FORTY-SIXTH ANNUAL REPORT

OF THE

MONTREAL GENERAL HOSPITAL.

The Annual Meeting of the Corporation of the Montreal General Hospital was held in the Governor's Hall of the Institution on 19th May, when the Board of Governors presented the following report. In the absence of the President, Mr. Morland was called to the chair :

The Board of Governors of the Montreal General Hospital present their Annual Report to the Corporation of the Montreal General Hospital, with a concise statement of the receipts and expenditure of the Society, for the year ending 30th April, 1868.

The moneys received during the year have amounted to \$16,908.80, and may be thus enumerated :

Grant from Legislature of Province of Quebec.....	\$4000 00
Collections \$4678.31, and Donations, \$707.06, from citizens and others.....	5385 37
Interest, &c., on Permanent Fund	3630 56
Pay Patients	1889 50
Tonnage dues	773 88
Rents	612 80
Medical Students' Fees	460 00
Sale of Stores, \$48.69, and Material of old houses, \$36.....	84 69
Private Board, \$29.50, Lease of room, \$20.....	49 50
Left by deceased patients	22 50
	\$16,908 80

The expenditure of the year amounts to \$19,696.59. The details of the expenditure are given in the book for that purpose on the table; they may be thus classified :

New Furniture and Fittings	\$170 36
Interest Mr. Skakel's annuity \$560, Miss Barret \$33.34.....	593 34
Repairs \$1263.35, Insurance, \$203.22.....	1466 57
Salaries other than to Medical men.....	2533 84

Salary of House Surgeon.....	400 00
Medicine and Medical Comforts, (Liquors, &c.)	2559 17
Food (Bread, Meat, Milk, Vegetables, Groceries)	8422 78

Other Expenses (Fuel, Gas, Water, Special Assessment, &c.)	3135 37
	\$19,698 59
Add the deficit of last year.....	954 30
	\$20,650 89
Deduct receipts.....	16,908 80
	\$3742 09

It will thus be evident that the income falls short of the expenditure by the large sum of \$3742.09.

In view of the steadily increasing expenditure of the Hospital, and the failure of the income to meet it, the Board feels much solicitude as to the possibility of maintaining the efficiency of the Institution, and earnestly appeals to the citizens to come forward with liberal donations to the endowment fund, that a permanently reliable and adequate source of revenue may be secured.

We have again to report a considerable increase in the number of both in-door and out-door patients administered to by the society in the past year over that of the preceding year; a circumstance which accounts for a large proportion of the extra expenditure of the Institution during the year; although the augmented value of servants' labour, of edibles of all kinds, and of fuel, has had much to do with the heavy outlay of the year.

The number of in-door patients treated in the wards during the year has been one thousand four hundred and seventeen, (1417), an increase of seventy-nine (79) over that of the preceding year; and eight thousand four hundred and nineteen (8419) out-door patients have received medical advice and medicine during the same period, an increase of three hundred and ninety-eight (398) over the number of the preceding-year.

In looking over the list of diseases from which the patients have suffered, it is pleasing to note that the number of examples of diarrhæa and

typhoid fever treated during the year is not more than half the number admitted in the preceding year; although a similar diminution has not been observed in the case of dysentery.

On the other hand, that loathsome disease, small-pox, has been unduly prevalent during this winter, and fifty-seven (57) subjects of that disease have been treated during the year, against twenty-one (21) in the preceding year. In a few instances the disease spread from the small pox wards to the patients in the general wards.

With the view of meeting an important public want in this large city, the Board, at the last annual meeting of the Corporation, announced its intention of erecting a building for the reception of small-pox and other contagious diseases; so that the unfortunate victims of those maladies might obtain the care and attention the serious nature of their complaints required, while at the same time the citizens generally might be saved as much as possible from exposure to those dangerous diseases, the infectious fevers. The Board has now the pleasure of reporting that the Fever Hospital is completed, and will be ready in a few days for the reception of patients. It contains two public wards capable of accommodating forty patients, and several private wards for persons whose means may enable them to pay for the convenience and comfort of good nursing and isolation from their friends, when suffering from contagious disease.

The cost of the erection of this building has been defrayed from the "permanent fund" of the Society, with the exception of the munificent sum of \$5,000 contributed for that purpose by Wm. Molson, Esq., and nothing but the urgent need of such a refuge for the sick would have induced the governors to have touched that fund; and they feel confident that when the citizens are called on for subscriptions to restore to that fund the money so expended—and they will be called upon during the summer—they shall not only subscribe enough to pay for the building, but do something towards creating an endowment for its yearly maintenance.

Several important improvements in the Hospital have been effected during the past year. The old operating room, which was very defective, has been rendered much more capacious and convenient by an entire alteration in the arrangement of the seats, by enlarging the sky-light and introducing hot and cold water into the room. A complete system of pipes for heating the entire building by steam has been introduced into the Hospital, in connection with the apparatus just placed in the Fever Hospital, and it is supplied by the same furnace.

The old buildings which recently occupied the now vacant ground opposite the Hospital and fronting upon Dorchester and St. Dominique Streets, have been removed, and a new fence has been put up about this

valuable property, which now secures to the institution the advantage of a large open square.

The following donations to the "Endowment Fund" have been received during the year:

Bequest of the late Thomas Cringan, Esq., paid by the Executors....	\$1000 00
Grand Trunk Railway, per C. J. Brydges, Esq.	400 00
