THE BRITISH BREADSTUFF IM-
POST.

From the new import tax on bread-
stuffs the British government will this
year realize a revenue of \$15,000,000
—and that without causing the slight-
est increase in the cost of food to the
people of Great Britain. The duty has
now been in force for several months,
and the above estimate evidently
proves it to be a decidedly successful
economic departure for Old England.
No doubt such a satisfactory opera-
tion of the duty has been a source of
much chagrin to those Cobdenites,
who opposed the impost on the ground
that it was not likely to meet the
revenue expectations of the govern-
ment, and it was absolutely cer-
tain to increase the cost of food and
thus produce great distress and a
popular revolt against the government.
The fact is that through Mr. Chamber-
lain's courage and persistence the
Mother Country has found a hand-
some and easily collected revenue,
which, it is asserted, adds nothing
to the burdens of the people. Com-
menting upon the success, The New
York Tribune observes:

"It is wonderful that Conservative
statesmen, who have never taken
kindly to the vagaries of extreme
Cobdenism, have so highly gratified
the public by declaring that this tax
will never be repeated with their
beginning to get tired of the class
taxation imposed upon them by
the Cobdenites and that the very
same seemed to be one of the gravest
defects of the so-called free
trade system that has been imposed
unequally upon the people. Certain
sources of revenue are
worked for all they are overworked,
to the grievous oppression of certain
classes of the people—while others,
which are wholly neglected. There is no equity in tax-
ing tea and coffee to the point of
ruin and letting corn and wheat go
free. There is no justice in tax-
ing the breaking of the income tax
to the breaking of the income tax at
the same time letting commerce go un-
taxed. Doubtless it would be a
happy state of affairs if all tax-
ation could be abolished. Until that
millennial epoch dawns upon us,
however, the rational and equitable
system is one that distributes the
burden of taxation as widely and as
generally as possible, making all
classes of the population bear it
in due proportion to their ability.
That is what is being effected in
England with this reiteration of
breadstuffs tax, and in other
features of the reiteration of taxes
which will benefit the people and will
commend to popular support and
to the statesmen responsible for it.

LE ROI AGAIN HEARD FROM.

Torontonians who four or five years
ago purchased British Columbia min-
ing stocks, and who have not yet
either sold their certificates or used
the scrip for purposes of mutual de-
coration, will be interested to know
that the outlook in Rossland may
appear to be improving. It is an-
nounced by the manager of the Le
Roi mine that the property last month
yielded a profit of \$85,000, and that
"there is far more high-grade ore in
the Le Roi mine than was at first
estimated. The main stops are left
untouched at present, but there is
more than one vein in the Le Roi,
and the main vein is as good as ever
it was."
It is now prophesied that with the
discovery of new ore bodies in the
mine, and with the introduction of
cheaper methods of mining and ore
treatment, the original investors who
still hold their stock may hope to get
their money back. And it may be
that with improved conditions and
methods of operation, other properties
that have been neglected in the past
may be heard of, but it is safe to
say that the days of wildcatting and
speculation in mining "securities" are
forever done with, as far as the
Queen City is concerned.

FARMERS, FINISH YOUR CATTLE.

"The Chicago cattle market is glutted
and prices have fallen from \$2 to
\$2.50 per cwt. Owners of cattle sent
to be in a panic to sell them. The
Chicago Livestock World fears that
during the next six weeks quotations
will be forced to the lowest level the
market has ever seen. The Chicago
cattle market is said to be found in
the fact that the western corn crop
was a large one. It was not
tongued with reason, much of the corn
gathered is soft, and therefore, con-
tains much lower fattening properties
than does corn grown and ripened
in a dry season. No doubt soft corn
is partly responsible for the fact that
an enormous number of unfinished
cattle are now being pushed to the
market centres of the Western States.
The depression in Chicago adver-
sely affects Toronto quotations, and
we too, have a lot of unfinished ani-
mals coming forward. And what The
World wants to impress upon the
Canadian farmer is that it will not
generally, and perhaps, especially
just at this juncture, to "finish"
his cattle before bringing them to
market. It is prophesied that with
the advent of cold weather prices will
advance, and that money will be made
by those who hold out until January.
In any event, a good de-
pression is always to be found for the
best quality of well finished cattle.

SOMEBODY IS STUPID.

For month after month the Police
Department has gone on holding pris-
oners in the filthy, vermin-infested
cells of No. 1 Police Station. It is

MANY SPIES WATCH MORGAN

Banker Bothered by Detectives at All
Hours of the Day and Night
These Days.

FORTUNE HANGS ON MAGNATE'S LIFE

Deposed of Every Vestige of Private
Life by the Vigilant
Thomson.

New York, Nov. 18.—According to The
American, J. P. Morgan stayed at home
three days last week with a cold at a time
when the stock market was feverish, and
there came near being a panic on the ex-
change. Only his return to the street
checked the bear raid.

The fact that his slight indisposition
could cause the loss of so many millions
has brought out startling particulars as
to a system of espionage with which he
is always surrounded.

The most startling fact, public or private,
of the trust builder is said to be observed
by his secret service of detectives. The
fact that most of them are
solicitous about his health, and that their
employers desire him to live long and build
more trusts does not banish the fact that
at a critical time he would mean millions to market
was happened to be short of stocks before.

Detectives who watch Morgan, as first,
his private car and his motor. A former
police man, now retired on pension,
is a steady attendant on the magnate's car
at the Wall Street office. From two to
a half-dozen detectives are always at the
entrance of the office, and at the front door
of the house at 230 Madison street.

Second, are the life insurance detectives.
Speculators and investors all over the
world, who deal in Morgan stocks, have
insured his life. Morgan has a large in-
surance in case of his death. Morgan's in-
surance is a matter of public knowledge.
The fact that he has a large insurance
in his own life, and that the state of
his health, on his condition, they esti-
mate the price of Morgan policies, for
which there is a constant demand, espe-
cially in the case of Morgan's life.

With these two classes Morgan has no
particular quarrel, but he hates and fears
the third class, which is the spy in the
stock market speculator. It is as much
a matter of public knowledge that Morgan
is a great deal of a spy in the stock
market. Morgan's spies are everywhere.
Morgan's spies are everywhere. Morgan's
spies are everywhere. Morgan's spies are
everywhere. Morgan's spies are every-
where. Morgan's spies are everywhere.

FIRST CANADIAN SUGAR.

The World last evening was in re-
ceipt of a little blue cardboard box
filled with granulated sugar, "the first
ever made in Canada from sugar
beets grown in Canada." The sample
came from Berlin, Ontario, and is the
product of the Ontario Sugar Com-
pany's factory recently built at that
place. The article presents a clean,
bright appearance, and will no doubt
find favor with the Canadian public.
A new industry is always a good
thing for a country, and the success
of this particular venture should mean
much for the future of the sugar in-
dustry in this country. The success of
the surrounding district who raise the
necessary sugar beets. We may ex-
pect, in the event of the Berlin factory
proving a money maker to see similar
establishments spring up in other parts
of the province. A great beet sugar
industry is under way among the
Mormons of Alberta, and Canada may
yet be able to furnish the entire do-
mestic market with home-grown, home-
made sugar.

A Good Idea.

Did you ever contemplate putting an
assurance on your boy's life? The idea
just as legitimate as insuring a horse,
a dog, or a piece of property. The in-
surance can be secured at a
lower rate now than it can when
your son grows up.
(1) You can pay the premiums until
your son reaches the age of 21, when
he can take over the insurance him-
self.
(2) This is a most effective means to
educate a boy in saving and thrift.
(3) By following this method you
give your son a substantial sum of
money at the age of 21.

WOMAN AGAINST WOMAN.

Mrs. Young Kills Miss McFarlin
With Five Stabs.

Rochester, N.Y., Nov. 18.—One of the
most sensational murders in the history
of Rochester was committed this morn-
ing at 543 Court-street. The victim
was Miss Florence McFarlin, a music
teacher. Mrs. Young, formerly a school-
teacher, and once a purchasing agent,
was arrested at the home of her sister,
Mrs. McFarlin, at 10 o'clock. After the
murder was committed, she is sup-
posed to have fled to her sister's home.
The woman who committed the crime
crane the door-bell, and when she
opened the door, she saw Miss McFarlin
in the kitchen. She rushed into the
kitchen and stabbed her five times. She
then fled to her sister's home. The
kitchen was a mess. The woman who
committed the crime was a woman of
about 30 years of age. She was a
woman of about 30 years of age. She
was a woman of about 30 years of age.
She was a woman of about 30 years of
age. She was a woman of about 30 years

MASSEY HALL OVERFLOWED.

Seventh Meeting for the Study of the Bible Under Mr. Newell.

Bible students crowded Massey Hall last night to the number of several thousands.

The service was established by W. R. Newell of Chicago, for the weekly study of the Bible.

The efforts of the Moody Institute of Chicago, under whose direction similar classes have been established in St. Louis and Detroit, have received most extraordinary encouragement in Toronto.

The services last night were attended by several hundred more than could be accommodated.

The hundred people composed the great choir alone. They are seated on the stage.

Chief Director Miller of Chicago, who has accompanied Mr. Newell each week to this city, was not present last night.

His place was filled by W. H. Lough of Port Hope.

Mr. Newell does not pretend any particular original methods in handling Bible classes, but he is an entertaining talker and a fine biblical scholar, and his enthusiasm is contagious.

Each person attending the class is supplied with a sheet of paper on which to write down the lessons for the following week are given out each Tuesday evening.

The entire work is supported by the Moody Bible Institute of Chicago, which has received in the way of free will offerings at each meeting of the class.

It is not always composed of the same people, the hall being filled each week by new recruits, but the church workers are contributing to the success of the meetings, which are widely unpopulated.

POLICEMEN WILL OBJECT.

Don't Want Their Fines Paid by the College Students.

Policemen late Saturday by the Board of Police Commissioners, do not take kindly to the movement started by the students to pay their fines.

The men will appeal to the board, and hope to inaugurate a campaign to have the college students' fines paid by the board.

The board, however, has decided to let the students pay their own fines, and the college students are expected to pay their own fines.

The board, however, has decided to let the students pay their own fines, and the college students are expected to pay their own fines.

STREET CARS IN ST. THOMAS

City Has Taken Over the Street Railway and Will Operate Cars Next Week.

COMPANY FORFEITED FRANCHISE

Road and Equipment Is in Rather Bad Shape for a Really Good Start.

St. Thomas, Nov. 18.—A special meeting of the City Council was held last night when the street railway was taken over, the company not having operated it for sixty days and therefore by the agreement with the city forfeiting their franchise and giving the city the right to take over the property in satisfaction of the \$50,000 guarantee bond given by the company.

City Engineer Bell was empowered to make necessary repairs so that the roads can be operated with four cars and report to a future meeting of the Council.

Mr. Bell reported that he had gone over the road and equipment thoroughly with H. Wolman, electrician of the London Street Railway. There are 10 cars in all, including trailers, and six of the armatures are held for duty by the London Electrical Construction Works, which had them to repair.

The road can be put in order and run for the winter by a present outlay of \$800. The people want the road operated at once, and they favor municipal ownership.

Cars will be running again early this week, and the city will endeavor to give as good a service as possible for the present with four cars. There are no legal obstacles to the city operating the street railway and the Engineer has been granted all the necessary authority.

MAN-KILLING BEAST DEAD.

Biggest Elephant in Captivity Finally Executed With Poison.

Cleveland, O., Nov. 18.—After a life full of murders Jumbo II. is dead. It is thought he was poisoned. He was said to be the largest elephant in captivity.

He died in Cleveland Sunday, and word was sent to his owner, Frank C. Bostock, now in this city. It will take a post-mortem examination to reveal the cause of death.

Mr. Bostock said that Jumbo II. died at a year ago, his three-inch thick hide as a non-conductor. While thousands of volts played upon his legs he trumpeted but did not fall. So it is believed that poison was administered to him yesterday.

It is said he enjoyed trampling on natives. After that he was a public executioner in Poonah, India. When he was brought to America, he failed to understand our civilization.

He killed two men in the passage to San Francisco. He weighed seven tons and was 15 years old. He died at an inopportune time, for he was meant to be a "star" attraction in the City of Mexico, where he was going to fight an Abyssinian lion in carnival time.

ARRESTED UNDER WATER.

How a Singapore Policeman Caught a Gambler.

Hong Kong, Nov. 18.—A particularly novel mode of arresting gamblers has just been instituted by Lance-Sergeant Murphy of the Singapore water police. Information was received at the police station that two noted gamblers had issued a challenge, defying anyone in Singapore to capture them.

This occurred on Sunday, and Murphy went to visit two tonganians moored on a wharf which was expected to be a gambling den.

When the police made their appearance the two men, who were known as "Big" and "Little," fled to the tonga and dived to the bottom of the harbor.

They were seen to swim up and were taken by Murphy to some steps near the wharf, landed, and taken to the station. The other morning he was fined a small sum for gambling.

EASY MONEY FOR MR. WILLIAMS.

Helped a Lady Who Did Not Forget Him in Her Will.

St. Thomas, Nov. 18.—Harry Williams, who has been residing near Harbortown for the past year and a half, has been adjudged by a judge of Liverpool, England, to have been bequeathed money and real estate by the amount of something over \$1,000 by Mrs. Beveridge of Liverpool.

Williams was in the employ of the Elder-Dempster Steamship Company as bookkeeper, at Liverpool, on coming out of the office about two years and a half ago.

He saw an electric car strike Mrs. Beveridge, knocking her down and killing her. He ran to assist her to get up, and found that she had been killed.

He accompanied her to the hospital, and afterwards at times visited her while she was undergoing treatment. Since Williams' death, she had rendered her during her illness, she made provision in her will that the money should go to him.

The lawyer's letter to Williams, who never looked for anything of this kind.

BRAVERY OF AN APE.

How Chimpanzee of New York Zoo Fought His Own Peril.

New York, Nov. 18.—A 6-foot chimpanzee saved one of his keepers from being burned to death in a fire that broke out in the Zoological Garden in the Bronx on Sunday.

Curator Dittmar says so. Some mischievous person caused the fire by throwing a match into the chimpanzee's cage, which was burning with hay and straw ablaze.

The keeper tried to rescue the ape. His clothes caught fire and he was burned, and he was over on the floor till the blaze was extinguished.

The chimpanzee chimpanzee was burned, and his head and feet are now wrapped in bandages.

Mollineux's Wife Seeks Divorce.

St. Louis, Mo., Nov. 18.—Mrs. Mollineux has arrived here from the Cataract Hotel. She authorizes the statement that she is seeking a divorce from her husband who was acquitted of a charge of murder in the case of the St. Louis man who was killed by a train.

She says she has no reason for keeping the object of her coming a secret. In fact, she wishes the world to know why she has taken up her residence here.

Is Dangerously Ill.

Quebec, Nov. 18.—D. Cumberland, member of the British North America Bank, is reported dangerously ill.

What made your linens coarse? Common soap! Sunlight Soap saves linen.

BLOODSHED IN CHINA.

Hundreds of Boxers Slaughtered—Kwangsi Rebels Victorious.

Victoria, B.C., Nov. 18.—Advices have been received from Canton to the effect that the Kwangsi rebels have captured the prefectural city of Santsu and also several district cities in the same prefecture.

A number of the officials of the captured cities were committed suicide or were killed by the rebels, while some were taken in escaping. It is stated on good authority that the rebels recently received a large amount of provisions, magazine and ammunition from the rebels.

Two hundred troops have been sent to Hsian to fight the rebels, who have been loaded on 14 junks, to be towed to Wuchow on the Yangtze.

From Szechuan news was received that General Ting has defeated the rebels. The imperial forces under General Ting have defeated the rebels, who were killed or captured the greater number.

Only 200 many wounded, escaping by night. In Szechuan the imperial troops have defeated the rebels, who were killed or captured the greater number.

Reports are now being received from the rebels that they have defeated the imperial troops, who were killed or captured the greater number.

Boxers are massing in those provinces. Pekin correspondent of the "North China Herald" says the Chinese government is secretly planning another expedition to suppress the Boxers.

He points out that news has been obtained from the rebels that the Boxers are massing in those provinces.

GRAIN MARKETS STILL FIRM

Continued From Page 7.

up at firm prices. A large number of farmers, as well as some dealers, have been unable to get their wheat supplied. A few lots of stockers were sold at unchanged prices. About 250 bushels of wheat and spring wheat were offered, and sold at \$3.00 to \$3.05 each. Only a limited number of wheat were offered. Prices for them were unchanged, but firm.

The run of sheep and lambs was large. Prices for sheep were a little firmer, while lambs were firm, at unchanged prices. The run of hogs was moderate, with prices firmer. Steers sold at \$9 to \$10, and lights at \$8.75 to \$9.00 per cwt.

Export Cattle—Choice lots of heavy shippers sold at \$8 to \$8.15; medium shippers, \$7.50 to \$8.00.

Export Hogs—Choice heavy export bulls sold at \$4 to \$4.25; light export bulls, \$3.75 to \$4.00.

Butchers Cattle—Choice picked lots of butchers' cattle, equal in quality to best exporters, 1075 to 1150 lbs. each, sold at \$4.05 to \$4.30; good picked lots of butchers' cattle, 950 to 1050 lbs. each, sold at \$3.75 to \$4.00.

Butchers' Cattle—Choice picked lots of butchers' cattle, equal in quality to best exporters, 1075 to 1150 lbs. each, sold at \$4.05 to \$4.30; good picked lots of butchers' cattle, 950 to 1050 lbs. each, sold at \$3.75 to \$4.00.

Butchers' Cattle—Choice picked lots of butchers' cattle, equal in quality to best exporters, 1075 to 1150 lbs. each, sold at \$4.05 to \$4.30; good picked lots of butchers' cattle, 950 to 1050 lbs. each, sold at \$3.75 to \$4.00.

Butchers' Cattle—Choice picked lots of butchers' cattle, equal in quality to best exporters, 1075 to 1150 lbs. each, sold at \$4.05 to \$4.30; good picked lots of butchers' cattle, 950 to 1050 lbs. each, sold at \$3.75 to \$4.00.

When interviewed by the press, Mr. Prittie said that he had no objection to the sale of the Prittie estate, and that he was willing to let the matter be decided by the court.

It is understood that a union has been formed in Hamilton, and that the organizer will come to Toronto to attend the meeting.

When asked regarding the proposed union of John Thompson said: "The men have made no secret of the coming meeting, and several of them have shown the circulars to me. I believe in unionism, and I think unions are a good thing, but I am sure that a properly carried out union, only 50 are off at one time, and that of that number perhaps half would find it impossible to be at a meeting, and thus the work of 200 men would have to be done by 20 or 25 men."

Boys Created a Ghost. New Rochelle, N. Y., Nov. 18.—Known as the Black Ghost, a mysterious figure for several weeks frightened the residents of Upper New Rochelle by appearing in the highway near the Tom Paine monument, has turned out to be a clever impersonator of a ghost.

James J. Bonnell, a wealthy woman, who was driving home alone on Monday night, was nearly run over by a car, and the driver was arrested.

For Seals Change Their Habitat.

Hokulani, Nov. 18.—News from Tokyo, the Japanese government has begun an investigation of state seals, and has found that a radical change in the habitat of the fur seal, many Japanese seal hunters report an entire change in the temperature of the old hunting grounds, the water showing from 60 to 70 degrees Fahrenheit, whereas the seals frequent water of 50 to 55 degrees. Hence the seals have changed their habitat to Japan during the last year, and it is the
