LOARDS TO DISCUSS
HOUSE REFORM

Peers Agree to Consider Government's Resolutions

Take Them Up at Autumn Session—Lancashire Feeling Against Government Over the Duty on Fabric Gloves and Glove Fabric from Germany.

(Canadian Press Cable)

London, Aug. 1.—After four days of debate the peers have agreed to consider the government's resolutions for the reform of the House of Lords. The discussion will be resumed in the autumn session.

There has been a remarkable absence of enthusiasm throughout the proceedings, and the peers in the government proposals which seem to give the most satisfaction is the proposal for new procedure regarding the question of what constitutes a money bill. Several members have pressed for a restoration vote, but the government spokesman has interposed warnings regarding the impossibility of any return to the former relationship between the two houses, and these warnings appear to accord with the general sense of the House of Lords.

Duty and Votes. London, Aug. 1.—The most striking feature of the discussion in the House of Commons yesterday on the orders to be made under the Safeguarding of Industries Act was an admission by Bonar Law of the electoral effect in Lancashire of an order imposing 33-1-3 duty on fabric gloves and glove fabric from Germany which recently caused such heartburnings among Coalition-Liberals.

Mr. Law admitted frankly that if an election were held now things would go badly for the coalition in Lancashire, but he was confident that three or four months hence there would be nothing to fear from the electors there.

Right Hon. Stanley Baldwin, president of the house of commons, also admitted for the moment that Lancashire feeling was against the government, but he predicted that in three months' time all Lancashire except the politicians would have forgotten about the existence of fabric gloves.

White Lancashire Unionists decided to support the government in the division, Sir William Edges, Coalition-Liberal whip, who represents the whips, deemed it necessary to resign. Being a member of the administration he was unable to vote against the government on such an issue and retain the position, and after the consultation with Premier Lloyd George yesterday it was decided that he would have to resign if he wished to vote against the order.

Sir William Edges emphasized that, although he resigned the whip, he is unwaveringly devoted to the coalition and Premier Lloyd George.

The Lancashire members practically monopolized the debate, which resulted in the defeat, by 277 votes to 118, of an amendment to omit the duty from the order. About thirty Coalition-Liberals voted with the opposition.

LOSE FOUR
CAPTURE
OF TIPPERARY

Other Places are Occupied by Free State Troops, Who are Welcomed by People.

(Canadian Press)

Dublin, Aug. 1.—The Free State forces lost only four killed and three wounded in the capture of Tipperary, which is announced by the casualties of the irregulars are unknown.

The official statement describing the occupation of the town says that, before the attack began, the irregulars blew up the water mains. Upon entering the place the nationals found several unexploded mines. The irregulars had erected barricades in the streets, but retired from them as the government forces approached.

In an attack on Golden, a village near Tipperary, on Friday night, two irregulars were killed and twenty-four made prisoners.

Kilrush and Killee, in County Clare, have been occupied by the nationals. The troops, says the report, were given ovations by the inhabitants of both towns when they entered.

The irregulars stationed at Killee left before the nationals arrived, after setting fire to the police barracks and the customs station.

Simon MacInerney, a prominent leader of the irregulars, was found hidden in the Republican headquarters. Another insurgent leader named Lillis was arrested on Ennis Road.

The man arrested with Harry Boland at Skerries, yesterday when the latter was wounded, has been identified as Joseph Griffin, a prominent Dublin irregular.

Dublin, Aug. 1.—Three armed men held up the staff of the Dublin customs and excise offices today, seized more than \$1,000 and escaped.

AUTOS BURN IN
GARAGE FIRE IN
ST. STEPHEN

Loss Estimated at \$20,000 in Early Morning Blaze at W. B. Sampson's Place.

(Special to Times)

St. Stephen, N. B., Aug. 1.—The garage of W. B. Sampson, Ford dealer, of this town, was completely destroyed by fire at 8:30 this morning. The cause is unknown, but it is thought that a defective light wire in the work shop caused the blaze.

Besides having on hand a large number of new cars which had just arrived a few days ago, there were several cars in the garage for repairs, and most of these were destroyed. Some of the new ones were saved. About fourteen or fifteen cars were destroyed or damaged badly. The building was completely gutted out and all tools and machinery destroyed. The salesroom and office, which are a short distance from the garage, were saved. The loss is estimated at \$20,000 altogether. Mr. Sampson's loss was partly covered by insurance. It is not known what insurance was carried on cars left in the garage for repairs.

METHODIST
DISCIPLINE

One of Important Matters to be Before Conference Next Month.

Toronto, Aug. 1.—Among important questions coming up for consideration by the general conference of the Methodist Church in Canada, in Toronto in September, is a memorial from the Ontario conference calling for a revision of the Methodist church discipline. It will be urged that those who are appointed to a general committee for this work.

The object of the proposed revision will be the unified control and operation of the work of the Methodist church. In this revision the committee will be asked to apply the principle of equal representation of ministers and lay members to and for all conference and district committees, boards and courts.

NEW LIQUOR
REGULATIONS

Victoria, B. C., Aug. 1.—New regulations controlling the sale of liquor from licensed warehouses, designed to check the bootlegging business, was put through by order in council here yesterday.

All liquor trading in the province is legitimate only when carried on through the government store houses. Licensed warehouses operate for handling export trade only, and it is said that it had become known that bootleggers were getting their supplies from licensed warehouses supposed to be selling for the foreign and not for the home trade.

The regulations will make it possible to keep track of all liquor handled by these houses and how much of it goes to bootleggers and who these bootleggers are.

MONCTON TEAM
IN FREDERICTON

Fredricton, N. B., Aug. 1.—The Moncton baseball team arrived here this morning to play Fredricton tonight and tomorrow evening. The Moncton Club is in charge of Bob Walsh and he will be behind the bat in both games. It is expected either Dickie or Doucett will pitch tonight for Moncton, likely the big southpaw. At Fredricton batters have shown no inclination to do much hitting against side-wheelers. Ben Smith will probably pitch tonight against Moncton and either Hayward Paynter or Jack Blanchard tomorrow night.

GREAT OPPORTUNITY
FOR THE CHURCH, SAYS
SIR ROBERT BORDEN

Ottawa, Aug. 1.—That a great opportunity for the church lay in the present religious disturbances occasioned by the late war, was the opinion expressed by Sir Robert Borden, last evening when he explained that Attorney General Luke's Anglican church, Bell and Somerset streets.

The service was conducted by His Lordship Bishop Roper. The silver trowel, which was presented to Sir Robert after the ceremony, was donated by the architect, Colin M. Drewitt. It is hoped to be able to hold services in the new structure before the end of October.

COAL OUTLOOK
A BIT BETTER

Miners' President Favors an Interstate Conference

Says They Can Fight On, but Prefer Industrial Peace—The Situation in Nova Scotia—Million Tons from Old Country.

(Canadian Press)

Philadelphia, Aug. 1.—In connection with a call for an interstate conference, President Lewis of the miners gave out a statement in which he said:

"We are able to fight indefinitely, but much prefer the pursuit of peace to the ills of industrial warfare. We feel that the American public will support our effort to meet at the conference table and will encourage the co-operative interests involved to have their representatives present."

"The making of a basis settlement in the central competitive field will permit of an immediate following settlement in all of the outlying bituminous coal districts and should pave the way for an immediate adjustment of the entire coal trade as well. Such a result will be acclaimed by every citizen. Those who block the success of such a conference by refusal to participate should therefore be made to bear full responsibility for the continuing situation."

It is expected the meeting up of the conference will follow as nearly as possible that of other years. The miners will probably be represented by eight men from each of the four states. The representation of the operators will depend upon the number that respond to the call. It has been said by leaders of the union that a conference would be called as soon as assurances were had that sufficient tonnage would be represented to make possible a basic wage agreement. Nothing could be learned as to the amount of tonnage pledged to attend the meeting.

Million Tons Coming
Washington, Aug. 1.—More than one million tons of coal will be en route to the U. S. from Wales and the east coast of England in the next few months, according to a statement issued by the U. S. War Relocation Administration.

President Small, of the Emergency Fleet Corporation. He said charters have been let for fifty ships, aggregating 400,000 tons, to engage the import of coal.

In Nova Scotia.
Sydney, N. S., Aug. 1.—An effort to obtain a meeting with the operators of Nova Scotia will be made by the executive of the U. M. W. district 26, which has been summoned by President Baxter to meet at Glace Bay tomorrow.

Up to around 100,000,000, the local have voted on the resolution to strike on August 15 for the 1921 rates of pay. Eight local have endorsed the strike resolution and one has gone against it.

The latest endorsers are: Caledonia, Glace Bay, and No. 12 West Waterford, both large divisions of the U. M. W. which voted on the question last night.

Save It In Maine.
Augusta, Me., Aug. 1.—Governor Baxter, in a statement last night, recommended that coal consumption be reduced to the amount of 100,000,000 tons in every home, industry and institution.

"Every pound of coal saved now will be given before the warm days of another spring," he said.

BANK OF N. S.
STOCK ISSUE

Toronto, Aug. 1.—The Bank of Nova Scotia is making a small issue of new capital stock of \$2,000,000, the reserve fund is present the issued and paid up capital of the bank is \$8,700,000 and the proposed new stock will bring the capital up to around \$10,700,000, the reserve fund being \$19,465,000. Notices are being sent out to the shareholders offering them the new issue in proportion to their holding at a price of \$225 a share.

FOUR INCHES OF
RAIN IN A DAY

Flood in Roads Up to Running Boards of Autos Near Simcoe, Ont.

Simcoe, Ont., Aug. 1.—During yesterday almost four inches of rain fell here. There was a violent electric storm. The water ran running-board high on automobiles caught in the country. Farm houses of Charles Woolley of Chathamville were burned with all contents. Officials expect reports of washouts on highways. The rain found Norfolk's spring crop in the stock or ready for the sickle and considerable delay in garnering will result, but compensation comes through the way of the rain to corn and root crops, apple orchards and pastures.

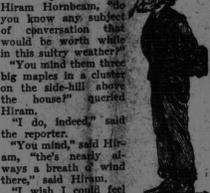

SPRUCE LAKE MAIN TEST.

Tests of the new water main to Spruce Lake have been made since last Friday, and, according to an official report, the lock joint pipe is entirely satisfactory. The report says that there is only six to four per cent. of the allowable leakage, or one-half a cubic foot per lineal foot per twenty-four hours. The entire leakage is equivalent to an ordinary house tap running full force all day.

AT SAND POINT.

Work of repairing the trestle at No. 2 in West St. John was started yesterday, and Engineer G. G. Hare, who is in charge of the work, reports favorable progress.

As Hiram Sees It

"Hiram" said the Times reporter to Mr. Hiram Hornbeam, "do you know any subject of conversation that would be worth while in this sultry weather?" "You mind them three big maples in a cluster on the side-hill above the house?" queried Hiram.

"Yes, indeed," said the reporter.

"You mind," said Hiram, "the steady breeze always a breath of wind there?" said Hiram.

"I wish I could feel it now," said the reporter.

"Well, sir," said Hiram, "it's a real nice hammock there—Hanner has some real buttermilk—an' a feller kin lay there an' be cool an' see miles of country lookin' its very best."

"And can he hear the bees and the birds—and see the butterflies—and get the best of the new mown hay?" queried the reporter.

"Yes, sir," said Hiram, "an' he kin doze off if he feels like it—an' wake up like a noo man."

"Sit down there," said the reporter, "wiping his brow, 'I want to talk about it the rest of the afternoon."

THINK RAILWAY
STRIKE NEAR END

Important Meetings in Chicago and New York

Working on President Harding's Plan to Bring Peace to Railroads and Employes—Chief Features of the Proposal from White House.

(Canadian Press)

Chicago, Aug. 1.—A railroad strike today saved its seventh month with meetings in Chicago and New York, which were expected to end the walkout immediately.

Chicago and New York are to consider President Harding's plan for a settlement of the strike.

At Chicago were most of the ninety general chairman of the shopworkers' workers' strike, subject to the rights of the board and that they would agree to abide by decisions of the board in the future. The railroads were to discontinue the "lock-out" of shop men.

Buffalo, Aug. 1.—Protest against being compelled to work ordinarily during the summer now on strike, will be made by executive engineers of eastern lines, so it was decided at a meeting of more than 200 engineers yesterday.

Montreal, Aug. 1.—Railway shopmen throughout the Dominion are clamoring for action. This morning the executive expressed the opinion that unless the government decided upon something very soon, serious consequences would ensue.

Montreal, Aug. 1.—(10:30)—Trading was extremely dull on the local stock exchange this morning. Only a few of the principal issues were traded, and, without exception, were unchanged.

HOOPER MAY NOT
GO INTO RACE

Reported He Feels He Has Not Had Enough Training

Belyea Early on Course on Schuylkill—Ken Williams Gets Another Homer—Golf Champion Severely Injured—Lamp Sport.

(Canadian Press)

Philadelphia, Aug. 1.—Hilton Belyea of St. John, N. B., one of the first out-of-town entries to arrive for the Golden Jubilee Regatta of the National Association of Amateur Oarsmen on the Schuylkill River on Thursday, Friday and Saturday, planned to take his first workout over the course today. He arrived last night.

Belyea is entered in the association senior singles on Friday, and a victory would qualify him for the championship singles on Saturday.

The winner of the association singles will meet Costello of the Yonker B. C., Philadelphia, Zohar, New York Bohemians, and possibly Walter Hoover, Duluth, the title-holder, in the championship event.

Hoover is entered, but it is possible that he may not get an exhibition. It was said he does not feel he has had sufficient training since his victory in the English Henley to get in condition.

The Big League.
New York, Aug. 1.—St. Louis clubs in both major leagues today continued trading pennants. As Ken Williams pulled out his twenty-sixth homer, the Browns won from the Red Sox 6 to 2, and increased to a game and a half lead over the Yankees, who lost another close game to the White Sox, 3 to 2.

The Cardinals, finding Dutch Ruether easy to march on to another victory, over Brooklyn and swept to within half a game of the lead when the Giants defeated the Pirates and dropped the third straight game to them, 12 to 5.

And the Chicago Cubs, still harboring pessimistic hopes, pounded an early victory out of the Phillies, 12 to 1. The rest of the game was left to the Yankees, who won from the Phillies, 11 to 1. Cobb, in his last base hit to the plate, hit a two-bagger, and hit brought his total to fifteen consecutive base hits.

Speaker hit his seventh home run on Wednesday in preparation for his bout with Ever Hammer of Chicago, here next Saturday afternoon. He said he was afraid a spurring partner would open the cut over his right eye he received in the Lew Tandler fight last week.

Golf Champion Badly Hurt.
Cleveland, Aug. 1.—Jack Wolfe of Cleveland and Pal Moore of Memphis, bantams, have been matched to box 12 rounds in one of two headline bouts at the Hotel Waldorf, New York, Aug. 7. Charlie White of Chicago, and Bobby Barrett of Philadelphia, are on the same card here.

Michigan City, Ind., Aug. 1.—Benny Leonard will not start boxing until Wednesday in preparation for his bout with Ever Hammer of Chicago, here next Saturday afternoon. He said he was afraid a spurring partner would open the cut over his right eye he received in the Lew Tandler fight last week.

San Jose, Calif., Aug. 1.—John Black, champion of the recent U. S. national open golf championship at Glencoe, Ill., is in a local hospital making a fight for his life as a result of an auto spill last night which caused concussion of the brain and fractured several of his ribs.

Herbert Hamilton, insurance broker, and sportsman of San Francisco, who was with Black, died as a result of his injuries.

Buffalo, Aug. 1.—Nine colts and fillies will face the barrier in the Matron stake for three year old trotters, the feature event of today's Grand Circuit card here. The stake has a value of \$7,340. Chief in the entry list are Lee Worthy, 2:08 1/4; Sausbury, 2:08 1/4, and Helen Dillon, winner of the Kentucky Futurity, 1921. Other races on the card are the 2:04 pace, carried over from yesterday, owing to the rain, the 2:07 pace, 2:12 trot and 2:15 pace.

Get Catcher Bengough.
Buffalo, Aug. 1.—Sale of Benny Bengough, a catcher, was announced last night by the management of the Buffalo International League team. The deal, said to involve five players and a cash consideration, will become effective after the close of the 1922 International season.

Twenty Thousand Employes Strike Against Pay Cut.

All Kinds of Vehicles Used to Get Three Million People to Business or Work—A Fight to Finish is Newspaper Prediction.

(Canadian Press)

Chicago, Aug. 1.—Twenty thousand workmen, conductors and guards on surface and elevated lines went on strike at four a. m. against a 15 per cent. wage reduction and the greater part of the working portion of Chicago's nearly three million people was forced to seek improvised transportation.

All rolling stock available, including every variety of wheeled, pullable, pushable and excitedly shouted unanimous decision to strike, while 2,000 others unable to get in, stood in the street and echoed that sentiment.

The elevated employes, who had called a meeting for tonight to discuss concerted action with the surface men, held a separate meeting, and after members of the executive had charged they had been "double crossed" by precipitate action of the surface men, unanimously voted to co-operate in the strike.

The Chicago Herald and Examiner, in a copy-righted news story today, said the strike meant a war to the finish. The newspaper said the advance guard of a hundred thousand strikers would be on the streets by 10 o'clock.

Plans had been perfected for an attempt quickly to restore traffic.

City authorities have prepared for use at any moment of the entire police force of approximately 5,000 men and it is understood certain units of the National Guard have been ordered to be in readiness for duty.

The strike comes just when Chicago was the gathering point for unusual thousands of visitors attracted by the second pageant of progress, sponsored by Mayor Thompson, at the Municipal Pier.

Stellarton, N. S., Aug. 1.—Mrs. Clarence Grant, 38, Stellarton, was killed and three others were injured here last evening when a car in which they were driving stalled on a hill and, with the brakes ineffective, ran backward over a thirty foot embankment to the edge of the East River. Twelve Mrs. Grant, brother of Mrs. Grant, had several ribs fractured and a leg injured; Mrs. McNeal, his wife, sustained a bad cut on the head, dislocation of a hand and bruises.

Angus McNeal, father of Mrs. Grant, received a scalp wound. The four-year-old child of Truman McNeal escaped with a small cut on the lip when the mother threw the child from the car before the plunge was made.

MORE U. S. DUTIES

Washington, Aug. 1.—Without a roll call the Senate yesterday approved committee rates on fets ranging from twenty cents a pound and thirty per cent. ad valorem to forty cents a pound and forty per cent. Senator Walsh, Democrat, Massachusetts, argued that the duties were not justified, holding that exports had exceeded imports.

Senator Smith of Utah, for the committee majority, explained that it had advised the Senate that the duty on cheap fets from thirty-five per cent. — the Underwood rate—but had increased the protection on the very expensive fets. Over protests of the minority, the majority approved a committee rate of forty-nine cents a pound on the wool content and fifty per cent. ad valorem on tubings, garters, suspenders, braces, cords and cords and tassels.

TWELFTH JUROR HELD UP TRIAL

Tells Story Which Influenced His Decision in Noted Case In the Jury Room of the Criminal Court, Hedges is on trial for his life, accused of the murder of the financier, John Rosemore. Before the murder, Mrs. Rosemore had instituted proceedings for divorce, but her husband had engaged Hedges, the butler, to give false testimony for which Hedges was to receive \$5,000. The divorce had been settled out of court, Rosemore refused to fulfill his agreement with Hedges. Shortly after, Rosemore was killed in his library. Circumstantial evidence points to Hedges and a torn piece of photograph lends color to this assumption. Eleven men on the jury would convict him, but the twelfth juror holds out. After thirty hours of disagreement the twelfth juror asks permission to tell his story.

SOME MISGIVINGS Comment on Report of Government Decision re War Debts.

London, Aug. 1.—The British government's reported decision to send a circular note to the Allies and the U. S. in reference to the war debts has been discussed in political and financial circles for some days, with considerable misgivings in certain quarters. It is said there has been a strong division of opinion in the cabinet over the question, and a section of the press today sharply criticizes the supposed government decision. The exact purport of the note is not very clearly defined in the newspaper reports, but the Morning Post says that "in substance places upon the U. S. the responsibility for Great Britain's debt, and to treat indulgently the debts owed this country by its European allies."

CHEER GREEKS OVER SMYRNA PROCLAMATION

Smyrna, Aug. 1.—Issuance of the proclamation declaring autonomy for Smyrna was greeted by an enthusiastic demonstration in the government square, where several thousand persons cheered the Greek officials. A committee including Greeks, Turks, Armenians, Jews and Circassians called upon the Greek high commissioner for a formal expression of thanks. WASHINGTON COAL CONTROL

An Associated Press dispatch from Washington says the total production of 3,000,000 tons of bituminous and 27,000 tons of anthracite coal last week is compared in the weekly report of the United States Geological Survey with a normal production at this season, including anthracite, of from 9,000,000 to 12,000,000 tons. Normal consumption this time of year would be 8,000,000 tons a week. Covered by priority orders from the Interstate Commerce Commission, all coal now being produced is to be bought under the fair price levels to be maintained by the federal fuel distributor, who will fill their bunkers abroad for the round trip, while exports will be permitted only in case of shipments destined for consumers who cannot otherwise supply themselves.

Canada Not Considered. The requirements of Canada will not likely be taken into consideration in the emergency fuel control organization's plans. This was indicated by Secretary of Commerce Hoover, chairman of the recently appointed federal coal distribution committee. Mr. Hoover announced that the committee has recommended to Canadian consumers that they import coal for their own supply.

REVENUE LARGE IN FREDERICTON

Customs Receipts Point to a Record Year—News of the Capital.

Special to Times. Fredericton, N. B., Aug. 1.—The rate of production of the quarters of a million dollars at the port of Fredericton for the official year is being maintained. For the first four months of 1922 the total receipts were \$252,196.62. For the corresponding period of 1921 they were \$277,048.89, an increase of 10.4 per cent. The present year is making a record. Liquor importations for the New Brunswick branch of liquor commissioners, importations of cars and general business trade produce the result. Fredericton is taking steps to cancel a lease of land along Queen Street west of the city. It is an incentive to the operation of a sawmill in this city. Mr. Scott made an assignment and the lease was taken over as part of his assets.

OPERATORS AND MINERS TO CONFER

Philadelphia, Aug. 1.—A joint wage conference of operators and miners of the central competitive bituminous fields, to be held in Cleveland on next Monday to negotiate a basic agreement designed to terminate the present coal strike, was called today by John L. Lewis, international president of the U. M. W. He also summoned the general policy committee of the union to meet in Cleveland at the same time. The purpose of the conference is to reach an agreement or a definite understanding in the coal strike.

This morning the total number of appropriations that should have been made for manifest and probable losses reached \$1,157,000, or \$7,357,000 more than was appropriated for this purpose by the bank.

IS IN ST. JOHN Missing Fredericton Boy with Relatives in This City.

Fredericton, N. B., Aug. 1.—While searching parties were still scouring the woods and another party with grappling irons were dragging the bottom of Tower Lake in the belief that his dead body might be found there, word reached Chief of Police Jones this morning that Albert Smythe, aged 16 years, who had been missing from the home of his brother, John Smythe, Victoria street since early on Saturday, had reached the home of Mrs. McCormick, a relative at St. John. The boy had lived with Mrs. McCormick while his brothers were in the army during the war and in a message from detective Biddiscombe, of St. John, was that the boy had arrived there last night, saying that he had walked all the way from Fredericton.

Halifax Recorder—Halifax boating fans were delighted with the news that Belyes had again won the Canadian championship. His victory again draws attention to the maritime provinces and is a reminder to some people in the upper provinces who have an idea that there is nobody in this section who can in any manner compete with these above. Belyes also demonstrated that he was not "in the bushes," when Dibble crossed in front of him to try to give him his back wash.

MARINE TALE IN COURT

Thomas Walton, arrested yesterday on complaint of officers of the steamer Enare for alleged attempt to desert, was brought before the magistrate and remanded until such time as the ship is ready to sail. It is understood that Walton's contention was that he was the only Englishman among the crew of the Norwegian ship and that he was imposed upon. Yesterday morning he got into an altercation with the mate and is said to have refused duty. In the trouble that ensued it is said he jumped overboard but was rescued and placed under arrest.

BEFORE CHIEF JUSTICE

Before Chief Justice Sir Douglas Hazen in chambers this morning argument was heard in the case of Gray against Chadwick. This case has been referred to the jury and it is expected that it will be heard on Thursday with a sale of land in Lancaster, the dispute arising in relation to the extent of the acreage sold. J. F. H. Redd appeared for the plaintiff and J. H. A. L. Fairweather and E. P. Raymond for the defendant. Argument was continued this afternoon.

BAY OF FUNDY WORK

The Apple River fog alarm at the head of the Bay of Fundy is to be remodelled and changed from steam to gas in the near future according to word received at the Marine and Fisheries department this morning. Some other changes and improvements about the bay are also to be consummated soon. A new light has been erected at Cape d'Or and will commence operation soon. The work of erecting was completed on Tuesday. The old light house at Amherst, which was built for the old marine railway but which has been out of service for some time, is being removed. The work of clearing several wrecks out of the bay, at Parrabrook, Hoveck and Cape, two tugs and barge boats, will be commenced soon.

NEW FEATURE IN DELORME CASE

Montreal, Aug. 1.—Failure of Dr. Brochu, medical superintendent of Desautels Asylum, to certify that Adolphe Delorme is insane, resulted this morning in further delaying the appointment of an administrator for Delorme's affairs until August 30. The impasse precipitated by Dr. Brochu's refusal to certify about the insanity of Delorme has been formally judged insane by a court, and the issuance of the required certificate is more or less a formality at the moment. Just what will occur if Dr. Brochu refuses to declare Delorme insane is a topic of wild speculation. It is understood that he has been asked either to issue the certificate or definitely refuse it.

 78-82 KING STREET

The Charlton Cornet Band, under the direction of W. Lanyon, gave a very delightful programme at the band concert in King square last evening. A large number of people enjoyed the concert, which was made more pleasurable by the fine weather.

The members of the Y. W. C. A. indoor-outdoor club were at the station last night to give a royal send-off to Miss C. Littlefield, who left her home in Ontario for a holiday before taking up her duties as physical director of the Y. W. C. A. in Peterborough, Ont.

Miss Eleanor Boyce, daughter of Mr. and Mrs. J. E. Boyce, 863 Chesley street, is spending her vacation with her parents. She has been principal of the intermediate school at Ethebert, Manitoba, a Ruthenian settlement. She speaks highly of the citizenship qualities of the Ruthenians. Miss Boyce graduated from St. Vincent's High school and studied at Mount Saint Bernard's College, where she received her B. A. degree.

The West St. John fire department turned out promptly in response to a call from box 34 at 6:40 p. m. yesterday and discovered that the fire was in the residence of Joseph Smith at City Line. The fire was caused by an electric fire which had been left on a pair of trousers that were being pressed by an amateur. The trousers were a total loss, but beyond that there was no damage done and it was not necessary to turn the hose on the building. The burning cloth made a thick and heavy smoke which alarmed the neighbors.

FOR BORDER LIQUOR WAR.

Sub Chaser, Airship and Armed Cars to Operate.
 Ogdensburg, N. Y., Aug. 1.—The former submarine chaser CS-488 has arrived here to aid in the warfare against liquor smuggling from the Canadian side of the border. Much surplus war material of the federal government is now assembled here. Officials assert that the campaign against rum running will be prosecuted vigorously with naval craft, coast guard cutters, airships, armored cars and high-powered motor trucks.

Two powerful trucks, part of a fleet of forty-eight, to be sent to Northern New York, already are here. Each will carry government agents armed with rifles and pistols and will operate in this customs district, being used chiefly to blockade the highways when word is received that a cargo of contraband has left the border, bound south.
 Airplanes, submarine chasers and coast guard cutters are to patrol the St. Lawrence River, which in the past has been the highway for liquor smugglers. Recent despatches from Ottawa and Montreal asserted that the Canadian authorities would co-operate with United States agents in an attempt to shut off the flow of liquor into this country.

24 FINED FOR TARRING MAN.

Farmers Convicted in Michigan Court Pay \$600 for Attack.
 East Saugatuck, Mich., Aug. 1.—Twenty-four farmers living near here paid fines aggregating \$600 in Justice Court as a result of conviction of charges growing out of the tarring and feathering of Bert Lenters recently. Lenters was taken from his bed, led into his own farm yard and coated with tar and feathers because he was alleged to have made disparaging remarks concerning the community minister. After the farmers applied the coat of tar, according to the victim, they stuck feathers one at a time to his body, endeavoring to create fancy designs. "Firing of this, the victim says, his assailants covered him from head to foot with the feathers.

STREET CAR STRIKE ON IN CHICAGO.
 (Canadian Press Despatch).
 Chicago, July 31.—A complete tie-up of a street car and elevated traffic began to make itself felt shortly before midnight tonight after the surface lines' employees at a mass meeting had voted for a walkout effective at 4 o'clock tomorrow morning and elevated road men had joined them in a runaway strike anticipating a formal strike order by twenty-four hours.

BOY WHO DREW TOY PISTOL ON POLICEMEN IS SHOT
 Detroit, Mich., Aug. 1.—Harry Watson, fifteen years of age, tried to "bluff" two policemen with his toy pistol. The officers, believing that the boy's weapon was genuine, fired upon him, and Harry is in a hospital near death.
 Harry had escaped from the juvenile detention home and the officers were ordered to arrest him. Locating him in an alley, they called upon him to surrender, but he drew the supposedly genuine pistol from his pocket and warned the patrolmen he was about to fire. The officers shot into the air and the boy fled. As his pursuers gained upon him he

THE EVENING TIMES AND STAR, ST. JOHN, N. B., TUESDAY, AUGUST 1, 1922

The Evening Times and Star

The St. John Evening Times is printed at 27 and 29 Canterbury Street, every evening (Sunday excepted) by The St. John Times Printing and Publishing Co., Ltd., a company incorporated under the Joint Stock Companies Act.

THE HYDRO CONTRACT

Is there to be more delay in regard to hydro, until another engineer has looked over the situation and submitted a report? The mere suggestion is preposterous. The people of St. John are at least part owners of the Musquash power. They, represented by the New Brunswick Electric Power Commission, Brunswick Electric Power Commission, are about to sell to themselves, represented by the city council, a quantity of that power.

But any agreement or a failure to agree with the power company has nothing to do with signing the contract for the Musquash current. Whether the city acquires the plant of the power company or puts in its own distribution system, it must contract for the power.

OUR STREETS.

Disregard for the appearance of the streets appears to be chronic in St. John. The civic authorities have made large expenditures in the last few years, with the result that the main thoroughfares are well paved and easily kept clean.

But there is more to complain about than dirty streets. Last fall Corn Frink converted that portion of German street between Queen and St. James into a well paved boulevard. The property owners asked for it and agreed to pay their share under the street improvement act.

marily by the imposition of fines of five dollars. There was 'a great outcry,' but 'five dollars shouts very loud in any language,' and within three months both the objections and the nuisance ceased. Presumably, the enforcement of the law was more intelligent than it has sometimes been in these parts.

The decision of the Privy Council that the preferred stock of the Grand Trunk Railway should not be recognized as of any value in the sale of the property has a far-reaching significance. It is read with particular interest in St. John at the present time.

FIFTEEN MINUTES OF RADIO EACH DAY

By Edward N. Davis Formerly Technical Electrical Expert For U. S. Government

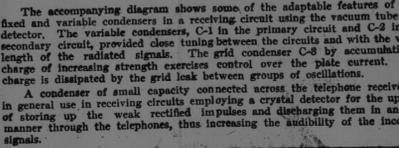

Lesson No. 66. THE CONDENSER IN THE RECEIVING CIRCUIT.

In order to receive signals of maximum intensity, the open and closed circuits of the receiver must be accurately tuned to each other and to the frequency of the incoming wave.

Tuning in the circuits of a radio receiver, is accomplished by means of the variable elements of inductance, and capacity. Condensers in receiving circuits may be divided into two classes; fixed condensers, in which the capacity remains a constant quantity, and variable condensers which are so mechanically constructed that the capacity may be adjusted over a comparatively wide range of values with a fine degree of variation.

A form of variable condenser in general use consists of two sets of conducting plates with air as the insulator or dielectric. One set of plates is fixed in position while the other set is mounted in a pivoted shaft and may be partially or completely intermeshed with the fixed plates.

The usual form of variable condenser consisting of forty-three plates, twenty-one of these being movable and twenty-two fixed, has a capacity of approximately 0.001 microfarad. The variable condenser having twenty-three plates, eleven movable.

The accompanying diagram shows some of the adaptable features of both fixed and variable condensers in a receiving circuit using the vacuum tube as a detector. The variable condensers, C-1 in the primary circuit and C-2 in the secondary circuit, provided close tuning between the circuits and with the wave length of the signals.

C. N. R. HARVEST EXCURSIONS SOON The Dates Are Aug. 4 and Aug. 18—Special Trains to be Run—40,000 Men Needed to Garner Bumper Crop.

Canada's bumper crop of golden grain stands ready for harvesting, and the cry has gone forth for workers to garner the wealth of our western wheat fields. Forty thousand helpers are wanted—an army of slawey men to reap and bind that which the fruitful land has so generously brought forth.

Men of the east are called on to help the west, and special arrangements are made for their transportation. Special excursions will be run by the Canadian National Railways on August 4 and 18—the special through excursion trains leaving Moncton on that date at 4 p.m.

Special arrangements have been made to give the harvesters a comfortable berth colonist cars are to be used, and special arrangements made for the best of meals and lunches on restaurant cars at very reasonable rates.

Every person purchasing farm laborers' tickets will be furnished with verification certificate, which when filled in at Winnipeg by farmer, to show that the holder of coupon has been hired to work in the harvest fields.

MOB RAIDS THE FUNERAL OF GIRL

Break Through Police Cordon and Jeer Mourning Party—Husband Held in Contempt.

(New York Times) While Jacob Reiser, known in sporting circles in this city as "John the Barber," was attending the funeral yesterday of Miss Bertha Katz, his sister-in-law, who was shot and killed the day before in her home at 1738 Sterling Place, Brooklyn, he was adjudged in contempt of the Supreme Court here for failing to pay his wife, the self-accused slayer of her sister, weekly alimony of \$50, pending a decision in her suit for separation.

Mrs. Reiser, who is in the Raymond street jail under a murder charge with her brother, Max Katz, and her two sons, Morris and George, began the suit last November, alleging that the slain woman had stolen his affections. Reiser was not represented in court, and judgment by default was entered at the request of Livingston & Livingston, Mrs. Reiser's counsel.

A thousand men and women gathered about the Katz home hours before the funeral party was to leave for Washington Cemetery. A force of policemen under Captain of Detectives Gallagher sought to maintain order among the on-lookers, but as the body was borne to the hearse the crowd broke the cordon. A dozen women ran to an automobile in which Reiser and his two sisters were seated and hurled epithets at its occupants. A man was caught in the jam of women and crowded against the automobile door, whereupon one of the women inside seized his straw hat and struck him in the face with it. Reiser pulled down the shade of the car, but a woman in the crowd snatched it up again. Then the straw hat was hurled from within at half a dozen women who were jeering the mourners. After the body of the dead woman had been placed in the hearse, Mrs. Katz, her mother fainting. Some of the women spectators had pressed close to her and indulged in remarks which, it appeared, were intended for others in the funeral party.

Two women among the mourners spat at the critics, and started to drive them off by force, when several policemen interfered, and cleared the sidewalk. The departure of the funeral procession was watched by hundreds from windows and roofs of neighboring houses, while hundreds remained discussing the murder and the cause of it for two hours after.

Mrs. Reiser, in her cell, persisted in her assertion that she fired the shot which killed her sister, but District Attorney Ruston said that the ante mortem statement of the slain woman, corroborated by that of her mother, left no doubt that Morris Reiser, the twenty-four year old son of Mrs. Reiser did the killing, and that his mother was trying to shield him. He said that evidence would be submitted to the Grand Jury this morning with a view to having first degree murder indictments returned against Mrs. Reiser, her sons and their uncle.

ABOLITION OF DEATH PENALTY MAY BE ISSUE

(Canadian Press Despatch) Winnipeg, July 31.—Abolition of capital punishment in Canada is a possible issue in the house of commons at Ottawa before long, according to Hon. D. D. McKenlie, solicitor-general, who is here today following a trip to the Pacific coast. "I find," said Mr. McKenlie, "that there is a growing public opinion adverse to capital punishment. The question is a most serious one and deserving of the sincere and earnest consideration of parliament as a whole and should never be dealt with as a party question." The solicitor-general said he had no reason to think from general observation that crime was increased in any way in Canada.

in the act of stealing a sweater worth \$13.94 at Macy's. When she was called for trial Justice Freschi, who presided, recognized her as the girl who was arraigned before him last April for shoplifting and who was released on suspended sentence when she promised she would keep away from department stores. Detectives of the Stores Mutual Protective Association at that time told the court that she had twice before been caught stealing small articles, but was permitted to go when she signed statements admitting the thefts. "She just can't keep her hands off things when she is in a department store," Miss May Mangan, a probation officer told the justices. "She is an orphan, and her brother, who lives with his family in Bogota, induced her to move to his home last Summer in an effort to remove her from temptation. She was employed in an uptown office when she was arrested in April last, but on her brother's insistence she obtained employment in a downtown office for the same reason. The brother of the girl informed the court that his sister received \$25 a week and had no reason to steal, but that it seemed impossible to dissuade her from taking articles without paying for them. In pleading guilty, the girl told the court that she took the sweater impulsively and seemed to have no control over herself on entering a department store. As she was offering this plea she broke into tears. The court remanded her to the Tombs for sentence and ordered Miss Mangan further to investigate the case.

Her Two Children Had Diarrhoea Terribly Bad

Anyone suffering from bowel complaints such as diarrhoea, dysentery, colic, cholera, cholera morbus, cholera infantum, or any other loosens of the bowels, will find that Dr. Fowler's Extract of Wild Strawberry will give quicker and more permanent relief than any other remedy on the market today. Mrs. Roy Keith, Charlton, Ont., writes—"I am writing to tell you what Dr. Fowler's Extract of Wild Strawberry did for me. Last summer my children had diarrhoea, terribly bad, and they would vomit and pass a great deal of blood. I tried every remedy we could think of, but finally bought a bottle of Dr. Fowler's Extract of Wild Strawberry, and about one-half of it stopped the diarrhoea altogether. I have told several others about it, and I would not be without it in the house, as I can truthfully say it saved the lives of my two children."

SPANKINGS IN STORE FOR YOUNGER SET

If they Insist on Daring Dances at Bayside Yacht Club Some Fathers May Act.

New York, Aug. 1.—Spankings are in store for some of the younger members of the Bayside Yacht Club who persist in exhibitions of the "Lorraine dance," says the latest warning from James B. Moore, chairman of the entertainment committee of the club, among the most exclusive of the north shore of Long Island. Chairman Moore recently served notice upon the youngsters that their exhibitions of certain dance innovations had been disturbing to some of the older members with a more highly developed sense of propriety. In his first warning, Moore stated—"I suppose in her prime must have come far short of measuring up to the suggestions indignantly conveyed in what some of the youngsters, contented on our opening evening. Apostles of this Broadway Lorraine dance should remember that the Bayside Yacht Club is not the 'Great White Way.'"

Despite the warnings of the chairman of the entertainment committee, the youngsters have continued to indulge in their daring dances at private parties at the club, and their alleged violations of the edict of Mr. Moore soon came to the attention of the other members who shy at "syncopeated jazz." The result is recorded as follows by Mr. Moore in the "book" of the club: "I suppose not until we speak to the four pups about these exhibitions of highly care-free athletics will some of the sons and daughters behave. We should like to be alone when the spanking is administered. It looks very funny as if one or two pups will be called upon right soon."

RECENT WEDDINGS

Fowler-McNeil. (Quebec Telegraph) The friends of Frank W. Fowler, wharf superintendent of the Canadian Pacific Steamships, Ltd., were surprised to hear of his marriage which took place quietly Wednesday last, to Miss Jessie McNeil, of the nursing staff of the C. S. McTaggart. The wedding was performed privately at the residence of the Rev. Mr. H. H. Wentworth, a large number of friends looked in the house docks yesterday afternoon to congratulate the happy couple. The newlyweds will take up their residence in Quebec during the summer season and in St. John (N. B.), during the winter.

SURE WAY TO GET RID OF BLACKHEADS

There is one simple, safe and sure way that never fails to get rid of blackheads, that is to dissolve them. To do this get two ounces of persone powder from any drug store—sprinkle a little on a hot, wet sponge—rub over the blackheads briskly—wash the parts and you will be surprised how the blackheads have disappeared. Big blackheads, little blackheads, no matter where they are, simply dissolve and disappear, leaving the parts without any mark whatever. Blackheads are simply a mixture of dust and dirt and secretions from the body that form in the pores of the skin—pinching and squeezing only cause irritation, make larger pores, and do not get them out after they become hard. The persone powder and the water simply dissolve the blackheads so they wash right out, leaving the pores free and clean and in their natural condition. Anybody troubled with these unsightly blemishes should certainly try this simple method.

BURGLARS STAY TO CHAT WITH VICTIMS. Sit by Long Island Merchant's Bedside and Smoke His Cigarettes.

Great Neck, L. I., Aug. 1.—Three masked men of youthful appearance entered the home of Samuel Sobel, a Manhattan business man, on Cedar Drive, Great Neck, about one a. m. and after cutting the telephone wires robbed Mr. and Mrs. Sobel and Mrs. A. Wald, mother of Mrs. Sobel, of jewelry valued at \$480. Each of the robbers carried a flashlight and a revolver; two had black-jacks and one a steel pipe. Mr. Wald was aroused by a tinkle of the telephone, which the authorities believe, was caused by the cutting of the wires, and went to answer the call. She was met at the door of her bedroom by two of the bandits, who turned flashlights on her and warned her not to scream. The electric lights were turned on, and the third bandit joined the others. They forced Mrs. Wald to conduct them to the bedroom of Mr. and Mrs. Sobel, who were then aroused. Mr. Sobel was ordered to get out of bed and to stand against the wall. One of the bandits wore a black mask and the other two had white goggles. They took a diamond ring valued at \$200, and a diamond-studded watch valued at \$100, from Mrs. Wald; two rings, valued at \$50 and \$20 respectively, from Mrs. Sobel as she sat up in bed; and a watch and gold pencil from Sobel. Mr. Sobel was ordered to open a wall safe, and did so, but there was nothing in it. Mrs. Sobel was asked where her bonds were, and replied that they were in a safe deposit vault in New York. The bandits then asked Mr. Sobel for his cash, but he had nothing but some small change. The bandits remained in the house for two hours, continuing a conversation, punctuated by threats of violence, with their victims. One of the bandits took Mr. Sobel's cigarette case and smoked his cigarettes. After renewing their search for valuables, they finally withdrew. "We're not from Great Neck," one of the bandits announced, "so don't look us up around here. We're strangers. We were tipped off to do this job." After they had gone, escaping through the window which they had forced, Mr. Sobel dressed and went out to notify the police. County Detective Miller went to the house with a fingerprint expert to investigate the case.

LONE BANDIT GETS \$15,000 IN DIAMONDS

Holds Up Lorenz Collin, Salesman for New York Firm in Streets of Newark. Newark, N. J., August 1.—Lorenz Collin, son of W. L. Collin, diamond importer, of 947 Fifth Avenue, Manhattan, was held up by a lone bandit at Chestnut Street and New Jersey Railroad Avenue, Newark, and robbed of unset diamonds valued at \$15,000. Mr. Collin, who is twenty-five years old, left the store in Manhattan at about 10 a. m. with a wallet containing \$15,000 worth of loose diamonds, which he was to show to the trade in Newark. Mr. Collin has a regular route in Newark, which he covers once a week, and it is thought by the elder Mr. Collin that the robber must have had a "line" on him.

GETS SUIT PIECEMEAL BUT LANDS IN PRISON

Theft of a pair of trousers worth \$8 from R. H. Macy & Co.'s department store four days ago, a store detective told Justices Freschi, Herbert and Voorhees that Frazer was a most persistent thief. He explained that a few days before Frazer's arrest in the store the vest of the suit disappeared from the counter, and the following day the coat was taken. The detective said he was assigned to watch the trousers, and when he saw Frazer take them he followed him to his room. There, after Frazer had bitten the detective's thumb in a struggle, the coat and vest were recovered. Frazer was sentenced to an indeterminate term of from six months to three years.

Form of Hydro Contract Submitted to Council

Amount City Required to Pay Not in Any Case to Exceed an Amount Equivalent to One and Two Tenths Cents Per Kilowatt Hour.

The following is a copy of the hydro contract as submitted to the city council in committee: This contract made this day of A.D., 1922. Between The New Brunswick Electric Power Commission, a body corporate, organized and existing under the laws of the province of New Brunswick, hereinafter called the "Commission", of the first part, And the City of St. John, hereinafter called the "City" of the second part.

WITNESSETH: 1. The commission contracts: (a) To reserve and deliver and supply to the city, (1) Electrical power and energy up to a total, at the option of the city, of ten to fifteen million kilowatt hours per year at a rate not exceeding 4.15 kilowatts and not exceeding 5,723 kilowatts amperes, and (2) Such further quantities of electrical power and energy as the city

Put one on-- the pain is gone!

may require and as the commission may from time to time consider available for delivery and supply to the city, having regard to the existing or future requirements of other users. (b) To reserve, deliver and supply to the city additional electrical power and energy as requested by the city from time to time over and above the amount specified in section (1), clause (a) hereof, provided that eighteen months' notice shall be given by the city to the commission from time to time, specifying the additional amount of power requested under this clause. (c) To exercise all due skill and diligence so as to secure efficient and economical operation of the plant, equipment, lines and apparatus of

the commission for the benefit of the user.

(d) Such power and energy is to be delivered and supplied at the high tension outlets of the city's sub-station at a normal voltage of 13,200 volts on a twenty-four-hour basis throughout the year and for the purposes of this contract to be measured at the low tension side of the city's switchboard.

2. The city contracts: (a) To purchase from the commission all the electrical power and energy which the commission contracts to deliver and supply under clause (a) of paragraph hereof.

(b) To pay the commission the cost of the electrical power and energy contracted to be supplied under this contract, such cost to be adjusted, apportioned and fixed annually by the commission; provided that the amount which the city shall be required to pay shall not in any case exceed an amount equivalent to one and two-tenths (1.2c) cents per kilowatt-hour for the electrical power and energy which the commission herein contracts to supply to the city.

When the power factor of the city falls below eighty-five per cent., the city shall pay for eighty-five per cent. of the kilowatts divided by the power factor.

(c) To exercise all due skill and diligence by all means to increase the consumption of power and energy by the city and for the operation and maintenance of said apparatus; the operation of said sub-station to be mutually agreed upon between the city and the commission.

(d) To exercise all due skill and diligence so as to secure maximum efficiency and economical operation of the plant and apparatus of the commission and of the city.

(e) To ensure that suitable space is provided in the aforementioned sub-station for the installation of such switching equipment meters and measuring devices as may be considered necessary by the commission for controlling and measuring the power and energy contracted to be supplied under this contract and for the operation and maintenance of said apparatus; the operation of said sub-station to be mutually agreed upon between the city and the commission.

(f) To co-operate with the commission by all means in its power and at all times to increase the consumption of power and energy by the city and for the operation and maintenance of said apparatus; the operation of said sub-station to be mutually agreed upon between the city and the commission.

(g) The amounts payable by the city from time to time shall be paid at the office of the commission in St. John, cheques payable at par.

(h) The commission shall render to the city tentative accounts on or before the fifth day of each month for such amount as is shown by the meter reading of the preceding month. The first of such tentative monthly accounts shall be rendered on or before the fifth day of the month following the date specified in a notice given to the city at least thirty days previously thereto as the date on which the commission is ready to deliver and supply electrical power and energy under this contract.

(i) The commission shall annually adjust, apportion and fix the cost of such electrical power and energy as provided in paragraph 2 (b) of this contract and as far as possible after such adjustment, apportionment and fixing of such cost shall submit an account to be known as the "adjustment account," showing a comparative statement between the cost of such electrical power and energy for the preceding year and the amounts of the tentative monthly accounts which have been rendered and paid in respect of same. In case of the apportioning and fixing of the cost of electrical power and energy as between the city and other customers of the commission, consideration shall be given by the commission to the factor of kilowatt ampere demand as well as kilowatt hour consumption. If upon such adjustment account any additional amount is shown to be due by the city (not in any event to exceed one and two-tenths (1.2) cents per k.w.h., the same shall be paid within sixty (60) days after the rendering of such adjustment account; and if as shown by such adjustment account that the commission has been overpaid the cost, a refund shall be made by the commission to the city within sixty (60) days.

(j) All payments in arrears shall bear interest at the rate of six per centum per annum. Without prejudice to any other remedies of the commission, if at any time and so often as an amount equal to the aggregate of the three tentative monthly accounts immediately preceding such time remains in arrears, the commission shall have the right to give to the city thirty days' notice in writing of intention to discontinue delivery and supply of electrical power and energy; the subject hereof or any part thereof or of cancellation of this contract, and if at the expiration of such thirty days

the full amount of such arrears is not paid the commission may forthwith discontinue reservation, delivery and supply of such electrical power and energy in accordance with such notice, and, in the case of notice of cancellation as aforesaid, all obligations and liabilities of the commission under this contract shall thereupon absolutely cease and determine and the city shall be liable to pay to the commission all arrears and interest and such further amounts as may be determined by arbitration under the provisions of the Arbitration Act to be sufficient adequately and fully to reimburse and indemnify the commission for and against all damages by reason of the non-continuance of this contract.

(k) The electrical power and energy which the subject hereof shall be alternating, having a frequency of approximately 60 cycles per second and shall be delivered as aforesaid at approximately 2,300 volts or such other voltage as may from time to time be mutually agreed upon by the commission and the city. The electrical power and energy supplied at the substation shall be in three-phase.

(l) The maintenance by the commission of approximately the agreed frequency at the point of connection of the commission's lines with those of the city shall constitute the delivery of all electrical power and energy hereof, and when voltage and frequency are so maintained, the amount of power and energy, its fluctuations, load factor, power factor, distribution as to phases and all other electrical characteristics and qualities are under the sole control of the city subject to the provisions hereof.

(m) The commission shall have the right to discontinue the supply of electrical power and energy in whole or in part to the city for or property, or for the purpose of making repairs, renewals, or replacements to the plant, equipment, lines or apparatus of the commission. In all such cases where it is practicable to do so, notice shall first be given to the city, and the commission will do everything reasonably necessary to ensure that such interruptions will be of the shortest duration practicable, and where practical such interruptions will be arranged for a time least prejudicial to the interest of the city and its customers.

(n) The commission and its engineers or any other suitable person or persons appointed for that purpose by the commission shall have the right from time to time during the continuance of this contract, to inspect at reasonable hours the plant, lines, equipment and apparatus of the city installed or used in connection with the receipt, distribution and use of the electrical power and energy the subject of this contract, and to take records respecting same and the operation thereof and the city and its engineer or engineers or any other suitable person or persons appointed for that purpose by the city shall have reciprocal rights of inspection and taking records as aforesaid in respect to the plant, lines, equipment and apparatus of the commission installed or used in connection with the reservation, supply and delivery of such electrical power and energy.

(o) In case the commission should for any period or periods be prevented from supplying said electrical power and energy, or any

part thereof, by strike, lock-out, fire, invasion, explosion, act of God or the King's enemies, or any other cause reasonably beyond the control of the commission or of the city respectively, then as the case may be, the commission shall not be bound to deliver, or the city shall not be bound to receive and distribute such electrical power and energy during such periods.

(p) When either party desires and it is physically possible and in accordance with good engineering practice, poles, towers, cross arms and other similar equipment, may be used jointly by the commission and the city for the purposes of either of them on such terms and conditions as may be mutually agreed upon, and if no agreement can be reached then the question as to the practicability of such use and the nature and provisions of such terms and conditions shall be determined by the board of commissioners of public utilities, or in case of their refusal to act by arbitration under the Arbitration Act.

(q) The books, accounts and vouchers of the Commission evidencing the cost of such electrical power and energy are to be open for inspection and examination at reasonable hours by a representative of the City duly qualified and authorized in that behalf; and the books, accounts and vouchers of the City with reference to the subject matter of this contract are to be open for inspection and examination at reasonable hours by a representative of the Commission duly qualified and authorized in that behalf.

(r) All notices provided for herein shall be in writing and shall be considered as duly served and given if mailed duly prepaid and registered at the post office of the City of St. John addressed to the Common Clerk, St. John, N. B., or if mailed duly prepaid and registered at the post office in the City of St. John addressed to the Secretary of the New Brunswick Electric Power Commission, St. John, N. B., as the case may be, and same shall be considered as having been served and given on the day following the date when such notice was so posted.

(s) The sale or other distribution of the

electrical power and energy by the City shall be restricted to bona fide consumers and users of the said electrical power, and the City covenants, promises and agrees with the Commission that it will not either directly sell, dispose of or deliver the said electrical power or any part or quantity thereof to any person, firm or corporation for the purpose of resale or distribution by such person, firm or corporation at a profit.

18. This contract shall continue for years from the date hereof and shall ensure to the benefit of and be binding upon the respective parties hereto and their respective successors.

In witness whereof this Agreement has been duly executed by the parties. Witness: CITY OF ST. JOHN.

CLEAN LIVING IS WHAT IS NEEDED, SAYS MR. PEARSON

"World building as the privilege of individuals" was the subject of an interesting and at the same time very forceful address given yesterday afternoon at Chautauque by Frank B. Pearson who had a wonderful store of anecdotes and amusing stories with which to give added emphasis to his statements. Moroni Olsen of the "Turn to the Right" players gave a monologue recital as the first part of the afternoon programme and in the evening the comedy drama "Turn to the Right" was well presented. In the morning W. W. Schumaker, the superintendent was the lecturer and the Junior Chautauque held its session with Mrs. Elizabeth Mallinson.

Mr. Pearson maintained that the world was for the individual just exactly what the individual made it. It was what the individual thought, felt and was that made up his or her world. It was possible for everybody to select the material with which to build his world, and to set the limits to his world. There were 1,108 people in Sing Sing prison because they selected to make their world with ugly things. Marconi hoped to have radio communication with Mars which was exceeding the limits of his world, but whoever took God into his world stretched its limits to infinity.

By clean living, which was the last thing that Mr. Pearson mentioned as what he desired in his world, he said that he meant cleanliness in everything, physical and moral. Clean blood is spoke of as the right of every individual and declared that conditions would never be right until there were laws which would guarantee to every child two parents of absolutely clean blood.

Cut Down Your Fuel Bills WHETHER you cook with coal, wood, oil, gas or electricity, the principle is the same. SMP Diamond Ware and SMP Pearl Ware require less fuel than all-metal cooking utensils. The potatoes begin to bubble sooner. The kettle boils sooner. If you are using gas, oil or electricity, you may turn off the burners sooner. If you are using coal or wood, you may check the drafts sooner. The enamel coating holds the heat. Test it for yourself.

SMP Diamond or Pearl WARE "A Face of Porcelain and A Heart of Steel" If you want to run your kitchen economically, use the heat-retaining Diamond or Pearl Ware. It saves fuel. Try This Test In Your Kitchen Take an SMP Diamond or Pearl Ware saucepan and an aluminum or copper saucepan of the same size. Measure two quarts of cold water into each. Set them on the fire—coal, wood, gas, oil or electric—and see which comes first to a boil. In a recent test over an electric range with exactly the same heat, the water in the SMP Enamel Ware saucepan boiled in 10 1/2 minutes, while the water in the other took 18 minutes—nearly twice as long, and therefore used nearly twice as much electric current. Do you know that a Diamond or Pearl Ware pot that sold for \$1.50 last year, can be bought now for 80 cents? The Sheet Metal Products Co., of Canada Montreal Toronto Winnipeg Calgary

"WILD HONEY" AT IMPERIAL IS A HIT

Priscilla Dean Outdoes Herself in Anglo-South African Thrill Romance — Last Time Today.

Priscilla Dean added another triumph to the series of her screen successes here, when her latest photodrama, "Wild Honey," was shown at the Imperial theatre last night. It is a Universal-level production adapted from Cynthia Stockley's English novel of the same name, and deals with the experiences of an intrepid English society girl on the veldt of South Africa.

Miss Dean has become known as one of the screen's foremost emotional actresses. Her last few pictures, among which are "Outside the Law," "Reputation" and "Conflict," have been photodramas of the first rank. "Wild Honey" is even more of a thriller. It grips the imagination by the force of its situations, and no more than lets down from one thrill before it carries one into another gripping suspense.

Miss Dean plays the role of Lady Vivienne, a high-bred English woman whose grandfather uses her to attract a wealthy but uncouth business man into a financial venture. The business man in his attempt to get revenge lures the girl to a lonely hunting lodge. The circumstances surrounding her escape from there form the first thrill of the picture.

Later she is seen in South Africa, investigating her land holdings. She is lost in the veldt and is captured by a degenerate teamster. She is rescued by a young English engineer with whom she falls in love. She later saves his life in a flood, caused by the blowing up of a dam, instigated by a South African money baron jealous of her lover's engineering successes and of winning of Lady Vivienne's heart.

Priscilla's wild ride to reach her sweetheart before the flood gets him, and their struggles in the torrent, form one of the most realistic and breath-taking thrills seen on the Imperial's screen in many a day.

Miss Dean is supported by an excellent cast. Robert Ellis plays the role of the young engineer. Wallace and Noah Beery, brothers and noted screen villains, both have roles in the picture. One is the English business man and the other is the South African teamster. Others in the cast include Lloyd Whitlock, Percy Challenger, Helen Raymond, Landers Stevens, Carl Stockdale, C. J. Frank and Harry de Roy.

One of the interesting features of "Wild Honey" was its true English and South African atmosphere. The English baronial homes, the lovely gardens and estates, horse-riding parties, fox-hunting, etc. were exceedingly fine to look upon. In South Africa the locale seemed perfect as most people have read or seen it pictured. In all the scenes there were no "Americanized" British blunders. The Pathe News and Topics of the Day opened the programme with the usual pep and punch.

Tomorrow the Imperial has a new programme, a First National picture entitled "Miss Nobody." It is a society critic mystery in which a twelfth juror holds out against the others and tells his reasons.

"Her Mad Bargain," the Louis Mayer First National attraction starring Anita Stewart at the Queen Square Theatre last night, is unique because it has many twists that make it stand out among the season's offerings.

Alice Lambert, protégée of wealth, is suddenly deprived of every comfort and luxury she has known. Without any training in the practical things of life she is forced to a miserable existence haunting studios or dressmaking shops for a few hours' work as a model. Fleeting from the persecutions of an undesirable artist she presents a charming picture in negligence as she bounces into the studio of David Leighton. David is a high minded young man, who decides to save Alice from herself; and since she won't accept aid from him he talks her into signing an unusual bargain by which she is to be surrounded with every comfort for the period of one year.

Those Pretty Teeth

How careful people get them

Careful people—millions of them—are brushing their teeth in a new way. They do it almost the world over, and largely by dental advice. Whiter teeth is one result. You see them every where. Now we urge you to try the method which they use. Ask us for a ten-day test.

Just remove the film
It is film that makes teeth dingy. That viscous coat clings to the teeth, enters crevices and stays. The tooth brush used in old ways has left much of it intact.
Film is what discolors, not the teeth. Film is the basis of tartar. Most people's teeth are kept clouded by it, more or less.
Film also holds food substance which ferments and forms acids. It holds the acids in contact with the teeth to cause decay. It breeds millions of germs, and they, with tartar, are the chief cause of pyorrhea.
All these troubles have been constantly increasing. And most of them are traced to film which old-way brushing left on teeth.

What must be done
Dental science, after long research, has found two film combatants. Able authorities have proved

Anita Stewart is herself. That describes capable acting, a glittering sheen of gorgeous clothes, beautiful features and a graceful carriage. Her support is unusually capable. Walter McGrail is the leading man and the players include among others, Arthur Edmund Carew and Adelle Farrington. Young Ernest Butterworth takes a juvenile role with a mixture of comedy and pathos.

The direction was by Edwin Carew and the scenario by Josephine Quirk.

EARLE WILLIAMS AT THE UNIQUE MAKES A HIT

There is a delightful vein of whimsical comedy running through "Restless Souls," the Earle Williams production which was shown at the Unique yesterday. It is in this type of picture that the star shines. His stocky build, jovial face and good natured manner, make him exceptionally well suited to roles of Parkington's type.

The picture is based on a story "Playing Dead," by Richard Harding Davis, and in visualizing the story all of the humor and twists which made Richard Harding Davis a favorite have been retained.

Aids Nature too

Gummy starch deposits also cling to teeth, and often ferment and form acids. To digest them, Nature puts a starch digestant in the saliva. Every use of Pepsodent multiplies that starch digestant. Nature puts alkalis in the saliva to neutralize mouth acids. Each use of Pepsodent multiplies these alkalis. Thus Pepsodent twice daily brings five desired effects. It has brought to millions, as it will to you, a new conception of clean teeth.

Toothache	Neuralgia	Neuritis
Earache	Lumbago	Pain, Pain

Handy "Bayer" boxes of 12 tablets—Also bottles of 24 and 100—Druggists. Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Monocarbonylchloride of Salicylic Acid. It is well known that Aspirin means Bayer manufacture, to assist the public against imitations, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

Any Pain or Swelling

will feel better after being rubbed with

Absorbine JR.

THE ANTISEPTIC LINIMENT

Varicose Veins are stubborn to reduce. Yet "ABSORBINE JR." has been used with wonderful success in allaying the pain, taking out the soreness and inflammation, and reducing the swollen, congested veins.

For Rheumatism and Gouty Swellings—for Stiff Neck, Tonsillitis and Neuralgia—for strained or torn ligaments—for Lameness and Soreness from overwork or accident—a brisk rubbing with a few drops of "ABSORBINE JR." makes the pain a lot easier. Try it every few hours and see how fast you get relief.

When an accident happens—a cut, burn, bruise, dislocation—apply "ABSORBINE JR." to heal the injury and prevent infection.

"ABSORBINE JR." is a vegetable germicide—absolutely safe to use—pleasant odor—contains no grease and does not stain.

Those Pretty Teeth

Careful people—millions of them—are brushing their teeth in a new way. They do it almost the world over, and largely by dental advice. Whiter teeth is one result. You see them every where. Now we urge you to try the method which they use. Ask us for a ten-day test.

Just remove the film
It is film that makes teeth dingy. That viscous coat clings to the teeth, enters crevices and stays. The tooth brush used in old ways has left much of it intact.
Film is what discolors, not the teeth. Film is the basis of tartar. Most people's teeth are kept clouded by it, more or less.
Film also holds food substance which ferments and forms acids. It holds the acids in contact with the teeth to cause decay. It breeds millions of germs, and they, with tartar, are the chief cause of pyorrhea.
All these troubles have been constantly increasing. And most of them are traced to film which old-way brushing left on teeth.

What must be done
Dental science, after long research, has found two film combatants. Able authorities have proved

DID MUCH FOR HUMAN RACE

Japanese Who Died Recently in New York Had Made Important Discoveries in Medicine.

Dr. Jokichi Takamine, foremost Japanese in American, known everywhere for his achievements in chemistry, who died recently in New York, did much for the human race by his two great discoveries, adrenalin and takadistase. He discovered adrenalin in 1900 when experimenting with glands of sheep. It is now manufactured from bovine glands. Its great virtue is the driving away of blood when applied to a living tissue, removing largely the danger of hemorrhage in operations, particularly in nose and throat, where formerly profuse bleeding made the surgeon's work difficult and hazardous.

Adrenalin has made bloodless surgery possible in some cases. It also raises blood pressure through the contraction of small arteries. It gives the heart a squeeze, sending the blood ahead, and has saved the lives of many persons who seemed to be dying.

Takadistase, Dr. Takamine discovered in 1904. It is obtained from a fungus growth, mainly on the rice plant, known as Aspergillus oryzae. It is used in Japan in fermentation of sake, or rice beer, and is in general use for starch digesting.

For three years to the University of Glasgow and the Andersonian University of Glasgow. Returning to Japan, he was chemist of the Department of Agriculture and Commerce. His appointment as Commissioner to the Cotton Centennial World's Fair in New Orleans was the turning point in his life. In 1888 he married Miss Caroline Hitch of New Orleans and five years later, after returning to Japan to erect at Tokyo the first superphosphate works, he settled in the United States. A company was formed in Chicago for the manufacture of takadistase.

He established a research laboratory in a cellar in New York and there, isolating the active principle of the suprarenal glands, he discovered adrenalin. He also originated the process for recovery of glycine from the printer's roll and was interested in the extraction of nitro-

PROHIBITION

(Moncton Transcript) Some interesting statistics showing the salutary effects of prohibition in the United States are presented in an article in Current History, prepared by Mrs. Elizabeth Tilton, National Legislative chairwoman of the Congress of Mothers and Parent-Teachers Association. In New York city commitments to institutions that deal with intoxication dropped from 11,840 in 1915 to 2,050 in 1921, or 82 per cent. Arrests for drunkenness in New York city were 22,635 in 1915 and 3,109 in 1921, a decline of 86 per cent. Deaths from alcoholism in New York city dropped from 662 in 1915 to 119 in 1921, or 78 per cent.

In Rochester there were 2,795 arrests for drunkenness in 1915 and 757 in 1921.

In Providence the figures were 6,228 and 6,778.

In New York State admissions to county jails for intoxication were 13,197 in 1915 and 3,069 in 1921, a decline of 76 per cent; the decline in drunk and disorderly cases was from 420 in 1915 to 88 in 1921, a decline of 80 per cent.

Charity societies report an enormous decrease in the number of families re-quiring assistance in New York in 1921 as compared with 1917, especially in cases in which drink was a factor, though hard times prevailed.

The bootlegger is still doing business, but the prohibition law is gradually be-coming better enforced, and the food rules are making a favorable impression upon the public mind, so that little interest is being attached to "wet" campaigns. In proportion as prohibition gets a fair trial so will its permanence be assured.

PREDICTS ONE OF THE BEST CROPS

Grant Hall of C. P. R. Gives Result of Inspection on a Three Weeks' Trip.

Winnipeg, Man., Aug. 1.—"As nearly as can be judged on August 1, I should say that, between the lakes and the coast, the crop—cereal, fruit and vegetable—will be one of the best we have ever had."

This is the opinion of Grant Hall, vice-president of the C. P. R., who arrived in Winnipeg on Saturday night after spending the day as the guest of the management of the Brandon exhibition.

Mr. Hall has been in the western provinces for three weeks, and has traveled mostly in daylight, making a close inspection of the railway as well as getting a personal opinion of the crop conditions.

"British Columbia is suffering from drought," said Mr. Hall. "But apparently it has not shortened the crop to any considerable degree except possibly the apples in some districts. The wheat, however, is where they suffered most, but in the Pentland and Kelowna districts they are well up to the average, and the same is true of the Vernon district."

"On the prairies I think we have every reason to be hopeful. Along the main line of the Canadian Pacific, south to the international boundary, and for 175 miles north of the main line the crop is better than for several years. Of course there are districts where it is short, but good length and well filled, showing that the early moisture was sufficient to carry it through. The saw fly is making some progress, and just what it may do yet is somewhat problematical."

To the oft-repeated question of whether the Canadian Pacific will be in a position to handle all the business offered during the fall rush of both grain and coal Mr. Hall said the only answer is that his company has never yet gone into the fall rush with the expectation of falling down in the pinches, and he did not think it would be wise to anticipate any such action this year.

Mr. Hall was accompanied through the west as far as the coast by Charles Murphy, general manager of western lines. He will return east on Tuesday.

SUNDAY NIGHT MOVIE SHOWS

They Allow Them Now at Essex Seaside Resort—Sunday Games in Parks.

London, Aug. 1.—(Canadian Press)—The decision to allow games in London parks on Sundays is causing considerable discussion in other sections. Royal Parks such as Hyde Park and Hampton Court, which are under control of the national government and own no other authority, will follow the practice hitherto prevailing and games which do not interfere with the ordinary pleasure of other folks will be permitted but no organized games will be allowed. Liverpool, cosmopolitan as it is, has always refused to allow even band concerts.

On Sunday night at South End, the popular Essex seaside resort, movie shows were opened for the first time, and thousands of people were turned away. The regulations stipulate that shows must be held outside the regular church hours. Music to accompany the pictures have not so far been permitted.

STAR RACQUETTERS

IN STIRRING TENNIS

Southern, N. J., Aug. 1.—Stirring international racquet tilts were provided today in the invitation tournament on the turf courts of the Seabright Lawn Tennis and Cricket Club by members of the Davis Cup teams of France, Australia, and the United States.

André Gobert, captain of the French Davis Cup team; Gerald L. Patterson, leader of the Australian Davis Cup players; Henri Cochet, a young French marvel and three Americans, William M. Johnston, San Francisco, R. Norris Williams, Boston, and Watson M. Washburn, New York, stood out among the winners.

Johnston, his forehead driven at their best, took a stiffly played contest from Stanley W. Pearson, of Philadelphia, 6-4, 7-5.

Gobert mastered Major Arthur Y. Yencen of the British Embassy by sheer force, 6-2, 6-3. His team mate, Cochet, was an easy winner over G. Foster, New York, 6-3, 6-0.

Williams displayed some of his old time dash in defeating William A. Larned, a former national champion, 6-4, 6-3, 6-1.

Williams then moved on to defeat Seichiro Kashio, the Japanese, 6-2, 6-4.

CHESSE. Champion's Victory. London, Aug. 1.—J. R. Capablanca, world champion chess player, yesterday defeated H. E. Bouvier, Holland, in the first round of the international tournament at which will be decided the world's championship.

RING. Give Victory to Shade. Newark, N. J., Aug. 1.—Dave Shade, a San Francisco welterweight, outpointed George Ward of Elizabeth, N. J., in a 12-round contest last night, in the opinion of a majority of newspapermen at the ringside.

Montréal Bouts. Québec, Aug. 1.—Tommy Buck, a Philadelphia featherweight, yesterday won points from Sammy Pearce of Montréal, in ten round bout here last night. In a semi-final between Mickey Sullivan of New York and Mickey Watson of Montréal, the referee awarded the decision to Sullivan.

Barrett-O'Brien Bout is Draw. Fort Fairfield, Me., July 31.—About 2000 people from all over Aroostook and parts of New Brunswick saw Jack Dempsey go four two-minute rounds with his sparring partner, Jimmy Dargay, at the local driving park tonight. The men mixed it up quite lively and pleased the crowd. Wild Bill Flemming of Bangor was referee.

A Knock Out. Youngstown, Ohio, Aug. 1.—Tommy Robson of Malden, Mass., knocked out Harry Krohn of Akron in the eighth round of a scheduled twelve-round bout here last night.

Hilton Belyea Training Hard. Hilton Belyea is busily engaged practicing on the Schuylkill river at Philadelphia and seems confident of winning. He is said to be in better shape than when he raced for the Philadelphia Gold Challenge Cup. He has raised the foot pedals slightly and increased the outboard of his shell. His extraordinarily wide-scuttling blades are attracting much attention.

Ontario Branch A. A. U. of C. Toronto, Aug. 1.—The Ontario branch of the A. A. Champion Declares He Tried His Hardest and is Satisfied With Showing. Leonard and Billy Gibson, the champion Southpaw, were interviewed immediately after the fight. "Southpaws are hard to solve," said Leonard. "They present a difficult style for a boxer with a natural pose. I found difficulty in solving Leonard's naturally style from the outset. I am disappointed that I was unable to knock my rival out. I must admit, however, that he is a hard worthy battler. I tried my utmost to score a knockout. I was in perfect condition and supremely confident. Possibly in my eagerness to score a knockout, I overlooked many opportunities. I am satisfied, however, that I outpointed Tender by a clear margin on points. I hope my legion of friends and admirers and the great crowd which witnessed the bout are satisfied with the outcome of the bout. I tried my hardest, but, as I said before, southpaws are hard to solve."

Tender Thinks He Outpointed Leonard. Challenger is Anxious to Meet Champion Again—His Manager Disappeared. Tender and his manager, Phil Glassman, were interviewed in the challenger's dressing quarters soon after the fight ended. "I honestly think that I won the bout," said Tender, "but I will leave that matter for the public to decide. I fought my heart out and gave the best that was in me. I am most anxious to meet the champion again, and I am confident that, if given another chance, I can demonstrate my superiority in more convincing fashion. I nearly had Leonard out in the seventh or eighth round. I can't remember which. During the course of the fight Leonard declared that he was going to knock me out, but I retorted that if he couldn't be done, after the bout Leonard said 'I've the greatest kid I ever fought!' I would have my legs in the early rounds due to the padding on the floor of the ring, which was so soft to suit me. It took some time for me to become accustomed to it. I am satisfied

with my showing and feel that I outpointed the champion." "I am frankly disappointed with the outcome of the bout," declared Glassman. "I had confidently expected that Law would score a knockout. I think that he outpointed the champion, however, by a clear margin. It was a great fight. I would like to have Law meet the champion again, as I firmly believe that he could knock Leonard out in a return bout."

A WORD FOR ST. PETERS. To the Sporting Editor of The Times:—After watching this season's performance of St. Peter's ball team I wish to state that all credit is due them in every respect for their great showing, especially against visiting teams. We have a great many teams visit our city in the last two years, but they have mostly all departed with losses carrying their wins, brought about by a combination of local talent. If we had another such aggregation to compete against them, we would be treated to a brand of semi-pro ball exceeded in very few parts of America. In such event the attendance would be much greater, and when exhibition or benefit games were played they would be a financial success, and yield a worthy contribution to support its cause. Thanking you, sir, GEORGE WILLIAMS. St. John, N. B., July 31.

A BASEBALL DECISION. Decision has just been rendered in a baseball dispute in Kings county. Hampton had protested a game given to Cardwell on the Sussex diamond on July 25. The executive of the association for the county divided evenly on the protest and referred it to Pete McAllister of St. John. Mr. McAllister rules that the umpire should have called "play ball" after the ball was returned to the pitcher from the second inning was null and void. This gives the decision to Hampton.

A GOOD SUGGESTION. In a letter to the press, St. Mary's hand make a suggestion for raising a fund for Hilton Belyea, Canadian single scull champion, proposing a combined band concert in King Square for the four local bands and a collection from the crowd. They ask that one of the local community welfare clubs take up the proposition.

IN CANADA, PLANNING FOR ROUND-WORLD FLIGHT. Victoria, B. C., Aug. 1.—Sir Keith Smith, a famous British aviator, and brother of Sir Ross Smith, who was killed in England just prior to a round-the-world flight, which, following the fatal accident, was taken up by Major W. T. Blake, is expected to arrive here from the Orient in September, in the course of a tour to map out the route for other world flight, according to R. H. Winder, who reached here yesterday from the Far East.

Major Winder said he had received a letter from Sir Keith stating that he expected to leave soon from Australia to the Orient and would arrive on this coast about September.

C. A. S. C. vs. Civic. What promises to be a most interesting game of baseball will take place this evening on the east end grounds when the Canadian Army Service Corps team, of the Garrison League, will cross bats with the Civics of the Civic and Civil Service League. The soldier boys are a strong and snappy team, and have been playing good ball in their league and are out tonight to take the Civics into camp. The Civic team on the other hand are out to redeem themselves after their defeat at the hands of the Royals last Thursday evening, being their first defeat out of fourteen games played, and they are determined to make the soldier boys work to secure the verdict. Both teams will present their strongest line up for tonight's battle.

CHALEUR BRINGS 90
Some for St. John on West
Indies Steamship—Chinese
on Way Home.

The Royal Mail Steam Packet Chaleur
arrived last night this morning from
London and the West Indies and docked
at Pettibon Wharf at 9:30. She brought
ninety passengers, forty-eight first, five
second and thirty-seven third class, also
a large consignment of mail and a fair-
sized general cargo, including 350 tons
sugar and 1,000 puncheons of molasses.
Among the passengers were twenty-six
Chinese, who left this afternoon by
C. P. R. en route to Hong Kong, China.
Among the first class passenger are
captain and Mrs. Purvis and children.
Captain Purvis is en route to Halifax
to take command of the R. M. S. P.
Chaudiere, which is in port there.
Through the illness of Captain Parker,
who took ill while the Chaudiere was in
St. John recently, the captains have been
shifted and Captain Purvis will take
Captain Parker's command.
Passengers destined for St. John were
Mr. and Mrs. E. H. S. Flood, the former
being Canadian trade commissioner to
Barbados; Mrs. C. H. Neave and child
and William Lane. There were eight
for United States points, one for Eng-
land, ten for Upper Canadian and west-
ern points and several are making the
round trip.
The maritime province passengers
were Mrs. C. A. Foster and child,
Dartmouth; Rev. Schingour, wife and
four children, St. Martin's; J. C. Reid,
Sydney; F. Williams, Miss V. Ford,
Sydney; Mrs. E. M. Malone and child,

NEW BRUNSWICK "MOVIE" STORY

Ernest Shipman Coming Here
Soon to Make Arrange-
ments—Now in Newfound-
land.

Representing Ernest Shipman, Cana-
dian moving picture producer, J. R.
Smallwood arrived in St. John this morn-
ing from St. John's, Newfoundland, to
have the way for an immediate visit
of Mr. Shipman. The Canadian pro-
ducer is coming to this city in a week
or so to arrange for the production of a
New Brunswick moving picture.

Mr. Shipman has just organized a
producing company at St. John's. The
director, cameramen and actors will
arrive there in three weeks and start to
make the picture. Five or six weeks it
will take, and by October 1 the New-
foundland moving picture will be on the
world market for a five-year run.

It is Mr. Shipman's plan to build up
producing companies all the way across
British North America. He already has
companies in Calgary, Ottawa, Win-
ipeg and Sault Ste. Marie, in addition to
companies in Mexico and Italy. In
Mexico he has a picture being made now
with Madame Petrova, starring.
Mr. Shipman has produced the follow-
ing big pictures:—"The Sky Pilot,"
"Back to God's Country," "Nomads of the
North," "Cameron of the Royal
Mounted," "The Man From Glengarry,"
"God's Crucible," "Treason of the Alps,"
etc. Every one of his twenty-one pic-
tures has been a success, not one failure
opposite his name.

Picture rights of Frederick William
Wallace's stories have been secured, and
it is thought that "Blue Waters," a story
of the Bay of Fundy, would prove a good
New Brunswick picture. At any rate
Mr. Shipman plans making a New
Brunswick picture immediately, to be
released in time for the fall circuit.

A producing company will be orga-
nized in Halifax, also, under similar ar-
rangements to those in Newfoundland.
Mr. Shipman subscribes a third of the
capital necessary to making of a pic-
ture, and collections in every sphere
of P. E. Island, but it is doubtful if Mr.
Shipman will be able to make that place
enthusiasm. A very strong directorate,
including the mayor, minister of finance,
president of the board of trade, etc., was
elected with the picture, and this is a
qualification always insisted upon by
Mr. Shipman. He will not touch a pic-
ture until he has sympathy and support
of the prominent citizens and business-
men of a community. It is by this
means that he has placed all his pictures
on a plane high enough to be envied by
many producers of moving pictures.

**BIGGEST EVER IN
HISTORY OF PORT**
Customs Receipts for July
Make a Record, \$820,604.-
89—A Steady Gain.

"The largest monthly customs re-
ceipts ever collected in the history of the
port of St. John," was the encouraging
and important announcement given out
at the local customs house this morn-
ing. In the month just passed the sum
of \$820,604.89 was collected here, an in-
crease of \$85,469.46 over July 1921, when
the receipts amounted to \$735,135.43.
Each month this year there has been an
increase, but this month caps the climax,
and to all who heard the announcement
this morning, there came the feeling that
time are surely getting better. Speaking
of the increase, one of the customs
officials said this morning that while the
imports of sugar by the local refinery
had a lot to do with the matter, busi-
ness of every kind seemed to be pick-
ing up, and collections in every sphere
of business activity were heavy. It was
also pointed out that a very few years
ago, if \$820,604.89 was collected in one
year, it would be considered a great
year's work. If the present activity
keeps up the record of the year's work
will also show a new record, it is
thought. The figures follow:

July, 1922—Customs import duty,
\$735,135.43; sundry collections, \$80,671;
excise tax, \$76,374.65; excise duty,
\$8,116.88; pilotage dues, \$2,816.23;
steamship inspection dues, \$100.00; ma-
rine dues, \$747.73; total, \$820,604.89.

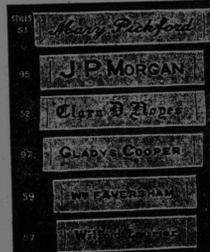

July, 1921—Customs import duty,
\$665,542.24; sundry collections, \$208.78;
excise tax, \$55,950.24; excise duty, \$11-
706.45; pilotage dues, \$1,788.75; steam-
ship inspection dues, \$125.00; marine
dues, \$488.94; total, \$735,135.43. Gain
in 1922, \$85,469.46.

**YOUNG JUDEANS
TO CELEBRATE**

St. John Organization Plans
Observance in Recognition
of Palestine Mandate.

The St. John Young Judeans, in
conjunction with the members of the
St. John Hebrew School, are ar-
ranging a lengthy programme of recita-
tions, addresses and musical numbers
for Friday of this week, when they in-
tend holding a celebration in recognition
of the recent mandate regarding Pale-
stine. At a meeting of the League of
Nations, the mandate, which is held by
the British government and which was
brought about through the efforts of
Lord Balfour, was ratified.
Celebrations of similar nature are
taking place all over America, and they
are especially noticeable in New York,
where the event will be celebrated dur-
ing a whole week.
The local programme will be given in
the vestry of the synagogue and will
commence at ten o'clock in the morning.
Miss Brodie, violinist, of Sydney, N.
S., has kindly offered to play.

Quartered Oak Dining Tables

At Enormous
Reductions

A recent fortunate purchase enables us
to offer a range of beautiful quartered oak
extension dining tables at little more than
half the previous price. One we wish to
specially mention is of solid quartered oak,
extends to six feet, and the 44 inch top has
rounded edges. Either fumed or polished
golden finish for \$27.00.
Not made to sell cheap, but a high-class
article at a wonderfully low price.

Our immense stock is al-
ways at your disposal for in-
formation or price compar-
isons.
