

JAPS CAPTURE ANOTHER PORT

WAS CARRIED BY DESPERATE ASSAULTS

The Russians Have Made a Number of Unsuccessful Attempts to Retake the Position.

St. Petersburg, Sept. 22.—11.20 a.m.—A report of the Japanese advance is expected to occur in the vicinity of the third week since the fighting at Liao Yang, and the Japanese have had time to transport reinforcements from Yinkow and bring up sufficient men to replace all their losses, but it is probable that several days will intervene before the armies come to close quarters, the intervals being devoted to both sides to feeling out the strength and disposition of the opposing forces until the Japanese probably will attempt to capture the passes of the Da mountains, running half way between the Hun and Taïse rivers. The possession of these passes is important for the Japanese, as it will not only enable them to march north, but also screen the movements of their troops from the prying eyes of the Russian scouts.

It is fully appreciated here that the Japanese must try to cut the connection of Mukden, as otherwise it will be difficult for them to force the army with winter quarters. Liao Yang does not afford sufficient accommodations, although many houses were occupied, destruction in the recent battle.

While the war office advises do not indicate that Field Marshal Oyama's main armies have resumed their forward movement, advance detachments of Japanese are feeling out the strength and disposition of the Russian forces, and Japanese flank attacks are already pressing northward. The reports that a battle at Mukden is imminent are, however, regarded as premature. All that seems to be definitely established is that Oyama is again essaying to flank Gen. Kuropatkin from the east, his advance forces seeking to obtain command of the roads leading to 20 to 30 miles east of Mukden.

Yesterday they attempted to seize Da pass, on the road to Fushun, in order to turn the Russian's left, but they were repulsed.

In addition to the two Russian corps already mobilizing, seven other corps are to be called to the colors.

ENGLISH WOMAN RUNS THE BLOCKADE

Chefoo, Sept. 21.—Mrs. Anne Kravtchenko, the English wife of a Russian army officer, who arrived here the night of September 17th with Lieut. Primo Radzivil from Port Arthur, was the first woman to run the blockade from the Russian stronghold since the Japanese increased their vigilance to prevent egress from the port. Her trip was rendered extremely perilous because she came out with bearers of messages, who had been captured by the Japanese, would have been executed. Mrs. Kravtchenko said to the correspondent of the Associated Press: "We left Port Arthur at 8 o'clock on the night of September 15th. There was a good wind and the moon was bright. We were successful in avoiding the danger of the Japanese blockade line. We came up the line when the moon was under a cloud. Our bearers were firing on all sides, but our junk was not discovered. We suddenly discovered ourselves close to another Japanese line. The Japanese were firing at us. We were terrified, but we were not hurt. At 6 o'clock the next morning we saw the appearance of a cruiser, and we were terribly frightened. Primo Radzivil and Lieut. Christoff were with us. I stretched myself with dry blankets, Chinese were lying at my feet and at my sides, and for nearly an hour. At 10 o'clock the cruiser was in our position. I never uttered a word, though I was informed that the Red Cross vessel and the captain had no intention of overhauling us."

ANOTHER IMPORTANT FORT TAKEN BY JAPS

Tokio, Sept. 22.—3 p.m.—While official confirmation is lacking, it seems certain that the Japanese possess a fort on another hill westward of Itozhan, which they carried by desperate assaults, and have since resisted all attempts to recapture by the Russians. The fort is situated on the heights overlooking Port Arthur, offering excellent gun positions, which materially weaken the Russian defence.

RUSSIANS OFFER BIG PRICES FOR COAL

Tsitsan, Sept. 22.—3 p.m.—Several colliers have arrived here within the last ten days. It is believed the cargoes are intended for Port Arthur. The British collier Foxton Hill has transferred her cargo of coal to the German steamer Erick. The local authorities would not allow her to leave until she gave assent that no attempt would be made to enter Port Arthur. The Erick left at dawn, and Japan is given as her destination, but it is believed that she will enter Port Arthur. The Erick has transferred her cargo of coal to the German steamer Erick. The local authorities would not allow her to leave until she gave assent that no attempt would be made to enter Port Arthur. The Erick left at dawn, and Japan is given as her destination, but it is believed that she will enter Port Arthur.

DOES NOT THINK THE FORT WILL FALL

Chefoo, Sept. 21.—Mrs. Anna Kravtchenko, the English wife of a Russian army officer, who has arrived here, being the first woman to run the blockade from the Russian stronghold, said in an interview: "Wonderful things are being done by the staffs of the different hospitals at Port Arthur, who are assisted by ladies. There are 30 nurses for each thousand patients. The ladies devote most of their time to the making of

SIXTY MILLION BUSHEL YIELD

THIS IS ESTIMATE OF F. W. THOMPSON

New Flour Mill for Fort William—Bible Society's Secretary Coming to the Coast.

Winnipeg, Sept. 21.—F. W. Thompson, vice-president of the Ogilvie-Milling Company, Montreal, who is in the city, has great faith in the western harvest. He places the total wheat yield at 60,000,000 bushels, and believes many authorities have underestimated the yield. The company plans to erect a new flour mill at Fort William, and will put in the foundation this fall.

Winnipeg, Sept. 21.—The Black Watch band reached the city at noon, and were met at the depot by all Scottish societies in the city. The band, which is composed of 40 men, will play at the annual convention of the Ogilvie-Milling Company, Montreal, on the 28th inst.

Winnipeg, Sept. 21.—The funeral of E. J. O'Reilly, a prominent member of the late E. J. O'Reilly, took place last evening at the C. R. R. depot. The interment takes place at Wolfe Island, Ont.

Winnipeg, Sept. 21.—Chief McDougall, of Portage la Prairie police, who went duck shooting without permission, has been discharged.

The Late E. J. O'Reilly.

Labor Convention.

Toronto, Ont., Sept. 20.—Several hundred delegates from all parts of Canada and United States met in the afternoon yesterday and opened the convention of the Structural Iron Workers of America. Mayor Uppshur welcomed the delegates in a brief speech. T. C. Carter, of Colorado, addressed the convention on behalf of the Cigar-makers' Union, urging that labor men generally should be very particular to buy no more cigars.

Will Visit Coast.

Toronto, Sept. 20.—Rev. J. H. Ross, secretary of the British and Foreign Bible Society, leaves here for Western Canada this week. He will be in Vancouver on Sunday, October 2nd.

Lord Minto's Trip.

Winnipeg, Sept. 20.—Lord Minto drove into Winnipeg this morning, and was camped outside the town last night. He received a civic address and inspected the Northwest Mounted Police barracks and industrial school. After replenishing stores Lord Minto proceeded to Saskatoon, where he will arrive on Wednesday and take the train to Regina, reaching there on Thursday. He will then proceed to Winnipeg, where he will be reached on Friday.

Addressed Congress.

Montreal, Sept. 20.—The feature of this morning's session of the Trades and Labor Congress was a forcible address by Rev. T. Albert Moore, assistant secretary of the Lord's Day Alliance. He pointed out the aims and objects of that association, in which the co-operation of labor organizations was sought. John A. Platt, president of the Lord's Day Alliance, presided over the session.

Disastrous Cavalry Charge.

One Soldier Killed and Many Injured During the German Army Manoeuvres.

Lubeck, Germany, Sept. 19.—The army manoeuvres are assuming the semblance of almost deadly reality. One of the Kaiser's favorite methods of warfare, a brilliant cavalry charge, has resulted disastrously. Fifty men were thrown from their horses and many received serious injuries. One of the Kaiser's favorite methods of warfare, a brilliant cavalry charge, has resulted disastrously. Fifty men were thrown from their horses and many received serious injuries. One of the Kaiser's favorite methods of warfare, a brilliant cavalry charge, has resulted disastrously. Fifty men were thrown from their horses and many received serious injuries.

Guatemala Railway.

Road to Be Built From Ocean to Ocean—Proposed Steamship Line.

San Francisco, Sept. 20.—The Examiner to-day says that Mrs. Jane Stanford, the Crookers, Edward Seawell and General Thomas H. Hubbard, as owners, through the Pacific Improvement Company of the Guatemala Central railroad, have made a deal with Sir William Van Home and his Eastern syndicate by which they have become interested in an overland railroad in Guatemala. It will be 250 miles long from ocean to ocean, and will be completed within twelve months. It is proposed to run a line of steamers connecting with New York on the Atlantic side and another line on the Pacific, connecting with San Francisco.

Parliament of Netherlands.

Opened by Queen Wilhelmina—Old Age Pensions and Better Education.

The Hague, Sept. 20.—Queen Wilhelmina opened the States-General to-day. In the speech from the throne the Queen said the home industries of the Netherlands were not competing satisfactorily with foreign enterprises and the finances of the kingdom and the Netherlands needed strengthening. Her Majesty also announced the forthcoming introduction of bills providing for old age pensions and better education.

Cancer of the Breast.

Our painless method of treating this disease has been very successful in a large number of cases. Send six cents in stamps for our booklet, "Cancer, its Cause and Cure." V. Rott & Jury, Bowmanville, Ont.

ALLEGED FAILURE TO KEEP PROMISES

Claim Expedition to Tibet Has Resulted in Establishing a Protectorate Over Country.

QUESTION OF CONTROL TO BE DECIDED

Important Case Referred to the Supreme Court—Seeking Ruling Regarding Sunday Observance.

Ottawa, Sept. 22.—When the C.P.R. was built it was decided in the act that the government would have no control over the income of the company had reached 10 per cent per annum upon the actual capital expended in the construction of the railway. A variety of interpretations have been given of the section of the act. The subject has been under the consideration of the department of justice and the C.P.R. for some time, and a case has now been referred to the Supreme court to be heard at the present term, so as to obtain a decision as to what this section really means, and what is to be included in the words "Actually expended in the construction of the railway," and what portion of the railway is included; that is, if it applies only to the original cost of the railway, or to the cost of the railway as it stands at the present time, and a case has now been referred to the Supreme court to be heard at the present term, so as to obtain a decision as to what this section really means, and what is to be included in the words "Actually expended in the construction of the railway," and what portion of the railway is included; that is, if it applies only to the original cost of the railway, or to the cost of the railway as it stands at the present time, and a case has now been referred to the Supreme court to be heard at the present term, so as to obtain a decision as to what this section really means, and what is to be included in the words "Actually expended in the construction of the railway," and what portion of the railway is included; that is, if it applies only to the original cost of the railway, or to the cost of the railway as it stands at the present time, and a case has now been referred to the Supreme court to be heard at the present term, so as to obtain a decision as to what this section really means, and what is to be included in the words "Actually expended in the construction of the railway," and what portion of the railway is included; that is, if it applies only to the original cost of the railway, or to the cost of the railway as it stands at the present time, and a case has now been referred to the Supreme court to be heard at the present term, so as to obtain a decision as to what this section really means, and what is to be included in the words "Actually expended in the construction of the railway," and what portion of the railway is included; that is, if it applies only to the original cost of the railway, or to the cost of the railway as it stands at the present time, and a case has now been referred to the Supreme court to be heard at the present term, so as to obtain a decision as to what this section really means, and what is to be included in the words "Actually expended in the construction of the railway," and what portion of the railway is included; that is, if it applies only to the original cost of the railway, or to the cost of the railway as it stands at the present time, and a case has now been referred to the Supreme court to be heard at the present term, so as to obtain a decision as to what this section really means, and what is to be included in the words "Actually expended in the construction of the railway," and what portion of the railway is included; that is, if it applies only to the original cost of the railway, or to the cost of the railway as it stands at the present time, and a case has now been referred to the Supreme court to be heard at the present term, so as to obtain a decision as to what this section really means, and what is to be included in the words "Actually expended in the construction of the railway," and what portion of the railway is included; that is, if it applies only to the original cost of the railway, or to the cost of the railway as it stands at the present time, and a case has now been referred to the Supreme court to be heard at the present term, so as to obtain a decision as to what this section really means, and what is to be included in the words "Actually expended in the construction of the railway," and what portion of the railway is included; that is, if it applies only to the original cost of the railway, or to the cost of the railway as it stands at the present time, and a case has now been referred to the Supreme court to be heard at the present term, so as to obtain a decision as to what this section really means, and what is to be included in the words "Actually expended in the construction of the railway," and what portion of the railway is included; that is, if it applies only to the original cost of the railway, or to the cost of the railway as it stands at the present time, and a case has now been referred to the Supreme court to be heard at the present term, so as to obtain a decision as to what this section really means, and what is to be included in the words "Actually expended in the construction of the railway," and what portion of the railway is included; that is, if it applies only to the original cost of the railway, or to the cost of the railway as it stands at the present time, and a case has now been referred to the Supreme court to be heard at the present term, so as to obtain a decision as to what this section really means, and what is to be included in the words "Actually expended in the construction of the railway," and what portion of the railway is included; ATHLETIC CLASSES FOR THE WINTER

LOCAL Y.M.C.A. ABOUT TO REOPEN FOR SEASON

Classes Will Be Formed for Business Men, Young Men and Juniors—Instructor Explains System.

The gymnasium of the Y. M. C. A. will be reopened on October 1st, and from that date forward the fine recreation room will be the centre of one of the most active departments of the institution.

The gymnasium has been overhauled during the summer and some new apparatus added. The latter is now ample for all kinds of health, recreative, general and artistic gymnastics, and will be renewed and improved as the season progresses.

The classes this year will again be under the direction of the club's physical instructor, Fred Waddington, whose splendid work last year proved so satisfactory to the management and the members of the classes alike.

The system of physical exercises taught is a selection of the most beneficial movements called from modern physical culture courses, eliminating all that are very violent or in any way dangerous.

No exercise is given because this or that person recommends it, but because it is designed to benefit some definite portion of the anatomy, internal or external.

The movements are mostly free exercises, i. e., entirely without apparatus, and include what is best in Swedish, English and other systems.

Three courses will be taught—the ladies of the young men, the young men and the juniors. The last named is an innovation here, and it is hoped, will be popular with boys, from 12 to 16 years of age.

All courses contain some proportion of the following groups: 1. Hygienic exercises strengthen and develop vital organs and establish normal functional activity—the fundamental needs of every man.

2. Corrective exercise is designed to secure proper form and position of the spine, chest and shoulders, and to correct deviations caused by occupation or bad posture.

3. Educative exercises train the motor centres of the nervous system, thereby developing the higher physical faculties of endurance, agility, skill, courage, self control, etc.

4. Recreative exercises are those that afford pleasure to the performer, and are done in moderation and without effort of the attention.

5. Business men's courses are designed primarily to meet the needs of adults engaged in sedentary occupations. The exercises, of a simple nature, are selected with reference to their effects upon the mental organs. For busy men, there is nothing to equal an hour twice a week at this practice, followed by an invigorating shower bath.

The young men's courses include instruction and practice in all phases of the wonderful and artistic apparatus gymnastics.

THE SILVER LEAD DISTRICT VISITED

NEXT YEAR SHOULD PROVE A GOOD ONE

Provincial Mineralogist Pleased With Showing—Nelson Is Becoming an Important Fruit Centre.

W. F. Robertson, provincial mineralogist, has returned from the silver lead districts of British Columbia. He has been out on field work since June 10th. Nearly all the time has been devoted to silver lead mines, with Sandon as a centre.

The past season, Mr. Robertson says, has been one of activity in that particular branch of the mining industry, and the probabilities are that next year will see even greater developments than the present one.

After spending a week in the Dominion bonus many claims located some years ago when there was a boom in this branch of mining have been developed. In many cases this season has been largely devoted to ascertaining just what was contained in the mining claim.

The outlook therefore for legitimate activity in the silver lead mining is very bright for some time to come. After spending a week in the Victoria Mr. Robertson will start for Atlin. He will spend several weeks there, completing the season's field work.

Very favorable to Mr. Robertson's work. He has scarcely been hindered at all in his investigations on account of weather conditions. The lack of rain in the St. Eugene silver lead property and others have been forced to shut down simply because of this lack of water.

The country about Nelson, the provincial mineralogist thinks, is going to become a great fruit centre. Sections of that district which were believed to be entirely useless for horticultural purposes are now found to be admirably adapted for fruit growing. Apples, pears, etc., do well, and even grapes.

The quality of the fruit produced is excellent, and it is expected that Nelson will be a great centre from which fruit will be shipped to the Northwest coast. The quality of the fruit produced is excellent, and it is expected that Nelson will be a great centre from which fruit will be shipped to the Northwest coast.

NANAIMO MINE TO BE REOPENED ON MONDAY

Company Will Employ One Shift a Day—Satisfactory Agreement Reached With Men.

Nanaimo, Sept. 22.—Nanaimo miners held a meeting last evening to discuss certain new regulations submitted by President Howard, of the Western Fuel Company, chief among which was a proposal regarding work mine; one shift per day, employing all men on this shift. The company also asked the men to pay a small rate for their rent, which hitherto has been free.

A satisfactory agreement was reached between the miners and the company. The new plan, the finest of the kind ever completed on Saturday, and the mines will reopen on Monday, coal being hoisted from No. 1 shaft for the first time since the fire last June. A grand celebration over the event in the form of a barbecue will take place on Saturday afternoon.

Flour Has Taken Another Jump

Further Advance in Price Probable

Local Grown Fruit Shipped to the Northwest—Retail and Wholesale Market Quotations.

Some important changes have occurred in quotations during the past week. The price of flour has risen and the figure is likely to increase to a greater extent.

In this connection it might be mentioned that the crops of Island grown apples, pears, plums and prunes have been so large that F. R. Stewart & Company have made up several carload lots for shipment to the Northwest Territories.

Wholesale Markets

Table listing market prices for various goods including oranges, bananas, and various fruits.

The Pale, Tired Girl

She is everywhere—behind the counter, in the office, in society—always thin, unstrung, awfully nervous.

Council to Assist

Colonist Man Married

Mr. Abe Ellis, of Typographical Department of the Paper, and Miss Sylvester Link Fortunes.

Mr. Abe Ellis, for many years a member of the typographical department of the Colonist, and brother of Mr. W. H. Ellis, former manager of the paper, was united in marriage to Miss May V. Sylvester, at Erieleigh, the home of Mr. and Mrs. P. Sylvester, on Wednesday.

The residence was beautifully decorated, and the event was marked by numerous manifestations of friendship, the large list of presents including a handsome chair from the Colonist employees, among whom Mr. Ellis is held in very high esteem.

The bride, too, has a wide circle of friends. She was supported by her two sisters, Miss L. M. Sylvester and Miss Ray Sylvester, while Mr. Frank Sargison, another of the Colonist staff, acted as groomsmen.

The bride was gowned in white silk with an overcast of silk mull, valence lace and ribbons being profusely used to finish the toilet.

Miss L. M. Sylvester was dressed in pale blue nun's veiling and blue accoutrements with white nun's veiling with burnt orange velvet. The honeymoon tour will extend as far south as Monterey, and will include all the principal places en route.

On their return Mr. and Mrs. Ellis will take up their residence in this city.

A Promising Property

Valuable Lode Discovered in Atlin District Carrying Varying Ores.

"On the headwaters of Boulder creek a large ledge of sulphurated quartz, carrying high values both in gold and silver, was recently discovered by D. C. Probusco, who is destined to become a producer of some of the best silver world-wide and new impetus to the mining industry in this country," says the Atlin Claim of September 10th.

The lode present shows twenty feet in width of grey and white quartz, thoroughly impregnated with gold-bearing iron sulphides and brittle sulphides of silver, specimen assays of which run from \$2 up to \$175 per ton, gold being the predominating metal.

"With all the natural facilities at hand for extracting and treating the ore from such a large body, this mine could be made remunerative on a low rate of values per ton, as has been the case with the Treadwell and many other similar properties which are the largest gold producers anywhere, the total costs per ton range from one to two dollars.

To determine more accurately the merits of the Stamban mine, Mr. Probusco, assisted by A. J. Kappell and Judge Henderson, of Vancouver, who have interested themselves with him in this new enterprise, is running a large open crosscut to the vein to secure an average sample lot for testing, when it may be expected that exploitation work will be continued on a more extensive scale."

The bride, too, has a wide circle of friends. She was supported by her two sisters, Miss L. M. Sylvester and Miss Ray Sylvester, while Mr. Frank Sargison, another of the Colonist staff, acted as groomsmen.

The bride was gowned in white silk with an overcast of silk mull, valence lace and ribbons being profusely used to finish the toilet.

Miss L. M. Sylvester was dressed in pale blue nun's veiling and blue accoutrements with white nun's veiling with burnt orange velvet. The honeymoon tour will extend as far south as Monterey, and will include all the principal places en route.

On their return Mr. and Mrs. Ellis will take up their residence in this city.

A Promising Property

Valuable Lode Discovered in Atlin District Carrying Varying Ores.

"On the headwaters of Boulder creek a large ledge of sulphurated quartz, carrying high values both in gold and silver, was recently discovered by D. C. Probusco, who is destined to become a producer of some of the best silver world-wide and new impetus to the mining industry in this country," says the Atlin Claim of September 10th.

The lode present shows twenty feet in width of grey and white quartz, thoroughly impregnated with gold-bearing iron sulphides and brittle sulphides of silver, specimen assays of which run from \$2 up to \$175 per ton, gold being the predominating metal.

"With all the natural facilities at hand for extracting and treating the ore from such a large body, this mine could be made remunerative on a low rate of values per ton, as has been the case with the Treadwell and many other similar properties which are the largest gold producers anywhere, the total costs per ton range from one to two dollars.

To determine more accurately the merits of the Stamban mine, Mr. Probusco, assisted by A. J. Kappell and Judge Henderson, of Vancouver, who have interested themselves with him in this new enterprise, is running a large open crosscut to the vein to secure an average sample lot for testing, when it may be expected that exploitation work will be continued on a more extensive scale."

Colonist Man Married

Mr. Abe Ellis, of Typographical Department of the Paper, and Miss Sylvester Link Fortunes.

Mr. Abe Ellis, for many years a member of the typographical department of the Colonist, and brother of Mr. W. H. Ellis, former manager of the paper, was united in marriage to Miss May V. Sylvester, at Erieleigh, the home of Mr. and Mrs. P. Sylvester, on Wednesday.

The residence was beautifully decorated, and the event was marked by numerous manifestations of friendship, the large list of presents including a handsome chair from the Colonist employees, among whom Mr. Ellis is held in very high esteem.

The bride, too, has a wide circle of friends. She was supported by her two sisters, Miss L. M. Sylvester and Miss Ray Sylvester, while Mr. Frank Sargison, another of the Colonist staff, acted as groomsmen.

The bride was gowned in white silk with an overcast of silk mull, valence lace and ribbons being profusely used to finish the toilet.
