HOW A LOCAL BANK HAS BUILT UP ITS OWN TOWN AND COUNTY

Other Interesting Things About Our System of Banking.

The World returns to the banking question. Our place of residence to-day is the remarkable corroborative evidence that the town of Oshawa affords of the construction of the banker from Sleepy Eye, Minn., that local banks are more likely to be in living and direct touch with the industries and citizens of their town and the farmers of their neighborhood than branch banks. To give detailed evidence we cannot, without digressing the relations between bank and customer, but we refer the reader to the account below and to his own further information we recommend him to visit Oshawa. It is easy to sneer at the man from Sleepy Eye—it is harder to answer his claims.

There is a lot of further matter in our columns to say on this interesting topic: we hope within a couple of days to sum up the situation and to show, as we believe we can show, whether the Canadian system can be improved, and the criticism of the Sleepy Eye man in a measure justified. But the question is not yet exhausted.

THE TOWN OF OSHAWA

Started a Local Bank and It Has Been the Mainstay of the Town—Something the People of Every Town Should Read.

Editor World: I have read with interest the question raised by the man from Sleepy Eye, Minn., and I desire to call your attention in a particular sense to the town of Oshawa, because I believe a special study of business matters here will throw some light upon the question under consideration.

Oshawa, Aug. 16, 1901.

Editor World: Have you not in Canada a small town, the name of which is the Western Bank, in which is a local institution, and some lessons to be learned from its history. Does it supply the needs of the business and farming community in its district to a greater or less extent than would the branch of one of the large banks? All Canada is interested in the question of banks so interestingly dealt with in The World, and I would suggest an article on the Oshawa concern. If its usefulness is greater than the branch banks it ought to be known, and other local centres might follow Oshawa's example.

These two communications instigated the World to present its readers with some details of information as to financial conditions existing in Oshawa, a town which is situated the head office of a bank having all the privileges enjoyed by a chartered bank of Canada. We sent a representative to Oshawa with instructions to report on the situation.

CHRISTIAN SCIENCE A DANGER THE OPINION OF CORONER'S JURY

Little Roy Lewis Died Because of Criminal, Culpable Negligence of His Father—Christian Science Demonstrator Perry an Accessory After the Fact.

Coroner Cotton's jury responded to the inquiry into the death of six-year-old Roy Lewis, who died from diphtheria at the home of his parents, 18 North Markham street, on Aug. 13, expressed in their verdict returned at a late hour last night at No. 6 police station, their opinion of the action of deceased father for neglecting to call in a proper medical practitioner and the action of Richard Perry, Christian Science demonstrator, for attempting to treat the case of contagious disease.

Mrs. Carter, a relative of the Lewis family, who lives at 235 Berkeley street, was called when the inquest was resumed last night. She visited the child several times during his illness and was aware that he was being treated by a Christian Science demonstrator. She had not seen Mr. Perry at the place and could not, therefore, tell anything about the kind of treatment that he administered to the child.

Mr. Darvell testified that he gave a certificate making a microscopic examination of the child's throat. He was satisfied death had resulted from diphtheria. Coroner Cotton's jury subjected the physician to a severe cross-examination. Wilson and Hilton of the Medical Health Department detailed the circumstances leading up to the visit to the Lewis home after the child's death and the efforts put forth to prevent contagion.

It is generally felt that the only other similar body here, viz., the Canadian Trade Section of the London Chamber of Commerce, is of no practical good.

A WOMAN LEADS THEM

Strike Breakers Go to and from Mills With Superintendent's Wife.

Following the rapid movement of yesterday, which side of the great steel strike, there was a full day, and neither side took decisive action that showed up in the surface. It has been a running fight so far, with small victories and minor defeats for both sides; but now seems to be settling down into a hard, determined struggle, in which neither side will acknowledge defeat while there is hope left.

An interesting feature of the fight at the McKinnon Mills is contributed by the coming and going of the superintendent's wife. She is always seen very popular with the mill men, and the pickets say they would rather face a regiment of soldiers than see her in the mill.

After the inquest, Coroner Cotton's jury stated that, as a result of the verdict, action would probably be taken to deal against the father of the deceased child and the Christian Science demonstrator interested in the case.

FLUNG THE SWAG OVERBOARD

Valuable Silverware, the Property of H. H. Cook, Now at the Bottom of the Lake.

There is lying at the bottom of the lake, just outside of the Eastern gap, a large containing a lot of silverware, which was stolen about two weeks ago from the home of H. H. Cook, in Parkdale, and which was in a boat put in an exhibit this morning at the Police Court in the case of Harry Maddeson of New York City, charged with the burglary.

Attacked Detective Slemia on the Corona, was Conquered and Took Revenge.

There is lying at the bottom of the lake, just outside of the Eastern gap, a large containing a lot of silverware, which was stolen about two weeks ago from the home of H. H. Cook, in Parkdale, and which was in a boat put in an exhibit this morning at the Police Court in the case of Harry Maddeson of New York City, charged with the burglary.

Unable to Dance.

London, Aug. 20.—Walter Humphrey, says: "Englishmen cannot admire the art of the ballroom as taught in the United States. Their vertical center of gravity is especially ridiculous when they try to dance. Their vertical center of gravity is especially ridiculous when they try to dance. Their vertical center of gravity is especially ridiculous when they try to dance."

Merle's Opinion.

Love was the first victim of an optical illusion. Every fat woman expects to be surprised when she gets to be an angel. The lady who eloped always hopes her children have not inherited a tendency to do likewise.

There is a certain African chief who has 250 wives. He is probably the worst husband on earth.

Perfection smoking mixture, cool and fragrant. Try it. Alva Bolland.

More Steamers for Morgan.

London, Aug. 20.—It is reported in Glasgow that Mr. J. R. Ellerman of the Laidlaw Line has purchased the old established City Line of 14 steamers, the price being valued at £1,000,000 (\$16,000,000). Ellerman, according to rumor, is acting for J. Pierpont Morgan and his associates.

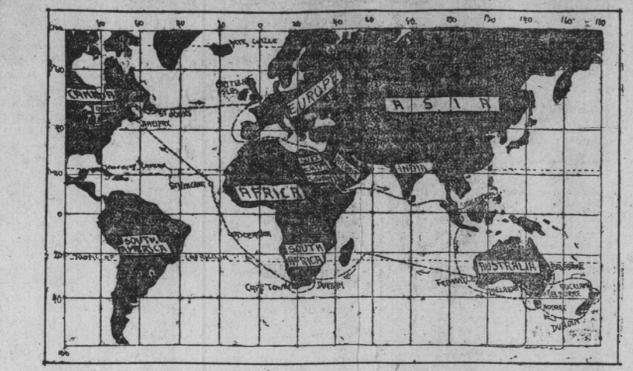

Edwards and Hart-Smith, Chartered Accountants, office Canadian Bank Commerce Building, Toronto.

Whitby's Tax Rate.

Direct connection with The World mail line room can be obtained between 3 and 8 a.m., by calling up Main 252.

Visitors to Toronto will not see the city without they visit the Temple Building, the finest cafe in America. Everything in season.

Patents—Fetherstonhaugh & Co., Kingston West, Toronto, also Montreal, St. Paul and Washington.

SCHEME TO SAVE 7 DAYS

Direct Mail Service from San Francisco to Brisbane Has Been Formally Proposed.

MAY IMPROVE ROUTE VIA CANADA

An Ottawa Man Wants a Canadian Chamber of Commerce Established in London.

Montreal, Que., Aug. 20.—(Special from the Star correspondent in London.)—It transpires here that Mr. Ramsey, the general passenger agent of the Australian Steamship Line, has made a formal proposal to the Brisbane Chambers of Commerce and Manufacturers for a direct service from San Francisco, thus creating a thru mail service between Brisbane and London in 28 days, instead of the 35 days occupied in the transit at the present time.

The hope is expressed that this proposal will stimulate the acceleration of improvement of the Australian mail service via Canada.

Mr. Wickstead of Ottawa proposes in the press the establishment of a Canadian Chamber of Commerce in London on lines similar to the projected Australian Chamber of Commerce in London.

It is generally felt that the only other similar body here, viz., the Canadian Trade Section of the London Chamber of Commerce, is of no practical good.

WILSON HAS HIS TROUBLES

Violent Scene Between Trackmen's President and Representative of the Eastern Division.

WHERE HAS THE MONEY GONE?

A Demand Will Be Made for an Explanation—Committee Issues Another Circular.

Montreal, Aug. 20.—Mr. Fredericks, the trackmen's representative from the Eastern division, left for his home to-day. He was glad to wash his hands of the matter in a rather exciting scene which took place in the dining-room of the Grand Union Hotel. It appears that last night efforts were made to get him to reconsider his decision to break away from the trackmen's committee, but he stuck to his guns.

With two friends, Mr. Fredericks went to the station, and there, in a voice that could be heard by a number of people, he said that it was a disgrace that things had not been managed that his fellow trackmen had lost half a million dollars in the strike.

Mr. Fredericks refused, and upon being pressed broke into a loud voice and in unmeasured terms told Mr. Wilson what he (Wilson) could do with his department. He declared emphatically that he would sign nothing more, that he was with the whole business, and that he was glad to wash his hands of it.

Some angry words followed, and the scene became the talk of the hotel.

OFFICIAL OF MANITOBA EXPLAINS TROUBLE WITH HARVESTERS

Just the Same, Government is Making More of a Hustle.

Winnipeg, Aug. 20.—Hugh McKellar, chief clerk of the Agricultural Department, is out with a letter this evening defending the government and C.P.R. in the matter of harvesters' excursions and the question of employment.

He says: "For several years this matter has been considered by Mr. Stitt of the C.P.R. Passenger Department and myself and we have invariably come to the conclusion that it was best to leave those coming alone, not to interfere with them trying to place them from Winnipeg. The reason in this is: The majority of those coming in past years were going to friends to help them in the harvest fields; or their own accord they scattered all over the province to friends. When asked on the way to Winnipeg by government officials to what points they wished to go or when told that there were wanted at certain points in the province, 90 per cent. of them would reply that they were busy about the harvest and such a place; they had friends there. The 'ordinary' organization or executive 'officially' employed to advise them to go to such places and very little trouble ever occurred. When any congestion did occur it was an easy matter to carry on a few from the congested points to places where men were needed.

"Now, with the number of men coming this season the same policy had been followed. This suggested system of sending a trainload of men to a greater or less number of certain points, for example, to the Carleton Place, for example, is delivered in this manner and there is no kicking, or if a quantity of men are placed there are also made provisions for the necessary number at each station. This suggested system of sending a trainload of men to a greater or less number of certain points, for example, to the Carleton Place, for example, is delivered in this manner and there is no kicking, or if a quantity of men are placed there are also made provisions for the necessary number at each station.

"Suppose it be billed for the M. & N. W. line, and men for Souris, Pilot, Morden, Carleton Place, and many other points, as well as a few women and children, were told to go abroad for Neepawa, Minnesota, etc. The despatch of that one train would cause more commotion than a hundred fold that has yet occurred in locating the 38,000 who have come to Manitoba during the past two seasons. No, it cannot be done in this way. I know that many who came in on Sunday last were destined to the harvest in the province where they were expected, and it would be absurd to stop them in Winnipeg and distribute by the rail and telegraph the general plan of distribution to be changed. Those who come, knowing where they are going, must be allowed to go. As to locating the others, every practical method is now being employed by the C.P.R. and government officials. Telegraphic despatches are received daily by the C.P.R. and C.N.R. officials advising how the supply and the demand are for the day. This information is promptly acted upon. Agents are sent out with trains to assist in locating a requirement.

"Mr. Scott, provincial immigration agent, went to Brandon last week as soon as it was known that there were many there and succeeded in locating all. Mr. Gordon, another immigration agent, was busy along the West line M. & N. W. line Wednesday of last week, returning on Saturday. Now, he is on Monday morning in a number of places and will stay until all are located on that branch. Mr. Pupper is here in Winnipeg to stay with the men from the Maritime Provinces until every man is located. Mr. O'Malley is assisting him in locating the men from the Spring Valley, Rockwood and Macdonald. Mr. Hartney will be here in a day or two to look after the Southern Ontario men. Humphrey of Miami is wired for to look after the Carleton Place, Morden and Carleton Place men. Mr. Tennant, immigration agent, is to look after the Deloraine branch lines. Mr. Skappatson, immigration agent, goes to Balfour, Brandon, Glenboro and Murrumbidgee Plains. These men will stay with the work until every man is placed. There are also many provisions written to in the province to render all assistance possible in locating men. The difficulty has only occurred during the last few days. I might say, since Friday, that the men have not been from want of organization, but from the fact that the heaviest rush of work is not yet on. A few days more and a little patience and the work with the present organization will be completed. I have given this explanation since I wish to show the absence of criticism of the work being done. C.P.R. and the government officials are not mistaken."

WHEAT WEIGHS 63 POUNDS

General Manager of the Ogilvie Milling Company Finds Western Sample Satisfactory.

Winnipeg, Aug. 20.—General Manager Thompson of the Ogilvie Milling Company, questioned to-day regarding the quality of wheat received by his company, said: "The sample was very satisfactory. It weighed 63 pounds to the bushel. The reports I have received show that harvesting is progressing rapidly in all parts of the province, from Thornhill in the East to Brandon in the West. Fifty per cent. of the wheat is already cut.

Inspector Murray of the C.P.R. returned from Moose Jaw last night. He said the weather was threatening all along the line. It was showery and something like the weather in Winnipeg this morning. Manager Hastings of the Lake of the Woods Company showed a fine sample of this year's wheat received from Portage la Prairie. It was as hard as old wheat. Mr. Hastings said a portion of the wheat received at their mill at Portage la Prairie was being ground into flour to-day for export.

The chief grain inspector yesterday afternoon inspected the first car of Manitoba wheat shipped this morning. It came from Dominion City, was consigned to the Ogilvie Milling Company, and graded No. 1 hard. It was a beautiful sample. The crop report issued on Monday gives the most flattering account of the harvest. It is a large number of Americans are being pressed back into a loud voice and in unmeasured terms told Mr. Wilson what he (Wilson) could do with his department. He declared emphatically that he would sign nothing more, that he was with the whole business, and that he was glad to wash his hands of it.

Some angry words followed, and the scene became the talk of the hotel.

With two friends, Mr. Fredericks went to the station, and there, in a voice that could be heard by a number of people, he said that it was a disgrace that things had not been managed that his fellow trackmen had lost half a million dollars in the strike.

Makes you think of our recent sale of Graniteware. Perhaps you did not get all the pots, pans and kettles you wanted at the time. This is a good chance to get the Teakettle:

—216 Granite-ware Teakettles, first quality goods, No. 9 size, with pit bottom, regular price 70c, each, Thursday..... **.45**

Men's Hats at 25c

These are hats with good wide flat brims and medium high crown. They are made of fine English felt and the edges are bound with silk. It is the last we have on hand, so we sell them at a half and third regular values.

The clearing price is Twenty-five Cents.

Fifteen dozen left for Thursday's selling.

Men's Handkerchiefs

Something extra in Handkerchiefs for Thursday:

Men's Pure Irish Linen Handkerchiefs, tape bordered, fine quality, 2 and 3 size, regular 18c and 20c each, Thursday 3c for 25c.

Wall Papers at 6c Roll

Ten cents would be a bargain price for some of these papers. We'll give you enough to cover your rooms at six cents a roll on Thursday:

1200 rolls American Glimmer Wall Paper, complete combinations of wall, border and ceiling, floral, and conventional designs, cream, green, pink and olive colors, for bedrooms and sitting-rooms, regular price 10c and 12c per single roll, for..... **.6**

Men's Suits Reduced

We thought all our broken assortments had been included in our sale of Clothing odds and ends last week. Two new lots of suits have come to the surface since then, and we deal with them in this way on Thursday:

Men's Suits, single-breasted, in all-wool colored, worsted, Canadian and Scotch shades, good linings and trimmings, size 38 to 42, broken jugs and sizes of our \$8.50, \$10 and \$12.50 lines, to clear on Thursday at..... **5.00**

40 Boys' Vestee Suits, imported and domestic tweeds, grey and black shepherd's plaid, light grey checks and fawn shades, vest buttoned in front, separate front to match, pants lined throughout, balance of our \$3.50, \$4.50 and \$5.00, to clear Thursday..... **2.50**

Four-Dollar Lace Curtains at \$2.50 a Pair

We'd rather take \$2.50 for a pair of these Curtains now than wait until fall and sell them at regular values. We're rather crowded for room in the Curtain Department, and so offer you this liberal discount to come and relieve us of this particular line of Curtains:

130 pairs very fine Nottingham Lace Curtains, 54 inches wide, 3 1/2 yards long, white or ivory, single borders, in a variety of very choice patterns, suitable for any style of room, regular value \$4 pair, Thursday, to clear..... **2.50**

THE CENSUS AND THE CROP REPORTS.

The census statistics of Canada ought to be of great interest to the people of Great Britain as they are to ourselves. The Empire needs farmers as well as artisans, and from an imperial point of view it makes little difference whether these farmers be located in the United Kingdom or in Canada. As a matter of fact, one farmer in Canada is worth two in the United Kingdom. The census statistics of the Dominion of Canada show that the population of the Dominion is 4,000,000. The census statistics of the Dominion of Canada show that the population of the Dominion is 4,000,000. The census statistics of the Dominion of Canada show that the population of the Dominion is 4,000,000.

A GOOD PROTECTIONIST.

Mon. Mr. Tarte seems to be one of the best protectionists this country has ever produced. If the other members of the government were only in accord with him on the subject of protection the country would not have much to complain of. "Canada has no need to go abroad for her ships," says Mr. Tarte. "We can construct in this country all the vessels we require, and ought to do so. They can be built just as cheaply here as anywhere else."

TOPICS OF THE DAY.

The Mayor and Ald. Cox will make their re-election sure if they push thru that scheme to build an overhead bridge at the foot of Yonge-street without delay.

Quebec census enumerators forgot the coming visit of the Duke and Duchess of Cornwall is a peculiar way of showing British-Canadianism. Surely there are competent artists in this country.

The Federated Business Colleges

Open September 3rd.
 It is well to keep the date in view. Young men and women who take a thorough course in business will plan a course in these colleges with schools at Toronto, Hamilton, London, Stratford, and Niagara Falls. All particulars by circular.

BRITISH AMERICAN BUSINESS COLLEGE,

121, 123, 125, 127, 129, 131, 133, 135, 137, 139, 141, 143, 145, 147, 149, 151, 153, 155, 157, 159, 161, 163, 165, 167, 169, 171, 173, 175, 177, 179, 181, 183, 185, 187, 189, 191, 193, 195, 197, 199, NECESSITY FOR YONGE-ST. BRIDGE RECOGNIZED BY CITY COUNCIL

Will Refer the Matter to Railway Committee of the Privy Council - East End Stables to be Built on the Old Site - Police Will Take a Census.

The City Council, looking as good as assembled for a special meeting yesterday afternoon, and a resolution of their deliberations an important step was taken toward a bridge at the foot of Yonge street; it was decided to erect the most magnificent new eastern stables on the site now occupied by the old premises; the police will be ordered to take a census of the complete census of the city's population; the movement for an investigation as to inadequacy and alleged mismanagement of the western cattle market was turned down; the offer of property in front of the City Hall for a park was sent on to the Board of Control, and a great number of small matters went thru the municipal mill.

Police Census Wanted. Alderman dissatisfaction with the showing made by this city in the census returns was expressed in connection with the following motion, made by Ald. Woods and seconded by Ald. Sheppard: "That in view of the fact that it is the general belief that the population of the City of Toronto as given by the Dominion census returns does not truly represent the actual population of the city, be it therefore resolved that the Board of Police Commissioners be respectfully requested to instruct the chief constable to have a special census taken by the police department at their earliest convenience."

Yonge-Street Bridge. The Yonge-street bridge question raised considerable discussion at the city's regular meeting. The Corporation Council was instructed to apply immediately to the Railway Committee of the Privy Council on behalf of the city for the building of a bridge over the railway tracks at the foot of Yonge-street, and to further report upon the cost of such a bridge.

Old Site Good Enough. Ald. Oliver, who had previously handed in a petition for the old site, protesting against the proposed bridge, pointed out that the old site was good enough for a bridge, and that the proposed bridge would be a waste of money. He suggested that the city should build a bridge on the old site, and that the proposed bridge should be abandoned.

Time Something Was Done. Ald. Woods said the matter was one for the Works Committee to deal with, and that the city should do something to improve the situation at the foot of Yonge-street.

Notes from Owen Sound. Owen Sound, Aug. 20.—The sidewalk in front of the office of John Rutherford, Jr., was occupied this morning by some thirty or forty residents of the Irish block, in the Township of Owen Sound, discussing the merits of an assault case that was under investigation inside.
