## RUSSIANS BEGIN DRIVE IN ARMENIA WITH TWO SUCCESSES

### FRENCH LOSE SOME GROUND IN FIGHTING NORTH OF AISNE

#### Graham, Nesbitt and Buchanan Liberal Insurgents---Income Tax Coming

**ALLIES ENGAGE FOE IN HEAVY LOCAL FIGHTS**  
French Strenuously Combat Germans Along Chemin-des-Dames.  
RUSSIAN GUNS ACTIVE  
Bad Weather Confines British Operations to Minor Actions.

London, June 22.—The French and Germans in the region north and northeast of Soissons and in several sectors in Champagne have been engaged in furious fighting for two days with varying results, while in the eastern theatre in Volhynia and Galicia the Russians are using their guns against the Austro-German lines in bombardments which may prove the prelude to the commencement of infantry attacks.

The British line in France had weather has brought the operations of General Haig's army almost to a standstill, except for bombardments, which are being reciprocated by the Germans, patrol reconnaissances, and aerial operations. Likewise in the Austro-Italian theatre the offensive of the Italians was resumed Wednesday on the front southeast of Trent, but slackened materially in intensity. On the other fronts only minor engagements have taken place.

French Retake Point.  
In Champagne, southeast of Moronvillers, according to the British official reports, the Germans in a surprise attack conquered a French position, but the French later in counter-attacks regained a portion of it. Near Carville, the French penetrated the German line, but were unable to consolidate the position owing to the counter-attacks.

### BRITAIN DEFIES GERMAN PLAN OF STARVATION

**United States Working With United Kingdom Can Smile at Huns.**  
**TO STOP SPECULATION**  
Baron Rhondda Also to Eliminate Bulk of Middlemen.

London, June 22.—The United States and Great Britain, working together on the food supply problem, can smile at German threats to starve England. Baron Rhondda, the new food controller, declared today during an informal talk with newspaper correspondents in regard to the food situation. Baron Rhondda said that he wished to work in the closest co-operation with Herbert C. Hoover, the American food administrator, and that the powers conferred on him as British food controller are as comprehensive as those which President Wilson is asking congress to grant Mr. Hoover. Baron Rhondda declared that his first move would be to reduce the price of necessary food articles, bread, sugar, milk and meat being the first things with which he would deal.

"I am going to take strong action in this matter," he said, and he added that he proposed to do away with all food speculation in the country. He assured them that in foodstuffs, notably grain and produce, it already had been eliminated, and that all speculators must go. Further than that, he continued, he would reduce the number of middlemen to the lowest limit. Questioned as to whether he needed any additional powers to enable him to carry out his plans, Baron Rhondda said he already had all necessary authorization as food controller. He was empowered to fix prices, regulate food supply and control the whole of the foodstuff supply coming into the country.

He expressed himself as delighted with the food campaign now being carried on in the United States, and he spoke especially of the housewives' league, saying that women have the main influence in a movement of this nature.

### A CLEAR CONSCIENCE IS THIS MAN'S REWARD

But What Shall Be Said for the Other Man Who Was Saved From a Large Financial Loss?  
While walking across the corner of King and Yonge streets the other day a bank messenger kicked a small bundle. He picked it up, looked at it and knew at once that it contained paper of value. On opening it he found \$15,000 worth of stock certificates, including five war loan bonds for \$1000 each. Now, if the messenger had wished he could have held the parcel, knowing that a large reward would have been offered for the return of the certificates. But he didn't hold it. He went to his bank and turned in the parcel. Of course, the bank knew the firm to which the certificates belonged. They sent the messenger across the street with the parcel. It contained, remember, \$15,000 worth of negotiable securities. When the bank messenger handed in the parcel that he had found he was given—a receipt.

### HANNA TO COPY UNITED STATES' FOOD PROGRAM

**Canada's New Controller in Washington to Confer With Hoover.**  
**PLAN TO COOPERATE**  
System to Be Followed Virtually One of Joint Control.

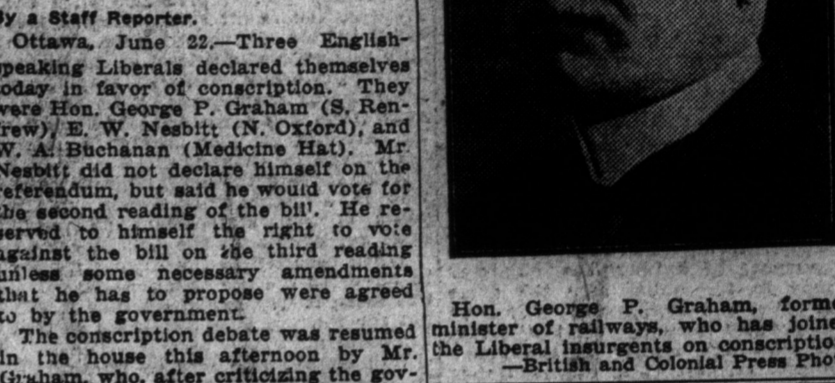

Washington, June 22.—Food control in the United States and Canada will be made as nearly alike as conditions in the two countries will permit. In many respects it will amount almost to a joint control, it was said today after a conference between Herbert Hoover and W. J. Hanna, just appointed Canadian food controller.

Food laws already enacted in Canada, Mr. Hanna said, closely approach the administration's food legislation pending in congress. The purpose of his trip to Washington was to discuss with the American progress that Canada might follow it as closely as possible. In most respects, Mr. Hanna explained, the United States and Canada have identical food problems. Both are exporters of grain and both this year will have larger crops than normal.

Mr. Hanna will remain here some days for conferences with officials of the temporary food control. He thinks food control will be put into operation in Canada as soon as he returns, and is pleased with Mr. Hoover's idea of making the food administration a voluntary organization, and his intention of operating it wherever possible thru the voluntary assistance of food interests instead of invoking harsher measures.

Ottawa, June 22.—Three English-speaking Liberals declared themselves today in favor of conscription. They were Hon. George P. Graham (S. Renfrew), E. W. Nesbitt (N. Oxford), and W. A. Buchanan (Medicine Hat). Mr. Nesbitt did not declare himself on the referendum, but said he would vote for the second reading of the bill. He reserved to himself the right to vote against the bill on the third reading unless some necessary amendments that he has to propose were agreed to by the government.

### FRENCH REPEL ENEMY IN STUBBORN FIGHTING

**Germans Manage to Penetrate Ally's Centre Near Bray-en-Laonnois—Foe Uses Large Forces of Special Troops.**

Paris, June 22.—Heavy attacks by the Germans north of the Aisne have been repulsed by the French troops with severe casualties, according to the official communication issued tonight. In the attack, which was along a front of about one and one-quarter miles, the Germans only at one point succeeded in penetrating the French trenches. The communication says: "On the Chemin des Dames the bombardment of our positions to the south of Flaisin and in the region of Bray-en-Laonnois continued up to this morning and was followed by a series of very violent attacks on a front of more than two kilometres, extending from the west of the La Roche farm to Epine Chevrengy. The Germans used large forces, composed of special troops, which attacked with stubbornness despite the heavy losses which were inflicted on them by our fire."

**FORESTERS PASS WAR RESOLUTION**

**High Court at Hamilton Urges Consecration of Manhood and Energies.**

Hamilton, Saturday, June 23.—After a four days' convention, which ranked as one of the most important ever held in the history of the order, the high court of the Canadian Order of Foresters brought its sessions to an end yesterday afternoon at the Royal Cannanagh, by the election of officers and the passing of a resolution as follows:

"That in the opinion of this high court of the Canadian Order of Foresters, the paramount task before the forces and civilized nations of the world is the destruction of the spirit of military despotism and tyranny, which has culminated in the present awful war, and to that end it is the unmistakable duty of Canada, at the present time, to devote her natural resources and her energies of every kind to the bringing about of a speedy triumph over the enemies of freedom and civilization and the ushering in of a permanent and healing peace."

Notes of thanks were tendered to the city officials, the Hamilton Board of Trade and the press, while J. A. Stewart, retiring high chief ranger, was eulogized by the number of speakers for the manner in which he had devoted his services to the order while occupying the office of the chief executive.

The credential committee reported an attendance of 852, representing 699 courts and 1,028 votes.

There was a huge attendance and the attractions were generously patronized.

**NON-SUPPORT CHARGE.**

Hamilton, Saturday, June 23.—On a charge of non-support, Albert Jackson of Brantford was placed under arrest last night. He will be taken back here for trial.

**WAR SUMMARY THE DAY'S EVENTS REVIEWED**

The Russians have just opened offensive operations against the Turks at two points in Armenia, and at both these points they have advanced. In the first place, they captured a Turkish position in the Jamur range, west of Kalkit, and they bayoneted all except a few of the defenders. In the second place, they fought an engagement with Kurds, captured a mountain summit, north of Serzesht, and continued their advance. The strict secrecy maintained concerning Russian military affairs forbids sufficient information coming out to show whether their plans immediately call for an extremely bold offensive against Turkey. The destruction of Turkey would deal an extremely severe blow to German prestige and power. The immense of such a danger would drive the Germans to tremendous exertions to save Turkey at almost all costs. An active Russian summer campaign, combined with an advance of Britons and Italians in Palestine and Syria, would pretty well end Turkey and the young Turks, even if the Constantinople mob did not take part of the allied program in regard to Enver Pasha into their own hands.

French forces joined battle with the Germans in another of those intense local actions yesterday, brought on by the enemy probably with the intention of hastening the exhaustion of France. The fighting proceeded on a mile and a quarter front along the Chemin-des-Dames. The Germans used formations of great depth for the launching of a succession of violent attacks. Their troops are described in the French communication as special wings suffered repulses. The notion of approaching French exhaustion continues to obsess the enemy as it obsessed him before Verdun last year. France has lost a great many troops in the war, but reliable authorities calculate that she has still enough to keep her ranks up to their normal establishment for a year to come. What the allies in the west need most is an extra army of half a million or so to besiege Metz and Strasbourg when the invasion of Germany begins. That effort will proceed swiftly. The allied invading columns will most probably march thru the 60-mile gap between Metz and Strasbourg and cross the Rhine in the region of Mannheim. Their immediate plan would involve the seizing of the manufacturing country of Westphalia.

The British have entered into a spell of bad weather and a see-saw of raids with the Germans at widely scattered points in their 80-mile front. They keep up their scouring of the air to keep down the German airman and they are getting into a position to launch a big attack against any vital point, as down the Scarpe Valley, from Warmonet towards Lille, or upon St. Quentin and Cambrai, or among the sand dunes of Belgium. The German raiders have shown activity about Epehy and the Guilleumont farm, and this brings the foe's uneasiness concerning the situation on both sides of the Bapaume-Cambrai road.

The Italian action in the Trentino, contrary to enemy reports, has only a local objective, a peak in the Dolomites. Their troops undermined and blew up an Austrian position with their garrison. A slight local gain on the Carso Plateau also improved the Italian front. General Cadorna, the Italian leader, probably intends to resume his advance towards Trieste, as soon as he finishes his preparations. The Italians have suffered the least of all the belligerents from attrition and they can easily put three million men in the field. So far as man power goes, they and Great Britain alone could continue the war from this out indefinitely against the enemy, according to allied military statisticians.

The Russians have secured shells for their big guns and they have begun a more lively bombardment of the sectors held by Austrian troops on the eastern front. Russia has eighteen million men of military age capable of service at the front, and her rate of recruitment exceeds 1,500,000 annually, or it considerably exceeds her maximum yearly losses, as estimated since the beginning of the war. Given the will, the guns, the shells and the food supply, Russia can also keep on fighting indefinitely. It is believed that she has as many as 8,000,000 men under arms, with her depots filled with trained reserves. She has 7,000,000 men under arms at the least.

For the defeat of Germany most probably, the Austrians have caused the publication of the terms of peace which they would accept. These terms represent the bravado of a cornered desperado rather than the ardent desire of a war-weary people for the blessings of peace. As her growing exhaustion drains her manhood to its dregs, Austria, under German manipulation, still keeps up the bluff. She has entered on the beginning of the end, for her divisions have to fight now with a diminished establishment. Her internal difficulties are increasing with the revival of racial strife and animosities between the various peoples held beneath her sway.

The fight between young Casey of Montreal, and Patsy Lewis of Hamilton, was stopped in the sixth. The former won on a foul after Lewis had fought his way to an easy victory. Kid Eber won from K. A reception is being arranged at the city hall, and a parade from that building will likely take place during the afternoon.

Captain Newcombe was chosen as commander of the Niobe after earning considerable distinction at Gallipoli on the flagship, where he was twice wounded, and as a result lost one foot. **Grand Trunk Train From Detroit Held Up Three Hours as Result of Rear End Run In.**

The Grand Trunk flyer from Detroit, due in Toronto at 10:25 last night, was three hours late, due to a rear-end collision a little over two miles west of Jeannette's Creek, west of St. Thomas yesterday afternoon. The collision occurred between two extra freight trains when a G.T.R. westbound ran into a Wabash extra, badly damaging the Wabash caboose and an empty C.N.W. box car, which was thrown over onto the eastbound main track. On the G. T. R. train, which was drawn by engine 867, the locomotive was damaged and the first car behind the engine was derailed. The auxiliary from Windsor hastened to the scene of the accident and had both tracks clear at 11 p.m. No one was injured.

**WOMEN WILL WORK FOR RETURNED MEN**

**Indifference Charged Speakers at Massey Hall Say Public Forgets Duty to Men.**

Belief that there is a growing indifference on the part of the citizens toward the returned soldiers was expressed by several speakers at the inauguration of the women's campaign for \$50,000 to obtain a permanent clubhouse for the members of the Great War Veterans' Association at Massey Hall last night. And present to add encouragement to the work of the women, stated a reasonable basis for this opinion.

However, the stated determination of the women, that they would continue their efforts until they had a permanent clubhouse for the returned soldiers, even if they were to "beat the drum" "just a few women in Toronto," more than compensated for the small attendance. Miss Church made an earnest appeal to the women to rouse their sisters to some sense of duty and help the brave men who had sacrificed their lives for the country.

Mr. Rowell stated, in giving his support to the women, that he considered it a disgrace to the nation in forgetting the movement that would help those who had fought for their country to fraternize among themselves in the way to come. It was not only natural but fitting that the men who had braved the fiercest shoulder to shoulder should be able to meet where they could gather and talk over the old days and discuss plans for the future.

It was difficult for those who had not seen service at all to appreciate all that the returned men had gone thru. Only when they considered the arduous nature and the sufferings they had endured, and the conditions under which they fought, could it be realized what they had done for those at home. The returned soldier problem which was worthy of consideration. After the men had been through active service for two or three years, it was not easy to fit them to normal conditions, and the citizens should realize that they had done for the man who took up his positions in civilian life after it would be for themselves and country.

**RIVAL COMMITTEES WORRYING RUSSIA**

**President of Toronto Swiss Society Receives Another Interesting Letter.**

**TWO GOVERNMENTS Workingmen Delegates Demand That One of Them Be Taken Into Cabinet.**

Interesting news concerning Russia is contained in a letter from Switzerland, which has been translated from the French by James Cusin, president of the Toronto Swiss Society, and a more comprehensive idea of the status of the two warring factions in the definitions given by the writer of each party.

An extract from the letter follows: "Russia has two governments. One meets in the Palace Marie, which was once the property of the Duchess Marie de Leuchtenburg, daughter of Nicholas I. Previous to the revolution the empire's council met in this place. The other government meets in Catherine's Hall of the Tauride Palace, the seat of the Duma.

"The first-named is the official government, formed after the revolution, and is presided over by Prince Lvoff. This is the responsible government, recognized by the allied nations and neutrals. The other is composed of a number of men who have gathered in the capital, and this party is called the Committee of Workmen and Soldiers' Delegates. Sitting outside the official government, it issues manifestos to the army, and sends all kinds of messages to the people. It is irresponsible and creates only disorder.

"While this body does not exactly govern the people it is improving and has recently established a section of external affairs which sends news to the press. It insists upon keeping an official in the offices of the Petrograd Telegraph Agency. Members of the party still want more and claim the right to be represented in the responsible government by three or four ministers without portfolio, but having the same rights as the other ministers.

"The governments consult with each other and recently met at the Palace Marie, the conference lasting all night. A large crowd in front of the palace waited for news and during the night party addressed by speakers of different parties. At 4 a.m. a deputation from the Tsarskoleselo garrison arrived to renew its allegiance to the established order, even by force, if any dangerous movement should take place.

"Crowd impressed The appearance of these men and their decision impressed the members of the workmen's committee, and one of them informed the people that the party he represented did not desire to overthrow the authorities. This calmed the waiting crowd and shortly after it dispersed.

"Among the latest claims of the committee is to have control of its members in the government and this may be granted, provided they leave the Tauride Palace to the future parliament, which will soon meet there by the will of the people."

Back up the returned men and do all you can for them, be appealed. They are as a whole, fully worthy of all that you do and all that they give them. It is crying shame if the government does not look after the future of these men who have sacrificed their lives for the country because of its standard consideration of honor I ask you to do all you can in this campaign and further our attempt to provide a clubhouse for our returned men."

Strong Organization Needed. Serj. J. Sheehan of the G.W.V.A. stated that the statements of some men that the returned men were being punished by an indifferent attitude toward the veterans, and that this condition made it necessary for the returned men to have a strong and virile organization. Those men who had returned had a duty to perform, and the independence of their fallen comrades and the association would prove an asset to the country because of its standard of loyalty, dignity and honor.

Miss Church said that she always felt thrilled when she read of the aims and objects of the Great War Veterans, and that she was sure that every real woman who appreciated the deeds of brave men — she was positive that the women would rouse the sisters and help the men who had given themselves for liberty. She thought it would be very fitting for the women of To-

That Collapse, Not for Your Discomfiture, But for Your Convenience, Being Specially Designed To Do So. Moreover, the Comfortableness of Them Equals Their Convenience.

NO HEAVY, CUMBERSOME FURNITURE for the camp or cottage set up in rustic, rocky places! Too much like home, for one thing. Too awkward to move about, for another. The palm of popularity goes to the type of chair our artist has sketched below.

Beyond its informal, summery appearance, it possesses the merit of being collapsible. It may be folded or rolled into small, compact form—a distinct boon, not only for the journey thither and from the city and back again, but for the daily moving about from verandah to garden or glade. Then, too, for the tent, or the big dormitory over the bathhouse, how admirable the cot that may be condensed to less than the size of a suitcase!

Moreover, such cots and chairs lose nothing in comfort for the sake of convenience. They are carefully designed with that object in view. Prices are as follows:

A. Camp cot of natural wood and sturdy white duck—a strong, comfortable bed for tent or summer bungalow. When not in use it may be telescoped into the tidy bundle indicated to the right of the drawing. Price, \$3.50.

B. Here's a chair ready to lead a varied and active life—ready to be gathered up under your arm and transferred from verandah to motor boat, from picnic ground to the rock by the campfire. In short, it is an excellent portable chair, made of natural wood, with seat and back of green or brown duck. Price, \$2.75.

C. Stretch out in this chair and you'll know the meaning of real comfort. It is made of natural wood and strong awning duck in brown and white or green and white stripes. The back and foot-rest are adjustable. Price, \$1.50.

D. A great favorite for cottage or camp—adjustable chair in natural wood and awning stripe duck. Price, \$1.50. —Furniture Building, Alder and James Sts.

### MANY NEW YORK RECRUITS ARRIVE

Fifty-One in Contingent and Twenty-Six Join the Infantry.

### KILTIES HOLD PARADE

Resumption of Forestry Recruiting by Authority From Ottawa.

Another large contingent of recruits from the British Recruiting Mission at New York City, arrived in Toronto yesterday for attachment to the Canadian Expeditionary Force. There were 51 men in yesterday's party. All but one were found physically fit for military duty. The United States recruits joined C.E.F. units as follows: 48th Highlanders, 3; C. O. R., 7; Grenadiers, 20th Regiment, each 1; Army Medical Corps, 7; 110th Irish Regiment, 3; No. 2 R. E. Draft, 2; C. M. R. Engineers, No. 2, 34; and 18 R. R. Drafts, and 20th and Simcoe Foresters' Draft, one each. Eighty-eight recruits in all were selected out of the 150 men examined at the armories, 68 of these being for the C. E. F. and 19 for the Royal Flying Corps. The C. E. F. men were distributed as follows: 2nd C.O.R., 8; 10th R. G., 5; 48th Highlanders, 12; 160th Regiment, 6; 110th Regiment, 2; C. M. R., 1; Can. Engineers, 1; No. 2

C.A.M.C., 10; No. 2 Railway Con. Draft, 2; No. 14 Railway Con. Draft, 4; 67th Battery, 1; C. A. S. C., 1; No. 18 Railway Con. Draft, 2; No. 23 Railway Con. Draft, 2; Y. and S., for Construction, 9; No. 2 C.A.M.C., 1; Dental Corps, 2. An order received yesterday from the British Recruiting Mission headquarters at New York City, informed the Toronto mobilization centre that in future all men sent from the United States for enrollment in the C. E. F. must be attached to service in the highest branch of the service their physical condition permits. Thus recruits found suitable for class "A" infantry, will have no option but to sign up for duty in that branch of the service. These men will be divided proportionately among the five Toronto infantry C. E. F. service battalions. Forestry Men Wanted. Recruiting for the forestry units has been resumed. The enrolling of men for forestry work with the C.E.F. had been cancelled a couple of weeks ago by an order from Ottawa. The new order from headquarters, however, states there is now an urgent demand for forestry men. The physical standard necessary for recruits to be eligible for the forestry drafts is much lower than for combatant units, as loss of several fingers or toes or even one eye is not considered a bar. Men up to 48 years of age are accepted for forestry units. One of the prominent C.E.F. units which will probably enroll a great number of forestry recruits is the York and Simcoe Foresters' Construction Draft, commanded by Capt. A. W. Hughes. Four hundred and twenty-eight members attended last night's parade of the 48th Highlanders at the armories. A Day at the Ranges. Lieut.-Col. C. W. Darling announced to the Highlanders that the whole regiment would muster at the armories

at 9 a.m. tomorrow and then proceed to Long Branch by train. A complete day will be put in a target practice. Every man will provide his own lunch, and coffee will be supplied at the ranges. The regiment will entrain for home at 6 p.m. Last night No. 4 Company of the 48th held musketry practice at the Hart House ranges, No. 8 Company at the armories ranges, and Nos. 1 and 2 Companies attended musketry lectures. Twenty-six new members have just been enrolled. Two provisional promotions in No. 4 Company are announced. Sergt. J. E. Lamb becoming company sergeant-major and Corp. W. J. Dovey a sergeant. Fifteen men medically unfit for C.E.F. service are wanted for general work at Camp Borden. Nine bakers are also required. Applicants may apply at the C.A.S.C. or recruiting depot at the armories. There is a probability of some wounded soldiers being sent to Bermuda's balmy climate in order to recover from the effects of their wounds. A report has been received from Bermuda that a committee of chamber of commerce is already appointed to enquire into the advisability of making arrangements with the Canadian authorities for sending soldiers to Bermuda to regain their strength. It is also said that circulars have been sent to all the hotel proprietors in the island asking them to co-operate. DRIVER INJURED. Gordon Smyer, 16 Carlyle street, sustained slight injuries to head and hands when a horse he was driving along Denison avenue, yesterday afternoon, took fright, bolted and crashed into another bakery wagon. Smyer is employed as a driver by the George Lawrence Bakery. He was taken home.

### MEMORIAL RAISED TO HARRY E. LEE

Tablet Unveiled to Memory of Teacher at Annette Street School.

### GEN. LOGIE OFFICIATES

Warm Words of Praise for Men Who Fell in France.

The pupils, teachers and parents of Annette street school last night paid tribute to the memory of Gunner Harry E. Lee, a former teacher, who was killed in action at Courcellette in September last. A bronze tablet, bearing a record of his death, and a large picture of the dead hero, the gift of the teachers of the school, were unveiled by Major-General W. A. Logie, Members of the board of education, the young man's father, Marcus Lee, his uncle, Eriand Lee, of Wentworth County, and a large number of friends were present. The tablet was inscribed with the words: "Gunner Harry Eriand Lee, who fell fighting for the Empire at Courcellette, September, 16, 1914, the first Toronto teacher to make the supreme sacrifice." Gunner Lee was a graduate of the faculty of education, Toronto, and his first teaching experience was acquired in the Mimico Industrial School

In October, 1914, he was taken on the teaching staff of the Annette street school, and altho he remained only a few months, was popular with both teachers and pupils, and was a successful teacher. In February, 1915, he enlisted with the 4th Canadian Mounted Rifles, going to England in the fall of that year. Later he transferred and went to the front in a machine gun unit. Short addresses were delivered by Chairman Miles Vokes, General Logie, Charles Ferrier, superintendent of the Mimico Industrial School, and Wm. Wilson, principal of the Annette street school. Marcus Lee, the father, and Eriand Lee, replied with words of appreciation for what had been said and done. Harry was the only son of the family, and one of his two sisters is now in France as a nurse. Eriand Lee has lost one son at the front and another is now in action. Chairman Vokes referred to the estimable character of the young man. He was proud of Canada's young men and women and he felt certain that Britain would never fail for men to support Lee in the hour of need. A Family of Soldiers. Gen. Logie said that Gunner Lee had come from a family of soldiers. A great great grandfather had been a British soldier and he had left many descendants, of whom all the men of military age were now fighting or were dead. He touched on a controversy which developed because of a statement of Gunner Lee's made in his schoolroom, and which was given wide publicity. If he had said something that did not meet with the approval of some people, stated Gen. Logie, he had said so because he believed it. It was what he had done that counted and he had removed any stigma of blame with his life's blood. "A brave man was Harry E. Lee," said Mr. Ferrier, "and those of us who know him are confident that he met the last supreme test with the same

high courage that was characterized of him in the performance of his duty at Mimico. He was a man of courage who never shirked a duty." FRATERNAL SOCIETY MEETING. The meeting held in Sons of England Hall, corner Richmond and Bert streets, Wednesday evening, June 20, was considered by those interested in the welfare of fraternal societies as a grand success, there being but one dissenting voice. A committee was appointed, composed of members of the various societies, to go into the matter fully, after which a general meeting, inviting members of fraternal societies, will be called to hear and discuss the plan adopted by the committee to be presented to the government. RUN DOWN BY WAGON. Run down by a scavenger wagon near his home yesterday afternoon, Kenneth Hayler, aged 14, 325 Spadina avenue, sustained head wounds, and probably internal injuries. He was removed to the Hospital for Sick Children in the police ambulance. CHASED HIM TWO BLOCKS. After a chase of over two blocks last night, Plainclothesmen McIlroy and Davey caught William Harper, 12 McDonnell square, with a bag containing five live hens and one dead one, in a lane on Huron street, a companion of Harper's escaped. APPOINTED TO CHINESE FIELD. Miss Daisy Masters of England and Miss M. G. Peters of Georgetown, N.B., recently graduated from the Deaconess Home, Toronto, have been chosen by the Anglican mission board to proceed to Chinese mission fields. They will leave in August, and will be stationed at Homan, China. AT HANLAN'S POINT. Lt. John Blatter and his celebrated 48th Highlander Band has been specially engaged by Manager Bolman to give two concerts at Hanlan's Point this afternoon and evening. A program of selected numbers has been arranged from the light popular airs and gems of the old masters which will be given at each concert.

GRAHAM IS ADDED TO BOILERS' RANKS

Hanna, but it did seem strange that the government in selecting an official to crush monopoly, stimulate competition and reduce prices should have picked upon the head of the Standard Oil Company. Mr. Graham said the government was to be censured for not having coordinated the wealth and natural resources of the country and conscription for war purposes. At the outbreak of the war the government should have taken a firm grip on the nickel situation. It should have taken possession of all the mines and erected refineries. It had permitted the transportation services of the country to get into a wretched condition. Everywhere there has been congestion and delay. Will Ontario Resign. F. R. Lalor (Haldimand): It's just as bad in the United States. Mr. Graham: I am not holding the government responsible for what happened in the United States. In closing, Mr. Graham declared himself in favor of conscription. As to the referendum, he saw no necessity for it, and he believed that the government was preparing for a general election. If the issue was to be submitted to the people it was, in his opinion, immaterial whether the submission was made by a plebiscite or by the government appealing to the country. "I, therefore, feel disposed," said Mr. Graham, "in conclusion, to vote against the referendum and for the bill."

WHITE DEFENDS MEASURE

Sir Thomas White said the voluntary system was unjust and that he had not had a great success. However, the system had run its course, and we were now confronted with the necessity of speedily re-organizing our troops at the front. There was, in his opinion, no alternative but for us to follow the example of Great Britain, the United States and New Zealand and enact a compulsory military service act. Personally, Sir Thomas thought the present Militia Act empowered the government to conscript soldiers for service overseas, but if it did not, we should lose no time in passing the law that would give the government such authority. He said that Canada was at this moment threatened with an invasion, and the invasion could only be thwarted by our defeating the enemy on the fields of France and Flanders. The minister of finance warned the house that the war was by no means won. "We knew there were three years of war behind us, but nobody could say how many years of war were ahead of us. The central powers had a million more men in the field than we had at this time a year ago. Canada were substantially the same now as they were a year ago. No one could say that the crisis of the war was yet reached. Battalions Depleted. Sir Thomas then spoke of the duty we owe to the men at the front and the reinforcements they need. He said he had visited the front himself a year ago, and it was a common thing for an officer to say: "I am leading 700 men in the trenches, and I ought to have a thousand; and we are not up to strength." The battalions were already depleted, and would anyone contend that the gaps in the ranks should not be filled? Sir Thomas said that, desiring as he did to preserve national unity, he regretted the necessity of conscription, but there was, in his opinion, no alternative. It was idle to argue that our men were more needed on the farms than in the battle line, for the great number of idle young men in all our large cities were consumers, not producers, and who ought to be promptly sent to the relief of our gallant boys in the trenches. (Applause.) Replies to Hughes. Sir Thomas White said in a general way with the charge that he and the prime minister had related recruiting trips across the country, and of his own private addresses at recruiting meetings. He did not, however, deal specifically with the statements made in the house the other day by General Sir Sam Hughes. Sir Thomas, however, referred in a complimentary way to the great service which Sir Sam had rendered to the cause of recruiting during his term of office. Replying to Mr. Graham's general charge that wealth should be conscripted, and resources referred to by Mr. White, said the government had raised a great deal of money by taxation, but had sought to avoid irritating the people by unreasonable taxes, or by the exorbitant flow of voluntary contributions to the patriotic fund and similar funds. He intimated that an income tax and tax on land would be imposed when necessary. Appeal for Unity. In closing, the minister said that valor was the great thing needed at this crisis. He made an eloquent appeal for the reinforcements needed by Canada's soldiers in France and Flanders. We were, bound not only to defend Canada, but also to defend the empire. If he were asked when we would stop sending men and munitions to France, he could only answer, "When a final victory is achieved." He appealed to the members of the house to unite in a patriotic endeavor not only to pass the conscription bill, but to see that the bill which became law, was obeyed and respected in every part of the Dominion. Nesbitt is Wary. Mr. Nesbitt (N. Oxbow) declared that he would vote for the second reading of the bill, reserving to himself the right to vote as he thought fit on the third reading. He intimated that his final vote upon the measure would depend upon whether the government made certain amendments to the bill and brought in some other legislation. He claimed that the recruiting campaign had been greatly marred by the mismanagement and extravagance of the government. He did not say how he would vote on the proposed referendum. W. F. Cockshutt (Brantford) followed in an eloquent plea for conscription. He said the failure of Quebec to take part in the war properly had been a great disappointment, and he thought that Sir Wilfrid

BELLIGERENT STAND DENIED BY GAUTHIER

He Says His Speech Did Not Hint at Armed Resistance.

Ottawa, June 22.—That he did not mean to intimate that Quebec would offer armed resistance to conscription is the statement today of L. J. Gauthier, M.P. "I said we would use this very bill to defeat the purpose of the measure," he asserted. "That means, of course, that we would either use the tribunals which the bill affords or go to jail as the bill provides rather than go as conscripts. I spoke of suffering and pains and going to the limit. My reference was entirely to the direct consequences which the bill provides, namely, imprisonment. What I promised on behalf of my constituents was passive resistance. "I may say that some of my people did talk of fighting. But I told them, 'Do not be foolish. The government could come with machine guns and sweep you away, for you have not got a revolver.' That has been my attitude. I cannot understand how Ontario has misunderstood my words unless they actually desire to see my province offer armed resistance."

WINNIPEG MEMBER REFUSES TO RESIGN

F. J. Dixon Will Not Give Up in Response to Petition Circulated.

Winnipeg, June 22.—F. J. Dixon, member of the Manitoba Legislature for the West Block, refused to resign his seat in response to the petition secured by the army and navy veterans. The movement for Mr. Dixon's recall was instituted after he had criticized publicly the national service scheme. Mr. Dixon has written to Lieutenant Colonel Carruthers, president of the veterans, explaining his refusal. He had intimated previously that he would resign his seat if twenty-five per cent of the electors of his constituency demanded such action. He explained to Col. Carruthers that 1515 of the electors of the 1915 list would be said to carry 3,598 names. Actually, Mr. Dixon wrote, he had 3277 names, of which he declared only 1,581 were genuine voters in Centre Winnipeg. He classed 456 names as "doubtful" and 1,340 as "bogus." There were fifty repeaters' and names of at least twenty women.

**"ROBIN HOOD" AT THE GRAND.**

Among the principals in the De Keven Opera Company, which opens a summer season at the Grand Opera House on Monday in "Robin Hood," is Ivy Scott, who won fame as Madame Butterfly and as the girl in "The Girl of the Golden West." Other popular members are Cora Tracy, who sings Alan-a-Dale, and Ralph Brainerd, who continues in the title role. Jas. Stevens, the Chicago opera, sings Little John, Jeannette Studley sings Anabel and the part of Will Scarlet goes to Herbert Waterous, the noted basso of the Metropolitan Opera Co. The comedy roles are admirably cared for by Phil Branson as the Lord High Sheriff, Tillie Salinger as the buxom Dame Durdan, David Anderson as the wily Sir Guy Gisbourne and W. J. McCarthy as Friar Tuck.

**LADY ROSS CHAPTER'S GIFT**

Donation of Three Thousand Five Hundred to War Veterans' Club

A good beginning makes a good ending, is an old and well-worn adage and in connection with the permanent club for the Great War Veterans, the gift of \$3,500 from the Lady Ross Chapter, L.O.D.E., of which Mrs. R. H. Cameron is regent, should be successful for the enterprise. The money was made at the "Pleasantly Circled" held last September, the motive of the workers being to apply the receipts to a permanent home for returned men. In giving it to the movement inaugurated under Miss Church's leadership in this city, the chapter is fulfilling its original idea and at the same time is giving a fine lesson in co-operation. Another chapter of the Daughters of the Empire, who decided to send a handsome donation to the object, is the Union Jack Chapter, which donated \$500 to the purpose.

Provision has been made for lodging and other protection for the girl workers, all of which is looked after by the Y.W.C.A. Application should be made to the Government Employment Bureau at 164 Bay Street, or at the new office at 15 King Street east.

**CHARITIES CRITICIZED**

Rider Added to Effect That Relief Methods Are Cumbersome.

Canada is living too extravagantly. Despite the war experiences of France and Great Britain, despite the growing seriousness of the Canadian situation, waste and luxury are still common in the Dominion. Millions of dollars are being spent on unessentials that should be devoted to the resources of the country, an artificial prosperity which is blinding the eyes of many to the true fact that the Dominion is spending money at an unprecedented rate, and that the resources of the country are under a serious strain. The situation must be corrected if the strain is to be endured. Waste and extravagance today are crimes against the men in uniform. Their sacrifice demands sacrifice at home. There must be conservation of resources and united effort towards the industrial life has taught that there are few "waste" products that cannot be utilized. War has proved the truth of that teaching. Eliminate waste, practice thrift and invest your savings in War Savings Certificates.

**PRINCIPAL MORRISON MAY SUE FOR LIBEL**

Board of Education is Not Interested in Approving Report of Special Committee.

Considerable difference of opinion still exists as to the way in which the special committee of the board of education dealt with the case of Principal W. G. Morrison of Pape avenue school. Practical experience presented by Trustee Mrs. Courtice, in which she called for the dismissal of the principal, has the approval of all agree with Mr. Morrison's explanation. From statements made by trustees, it may be gathered there will be some move made towards reorganization in the school. Chief Inspector Cowley and Inspector Ward are charged with the duty of reporting on relations existing between Mr. Morrison and his staff.

Principal Morrison has made no statement other than that he will accept the advice of his collectors, and may start a libel suit for damages.

**IMPERIAL MUNITIONS BOARD MERELY ORDERS**

No Control Over Working Conditions or the Internal Economy of the Plants.

In regard to the statements that munition manufacturers are employing enemy aliens, it was learned at the office of the imperial munitions board yesterday that that body merely acts as a purchasing agent and has no control over the working conditions or the men employed in any of the plants. This information was given by Mark Irish, M.L.A., a member of the board, in the absence of Sir Joseph Flavelle, who was in Ottawa.

One munition man claims that there are enemy aliens in every plant in the city and that all the orders for 18 pound shrapnel and high explosive shells are being discontinued on account of the cheap labor resulting in a poor product.

One of the Canadian General Electric officials stated that the government was to blame for lack of supervision over the movements of aliens.

"I do not know if there are any alien enemies working in munition plants or not, but they are working somewhere or starving, because they are not in jail," he said.

The government should either look them up or let them work. So far as he knew, there was no regulation against alien enemies except regarding registration. Beyond that they could

The munition manufacturers, when asked regarding the allegations, absolutely denied that they had any alien enemies in their employ and scouted the idea that 18 pound shell orders were being discontinued.

## Emerald Lake and Vicinity

EMERALD Lake is a forest of Heaven, in the vicinity of Field. It is a bit of Paradise and peddled around with tall, slender Jack pines, separated from the green waters by a red-brown path running all around, and now and then a mountain flower. Surely here the most troubled soul might rest in peace. Here, snuggled at the foot of the mountains and overlooking the beautiful lake the C. P. R. has planted one of its most popular chalets. The drive from Field Station to this real "emerald" is about nine miles through miles of pines. But a tourist's itinerary is an imperative thing and brooks no unpromised tarrying. There was the summit to be crossed and the Yoho Valley beyond with Takakkaw Falls, and trails permitting, the Waputek ice fields. Field is a railway divisional point. It will go down in history as such, for every person who mentions it makes this statement. But Field has greater things to its credit. It is the getting-off and the starting-off point for the Yoho Valley and the Waputek Ice Fields. Mt. Stephen, ten thousand four hundred odd feet, stands guard behind the town; Kicking Horse River runs past its front door, and Mt. Burgess beyond. The expenditure made by the Government in building roads through the Rocky Mountains is enormous. One has to see them, to travel over them, to realize what a gigantic task this road construction is. One may ask: "Why build roads in the mountains at all?" These bits of mountain scenery made accessible by means of roads and trails are the means of bringing thousands and thousands of tourists, both native and foreign, to the Rockies every year, and in the same ratio as the tourist traffic increases, the mountains become more valuable as a national asset. It is to encourage this traffic that the Government builds and extends the mountain roads and trails each year. Many a tourist lingers, loath to leave till he has covered every carriage road, trail and footpath, none of which are there by accident, much as one would like to think that a few at least were relics of the savage men of yesterday. The Government or the railways have had a hand in making them all, and without their efforts, even the most ambitious traveller would be deprived of much pleasure now to be enjoyed on a trip through the Canadian Rockies.

LABOR TROUBLE MONEY TIGHTNESS

"HARDY ANNUAL" AGAINST BOUANCY

Weakness in War Bonds Indication of Poor Present Investment Demand

The local brokerage firm of Kieley, Smith & Amos has received the following statement from Mr. Amos, who has been in the north country for many weeks and who is thoroughly conversant with conditions in the mining camps:

The labor situation in the north is gradually crystallizing, and within another three weeks it will again be a matter of fact. It is not surprising if it is cleaned up by this time next week.

There is a labor shortage there, no doubt whatever, but the chief cause is in unskilled labor, which is largely supplied from the foreign element, and seriously affects the Dome and Hollinger mines in Porcupine, as they employ about 500 mechanics each.

BAR SILVER HIGH STOCKS UNAFFECTED

R. E. Kemmerer, in his weekly market letter, says: A peculiarity of the present situation is the entire failure of the silver stocks to reflect the betterment in the market for the metal.

The market for the metal is in spite of the fact that the average price of silver for the past fortnight is higher than it has been for a quarter of a century.

McINTYRE LEADER IN ACTIVE MARKET

Six-Point Gain Registered for Day's Operations—Timisk.

It is curious how sentiment in the market changes. Last week about this time the professional traders could see nothing but stark staring ruin in the mine stocks, and any number of plausible arguments to prove that the mines better close down altogether could be had for the asking.

McIntyre was practically unchanged around \$3.65, Timiskaming in the silver group, made a new high since the middle of May, at \$2.42.

The report of a find was received of some importance, which proves that the No. 5 vein, which has been followed from the surface down to the one thousand-foot level, persists to at least a depth of 1250 feet, and at that point runs over \$20 to the ton against a depth of 22 feet.

Hollinger met some good buying, which caused a small recovery to \$3.67. Visonad made a fractional gain to \$3.34 and West Dome Consolidated was stronger at \$1.19.

In the silver group, with the quotation for the white metal only a fraction below the high record, Timiskaming on continued buying from New York sources made an advance to \$2.42.

Higher prices being talked for the No. 5 vein, Beaver turned stronger at \$2.22 and Crown Reserve at \$2.25.

McKinley-Darragh ran a new low of \$1.49 to \$1.48 to \$1.47. This stock appeared to be stronger during the general slump than it does now.

Peterson Lake recorded a new low of \$1.74. Great Northern duplicated this performance at 7-1-2. Renewed interest in Adanac has been aroused by the development at the property, where a drift is reported to contain a very promising condition. Hargraves was active at 10 3-4 to 11.

COTTON LETTER New York, June 22.—The market at the moment seems to be suffering from a scarcity of contracts for the next crop rather than a scarcity of actual cotton. This is evidenced by the gradual disappearance of the "red" premium. With a condition such as this prevailing it is difficult to formulate an opinion. Prices change rapidly, as is evidenced by the action of today's market. The announcement that the National Ginners would like to report the condition of the crop by individual reports showing an advance of improvement over the last month, created a demand for contracts and brought an advance of one cent a pound. Such a demand for contracts makes trading extremely hazardous, and the action of the New York Cotton Exchange in taking a position against trading on an important scale for outside interest will further intensify the present acute situation. There is no doubt that the present crop prices are a very narrow sized crop but in view of the present level of values, we do not think a firm opinion is justified.
