ONE CENT

NOT AS PAINTED SAY NEWCOMERS

Lack of Official Courtesies Discourage Britisher on Setting Foot in Land of New Hope.

Complaints continue to reach 'The World' from new citizens. From Hamilton comes a story which is typical of many.

They painted the picture in more glowing colors, assured him that he could find work at big wages, and that officials of the government would meet him on this side and render assistance in procuring any employment he desired.

Leaving the ship there was a rush and struggle to reach the reception shed, where a uniformed official asked a few questions, then passed them through the barriers, when they were kept waiting for hours until a train could be made up, it being Sunday.

There was no refreshment room open to look after them—they wanted food—something to drink—but none could be given them, for even the water had run out. There was the baggage to be looked after. It was thrown out in a heap, and each had to look after his own.

"I do not think the men of the western roads will go out," said Wm. Whyte, second vice-president of the C.P.R. "Such a step would be just as detrimental to the men as to the railways."

The officials of the local unions in affiliation with the Brotherhood of Trainmen and Order of Conductors also look for an amicable settlement. While admitting they are not seriously affected by the points at issue, inasmuch as these have practically been granted on both the C.P.R. and the C.N.R., they propose going out if a general strike is ordered.

In that event about three-fifths of the membership of 40,000 would be affected. The tieup would be only on roads operating west of Fort William and Chicago. About 5000 employees of the C.N.R. and 11,000 of the C.P.R. would be among members to cease work.

Chicago, March 28.—Whether there will be a strike of the employes in train service of the western railroads, hinges on a meeting to be held to-morrow between two federal officers and the representatives of the unions and the railroads concerned.

Winnipeg, March 28.—(Special.)—There is more or less uneasiness here over fear that the Chicago strike may extend to Western Canada.

TO-DAY DECIDES RAILWAY STRIKE

Companies Say They Have Conceded All Possible and Employes Refuse to Accept Terms.

Chicago, March 28.—Whether there will be a strike of the employes in train service of the western railroads, hinges on a meeting to be held to-morrow between two federal officers and the representatives of the unions and the railroads concerned.

CHICAGO STRIKE WOULD AFFECT WESTERN CANADA

Winnipeg, March 28.—(Special.)—There is more or less uneasiness here over fear that the Chicago strike may extend to Western Canada.

YAMASKA RIVER FLOODS ST. HYACINTHE HOUSES

St. Hyacinthe, March 28.—The Yamaska River overflowed its banks in the lower part of the city last night, thru the breaking of the ice at the rapids. The water was over the first floor of the houses on a few streets, but the damage was not serious.

LANDSLIDE BURIES CARS AT MONTMORENCY FALLS

Quebec, March 28.—There was quite a landslide at Montmorency Falls, just to the north of the elevator to-day. A great body of earth, heavily soaked with water, broke loose about half way up the cliff and crashed down on cars on the siding.

TRIED TO FOLLOW BABY SHE THREW FROM SHIP INTO SEA

New York, March 28.—A demented mother threw her 14-months old baby infant into the sea and then attempted to follow, according to the officers of the steamer Konig Albert, which arrived here to-day from Genoa.

THREE KILLED ON TOP OF CAR

Somerville, Mass., March 28.—Three men, two of them dead and the other fatally hurt, were found in a heap on top of a freight car at the local Boston & Maine Railroad station to-day.

TOWN WIPED OUT BY FIRE

Laurens, S.C., March 28.—Driven by a stiff wind, fire to-day swept both the business and residential sections of Newberry, a town of 8000 population, 30 miles southeast of here, and caused a loss that may reach \$500,000.

DRIVEN FROM 200 HOMES BY FLOODS

Quebec Villagers Fight Ice Jams All Night With Dynamite, Coffin, Woman and Child Ridden on Rising Waters.

Ottawa, March 28.—The Rideau River is in serious flood, and 200 families are homeless in Janesville and Clarkstown. Communication with Ottawa is out.

YAMASKA RIVER FLOODS ST. HYACINTHE HOUSES

St. Hyacinthe, March 28.—The Yamaska River overflowed its banks in the lower part of the city last night, thru the breaking of the ice at the rapids. The water was over the first floor of the houses on a few streets, but the damage was not serious.

WIFE OF DR. POTTS DEAD

Long illness ends in bereavement of Methodist leader. After an illness of several years, the wife of Rev. Dr. Potts died on Good Friday.

PREMIER'S PASSAGE BOOKED

Members of Cabinet and Capitals Will Sail on Empress of Britain. Montreal, Que., March 28.—Among the first cabin passengers sailing on the Canadian, royal mail steamship Empress of Britain from St. John, N.B., on April 15, will be Sir Frederick Borden, Hon. L. P. Brodeur and Madame Brodeur, Hon. W. S. Fielding and the Misses Fielding, Hon. Emmanuel Tasse, the Capital House team, who are to play before His Majesty the King in London; Mrs. Grantham, Senator Mrs. Scott Griffin, Whomsey, Senator and Wednesday last she thrust the infant thru a port hole and attempted to follow.

FRANCE WARNS MOROCCO

Tanger, March 28.—M. Regnault, French minister, accompanied by the commander of the French cruiser Jeanne d'Arc, yesterday presented to Mohammed el Torres France's demands for reparation in the case of the murder of Dr. Mauchamp.

GOES TO HUNT DISABLED SHIP

Steamer Leaves St. John in Search of the Sealer Greenland. St. John's N. F., March 28.—The steamer Portia, chartered by the government to make a search for the disabled sealing steamer Greenland, sailed from this port to-day.

ALLENIST TO TESTIFY IN THE THAW SANITY ENQUIRY

Dr. Hamilton Will Tell Commission To-Day Whether Defendant Can Advise Counsel. New York, March 28.—From sources assumed to be authentic, it was announced last night that Dr. Allan McLane Hamilton, alienist, would be called upon to testify to-morrow to determine whether Harry K. Thaw is competent to understand the nature of the proceedings in his trial for killing Stanford White and to rationally advise his counsel.

N.Y. LIFE WON'T BUILD HERE

Insurance Company Doesn't Plan \$1,000,000 Building in Toronto. New York, March 28.—(Special.)—The New York Life Insurance Company does not contemplate the erection of a \$1,000,000 building in Toronto; neither has any company identified with the company a plan in view.

RECOVERY NOW ASSURED

Speaker St. John was reported to be improving at the General Hospital last night. His ultimate recovery is now assured.

BONDS FOR TRUSTED OFFICIALS

We guarantee good men in every capacity of trust. Our bonds are a final attestation of integrity. The London Guarantee & Accident Co., Limited, 46 King-street West, Phone Main 1642.

INDEPENDENT LABOR PARTY FORMED

W. R. Rollo of Hamilton Elected First President of Latest Political Organization of Workmen of the Province.

PUBLIC OWNERSHIP URGED

Meeting of Congress in Broadway Hall Adopts Platform Advocating the Underlying Principles of Unionism.

- 1. Free compulsory education. 2. Legal working day of eight hours with a week of six days. 3. Government inspection of all industries. 4. The abolition of the contract system on all public works. 5. Minimum living wages, based on local conditions. 6. Public ownership of all franchises, such as railways, telegraphs, waterworks, lighting, etc. 7. Tax reform, by lessening taxation on industry and increasing it on land values. 8. Abolition of the Dominion Senate. 9. Exclusion of Chinese. 10. The union label to be placed on all manufactured goods, where practicable, and on all government and municipal supplies. 11. Abolition of child labor by children under 14 years of age, and of female labor in all branches of industrial life, such as mines, workshops, factories, etc. 12. Abolition of property qualification for all public offices. 13. Voluntary arbitration of all labor disputes. 14. Proportional representation in grouped constituencies, and abolition of municipal wards. 15. Direct legislation thru the initiative and referendum. 16. Prohibition of prison labor in competition with free labor.

That is the program of a new pronounced political labor party, which was born at 4:30 yesterday afternoon at Broadway Hall, Bloor-street-avenue. Speakers who one moment were cheered to the echo, next moment were howled down. The "mutible many" were there hundreds strong.

Another speaker who commenced with the apologetic, "I have no desire to take up the time of this meeting," was taken at his word. Before he could proceed further a Niagara roar, smote him, in which could be distinguished individual cries of "Well, sit down then." "Why do you?" "Shut up," etc.

High Standard of Oratory. If some of the speakers are misquoted it will be small wonder, for the reporter cannot take down more than two speakers at once, but in the occasional flashes of silence, when only one speaker was talking, the high standard of oratory shown was most striking, and bore out the statement of Secretary Draper of Ottawa that, as a body, they were more to be admired with natural gifts than the Ottawa members.

Over this verbal Donnybrook, Chairman W. R. Rollo of Hamilton presided with a smiling face, a wooden club and the courage of his convictions concerning his program. The meeting recognized his tactfulness, fairness and determination by electing him first president of the Ontario Independent Labor Party.

THE THREE CENT MAXIMUM RATE DUE TO MACLEAN OF SOUTH YORK.

The Nationalist, Montreal, March 24. There is a story in all this [the reductions in passenger fares to three cents].

Dr. Sheard's Drastic Proposal to Wipe Out Toronto's Ghetto - Housing Problems Discussed.

The bold suggestion that the city should appropriate St. John's Ward in entirety and convert the extensive area into a park and playground as a means of ridding the city of a district notorious for its filth and unsanitary conditions was made by Medical Health Officer Dr. Sheard at the conference between the civic housing committee and interested organizations at the city hall Thursday night.

Dr. Sheard said that inspection had shown that there was little to complain of as to overcrowding in the lodging houses of the city. He thought that the whole question was one that was intimately related to the question of profit making on investment.

Dr. Sheard said that in Hamilton the Westinghouse Company had outwitted the city by getting an ordinance passed that would allow them to rent houses for \$7 to \$10 a month.

Dr. Sheard said that the problem was a very pressing one. Sanitary homes were an absolute need. He pointed out that in Hamilton the Westinghouse Company had outwitted the city by getting an ordinance passed that would allow them to rent houses for \$7 to \$10 a month.

themselves, and cited his personal experience in support, he having given up his tobacco and whiskey, and been able in 15 years to become the owner of a residence costing \$2000. He suggested that the city should aid workmen to obtain sanitary conveniences by "renting" such conveniences and allowing monthly payments to be made upon them.

Rev. Robert Hall couldn't see how the expropriation of large tracts of land would give relief, unless some disposition could be made of the dispossessed population. The present difficulties were largely due to the incoming of the foreign population. The true solution was the providing of accommodation in central localities, as the poor naturally gravitated there.

Oppose Civic Undertaking. Frank Saunders of the Builders' Exchange said that he was strongly opposed to the city embarking in the project. There were numbers of private individuals who would be willing to erect houses at small profit in rentals, which should be made weekly. He suggested three or four per cent as a return, but he declared that the present cost of labor and material precluded the building of houses at the low cost mentioned.

W. Harris of the Federated Council of Building Trades, feared that the expropriation of St. John's Ward would result in the eviction of a large class of residents on the rest of the community.

Ald. Jas. Hales, who questioned whether any action should be taken by the city, was severely taken to task by Allan Thompson of single tax views of the families, and Mr. Thorn of the provincial secretary's office. He explained that his interest in housing problems was personal, and that he had not committed himself in the past.

Defence of Jews. "The bad reputation of St. John's Ward was long before the Jews were there," asserted Mr. Singer of the Young Men's Zion Club in vigorous criticism of the statements of Dr. Sheard. Mr. Singer doubted that a majority of the Jews in the ward were engaged in a permanent business of the unsanitary conditions.

Ald. Vaughan summed up the sentiment of the meeting as opposed to apartment houses, and suggested that the building bylaws should be relaxed so as to encourage the building of houses. The limits were ridiculously extended.

The meeting dispersed after the chairman had invited each organization to appoint a delegate to attend a series of meetings to be held during the summer. He said he did not expect a plan to be ready before next fall.

Moments of Prussia. We all know what part Bismarck played in the creation of the modern Germany we now see before us; how he raised her from her distracting divisions and her impotence to the splendid strength and unity of today.

Y.M.C.A. Convention. About 100 delegates attended the first annual convention of the boys of the Y. M. C. A. of Ontario and Quebec, held here to-day. These officers were chosen: George Evans, Hamilton, chairman; Charles Macdonald, Toronto; secretary; Bert Marshall, Toronto, vice-president.

Barber Shop. The Christian Workers held a convention to-day in Gospel Tabernacle, 100 St. Andrew's street, in Toronto. The Christian Workers held a convention to-day in Gospel Tabernacle, 100 St. Andrew's street, in Toronto.

Hotel Haaranah. Corner Barton and Catharine-streets, Hamilton; modern and strictly first-class; \$1.50 to \$2.00 per day; phone 1465.

Flax Cultivation in Chile. According to the Board of Trade Journal, the British legation at Santiago reports that a German flax-growing expert, acting on behalf of two of the largest flax firms in Germany, Reichenbach, Bohemia, has during the past four years been conducting extensive experiments in the districts of South Chile round Lake Lengua-hue and the Island of Chiloe, and has now succeeded in determining the species of plant most suitable to the climatic conditions of the country.

Robert Hungerford of the Trades and Labor Council, believed that the workingmen should be aided to pay for their own houses. Wm. R. Gregg of the Architects' Association thought the central portion of St. John's Ward might be expropriated.

Need \$10 a Month Houses. Houses renting at about \$10 a month were needed, asserted Col. Gaskin of the Salvation Army. He also believed that tenement houses were a menace to morals. Mr. Gregg thought that the kind of tenement houses in Montreal, which had separate stairways, would avoid the objectionable mingling of the sexes.

Controlled Housing. Controller Hocken said he drew a sharp line between the tenement house and the well appointed flat. Rev. F. H. Perry, on behalf of the Associated Charities, said that the body favored the views of the Manufacturers' Association or of Dr. Goldwin Smith, as against municipally owned tenements.

Jas. Rylie thought the heavy expense in car fares militated against the idea of having houses erected in the outskirts. "I think this tenement business with proper safeguards is getting around where we want," said he.

Leslie Workmen Alone. Harvey Hall, speaking as a workman, said that the feeling of workmen, as he had found it, was against the city undertaking to build houses. He thought workmen should be left to work out the problem for themselves.

Scarboro' Beach THE NAME CHOSEN FOR TORONTO'S MAMMOTH AMUSEMENT PARK, ON THE BEACH, QUEEN STREET EAST.

The first suggestion of this name was contained in a letter signed "G. Turner, 1236 King street west, Toronto." If G. Turner will call at the office of the Toronto Park Company, Limited, 70 King street east, the award of \$100 will be paid over according to the rules of the contest. The Company wishes to express grateful appreciation to the thousands who so heartily joined in the effort to find a suitable name for the new park and to say that the exceeding appropriateness of most of the suggestions made the task of selecting a difficult one.

THE PARK IS HEREBY CHRISTENED Scarboro' Beach

Elephants and Crocodiles. The natives of the Boteti River, Ngaliland, says a writer in Country Life, have a strange story of the crocodile. These reptiles in the days when elephants abounded in the river, often drank in the mighty pachyderm. The elephants in revenge would attack the natives, occasionally take a crocodile out of the river, and lodging it in a tree, leave it there to perish miserably. I have only one small piece of evidence in support of this strange legend. A famous African hunter, the late Mr. W. C. Baldwin, while traveling along this very river, did actually see with his own eyes the mummified skeleton of a crocodile perched in the limbs of a low tree. And to him in explanation of so strange a sight, the Boteti people repeated this story.

WALL PAPERS For Interior Decoration nothing is so effective as pretty Wall Paper. It can transform a dull apartment into a bright one, or warm a cold one with its brilliant hues.

WINE, WOMEN AND GRAPE. Editor World: All true and loyal Canadians are waiting patiently, but with silent determination, the position Sir Wilfrid Laurier will take in regard to Henri Bourassa's motion re Mr. Fowler's accusations against certain members of the government who are private life he lays open to suspicion.

MINISTER OF HEALTH. Editor World: The advanced ideas of your paper warrant me in asking your permission to suggest to the Ontario government a much needed reform. While the rights of labor, capital, and the individual citizen should be well looked after as they are in this province—yet far away and beyond any of these stands out the life of every citizen; and upon this government devolves the duty to see that such action is taken that such legislation passed as will best conserve this object.

Kaiser as Friend of Peace. Writing in The Review of Reviews for March Mr. Stead says: 'I have made a great discovery. The Kaiser—who in England, France and Italy is regarded as the war lord with the mailed fist—is in Central Europe firmly believed to be a veritable emperor of peace, who has ruled Germany for eighteen years in peace, and whose supreme ambition is to live in history as the one emperor whose reign has never been stained by a single war.'

The Joy of Living is Unknown. To the Poor Sufferer Who Goes Through Life With the Catarrh of the Bladder. And yet no person need carry the burden for fifteen minutes after testing the curative qualities of DR. AGNEW'S CATARRHAL POWDER.

PUBLIC OWNERSHIP. Editor World: When people talk of such a thing as public ownership, as Sir H. Bellard did lately, an old country view of the causes of the rout of the Progressives may be useful.

argument of our Canadian monopolists, says not a word against public ownership. The reasons given are: (1) The increase of rates. (2) Fear of socialism, aggravated by the 'wild-cat' socialistic manifestoes issued by the Independent Labor party.

Editor World: Sense written you last our second coal dealer has been a-gittin' sum coal from a broker, but he says he hasn't made nothin' cause he has to pay a whole lot more for a broker. When a dealer in a factory has to buy coal—hard or soft—frum a broker it's time to get fur things is out of line an they keep a-gittin' that way more an more.

FERRIS GOES TO HOSPITAL MAY NOT HAVE DIPHTHERIA

Dr. Sheard Declares Man Has Not Disease, But Another Physician Combats Him.

George Ferris and two children, who, it was reported early yesterday morning, by Dr. R. H. Robinson, were suffering from diphtheria, were taken to the isolation hospital about 7 o'clock in the morning.

Dr. Sheard, medical health officer, stated that he had personally examined Ferris in the hospital, and that the man was not suffering from diphtheria.

Regarding the condition of Ferris, Dr. R. H. Robinson said to The World: "I found him with a pulse of 104 and a temperature of 99 to 100, complaining of the usual symptoms of diphtheria; and when I reported the facts to Dr. Sheard he refused to send the ambulance, and suggested I should get some other conveyance and take them down, the children being croupy and having no bed to lie on. I reported that no cabman or private rig would take the risk."

TO Isolation Hospital.

When Dr. R. H. Robinson visited the humble home of George Ferris at 174 Ontario-street, yesterday morning at 3 o'clock, it was to find the place practically deserted.

Dr. Robinson's story.

Dr. Robinson, when seen late last night, said it was all very well for Dr. Sheard to say that he was not alarmed in the case of the father, it was upon Dr. Sheard's own grounds that he had been prompted to call the ambulance. He asked: Why did Dr. Sheard's men fumigate the place after the first two children had been removed to the hospital? Why were those children detained, and why was it that they would not allow the rooms in which the children had lain to be opened for 24 hours, if there wasn't a vestige of diphtheria symptoms?

Will Furnish Refutation.

Besides denying that there was any trace of diphtheria about George Ferris when examined at the Isolation Hospital yesterday morning, Dr. Sheard declared that he was going to have The World publish on its front page in the same position and under the same sided heading, an absolute refutation of the article which appeared yesterday.

Backs Up Driver.

Backing up Driver Frank Hague's judgment in taking his weary horse after the sick man at so late an hour, Dr. Sheard said it was only natural that the driver should have taken the matter seriously, and considering that the same doctor (Robinson) had sent him in a hurry on two previous occasions and nothing alarming developed.

TO SUPPRESS GAMING.

Victorian Parliament Passes Act to Stop All Lotteries.

(Canadian Associated Press Cable).

London, March 28.—The Victorian state parliament has passed the Gaming Suppression Act. All lotteries, whether for charities or for public or private gain, are illegal.

As to what constitutes "a place" it is defined thus: "Any place whatsoever, whether within building or not, whether upon land or water, whether defined to area or not, and whether private property or otherwise; any normally private premises may under given circumstances become in the eyes of the law a common gaming house."

ALEX DUCLOS CAUGHT.

Montreal, March 28.—(Special.)—Alexander Duclos, who escaped from the asylum at Longue Pointe and had gone to Vermont, returned to-day voluntarily. He is expressly allowed upon any licensed racetrack during race meetings.

King Edward's Sitting-Room.

From the London M. A. P. The King's sitting-room contains exquisite eighteenth-century furniture.

Blind Man and Colors.

"Have you any conception of color?" a blind man was asked. "What do I have when you hear colors mentioned?" "A person blind from birth has no conception of color," was the reply.

Royalties Pleasantry.

Queen Alexandra's chief delight, at any time, is, says a writer in The By-stander, to do her own shopping, and it was always the greatest treat she could give her daughters. To go into a shop, especially when they imagine themselves unrecognized, and to buy and choose at their own sweet will, was like heaven to them.

TORNADO SWEEPS OVER TEXAS.

Port Worth, Tex., March 28.—A tornado passed over Cooke County, Texas, last night, doing much damage. Midway, Muenster and Myra. One person was killed and several injured.

SHARE LEACOCK'S VIEWS.

London, March 28.—The Standard, commenting on a paper by Professor Leacock in The University Magazine, says: "If Leacock represents ardent aspirations and intellectualism of Canada, we may rest assured his opinions are cordially shared by educated people here."

What part of your would be the most essential for a martial band?

DECISION OPENS UP THE WAY TO TAX CIVIL SERVANTS

Text of Important Judgment of Privy Council—Legal Opinion is That Judgment Applies Here.

A decision recently rendered by the privy council on appeal from the supreme court of Victoria, Australia, may have a very important bearing upon the question of the right of a province of Canada to tax salaries of officers of the Dominion resident in the province and receiving their salary therein.

In the case in question, which arose under the constitution of the commonwealth of Australia, the respondent, one O'Leary, who was an officer of the Australian commonwealth and resided in Victoria, and received his salary in that state, disputed his liability to be assessed in respect thereof by the income tax imposed by an act of the Victorian legislature.

Pimples Off In 5 Days

The New Calcium Sulphide Treatment Does Wonders to Every Kind of Skin Eruption.

You don't want to wait forever and a day to get rid of your pimples or other skin eruptions. You want to get rid of them right now. Next week you may want to go somewhere where you wouldn't like to have to take the pimples along.

You can get rid of them just in time by taking Stuart's Calcium Wafers.

They contain as their main ingredient the most thorough, quick and effective blood cleanser known, calcium sulphide. Remember this, too, that most pimple treatments reek with poison. And they are miserably slow besides.

Stuart's Calcium Wafers have not a particle of poison in them. They are free from mercury, biting drugs or violent poisons. This is absolutely guaranteed. They cannot do any harm, but they always do good—good that you can see in the mirror before your own eyes a few days after.

Don't be any longer humiliated by having a pimply face. Don't have strangers stare at you, or allow your friends to be ashamed of you because of your druggist's face.

Your blood makes you what you are! The men and women who forge ahead with those with pure blood and pure faces. We want to prove to you that Stuart's Calcium Wafers are beyond doubt the best and quickest blood and skin purifier in the world—so we get you a free sample as soon as we get your name and address. Write to us today, and then when you get the sample you will not rest contented until you have bought a 50 cent box at your druggist's.

Send us your name and address today and we will at once send you by mail a sample package. Address: P. A. Stuart Company, 85 Stuart Building, Marshall, Mich.

the legislative council then subsisting, one legislative council and one legislative assembly constituted as therein provided, and it was therein further enacted that the members thereof should have power by and with the advice and consent of the council and assent in question to make laws in and for Victoria in all cases whatsoever.

"And in the Commonwealth of Australia, Constitution Act (63 & 64 Vic. ch. 12), it is further provided, here, we are that: 'The constitution of each state of the commonwealth shall subject to the essential continuance as at the establishment of the commonwealth, until altered in accordance with the constitution of the state.'

"Sect. 107 provides: 'Every power of the parliament of a colony which has become or becomes a state shall, unless it is by this constitution exclusively vested in the parliament of the commonwealth or withdrawn from the parliament of the state, continue as at the establishment of the commonwealth.'"

"No question arises either as to the general authority of the state of Victoria to impose taxation upon all who reside within the ambit of its jurisdiction nor do its lordships understand that any question arises as to the legality of the tax in question other than the one question which has been argued before them. That question is, whether the power given in such wide words as have been mentioned above has been curtailed and so far restricted that, if a person be an officer of the commonwealth, he may be resident in Victoria, and may receive his salary therein, he is not taxable in respect of such salary."

"In this an appeal from the decision of the supreme court of Victoria in the commonwealth of Australia, in which the substantial question is whether the Victorian legislature in respect of its official salary in respect of an officer of the commonwealth in Victoria and his salary being received by him in that state."

"The American Union, on the other hand, has created a tribunal which possesses jurisdiction to annul a law upon the ground that it is unconstitutional (3). But in the British constitution, the sometimes the phrase 'unconstitutional' is used to describe a statute which, though within the legal power of the legislature to enact, is contrary to the tone and spirit of our institutions, and to condemn the statesmanship which has advised the enactment of such a law, still notwithstanding such condemnation, the statute in question is the law and must be obeyed."

"It is quite true, as observed by Griffith, C.J., in the above-mentioned case of D'Emden v. Pedder, that 'When a particular form of legislative enactment which has received authoritative interpretation, whether by judicial decision or by long course of practice, is adopted in the framing of a later statute, it is a sound rule of construction to hold that the words so adopted were intended by the legislature to bear the meaning which has been so put upon them.'"

"But it is an extraordinary extension of such a principle to argue that a similarity, not words, but of institutions, must necessarily carry with it as

THE SAME LEARNED JUDGE SAYS AT THE END OF HIS JUDGMENT...

the same learned judge says at the end of his judgment: 'If the legislature had passed an act which said that hereafter there shall be no right of appeal from the King-in-Council from a decision of the supreme court of Victoria in any of the following matters, and had then set out a number of matters, including that now under consideration, I should have felt no doubt that such an act was outside the power of the federal legislature. And, in my opinion, it is outside their power to do that very thing in a foundational way.'

"Their lordships will therefore humbly advise his majesty that the petition presented by the Commonwealth of Australia for a declaration that the appeal on the ground of its incompetency ought to be dismissed."

"There will be no order as to the costs of the appeal between the appellant and the respondent. The commonwealth must pay the appellant's costs of that intervention. Solicitors for appellant, Freshfields; solicitors for respondent, Broad & Cheston; solicitor for intervenant, J. H. Galbraith."

"If this judgment of the privy council is applicable under the constitution of the Dominion, it would appear that notwithstanding all decisions of the supreme court and of other courts of the provinces of Canada to the contrary, in choosing the Dominion, are liable in the provinces in which they reside, and in which their salaries are paid, for assessment under provincial laws for taxes to be raised for provincial or municipal purposes."

"The House That Quality Built." Just slip into Score's (77 West King-street) to-day for a glimpse of the new and improved 'Quality' wear that Toronto gentlemen will have the opportunities of viewing—there's something so out of the common and yet so very gentlemanly in it; all that one could almost select with his eyes shut and not make a mistake. It is a quality that is in keeping with his ideas of what's neat. As much can be said for gloves and other Easter needs."

Gas Explosion. \$20 bid \$100 damage to building and \$200 contents. In premises of L. S. Gourlay, 397 Yonge-street, at 7 o'clock last night. A leak in a gas pipe caused an explosion.

AUCTION SALES. Suckling & Co. Our Easter Sale to the Trade Ready to Wear Clothing Ladies' White Lawn, Black Cotton, Hosiery, etc.

EXECUTORS' SALE OF VALUABLE LEASEHOLD PROPERTY ON QUEEN ST. Tenders will be received by the undersigned on Wednesday, the 28th day of April, 1907, for the purchase of the following leasehold property, namely, lots on the north side of Queen-street East, between the frontage on Queen-street East and the rear of the buildings on the east side of the street, numbered respectively 104, 106, 108, 110, 112, 114, 116, 118, 120, 122, 124, 126, 128, 130, 132, **ARRESTED IN ASSASSIN PLOT**

Moscow Lawyer Accused of Instigating Murder of Editor.

Moscow, March 29.—A lawyer named Alexandroff, secretary of the Moscow section of the League of the Russian People, was arrested here today as the instigator of the murder of Dr. Jollos, editor of The Russki Viedomosti.

The arrest was made as a result of the confession of a member of the league, who said he was approached by M. Alexandroff's secretary with a proposition to kill Dr. Jollos. No details of the actual murder have been found.

**CANADIAN INDUSTRIES PAY.**

Another Successful Year of a Leading Canadian Manufacturer.

Montreal, March 29.—The annual meeting of the shareholders of the Slater Shoe Company was held at their offices in Montreal a few days ago. The address of the president laid stress on the continuous upward progress of the company's business since the standard price Slater shoe became the feature of their business.

The Slater Company were the first Canadian manufacturer to adopt newspaper advertising as an adjunct to the most economical selling of their goods. In five years their business has more than doubled. In 1906 the increase over 1905 was exactly \$200,000. While this year achieves the largest gross increase in a single year, it is also by far the largest percentage of increase in twelve months. The orders for the first two months of the present year exceeded those of the corresponding months of the previous year by \$159,000.

**DANGEROUS POSTCARDS.**

The postoffice department has decided to exclude from the mails in future pictorial postcards upon which there are illustrations of what is known as "diamond dust," which causes injury to the electric post marking machines in use in city postoffices. No objection is made, however, to the forwarding of these cards to destinations if they are enclosed in suitable envelopes.

**NEW HAVEN LINK WITH G.T.R.**

Freight Line From Atlantic to West Will Be Established.

Poston, March 29.—By the projected extension of the south bridge branch to meet the New London and Northern Railroad at Palmer, Mass., the New York, New Haven and Hartford Railroad will establish a connection with the Grand Trunk Railroad, according to a statement by President Chas. S. Mellen of the New Haven line, published here today.

This, Mr. Mellen says, will establish a line for western freight between stations on the New Haven and all stations west reached by the Grand Trunk.

**THE DIFFERENCE.**

Editor World: Gentlemen who are opposed to any interference with present corporate methods are not likely to help us to a clear understanding of the questions involved.

For instance, the proposed expropriation of the Toronto Electric Light plant has been likened to a proposal to take over the business of the T. Eaton Co. "paying them 50c on the dollar for shop-worn goods, 100 cents for new goods and nothing for goodwill."

This is confusing two radically different principles. The Toronto Electric Light Company is a monopoly of a public service.

The T. Eaton Company is open to competition and is a private enterprise. The T. Eaton Company has a large measure of "goodwill."

The Toronto Electric Light Company has none, rather the reverse.

The control of one is a fit and proper state or municipal function. Attempted municipal control of the other would be an unwarranted interference.

The term "goodwill," as applied generally, implies reputation for good service and expectation of the continued confidence of the public. It is an intangible something with a tangible money value.

The corresponding value in the case of a legal privilege is the expectation of the profit of monopoly, and the value of that expectation depends upon the confidence of the public to continue to pay the profits of monopoly. Something very different from goodwill.

At the intelligence of the people becomes more and more alive to the evils of monopoly, they will become more and more unwilling to submit to them. And it may be that under the same wise law, and by the identical machinery which drives a railway thru my house or my farm, the people will, in turn, demand the surrender of the larger privilege of the railway itself.

Public opinion seems to have. This has happened in the case of the Toronto Electric Light Company.

And the question arises, not how much shall we pay for goodwill, but how much shall we pay for the disapproved expectation that we should submit to monopoly indefinitely? Justice.

**CARDINAL MACCHI DEAD.**

Rome, March 29.—Cardinal Luigi Macchi, secretary of apostolic briefs, died today after a sickness of only twelve hours. He had mass yesterday and complained of illness in the afternoon and died as the result of an apoplectic stroke.

**An Angler's Elysium.**

According to advertisements all summer resorts are alike. They are the best ever—but if fishing is better anywhere else than it is in Georgian Bay we do not know where it is. There is a greater variety of fish in this water than anywhere else in the world. It is always hungry. No one ever counted the fish in the Georgian Bay, but those that have been caught and other equal bodies of water in the world. The only place you can afford to fish is where the fish are numerous, big and fat. This is Georgian Bay, and that place is Georgian Bay—so fishermen say. Suppose you send for booklet, issued by Grand Trunk Railway System, free, telling about the home of the bass, pickerel, pike and the noble trout family. Address: J. D. McDonald, Union Station, Toronto, Ont.

**Past Montreal Service.**

is offered by the Grand Trunk, "the double-track route," and is conceded by experienced travelers to be the way to go. Trains leave daily at 9.00 a.m., with cafe-parlor car to Montreal and Pullman sleeper to Boston; 9.00 p.m. and the "Eastern Flyer" at 10.15 p.m., has four sleepers to Montreal and one to Ottawa. For reservations and tickets call at Grand Trunk city office, northwest corner King and Yonge-streets, Phone Main 4209.

**\$145,000 in Printing Plant.**

The World-to-day contains an advertisement of splendid printing plant for sale by the Montreal Star, which has outgrown the great building it recently erected.

**Canadian Institute.**

The members of the Canadian Institute will hold their usual meeting at the library, 138 College-street, this evening at 8 o'clock. The deputy minister of agriculture, C. C. Jansz, P. S. C., will read a paper entitled, "Agricultural Needs."

**If Tormented With Corns.**

Save yourself pain, worry and distress by using the never-failing Putnam's Painless Corn and Wart Extract. It is reliable and acts quickly.

**BLOOR STREET VIADUCT IN COMMITTEE THURSDAY**

Residents of East End Asked to Be Present and Urge Importance of Improvement.

The township, city, county and East Toronto, the municipalities interested in the East Bloor-street viaduct, will confer at the parliament buildings on Thursday next at 10 a.m. in the railway committee room, prior to an application being made to Chairman Lucas and his private bills committee to re-open the question of the viaduct as follows: (a) Legislation to be passed; (b) Cost to be mutually agreed on between the municipalities; (c) Details as to plan and up-builders to be left to the Ontario railway municipal board.

For the west end, the city has had to pay up dear at the general expense for various important works, the last being a cool \$100,000 for Lansdowne-street and being under construction. But when it is proposed to have the city go ahead with a great public east end work, for the benefit and upbuilding of the whole east and north end, namely, a thru Bloor-street—one or two residents attempt to stop the growth of the whole east end.

The ratepayers of Wards 1 and 2 should turn out next Thursday and show they want some improvements for the east end.

Last time the bill was up here were the aldermen of Wards 1 and 2 and the controller? For with one notable exception, Ald. Church, they do not alive to the needs of the east end of the city. A thru Bloor-street would stimulate and build up and improve the whole north and east end and make for the material growth of Wards 1 and 2. It is not proposed to take or injure any one's lands.

The city engineer is strong for the improvement and so is the whole city council. The west end gets about everything it wants, and the east end helps pay for it thru the aid of east end aldermen. The other municipalities now all favor the work, and it is hoped the bill will pass. The Riverdale business men all favor the work, and so do the people. There are a few exceptions. The work is, like west end improvements, to be at the general expense and will not injure good to the whole city. Remember, the time and hearing of the bill. Last time only a few knew that the bill was coming up and will do nothing to watch your aldermen and controllers how they aid matters.

**HUMBUGGING OUR SOLDIERS.**

Montreal Star: What pull has "Sir Charles Ross" with the government and the people of Canada a defective weapon at full high-water mark price? What is the military and public opinion organization to be armed with popguns because one man of influence and a parliamentarian make a deal with the government? Perhaps the people can afford to be fooled in this way, but if ministers and members take off; and with Arctic tomfoolery expeditions at 300 per cent profit to the marines and those who return with swag; and with Atlantic trading companies, even if influential supporters of the government should be partners in the game, it is not the business of ministers and members whereby ministers deduct a commission from the exorbitant extras.

**Free Catarrh Cure**

Bad Coughing and Spitting Quickly Cured—Fill Out Free Coupon Below.

**My New Discovery Quickly Cures Catarrh.**

Catarrh is not only dangerous, but it causes bad breath, ulceration, death and decay of bones, loss of thinking and reasoning power, kills ambition and energy, often causes loss of appetite, indigestion, dyspepsia, raw throat and reaches to general debility, idiocy and insanity. It needs attention at once. Cure it with Gaus's Catarrh Cure. It is a quick, radical, permanent cure, because it rids the system of the poison germs that cause catarrh.

## GROWING POTATOES IN MAINE 275 BUSHELS PER ACRE

### A Three Year Rotation Making Money for the Farmers—Canada Can Do as Well.

Ontario can produce potatoes in far larger quantities than she does. Instead of importing from the maritime provinces and from the New England States, she ought to be conserving her own wealth by growing the tubers at home.

In Maine, where they grow 275 bushels to the acre, some knowledge of the methods employed will be welcome to the farmers of Ontario.

Acrostook Maine, is the seat of a very flourishing potato industry. Last year the production was about 2,000,000 bushels. Growers there secure on the average 100 barrels, or 275 bushels, per acre. The average cost of production—fuel, labor and fertilizer—is about \$45 per acre, and the average gross returns \$100 per acre. Under the system adopted by the Acrostook County farmers the fertility of the land has been maintained or even increased, land values have steadily risen, until now good potato lands are rated at \$75 to \$100 per acre; with or quack grass and potato bugs have been practically exterminated and the farmers are prosperous and growing rich.

**Potato Crop is Fertilized.**

The potato crop is fertilized with from 1000 to 1500 lbs. per acre of a high grade of commercial fertilizer, analyzing from 3 to 4 per cent. nitrogen, 4 to 7 per cent. phosphoric acid and 8 to 10 per cent. potash. By the use of the 1000 lbs. in addition to the original 1000 lbs. some growers get an increase in crop yield sufficient to pay for the whole 1500 lbs. of fertilizer used. The fertilizer costs from \$32 to \$45 per ton in carload lots. The comparatively large amount of potash used is not only beneficial to the potato crop, but greatly stimulates the growth and increases the yield of the clover following. Maine farmers object to the use of the barnyard manure, ashes or lime on potatoes, fearing it may induce scab. On this account they keep but little other than stock and and out of most of the clover hay and oats.

Spraying the potatoes with Bordeaux mixture to control blight is practised by at least 90 per cent. of the Acrostook potato growers. This is one of the practices in the industry that has insured to Maine growers uniform success. Formerly two or three applications of paris green were made, with the Bordeaux to keep down the beetles. The beetles, however, have been so reduced that now many growers omit the paris green entirely, finding the Bordeaux mixture alone sufficient to control both blight and the beetles. Spraying begins about the first of July and continues until the middle of August. The number of applications depends on the weather—the aim is to keep Bordeaux on the vines constantly.

**How Potatoes are Planted.**

For the most part Maine growers plant their potatoes with a planter in rows three feet apart and 12 to 15 inches distant in the rows. The planter planting cultivation begins with the first hoeing. The second hoeing follows, and the third and fourth follow. The rows are kept straight and the soil is kept smooth. The plants are kept free from weeds and the soil is kept smooth. The plants are kept free from weeds and the soil is kept smooth.

**Good! Port Hope Pale Ale**

More people would drink the ale they need to build them up if they knew of it as good and as honest as this Port Hope Pale Ale—brewed in the old-time way, made of pure things, kept pure and thoroughly ripened. Drink a bottle of Port Hope Pale Ale with your dinner—don't chill the ale too much—and you'll get a new zest for your food—and new power to digest it.

Port Hope Pale Ale is just as good as good ale can be—made of Canada malt, Kent hops and Highland Spring water, makes blood, builds the body. Drink it regularly and keep well. Try it in pints or quarts—ask your dealer for it.

**The Port Hope Brewing and Bottling Co. Ltd., Port Hope, Canada.**

**WORLD'S FARM CALENDAR.**

C. C. McAvoy's sale of Berkshires, Clydes and Shorthorns at Athia, April 5.

McDougal's sale of Shorthorns at Perth, April 5.

Clydes Imp. at Fenelon Falls, April 5.

Quinn and O'Boyle's sale of work horses at Myrtle Station, April 5.

## STOCK SALE AT ORIEL

Shorthorn Cattle and Clydesdale Horses Bring Low Prices.

Woodstock, March 28.—The sale of thoroughbred Shorthorn and Clydesdale horses, held on the farm of Valentine Ficht, Oriel, some 12 miles south of Woodstock, yesterday was in some respects a disappointment, while in others it was regarded as satisfactory. Oriel is in the very heart of the finest dairy district in Ontario County, and to this is attributed the fact that the Shorthorns have somewhat fallen into disrepute and their places supplied by Holsteins and Ayrshires. Ficht had advertised some 45 head, composed of aged bulls, milking cows and calves, and the whole herd in point of breeding, were an exceptionally fine lot, but seriously lacking in condition, which militated greatly against their sale.

The Clydesdales, four in number, were a good bunch, two of the males being especially well bred. Lady Alice (imported), foaled July, 1902, and bred by John Morrison, Aberdeen, was started at \$2000, but was knocked down to \$1200 by J. H. McCaugherty, of Woodstock. D. H. McCaugherty was also fortunate in securing for \$400 Nubia (imported), foaled June, 1904, a grand Scotch mare, in foal to Gay Evared, as was Lady Alice. The other two were withdrawn.

Of the forty Shorthorns only eight were sold, Mr. Ficht refusing to dispose of any more at the prices obtained, which he regarded as exceptionally low.

The following are the sales:  
Wimpie of Oriel, 3rd, 2 years, \$76.  
Roan Wimpie, 4 years, sold to Frank Ficht, \$120.  
Wimpie of Oriel, 5th, 2 years, sold to W. H. Eastwood, \$45.  
Lavender's Pride, 1 year, \$51.  
Grand Duke, 1-year-old, \$46.  
Sir Edward, 1-year-old, \$46.  
Red Lavender, 1-year-old, \$57.  
Lavender's Beau, a magnificent heifer of good color and fine conformation, was sold to Gus Kennedy of Ilderton for \$22.  
Capt. T. E. Robson conducted the sale, purchasing for his own stable the aged bull Lavender's Pride, for \$120.

## THE MYRTLE SALE.

A Good Sale, Conducted on Good Lines—Cattle, Hogs and Horses.

Myrtle, March 28.—(Special).—The Myrtle Sales Association held a most successful sale of live stock here to-day. Everything went off as directed and the position of Myrtle for a central sales arena was well demonstrated. The stock was comfortably taken care of in the C.P.R. sheds, and the animals were all well represented. There was a very large crowd present, including many of the leading farmers and stock breeders in the four adjacent townships, as well as buyers from West-ern and Eastern Ontario. Auctioneer Bishop conducted the sale, and John Bright, Wm. Smith and A. Quinn carried out their part to the letter. The sale was fairly conducted, and the catalogues had been printed and the noise of the engines had been eliminated, not a word of criticism could be heard. The following were the sales:

The shorthorns were, generally, a fair lot, but bidding was rather slow. The following were the prices and sales:

**Bulls.**  
Meadow King, bred by Geo. Johnston, to Archie McIntyre, Manly, \$100.00.  
Coral Reef, bred by T. C. McAvoy, to H. Clare, Tweed, \$92.50.  
Myrtle Lad, bred by Jas. Cook, to Jas. Thordyke, Oshkosh, \$75.00.  
Clareline Chief, bred by John Bright, to John Buchanan, Benford, \$62.50.  
Donald, bred by Wm. Bright, to Jas. Spry, Stirling, \$75.00.  
Royal McKay, bred by Chas. A. Crimmon, to Jas. Spry, \$50.00.  
Stamford Boy, bred by Wm. Bright, to Frank Planklin, Shirley, \$45.00.

**Clydes.**  
Pride of Gloster, bred by C. E. Bain, to A. B. Fisher, Ashburn, \$125.00.  
Mildred, bred by John Kennedy, Agincourt, \$75.00.  
Smith, to Abram Miller, Arryprior, \$115.00.  
Gipsy Girl, bred by H. Guilford, Oshkosh, \$75.00.  
Nora 3rd, bred by H. Clare, Tweed, \$75.00.  
Robt. Moles, Ashburn, \$75.00.  
Ellie 4th, bred by J. McKenzie, Ashburn, \$47.50.  
A. Crimmon Flower, bred by A. Crimmon, to E. Price, Seagrave, \$50.00.  
E. Duchesne of Gloster, bred by E. Bain, to A. B. Fisher, \$80.00.  
Frank Brown, bred by Cox and Chapman, \$25.00.  
Gloster Star, bred by C. E. Bain, to W. H. Staples, Cayvan, \$60.00.

Of the 19 animals offered, two were withdrawn and the 17 sold, averaging \$74.70. E. Bain of Solina is to be congratulated on the quality of the animals brought out.

The Clydes were a good lot, but did not produce as big prices as were expected. James Torrance of Markham bought an imported mare for \$255. R. Holtby of Reedburg secured a fine filly for \$130. John Parrish of Leaside got another for \$210. W. S. McBrooklin one for \$200. A few others were at similar prices. The stallions were a choice lot. Fred Potter of Malden, Essex County, secured one for \$275. Fred Richardson bought a two-year-old for \$275. The others ranged around these figures.

## PLEASED WITH SEED ACT.

Seedsmen Say He Appreciates the Work of the Dominion Seed Act.

"I did not oppose the proposal to introduce the present Seed Control Act of the Hon. Mr. Fisher, when it first appeared," remarked J. A. Simmers to The World. "I recognized in that act the great good that this country would eventually reap from such a measure. It seemed a little harsh at first, but the minister apparently knew his business, and it is working out all right." It is this lesson that dealers in seeds needed as a guide for coming in buying seeds. Many would buy anything bearing the name of grass seed regardless of the seed's purity. The merchant examines all seed carefully to detect the presence of buckhorn, caraway, carrot, dodder, catchfly, dock, cockle and the hundreds of other bad seeds found in our land. As a consequence farmers will get cleaner seeds to sow and will have less annoyance from fresh new weeds appearing in their lands.

Mr. Simmers believes in seed selection most thoroughly. He says that a seed is just like an animal. We must breed the best we have and carefully to detect the best. The seed must be tested after it has been successfully produced, to see its germinating power. Only the best seed should be sold, and the true seedman is he who discards all inferior grades and lives up to the letter of excellence. "Many may be tempted to sell a poor seed, but the farmer who buys the same gentleman, 'even if the quality asked for has been exhausted, until such is not the square nor business act. Sending him a poor seed is tantamount to us are out of that brand."

**POSTAL ENVOYS AT WASHINGTON.**

Washington, March 29.—The Canadian postal inspectors today visited the White House and were presented to President Roosevelt by Postmaster-General Meyer.

## PIMPLES, BLACKHEADS—

Get Rid of All Your Face Troubles in a Few Days' Time With the Wonderful Stuart Calcium Wafers.

**Free Trial Package Sent Free.**

You cannot have an attractive face or a beautiful complexion when your skin is covered with pimples, blackheads, and other face troubles. Impure blood means an impure face, always.

The most wonderful as well as the most rapid blood cleanser is Stuart's Calcium Wafers. You use them for a few days and the difference tells in your face right away. Most blood purifiers and skin treatments are full of poison. Stuart's Calcium Wafers are guaranteed free from any poison, mercury, drug, or opiate. They are not a medicine, but water, but the results are astonishing.

The worst cases of skin diseases have been cured in a week by the use of Stuart's Calcium Wafers. It contains the most effective working power of any purifier ever discovered—calcium sulphide. Most blood purifiers are terribly slow. Stuart's Calcium Wafers have cured boils in three days. Every particle of impurity is driven out of your system completely, never to return, and it is done without deranging your system in the slightest. No matter what your troubles are, whether pimples, blotches, blackheads, rash, tetters, eczema, or scabby crusts, you can solemnly depend upon Stuart's Calcium Wafers to cure you. Don't have strangers stare at you, or allow your friends to be ashamed of you because of your face.

Your blood makes you what you are. The men and women who force ahead are those with pure blood and pure faces. Did you ever stop to think of that?

Stuart's Calcium Wafers are absolutely harmless, but the results are mighty satisfying to you even at the end of a week. They will make you happy because your face will be what you look in the glass, but to everybody who knows you and talks with you.

We want to prove to you that Stuart's Calcium Wafers are beyond doubt the best blood purifier and skin purifier in the world—so we will send you a free sample as soon as we get your name and address. Send for it today and then when you have received the sample you will not rest contented until you have bought a 50c box at your drug store.

Send us your name and address today and we will at once send you a mail sample package, free. Address: F. A. Stuart Co., 51 Stuart Building, Marshall, Mich.

## NOTICE TO THE LIVESTOCK TRADE:

GENTLEMEN: We beg to inform you that there are Two Market Days Weekly here, namely: **Monday and Wednesday**

When buyers of all kinds of Live Stock will be present. **COME AND GIVE THIS MARKET A TRIAL.**

YOURS RESPECTFULLY,  
**W. W. HODGSON - MANAGER**

## DILLON HINGE-STAY FENCE

**HOW TO BUILD A GOOD FENCE**

Our new folder on "Erecting Fences" will tell you and if you will follow the instructions carefully when you are through you will have a good job. It is full of valuable and interesting information on fence building and tells how to erect woven wire fencing in the quickest and most substantial manner.

No farmer, fence man or any one interested in fence construction should fail to write for a copy. It gives all the information required for building fences and we send it **FREE!**

In addition there is also a complete and very interesting description of the manufacture of fence wire. Persons who have never had the privilege of visiting a wire mill will find this article of special interest. It is also an article quoted from a bulletin issued by the U. S. Department of Agriculture on the manufacture of concrete fence posts, showing how posts made of this most useful and durable material can be manufactured at home. Don't fail to write for a copy today. Ask for our folder called, "Erecting Fences." Remember, it is a folder for the **BANWELL HOGXIE WIRE FENCE CO., LTD., Dept. 1, Hamilton, Ont.**

## AUCTION SALE

**20 GOOD FARM HORSES**  
AT MYRTLE STATION  
ON FRIDAY, APRIL 5th, 1907,  
The Property of  
**MESSRS. QUINN AND O'BOYLE**  
These Horses are just what farmers want—1100 to 1600 lbs., and 2 to 9 years old. Sale at 2 o'clock. 3 months' credit with interest at 6 per cent. per annum. GEO. JOCKSON, Auctioneer.

## TWO LOADS OF WEED SEEDS

A City Seed House Sends Quantity of Fowl Weed Seeds to the Dump.

"We have sent two loads of fowl weed seeds to the dump during the past few weeks," said Mr. Rennie of that famous seed house in Toronto, to The World this week. "We have purchased very expensive mills from Europe for the cleaning of all our seeds, and the amount of bad weeds taken out thereby is astonishing. If these weeds were sold back to our farms, and the succeed in crops were harvested, it is easily understood how the country would be full of bad weeds."

"Why do you not sell these for feed?" asked The World man. The answer was that the seeds are not wholesome generally, and that many are poisonous in their nature. Feeding such feeds is therefore, positively harmful and dangerous to live stock. This bears out the testimony of the O. A. C., where experiments with these fowl seeds were made.

**Always Remember the Full Name Laxative Bromo Quinine**  
Cures a Cold in One Day, Grip in 2 Days  
**E. W. Snow** on every box 25c

## CLASSIFIED ADVERTISEMENTS

Advertisements are inserted in this department of The Daily World, issued on Tuesday and Friday of each week, for the low price of one cent per word per issue over the carrier's cost. Each number and postal letter counts for one word.

**I HAVE WATCHED**  
Says Auctioneer Ingram of Guelph, the growth of the farm pages of The World and I am more than pleased with them. Others are doing the same, and this means that our ads. are also attracting attention. Hence an ad. placed here is worth a great deal to the advertiser. The same auctioneer told a good story to the people at Cokburn's sale on Friday and it put them all in good humor, just like our ads. do. The advertiser always smiles when he puts an ad. here. Just now seed grain and eggs.

**FARMS FOR SALE.**  
**FIFTY ACRES, SUITABLE FOR** grain or fruit, situated within quarter mile of railway station and four miles of Grimsby; good buildings; bargain. If sold immediately. Apply W. H. Stantland, Grimsby, Ont.

**RED DEER, ALBERTA, 320 ACRES,** fenced, one-third cultivated, fair buildings, good dairy or winter wheat land, timber for fuel and fencing; exchange for farm near Toronto. Henry Moyer, 87 Beaufort-road, Toronto.

**SCARBORO FARM FOR SALE TO** close an estate—Composed of the north half of Lot 33, Concession One, Township of Scarboro, containing 85 acres, all in a good state of cultivation, soil clay loam. The property is situated ten miles from Toronto, five miles from East Toronto Village, and three-quarters of a mile from the school. Apply Robert Armstrong, Executor, 25 King-street East, Toronto.

**112 ACRES, IN TOWNSHIP OF** Hallowell, Prince Edward County, cleared, 100 acres under cultivation; good house, barn, drive house, hog and hen pens, complete; most fertile farm in the county; factory building, and a fine view. Apply personally or by letter to Wm. C. Orser, Picton, Ont.

**CHOICE FARM FOR SALE OR TO** leasing 117 acres, more or less, good fences; well watered; A 1 buildings; orchard; Farm is a square block with buildings near centre. Fall ploughed; highly cultivated; about 1000 cords of wood on farm. Terms of payment to buyer. Farm is 5 miles from Picton, 3 from Bloomfield. Fred J. Roblin, owner, Picton.

**ONE HUNDRED ACRES, TWELVE** miles from Toronto Junction; productive soil; good buildings; 2000 lbs. of hog pens. Mimeo Creek Plant. Address: Dr. Phillips, 61 Yorkville-avenue, Toronto.

# COBALT---Prospectors Sneak Well of Elk and Larder Lake Districts---COBALT

### OPTIMISTIC FEELING PREVAILS AT THE CAMP

Firm Believers in Genuine Mines, But Disapprove of Claims With Only Acreage.

Cobalt, March 29.—(From the Man on the Spot.)—The optimistic feeling of the camp is unabated, and Cobalters are willing to stake their last dollar on any and every one of the shipping mines, or on any of the genuine new propositions. They do not, however, approve of some of the companies that are being organized with large capitalizations backed by nothing but acreage. Conservative men here, however, frequently receive a severe shock when one knows where a startling find may be made, and what was yesterday considered by well-informed men to be "rotten," may to-morrow look "good."

**Larder Creating Sensation.**  
The Elk Lake district looms up big and promising, and Larder Lake is creating a great sensation, and every man who goes there returns firmly convinced that this will be the scene of a great boom this year. Superintendent Dobbins of the Tige syndicate sent down a lot of samples last week, and a test was made of one of these pieces of gold quartz. It showed by assay \$342 of gold and \$39.19 of silver values to the ton.

**Native Silver on Many Claims.**  
John Byrne, a well-known Cobalt prospector of wide experience, has just returned from Elk Lake. He was greatly impressed with the possibilities of that camp, and spent several days there, as he was sent north by the Prospecting Development Company to inspect and report on some of their claims. He says he saw native silver on several of the properties that he visited, and reports that the possibilities are being made in the townships of James, Smyth, Barber and in the government reserve. This company is practically a close corporation, and has erected good camp buildings on one of its properties, and is sending up a large supply of provisions and supplies sufficient to last it thru the coming summer.

Duke, who is another Cobalt who went north a few weeks ago for the Calverley-Wetherlaw & Lennox syndicate. He had to come down last week as far as Park Road, and he sent a letter from there to Cobalt, stating that they had made some valuable discoveries in the township of Barber and in the reserve immediately adjoining. One of the claims that he considers the most promising consists of lot 12 in concession 5 of that township.

**Ready for Shipments.**  
At the Mackinac development, steady and conscientious development work has been done all winter by Superintendent MacDonald, and, while the shipments from this mine since Christmas have not been numerous, they have sent some very rich ore. As a matter of fact, the work that has been taken out was only what was absolutely necessary in the course of development work. Numerous quantities of high-grade ore are blocked out, and are ready for shipping whenever the management decides that steady shipments can be made, as they have.

At the Cleveland-Cobalt everything is ready for the installation of the plant, and when this is done they will probably have the best plant in the camp. The power-house along the T. & N.O. Railway track has been completed, and in addition to supplying power to its own mine they will sell sufficient to adjoining properties to pay the entire cost of operating their plant, and they have some very promising leads they will soon be shipping.

The development work on the little Nipissing and the Princess has proved very encouraging. The work on the Princess was started long before that at the little Nipissing, but good finds have been made on both properties. The Princess find was made in the bottom of their shaft, and is highly mineralized vein has been struck which carries native silver. The Timmins Syndicate is reported to have purchased this property as a handsome figure. It was one of the properties owned by the United Cobalt Mines, and their consulting engineer is Algermon DeMar. Immediately on his arrival in camp last winter he had a large gang of men put to work, and the results have amply justified his energetic action.

**Big Values in Ore.**  
At the Silver Queen everything is in good shape. Superintendent Bryce has 40 men steadily at work on shifts. Large ore bodies are blocked out and the shipments from this property will depend entirely upon the will and wishes of the board of directors. Smelter returns demonstrate that this mine has wonderful values

in its ores. As only a small proportion of the acreage has been prospected, there is no doubt that this summer will witness the discovery of many valuable new veins. The camp recognizes no justification for this not being one of the most regular of the dividend paying propositions of Coleman Township.

At the Coniagas the new 12 drill compound air and compound steam compressor may be expected any day, and the new boilers are already in place.

At the Rochester Cobalt the new plant is installed and the steam drill at work. Supt. Beard reports that a shaft 40 ft. has been attained in the shaft, and they are sinking at the rate of over one foot per day. Their vein is improving considerably. Ore has improved both in quantity and quality. Drifting will be started at the 60 ft. level and the management is positive that in less than 2 months steady shipments will be made.

**Cochrane Well Thought of.**  
The Cochrane is one of the highly thought of properties in this part of the camp. It consists of the north-east quarter of lot 1 in the third concession of Coleman, lying directly south of the Temiskaming Mine and east of the Gans 20 acres. Only 40 acres are between it and the Temiskaming. It is owned by Messrs. Peverley, Dreany and Black and worked since last summer by Fred Calverley and Ed. Wetherlaw. The Cochrane lot was originally staked by Dick Cochrane of the Soo. It passed inspection last fall, has been leased to the Silver Queen, and the Cochrane Cobalt Mining Company Limited, and has no stock that is available. Dick Cochrane, who is a well-known man in Buffalo, New York and Detroit, are associated with the venture, and the Toronto General Trusts Co. will act as trustees.

**Widens With Depth.**  
At the Cobalt Silver Mountain Mining Co., Supt. John A. Macdonald (formerly of the Trethewey) reports that their shaft is now down a depth of over ten feet, and their four-inch vein has widened to five feet, and shows good calcite, nicotite and abundance of bloom. He is well pleased with the prospects of the property becoming an early shipper. Managing Director Penman was in camp this week and returns to Ottawa and Toronto equally well satisfied.

The location of a large public concentration plant in Cobalt is being considered for the near future. Morton & Co., the Toronto brokers, who have undertaken to show up the Nipissing, have successfully promoted the company, and their representatives are in the camp to select a site.

**Second Plant for Larder.**  
The Barnard's Point Gold Mining Co. of Larder Lake was one of the first Larder companies to be promoted, and their property was one of the first staked in that district, and they went in with Dr. Reddick. Last week they shipped to Barnard's Point a plant consisting of one 42 horse-power vertical boiler, tripod, column bar, standard hoist, cable, rails, etc., and arrangements have been made with Phil McNulty of Healsip to team the machinery right away to Barnard's Point before the winter sets in. Jack Macdonald of the Silver Queen has been engaged to superintend mining operations, and he will take up with him a gang of competent men to develop the 50-acre claims of this company, staked last August, and situated in the middle of the now famous Gold Ridge, first discovered by the Reddick of Winchester. Frank Burr Mosure.

**At Utah Camp.**  
Daily-Judge Mine Will Increase Output.  
Salt Lake City, March 29.—Another dividend of \$7 1-2 cents per share is just being paid by the Daily-Judge Mining Company of Park City, Utah. This mine, which joined the ranks of dividend-payers last year, is being developed upon a much wider scale than ever before. For several years the mine has been a steady producer. Its total output to date is over \$3,000,000, and this from less than fifteen per cent. of its acreage. Superintendent J. W. McGreggor reports that the mine is now producing a new ore shoot in the drift at the 800-foot level. Stopping has already begun along this shoot, and the 600-foot level will be connected here by winze.

The output of the mine is being steadily increased, and the mill is being run to capacity. An electric haulage system will shortly be installed, and the ore will be run thru the two-mile working tunnel direct to the mill. With the coming of spring development portions of the Daily-Judge property will be opened up both by tunnelling and by open-pit methods. Several shafts from above. Several prospecting shafts, which were put down on the property last year, are being continued, and the entire 1200 acre development will be opened up as circumstances permit.

The settlement of the McGreggor claim and the consolidation of these holdings with the Silver King will undoubtedly result in the development of a large property. The leading producer of Park City's mines are now in strong force, and work will be pushed much more rapidly than in the past, and more than ever before in the history of the camp.

While, of course, the present price of lead has much to do with the condition of things, it is also true that the leading mine owners have come to an understanding of the fact that their output can be doubled without by any means increasing their expenses. At the Daily-Judge and the Daily-Judge, modern installations of machinery are contemplated, which will materially reduce the cost of production. Transportation facilities from Park City are not of the best, but the Rio Grande western management promises an improvement in its services this spring.

**Shipments Are Small.**  
Bad Roads at Cobalt Put an Embargo on Ore Shipments.  
Superintendent Adler of the Foster Mine, who is in Toronto, in an interview yesterday said: "Everything is looking exceedingly well at the camp. At the Foster we are not attempting to make shipments, owing to the bad condition of the roads. We have about one and one-half cars of ore, but there is no necessity of sending out when the roads are impassable. I am glad that it is so at present, for it gives us a good opportunity to get along with development, and the shipments will come later on. When the ground is cleared of snow and snow can get out a couple of cars of ore from the open cuts left by the former owners, with very little difficulty or expense. The camp shipments later on will be a surprise, as you will see by the T. & N. O. Railway returns."

**An Open Letter.**  
A. W. Sparling, Esq., 127 Bay-Street, Toronto, Ontario:  
Dear Sir,—It has come to the notice of this company that certain stock being offered for sale in the City of Toronto and vicinity by persons who claim to be directors of this organization. We desire to positively state that the only stock that is being offered for sale at the present time offering for sale is that of the stock, and that the same can only be obtained by direct application to the company, and that the same can only be obtained by direct application to the company, and that the same can only be obtained by direct application to the company.

**Cobalt American Acquires Several Valuable Coleman Properties.**  
The S. S. Nesbitt Company, mining brokers, Confederation Life Building, have just concluded negotiations for the purchase of all the properties of the Waterloo Mining Company, Limited, for the Cobalt-American Development Company, Limited. These properties consist of three 20-acre lots known as the Seelen, Green and Rock, well located in the Township of Coleman. The properties have been sunk on the exposing several strong and well-defined veins carrying silver, cobalt, copper and nicotite, in fact, the properties are covered with a perfect network of veins all highly mineralized, and it would be contrary to all precedent in the Cobalt Camp if these properties do not turn out to be shipments.

**Cobalt ORE SHIPMENTS.**  
Following are the weekly shipments from Cobalt camp, and those from January 1 to date:

Week ending	McK. 20 Ore in pounds	Since Jan. 1 Ore in pounds	Week ending	McK. 20 Ore in pounds	Since Jan. 1 Ore in pounds
Buffalo	40,000	600,000	McKinley	.....	60,000
Coniagas	.....	346,630	Nipissing	.....	1,487,703
Cobalt Central	.....	101,877	Nova Scotia	.....	30,000
Foster	.....	34,250	O'Brien	.....	128,370
Green	.....	100,350	Red Rock	.....	40,000
Gregg-Meehan	.....	129,560	Silver Queen	.....	220,877
Kerr Lake	.....	373,438	University	.....	200
Kerr (Jacobs)	.....	75,000			
LaRose	.....	373,567			

The total shipments for the week were 168,770 pounds, or 80 tons. The total shipments since Jan. 1, 1907, are now 5,091,269 pounds, or 2545 tons. In 1904 the camp produced 158 tons, valued at \$136,217; in 1905, 2144 tons, valued at \$1,473,196; in 1906, 5129 tons, valued at \$3,900,000.

## The Most Noted Mining Engineers in the World Have Visited Cobalt Camp

They are unanimous in saying the values are there. What to do with the thousands of tons of low grade ore was the problem. THAT PROBLEM HAS BEEN SOLVED. The simple process of reducing the ore (separating the values from the rock) by the system to be installed in the plant now contracted for by Cobalt Concentrators, Limited, makes this ore a commercial product.

You have had hundreds of chances to buy stock in prospects. This is a reality. The ore is on top of the ground. Cobalt Concentrators, Limited, takes that ore and gets out the mineral values. Here is an opportunity to make an investment with the chances of failure eliminated.

It is a well-known fact that more money has been made treating ore than in mining ore. This is the first chance you ever had to make an investment in this branch of the mining industry. Better take advantage of it. Opportunities of this character are seldom offered. Shares are being offered at a good investment figure.

Life Depends on Healthy Blood

IS YOURS RICH AND PURE?

Blood is the soul of life. Check its formation, reduce its quality, less its red cells—you are perishing.

When you strengthen the blood, make it richer in red cells, increase its solid constituents, you supply the materials that rebuild—you furnish that disease-resisting element we call strength.

When you are weak and ailing—when appetite is poor—when mental efforts seem impossible, keep hard to get sure your blood has grown poor and your nervous system in consequence is impaired.

Nothing so quickly stimulates the formation of rich, red blood as Ferruzone.

Ferruzone's action upon the digestive power is immediate—everything you eat is converted into nourishment and building material.

Ferruzone fortifies the action of the kidneys, liver and stomach, increases circulation, and by these means throws into the blood a vast store of material to build up and to strengthen.

Ferruzone, by making blood and stimulating vital action, transmits to the debilitated brain cells, exhausted by toil, by anxiety or by sickness, the strength they need.

The beneficial action of Ferruzone on the brain is transmitted thru the nervous system, and all powers of the body are enormously increased.

Ferruzone enables the body to perform all its functions in a normal and natural way, and with an absolute freedom from reaction, which is the most positive assurance that the body is strengthened, not stimulated.

Whether the weakness you suffer is profound or of long standing, whatever the conditions are—if the blood is impaired, if its redness is reduced, its activity is lessened—Ferruzone is an absolute and rapid remedy.

For any condition of weakness, debility or ill health in men, women and children, you can't find so nourishing and strengthening a tonic as Ferruzone; try it, sold everywhere in 50c boxes.

HARDWARE MEN MEET.

W. G. Scott of Mount Forest Elected President of Association.

The second annual convention of the Ontario Hardware Association was held Thursday in the Labor Temple.

A banquet was tendered by Col. McLean and staff of Hardware & Metal to the visiting members at McConkey's, when over two hundred attended.

The following are the officers for 1907: President, W. G. Scott, Mount Forest; first vice-president, J. R. Hamblin, Berlin; second vice-president, J. Watson, Peart, St. Mary's; secretary, Weston Wright, managing editor Hardware & Metal; treasurer, John Caslor; executive, A. W. Humphries, Parkhill; J. D. Brookbank, Arthur, Frank, Taylor, Carleton Place; W. A. Mitchell, Kings-ton; G. A. Burns, Newmarket, and H. Becker, New Hamburg.

CASIMIR-FERIER'S MOTHER DEAD

Paris, March 28.—Madame Casimir-Ferier, mother of the late President Casimir-Ferier, who died March 12, is dead.

Very Lazy. From The Denver Post. A lazy young fellow named Free One started to chop down a tree: On the third or fourth stroke the ax handle broke. "Who says I'm not lucky?" asked he.

To Owners of Bad Breath

Poal Odor of Indigestion, Smoking, Eating or Drinking Stopped at Once With Stuart's Charcoal Lozenges.

Trial Package to Prove It Sent Free. Billous breathers, onion eaters, indigestion victims, cabbage consumers, smokers, drinkers and those with gas on the stomach are in a class all by themselves, distinguished by a powerful bad breath.

They all breathe, and as they breathe, they whiff out odor which makes those standing near, turn their heads away in disgust. The pitiable part of it is that these victims do not realize what a sickening thing a bad, offensive breath is to others.

Charcoal is a wonderful absorbent of gases and odors. It absorbs 100 times its own volume of gas.

Stuart's Charcoal Lozenges will put a stop to your bad, offensive breath, and to your belchings, whatever the cause of source, because the charcoal quickly absorbs all noxious, unnatural odors and gases.

If you suffer from indigestion and belch gas as a result, Stuart's Charcoal Lozenges will absorb all the gas and make you stop belching.

If on getting up in the morning you have such a bad, bilious breath, that you can almost smelt it yourself, rid of it for you quickly.

If you have been eating onions or other odorous things, Stuart's Charcoal Lozenges will make your breath pure and sweet.

Charcoal is also the best laxative known. You can take a whole boxful and no harm will result. It is a wonderfully safe regulator.

And then, too, it filters your blood—every particle of poison and impurity in your blood is filtered, and you will notice the difference in your skin as first thing—your clear complexion.

Stuart's Charcoal Lozenges are made from pure willow charcoal, and are just a little bit of experience in their palatable, but it is not to make stomach, and make you feel fine and fresh. Your blood and breath will be purified.

We want to prove all this clean inside. So just send for a free sample to-day. Then after you get it, use it, and you will like them so well that you will use your own Stuart's Charcoal Lozenges, and we will at once send you a mail sample package free. Address F. A. Stuart & Co., 33 Stuart Building, Marshall, Mich.

ELY WILL RIVAL BUTTE.

New Nevada Copper Camp Develops Into a Surprise.

Ely, Nevada, March 28.—One of the biggest combinations of mining interests in the country is now spending over \$20,000,000 in the new copper camp at Ely, Nevada. As yet not a ton of refined copper has been produced, but the purchase and development of the mining properties, the construction of a railroad and the erection of a mammoth reduction plant, this enormous undertaking will be fully absorbed, The Cumberland-Ely and Nevada Consolidated Copper companies own all lands in the Ely district.

Already over 30,000,000 tons of ore have been blocked out on these claims. The two companies jointly own the entire capital stock of the Nevada Northern Railroad and the Steptoe Valley Smelting & Mining Company. The 144 miles of railway connecting Cobro, on the Southern Pacific, with Ely, was completed last fall. Construction work is being pushed rapidly forward up the canyon to the mines themselves. This road will cost over \$2,000,000. Ever since it was opened, last September, it has been a big revenue producer.

When completed the reduction works will represent an outlay of considerably over \$5,000,000. The smelter which includes 8000 acres and the most valuable water privilege in White Pine County, every equipment which modern engineering skill can devise is incorporated in the plans for the huge smelter.

Electricity is to be used wherever possible and a complete electric haulage plant to connect the several departments will be installed. In the yard over twelve miles of standard gauge tracks are provided for purposes of transportation. Over \$20,000 worth of copper cable will be required to transmit power to the department to another thruout the plant. The central station, the concentrators, smelters and minor buildings are being so constructed that the capacity of each can be doubled without in any way effecting efficiency or interfering with production.

Over a mile will intervene between the concentrators, in which the ore is first crushed, and the smelters which will treat the finished product. Thousands of feet of dust chambers and flues will connect the smelters with the smoke stack. The latter is to be 550 feet in height and 22 feet inside diameter at the top—the largest smoke stack in the country. The first unit of the power house is 120 by 126 feet; the machine shop is 100 by 80 feet; the car shop 160 by 75 feet, and the engine house 175 by 75 feet. The converters, roasters and ore bins are all of equally large proportions. The first unit of the concentrator will be over half a mile long.

In order to avoid possible future difficulty over the questions of smoke nuisance or water pollution, the Cumberland-Ely and Nevada Consolidated Companies purchased 8000 acres of land for the smelter site. Included in this purchase is one of the largest cattle and sheep ranches in Nevada, the Duck Creek water right, belonging to this ranch, furnishes a supply sufficient to insure the treatment of about 25,000 tons of ore a day. Duck Creek is situated on the opposite side of the mountain from the smelters and several hundred feet above. The water will be piped thru the mountain to the works.

The electric plant at the smelter will furnish power for operating the mines, twenty-two miles distant in the Robinson Canyon. The most modern equipment and machinery will be installed thruout. The first unit of 5000 tons daily will probably be ready for operation early next year. Work on the second unit will be pushed forward as rapidly as circumstances will permit.

W. A. Guggenheim, president of the Guggenheim & Rockefeller Co., these men staff is consulting engineer in charge of construction at the Steptoe smelter site of development at the Cumberland-Ely and Nevada Consolidated mines. Joseph P. Gazzam, for years in charge of the Slinger and Jack mines in the South African field, has just been made general manager of both mines and reduction works. These two properties are the best developed of any in the Ely district.

The veteran mine of the Cumberland-Ely group has over 1500 feet of shaft, tunnels and drifts. At the 300-foot level of the main shaft hundreds of feet of drifting has been done on the highest grade ore body thus far developed in the camp. The Adams and Jupiter workings of the Cumberland-Ely are showing up well. On the West side a new shaft is now over a hundred feet. The bottom of the shaft is in sulphides for sixteen feet, and drifting has already begun along the ore above. Assays from the Wedge ore body show 3 1/2 per cent copper.

The Ruth of the Nevada Consolidated group is one of the largest showings of ore in the world. Approximately 15,000,000 tons has been blocked out here in thousands of feet of drifts and tunnels. While no effort has been made to take out ore, other than was necessary in developing the property, the dump at the Ruth contains fully 100,000 tons which will average 2 1/2 per cent copper. The main tunnel of the Ruth is now being continued to meet a shaft which is being run from the Star Point shaft, located about three quarters of a mile distant. The Star Point has the largest mine shaft in the Ely district, being 5 1/2 feet inside diameter, and has four compartments. Near this shaft a crushing plant is being installed and the ore from the Ruth will be reduced here before it is shipped to the smelter.

At the Eureka mine on Copper flat, also one of the Nevada Consolidated group, millions of tons of ore are in sight. As soon as the railroad is completed to this mine huge steam shovels will be installed and thousands of tons of ore will be taken down daily from the mountain side. Underground development at the Eureka has proved that while the surface overburden is stripped away this mountain contains mammoth bodies of low grade copper ore, especially remarkable for its uniformity and extent. By far the most rapid and economical way of getting at this ore is by the use of steam shovels, and it is enough that the Eureka alone to keep the smelters in operation for years.

The Guggenheim owns sixteen smelting plants thruout the United States and Mexico, the majority of which have been built under direct supervision of the engineering corps. The result of the years of experience in smelter construction is noted in the plan for the mammoth copper smelter at Ely. Much of the machinery is of special type and each installation will be made with a view of the greatest efficiency and economy of operation. Nowhere in the country will it be possible to mine, treat and smelt copper ores so economically as at the Cumberland-Ely and Nevada Consolidated properties.

Not only has the expenditure of millions in the part of the Guggenheims and their associates insured the future of the particular interests which

Do These Symptoms Fit Your Case?

Are you dizzy? Does your head swim? Does everything turn dark when you rise after stooping? Are you constantly suffering from headache? Are you short of breath after going upstairs? Is your tongue coated and furred? These symptoms give warning that your system needs a thorough cleansing remedy.

These famous pills loosen the bowels and stop constipation; they act on the liver and kidneys, make them strong and vigorous.

This ensures health and purity for the blood, and, consequently, the whole system benefits.

No other medicine tones and braces like Dr. Hamilton's Pills; they at once cure biliousness, headache, dizziness, poor color, coated tongue and all diseases arising through fault of the stomach, kidneys or liver; try them.

Results prove the merits of Dr. Hamilton's Pills, 25c per box or five boxes for \$1.00, at all dealers in medicine.

they control at Ely, but it has brought about an era of unprecedented activity thruout the entire camp. Machinery, equipment and supplies are under development in large amounts, many of the smaller properties. Hundreds of people are coming into camp every week and the number is steadily increasing as spring approaches. The miners are at a premium and artisans of all kinds find employment at excellent wages. Ely, both as a camp and as the coming metropolis of Eastern Nevada, is demanding the attention of the mining world. Within a few years it will rival Butte both in the extent of its copper output and as a railroad center.

FUEL SHORTAGE Will Prove a Danger to Western Copper Mines.

Salt Lake City, March 28.—The Utah State senate has just appointed a board of enquiry to review the questions of fuel shortage, the discrimination of freight rates, and the general problem of transportation. In the Bingham, Park City and other leading mining sections of Utah the situation is quite generally expressed that these questions become more serious next winter than in the case in the season just closing. Of late, coal has been scarce, somewhat more freely, and several mills, which were forced to close for weeks at a time, because of their inability to get coal, are again in operation.

The question of handling ore in transit between the mines and the milling and smelting plants is still a serious one. Present facilities between Bingham and Park City mines and the reduction works at Garfield and Murray are inadequate. With the rapidly-increasing tonnage of ore ready for shipment at the mines, this congestion seems bound to increase.

Weather conditions are more satisfactory of late, and activity in the gold mines is general. The 1000-ton milling plant of Garfield and Murray at Bingham Canyon, which has been thoroughly overhauled during the winter, is again in operation. At the Utah copper mines themselves, the work is progressing rapidly. The steam shovel on this property are turning over thousands of tons of ore daily. When the company's new 6000-ton mill at Garfield Beach, is in full running order, the new railroad line connecting the mine and the mill will be largely increased. Only a few details remain to be completed. The new Bingham Central-Standard Copper Co. has just taken over the various mining properties of the old Bingham Central and the Bingham Standard companies in its very strong hands.

The veteran mine of the Cumberland-Ely group in the west and in Canada, is president of the Ely district, D. C. Mackinnon, one of the best known and most highly considered metallurgists in America, is general manager. Mr. Jackson, president of the Guggenheim & Rockefeller Co., these men staff is consulting engineer in charge of construction at the Steptoe smelter site of development at the Cumberland-Ely and Nevada Consolidated mines. Joseph P. Gazzam, for years in charge of the Slinger and Jack mines in the South African field, has just been made general manager of both mines and reduction works. These two properties are the best developed of any in the Ely district.

The veteran mine of the Cumberland-Ely group has over 1500 feet of shaft, tunnels and drifts. At the 300-foot level of the main shaft hundreds of feet of drifting has been done on the highest grade ore body thus far developed in the camp. The Adams and Jupiter workings of the Cumberland-Ely are showing up well. On the West side a new shaft is now over a hundred feet. The bottom of the shaft is in sulphides for sixteen feet, and drifting has already begun along the ore above. Assays from the Wedge ore body show 3 1/2 per cent copper.

The Ruth of the Nevada Consolidated group is one of the largest showings of ore in the world. Approximately 15,000,000 tons has been blocked out here in thousands of feet of drifts and tunnels. While no effort has been made to take out ore, other than was necessary in developing the property, the dump at the Ruth contains fully 100,000 tons which will average 2 1/2 per cent copper. The main tunnel of the Ruth is now being continued to meet a shaft which is being run from the Star Point shaft, located about three quarters of a mile distant. The Star Point has the largest mine shaft in the Ely district, being 5 1/2 feet inside diameter, and has four compartments. Near this shaft a crushing plant is being installed and the ore from the Ruth will be reduced here before it is shipped to the smelter.

At the Eureka mine on Copper flat, also one of the Nevada Consolidated group, millions of tons of ore are in sight. As soon as the railroad is completed to this mine huge steam shovels will be installed and thousands of tons of ore will be taken down daily from the mountain side. Underground development at the Eureka has proved that while the surface overburden is stripped away this mountain contains mammoth bodies of low grade copper ore, especially remarkable for its uniformity and extent. By far the most rapid and economical way of getting at this ore is by the use of steam shovels, and it is enough that the Eureka alone to keep the smelters in operation for years.

The Guggenheim owns sixteen smelting plants thruout the United States and Mexico, the majority of which have been built under direct supervision of the engineering corps. The result of the years of experience in smelter construction is noted in the plan for the mammoth copper smelter at Ely. Nowhere in the country will it be possible to mine, treat and smelt copper ores so economically as at the Cumberland-Ely and Nevada Consolidated properties.

Not only has the expenditure of millions in the part of the Guggenheims and their associates insured the future of the particular interests which

SILVER BIRD is surrounded by the greatest producing mines in the Cobalt District.

SILVER BIRD is absolutely inside property, consisting of twenty acres (patented), being the west half of the northeast quarter of the north half of Lot 3, Concession 6, Coleman.

SILVER BIRD is a mine in full operation, with two 25 h.p. boilers, steam hoist, steam drills, and all machinery and buildings necessary to complete an operating mine.

SILVER BIRD WILL POSITIVELY ADVANCE TO 50 CENTS ON OR BEFORE MAY 10TH

Recent advice received from Superintendent Gauthier states that the shaft is now down 107 feet, that he has opened up two new veins showing much higher values, and that he will immediately commence drifting. He says he expects soon to encounter the Great O'Brien and La Rose vein.

SILVER BIRD NOW 25 CENTS PER SHARE

Have you bought any SILVER BIRD? If not you had better buy it now. You must buy SILVER BIRD now if you want it at the bottom price. It was 15 cents per share last week. It is now 25 cents per share. It will be 50 cents per share shortly, and before long everybody will be buying it from One Dollar to One Dollar and Fifty Cents per share. Take our advice and buy now.

SILVER BIRD has advanced to 25 cents per share. Didn't we tell you it would do so? We tell you now it will be selling at 50 cents per share within the next few weeks. Watch SILVER BIRD. It has started and will not stop till it gets above par. Buy it now at 25 cents per share before it advances again. It is sure to do so. Buy it and keep it and you will be able to get One Dollar per share for it within the present year—possibly within six months.

That is our advice. We are in a position to judge. This advance to 25 cents per share is a legitimate, meritorious advance, brought about by recent developments highly favorable to the SILVER BIRD MINE. We believe that SILVER BIRD is a better and safer purchase at 25 cents per share to-day than it has been in the past at 15 cents. If you have any SILVER BIRD shares hold on to them. Don't be induced to part from them. Buy more if you can. Hold them and reap the great profits that are coming to all holders of SILVER BIRD shares.

Remember what we tell you. Everybody will want SILVER BIRD before long, and will be glad to get it anywhere at from One Dollar to One Dollar and Fifty Cents per share. Buy SILVER BIRD. Hold SILVER BIRD. Watch SILVER BIRD.

Considering the inside location of the property, development done, results obtained, low capitalization and the large amount of shares in the treasury, this is unquestionably one of the best bargains (if not the greatest bargain) that have been offered in Cobalt mining shares.

To guard against over-issue and to guarantee to investors the genuineness of the certificates when issued—also the prompt and safe delivery of same—arrangements have been made with The Trusts & Guarantee Company, Limited, 14 King-street West, Toronto, to act as Transfer Agents and Registrars.

Orders may be telephoned direct to Law & Co., Traders Bank Building, at the expense of Law & Co. Applications and remittances, however, should follow direct by mail, to The Trusts & Guarantee Company, Limited, 14 King-street West, Toronto.

THE SILVER BIRD COBALT MINES LIMITED.

Authorized Capital, \$1,500,000.00 FULL PAID AND NON-ASSESSABLE.

President, J. P. LENNOX Secretary, W. A. ABENDROTH

Solicitors: LENNOX & LENNOX, TORONTO AND COBALT.

The Trusts and Guarantee Company, Limited, TORONTO, ONTARIO, Transfer Agents and Registrars.

SILVER BIRD is working two shifts and is in full operation both day and night, sinking upon three veins and in the same formations identically as in the O'Brien, Timmins and Right of Way mines and lying immediately between these mines and the Green-Meehan, Red Rock, Cobalt Contact and Nipissing Extension. The veins are broadening out and are increasing in values with depth, now 107 feet in shaft.

SILVER BIRD has no indebtedness; there are no incumbrances against the property or stock of the company. The capitalization of The Silver Bird Cobalt Mines, Limited, is but \$1,500,000.00, par value of the shares \$1.00 each, fully paid and non-assessable, and no personal liability, with 500,000 shares in the treasury.

APPLICATION (Cut out and forward)

To the Trust and Guarantee Company, Limited, Transfer Agents and Registrars, 14 King Street West, Toronto, Ontario, Canada.

I hereby apply for shares, full paid and non-assessable, of The Silver Bird Cobalt Mines, Limited. You will find herewith draft, cheque, Postoffice or Express order for \$..... payable to The Silver Bird Cobalt Mines, Limited, in full payment thereof. Issue and forward certificates to

Name..... Street..... City..... Province or State.....

MINED AT SMALL COST.

Supt. Madden Says Peterson Lake Claim Can Be Worked Cheaply.

Superintendent Madden of the Peterson Lake Cobalt Mining Co. arrived in town yesterday morning en route for New York, where he goes to consult the management of some of the properties with which he is connected. He reports that new and very valuable finds have been made in the camp during the past ten days, and states that the Peterson, Kerr and Cobalt Lake propositions are looking up and development only is needed to make them rank with the greatest shippers of the camp. The indications at Peterson show that a highly mineralized deposit has been located that is being mined at a comparatively small cost.

HOW TO QUICKLY CURE HEARTBURN AND HICCOUGHS

They are always caused by fermentation or excessive acidity of the stomach. The distress they cause is relieved by the use of a few drops of "Nerviline" in sweetened water. "Nerviline" cures the conditions that cause the hiccoughs, just as it does all other disorders of the stomach and bowels. For cramps, flatulence and stomach pains, nothing better is known. For a household remedy for all aches, pains and minor ills, use Nerviline—25c per bottle everywhere.

Doan's Kidney Pills

They go to the head of the parade, strengthen the kidneys and help them to filter the blood properly and flush out all the impurities which cause kidney trouble. Mr. Thomas Petty, Mass., Ont., writes: "After I arrived in Canada, I was seized with a couple of years ago, I suffered very much from a kidney trouble. I tried several remedies, but they did me no good. Finally my back became so lame I could hardly walk. I was advised to try Doan's Kidney Pills and after taking them I felt like a new man."

Price 50 cents per box or 3 boxes for \$1.25 at all dealers or mailed direct to Toronto, Ont., by The Doan Kidney Pill Co., Rochester, N.Y.

Veritas That Made a Hit.

The director of harmony and versification who provided the numbers sung at the annual banquet held at the Central Y. M. C. A. on Friday and made a hit with a series of verses entitled "Dunlop," sung to the tune of "I Love You All the Time." The John Westren referred to is the general manager of the Dunlop Tire and Rubber Goods Company.

Mr. Dunlop was not present, however, to hear Dunlop praise sung at the festive board: John Westren, he makes Dunlops, The tire that's good and true, For if you get a puncture You just lose a minute or two; There is no cause for worry; And to swear there is no need, For your wheel has Dunlop tires, "These are the only tools you'll need."

John Westren gave the Dunlop, The trophy we have here, And to keep up in the running, We have to win again this year. But if you do no running, You can help our Dunlop team; Just come around and do the rubbing, for "These are the only tools you'll need."

Battleford Column Officers. The following officers of Battleford Column, N. W. F. F., 1885, have been elected: Hon. president, Brig-Gen. W. D. O'Neil; hon. vice-president, Lieut-Col. W. Wallace; president, Capt. T. A. E. World; vice-president, Major J. R. Heakes; secretary, W. W. S. Howard; treasurer, Thomas Jardine; executive committee, Major J. O. Thorn, J. Creighton, J. Pearson, J. Bromley, F. J. Laidlaw, J. Brash, E. J. Lye, J. H. Davies, H. Howell, P. Cunningham, G. P. Ham, C. H. Lugand.

The annual dinner will be held on the 2nd of May, the anniversary of the engagement at Cut Knife Hill.

Sac to Relvill. A maiden who infrequently VIII. Would murmur: "Just pass me a PYLON."

Im much too celestial For viands terrestrial; I'll have but a kiss and a d'vill."

The First Tooth Brushes. Colonial diaries and letters make it plain that our unfortunate ancestors suffered much from jumping tooth-aches, swelled faces and the early loss by forcible extraction of teeth, which at a later period might have been saved.

Information. Mifflins: What would you do if I was to call you a liar? Biffins: I'd mention your indiscretion to the corner at the Inquest.

The Minnehaha Mining & Smelting Co.

Capital, \$2,000,000. Treasury Stock, \$1,000,000. No personal liability. Fully paid up and non-assessable. A limited number of shares is now offered in the above Company at 50 cents, par value \$1.00.

The property of the Company is located on Minnehaha and White Water Lakes, in the Ratby River District, New Ontario, in what is known as the New Klondike and Manitou Belt, and consists of Locations S. V. 424 and E. V. 425, containing 67 acres of Mineralized Land. The Property is about 12 miles from Wabigoon, on the C. P. R., and is easily accessible, being reached by steamers that stop at the Company's Landing. We have an abundant supply of fresh water and wood for fuel, mills, etc. Title indisputable. Crown Patent, The Climatic Condition is such as to render it practical to operate the property at all times of the year.

CHARACTER OF VEINS. The Main Vein, which runs diagonally (4000 feet), across the Entire Property, is about 7 feet in width, and consists of Gold-Bearing Quartz and Porphyry. As depth is attained the vein widens, and opens to a greater volume and richer deposits. There are numerous Stringers of Quartz with this formation which are very Heavily Mineralized.

Our Property is in the immediate vicinity of the World-Renowned Laurentian Mine, in which \$100 invested two years ago is estimated to be worth as many thousands.

Work on our Property has been done at eight different places, and each has shown remarkable richness. The Main Shaft, 6 feet by 8 feet, has been sunk to the depth of 100 feet, and averages \$506.21 in Gold per ton for every foot attained. A Second Shaft, or Test Pit, has been sunk 800 feet east of the Main Shaft No. 1, and on the Main Vein. Samples from this, showing no visible gold, assayed \$772.20 in Gold and \$272 in Silver to the ton of 2000 lbs. assayed by the Provincial Assay Office, Belleville, Ont. Can. Assays completed by Dr. J. S. Island, 389 Parliament-street, Toronto, of samples of ore from the 87-foot level to the 100 foot level, the bottom of the shaft, "assayed for Gold only," are as follows: Ore No. 1, \$609.12; Ore No. 2, \$412.12; Ore No. 3, \$527 to the ton of 2000 lbs. Quoting him, he states four check assays were made of the above samples, and the results, as shown above, are therefore absolutely correct. Dated Toronto, Feb. 18th, 1907.

With this showing, it is very reasonable to average the ore at \$200 per ton, less than half the above average. Then, without doing any more sinking, but confining our efforts to the taking out of the ore in sight, note the results:

Length of vein ..... 4000 feet. Width of vein ..... 8 feet. Depth of shaft ..... 100 feet. Giving total ore in sight ..... 2,400,000 cu. feet. Allowing 12 cu. feet of ore to the ton, 200,000 tons, on a basis of \$100 to the ton, one-half the above average, the value of ore in sight is \$20,000,000.

COST OF PRODUCTION. Mill and machinery installed ready for use ..... \$100,000.00. Cost of milling 200,000 tons, maximum ..... 800,000.00. Allowing for unforeseen expenditures ..... 100,000.00. Total ..... \$1,000,000.00.

Balance left for dividends, \$19,000,000. This equals a 950 per cent. Dividend on entire capitalization. Subscribe At Once by sending in your Application, accompanied by Bank Draft, Money Order or Express Order; made payable, accompanied by Bank SPARLING, Toronto, from whom all particulars can be obtained. Every Assortment of Shares is available. The Toronto Globe, in part, says the Company have a Stock will be advanced in price first of June.

Considerate Conservatism in Banking is to Care for Many Interests, while Capitalizing None

HAD THIRTY-TWO BOILS AT ONE TIME

Two Bottles of Burdock Blood Bitters Cured Him.

Imperfect organic action makes bad blood, so, too, bad blood, in turn, makes imperfect action of every bodily organ.

Pimples, boils, blotches, ulcers, festering sores, abscesses, tumors, rashes or some serious and perhaps incurable blood disease may result.

BURDOCK BLOOD BITTERS

For all cases of bad blood. Mr. Ernest B. Lupper, Round Hill, N.S., says: "I think Burdock Blood Bitters a great medicine for boils."

LIQUOR LICENSE FOR PARK.

Petition in Favor Now Circulated Will Be Promptly Opposed.

Residents of the beaches are beginning to gird themselves for another struggle, not with the railways this time, but with the management of the Leuty-avenue amusement park.

They claim that the petition now being circulated in favor of a liquor license being granted the park is in defiance of a proviso in the agreement under which the property changed hands, and a contra petition is being drawn up in protest.

The strong feeling against a license that exists among many of the residents was conveyed in the emphatic declaration of one prominent property owner who was asked to sign that he wouldn't do so for \$10,000.

There is a decided belief that the sale of liquor would attract a very undesirable element to the beach, and that residents would suffer serious annoyance.

The Latest Test. W. S. Smith of the Automobile Supply Co., made a test of the number of miles an automobile will run in the city streets on a gallon of gasoline.

The car used was the two cylinder Buick—all gasoline was drawn out of the tank and a measured gallon put in, and the automobile started from the garage of the Auto and Supply Co., and ran 23 1/2 miles before the gasoline gave out.

Mr. Smith is on the right track, the cost of running an automobile is a very important factor to those using auto mobiles. Cars to-day are so nearly perfect that repairs on a first-class car is a minor matter.

Some car of equal power, namely, 22 horse power, that will make 23 1/2 miles on city streets on one gallon of gasoline.

99 to New York and Return. Erie R.R., April 5, tickets good ten days, returning. For Pullman accommodations write J. R. Cathcart, 209 Main-street, Buffalo, N.Y.

A Press representative who sought an interview with Mr. John Burns on the L.C.C. election results says the president of the local government board was almost speechless with rage.

"The House That Quality Built." Easter Needs

- NECKWEAR - GLOVES - SHIRTS - HALF-HOSE - FANCY VESTS - AND OTHER THINGS

The discerning customer likes our goods because there's good quality in every thread.

We appreciate that And couldn't afford to have it otherwise when quality is the foundation of our business—of course faultless style is always counted in.

The haberdashery section is at its best in appropriate things in gentlemen's Easter wear.

New Easter Neckwear, 50c to 2.00. New Easter Gloves, special 1.25. New Easter Half-Hose, 50c up.

Matchless values in our fine imported Scotch Tweed Suits, 25.00 to 28.00.

Secor's 77 King Street West.

YORK COUNTY AND SUBURBS ACTIVITY IN BUILDING AT TORONTO JUNCTION

More Houses Going Up Than for Some Years—Council to Inspect Pavements.

Toronto Junction, March 29.—Mr. Bemrose of Western-avenue is building four houses on Brighton-place, George Mason is building a house on Humber-side-avenue, and C. F. Wright will build a number of frame houses on Gilmour-avenue.

The streets are in a very dangerous condition at the present time owing to the depth of the mud. Something should be done at once to improve them.

Several members of the council and Mayor Baird left to-day for Windsor, Chatham and Detroit to inspect cement block paving.

Markham. Resolutions of regret at the retirement of H. B. Reesor and Miss Gertrude Reesor from the positions of choir master and organist of Markham Methodist Church were unanimously passed at the regular quarterly meeting held during the week.

H. G. Sanderson, for some years manager of the South End Drug Store, has decided to remove to Toronto, and will leave Markham in the near future.

The will of the late Miss Emma Carol Tuckett, formerly of Markham, disposes of an estate of \$25,786.46, of which \$10,391.77 is realty. Her mother, Mrs. Martin Tuckett, receives the whole of the property.

A meeting will be held in the Franklin House this afternoon (Saturday) for the organization of a rifle association under government rules and regulations.

Ernest Smith has returned home after a three months' course in the Dairy School at Guelph.

Miss Mary Doherty, an old resident of Box Grove, is dead at the age of 77.

The Markham fire brigade will meet on Monday evening, April 8.

While crossing the Rouge River at Vinegar Hill, Mrs. Ella Weston, thru the ice. Her sister, Mrs. Plaxton, went to her rescue.

North Toronto. The strongest kind of condemnation is being made on the side streets of the town. These thoroughfares are impassable except to the lightest kind of vehicles, and even with these there is a constant danger of getting mired, and having to get a second horse to help out.

Merchants are refusing to send goods out until the roads dry up, and those living on the roads east of Yonge-street have to carry home necessities for the time being.

Mr. Wilson, superintendent of the chicken farm on concession 2, East York, feeds his poultry keenly. His firm has two rigs straddled on Eglington-avenue and Mr. Wilson says it is impossible to carry on his business under such conditions.

He lays considerable blame on the North Toronto Council, which, he says, promised last year to make least one road from Yonge-street to concession 2 in a passable condition.

Mr. Wilson also says that he has undertaken to contribute a portion of the cost of putting a road in civilized condition, and that although not a town ratepayer his firm leaves sufficient money with the merchants to entitle them to some thought.

He, however, says that aside from this the town owes it to the community at large to do something tangible in road building.

William Robinson of the Outlook Hotel was convicted by Magistrate Ellis for breaking the local option law by selling intoxicating drink over the bar on Oct. 11 last. Sentence for four months in jail was pronounced on Dec. 22.

Defendant, thru his counsel, entered an appeal, and Robinson was liberated on \$400 bail. Since the time of his conviction, nothing was done to appeal the finding of the court and Police Magistrate Ellis arrested Chief Constable Morrison with a warrant of commitment, and he took Robinson into custody at once on Thursday afternoon.

Yesterday morning a horse belonging to Councillor W. J. Lawrence was stuck with a load of cut flowers on Kensington-avenue. The horse had to be un hitched and helped out of the mire, while J. J. Davis' delivery horse had to pull the rig to terra firma.

A. H. St. Germain of Bedford Park has rented "St. Germain Park Farm" of 17 acres, fronting on Yonge-street. North Toronto (only two and one-half miles north of the city limits) to William Mabbett, who has been Mr. St. Germain's faithful and competent farm foreman for the past ten years.

Mr. Mabbett intends associating the dairy business with that of grain growing. He has bought all Mr. St. Germain's stock and farm implements. He will commence his dairy branch of his creditable undertaking with fifteen first-class match cows.

Special Good Friday services were held at St. Clement's Church at 10.30 a.m. and 8 p.m. To-morrow's holy communion will be celebrated at 8 and 11 a.m.; children's service, at 2.15 p.m., and evensong, full choral, at 7 p.m.

The members of Eglington Lodge, No. 269, L.O.L., are selling their present property. Tenders have been asked, with a view of buying a more convenient property and building an up-to-date hall.

Mrs. Radcliffe of Kensington-avenue, who spent the winter with friends at the Soo, has returned.

The Metropolitan Railway is excavating for the foundation of its \$75,000,000 barn in Deer Park.

The holiday travel over the Metropolitan line was heavy.

Pickering. A combination sale is being held here on Monday. Lightning struck Station Agent Bell's residence during the recent storm, but did little damage.

Doric Lodge, A. F. and A. M., was visited by the deputy grand master, R. A. Ratcliffe of Eglington this week.

Ladies' Dorothy Bags WANLESS & CO., 168 Yonge Street.

GUN LICENSE TAX. A Fruit Grower Objects to Canadian's Views on Firearms Question.

In the issue of March 20, The World contained a letter from "Canadian" wherein objections were made to the tax on firearms by the government.

He likens this legislation to the automatic legislation in Russia and argues in the forcible way that because our fathers used guns indiscriminately the children ought in this free country.

But, again, the government certainly has the right to legislate on all matters affecting the relationships of one man with another. And so much can be said in favor of restriction of the use of firearms in our country places, that it is no wonder some objection has been raised to the opinions expressed by "Canadian."

In our country places such reckless destruction of birds is indulged in by youths, who only want to shoot something, that something more than moral suasion is necessary. The good offices performed by our birds and game are referred to time and again, and The World is glad to publish the views of the following prominent fruitgrower, who, like many others, has a bevy of quail always on his farm and that he has been annoyed for years with strolling idlers with guns, who shoot everything alive.

Editor World: I must disagree entirely with "A Canadian" on the subject of guns. As a farmer and fruitgrower I possess every man who carries a gun off his own premises is a menace to the well-being of society in the settled portions of Canada. By all means make the tax as heavy as possible. Let boys be prohibited from carrying guns under any circumstances.

We suffer millions of dollars of loss from the ravages of vermin and foolish boys to wantonly shoot our birds, songsters, as well as game birds, the best of which are the quail and quail have got. A bevy of quail on a farm is worth more than an equal number of hens, and one hawk will kill more mice than many a boy will carry a gun off his own premises except with a very good license.

STREET CAR SERVICE. Editor World: Will you kindly allow me to state your valuable paper to make a few statements and suggestions with reference to this matter?

This morning, between Munro Park and the Woodbine, there was not a single car either on the up or down line. On arrival at the Woodbine I found eleven cars bunched there. What is the meaning of this? If these cars had been running when the power failed they would have been strung out along the line and each would have been where it was when the shut-off took place.

I am glad to understand that a similar condition prevailed on Winchester-street during the summer months, and that it is now springtime and we can see a demoralized, if it is lack of Niagara power, the old power should have been retained in case of such accidents as these, and the citizens spared these annoyances, instead of which it is stated that the plant formerly owned by the city company was sold to a private party since the installation of Niagara power.

Is there any disagreement between the city government and the Street Railway Company over additional power houses? Why should citizens be made to suffer every wrong and inconvenience?

I do believe there is no other city that has any such grievances as we have in Toronto, and our citizens spared these annoyances, instead of which it is stated that the plant formerly owned by the city company was sold to a private party since the installation of Niagara power.

Thousands of workmen, women and girls this morning suffered by the loss of a portion of their wages. Does the street railway people propose to consider these cases and pay the same out of the money now used to pay dividends on what we are told is watered stock?

Can't the government be called on to investigate the amount of watered stock, if any, that exists and demand a cancellation of the same and apply the said dividends to improving the service?

Thousands of the citizens are looked upon as mere servants of the company. "Take what we choose to give you, and together like sardines and sardines we get your cents." It is a disgrace to all humanity, even worse than packing cattle for shipment, because the shippers give them sufficient space for safety, but we are simply packed into such space that is inadequate in every degree.

It is now springtime and it is the duty of all well-able-bodied men and young women to foot it during our nice bright weather whenever we can, and only use the street railway during the wet weather. We would not only be better in health, but, I assure you, would during the summer months reduce the income of the street railway 100 per cent. It is the only thing that can be done, which would soon bring the company to time and make them glad to cater to the public if their returns fall away during the summer months. It is for every head of a family to impress upon the younger members to foot it during the nice dry days, which would make better and stronger men and women of them all. The most remarkable thing is that the street railway in almost every instance gains its point. Do you find a shortage of power on street cars during the exhibition? No, never; it would of course affect the company's coffers. Every exhibition time we have a service that cannot be surpassed. Then, at the recent enquiry, the company tried to gull the public by saying that it would be dangerous to have more cars running past certain points. Now this of itself should be sufficient to show to us, the public, that as long as we choose to put up with such outrageous treatment we shall get nothing but the same.

The public in a body should rise for its rights and use every effort to compel the street railway to give our citizens the service to which they are entitled. Geo. F. Davis.

THE GAME LAWS. Editor World: While heartily in sympathy with every effort made to curtail the slaughter of our fish and game, there is one proposed law I wish to point out to every shooter which is not for the protection of game, but for the benefit of the reserves on which there is easily two-thirds of the good ducks killed annually. As everyone must know, the reserves in Ontario

are not for the protection of game, but for the extinction of every duck it is possible for the members to kill. By baiting the ponds with wheat and growing wild rice and wild celery they prolong the stay of ducks on their southern migration and by every known means diminish the number of ducks which happen to tarry with them. Shooting all day they are known to kill 100 ducks each. The proposed law is that of not allowing decoys over 200 yards from any shore line or marsh. This will be class legislation of the worst kind, for any shooter not a member of the favored reserves has a poor chance of getting good ducks, "redhead" and "canvas-back" if he is compelled to shoot off shore, when the ducks shot out of reserve are sitting 300 and 400 yards from shore. I know this to be the case in Long Point Bay, Port Rowan, Lake Seaugo and am led to believe at Rondeau and the flats.

It is a regrettable fact that certain of our legislators on the committee which reported this law have been the guests of the reserves. The result of this hospitality is easily seen in this law curtailing the shooting of hundreds of shooters, not that the reserves can kill them all.

Very few ducks will be had around Toronto, Humber Bay and Ashbridge's Bay; not that many are got, but many persons enjoy the chance of getting some; they will be denied even that privilege. As a shooter, let me suggest curtailing the number of ducks to be shot in any one season, or in lieu of that, the prohibition of sale of ducks. If the gun clubs and shooters of this province take this matter up as they should do, I feel we will be able to maintain our rights as against the interests and influence of the reserve people, who have nearly everything and want it all.

Seldom Seen. First Golf Match. Simcoe, March 29.—What is supposed to have been the best golf match of the season was played here to-day between Braithford and Simcoe, twelve players a side. The course was in excellent condition. Simcoe won by a score of 8 to 3.

Township of York. Take notice that the Municipal Council of the Corporation of the Township of York intends to establish, extend, alter, amend, improve, or alter the location of a line with Gerard-street, 66 feet in width, to open thereon, in about 100 feet from the easterly limit of the said city across parts of lots 8 and 9, con. 1 F.B., Township of York, to the westerly limit of Coxwell-avenue, and intends to assess the final cost thereof upon the real property and land immediately benefited thereby, or abutting upon the north and south sides of said Gerard-street, from the easterly limit of the City of Toronto, easterly to the westerly limit of Coxwell-avenue, as the same appears by the report of the Township Engineers dated June 11th, 1906, and Feb. 20th, 1907, upon which it is proposed to charge an equal proportionate part of the cost of said improvement in accordance with the provisions of said reports, having regard to the whole assessment of the said street, the same to form a special assessment per foot frontage upon the lands according to the value of the same, and payable in 10 equal annual instalments.

A statement showing the lands liable to be so assessed, and the names of the owners thereof, from the last revised assessment roll and otherwise is now filed in the office of the Corporation of the City of Toronto, for the purpose of hearing objections against the proposed assessment of the same, and for inspection during office hours.

The estimated cost (including the purchase of land) of the improvement and work is the sum of \$8000.00.

Notice is hereby given that a public hearing will be held on the 12th day of April, 1907, at 2 o'clock p.m., in the Council Chamber, 108 Victoria-street, Toronto, for the purpose of hearing objections against the proposed assessment of the same, and for inspection during office hours.

W. A. CLARKE, Clerk of York Township.

Unionville. James Payne has bought the house and lot on Main-street at present owned and occupied by Robert Duffield.

The Frebyterian Manse is being thoroughly overhauled previous to its occupation by Rev. Mr. Rae, the newly inducted pastor.

Rev. Mr. Power is comfortably settled in the Methodist parsonage.

John Miller is completing the erection of a modern brick residence.

Thomas Hagerman has removed to the farm of Moses Hemmingsway, near this village, and the house vacated by Mr. Hagerman will be occupied by Mr. Galloway.

James Gibson is seriously ill.

Unionville is rapidly becoming one of the most important shipping points on the Midland Railway, the shipping of grain and live stock having increased 25 per cent. over last year.

East Toronto. East Toronto Lawn Tennis Club will this year open the season under the most auspicious circumstances. The finances are in a most satisfactory condition, and a new cluder tennis court and bowling green will be added to the present court. The officers for the year are: Hon. president, Rev. Mr. Rogers; hon. vice-president, Miss Leadley; president, F. W. French, B.A.; secretary, Noel Drummond; treasurer, A. Care.

On Monday evening, April 1, the G.T.R. trainmen at home will take place in the Y.M.C.A.

Albert Lake of Vancouver, B.C., is visiting his sister, Mrs. F. Mother-sill.

J. Clarke has purchased the property on the corner of Main-street and Danforth-avenue, formerly occupied by Mr. De La Plante.

The Religion of the Pygmies. Major Powell-Cotton during his long stay among the pygmies of the Ituri Forest discovered that the tribe has a religion of its own. In some of the inner recesses of the forest, he reports, improving rites take place.

On certain occasions an altar is erected and sacrifices are offered, the pygmies themselves sitting round in a semi-circle performing their devotions. When the camp is moved to a fresh site a sacrifice to the god of their new home is made in the forest. The little people offer to the gods on their banquets, bananas, sweet potatoes, meat, pieces of cooked meat, all steaming hot, are placed on the altar as the offering to the god, and the pygmies sit around, all men, women and children—eating.

During their honeymoon, Major and Mrs. Powell-Cotton had opportunities of watching the weird dances indulged in by the pygmies. To the music of their own voices and the native tom-tom the groups of dancers shuffle round in a rough circle—in pygmy land the sexes never dance together. At evening time, when the shadows are lengthening, this barbaric dance is fantastic beyond description.

THE GREAT "SILK HAT DAY"

Easter lays its obligation on man as well as woman. The gladness of the occasion seeks to express itself in brighter, fresher, newer garb. Men should observe the spirit of Easter and grace the occasion with a new Silk Hat. We can supply any demand at reasonable prices, and from the world's best makers,

\$5 UP TO \$8 In Men's Spring Overcoats and Suits we have the best that can be found in England or America. We have "Burberry's" famous Overcoats, and the well-known "Terlus" Serge Suits, black and blue; Overcoats are from \$18 to \$25, and Suits are \$20.

Fairweather's 84-86 YONGE STREET

He was the guest of Rev. F. C. Harper, and expressed himself as highly pleased with the way the work had been performed, comparing it very favorably with city judges. Two candidates were received during the evening.
