STILL NO TRACE OF CHINESE SUSPECTS

Murderers of Elsie Sigel Said To Be Heading West

Had Been Reported at Chicago But Nothing Definite Discovered—Little Evidence Connected With Crime Revealed.

NEW YORK, June 21.—All clues to the whereabouts of Leon Ling, the Chinaman in whose room the body of Elsie Sigel was found, were investigated by New York police today, but Leon was still at liberty and his hiding place unknown. Members of the Sigel family have positively identified the body of the murdered girl as that of Miss Elsie and the police have held an important witness, Chu Gai, the manager of the Port Arthur Restaurant, where Elsie is said to have been a frequent visitor. Letters from Elsie Sigel were found in Chu Gai's room. They contained a message to the authorities that they had discovered the murder of the young missionary. Chu Gai's assertion that he had received anonymous letters threatening him with death unless he discontinued his attentions to Miss Sigel convinced the police that they had at least found a cause for the murder.

HARRY H. MOTT SUES

WM. GREIG FOR ASSAULT

Local Architect Wants \$2000 From Former Manager of the Massey Harris Co.

An interesting assault case is being tried this afternoon in the Circuit Court. Harry H. Mott, the local architect, is the plaintiff, and William Greig, at one time manager of the Massey Harris Co., here, but now Ottawa, is the defendant. Mr. Mott sues for \$2,000 damages because Mr. Greig split his lip and loosened three of his front teeth in an attempt to eject him from a room in the Walker building, Germain street, on Oct. 26, 1904.

On the same day of the assault Mr. Greig was arrested and held to bail. The case has been adjourned several times. The defendant claims that the assault was committed in self defence.

W. J. Wilson, K. C., appears for plaintiff, and H. A. Powell, K. C., for defendant.

STEAMER ZEELAND WAS

RAMMED BY AN UNKNOWN

Red Star Liner Badly Damaged During Dense Fog Off Dover—No Trace of the Other Vessel.

SOUTHAMPTON, June 20.—The Red Star Steamship Zealand, from Antwerp for New York, put in here this evening in a badly damaged condition as a result of a collision last night east of Dover with an unknown vessel. The Zealand was proceeding slowly through a dense fog when she struck the vessel amidships. Boats were immediately lowered from the steamer, but no trace could be found of the other. It is impossible to say whether it was a warship or a merchantman.

After remaining in the vicinity of the accident for a considerable time, with out seeing a vestige of wreckage, the Zealand proceeded to Dover and thence to Southampton. She has a big hole in the starboard bow and the fluke of the anchor was forced completely through a lower pipe.

One of the passengers on the Zealand says the accident caused no great alarm as the coolness of the officers and crew reassured the passengers.

SOUTHAMPTON, June 21.—It will take two or three weeks to repair the damage to the bow of the Red Star Line steamship Zealand that was in collision Saturday night east of Dover with an unknown vessel. The Zealand was proceeding slowly through a dense fog when she struck another vessel amidships. Boats were immediately lowered by the steamer but no trace of the other ship could be found. It is impossible to say whether the vessel was a warship or a merchantman.

FRED ROBERTSON'S BODY NOT YET RECOVERED

Grappling Has Been Going on All Day—An Inquest Will Be Held.

Despite the vigorous efforts of a large number of men and boats to locate the body of Frederick Robertson, who was drowned at Westfield wharf yesterday morning, the remains had not been recovered up to the hour of going to press. The father of young Robertson reached the scene of the accident last evening and is superintending the search for the remains.

The pretty suburban district of Woolastock is aroused by the accident. There is a feeling that the parties in the P. Yuen should have made more vigorous efforts to rescue the deceased.

Covered Ballantynes, of Westfield, has decided to conduct an inquest into the drowning. The search will be continued this afternoon and the services of a diver may be secured.

MRS. GOULD WILL DENY

ALL THE CHARGES MADE

Her Lawyer Promises Some Surprises When the Proper Time Comes.

NEW YORK, June 21.—Mrs. Katherine Clemmons Gould, who is suing her husband for a separation and \$250,000 a year alimony, said today that she had added several witnesses for her side and obtained evidence to refute the testimony of the employees of the Hotel Bellevue Stratford, who testified that they saw Dustin Parsons, the actor, leave her apartments early one morning during her stay at the Philadelphia Hotel in 1904. Mrs. Gould returned from Philadelphia last night, where she went Saturday after the week-end recess of court.

Mrs. Gould's lawyer today declined to say what the refutation evidence would be, but said it would all be introduced at the trial at the proper time, and that when Mrs. Gould's case was presented in rebuttal there would be many surprises for the defence.

The defence today continued to call witnesses to show the plaintiff's alleged misconduct in support of their contention that Howard Gould was justified in living apart from his wife since July 1906. It is expected that Howard Gould will be called as a witness in his own behalf. In view of the large number of witnesses yet to be called by both sides, Justice Dowling will hold late sessions of court this week and probably night sessions.

SQUALL UPSETS YACHT SENDING 2 INTO WATER

Saturday was a breezy one along the water front and a stray squall that hadn't anything else particularly to do veered into Lower Cove slip. It left only after capsizing a small yacht said to belong to C. O. Foss of the Transcontinental and precipitating two workmen into the water. Fortunately the depth was not great and besides a somewhat generous ducking the incident was without serious consequences. The men concerned were Captain Withers of 108 Hazen street and Wendell Gray, living at 135 Main street, Fairville. Gregory McDermott, who resides at 242 Charlotte street, and the captain of the schooner Noel, lying at the slip were also mixed up in the affair to the extent of rescuing the fallen overboard.

The yacht which has been burdened with an unpronounceable Indian name, was only recently brought here from Shelburne and is fresh from the yard. Captain Withers has been engaged for some weeks in fitting her out and the squall came along just in time to play havoc with the finishing touches. The two men upon being precipitated into the water, struck out immediately for shore, to be taken aboard a motor boat on the Noel after having proceeded but a short distance. C. O. Foss, who sent that he knew nothing of the affair.

TROOPS ON PARADE WIN ADMIRATION OF CITIZENS

Thousands of citizens lined the streets yesterday afternoon to admire St. John's militia on its way to and from Trinity Church, where annual service was held. Ideal weather, bright uniforms, splendid music and almost perfect marching made yesterday's church parade one of the most impressive military turnouts in recent years.

Upwards of 800 men were in the parade and the thousands of citizens lining the route of march passed many complimentary remarks upon the splendid appearance of the troops. Chief Clerk and his officers kept the following route clear of traffic, which added materially to the efforts of the Rev. J. C. Robertson of Toronto in conducting Sabbath School institutions at various points in the Presbyteries of Truro and Wallace. Mr. Anderson will be away for about two weeks and during his absence the Rev. C. W. Townsend will conduct the service in St. John's.

WIND PLAYS JOKE ON 7 GEESSE—STRIPS 'EM

MATTOON, Ill., June 19.—No champion pecking house picker could have done a better job on seven geese belonging to Farmer E. M. Thomas near here, than did a cruel west wind lately. The seven were stripped down to the last pin feather.

During the afternoon the Waterloo street Baptists met the Leinster street Baptists in a friendly game of ball. The former came off victorious.

Presentations were made at the conclusion of the Sunday school service at the Congregational church yesterday. Superintendent C. E. JACK JOHNSON AS A CHURCH LECTURER

Left Police Court for Pulpit—Gargously Decried He Talked About Jeffries.

HOSTON, Mass., June 19.—After pleading guilty and paying a fine of \$5 in the police court here yesterday for a violation of a street traffic regulation, Jack Johnson, the world's heavy-weight champion pugilist, appeared last night as a lecturer in the R. U. M. E. Zion church, in Cambridge. Johnson in a tuxedo suit, drab vest and many diamonds, was introduced to a large audience by the pastor, Rev. Dr. J. Francis Lee, who said that Johnson had willingly volunteered to add the church by giving a lecture. Johnson gave an original, enthusiastic greeting and expressed little hope of ever meeting the former champion, James J. Jeffries. He said, "I am satisfied now that he (Jeffries) and I will never fight. The reason for this is that he is growing fat. I don't care to meet a man who comes out of retirement. I want a real live one. Then let the better man win."

AN AMERICAN AT THE ASCOT RACES

London, June 19.—Some one once said that bad weather at Ascot was a national calamity. I don't know who said it. It may have been Shakespeare, but, through some whirl of atmospheric circumstance, there never is bad weather at Ascot.

WERE HUGE SUCCESS

Nearly 200 Sunday school scholars of the Leinster street Baptist church with relatives and friends found themselves on Saturday at Lakewood, the city of St. John was but a dream and the reality of living, of enjoying every moment, of taking in every breath of the beautiful fresh air was taken every advantage of. Sports of all kinds were indulged in, while refreshments were so plentiful that the caterers were prepared for a siege.

It was very hard to discriminate between the youngster and the older people, for one and all entered whole heartedly into the games, jests and songs. It was a most enjoyable time and everyone regretted when roll call came and the homeward bound trip began.

WINDS PREVENTS GOOD SHOOTING

The St. John City Rifle Club had their weekly noon match on Saturday afternoon on the local rifle range. There was a large attendance present, but a strong and tricky wind made it not difficult for the best of the shots present. The league teams found it very hard work indeed. The following is the score of the members of the City Rifle Club team:

Table with 2 columns: Name and Score. Includes James Sullivan, R. A. C. Brown, E. P. Gladwin, N. J. Morrison, H. E. D. Golding, D. Conley, H. Sullivan, A. G. Staples, P. Pettigale, R. Murray.

LOCAL SPORTING NOTES

Scoring five tallies when their opponents weakened in the last inning, the Marlboroughs tied the Clippers and scored the winning run in the eleventh inning Saturday afternoon's game on the Victoria grounds. The final was most exciting, the score standing 4-4 at the conclusion. Becoming disheartened at times the Marlborough fans' elation would be imagined when their favorites pulled out a victory.

A large crowd gathered on the Shamrock grounds on Saturday afternoon to witness the match between the old rivals, St. Peter's and St. Joseph's. The former won the match 4-1 and had their opponents beaten at all stages.

The Letters

(By Frank H. Williams.)

The elderly woman looked at the young man and the young woman. "You're perfectly exasperating!" she cried. "I've told both of you that that letter of yours is the most ridiculous thing I have ever read. It's a waste of paper. Why can't you believe me? That may all be very true from your point of view," the girl answered soberly, "but really I can't marry Fred while I know that my letter to Harry is in existence. There were things in it—"

THE STAR, ST. JOHN N.B. MONDAY, JUNE 21 1909

ST. JOHN N. B. JUNE 21, 1909.

THE MILITARY PARADE.

Development of militarism among the younger generation is a great bugbear to some peculiarly constituted people, and these no doubt found what was, to themselves at least, a soul-satisfying inspiration in yesterday's parade.

How many young men and boys among the thousands lining the streets on Sunday afternoon were actuated, by the sight of the troops, to a desire to kill their fellows? How many, on the other hand, failed to realize that the best duty of a true soldier is obedience, not only to his own officers, but to the great Captain to whose house the men were marching? True it is that to some the parade was more a spectacle, but to the majority the realization was brought that loyalty to one's country, even such loyalty as involves the risk of life and the possibility of destruction of other lives, is a duty of the true Christian.

THE FIRE ANTEPREVARY.

This day thirty-two years ago was a sad one for St. John. The fire came at a time when the city was struggling against the decline of the ship-building industry, and although the worst stage of that failure had not then been reached, conditions were disheartening to even the most optimistic. It cannot be said that during the past generation St. John has kept in the front rank of progress, it is not even intimated that our people have done everything in their power for the advancement of their own and the city's interests, but certainly in view of the almost fatal nature of the setback sustained, the recovery during the past thirty years has been creditable.

As is always found on such occasions, the fire was followed by a period of feverish activity in buildings, and the mistakes made in this zeal to rear again the ruined homes and stores, are more apparent today than the evidence of the fire itself. Many contractors shirked their work, brick and stone were jumbled together in some instances with an absolute disregard for honesty, and since that time hundreds of property owners, who had spent excessive sums on the original contracts, have been compelled to almost rebuild the homes thrown together by after-the-fire contractors.

Yesteryear the temperature in St. John ranged from 47 to 57 degrees. The velocity of the wind was 30 miles an hour.

CASTLES IN THE AIR. Once when our castles rose in air with hope heavy roof and floor, We thought the world had never known So fair a type before.

And then when life became more tepid We quite outgrew all that, And fancy built another home, Replacing much that.

Friend—But your house has no view, Proprietor—That doesn't matter; all the guests play bridge.

FAIR MINDED. "Now, my man, remember I am your lawyer, and I am going to say right by you in this and see you through, whether you are guilty or not."

BETTER BARGAIN. "You have changed doctors, I hear?" "Yes; I got a new one."

Checkers—"Years ago I had money to burn and I burned it!" "Checkers—"How?" "I should say so, I get twice as big pills for my money."

STOPS FALLING HAIR. Ayer's Hair Vigor is composed of sulphur, glycerin, quinine, sodium chlorid, capicum, sage, alcohol, water, and perfume. Not a single ingredient in this list. Ask your doctor if this is not so. Follow his advice. A hair food, a hair tonic, a hair dressing. Promptly checks falling hair. Completely destroys all dandruff. DOES NOT COLOR THE HAIR.

DIES MYSTERIOUSLY

WITH HIS BRIDE

Young Man is Found Kneeling Lifeless Beside Wife's Body After Honey-moon Trip.

WILLIAMSPORT, Pa., June 19.—Kneeling beside the lifeless body of his bride he was found by the coroner's jury today.

On that day two cyclists, returning from an excursion, were coming down a steep hill on a lonely road at great speed when one of the machines broke. The rider was thrown, and lay unconscious. His companion, in great distress, vainly waited for passersby, and finally decided to carry his comrade on his back.

Suddenly two motor cars appeared on the brow of the hill. The cyclist urgently signalled them to stop, and the motorists obeyed immediately. The cyclist then recognized with deep confusion and surprise the King and Queen.

On that day two cyclists, returning from an excursion, were coming down a steep hill on a lonely road at great speed when one of the machines broke. The rider was thrown, and lay unconscious.

On the morning of the 19th, Mrs. Munro and her bride were in their night clothes and the gas was burning brightly, indicating that they had been overcome when about to retire. The tragedy occurred in the home of Mr. Munro's uncle, George W. Verne, captain of Pennsylvania Railroad detectives.

Analysis will be made of liquids found in the house, including chloroform of which Mrs. Munro had used as a gargle for sore throat. She had made similar use of a small quantity of whiskey, contained in a bottle, and this is being analyzed.

Mr. Munro, who was twenty-two years old, had just returned from his honeymoon trip.

Delays Flight to New York Because of Reception Given Him at Coast.

NEW YORK, June 20.—President Reyes, of Colombia, was not a passenger on the Prinz Sigismund, of the Hamburg-American line's Atlas service when she arrived yesterday, as was indicated in a despatch from Bogota.

According to reports received by the news that President Reyes had not left the country had not reached the capital.

EXTINGTION FACES

GOBELIN TAPESTRY

PARIS, June 19.—It is feared that France is in danger of losing the secret of the manufacture of the famous Gobelin tapestry. Several members of the Chamber of Deputies have expressed the belief that such will be her fate unless the state increases the salaries of those who are engaged in its production.

The Gobelin factory, where these wonderful tapestries are made, is passing through a crisis. Many of the artists, disgruntled with the miserable pittance doled out to them by a parsimonious government, have already left the country and have gone to America, and others refuse to fill their places as the remuneration is so poor.

The death of skilled artists is being felt severely, and members of the Chamber contend that unless a radical change is effected the manufacture will close at no distant date. Already the tapestry shows a marked falling off, both in quality and quantity.

Three years ago the government undertook to remedy the evil by drawing up a more liberal scale of payment for the employees, but, though this scale was approved, no attempt has yet been made to put it into force.

AMUSEMENTS.

COLLIER & CO.'S BIG SHOW.
 One of the most novel amusement exhibitions that has ever visited St. John will be seen here on Monday, June 21st, for one week. "Collier & Co.'s" Big and 20 cent Show has secured Victoria Rink, and judging by the advance promises, are in for amusement quite out of the ordinary and doubtless will prove a real loss, to miss witnessing. The Rink will be transformed into a wondrous collection, gaily decorated and seated with the company's portable seats running all around the sides. The acts being presented in the centre, and upon a portable stage, and in a 40 ft. ring; the rigging for the aerial, acts being suspended from the dome, hung directly over the ring and stage.

We are assured by the management that every act and number presented will be of the highest class, and strictly moral and refined, nothing being permitted that the most fastidious could possibly take exception to.

A limited number of reserved seats, for which an extra charge of 10 cents is made will be on sale, but the admission price of 10 and 20 cents entitles everyone to a seat free of charge. Band concerts by Prof. Starr's Military Band will be given one hour prior to the performances. Daily matinees, Tuesday to 10 cents.

A GREAT BIG SHOW AT HAPPY, HALF HOUR TODAY.
 Today the patrons of the Happy Half Hour are to be given a surprise and a treat. Yielding to many requests the Berlins are to be heard in not one but three numbers. Signor Berlin will recite will sing Far, Far Away, and they will both sing the big act, The Message of the Red, Red Rose. The two numbers are from the big musical comedy Marcelle, in which Mlle. Berlin sang on Broadway. Her solo number is the one in which she attended with Louise Gunning, and the composer, Gustav Luders himself, directed the production. The N. Y. Clipper of last October says: "Marcelle is the best musical comedy seen here in many years. The music was excellent and from good went to the comparative better." It is not often that St. John gets a chance to hear Broadway singers. Now the big star, Crowley the Great, will be seen in St. John for the first time today. Crowley has played in every large city of Great Britain, and has toured the States playing the Wm. Morris and the Orpheum Circuit, two of the leading vaudeville circuits in America. Crowley sings in two distinct voices, is of handsome presence and possesses a magnificent wardrobe made by Worth of Paris and Refere of London. Dreams, Kitty Moores and other selections and will give a side splitting monologue. Still another, Figure, the world's greatest acrobatic novelty club and vase juggler. You have seen jugglers; wait until you see Figure, and no repeats. They are two Sergeants positively promised as one of the best dramas ever seen here. "Love Knows No Age" is a scream, and The Freddie's Record is a scream. New

only received Saturday will be rendered by the ladies' orchestra. One hour and a half show. See big ad, this paper.

LIVING HORRORS.
 Men Made to Look Like Beasts by Chinese Methods.
 To translate a man into a beast would at first seem to be impossible. It is accomplished, however, by the Chinese, to whom nothing seems to be unknown. The skin is removed in small particles from the entire surface of the body, and to the bleeding parts bits of the hide of living animals, bears and dogs are usually applied. The operation requires years for its full accomplishment. After the patient has had his skin completely changed and become a man-beast or a man-dog he is made mute to complete the illusion and also depicting him of the means of informing the public he is intended to amuse of his long torture. A Chinese Journal, the Hupao, prints a description of one of these human animals exhibited in the Klänge. His entire body was covered with dog skin. He stood erect (although sometimes the feet were forced to walk on all fours), could not utter articulate sounds, rise nor sit down—in short, make the gestures of a human being. A mandarin who heard of this monstrosity had him brought to his palace, where his hairy kin and bestial appearance caused quite as much terror as surprise. Upon being asked if he was a man the creature replied with an affirmative nod. He also signified in the same manner that he would write. A pencil was given him, but he could not use it, his hands were so deformed. As he was then placed on the ground in front of him, when the man-dog, leaning over, traced in them five characters indicating his name and district. Investigation showed that he had been stolen, imprisoned for years and subjected to long tortures. His master was apprehended and condemned to death.—London Spare Moments.

LEPER AT CARDIFF.
 CARDIFF, June 19.—The Cardiff health committee yesterday decided to keep Ah How, the leper Chinaman, who was discovered in a city lodging house, in the Seaman's Hospital, pending some arrangement for sending him to a leper colony.

IMPRISONED ONE NIGHT IN MOUNTAIN CAVE

Members of Touring Club, Hammed in by Flood, Cannot Reach Surface.

MANCHESTER, June 20.—Five members of the Yorkshire Ramblers Club have had a weird and exciting week end adventure. Engaged in exploring Gaping Ghyll, one of the deepest and most famous "pot" holes in England, they were unable to regain the surface owing to an influx of water, and were imprisoned in the bowels of a mountain for over thirty hours. The cave, a series of ledges in the limestone and are believed to have been principally formed by the chemical action of water.

A VAST "POT."
 Gaping Ghyll is picturesquely situated on the shoulder of Ingleborough, Northeast Yorkshire, a mountain some 2,000 feet high. At the foot of the "pot" is a vault over 400 feet long, 182 feet high and 80 feet wide, and the "pot" could easily accommodate Manchester Town Hall.

A large party of explorers camped at the mouth of the famous hole about 6 o'clock on Wednesday morning. The descent of the "pot," a distance of 350 feet, was successfully accomplished by means of a chair and a windlass. After spending the day in the hole the majority of the party returned to the surface about 5 o'clock in the evening.

Five enthusiastic "hunters," however, decided to remain below all night and explore the subterranean passages.

The five explorers intended to leave the hole about 6 o'clock Thursday morning. During the night, however, rain fell heavily, and in a very short time the stream of water which runs over the edge of Gaping Ghyll became so swollen that it tumbled down the sides of the hole like a cascade. To be drawn up out of the "pot" those below would have to face the descending water as it splashed from one of the ledges. For any one to be brought out in the circumstances was therefore impossible, and when the attempt was made to communicate with the explorers it was found that the telephonic apparatus had broken down.

HAD PLENTY OF FOOD.
 It was known, however, that the men in the hole were well supplied with food and light, and there never was any fear in the minds of those at the "pot" mouth that all would not end well. Steps were at once taken by the party above ground to dam the course of the flooded stream, and by this means the waterfall down the rock was diverted. T. Booth, of Leeds, described the perilous and unpleasantness of the journey and go to his friends below, "Just to cheer them up." As anticipated, he found them quite well, but somewhat cold and wet.

The lonely vigil was at last broken by the restoration of communication with those above, and the final relief of the party was effected in the early hours of yesterday morning.

THANKSGIVING SERVICE FOR WELCOME WRECK

Warriors of Coral Island Dance Exultantly Around Some Happless Sailors.

CARDIFF, June 20.—Six members of the crew of the Cardiff steamer Daffin Manor have reached Barry. The vessel, which belonged to Messrs. Marwick & Brown, ran ashore on a coral reef on the island of Mimiko, 400 miles from Colombo, on April 19, and five days afterwards was abandoned.

One of the sailors states that the vessel struck during a dark night. At dawn she was surrounded by natives, who assisted the crew to lighten the vessel by taking away a considerable portion of the cargo of rice.

The wreck proved a boon to the 2,000 natives who inhabited the island, for they were the victims of famine and were malnourished and emaciated. The best accommodation that could be afforded for the shipwrecked men was the small police court building for the officers and the prison for the crew, but at night the crew preferred to walk about the island rather than endure the bites of the mosquitoes.

A day of thanksgiving for the wreck was ordered by the rajah of the island, and the crew performed their native war dances.

A salvage steamer arrived at the end of a week and took the crew to Colombo, the natives being left in possession of a valuable cargo and a steamer which had been out of the builders' yard only about two years.

And if you are being a long time don't lose your courage. It takes a little time—takes some constitutions longer than others. But Don's Kidney Pills will gradually drain the poisons out of your system; the pain in your back will stop; the sediment in the urine will cease; there will be no rheumatic pains; you will feel freer and brighter, and when the last of the poisons have gone you will be well.

There is no way of getting the kidney poisons out of the system except through the kidneys, and no medicine so effective in gradually draining the poisons out of your system as Don's Kidney Pills.

Mr. W. Perkins, South Midland, N.S., writes: "I feel it my duty to let you know of the great cure I have obtained by using Don's Kidney Pills. For six months I could not obtain a good night's rest, had to get up four or five times to urinate, and the urine was very thick and red. I commenced using Don's Kidney Pills and in a very short time I was right and fit again. I am very thankful to have found so speedy a cure."

WOMEN WANT EQUAL RIGHTS

TORONTO, June 20.—The election of officers was the first business before the United National Council of Women Saturday morning. The voting of some one of the general officers or committees took ten votes instead of one. Much excitement prevailed and the voting was held again Saturday morning.

On the suffrage question, however, the council reaffirmed its previous attitude in favor of women receiving the same electoral advantages as the managers of the opposite sex.

MANNY KILLED ANOTHER IN COLLISION

BOVINE BREND, Ind., June 20.—Ten persons were killed and four injured in a wreck on the Chicago, Lake Shore and South Bend railroad in Porter county, Ind., last night, two electric cars colliding head-on. According to General Manager H. U. Wallace, the wreck, which cost the lives of two men, was due to a dereliction of duty by motorman George A. Reed of the eastbound car, who was killed.

Respecting a loan to the imperial press delegates at a luncheon given yesterday by the Lord Mayor of Manchester, Mr. E. Nicholson, who presided, marked that during the last thirty years the British manufacturer apparently had been doing business in Canada on a more liberal basis than in any other country.

The eastbound car was going fifty miles an hour to make up lost time and when the collision occurred was telescoped and almost demolished. In this train were the killed and most of the injured, the passengers on the westbound train escaping with bruises.

Dealing with imperial defenses, Mr. Nicholson said that when it was thought that the mastery of the seas was impeded, Canada did not talk autonomy, she talked dreadnoughts. He personally thought the gift of a dreadnought would have had an educative influence on foreign nations.

All but one of the killed were in the smoking compartment of the car in the front end. This space was crowded with passengers.

MADRID, June 19.—Senator Don Rosendo Garmendia, vice-president of the Havana Chamber of Commerce, who is representing the tobacco factories of Havana, had an interview today with Senor Gonzalez Brasada, the Spanish minister of finance, to whom he complained of the high tariff imposed by Spain on Cuban goods and hinted that if Spain continues on those lines she would lose the Cuban market beyond recall.

No other remedy has been, or can be, so much for those who are almost driven to distraction with the terrible torture, as our thousands of signed testimonials can testify to.

HOPE TO OCCUPY NEW QUARTERS THIS WEEK

Top Floor of City Hall Almost Ready for Water & Sewerage Dept.—No Fire-proof Vault for Valuable Papers

The top floor of the City Hall is now about ready for occupancy and City Engineer Murdoch hopes to transfer the staff of the water and sewerage department from the Leinster street building to their new quarters some time this week.

The chief disadvantage of their new offices, apart from the difficulty of climbing three long flights of stairs to get to them, is found in the fact that there is no vault on the top and in case of fire the many valuable plans which the department has on hand would almost inevitably be destroyed. It is understood that the engineer is seeking some way to overcome this difficulty.

SAY GEORGE LEWIS DEFAUDED THEM

North End Men Victims of Bogus Cheque Scheme.

Wm. J. Savage and Wm. Lunney Loss \$18 Each—Frost & Wood Co.'s Name Said to Have Been Forged.

Two North End citizens have been victimized by a man supposed to be one George Lewis, an ex-employee of the Frost and Wood Company, on King Square, William J. Savage and William Lunney are the sufferers, and the amount in each case advanced was \$18. A warrant will be issued this afternoon for the arrest of Lewis. In passing the cheques he is stated to have passed the name of the Frost and Wood Company.

Evidently conscious of the fact that he could secure the advance the man approached Mr. Savage at his place of business at 265 Main street on Saturday afternoon. He told a story about no funds being available and asked Mr. Savage to give him \$18 in exchange for a cheque. The latter after some hesitation agreed to advance the amount. Therefore Lewis produced a cheque book and wrote out an order on the Bank of New Brunswick for the eighteen dollars. He presented the cheque to Mr. Savage who proceeded to examine it.

Mr. Savage soon detected an error in the writing of the cheque. The name of Frost and Wood had been marked through with pencil. However, Lewis insisted that the name was correct. He stated he was in the employ of the Company.

Lewis secured the same amount from Mr. Lunney without any great difficulty.

Upon presenting the cheque for payment at the North End branch of the Bank of New Brunswick this morning, Mr. Savage found that he had been the victim of fraud. Soon after Mr. Lunney also discovered that Lewis had cheated him.

The bank manager, upon examination of the cheques found that the names had been forged. The signature was as follows—Frost & Wood, per W. F. Burdett, manager.

Communication was secured by the bank with W. F. Burdett, manager of Frost and Wood Company. The belief that the cheques had been forged was substantiated, when Mr. Burdett declared that the company did not know anything of the issuance of the cheques.

Speaking with a Star representative this morning, Mr. Savage expressed his intention of issuing a warrant for the arrest of Lewis.

W. F. Burdett, when seen, stated that the attempt at forgery had been a poor one. Lewis had failed, whether intentionally or not, to spell "Burdett" correctly.

George Lewis is about medium height, dark complexion and is known in the North End. He entered the shipping department of the Frost and Wood Company a short time ago. However, he did not long hold the position and left the establishment about two weeks ago. It is learned that he has no vault on the top and in case of fire the many valuable plans which the department has on hand would almost inevitably be destroyed. It is understood that the engineer is seeking some way to overcome this difficulty.
