IGNORANCE OF AMERICANS.

Editor World: I was staying in St. John, N.B., recently and had occasion to take a drive with a party of Americans. One of them asked me what I thought of Canada. I was astonished and annoyed at their display of ignorance of Canada. One of them asked me what I thought of Canada. I was astonished and annoyed at their display of ignorance of Canada.

COLPUN WAS NO GOOD.

Editor World: As your columns are always open for kickers, I want to put in a good one. A few days ago I purchased the exhibition for one dollar. As many people are aware, these coupons will admit bearers to the ground at any time, and to the grand stand also afternoons and evenings of the first week.

CITY HAPPENINGS

The assessed valuation of Edmonton this year will be \$17,000,000, against \$15,100,000 last year. The rate will probably be about ten mills. The Kingston Horticultural Society has decided to hold its annual show in the armories on Sept. 19 and 20. Rev. Dr. Wilson, pastor of Trinity Methodist Church, will preach to-day at 8 o'clock last evening. The excellent choir, under the leadership of R. G. Kirby, will render several choice selections of music.

POSTERS UNDER SCRUTINY REFUSED WALL PRIVILEGES

Directors of Billposters' Association Place Some Pictures Under Ban.

Immoral bills are not to be allowed to corrupt the public morals if the Bill Posting and Distributing Association can prevent it. At a meeting of the directors, held yesterday, a dozen different posters were dealt with, and after a careful consideration were all rejected. This is part of the campaign instituted by the association in the interests of good citizenship. The posters adjudicated upon were both commercial and theatrical. One was from the Ignorance Village, and was held to be "too close to nature."

LEG CATCHES IN WHEEL.

Small Boy Whirled Around—Will Likely Lose Limb.

Brookville, Aug. 31.—(Special.)—A boy named Coughlin, aged eight years, narrowly escaped being killed here to-day. In attempting to board a rig his right leg was caught in the spokes of the wheel, and he was hurled into the air, with little hope of being saved.

GREAT PROSPERITY IN MEXICO.

Costly Improvements Announced in Every Part of Southern Republic.

"Perhaps the most notable phase of Mexico's recent industrial development is the extension of manufacturing in the republic," says Edward B. Conley, former vice and deputy minister of the United States in the City of Mexico in Appleton's Magazine. "The great prosperity is visible in every part of the republic in the form of costly public improvements. For nearly 400 years the Mexicans without sewers, drainage works, pure drinking water, paved streets, wagon roads, or sanitary houses, to say nothing of electric lights and trolley cars; but once they woke up they cannot get these things fast enough. New and modern municipal, state and federal buildings, hospitals, asylums for unfortunate and prisons are being erected in many cities. It is worthy of note that the public schools have received their share of the appropriations. A large amount of foreign capital was invested in enterprises in Mexico during her first year as a gold-standard country, about one-half of it American. The rest was largely French and Canadian. Most of the new American capital was invested in railroad construction, mines, smelters, and other works and plants for the treatment of custom ores; timber tracts, agricultural lands, city real estate and mercantile buildings. The cost of these improvements was increased by something like \$25,000,000. Our total investment in enterprises in Mexico is now \$800,000,000, in round figures. At the rate of increase at present indicated, it will soon reach the \$1,000,000,000 mark."

Repeats Too Late.

Beatrice McMahon is aged only 16, but is reported to be an "incorrigible" and her mother was a witness against her in the police court yesterday on a charge of vagrancy. The girl was remanded for a week and had to be removed by force, shrieking at the top of her voice that her mother "was cruel." Our holdings in the "crucial" and promising to be "a good girl."

PERSONAL

W. H. Hawkins, B.A. of Toronto has been engaged as teacher of mathematics and science in Regiopolis College, a Third Vice-President of the Ontario Grand Trunk arrived by special train from Montreal, and after a hurried inspection of the Toronto terminal left for a trip over the northern division. J. T. V. May and wife of Shannon-street leave to-day for Winnipeg and the west returning via Felco. They will be away for a month. M. S. Hay and wife of St. Thomas are at the King Edward.

Where to Go Labor Day.

Enjoy a pleasant sail on Lake Ontario and visit the beautiful resorts in mind the fact that the steamers Modjeska and Macassa will be on a schedule of six trips between Toronto, Burlington Beach and Hamilton. The steamers will leave Toronto at 7.30 a.m. and 11 a.m., 2.30, 5.30 and 11.15 p.m., and leave Hamilton at 7.45 and 10.45 a.m., 2.15, 5.30 and 8.30 p.m. A return fare of 25 cents is in force. Frank Cropper in Serious Condition—Amusement Park Projected.

Hamilton, Aug. 31.—(Special.)—John McManus, who drank wood alcohol yesterday afternoon, is somewhat better to-night. He has partially recovered from the effects of the liquid and will likely recover. Frank Cropper, who was injured by falling down an elevator shaft at the Westinghouse works, was reported as being in a serious condition at the City Hospital late to-night. His injuries are more serious than was at first thought. Mrs. H. Waring, 41 East Barton-street, died this evening after being ill for ten weeks.

MEETING WITH EMPLOYEES.

A meeting was held this morning between representatives of the Cataract Power Company and the employees of advanced cases, and consumption of the Street Railway Union, represented the men. Nearly all the clauses in the agreement except the wage and hour clauses were accepted by the company, and it looks as though these two points will be left to arbitration. The men on this line have been receiving 7 cents an hour, and they want the same scale as the Street Railway men. They also want a re-arrangement of the hours.

MEETING WITH EMPLOYEES.

There is considerable speculation as to who will receive the position of Mayor of Hamilton. The names of Mayor Mackelcan, Mayor Biggar were said to have had eyes on the job, but he denies it. Among those who are mentioned in connection with the position are: John G. Farmer, William Bell, Frank R. Waddell, and W. L. Ross.

FROM THE GRAND MAGAZINE.

If there is any truth in what expert jesters tell us the world's stock of good, original jokes is ludicrously small—a dozen or two at the very outside. An early investigator into this momentous question, a certain Hierocles, who lived some 1500 years ago, put the number in his day at exactly 21. The researches of Hierocles probably did not extend so far eastward as China, so there is no improbability in asking now whether some of the jokes which abound in the literature of the celestial empire are entitled to the honor of originality or not. A CARELESS BARBER, TRIMMING A CUSTOMER'S HAIR.

"A careless barber, trimming a customer's hair, Chinese barbers pay particular attention to this part of the human anatomy—put his patient to great pain and uneasiness. "Are you doing my left ear now?" asked the victim. "No, sir; I've not quite finished the right ear yet." "Ah, I fancied you were trying to pass thru to the left without going around."

A PORTRAIT PAINTER, WITHOUT CLIENTS.

A portrait painter, without clients was advised by a friend to paint a likeness of himself and wife and hang it in some conspicuous place, so that would-be customers might judge of his skill. He did so, and his father-in-law, the next time he called, immediately saw the picture. "Pray," asked the visitor, "what woman have you represented there?" "Why, sir, doing my left ear now?" asked the victim. "No, sir; I've not quite finished the right ear yet." "Ah, I fancied you were trying to pass thru to the left without going around."

CONFESIONS OF A SOCIETY NEWS-GATHERER.

A large number of persons have no doubt wondered how the many society papers obtain their so-called exclusive news. The better class of these journals have in their pay several titled men and women, who not only attend balls and dances given by dukes and duchesses, but are invited to court functions. These people supply the papers with their news items from the reporters of the latter journals from servants employed at the various palaces. These people overhear scraps of conversation, which they discreetly pass on to an active society journalist, who, by turning on the tap of imagination, is able to distill them up in the form of a half or column article "supplied by our special correspondent."

International Tennis Finals Likely to Be Reached To-day.

Niagara-on-the-Lake, Ont., Aug. 31.—Play in the international tennis tournament was continued to-day and such good progress was made that it is expected to-morrow will see the final in all the events. Probably the best match of the week was in the semi-finals of the doubles, when Burns and Moore, Buffalo, 6-2, 6-1, Wright and Johnson, Boston, came together. It was a thrilling game from beginning to end, the latter finally winning after a three-set contest, 5-7, 6-4, 6-4.

Ontario Championships.

All is in readiness for the great annual tennis tournament which will take place on the six courts of the Toronto Lawn Tennis Club on Bathurst-street, on Labor Day, under the auspices of the Ontario Lawn Tennis Association and Dominion provincial, county, township, city, town and village champions will buckle on their brogue and endeavor to wrest victory from the game for fun and without handicap. As the hours for the opening games will be announced in the sporting columns of The World, the city players are urgently requested to be on hand promptly, as it will be necessary owing to the enormous entry list, to have the six courts occupied continuously in order to finish the tournament by next Saturday. The committee wishes the games to be won by hard play, not by default. Any inability to play on certain days, or at certain hours, will be given as much attention as possible, if mentioned at the time of entry, to Albert South, 34 Victoria-street.

Monday's Exhibition Game.

At Havelock on Labor Day the Capitals will present the team which its supporters have been led to infer is to win the championship of the N.L.H. Opposed to them will be the Torontos—a team which, out of the running, has made a most gratifying showing in the present season. The lineup will be the following: Torontos—Goal, Rogan; point, Francis; forward-point, Murray; defence field, Hamberg, Richardson, Lambie, centre, Mackenzie; home field, Taylor, Barnett, Lowe; outside home, Cameron; inside home, Kalia, Capitals—Goal, Hutton; point, Fagan; defence-point, Ralph; defence field, Brennan, Pringle, Shea; centre, Ashfield; home field, Burns, Butterworth, Allen; outside home, Murphy; inside home, Powers.

Parkdale Canoe Club.

The Parkdale Canoe Club are holding their annual regatta on Labor Day, and the entries are coming in very fast. They expect some very exciting races. The complete list of entries in this regatta will be at Nordheimer's until noon on Monday.

First Hockey Shift.

Brookville, Aug. 31.—The first hockey shift is noted in the reported removal from here of Capt. Jack Marks of the Brockville Federals, who has signed to play in New Glasgow, N.S., next season. Marks is a dazzling forward and his loss will be severely felt by the locals.

START BEEN CAPABLE TO START IN THE FUTURE TO-DAY

Keene and Rainey Candidates First and Second Choices—Pusslane is 40 to 1.

New York, Aug. 31.—Sixteen royally-bred 2-year-olds are carded to-night as starters in the Futurity stakes to-morrow afternoon at Sheepshead Bay, when racing on the New York tracks will be resumed. The field is the most evenly-balanced and highest in class that any Futurity of recent years has called out, and the winner of the richest purse of the year, horsemen agree, will be worthy of the prize.

Keene and Rainey Candidates First and Second Choices—Pusslane is 40 to 1.

Mr. Keene has elected to start three horses—Peter Pan, Pope Joan and Jubilee. The first two have been seen in public, and their performances have been such as to warrant the faith that commonly put in their ability to run well and to win. The most impressive performance and Futurity candidate has shown was when Peter Pan picked up 130 pounds in the Havelock Stakes at Saratoga and left the smothered field, which included his stable-mate Pope Joan, conceded the fastest mile of the year. If Peter Pan were alone in to-morrow's big race undoubtedly he would hold the position of honor in the betting ring. Coupled with Pope Joan and Jubilee, a highly-trained youngster, the entry will be at short price, which some may be below the 2 to 1 that is quoted in to-night's figures.

Keene and Rainey Candidates First and Second Choices—Pusslane is 40 to 1.

The Keene youngsters will have a half-dozen other splendidly-bred 2-year-olds to pace them step for step down the Futurity course. It will be a journey which will try the heart of every horse in the field to victory and gold, and ere the full six furlongs is ended some of the best of the year may have raced themselves into the ground and made way for some stout-breasted colt or plunger along to the heights of turf glory.

Keene and Rainey Candidates First and Second Choices—Pusslane is 40 to 1.

Horace E. declared to be the fastest colt ever to come out of the west, and just now in the pink of condition; Demand, the season of the early metropolitan season, sold to the present owner, Paul Balmer of Cleveland, for \$45,000; Oran, from the stable which sent Ormonde in to win the Futurity in 1905; Coville, a splendid colt and a stake winner of unusual caliber; Kentucky Beau, who once had a plan for a valuation of \$80,000 on the colt; Electorator and Yankee Girl will be fighting every inch of the way, and will have a chance to beat the outsiders seen to be Golf Ball, Don Enrique, May Row, Altuda, Old Hoop and Paradise. Although many good horses believe Golf Ball capable of showing his heels to a majority of the field.

Keene and Rainey Candidates First and Second Choices—Pusslane is 40 to 1.

The probabilities are for brilliant racing weather and a hard, fast track. The entries, owners, jockeys and probable odds are as follows: Prob. J. R. Keene's Peter Pan, 127 Koerner ... 2 J. R. Keene's Pope Joan, 116 Nicol ... 2 J. R. Keene's Jubilee, 117 Knap ... 2 A. Rainey's Horace E. 122 Radtke ... 3 P. R. Rainey's Demand, 123 J. SPA'S MOST SUCCESSFUL MEET

Attendance and Gate Money Largest Ever and Racing the Best.

The race meeting that ended Tuesday was the most prosperous since horse racing was inaugurated at the Spa in 1884. Never before have the financial results been so large. For the first time in the history of the track a 10 per cent dividend will be declared to the spectators. Besides this there will be a surplus, which will be set aside for improvements.

An idea of the attendance and the amount of money taken in at the gate may be gleaned by the statement that the receipts on Saturday, Aug. 18, were a trifle over \$22,000. This money was from admissions alone, and does not represent any of the money paid into the treasury for various privileges. It was by long odds the largest sum ever received at the Spa by the Racing Association. This amount for one day was nearly as large as the \$20,000 received at the Spa in 1884, when it was held under the auspices of Fred Walburn, the one-time owner of the Guttenberg track.

From a racing standpoint the meeting has also been a success. While there has been a large number of sore and lame horses participating, the contests have been clean and exciting, and with one or two exceptions the sport has been clean. These exceptional cases were noticed by the stewards, and the jockeys, under the supervision of the stewards, were responsible for the results are now under official inquiry.

During the 22 days of the sport here some great horses have been reared. Siriver, the champion of the Spa, displayed his best form, and Peter Pan ran his best race. There was a dominant 2000 yds. Futurity, first seen into public gaze, and showed dazzling speed. Horace E., the Western champion, also showed new under silks to the eastern racers for the first time.

WORLD'S PACING RECORDS.

Besttime Goes Two Heats in Free-For-All in 2:01 3/4 and 2:02 3/4.

Readville, Mass., Aug. 31.—The closing of the two weeks' grand circuit meeting today was a great day for the efforts of Ecstacy, who went the second heat in the free-for-all in 2:01 3/4, and the third in 2:02 3/4. The first is the fastest, by a second, ever made by a pacing mare in a race, while the combined time of the two heats averaged faster than before made by a pacing mare in competition.

Ecstacy was owned by J. C. Murphy, N. Y., and was trained this season by Frank Lang at Barton, Vt. The first heat in the free-for-all was won by Ecstacy in 2:02 3/4, and she was the only mare to win under silks to the eastern racers for the first time.

Free-for-all class, pacing, purse \$800, divided \$200 each heat: Ecstacy, b.m., by Ontario (Lang), 2 1/2; August Pointer, br.g. (Sunderland), 1 1/2; Locanda, br. (T. Murphy), 3 3/4; Mand Keswick, h.m. (Nickols), 4 3/4; John M. blk.g. (McDonald), 4 3/4. Time 2:03 1/2, 2:04 1/2.

2:07 class trotting, purse \$600, divided \$200 each heat: Anglia, b.m., Gregory the Great, (Anson), 1 1/2; Tonley, br.g. (Geese), 2 1/2; Norman B. blk. (McCarthy), 3 3/4; Helen Norrie, h.m. (Rutherford), 4 3/4; John M. blk.g. (McDonald), 4 3/4. Time 2:05 1/2, 2:06 1/2.

2:11 class, pacing, purse \$800, divided \$200 each heat: Ecstacy, b.m., by Arnot Wilkes (Cox), 1 1/2; Madge Direct, blk.m. (Walker), 2 1/2; Locanda, br. (T. Murphy), 3 3/4; Sillette C., br.h. BRIGHTON CAN GET POWER. Can Also Secure Representation on the Company's Board.

Cobourg, Aug. 31.—(Special)—With reference to an article in the Toronto press in regard to the deputation from the council of Brighton waiting on the hydro electric power commission, and which further complaining that they had no representation on the directors of the company, the directors of the company say they were much surprised to learn of this situation, as the president of the company is Samuel Nesbitt, a resident of Brighton.

They further say that if the council will communicate directly with the directors they will be glad to satisfy them that they will receive power from Healy Falls, the same as the other frontier towns, as the transmission line will pass thru Brighton, and furthermore the company are quite willing to give Brighton satisfactory representation on the directors.

The lease was issued a few weeks ago, and since then the engineers have been busy engaged surveying the property for the development of the power.

APOWERFUL STRANGE FORCE

That 'ould do Away with the Mails Telegraphy and Drugs

Would Be But Little More Startling Than the 'Marvelous Things Done by People Who Have Tried This Wonderful System

Low Prominent Men and Women Use it to Influence the Minds of Others - Heal Themselves and Others of Chronic Diseases, Nervous Disorders and Habits as if by Magic - Anyone Can do it - Distance No Barrier - One Person's Control Over Another Now Fully Explained

How Every Man, Woman and Child in the World Can Have 'The Secrets of Magnetic Force, Health and Power' Absolutely Free

Professor F. T. McIntyre, a well-known scientist of this city, has created a sensation in the hypnotic world.

Through delving down in the realm of nature's mysteries he has discovered a delicate but powerful system that seems destined to revolutionize the theories of the most noted authorities on Mind Force.

Some people look upon him as a man possessing a strange power, for he has told them how to influence people far and near and to heal themselves and others of their ailments.

He tells them how to project their thoughts, develop a powerful mentality and build up the mechanism of the body and brain. Doctors and magnetists who have tested the workings of his new discovery admit that it surpasses anything in the history of psychic power.

In explaining the method Professor McIntyre says: "I am convinced that everybody can accomplish the things I have done if they understand the principles of this wonderful system. There stands no more disease, immorality, drunkenness, despondency, separations, poverty or failures in life. I have sent free illustrated pamphlets to people in many parts of the world, which explain the principles of this new discovery, and I am anxious to do the same wonderful things I have done, and for which some persons think I possess a special power. I have sent free illustrated pamphlets out without any charge whatever, as I am anxious to give every one the benefit of this new discovery. The letters received from persons who tried it are the same. Many are now enjoying a life of surprise and thanks, and say they never dreamed such things possible. I receive many the presents and enjoy working for the uplifting of mankind and I feel that the kind letters received from grateful hearts more than pay for the latest I take. I will send a copy of my free book to every person who writes me without any charge whatever."

Professor McIntyre has a basketful of letters from people in many parts of the world. They are, indeed, startling. Mr. James Kubel, a prominent business man of Chicago, writes the following:

"I never dreamed such things possible. If I had only known of this sooner. This system has made a difference in my life. I shall give up business and make more money through the use of this system than I can in my business, and I can now handle my customers in fine shape. I do not know how to give full attention to my business. I think your system wonderful."

Mr. Eugene Devoson, Baton Rouge, La., writes: "Having tried your system I am hesitatingly pronounce it to be and to do all you claim for it."

Mr. E. G. King, a resident of Chicago, writes: "I am not recommending your system too highly, and I am willing to answer any inquiries in regard to it."

Mr. H. A. Loughbrough, Wheatly, Ontario, Canada, writes: "I have thoroughly investigated the methods and inventions of Professor McIntyre, and can give you the following scientific and surpasses anything in the line of therapeutics that has come to my notice."

Fred S. Brett, Apartado 283, Guadalajara, Mexico, writes: "I have done wonderful things in influencing people with your system. Have had over 30 persons under my control, and compelled them to do anything I wish. I advise everybody to try it. This system is truly marvelous."

This free book is full of startling explanations and pictures, showing that any one can master, in a short time, the power to control and vary the minds of others. It describes the strange phenomena of Psychic and Hypnotic Influence, Myolectricity, Personal Magnetism, and a combined, simple system of resulting the characters of others. Thousands of miles away, if it give you the key to the development of the inner or dormant forces of concentration, determination, ambition, enthusiasm, insubility to continuity of thought, and the ability to throw off the evil effects of disease and despondency.

If you wish a free copy of this wonderful book write a postal or letter to Professor F. T. McIntyre, Dept. 1442, No. 129 West Thirty-fourth Street, New York, N.Y. All who write will receive it; no one will be disappointed. It is sent by mail, postage paid, absolutely free.

YORK COUNTY AND SUBURBS BIG-RESERVOIR COLLAPSES 80,000 GALS. OF WATER GO

Accident at North Toronto—Lock-up Broken Into and Confiscated Beer Stolen

North Toronto, Aug. 31.—With a roar like that of a cyclone, and a shock like unto an earthquake, did the collapse of the town's water reservoir fall upon the ears of the citizens at 5.30 this afternoon.

The tank, a wooden structure, 20 feet high, and holding 80,000 gallons of water, was built on trestle-work 90 feet high, and the timbers, about 15 years ago, and the timbers, weakened by time's decay, gave out to-day. There was no damage to property from the escaping water, which, in its flow downhill, was absorbed by the soil.

Councillor W. J. Lawrence, chairman of the water, fire and light committee, and Councillor James Pears, together with Commissioner James Wainman, were on the spot a few minutes afterwards, and gave orders so that the citizens will not suffer for want of water, and in case a fire should break out the engine will still be enabled to give 150 pounds of pressure, so that no fear in that direction need be entertained.

This year's council had made partial arrangements to have cement abutments replace the masonry, and to have new wooden sills laid. The town have been working on a more modern reservoir. The roof of the tank stayed on top of the trestle, and covered it as neatly as if it did the tank a few months before.

Excitement and amusement followed the announcement this morning that some persons had, during the night, broken into the jail and secured the beer which had been seized two days previously in local hotels.

The window was sprung from the outside, and the window lock opened with a knife, presumably, the window being admitted the thirty ones into the corridor. There the marauders used a hoe or a rake to coax the bot-

Academic Departments of McMaster University

WOODSTOCK COLLEGE, WOODSTOCK.

MOULTON COLLEGE, TORONTO.

THE CHOICE OF A SCHOOL

In the selection of a school for your son or your daughter, there are several factors that count. McMaster University has academic departments that are worthy of your consideration. May we ask you to note:

BUILDINGS AND EQUIPMENT Moulton College occupies the beautiful residence of the late Senator McMaster, enlarged and equipped for school purposes. The College building itself is a part of a liberal education.

Woodstock College has especially fine grounds, some 30 acres in extent. The buildings, especially the gymnasium, and the Manual Training School, are fine and commodious. A new heating system gives the best results.

TEACHING STAFF Men and women of culture and scholarship and of experience constitute the regular teaching staff. The special departments are under the direction of experts. We especially call your attention to the fact that the Medical Department at Moulton College is under the personal direction of A. B. Vogt, M.D., Conductor of the Mendelssohn Choir.

COURSES OF STUDY Both colleges prepare for Matriculation into any University, for Teachers' certificates and for Matriculation into any profession. Woodstock College offers a course in Manual Training, not surpassed by any school in Canada. Moulton College offers courses in Music, Art, Domestic Science and Commercial Work (including Shorthand and Typewriting), and prepares for Examinations in any school of music.

AIMS AND IDEAS The foundation idea of Woodstock and Moulton Colleges is that they shall be Christian schools. Character, it is expressed. The fifty years of Woodstock's record and the almost twenty years of Moulton's demonstrate the value of this great educational principle.

FEES The large endowment of McMaster University and its schools renders it possible to maintain Woodstock and Moulton at very moderate fees.

Woodstock College Reopens Tuesday, September 4th. Moulton College Reopens Wednesday, September 13th. Day Pupils are welcomed, as well as Residence Pupils. Send for Calendar.

YESTERDAY AT THE EXHIBITION

PRESSMEN WERE THE GUESTS AT ALL PROUD OF THE FAIR

Pretty Compliments Passed Between Management and Journalists on Exhibition Glories.

At the directors' luncheon at the exhibition yesterday, the handsome dining room in the administration building was more fully garnished than at any previous occasion. The numerous guests from the country invited as members of the Canadian Press Association overflowed the regular tables and filled several additional ones. Acting President W. K. George, H. E. Good, president of the association, and deputy minister of education, W. H. Greenwood, managing editor of The World, J. F. McKay, business manager of The Globe, Senator Jaffray, J. E. Atkinson, The Star, J. W. Bengough, H. B. Smallpiece, William Houston, J. S. Willison, The News, Hon. John Ryan, E. T. Malone, Hon. Nelson Monteth, Thomas Southworth, G. T. Putnam, Robert Miller, Stouffville, James Jaffray, Galt, C. Daniels, The Sunday World, and many others included in the list of those who registered. W. J. Watson of the Central Press who is said to know more Ontario newspaper men personally than anyone in the business, sat considering the photographic possibilities of the Central Press building very fully. Dr. Goldwin Smith, delivering an address, John Cooper was trying to spot possible contributors to The Canadian Magazine. H. J. Good moved around like another Hermes, Gadsby and Charlesworth swapped Bohemian anecdotes between the soup and the fruit. W. L. Smith of the Farmers Sun smiled benignly under the aegis of his great associate and namesake. President George started the oratory promptly. He appreciated very fully the immense service both this city and outside press had rendered to the exhibition. He would not go so far as to give the whole credit of its success to their suggestions, the board desiring to keep a little credit to themselves. He thought the press building was unquestionably the most attractive on the grounds, and he was glad the directors had thus been able to recognize the assistance given by the press. He had the Canadian press had avoided the yellow peril—the yellow streak—and thought Canada was in advance of some other countries in this respect. Dr. Goldwin Smith was received with loud applause. He had been terribly thrashed by the press, but he was extremely reluctant to miss what might be his last chance to meet the Canadian Press Association. He was engaged in their great calling for six years, and was at first connected with The Saturday Review. It was said that what was true of the reform bill, everything was new, everything true and everything of the highest importance was in his hands. He reversed. Nothing was new, nothing was true, and nothing of the slightest importance whatever. John Denny Cook, however, managed to carry it thru, and died a wealthy man. Thru the sixty years he had observed much. What was the sum? The immense improvement of the press he thought. In one case this had been almost too great. He referred to the literary side. He had been ousted by magazines and newspapers, so that no books now were successful but text books or novels. The improvement in the literary quality of the articles in the newspapers was the cause of this.

As to independence, it was a question whether there had been an improvement in the independence of the press. That could only be answered when it was known what was behind the press. They must understand that the press now worked under the party system, and unless they give up party they could not have independence. He regretted the insuring and personal tone sometimes adopted, and hoped this would be restrained. A. H. U. Colquhoun, deputy minister of education, explained that temporarily he occupied the chair of the Canadian Press Association, or they might wonder why he was there. On behalf of the association he desired to thank the directors for their new and attractive quarters. The press, in criticizing what needed criticism, had done its duty well, and in its praise had assisted as best it could. In paying a compliment to Dr. Goldwin Smith, Mr. Colquhoun spoke of his remarks as to what was behind the press. What they had to consider, he believed, was the average tone of public opinion. A man always had those papers behind him which he deserved to have. J. S. Willison, Dr. Smith spoke with something of the authority of a prophet. It was a great satisfaction to them all that he belonged to their ranks. Speaking for the entire press he had to say that he always loved his contemporaries. He had never written an attack on a working journalist and never would. They could all so bear themselves as to secure the respect of the community

NORTHERN NEW ONTARIO LAND OF POSSIBILITIES

The Exhibit at the Toronto Fair of Mining and Farming Products Creating Much Interest.

When one sees the minerals that have been taken out of that practically unexplored country, visions of untold wealth are brought before the mind. And when one hears of the splendid farming resources up in that lone country, there are dreams of happy homes and plenty of scope for development. These facts are impressive. The average citizen knows more of less about New Ontario. That portion of the province is being worked with great success. Northern New Ontario is a term that designates the situation of the land and there is not a great deal of explanation needed. The Temiskaming and Northern Ontario Railway has opened up a land where a great yield of 16,000,000 acres offers advantages to every Canadian who does not own a farm of his own.

When this fact is brought home to the fellow who ekes out a living in a district where competition is so keen that only the largest and strongest survive, then will the emigration to the land total up into the thousands. There is ample room for all. Sample of Wealth. The railroad mentioned has on exhibition samples of farm, forest and mineral wealth of Northern New Ontario. The farm produce has been gathered from farms in that district that have been worked for a short time. Thus can be seen actual results that go to verify all the statements made in favor of this "pot man's paradise."

The specimens of ore that are to be had in that portion of the country are pronounced "beautiful" by those who are familiar with something about geological formations. There are exhibits from the following list of mines: Nipissing, McKinley-Darrage-Savage, Silver Queen, Ontario, Foster, Drummond, or Canada Furnace, Galt, or Divino, Nova Scotia, Silver Lake, or Silver Bar, Argentine, O'Brien, New Helen (town site), McLaughlin, or Glendinning, Trethewey, Judge Kerr (copper), Dunlop-Gibson (copper), Williams (copper-nickel), and others.

The huge nuggets that attracted so much attention are from the Jacobs and Foster mines in Nipissing. The Jacobs mine is valued at \$100,000. The Foster mine is valued at \$500,000 and another nugget of native silver from the Glendinning mine in the Cross and Lake districts is valued at \$100,000. The soil in Northern New Ontario possesses fertility beyond the most sanguine expectations. The water is rich in minerals and regulates these are necessary factors in the development of a new country.

which is equipped with Chapman double ball bearings. The gross weight of this car and coal is 5500 lbs., and but a slight pressure is required to move it up and down on the track. The Chapman bearing, as applied to all classes of vehicle work, both light and heavy, is also on exhibition. This bearing is fast becoming an important factor in manufacturing and now when the question of cheap power is a paramount one, this device is being adopted by leading manufacturers throughout the country. It is also saves a large percentage of power, but saves practically all the oiling and attention, all the babbling, and a substantial saving in cost. It is also effected, and the danger of fire from hot box is entirely eliminated. This feature has been recognized by some of the insurance companies, who have given lower rates in many cases where these bearings have been installed. The Chapman bearing is now in use in over 400 Canadian factories, and is covering the field from Halifax to Vancouver. It is a necessary percentage of the company's business at the present time consists of repeat orders is the best evidence of the bearing's popularity. The inventor, Mr. Charles H. Chapman, as the inventor of one of six of the world's greatest mechanical inventions, is also a member of the I. C. R. board of directors.

Honest Bleach. Christie, Brown & Co. started in some years ago to make good honest bleaches, cakes and wafers. The ingredients they used in the manufacturing process were the very best. It was all that was necessary—the people did the rest. And the results are astonishing. There are just 600 bleaches in the world, and the firm is the only one that can enable the exhibitor to see the machinery. Add to Happiness. Those young people who are thinking of a "plein for two" should not neglect to visit the James Morrison Bleach Co.'s exhibit in the machinery hall. A few ornamental and useful articles, such as are made by this firm, would add a bright amount of enjoyment to the home. Visitors are cordially received at the attractive exhibit. Blowing Glass. Glass blowing as a high art can be seen at its best on the Midway, where Mr. O. H. Johns and his capable staff of experts give a continual exhibition. For such a small admission fee the educational value of a visit to this establishment cannot be over-estimated. The children are especially interested in the process, and mothers realize that they cannot get by too tent.

Get a Thrill. After all the sights have grown blasé and your feet weary, saunter down the Midway and visit the Igorrote Village. See how a primitive people live and then be thankful that you are living in a land of plenty and comfort; also get a thrill. Watch those copper-skinned natives hurt a spear at a board target and then notice those queer little chaps show a row of shining teeth. See how they live. Observe the native forge. Look at the houses. Then form an opinion. Those people never take medicine. Christian science is as old as the hills to them and they say it's a right. Just close your eyes and imagine you are in the Philippines. Beautiful Books. The Cambridge Book Co., Limited, of Canada, have an exhibit of books at the fair that is valued at \$30,000. These are the "everyday" books of the collection is interesting. Some of the volumes are valued at \$100 and among the various editions

are works of Guy de Maupassant, Gustave Flaubert, Benjamin Disraeli and others, but the place of honor is bestowed to a handsome copy of the Coronation Prayerbook of Edward VII. Expert critics say that the workmanship on this book alone has not been surpassed.

A number of the binding designs are copies from originals in the British Museum, which represent the genius of skilled workmen in Italy, France, Germany and other countries. Goodness and Cleanliness. The Le Page Individual Communion Cup Co., 102 Tyndal-avenue, Toronto, are showing a splendid line of individual communion cups in the new process building. The exhibit commends the attention of ministers and all others who are interested in sanitation and cleanliness. The cups have an unbreakable pointed top that is a worthy feature by itself.

The Ashley Stock Farm. In the standard-bred class of horses there are quite a number of entries and many of the animals are worthy of special notice. The Ashley Stock Farm shows several well-bred ones. A brood mare with filly by her side, a 2-year-old filly by Deverax, 2:11.4; a yearling filly by Noble Wilkes, 2:13.4; also a breezy-looking yearling colt named "American Blue Blood," and is well named, for his pedigree shows he carries the most fashionable blood lines in trotting history; he has five century sires behind him and many great producing dams. There are some excellent moose heads on exhibition in the I. C. R. rooms, and also some salmon skins that once contained forty and fifty pounds of solid steaks. A person misses a great deal if he does not get an impression of the magnificent country thru which the I.C.R. runs.

Two Strangers. He was a stranger and he looked it. He wandered down "the pike" in search of the art gallery and missed it. He looked high and low. Another one. He was a stranger but he let on he wasn't. He was looking for the art gallery, perhaps, but he didn't let on. He appeared careless, but he wasn't. Finally the two strangers came face to face. The first asked, "Where's the art gallery?" The second said, "Where is it?" Then both together, "Don't any god darn fool know where the art gallery is?" Both answered "No," and arm in arm they set out to find the place. I. O. F. Popular Tent. As usual, the most-sought-after tent in society row is that of the Independent Order of Foresters. The tent is large and there is plenty of room for visitors to rest in comfort. The tent is beautifully situated on the hill overlooking the lake, a short distance from the magnificent arch erected by the order. The tent is handsomely furnished with weathered oak, leather upholstered chairs, tables and Brussels carpet. Rich Turkish portieres divide up the two smaller compartments. The large room is profusely decorated with beautiful palms, ferns and cut flowers, which makes it look cool, cheerful and a haven of rest. In the centre is a handsome colored picture of the Foresters' Island. In one corner hangs a splendid large photograph of Dr. Oronhyateka, the supreme chief ranger, surrounded by ferns and palms; in the other corner is a picture of the late Queen Victoria. The tent is in charge of G. A. Mitchell, supreme chief of field work. It is situated on the hill overlooking the lake. Continued on Page 20.

The bromos, showing scenes from the Temiskaming district, might be called "live pictures." Every bit of them has a touch of human interest in them that does not fail to impress the onlooker. "Wish I had gone up there for my vacation," said a grizzled old fisherman who claimed he was tired of probing for fresh spots. The chances are he will go next year, or, better still, this fall. The hunting was never better. And the best of it is, the luxuriously equipped cars of the G. T. R. are always convenient—even in the deepest part of a howling wilderness. The York Pioneers. The York Pioneers and Historical Society will meet at 12 o'clock noon on Saturday (to-day) for the purpose of transacting business. At 1.30 they will lunch at the W. C. T. U. tent. The pioneers now have a membership list of 250—and this number is being added to all the time. The president is William Rennie, the secretary Rev. H. S. Mathews and John Harvie is treasurer. The Call of the Wild. All sportsmen who love big game hunting should visit the I. C. R. exhibit in the natural history building. There are pictures that remind one of the good old days last season. And they conjure before your imagination the luring call of the wild. The I. C. R. representative claims that moose are plentiful this season. In fact they have been seen in places where their hoofs left marks on cement roads. No! They are no tamer now than before—just more numerous—that's all. There are some excellent moose heads on exhibition in the I. C. R. rooms, and also some salmon skins that once contained forty and fifty pounds of solid steaks. A person misses a great deal if he does not get an impression of the magnificent country thru which the I.C.R. runs.

TORONTO EXHIBITION VISITORS

Should avail themselves of their visit to the Fair to see Dr. McLaughlin's World-Renowned Electric Belt. He will be in his office, 112 Yonge Street, from 9 a.m. to 8.30 p.m. daily. He invites you to consult him regarding your health. I have been telling the readers of this paper what my Belt will do. If they don't believe me, call on me; I will furnish them with the names of thousands of people, old men, who out of gratitude will write them. They will tell them just what they have done for me. It has no cure. They feel as hearty and as youthful as they did at eighteen. How often that is said by men who have been cured of Nervous Debility by the Dr. McLaughlin Electric Belt! They say it every day. Men who have been weak, gloomy, irresolute, and who had no confidence in themselves at all, are now holding up their heads in pride, with the knowledge that perfect strength is restored, that they are as good as any man that walks and better than any man of their size. You know you are weak now, and wish you could say that you were as good as any man of your size. You can if you will use this grand invigorating tonic. The proposition I make is a fair one, and should remove all doubt as to its ability to cure all forms of weakness in men and women. "Electricity is the basis of human vitality." Coming from him, you believe it. I've been saying that for the last twenty-six years. Some believed me. Some didn't. I say this now. Electricity is the power that drives every wheel in your body machinery, that enables you to talk, to walk, to run, eat and everything else you do. You're like the steam in an engine. When you have enough you are strong—not enough, then you need my Belt. May be you believe that—or not you will some day. Mr. H. F. STENABLAUGH, 216 King Street East, Hamilton, Ont., says: "I can heartily recommend your Belt to any one afflicted with kidney trouble or weak ankles." "Dear Sir,—I have worn your Belt for two months steady, and must say that it has done me an awful lot of good. I am well satisfied with the Belt, and I have found what you said about your Belt to be true. I will give your Belt all the praise that it deserves. Wishing you every success. I remain, yours very truly, WILLIAM BYERS, Nipissing, Ont."

Some of the things I can cure are: Debility of any organ of the body, decay of youthful vigor and every evidence of it; weakness of kidneys, stomach, liver, rheumatic pains, poor circulation, constipation and general ill-health. I can give you the name of a man in your town that I have cured. I can ask him about me. Tell me, and I'll give you his name, and you can ask him about me. Now let's get together. If you would like to be a stronger, younger man than you are, come to me. Call and I'll give you all the satisfaction you want. If you can't call, send this coupon and I'll send you, sealed, free, a book that will tell you how I do these things and of men who have been cured by my Belt. Office hours 9 a.m. to 8.30 p.m. Consultation free.

The combined bands, the 2nd Life Guards and Grenadiers, will give a concert in the centre of the grounds on Monday (Labor Day) at 6 o'clock. Chapman Double Ball Bearing Co. This progressive concern has an interesting and practical exhibit in the machinery hall. As usual all the power used in the building is transmitted over their bearings, and in addition they have a large assortment of shaft bearings fitted to the different standard makes of hanger frames in use in factories throughout the country. The bearings are made of steel adapted to hose pulleys, mule stands and friction clutches, where plain journal bearings have in the past given a great deal of trouble. A prominent feature of the exhibit is an ore car from the mines of the Dominion Coal Co. in Cape Breton,

COULD NOT TAKE THE DOG.

Exhibition authorities refuse to allow Bell Piano Company to have Buster Brown's dog in manufacturers' building.

I'm glad I'm out of it. The youngsters who witness the performance of the wonderful Buster Brown Children at the Bell Piano Company's exhibit in the manufacturers' building invariably ask about the dog 'Tige', who has been so widely advertised as being with these children on their various travels.

RUNAWAY CARS WRECKED.

Going Down Grade, Collide With Engine—Crew Jumped to Safety. Richmond Hill, Aug. 31.—A serious accident was narrowly averted on the James Bay Railway. Five flat cars got away from Road Hill Station, while an engine was shunting other cars down grade from here to Toronto.

LATE PRESIDENT A THIEF DIRECTORS ARE IN TROUBLE

Alleged That, Knowing Company Was Embarrassed, They Saved Themselves First.

Philadelphia, Aug. 31.—The statement of Receiver Earle of the broken Real Estate Trust Company of this city that Frank K. Hipple, the late president of the concern, had stolen securities valued at \$55,000, and that the lending of \$5,000,000 to Adelphi Segal on insufficient security amounted practically to theft, created a profound sensation here to-day.

The revelation was a blow to his friends, most of whom are prominent in the Presbyterian Church, either as clergymen or laymen, many keeping their deposits in the concern.

Mr. Hipple also took an active part in reform politics, and is said to have been a heavy contributor to the reformers' campaign fund in last year's notable contest in this city.

The criticism heretofore expressed by depositors, of the failure of the directors of the company to discover Hipple's transactions, has increased. There is now pending an application for the appointment of a co-receiver, who shall directly represent the depositors.

It became known to-day that the employees of the company were aware there was something wrong with the accounts. Several of them left cheques with their fellow employees when they went on vacation for an immediate withdrawal of their deposits if their suspicions were confirmed.

Receiver Mr. Earle said this afternoon he was investigating reports against the directors and officers of the Trust Company.

"I am investigating," he said, "the charge that some of the directors, taking advantage of their exclusive, prior knowledge of the company's embarrassment, sold stock and withdrew deposits in order to save themselves and others."

MINING COMPANY BREAKS.

Boston, Aug. 31.—The Taylor Park Mining Company, a Colorado corporation, capitalized for \$5,000,000, was placed in the hands of a receiver to-day by Judge Dodge of the United States circuit court.

The receivership is the result of charges made by Clarence H. Knight of this city, a creditor for \$5000, who alleged that the company is hopelessly insolvent and has \$218,000. The company is engaged in mining gold.

QUEBEC CABINET CHANGES.

Quebec, Aug. 31.—Hon. W. A. Welb, having resigned the Speakership of the legislature, was to-day sworn in as minister of public works.

Hon. J. G. McCormick resigned to become a judge. Hon. A. Tessier became treasurer, and Jules Allard, minister of public works took the agriculture department.

PROPERTIES IN TORONTO WHICH SECURE EXEMPTION

Total Reaches Nearly \$25,000,000—One-Third in Ward 3.

The mayor has received from Assessment Commissioner Forman the following, showing how much property in the city is exempt from taxation. The total is \$24,913,380, of which \$2,061,532 is allowed on the Methodist and Episcopal church properties, \$2,401,350 on universities, \$3,700,000 on Ontario Government property, and \$5,957,701 on miscellaneous.

Table listing various property categories and their exemption amounts. Categories include Charitable institutions, Catholic, Baptist Churches, Episcopal Churches, Roman Catholic Churches, etc.

Grand total \$24,913,380. Divided into wards, the exemptions are as follows: Ward 1, \$2,028,054; Ward 2, \$2,462,438; Ward 3, \$6,955,429; Ward 4, \$2,824,183; Ward 5, \$3,700,000.

SEMAPHORE DIDN'T WORK.

And C. P. R. Train Was Allowed to Collide. The inquest into the circumstances attending the death of Fireman Atkinson, killed in the railway yards on Aug. 12, was resumed last night, and further adjourned until Wednesday evening.

Switchmen Gardiner and May gave evidence, which went to show that the G.T.R. train was duly stopped by the short distance semaphore, set from the Bathurst-street switch house, but the long distance semaphore, which had been out of business for two years, naturally did not operate, and the crash occurred.

It was stated that 115 trains a day went west thru the yards, and it appeared to the coroner (Dr. Cotton) that there was a lack of system.

HAS HEEL-COMFORTING COUNTERS IMPROVEMENT NUMBER THREE

Action of a Heel-Skinning Counter

Don't know what is meant by a shoe counter? Well, it's the stiff leather that fits around the heel. It's the back stop of the shoe. It forms a leather cavity into which the heel fits. If wrongly built that cavity can inflict more agony than any other section of a shoe. In nearly all shoes it's given little or no care. It's usually constructed of Hemlock tanned, scrap sole leather, hard and stiff as stone, and is lickered together in the cheapest way without shape or form. Result? A rigid, unbudgable, heel-skinning, pain-producing, walk-hindering counter.

Action of a Foot-rite Heel Comforting Counter

Foot-rite counters are somewhat different—slightly. They're made of special oak-tanned counter stock, stout but soft, and being shaped the exact shape of a human heel, they're heel sockets, and when the heel ball fills them, they're practically ball and socket joints like the human shoulder, capable of moving in any direction and bound together by air suction.

What good are these Foot-rite ball and socket counters? They're good! Their soft leather won't skin the heel, even though it may rub at every up and down movement, but that up and down rubbing is entirely eliminated by the ball and socket suction which forces the sole under the heel, also the counter at the back and sides, to hug the heel snugly as it lifts and lowers in walking. This suction is not noticeable. Like the shoulder joint it performs its office without being felt.

There's a Foot-rite dealer in your town. His name's below. Ask him to show you Foot-rite Heel Comforting Counters. You'll find his door swinging inward but never outward to find a more welcome store.

Anywhere in America, Canada or Great Britain—\$4.00 and \$5.00. Every pair Goodyear Welted.

THE BRYAN BOOM.

Nebraska Hailed as Representative Twentieth Century American.

New York, Aug. 29.—(Special).—After eleven months of travel abroad, Bryan has returned, and the town is all agog. And well it may be, for there is no gaudy fact that the representative American of the twentieth century is William Jennings Bryan. As Washington was the eighteenth century American, and Lincoln the nineteenth century type, so, indisputably, does the distinguished Nebraskan stand for all that is noblest, purest and best in American citizenship of our own century.

Friends are vying with each other to do him honor, and certainly the fervor of his reception as he reached United States waters must have warmed his heart. Notwithstanding some indisposition incident to the voyage, his pluck and resolution are demonstrated by the published assurance that he will keep all his engagements here, and this includes a program of homecoming receptions and demonstrations, the like of which no public man has ever experienced on the continent. All those having charge of the arrangements are most courteous, and it is evident that an earnest desire exists that all should share, as far as possible, in the tribute to West Virginia greets him by banners on Broadway as "Our Next President." Coming down on the New York Central train, even while the boat was in Canadian waters on Lake Ontario, the talk was all of the great Nebraskan. There seems to be an almost unanimous opinion that he was worthy of the plaudits of his fellow-citizens, and that in 1908 he would receive their support at the polls in such numbers as to justify West Virginia's confidence. In fact, it seems to be tacitly admitted that the Republican nomination of a man worthy of his steel but Roosevelt.

Would Make Pretty Fight. "That would be a bright young Virginian, homebound from his summer in Canada. He, a staunch Democrat, freely acknowledged his admiration for the president, and his view was that it would be more than even a contest between men of his caliber, if it developed into a Bryan-Roosevelt campaign. Early lines, he thought, could not then be held together.

However, be that as it may, to-morrow, it is claimed, will witness the greatest popular demonstration ever known in the metropolis of America. Here would have been a forceful illustration for Charles the Great, the "Heroes and Hero Worship." And well it is so in this city, that worships Mammon until one is heart sick of it. Rockefeller, with all his millions, came into port "unknown, unwept, and unsung," while the silver-tongued orator—the twice-defeated—is hailed as a conquering hero.

Two campaigns for president and two defeats, the second worse than the first, have not staid him, and he is as truly, in 1906, the Young Lochinvar of American politics as he was a decade ago, when his marvelous power and energy on the stump evoked the enthusiastic support of his political friends, and so stirred the camp of the enemy that "even the ranks of Tuscany could scarce forbear to cheer."

SUNDAY TEMPERANCE RALLY.

To-morrow afternoon there will be a big gospel temperance meeting in Massey Hall under the auspices of the Ontario Branch of the Dominion Alliance.

Rev. J. H. Hector, the famous black orator, will speak. J. W. Bengough will occupy the chair. Miss Geraldine Hector and the Hector trio will lead the services of song.

An account will be given of the strongly growing anti-room movement through the province.

The doors of the hall will be opened at half-past two, so as to prevent any crowding or inconvenience.

HAILEYBURY MERCHANTS ASSIGN.

Assignee Richard Tew will wind up the business of McCabe & Stinson, merchants, at Haileybury, whose premises began the recent conflagration.

The liabilities will run up to about \$3600. Against this is \$1800 of insurance money and some local book debts.

DIED IN HOSPITAL.

Archibald McNeil of Barrie, who was found on Brock-street wharf on Thursday suffering from asthma and exhaustion, died yesterday morning in the Western Hospital. Coroner Johnston will notify his friends.

GETS HIS JOB BACK.

Washington, Aug. 31.—The secretary of the treasury to-day formally reinstated Frederick O. Murray as collector of customs at Buffalo, N.Y. Mr. Murray was appointed on the 23rd of last February, and shortly thereafter was indicted on several counts for alleged connection with what is locally known as the grave yard scandal. The indictments were quashed.

LOOK TO ORIENT, SAYS GREY FOR FUTURE WHEAT MARKET

Governor-General's Address to Agriculturists at Prince Albert, Sask.

Prince Albert, Sask., Aug. 31.—Replying to the civic address of welcome, Earl Grey took occasion to extend several wise suggestions to western agriculturists, chief among which was that they should endeavor to cultivate the oriental market with its great possibilities.

His excellency said that as he rode thru the golden wheat fields and over the green prairie only waiting the plow and the seed wheat, he began to wonder where all this prosperity was going to end.

As governor-general, it was not for him to take a part in controversial matters, but it was his duty to take a forward view, and looking into the future he saw coming a time when the present market for Canadian wheat, which was chiefly Great Britain, would not provide a demand equal to the supply.

One remedy for this would be to adopt mixed farming, but he thought the most important step which could be taken by Canadian farmers would be to try to secure the oriental market, to sell their wheat to the Japanese, who were now in a state of transition from a rice-eating to a wheat-eating nation.

NO BREACH OF THE LAW.

Employment of Engineer Bothmann is Defended.

In a letter to The Globe, Henry Moxon questions the legality of the appointment of Peter W. Bothmann of New York as chief engineer to the hydro-electric commission under the alien labor law, which acted against the G.T.P. in its selection of expert employees.

Cecil B. Smith, in reply, however, states that the selection was made as the fittest of applicants who replied to advertisements in the Canadian and United States press.

"I have no doubt there are many Canadian engineers who could fill the place, but they did not reply to our advertisement," he says.

Hon. Adam Beck pointed out that while there may be many Canadian engineers, many of the best were more or less associated with companies disposing of power or electricity, and such associations were not deemed to be in the best interests of the public.

FROM SLEEP TO DEATH.

Prominent Editor and Citizen of Omaha Passes Quietly Away.

Omaha, Neb., Aug. 31.—Edward Rosewater, proprietor and editor of The Omaha Bee, and prominently identified with political, financial and business affairs of Omaha, and the State of Nebraska for forty years, was found dead in district courtroom No. 6 on the third floor of The Bee building early to-day. It is supposed that he fell asleep, and died of heart failure.

Mr. Rosewater went to Waterloo, Neb., Thursday afternoon, where he made a speech at an old soldier's picnic. He returned at 7 p.m., and went direct to his office in The Bee building. Judge Troup found the body when he arrived at the courtroom this morning.

Dr. Rosewater was a prominent and successful candidate for the nomination for United States senator by the Nebraska State convention.

TORONTO AS AN ART CENTRE.

The phenomenal progressive growth of the Dominion has made it in itself a factor in the world's history, not only in its rapidity but also in its stability. With the growth of the country have sprung up manufacturing industries in almost every line, and the liberal arts with the enlargement of wealth and population have been steadily cultivated and advanced. In this line one of the products attracting considerable attention is that of the making of pianos, and the great excellence of the display at the exhibition this year has gained the favorable appreciation and admiration of visitors from practically all parts of the world. Among the exhibits of pianos in the manufacturers' building this year, undoubtedly the most attractive is that of the Gerhard Heintzman Company, who display a number of high-class instruments, handsome and varied in design. This firm have always had the reputation of being the leaders in the business, and one has only to view their display to easily understand the reason. Evidently neither the time nor expense has been considered in the production of these most artistic instruments of especial beauty in a cabinet grade Sheraton, the design and inlaying of which are unique, and a Louis XV-rosewood upright that can best be described as "most elegant."

While such great attention is paid to the designing and finishing, the tonal qualities are not neglected, and every individual part, frame, plate, fitting, strings, sounding board and action, etc., is specially selected and adapted to the "very best," the result being an artistic instrument that not only pleases the eye but also produces that lovely ringing quality of tone so much admired in the modern piano. No one should miss seeing the Gerhard Heintzman display.

MOTHER'S ANXIETY.

The summer months are an anxious time for mothers, because they are the most dangerous months of the year for young children. Stomach and bowel troubles come quickly during the hot weather, and almost before the mother realizes that there is danger the little one may be beyond aid. Baby's Own Tablets will prevent summer complaints if given occasionally, because they keep the stomach and bowels free from offending matter. And the Tablets will cure these troubles if they come suddenly. You may save your child's life by keeping a box of Baby's Own Tablets on hand to give promptly. Mrs. Frank Moore, Northfield, N.S., says: "I do not know any medicine that can equal Baby's Own Tablets for curing stomach and bowel troubles. I always keep them on hand in case of emergency." Sold by all medicine dealers or by mail at 5c cents a box from The Dr. Williams Medicine Co., Brockville, Ont.

19 SHOT; 3 HANGED.

London, Aug. 31.—A despatch to a news agency from Helsingfors, Finland, announced that nineteen soldiers found guilty of participation in the recent mutiny at Sveaborg fortress, were shot to-day, that three civilians convicted of incitement to mutiny were hanged, and that others were sentenced to prison for terms varying from five to fifteen years.

METHODIST PROSPERITY.

As It is Told in the Statistics to Be Given to Conference.

The Methodists in Canada, Newfoundland and Japan number 31,717. The Oriental population is included because it is part of the Canadian conference. The general increase for the year, as announced by Rev. G. H. Cornish, who is statistician to the general conference in Canada, is 11,902. There are 1811 ministers and 388 probationers. In the last four years the total confessional funds subscribed total \$13,720,000, an increase of \$2,800,000. For 1905 the total funds are \$8,774,150, an increase of \$323,577. Of this \$1,929,940 is for ministerial support, \$1,066,416 for circuit purposes, and \$708,699 for confessional purposes.

For the four years \$4,033,029 has been subscribed for ministerial support, \$7,908,026 for circuit purposes, and \$2,620,956 for confessional funds.

The total value of church property is \$21,129,768. In 1902 it was \$16,842,438. The aggregate value of the churches is \$14,378,278, of parsonages \$2,519,900, parsonage furniture \$27,478, burial places \$190,146, colleges and schools \$106,288, and book and publishing houses, \$402,938. The total number of churches is now 3616, an increase of 306, and of parsonages 1322, an increase of 114. Notwithstanding these large increases, the landlessness on all shows a decrease of 19,375.

STRINGENT BETTING ACT.

(Canadian Associated Press Cable.) London, Aug. 31.—The legislative assembly at Sydney has passed a gaming and betting bill, which prohibits street, ship and club betting, and forbids betting at racetracks, sports and other gaming places, and empowers proprietors to remove betting tables thereon. The bill restricts the number of race meetings and provides a minimum circumference of six furlongs and licensing all racetracks. News papers are prohibited from publishing betting quotations before events.

THE "EGAN" RUPTURE ESTABLISHMENT.

—A CANADIAN SUCCESS—

Established in Toronto forty years—the oldest, largest, greatest and only one of its kind (exclusively devoted to Ruptures) that owns and occupies its own building—it is an advantage to know that you are consulting exactly what the case demands, and that you are financially—No experimenting—Everything a certainty.

TO MARRIED AND UNMARRIED WOMEN.

Hundreds of ladies are suffering unknown misery, the cause of which is a neglected rupture. If you are a sufferer, do not neglect your case. Rupture, if neglected, grows into a chronic disease, and is difficult to be benefited. All ladies suffering from any form of rupture can be successfully treated without any operation, pain, loss of time or personal inconvenience. Remember, everything strictly private and professional. I also make special mechanical treatment for Floating Kidney, Corpulency or any form of Displacement, also support for use after operation. Children's case a specialty. A cure effected in a few weeks.

SPECIAL

Ladies afflicted with Rupture, or mothers having children so afflicted, who cannot conveniently come to my office or who prefer to make arrangements by letter or telephone to be attended to in the privacy of their own home, or at hotel if visiting Toronto.

NOTE THIS

To facilitate my large clientele, I have set aside two special days at my office for ladies and children, viz., Monday and Friday.

CHARGES AND TERMS

My charges are cheaper than any other person (in my special work) in the world—taking into consideration the value and service I give each patient—at the same time in figuring the probable cost to a patient—I do not see how cheap I can give my services, but first of all I consider exactly what the case demands, and then I charge for that charging a low price, thus placing my services within the reach of the poor as well as the rich. Terms of payment can be satisfactorily arranged in every case to meet conditions, therefore there is no reason why you should not consult me at once and be cured.

OUT-OF-TOWN PATIENTS

Patients who cannot consult me personally can write a letter, when full information will be sent free. Kindly enclose the name and address of the hotel accommodation can be secured for visitors who so desire if they will write ahead to me. My office is only five minutes walk from the Union Depot, when all the trains arrive, and fifteen minutes walk from steamboat landing (foot of Yonge street, where all the boats arrive). Ask any policeman in uniform for directions.

A WONDERFUL DISCOVERY.

This is the age of research and experiment, when all nature, so to speak, is ransacked for the scientific and the medicinal. Science has discovered many strange and wonderful things, and among these by no means least important, is a discovery in medicine called that of

THERAPION.

This preparation is unquestionably one of the most genuine and reliable Patent Medicines ever introduced, and has, we understand, been used in the Victoria Hospital by Messrs. Ross, Johnson, Continental Hospitals, the well-known Chassaignac, and indeed by all who are regarded as authorities in such matters, including the celebrated Lallemand and Ross, by whom it was some time since uniformly adopted, and that the worthy attention of those who require such a remedy we downwards, a potent agent in the removal of these diseases has, like the famed Hippocratic stone, been the object of search of some hospital, generous minds; and far beyond the mere power—such could ever have been discovered—transforming the bitter metal into gold, surely the discovery of Therapiion is a most wonderful and valuable one. It is a most effective and safe remedy for all the principal ailments of the human system, and is a most valuable and safe remedy for all the principal ailments of the human system, and is a most valuable and safe remedy for all the principal ailments of the human system.

MURDER IN FIRST DEGREE.

Herkimer, N.Y., Aug. 31.—A special grand jury to-day reported an indictment charging murder in the first degree against Chester Gillette, who is alleged to have killed Miss Grace Brown at Big Moose Lake. Gillette was arraigned and counsel assigned to defend him.

BLOOR ST. BRIDGE CERTAIN AS MAYOR READS FUTURE

His Worship Also Expresses His Sympathy in Housing of Workingmen.

Mayor Coatsworth says as far as he is concerned there is no quibbling in the matter of relieving the dearth of workingmen's houses in Toronto.

This is what his worship said to a World reporter at the city hall yesterday afternoon after reading a World editorial:

"I am earnestly in favor of some provision being made towards relieving the workingmen in the dearth of houses suitable for them in localities, accommodation, price or rent. Whether it is done by the city or manufacturers or some arrangement is made for the relief of the municipality to come to the relief of the workingmen in the face of a crisis such as exists now in Toronto in regard to providing houses for families. This committee and I are in entire accord on the subject, and whatever will bring relief in the speediest manner is what we will unflinchingly support."

Regarding the high level bridge over the ravine as a solution of the problem his worship said:

"I think with some good advice and consideration as to the point where it should cross, the bridge is a question demanding attention in the near future to aid in the development of Toronto. The expense is a drawback. As to the location of the bridge, the shortest cut across would be from Wellesley-street. The bridge is one of the certainties of the near future."

Special Series of Sermons.

A special series of Sunday evening sermons, under the general head of "The Message of Jesus to the Men of Today," will be begun shortly in Bloor-street Presbyterian Church, of which Rev. Dr. W. G. Wallace is pastor. The preachers will include Rev. Principal MacLaren, Rev. Prof. Kirkpatrick, Rev. James A. Macdonald and Rev. Prof. Kennedy, each man taking a special sub-topie.

"PRINCESS VICTORIA" BLAMED

For Collision in B.C. Waters—Damage Suits Will Result.

Vancouver, Aug. 31.—The court of enquiry appointed by the minister of marine and fisheries to investigate the cause of the collision between C.P.R. S.S. Princess Victoria and Union S.S. tug Chehalis on July 21 in the harbor here, in which ten lives were lost, concluded to-day.

The finding was against the Princess Victoria, and suspended the certificate of Capt. Griffin for six months. Also the costs of the enquiry were against the C.P.R.

The department will be asked to make new regulations governing shipping here. Many suits for damages are to follow.

ANGLO-FRANCO EVENING EMPHASIZED BY SAILORS

Quebec, Aug. 31.—It is noticeable that on the French cruisers passing the German vessel to the side of the ship and cheered loudly. The men in the cruisers responded with equal heartiness.

As the vessels passed H.M.S. Dominion they dipped their ensigns, which the latter vessel duly acknowledged.

SHOOTING FOR PALMA TROPHY CANADA MAY BE COMPETITOR

Sagitt, N. J., Aug. 31.—At the annual meeting of the National Rifle Association of America, Gen. Bird W. Spencer, the president, announced that he was aware that some of the members were inclined to the belief that he had outlived his usefulness as president. A test vote indicated that opposition to him had a decided majority.

Gen. Spencer reported that a match for the Palma Trophy with the United States, Great Britain, and very likely Canada, competing, will probably be held at Ottawa, Canada, next summer.

AUSTRALIA'S BARS UP CANADA'S TRADE ALIEN

Preference Extended to Britain and New Zealand, But Not to Us.

Ottawa, Aug. 31.—The trade and commerce department has received a cable despatch from J. S. Larkie, Canada's commercial agent at Sydney, Australia, stating that the Commonwealth Government has introduced a bill giving a tariff preference to Britain and New Zealand.

This will increase the duties on butter, cheese, grain, onions, potatoes, timber and bacon. The exact increase is not given.

On woodenware, ammunition, boots, shoes, furniture, engines, paints, paper hangers, saucers and platters, there is an increase of 10 per cent.

The same tariff will be levied on Canada as against the United States, notwithstanding Canada's repeated efforts for a preference.

HAS THIS CONSOLATION.

Queen Street West Wardrobe is Ready for a Great Saturday Business.

"I feel just like saying naughty words" said Ed. Mack, who was in an irate mood when he described the work of some of the contractors who had undertaken to have the Semi-ready Wardrobe at 81 Yonge-street open for Saturday.

The formal opening of the Yonge-street store will be fixed for some day next week. The Semi-ready Wardrobe at 472 Queen West is doing a splendid business, many gentlemen coming to it from down-town.

West Queen-street would soon take on new life as a distinctly high-class thoroughfare if several more good houses like Semi-ready and Slater Shoes were to open shops.

(Canadian Associated Press Cable.) London, Aug. 31.—Commenting on Hon. William Mulock's glorifying in the fact that Canada is not burdened with military debt, The Dundee Advertiser says it is a clear and true reflection of Canadian sentiment.

INDIANA RAISE OBJECTIONS.

Ottawa, Aug. 31.—A difficulty has arisen between the department of marine and fisheries and the Indians of the Babine agency at the head waters of the Skeena River, on account of the Indians placing weirs or dams in the river. The department had these dams taken out, and the Indians are now asserting their right to place them there.

PORPOISE EXCITES MONTREAL

Harpooned in the Harbor and Will Go on Exhibition.

Montreal, Aug. 31.—A fifteen-foot porpoise was harpooned in the harbor to-day.

Half the city has had a try at it, with rifles, spears and harpoons. In the last three days, and Dominion Park offered \$500 for its capture. It will be put on exhibition there.

Four years ago a forty-foot whale was shot in the harbor.

OUR FIGHTING SPIRIT.

Like Pickwick's Brigade—"Ready to Fight at Any Old Time or Place" Sir William Mulock does not like the implication in grown-up folks of the fighting spirit that lies dormant in most men, even after they have failed to like the new boy in the schoolyard.

The military party and the three hundred odd colonels in the militia department at Ottawa will not agree with the learned chief justice.

Take the field in two hours—just as a Semi-ready suit is finished in two hours after being tried on. If the Canadian militia were equipped with uniforms made on the Semi-ready physique type system its annual camp would be a daily dress parade with every soldier smart and well-dressed.

The walls are finished in with silver blue stripes overlapping a pretty pearl grey burial.

The woodwork throughout is of quarter-cut oak, while the windows have been enlarged and new side light being added. To further help along the idea of brightening up and giving more light to the interior of the store, some handsome British plate mirrors have been placed on the side of each window.

At the top of the windows, from wall to wall, there is a canopy of art glass in tulip. In the evening each panel apparently bursts into bloom when the lights are turned on. Prettily decorated Venetian globes are used.

The entrance to the store has been paved with mosaic, the words "Slater Shoe Store" being neatly inset.

The floor has been covered with heavy scotch linoleum, the pattern being in a light color, which harmonizes with the fixtures and fittings in the store.

The Bell Piano

Autonola

The number of Bell Playerpianos that are being purchased from us is only limited by our ability to meet the demand. This wonderful instrument is a revelation to lovers of piano music, to people who had never thought to be able to play for themselves. With the Bell Playerpiano anybody without the ability to play for himself or herself can produce music of the highest artistic character. This instrument actually permits of piano playing by everyone, and playing in which the control of tempo and expression is complete; not mechanical music, but having all the human qualities that appeal to us in the performance by hand.

The owner of a Bell Playerpiano has at command the best compositions of the centuries—can play at will classical, popular, vocal or dance music in a way that is at once satisfying and musically correct. All that is necessary is to introduce the desired music-roll, place the feet upon the treadles, the fingers upon the controlling levers, and begin playing!

The Bell Playerpiano cannot only be played with the aid of treadles and music-roll, but it can be converted instantly into a regular piano for playing by hand. The music roll box can be closed, and the treadles concealed within the case; the piano is then like an ordinary instrument, and can be played manually like any other piano. Thus, this Bell Playerpiano is virtually two pianos in one.

With each Autonola you get, without extra charge—fifteen rolls of music of your own selection, classical or popular. You can exchange any of these rolls at any time on payment of five cents for each roll, and you have a choice of **Over Two Thousand** selections from the Music Library at 146 Yonge St. It will pay you to examine this wonderful Autonola at the Toronto Exhibition and also at

MRS. DIXON'S RETRACTION.

Senator McCarren's Counsel Will Go on With Mysterious Case.

New York, Aug. 31.—(Special.)—I have received no official notice of any retraction or withdrawal of the suit against Senator McCarren from either Mrs. Dixon or her counsel. Neither have I had any consultation with my client, Senator McCarren. It is up to the other side to take the first necessary official steps in regard to the retraction, if one has been made. We are going right on with the examination of Dr. Dixon just the same. Lawyer Wyvel, Mrs. Dixon's counsel, has asked for an adjournment, but we see no reason for granting one.

Thus spoke Lawyer Whitehouse of Senator McCarren's counsel this afternoon.

Mrs. Dixon, despite her retraction of yesterday, refused to say whether her suit would be dropped.

"Mr. Wyvel will have to carry on the suit unless I get some money. He has spent his own money so far to carry on the case."

She is evidently waiting developments. Wyvel, when he read the story of the retraction, was both astounded and very angry. The status of the case is very mysterious.

WILL IS DISPUTED.

Brother Says Sister Was Incapable of Making Instrument.

Richard Reynolds, 74 Sullivan-street, objects to probate of the will of his sister, Mrs. Margaret Colard, alleging that if she signed the will it was under undue influence, as she was incapable of making a will. The estate totals \$6451.40, and Philip T. Teeter is the executor.

Teeter & Reynolds were executors of Mr. Colard's estate, over which there was also a dispute. Colard died in July, 1905, when he was 72, after his marriage with the testatrix, who was about the same age, made a new will, leaving all his property to her. By the former will a legacy was left to the Toronto Jewish Mission, and its trustees, protested, but lost out.

Mrs. Colard's estate consists of \$4081 cash and \$150 in realty, deceased's share in the estate of her late husband. Mrs. Colard's sister receives a house and lot, and all the furniture. After her brother, Richard Reynolds, is paid \$100, and her nephew, Richard Reynolds, Jr., is paid \$200, Johanna Flack receives the residue.

George Edward Lewis of Toronto, gardener, died leaving no will and his son Thomas applies for letters of administration. The estate is \$15,000, of which \$15,000 is realty.

The late Rev. William Bee of Toronto, retired preacher, died intestate. His estate totals \$5000 and is made up of \$2283 in book debts and an equity of \$1800 in 15 Birch-avenue.

SUES FOR RE-ADMISSION.

Wm. Adams Brings Up Matter of Interest to A.O.U.W. Members.

An action has been entered at Ormonds Hall by William Adams that will object to probate of the A.O.U.W. Adams fell behind in his dues. He was re-examined by the doctor for readmission and was in fact in a hospital. He claims that as there was no old-age rule when he joined the society it could not operate against him and holds that he is entitled to readmission on payment of back dues and examination according to the rules of the society.

Not Ready to Go On. Magistrate Ellis was ready to go on with the case of Edward Garfunkel, the Long Branch man, who charged a number of residents with attacking his house a fortnight ago, but the complainants and defendants were alike unprepared to take up the matter, and the magistrate accordingly adjourned the case until next Thursday.

WOMAN'S WORLD.

Somewhere. Somewhere, Dear Heart, you wait for me, I know; Somewhere your heart, in unison with mine, Beats but for me, wherever you may go.

And throbs its tender message at Love's shrine. Somewhere—it may be very near, and yet I've never seen your face nor heard your voice, And never by intent or chance we've been more and rarer.

To look upon each other and rejoice. Somewhere—it may be many miles away— You sit and dream of that most happy thing When you shall meet Affinity and say: "Ah! you have come, my love, and I am thine!"

Somewhere—your soul cries out to mine in joy. And mine, responsive, thrills with subtle pain; Just as the mariner cries "Ship ahoy!" So shall I know you've come thru storm and rain.

So we must bide our time and wait—we two— And fight our way thru sorrow and thru care; Behind the clouds is always Heaven's blue— And I shall find you, dear—some day—somewhere!

Will Go to Winnipeg. Miss Eva L. Jones of Havergal College, Toronto, has been appointed principal of Havergal College, Winnipeg.

Miss Dalton, who has been principal since the opening of the college nearly five years ago, has been obliged to resign thru ill-health, to the great regret of her many friends.

The rapid growth of the college and the marked success of its work during the comparatively short period of its existence are largely due to Miss Dalton's personality and untiring efforts. Miss Jones has been member of the staff of Havergal College, Toronto, for the last four years, for the last three of which she has been responsible for the organization and management of the day school.

Miss Jones graduated at St. Andrew's, Scotland, with first-class honors in history, English and modern languages. She finished her education abroad, and holds a diploma from the Sorbonne, in Paris, for proficiency in French. Her educational experience has been gained in Germany, London and South Wales, and she has taken a deep interest in the future of Canadian education since coming to this country.

As a member of the executive of the University Women's Club, Toronto, Miss Jones has come in touch with many who are similarly interested.

Stripes in Style. It is interesting to know that stripes are to be high style during the coming seasons. They are shown in mannish mixtures, gowns, suits, etc. in many of the new creations, and in a great variety of beautiful silks. Paris is also very much given to stripes in certain Bedford-cord weaves. Then there are chiffons, which are now looked upon as stripes. Here the new fashion note is the stripe, generally in black and white.

Broadcloth, for both tailor suits and the dressmaker's gown, is as fashionable as it was last year. Of course, there is a reason for this. The fact that it is made of the best sorts of wool has much to do with it, and it dyes so successfully, making it possible to show it in a great variety of colors.

Crunch, a fabric very similar to broadcloth, will also be fashionable this fall, and many of the Parisian dressmakers are looking with approval upon rep, a glossy piece-dyed fabric.

Suitings in broken checks and indistinct stripes, showing a black satin over-stripe, will be among the novelty materials. The ground colorings will be very effective in dark combinations of blue, green, and red, etc.

The velvets were never lovelier in their colorings, and they will be worn extensively in winter in certain shades of blue and the wine or sherry tones. Velvet, with its beautiful, lustrous finish, will also be a much-favored material.—Grace Margaret Gould.

Care of the Eyebrows. The eyebrows should not be neglected. The woman who wants nice eyebrows can beat little almond oil and apply it nightly to the eyebrows with a small brush. In this manner the eyebrows can be induced to grow, and are inclined to grow shaggy. But by painting them with a brush regularly they can be trained into shape.

Horiculturalists Officers. Guelph, Aug. 21.—At the evening session of the Ontario Horticultural Association J. H. Dunlop, A. Gilchrist, W. J. Lawrence and W. Mustein were appointed to wait on the government and ask to have the horticultural work of the O.C.A. extended; asking that scientific investigation receive more attention.

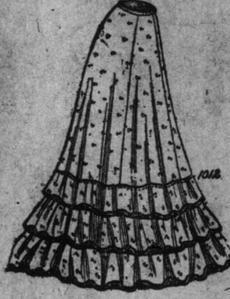

The new officers are: President, J. Lawrence, Toronto; 1st vice-president, John Walsh, Montreal; 2nd vice-president, E. Dale, Brampton; treasurer, H. Simmers, Toronto; secretary, A. H. Ewing, Woodstock; executive, for one year, E. Pincoff, E. Anandale, W. Taylor, two years; J. Suckling, J. Edgely, J. Campbell, three years, W. Kehoe, A. S. Stephens, F. Dickie, representatives to Toronto Fair; H. Simmers, London; A. Stephens, W. Savage, Ottawa; E. I. Hepstead and R. Wright.

Regained Nerve and Vital Energy. From Walton P.O., Quebec, comes the following from Mr. Naire Begin: "If anyone had told me any remedy could build up my nervous system so well, I would not have believed it. I was suffering from nerve and vital energy, and in very weak health. I didn't get enough sleep at night, felt poorly in the day time. Ferronze has filled me with energy and vim, increased my weight and made me a new man of me."

Hundred told the same story—weak and dispirited, everything going wrong, unable to catch up. They took Ferronze, and all was changed to health and serenity. Price 50 cents per box at all dealers.

THE WORLD PATTERNS.

Designed by Mildred Cassels.

Lady's Three-Piece Skirt—1012—A particularly graceful skirt is here shown, having three or four graduating flounces, and can be trimmed with braid, a trimming very much in vogue this season. Almost every woman will want one of these attractive skirts to complete her summer wardrobe, and it can be nicely developed in any of the soft silks or sheer materials. The skirt fits smoothly over the hips, and is finished at the back with an inverted box-pleat, and can be made in medium or round length. The pattern is cut in 5 sizes from 22 to 30 inches waist measure. For medium size 13 1/2 yards of material 27 inches wide or 12 yds 44 inches wide is required. The lower edge of the skirt measures 4 1/2 yards.

World Pattern Department. Please send the above-mentioned pattern, as per directions given below, to Name..... Street..... Town..... Province.....

Measurement—Waist..... Bust..... Age (if child's or miss' pattern).....

CAUTION—Be careful to enclose above illustration and send size of pattern wanted. When the pattern is bust measure you need only mark 22, 24, or whatever it may be. When in waist measure, 22, 24, 26, or whatever it may be. If a skirt, give waist and length measure. When miss' or child's pattern write only the figures representing the age. It is not necessary to write "inches" or "yards." Patterns cannot reach you in less than three or four days from the date of order. The price of each pattern is 10 cents in cash or postal order. Do not send stamps.

Thompson-Mackay. The marriage took place on Wednesday of Miss Margaret Smith Mackay, only daughter of Rev. R. P. Mackay, D.D., general foreign missionary secretary of the Presbyterian Church, to Rev. Knox Thomson of Owen Sound, a Knox graduate of this year. They met in a few days for a mission field in Hunan, China.

The Fall Coats. The short pony coats and the box styles will be worn, matching the skirt, while the short cape boleros of plain cloth, used over a frock check or plaid, with which it harmonizes, is considered very smart.

BATTLE FOR MOROCCO. Pretender Has 6000 Troops Ready to Tackle Sultan. Madrid, Aug. 31.—Despatches from Melilla, Morocco, say that the pretender to the throne is concentrating 6000 troops at Muluya, in preparation for a decisive battle with the sultan's forces, which are said to number 4000 well-armed men.

Paris, Aug. 31.—A despatch to the Temps from Tangier, Morocco, to-day says that the sultan has released his elder brother, who had been imprisoned since the death of their father.

THE NEW 1000-MILE TICKET. On Sale at Pennsylvania Railroad Offices and Affords a Most Accommodating Form of Transportation.

The general Passenger Department of the Pennsylvania Railroad has supplied the ticket offices of the system with full stocks of the Mileage Books, recently adopted, and they will be sold to travelers on and after Sept. 1. These books contain coupons entitling the holder to travel one thousand miles over any of the lines of the Pennsylvania Railroad System east of Pittsburgh, Erie and Buffalo, inclusive, and the Cumberland Valley Railroad, and are sold at a flat rate of \$20. They are valid for use for one year from date of purchase as stamped on the cover.

The introduction of this ticket supplies every demand which could exist in a ticket, unhampered by conditions and unrestricted as to personal use, and gives to the frequent traveler over the Pennsylvania System the benefit of a two-cent-mile rate.

The advantages of the ticket are obvious and manifold. It may be purchased with the same ease as a card ticket or any other ticket not requiring signature or witness. The name of the holder does not appear upon it, and it is good for the transportation of any one who presents it, and as many others accompanying him as the mileage will include. Any member of a firm or an employee, any official or employe of a corporation, any member of a family, or a guest may use the ticket just as if any one of these persons had been the original purchaser. As a matter of fact the holder of the ticket enjoys all of the privileges to the fullest extent of its transportation value. The ticket will

\$10 Worth of Hair—\$1,000 Worth of Humiliation

When a man loses his hair and seeks to replace it, he simply cannot afford to take any chance with an inferior or poorly made Toupee or Wig. As he can buy a suit of clothes for \$5.00, so he can get a Toupee for \$10.00, but the wise man turns away. There is too much involved to take the risk.

THE PEMBER STORE is famous as the centre of reliable and high-grade hair goods. A man who wears a Toupee wants the very best. He demands it and he gets it if he comes here. Every Toupee or Wig we make is the embodiment of years of experience, and is as light, well ventilated, natural and perfect fitting as expensive brains, labor and hair can make it.

That we can positively make a Toupee or Wig that can not be detected from the natural hair, we are demonstrating daily.

EXHIBITION TIME Offers you a special chance to see and test the truth of every printed statement we make. Private Parties for Inspecting and Demonstrating.

Your new scale Concert Grand Piano possesses unique musical characteristics that must give it a distinctive place among the great pianos of the world.—Richard Burmeister.

A pianist who reminds one of Rosenthal; but with more vocal coloring. As a critic has said, must indeed rank high as an artist. Such is Jonas, who by his Canadian triumphs secured exclusively a Heintzman & Co. Concert Grand Piano.

It afforded me the greatest pleasure to know that for an instrument as the Concert Grand Piano of Heintzman & Co. used at my concert in the Armories in Philadelphia, one from Cincinnati, one from Buffalo and one from the overall branch of the trade, these to be called vice-presidents. They were voted down on the argument of a lady delegate, who vehemently exclaimed: "We want only the very best men obtainable, and if one district can produce more capable men than another, that district should get the representation."

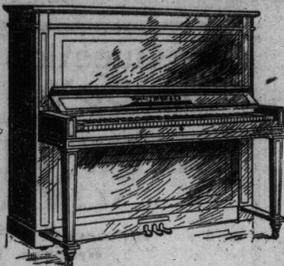

THE HEINTZMAN & CO. PIANO

Is in a Class by Itself.

Not only the beautiful art cases, but also the distinctive tone of these pianos has made them an exclusive art creation from whatever standpoint viewed.

CHIPPENDALE ART PIANO

Thomas Chippendale was a furniture maker of England in the reign of George 1, 1752. Most of Chippendale's work was of the inlaid sort—lines elaborate and delicate. His work reflected

the culture of his age, and when in 1752, he published a book of designs for furniture, dedicated to Prince William Henry, and entitled "The Gentleman and Cabinet Maker's Director," his genius in his particular line was at once recognized. The Chippendale Art Piano, shown in the illustration, conforms in every detail to the laws of form laid down by the old cabinet maker of Worcestershire.

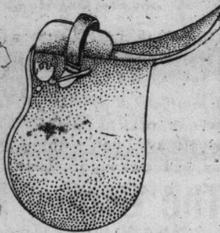

To be seen at the Industrial Exhibition.

BETTER TALE IS NOW TOLD OF SCHOOL ACCOMMODATION

Superintendent Bishop Reports to Property Committee—Only Two Delayed.

Superintendent Bishop's report on the progress of repairing the public schools, as presented at yesterday's meeting of the property committee, showed that with the exception of Palmerston and Dovercourt the work of accommodating the pupils on Tuesday should be fairly successful. On these two, the superintendent expects to complete the work in two weeks. In Dufferin school, where \$10,000 was expended, the work is practically completed. Plans for the new high school in Riverdale are nearly ready, and will be presented at the next meeting of the committee. Tenders will be asked at once for the additions to Essex, Devonson and Kew Beach schools.

BARGAINS FOR BOYS.

Jamieson's Offers Exceptional Assortment of Outfittings for Children.

With the newest designs, the most perfect workmanship in every class of goods and made to fit all ages, Toronto mothers will find an assortment in the boys' clothing department at Jamieson's exclusive to a degree and which cannot be equalled in Canada.

The display yesterday was preparatory to the school opening next week. Every kind of knicker, Norfolk, shirt waist and suit shows the skill of the manufacturer in turning out an article, the greatest value for the least money. The outfitting of the school boy is Mr. Jamieson's specialty, and the most appropriate designs for the fall and winter wear of the kindergarten, children and youths are the result of the summer's work of his cutters. All the way from twenty-five cents, the little knickers run up to a dollar in heavy tweeds, cloths and serges. All ages are provided for, in short and long ready-to-wear trousers.

Jamieson has everything in Scotch and English tweeds, and worsted suits in all sizes. A full line of overcoats, the "Young Czar" for boys from six to twelve, is one of the newest on the market, and has been especially made for the patrons of the Roundel Corner.

The boys' furnishing department, stocked to the brim, includes a full line of shirt waists in a variety of styles and patterns. Neckwear, hosiery, shirts, collars—the stock is complete—as this is the only store in Canada where a department is strictly devoted to boys' clothing.

Brownie suits, sailor suits, blouse suits with belts and bows, corduroys with fancy collars, Norfolk suits to fit all ages from three years to fifteen, "our own make" from imported English and Scotch tweeds, are some of the lines worth of special mention.

Also there has been an extraordinary advance in black and blue worsteds, thru careful buying Mr. Jamieson is prepared to sell these goods at the old price. Mothers are wise who patronize the Roundel Corner.

EXECUTIVE HAVE OPTIONS ON 8-HOUR ENFORCEMENT

Regulation Not Compulsory as Affecting All Grades of Garment Workers.

The eight-hour day question was neatly disposed of in the afternoon session of the United Garment Workers yesterday.

While the convention endorsed a resolution including all branches of the trade in the eight-hour principle, whereas previously it only affected the overall and shirt industries, it was left to the executive to enforce it when convenient. Had the conference endorsed the measure on its face, it would have been in all the departments throughout Canada and the United States might have ensued.

A Philadelphia delegate proposed equalizing the distribution of members of the executive with regard to location. It presented there two from Chicago and three from New York. He proposed making it compulsory to pick one from Chicago, one from Canada, one from Philadelphia, one from Cincinnati, one from Buffalo and one from the overall branch of the trade, these to be called vice-presidents. They were voted down on the argument of a lady delegate, who vehemently exclaimed: "We want only the very best men obtainable, and if one district can produce more capable men than another, that district should get the representation."

On a plea from the Canadian delegation the constitution was amended to read, "a candidate, male or female, for membership must be at least 16 years old, employed in the manufacture of men's, boys' or children's garments." The factory law allows them in at the age of 14.

It was decided that no local be permitted to charge over \$5 for initiation fee.

A resolution endeavoring to do away with the biennial convention and return to annual meetings was lost on division.

As the delegates are in a hurry to wind up business in order to be at home on Labor Day, a special meeting was held last night to hear the balance of reports from the committees. It was decided to retain The Weekly Bulletin of the clothing trades as the official organ.

The western delegates protested against a lack of attention and expenditure of money in that section as compared to the east. They feel that more money has been spent in eastern organization. The action of the general administration, who had done their utmost with the means at hand in the past, was approved, and the matter was left to their discretion for the future.

The election of officers will take place this afternoon as a special order of business. There is likely to be little opposition to the present president, T. A. Rickert, Chicago, and General Secretary E. A. Langer, Bellevue, Ky. General Treasurer W. W. Mack, New York, and First Trustee B. Schweitzer, have expressed their intention of retiring from the board, but pressure is being brought to bear on them to stand. The constitution provides for one executive member from Canada.

There are three candidates for delegates in the field, one of whom is W. E. Duffy of Toronto, chairman of the convention arrangements committee.

FOOD THAT IS REALLY PURE.

Never Any Doubt as to the Excellence of Shredded Wheat.

Visitors to the Toronto Exhibition who are cognizant of the disclosures concerning the meats prepared and shipped into Canada and elsewhere by the great packers, will have a chance to see with their own eyes how "Shredded Wheat"—the cleanest and purest cereal food on the market—is made. The whole system, cleaning, washing, shredding, panning and making, will be seen in full and in detail. Very interesting are the ingenious devices for removing every particle of dirt, sand, chaff, sticks and other foreign substance. But nothing could be more interesting than to watch how the whole wheat is drawn into "the strands" laid in the pans, and then cut into oblong biscuit shape before baking. This in itself is worth the interest of the new process building. Visitors will be made welcome, shown every detail, allowed to sample both biscuit and triscuit, and given all the information desired. This "making of bread without flour" as it is called, is part of the exhibition, and those who are interested in food products will find it especially attractive and instructive.

Broadview's New Pavement.

Numerous complaints have been received because the asphalt paving of Broadview-avenue, from Gerrard-street north to Danforth-avenue, has not yet been commenced. The contract was let to the Constructing and Paving Co., who are willing to go on with the work as soon as ordered to do so by the city engineer. At the engineer's department it was learned that the Constructing and Paving Co. must finish the present work of resurfacing Yonge and Jarvis-streets before starting new pavement. This will take about a couple of weeks more, and then the Broadview pavement is to be commenced, and it will be finished this fall.

CUBA—THE LAND OF SUNSHINE

CANADA-CUBA LAND AND FRUIT COMPANY, Limited

TO THE CAPITALIST.
 Absolute security. Land that will in two years be worth five times the present price.

TO THE MERCHANT.
 If your business or health fails a plantation will give you a handsome return. No laborious work in a climate of perpetual June.

TO THE WORKINGMAN.
 An easy way of procuring a home. A future that cannot be obtained elsewhere. Don't fail to write or call. Every information freely given.

The heat in Cuba is never so oppressive as it has been the past week in Toronto.

Visitors to the Exhibition should call and see us, when all information will be cheerfully given and literature supplied.

If the United States assumes the government of Cuba, in six months' time not a foot of fruit land will be sold for less than \$200 per acre.

We have already sold over forty square miles of our estate in small tracts, have the largest number of settlers of any Canadian Colony in Cuba, and have still for sale more than twice the area owned by any other Canadian company operating in the Island.

Upwards of 200 people intend to leave for our property during September to make their home amongst numbers, who are already on their Plantations and who give most encouraging reports. It is necessary to purchase now to have your Plantation ready for this winter's crop.

This Company will undertake to have your plantation cleared, plowed and planted at the mere cost of trees and labor, thus ensuring you a permanent home for the future. No investment is more profitable or so sure as an orange plantation. Trees bear for over one hundred years. Good returns can be made by growing all kinds of vegetables and small fruits (between the rows of orange and other trees), which can be shipped to Havana, New York and Canada during winter months, when everything commands the highest prices.

Bear in mind all citrus fruit land must be a light sandy loam soil; this is the experience of all citrus fruit growers; so many inexperienced judge the light soil of Cuba falsely. We undertake to locate for all our purchasers and will get their expert reports on their location and give them the privilege of exchanging the same into any part of our property so set apart and not already sold. We give you every acre free from swamp or rock. Any low lands are not charged for. You can't get any better or fairer contract than this.

THE BEST PRACTICAL ORANGE AND OTHER FRUIT GROWERS, WHO HAVE PURCHASED FROM OUR COMPANY, SELECT THE LIGHTEST OF OUR LANDS AND CLAIM THEM TO BE THE FINEST LAND TO BE FOUND IN CUBA FOR ALL CITRUS FRUITS.

TO PROTECT FISH AND GAME

Continued From Page 1.

and that no change be made from the prohibition against exportation; while bass should not be placed in waters where speckled trout are abundant. These other recommendations were made by the committee.

Black bass—Twelve inches to be the minimum length for catching; open season to be from June 15 to Nov. 30 inclusive; approval of pond rearing of small mouthed fish.

Silver bass—Not to include them in fishing regulations.

Muskies—Open season June 15 to Nov. 30; propagation in fish hatcheries if workable; more government attention to maintaining lake levels during the spawning season.

Pickers—Not to include in fishery regulations.

Foggs—To prohibit sale or exportation of frogs' legs for five years.

Kelly Evans, dealing with impurities brought into streams by refuse from factories, cited the case of a large paper mill in the United States which had been able to eliminate this undesirable pollution, and thought Canadian industries should make such provision.

No Export of Food Fish.

The absolute prohibition of the exportation of all food fish for five years was the radical recommendation made by the committee dealing with food fish. It was proposed that the 6-inch mesh be the smallest allowed for catching white fish and salmon trout, and that from Oct. 1 to April 1 be made a close season for white fish, salmon trout and pickers, and the close season for herring from Oct. 15 to April 1, also it is asked that the catching of sturgeon for five years be prohibited. Apart from the great lakes it is recommended that the use of nets be not allowed, and that the government take pains to ascertain that licenses are given only to proper persons. The appointment of a commissioner, who as a member of the government would have charge of the department of fish and game, was also approved.

Dr. C. H. Riggs, Toronto, who submitted the report, said that bass in the lakes of Muskoka had become almost extinct through the practice of lumbermen in removing stop logs, which caused a flow of water, and stranded millions of fish.

Furbearing Animals.

The committee on fur-bearing animals declared satisfaction with the law prohibiting the killing of beaver and other before Nov. 1, 1910, but believed it was not being sufficiently enforced. It was recommended that there be established more preserves for propagation, and that there be strict government supervision. It was declared that furs were being exported to the United States, contrary to law, and a remedy suggested was the establishing of reciprocal relations between Canada and the United States. A close season, from Nov. 1 to Feb. 1, was favored. The government should adopt more stringent protective measures.

For muskrats, an open season in Northern Ontario, from Oct. 15 to May 1, and in southern waters, from Nov. 1 to May 1, was desired; and that 15 days be allowed for disposal after the season's close. The government should take steps to regulate the taking of marten, mink and fisher, and the close season should be from Nov. 1 to March 1.

The Fishery Reserves.

The committee on public game domains, parks and forests recommended that the northern and eastern shores of the Georgian Bay from Killarney to Penstang be set aside for angling. The importance of setting apart reservations from time to time as needed, as tending to increase the supply of fish and game, and prevent the acquisition by private parties and clubs of large tracts of the public domains for exclusive hunting and fishing privileges was favored.

The committee on the transportation of fish and game by common carriers, made up of delegates of the Ontario Fish and Game Prevention Association, together with officers of the Grand Trunk and C.P.R., gave the unanimous opinion that it was to the interest of the country and the railways alike to prohibit the export of game and game fish. It was found that the present system of inspection was ineffective, and it was recommended that the government make it illegal for any transportation company to carry commercial fish for export unless accompanied by a government inspector's certificate and a detailed invoice showing the nature of the fish. The government should appoint inspectors at strategic points, and a nominal fee charged for inspection and certificate issuance. The recommendations are to apply only to fish exported for commercial purposes, and not to fish caught by tourists.

Big Game Hunting.

The matter of big game was not reached till late in the afternoon, and time not serving consideration of the more important recommendations of the committee was deferred, namely, that the time for hunting be extended to Nov. 30, that every licensee be entitled only to 15 consecutive days hunting in each year, and that the

1. The government should establish more preserves for propagation.

Better Inspection.

The committee on fishery overseers and game wardens reported in favor of appointing efficient men to look after both fish and game, one to be assigned to each of the counties, or districts where game and fish abounded, their whole time to be given to the work, that they have power to appoint assistants in special cases, and that two or more special detectives be appointed to investigate, where necessary, and report to departmental minister. It was also asked that the officers of each branch of the association be appointed guardians by the government, without salary.

Feathered Game.

A close season for feathered game, from Dec. 15 to Sept. 15, was favored. The meeting declared against duck-shooting in the spring, the use of gasolene or other launches or sailboats in duck-shooting, or routing, and the use of stationary blinds or hides more than 100 yards from the shore line. Boats or punts should be allowed to be used in open water; but decoys not tolerated over 100 yards from any shore line or rush bed. It should be unlawful for plover or any other shore birds to be shot in spring. A law in favor of the cultivation of quail, and making it unlawful to shoot them for three years, was favored. Strong objection was expressed to the sale and exportation of ducks.

The committee on reciprocal arrangements with the United States reported in favor of taking steps to make arrangements to restrict the shipping of fish and game legally captured in Ontario into the United States, and vice-versa; also, that there should be uniform laws for the propagation and protection of fish in the great international waters, and arrangements made, by which the officials of both countries could work together for this object.

Prohibition of Nets.

The committee on nets favored the absolute prohibition of trap, hoop and pound nets, as very destructive. Gill nets should be licensed in non-protected waters only. Nets illegally used shall be destroyed on sight. All licensed nets and traps should carry the license number. The committee was against the exportation of any kind of fish, and opposed net fishing on all inland lakes and streams.

It was moved and carried that settlers in unorganized townships be allowed to kill deer and other big game during November only. Stringent laws against the use of firearms in lumber, except during the open season for red deer, were proposed. At survey camps at a distance of ten miles from any supply camp or settlement the killing of game for food should be allowed.

The Fishery Reserves.

The committee on public game domains, parks and forests recommended that the northern and eastern shores of the Georgian Bay from Killarney to Penstang be set aside for angling. The importance of setting apart reservations from time to time as needed, as tending to increase the supply of fish and game, and prevent the acquisition by private parties and clubs of large tracts of the public domains for exclusive hunting and fishing privileges was favored.

The committee on the transportation of fish and game by common carriers, made up of delegates of the Ontario Fish and Game Prevention Association, together with officers of the Grand Trunk and C.P.R., gave the unanimous opinion that it was to the interest of the country and the railways alike to prohibit the export of game and game fish. It was found that the present system of inspection was ineffective, and it was recommended that the government make it illegal for any transportation company to carry commercial fish for export unless accompanied by a government inspector's certificate and a detailed invoice showing the nature of the fish. The government should appoint inspectors at strategic points, and a nominal fee charged for inspection and certificate issuance. The recommendations are to apply only to fish exported for commercial purposes, and not to fish caught by tourists.

Big Game Hunting.

The matter of big game was not reached till late in the afternoon, and time not serving consideration of the more important recommendations of the committee was deferred, namely, that the time for hunting be extended to Nov. 30, that every licensee be entitled only to 15 consecutive days hunting in each year, and that the

use of dogs be allowed.

The meeting put itself on record in favor of permitting the search of lumber camps for venison, caribou and moose meat, holding the jobber and license holder liable to heavy fines. It was resolved that one year in every five would be sufficient for the protection of moose and caribou. Satisfaction was declared with the prescribed number of deer to be killed by each person, and with the law preventing the carrying of fire arms in woods where moose, caribou or deer were found between Nov. 30 and Sept. 15 following without a permit.

It was resolved that the exportation of deer, moose and caribou be prohibited, except by licensees, such animals to be exported as are killed only by licensees now residents of Ontario.

It was also resolved that hounds should be restricted from running at large where small game exist, but that the present system of inspection was ineffective, and it was recommended that the government make it illegal for any transportation company to carry commercial fish for export unless accompanied by a government inspector's certificate and a detailed invoice showing the nature of the fish. The government should appoint inspectors at strategic points, and a nominal fee charged for inspection and certificate issuance. The recommendations are to apply only to fish exported for commercial purposes, and not to fish caught by tourists.

Indignation at Quebec.

Montreal, Aug. 31.—The presence of two Montreal professional men at Sorel, enjoying themselves with their guns among a plentiful supply of game, aroused a sensation among the law-abiding people. The visitors were apparently violating the game laws with great wantonness, and a game inspector was sent for. Upon being asked for an explanation the two professionals produced a permit signed by the Hon. J. J. Prevost, a member of the Quebec cabinet, under whose department comes the administration of the game laws, giving them leave to "shoot for scientific purposes."

The incident has caused considerable bad feeling among the clubs desirous of preserving game in the province.

IMPORTANT ANNOUNCEMENT

TO INTENDING STUDENTS:

SELECT THE SCHOOL EQUIPPED WITH VISIBLE UNDERWOOD TYPEWRITERS

UNITED TYPEWRITER CO., Limited, Toronto, Ont.

BRANCHES: Montreal, Que., Hamilton, Ont., London, Ont., St. John, N. B.

On September 4th the fall opening of the various business colleges and educational institutions of Canada will be inaugurated. We wish to draw the attention of intending students to the importance of securing commercial tuition in the colleges and schools that are equipped only with the standard Visible Underwood Typewriters. As nearly 90 per cent. of the standard typewriters in use in Canada are Visible Underwoods the force of this argument is readily obvious. To pay your good money for tuition that would avail you nothing after you had graduated would be a serious and awkward mistake. A few enquiries among the business houses in your vicinity will clinch this argument.

Patronize the school using the Visible Underwood and you will graduate fitted for practical work and a good salary.

Our Employment Department is open to all. Positions without cost to either party. A large complement of typewriters for practice is at your service. A competent attendant will make careful examinations as to your ability. You are welcome to this service, FREE

hereby extended to the National Sanitarium Association of Canada, for their public-spirited action in bringing to Toronto this magnificent exhibit, and making it, combined with the meetings held each day since opening, free and open to the public, thus giving an opportunity to learn by way of illustration what is being done here and elsewhere in fighting the great white plague."

J. L. Hughes, public school inspector, spoke of the importance of education in this great work as in everything else, and closed an able speech by moving the following resolution, which was unanimously carried: "Recognizing the great educational value of the work accomplished by the present tuberculosis exhibition, and the many daily meetings that have been held in connection therewith, the request is here made that the National Sanitarium Association of Canada, under whose direction these meetings have been given, and are now brought to a successful ending, will undertake to plan a further educational campaign along such lines as will seem to them wisest, thus keeping alive the widespread interest and enthusiasm that has come from the present effort in fighting this captain of death."

Balfour Grant, who has for many years manifested very great interest in the work, both at Muskoka and Toronto, in a suitable speech moved the following, which was carried: "That it is the pleasure of this meeting to place on record its appreciation

of the grand work for the suffering consumptives of Canada that is being accomplished by the National Sanitarium Association of Canada, through its two sanitariums, the Muskoka Cottage Sanitarium, and the Muskoka Free Hospital for Consumptives, and the affiliated institution, the Toronto Free Hospital for Consumptives, for advanced cases."

Active steps will be taken with very little delay to comply with the request of the meeting, and an aggressive educational campaign along the lines suggested by the exhibition will be shortly inaugurated by the National Sanitarium Association of Canada.

The actual registered attendance up to hour of closing last night was 12,969. W. J. Gage, chairman of the executive committee of the National Sanitarium Association, and the Toronto

Free Hospital for Consumptives, responded on behalf of his fellow trustees, and told an interesting story of the steps that had led up to the present success of the sanitarium movement in Canada, despite the difficulties that had to be encountered in the early days of the work.

MONEY RATES HIGHER AND TRADING IS DULL

Reports of Gold Engagements Are Unconfirmed—Toronto Market Extremely Dull.

5 DEBENTURES OF NORTH WEST SCHOOL DIST.

DOMINION SECURITIES CORP. LIMITED, 26 KING ST. TORONTO.

World Office. Friday Evening, Aug. 31. Only a little over two hundred shares of the Toronto market to-day, together with a few bonds.

Stocks plentiful in loan crowd, with all active issues offered at 6 1/2 per cent.

Louisville statement shows 10 per cent. earned on stock, and real earnings capacity probably near 20 per cent.

There was transferred to San Francisco by telegraph to-day from New York \$500,000.

International bankers have advised from London that \$2,000,000 gold has been actually engaged for shipment to America.

The known movements of money for the week ended with the close of business Thursday show that the banks have lost cash of \$4,734,000.

The preliminary report of the Erie Railroad company for the fiscal year ending June 30, 1900, shows a surplus, after charges, etc., of 47 per cent. on its outstanding 1,377,000 common stock.

Joseph says: Traders may hammer money because of temporary monetary conditions, and because Monday will be Labor Day holiday, but those who will buy on slight recessions will occupy the more favorable position, since next week will see the commencement of large gold imports.

The market today has raised comparative little owing to influence of the Labor Day holiday and uncertainty regarding engagements of gold for import, as banks this week London was a fair buyer of stocks, and Union Pacific was again taken by the market.

There was a material curtailment in the volume of transactions to-day, the monetary situation was the dominant influence, and but little attention was paid to anything else.

Charles Head to R. B. Bonnard: It is evident that the situation and are working skillfully to distribute stocks. No doubt they have succeeded in buying at a certain extent, and are in a position to hold the market for the time being.

There was a material curtailment in the volume of transactions to-day, the monetary situation was the dominant influence, and but little attention was paid to anything else.

New York, Aug. 31.—The prospect of an unfavorable bank statement, the Bryan speech, the postponement of the St. Paul and its death with the holiday coming Monday, will, we believe, operate to encourage the "bear" professionals to-day.

Recent rich strikes at the Nipissing mine, the continued sharp rise in the price of shares of the company, at New York to-day the price started at 7 and ran to 8 1/2, and over 15,000 shares were dealt in, the closing bid and asked for the stock was 8 to 8 1/2.

Railroad Earnings. Increase. Erie, July net, \$120,512. Atlantic Coast, July, 202,247. C. & O. July net, 44,009.

Weekly Bank Clearings. The aggregate bank clearings in the Dominion for the past week, with the usual comparisons, are as follows:

On Wall Street. Marshall, Spader & Co., wired J. G. Beary, King Edward Hotel, at the close of the market to-day.

Very few stocks at the opening showed a gain over last night's close, and prices were not up to the London level.

The monetary situation was again the dominant feature, call money rates advanced to 10 per cent. immediately after the opening, and later advanced as high as 12 per cent.

There were rumors of engagements of gold for \$5,000,000 to \$7,000,000, which created a better feeling in the market during the second hour of the afternoon trading, and with money around 12 per cent., decided to buy.

The reported movement of money for the week indicates a loss by the banks in cash of \$4,734,000.

Traders generally are inclined to stay out of the market until after the holidays, when, if the money situation improves, and the market recovers, they will occupy their upward tendency and go higher.

Walkerton, Aug. 31.—(Special)—The cases against R. T. Henderson of the Henderson Roller Bearing Co. of Toronto, charged with obtaining \$1200 by false pretences from Henry Pepper of Hanover, and \$1400 from Adam Selling of Walkerton, in the same manner, were tried here to-day before Magistrates Robb and Tolson.

It is expected that Henderson's writ against Patrick Heffernan for false arrest will realize a judgment. Heffernan is not a constable at present, having been dismissed from that position several years ago by both the county council of Bruce and the Ontario government. He claims in his case to have acted under the direction of Crown Attorney Dixon in having Henderson arrested.

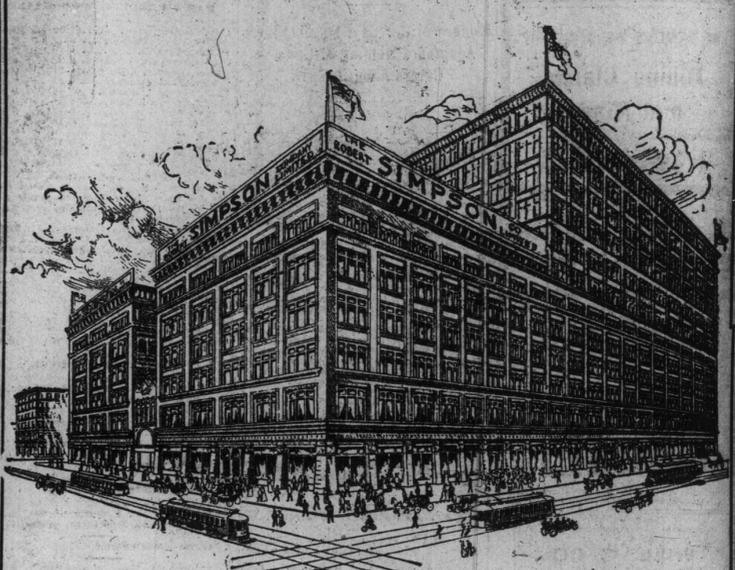

Maori Love. The Maoris are not the aborigines of New Zealand. This is the story of their coming as told by a legend handed down from chief to chief.
