CURRIE SEES PROSPERITY FOR MARITIMES

FEDERAL CONTROL OF HARBOR FAVORED BY M'GILL PRESIDENT

Dawn of New Era of Contentment Foretold for Atlantic Provinces in Special Interview Here Today

URGES UNITY AMONG ALL CANADIANS

Former Canadian Corps' Commander Pays Tribute to Maritime Men Who Contributed to Success of the University at Montreal

A NEW era of prosperity, happiness and contentment for the Maritime Provinces was predicted this morning by General Sir Arthur Currie, president of McGill University and former commander of the Canadian Corps in France. In an interview with a Times-Star reporter, Sir Arthur discussed Maritime problems and their possible remedies, expressing the opinion that it would be to the advantage of all, as Canadians, they ceased to talk of the failure of Confederation, and sought to remove the difficulties which were nearer to hand. He also touched on the matter of the nationalization of Saint John Harbor, feeling that this would bring added prosperity and trade to the port, and wondered why it had not been adopted before. Sir Arthur paid a tribute to the Maritime men who had contributed to the success of McGill University.

"The McGill University owes much to the Maritime Provinces," said General Currie. "Not only the history of the University but the number of professors who were created in the Maritimes, and it is, therefore, natural that I am glad to be today in this old Maritime town for its loyal traditions and for its high-minded men and women."

TALKS OF MARITIMES.
During the last few years, Sir Arthur continued, there has been a growing feeling in the Maritimes that prosperity which is alleged to exist in other parts of Canada has completely passed by this section of the country. He declared that throughout the Dominion there was a belief that in the Maritimes there was much discontent and unrest and he understood that in this section there was a feeling that Confederation was a failure.

While not desiring to enter into a discussion on a controversial subject, he felt that, as an outsider, he might be thought presumptuous in expressing his views on the difficulties of the eastern province. "It would seem to be somewhat useless," he said, "to discuss Confederation as the cause of Maritime difficulties, which have existed here whether or not Confederation had been a dream of our forefathers. It is surely not by the breaking of Confederation that your problem can be solved."

CAN SOLVE PROBLEMS.
"I have never met a man who did not feel that all your difficulties are capable of removal within the four corners of Canada and within the policies of the Dominion. I think it would be to our advantage if, as Canadians, we ceased to talk about the failure of Confederation and sought to remove causes of difficulties, which are obvious to all."

The making of Canada, he continued, has been a huge undertaking and the fact that it has endured for 60 years was a justification of the faith of our ancestors.

He admitted that the prosperity in these provinces, doubtless had not kept pace with that of the rest of Canada, nor had immigration or population kept pace with those in the newer provinces. He felt that this was natural in older and more settled communities and must not be exaggerated as an evidence of decay.

But there were, in his opinion, other conditions that were capable of remedy. He thought it possible that subsidies, as already fixed, should not be regarded as final in their amounts, and that this could be adjusted amicably, if such adjustment would mean contentment and a more united Canada.

FREIGHT RATES.
Another complaint, he understood, was the greatly-increased freight rates since pre-war days, which allowed the manufacturers of central Canada to unload their goods here and buy nothing in return. He referred to the old L. C. R. being 230 miles longer than necessary, built that way for strategic reasons, but resulting in a longer haul and a higher rate for the Maritime producer. He felt that if this extra charge were borne by all Canada, without diminishing the value of which was about 12 per cent. of that in all Canada. He felt

CANADIAN PARLIAMENT TO OPEN DEC. 9

Visions Prosperity

SPEAKER WILL BE SELECTED ON NEXT DAY
Acting Premier Robb Makes Formal Announcement
BUSY SESSION
Hopes to Dispose of Speech From the Throne in One Day; Other Plans

OTTAWA, Nov. 11.—Parliament will be opened on Dec. 9, Hon. J. A. Robb, acting prime minister, announced last night at the conclusion of a meeting of the cabinet.

After the formal opening of the Commons will proceed to the election of a speaker on Friday, December 10. There will be an adjournment until Monday, Dec. 13.

"The government hopes," said Mr. Robb, "that with the cooperation of the official opposition, the Speech From the Throne will be disposed of in one day. Then the estimates and supplementary estimates will be taken up, just as they were last year."

REASSEMBLE IN JANUARY
Mr. Robb expressed the hope that considerable business could be accomplished before the Christmas recess. After the adjournment of Parliament, he said, it is unlikely that Parliament will reassemble before the end of January.

COOLIDGE URGES CONSCRIPTION OF WEALTH IN WAR
President Says U. S. to Stand by Senate Reservations

KANSAS CITY, Mo., Nov. 11.—President Coolidge served formal notice here today that the United States would adhere to the world court only on the conditions laid down by the Senate.

The position of the chief executive, who from the first of his administration had urged United States membership in the court, was made clear in an Armistice Day speech in which he discussed world problems and called for the conscription of capital as well as man in time of war.

DEDICATES MEMORIAL.
The address was in dedication of the Liberty Memorial, erected by the people of this city, in memory of its citizens who served in the Great War. Delivered at the hour when eight years of the armistice went into effect, it was devoted to a discussion of problems arising out of the war with a restating of the position of the Washington Government, on many questions of world interest while mention was made of national antagonisms against this country.

Referring to the world court, the president said: "While the nations involved cannot yet be said to have made a final determination and from most of them no answer has been received, many of them have indicated that they are unwilling to concur in the conditions adopted by the resolutions of the senate. While no final decision can be made by our government until final answers are received, the situation has been sufficiently developed so that I feel warranted in saying that I do not intend to ask the Senate to modify its position. I do not believe the Senate would take favorable action on any such proposal, and unless the requirements of the Senate resolution are met by the other interested nations, I can see no prospect of this country adhering to the court."

LEVY ON CAPITAL.
In speaking of conscription, Mr. Coolidge said that it is more and more becoming the conviction of students of adequate defence, that in time of national peril the government should be clothed with authority to call into its service all of its man power and all of its property under such terms as I do not believe the Senate would take favorable action on any such proposal, and unless the requirements of the Senate resolution are met by the other interested nations, I can see no prospect of this country adhering to the court."

2 NEW ATTORNEYS
D. W. Wallace and F. C. L. Compton Admitted to Bar

Special to The Times-Star.
FREDERICTON, Nov. 11.—Two attorneys were admitted before the Supreme Court this morning on the motion of Dr. F. R. Taylor, K. C., president of the Barriers' Society. They are Dyon W. Wallace, of Fredericton, and F. C. Lowell Compton, of Summerside, P. E. I., who was articulated in Saint John.

When eleven o'clock struck, on the invitation of Chief Justice Sir Douglas Hazen, all present stood and the two minutes of silence was observed in recognition of the sacrifice made by those who had lost their lives in the great war.

LACK OF BRITISH POLICY TOWARD CANTON GOVERNMENT ATTACKED

WORLD TRADE WAS BADLY HIT BY WAR

NEW YORK, N. Y., Nov. 11.—The world has fallen short by more than \$20,000,000,000 of the total of merchandise exports it would have added to international trade if it had not been for the war, according to estimates contained in an "Armistice Day Accounting" issued by the National Foreign Trade Council.

The world only succeeded last year in getting back to a 1913 basis, for the first time since the war. These nations had an export trade in 1913 valued at \$19,426,000,000. Last year the figure was \$29,970,000,000 but at 1913 buying power this only amounts to \$19,950,000,000.

To meet the setback caused by the war, it was said, world trade has accelerated its pace and for the last three years the advance has been more than 10 per cent. annually. Even at this rate, however, it will take 30 years to make up for what has been lost.

TALK OF ANOTHER ROYAL MARRIAGE

Names of Belgian Princess and Crown Prince of Norway Are Linked

BRUSSELS, Belgium, Nov. 11.—Hardly had the ink dried on the marriage register which Crown Prince Leopold and Princess Astrid of Sweden signed yesterday, when there came talk of another possible royal wedding between Belgium's Princess Marie-Jose and Crown Prince Olaf of Norway.

Marie-Jose is 20 years old, and Olaf three years her senior. Court officials as it is their wont, deny that a marriage is contemplated between the son of King Haakon and King Albert's only daughter, but they denied that Prince Leopold and Princess Astrid were to be married until a few weeks ago. Therefore aristocratic circles in Brussels are confident that they will get invitations to a second wedding next spring.

Russia Seeks Formation of League of Asiatic Nations

MOSCOW, Russia, Nov. 11.—George Tchitcherin, Soviet Minister of Foreign Affairs, is proceeding to Odessa to meet Tewfik Bey, the Turkish Foreign Minister, who will arrive there in a few days aboard a Turkish warship. M. Tchitcherin will discuss Russian and Turkish relations generally with Tewfik Bey. It is believed he also will touch on a possible alliance between Turkey, Afghanistan, Persia and Soviet Russia as a sort of Asiatic League to offset the Locarno Treaties and the League of Nations.

The Soviet Union already has treaties of neutrality and friendship with Turkey and Afghanistan, and has been striving for a long time to conclude a similar pact with Persia.

TRULY IMPERIAL CEREMONY AT LONDON TODAY

His Majesty Places Wreath on Cenotaph With Many There

SILENCE IS KEPT

Business Places Throughout Canada Join in Armistice Celebration

By HERBERT BAILEY
British United Press
LONDON, Nov. 11.—It was a truly imperial ceremony that took place at the Cenotaph today, when His Majesty King George placed a wreath there and the two minutes silence was observed with even greater reverence and impressiveness than in bygone years. All the Dominion Premiers, including General Hertzog, were present, with Premier Mackenzie King heading them, as representing the senior Dominion of the Empire.

The ceremony still retains a magical hold on the hearts and minds of the British people and the presence of the Dominion Premiers this year gave it a sense of Empire unity that it had not known since the end of the war.

MEMORIALS DRAPED.
The cenotaphs and other memorials which dot this country, are draped in the flags of the Empire, and piled high with wreaths by those who will never forget.

MIDNIGHT CEREMONY.
Residents of Toronto who were returning to their homes at an early hour this morning were enabled to witness a very impressive ceremony, as the clock on City Hall struck midnight. A large number of white-robed representatives of the Most Noble Order of Crosses, composed of ex-service men, trooped solemnly down the City Hall steps to place a wreath on the cenotaph. Many of the comrades who sleep in France and Flanders. The ceremony opened with the playing of the national anthem, silence, recitelle, and the laying of the wreath by the abbot of the grand convent, Rev. Canon Baynes-Red.

Col. W. Pink, grand master of Saskatchewan, was present at the ceremony. The unknown soldier is perpetual grand master of the organization.

PROTEST REVISION OF FREIGHT RATES

Montreal Board of Trade Sees Danger in Tampering With Structure

MONTREAL, Que., Nov. 11.—Danger of tampering with railway freight rates was the keynote of a report made by a special committee of the Board of Trade Transportation Bureau which has been studying the question and which reported yesterday at the weekly meeting of the council of the Board of Trade.

The committee recommended that the council make formal representation to the Board of Railway Commissioners, emphasizing the danger of upsetting a rate structure built up over a long period of years, under which the natural resources and industries of the star sections of the country have been developed. The committee points out that changes in railway rates should in the future be made, as they have been in the past, only for the purpose of developing to the greatest possible degree the existing potential resources of the Dominion, both in natural products and manufactured goods, and that such changes should in all cases be designed to add to our prosperity by way of wealth, employment and population and to conserve the revenues of the railways. The report was unanimously approved of, and representations will be made to the Board of Railway Commissioners.

SAINT JOHN CASES

Two Appeals Heard at Fredericton Today

FREDERICTON, Nov. 11.—In the Supreme Court this morning the Saint John appeal, Richard Walsh vs. Dr. G. B. Peat, the latter the appellant, case concerned the collision of two cars in the street. Another Saint John case was begun, Guilford vs. McAvity & Sons, Limited. A widow washer fell while at his work and brought action against McAvity & Sons, Limited. The plaintiff is appealing from a verdict in favor of the defendant. D. Mullin, K. C., opened the appeal for the plaintiffs.

Letters To The Editor

THE AUDIT QUESTION.

Editor Times-Star: Sir.—Mayor White's "surprise was exceeded by that of the Citizens' Committee upon reading 'The Morning Telegraph'.

In language purposely involved His Worship seeks to convey the impression that no agreement had been reached between himself and the Citizens' Committee through the Board of Trade.

On Wednesday, Nov. 3rd, I was informed by the Board of Trade that a satisfactory agreement had been reached in the Board of Trade rooms in my presence the secretary of the board gave the reporter the statement which appeared in the Times-Star that night as follows: "The Board of Trade announced this morning that it had been authorized to state that the Mayor was agreeable to a second or a continuing audit of civic accounts after the report of Dr. Horace L. Brittain had been presented to the Council, such audit to be conducted by any highly reputable firm of chartered accountants which would meet with the approval of the petitioners."

The Mayor now returns and denies the whole matter. What answer did he make to the Board of Trade when their representatives called upon him and showed him the necessity of yielding to the request of the 3,000 taxpayers? Perhaps he will tell us just what he did say?

It is childish in the extreme for the Mayor to try to bolster up his stand. He has been wrong throughout. Wrong in his contemptuous reception of the petition signed by 3,000 taxpayers (probably the most numerous signature petition ever presented in Saint John). Wrong in his high handed attempt to force his own views and plans as against the expressed wish of the petitioners, and wrong in backing and filling as he has done in an unsuccessful effort to save his face.

As to the expense of the independent audit and investigation asked by the Citizens' petition, the Mayor fears it may cost \$40,000. Perhaps so, if he and Dr. Brittain should select the representative of Scott & Co. tried to see the Mayor before an arrangement had been concluded with Dr. Brittain, but the Mayor refused to see him or listen to what he had to say. This fact was laid before the Citizens' Committee and the representative of Scott & Co. stated that they would do the work called for by the taxpayers' petition for the sum of \$10,000—this has been repeatedly stated in the press.

Does the Mayor forget this also? There is no doubt that those who signed the petition, and their sympathizers and friends, will be ready to go with the real deal. It is very clear that there is more necessity for a change at City Hall than anyone imagined in the beginning.

that while the industry had declined somewhat in recent years, a revival was bound to come.

"TOO MUCH IMPORTATION" "A surprising thing to me," observed Sir Arthur, "is that last year the Maritime Provinces imported over \$15,000,000 worth of food, which seemed to him to indicate a condition which, if the agriculturist would take advantage of the home market, the visitor urged a more sympathetic consideration of each other's problems in the different parts of Canada.

Turning to the matter of Saint John harbor, Sir Arthur felt that the making of the port a national one under a harbor commission, as in Montreal, would increase the trade and prosperity of the port, and he wondered that such a plan had never been carried out here.

"I am sure, if I read their feelings aright, that the other parts of Canada look upon your problems with the utmost sympathy and that any reasonable suggestion for their improvement will receive their hearty support. What we all desire is happiness as a country."

WINTER SERVICE FOR THIS PORT TO BE INCREASED

C. G. M. M. to Have 10-Day Sailings Instead of Fortnightly

MONTREAL, Nov. 10.—Canada's national fleet, the Canadian Government Merchant Marine, is to have an augmented winter service during the coming winter, and extension is being made to include both Halifax and Saint John on the Canada-London-Antwerp and the Canada-Cardiff-Swansea routes.

Whereas a two-weekly service was operated to London and Antwerp last winter, there will be a ten-day service commencing with the departure of the Canadian Trapper from Saint John on Dec. 6, to these two ports during the next five months. This continues the present St. Lawrence schedule to London and Antwerp, which has called for one sailing every ten days.

On the westbound trip there will be no call at Halifax, this being arranged solely for the eastbound in order to provide increased accommodation for Canadian produce going to Europe, such as apples from Nova Scotia. The vessels to be employed on this route will be: The Canadian Trapper, Canadian Raider, Canadian Raveler, Canadian Aviator and Canadian Hunter.

CARDIFF-SWANSEA ROUTE

With the exception of the inclusion of Halifax, as a port of call eastbound, the Canada-Cardiff-Swansea winter service will be the same as last winter, which provided for a sailing every two weeks. The Canadian Mariner, Canadian Victor, Canadian Conqueror and Canadian Leader will be employed on this route.

In order to provide a fortnightly service to the West Indies, the Canadian Government Merchant Marine has arranged to place four of its 4,200 ton type of steamer on a regular route from Saint John to Halifax to the West Indies and back to Saint John. The Canadian Beaver and Canadian Gunner, which have been utilized all summer from Halifax and Saint John to the West Indies in conjunction with the R. M. S. P. steamers Chicomote and Chelona, the latter company took off two of their ships, will be laid off for the winter months.

LARGER BOATS TO BE RUN

The Canadian Squatter, Canadian Carrier, Canadian Volunteer and Canadian Runner, which are the four to be operated on the route, are 700 tons larger than the Canadian Beaver and Canadian Gunner and will provide a service between this country and Bermuda, St. Kitts, Antigua, Montserrat, Dominica, St. Lucia, Barbados, St. Vincent, Grenada, Trinidad and Demerara. In addition to these islands and ports the C. G. M. M. steamers leaving Saint John and Halifax at the beginning of each month will call at Antigonish, southbound, and should sufficient cargo be offering, will also call at the other French port of Martinique. The Canadian Runner, from Halifax on Nov. 24, and the Canadian Squatter from Saint John on Dec. 8, will inaugurate this service. As heretofore the Canadian Fisher and Canadian Forester will operate the passenger and freight service between Halifax, Bermuda, Nassau, the Bahamas, Kingston, Jamaica and Belize, British Honduras.

This will commence the departure of the Canadian Fisher from the Nova Scotia port on Dec. 18, a sailing taking place at three-weekly intervals thereafter.

There will be two sailings next month from Halifax to Australia, the Canadian Miller sailing on Dec. 7 and the Canadian Constructor on Dec. 28, calls being made at Brisbane, Sydney, Melbourne and Adelaide.

INTERCOASTAL SERVICE

The intercoastal service is to provide for monthly sailings between Halifax and the Pacific coast ports of Vancouver and Victoria, cargo being carried for Jamaica, if sufficient is offering. There will be six westbound sailings in this service, provided by the Canadian Trapper, Canadian Highlander, Canadian Skirmisher and Canadian Freighter. Four eastbound sailings to Halifax from Vancouver and four to the west coast of United Kingdom depart from Vancouver have been arranged. Weekly sailings between Vancouver and Californian ports in the Pacific coastal service have been arranged.

IS INSTALLED.

KINGSTON, Ont., Nov. 11.—The installation of Rev. Dr. H. A. Kent, formerly of Halifax, as principal of Queen's Theological College, took place in Convocation Hall today, with Rev. R. M. Hamilton, moderator of the Kingston Presbytery of the United Church, presiding.

Marie May Be Heard By King Ferdinand

HASTINGS, Neb., Nov. 11.—If Queen Marie of Rumania consents to address during her ten minute stopover here today, officials of radio station KFKX will attempt to transmit the speech to King Ferdinand at Bucharest. The station through a hookup with an eastern station, has been reaching Europe regularly and radio engineers here believe there is a good chance for the king to hear the queen's voice, sent from the middle of North America. The radio microphone would be placed on the observation platform of the royal train.

Urges High Ideals For The Newspapers

FRENCH LICK, Ind., Nov. 11.—Urging publishers of North America's newspapers to keep their devotion to the welfare of the community and nation above desire for selfish profits, John Stewart Bryan, of Richmond, Va., president of the American Newspaper Publishers' Association, yesterday opened that body's second annual autumn meeting here. "Publishers are measured by leadership, not lineage; by courage, not circulation," President Bryan declared.

"Advertising the revenue producer," and "Revenue from classified advertising" were phrases of newspaper publishing discussed by the assembled publishers yesterday, following speeches on those subjects by Edwin S. Friendly, New York Sun.

CONVICT CAPTURED.

COLUMBUS, Ohio, Nov. 11.—Oliver Glaspy, Athens county, one of the thirteen prisoners who broke out of Ohio penitentiary Monday afternoon, was arrested last night in Grovesport, Ohio, near here. He is the last of the thirteen to be returned to prison. Glaspy, who was serving a 20-year sentence for criminal attack, was recognized when he asked for something to eat tonight at a Grovesport residence.

have discarded old hygienic methods for this new way—true protection—discards like tissue

When the world started expecting more of women, the old-time "sanitary pad" had to go. Doctors urge a new way. Millions employ it. You wear sheestest frocks without a second thought, any time, anywhere. You meet every day unhandicapped.

It is called "KOTEX" . . . five times as absorbent as the ordinary cotton pad! Thoroughly deodorizes . . . thus ending ALL fear of offending. Discards as easily as a piece of tissue. No laundry. No embarrassment. You ask for it without hesitancy simply by saying "KOTEX," at any drug or department store. Costs only a few cents. Proves old ways an unnecessary risk.

Gloucester Boat Hits Reef in Fog But 18 Are Saved

YARMOUTH, Nov. 10.—The large Gloucester, Mass., fresh haddock fish boat, Capt. Freeman Crowell, which left port 12 days ago for Western Banks, now lies a submerged wreck near what is known to the hardy fishermen as the southwest breakers, off the coast of Shelburne, N. S., and about midway between Red Head and Cape Negro Island.

The vessel struck about 6:30 last evening when the schooner was bound from Western Banks to Boston and

PRINCE GEORGE EXPECTED HERE

King's Son Due to Sail for England From Saint John

VANCOUVER, B. C., Nov. 10.—Prince George, the King's youngest son, who is returning to London from Hong-Kong and will travel across Canada according to word received here, will leave Hong-Kong tomorrow aboard the Canadian Pacific liner Empress of Russia. The line is due to arrive at Vancouver on the evening of Nov. 29. After a few hours stay here, the Prince will proceed east, sailing from Saint John, N. B. for Liverpool on Dec. 7 aboard the liner Mountroyal, it is said.

STRUCK REEF

The vessel struck the reef, foundered and sank almost immediately, the men barely escaping and saving only what they had on. They made a landing by the aid of their dories at Red Head, drove to Greenwood, Shelburne county, where today they boarded the C. N. express and came to Yarmouth, reporting to United States Consul Wilson, who is caring for them, and on Friday will forward them to their homes in Gloucester.

CREW OF 18 ESCAPE

The Hejls Silva was a fine vessel and one of the largest of the Gloucester fresh haddock fleet, being 140 tons. The vessel carried a crew of 18 men all told, all of whom escaped without injury.

ANNOUNCING THE PIECES OF 8 CHEST

Captain Youngwife finds the Chest of her fondest Quest

ANNIVERSARY PATTERN

She sailed and sailed the shopping seas . . . hoping some day to find it. But always the treasure eluded her. "Sixes" and "twelves" were everywhere. But never a set of "eights".

"Twelve is too many", she sadly sighed, "for my normal table needs. And six doesn't provide a spare or two for the unexpected guest."

But time and tides are kindly to Captains fair and patient. In a gorgeous chest, she beheld, one day, her long-sought "PIECES OF EIGHT". Eight of each, instead of the usual sixes or twelves, in hollow handle dessert knives with stainless steel blades, dessert forks, dessert spoons, tea spoons, a sugar shell and a butter knife . . . in any of the famous 1847 Rogers Bros. patterns . . . including the Ambassador—Anniversary—Ancient—and the new Anaxor.

And now all voyagers on the shopping seas may share this selfsame treasure. For the new PIECES OF EIGHT Set in 1847 ROGERS BROS. Silverplate is now being featured at THE SILVERWARE SHOW holding sway this month at the stores of all good silverware dealers.

APOHAQUI, Nov. 10.—Thanksgiving services were held in the various churches on Sunday, the evening service in the United Church being of special significance, when the church was crowded to the doors. The pastor, Rev. W. A. Wood, B. A., preached a Thanksgiving sermon and in conclusion made special mention of "Armistice Day" and all it stood for, after which the choir sang "Lead Me Not".

SAINT JOHN, N. B., NOVEMBER 11, 1926.

AMISTICE DAY

MEMORIES of love and friendship, hope and faith, joy and sorrow come trooping up on this day of days in Empire and world history.

Looking forward to the brighter era, men and women also look backward with a thought for those for whom there will be no tomorrow.

A million dead, scattered over land and sea in every clime, are the price the Empire paid for this day.

Yet it was worth the sacrifice gladly made by young and ardent souls who counted not the cost.

Canada made her contribution, and won her share of undying glory in the great struggle for the right.

From city and town and countryside her sons went forth, true to their traditions, following the king's bugles, eager to prove their devotion to the flag.

We think of them today, and realize how splendid was their sacrifice. Not theirs alone—

for many a hope lies buried with them—and many a heart aches with a great loneliness because they may not come again to the old familiar places.

Yet we rejoice today that the task they set out to perform has been accomplished, and a shaken world is readjusting itself hopefully to conditions which should make for peace and progress.

British Empire came through the ordeal more firmly united, and faces the future with a confidence born of common effort and a common triumph.

It is but fitting that on this day of remembrance the people should be reminded of their obligations to the disabled veterans of the Great War.

It is so easy to forget. These men do not find it easy to adjust themselves to peace conditions, because they bear the scars of the great conflict.

They and their families have a valid claim upon the sympathy and aid of all those in whose behalf they bore the brunt of war.

It is a source of the highest satisfaction that since the last observance of Armistice Day the situation in Europe has vastly improved.

Premier Baldwin reminds us that much of the improvement in international relations is due to the League of Nations, and this is another incentive to effort in enlarging the membership of branches of the League throughout the world.

There are still many clouds to be dispersed, misunderstandings removed, and a coming to the better mind on the part of people and of nations. The world may witness other wars, but if it does the cause will lie in a wrong interpretation of the lessons burned into the consciousness of so many people of today by the last great conflict.

Saint John, in common with all Canada, remembers the hell of July that came with the news of the armistice that ended the war.

OUR NEW MINISTER

HON. VINCENT MASSEY has been appointed Canadian Minister to Washington. The people of New Brunswick are interested in this appointment, because Mrs. Massey is a daughter of the late Sir George Parkin.

Mr. Massey himself is well informed regarding the situation in the Maritime Provinces. Early last year he sat in at a long conference in the Board of Trade, Toronto, when the case for the Maritimes was presented and discussed from all angles by leading business men of that city.

In his public addresses Mr. Massey has pleaded strongly for unity in Canada, through a better understanding among the people representing the different geographical divisions.

The new minister is highly educated, is a patron of education and the arts, has been president of a great manufacturing company, and was for a brief time a member without portfolio in the Government of Canada.

He is, therefore, well equipped as a representative of the Dominion at Washington, and, since we are to have a minister at the American capital, his appointment will be well received by all Canadians.

Dr. W. E. Lingelbach of the University of Pennsylvania predicts that "in a few years we will see the universal use of the English language."

It may come quicker than that. Aeronautics has shown the paramount necessity of one universal language and, with English already so widespread, it is possible that our mother tongue will be adopted by all.

Various attempts to counteract the curse of Babel have been made, but without great success. Neither Esperanto nor Volapuk has achieved any degree of popularity.

Ceremony in Memory of One Million Dead

(London Cor. Toronto Telegram)

AN IMPRESSIVE and historic scene and one of the present generation will never see again, took place on Oct. 19 in the dim and solemn cloisters of Westminster Abbey.

It was the first act of the Cabinet, a few detachments of wounded soldiers wearing medals, and especially invited guests. It was not a respectful occasion, but a deeply religious and fervent one.

As the Prince of Wales, speaking in his clear-cut voice, unveiled the tablet to the million men of the Empire who lost their lives in the Great War, and the light filtering through the stained windows of the Abbey mingled with the soft glow of the lamps, fell upon the representatives of the Empire grouped about, one could not help but wonder whether the work of the dead will be undone by the politicians.

Among the more interesting and beneficial species, the red-shouldered hawk, stands high in the list. He should be called the singing hawk, especially in the nesting season, for singing is then his most characteristic attribute.

It is his custom to return each spring to the scene of his last year's nesting, usually some grove of lily trees commanding a fruitful hunting ground.

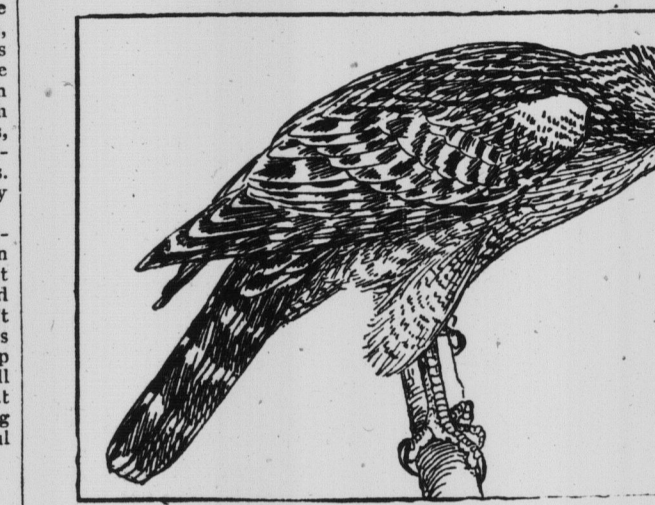

High in the air he circles, uttering his screaming notes, some of which are so like those of the bluejay that the less discerning of that tribe must often be deceived.

Suddenly he swoops toward earth, now varying his repertoire with a medley of music. Again he mounts and circles and dives and suddenly perches beside the home of last year, his wings a-flutter, his throat tremulous with his serenade.

What lady could resist such art? Ode, written at the time of the World's Fair. I like her best in simpler moods. These lines are more than merely graceful; they reach the peaks of song, and have the authority and beauty of real poetry.

Queer Quirks of Nature

A GOOD MEMBER OF A BAD FAMILY

By ARTHUR N. PACK IT IS the present custom to regard all hawks as destructive, and birds to be destroyed whenever possible.

General condemnation of hawks is unjust. A few hawks are destructive; some have habits that are mainly beneficial, and some are entirely friendly to man.

ECONOMIC UNITY OF THE EMPIRE

(Vancouver Sun)

IN AN editorial article called to this country, the London Morning Post says that the appointment of a Canadian ambassador to Washington, may necessitate the entire revision of the Empire's foreign policy.

If this appointment brings about such a revision, it will prove a double blessing. It will not only make United States politically conscious of Canada, but it will awaken Great Britain to the economic needs of the whole Empire rather than simply the political needs of the United Kingdom.

For years the British dominions, lying in corners of the globe, have been conscious of the fact that the foreign relations of the Empire could hardly be always coincidental. They have conceived of a situation wherein the commercial interests of Britain might be directly opposed to the commercial interests of Australia, for instance.

If this Canadian ambassadorship does nothing more than force that conception to the attention of Britain, it will have accomplished a great deal.

EMPIRE RELATIONS

(Hon. Mackenzie King at Imperial Conference)

"THROUGH this unprecedented experiment in world organization which we call the Commonwealth or Community of British Nations, one-fourth of the world's peoples are linked in friendship and in peace. It is inevitable, simply because of the great experiment in world organization, that sometimes we find difficulty in making foreign countries understand our position, or in wholly understanding it ourselves. But perhaps in the next few weeks we may be able to explore methods for a clearer understanding of our political relationships, including the problem of foreign policy in its several aspects, and methods as well for closer co-operation in economic matters and fuller utilization of the challenging opportunity the Commonwealth presents to each and all of its members. It will then remain to bring such outcome before the several governments we represent, and in some cases before our parliaments and peoples."

CANADA AND THE WORLD

(Vancouver Province)

CANADA'S budget is a reminder that we are concerned with foreign policy. We cannot escape this concern by hiding our heads in the sand and pretending the affairs of the balance of the world are none of ours. The only sensible thing would appear to be to take an intelligent interest in the situation and do what we can to direct it according to our wishes.

UNCLE SAM'S FUNNY POLITICS

(Winnipeg Free Press)

FRANK R. KENT, political correspondent of the Baltimore Sun, says that the leaders of both political parties in the United States would be laughed off the stage if the electorate had any sense of humor. Were these leaders able to appreciate a humorous situation, they would, in his opinion, laugh at themselves!

EMPIRE AIR POLICY

(Vancouver Sun)

IT IS important that the Empire should embark on an air development policy. It is just as important that United States should be invited to participate in the development that will arise from that policy. Great Britain for decades has guaranteed the freedom of the seas. The Empire and United States together can guarantee the freedom of the air.

The Soldiers' Monument

King Square, Saint John, N. B., Armistice Day, November 11, 1926.

You who pass by—pause—and with upturned face gaze here upon this monument of memory. And think of those our lads—sons of a noble race Men of a Loyalist breed—fighting for liberty.

We do not need their names emblazoned here. In letters bold, to tell us of their worth. For in their hearts enshrined, we hold their memory dear.

Friends and sons—smiling they said "Good-bye" Friends, sweethearts, fathers—proudly we saw them go. We do not hold them back—their was a standard high. Ah! but the aching void, none but our hearts can know.

Nobly they fought—dangers they never knew. Comrades supporting them, doing what they would do. Fill up the broken ranks, going where they would go.

Then, when their work was done—worn with their fight—Laid they their burdens down, feeling within their soul. The flag they loved so well, standing for truth and right. Would still uplifted be—on towards the longed for goal.

Have we forgotten them, those who have gone sleeping there scarce a people's low "neath foreign soil. Dying that we might live—bidding us "carry on" Looking for no reward, save that of honest toil?

Let us thus honor them as years roll on. Let us at the price they paid striving to keep us free. Was not a bitter loss for them—those who have gone. That was the sacrifice—ours all the liberty.

Lame If It Does Not

(Boston Post)

A DOORN newspaper man sends to a London newspaper a statement that he is sure William Hohenzollern, former German Emperor, is determined to go back to the Fatherland next July, when the law excluding him expires. He also says the wife of the ex-Kaiser is in Germany making arrangements for her husband to reside at Hombrugg.

This is interesting, whether true or not—and it has an air of probability. It is known that William chafes in his Dutch exile, that he longs for home; that he still cherishes the hope that he may return to power. However foolish that may seem to the rest of the world, he feels that way about it. But it is certain that the German people as a whole do not want him to lose their respect when he is skedaddled from the army into Holland, and besides the republic is working well and the royalty idea is dying out.

TRADE IN BOGUS MANUSCRIPTS IS EXTENSIVE ONE

Many Forgeries of Works by Noted Authors Being Sold

LONDON, Nov. 11.—Collectors and bookshelves in this country, on the Continent, and in America, have been greatly concerned for some time about the large number of manuscripts now being offered which their owners claim to be original works by eminent authors, especially Shelley, Anatole France, Rudyard Kipling and W. H. Hudson. These documents seem to come from a common source which evidence locates somewhere in Paris, and there is no doubt that most of them are forgeries.

FAKE SIGNATURES

Signatures also are counterfeited in this way. A copy of, say, the first edition of the Eighteenth Century poem is procured and the signature of George Washington is forged on the page of fly-leaf and "tacked" to a resemblance of age. With the volume with its new mark of association is sent across the Atlantic and sold for an exorbitant sum.

MASSEY NAMED U.S. MINISTER

Formal Appointment Reached by Cabinet Sitting Yesterday

OTTAWA, Nov. 10.—Hon. Vincent Massey was appointed Canadian minister to Washington by an order-in-council passed by the cabinet this afternoon. The announcement was made by Hon. J. A. Robb, acting prime minister, to a group of newspaper men early this evening. Mr. Massey is in England at the present time with Premier King attending the Imperial conference in an unofficial capacity. Mr. Massey will go to Washington at the age of 39; on February 20 he will be forty. He was educated in

Toronto at the Model School, St. Andrew's College, and the University of Toronto where he graduated in arts in 1910. Mr. Massey studied at Oxford and holds the degrees of B. A. and M. A. in modern history from Balliol College.

UNIVERSITY LECTURER

From 1913 to 1915 Mr. Massey was a lecturer in Modern History at the University of Toronto and dean of residence of Victoria College. The building of Hart House, the collegiate Gothic building which centralizes all extra mural activities of the University of Toronto, was constructed under Mr. Massey's direction. The building was used during the war period for the training of several overseas units. The Minister to Washington has taken a particular interest in the little theatre movement and has also taken an active part in the productions of the Hart House Theatre.

IN MUSKETRY TRAINING

Between November 1918 and January 1919, Mr. Massey was in charge of musketry training in Military District No. 2, comprising Toronto and Central Ontario, and held the rank of temporary lieutenant-colonel. He was appointed associate secretary of the

War Committee of the federal cabinet in January, 1918. He was with the government reparation committee as general secretary and later director between December, 1918, and May, 1919. From 1919 to 1921 he was a director and secretary of the Massey-Harris Company, Toronto, and president of the company, 1921 to 1923.

QUITS COMPANY

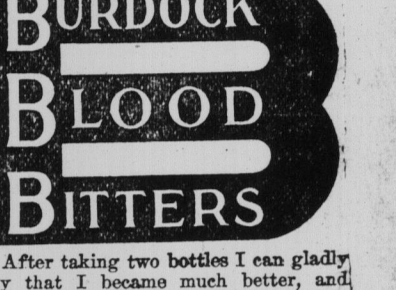

Upon entering the ministry of Rt. Hon. V. Mackenzie King in September, 1923, as minister without portfolio, Mr. Massey resigned from the presidency of the Massey-Harris Company and from the directorates of several financial institutions. He stood as a Liberal candidate for election in Durham constituency in the general election of last year and was defeated by 946 votes.

Mr. Massey is a trustee of the National Gallery of Canada, a governor of the University of Toronto, a member of the Council of the Art Gallery Conservatory of Music and president of the National Council of Education. In June, 1915, Mr. Massey married Alice Stuart, daughter of the late Sir George Parkin, K.C., M.G., of London. He has two sons.

Why the Tyrant Father is Foolish to Try to Rule His Modern Daughter—Why Theatre Tickets for Friend Wife are a Good Investment for Any Husband—Can a College Girl Be Happily Married to a Farmer?

DEAR MISS DIX—I am a young girl and I have an awfully strict father, who never lets me out with the boys or have the boys come to see me at home. But he doesn't get ahead of me, because I do everything on the sly. Most of the time I go with a boy instead of going to school, just to spite him. I don't like to do it, but he drives me to it. He won't even let me have girl friends. I am just like a jail bird, and watched until it drives me mad. The worst girls I know have the strictest parents—because they are watched all the time, and when they get a chance at a little liberty they go the limit. Who wouldn't?

DOROTHY DIX

ANSWER:—I get hundreds of letters like yours, my poor little girl, and I feel like weeping over every one of them, because between the folly of youth and the pigness of age so many young lives are being ruined. So many young hearts are hot and rebellious at the tyrannies their parents try to impose upon them, and so many fathers and mothers lie awake at night worrying over the children they cannot control. It is useless for me to point out to you that when you meet boys on the sly that you are hurting yourself worse than you do your father, because you are putting yourself in a false position.

A girl needs the background of a home and her family to give her dignity, and boys have little respect for one who picks up acquaintances on the street and who keeps her dates at the corner drug store. Nor do they trust the girl who deceives her parents. They feel that the girl who will lie to one will lie to another and that she is lacking in the high principle and honor that are the hallmarks of a lady.

I also might point out to you that when you cut school to spend your time with a boy that you are spitting yourself instead of your father, for you are depriving yourself of the benefits of the education that you will need so sorely all the balance of your life.

For just to be pretty isn't enough for a girl in these days. She has to be intelligent also. When you are a young lady and out in the society you will find that intelligent men will pass you up for the girls who can entertain them. There is no place for the dumb Dianas nowadays.

But I see your point of view, too. I recognize that youth must have its fling. I know that you are spitting yourself to make your father more than you ever will again and that it is torture to you to sit at home while all the other girls are having good times. I know how you resent not having any personal liberty and what a cruel unfeeling tyrant your father seems to you.

Also I agree with you that he is more to blame than you are when you slip out of the window and do the things that jeopardize your whole existence, and I marvel that an intelligent man cannot see that he can no more use the methods of fifty years ago in managing his children than he can in managing his business.

I marvel that a man who thinks he keeps up with the times does not realize that the young nowadays grow up in forcing houses that make them at least five years older than their real age and that they should be treated on that basis.

The girl of 18 is now as sophisticated as her mother was at 23; she knows more of the world and is better fitted to take care of herself. Also she is more hard boiled than her mother ever gets to be.

I marvel also that a man refuses to recognize that the Heavy-Father method is played out and that you cannot rule the modern youngster by force. If you lock the girl in nowadays she doesn't sit down helplessly and weep. She climbs over the transom. She doesn't listen to a certain lecture and she profits by it and humbly bows to her parents' superior wisdom. She escapes from them, and just to show her freedom turns liberty into license.

I marvel that parents do not realize that children must be dealt with on a new platform, and that, while they cannot be driven, they can be led. They can be caajoled along the straight and narrow path, and if they feel that their parents are giving them a square deal and are willing for them to have a reasonable amount of pleasure they will willingly submit to the restraints that they could not be coerced into enduring.

I wonder that parents do not see that Friend Father and Friend Mother may have an unbounded influence over their children, but that the tyrant father and mother who try to bully them into doing right have no influence whatever.

DEAR MISS DIX—I am a young married woman with two small children, and consequently I cannot go out unless my husband takes me in the car. Sunday is his only day at home, and he puts most of that in sleeping, as he says he is tired and needs rest. But am I asking too much when I ask him to take me out on Sundays?

I feel like an old woman instead of a girl of 21, as I don't get anywhere, have no friends come to see me and all I have to think of are my children and my work. I suppose I ought to be satisfied with having lovely children, a nice home, an ambitious husband who loves me, but don't you think there should be more to life than washing dishes, cooking and sewing and baby-tending?

ANSWER:—All work and no play makes Jane a dull girl, and it is a pity that husbands cannot realize this. How much pleasanter and more agreeable their homes would be if they kept their wives contented by providing them with a reasonable amount of amusement. The money a man puts in theatre tickets, in movies and a little dinner now and then at a restaurant for his wife pays a bigger dividend than any other investment he ever makes.

It is unfortunate that men and women look at this subject from entirely different angles. The man who has been at work all day, out in the world among other men, seeing new faces, hearing new things, coming in and out of the street, and then going home to a quiet room and a little dinner and rest. His paper and pipe and the radio look better to him than any other form of amusement.

On the other hand, a woman who has been in the house all day, doing the same dull round of mechanical tasks, with no company except the babble of babies and the fretting and crying, is starved for a little pleasure, a little change, to hear and see something new that will take her thoughts into different fields. So she wants to put on her prettiest frock and go out, and when husband won't go with her she feels herself grievously ill-used and throws in his teeth the good times he used to give her before they were married.

Inasmuch as each one is right from his or her individual standpoint, what to do is to compromise and for the wife to agree to stay contentedly at home if she have one or two evenings out a week, or else for the husband to arrange to take her pleasure in the afternoon.

When there are little children and no servants this is difficult to do, unless the mothers of a neighborhood organize a co-operative baby-tending association and take turns about caring for the youngsters while their mothers go shopping or to bridge parties.

But until they do that husbands should certainly be uselessly enough to take care of the children long enough for the poor, tired, bored mothers to get a little change and recreation.

DEAR MISS DIX—The girl is 21 years old, a graduate of a teachers' college, has two years' teaching experience. While at college she received the highest intelligence score given at the college. She is brilliant, an accomplished pianist and violinist and speaks three foreign languages. The man is 24, a fine type of individual, but he has not even a high school education. He is a poor farmer. They love each other, but do you think they could be happy together with such a wide difference in education and culture? A. H.

ANSWER:—Not a chance, I should say. When the physical attraction that has drawn them together is over the woman would be bored to death with the man who could not speak her language nor enter into her thoughts, and the man would resent her superiority over him. No man long loves the woman he has to look up to, and no woman's love survives looking down on her husband.

The Natural Figure Comes into Its Own

By HENRI BENDEL
THE return to nature is nowhere more evident in the new fashions than in the fitted and draped gowns of broad and velvet whose first design is to reveal all the curves and sensuous lines of the uncorseted body. Waistlines have risen to their natural position, hips are closely swathed, skirts either wholly or partially circular display the lines of the thighs with every motion.

Left is a gown of soft brocade shaded from turquoise to deep violet. The one in black velvet is embroidered in a single motif of rose and gold. In the gown illustrated, great care was needed, to make the large motifs in the pattern fall in proper places, so that bodice and skirt are correlated. The material is a soft brocade shaded from turquoise to deep violet. To emphasize the blue note, the shoulder drapes are lined with turquoise panne velvet, which forms the only trimming. The bodice is draped in a slight front

NEEDS LITTLE TRIMMING
The lovely chiffon velvets that appeared on the textile market this fall are highest in favor for the new draped gowns. I have imported and made more velvet gowns this season than I ever before handled in a single fabric to a single season. I like materials that supply their own trimming. Velvet is one of these. Its rich texture and soft sheen would be desecrated by a surplus of trimming. He who heavily trims a velvet gown paints the ily, indeed. As an example of judicious trimming of velvet, I am illustrating in the accompanying picture an evening frock from Callot. Its rich black velvet is embroidered in a single motif of rose and gold, and the hem and armholes are faced with violet satin, which is carried around the skirt with a single row in front and three rows in back. Not only does the point break the hemline, but the skirt itself runs upward on the back, to a height of three inches above the front hemline. Thus the vogue for uneven hems is satisfied. Scarcely a single evening gown of this season has an even skirt line. Brocades call for even less trimming than velvets, for their own patterns are all the adornment needed. A brocade frock requires subtle design and careful execution, for its very simplicity will call attention to faults, if there be any.

Creamed Eggs and Vegetables—Hard boil three eggs and quarter and cut into slices. Boil one potato and combine the eggs, potato and peas with a white sauce and serve on triangles of toast.

Italian Spaghetti—Cook one-half pound spaghetti in boiling salted water until tender. While it is cooking peel and chop one onion and cook in two tablespoons of salad oil until the onion is slightly brown, then add one can of tomato soup, two tablespoons sugar, one teaspoon salt, four tablespoons water and a few grains of pepper. Cook for ten minutes over a slow flame. Drain the spaghetti, put in hot serving dish and pour the tomato sauce over and combine, using a fork.
Lettuce and Green Pepper Salad—Make a French dressing as follows: Pour three tablespoons of salad oil, one tablespoon vinegar, one-quarter teaspoon salt, a few grains of pepper and a sprinkle of paprika. Beat with a fork until well mixed. Add half a green pepper finely chopped and pour over lettuce prepared for salad.

Monotony of Machines Is Health Problem

By DR. MORRIS FISHBELN.
THE development of great manufacturing plants in America has given rise to specialists in manufacturing processes whose tasks are seldom varied. The mechanic or carpenter on an early day was likely to vary his work many times in the course of a week. In modern industry, one man may spend all of his time performing a process as simple as the inserting of a bolt and the fastening on to it of a nut. This process repeated thousands of times day after day seems to have a special effect on the nervous system of the person concerned, and thereby to bring about unsatisfactory results eventually in the work itself.
AN EGG SMELLER.
There was, for instance, in one British bakery a girl whose duty it was to smell each egg that was opened before it was used. After one hour of this employment, the girl found it impossible to continue the work.
Another factor in monotony is that the worker seldom sees the completed product and has not creative interest in the employment. A worker who feels that he is doing a job that is to become a satisfactory work as possible without losing his interest.

HEALTH SERVICE
for machinery, the shortening of working hours, promotion with change of occupation and the use of rest periods tend to mitigate the difficulty.
STRAIN AND WORRY.
It is, of course, possible that the suggestion of monotony tends to make the worker dissatisfied and thereby creates a vicious circle which intensifies the effects of simple repetition of some easy task. The element of compulsion tends to intensify monotony and fatigue.
Constant nagging by an over-anxious foreman or forewoman and bad hygienic conditions soon create a feeling of strain or worry, and even the most interesting work becomes irksome and burdensome.
The mental atmosphere, if free and interesting, compensates for a lack of interest in the job. Alternation of employment is not popular in factories, either with workers or with foremen. It is an interesting fact that the man who does not complain of monotony nearly so much as women who have recently come into industry.

FINE NET AND LACE TRIM THE FALL BRIDE'S NIGHTGOWN.

By Marie Belmont. 624
Heavy white crepe de chine, with a deep yoke of fine net and lace, makes the bride's nightgown above. Notice the scalloped treatment at the bottom, the scallops outlined with a simple fold of the net.
A number of effective variations could be carried out with this model as the original. The yoke could be all net, extending down on the gown, with the same square scallop outline shown above, and the scallops at the bottom of the gown could be squared to match. White or cream batiste could be used instead of crepe de chine. In fact any pastel tint of batiste or voile could be used, with the net in white or dyed to match.

Sea-Sawing On Broadway

I DON'T pretend to understand the geographic psychology of the New York shops that love to announce that such-and-such a hat comes from Paris; such-and-such a garment comes from London.

Get 20 miles out of New York, one way or another, and the store board that such-and-such is in the latest New York manner. On a recent trip to Montreal I walked through the French business section, thinking that at last I could probably pick up a hat or a millinery which I might feel certain had come direct from Paris or way points. Going up to a window of wide-brimmed hats from the great open spaces of Montana, while a huge turquoise card advertised "Chapeau au Tom Mix."

There with I quit!
MANY months will pass before the tales concerning Queen Marie die on Broadway. The latest links a portion of her entertainment with the story of that historic veteran, "Abe's Irish Rose." Anne Nichols, who wrote it, and has relied on the queenly bed upon which Marie slept. Also a \$3500 tablecloth came out of Abe's profits.

ONE of the large New York hotels now slips a liquor price list under the doors of its guests each morning. It is printed daily and quotes the day's prices in Scotch, gin, champagne, and liquors. Delivery is guaranteed and the card reads, "Goods guaranteed or money refunded. Confidential-Caterer."

BROADWAY at last is learning to recognize the sound of the curfew. And there is much wailing and gnashing of teeth. Broadway is not a highway easily narrowed to restraint. During the winter months, so says the new city editor, the naughty night clubs and cabarets must close at 3 o'clock. The prophets continue to insist it will be a good trick if they do it.

Already various methods of evasion are planned. New clubs blossom out in the guise of private clubs with memberships. Members' names are pasted on the door, but once the places begin operation, these cards will doubtless be as easy to obtain as Scotch highballs. This, of course, will add to the expense of the average visitor since the entrance card will have considerable sale value.

Curfew or no curfew Broadway will find a way to dance 'til dawn if it has to dance in the street.
GILBERT SWAN.

Flapper Fanny Says

"I Had Bilious Attacks and Stomach Weakness"
Mrs. Wm. Robinson, York, Sask., writes:
"I suffered from stomach and liver trouble, and used to have bilious attacks so bad that I could do nothing for weeks at a time. My stomach would be so weak that not even a drink of water would stay on it. On my sister's advice, I began to use Dr. Chase's Kidney-Liver Pills, and must say that they have made me feel like a new woman."

BEHIND THE SCREEN

Chester Conklin is shown with and without the bush and windshield. Director Gregory La Cava puts them on.

CHESTER CONKLIN tried for a long time to be funny in the days when he was an extra on the West Coast, but got along with only fair success. He was dallying with the idea of giving up the movies and going back to his old job in the bakery.

That old Dutch baker, with his walrus mustache and his thick glasses—He was a funny bird! Walrus mustache and plate-glass specks . . . well . . . why not?
MADE THE LAUGHS.
That was a long time ago, but it was the idea that made Conklin the great laugh-getter that he is.

"Why, do you suppose, people laugh at such a simple thing as these whiskers and spectacles?" he asked Gregory La Cava, director of Richard Dix's picture, "Take a Chance," in which Conklin had a comedy role. "Do you really want to see why they laugh?" replied La Cava. "Well, I'll show you."

La Cava put on Conklin's whiskers and glasses and the accompanying picture he saw judge for yourself whether the make-up is funny. "But it isn't merely the whiskers and glasses that make people laugh at Conklin," La Cava explained. "He is a born comedian—one of the greatest ever saw. He has a marvellous sense of humor and he pantomimes reaction instinctively to any sort of a situation."
I think perhaps his greatest charm as a comedian lies in the naive, simple, unforced manner in which he gets his effects. His reactions look natural, and, therefore, seem to be real emotions.

NOVEL FRINGE.
The newest development in fringe is printed fringe, in which conventional or floral designs are transferred to coarse silken strands. Fringe made of narrow strips of the material of the gown is very much the vogue.

The Rhyming Optimist

By ALINE MICHAELIS.
But seldom on life's sun-kissed heights men set their happy feet, but seldom unalloyed delights grant them draughts pure and sweet. Those perfect hours they know in dreams are all too rarely found, and as each shining moment gleams dark shadows ring it round. This is the way of life, we know; few flawless hours it brings, so it is wiser as we go to joy in simple things. The rare elixir we would seek to make this world divine drips not unmixed within the cup; for most, a weaker wine. But still, if we would eke out each bliss, however small, take gold from each alloy, the total then would be as great as if, on sun-kissed heights, we for one hour through Eden's gate crept in to taste delight.

A Thought

But when you doest aims let not thy hand know what thy right hand doeth.—Matt. 6:21.
CHARITY in various guises is an intruder the poor see often; but courtesier and delicacy are visitants with which they are seldom honored. Ouida.

Memory of Soldiers Who Passed Through Here on Way to Grim War Honored at Women's Canadian Club Function

GLOWING tributes to the bravery of those who were willing to sacrifice their lives were paid this morning by Mrs. Gordon S. Macdonald, His Worship Mayor White and Major General the Hon. A. H. Macdonnell, C. G. M., D. S. O., during a service which marked the placing of a wreath over the tablet erected in the Post Office lobby by the Women's Canadian Club, in memory of those units of the Canadian Expeditionary Force that passed through this port during the great war.

WREATH PLACED

His Worship spoke of those who had returned and who reaped their just reward of their sacrifices and who were now successful men. It was to the memory of all these men that the gathering was assembled. He congratulated the Women's Canadian Club on their efforts and expressed his pleasure at being present at the service.

MAJOR SPEAKS

Major White then called on by Mrs. Macdonald. His Worship referred to the contentment and freedom of Canadians and emphasized that all this had not been gained without sacrifice. The gathering was for the purpose of honoring the memory of those who had made all this possible. Many thousands died for this, he said.

THREE MACHINES ARE SEIZED BY CUSTOMS MEN

Believed Used in Smuggling Rum Over the Border

CAMPBELLTON, Nov. 10—Three large American cars, a Packard, a Lincoln and a Hudson Super-Six, evidently smuggled across the Canadian border and presumably in use in connection with rum-running operations, are being held here by the customs authorities following their seizure on Monday, when the four strangers in possession of the cars denied ownership of the vehicles.

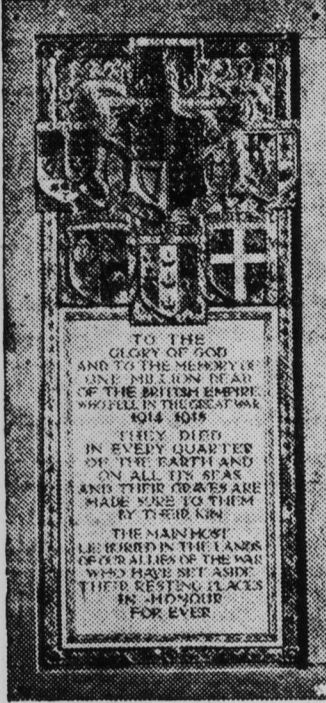

Two of the cars, bearing American license plates, were taken into custody near Dalhousie Junction by Customs Officers E. W. Dawes, of Saint John, and A. J. Wallace, preventive officer at Dalhousie, when they were first seen by the officers on their way to Dalhousie. Being suspicious, the officers questioned the two men occupying the cars and when the latter failed to produce the necessary permits the cars were taken to Campbellton. The strangers attempted to pass on a permit in their possession but it was found that the serial number on this did not correspond with that of either of the cars.

SUSPICIOUS MOVE
Denying ownership, the men were released and within an hour they hired a local taxi to take them to Jacquet River, telling the driver that their cars had been seized there and that they were anxious to release them. H. P. Doyle, prohibition inspector here, got word of this and set out at once to notify the officers. Overtaking them, he explained his suspicions and they started for Jacquet River, but the taxi man had set his passengers down near Black Point. The men had also taken care not to get out at any particular hour.

SEIZE THIRD CAR
The officers hurried to the spot and finally found the third car, a seven-passenger Lincoln touring car, behind a barn in that neighborhood. The two men were found at the house and with them were two other strangers. All four denied ownership of the car and stated they had no key, so it was necessary for Inspector Doyle to tow the vehicle to Dalhousie. The Lincoln car was found to be without rear seat cushions and had the marks of hard ends worn in the leather upholstery, suggesting its use in connection with bootlegging activities.

LAYMEN'S MEETING
The Laymen's Association of the Mission Church met last evening for their regular session when an address was given by Rev. John Unsworth, of St. George's Church, West Side. The subject of the address was "Missions in the Yukon," and during the address the speaker gave several instances of his own experience in that field.

Unveiled By Prince

One of the principal ceremonies attending the opening of the Imperial Conference was the unveiling by the Prince of Wales in Westminster Abbey of the memorial tablet to the one million dead of the British Empire. The inscription reads: "To the glory of God and to the memory of the one million dead of the British Empire who fell in the Great War 1914-1918. They died in every quarter of the earth and on all its seas and their graves are made sure to them by their kin. The main hostile buried in the lands of our allies of the war who have set aside their resting places in honor forever." The tablet bears the arms of the Mother Country, the Dominions and India.

He and Captain Calvin Merriam are now the owners of the Quaco Queen. Captain Merriam succeeded Captain Ogilvie as master of the vessel.

GRANNIE TOOK PRINCE OF WALES BY SURPRISE

LONDON, Nov. 11—Mrs. Weeks, a widow, 82 years of age, living at Stockbridge, journeyed the other day to see her grandchildren—and entertained the Prince unawares. In her black mantle and little pokebonnet Mrs. Weeks was bending over her youngest grandchild, a baby girl, when there came into the room "a nice-looking young man"—so "Grannie" Weeks described him afterwards. The "nice-looking young man" was wearing a lounge suit of flannel and

"I never thought of that before, Sir, but of course gentlemen who know it won't have anything else. It is as you say, Sir—the 'hall-mark' of a first class house."

DESCRIPTION DETAILED OF BIBLE HEROES

Viennese Historian Relates Find of Document by Josephus
BERLIN, Nov. 11—Dr. Robert Eisler, the Viennese historian, whose researches have resulted in the throwing of new light upon the supreme tragedy of the Crucifixion, announces another "Josephus find," namely, a detailed description of the appearance of Jesus. He has found this description in a manuscript of the old Russian Bible and presented to Baby Sylvia Doris.

Viennese Historian Relates Find of Document by Josephus

So Grannie Weeks went up to the "nice-looking young man," took him firmly by the wrist, led him over to the cot, and duly presented him to the baby. Then the "nice-looking young man" went over the cottage, upstairs and downstairs, and liked it all, and shook hands once more with everybody, including Grannie. And Grannie was turning away when she heard someone say, "Yes, Your Royal Highness!" So she turned round again to see to whom this title was addressed, and behold it was the "nice-looking young man" whom she had seized by the wrist and led across the room, a manuscript of the old Russian Bible and presented to Baby Sylvia Doris.

TELLS OF JOHN THE BAPTIST

Another description of intense interest to Christians, contained in the old Russian version to which Dr. Eisler has had access, is that of John the Baptist. It runs as follows: "At that time there wandered among the Jews a man clothed in strange garments, for where it was not covered by his own hair his body was wrapped in hides of oxen, and whose appearance was that of a wild man. How far the hostility of Josephus to Christianity may have colored his description of the appearance

Colonel E. A. Olver, Imperial Oil, Limited, 56 Church Street, TORONTO, 2, ONT.

My Dear Colonel Olver:

As you know, we were one of the first companies to purchase Marvelube Motor Oil and we thought you would be glad to know of our satisfactory results in both our Cab and Drive-Yourself Companies.

We are operating 150 De Luxe Cabs, which travel approximately 350,000 miles a month in the city of Toronto. The average taxicab travels 125 miles a day and many of the cabs are in service twenty-four hours a day.

In using Marvelube, we can notice a decrease in our cost of maintenance and material, covering engine maintenance as well as a reduction in total oil consumed. Also, we enjoy longer periods of continued operation without cleaning carbon of grinding valves, taking up connecting rods, main bearings and re-grinding cylinders.

We have experienced a similar expense reduction in our Drive-Yourself business, which now comprises a fleet of over 60 automobiles—large, six-cylinder, gearshift cars, as well as Chevrolet and Ford. These private cars are rented out to individuals to drive themselves and, in addition to each vehicle averaging about 2,000 miles per month, it is with a different driver daily.

The basis of our success, as is the case with any large taxicab or Drive-Yourself company, is to give the public the very best service possible. With this in view, the selection of materials, and particularly of oil, is of the utmost importance.

We have no hesitancy in recommending your Marvelube oil to motor car owners as our experience has shown a definite reduction in the cost of operation.

Yours very truly,
J. Wallace
Mechanical Superintendent.

DE LUXE CAB LIMITED and De Luxe Drive-Yourself, Limited, buy motor oil with a single idea in mind—namely, results. As a highly-developed business organization, operating automobiles for profit, they appreciate the cost factor of lubricants.

They approach the subject of lubricating oil on a business basis. They do not buy on color, guesses or rumors. The salesman who approaches them with extravagant claims is promptly asked to prove them. Whispering campaigns do not register. With \$500,000 worth of the highest-class equipment at stake they cannot take a chance on inferior grades of oil.

The carefully considered endorsement of Marvelube Motor Oil by this organization may be accepted by the private motorist at face value.

Marvelube is uniform in quality everywhere. Used in the right grade, it will give you the same results as it is giving the De Luxe Cab Limited, De Luxe Drive-Yourself, Limited, and other expert judges of oil who have adopted Marvelube exclusively after rigid and satisfying tests.

WINDSOR CASTLE LIBRARY IS OF GREAT VALUE

Royal Collection Has 500 of 900 da Vinci Drawings

LONDON, Nov. 11.—Visitors to Windsor Castle have very little notion of the immense value of the library and collection of pictures and drawings, housed in the Royal library, which until lately, when he retired, were under the care of the Hon. John Fortescue, the King's Librarian.

Of 900 known drawings by Leonardo da Vinci, no fewer than 500 are in the Royal collection. There are in all 15,000 drawings, including the famous Golbein heads and drawings by Paul Sanby.

KEPT UNDER LOCK.

Early manuscripts, illuminated missives, autographed letters from famous people, are included in the collection, and some illuminated Persian books so precious that they are kept under lock and key even in the already well-guarded rooms of the Royal Library.

Magnificent gold bound books presented to various rulers by Eastern potentates and special editions of great works of history and biography stand in shelves—but these treasures do not prevent a certain cosmopolitan note in the Royal collection. Here you will find works by Rider Haggard, Ian Hay and other popular writers.

The Hon. John Fortescue recently forsook his house in the Edward III. gateway in view of his retirement from the position of King's Librarian.

FORTESCUE'S SUCCESSOR.

In his place comes Mr. O. N. Morhouse, who has been in charge of the Peys Library at Magdalen College. Mr. Morhouse will not take over Mr. Fortescue's house, but will occupy the very beautiful rooms said to have been built for George III. nursery.

The Royal library overlooks Eton and the river, and was built in the main by Queen Elizabeth, whose ghost is said to haunt the room. It was considerably added to and enriched by Charles II., and since then various kings have extended the collection.

RECOVERS FROM INJURY.

HOULTON, Me., Nov. 9.—Albert E. Mooers, known as one of the best dealers in potatoes in the country, is slowly recovering from shock and bruises caused by being struck by an automobile while crossing the street. The driver of the car, Wendall Smith, of New Limerick, has been exonerated from any blame for the accident which appeared to be unavoidable on his part.

"Ultra-Microscope" Shipped To U. S.

J. E. Barnard, British scientist (seated, with an assistant alongside), is the inventor of the "ultra-microscope," which can magnify twelve million times and be adjusted to a millionth part of an inch. The microscope is coming to the Rockefeller Institute, New York, from London. Barnard formerly made hats.

SHEIK THUG IN CHICAGO GIVEN 50-YEAR TERM

Durkin's Sentences Mourn With Lead of 35 Years for Murder

CHICAGO, Nov. 11.—The account Martin J. Durkin has been running with society has been totalled, and it will take the "sheik" murderer and automobile thief 50 years and five days of penitentiary service to pay it.

To the state penitentiary service of 35 years for murder and two sentences of five years each in a Federal prison for interstate transportation of stolen automobiles were added five sentences of one year and a day each. Balked in his hope of a prison break when county jail guards found steel saws in his cell, Durkin went into court apparently anxious to have it over with. He pleaded guilty to each of the remaining five counts on an indictment and was sentenced to a year and a day in each instance.

The court specified that the 35 year punishment for the slaying of Edwin C. Shanahan, Federal agent, shot to death when he sought to arrest Durkin for automobile thefts, be paid first, and that after that the seven Federal sentences be served consecutively.

This was ended the career at liberty of a youth who became widely advertised first because of his popularity with women, secondly because of his swift trigger finger and apparent readiness to "shoot it out" with peace officers.

In addition to the slaying of Shanahan, two other deaths are attributed to him, those of a police sergeant and a Durkin relative slain when a police trap laid for the "sheik" miscarried and he shot his way out.

THEATRES FOSTER ANGLO-U. S. UNITY

Give Fresh Life to "Hands Across Sea" Movement by Programs

NEW YORK, N. Y., Nov. 10.—The "hands across the sea" movement has taken on new life in the theatres this season.

Leaders in the movement believe that Theatres behind the footlights can be used as successful ambassadors toward bringing about a feeling of brotherhood among the nations. Plays truthfully depicting the characteristics of Americans, for instance, would be advertised first because of his popularity with women, secondly because of his swift trigger finger and apparent readiness to "shoot it out" with peace officers.

In addition to the slaying of Shanahan, two other deaths are attributed to him, those of a police sergeant and a Durkin relative slain when a police trap laid for the "sheik" miscarried and he shot his way out.

Means for carrying out the project already have been assured, he announces. Meanwhile Sheldon Cheney, of the Independent Theatres Clearing House, is in Europe to arrange for the co-operation of those countries with the United States in this organization's work in behalf of the little theatres, community, and "art" theatres.

Broadway producers also are doing their share this season to present across the footlights, pictures of European life. Scarcely a ship arrives but brings either a foreign group of actors or a play by some European.

Letters To The Editor

THE ISSUE OF BONDS.

Editor, Times-Star.

Sir:—Your paper of yesterday stated that the Commissioners are about issuing \$74,000 more bonds, largely to pay for that unnecessary City Hall on the West Side. Now this with our \$8,000,000 now running should make the citizens sit up and take notice.

According to the Chamberlain's report, the city's liabilities of over \$8,000,000 will have to be paid to the last dollar, no question about that. The assets, nominally about \$12,000,000, do not produce enough net income to warrant their being taken in stock at any such figure.

Are we not deceiving ourselves by claiming a surplus of \$4,000,000, particularly when we take in such assets as wharf and harbor properties at \$2,800,000, from which we receive a net revenue of only \$6,900?

\$2,800,000, from which we receive a net revenue of only \$6,900?

Also take some of the city's real estate values—Market Building, with a net revenue of \$4,800 taken at \$150,000—is it worth the amount?

Is City Hall worth \$60,000 when it has to be credited with \$334,70 proceeds of fishing sales to make its rental \$6,817.50 balance its yearly running cost of \$7,265.10?

Is the ferry toll house worth \$16,000 as an asset? Should city interest in exhibition building be taken as a good asset?

Is the water building on the corner of Leinster worth \$25,000? Now is it fair to assume, if the real estate of the taxpayer has gone down in value, that the city owned property has done the same; and, if so, have we the surplus over our liabilities that our statement shows? Should we not stop issuing bonds for about three years, and pay attention to reducing the yearly budget now dangerously near the \$2,000,000?

Yours truly, GEORGE H. WATERBURY, Saint John, N. B., Nov. 11, 1926.

Ayer's Cliff, Quebec. "I have been teaching for three years, and at the end of the year I always feel tired and have no appetite."

"Unable to Work." Canning, Nova Scotia. "I had irregular periods and great suffering at those times, the pains causing vomiting and fainting."

"I suffered agony," she writes, "but I used Sloan's Liniment and it relieved the pain right away. Now I don't feel it at all."

What is the secret of the almost magical powers of this remarkable remedy?

Right to the affected spot it brings a healing stream of fresh, revitalizing blood, driving out congestion, relaxing contracted muscles.

So clean and easy to use, too. Just pat it on lightly without rubbing, and the liniment will do its work.

A COMPLETE SERVICE. In these modern times, there are so many things to design or illustrate—so many styles of art that can be used—that no artist could hope to be expert in them all.

To a company such as The Gazette, that gives a complete service, the answer is, a number of artists, each an expert in certain techniques.

From a simple mechanical design in black to a beautiful painting in oils—no matter what is to be drawn, no matter what medium is asked for—The Gazette has the best artist for the type of work you specify, at its disposal.

If the finished work is to be in keeping with the illustrations, fine art needs fine engravings; the printing, electrotyping and book-binding must be of high standard also.

When The Gazette is entrusted with the complete preparation, the master craftsmen in every department work together, keeping in mind the perfection of the finished work.

Result? You expect better work—and get it. Gazette representatives are trained and have an intelligent knowledge of Gazette service. Write or telephone, and one will call upon you.

MOVIES OPEN TO NEW GENERATION

Sons and Daughters of Several Stars Make Good in The Ranks

HOLLYWOOD, Cal., Nov. 11.—The second generation of motion picture players with familiar names is making its appearance on the silver sheet. At least eleven children of movie actors, the parents of some being stars, have made their debut on the screen. They are Douglas Fairbanks, Jr., Ralph and Virginia Bushman, Lincoln Steadman, Richard Walling, Edward Fiel, Jr., Rita Carewe, Ann Rork, Lambert Hillier, Tim Holt and Dolores Costello.

and immediately was placed under contract for another picture. He thus is competing for a place among the Klieg lights such as that of his father, Francis X. Bushman. Virginia, Ralph's sister, was married after her screen debut.

OTHERS ON THE WAY

Lincoln Steadman is the 20-year-old son of Myrtle Steadman, former star and now a character actress. He thus is competing for a place among the Klieg lights such as that of his father, Francis X. Bushman. Virginia, Ralph's sister, was married after her screen debut.

OPIUM SMUGGLING METHODS REVEALED

Can Thrown Over From Incoming Liner and Then Picked up by Motor Boat

VICTORIA, B. C., Nov. 10.—How thousands of dollars worth of opium is smuggled into Canada through Pacific coast ports every month, after being thrown into the sea and picked up by speed boats, was revealed in recent drug prosecutions here. These followed the efforts of the Canadian Mounted Police to smash an Oriental dope ring which has been supplying the drug users of a large part of America.

After the liners have passed up the coast on their way to port, men in speed boats follow them, searching for the wooden floats. These are marked with peculiar Chinese characters which would escape the average eye. To those who are looking for them, the floating pieces of wood are easily distinguishable from the usual flotsam and jetsam on the water's surface. When there is no danger of detection, the smugglers haul up the opium and convey them ashore under cover of night.

Men of Trinity Arrange For Supper Gathering

Organization for an every member canvass of the parish was made at the much enjoyed supper gathering of the men of Trinity congregation held last evening when George D. Ellis was chairman and there were about 70 present. A committee of ladies from the W. A. and the Young Women's Guild, convened by Mrs. E. A. Schofield, served the excellent feast and the supper table was very attractively decorated with bowls of fruit and candles. A hearty vote of thanks was tendered to the ladies on the motion of L. E. Col. W. H. Harrison, seconded by Geoffrey Stead. During the evening short addresses were given by H. E. Chitt, Bernard Collier, W. Shives Fisher and Rev. C. Gordon Lawrence, the rector. The work of organization was entered into enthusiastically and captains for the teams were appointed.

Keeping Your Schoolgirl Complexion

By FRANCINE Noted Beauty Adviser
Copyrighted 1926 by P. O. Beauty Features

Wash Face?—Yes
But mind what sort of soap you use

Take care that you use only such soap as is made solely to protect the complexion, then always according to this simple rule.

FOREMOST skin authorities as essential to natural complexion clearness. But all urge greatest care in selecting the kind of soap one uses.

Raking a precious complexion to an unproved soap is a folly. The only kind of soap to use on your face is a soap made solely to safeguard the complexion. Launder and cleanse with any soap you wish. But when beauty is at stake, take care.

The accepted skin care of today starts largely with Palmolive, a soap made of pure cosmetic oils, a soap made for one purpose only—to be used freely and lavishly on the skin.

The rule in skin care: Expect more from this

Wash your face gently with Palmolive Soap, massaging it softly into the skin. Rinse thoroughly, first with warm water, then with cold. If your skin is inclined to be dry, apply a touch of good cold cream—that is all.

Do this regularly, and particularly in the evening. Use powder and rouge, if you wish. But never leave them on over night. They clog the pores, often enlarge them. Blackheads and disfigurements often follow. They must be washed away.

Get real Palmolive

Do not use ordinary soaps in the treatment given above. Do not think any green soap, or represented as of palm and olive oils, is the same as Palmolive. It costs but 10c the cake—so little that millions let it do for their bodies what it does for their faces. Obtain Palmolive today. Then note what an amazing difference one week makes. The Palmolive Company of Canada, Limited, Toronto, 317c.

The Greatest Advance in Home Cleaning Science "POSITIVE AGITATION"

If you can be satisfied with vacuum cleaning, that is one thing. But if you want the latest and most effective cleaning method devised by science, that is something else. This remarkable new method is called "Positive Agitation." It insures getting all the dirt out of your floor coverings, as well as merely of them.

The New Hoover offers you "Positive Agitation" in its perfection. It offers you more—a machine, so advanced as to be revolutionary, surpassing even previous Hoover in these important particulars:

- 1 For the first time, it makes possible "Positive Agitation" of floor coverings.
- 2 By actual test, in the ordinary cleaning time, it beats out and sweeps up from carpetings an average of 131% more dirt.
- 3 It is an even greater rug-saver; the oftener a carpet is cleaned with a Hoover the longer that carpet will wear.
- 4 It is virtually service-proof, every part, including the new motor, requiring no oiling.
- 5 It increases the efficiency of its remarkable dusting tools because of its 50% stronger suction.
- 6 Its exclusive dust and germ-proof bag is now washable.
- 7 Its form and finish are of startling beauty and every new feature insures greater operating ease.

See for yourself the difference between the New Hoover and a vacuum cleaner. See to what new heights home cleaning has now been carried. Visit any Authorized Hoover Dealer—he will deliver the New Hoover for only \$6.25 down, and the balance in easy monthly payments.

The New HOOVER
It BEATS... as it Sweeps as it Cleans

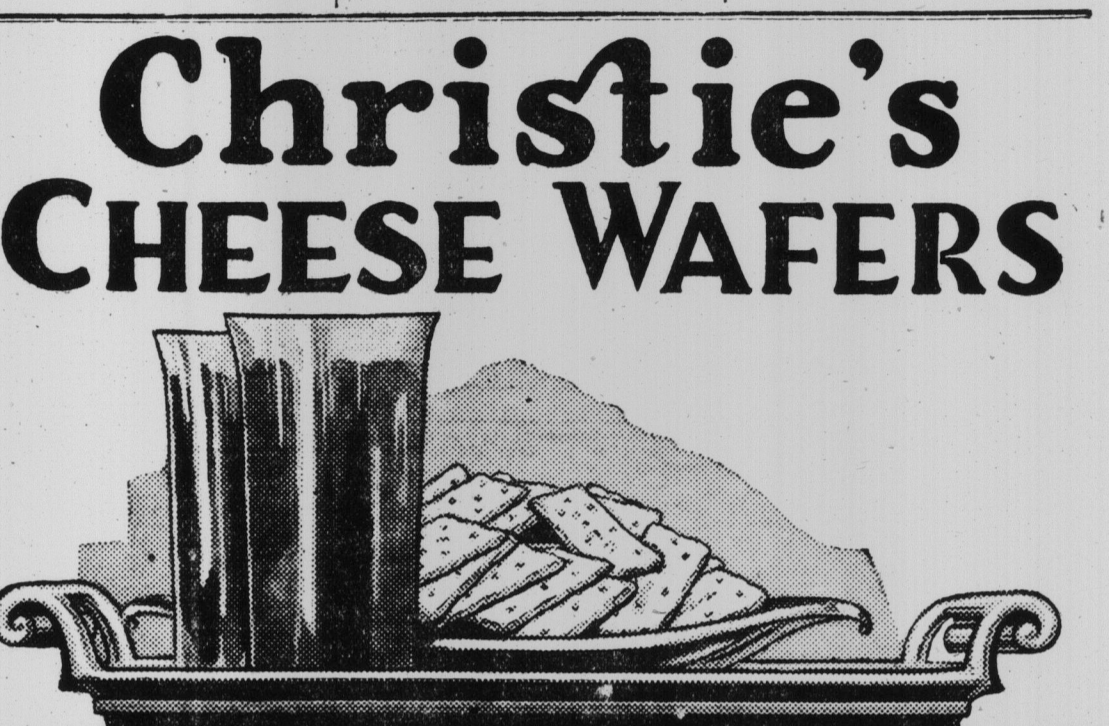

"Positive Agitation" is accomplished in the new Hoover by heating—the time-tested requirement of thorough rug-cleaning—reduced to an exact requirement in a few violent strokes as with the carpet-beater or broom. It is modified by the Hoover into a series of swiftly-repeated vibrations. Suction lifts the rug from the floor and beats it up a cushion of air while the agitator gently butters out all the embedded grit as the strong suction draws all dirt into the dust-bag.

REVEALS PLANS FOR NEW FLIGHT OVER THE POLE

Dirigible Will Be Used and Crew of Fifty to be Carried

BERLIN, Nov. 10.-Plans for a new polar expedition by airship on strictly scientific lines were set forth by Dr. Fridtjof Nansen, president of the International Society for the Exploration of Arctic Regions, at the opening of the international congress of that body today.

The route contemplated flights with numerous stops, from some, Alaska, by way of the North Pole to Murmansk, Russia, or in the opposite direction. The airship will be manned by a crew of 50, the men to work in three shifts.

Dr. Nansen declares that the flights of Byrd and Amundsen over the North Pole were great pioneer deeds, but, from the viewpoint of Arctic exploration, merely preliminary to detailed scientific investigations necessitating numerous landings, each lasting for hours.

It is not known, for instance, said Dr. Nansen, whether Captain Amundsen's flight was the first Arctic investigation, he contended, necessary for an understanding of meteorological, geographical and biological phenomena in other parts of the world. The dirigible airship had already proved its worth as an instrument of polar exploration, particularly as it permitted the carrying of a large crew and scientific instruments. While the problem of landing on firm ground without aid had not been solved, it would be quite possible to drop a boat and crew into the water from the airship.

Captain Walter Bruns, the society's founder, declared that half a million dollars would be necessary for the fitting out of the expedition, not counting the cost of the dirigible which could be borrowed from a firm specializing in dirigibles. Dr. Eckerker had promised to supply the society with a dirigible.

CHICAGO AQUARIUM WILL COST \$3,000,000

CHICAGO, Ill., Nov. 10.-An aquarium to stand in Grant Park, Chicago's downtown lakefront playground, as a memorial to the late John G. Shedd, chairman of the board of Marshall Field & Company, will be under construction in the spring. Major phases of the plans for the \$3,000,000 project has been announced.

The structure, for which Mr. Shedd increased his gift from \$2,000,000 to \$3,000,000 shortly before his death last week, will be of Greek architecture. It will be octagonal in shape, 300 feet in diameter and 100 feet high.

Zepplin free of charge for two polar expeditions. To render the investigation worth while, Captain Bruns proposed augmenting the present 10 observation points in the Arctic regions by nine on polar land and four on the floating ice around the North Pole. Observers on these points would enjoy the tremendous psychological advantage of having radio connecting them with civilization.

The dirigible could be fitted out for 100 days, and an auxiliary already in the Arctic regions by nine to assist the main ship in carrying supplies and picking up observers in case of need.

DRINK WATER IF KIDNEYS BOTHER

Take a Tablespoonful of Salt if Back Pains or Bladder is Irritated

Flush your kidneys by drinking a quart of water each day. Also take salt occasionally, says a noted authority, who tells us that too much rich food forms acids which almost paralyze the kidneys in their efforts to expel it from the blood. They become sluggish and weaker, and you suffer with a dull misery in the kidney region, sharp pains in the back or sick headache, dizziness, your stomachs, tongue is coated, and when the weather is bad you have rheumatic twinges. The urine gets cloudy, full of sediment, the channels often get sore and irritated, obliging you to seek relief two or three times during the night.

To help neutralize these irritating acids to help cleanse the kidneys and flush out the body's urinous waste, get four ounces of Jad Salts from any pharmacy here. Take a tablespoonful in a glass of water before breakfast for a few days, and your kidneys may then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for years to help flush and stimulate sluggish kidneys; also to neutralize the acids in the system and induce a natural, healthy action of the bladder.

Jad Salts is inexpensive; cannot injure and makes a delightful effervescent lithia-water drink.

FEDERATION OF BLINDS MAY HAVE BRANCH IN N. B.

Meetings Held in Saint John in Connection With Matter

Several meetings have been held in Saint John for the purpose of organizing a provincial branch of the Canadian Federation for the Blind.

The president of the provincial branch is H. A. Smith, and meetings will be held bi-weekly when some official announcements will be made.

In June last a convention was held in Ottawa, at which the local representative Mr. Smith, was present, and he informed the meeting that the Canadian Federation for the Blind is rapidly growing all through the country.

The chief aim of the organization is to assist in getting pensions for the blind in need of them. There are a great number of blind people who are not able to assist themselves, and it especially for their benefit that this federation is working.

The headquarters of the federation is in Montreal, and the following is the national executive: Honorary president, Joseph Beaulieu; federal president, Philip E. Lorton; federal vice-president, T. A. G. Bishop; federal secretary, Mrs. P. E. Layton; federal treasurer, Mrs. P. E. Layton.

Other members of the executive are: H. A. Smith, Saint John; vice-presidents for Quebec, J. F. Higgin and J. Renault; Ontario, Mrs. J. Springstead; L. Gulbransen; Manitoba and Saskatchewan, A. B. Howe and Branks; Columbia and Alberta, Gordon Rook.

PROVINCIAL ORGANIZATION. In the provincial organization several prominent people who have assisted in movements of this kind and a similar kind have been approached and will assist in any way possible in furthering the aims of the Canadian Federation.

Among some of these are: Dr. W. C. Kierstead, Fredericton; A. M. Belding, E. R. W. Ingraham, C. J. Stackhouse, F. S. A. McMillan, Saint John, and the president of the New Brunswick Federation, H. A. Smith.

The Saint John Trades and Labor Council have extended the use of their rooms in the city to the federation for meeting purposes, and a vote of thanks was tendered the council for their offer at a meeting last night.

It is likely that a meeting will be held in the near future for further organization purposes.

ANOTHER GOOD TIME AT CATHEDRAL TEA

Suppers Served Number 498—More Winners of Prizes Are Announced

Another bumper attendance favored the Cathedral high tea and sale last evening and for tonight, the closing night, a record crowd is expected as there are special prizes to be given and there will be a grand auction of all the special wares at the booth.

Last night there were six patrons served at the excellent supper. There was a lengthy prize list. The door prize was a load of wood and was won by ticket 408 but was unclaimed.

At the fancy booth the runner was won by Mrs. Thomas Grant, 78 James street, and the punch board prize, a silk muffler was won by Miss M. Doherty, of the Admiral Beatty Hotel; at the C. W. L. booth pillow slips were won by Mrs. Frank Owens, 272 Tower street, and the punch board prize, a silk muffler was won by Miss M. Doherty, of the Admiral Beatty Hotel; at the C. W. GOES THROUGH FENCE.

A horse owned by Arthur Campbell, of 188 Victoria street, and driven by Robert McLara, Harrison street, became frightened when going up Ludlow street yesterday afternoon, about 5 o'clock and crashed through a fence, at the corner of Ludlow and Winslow streets, the property of Methodist church.

The horse was drawing a sloven load of flour and driver and load were down a drop of a few feet. The man was uninjured and the team and load also escaped.

EXAMINATION HELD

The diocesan examinations for the young priests of the Saint John diocese were held yesterday afternoon at the Bishop's Palace, with Very Rev. Magr. F. L. Carney, V. G., of Fredericton, as examiner. Those in attendance were Revs. T. M. Nichol, Francis Gillen, Joseph Floyd and M. Johnston, of the Cathedral staff; Revs. Arthur W. Kinella and Joseph Hanbury, of St. John the Baptist Church; Rev. Ronald McMillan, of Osborne, of North Devon, Rev. Wm. Crowley, of St. Andrew's; Rev. Joseph Butler, of Beauséjour and Rev. Alphonse Harris of Moncton.

TO BE ORDAINED

Rev. William McPhee, of Georgetown, P. E. I., and Rev. Malcolm McDonald, of Cape Breton, both theological students now pursuing their course at St. Augustine's Seminary, Toronto, have both received word from His Grace Archbishop O'Leary, of Edmonton, to make preparations for their ordination to the priesthood which will take place early next month. Rev. Mr. McPhee is a former student of St. Dunstan's University, Charlottetown, and Rev. McDonald, of St. Francis Xavier's University, Antigonish. Both young men have made their philosophy and theological studies at St. Augustine's.

As Hiram Sees It

"There goes more Injun canoes down the river," says I to the town feller, pointing to the patch of moonlight on Long Reach.

"Them," says he, "is the ghosts of some of the chiefs that went down to the mouth of the river in 1720, to go over to Annapolis. It wasn't but Royal any more. Acadia was handed over to the English in 1713—but they was a long dispute about whether that took in the Saint John river an' this part of the country or not."

The annual thank offering of Saint David's Young Women's Auxiliary was held last evening in the ladies' parlour of the Memorial Hall. A devotional service was participated in by almost the entire membership of the auxiliary. Solos, duets and quartette selections were rendered by Miss Constance Watson, Miss Mabel Smith, Miss Bertha Smith, Miss Jessie Jamieson, Mrs. F. Gifford and Mrs. Hugh Miller, with Miss Isabel Jamieson as accompanist. Miss George Barbour gave an enjoyable reading. The Bible reading of the closing service was impressively given by Miss Isabel Jamieson.

A well prepared report of the Wolfeville conference was given by Miss Kathleen Shaw. The executive was assisted by a special committee composed of Miss Edith Cameron, Miss Florence Rayworth, Miss Kathleen Shaw and Miss Isabel Jamieson. Refreshments were served by a capable committee under the joint convener-ship of the Misses Elizabeth and Margaret Henderson. Miss G. Lawson, treasurer, reported that the sum of \$37.20 had been realized.

SECOND AUDIT DEPENDENT ON DR. BRITTAIN

Mayor White Says Report of Investigation Will Decide the Matter

His Worship Mayor White, who returned yesterday afternoon from a trip to New York, said he was very much surprised to read that a satisfactory agreement had been arrived at between the Mayor and the Citizens' Committee, who acted as the representatives of the 3,000 signers of a petition presented to the Common Council asking for an audit and investigation of civic affairs, which agreement had been brought about through the Board of Trade and which provided for another audit after the investigation of Dr. Brittain had been completed.

His Worship said: "I have had on many occasions pointed out that should Dr. Brittain's investigation reveal the fact that an audit was necessary in the interests of the citizens I was quite prepared to favor such an audit, and when I had no choice from among a number of reputable auditing firms, with well established reputations, I was satisfied that the auditor or firm of auditors, if engaged by the city, would meet with the entire approval of all."

"I wish to draw special attention to the fact that the appointment of an auditor is entirely conditional on Dr. Brittain's report. It is no light matter to commit the city to an expenditure which might easily reach \$40,000 until such a course is unavoidable."

DEFICIT OF \$2,000 FACED BY V. O. N.

Directors Give Serious Consideration to Financial Situation at Meeting Yesterday

The Victorian Order of Nurses in the city faces a deficit of \$2,000 on the present year's operations it was reported at the meeting of the Board of Directors, held yesterday afternoon, when the financial situation was given very serious consideration and many suggestions were put forward with regard to it. It was felt that the whole community must suffer in any manner if the Victorian Order work in the city, L. W. Simms, president, was in the chair.

The nurses' report given by the superintendent, Miss H. B. MacKay, showed that the month of October had been a very busy one. There were 198 new cases attended and 92 former cases were still under care. A total of 228. In all 910 nursing visits were made more than 600 of these being to mothers and infants.

There were 83 new babies cared for and the nurses were out on 24 night calls. The educational visits made during the month totalled about 384 and of these 120 were for prenatal work and 60 were for child welfare.

FAIRVILLE W. A. HAS ITS ANNUAL MEETING

Reports Show That Society Had Good Year—President is Re-elected

The 20th annual meeting of the Women's Auxiliary of the Church of the Good Shepherd, Fairville, was held yesterday afternoon in the church hall. Rev. F. J. LeRoy presided at the opening devotions. Mrs. Amy Bender, the president, was in the chair, and her address referred to the gratifying increase in membership.

Mrs. Charles Hill, treasurer, reported that the financial statement for the year was satisfactory. Mrs. Hannah Maguire, Dorcas secretary, told of the sending of a bale to an individual in the West. Mrs. Thomas Mitchell, the E. C. D. treasurer, reported that during her nine years' office the amount of the fund had more than doubled. She tendered her resignation, which was respectfully accepted. Mrs. Colin Gilker, Little Helpers' secretary, reported a membership of 40 and a satisfactory year raised.

Report was expressed that Mrs. Thomas Pile and Miss Charlotte Spike were absent through illness, both having undergone an operation recently.

OFFICERS NAMED.

Officers were elected as follows: President, Mrs. Amy Bender, who is entering upon her 19th consecutive year in office; vice-presidents, first, Mrs. A. O. Patrique; second, Mrs. H. L. Blagden; treasurer, Mrs. Charles Hill; recording secretary, Mrs. Thomas Mitchell; E. C. D. treasurer, Mrs. W. Clark; Living Message secretary, Mrs. Stuart Nelson; Dorcas secretary, Mrs. Hannah Maguire; Little Helpers secretary, Mrs. Colin Gilker; Junior superintendent, Mrs. Gerhard De Geer. At the close of the meeting dainty refreshments were served.

New Name Adopted By Organization

The organization, known as the Young Men's Association of the German street Baptist church, is no longer to be known by that name or the initials Y. M. A. Following the recent resignation of the president, E. J. Alexander, and the vice-president, Donaldson Hunt, a meeting was held and after electing Everett Hunt president and B. E. Hambley, vice-president, it was decided that a more appropriate designation for the body would be German Street Baptist Brotherhood.

The Sunday afternoon classes of the new organization will meet under that name. At a meeting of the executive committee were appointed and work of social, religious and educational nature outlined. Some interesting events are scheduled to take place very soon.
