

CASUALTIES

Mrs. Francis Collin of 280 Duke street West End, was notified yesterday that her son, Pte. Percy A. Collin, 8th Canadian Battalion, was officially reported wounded and missing since Sept. 28. Previous to enlisting, he was employed by the Maritime Dredging Company and left five years ago for Buffalo to commence his work on the Great Lakes. In December, 1914, he crossed to Hamilton, Ont., where he enlisted with a Canadian unit and left for overseas a few weeks prior to enlisting. Pte. Collin's brother, Frank, is at present with a Montreal battalion and expects to proceed overseas soon.

Private Collin was twenty-one years of age. Many friends will hope to hear some good news concerning his whereabouts.

MORE HOPEFUL IN CITY TODAY

Believed Epidemic Crisis Passed Here; The Hospital Situation; Further Diet Supplies

The influenza situation is stationary today with a total of 811 reported cases. In spite of the unfavorable weather the epidemic seems to be stemmed and there is a decidedly hopeful and optimistic tone in all official utterances today—

Private Collin was twenty-one years of age. Many friends will hope to hear some good news concerning his whereabouts.

There are twenty-seven patients in the new emergency hospital in the Park's Convalescent Home. The number is daily decreasing. There is hope for about fifty patients in the institution.

The hospital is staffed by twelve people. Dr. Wm. Ellis is in charge, Mr. Allan Gundry is matron and chief housekeeper; the other members of the staff are trained nurses. These nurses were secured by the Department of Health and every facility is afforded for the efficient and prompt care of patients taken to the emergency institution by the ambulances set aside for this particular work.

The emergency hospital is getting its supplies from the same source as the General Public Hospital and rates are equally advantageous. In fact, the Times is informed the institution, not much more than a week old, is running smoothly and efficiently, filling a most urgent need and reflecting credit upon the cooperative labors of the Department of Health and the local board of health, which comes under the provincial authority through the new health act.

A week ago last Tuesday legal arrangements were made, transferring the Park home to the board of health. By Friday of the same week, three and a half days the house was occupied by its first patients. In this time plumbing was installed, a re-adjustment of all the electric lighting made, bedding put in place, furnace overhauled and heat turned on, not to mention a hundred and one items of renovating work and installation necessary before the reception of sick people.

The first day so well the urgent first cases were in the hospital—cases that brooked no delay—the hospital was provided with all the supplies and necessities. It was not long before the place was in a position to accept and register everything that the hospital is a tribute to the prompt action of those who established it and those who helped it up.

The throwing open of a certain number of beds in the General Public Hospital for influenza patients will greatly relieve the stress upon other institutions and will release more nurses for duty in the city and outside.

There are only ten patients in the Isolation Hospital, Sandy Point road, members of the crew of a bark. When these men are discharged their particular hospital will not take any more influenza patients as recent additions to the hospital accommodations in the city will take care of new cases. This announcement does much to explain the checking off of the sick and the removal of them to established and professional nurses being added to the ranks of V. A. D. workers in the city.

THEY'RE TAKING MORE IN THIS LOAN CAMPAIGN

Subscriptions for Larger Amounts Than Were Subscribed For 1917

Toronto, Oct. 30.—Dominion headquarters of the Victory Loan announce "double up" as the new slogan which the record of the campaign to date has given to the drive that must carry the loan over the top. For the first two days of the campaign reports from the province of Ontario brought applications of \$84,000,000, as compared with \$17,000,000 for the first two days last year. So far Ontario is doubling up.

The Steel Company of Canada, one of Canada's large corporations, has doubled up last year's amount, or an even half million.

The Imperial Oil Company last year took \$1,500,000, this year \$3,000,000. The North American Insurance Company took \$800,000 last year; this year \$1,000,000.

Double up falls to describe the action of the Singer Company, which last year took \$300,000 and this year takes ten times that amount, or an even half million.

The Fairbanks-Morse Company has doubled from \$600,000 last year to \$1,000,000 this year. So has the Cowan Company, with \$200,000 this year, as compared with \$100,000 last year.

The Dunlop Tire Company has more than tripled up with \$1,000,000 this year, compared to \$300,000 last year.

The Russell Motor and Willys Overland companies make a joint application for \$500,000 this year, as compared with \$250,000 last year.

These are some of the big applicants. Canvassers report that a similar attitude is found among large sections of all cases of the community before the campaign, and over it may prove to be as infectious as the Spanish influenza.

MILLION MARK IS PASSED IN LOAN IN CITY AND COUNTY

(Continued from page 1)

A \$1,000,000 mark tonight by a man in moderate circumstances is an encouraging to the canvassers who are working from 8 o'clock until 10 p. m. The Imperial theatre lobby in the evenings, where questions will be answered and applications furnished for those who want them.

The first district in the province to reach its quota is the parish of Rogersville, Northumberland county. The fact that this was achieved so early in the campaign, in spite of a serious epidemic situation, aroused great enthusiasm in headquarters and warmly commended by the secretary of the provincial committee. The parish is going after the crowns awarded for each fifteen per cent. over the quota.

Two Roads To The Rhine

(Toronto Globe)

A week ago French had but one practicable road to the Rhine. American and French troops, standing upon the foothills of the Vosges in Upper Alsace, are close enough to see the river valley about Muehlhausen, less than twenty miles away. The road into Germany from the Upper Rhine has been open ever since the first months of the war, but the Allies have never had the numerical superiority that would warrant invasion of the Rhine valley at a time when German armies stood within striking distance of the French and the Channel ports, possession of which was vital to Britain's military effort in France.

The menace to the French capital and to the British bases has been removed. The Belgian coast has been cleared of the enemy. French armies hold two cities of importance in France—Valenciennes and Maubeuge—and offer French territory of strategic value save the Brierly river in Lorraine and the banks of the Meuse about Metz. The time has come for carrying the war into the enemy's territory. Marshal Foch now has two roads to the Rhine open to him, the upper in Alsace, the lower across Belgium. Liege and Ais-la-Chapelle to Cologne and the industrial centres of Westphalia farther to the north. But for the fact that Metz with its strong defenses guards the eastern frontier, a third way would be down the Moselle by Thionville and Treves to Coblenz, where the Moselle merges with the Rhine.

Which of the two open roads will Foch choose for his armies when the march into Germany begins? The Americans favor the upper route. They think most of the front in Alsace and Lorraine, and have been making their plans for the invasion of the Spanish influenza on the southern sector, and for the occupation of the iron mining and smelting districts of France and Germany. Liege, believing that failure of the supply of iron ore and pig iron would bring Germany's industrial system to a standstill, has been making plans for a penetration of the German lines to the extent of forty miles would bring the Brierly district into German hands, producing portion of German iron under occupation by the Allies.

But are reasons of great importance for using the Alsace-Lorraine line? In a few days the British fleet will occupy the eastern bank of the Scheldt from Antwerp to central Belgium. The German frontier at Ais-la-Chapelle is less than seventy miles, and once across the frontier the invaders would bring their army to the district about Dusseldorf, Essen, Elberfeld, Solingen, and other cities in which Germany's iron and steel centres. The invasion and occupation of the lower Rhine Valley northward from Cologne, carried by the road into the Upper Rhine, would make further advances to the Alps and the western frontiers. The British fleet would carry their supplies from their factories situated all over the world. The occupation of the Ruhr would be a serious blow to continue the struggle. But the heart of Germany's industrial system is in the Rhine valley.

While the machine shops of the Ruhr and the blast furnaces of the Westphalia have been the main effort made by the Allies, the operations of early Wednesday. The statement also reports complaints of progress by the third, fourth, eighth and twelfth armies along the Pave. It reports that the advance continued this morning. The tenth army has reached a line two miles east of Ormelie, the western end of the line of the line of the Meuse, and is continuing the advance. In yesterday's operations the yeomanry captured more than 900 prisoners.

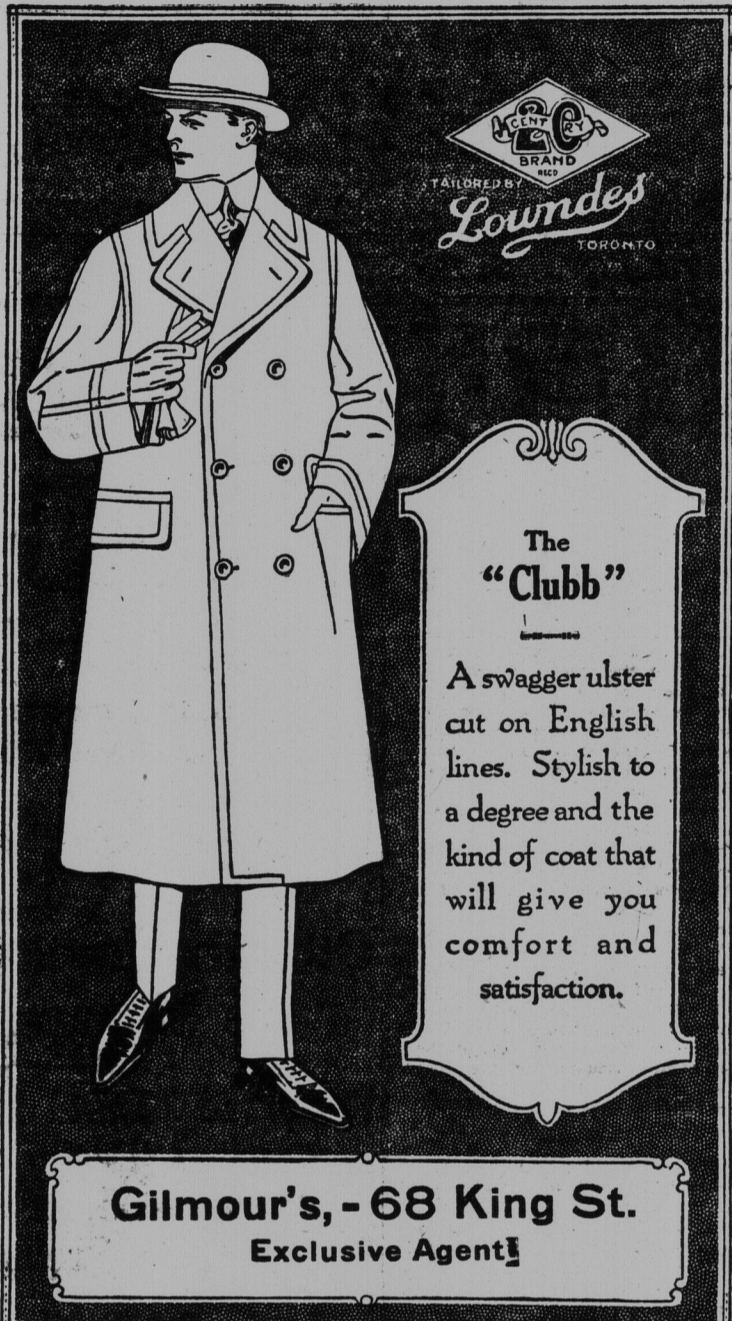

The third army has crossed the Pave south of the tenth army. The advance of the eighth and twelfth armies is proceeding rapidly. Victory has been promptly occupied.

"Austria report that the airforce at Tausse and Perdone and the ammunition dumps at Scie are burning. A mass of hostile infantry, estimated at 10,000, was attacked from the air this morning in the neighborhood of Scie and scattered."

"British troops commanded by the Italian General Penella have entered Alsace."

HOW A WATCH HELPS A MAN

A good watch is a distinct asset for a man. It is a mark of efficiency, good business judgment, and habit of promptness. It strengthens him in the good opinion of others, and is an invaluable aid in the performance of his business and social obligations.

You owe it to yourself to purchase to carry a good watch.

We forecast the shortage in watches in time to protect our stock.

THE CZAR'S COUSIN AS DRESS DESIGNER

Family Fortunes Vanished, Count Michael Torby Embarks on New Career

One of the most astonishing of all the toby-turvy romances of the war is summed up in the fact that Count Michael Torby has become a dress designer in the West End of London.

Count Michael is the only son of the Grand Duke Michael of Russia, second cousin of the Czar, who was recently killed by Russian revolutionaries.

But for the war, says the London Express, which tells the story, he might possibly have gone some day to Russia, which his father left more than twenty years ago in order to live in England with the wife whom the Czar of those days refused to recognize because she was not of Royal blood.

The late Czar was on friendly terms with the Grand Duke Michael, and the young count might, perhaps, have gained a position in Russia such as would seem the proper lot of a cousin of the Czar.

He was brought up in luxury in England. He lived with his father and mother at Keele Hall, in Staffordshire, a magnificent country house in the Tudor style, or at Ken Wood, one of the most beautifully situated of the old Hampshire houses, with large gardens and grounds. He seemed assured of a life untroubled by the need of making money.

Then came the war and the Russian revolution, and the family fortunes vanished. The Grand Duke left Ken Wood. Now the count has set up in business as the rival of Lucille and Paquin and Poiret.

If this boy were your boy

If you had a boy in France to-day, you would make your purchase of Victory Bonds large enough to represent a real personal sacrifice.

You would be thinking of that lad—out in the hell on earth that is No Man's Land—cheerfully offering his life for Freedom's cause.

And you would do your best to save that life.

You would help—with all your might—to provide the money that will shorten the war and reduce the cost of Victory, in human lives.

You would buy all the Victory Bonds you could possibly find the money for—and you would find it by stinting yourself down to the barest necessities of life.

Come—share in the glory of those whose lads are in France to-day. Dig deep into your income—as the kin of soldiers dig into theirs—to buy the Victory Bonds that will carry our armies on to Victory, and give us back our boys.

THE EVENING TIMES AND STAR, ST. JOHN, N. B., THURSDAY, OCTOBER 31, 1918.

The Evening Times and Star

ST. JOHN, N. B., OCTOBER 31, 1918.

The St. John Evening Times is printed at 27 and 29 Centenary street, every evening (Sunday excepted) by The St. John Times Printing and Publishing Co. Ltd., a company incorporated under the Joint Stock Companies Act. Telephone—Private exchange connecting all departments, Main 2417. Special Advertising Representatives—NEW YORK, Frank R. Northrup, 303 Fifth Ave.—CHICAGO, E. J. Power, Manager, Association Bldg.—British and European—Frederick A. Scott, 20 Ludgate Hill, LONDON, E. C. England. The Audit Bureau of Circulations audits the circulation of The Evening Times.

IT IS UP TO ST. JOHN.

It is up to St. John to subscribe \$5,000,000 of the Victory Loan. Because of the influenza epidemic some localities in the province will probably not be able to subscribe their full quota. There is the more reason St. John should over-subscribe. The war has made this city prosperous. That fact is undeniable. The last Victory Loan made this property prosperous. The present one will have precisely the same result. Without money the government cannot carry on Canada's war bill last year was \$280,000,000, and this year it will be more than \$400,000,000. Our war expenditure is more than \$1,000,000 per day. There are 75,000 more Canadians overseas than there were a year ago. If the war ended tomorrow it would take from a year to a year and a half to bring all our men back, and they must meanwhile be kept and paid. It is estimated that it will cost \$15,000,000 to bring them home. To demobilise all the troops will, we are told, cost more than \$200,000,000, and these must be other great expenditures. And so St. John must do her share. She cannot afford for her own good name to do otherwise. It is a matter which concerns every man and woman, whether they can pay cash for a large bond or make monthly payments on a small one. They are not asked to give money, but to lend it. It will still be their money, bringing a profitable return in interest. They will be helping their country but also laying by money for themselves. It is thrift as well as patriotism to invest in these bonds.

STILL VENOMOUS.

Nearly two columns of puerile criticism of the new health department in today's Standard, is answered by an interview with Hon. Dr. Roberts on the first page of the same issue. But Dr. Roberts might have gone further. There was no health department in the province until a few weeks ago. The influenza epidemic got here first. The government which the Standard supported, and which had hundreds of thousands of dollars for gratifiers but none for the public health was content with administrative machinery. As a result, when the new act was proclaimed a few weeks ago, and an effort made to cope with the epidemic of influenza, it was necessary to appeal to voluntary organisations, municipal officials, and the physicians of the province to lend assistance. They have all responded heartily. They realize the situation, and know, as the Standard also does, that a new department could not get a province-wide organisation in a few days or weeks. Yesterday, the Standard censured Dr. Roberts for not sending help to Wilson's Beach, where no help was asked for or needed. Today it censures him for alleged conditions at the hurriedly equipped Paris hospital, which is purely a municipal affair and under control of the local health authorities.

BETTER AND BETTER.

It is announced from Vienna that Austrian troops will be withdrawn from Italian soil. The announcement was unnecessary, except as further evidence that Austria is beaten, for the victorious Allies are driving the Austrians from Italian soil at a lively rate of speed. Today's reports show that the advance has freed more towns, added greatly to the number of prisoners, and released many Italian soldiers who had been held by the enemy. Austria's troubles increase daily. Not only are the Czech-Slovaks triumphant in Bohemia, but Croatia, Slavonia and Dalmatia are demanding separation from Hungary. The Hungarians are being revolted and driving the Austrians and Hungarians out of that country. The Czech-Slovaks have cut the railway between Berlin and Vienna. The rapid advance of the Serbs to the Danube and the fact that the Jug-Slavs from Croatia and adjoining provinces will join them has filled Budapest with fear of coming invasion. We can well understand why Count Andrássy wants an armistice. Canadians will be cheered by the news from London today, telling of the uncompromising spirit of the English people, moved to bitter resentment by recent revelations of German barbarity not only to the people of Belgium and French towns but to British prisoners. It is also satisfactory to learn that in England freedom of the sea means the absolute removal of the menace of a powerful German navy. London reports are also to the effect that an appeal from Turkey for peace is momentarily expected, and that the Allies will demand complete and unconditional surrender. Meanwhile the Allied armies are ready for any eventualities, and are giving the enemy no rest on any front.

BRITANNIS IN FRANCE.

(Literary Digest.) To win the right epitaph may be said perhaps to be one of the activities of the soldier. Hamlet's warning to Polonius was that he "will better have a bad epitaph than an actor's 'ill report' while he lived, shows what fears might beset the soul in the shades. The New York Globe is impressed by some of the inscriptions scribbled by soldiers on the little wooden crosses which mark the graves of other soldiers, which a Canadian officer has brought from over there. Here is one:

Here lies the body of Elmer Opp. Who fourteen times went over the top! And every time he brought a Doche, Till a sniper got him at last, Yeesh!

And another, markedly different in sentiment, was:

Churchill fuked it—he lies at rest; Nobody grieved when he went west; Whence he came or where he goes Nobody cares, nobody knows.

No literary literature, condensed and written in the silence of the sanatorium or studio, in these lines. How are the hatred and scorn which every real fighting man feels for the chap who turns coward. Here is the tribute paid to the upstart hero with his booty of Boches. Here, too, in the case of both coward and hero, is the humor which is the nearest thing to saving grace of the soldier, the humor without which he could never fight as he has fought and is still fighting.

All over France are little wooden crosses raised for unknown soldiers and simple verses scribbled by unknown soldiers. And the soldiers who lie under the little wooden crosses—with the few exceptions who faked, like Churchill, and the soldiers who, with galesy, puffed the little epitaphs upon the wood—all are heroes.

Doctor Tells How To Strengthen Eyesight 50 per cent In One Week's Time in Many Instances

A Free Prescription You Can Have Filled and Use at Home Philadelphia, Pa. Do you wear glasses? Are you a victim of eye strain or other eye weakness? If so, you will be glad to know that according to Dr. Lewis there is real hope for you. Many whose eyes were failing say they have had their eyes restored through the principle of this wonderful free prescription. One man says, after trying it: "I was almost blind; could not see to read at all. Now I can read everything without any glasses and my eyes do not water any more. At night they would pain dreadfully; they feel fine all the time." It was like a miracle to me. I had used it for several days everything seemed clearer. I can even read fine print without glasses." It is believed that thousands who wear glasses now should try them in a reasonable time and multitude more will be able to strengthen their eyes so as to be spared the trouble and expense of ever getting glasses. Eye troubles of many descriptions may be wonderfully relieved by following the simple rules. Here is the prescription: This liquid bathes the eye two to four times daily, on about twelve hours of clear up perceptibly right from the start. If your eyes are bothering you, even a little, take steps to save them now before it is too late. Many ophthalmologists might have been saved if they had cared for their eyes in time. Note: Another prominent physician to whom this prescription has been sent, writes: "This is a very remarkable remedy. Its constituent ingredients were not known to me, and I am glad to see it so widely prescribed by you. The prescription is simple and easy to use, and I believe it to be one of the best I have seen. It is one of the very few preparations that should be kept on hand for regular use in almost every family." It is sold in thirteity Wagon Drug Store and others.

GOAL OUTLOOK GOOD, DR. GARFIELD SHOWS

Economy Still Necessary, But U. S. Has Eight Weeks' Supply on Hand

Ready for Severe Winter—Wish Fewer Workers, Mine Output in Six Months Has Increased 38,000,000 Tons

Washington, Oct. 30.—Unless some unexpected condition arises, the Government will soon have accumulated sufficient supplies of coal to avert the danger of suffering or the hampering of the war industries during the winter months. That is the situation as presented in a review by Fuel Administrator Garfield in concluding his report. Dr. Garfield says: "From the foregoing it may be inferred that the fuel situation is so well in hand that taxing economies are no longer necessary. But this is far from true. Fuel Administration has made an estimated saving thus far of 127,000,000 tons of coal for the first half of the year, but as the saving each month is constantly increasing, there will be a much greater saving during the next six months, which includes the winter, so that it expects during the entire year to be able to report a saving of 3,000,000 tons.

Fewer miners than were employed in former years have produced 38,000,000 more tons of coal in the first six months of the present year than were produced in the corresponding six months last year, according to the statement.

"The Fuel Administration approaches the winter season well organized, with stocks of coal on hand far in excess of the stocks of other years," Dr. Garfield says. "We are ready for an unusually severe winter, but we are still and shall continue to be dependent upon the cooperation of the people of the United States in conserving fuel and upon the several agencies concerned in the production and transportation of fuel, to enable us to carry through our program to the end of the year."

Emerson & Fisher Ltd.

United War Work Campaign, said yesterday: "This clears up a point on which the officers of the Y. M. C. A. have been at work for many months, and which has led to widespread misunderstanding. The contentions were undertaken by the Y. M. C. A. originally at the request of General Pershing, and from the very beginning the aim has been to do everything at cost. "Cost in America is one thing, however, and cost in France, at the end of a long ocean journey, is another. Prices were higher than the boys have been accustomed to pay in this country; they were higher in remote towns in France than at the seashore. And everywhere they were higher than the Government commandeer factories on this side, which charged with no freight, and sells in France at the same price which he paid for it. "Now all competition is removed. Every organization in France will have the same policy as to supplies. As a result, I believe, in front line trench and in battle, every organization will be provided by the Government with its goods, and will buy at the same price which it pays to the Government. In addition to which it can buy from the Quartermaster, the Y. M. C. A. will continue to buy and import many things from home which the boys want, but the Government will go far as possible give necessary cargo space without cost, thus making it possible to let the boys have the articles at cost." —BUY-VICTORY BONDS— SOLDIERS TOOK TRIP WITH STOLEN HORSES. Toronto Lady Makes Affidavit

MRS. BURNETT has sent in this letter from a generous desire to serve others by giving them the benefit of her experience. Her sufferings resulted from a greatly rundown nervous system, and because she was a long time in finding a cure, she feels that she can now point others to the way of health. This letter came entirely unsolicited, and in order that strangers might fully realize the sincerity of Mrs. Burnett's statement we had her verify her letter before a Commissioner.

Mrs. A. Burnett, 303 1/2 Gerrard street east, Toronto, writes: "I really feel it a public duty on my side to state, and without the slightest fear of contradiction, the wonderful benefits I have received from your remedy, Dr. Chase's Nerve Food. I am a woman now in the prime of life, and I don't think any of my sex have suffered the agony that I have. I can give proofs of doctors who have advised and given medicine to me, but none have ever come near the relief that I have gained since taking your Nerve Food. Without doubt it is as represented, a sure cure. I am a younger woman but since I have taken them, I have always been dizzy, shaking and sick, with shocking splitting headaches. Dr. Chase's Nerve Food has made me a different woman. I shall always tell any of my friends who are run down to get this Food cure, as I consider it is worth its weight in gold."

This statement will come as a message of hope to many thousands of women who are suffering somewhat as Mrs. Burnett did. There is every reason to expect equally good results in your own case, because Dr. Chase's Nerve Food cures in Nature's way by forming new tissues and building up the exhausted system. For this very reason a little patience is required in using this treatment. Do not expect too much from the first box, but it will not be long before you will experience benefits that will encourage you to use the Nerve Food regularly until restoration is complete. Dr. Chase's Nerve Food, 50 cents a box, all dealers, or Edmondson, Bates & Co., Ltd., Toronto. Look for the portrait and signature of A. W. RECENT DEATHS
W. A. K. McQueen
Dorchester, Oct. 30—After an illness of less than a week of Spanish influenza followed by pneumonia, William A. K. McQueen, only son of ex-Sheriff Joseph A. and Mrs. McQueen, died today at the age of twenty-six years. He is survived by his wife, who was Miss Bernice, daughter of the late Hon. H. R. Emerson, having been married in January of the present year. He also leaves his parents. His father has been an invalid for years.

He was a young man of outstanding ability. He filled the office of returning officer in the bye-election when Hon. E. A. Smith first entered the legislature. He also held the position of one of the county assessors. In private business he was a successful and insurance agent. He was one of the grand officers of the Royal Arcanum of the maritime provinces. Mr. McQueen had good journalistic ability and was a regular correspondent of *The Daily Telegraph*. In politics he was a Liberal and he took an important part in all the deliberations of the party. He was an Anglican by faith.

Funeral arrangements have not yet been made.

Edward J. Byrne
A figure once prominent in this city has passed away in Chicago (Ill.), after a residence in his foster land of five years, in the person of Edward J. Byrne. Mr. Byrne, who is a cousin of Attorney-General Byrne, of this province, was well known by many as a former member of the City Council. He was in poor health for some time prior to his death. He is survived by one sister, Mary, of this city and one brother, James F., also of this city. He was sixty-four years of age at the time of his death. Interment will take place in Chicago.

Mrs. Lena Perry
The death occurred on Tuesday, October 29, from the prevailing malady, of Lena Hannah, wife of William Perry, 188 Metcalf street extension. Mrs. Perry is survived by a sorrowing husband, one son, Stanley, and one brother, William Highhurst, of Chipman (N. B.) She is well known in this city and will be much missed by a large circle of friends.

At Marysville on Monday the infant child of Mr. and Mrs. William Hoyt passed away.

Friends have been informed of the death in Boston on Thursday last of John Danery. Death was due to influenza. He was thirty-five years old. He was married about a year and a half ago, and is survived by his wife and infant child; by two brothers, Charles, who went overseas with the 28th Maclean Highlanders, and John of Boston; also three sisters, Kate, Minnie and Margaret. His mother also survives. The family originally lived in St. John, but lived in Fredrickton for years, removing to Boston some twelve years ago.

Mrs. B. F. Malby of Newcastle died on Tuesday morning from pneumonia. Besides her husband she is survived by two children, also two brothers and three sisters.

Miss Lottie MacCallum died at her home in St. George, N. B., recently. She was formerly matron of Fredrickton hospital.

Oran Smith of St. George, a veteran of the civil war, died on Oct. 28. He is survived by his wife, one son and one daughter.

James Fraser of St. George died a few days ago after a lengthy illness. He was a member of the Independent Order of Foresters and was well known.

Mrs. James W. Brewster of Moncton died yesterday. She was seventy-five years of age and is survived by two sons and one daughter.

Osce McCormack of Grand Falls died a few days ago after a brief illness from pneumonia. He was twenty-eight years of age and is survived by his wife, his father, one sister and three brothers.

William Lissett of Fredrickton died yesterday from pneumonia following influenza. He was thirty-six years of age. His brother died a few days ago.

Daily Fish Bulletin
Issued by Canada Food Board.

INCREASED VALUE OF FISHERIES

Within the last three years the value of our Canadian fisheries has increased forty per cent. In 1914 they were valued at \$88,207,748 and in 1917 at \$92,382,944.

It is interesting to draw comparisons between the value of our fisheries and those of European countries. In normal times France's annual catch reaches a total of \$33,000,000, while that of Russia amounts to \$30,000,000. Austria-Hungary and Germany together have a total catch in normal times valued at \$12,000,000. At a conservative estimate the world's fish supply exceeds twenty billion pounds. Japan's fisheries alone produce about six billion pounds a year.

NATIONAL FISH DAY
Today is Canada's National Fish Day. It was formally inaugurated by the Canadian Fisheries Association in 1915.

The Canada Food Board asks that tomorrow, Oct. 31, be made an absolutely meatless day, and that fish be used in every home. If this is done conscientiously by all and sundry, the saving in meat will amount to three million pounds in round numbers—sufficient to provide half a pound of meat per man to six million of the Allied soldiers on the western front.

In addition to what it enables us to send overseas, National Fish Day is intended to do honor to the brave fisherman, who, with the coming of November, begins his stiff fight with storms, gales, cold and all the hardships to which his class falls heir. Year in, year out, they toil at great personal hazard, to satisfy our demands, and special remembrance is surely due them for their valiant effort.

The annual value of Canada's fisheries at the present time is approximately \$92,000,000, but the bulk of the catch is exported for lack of a domestic market. It would be easy to treble the fishery resources of Canada without any visible diminution in the supply. Within three years the value of our fisheries has increased forty per cent. The assumption is still somewhat meagre, although it has been stimulated to such an extent, through the efforts of the Canada Food Board that it has increased 100 per cent on an average during the last year, and 700 per cent in certain localities. Even when this has been taken into account, however, it is low in comparison with the pre-war per capita consumption of Great Britain and other European nations. At least one pound of fish per person should be used weekly in Canada to bring the home market to a healthy and flourishing condition.

Fish is not only the finest substitute for meat that is available, but it stands on its own merits as being one of the best and most nutritious foods. Beef is not superior to fish as far as sustenance and health-giving qualities are concerned. Some of the hardest races in the world, including the Scandinavians, the Highlanders, the Japanese and Chinese, are great fish eaters.

According to Sir James Crigton-Browne, M. D., D. Sc., of London, England, medical adviser to the late King Edward: "It cannot be too strongly insisted upon, that for working people of all classes, fish is an economical source of the energy necessary to enable them to carry on their work; and that it furnishes for children and young persons the very stuff that is needed to enable them to grow healthy and strong."

Food Board Flashes

"Everybody works but Father" runs the old music hall ditty, but the more up-to-date version is "Every woman works while Father Fights" as the following figures go to prove:

2,000,000 women are at work in the industries of England in commerce.
818,000 in metal and chemical works.
644,000 in munition factories.
270,000 on the farms.
188,000 in the civil service.
68,000 in banking and finance.
41,000 employed by the railways.
16,000 building ships.
17,000 in hospital service.

DO MOTHERS ERR?

When we hear of so many school girls and girls in stores and offices who are often totally unfit to perform their daily duties because of some derangement peculiar to their sex, might this not have been prevented by the mother who, perhaps through neglect or carelessness, failed to get for that daughter the one great root and herb remedy for such ailments, Lydia E. Pinkham's Vegetable Compound? This old-fashioned medicine is said to have alleviated more suffering of womanhood than any other remedy known to medicine.

"Pronged Spoons"

Spoons are Spoons and Forks are Forks, yet at one time, three or four hundred years ago—the Fork was really only a Spoon which had two prongs with which portions of meat were "speared" when a serving of one's self at the table.

Table etiquette has fortunately in a degree great strides since that time, and so has the silverware industry.

Our workshops in Montreal design and create many patterns of table silver, but in all of them you will find that the old traditions and old ideas of superior hand-workmanship are still very evident.

If you will send us your name and address, we will send you a copy of our Year Book. It has many things in it to interest you in addition to silverware, and we will send it by return free.

CARDINAL GIBBONS AND FRANCE
(Boston Transcript.)
Cardinal Gibbons' acceptance of the decoration conferred upon him as a grand officer of the French Legion of Honor means much more than the chance reception of a formal honor by an eminent man. Cardinal Gibbons is the head of the Roman Catholic church in this country, and the decoration which he now receives is conferred by a government which until lately has been in very bad favor with that church. The French republic has often been accounted a government of infidels, and denounced accordingly. Moreover, the Legion of Honor is itself an outgrowth of the French Revolution, and the cross which it bestows is suspended with a red ribbon, the color of which in its significance is widely different from that of the robe which the cardinal wears. The decoration is worn by a great number of men in whose company the cardinal's robe would, indeed, seem strangely out of place. But the acceptance of the honor by Cardinal Gibbons marks a very considerable readjustment of sympathies and relations in the moral and political world. Whatever one may think of the secularization of the schools in France, of the disestablishment of the church there and of the evident hostility which the radical governments have shown to it, there can be no question now of the firm alignment of the French republic with the great moral forces of the world. It is not without significance that thousands of the noblest priests of France are today fighting in the trenches against Germany, and to have declined the honor awarded by the republic which is the object of their patriotic devotion would have been to dishonor them and the cause of the world's freedom.

We may well believe that no thought of such a refusal has ever risen in the mind of this great American churchman. Cardinal Gibbons is a man of the broadest sympathies and of far-reaching vision. The honors which, in connection with the golden jubilee of his episcopate, have been awarded to him by seven nations are a worthy recognition of his great services to all good and moral causes, of his lofty character and exemplary virtues, and of his unflinching patriotism. In his acceptance of the French honor, Cardinal Gibbons expresses affection for the French nation, and pays a particular tribute to the heroism and self-sacrifice of that great people, by means of which the triumph of the cause of civilization and liberty has been assured. In this he speaks for the whole American people. May not the grace and cordiality of his words and his attitude bespeak a rapprochement, a harmonious assembly, of all the moral forces of the world, when the great work of this war is accomplished?

PRESIDENT WILSON'S EXAMPLE. President Wilson subscribed for \$20,000 towards the Fourth Liberty Loan campaign on the installment plan, the payments to be made monthly out of his salary. In doing this the president set a worthy example to the world whole. He told the American people that they had to do it and set the example by earmarking a good portion of his salary for the next twelve months.

THE PARTICULAR GUEST. An English visitor to Ireland was staying at a small hotel, where he paid two and sixpence for a room to himself. One night, just as he had retired to rest and had extinguished the light, two rats started to fight in the middle of the floor squealing loudly and ending up with a scarp at the end of his bed. Ringing the night bell violently, he summoned the attendant, a genial one of Irish and Irish, and said to him: "How much did you pay tonight?" "Two and sixpence said the visitor. "Well," said Pat, "what can ye expect for that? It is a slightight ye want?"

49 Dock Street Rubber Goods of All Kinds. Huns Made French Women Work Hard Many Stories Told About Outrages of Invaders at Lille and Elsewhere

In a despatch to the London Daily News, Perry Robinson, with the British army, writing on Friday says: "From what was told me at Lille by the mayor, by Mr. Moore, a British chaplain by Dr. Singer, a naturalized American dentist who had been in Lille for four years; by Mr. Less of Nottingham, who has had a lace factory there, and from the fragmentary and half coherent tales of scores of French residents who have fled from the city, the story of Lille under German rule. "First, let it be said that the city is practically unharmed. Some damage was done by the German bombardment at the beginning, but that was trivial. Lille is practically as undamaged as London, and it is well understood that the Germans hoped they would soon be able to throw on it the blame for the strategic situation. It is well understood that the Germans hoped they would soon be able to throw on it the blame for the strategic situation. It is well understood that the Germans hoped they would soon be able to throw on it the blame for the strategic situation."

When the Children Come Home Tired, They Are Subject to Take Cold. Before they go to bed, a spoonful of Mathieu's Syrup of Tar and Cod Liver Oil may ward off a serious cold or Grippe — for Grippe often follows a slight chill.

COMMUNITY FORESIGHT

(American Lumberman.) Most community improvements are spasmodic, disconnected, even conflicting, and are made without such consideration of their effect upon relation to conditions not immediately apparent. For example, the writer knows of a town of 4,000 with a municipal water system, a municipal electric lighting plant, a garbage incinerator and other modern facilities. Yet its water mains are without division closets, so that a repair to any main necessitates shutting off of all mains. A burst pipe in case of an insignificant fire might lead to a conflagration.

Community foresight demands that efforts shall slacken in improving agriculture and increasing production; that schools shall have unwavering financial and moral support in the teaching of citizenship as well as in teaching the useful and cultural arts; that hygiene and public welfare shall be primary considerations in the determining of public policy; and that, in brief, all citizens shall be made to feel their civic responsibilities as keenly as they have been made to feel their military and financial responsibilities in the prosecuting of the war.

NO SYMPATHY. (Hamilton Times.) Now that the Kaiser is the under dog all the little fellows are talking up his name. Spain is taking his ships, Holland is again dealing with the Allies, and Denmark is talking of joining. But there should be little sympathy for any of them.

HELP!

Might we ask the advertisers in the Times-Star to let us have their ad copy not later than 8 o'clock the night before the day on which insertion is desired?

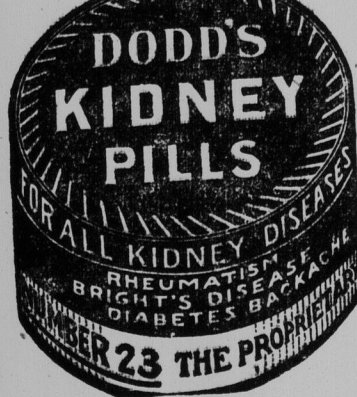

The crush of advertising, which the Times-Star has been carrying for the last few months, makes a call to HELP on the part of the business office an urgent necessity.

It is hardly necessary to state the value to YOU of this feature, the earlier the paper is out, the larger the sale—hence, an increased market for you.

It also means that your advertisement will receive the best attention as regards typographical treatment will be done in the way your PUBLIC SALESMAN should be desired. Best work, of course, can't be done in a rush, and neither you nor THE TIMES is satisfied with a poorly designed ad.

The unfortunate fact that quite frequently advertisements have to be omitted from The Times on account of late copy, prompts this S. O. S. call, and really your own interests would demand this.

THE CASUALTIES

Bombardier A. Victor Thompson has been officially reported as having received gunshot wound in the neck and arm, October 12, and has been admitted to No. 56 General Hospital, Boulogne, according to word received by his father, Alfred Thompson, of Bothasay. Bombardier Thompson went overseas with the 7th Siege Battery and has been in France two years. He was employed with J. & A. McMillan Company, this city, before enlisting. He was twenty-one years of age.

Private Charles Cassey On List.

Charles Cassey of 109 Bothasay avenue, has been advised that his son, Private E. S. Cassey, infantry, has been officially reported admitted to 26th General Hospital, Etaples, October 22, shell-gas. Private Cassey went overseas with the 22nd Battalion and was transferred into the 12th Battalion, the famous Black Watch. He was twenty-one years of age and previous to joining was employed in Humphrey's shoe factory. Wounded.

Mr. and Mrs. Charles Blizard of Wickham, Queens county, have been advised that their son, Private Harold L. Blizard, has been wounded in the feet and face. He was a member of the Canadian Engineers.

Wounded and Missing.

Francis Collin, Duke street, West Side, has received word that his son, Private P. A. Collin, infantry, has been reported wounded and missing. He is twenty-one years old.

Still Living.

E. D. McPhee, son of H. A. McPhee, of Tryon, P. E. I., who was recently listed in the casualty list as being killed, still is alive and recently sent a field card home stating that he had been wounded and is now doing well. Prior to going overseas he taught in the Sackville high school and in Acadia College at Wolfville.

Killed in Action.

Mr. and Mrs. Warren Wilson of Elgin have been advised that their son, Private Charles Leonard Wilson, has been killed in action. He was twenty-three years old.

MGR. O'NEIL, BORN IN ST. ANDREWS, FOUND DEAD

Nephew, Doctor O'Neill of New York, to Bring Body Home

A little while after he had returned from a sick call in the city jail, the Right Rev. Mgr. Francis O'Neill, V. F. pastor of St. Mary's church, Elizabeth, N. J., was found dead in his office chair on last Monday night. He was born seventy-six years ago in St. Andrew's, N. B., and his body will be taken there for interment, by his nephew, Dr. C. H. O'Neill of 294 West Ninety-second street, Manhattan.

Mgr. O'Neill celebrated the golden jubilee of his ordination on Oct. 14, 1915 and at that time he was raised to the monsignori. He had been eighteen years in charge of St. Mary's, and he was greatly beloved because of his solicitude and hard work for his parishioners.

Bride and Groom Dead
Scoby's Cove, Oct. 30.—Mrs. Edward Spear died yesterday of Spanish influenza. Her husband died ten days ago. On Thursday, October 10, Miss Alice Lloyd and Edward Spear were married by Rev. Father Holland, in St. George's church. The husband was taken ill a few days after marriage and soon succumbed to the disease. Much sympathy is extended to the families of the young couple cut off so suddenly.

Mahoney Tragedy.
Rev. Father Hanigan united in marriage on Monday at Oromocto Miss Catherine Tracey of Fredericton to Jack Mahoney of Magalloway. They will reside in St. John.

The Spirit of Freedom must be kept alive in the HOME.

EVERYBODY is agreed on that. The question is: *How can we best do it?* Not by wrapping ourselves in gloomy thoughts, putting pessimism to the fore or borrowing trouble. Certainly not by marking our intercourse with poisonous doubts or greeting our neighbors with a long face!

The man behind the gun counts for a lot, but the home behind the man counts for even more. If our throbs in camp and at the front know that the folks back home feel the same thrills, throbs with the same earnestness, "dig in" with the same determination—how much lighter their arduous tasks will be, how much more forceful their blows for freedom!

The same influences work alike the world over. The strains of "O, Canada" make a Canadian's heart beat faster whether he is in Ottawa or on the Somme. "Rule Britannia" is just as inspiring in Hamilton as on the North Sea; "Where Do We Go From Here, Boys?" has just as much snap in Calgary as it has in Mons.

If music makes the march shorter, why can't it lighten the load you are carrying at home?

There is nothing that brings the whole world of Music into your family so completely, in so satisfactory a manner, and at so small a cost as—

The Pathephone

The Pathephone is the result of over twenty years' study and the culmination of the inventive genius of the distinguished Pathe' Brothers, of moving-picture fame. It possesses all the best features of all other Phonographs, and in addition, it has many exclusive advantages, for instance:

- The Permanent Sapphire Ball—so digging needles to change. Records that will wear thousands of times.
- An all-wood tone chamber (as the principle of a violin).
- Pathe' tone control—regulates the volume of sound.
- Plays perfectly all makes of records, as well as the Pathe'.
- The elegant period design cabinets. Exquisite home furniture.
- A complete line of instruments to meet every taste.
- A repertoire of double disc records, unique, comprehensive and artistically perfect.

If it leads men up to the cannon's mouth without faltering, why should it not put strength in your soul to withstand the strain war has laid upon you? If it makes the soldier more efficient why not more capability for the worker?

Music in the home is a national necessity. If YOU are desirous of doing the biggest "bit" that is within your power, you need music. The whole family needs it.

The Pathe' Cabinets will appeal to those who take pleasure in good furniture in their homes; they demonstrate that the Pathephone is not only a perfect musical instrument, but also a beautiful and artistic piece of Furniture, harmonizing perfectly with the most carefully planned surroundings.

If you have no Pathephone, see the nearest Dealer. A small cash payment—probably less than you had expected to pay—will take a Pathephone to your Home any time you may direct.

MORNING NEWS OVER THE WIRES

The government has decided to grant a war bonus this year to civil service employes in the lower grades of the inside service. Details as to the particular classes included in the bonus have not been worked out. Those of the outside service who have not already participated in the hundred dollar increase granted last season will probably be included in the forthcoming bonus to the inside service.

The report of Geoffrey T. Clarkson on the audit of the affairs of the Hydro-Electric Power Commission has been made to the Ontario government. It vindicates the policy pursued by Sir Adam Beck in his development of the cheap power public ownership enterprise in Ontario.

Captain J. H. A. L. Fairweather, now in England, has sent home a bell he found in a German trench. The bell

was used to warn the Huns of a gas attack.

The schooner *Blanche H. Collins* has been sold to Portuguese interests and is being refitted to take her place of ships requisitioned by the Portuguese government. Her name has been changed to the *Algrave*. The ship was built for local investors this year at Little Rock, N. S., by Captain C. W. Collins.

Collector of Customs of Chatham, George Watt, has seized the schooner *Princess Louise* for evading the Canadian customs regulations. She was loaded with booze and did not clear at Gaspe or enter at Chatham. If the owners fail to pay the fine the department will offer her for sale.

Acting Premier Watt of Australia stated yesterday that in view of the highly satisfactory response to the war loan it will not be necessary to introduce compulsory subscriptions.

People's Savings Are Inspiration For Victory Loan

September Bank Statement Has Very Satisfactory Features

(Financial Post)

Coming practically on the eve of the opening of the Victory Loan campaign, the statement of the *Can. B'nk* chartered banks for September provides a basis of statistical optimism regarding the success of the effort. As compared with the corresponding report a year ago, there is an increase in demand deposits \$137,000,000, an increase in saving deposits of \$69,000,000, a total of \$206,000,000. This increase forms a good basis of gauging the available funds for Victory Loan investment because the campaign

a year ago came on about the same time. These figures should also form an effective "canvas" for bond subscribers as giving concrete evidence of how after the money passed from the people to the government, it was spent on the country's agricultural and industrial products and thus back to the people.

There is every argument from the standpoint of the prosperity of the nation and of the individual why the process should again be repeated.

During the month of September the increase in savings deposits amounted to \$22,700,000 and the increase of demand deposits to \$84,000,000, a total of \$106,700,000. During September of 1917 the savings has reached \$1,087,000,000 a new high record while demand deposits are \$688,000,000.

Says Alcohol Baths Good For Influenza

But Dr. J. B. Gullen Strongly Condemns Use of Liquor Internally

(Toronto Star)

According to a number of doctors throughout the city, alcohol, when applied externally, is an excellent agent for waging war on the influenza germ. At the same time these doctors emphatically condemn the use of liquor internally when patients have reached the critical stage.

"I have found liquor on the outside

a whole lot better than liquor on the inside," was the opinion of Dr. J. B. Gullen, expressed to the Star, concerning the report that a number of the victims are using alcohol for baths and rub-downs. "In fact," continued Dr. Gullen, "rather than give alcohol internally I have been using a modified form of iodine, known to the profession as Iodine, and have been following this up with local treatments of alcohol. I find that this does not make the strain on the heart in the same way that liquor taken as a beverage most assuredly does."

"After all is said and done, whiskies and brandies are powerful stimulants, which are positively injurious when a patient has reached the pneumonic stage. When you've got the lungs gorged it is not a good time to stimulate a heart which is already working overtime to do its full duty. Nevertheless, I do strongly believe that alcohol applied on the outside of the body warms the system and brings about a healthy reaction that is helpful to the patient when he most needs help."

MEMORIO FOR ROOSEVELT.

Receives Part of the Seat of Airplane in Which Son Was Killed.

Colonel Theodore Roosevelt received on last Monday part of the seat of the airplane in which his son, Quentin Roosevelt, was killed several months ago in an air flight. The presentation was made at the colonel's office, in New York, by Arthur E. Hungerford, a member of the Y. M. C. A. Overseas Force, who returned two weeks ago after eight months at the front.

The seat with other parts of the machine was found by the American forces on Lieutenant Roosevelt's grave in Chamery after the Germans had been driven back. Mr. Hungerford reached the grave two days after American troops

had discovered it, and attended the services conducted over the mound by Bishop Luther B. Wilson of the Methodist Church.

BUY VICTORY BONDS—LONDON WOMEN POLICE.

To recognize officially a force of women police for London is the latest decision of the Home Office. They will be under the control of Sir Nevill Macready, Commissioner of Metropolitan Police.

As yet the number, duties, and powers of the force have not been settled, and parliamentary powers may be needed. The nucleus will be found in the women patrols, who have done service during the last few months.

Women who join the force will undergo a period of very careful training, and will be subjected to much the same discipline as men police.

It is realized that the problem of the women and girls who frequent the principal thoroughfares can be dealt with effectively only by an official and permanent force of women police.

in going straight to the weak spot in treating disease? If so, you will never use anything but Peps for coughs, colds, bronchitis, and throat and lung troubles. Listen why!

It is an acknowledged fact that only a remedy that is breathable can reach the lungs and breathing passages direct. Hence the superiority of the Peps treatment over the old-fashioned custom of dosing oneself with liquid medicines, which, as you know, can only go to the stomach.

Peps is a breathable medicine in tablet form. To take the treatment you simply dissolve Peps in your mouth and the medicinal fumes, which are then given off, bathe the throat and are carried by the breath to all parts of the nasal passages, breathing tubes and lungs. On their way they destroy all harmful germs and soothe and heal the inflamed membranes, thus removing at once the cause of the trouble.

It is surprising how Peps end coughs, colds, sore throat, bronchitis, asthma, "clergyman's throat" and laryngitis. Contains no harmful drugs and are, therefore, best for children.

FREE TRIAL Cut out this article, write across it the name and date of this paper, mail it with a stamp to get return postage to Peps Co., Toronto. A free trial packet will then be sent you. All drug stores and stores sell Peps, etc. box.

LAST NIGHT'S WAR SUMMARY

New York, Oct. 30.—The Associated Press tonight issued the following: Over a front of some sixty miles from the Brenta River in Northern Italy to the vicinity of the Adriatic Sea the Austro-Hungarians are being violently attacked by Italian, British, French and American troops.

In the mountain region the enemy is resisting desperately and holding his ground fairly well, but east of the Piave River he is in flight across the plains of Treviso, shaping his course over the same territory through which he drove the Italians a year ago and reached the eastern edge of the plains of Venetia.

Already numerous towns have been liberated, 33,000 persons having been taken, and large numbers of guns and machine guns and huge quantities of stores have fallen into the hands of the Allied troops. Far behind the lines Allied aviators are heavily bombing enemy columns in dense masses which are in retreat over the badly congested roads leading eastward toward the Austrian frontier.

Judging the situation for the rapid advance the Allies are making it would appear that the entire enemy front has been broken east of the Piave and that with the cavalry operating far in advance of the foot troops the enemy forces will be unable to re-form their battle line until the Austrian border is reached. It is not unlikely that many of the Austro-Hungarians are doomed to capture or extermination by the Allies.

The last payment of 31.16% covers 30% balance of principal and 1.16% representing accrued interest at 5 1/2% from November 1st due dates of the respective instalments.

A full half year's interest will be paid on May 1st, 1919, making the cost of the bonds 100 and interest.

Subscriptions may be paid in full at the time of application at 100 without interest; or on any instalment due date thereafter together with accrued interest at the rate of 5 1/2% per annum.

This Loan is authorized under Act of the Parliament of Canada, and both principal and interest are a charge upon the Consolidated Revenue Fund.

The amount of this issue is \$300,000,000, exclusive of the amount (if any) paid for the surrender of bonds of previous issues. The Minister of Finance, however, reserves the right to allot the whole or any part of the amount subscribed in excess of \$300,000,000.

Conversion Privileges

Bonds of this issue will, in the event of future issues of like maturity, or longer, made by the Government, during the remaining period of the War, other than issues made abroad, be accepted at 100 and accrued interest, as the equivalent of cash for the purpose of subscription to such issues.

Payments

All cheques, drafts, etc., covering instalments, are to be made payable to the Credit of the Minister of Finance. Failure to pay any instalment when due will render previous payments liable to forfeiture, and the allotment to cancellation. Subscriptions must be accompanied by a deposit of 10% of the amount subscribed. Official Canvassers will forward subscriptions or any branch in Canada of any Chartered Bank will accept subscriptions and issue receipts.

Subscriptions may be paid in full at time of application, at 100 without interest; or on any instalment due date thereafter together with accrued interest to time of making payment in full. Under this provision, payment of subscriptions may be made as follows:—

If paid in full on or before Nov. 16th, 1918, par without interest, or 100%;
If remaining instalments paid on Dec. 6th, 1918, balance of 90% and interest, (\$90.48 per \$100.)
If remaining instalments paid on Jan. 6th, 1919, balance of 70% and interest, (\$70.80 per \$100.)
If remaining instalments paid on Feb. 6th, 1919, balance of 50% and interest, (\$51.04 per \$100.)
If remaining instalment paid on Mar. 6th, 1919, balance of 30% and interest, (\$31.16 per \$100.)

Denomination and Registration

Bearer bonds, with coupons, will be issued in denominations of \$50, \$100, \$500, and \$1,000, and may be registered as to principal. The first coupon attached to these bonds will be due on May 1st, 1919.

Fully registered bonds, the interest on which is paid direct to the owner by Government cheque, will be issued in denominations of \$50, \$100, \$500, \$1,000, \$5,000, \$10,000, \$25,000, \$50,000, \$100,000, or any multiple of \$100,000.

Payment of Interest

A full half year's interest at the rate of 5 1/2% per annum will be paid May 1st, 1919.

Form of Bond and Delivery

Subscribers must indicate on their application the form of bond and the denominations required, and the securities so indicated will be delivered by the bank upon payment of the subscription in full.

Bearer bonds of this issue will be available for delivery at the time of application to subscribers desirous of making payment in full. Bonds registered as to principal only, or fully registered as to principal and interest, will be delivered to subscribers making payment in full, as soon as the required registration can be made.

Payment of all instalments must be made at the bank originally named by the subscriber.

Non-negotiable receipts will be furnished to all subscribers who desire to pay by instalments. These receipts will be exchangeable at subscriber's bank for bonds on any instalment date when subscription is paid in full.

Form of Bonds Interchangeable

Subject to the payment of 25 cents for each new bond issued, holders of fully registered bonds without coupons, will have the right to convert into bonds with coupons and holders of bonds with coupons will have the right to convert into fully registered bonds without coupons, at any time, on application to the Minister of Finance or any Assistant Receiver General.

Forms of application may be obtained from any Official Canvasser, from any Victory Loan Committee, or member thereof, or from any branch in Canada of any Chartered Bank.

Subscription Lists will close on or before November 16th, 1918

the Ottawa director of Toronto Railway who secured his membership after a rather spirited campaign against the board for additional information as to the company's subsidiaries and who for a time prevented an increase in the number of directors because he held sufficient proxies to prevent the polling of a two-thirds vote without his influence.

While in the circular and in the literature which outlines the "constitution" of the association, there is no mention of the situation in Toronto, there are indications that the problem in the Queen City is directly aimed at.

the stage can first be set for the preliminaries.

Service-at-Cost System

The outline of this service-at-cost system introduced by a reference to the unsatisfactory position of the holders of public utility securities in Ontario on the other hand, instances of better treatment of companies in the United States are pointed out and special attention is called to the state of Massachusetts where the co-operative plan has been successfully applied.

First—The establishment of a sliding scale of fares so arranged that when the schedule of fares in operation does not yield a revenue sufficient to pay the "cost of the service" the next higher schedule of fares shall become effective, and so that when the fares yield a revenue greater than the "cost of service" a corresponding decrease in the rate of fares shall be made.

Second—The creation of a reserve fund, which shall be raised by each street railway accepting this plan, and which shall serve as a balance wheel on the system, so that a rapid fluctuation of fares, due to seasonal or other conditions, may be eliminated.

Third—The establishment of a depreciation and maintenance fund, so that the street railway properties shall be kept up at all times to the proper operating efficiency, and so that new and improved types of equipment may be purchased as the art of street railwaying advances.

Fourth—Provision for the rehabilitation, extension and improvement of lines during a period of years following the acceptance of this plan.

Fifth—A director to be appointed by the governor of Massachusetts to the board of directors of each street railway operating under this plan.

Sixth—Supervision of the street railway accepting this plan by district representatives, appointed by the governor or by the Public Service Commission; these local supervisors to report to the Public Service Commission or to a special department thereof; the expenses of such supervision to be borne by the street railway companies, but in no case to exceed a certain fixed percentage of the operating expenses of the individual companies.

Seventh—Provision for arbitration proceedings relative to certain conditions which might arise.

Twelfth—In case the service-at-cost plan is accepted by any street railway company, such funds as the Public Service Commission shall consider necessary for the establishment of the reserve, depreciation, and rehabilitation funds, or for improvements immediately necessary shall be raised by an issue of capital stock, either preferred or common.

Robert W. Hawker, druggist, 521 Main street, is acting as a temporary vendor during this epidemic. W. D. Wilson, chief inspector, made the appointment last evening.

WERE ON SAD MISSION
Mrs. Win. Cooper, with her daughter, Mrs. Alice Crossley, has returned from Boston after attending the funeral of her daughter's little son, Ernest Albert Johnston, who passed away on Oct. 24 after a lingering illness.

COURT POSTPONED
His Honor Judge Armstrong, in compliance with the health regulations at present prevailing, has decided not to open the sessions of the County Court for Nov. 5 until Nov. 19. Grand and petit jurors will probably be interested.

POLICE COURT
A man was before the magistrate this morning on a charge of acting disorderly in Horsefield street on several occasions during the last two months. He was remanded. Two men were before the magistrate on a charge of drunkenness. They were each fined \$8 or two months in jail.

OFFICIALS LEAVE
W. R. McNis, traffic vice-president of the C. P. R.; A. Price, general manager of the C. P. R.; and F. Lee, engineer of maintenance and ways, who had been on an inspection trip over this division, returned to Montreal last evening. They were accompanied on their inspection trip by H. C. Groat, general superintendent of the New Brunswick division; N. R. DesBrisay, district passenger agent and I. Mulren, divisional freight agent, who arrived back in the city last evening.

BREADSHAW-DOWNEY
A pretty took place on Wednesday afternoon at four o'clock at the home of Mrs. Matilda Downey, Lorneville, when her youngest daughter, Miss Annie M., was united in marriage to Charles L. Bradshaw of St. John. Many friends motored down from the city to attend the ceremony, which was performed by Rev. Mr. Beris. The bride was attended by Mrs. J. Black, while Mrs. Downey supported the bride. The groom's present to the best man was a pearl pin, and to the bridesmaid a signet ring. After the ceremony a dainty luncheon was served and a reception held for the many friends who gathered to express their wishes for a long and happy future. The large number of beautiful and useful presents received testified to the esteem and popularity of the young people. Mr. and Mrs. Bradshaw will make their future home in St. John.

BURIED TODAY
The funeral of Mrs. Thomas Nagle took place this morning from her late residence, Germain street. Services were conducted by Rev. F. J. McMurray and interment was made in the new Catholic cemetery. PURSE OF GOLD
TO H. R. STURDEE

Five Gifts From Pender Employes as Secretary Leaves for Post With Compensation Act Commission

H. Russell Sturdee, for twenty-seven years secretary of James Pender & Co. Ltd., left St. John, N. B., Oct. 31, 1918, to take up his duties as secretary of the Compensation Act Commission recently created.

Before leaving his desk Mr. Sturdee was called to the rooms of Supt. Wm. L. Knoll, where the office staff and employees of the works through Edward Pender, one of the veteran employes, read an address of appreciation, following which Mr. Sturdee was handed a bulging purse of golden coins.

The popular ex-secretary was overwhelmed by the display of good fellowship but managed to make a reply fully reciprocating the felicitous words said him and to thank the men for their laudable gift.

The address was as follows:

St. John, N. B., Oct. 31, 1918.
H. Russell Sturdee, Esq., City.

Dear Friend,—It is with feelings of regret mingled with pleasure that we, the members of the office staff and employees of James Pender & Co. Ltd., learn of your intended severing of the ties which have bound us together during the last quarter of a century; pleasure at the thought that you are only leaving us to better your position, and in this move we heartily extend to you our best wishes, and assure you our interest will ever follow you; but, at the same time, we view your departure with regret, as it breaks up to some extent, the pleasant relations which have extended over the last twenty-seven years, and to others, while not of so long duration, still the relations having been just as pleasant, therefore, the broken ties are just as unpleasant.

We feel we cannot allow this occasion to pass without in some small manner (beyond mere words) expressing to you our feelings of appreciation for the many acts of kindness and the courtesies which you, in your official capacity as secretary of our company, have always cheerfully extended to one and all of us, and in the accompanying gift hope that you may have a constant reminder of the friends you have left behind, and in its contents a golden reminder of our best wishes for your future health and prosperity, and may it always be full of "the coin of the realm" as it leaves us full of best wishes and kindest remembrances.

Mr. Sturdee will take up his new duties tomorrow.

FAINT WIRELESS CALL MAY MEAN PATROL STEAMER GALIANO IS LOST

Canadian Naval Vessel Was Caught in Heavy Gale Off the Coast of British Columbia—Search Being Made

Victoria, B. C., Oct. 31.—Holds full of water; send help.

This was the faint wireless message picked up at 3 o'clock this morning from the Canadian patrol steamer Galiano. Although the worst is feared, in view of the fact that the distress message has been picked up in answer to the calls flashed since the first one was received from the foundering steamer, it is considered possible that the naval steamer's wireless aerial apparatus was carried away during a high gale blowing off of Triangle Island during the night. Furthermore, it is realized that the emergency dynamo may have been put out of commission by the heavy seas which, according to the first message sent out, must have flooded the vessel as she was battling against the storm.

The vessel left Triangle Island at 9 o'clock last night for Ikeda Bay and it is expected that she carried a crew of fifty. The majority of her officers are residents of Victoria.

The complement of the Galiano follows: Lieut. M. E. Pope, commander; F. Greenfield, chief engineer; J. Gilbert, chief officer; M. J. Neary, wireless operator; J. Vintie, boatswain; W. W. Watson, P. J. Edmond, P. Williamson, A. Lewis, A. O. Jones, W. A. Ebbs, H. M. Giffin, R. E. Newlen, G. A. Peter, R. McLeod, A. E. Hume, C. Chadbury, R. Musty, C. S. Bale, J. Sanborn, R. Stewart, A. E. Murray, C. Power, T. F. Kane, W. G. Pheriat, T. Wallace, W. J. Stafor, W. J. King, H. Merco, J. Young, M. Dobbin, P. Alken and A. H. Orlando.

When the Galiano left here for the west coast she did not carry her full complement, some of the men having fallen ill of influenza.
