

THE HAT FOR SUMMER

Straw Hats lead everything this summer. The Straw Hat fashion is in vogue this season; so is the hat that is not a hat, the dressiest and the most elegant. Individual will rebel against the thought of wearing any other kind of hat—and there are so many new Straw Hats and varieties at Dineens that a man, particularly about style or price, will appreciate the unalloyed satisfaction he gets at the new store.

FEAR OF YELLOW JACK

Cuban Campaign to Be Postponed Until After the Rainy Season.

THAT IS THE REPORT FROM WASHINGTON

Uncle Sam Deems It Advisable to Let the Spaniards Fight Through the Yellow Fever Season Alone—Meanwhile Attention Will Be Centred on Porto Rico—Another Cannonade at Santiago—Various War Reports and Rumors.

WAR NEWS PARAGRAPHS.

It is once more announced that the Spanish fleet has left Cadix for an unknown destination. The German transport Darmstadt has arrived at Kiao-Chow, and the second class cruiser Princess Wilhelm has sailed from Nagasaki, Japan for Manila. The U. S. embassy at Berlin says the United States will not permit German troops to be landed in the Philippines. Further that Manila and the islands are now and will remain United States territory. Cadix is greatly excited because of fears that an American fleet will go to Spain, and reinforcements are to be sent to the Balearic Islands, the Canaries and Ceuta. A despatch from Guantanamo Bay says the fighting there shows that the Americans have learned some useful lessons, among which is that every camp must be well guarded against night attacks, the same as in fighting Indians. It has also been learned that a lot of ammunition can be wasted on shadows when green troops are engaged. American marines speak enthusiastically of the daring of the Cubans. At night in skirmish time, the marines say, the Cuban auxiliaries go through the brush like rabbits. Their chief fault, however, is their reckless handling of the new machine guns. The warships Texas, Marblehead and Suwanee battered down the fort and earthworks of Guantanamo on Wednesday and drove the Spaniards into the bushes. U. S. transports from San Francisco were sighted a week ago off Iloilo, Philippine Islands.

FEAR OF YELLOW FEVER.

New York, June 16.—(Special to The Toronto World.)—A Washington special says: There is the highest authority for saying there will be no general invasion of Cuba until about October. It is considered the best policy to let the Spaniards fight yellow fever alone this summer and not expose our troops to the infection. The plan of the Administration is, unless Spain, after the fall of Porto Rico, asks for peace, the United States army and navy will probably start a campaign against the Canary Islands.

Washington special to The World: All present prospects of peace ended with the departure of Shafter's first unit of invasion to Cuba. A peaceful solution seemed not only possible, but probable, while the United States troops remained at Tampa and Key West. But conditions have undergone a material change, committing the United States to an aggressive campaign.

Key West special to The Journal: The Cuban Civil Government at Jaguas, in Camaguey, reports that more than 5000 Spanish volunteers and many regulars from Puerto Principe and Nevitas garrisons have deserted to the patriot army. The immediate cause of desertion is said to be a fear that the port of Nevitas would be captured by the American fleet.

Washington special to The Journal: It is unofficially stated that the Spanish cruiser Vizcaya was hit by a dynamite shell from the western batteries against Manila while leaving San Francisco not later than June 13. It is decided that General Merritt shall on his way seize the Ladrone Islands, where he is instructed to leave 2000 men of the 10,000 in the expedition.

Washington special to The Herald: Gen. Shafter's army of invasion is to be reinforced by 4000 men, who within the next few days will be embarked at Mobile, and sent away on the first transports. This is deemed necessary, as the Government is informed there are 12,000 Spanish regulars and about 4000 volunteers at Santiago.

SANTIAGO AGAIN BOMBARDED.

Admiral Sampson's Ships Pound Down the Batteries—Vesuvius Fires Three Charges.

Off Santiago de Cuba, Thursday, June 16, Noon—Via Kingston, Jamaica, Thursday, June 16, 9 p.m.—Rear Admiral Sampson's fleet bombarded the batteries at Santiago this morning. For hours the ships pounded the batteries at the right and left of the entrance, only sparing El Morro, where Lieut. Hobson and his companions of the Merrimac are imprisoned.

The western batteries, against which the main assault was directed, were badly wrecked. One was utterly destroyed. In others many guns were dismounted.

At first the Spaniards replied passionately and bravely, but finally, by the time most of the guns were deserted. Not a ship was struck nor a man injured on the American side.

It is believed that the enemy's loss of life was heavy. As a preliminary to the shelling given to the batteries this morning the dynamite cruiser Vesuvius last night was given another chance. Three two hundred and fifty pound charges of gunpowder were sent over the fortifications at the entrance. The design was to drop them in the bay around the angle, back of the entrance on which El Negro is situated, where it is known that the Spanish torpedo boat destroyers were lying. Two charges went true, as no reports

WHERE IS WILLIAM T. CLARK?

Has Been Missed By His Friends For Ten Days.

Was Until Lately With the Thomson Paper Co.—Alleged That He Recently Admitted Having Taken Too Much Morphine—Left All His Effects When He Disappeared.

There is a deal of mystery surrounding the sudden disappearance of William T. Clark, who for a long time was Toronto manager for the Thomson Paper Co. of Newburg. He was a very well known man down town, and has not been seen in any of his old haunts since a week ago last Wednesday, when he resigned his position at the request of his employers.

Mr. Clark boarded regularly at Mrs. Rankin's restaurant, Sullivan's Hotel, King-street east, but left there nine days ago without saying he would not be back. A few days afterwards, a young woman, who said her name was Mrs. Elliott called on Mrs. Rankin. She said Clark had been rooming at her house, but had left suddenly a week ago Wednesday. She did not say what her address was. Mrs. Elliott said that he had according to his own admission taken 10 or 11 grains of morphine, and she found him on her steps suffering from the effects of the drug. He left the next morning, having all of his belongings in his room. She became anxious regarding his disappearance and thus sought Mrs. Rankin.

Mrs. Rankin describes the lady who called upon her as rather stout, but handsome and about 30 years of age. Clark until last fall lived with his family at 6 Rose-avenue, but left there, his wife going to Oakville. There has since been trouble between the couple, and Clark told his friends that his wife was annoying his firm, his customers and himself in such a way that it would cost him his position. When Clark left Rose-avenue he took a room in the Fishen building, 33 Scott-street, which he gave up on May 16 last.

The house, No. 6 Rose-avenue has recently been purchased by James McCracken, the well-known down town night watchman. Yesterday a woman answering the description of the Mrs. Elliott, who called on Mrs. Rankin, called at Mr. McCracken's house. She said the object of her visit was to get the tidings of Clark, as she thought he may have had too much morphine, and she affected his mind. In such a condition he might have strayed back to his old home. She said further that she thought he was dead, and that is likely Clark's body that had recently been seen floating in the lake. The woman was greatly excited and stated that she was a music teacher, and an old friend of the family. Almost eight years in her eyes she told Mr. McCracken that Mrs. Clark was nearly frantic over her husband's disappearance, and that the grieving wife had said it was all her fault as she had with the past few days issued a writ against his for alimony and he said, "My God, its all up with me now."

MASURY'S DILEMMA.

Spanish Torpedo Boat Blackmailed Him Out of \$2000, and Wanted to Repeat the Dose.

New York, June 16.—In 1896 John W. Masury, a well-known New York sportsman, came into possession of a fortune of two million dollars, left by his grandfather. He immediately bought the yacht Brunhilde and sailed in January, 1897, with his wife and Mr. and Mrs. James Lecker of Boston for a trip around the world. When he broke out the Brunhilde was at Buenos Ayres, in the Argentine Republic. It is now in the harbor of Rio de Janeiro, and the New York World says it is bottled up there as effectively as Cervantes' fleet is at Santiago. A member of the New York Yacht Club has received a letter from him, stating that while in Buenos Ayres the captain of a Spanish torpedo boat, then in the harbor, told him that as soon as he left port his yacht would be captured as a prize. Finally he paid the Spaniard \$2000 in gold and was allowed to sail, but when he entered Rio Janeiro harbor he found the Spanish torpedo boat waiting for him, and was told that he must pay another \$2000 before he would be allowed to put to sea again. He appealed to the American Consul for protection. He writes that the Consul promised to see that no harm came to him, while he remained in the harbor, but would do nothing further. Masury, therefore, has taken steps to get naturalization papers and expects the Brazilian Government to protect him.

PREACHER WOULD'NT PAY.

Therefore the Nova Scotia Methodist Conference Expelled Him.

Balfax, N.S., June 16.—A clergyman of the Methodist denomination was today expelled from the ministry and expelled from the church by Nova Scotia Methodist Conference for failing to meet his obligations to business people. The culprit man is David Walker, who was stationed in Sydney District. The Conference took this step in order, as it is expressed, to maintain the standing of the clergy and the church.

Orangemen Strong for Alliance.

At the Supreme Grand Orange Lodge of the United States today, the Rev. J. Q. A. Henry referred to the recent speech of A. Henry Chamberlain on the proposed Anglo-American alliance as follows: "The sympathy of Orangemen all over the country is with any movement to bring Great Britain and America into closer and more friendly relations."

SIR J. A. CHAPLEAU'S REMAINS INTERRED

Thousands of Citizens Lined the Sidewalks in Montreal.

Numerous Attendance of Liberals, Conservatives Were Not Largely in Evidence—The Estate is to Be Apportioned—Postmaster Danereux Remembered—Death of a Merchant.

Montreal, June 16.—(Special.)—The funeral of Sir Joseph Chapleau, although the occasion of thousands of people lining the sidewalks was not attended by an exceedingly large number of citizens. The procession, in fact, would have been small had the official classes been excluded. At an early hour Lady Chapleau, with her father and brother, visited Laval University and viewed the remains for the last time.

Sir Wilfrid Laurier and Hon. J. Israel Tarte were present for the Federal Government, and the pall bearers were as stated in to-day's World. As a matter of fact, leading Liberals were much in evidence, while the old-time colleagues and political friends of Sir Joseph Chapleau were either absent or holding a back seat. This was commented upon, and this strange state of affairs was so apparent that the French Conservative clubs, who had intended to walk in a body, gave it up and appeared mixed up with the rest. The Sir John Macdonald and Junior Conservative Clubs did not put in an appearance, and the attendance of English-speaking people was very small indeed. The religious ceremony was, however, very fine.

Division of the Estate.

The report as to the distribution of the estate was fairly correct. By its terms Lady Chapleau is made universal legatee in usufruct, without obligation to make an inventory or to give security for her administration. Upon the death of Lady Chapleau, it is directed that the estate shall be distributed in four equal shares among his sister Helene, his niece, Jeanne and Germaine, daughters of Dr. Ephraim Chapleau, Ottawa, and his nephew, Jefferson Chapleau, son of Major Chapleau, Ottawa; but the share of Miss Helene Chapleau, at her demise, is to revert to the Catholic Archdiocesan Corporation of Montreal, to be applied to a fund for the poor.

Mr. Jefferson Chapleau, one of the heirs, is a civil engineer by profession. He graduated at the Polytechnic Institute, Troy, N.Y., and is now employed by the Government on the construction of the St. Lawrence Canal. He was married in Ottawa last fall to Miss Gouin, daughter of Mr. Gouin, postmaster.

Gift to the Church.

It is also directed by the testator that a legacy of \$10,000 be paid at once to the Roman Catholic Archdiocesan Corporation of Montreal, to be applied to charitable works. There is a bequest of \$500 to the Abbé Gosselin of the Sisters of Charity, for masses for the repose of the soul of the testator. "As a testimony of his life-long friendship," \$4000 is bequeathed to Mr. C. A. Danereux, postmaster of Montreal.

Death of a Prominent Merchant.

A telegram received in the city last night covered the sad intelligence of the death of James G. Gouin, of Quebec, a former partner of the firm of John Hope & Co., general merchants, St. Alexis-street. Very meagre details of the sad event were given beyond the bare announcement that Mr. Hope had passed away suddenly of congestion of the lungs. The deceased, in company with Mr. A. Allan of this city, Messrs. Bowtell and Fitch of Quebec, and Mr. Poland of Philadelphia, left for Moisie on a fishing trip about ten days ago.

To obtain an exorbitant profit some dealers in the city have been selling for full price some of the best quality of the goods.

Delighted Their Friends.

In the Toronto College of Music last evening the pupils of the School of Expression, under the direction of Dr. Carlisle, gave their closing program. The various pieces in the great series were well sustained by Miss Edith Ritchie, Miss O'Rourke, Miss Irene Ritchie, Miss Cassidy, Miss Marjorie Malcolm, Miss Dalby, Mr. Walter Harold, Mr. A. J. McHenry, Mr. Arthur M. Dean, Mr. Harold, Miss Elliott gave a pleasing piano accompaniment, and Master Harry Bailey favored the large audience with several violin obbligatos.

The Little Boy Died.

Winnipeg, June 17.—The little boy of C.P.R. Yardmaster Holland as Fort William has died from the effects of injuries received during the fire there on Wednesday, making the second death resulting from the conflagration. Mr. Holland's seven-months-old baby was the first victim.

It Beats Them All.

Head and front of all Toronto's clothing establishments stands Jamieson's, the emporium for summer clothing, at the rounded corner of Queen and Yonge-streets. A glance at the advertisement in to-day's issue will be sufficient to show the truth of this, and to induce those who have not yet purchased their summer suits, that this is the greatest chance offered this season. Jamieson's goods are of the finest texture, home-made by experienced men, and at the price are unapproachable by any other establishment in Canada. This sale should not be missed, as the advantages offered by this store are greater than during any previous season. Remember the rounded corner.

CANADA GETS A FREEZE-OUT

And Sir Richard Cartwright Says It Was Not Unexpected.

We Could Not Expect Germany to Favor Us After the Denouncement of the Zollverein Treaties—Canada Will Not Lose Much by German Retaliation—News From Ottawa.

Ottawa, June 16.—Sir Richard Cartwright, senior regarding the despatch that Germany was to give favored-nation treatment to Britain and all its colonies except Canada, said that the move was not unexpected. Canada could not complain, as she need not have expected "favored-nation" treatment from those to whom she did not give it. As regards German trade with Canada, it was decidedly one-sided, and we would not suffer much. We bought at least six times as much from Germany as she did from us, and possibly a great deal more than that. The direct imports from Germany into Canada in 1897 were \$6,482,000, and in addition there must have been a good deal imported from Germany through England.

On the other hand, Canadian exports to Germany were only \$1,045,000. Canada would be very little affected by the German action.

Railroad Report Denied.

Mr. Blair denies the truth of the report published in a Montreal newspaper that Mr. Wainwright, of the Grand Trunk Railway, is to supersede Mr. Harris on the Intercolonial Railway. Fighting J. R. Booth.

The Ottawa and New York Railway had another struggle with J. R. Booth to-day. A meeting of the Railway Committee of the Privy Council was held to consider an application from the O. & N.Y. road, to get into town, over the tracks which Mr. Booth has laid, over the Government land he has captured.

At the last meeting of the Railway Committee, the Government said that Mr. Booth was "primary tenant" of the Canal Bank and Central Station, and that the C.P.R. and the O.A.N.Y. road must next rights from him over his tracks. To-day's application of the O. & N.Y. road referred not merely to running rights on the tracks and in the station, but to be allowed to get to the property which Booth has captured, in front of which Mr. Booth has installed a fine big freight shed. The committee reserved its decision.

Chance for a Good Act.

The Department of the Secretary of State has received an enquiry from New Zealand respecting an estate supposed to have been left by a Mrs. Jane McConchie Winthrop, who is said to have resided at one period of her life in Ottawa, her husband having been in business here as an engineer and blacksmith. There is no mention in the directories for some years back of anyone named Winthrop, but possibly some of the elderly inhabitants may know the parties in question, if the statement is to their residence here is correct. Any one who can supply the desired information will be doing a service to the business here in a distant colony by communicating it to Mr. Joseph Pope, Under-Secretary of State.

A Comfortable Fad.

The lined and crinkled hat is having very much this season, and is made in some very showy styles, and yet not too loud to be worn by almost anybody wanting really the coolest hat made. J. & J. Lugdin, 122-124 Yonge, are showing a big lot of them—some one line, pure Irish linen, with silk stripe and blue hatched in the crown, and some in a brown line, made in tweed effects, prices begin at 50c and go to a dollar.

A PEG HAS BEEN PUT IN

Joseph Leiter and His Father Can Now Estimate Their Losses.

ARMOUR NOW MASTER OF THE SITUATION

Matters Are Assuming a Legitimate Basis and Better Prices are Looked For—The Leiter Losses Calculated at \$3,300,000—Cash Wheat in All Places 17,000,000, Valued at \$15,300,000—What Mr. Pillsbury Says About It.

Chicago, June 16.—The following are estimates of the position of the Leiter wheat deal: Cash wheat in all positions, 17,000,000 bushels. Value if laid down in Chicago, \$15,300,000. Interests of the banks, \$13,000,000. Proceeds at Armour's supposed guaranty, \$12,500,000. Possible Leiter cash wheat loss, \$2,300,000. Estimated net loss aside from cash wheat, \$500,000. Total loss to the Leiters, not allowing for contingent profits on cash wheat sales over the Armour guaranteed price, \$3,300,000. It is pretty well established in the minds of people not in touch with the wheat market that the Leiters have effected an arrangement by which they can figure their extreme losses.

Their net losses on trading in futures running through a year, and on their cash business up to June 1, are a matter of bookkeeping. In regard to the cash wheat still on hand the deal with Armour is looked upon as the placing of a "stop loss" order.

A peg has been put in, and while there is still a chance and more than a chance of recouping when the grain is finally marketed, the Leiters know about how unfavorable circumstances.

Leiter and Armour admit that a "sale" has been made. Neither side intimates that the sale is one without conditions. It is admitted everywhere that the wheat in the hands of Armour is worth more in prospect than in the hands of a dozen banks with conflicting interests. For this addition in value Armour is entitled to a concession, and this is supposed to have been made in the establishment of an "upset" price somewhat below the figure representing the interest of the banks.

It is not within reason to suppose that Armour would have assumed the responsibility for the merchandising of 16,000,000 to 17,000,000 bushels of wheat except at a price which even a chronic bear would consider conservative, or that the banks would have fallen into the scheme so cheerfully if their claims had not been secured.

Everything goes to confirm the theory that Armour has taken the wheat at an agreed price, with an understanding to share returns above that figure when the grain is finally disposed of, and that Leiter has agreed to stand in the gap between this "upset price" and the average price represented in bank loans.

If this is the case the elder Leiter has a basis on which to figure what he can do by assuming all of the younger Leiter's obligations, and a reasonable expectation of partially recouping losses from the sales of the accumulated property by Armour.

Armour, on the other hand, starts with a good margin of protection below the present comparatively low level of prices, and with the co-operation and financial support of the Leiter interests. His position is strong, and the prospects are good for a campaign, which will not only prove profitable to him, but will result in a material reduction of Leiter losses.

WHAT C. A. PILLSBURY SAYS.

The Minneapolis Wheat Magnate Thinks Now is a Good Time to Buy.

Minneapolis, June 16.—C. A. Pillsbury, the great flour miller, has the following to say on the Leiter matter: "I think Mr. Leiter must have been invested in about 12,000,000 to 15,000,000 bushels of actual wheat when he had to throw up the sponge. Mr. Leiter's transactions in the market must have affected the price of fully 100,000,000 bushels of wheat in this market.

"I think he must have handled more than one-third of that himself. His opinion probably made the price of wheat 25 cents higher than it would have been, and this has gone to the American farmers and made the balance of the trade so much more in our favor. The price of wheat now is probably 25 cents lower than it would have been had not Mr. Leiter been compelled to lie down, but this decline I consider as only temporary and only a matter of a few days.

"Mind, I do not think that option wheat is going to advance any 25 cents, but I think actual cash old wheat is now selling at 25 cents below its value. The cause of the break in wheat was that Mr. Leiter attempted to carry too heavy a load and put the price of wheat too high.

"If he had never attempted to put the price over \$1.40 he would probably have won out great money, as it was legitimate worth that.

"But when the market did not come up to his expectations he kept increasing his load, and I understand, there were nearly 7,000,000 bushels sold in Chicago Tuesday on his account.

"Of course, offering such an enormous quantity of wheat on the market at one

Stocks in Gold Town Continue Active and Firm—Thirty Properties Being Developed.

Roseland, B.C., June 16.—The activity in stocks continues. All are held firmly here. The properties shipping are: War Eagle, Centre Star, Iron Mask, Monte Cristo. The properties being regularly developed number 30. A large increase in working properties is anticipated when the new foot-trails and roads are completed. A.B.M.

How He Was Brought to Time.

In a division of a well-known school in the city one day this week one of the boys made some noise or other, and the teacher ordered the culprit to stand up. No one got up. The teacher then threatened to keep the whole class in unless the boy confessed or some one informed on him. Still no one confessed or told. After a period of suspense the guilty lad stood up. The confession was brought about in this way: The biggest boy in the school happened to know who the offender was; he would not inform on him, but he got a piece of paper, wrote something and handed it passed to him. The note read: "If you don't stand up I'll punch your head when we get out." He stood up, and the class got out on time.

Irving in Ruskin's Chair.

London, June 15.—The degree of LL.D., was conferred by Cambridge University upon Sir Henry Irving, who delivered his inaugural address as Rede Lecturer at Cambridge, in which office he becomes the successor of John Ruskin, Matthew Arnold, Thomas Carlyle and other eminent men of letters. Irving's subject was "The Theatre in Relation to the State." He argued that the theatre, being a means of spreading knowledge, its scope in respect of working upon the human character, deserved encouragement by the state and municipalities.

Games today: Toronto at Wilkes-Barre, Buffalo at Providence, Rochester at Springfield, Montreal at Syracuse.

Dooley Downed at Syracuse.

Syracuse, June 16. - The Stars hit Sanders about as they pleased to-day, while Marley was a puzzle until the Stars had made enough runs to win the game.

At Chicago... At New York... At Boston... At Philadelphia...

Rochester and Buffalo.

At Springfield-Masser's wild throw to the plate in the fifth left the game to Rochester. It cost four runs before the side could be retired.

At Providence-Buffalo won from Providence in a game that had a very sensational finish.

At Montreal-Masser's wild throw to the plate in the fifth left the game to Rochester. It cost four runs before the side could be retired.

Patton Outpitched Baker.

Wilkes-Barre, June 16. - To-day's game was a pitchers' battle, in which Patton had the better of it.

Rich Prizes on the Program, but Only a Small Crowd at Gravesend-The Hagenest Beat Previous in the Brooklyn Derby-A 50 to 1 Shot Wins at Detroit.

New York, June 16. - Although there were two \$10,000 stakes to be run off at Gravesend to-day, the attendance was surprisingly small.

The Tremont Stakes, for 2-year-olds was the first of the pair, and the crack 2-year-old Jean Berard, was at the good odds of 2 to 5, owing to the heavy handicap.

Then why buy her a cheap bicycle? It will never be satisfactory and will constantly require repairs.

You spare no expense to make her home labors light. Why buy her a wheel that runs hard and robs her cycling trips of all pleasure?

You would not permit her to expose herself to needless danger. Then why buy her a wheel that is apt to give out at a critical moment?

If you would be absolutely safe, buy her a Lady's Red Bird Special. It is the best there is to be had, combining beauty, strength and easy running qualities rarely found in a bicycle.

ALL RAIL TO THE CHIEF

Dr. Oronhyatekha, S.G.R., I.O.F., Welcomed Back From Europe.

A Vast Concourse Assembled in the Temple to Greet the Supreme Chief Ranger on His Return—Many Presentations and Bonquets—The Assembly Hall a Mass of Color.

Probably the superb headquarters of the I.O.F. never was the Mecca of such a gathering as last night beset the elevators, thronged the stairs and halls, and as regards those who came late, clamored in vain at the entrance to the lodge room.

The building was a gleam of electric light, that played on the dainty carving, the mosaic ceilings and the bronze and brass of the fittings, and illuminated the marble floors and stairs.

The visitor, involuntarily, passed in the main entrance, where a mass of electric light in the form of a Masonic cross, emblazoned in the ceiling, shed a gleam over the rich plush carpet, the mosaic tiled floor, the massive bronze doors and the marble walls with the richly patterned fresco.

The occasion was the public reception

of the I.O.F. to still greater achievements. That the machinery of the I.O.F. was in good working order when you left last February, is evidenced by the fact that there that time to the 10th of this month, 12,308 applications for membership in our great order have been received and accepted by the Medical Board. The surplus increased during the same period by \$170,823.38, notwithstanding the fact that during the said period the Supreme Court disbursed in benefits to members themselves and to their beneficiaries the goodly sum of \$469,448.45.

"That the order, as reorganized by you and your colleagues in 1881, and so ably and successfully guided by you since then, has fulfilled its noble mission of relieving the distressed and carrying consolation to the widows and orphans, is shown by the fact that it has since paid in benefits the princely sum of \$5,508,294.66. But that is not all that the order has achieved. For, besides paying the benefits and all its management expenses, the Supreme Court had on hand as a surplus on June 1, the magnificent sum of \$2,750,941.11, every dollar of which was available for the payment of further benefits.

fortunate enough to be associated with the Doctor's coat of a white rose by Miss Ethel Patterson, representing the "Poetry and Beauty of the Order," and the youngest member of the staff.

Speaking Statistics. The Doctor gave a few statistics of the order: During 1897 the I. O. F. issued 35,228 new policies, three hundred more than the fifteen old-line companies in Canada, the more remarkable, as the latter carried \$87,000,000, as against \$30,000,000, in the

by the subordinate courts of Toronto to the honored and returned Chief, Dr. Oronhyatekha, Supreme Chief Ranger I.O.F., who for the past three months has been traveling in the interests of the order, in Italy, Switzerland, France and Egypt.

The Chief's Entrance. They heartily welcomed back the Father of Forestry, without whom the institution would be as helpless as the merry band in Sherwood Forest without Robin Hood. The exterior porch was gay with electric light flashing out, "Welcome Home," and within the Assembly Hall, the subdued electric lights shone on the beautifully decorated interior, the mass of smartly gowned ladies and the sombre black of their veils.

The Chief's Entrance. Suddenly there was a stir at the entrance, the doors swung open and a double line of Foresters, with red plumed cocked hats, blue uniforms with gold epaulettes and facings, marched to the platform, halted suddenly, and as they faced each other clasped the swords, as arch of steel was formed, and through this escort proudly marched the Supreme Chief Ranger, Dr. Oronhyatekha (whose arrival was received with a sympathetic "et" in the audience), and the following gentlemen: Rev. W. J. McCaughan, Dr. Milman, G. A. Stevenson, H. C. B. and H. A. Bagus, H. C. R.

The following gentlemen were also on the platform: R. Herbert Lake, E. J. Cummer, R. S. G. A. Stevenson, H. C. K. T. Millman, M. D., S. Phya, H. A. Baker, H. C. R., J. C. Stogran, H. V. C. L. D. Albert Rose, M. D., G. B. Fitzgerald, S. A., W. B. Sanders, H. C. R., C. W. N. P. Peterson, Alex. Fraser, Daniel Brock, Major F. P. Manly, E. J. Heam, H. C. R., W. B. Grier, S. A., P. M. Broton, D. S. C. R., L. H. Lake, C. L., James Casey, G. I. Wilson, James Harper, W. W. Dunlop, W. J. McMurphy, Col. commanding, G. A. Stone, R. F., G. A. Harper, A. H. C. R.

The Address. To Oronhyatekha, M.D., Supreme Chief Ranger: "We, the undersigned representatives of our courts, take great pleasure in tendering to you this reception on the occasion of your return from the Old World, where you have been for the past four months spending a well earned vacation, and at the same time looking after the interests of the Order in Europe.

present at a High Court in the United Kingdom, I have been catechised on various points by doubting Thomases. I have not been asked a single question of that character in any of the High Courts which I have attended. The meetings which formerly prevailed, even among our own members, have all disappeared, and in their place we now have not only confidence in the order, but a zeal to crowd on all sides on the old ship.

"We are advised that in your absence you did not altogether cut loose from the cares and responsibilities of your exalted office, and that you have been in constant communication with the head office, and the knotty problems, which must always arise in a great international order like the I.O.F., with about 140,000 members, have been solved by yourself the same as ever.

After the conclusion of this presentation, to which Dr. Oronhyatekha brought respectful replies, Messrs. Lake and Stone addressed the following: To His Honor the Supreme Commander Oronhyatekha: The officers and knights of Temple Encampment, No. 60, Royal Foresters, desire to express their very great gratification and pleasure at the return of their Supreme Commander, with renewed health and vigor, enabling him to prosecute his glorious work with unimpeded vitality.

Foresters. The Canada Life paid out the largest benefits, \$800,000, whereas the I. O. F. in benefits by Supreme Courts alone, paid out \$502,000 in this year. What does this mean? It means that every day we are distributing to widows and orphans over \$200,000, and yet we are only a baby! I expect to see yet a half a million members in the order, and distributing millions yearly.

Congratulations. His Worship Mayor Shaw was expected to give an address of welcome, but was unavoidably absent. In the interim Mr. Alex. Fraser made a complimentary speech. The name of the Supreme Chief Ranger, by his thoughtfulness and ability, would be a more lasting monument than the superb building containing the order.

GUANTANAMO REDUCED.

Brick Fort and Earthworks Battered Down by the Texas, Marblehead and Suwannee.

Camp McClellan, Guantanamo Bay, Wednesday, June 15.—The brick fort and earthworks at Calimata, at the end of the railroad leading to the city of Guantanamo, were demolished to-day by the bombardment of the Texas, Marblehead and Suwannee. The warships opened a fire at 2 p.m., and the bombardment lasted one hour and thirty minutes.

The Texas steamed slowly up the channel leading to the fortifications, followed closely by the Marblehead. The Texas fired two shots at range-finders both falling short and to the right. The Marblehead stood off to the east side of the channel and opened with her main battery, knocking down part of the wall. The Texas then threw in some 12-inch shells, tearing down the fort, and the Marblehead throwing the brick and mortar 30 feet in the air.

After badly damaging the fort the Marblehead stood farther in to shell the earthworks and barracks at the west end of the harbor. She knocked them down, and when the Spanish fled from the fort, they were shelled by the St. Paul and driven into the bushes. The Spanish fired only five shots, which did no damage.

After the ships stood out into the harbor the Spanish in the bush opened fire on the Marblehead's launch, which replied vigorously. The Suwannee then turned back and shelled the bushes, driving the Spanish inland.

GUERRILLAS LIKE APACHES

Make Night Attacks Upon the Americans—Nervous Troops Waste Ammunition Firing at Shadows.

On board the Associated Press dispatch boat Danitsea, Guantanamo Bay, Tuesday, June 14, noon, via Kingston, Jamaica, June 15.—The landing of this small detachment of marines, mostly raw men, in the Spanish country, has taught some lessons to the officers and men here, and, possibly, also to the authorities at Washington. It has shown the Spanish that they are not invulnerable, and it has proven that every American camp must be compactly built and well protected to resist night attacks as though in the Apache country. It has developed several small defects in the navy's land operations, and it has shown that given a free rein in the night, 500 nervous troops can do more damage than 1,000 regulars. It has shown that given a free rein in the night, 500 nervous troops can do more damage than 1,000 regulars. A STRAIGHT POINTER.

United States Will Not Permit German Troops to Be Landed on the Philippines.

London, June 16.—The Berlin correspondent of The Star telegraphs from the German capital that the German ambassador in Manila has declared to the United States Embassy that he is not prepared to permit German troops to be landed in the Philippines. The Germans, the Americans add, have a right to occupy any part of the Philippine Islands as they have to occupy New York, and Manila and the Philippine Islands, they point out, are now and will remain United States territory.

Only an Attitude of Surveillance.
 The Berlin correspondent of The Daily Mail says: "The Berlin press is busy in ascertaining that Germany's attitude in the Philippines is solely one of surveillance of German interests, and that the presence of the German fleet at Manila is a guarantee that if the Philippines are lost to Spain they will not come into the possession of any single power interested in East Asia."

The Berliner Post says that if the Spanish regime comes to an end, intelligence of the German half-breed in the Philippines and Malays, will be called upon to take part in the destiny of their country, or to take it altogether into their own hands.

ATHLETIC RECRUITS.

Some of Uncle Sam's Most Muscular Men Have Started Out to Fight Spaniards.

Philadelphia, Pa., June 17.—The train leaving the Baltimore & Ohio station for New York at 3 o'clock yesterday afternoon carried a fine body of recruits designed to fill the ranks of Battery A, Pennsylvania volunteers, now doing duty at Newport News, Va., under command of Barclay H. Warburton, of this city.

The recruits are 23 in number and among them are some of the finest athletes that have ever carried the colors of Pennsylvania. They are, Lafayette, Lehigh and Cornell Universities to victory on land and water. Included in the party are: John M. Longacre, ex-member of the Yale crew and football team; John M. Ruegenberg, jr., ex-captain and stroke of the University of Pennsylvania crew and all-round athlete; William B. Duncanson, ex-member of the State football team; Charles C. Bacon, ex-member University of Pennsylvania track team; William E. Kenz, member of the Harvard crew of '93 and the Crimson track team; Thomas A. Hickey, ex-member of the Lafayette football and track teams; J. J. Schoff, ex-member of the University of Pennsylvania football team; Milton W. Hug, ex-member of the University of Pennsylvania baseball team; Hiram Miller, jr., ex-member of the track team, Lehigh University; Grayson D. Monahan, ex-member of the football team and crew Yale University; Frederick Kernochan, ex-member of the track team of Yale and all-round athlete; John B. Hiedman, ex-member of the football team and crew Cornell University; John W. Logan, ex-member of the football, baseball and track teams of Lafayette College; Hiram B. Dyer, president of the "Cloister" Club of Yale University and ex-member of the football team and crew of Pennsylvania.

FIGHTING IN THE PHILIPPINES.

Skirmishes Are Taking Place Day and Night—Bravery of Spaniards.

Madrid, June 15.—10 a.m.—Advises received here to-day by The Liberal from Manila, under date of June 6, practically repeat the news contained in the despatch of

June 15 from the Shanghai correspondent of The London Daily Telegraph. That on June 5 the insurgents forced the passage of the Zapote River and captured Las Pintas and Basmaki, since which time the fighting between the insurgents and the Spaniards was continuous, and the latter were being gradually driven back.

The Spanish correspondent also says: "The fighting continues incessantly. There are skirmishes at intervals day and night and lack of provisions has compelled the Spaniards to yield at certain points. Both ammunition and food are most scarce. Nevertheless, the Spaniards are animated by the best spirit and are fighting heroically. The wounded, who are crowding the trenches and coverings, have been placed under the protection of the Red Cross. The results are seeking places of refuge in the wance. The warships opened a fire at 2 p.m., and the bombardment lasted one hour and thirty minutes."

"It is not expected that Manila will capitulate until the American troops arrive."

What Britain Must Do.

London, June 16.—The Daily Mail says: "If a new European concert is patched up against the United States, we must not declare ourselves as the allies of Germany. America. It is to be hoped that if Germany attempts a demonstration at Manila the British will be at hand with one or two of his ships to make the demonstration nugatory and ridiculous."

The Daily Mail suggests, probably has designs on the Sulu Islands, which she vainly attempted to acquire in 1885. The Daily Chronicle, referring to the report that the United States will send a fleet against Cadiz and Barcelona, says: "That would not fall to excite our sympathies which the United States would do better to let sleep. It will be time when Santiago de Cuba and San Juan de Puerto Rico have fallen."

Significant Movements.

Berlin, June 16.—Advises received here to-day say that the German transport Darmstadt has arrived at Kiau Choo Bay, and that the second-class cruiser Princess Wilhelm sailed yesterday from Nagasaki for Manila.

Doomed to Disappointment.

London, June 16.—The Berlin correspondent of The Standard says: "The Spanish hopes of a German demonstration at Manila are doomed to disappointment. Even if Germany were willing to grant Germany a point d'appui (a base), with a view of inducing her to interfere, it would come to nothing while others than Germany will, doubtless claim a point d'appui at Spain loses the Philippines."

Spanish Troops Deserting.

New York, June 16.—A Key West despatch says: Junta advises from the headquarters of the Cuban Civil Government at La Guajala, in Camaguey, report that more than five thousand Spanish volunteers and many regulars from Puerto Principe and Nuevitas garisons have deserted to the patriot army. The immediate cause of desertion was the fear of the American fleet. Santa Cruz del Sur has been invaded by the Cubans and communication by rail has been established with Jamaica.

Anarchist Sentenced to Death.

Paris, June 16.—Eliovant, the anarchist, who, on Jan. 10 last, during the anti-Jew demonstration growing out of the Dreyfus agitation and the Zola trial, attacked M. Renaud, an agent of the Paris police, inflicting some twenty wounds on him with a knife, has been sentenced to death.

China is Advancing.

CANADA AND THE SPANIARDS.

Sir Richard Webster Explains the Law. Heard at Expositions.
 London, June 16.—In the House of Commons to-day, replying to a question relative to the power of the Government of Canada to expel Spanish agents from that country, Sir Richard Webster, the Attorney-General, explained the ordinary circumstances of Cuba, power to deal with such matters was prerogative of the Crown, and that the Colonial Government had no right to be sued for damages for expelling such persons.

CASTELAR ON THE POPE.

Says His Holiness Has Shown Hostility to Spain.
 London, June 16.—The Madrid correspondent telegraphs an interview with Senator Emilio Castelar, the distinguished Republican statesman in the Province of Alicante. Castelar thinks that the Pope acted in a manner hostile to Spain in proposing to President McKinley that peace should be made on the basis of a celebration of the independence of Cuba, the cession of Porto Rico by Spain and the mission of the Philippines to the United States pending the payment of an amount of money for indemnity.

The war has demonstrated, Senator Castelar believes, the maritime superiority of the United States, but he anticipates that when the American troops land in Cuba the victories will fall to the Spanish side.

As to the Philippines, he is in favor of restricting the political powers of the religious orders, but holds that their influence in religious matters should not be interfered with.

FOOD SUPPLIES FOR CUBA.

Kingston, Jamaica, Made a Base for Supplying Both Cuban Armies.

New York, June 17.—A despatch from Kingston, Jamaica, to the Evening Telegram says: "A cargo of food supplies has been landed here by the steamer Castle Edin, from New York. The cargo bears similar marks to that of the cargo of the City of Kingston, which has been transferred to the Purissima Concepcion."

"The cargo on the Castle Edin was shipped by the same people—Liera & Co., of New York—who furnished the cargo of the City of Kingston."

"The Purissima Concepcion will sail probably to-morrow. She has obtained an English captain, Alexander Hennie, who will take command. Her bill of lading is registered to Captain William Hunter of Montego Bay, the pilot who brought the ship around. The Purissima's officers say that a Spanish naval officer was aboard the Twickenham, but had landed at some port before her capture. Strong protests have been made by Mr. Dent, the American Consul, against the Spaniards being made the base for the shipment of provisions

and supplies to the Spanish troops in Cuba.

"Many Spanish ships which have called recently have been allowed to change to British register, and to take on cargo for Cuban ports. These, in many instances, have been landed at Bataviano and sent by railway to Manzanillo, consigned to private persons, but later sold to the Spanish commissariat."

"The British cruiser Talbot sailed to-day for Nassau. She will go again to Havana to take off refugees, at the request of Mr. Gollan, the British Consul."

COWAN-AVENUE CHURCH TO MOVE

From Their Present Site Within Two Years—Holding of the General Assembly.

Montreal, June 16.—The dispute between Cowan-avenue and Dunn-avenue Churches, Toronto, was brought up at the Presbyterian General Assembly, when Principal Cameron read the report on "Church Union" this morning.

Rev. Mr. Turnbull spoke for the Presbyterian Church, and Rev. Mr. Somerville for the Synod of Toronto and Kingston supported the course of the commission in favoring the Cowan-avenue Church to be allowed to stand.

R. J. Glassford was followed by Mr. S. H. Bradford of the Cowan-avenue Church, in support of the proposition. Rev. C. C. Hossack, pastor of Dunn-avenue Church, was the last speaker heard on the subject of this morning's session. His name was interesting statement made by him was to the effect that the matter was the result of friction between the two churches. The man who rented Cowan-avenue Church had resigned from Dunn-avenue Church some time before, because he and his family left Toronto, Canada, where they had lived eleven years, in the belief that times were less hard in the United States and that he could get a better living there. They moved near his married daughter, Mrs. Albert Bulow. Wenzel traversed the town in search of employment every day. He had no debt, but he was unable to support his family. He left behind him only the \$7 check he had earned last week for their support. He had no debt, but he was unable to support his family. He left behind him only the \$7 check he had earned last week for their support.

WENZEL WAS OUT OF WORK

Tavistock Man Shot Himself In the Heart at Detroit.

Detroit, June 17.—John Herman Wenzel of 1164 Canton avenue arose from his breakfast table yesterday morning and told his wife that he was going up to his workshop for a time. He left her and three little children still eating. He went upstairs and locked his door. His wife, charged, set it in a vice, picked up a long iron rod with a crook in it and stood in front of the gun, his heart almost against the muzzle. The little children down below at the breakfast table were laughing when he pushed the trigger.

Mrs. Wenzel knew in a flash what had happened and she rushed to the door. She found the body of her husband lying on the floor and then she screamed and then she trembled. She would not get up stairs, so little Louise, eight years of age, moved toward her. She came down stairs in hysterical and rushed to her aunt's house a few doors away for aid.

Wenzel was a mechanic 32 years old. Six weeks ago he and his family left Tavistock, Canada, where they had lived eleven years, in the belief that times were less hard in the United States and that he could get a better living there. They moved near his married daughter, Mrs. Albert Bulow. Wenzel traversed the town in search of employment every day. He had no debt, but he was unable to support his family. OVERWORKED HIS EMPLOYERS.

A Knitting Factory Proprietor at St. Catharines Fined \$10.
 St. Catharines, Ont., June 17.—While in the city on Wednesday S. K. Brown, Provincial Inspector of Factories, paid a visit to many of the manufacturers here. He called on the Watson Knitting Factory, with the result that E. R. Watson, the proprietor, was summoned to answer to the charge of employing labor more than 60 hours during the week. It was found that while he was working longer than this time and Mr. Watson was fined \$10.

SELECT KNIGHTS SUING

To Obtain Six Months' Back Assessment From Delinquent Members of the Order.

St. Catharines, June 16.—A case that is exciting a great deal of interest among insurance people is the action which is proceeding to-day before Mr. F. W. Macdonald, Master in Chancery, with regard to the liquidation of the affairs of the Select Knights of Canada.

There are about twenty lawyers from outside the city, including the Hon. Mr. McEwen, Barrie, representing the Select Knight; W. R. Riddell, Q.C., Toronto; J. V. Peetzel, Q.C., Hamilton; W. J. German, Welland; Dr. J. Howard Hunter, Registrar of Insurance, Toronto, and others.

The Select Knights Benefit Society went into compulsory liquidation, there were a number of persons who had dropped out of the society, one, two or three years, and the receiver of the society is suing the delinquent members for back assessments. These parties were not entitled to all the benefits of the society during the time they were suspended, but the society seeks to compel them to pay this amount.

Some of the time of the court was taken up in arguing the case. Mr. Peetzel, for the delinquents, or legatees, who are suing the society, said that the defendant had made for a test case. Dr. Hunter held that these delinquents, or legatees, who are suing the society, should be allowed to develop with the case.

Mr. Riddell asked that the defence might be allowed to develop with the case.

The Master decided to allow Mr. Riddell to proceed, and he proceeded on the most comprehensive line of defence.

Mr. Peetzel, in his closing speech, outlined the history of the society since its incorporation in October, 1883. In October, 1882, the order was reorganized and renamed the Select Knights of Canada. The registration was cancelled by the registrar of Friendly Societies in 1894. The society was reorganized in 1894, but in that year a scale of assessments was adopted. In 1895, \$3,000 certificates were issued, and in 1896, \$4,000 certificates were issued. In 1897, a new scale of assessments was adopted, but it never went into operation. The society was then dissolved and the assets were divided among the members.

BIG FISH MONOPOLY.

All the Great Lakes and Atlantic and Pacific Ports Tributary to It.

Buffalo, June 17.—A syndicate composed of English and American capitalists are negotiating the purchase of the Buffalo Fish Company and the Davis Fish Company of this city.

The new company has secured options on the leading producers and distributors on the great lakes of Canada and the United States, reaching out to Manitoba, and of salt water fisheries both on the Atlantic and Pacific coasts. There are probably twenty companies in America interested in this deal. The new company will be capitalized at about \$5,000,000.

BRECHON CHOKED HIM TO DEATH.

Wolesea, Assa, June 17.—A young French lad named Brechon was starting from school for home on a broncho when the latter, frightened by some boys, started for home. The tethering rope was around the lad's neck and choked him to death.

ANOTHER GREAT HOBSON.

Hamilton, June 16.—The final race for the four cars of the Leander Rowing Club, which was postponed last Saturday on account of rain, took place to-night. The water was choppy. The crews were: Sir Julian Pauncefote, the British Ambassador, of approximately \$475,000, being the full amount of the claims as settled under an agreement between the United States and Great Britain.

FOR BURGLARY AT ELORA

David Irvine Found Guilty of Robbing the Grand Trunk Station and Boswell's Store.

Guelph, June 16.—David Irvine, alias Howard, was convicted at the afternoon sitting of the court here, on the charge of burglarizing the Grand Trunk Station and Boswell's store at Elora on March 12 last. Mr. Carleton of Hamilton defended the prisoner, while Mr. Peterson conducted the case for the Crown. His Honor, Judge Chadwick, charged strongly against the prisoner, who will receive his sentence to-morrow.

Irvine was identified as having been seen in Elora on the evening of March 11, and the morning of the 12th. Conductor James Lillis gave testimony which proved that the prisoner left Elora on March 12, and was discovered in Clarence Hood's barn, three miles from Elora, on the morning of the 12th. FOR BURGLARY AT ELORA

David Irvine Found Guilty of Robbing the Grand Trunk Station and Boswell's Store.

Guelph, June 16.—David Irvine, alias Howard, was convicted at the afternoon sitting of the court here, on the charge of burglarizing the Grand Trunk Station and Boswell's store at Elora on March 12 last. Mr. Carleton of Hamilton defended the prisoner, while Mr. Peterson conducted the case for the Crown. His Honor, Judge Chadwick, charged strongly against the prisoner, who will receive his sentence to-morrow.

Irvine was identified as having been seen in Elora on the evening of March 11, and the morning of the 12th. Conductor James Lillis gave testimony which proved that the prisoner left Elora on March 12, and was discovered in Clarence Hood's barn, three miles from Elora, on the morning of the 12th. WENZEL WAS OUT OF WORK

Tavistock Man Shot Himself In the Heart at Detroit.

Detroit, June 17.—John Herman Wenzel of 1164 Canton avenue arose from his breakfast table yesterday morning and told his wife that he was going up to his workshop for a time. He left her and three little children still eating. He went upstairs and locked his door. His wife, charged, set it in a vice, picked up a long iron rod with a crook in it and stood in front of the gun, his heart almost against the muzzle. The little children down below at the breakfast table were laughing when he pushed the trigger.

Mrs. Wenzel knew in a flash what had happened and she rushed to the door. She found the body of her husband lying on the floor and then she screamed and then she trembled. She would not get up stairs, so little Louise, eight years of age, moved toward her. She came down stairs in hysterical and rushed to her aunt's house a few doors away for aid.

Wenzel was a mechanic 32 years old. Six weeks ago he and his family left Tavistock, Canada, where they had lived eleven years, in the belief that times were less hard in the United States and that he could get a better living there. They moved near his married daughter, Mrs. Albert Bulow. Wenzel traversed the town in search of employment every day. He had no debt, but he was unable to support his family. He left behind him only the \$7 check he had earned last week for their support. He had no debt, but he was unable to support his family. OVERWORKED HIS EMPLOYERS.

A Knitting Factory Proprietor at St. Catharines Fined \$10.
 St. Catharines, Ont., June 17.—While in the city on Wednesday S. K. Brown, Provincial Inspector of Factories, paid a visit to many of the manufacturers here. He called on the Watson Knitting Factory, with the result that E. R. Watson, the proprietor, was summoned to answer to the charge of employing labor more than 60 hours during the week. It was found that while he was working

\$1,200 REWARD

The above Reward was recently paid to two residents of Kingston, Ont., as a result of a policy of life insurance of \$1000, held by the late Wm. Skinner, wholesale druggist, Kingston.

The following are the circumstances:

Mr. Skinner insured in the Canada Life Assurance Co. in 1867 for \$1000, paying \$16.40 per year. During the 31 years he was insured he paid in premiums \$508.40, and during the same period the Company added profits to his policy amounting to \$718.75.

This result is in no way exceptional to results on similar policies in the Canada Life, which leads other companies in giving the best results for the lowest premium.

It pays to select the oldest, largest and most reliable company in the Dominion—the Canada Life Assurance Company.

THE BISHOP AND THE RECTOR

Angry Passages at the Anglican Synod Yesterday.

The influence exercised in the Synod by Bishop Sullivan was evidenced at the opening of the session of yesterday. His Lordship had sat through the debates of the previous afternoon, sniffing at a beguiling bunch of carnations, and in consequence the presence of the next morning had blossomed into a garden of carnations.

Want a New Officer.
 The report of the Mission Board submitted by Mr. N. W. Hoyle, Q.C., was now gone into. His chief recommendation was the appointment of a general missionary agent. Bishop Sullivan, Bishop Swainson, Mr. Dr. Parkin, Rev. J. P. Lewis, Mr. Frank Hodgson, Rev. J. C. Street-Mackenzie and Mr. H. B. Baker, all spoke in its favor. A man of business ability, and able to give missionary teaching in the slums was called for. It was decided that the board, which meets with the synod at its next session, should appoint an agent for one year, subject to the action of the synod at its next session.

In the lunch room, when it was packed with the delegates at noon, His Lordship, Bishop Swainson, on behalf of the clergy of all dioceses, presented a petition signed by the life membership and pledged gold badge of the Woman's Auxiliary for the great work she has done for the church.
