. As at Cambridge Springs and at Nuremberg, both of which international tournaments he won, Marshall did not lose any game played.

"TIFCO" BOWLING BALL This ball is the best on the market, because it never slips, never loses its shape, always rolls true, hooks and curves easily, does not become greasy, is absolutely guaranteed, is cheaper than any other reputable patent ball, and complies with the rules and regulations of the A. B. C. All first-class alleys are putting these balls on. Try one on the alley, where you roll, and you will never roll any other ball.

Pros. Play at Halifax. HALIFAX, N.S., Feb. 3.—The Halifax professionals met their first defeat of the season on their own ice, when they were defeated in the Arena to-night by the Montreal professionals, the final score being nine goals to three. The result was the greatest surprise ever sprung in hockey circles in the Maritime Provinces. The Halifax professionals, who had been undefeated for three weeks, were slightly in their favor, ending three to two. With the opening of the second half the Montreal team started out with a heart-breaking clip and simply played the Halifax team off its feet, scoring at will. In this half Montreal scored six goals, while Halifax did not find the net once. Scott of Port William, Doran of Ontario and Nichols of the Montreal Wanderers were the stars of the evening for Montreal. By winning to-night the Halifax team has leveled the level in the struggle for the professional championship.

Transparent Metals. For many years it has been known that thin sheets of gold and silver, mounted on glass, may be made transparent by heat. The result was the transparent metal, which has been used in the construction of the conditions under which transparency may be produced. A sheet of gold one three-hundred-thousandth of an inch thick becomes transparent when heated to 550 degrees centigrade. The transparency is ascribed to the gold aggregating and allowing white light to pass thru the interstices. With silver one one-hundred-and-twenty-thousandth of an inch thick no transparency is produced so long as the atmosphere is a "reducing" one—such as hydrogen or coal gas. But in the air the transparency begins at 240 degrees, and is remarkably complete at 320 degrees. Copper one seventy-five-thousandth of an inch thick does not become transparent in a reducing atmosphere, but in air it is transparent between about 200 degrees and 400 degrees. At the lower temperature the light is a brilliant green, but as the temperature rises oxidation takes place, and the color changes thru olive and dark red to black.—Harper's Weekly.

A Dialect Map of China. A new map of China was recently published by a German house which undertakes to transcribe the chief names in the exact forms which they assume in the dialects of the respective provinces as well as the commonly accepted form. In this way the fifteen chief dialects are represented. The commonly accepted form is printed in dark green, the dialect form in black. Thus such unfamiliar forms appear as Taetsu for Taichow, Fupe for Hupé, Fulan for Hunan, Hokkong for Fookien, Sjutshong for Suichow, etc. Other features which make the map valuable are the thoroughness with which it treats Mongolia and the Kokonor country north of Szechuan—regions which in most maps are left more or less blank spaces.—Consular Report.

The Big Northern Bonspiel.

NORTH BAY, Feb. 3.—The great annual event of Northern Ontario, the bonspiel of the Northern International Curling Association, will make merry sport in North Bay all next week and will draw more entries than ever before and a profusion of valuable prizes. This year's bonspiel promises to surpass all previous ones in interest and enthusiasm. There are a whole row of handsome trophies and individual prizes prominent among which is the massive cup donated by John Dewar & Sons of Dundee, Scotland, for at least forty-five years will compete, representing South St. Marie, Mich., the Ontario Soo, New Liskard, Haliburton, Cobalt, Collingwood, Parry Sound, Breckinridge, St. John, Little Current, Thessalon, Sudbury, Gore Bay, Blind River, Sturgeon Falls, Mattawa, Chapleau, Scarth and a rink of North Bay Old Boys is expected from Toronto.

Fancy Skating Champion.

At the St. Barnabas skating meet this afternoon F. Wheeler, champion fancy skater, will give an exhibition during the intermission. The meet is to be held at North Riverside Rink, corner of Broadview and Danforth-avenues.

Tournament Postponed.

MARHAM, Feb. 3.—On account of the G.H.A. game between White and Macdonald being scheduled for Monday, Feb. 6, in Marham, the tournament games will commence on Tuesday night, Feb. 7.

Hamilton Basketball Line-Up.

The basketball matches this evening at St. James' Cathedral parish house gymnasium are attracting considerable interest and doubtless will be well attended. The first will be between St. James' G. Hamilton and Evansville, and the second between St. James' Senior and Hamilton Y.M.C.A. If expectations are realized this game should prove to be one of the fastest of the season. The senior teams will line-up as follows: St. James' Forwards, Armour, Smith, centre, Mitchell; defence, Rankin, Russell, sub, Pierce. Hamilton: Forwards, H. Veale, Livingston; centre, Gibson; defence, Livingston, Clark; sub, Fisher. On Tuesday night next the first Central Y.M.C.A. five will meet the quintet from Hamilton.

WIN IN STRAIGHT HEATS FIRST DAY AT OTTAWA

Nellie Wilkes the 2.40 and Hal B. 2.08 Race—Classified Event Unfinished.

OTTAWA, Feb. 3.—Favorable weather, a fast track and a very large attendance featured the first day's racing of the Central Canada Exhibition Association at the Ottawa River track to-day. There were three races on the card and in each case the favorite came home with first money. The attendance was about three thousand and good time was made in each of the eight heats, few signs being in evidence of the fierce snowstorm of yesterday, which caused a postponement for one day.

The best race to-day, the 2.08 trot and pace, for a purse of \$400, was won by Hal B. J., owned by Kastner of Sebringville, and driven by Egsson. Hal B. won in three straight heats, second money was won by St. Anthony, owned by D. L. Whittaker of Toronto, and third to The Rummage, owned by George Whittaker of Woodstock, Vermont. Queen's Ideal, a Brandon mare, was fourth.

In the 2.40 trot, Nellie Wilkes, owned by Putnam Brothers, won in three straight heats, Fern Hal, owned by Billy Macpherson of Kemptville, being second, and John M., owned by A. Campbell, Rockland, third.

In the classified trot, Little Ted, owned by Fred Tracey, Ottawa, took two heats with ease. The third heat, owing to darkness, was postponed until tomorrow at 1.30. Hundreds of horsemen are here from Montreal, Toronto and many points on the American side and betting on all the heats was brisk. Fern Hal collected a winner and three drivers Macpherson head over heels in the snow at the start of the third heat of the 2.40, but neither man nor horse was injured.

There were other mishaps, but none was serious. The American contingent plunged heavily into the Plummer and were badly hit thru Hal B.'s victory.

This is an extra fine lot of horses, that have been working on the railway near their shipping point, and on account of the cessation of work have been consigned to us with instructions for immediate sale. They are a very nice lot of blocks, a large number of them being good, useful mares, suitable for farm work, and the lot offers exceptional opportunities to anyone looking for a first-class worker.

AND ON MONDAY AND THURSDAY WE SHALL ALSO SELL a number of serviceably sound workers and drivers consigned to us by some of the city people who have no further use for them. Also a number of Robes, Blankets, New and Second-hand Harness, etc., always on hand for immediate sale.

WE SELL STRICTLY ON COMMISSION

COMMISSION: 5 per cent. ENTRY FEE: (if not sold, \$1 per horse.

JEWEL ROBBERY.

NORTH BAY, Feb. 3.—(Special)—Thieves smashed the plate glass window of Philip Adams' store about four o'clock in the morning and abstracted about two hundred dollars worth of jewelry. An old man named Joseph Moss, a stranger, was arrested with some of the loot in his pockets, which he claims to have found on the sidewalk. Moss was sent to the prison camp at Matheson for two months, the most valuable of the jewelry is still missing.

TORE HOLE IN HIS NECK.

NORTH BAY, Feb. 3.—(Special)—M. McCartney, C.P.R. employe of Chalk River, was unloading steel at a small station about eight miles east of North Bay, when a heavy piece of metal fell on a pinch bar which he was using, snapped the heavy iron bar thru the air striking McCartney and making a jagged hole in his neck, from which the blood gushed in a torrent. The injured man was rushed on a freight engine to North Bay hospital. His chances of recovery are good.

Well, Rather!

"Does tobacco make a man nervous?" "It is likely to," replied the physician. "His wife objects to his smoking." Washington Star.

HEALTHY CHILDREN ARE A BLESSING

Healthy babies are good babies, and the good baby is a blessing in every home. Nothing can give the mother or father more pleasure than to watch with delight every new word spoken brings pride to the fond parents. It is only the sickly baby that makes home wretched - and mothers it is not baby's fault when he is sick. You are the one to blame. Perhaps you give him candies, cakes and other food which his little stomach is unable to digest.

New York Stocks NEW YORK, Feb. 3.—Various restraining influences prevented continuation today of the advance in prices which began on without serious interruption thru the preceding seven days of trading on the stock exchange. Establishment of new price levels of the year naturally restricted buying orders and further progress of realization also had its effect. So many wants have been supplied by extensive profit-taking in the last few days that opportunities to close out at the top were less general to-day. Reactions were comparatively small, however, and the ability of the market to absorb offerings and hold close to the top level gave it an appearance of underlying strength until the closing hour, when there was a sharp reaction, which resulted in a net loss for many of the more conspicuous stocks. While the Hill and Harriman stocks and U.S. Steel were lagging under pressure, the coal stocks and the Gould group were advancing, also they too shared in the decline at the close. The strength of the Gould issues revived discussion of possible change in control of these properties. Wall-street is inclining to the belief that the Standard Oil interests will soon be dominant. Considerable attention is being paid to reports that reorganizations were under way which contemplated formation of a new steel corporation of large capitalization by interests formerly controlled with U.S. Steel. The copper shares yielded much of their recent gain after further advance early in the day. One of the largest producing companies reported a decrease of about 25 per cent. in January output. A hardening tendency in the money market was noted to-day for the first time in several weeks.

Forced Selling in Wheat Pit Gives Easier Tone to Market

Cash Markets Continue Dull and Futures Experience Setback When Tired Holders Begin to Liquidate. CHICAGO, Feb. 3.—Prospects of a fair increase in the visible supply this week put a finishing touch to-day to weakness in wheat. At the corresponding time a year ago there was a decrease of 320,000 bushels. Closing prices were 1/4c to 1/2c to 1/4c under last night. The end of the session left corn 1/4c to 1/2c up, oats at an advance of a shade to 1/4c and provisions 1/2c to 3/4c up. There was much unloading of wheat by long, who had bought on the idea that the southwest would develop a crop scare. As a matter of fact the weather in that section turned mild instead of developing the cold wave which had been looked for. Moreover, predictions were current that wheat stocks at Kansas City would be more than 5,000,000 bushels by the end of the month, the largest total there on record. In this connection it was pointed out that Minneapolis had enlarged her store of wheat 50,000 bushels this week, and Duluth had gained 25,000 bushels. World shipments promised a big falling off, but traders were in too bullish a mood to give much attention to anything that would impede the downward slide of the market. The tone at the close, however, developed a crop scare. A withdrawal of 200,000 to 300,000 bushels, with last sales 1/4c to 1/2c off at 2 1/2c.

The February Sale of Honest Furniture at the Simpson Store

The Genuine Article

THE connoisseur and collector of experience is never really sure that his purchase is genuine. Every cabinet-maker to-day is not a Sheraton, a Hepplewhite or a Chippendale, he is more often an *expert at disguise* and the present day purchaser is lucky if he knows what wood he buys.

You can't all be furniture experts and the only way to do is to *pick your store* before you choose your furniture. Go to a house of integrity that deals with *manufacturers of reputation*.

Our furniture is *bought by experts* from the elite of the factors, with whom we have an arrangement which enables us to give our customers *the best at a lower figure than anyone else*.

This sale is the result of six months' energy, of years of experience, and is a sale of our genuine stock. We do not ship in cars of cheap shoddy furniture twice a year and then engineer a sale.

Any piece purchased, be it the lowest or highest priced on the Fifth Floor, is "*an honest piece of furniture.*"
