29TH YEAR

# UNIONIST A WIN

At Bermondsey By-Election

In a Three Cornered Contest, Workingman Redeems Constituency — Budget and Tariff Reform Issues

### SUFFRAGETTES ATTACK THE BALLOT BOXES

Dumphreys (Unionist)... 4278 Hughes (Liberal) .... 3291 Salter (Socialist) ..... 1435

LONDON, Eng., Oct. 28 .- (C. A. P.) --

Bermondsey by-election to-day resulted in the return of the Conservative and tariff reform candidate, who polled 4278 votes. The runner-up was Spender Leigh Hughes, the ministerialist, with 3291 votes; Dr. Alfred Salter, Labor-Socialist, totaled only 1435 supporters. Aid. Dumphrey's plurality over the ministerialist was thus 997, but his vote fell short by 448 of the combined poll of his two opponents. This is an opposition gain, the late member, Dr. Geo. J. Cooper, having been returned as a Liberal in a straight party contest by a majority of 1759. In the two preceding elections Bermondsey returned Con-servatives, and it has always been re-

ed Sack Suits, tweeds, dark ctures. Sizes 34 1.00 and \$12.00. garded as an uncertain constituency.

The constituency is a division of Southwark, in the parliamentary borough of London.

The Women's Freedom League took and Canadian ey mixed coloradvantage of the fact that to-day was the first anniversary of the "grille proto 33. Regula Friday \$3.49. test" in the house of commons (when attendants who sought to empty the ladies gallery found that two suffragettes had firmly chained themselves to Fancy Overcoa se to throat, fin the grille or lattice), to inject violence into the by-election to-day. A Mrs. Chapin smashed a bottle containing corpsive acid upon a ballot box. Her intention evidently was to destroy the for Friday ballots in the box as a protest against the exclusion of women from the right of franchise. What she accomplished Undergarments rawers. Special

ner own arrest.

A similar outrage was attempted at another booth, by a foung girl who were the suffragette colors. In the latter instance little damage was done beyond the burning of the finger tips of the election officials who removed the bits of broken glass.

Young Men's Christian Association in the curred, every effort will be bring Churchill back, although the chairman, William Garside, said that while he had gained most of his experience in the United States, Mr. Warthe bits of broken glass.

Who the Candidates Were.

didates, rendered the fight of pecuniar interest, and surpise will be general that Dr. Salter made so poor a showing, as it was generally expected that the real struggle would be between him

Ald. John Molesworth Thomas Dumphreys, familiarly known as "Jack" Dumphreys, was born in Bermondsey. For 40 years of his life he industry. Free imports seriously affected the local business, and the alderman has for 30 years been an ardent tariff reformer and, indeed, claims the convert to his cause. The most strikwhen, as the champion of the working men, he stood against Mr. Chamber-lain in West Birmingham. Referring to his tariff reform views, Mr. Chamilain then remarked that "it is the land owners he is going to relieve of the proportion of taxation they pay to expenses of the country's trade, and he comes to you and asks you working men of Birmingham to give him your support as a working man's represen-tative." The whirligin of time brings strange reverses, but none more renarkable than this contrast between and 1909, when the very point by Mr. Chamberlain arises over a budget designed to increase the forproportion of taxation paid by land owners. Ald. Dumphreys stood at this time as a straight tariff reformr, while strongly advocating advanced

Professional Men Defeated. nentary journalist, representing The London Morning Leader, a strongly port three of 10,000 men and boys.

Radical newspaper, in the gallery and W. F. Maclean, M.P., expressed lobby of the house of commons. He is also an editorial writer for that paper and contributes a daily column entitled "Sub Rosa." In his early life he was ected with a large engineering firm at Ipswich, and has also affiliations with The London Star, an afterjournal of Radical proclivities. Mr. Hughes made his fight mainly on the budget, and on the "graver ques-tion as to whether the taxes in this country shall be imposed by the elect-ed representatives of the people or by the house of lords, composed of a number of gentlemen elected by no one." Dr. Alfred Salter, the Labor-Socia!with his degree and many university spirit which recognized that condition honors, and finding that the scale of affairs. tory for tariff reform.

### THE SIGNIFICANCE OF THE UNIONIST WIN

Bermondsey by-election has, during its brief fortnightly course, attracted general attention since it provided the first test of public opinion since the introduction of Mr. Lloyd-George's budget. It is a district that has keenly felt the prejudicial effect of untaxed foreign competition, and the value of protection as a stimulant of local industry has played a large part in the contest. The result will unquestionably stiffen the section of Unionist peers that are calling upon the house of lords to reject the budget, even altho the successful candidate's poll is 448 below the combined votes cast for his two opponents, who were both supporters of the budget proposals. To that extent the result is indecisive, but in any case the drop from 1759 is significant, and will strengthen the bellef that the working classes, hitherto regarded as loyal to free trade are being indoctrinated with tariff refor mideas.

Toronto Young Men's Christian Asso-ing in the Central Prison. ciation, was welcomed to his new pos-ition. The occasion was marked by the presence of a number of the most the presence of a number of the most was the painful burning of some of the

Leading Business Man Suggests Extension of Victoria and Teraulay and Belt

> Line on Parallel Streets -A Good Solution.

A. J. H. Eckardt, president of the National Casket Co., comes forward with a brand new suggestion in connection with the "widening Yongestreet" proposition. His idea is drawn from Philadelphia, where Mr. Eckardt says it has been found to be one of the best solutions of traffic congestion ever employed. It is set out in the following letter, which was mailed simultaneously to the chairman of the board of control, the president of the board of trade and to the editor of The World.

"Dear Sir,-Widening Yonge-street has given rise to much discussion. I have been intending to write you regarding the matter to call your notice

garding the matter to call your notice to a plan which lies ready to hand and which has been found to supply the need of at least one large American city, Philadalphia.

"To begin with, it seems to me that widening Yonge-street is out of the question owing to the great expense which would be incurred and more particularly because, in my opinion, so doing would provide only temporary relief from congestion and leave the situation to again become acute within a few years, when Toronto shall reach a population of, say 500,000.

Make Belt Line.

"The suggestion which I have to of-

"The suggestion which I have to offer is that Teraulay-street on the west and Victoria-street on the east be extended north to the city limits by expropriation and that the cars be run north on one and south on the other, forming a belt line. The comparatively short distance between these streets and Yonge-street makes this plan particularly easy and effective in application to local conditions, and I cannot think that the advantages of this plan will fall to commend themselves to any who seeks the lasting welfare of the city.

"The property north of Gerrard-st.

and the cost would be slight as against that which would be necessary for the widening of Yonge-street even by a few feet. Then the property acquired would rapidly advance in value as it was turned by the operation of the chief, north and south car lines into the property and what had been appropriate and what had business property, and what had begun in expense would in all probability could not ultimately fail.

Least Expensive. "This plan should therefore commend itself for the double reason of being the least expensive, if expensive at all, and because it is the only one thus far

and because it is the only one thus far advanced which gives promise of a per-manent relief of congestion. "Surely no Yonge-street merchant could object to this. The streets on either side are so close as to afford an adequate car service for Yonge-street as well as for the businesses that would spring up on Victoria and Teraulay-streets. This would give the city three

Barrett-Flavelle.

Yesterday afternoon at half-past three o'clock, Sherbourne-street Methodist Church was the scene of a pretty autumn wedding, when Miss Mina Flayelle, elder daughter of Mr. and Mrs. J. W. Flavelle, was united in marriage to Mr. Wallace Barrett, eldest son of the late Horold Barrett and Mrs Barrett of Port Hope. The ceremony was performed by Rev. George Jackson of Victoria University, assisted by the pastor, Rev.

palms and ferns, the altar rail being banked with Easter lilies. Mr. Blake ley presided at the organ, playing the Lohengrin and Mendelssohn wedding marches and the music from the Valkyrie, a mixed quartet, singing "O, Love In the evening Mr. and Mrs. Barrett left en route for Bermuda. On their "the best," and made it difficult for the Contest Editor to make a selection of

An Outstanding Concert Piano.

The repeated appearance of the Heintzman & Co., plano on the concert platform of Massey Hall marks it very distinctly as the choice of great artists,-those of world-wide fame, and others of highest local standing. Miss Eva Mylott, whose singing delighted a large and fashionable audience at Massey Hall on Wednesday evening, is the latest of visiting artists to choose a Heintzman Co., piano, not only for her Toronto concert, but for her entire tournee, including Quebec, Montreal, Ottawa, Hamilton, and London, as well as other points. So it is that this famous Canadian-made plano becomes the favorite with

\$1.00, \$1.50 and

HARNESS HORSE GOSSIP

Not a single trotter got a new mark.

Not a single trotter got a new mark.

During the two weeks' racing at Lexington several world's records were broken and new marks established. Native Belle by Moka, dam Yeljow Belle, a 2-year-old trotter, went a heat in 2.07%, equaling the world's pacing record for the same age, made by Directly in 1891, beating by three seconds the previous trotting time record for the age, Arion's, 2.10%, and 4½ seconds faster than the race record for the age, held by Trampfast, 2.124. The fastest previous against time record, 2.10%, was held by Arion, b.c. by Electioneer, and was made at Stockton, Cal., Nov. 10, 1891.

Maggie Winder, a 3-year-old pacer by Oratoria, dam Clara Direct, the property of Jacob Winder, of Bristol, Pa., paced to a new world's record that age of 2.06%, made at Indianapolis this season, when she beat the previous world's record, her own, 2.08%, made at Lexington a few weeks previously. Her 2.08% mile reduced the world's record of 2.08 held by Brenda Yorke, by Moko, for two years.

Penisa Maid, by Pennahi, set a new time heat record for the Transylvania

Do You Realise the Danger of a DEATH OFTEN LURKS IN A CUT.

YOU see this danger illustrated in the case of Mr. W. C. Edwards, a well-known Friendly Society leader, of Peter Street, Toronto. He cut one of his fingers with a piece of glass, and instead of applying Zam-Buk to prevent blood poison and to heal it, he neglected the cut, and blood poison followed. He says:-"The bloodpoison from the finger spread up my hand and arm and caused me terrible agony. After two months' treatment the doctor said there was no cure, and amputation would have to take place if I intended to save my arm. I left that doctor and consulted another. After a few weeks' treatment, he also told me that operation would be necessary. He said the bone had become diseased and the finger would have to be opened so that the bone could be scraped. I went away to consider when I would have the operation performed and met a friend who advised me to try Zam-Buk.

"That night I bathed the wound and put on some Zam-Buk. I got a little sleep for the "That night I bathed the wound and put on some Zam-Buk. I got a little sleep for the first time for many nights. In the morning the wound began to bleed instead of the foul discharging as in the past. This was a healthy sign so I went on with the Zam-Buk. Well, to cut a long story short, in a few days I put away the sling, and in a few weeks the finger was healed completely. To day that finger is as sound as a bell and I owe it to Zam-Buk. I spent over \$20 in doctors fees and when I think how

Zam-Buk at such a triffing cost saved me from amputation

WHAT ZAM-BU
I am very grateful for the balm I can tell you."

Zam-Buk cures cuts, burns, sprains, festering sores, ulcers, scalds, blood-poisoning, eczema, bad leg, diseased ankies, running sores, ringworm, cold-cracks, chapped hands chilblains, and all other skin diseases and injuries. All druggists and stores sell at 50c. box, 3 for \$125 or post free from Zam-Buk Co., Toronto, for price. Refuse anything offered "just as good."

## Toronto World

The World Newspaper Co. of Toronto, Limited (Inc. 1902), 40 West Richmond-street.

THE FIGHT AGAINST THE POWER MERGER.

Not a municipality in Ontario but is interested in the struggle going on at different points in the province for popular control of the water powers. Short-sighted aldermen here and there, and others influenced by personal interests, refuse to take the people's side, and work hard to hand over to private corporations what is the provincial equivalent of coal in the big manufacturing nations. Canada is growing; Ontario is growing: but the greater the growth, the greater will be the slavery of the people eventually under the domination of the

The necessity for retaining a competitive measure of control over the price of electric power was foreseen from the very first, and pro-vision was made in the legislation chartering the Niagara power com-panies for public competition. Ever since the corporation interests have striven to annul that provision. They have even attempted to represent it as non-existent, and to argue that the competition of the

municipalities was unjust and unexpected.

Sir James Whitney has had the clear vision and the firmness necessary to protect the people in this matter, and the people have appreciated the fact, and have warmed to his leadership as they do only when deep questions of principal and liberty are involved. There has never been the monopoly in coal anywhere there threatens to be in power in Ontario, and that means the throttling of the commercial

possibilities of the province.

The huge electric merger which is distinctly foreshadowed in Ontario is an inevitable result of the combination of political and capitalistic forces now operating. Like globules of mercury which unite to force larger masses, there are several of these corporation centres in Ontario now in existence, each extending their control and influence as fast as they can. The Cataract Power Co. of Hamilton is perhaps the first and strongest. Col. J. M. Gibson, the present lieutenant-governor, has long been a prime mover in this organization, and while during his term of office his interest is dormant, his countenance and political symbathy are strong aids to the company's intentions. It is in connection with this company that the \$25,000,000 merger is projected, the charter for which was issued last, year. The Electrical Development Co., with its allied forces, the Canadian General Electric Co. and the other Mackenzie & Mann interests, constitute another nucleus of electric power control

The Liberal party is strongly identified with these corporation forces, and all the opposition met by the Hydro-Electric Power Commission, acting for the western municipalities in the Niagara peninsula, is directed by this political agency, acting thru one of the Liberal members of parliament in that district.

In the eastern end of the province the Dominion Government has developed considerable water powers in connection with the Trent Valley canal system. Had the government been as anxious to help the people as Sir James Whitney's government has been, these water powers could have been dedicated solely to the people's interests. They have been allotted to private companies, however, or, as in the case of Trenton, the way has been made easy for the town council to hand over the power rights to any company with sufficiently persuasive powers to accomplish the transfer. Practically all the powers in the eastern district have now passed out of the people's control. The next step will be amalgamation of these isolated corporations. The little globules will slip easily into the larger masses, and when these merge the people will be smothered under the rolling monopoly. Power, light, trolley traction, all the public services will be

Absolutely the only protection the people of Ontario have from this threatened usurpation of their birthright is the organized stand made by the western municipalities at whose instance the Hydro-Electric Power Commission has been set up to direct the co-operation of the towns and cities and exercise necessary supervision. Sir James Whitney in yielding to the wishes of the municipalities and the people in this respect has established himself strongly in the affections of the electorate, so much so that some misguided Liberals have tried to make it a party issue. This co-operation of the municipalities under the Hydro-Electric Power Commission constitutes a competitive restraint on the otherwise uncurbed encroachments of the corporations. As it is they resent any restriction, and in Hamilton and some other places have used every possible influence to obstruct the frequently expressed will of the people.

In Trenton an excellent basis for co-operation work among a num-

The

CORK TIP

TEN FOR 10 CTS.

ber of the eastern municipalities exists. Trenton has two water powers in the town limits with a capacity of 5000 horse-power. These have been conserved by the Dominion Government in the building of new been conserved by the Dominion Government in the building of new dams for the Trent Vailey canal system, and the government has offered the water to the town for development at the nominal price of \$1 per horse-power a year. Trenton could use 1000 horse-power, probably, and the rest could readily be distributed to surrounding towns. But the Trenton Electric and Water Co. has won over the Trenton Town Council to make an agreement relinquishing all its rights in the water powers in perpetuity, and this agreement would now be executed but for Hon. Adam Beck's act requiring all franchise agreements to be submitted to vote

The company in return for the franchise promises to sell power up to 2000 horse-power to the town, and pay \$1.50 per horse-power for all surplus power sold outside the town limits. The rates to be charged the town are \$16.00 per horse-power for 100 horse-power and over; \$17 for 15 to 100 horse-power; and \$20 for under 15 horse-power. The agreement has a joker in it by which the town may be euchred out of any rights it has in No. 1 dam, while the royalties on

No. 2 dam are reduced to 50c a horse-power.

Just why the Treaton Town Council should, make such a disadvantageous agreement no one is able to fathom. Why the company should endeavor to obtain it is clear enough. But companies are all birds of a feather. They have a tendency to flock together. Their gregarious habits eventuate in mergers, and the Trenton water powers bid fair under corporation rule to become an integral part of the big monorly which has in contemplation the universal sweating of Ontario monopoly which has in contemplation the universal sweating of Ontario

There are several powers along the Trent Valley constituting in all a most valuable body of natural energy. It is not in accordance with the tendency of the age commercially to suppose that they will remain in competition with each other. The alternative is a merging of interests, and the levy on the public of such rates as the traffic will stand; that is to say, up to the competing figures of coal and steam

Trenton, which is asked to pay \$16 to \$20, could generate its own power at \$8 or \$10. The Northumberland Paper and Electric Co. offered to supply power to the Hydro-Electric Commission for use in the Trent Valley towns at \$14 per horse-power for 3000 horse-power; at \$13 for 4000, and at \$12 for 5000 horse-power, and upwards. Why the Trenton Town Council should want to pay more to a company for power generated in the town limits than for power brought from a distance Mr. P. J. O'Rourke will doubtless explain.

### SILENCE IS GOLDEN.

Editor World: As a rule I have good reason to endorse your editorials, but that one on Barrie is rather wide of the mark. It isn't fair to load him up with the gossip of the newspapers. He does not talk. "Neither of them will talk," is the last cable news. He is doing his best to oblige the lady and give her a divorce when she wants if give her a divorce when she wants it. The decree will not be made absolute for six months yet, and she may change her mind. Give him a chance. "Cheerfully bearing the cross." you suggest. Should be treat it as a joke?

Father of a Family.

BUYING a piano is a matter of considerable importance to everybody-it's something like buying an auto-you may know something about it, you may know absolutely nothing—but anyway you have to depend largely upon the reputation and reliability of the firm from which you're buying.

About the EATON Piano.

EATON'S DAILY STORE NEWS

THE MANUEL AND THE PROPERTY OF THE PARTY OF

When selecting the "EATON"—we wanted to make certain of getting a piano that above all others we could point to and say it was the biggest possible value for your money. It took time, it took trouble, but we succeeded in getting a piano that satisfied us in every way, a good, attractive, durable, reliable and satisfactory instrument, and back of that piano is the reliability and straight business methods of AT. EATON Comes Try the "EATON" all you wish the better you know a piano the better you'll appreciate its good tone and splendid action.

Try the EATON at your home, give it three months thorough trial if at the end of that time you're not perfectly satisfied, your money is quickly refunded. We give with the EATON a 10-year guarantee against all imperfections in workmanship and construction. Ask or write for "EATON" booklet.

A. E. Creswick of Barrie is crown counsel and R. R. McKessock of Sudbury for Robinson.

Following a report by Doctors Bruce Smith and Clarke, it was announced that the defence would not attempt to

that the defence would not attempt to prove Robinson insane.

The evidence of the daughter Ellen was taken at Sudbury General Hospital, where she recently gave birth to her third child. The effect of her evidence is mainly a corroboration of her mother's evidence, whom she heard say, 'Oh! Jimmy, I cannot do it," and that he said "You must." She also asserted that her father was the father of her three children

The first witness called in court was the daughter Jessie. Before she appeared Robinson sat in the dock with head bowed down in his hands and his face completely hidden. Jessie stated her age as 19 and told of her father's misconduct toward her. Once or twice she was on the verge of breaking down,

"You are trying to tell the truth, are you not?" asked defence counsel. "Yes," she replied, "but I mind noth-ing about what I said at the last "Do you pretend to remember what

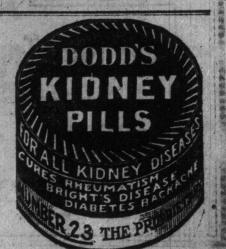

happened last March?" he asked.
"Yes," was the emphatic reply. freshed by talking with people since last court?" No, I never talked to anyone "Has your memory not falled you

"Some of it has," she replied At ten minutes to six there was a flutter of excitement when the name of Annie Robinson was called. She entered the court-room, slow and shaky. She looks years older to-day than when she received sentence a month ago. She was dressed in black from head to foot, and was provided a seat near the legal table. She sat with clasped hands, paying no attention to sur-

roundings.

Argument ensued between counsel as to the admissibility of her evidence, and an adjournment was made until 9 o'clock to-morrow morning, when Jus-John Robinson, the son, a youth of 20, was taken in hand by Justice Magee for his slowness in answering ques-

The viaduct appeal will be heard at Ottawa next month.

### ABSENCE OF SELLING PRESSURE.

World Office

Thursday Evening, Oct. 28.

Sterling, 60 days' sight.... 483 15-25 Sterling, demand ......... 487.25

Slightly more strength was exhibited in the Toronto stock market to-day, but the business showed little improvement. Those specialties which are receiving necessary pool support came promptly to the front at the first signs of bullish sentiment, but other issues lagged. The market as a whole continued to display that absence of selling pressure which, under better market conditions, would be responsible for much higher prices. The Bank of England rate remained unchanged to-day, altho a further loss in the reserves was shown in the statement, and the impres sion gleaned is that the critical money period has been about reached.

HERBERT H. BALL.

## Copper and Steel Leaders In a Wall Street Rally

New York Market Irregular, But With Bulls Still Dominant-Local Market is More Cheerful.

lies. Money somewhat easier.
R. B. Lyman & Co. wired R. B. Holden: The short interest is now showing signs of nervousness, and we look for y a further improvement in the New York market, but this did not carry far outside of the Toronto Exchange during the day, and public business vas not much enlarged thereby.

Of the speculative stocks Dominion
cal and Steel felt the first impetus

Inder inspired operations.

London was reported a buyer of the listed issues both yester-lay and to-day, these orders being nainly for the latent American stocks. In the investment department, a small amount of liquidation is in effect. Yesterday Dominion Bank was sold and to-day small lots of Canada Permanent were realized on. This, however, has had no material effect upon the issues dealt in or on other

milar issues.

Good general support exists for all the active securities and sellers are not forcing their holdings out. The mining securities had a much better undertone to-day, and at the close a more cheerful feeling existed than for many days past.

Bank of England Statement. LONDON, Oct. 28.—The weekly tatement for the Bank of England shows the following changes:
Total reserve, decrease £349,000; circulation decrease £188,000; bullion decrease £536,051; other securities increase £1,425,000; other deposits increased £32,000; public deposits increased £736,000; notes reserve decreased £482,000; government securities uncertainty.

## setter Tendency Thruout List of Cobalt Securities

larket Displays Firmer Tone Than Has Been Apparent For Some

World Office,
Thursday Evening, Oct. 28.
The sagging tendency which has been libited by the Cobalt securities for me time now, and which has been matter of remark during the past was not in evidence to-day. Its place there appeared an attitude firmness almost thruout the list, nich was quite refreshing after the

re was not much imprease in g, but it was remarkable that transactions were more or less d, they were more evenly distribution the list, and a much beteculative demand was noted. On their hand liquidating sales were o pronounced and both of these s contributed to the better tend-

which developed.

Rose recovered from its recent pation to sell back and made at for higher levels. The shares are around last night's close and stock coming out an upware stock coming out an upware that it is a matter of course. The dating sales which have been ited to the interests recently oust from the directorate were not sometiment was a matter of course. The dating sales which have been ited to the interests recently oust from the directorate were not sometiment to-day, the stock being of a only on advances. The highes a reached was \$6.10.

reached was \$6.10.
Sthewey was the only other higher dissue which was dealt in to any office the shares continued an thrade, advancing to \$1.57 and closely slightly lower.

The other securities were generally around yesterday's best prices higher figures realized by Chambferland, Silver Bar, Nova Scoti Silver Leaf.

The own Reserve sold off on some property of the state of the st

and Silver Leaf.

Crown Reserve sold off, on some proit-taking from those who had bought
a at the lower levels recently current,
at strengthened later.

The market on the whole was deciddiy firm and a marked improvement
rom that of the past few days.

Whether the change for the better will
e permanent remains to be seen. Cerain it is that the whole list has the
ppearance of having reached the botom mark, and a steady upward movesent would not come as a surprise to
rakers and market followers.

But Werld's Special Commissioner at 12. Made a Start Wednesday From Elk City.

Most of the underground work was

## PRICE OF SILVER.

a large amount of prospecting and developing has given gratifying results. The main vein has been proven to greater depth; the McDonald vein has been opened up from the first level of the main mine; No. 10 vein, on which no underground work has been done. is now developed at the 75-foot level, and on No. 3 vein a shaft has been sunk to the 135-foot level, which developed good ore at that depth.

Altho the La Rose mine has produced, during the past year, nearly 3,000,000 ources of silver, the reserves show no diminution compared with the esti-

a	mates made a year ago.

Greville & Co., in a market letter, say: La Rose—The following report on the property has been obtained by a New York firm that does not favor Cobalts, so that it is all the more valuable:

"The change of management came somewhat unexpectedly at a special meeting of the company, hald late Wednersday afternoon. At that meeting John McMartin, resigned as president of the company, and his brother, Duncan McMartin, resigned as a director. Henry Timmins and Frank W. Holmes also resigned as directors. Mr. Holmes also resigned as the representative on the board of the W. B. Thompson/ interest, which has been trying to force a merger of La Rose and Nipissing.

"When these resignations had been accepted, as they were with great promptness. George W. Sfevens, Shirpley Ogilvie. Alexander Pringle and Victor E. Mitchell, all of Montreal, were elected to fill the vacancies. The directors then elected D. Lorne McGibbon, president; David Fasken of Tonto, president; David Fasken of Tonto, president of the Nipissing Operating Co.. as vice-president, and Richard T. Greene of New York, as secretary.

"The announcement that the La Rose has been reorganized, and that the control of the company now rests with Canadians, who are mining men rather has merger and the company now rests with Canadians, who are mining men rather has merger and the company of the

Chicago Gossip.

P. Bickell & Co. say at the close:
eat—Higher—After a lower opening
to dulness, the market steaded and
rds the end of the session rallied,

for the day. News without feature. Conditions practically unchanged, liberal receipts being absorbed by milling interests at good premiums over the futures. Outside trade is light, bur short interests large enough to create good demand for futures on all declines. Market at the moment appears a scalping affair with safety on the long side on declines.

Bartlett, Patten & Co. wired Erickson Perkins (Beaty & Glassco):

Wheat—Market opened unchanged to 4c lower, the filmer cables not having the same effect on local traders as at yesterday's opening, presumably because they did not go home short. Minneapolis and Winnipeg ruled stronger than our market during the early morning, and the strength in those markets together with the talk of locust damage in Argentine were sufficient reasons for causing an advance of about ic per bushel from the lower point. Some evidence again of hedging sales here by the northwest. The market is an exceedingly nervous one. Shorts are timid and run to cover on the slightest provocation.

Corn—The orders were largely in the hands of commission houses, with a country clientage. There was some short selling by local professionals, who wanted to cover when wheat turned strong and on whose covering market railied %c.

Oats—Market responded mildy to strength is above a trader and on whose covering market railied strength is attempted in the strength in the strength of the control of the co

Oats-Market responded mildly to Oats—Market responded mildly to strength in other grains. Buying was by local shorts. No distinctive features. R. B. Lyman & Co. wired R. B. Holden: Wheat—Shorts were buying. Market holds remarkably strong in the face of bearish news. It demonstrates to us that purchases on all setbacks can be made with perfect safety.

Corn—Firm. the local bears were sellers again! to-day. Purchases of May corn on breaks will pay good profits.

Oats—Opened shade lower. Trade very light. There was nothing in this market worthy of notice. Local receipts 146 cars.

Liverpool Grain and Produce. Manitoba wheat—New No. 1 Lorthern, \$1.05; No. 2 northern, \$1.03, track, lake ports; No. 1, 40c; No. 2, 39c, lake ports; No. 3, 38c; Ontarlo, new oats, 37c to 37½c, at points of shipment.

New York Dairy Market. Barley No. 2 56c to 57c; No. 3, 51c; 3X, steady, unchanged; receipts 5644. Cheese Steady, unchanged; receipts 4104. Eggs Firm; receipts 9495. Western extras, first, wantoba flour—Quotations at Toronto 28c to 30c.

Cotton Gossip.

NEW YORK, Oct. 28.—The cotton market was even more excited than yesterday during this morning's trading and still higher records were made by prices with December selling at 14.67 and May at 14.82 or 31.25 to \$1.25 per bale above the closing figures of last night. Enormous realizing checked the advance late in the forenoon, but southern and western leaders were said to be predicting still higher prices and in spite of heavy demands for margins by local brokers outside buying was on a tremendous scale.

OBITUARY.

At Berlin, Ont Jacob Shantz, the At Berlin, Ont—Jacob Shantz, the first white oblid born in Berlin and a lifelong resident; aged 88. He founded the Shantz Button Co. of Berlin and Buffelo, N.Y., and when the C.P.R. was built to the Northwest, Mr. Shantz, for the Dominion Government, sent out a colony of Mennonites, who are all thrifty and well-to-do Manitoblans to-day. He was first misure of Berlin.

day. He was first mayor of Berlin.

An important enterprise in which he was interested was the development of Manitoba and the morthwest. He began operations there in 1874, and on behalf of the Menmonites devoted a large portion of his time up to the present in making a general prospectus setting forth the advantages of the country. He gave Wherally of his private fortune, and thru his endeavors secured large sums from other friends of the Menmonite Society for the purpose of forming the colony, and for the development of that country which constitutes the first white settlement in the west. He was married ment in the west. He was married three times and is survived by nine children, three having predeceased him.

At Kingston-Jeremiah Driscoll, for wenty-six years a guard at the peni-

OPPOSED TO TIN-POT NAVY.

CAPETOWN, S.A., Oct. 28.—(C.A.P.) In the house of assembly, Premier Merriman announced he was asking Parl Crewe's consent to the publication of the deliberations of the imperial defence conference, and said he and the Transvaal representatives were strongly opposed to "wretched timpor He hoped in future the British navai

program would be discussed with the colonial parliaments beforehand.

lew Sections Being Opened Up Feeders of Good Quality in Demand -Sheep and Lambs Firmer -Hogs Steady.

COBALT, Oct. 28.—(From the Man on the Spot.)—Supt. Gordon, in addition to the direction and supervision of the opening up of the Amalgamated to now controlled by the Paymaster Co., has assumed charge of the Little Nipsing, where he has 25 men and 2 drills at work.

Another new section that is a busy one is the Cross Lake section, where several promising properties are because mened up.

The three railways reported 164 carloads of live stock at the city market on Wednesday and Thursday, comprising 2569 cattle, 3619 hogs, 2522 sheep and lambs, 211 calves, and 4 horses.

The quality of fat cattle was common to medium with a very few lots of good to choice.

Trade was good in nearly every class of live stock, but prices were not quoted any higher than during the forepart of the week.

one is the Cross Lake section.

Several promising properties are being opened up.

From the north shore of Kerr Lake over to Cross Lake there is an extensive area in good formation that has hitherto been unproductive, with the notable exceptions of the King Edward and Silver Cliff.

Near Kerr Lake the Farah, Kerr Lake Majestic, Argentum and Silver Leaf acreage are being energetically worked and opened up at depth.

Similar activity prevails on Cross Lake.

There were a few odd cattle, of prime quality which if sold alone, would have brought \$5.25, but they were few in number.

George Rowntrae, who bought 300 caltile for the Harris Abattoir Co., reported prices as follows: Butchers, steers and helfers, \$4 to \$5.10; cows, \$4 to \$4.40; builts, \$2.30 to \$4.50.

Similar activity prevails on Cross
Lake.

The Cross Lake Silver Mining Co. is backed by Montrealers, and owns over 90 acres, including the rights to mine under the lake. Ten men are now trenching and 1 1-2 miles of this class of work has been done during the past summer. Good buildings have been erected and power will be available very soon.

Fifteen calcite veins were uncovered and work has been started on some of them.

The main loop from the Drummond to the Nova Scotia of the Parameter.

A fair supply, but not enough, of good to the conditions of the Nova Scotia of the Parameter.

The main loop from the Drummond to the Nova Scotia of the Ragged Chute Power Co. Funs thru the lot.

The main shaft has been started. It is a 5 x 8 shaft and will be sunk to the 100 foot level and drifting will be started at that level. Carl Reinhardt is one of the owners and in charge.

The Silver Cross Co. owns 39 acres and the main shaft is now being continued from the 100 foot to the 200 foot level. Drifting has been done at the upper level for 300 feet and some native silver was got in the cobalt calcite

level. Drifting has been done at the upper level for 300 feet and some native silver was got in the cobalt calcite veln on which the shaft was sunk, but greater depth is necessary to get high A fair delivery of sheep and lambs.

A three-drift

vein on which the shaft was sunk, but greater depth is necessary to get high values.

A three-drill compressor and a 60 horsepower boller have been set up and Supt. Brown has thirty men steadily at work.

Mr. Brown also has charge of the ily at work.

Mr. Brown also has charge of the

Belmont, where 30 men are kept busy trenching. Camp buildings have been sected and the head frame has been at up on his shafthouse. The main shaft is down 50 feet and will be continued another hundred feet. The pig calcite vein runs east and west and has been traced on surface for over

## A Store Full of Good Values for MEN THE Simpson Men's Store on the corner of Yonge and Richmond extends to you the season's compliments. We invite you to come with us for

Store to-morrow in actual person.

First, the Suits

We pick our Suits from the pick of Canada's choicest.

And we add to the range with celebrated American brands.

At \$22.50 we show a typical American suit of worsted, wide wale, self stripe, the newest thing.

Other effects, different and similar, at the various prices. All quite equal to custom made, with just a little more dash.

At \$18.50 suits of warm Saxony finished tweed, wide striped and plain, walnut brown, grey, olive brown, green and grey, with the new vents, the flaps over the pockets, and the fancy cuffs.

At \$15.00 we come out strong. There's where we enlarge and grow emphatic. These suits are all built in the sack style, dip front, vent or no vent, 3-button, broad and moderate lapel, broad shoulders, well moulded, raised seams, and tailored well. This is a suit of style and character, and the moderate price has nothing to do with it. We fixed the price, all right.

Blues and Blacks

Blues and blacks are staple, and we can get prices down by quantity orders. At \$12.50 we sell fine English worsteds, made in our own factory because we found we could do better than anybody else could do for us in this

At \$10.50 we have the pick of the market, the price being hammered down for quantity. All-wool indigo dyed. Wear them for best six months, and finish out the year with them for every-day.

Now About Overcoats

American Coats of the celebrated custom tailoring brotherhood come at \$30.00 (Michael Stern), kersey cloth,

therhood come at \$30.00 (Michael Stern), kersey cloth, taupe shade, with thin purple and green stripes about 1½ inches apart—that's one effect. And there are many others, all distinctive and "classy" in the extreme. Other prices, two, \$26.00, \$24.00, built on flared lines, with broad bluff-edged lapels, and lined with mohair twill serge.

Also wide wale Oxford cheviots, built here in Canada, at \$24.00 and mights good warm stylish handsome fellowed.

Boys' Suits

We devote a great deal of

space to boys.

See our \$5.00 Norfolks.

Saxony tweed, manly yet boyish in style, and built to wear

like all creation.

Rough surface, so that they can be brushed off easily, and

don't show the dust in the

At \$6.75, American models,

bloomer style, taupe, grey.
At \$8.75, Scotch tweeds, all-

wool, for stout, chunky boys of 12 to 17.

3-Piece Sack Suits

Square, double breasted, "husky" suits, for 10 to 15 year

olders, for \$8.50.
English tweed, chevron stripes, dark grey, green, and other shades.
At \$7.50, single breasted Suits of brown worsted, fancy stripes,

green and reddish mixtures and

self browns. Good wearable every-day suits, with the fash-ionable fancy cuffs.

Sack Suits at \$5.00

Our strongest boys' line.
Double breasted, square cut;
Rich, warm, shiny domestic
tweed, made of pure wool down.

in Quebec. It won't fade. Lined

Most men who feel the cold like an ulster these days. They are made up in thick, woolly kinds of cloth, soft and furry, on the non-conducting principle, and there's a hook under the collar that brings the coat snug around the neck, and keeps out the draught that goes for the region around your necktie in the ordinary coat.

At \$24.00 a fancy English cheviot (auto style). Prussian collar. Turn it down if you want to, like the regulation lapel.

The Throat-Button-

ing Ulsters

Scotch heather tweeds, with the lofty finish that spells warmth, at various prices At \$15.00 you can have same

style exactly in a cheviot frieze. At \$10

At \$10.00 a respectable dark grey Bradford cheviot Chester-field Coat, gives the man who good winter overcoat for Sunday.

Youths' First Long Trousers

Hard to make the jump into 'longs" and land in good style. More height than breadth at that age. Those who measure 33, 34 or 35 around the chest can be fitted specially at \$8.50.

Single or double breasted tweeds, nice dark colors. At \$12.00, English worsteds.

At \$15.00, English worsteds of finer grade, with flaps, pockets and fancy cuffs.

Boys' Overcoats At \$12.50, Chesterfields, like a man's, for 6 to 15-year-old boys, grey and black cheviots.

Fancy Overcoats, \$3.50 to \$9.50, the latter with Persian 19.50, the latter with Persian lamb collar, garnet beaver cloth, grey silk cord military frog fasteners, Hussar style, lined with a thick felty taupe wool cloth.

trimming; all are lined with best plain black or plain grey satin. Prices: 32 in. long, \$65.00; 46 in. long, \$75.00; 48 and 50 in., \$80.00.

## The Cloak Department Expects You To-morrow Greatest Popular-Priced Exposition of Fashionable Suits and Coats this Store Ever Made

Do you know what people are saying about this store? Do you know that we have secured the patronage of three times as many people this Thanksgiving as we did last? That means that Simpson distinction of style and Simpson simplicity of tailoring have won their way against the united noisy distraction of all the other places of trade in this city. We probably call attention to this fact in order to reinforce what we now invite you to do-See everything Simpson's have to offer before you buy to-morrow.

Cheerful attention guaranteed whether you buy or not. The first item here is for the early comers. These suits will be on sale from 8 to 8.30. After that hour we expect not one to remain.

LADIES' \$18.50 TO \$35.00 SUITS, \$11.75. 79 only, Suits, the clearance of some of our broken lines, materials are cheviot and English serge, imported Panamas, French Venetians, fine worsteds and broadcloths; colors are taupe, navy, black, brown, green, rose and fawn; coats are in medium length, lined with satin or silk, square cut or vest

effects; skirts are full flare or pleated styles, fancy trimmed or strictly tailored; regular prices \$18.50, \$22.50, \$25.00 and \$35.00, Saturday ...... We cannot accept mail or phone orders for these garments.

LADIES' WINTER COATS. Very stylish Winter Coats, of imported English tweeds, grey mixtures, made 48 inches in length; new flat collar, and cuffs, trimmed with black velvet; shaped and fastened to left side, \$11.50.
