Bonar Law Is Formally Chosen Conservative Leader

Carson One of Those at a Meeting Today in the Hotel Cecil

(Associated Press) London, Oct. 23.—Unless some unforeseen, unimagined development occurs, Andrew Bonar Law will, before today ends, be premier of Great Britain. The arrangements already reported for a Conservative party meeting at the Hotel Cecil stands, and there is every reason to believe the proceedings will pass along smoothly, with no opposition to the choice of Mr. Bonar Law as leader, which will give him power to accept the king's mandate.

As Hiram Sees It

"I spoke," said Mr. Hiram, "to the Times reporter, 'since you been away an' come back agin you'll get down an' write a long yarn about how glad you be to see him to dear old St. John—'n' tell the folks there ain't no bits more appreciate the merits of St. John."

"Well, no," said the reporter, "I really had not thought of it—must be you appreciate the merits of St. John."

"Good enough," said Hiram,—"anything else?"

"Every Monday morning," said the reporter, "I would like to see you rolled barrels of ashes, garbage and rubbish out to the edge of the sidewalk, and the contents were hauled away without cost."

"That's fine," said Hiram. "In that city also," said the reporter, "I found that all school books and supplies were free for all pupils. Also that when a boy was ready for high school he could go either to a technical or a classical high school. They care as much for the boy who is going to work in industry or commerce as the one who wants to be a doctor or a preacher or a lawyer. I thought I would write a paragraph about that."

"I would," said Hiram. "Yes, sir—I would. It might make folks up a little—By Hen!"

SON OF DETROIT MAYOR WEDS A CANADIAN GIRL

Kitchener, Ont., Oct. 23.—Probably the most splendid wedding that Kitchener ever saw took place last week when Miss Margaret Lang, youngest daughter of Mr. and Mrs. Geo. C. H. Lang of this city, and Frank Cousins, only son of Mayor and Mrs. James Cousins of Detroit, were married.

The bride, who entered the church escorted by her father, was radiant in a gown of ivory chiffon, velvet, with a girle of pearls, and a pearl-embroidered corset. Her veil of rose-point lace was held by a band of pearls and she carried a shower bouquet of white orchids, calla lilies and valley lilies. She was attended by Miss Madeline Cousins, sister of the groom, and the bridesmaids, Misses Rose Minkhan of Albany, N. Y., Eleanor Maeck of Detroit, Helen E. Hall of Toronto and Dolly Krug of Kitchener. They were gowned in the autumnal shades, with gold leaf berths, wearing brown velvet hats trimmed with gold ribbon bows, and gold slippers and carried baby chrysantheums and orchids. The flower girls were Betty Cousins, sister of the bride, and a bridemaid in pale yellow chiffon, which she eventually took them on leaving the Unionist meeting to-day Mr. Law said he would accept the offer of forming a ministry. He arranged to see an audience with King George to take place at 3.30 p. m. He emerged from the meeting smiling broadly, and consented to pose for photographers.

Mr. Law declared that this was not the time for introducing large schemes which might be beneficial to the empire, however dear to his heart. He said that he should rather hope for a period of quietness than one of fierce controversy. His reference was understood to be to tariff reform.

Mr. Law declared the Irish constitution must be carried out. Referring to Lloyd George, he said he was sure they would have a "pretty stiff tussle," but he hoped they would be good friends afterwards.

On leaving the Unionist meeting to-day Mr. Law said he would accept the offer of forming a ministry. He arranged to see an audience with King George to take place at 3.30 p. m. He emerged from the meeting smiling broadly, and consented to pose for photographers.

At the weekly meeting of the Methodist Ministers' Association this morning in Centenary church, Rev. J. M. Rice presided. Other ministers present were Rev. William Lawson, George Oram, Rev. Nell MacLauchlan, Rev. E. J. Watson, Rev. J. K. King, Rev. R. G. Fulton, Rev. E. E. Style, Rev. H. E. Thomas and Rev. H. A. Goodwin.

Rev. Mr. Watson gave an invitation to preach at a special Thanksgiving service on November 6 in Centenary.

Rev. Mr. Thomas, who was a delegate to the Methodist general conference in Toronto, was invited to give his personal impressions of the conference.

It was agreed to give the special collection to be taken up on Thanksgiving Day to the Protestant Orphan Home.

Parade Gloucester Streets in Protest Over the First Trial

American Ordered to Cut Sails Again—Bluenose First Across Line, But is Overtaken Before First Mark is Reached and Ford Soon Increases Lead.

(Canadian Press) Gloucester, Mass., Oct. 23.—The Gloucester schooner Henry Ford, with a make-shift crew, left her wharf in town at a tug at 9.15 a. m., to participate in an international fisherman's race. The crew began bending over her main sail as she left the dock.

At that time Bluenose, the Canadian defender of the trophy, was sailing around the Eastern Point. An increasing southerly breeze was coming in. The judges' boat was at anchor in the harbor.

The racing fishermen who man the Ford, in protest against the ruling which deprived them of their victory over the Bluenose on Saturday, refused to race today.

Captain Clayton Morrissey of the Ford said that he stood with his crew in the matter. It was likely, he said, that he would be fishing again within a day or two.

Captain Morrissey added that if he was ever going to fish again with the Henry Ford he would have to start now. Any further reduction of his sail area, he said, would leave his vessel with little more than bare poles.

This statement had reference to the fact that the international committee at the last moment ordered him to reduce his sail area to meet the official interpretation of the limit allowed him after it had been done in accordance with the provisions of the official measure. It was found that the sail had not been cut enough and would have to be slashed again.

"They've cut me down like a coaster," he said. "My boat is a deep sea fisherman and the sails are the sails finally yielded, but the stars and stripes to the mast head and shouted to the crew 'Come on, Men of Gloucester, bend the sail. The race is on.'"

When Captain Morrissey decided definitely that he had no crew left to race with and that he had no wish to race a new one, he went to Capt. Walters of the Bluenose. He must fish for a living and must give up racing when the sport includes no victories for anyone, cuts down our sails and leaves only a lot of yachting technicalities and committees arguing for them."

At an hour before the Ford left her dock the committee announced that if she did not appear at the starting point the Bluenose would start without her.

The Ford ascended for an hour's postponement, which was refused. The Ford then left for the starting line, rounding the breakwater at 9.30. Capt. Morrissey took charge of the bending on of the Ford's red mainmast.

Crew Elected. The scenes preceding the decision that the Ford would sail were dramatic. Members of the crew, carrying south-westerns and slickers, marched in a body through the main streets, shouting: "We're through. We'll have nothing to do with the committee or its race."

Asked if they would go to see the committee, they answered: "Let the committee come to us."

At the wharf where the Ford was docked they were met by Secretary Denby, who was an unofficial member of the Ford's crew in Saturday's race and planned to sail again today.

Appraisals made by Secretary of the New Denby and others indicated some of the Ford's crew to go aboard with Captain Morrissey. Others were recruited on the wharf and the Ford made ready to race.

Secretary Denby told the men that in a way the honor of the country was at stake. The Ford was the representative of the U. S., he said, and it might appear that the men were quitting under fire.

"You have a job on your hands still unfinished," he declared. "You have a big fish still to land." He recommended that they go aboard and get ready to sail.

Mrs. Jonathan Raymond, wife of a substitute member of the international racing committee added her word. She urged the men to go out and race and show the world what Gloucestermen were made of. Secretary Denby gained a few recruits and Mrs. Raymond a few more.

W. W. Luffin, collector of the port of Boston, and Chairman of the Committee with other committee members made individual appeals to the fishermen with indifferent success.

Refuse to Man Ford For Contest Today But Persuaded to Race

OWE THE RACE TODAY TO PLEAS OF A WOMAN

Wife of Member of Committee at Gloucester Won Over Rebellious Crew of the Henry Ford.

(Special to Times) Gloucester, Mass., Oct. 23.—A fragile woman died in a grey squirrel coat, pale but determined, made possible today's international race when for two hours on the deck of the American defender she pleaded with Captain Clayton Morrissey and crew of the Henry Ford to defend the honor of the United States and the proud marine record of the city of Gloucester just an hour before the start. She with secretary Denby finally won them over and secured their promise to meet the Bluenose.

The young woman, who tonight will be the bride of the Canadian, Mrs. Raymond, the charming wife of John Raymond, Jr., of Cleveland, had wealthy summer residence at Eastern Point. Her husband is a member of the international race committee and their guests during the series.

"When Mrs. Raymond, with Secretary Denby, made her way down the fish pier at seven o'clock this morning her presence was a revelation. The crew was at first grim in its determination to stay ashore and the skipper of the Ford was unwilling in his position to keep the challenger tied to the dock, but this fine American woman by her earnest appeals personally pleaded with the crew members of the American defender here, were invited to be their guests during the series.

It was they who would actually decide the matter. With indications that many of them would race he placed himself at their head and went aboard his boat to make up a full crew.

The Bluenose meanwhile had started out, passing the wharf, where the Ford lay. It is believed that one factor in inducing so many of the Ford's men to sail was the fact that the Canadian schooner might go over the course alone and the race be given her for forfeit.

The Two Skippers. The skipper of the Ford had heard of the matter of the international committee early that it would stand by the ruling of the sub-committee, declaring Saturday's race, apparently won by the Ford by a margin of two miles, to be the Bluenose and afterwards declared the Bluenose and afterwards declared: "I asked Capt. Watson and he considered we had won a fair victory, Saturday. I asked him if, should we race and he today, he would consider we had won the two races necessary to gain possession of the international championship cup. He said he would, and that he would sail home, leaving the cup behind.

"But my men are incensed over the rulings of these committees changing one thing after another, and no longer have any confidence in them. They felt that there was nothing to be gained by racing today. We won Saturday, only to lose. We cut our sails, only to have to cut them off. We are no new crew. For fishing my men are the best bunch of fish killers of the North Atlantic. I stand with them."

With a ten knot wind about southwest the No. 2 course, selected by the committee, gave the boats a broad reach of five miles to Thatcher's, a ten mile beat up the bay, a broad reach off shore of ten miles, another reach of ten miles back of Thatcher's, and a close fetch or a beat of five miles to the finish. The race started at 11 m.

The Bluenose crossed first, but the Ford quickly caught up and passed her, gaining a lead of fifty yards, which she maintained at 11.15. Two minutes before the start, the Bluenose, to the leeward, headed for the line, rather sharply on the starboard tack. The Ford was well up to windward, with Captain Morrissey judging the distance beautifully. The Bluenose succeeded in crossing first. At 11.15 the Ford was slightly astern, having a lead of about 100 yards. At the first mark the Bluenose was 45 seconds behind. Ford, 11.23.10; Bluenose, 11.25.55.

At 11.40 the Ford was still in the lead but did not seem to draw away as (Continued on page 2, fifth column.)

REFUSES PERMANENT INJUNCTION ON "BONE DRY" RULING

New York, Oct. 23.—Federal Judge Learned Hand today handed down a decision dismissing the motion of foreign and U. MILLER BOOM FOR PRESIDENCY

Governor of New York is Talked of as Candidate in 1924.

Washington, Oct. 23.—(By Canadian Press)—Governor Miller of New York is suddenly beginning to command national notice as the possible nominee of the republican party for President in 1924.

Up to date, the Miller boom and the Beveridge boom for 1924 are the most conspicuous of the presidential movements, so far as the republican camp is concerned. Senator Pepper of Pennsylvania may develop a strong following in California, Borah Idaho, and former Senator Kenyon of Iowa.

There are signs of a clash among the republican members of the House over the organization of the new House after March 4. Plans of the agricultural group and progressive republicans to wrest control from the Old Guard republicans of the east are being steadily pressed. At the same time, the Old Guard leaders are far from asleep.

ROTARIANS TODAY HAD AN INTERESTING TIME

Fletcher Peacock, director of vocational training today made a powerful appeal to the Rotary Club in behalf of that cause. He was strongly backed by Mr. McIntyre of the St. John school board, who urged the need of a building to house a vocational high school.

The family of the late Douglas Brown wish to express their thanks to the staff of the General Public Hospital for their many friends for kindness and sympathy shown them during their recent illness and bereavement.

IRISH PREMIER'S ASSISTANTS ARE YOUNG MEN

Kevin O'Higgins Nephew of Sullivan and Healy

He is Under Thirty Years of Age and Fully Competent for Post of Home Minister—Ernest Blythe, and O'Hogan Other Helps to Cosgrave.

Dublin, Oct. 23.—(Associated Press by Mail)—The provision under the Free State constitution that no minister, directing important departments shall not be members of parliament has afforded opportunity of appointing to such posts men of ability irrespective of their political popularity.

Next in importance is Ernest Blythe, now minister for local government and in charge of all the public administrative bodies in Ireland, both municipal and rural. He also is in jail, and during the Sinn Fein regime was minister of trade. He is very young; comes from the north of Ireland, and speaks English with a strong Ulster accent. He is a capable debater, and frequently deputized for Cosgrave in the government of the House.

These three young men are Mr. Cosgrave's chief assistants. They all share fully the common sense attitude which has marked his conduct since he became prime minister. They are all firm and less yielding than the parliament was accustomed to from either Mr. Griffith or Mr. Collins. His purpose is fixed and declared. He avoids being led into speculative debate, and resists all suggestions to "make it unanimous," unless the ministerial majority is able to conduct its administrative affairs for the next year and a half successfully there is every indication that a most formidable movement for his nomination for president will be organized. This will be the case especially if President Harding says he will not accept another nomination in the White House. It may be the case regardless of President Harding.

REFUSE TO MAN FORD FOR RACE

(Continued from page 1.) He did on Saturday. The boats sailed the first leg at a rate of twelve knots an hour.

Bluenose set her stayalls after rounding the first mark but the Ford continued on without and seemed to have a better of the argument. A shift of the wind from southeast, working around the south, robbed the boats of a chance to beat the breeze and the race developed into the same kind as that of Saturday—a reaching affair throughout.

At 11:45 the Ford sent up her stayalls again as the Bluenose had been gradually overhauling her. The Ford's lead was very meagre and the Bluenose was holding a trifle closer to the breeze and footing just as fast.

At noon both boats were hard on the port tack off Eastern Point and had sailed more than one half of the second leg. The Ford had drawn away until she had a lead of 200 yards. She was sailing practically as high as the Bluenose, although the latter was a trifle to the weather of the Ford's wake.

The wind had fallen to six knots and both boats showed but little list to starboard.

Well in Lead. Later the Ford picked up the wind and began to gain rapidly. She was leading by one quarter of a mile and dropping the Bluenose as fast as on Saturday. At 12:25 the lead had been increased to more than 600 yards.

After the Ford had gained a lead of 600 yards, the Bluenose appeared to hold her for a few minutes and the U. S. boat could not pull away.

The Boston schooner Mayflower followed the two closely, under the same sail and appeared to hold both of them. At 12:58 the Ford lacked to starboard and headed for the second mark, two miles away. Her crew was somewhat slow in handling the light sails and it was five minutes before the stayalls were reset and she fetted home.

She crossed the Bluenose about 300 yards. At 1 o'clock the Ford was leading by 500 yards.

PSYCHOLOGICAL HEAT AT SING SING

Employer With a Hammer Imitates the Knocking of Steam Pipes, and Innates Feel Warm.

Ossining, Oct. 23.—A hammer and a chisel used by an employee of Sing Sing furnished what he terms "psychological heat" in the absence of steam in the prison and stopped complaints made by persons in the prison about the cold. Sing Sing is converting fuel. During the daylight hours the heat has been shut off in the prison. A complaint was received from the office of David Vail, Deputy Controller, who keeps the prison's funds and accounts, that it was too cold to work. Prisoners also complained.

CITY HANDLES

Wellington, New Zealand, Wins Distinction—Municipal Control Well Operated.

London, Oct. 23.—(Canadian Press.)—The City of Wellington, New Zealand, with a population of 107,428, has achieved distinction by establishing a municipal milk supply system. It is a system, moreover, which has earned credit from doctors and health authorities because of the purity of the supply, and from business men by the efficiency of its management.

The enterprise has been developed by gradual stages, and not without some mistakes and unsuccessful experiments. The attention given to infant welfare by the state health department and by the Society for the Health of Women and Children has led to the milk supply in New Zealand cities being subjected to careful examination.

Already detailed herds throughout the country are subject to inspection by the agricultural department, but between the farm and the city dwelling there is room for adulteration and contamination for which no inspection system has proved a complete remedy.

As a first step towards a better state of affairs the city council of Wellington, with statutory authority, made it compulsory for all milk to be passed through a clearing station, where it was filtered, pasteurized, and tested. The council also obtained a distribution within the city limits. To use its power effectively, the council secured a monopoly of the milk from the farms.

Contracts were made with suppliers, and a cessant to pay a higher price to suppliers who would guarantee to supply an even quantity all the year round. It also offered a bonus for better quality.

Having by this means assured a regular and pure supply, the council gave its attention to improving the methods of distribution. Private vendors were formed into distributing companies, with a guarantee to pay a higher price to the city was divided into blocks—no one company to each block—so that the loss arising from the overlapping of the three rounds should be ended. The "three years" term ended last July, and the council, being unable to obtain satisfactory results, undertook the distribution itself.

Two important departures were made in the method of distribution, and sale. First, all milk was delivered in sealed bottles, and, second, all payments were made by coupons or tokens, which customers were required to purchase in advance. In spite of the natural difficulty of introducing a new system and of trouble with one company, which compelled the council to control the delivery earlier than was expected, the scheme was in working order in less than a week.

The people are now thoroughly appreciative of the purity and full measure of the milk, and the full measure are assured by the sealed bottle system.

So far as can be ascertained by comparison with other cities in New Zealand, the economies effected in distribution in Wellington have been sufficient to meet the cost of the measures taken to assure purity and good quality.

POISONED PIE POLICIES OFFERED

To Protect Dealers Against Claims for Damages by People Made Sick.

New York, Oct. 23.—Henry W. Ives & Co., insurance brokers, advertised in business publications an offer of "poisoned pie insurance" for restaurants, grocery stores, and other places where food is sold. The policy was designed to protect them against claims for damages by persons who became sick from the recent cakes of a Broadway restaurant which served pie and pastry containing arsenic, which caused the death of eleven people and severe illness to more than fifty. District Attorney Benton said that the evidence so far collected did not show whether it was accident or crime. Damages of more than \$100,000 have been claimed by the victims.

A Mahogany Suite With New Art Work

In ever so many ways this six piece suite in solid mahogany is different from all the classic designs, although it draws its inspiration from the mid-Victorian, the latest of the periods in furniture progression.

The dressing table has but one ornamented back mirror. The others for the first time are small movable ovals on pedestals, light and convenient to handle.

A two toned effect is produced in every piece—in the border of the table and in dark oval centered in the chair and bow end bed. There is the predominant English line of suggested strength that originated with the Greeks and Romans, and the restrained ornamentation reflects the later Jacobean period, yet nowhere is there copying.

The ball turned legs complete the harmony again in a very chic rocker and bench.

And the price of this solid dust-proof suite of six pieces in mahogany is no more than \$301

G. FRED FISHER'S PLATFORM

- No. 1-(a) The completion and signing of the contract with the New Brunswick Electric Power Commission for Musquash Power. (b) The appointment of an independent Civic Hydro Electric Commission to construct a Civic Distribution System and operate same.

TO THE VOTERS OF ST. JOHN.

On one side in the majority contest are the citizens of St. John and their interests, and on the other are the New Brunswick Power Company and its interests.

The question the voter has to ask himself or herself is simple. It is this: Shall I vote for myself and the city, or for the New Brunswick Power Company and its watered stock?

The whole matter has reduced itself to this simple question. The fact that the power company is Mayor McLellan's most ardent backer in the campaign is ample warning to the citizens that if the city's interests are to take precedence the candidate backed by the power company must be defeated.

THE PRINCIPLE AT STAKE.

Mr. H. R. McLellan was not elected mayor of St. John in April last because the citizens preferred him to Mr. E. A. Schofield. They were not making a choice between men. They were out to establish a principle, and it happened to involve the election of Mr. McLellan. They knew they could recall a mayor at any time, but believed that if the New Brunswick Power Company got its clutches on the Musquash current for even two years it would mean good-bye to all hopes of power at cost.

LIGHTER VEIN.

The Other Things. "I am delighted to hear of your success on the school baseball team," said his aunt, "but you must remember that there are other things in life besides baseball."

Safety First. "Admission tickets were the price recently charged for a concert in Wurttemberg. This plan of protecting the performers by covering all the ammunition might be borrowed by those meditating a political career."

The Higher Power. "The Wife—I see by tonight's paper that Paris says women are going to wear their dresses longer. The Husband—It's a good thing. You never wear a dress over a month, darling."

The Hard Part. Millionaire (speaking to body of students)—All my success, all my tremendous financial prestige, I owe to one thing alone—pluck, pluck, pluck.

IDEAL COMMUNISM PLAN OF DEVONIANS

Motto "As Much for One as the Other."

Fort William, Oct. 23.—Ideal communism, at the same time conforming to the law of Canada and Ontario, will be the doctrine of the Devonians, will be the banner of the Devonians, will be the banner of the Devonians, will be the banner of the Devonians.

"As much for one as the other," equality of division, no privileges; these will be the cardinal points of their Utopian settlement, thirty-five miles south of Fort William.

There will be no such thing as an individual crop for one family. The yield from the acreage held by the full settlement will be pooled and divided on the basis of each family's size, or the proceeds from the harvest will be sold in bulk.

The first step will be the erection of a saw mill this winter, and the selection of a number of members of the community to clear a certain amount of land, equal acreage on each lot.

324 POUNDS OF POTATOES FROM ONE POUND OF SEED

London, Oct. 6.—(A. P. by mail)—What is said to be a world's record in potato growing is reported from Ilkerton. In the presence of a large number of people a farmer named F. Pool, weighed potatoes totalling 324 pounds six ounces, all of which was produced from one pound of seed.

In Short Metre

Mr. Bodell asks the people of St. John to give the property of the New Brunswick Power Company a value of \$3,909,000, made up as follows:

Table with 2 columns: Item, Value. Bonds \$1,869,000; Stock, 1st pd. 1,000,000; Stock, 2nd pd. 350,000; City bonds 690,000; Total \$3,909,000.

But this is not all. If the city took over the operation of the whole plant, it would have to spend at least \$330,000 on the street railway and distribution plant, and an unknown quantity on the gas plant.

Add \$500,000 to the \$3,909,000 and you have a value of \$4,409,000. But the city would not own the plant. If it desired to become the owner it would have to buy the bonds and stock of the company and redeem its own bonds at a total value fixed by itself at \$3,909,000.

Does that value exist, outside of the fertile imagination of the New Brunswick Power Company? Will the people recognize it and then pay it? What will the company's property be worth a year hence if the city goes into competition—as it has a perfect right to do? If somebody is to be hit in this controversy, is it the city of St. John—which has been so often hit by the power company and its predecessors?

Bear in mind also the run down condition of the street railway and gas plant. A million dollars, or two millions, is as good for the city of St. John as for the power company. (Reproduced from The Telegraph of Aug. 8.)

THE FLOWER OF REMEMBRANCE

(By G. W. V. A. News Service) Ottawa, Oct. 19.—The Flanders poppy, immortalized by Lieut. Col. McCrea's poem "In Flanders Fields," will again be the "flower of remembrance" to the people of Canada on Armistice Day, November 11.

The poppy is recognized throughout the British Empire as "the flower of remembrance" on Armistice Day. It is also recognized in the United States, Cuba, Belgium and France on this great anniversary.

**POINTS TO REMEMBER.**

Remember that there is no advantage in using a plate voltage in excess of that for which the tube is rated. If the tube is highly evacuated and has a tungsten filament an excessive plate voltage may not injure the tube, but if used as a detector the results will not be as satisfactory.

A pale blue glow in a tube denotes ionization of the gas contained in the tube. In this condition the tube will not operate properly as a detector. The remedy is to reduce the plate voltage until the tube functions properly.

Regeneration is produced by feeding back oscillating energy from the plate circuit to the grid circuit. Of the many arrangements of circuits to produce regeneration the two in general use are the "tuned plate" circuit and the circuit employing the "tickler" coil.

In a regenerative circuit employing the "tickler" coil the relative polarity between this coil and the secondary coil must be correct in order for the radio-frequency plate current to increase the strength of the oscillations.

Oxide-coated filaments should not be worked above a dull red heat while tungsten filaments may be heated to a degree of incandescence which corresponds to the normal value of the filament current.

If a tree is used as a support for the antenna it is important that the wires be kept clear of the tree, for otherwise the tree absorbs the electric waves and conducts them to earth.

The use of alternating current to heat the filament of tubes employed in transmission increases the length of life of the filament about four times, owing to the fact that the filament partially cools between reversals of current. The cooler the filament is operated the longer it will last.

Carbon bisulphide is excellent for cleaning the surface of crystals. It should be put on a surface cloth and rubbed over the surface of the crystal.

Radio-frequency amplification compensates for the lack of sensitivity of the vacuum tube while audio-frequency amplification compensates for the lack of sensitivity of the human ear.

The fully charged voltage of a lead storage cell is 2.1 volts, and at this point the specific gravity is approximately 1.280. The discharged voltage is about 1.8 volts with a specific gravity of 1.190. The majority of lead storage batteries give greatest efficiency on an eight hour basis. It is necessary to put from 15 to 20 per cent. more energy into a battery than is taken out. When mixing electrolyte for a lead storage cell always pour the acid into the water a few drops at a time, never pour the water into the acid. If water is added to acid a violent chemical action takes place, due to the drops of water expanding and exploding below the surface of the acid.

**Morrison-Anderson.**  
At Burn Church, on Thursday, Miss Frances Marion Anderson, daughter of William Anderson, was united in marriage to J. Raymond Morrison, son of Mr. and Mrs. James Morrison, by Rev. J. Mortimer in St. David's church. Mr. and Mrs. Morrison left on a honeymoon trip through the province.

**Kendall Seary.**  
Rev. A. L. Fleming, rector of St. John's (Stone) church, officiated at a very pretty wedding in the church on Saturday afternoon at 2:30 o'clock, when he united in marriage Miss Frances May Seary, daughter of Mr. and Mrs. George Seary of Yarmouth, to Frederick J. Knodel, son of Mr. and Mrs. William J. Knodel, 54 Pitt street. The bride wore a charming traveling suit of navy point twill with fox scarf and imported black velvet hat with ostrich trimming, and carried a bouquet of Ophelia roses. She was given away by her brother-in-law, William J. Bambury, and was attended by Mrs. Bambury, who wore black Canton crepe and a corsage bouquet of American Beauty roses. Merl H. Knodel, brother of the groom, was the best man. Mr. and Mrs. Knodel left immediately after the ceremony for a honeymoon trip to Montreal, Ottawa, Toronto and Niagara Falls. The groom is a packer for the Cudahy Packing Company, and the bride was formerly connected with the C. P. R. They received a great many beautiful and useful presents.

## FINE ADDRESSES AT RED CROSS PUBLIC MEETING

Work of Society in Peace and War is Outlined by Speakers Who Know Their Subject.

Indisputable testimony to the valuable work of the Red Cross in war time and peace was given yesterday afternoon in the Imperial Theatre by men who know from experience what the society means in the life of the country and there is no doubt that those who listened to the tributes came away better informed as to the part

played by the international society in the world's work. His Honor Lieutenant-Governor Pugsley was chairman of the meeting and the other speakers were—Dr. H. L. Abramson, provincial pathologist; Rev. H. B. Clarke, pastor of the Portland street Methodist church; J. B. Dever and R. T. Hayes, M.P.P., president of the provincial Red Cross.

A quartette consisting of Mr. and Mrs. Thomas Guy, Mrs. Louis LeLacheur and Harry Shaw, accompanied by an orchestra composed of Mrs. Leslie Peters, Mr. Holder and Leslie Crighton, sang "O Canada," "The Battle Hymn of the Republic" and "Land of Hope and Glory" at the opening of the programme and "Safe Home at Last" during the course of the proceedings. Members of the society acted as ushers and Mrs. Frank S. White, president of the local Red Cross Society, was in charge of the programme. The boxes were occupied by prominent people and members of local organizations including the city council.

His Honor the lieutenant-governor, in speaking of his pleasure in presiding at a meeting in the interests of the Red Cross, said that while many organizations were engaged in patriotic

and humanitarian work, no society had so strong an appeal as the Red Cross Society which was now coming before the public with a campaign membership. Its noble deeds in war had thrilled the people, and that same spirit of self-sacrifice was leading it on in humanitarian work after the war. He could say from the bottom of his heart whatever was given to the Red Cross Society was given to the cause of humanity, and whatever was done to aid its work was done to the glory of God.

Dr. Abramson dealt with the origin of the society telling of its formation to care for those wounded in war. He had assumed the proportions which it now maintained. The Red Cross, he said, was non-political, its only action with reference to governments being to urge them to action in the interests of mankind. Another good work done by the society, he said, was to help to obliterate misunderstandings between nations which the society was in a good position to do because of its international connection.

J. B. Dever, who spoke as a veteran of the great war, told of the blessings conferred by the society in its good deeds on the battlefields and shell-swept areas as well as in dug-outs. Its work had served as a constant reminder to the men that their friends and relatives thousands of miles away had not forgotten them. The same spirit which permeated the work of the society in war time was present in its peace time programme and was well worthy of the greatest support which could be ac-

### CENTRAL BAPTIST BROTHERHOOD

The Baracca Brotherhood of Central Baptist church opened the fall season yesterday and discussed plans for the winter work. J. L. Collins, the president, was in the chair, and selections were sung by the brotherhood quartette, consisting of Dr. Baker and Messrs. Maslinney, Holder and Smith. The election of officers for the coming year resulted as follows: President, J. L. Collins; first vice-president, Frederick Bryden; second vice-president, Willard McDonald; secretary, W. Edgar Campbell; assistant secretary, Cecil Harding; treasurer, Carl Coonan; registrar, T. K. Copp; pianist, Mrs. I. W. N. Baker; teacher, Dr. I. W. N. Baker; convener of committees, Members, V. J. Dunphy; room, George Hetherington; sick visiting, J. L. Collins; social, Fred Bryden; music, Dr. Baker; publicity, A. Everett.

### RED CROSS PAGEANT.

A rehearsal of the cast for the Red Cross pageant to be held in St. John's was directed by Mrs. G. A. Kuhring

in the Pythian Castle Hall on Saturday evening. A great deal of success was met with in the presentation. The stage manager, Miss Jessie Lawson and Mrs. A. C. D. Wilson, will have full charge of the further drilling of the cast.

The pageant which was presented in McAdam about a week ago was a great success, the hall being filled to capacity. The programme consisted of an opening chorus by the children, the presentation of the pageant, a closing chorus by the C. G. I. T. group, an illustrated address on the work of the Red Cross society, given by Mrs. G. A. Kuhring, and a review of the war work of the society and an explanation of the work of the Prince William street depot, by Miss Ethel Hissen Jarvis, provincial secretary. Miss Jarvis complimented the McAdam branch on its war work and said full records of that work were filed at the depot.

### HOME FROM CONVENTION.

T. P. Regan, K. C., president of the New Brunswick Automobile Association, returned last night from Montreal where he attended a convention of the Canadian Good Roads Association last week. Several matters of importance were discussed at the meeting among them that of cars traveling with only one headlight. It was decided to press for new legislation in this matter to force cars to carry three lights, two in front and one in the rear. The Turn to the Right rule in New Brunswick met with the hearty approval of the meeting and the Nova Scotia and Prince Edward Island members spoke of the possibility of its enforcement there. A very fine programme of social events was open to the visitors and several tours of interest were conducted. The New Brunswick delegates present were: Hon. P. J. Veniot, B. M. Hill, provincial road engineer, and Mr. Regan.

### CAR DITCHED.

Mr. and Mrs. P. Gibbons and child, with Thomas Evans, were driving towards town along the Loch Lomond Road last evening about six o'clock when they were met by another car going at a fairly rapid rate of speed and with undimmed lights. The car failed to turn out from the centre of the road and Mr. Gibbons was forced to drive his over a twelve foot embankment. All four were thrown out of the car but, with the exception of Mr. Evans, who received a bad bruise to his side, all escaped any serious accident. The car was not badly damaged, but had to be abandoned for the night.

A truck owned by Max Jacobson skidded near the corner of Pond and Mill streets on Saturday evening, struck the curb and upset, damaging the top. The driver escaped uninjured.

### Beaver Boarding Pays in Business Buildings, Too!

AN office or store lined with attractive Beaver Board panels always makes a good impression. And it wears as well as it looks!

Whether you are re-lining old walls and ceilings; partitioning new offices, or re-building workrooms and restrooms—genuine Beaver Board installations are quickly and easily put up, without interfering with business—over old plaster—no muss or litter. And the cost is surprisingly low.

Genuine Beaver Board is real, flawless, knotless, manufactured lumber. It comes in big, wide panels, made from the long, tough fibres of white spruce. The surface is sealed and protected by our patented Sealite process.

Ask any building material dealer or carpenter to estimate on genuine Beaver Boarding for your office, store or house. Right now, prices are low and delivery is prompt. Call or phone to-day.

### MORNING NEWS OVER THE WIRES

Fire on Saturday morning destroyed a dwelling, barn and carriage house leased to Henry L. Rodgerson at Rockville, near Yarmouth. Mr. Rodgerson was awakened by the cries of his children and found their room filled with smoke. One of the children was covered with plaster which had fallen from a burning ceiling into its crib.

Five race horses, four noted pacers, and a well known trotter were destroyed in a fire yesterday which swept through the famous Charter Oak stables near Hartford, Conn. The horses were valued at approximately \$30,000. The origin of the fire is unknown.

His Lordship Bishop LeBlanc yesterday confirmed a large class at St. Dunstan's church in Fredericton.

James A. Crawford of Apohaqui lost a large barn together with 250 bushels of oats, fifty tons of hay and pieces of farm implements in a fire which broke out on Saturday morning. Comparatively little insurance was carried.

Five deaths occurred from accidents in Montreal over the week end. Claude Smith received burns from an electric wire which resulted in his death. Rene Fremette died from narcotic poisoning in the Montreal General Hospital. Pierre Bland, struck by a street car on Friday night, died in the hospital on Saturday morning. Simone Mayer, a five-year-old girl died in the Western Hospital from being struck by an automobile. Eugene Gervais died on Saturday night from a fractured skull received in an automobile collision.

Men giving their names as Joseph Kirk and Eddie Welch of Boston were arrested last evening by E. W. Grant, sheriff of Aroostook county, and George W. Graves, deputy sheriff, when they attempted to search the sheriff's car for liquor near Houlton. It is thought that these men have been holding up cars for some time on the pretence of searching them for liquor.

A Freak Kitten.  
New York, Oct. 23.—(By Canadian Press)—Brooklyn has entered a bid for fame with the announcement that Miss Vera Kane, the four-year-old daughter of Mr. and Mrs. Joseph Kane, of 1407 Seventy-seventh street, of her adoption of an acrobatic kitten, Wool by name, which is four weeks old and has twenty-three claws. Wool can walk on her hind legs and turn cartwheels. Her mother is a respectable tabby with only the ordinary cat's allowance of claws—twenty.

LEAPS TO HIS DEATH UNDER EXPRESS TRAIN  
Brooklyn Coal Buyer, Worried Over Money, Ends Life on Long Island Rails.  
New York, Oct. 23—A man believed to have been Frederick Elliott of Highland avenue, St. Albans, jumped in front of an eastbound express train from the Warwick street station of the Long Island Railroad over Atlantic avenue, Brooklyn, and was cut in pieces.  
The only man who saw him jump was John P. Shreve, Riverain Dispatch, riding on the front platform of the train. He called to the motorman, Henry Amz, but the entire train passed over Elliott before it could be stopped.  
A search of his clothing revealed a postal card in an envelope addressed to his wife. It read:  
"Dear Lily: I hope you will forgive me for what I have done. Ask Harry to take care of you and keep good. I cannot bear to face you and the children in such disgrace. But it will all blow over some day and you can live happily with the children. Love and kisses. FRBD."  
For Arthur Ostrander, a brother of Mrs. Elliott, identified clothing and articles as those of Frederick Elliott last night. He said that Elliott was 38 years old and had two children, Margaret, 8, and Howard, 6. He was a coal buyer for the Brooklyn Union Gas Company attached to a branch only half a block from where he jumped to his death.  
The financial trouble Elliott referred to in his letter to his wife, Ostrander

CHANCE WILL NOT MANAGE RED SOX

Boston Club May Call Off The Deal With The Detroit Tigers.

New York, Oct. 21.—You can't keep "old man" rumor" quiet during the off-season. He likes the spotlight as well as the next one and he's always around with a tale or two about this thing or that.

Mr. Frazee, being the president of the Red Sox, and who should know what's what concerning the Boston Club, was quizzed about the tale. Mr. Frazee declared that Chance has not been signed to manage the Red Sox next year.

The Boston Club would give the Tigers "Rip" Collins, the pitcher, and the veteran second baseman for Howard Ehmke, the pitcher, Carl Hollings, a recruit right-hander and Danny Clark, a young infielder. Also, the Boston Club was to receive \$35,000 in cash to complete the trade.

"The Boston Club agreed to give the Detroit Club Collins and Pratt for three players," said Mr. Frazee in discussing the deal tonight. "The Boston Club named the players it desired and the deal was practically closed. But now the Detroit Club refuses to part with one of the players we want and the deal may be called off in a day or two."

HIGH SCHOOL AND ROTHSAY IN 3-3 TIE GAME

The St. John High School football team held Frederickton High School fifteen to a tie on Saturday and forced them to touch for safety eight times during the game. The game was bitterly contested, and was witnessed by large throngs of enthusiasts.

The line-up of the teams follows: Frederickton: Fullback, Peters; Halfbacks, Humphrey, McCordie; Guards, Campbell, Kean; Ends, (Capt.) McInerney, Wilson; Snodgrass; Tacklers, Rice, Scott; Linebackers, Mulcahy, Hickson; Forwards, Linton, Mills; Centers, Kincaid, MacFarlane; Ewing; Winters; Sparring Partners, Fox, Spares; Fredrickton: Babbit, Vivien, Bliss, Murphy and Walker; St. John: Case, Clifford; Referee—A. McCloskey.

FORD FINISHES FIRST; CONTEST DECLARED OFF

Although the Henry Ford romped home, Saturday, leading the Bluecross Canadian champion, the committee declared it no race. There was some confusion in the orders, and both schooners failed to return, although ordered to do so after a false start. Captain Angus Walters started to obey the order and began to clew his foresail and lower the stay sail, preliminary to coming about, when Russell Smith, official American observer aboard the defender, said he had something to say about the race and that it should be continued. As the wind light and there seemed no possibility of finishing within the time limit, it was decided to let them continue and not discontinue the thousands of spectators. It was found that the Ford was carrying 135 square feet more sail than permitted under the rules and this was removed yesterday. The result of the race caused much controversy and after heated discussions it was finally arranged to start the series today.

SAYS SCHOONER RACE DEFEATED PURPOSE IS DEFEATED

New York, Oct. 23.—The New York Herald, discussing the challenge of the Bluecross to a special race with the winner of Saturday's schooner race, points out that under ordinary circumstances such challenge races have usually fallen rather flat, and adds: "But an unusual circumstance about the Mayflower's challenge to the winner of Saturday's schooner race was that it was issued and agreed upon a week before the International A. Sterling race, which was the only natural that the owners of the Henry Ford should have accepted Mayflower's challenge, and Nova Scotia showed its sporting blood by following the same course."

"Keen as will be the interest in the Bluecross-Henry Ford series which begins on Saturday at Gloucester, it looks as though this contest will be overshadowed by the race in which the Boston schooner will have the chance to show which she has been seeking for two years, how fast she can sail in a real fishermen's race."

LADIES! DARKEN YOUR GRAY HAIR

Look years younger! Use Grandmother's recipe of Sage Tea and Sulphur and nobody will know.

The use of Sage and Sulphur for restoring faded, gray hair to its natural color dates back to grandmother's time. She used it to keep her hair beautifully dark, glossy and attractive. Whenever her hair took on that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect.

But brewing at home is messy and out-of-date. Nowadays, by asking at any drug store for a bottle of "Weyth's Sage and Sulphur Compound," you will get this famous old preparation, improved by the addition of other ingredients, which can be depended upon to restore natural color and beauty to the hair.

A well-known downtown druggist says it darkens the hair so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through your hair, taking one strand at a time. By morning the gray hair disappears, and after another application or two, it becomes beautifully dark and glossy.

Floyd Johnson, Harry Greb, or Captain Bob Roper, Roper and Greb light here on Monday night. Murray would match Johnson with the winner of the Greb-Roper encounter, the victor then to be matched with Firpo. He said that the purse for the last named bout would be equivalent to \$50,000.

Our portrait is of Mr. MICHAEL T. ROONEY, of 85, Grosvenor Avenue, Long Eaton, England, who writes: "Some years ago whilst touring Ireland with 'Sanger's Royal Circus,' I contracted some kind of a terrible skin complaint, which seemed to battle different treatments in the way of ointments and lotions, all of which utterly failed to give me the slightest relief. Recently at Long Eaton, where I am engaged as Advertising Manager of the Picture Palace, the conductor there begged me to try Clark's Blood Mixture, but I refused. However, he, knowing its curative powers from experience, made me a present of a bottle, which I began to take. Recognizing a slight improvement in my limbs, I got another bottle, and continued the treatment until I had used four bottles, and now my skin is perfectly healthy again."

Sufferers from Bad Legs, Abscesses, Ulcers, Eczema, Bells Palsy, Eruptions, Rheumatism, etc., should realize that lotions and ointments can but give temporary relief to be sure of complete and lasting benefit, the blood must be thoroughly cleansed of the impure matter, the true cause of such troubles. Clark's Blood Mixture quickly attacks, overcomes, and expels the impurities, that is why so many remarkable recoveries stand to its credit. Pleasant to take, and free from injurious ingredients.

Of all Dealers—see that you get Clark's Blood Mixture "Everybody's Blood Purifier."

Cincinnati, Oct. 23.—Austrian-Hungarian, star outlander of the St. Louis Cardinals, was operated upon at a hospital here for tumor of the brain. Dr. George Meuser, who performed the operation, said part of the tumor was removed, but on account of its location, it was impossible to remove all of it. He said he hopes McInerney would be thoroughly recovered, but that it was too early to make a definite prediction. McInerney, who lives at Portsmouth, Ohio, came to Cincinnati several days ago to undergo the operation.

IF BACK HURTS BEGIN ON SALTS

Flush Your Kidneys Occasionally if You Eat Too Much Meat.

No man or woman who eats lots of meat regularly can make a mistake by flushing the kidneys occasionally, says a well-known authority. Too much meat may form uric acid, which clogs the kidney pores so that they sluggishly filter or strain only part of the waste and poisons from the blood; then you get sick. Rheumatism, headaches, liver trouble, nervousness, constipation, dizziness, sleeplessness, bladder disorders often come from sluggish kidneys.

The moment you feel a dull ache in the kidneys or your back hurts, or if the urine is cloudy, offensive, full of sediment, irregular of passage or attended by a sensation of stinging, get about four ounces of Jad Salts from any reliable pharmacy and take a tablespoonful in a glass of water before breakfast for a few days and your kidneys may then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush clogged kidneys and stimulate them to activity, also to help neutralize the acids in urine so it no longer causes irritation, thus often ending bladder disorders.

Jad Salts is inexpensive and cannot injure, makes a delightful effervescent lithia water drink, which everyone can take now and then to help keep the kidneys clean and the blood pure, thereby often preventing serious kidney complications.

BANDITS BLOW OPEN BANK SAFE, BUT GET ONLY \$35 IN PENNIES

Glens Falls, N. Y., Oct. 23.—A safe-cracking job on the vault of the First National Bank of South Glens Falls, netted the perpetrators only \$35 in pennies. The burglars blew the outer door of the vault to pieces, but were unable to penetrate the inner vault.

Investigation showed that at least three charges of explosives were detonated by the burglars. First they blew the combination on the outer doors, then they tore open a pilot gate and blew off the inner doors and used a third charge in an attempt to get into the inner vault.

Owing to the damage done to the safe, it was impossible for the bank officials to open it for business. A bank in this city advanced enough money for the transaction of the day's business.

WEEK-END AT Y. M. C. A. The week-end programme at the Y. M. C. A. attracted large numbers. At the Saturday afternoon Bible class, conducted by Rev. R. P. Strong from Ironized Yeast Simply Glorious!

It Follows a Natural Law Which Never Changes or Fails. The Entire Body Quickly Feels New Power!

"I've just about gone to pieces!" Do you know that getting back strength is comparatively easy? But do you realize that it is almost impossible to get back your strength by means of unnatural drugs? Do you know why? Ironized Yeast is a more mixture of yeast and iron, but yeast ironized, which is a substance all by itself. That's what makes ironized yeast so powerful. The remarkable power of yeast-vitamins-ironized has been proven. There is now no further excuse for being weak, sick, run-down, ironized yeast contains the tremendous natural building forces of vitamins and iron, and it builds and strengthens in half the usual time. Do you know why? Ironized Yeast is not a mere mixture of yeast and iron, but yeast ironized, which is a substance all by itself. That's what makes ironized yeast so powerful. WON'T HURT EMPIRE

Col. Amery Says Drift to the Overseas Dominions Means Prosperity of the Race.

London, Oct. 23.—Interimperial migration had a prominent place in the discussion at the international conference on the reaffirmation of the world's moral ideals, held in Caxton Hall, Westminster.

Lord Parmoor, presiding, referred to the widespread irregularity of sex relations, and Sir Joseph Cook, High Commissioner for Australia in London, expressed the opinion that emigration within the Empire was itself one of the fundamental remedies.

Col. L. C. Amery, Secretary to the Board of Admiralty, said it was a mistaken idea that migration meant a reduction of population in the country, and possibly a weakening of its resources. Migration meant an increase of population and prosperity for the race. In the immediate condition of Great Britain, faced by urgent financial problems, of congestion and growth of population in excess of increased building, and social remedies from the point of view of social welfare, it was immensely desirable that the immediate problem should be eased by migration to another part of the Empire. One unfortunate consequence of misdirected emigration was the excess of men going out of the country over women. It was important to encourage the emigration of women, but this required more care than the migration of men.

GUILTY VERDICT IN HALIFAX CASE

Halifax, Oct. 23.—In the case of Ralph Myles, charged with the murder of Florence Miles on June 2 in Point Pleasant Park here, the jury, after being out one hour and twenty minutes, brought in a verdict of "guilty." Myles, testifying on Friday, said that he had told the story of the suicide pact because he had thought it was dying and wished to shield the name of the girl. A former charge was one of procuring the suicide of the girl and attempting suicide himself.

FUNERALS OF THE "DREAM" VICTIMS

The funerals of the three victims of the steamer Dream tragedy took place yesterday from their former homes in Upper and Lower Jernise. The funeral of Mrs. Jefferson Dykeman was from the Baptist church at Upper Jernise at eleven o'clock. Rev. R. B. Colwell officiated at the services. The bodies of Mr. and Mrs. Medley Dykeman were buried in the Anglican cemetery at Lower Jernise, Sunday afternoon. Services were conducted by Rev. H. T. Buckland of Gagetown and Rev. J. H. Taylor of Cambridge.

After the bodies had been recovered, they were viewed by Dr. DeVeret Jack, coroner, from Glenwood, and he gave permission to have them removed. He announced that he will hold an inquest in the near future.

Grappling for the bodies of Hudson McIntyre and D. J. Nelson was continued Saturday afternoon and yesterday, but without success.

BURIAL AT BOUNDARY CREEK

The body of Mrs. Amelia Leeman, who died on Friday in this city, was taken this morning to Boundary Creek and interred beside her late husband, Enoch Leeman, and her children, which are buried there. Service was conducted last night at 8.15 o'clock at her late home, 8 Courtney street, by Rev. F. H. Bone, who also accompanied the body to Boundary Creek this morning and officiated at the burial there. Her three sons, Walter, Richard and Frank, also accompanied the body. Many beautiful floral offerings were received, including a spray from the staff of Goodwills, Ltd., a spray from Mr. and Mrs. Justus Lake, a wreath from Mr. and Mrs. Walter Leeman and a crescent from Richard and Frank Leeman and Mrs. Leeman's daughter Gertrude. The sympathy of a great many friends has been extended to the family in their bereavement.

AGED N. S. FARMER FOUND MURDERED

Annapolis, N. S., Oct. 23.—A startling discovery was made at Guinea, near here, this morning, when Thomas Berry, seventy-five, a bachelor and farmer was found dead in the kitchen of his home with his skull crushed on the left side of his shoulders and wrists badly bruised. An axe and a small block of wood, both bloodstained, were found in the back porch. The kitchen was much upset and a great deal of blood was spattered about. Mr. Berry was known to have had \$200 on his

person recently. Chief Detective Horace Kennedy of Halifax will arrive at Guinea tomorrow morning to conduct an investigation. A post mortem examination disclosed that the man had died Friday night or early Saturday morning. Mr. Berry leaves three brothers and three sisters.

### OPEN SOUTH BAY BRIDGE IN A FEW DAYS

Ceremony Just Before or After Government Meeting to be Held This Week

The permanent bridge, which has been in the course of construction by the Maritime Construction Co., for the provincial government, replacing the old crib-work structure at South Bay, is now practically complete and will be open for traffic within a day or two. The official opening is now being planned. As the government will meet at Fredericton next Wednesday and many of the members of the government will be passing through the city to and from the capital, it is proposed to carry out the ceremony on the day previous to the government session or immediately following it.

Premier Foster will leave this evening for Halifax to attend a meeting of representatives of maritime provinces colleges, at which the matter of the proposed federation will be discussed.

Inquiry Into Provincial Hospital Matter So Far Develops No Confirmation of Report.

Following a report of alleged ill-treatment of a patient in the provincial hospital who has since died, Dr. F. L. Kenney, coroner, had started an investigation into the matter, but so far without definite result.

On October 14, it was said today, a patient named Cormier died and a few days later a man reported to Commissioner Thornton of the public safety department that Cormier was beaten while he was not in a position to defend himself and the beating was witnessed, he said, by another man. The commissioner immediately reported the matter to Dr. J. V. Anglin, superintendent of the hospital, and Coroner Kenney.

The coroner said today that the body had been exhumed on Saturday and a post mortem examination made by Dr. H. L. Akramson, but that no evidence of alleged beating could be found. He also said that an effort was being made to locate the man who made the report to the commissioner but so far without success. In the meantime the patient in the hospital and a witness reported to have been a witness was interviewed, but nothing coherent could be obtained from him. An effort was made to locate the man making the charge before any further action can be taken.

### TWO LIGHTS FOR DUFFERIN AVENUE

Decision Reached at Meeting of Commissioners Today—More About Musquash Wood and Chesley Street Bridge.

It was decided at a committee meeting of the common council this morning to install two street lights in Dufferin avenue. Commissioner Thornton presented a petition from the residents of that street, in which it was stated that the avenue was without lights. He said that the power company was agreeable to erecting two poles. On his motion the request in the petition was ordered complied with, the cost of the installation to be taken from next year's assessment.

E. A. Schofield wrote taking exception to a reported statement that ninety per cent of the wood cut by the city at Musquash last year was round. He said that this was greatly exaggerated, and some of the wood which was not split would afford work for unemployed this winter. He said that some of the wood were on hand in the public works and water and sewerage department yards where they might be seen by prospective purchasers.

Commissioner Frink reported regarding a readjustment of Western Union Telegraph Company poles at Gilbert's Lane. He recommended that the company be given permission to relocate three poles and install one new one.

Regarding a letter from Rt. Rev. J. J. Walsh, asking for permission to place a pole in Burpee avenue to carry wires into Holy Trinity school, Dr. Frink read a letter from G. N. Hatfield, road engineer, stating that the city had no legal authority to permit this and the N. B. Power Co. did not require the pole. The engineer said that the pole might be well placed on the school property.

Commissioner Frink moved that Monseigneur Walsh be informed that the application could not be complied with. On suggestion of Commissioner Thornton the matter was allowed to stand over for further information.

Commissioner Frink read a letter from the C. P. R. informing the council that no record could be found of the City of Portland granting permission to the C. P. R. to erect a bridge over Chesley street. The commissioner said he would bring the matter up at tomorrow's Council meeting.

### ANNOUNCE PLANS FOR WINTERPORT

C. N. R. and C. P. R.—Expect a Record Season in Handling of Grain.

Word has been received from the Canadian Government Merchant Marine and from the Canadian Pacific giving their plans for the winter service from this port. The C. P. R. will commence sailings of grain boats about the middle of November, according to word received by the Board of Trade today from headquarters, while the C. G. M. M. regular winter sailings between this port and the United Kingdom will commence on December 2 with the Canadian Volunteer to Cardiff and Swansea.

There will be eight C. G. M. M. sailings in December and six in January. The service will be fortnightly to Liverpool, London and Cardiff and Swansea and monthly to Glasgow. The dates of the various sailings are given as follows:—

- To Liverpool, Canadian Spinner, December 6.
- Canadian Ranger, December 20.
- Canadian Miller, January 8.
- Canadian Seigneur, January 17.
- To London, Canadian Victor, December 13.
- Canadian Commander, December 27.
- Canadian Leader, January 10.
- Canadian Victor, January 24.
- To Cardiff and Swansea, Canadian Volunteer, December 2.
- Canadian Runner, December 16.
- Canadian Navigator, December 30.
- Canadian Otter, January 13.
- To Glasgow, Canadian Squatter, December 14.
- Canadian Carrier, January 11.

Grain Shipment.

The local Board of Trade has been taking up the matter of grain shipments through this port with the C. P. R. and the C. N. R. and has received a communication from the C. P. R. giving an outline of plans. The letter states that the first shipments would be made during the first half of November and that movements of grain from Fort William to St. John would commence about November 1.

The matter has also been discussed with Commissioner Bullock and it was said he had promised to co-operate in every way to make this winter port season a success. A suggestion that Pier No. 1 on the west side should be utilized for grain shipments has been discussed and was said to be highly desirable. The communication from the C. P. R. gave the figures for two of the highest years as 19,967,911 bushels for 1918 and 19,866,972 bushels for 1919. The only year in which Pier No. 1 was utilized for grain was in 1919 and this was taken as an indication that its use facilitated easy and quick loading.

The letter also stated that the C. P. R. intended to make the grain movements through the port would admit. Both elevators on the west side are reported in first-class condition and will be run as close to capacity as possible.

With close co-operation between the city and the two great Canadian trade arteries, the C. P. R. and the C. N. R., it was said today that the winterport business in grain through this port should be a record.
