THE ALLIANCE STANDS THE TEST OF CRITICISM.

The Agreement Between Great Britain and Germany is Too Sensible and Has Too Heavy Backing to Admit of Serious Contradiction--It Will Be Adopted By All.

Berlin, Oct. 22.—Although no formal assents have yet been received from the powers regarding the Anglo-German agreement...

The agreement, which may be considered as Count Von Bülow's "critique joyeux" into his new office, is interpreted as another diplomatic victory for him.

While most of the papers approve the agreement, the Russian press, which means the Anglophobe section, expresses a fear that the coexistence between Germany and Russia, which arose recently, as evidenced by several incidents relating to Count Von Bülow, will be intensified by the agreement.

The Frankfurter Zeitung has the agreement as "accentuating the open door" and confidently predicts that the United States will join.

The Hamburg-American line, the North German Lloyd line, the Associations of Shipowners at Hamburg and Bremen, and various chambers of commerce have telegraphed to Count Von Bülow their hearty approval of the agreement.

The inspired organs declare in chorus that the agreement is not aimed at any power, and leaves all Russia. They point out the importance of Great Britain's protection of the Yangtze region, where German trade could be ruined unless the principle of the "open door" were maintained.

United States Favours the Alliance. Washington, Oct. 22.—It was authoritatively stated tonight that the United States government views with distinct favor the principle embodied in the Anglo-German agreement...

Berlin, Oct. 22.—With reference to the speculations as to the existence of secret clauses in the Anglo-German agreement, the National Zeitung, after careful inquiry, affirms that no such clauses exist.

To Recognize Li Hung Chang. Berlin, Oct. 22.—The semi-official Berliner Post says that the powers have agreed to acquiesce in Li Hung Chang with the demands to be made on China.

Russians Killing for Profit. London, Oct. 22.—The Times publishes the following from its correspondent in St. Petersburg: It is safe to say that the visit of the Chinese minister to Ljadia, where the Russian court and the principal ministers are now staying, and whence the Russian government is directed with more secrecy than would be possible here, is connected with an endeavor to make a separate arrangement concerning Manchuria.

The Russians will continue to exterminate the Chinese in the most ruthless manner in order to protect the future of the railways. A critical study of the official reports shows that the Chinese have been only too glad of the opportunity to kill every Chinese soldier and desert every vestige of Chinese authority in Manchuria; and they have taken advantage of this farcial resistance with a vengeance.

Another Fight. Wilkesbarre, Pa., Oct. 22.—The Stanton quarry of the Lehigh and Wilkesbarre Coal Company, in the Wyoming Valley, was the scene of a riot today when the price fixed by the present cabinet, \$7,000,000, will reach the Rikislag in a few weeks.

Defauling Paymaster. New York, Oct. 22.—Francis H. Roe, former assistant paymaster of Her Majesty's navy, was taken from the Ludlow street jail today, and put aboard the British ship Psyche upon the order of the British consul general of this city.

Recommend the Maine's Removal. Washington, Oct. 22.—General Leonard Wood, governor of Cuba, saw Secretary Long today and recommended that steps be taken to remove the wreck of the battleship Maine from Havana harbor as it occupies a great deal of space which could be utilized to advantage.

Not Enough Evidence. Patrols, October 22.—Police Magistrate Hammond today dismissed the case against James Clarke, charged with manslaughter of his brother, Joseph, holding the latter in custody until the next day.

To Reduce Water Rates. Boston, Oct. 22.—The board of aldermen tonight passed over the mayor's veto, an order providing for the investigation on the question of reduction of water rates.

THE STRIKE TO END.

A Few More Notices and It Will All Be Over.

PRESIDENT MITCHELL.

The Head of the Striking Miners, Says Prospects for an Early Settlement of the Strike Are Bright--Some of the Companies Are Hesitating.

Hazelton, Pa., Oct. 22.—President Mitchell, in an interview tonight practically admitted that the anthracite miners' strike would end as soon as all the operators posted a notice guaranteeing the payment of a ten per cent. advance in wages until April 1.

"The prospect of an early settlement of the coal strike is becoming brighter. Some of the operators who have not yet posted notices are signifying their willingness to fall in line either with the Reading Company or with the proposition made by the Lehigh Valley Company in the Hazelton District.

It adds: "The agreement, therefore, aims at the protection of that which needs no protection. To the question as to who will threaten the integrity of China there is only one answer. Those who have arranged to crush any one who thinks of preventing them from taking as booty those ports in China which they have regarded as belonging to them, Russia will, in the meanwhile, know how to protect China."

The Novor Vremya regards the territory north of the Poo-Ho river as being to Russia, "who will not admit the application of the 'open door' to that territory."

There Are No Secret Clauses. Berlin, Oct. 22.—With reference to the speculations as to the existence of secret clauses in the Anglo-German agreement, the National Zeitung, after careful inquiry, affirms that no such clauses exist.

Some of the New Brunswick Conservatives have been very indignant because the people of Quebec give the Liberals a large majority.

large majorities and only two by the Liberals by small majorities. In 1896 there was a landslide in Quebec and the province went Liberal, 49 Liberals being elected and only 16 Conservatives.

DR. STOCKTON.

Dr. Stockton, who is asking the suffrages of the electors of the city and county of St. John, is a very nice little man, but he is altogether too obedient to the Tory leaders.

A SAD MEETING.

The meeting between Sir Charles Tupper, Sir Hibbert Tupper, Mr. Foster and Mr. Dalby in this city the other day must have been a sad one.

A GOOD GOVERNMENT.

The Sun's logic is frequently at fault. In fact its range of vision is so limited that it fails often to see the consequences of its own arguments.

THE CONTEST IN SUNBURY-QUEENS.

The Sun devoted about a column of its editorial space Monday to Mr. Wilnot, the Conservative candidate for Sunbury-Queens.

THE HON. MR. WHITE.

The Liberals of Sunbury-Queens have made an excellent selection by the nomination of the Hon. A. S. White to be their standard-bearer in the coming general elections.

TWO WINDY MEN.

The Conservatives of St. John have for their candidates two of the most windy speakers that the province of New Brunswick, or even the Dominion of Canada, can supply.

THE TUPPER POLICY IN QUEBEC.

When Sir Charles Tupper, on his return from England, said to the reporter of a French Conservative paper that Sir Wilfrid Laurier was too British for him, he gave the keynote to the kind of campaign

which is being waged in Quebec by the Conservative party. The most remarkable publication of this campaign is the celebrated pamphlet, Number 6, which we refer to some time ago, and which we will take occasion to refer to again.

THE PROHIBITION QUESTION.

We observe that Mr. Foster and Dr. Stockton are attacking the government because they did not pass a prohibitory liquor law, as a result of the plebiscite which was taken a year or two ago.

COLONEL TUCKER.

The Sun of Saturday contained an attack upon Colonel Tucker, who is elected at by our morning contemporary on the ground that he had not made many long speeches in the house of commons.

ST. JOHN AND MR. FOSTER.

Mr. George E. Foster has made a good many speeches in this constituency since he announced himself as a candidate for the suffrages of the electors, but he has never devoted any of them to answering the great question as to what he has done for St. John to give him a claim upon the votes of its people.
