MAY HAVE A BIG SUMMER CELEBRATION HERE

Hotels on the Gaspé Coast Anticipate Record Season In Tourist Trade

PLANS FOR A BIG THREE-DAY EVENT TO BE HELD IN JULY ARE NOW UNDER DISCUSSION

If Undertaking is Considered Feasible Large Programme Will be Arranged For—Track Meet and Boat Races on River Would be Features of the Event—Huge Polio-Mortem Trade's Procession Would Mark Opening Day—Other Particulars.

If the recent discussion of the possibilities of a big summer celebration here is followed by well-considered and energetic effort to carry out such an event, Campbellton may be the scene of a really big affair of that kind in the month of July. The discussion referred to took place recently and suggestions were advanced and tentative plans formulated by those interested.

The promoters of the summer celebration here prefer to avoid publicity for the meantime lest some unconsidered contingency may show the proposed undertaking to be impractical or too hazardous to insure an adequate monetary return.

World Last Four Days
The idea of the promoters of the summer celebration is to arrange, if possible for a programme sufficiently varied and attractive to hold public interest for three or four days. The organizers of the idea plan to interest the support of some worthy institution or society of hands and make an equal division of the profits with them in return for their co-operation. The two local hospitals would most likely be given the preference in this selection.

Some Festivities
Those behind the movement have expressed their desire to make sure that the proposed event can be made a really big affair which would attract hundreds of visitors from all over the north shore and the Gaspé Coast before going any farther with the matter. If public interest here seems to warrant the expenditure of the time and effort which would be necessary and the sympathy and co-operation of the right parties can be relied upon the first actual steps will be taken shortly in order that this undertaking may have the publicity it needs to make it a success, and also that ample time may be had in which to make every arrangement and secure everything possible in the way of intermediation. On the other hand, if conditions do not assume a promising aspect the matter will be dropped.

The Programme
The tentative programme under consideration should be most interesting if this undertaking is gone on with. This event, it is understood, would begin with a big parade similar to that which was a feature of the Labor Day Celebration held in Campbellton a few years ago. Merchants and others would be asked to arrange a "float" of some kind to appear in the opening parade, prizes being offered for the best float. After the parade would follow the opening of the summer season, which would be marked by a big "gate" day. This would wind up the event. On this closing day games and racing and other sports would be a feature of the event; horse races would also be arranged for and a big "gate" day would wind up the event. On this closing day games and racing and other sports would be a feature of the event; horse races would also be arranged for and a big "gate" day would wind up the event.

One particularly good point about the proposed undertaking is the determination of its organizers to carefully avoid any losses in the programme. They realize that in order to draw crowds and hold them, provision must be made for every hour of every day during the event.

Chateau Restigouche will be open for the travelling public and visitors are obliged to suffer the inconvenience of inadequate hotel accommodation. This fact alone tends to make a prospect of this nature much more necessary to make.

NEW MAP OF NEW BRUNSWICK ISSUED

Attractive Advertising for
Eastern Provinces—Views
of Different Localities

A very fine map of the eastern section of the Trans-Canada Highway, showing the route from Halifax to Saint John, is issued by the Canadian Automobile Association, has been secured by the New Brunswick Automobile Association for distribution. The map, which is in the form of a small folder, shows the main highway in red while the principal towns and cities along the route are plainly marked. On the back of the folder there is an interesting and instructive article dealing with New Brunswick, the summer playground of North America, a land of wonderful rivers and forests, big game, mysterious lakes and mountains. The article is written by Mr. Armstrong, a number of photographs appear on the back of the map, showing beauty spots in various sections of the province. They include views along the Valley Railroad on the Upper St. John, views taken on the road to Moncton, a New Brunswick moose, Sugar Loaf Mountain at Campbellton, scenes along the Kennebecasis, Cains River, Lepreau River, the cave at St. Martin, the bridge at St. John and many other scenes.

Instead of the ordinary service at Wesley Church next Sunday night, the choir will render Mrs. Wilson's Easter Cantata "Our Living Lord". This is high class music and is sure to be enjoyed by all who attend.

SPECIAL EASTER MUSIC IN THE LOCAL CHURCHES ON SUNDAY LAST

Choirs of All Five Churches
Rendered Beautiful Selections
Appropriate to the
Season.

The choir of Campbellton's five churches are something of which their respective congregations are proud of and on special occasions there is always a treat in store for those who attend.

Easter Sunday was no exception for in the various churches beautiful music was enjoyed. The musical programmes included many fine solos and duets by leading local vocalists. Special Easter music was also rendered.

Chateau Restigouche will be open for the travelling public and visitors are obliged to suffer the inconvenience of inadequate hotel accommodation. This fact alone tends to make a prospect of this nature much more necessary to make.

Found Home Brew In Private House

An effort on the part of Prohibition Inspector Chas. J. Gray and Peter S. Martin to confine certain suspiciously brewed liquors to their limits was rewarded yesterday afternoon by the discovery of a quantity of home brew in a Ward III residence. The inspectors were assigned a very amiable reception and permitted to search the house without protest. The brew was really found, having been bottled and placed near a stove pipe to "mature". The inspectors were that it is powerful stuff. A quantity will be sent to St. John for analysis.

C. A. HAYES RETIRES FROM C. N. R.

W. C. Muir Succeeds to Position
of Express General
Manager.

Montreal, Que., April 22—C. A. Hayes, General Manager of the Canadian National Express Company, has retired from that position. William C. Muir, assistant to Mr. Hayes, has been appointed acting general manager of the company. These changes are effective May 1st next.

Wages Sizeable

(Quebec Telegraph)
The Canadian National Railways being now administered by a company, which is to a certain extent independent of the Federal Government, the salary of an employee no longer enjoys exemption from seizure. This point was decided recently by Hon. Justice Letellier, of the Supreme Court when he maintained a claim of \$800 against an operator on the C. N. R., Intervenor Division.

The applicant had entered an action for debt against the defendant and the latter had contended that as an employee of a railway belonging to the state his wages enjoyed the privilege extended to federal employees, whose wages are not seizable.

The plaintiff contended that the Intervenor had now been taken over by the Canadian National Railways, which were operated by a company, which was independent of the Government.

THIRTY DEAD IN
TRAIN COLLISION
Twenty-one Bodies Removed From
Wreckage Caused by Accident to
Zurich and Milan Expresses
Near Bellinzona.

Berne, Switzerland, April 23—Thirty persons are reported to have been killed and fifty injured when the Zurich and Milan expresses collided near Bellinzona this morning.

Twenty-one bodies had been removed from the wreckage early this afternoon, most of them so badly burned that identification was impossible. Each train was driven by two large electric engines, all four of which were completely wrecked and the four engines killed. It was the worst train wreck in Switzerland in more than twenty years.

Both trains had numerous foreign passengers, coming from or going to Italy.

Four Americans are reported to have been in the sleeping car on the train from Italy, which cars were less damaged from the others.

The Italian train had on board some French and British passengers, in addition to 45 Germans and 25 Italians.

WAGES LIKELY IN SUMMER VISITORS TO RESTIGOUCHE

With the approach of the tourist season the hotels along the Bay Chaleur coast in Restigouche County are looking forward to a profitable summer in catering to holiday visitors.

The new Bay View Hotel at Jacques River with accommodation for over fifty guests, just completed last fall, is now ready for the season. The attractions of Restigouche County and the Bay Chaleur district for those who seek a quiet, restful holiday by the sea-shore, are steadily becoming better known and with the great improvements now being made to accommodate summer visitors, the coming season should see a great increase in tourist traffic.

KEEPS COLD

The weather continues cold and

FINED FOR KEEPING GAMBLING HOUSE

On appearing before Judge Matheson last week on a charge of keeping a "gaming" or gambling house, Anthony Thomas, a local Assyrian merchant whose store is located on Roseberry Street, opposite the C. N. R. depot was fined fifteen dollars and costs. Thomas was at first inclined to have his case appealed but as the police were in possession of evidence which would have finally condemned him he finally decided to let the matter rest.

NAVIGATION OPENS ON RESTIGOUCHE

Ice Clean From Government
Wharf to Sea—Still Firm
Opposite Town

The Restigouche is now free of ice from the government wharf to the sea, and to all intents and purposes is now open to navigation.

The channel has been open from Dalhousie to Oak Point for about a week, but the continued easterly wind kept the ice from running out. The wind changed last night and the entire ice field moved out this morning.

The ice bridge opposite town is firm and pedestrians are crossing today.

Messrs. B. Larsen and C. Chatterton have launched their boats and are now ready for their season's work.

"WILLIAM TELL" ACT MILITARY TARGETS DEATH

Hardly, Mont. April 21—"William Tell" stunt, without the apple, resulted recently in the death of Henry Abendroth and the conviction of William Cosgrave for manslaughter.

The two men were employed on a nearby ranch as cowpunchers, Abendroth, holding out his hat, challenged Cosgrave to shoot a hole through it.

Cosgrave, reputedly an expert shot, fired and missed. Abendroth, then placed the hat on his head and told Cosgrave to try to hit it in that position.

Cosgrave fired again and Abendroth fell shot through the head.

Cosgrave was sentenced to from one to two years in the penitentiary but the sentence was suspended and he was released with an admonition.

OFF TO THE DRIVES

The rain of the past two days has made driving prospects better and large crews of men have been sent up river.

JUDGE A. T. LEBLANC PRESIDES FOR FIRST TIME IN OWN COUNTY

Address of Congratulation by
Local Barristers— Justice
LeBlanc Responds with Elo-
quent Speech— Great Crowd
At Court.

(Special To The Graphic)
Dalhousie, N. B., April 23—The Restigouche Co. Circuit met on Tuesday 22nd inst. at 11 o'clock A. M. with His Honor Judge A. T. LeBlanc presiding in the absence of His Honor Judge Barry, who was unable to attend. There was a large attendance of spectators in the Court House.

The Barristers present were Messrs. H. A. Carr, M. A. Kelly, J. Allan LeBlanc, Colin Mackenzie and T. Stanger Crockett.

After the Grand Jury had selected their foreman in the person of Mr. Fidele LeBlanc, of Charlo Station, and were sworn, Mr. H. A. Carr on behalf of the members of the Restigouche Co. Bar, read a most appropriate address to the new judge, who for the first time took his seat in the Court House of the County, in which he had practiced law so successfully, and ultimately leading him to occupy the highest position to be attained in the Province of New Brunswick.

The reading of the address was followed by brief and timely speeches delivered by Mr. M. A. Kelly, Mr. J. Allan LeBlanc and Mr. Colin Mackenzie, the latter speaking feelingly of his success after having studied in the law office of His Honor the Judge, when he practised in the town of Campbellton. His Honor Judge LeBlanc replied to the address and to the kind remarks that had

BABY SHOW ON HOSPITAL DAY

Hotel Dieu Hospital Will Con-
duct Show and Hopes
for Big Display

On May 12, 1820 almost 104 years ago, when a woman whose name is now buried in the annals of the past, was the first to give birth to a child in the Hospital of the Holy Trinity, the hospital is now celebrating its centenary. Florence Nightingale whose birthday is observed as National Hospital Day, has received a greater heritage of fame because of her revolutionizing the profession of nursing, but as a matter of fact, her contributions to the development of hospital service, were at least on a par with her nursing accomplishments.

Florence Nightingale had even a greater influence on hospital development than on nursing and since most of us are familiar with her wonderful accomplishments in laying the foundation of modern nursing, her hospital activities make her an even greater benefactor of humanity. The Hotel-Dieu Hospital is perfecting arrangements for a Baby Show on May 12th. Baby shows, are by far the most popular feature of National Hospital Day, and this year there will be such shows in hundreds of towns and cities in all parts of Canada and the United States.

Souvenirs will be given the babies, and their mothers will receive a special individual invitation to the affair. There will be a choice program of music, and refreshments served.

There will be many other interesting and entertaining stunts to be observed on the program at Hotel-Dieu Hospital, National Hospital Day. A cordial invitation is extended to

Remember the date May 12th. Remember, too, that National Hospital Day is a "Come in and get acquainted day". No donations asked.

At Bakers Hotel at Gaspé, the Perce Rock House at Perce, the White House at New Carlisle and Wilfred Hotel at Carleton Place

arrangements for accommodation are pouring in from various parts of the States and Canada and indeed, even from remote corners of the globe. As yet none of the hotels are booked up to capacity but before very long the tardy applications will be forced to remain on file until an opening occurs.

Last summer proved a successful season for all hotels directly interested in the tourist trade on the Gaspé coast and with the success of last year's ventures as an incentive to greater preparation the hotels on Gaspé's leading summering places are planning on what will probably be the busiest and most successful season so far. These four delightful summer resorts are annually becoming better known. The combined capacity of the fine large modern hostleries at these four places is now about 400 while, through securing numerous cottages in their localities, arrangements can be made to accommodate a considerably larger number. One significant fact about the ever-increasing tourist travel along the Gaspé Coast is that all visitors are invariably delighted with the climate, the many unexcelled attractions of the scenic peninsula and the splendid treatment accorded them by the proprietors of the different summering hotels. As a result every satisfied visitor becomes an enthusiastic advertiser and returns the next year bringing others to enjoy what these delightful resorts have to offer. Judging from the steady increase in the annual influx of summer visitors the Gaspé Coast evidently has a great future in the tourist business.

been made by the three Barristers, and said how hard it was for him when he received the news of his appointment, to leave his law career, with whom he had enjoyed so much the practice of law in the County of Restigouche.

Mr. Fidele LeBlanc, Foreman of the Grand Jury, then read an address on behalf of the Grand Jury, consequently on behalf of the people of the whole County of Restigouche.

His Honor Judge LeBlanc in reply to the address of the Grand Jury, rose to great eloquence, when he thanked all for the kind things that had been said. It was a great responsibility to be a judge of the Supreme Court of any Province. He paid a high tribute to his immediate predecessor on the Bench the late Judge Chandler, and at an Acadian standpoint, he was the natural successor of that great man, the late Judge Sir Pierre A. Landry. He said that he was not a native of the County of Restigouche, but he had made his home in the County during the last seventeen years, and the people had been broad-minded enough, to deal out great kindness and hospitable consideration to him, notwithstanding that he had been born far away from Restigouche in the County of Westmorland, N. B.

It spoke well for the future of our country said eloquently the learned Judge, that a man of his race, should be appointed to such a high position. The French were the pioneers of the Province of New Brunswick. The French clergy had preached the gospel of Christ at the very beginning of our history. The two great races that now form the population of Canada, each with their own ideals, never forgetting that they are Canadians. It was with such a high aim

that Britain and France would never be jealous of each other. The Supreme Court Bench was composed of able men. He would do all in his power to do honor to the high position the Government at Ottawa had appointed him to, and to the people of Restigouche Co. who had elected him to the Legislative Assembly, of his native province, he would be for ever grateful. The people had no doubt rendered him a great service, when he was defeated in his last election, as it gave him the opportunity to give all his time to practice law, which ultimately placed him in the high position which he now occupied.

Some people thought that to be successful a country should be populated by people of one nationality. That is not so. He cited the case of Switzerland. There you find in one section people speaking French, in another, Italian, and in another German, and when it is a question of their country, they are all Swiss, and there is no country in the world that is more admired than Switzerland.

Let French, Irish, Scotch and English in Canada, live side by side, each having the best of ideas, and the fine traits of each race will bring

It Works From Both Ends

A local merchant upon whom we called recently gave us a first class talk upon "buying at home." We certainly agreed with him in all he said, and more too. The Graphic has always preached this doctrine, and lived up to it.

But what of our local merchants? A genial solicitor for wrapping paper, paper bags, etc., had induced him to order his counter check books from him, "just to make up a good sized freight shipment."

Our local merchant clean forgot that our local printers could supply these counter check books at the same price. He sent out of town for them.

But it's a poor rule that won't work both ways.

QUEBEC IS MECCA FOR STOLEN CARS

Associations in Quebec Take up
Matter and Devise Ways of
Improving Matters

The magnitude of the business of disposing of stolen American automobiles in the Province of Quebec has forced the Montreal Auto Trade Association, the Merchants Association, the Motor League and other bodies to get together for the purpose of agitating for legislation at the present session of the Quebec Parliament that will help to end a situation regarded as intolerable by all those engaged in the motor industry. Quebec is a mecca for the auto thief from the United States because disposal is easy so long as customs duties are paid and he has purchased from a registered dealer the buyer of a stolen car is perfectly safe. That the auto thief is quick to take advantage of this legal loophole may be seen from the fact that one automobile dealer alone operating at Syracuse and Rochester has reported to its Montreal branch, the theft of no less than 80 cars all traced to the Province of Quebec.

The question of drafting a bill which will plug up the present loophole of escape is now occupying the minds of the Merchants' Association here, and no time will be lost in endeavoring to bring about a change in Article 1489 of the Civil Code which provides that "if a thing is lost or stolen, be bought in good faith in a fair or market, or at a public sale, or from a trader dealing in similar articles, the owner cannot reclaim it without reimbursing to the purchaser the price he has paid for it." To prove that such a purchase bought in bad faith is difficult as so many losers have found in the endeavors to reclaim their cars, even after a complete identification. According to the consensus of opinion among the dealers here as voiced by the Merchants' Association, "the only manner in which the situation can be changed would be to convince the Prime Minister of Quebec that the situation is serious and causing incalculable loss to insurance companies and bona fide dealers." In many cases bootlegging in cars and alcohol goes hand in hand. One insurance and adjustment expert here told of an individual who makes a specialty of stealing cars and must steal two on an average a week. This man has a Dodge runabout he uses to collect liquor from the various liquor stores in Montreal which is some place near La Prairie on the border and stored. When sufficient liquor has been collected to load a touring car or similar car they drive across the border, either through the customs barrier at a high rate of speed, or else use concealed roads.

At It Two Years
A city detective told how he had seen these men crossing the border at 60 miles an hour and standing on the running boards with revolvers in their hands ready to shoot. The detective declared that for the sake of his life he would not risk getting killed by these desperadoes. Also, the officers at the border are afraid to interfere with them. They had been carrying on as stated for over two years. Sometimes they use a Canadian car and leave it in the United States, or sometimes take an American car and leave it in some field on the Canadian side. It is important, says this detective, to understand that the men we must contend with in connection with the theft situation are not the joy riders who take a car for a day or two, leaving it in a more or less damaged condition in some secluded spot, but with organized gangs or mobs of thieves operating in co-operation with confederates, apparently carrying on an illegitimate business of registered automobile dealers or garage owners. Generally each gang or mob has the financial backing of men higher up who are difficult to reach and generally unknown. These gangs or mobs are made up of men who will stop at

HAVE FAITH IN THEIR OWN TOWN

Campbellton Men Tell of Past
Growth and Future
Prosperity

Fredericton, April 17.—It does not profit a man to be pessimistic about New Brunswick when Mayor McKay of Campbellton is within hearing distance. The latter speaks from the Campbellton viewpoint, but he talks with effect.

In the Queen Hotel in Fredericton one evening this week he set forth some facts. Campbellton has been growing. It borrowed \$300,000 under the housing act and built more than fifty houses. All these are occupied and payments are regularly made. There are no vacant houses. Last summer the town was offered fourteen families but could not house them. It has enlarged its water system until it is not necessary to use a pump in the highest house, and the supply is ample for twenty years. The town now has a good sewerage system. Its main business street has been paved, and it has over a dozen miles of permanent sidewalks. The Chateau Restigouche, a splendid hotel, is almost completed. As a result of legislation just secured, cheap power from Metis Falls in Quebec will soon be available to meet all present needs.

"Now," said Mayor McKay, who was re-elected in the last civic elections, "the town is ready to go on growing. It has the essentials. It will be able to supply industries with power. It has carried the burden of the great fire splendidly. There have been times when it had to carry a heavy over-draft, and the way of progress has not been easy, but Campbellton today is one of the most promising towns in the province."

This, in effect, was what the Mayor said, and he had a stalwart delegation with him whose faith in their own town was not a whit less strong. nothing in order to carry out their purposes. The thief generally may operate either for his own account selling the car stolen as best he may, or a commission basis for a registered automobile concern. Such concern disposes of the car, having already altered the serial and motor numbers and in some cases interchanging engine blocks, body and chassis with those of other cars. Or he operates for the benefit of a dishonest assured who wishes his car disposed of in order to collect insurance. In the latter event the car is very often either destroyed or disposed of by the thief for his own benefit.

Some of the Gangs
According to the New York Weekly Underwriter, the last has been making extensive investigations. lately there is one gang which operates in co-operation with a garage in Albert, Vermont, directly across the border, and which specializes in stealing cars and altering the numbers. These work as experts in their work, so that the alteration can barely be traced even by a most expert automobile dealer. In the case of this gang the cars are stolen in Montreal or vicinity and taken through by way of St. John's and Noyan Junction. There they are placed in barns near the border and driven across the line during the night. The numbers are altered, the car disguised in some instances by alteration in paint. Then it is disposed of through one or other of a number of registered automobile dealers who are registered for this sole purpose, and a list of which has been prepared by the insurance men. There is another gang operating in Valleyfield district which is operated jointly by a man well known with two others whose names we also know. Their specialty is to find a client for a high class car at a bargain price preferably in the country, and in most cases that have come to notice in the Lower Quebec Province and even so far as New Brunswick and Nova Scotia having found such a client they proceed to sell the car and under cover of night, drive down to this party and receive payment. This gang operates on both sides of the border and they cater to the Canadian trade as well, by stealing American cars and bringing them across the line. A company in New Jersey has recovered a Marmon 1923 touring worth \$4,700, which was sold in Montreal by the men referred to, to one of the foremost citizens of Riviere du Loup, P. Q. The car was sold to him July 22, 1923 for \$2,000. There are several other gangs operating around Valleyfield district, but the clique referred to seems to be the most important. Another gang operates in connection with a garage in Joliette Street. This concern seems to be owned by a party operating a drug company in Montreal, and who is well known to the chauffeurs of the C. P. R. tracks, and whose method is to use these cars for bootlegging purposes. Their method is to steal a car during the night, drive it through Laprairie and hide it on farms near the border. The main outlet, however, for stolen cars is to be found in and about Noyan Junction, which is on the Quebec and Montreal Southern Railway in the County of Missisquoi. It is a village of 100 population about three hours journey from Montreal. The most notorious receiver of stolen cars in that district is a farmer whose name is known. He has been known, particularly in the winter to accumulate as many as 20 Ford cars of recent-model in his barns with a view to disposing them in the spring, to farmers in the surrounding district or

Quality Plus

When you buy King Cole Tea you expect quality. But you also look for something more—for a certain taste that is pleasant to you, and that will be repeated in every cup you make. The quality is produced in Nature's Garden; but the taste is the outcome of expert blending which gives King Cole its characteristic rich flavor—the flavor you like. Is it not worth much to have your cup of tea always—as you like it?

"You'll Like the Flavor."

RECOMMENDS FOUR WHEEL BRAKES

Testimonial letters have been pouring into the Buick Motor Company ever since the introduction of the four-wheel brake job. The following is one that will be of particular interest to Buffalonians, as it comes from one so well known in this city.

Department of Public Safety
City of Buffalo, N. Y.

Police

John F. Burfield, John S. Marnon,
Chief of Police. Deputy Chief

Buick Motor Co., Flint, Mich.

Gentlemen:—The Department of Police on August 27th, 1923, purchased two Buick four-wheel brake touring automobiles, and at that time I was skeptical as to their braking efficiency under various conditions.

At this time I am pleased to say that all doubts that I may have had have been removed.

I personally drove one of the four-wheel seven-passenger touring automobiles about 1000 miles, taking in the State Fair at Syracuse, N. Y., week of September 10th.

It was a great test as I encountered all kinds of weather and road conditions, heavy traffic, steep hills. The four-wheel brakes worked wonderful.

I drove up and down the Camillus Hill three times, one of the worst hills between Buffalo and New York, and brought the car to a dead stop with seven passengers within 25 feet at 20 miles per hour, and at no time during this 1,000 miles did I have any trouble with the four-wheel brakes on the automobile, and I wish to honestly say that I am enthused with the four-wheel brakes, and will recommend them for use in the police department in the future.

Yours very truly,
(Signed) HENRY W. ALT,
Supt. of Motive Power and Supplies.

E. SULLIVAN, Local McLaughlin-Buick Dealer.

even taking them across the line for disposal. Other important points for receiving and distributing stolen cars are Hemmingford, Orms-town, Granby and Huntington.

CHEVROLET

—an essential in business
—a necessity to most families

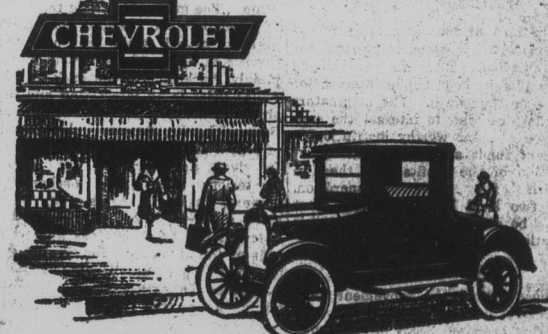

AMONG the greatest and most practical of man's inventions, one of the most vital instruments in modern business and one of the most useful and beneficial influences in family life is the modern automobile.

Dependable, Comfortable, speedy, unconfined in scope, unlimited in endurance and eminently practical in the economy of its operation, the automobile has contributed more to man's earning power and to his enjoyment and health than any other single factor.

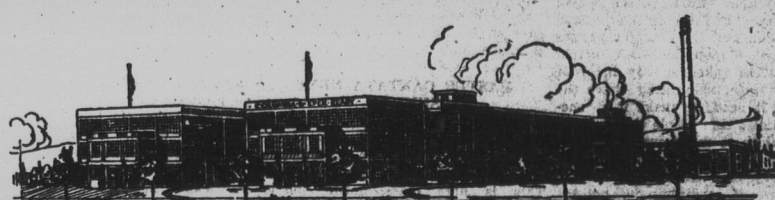

And unique among automobiles, Chevrolet provides everything any car can afford at a cost that is unapproached by another fully equipped quality car in the world. Chevrolet has the power to go any place and do anything that is possible for any other car, and at the same time it holds the world's record for low running cost and economy of upkeep.

Make a personal inspection of Chevrolet. Examine it thoroughly. Ask us for a demonstration.

Ask us about the G.M.A.C. Deferred Payment Plan for Economical Transportation.

CAMPBELLTON, N. B.

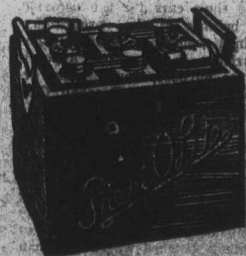

The Factory Prest-O-Lite Built

From the earliest days of the Automobile, Prest-O-Lite has been a familiar name to car owners. When electric starters were invented Prest-O-Lite was ready with a battery to turn over the engine. As one refinement after another was added to make motor cars more efficient and more comfortable, Prest-O-Lite kept pace and developed refinements in battery-building.

As cars increased in number and production on the present vast scale developed, Prest-O-Lite plants were built and out-grown. The present plant at Hillcrest Park, Toronto, was erected to take care of the ever increasing out-put of Prest-O-Lite Batteries.

The selection of Prest-O-Lite as original equipment on the majority of Canadian-built Automobiles and the replacement of worn-out batteries with Prest-O-Lites by car owners who demand the best battery, enabled Prest-O-Lite to build the largest battery plant in the British Empire and develop the greatest chain of service stations in Canada.

Prest-O-Lite Batteries now sell at the lowest prices at which this high quality battery has ever been sold. Let us show you how you can save money by buying a Prest-O-Lite.

It Works From Both Ends

A local merchant upon whom we called recently gave us a first class talk upon "buying at home." We certainly agreed with him in all he said, and more too. The Graphic has always preached this doctrine, and lived up to it.

But what of our local merchants? A genial solicitor for wrapping paper, paper bags, etc., had induced him to order his counter check books from him, "just to make up a good sized freight shipment."

Our local merchant clean forgot that our local printers could supply these counter check books at the same price. He sent out of town for them.

But it's a poor rule that won't work both ways.

QUEBEC IS MECCA FOR STOLEN CARS

Associations in Quebec Take up Matter and Devise Ways of Improving Matters

The magnitude of the business of disposing of stolen American automobiles in the Province of Quebec has forced the Montreal Auto Trade Association, the Merchants Association, the Motor League and other bodies to get together for the purpose of agitating for legislation at the present session of the Quebec Parliament that will help to end a situation regarded as intolerable by all those engaged in the motor industry. Quebec is a mecca for the auto thief from the United States because disposal is easy so long as customs duties are paid and he has purchased from a registered dealer the buyer of a stolen car is perfectly safe. That the auto thief is quick to take advantage of this legal loophole may be seen from the fact that one automobile concern alone operating at Syracuse and Rochester has reported to its Montreal branch, the theft of no less than 80 cars all traced to the Province of Quebec.

The question of drafting a bill which will plug up the present loophole of escape is now occupying the minds of the Merchants' Association here, and no time will be lost in endeavoring to bring about a change in Article 1489 of the Civil Code which provides that if a thing, lost or stolen, be bought in good faith, at a fair or market, or at a public sale, or from a trader dealing in similar articles, the owner cannot reclaim it without reimbursing to the purchaser the price he has paid for it. The fact that such a purchase bought in good faith is difficult as so many losers have found in the endeavors to reclaim their cars, even after a complete identification. According to the consensus of opinion among the dealers here as voiced by the Merchants' Association, "the only manner in which the situation can be changed would be to convince the Prime Minister of Quebec that the situation is serious and causing incalculable loss to insurance companies and bona fide dealers." In many cases bootlegging in cars and alcoholics go hand in hand. One insurance and adjustment expert here told of an individual who makes a specialty of stealing cars and must steal two on an average a week. This man has a Dodge runabout he uses to collect liquor from the various liquor stores in Montreal which is some place near La Prairie on the border and stored. When sufficient liquor has been collected to load a touring car or similar car, they drive across the border, either through the customs barrier at a high rate of speed, or else use concealed roads.

At It Two Years A city detective told how he had seen these men crossing the border at 60 miles an hour and standing on the running boards with revolvers in their hands ready to shoot. The detective declared that for the salary he is receiving he would not risk getting killed by these desperadoes. Also, the officers at the border are afraid to interfere with them. They had been carrying on as stated for over two years. Sometimes they use a Canadian car and leave it in some field on the Canadian side. It is important, says this detective, to understand that the men must contend with the police in the theft situation are not the joy riders who take a car for a day or two, leaving it in a more or less damaged condition in some secluded spot, but with organized gangs or mobs of thieves operating in connection with the federates, apparently carrying on an illegitimate business of registered automobile dealers or garage owners. Generally each gang or mob has the financial backing of men higher up who are difficult to reach and generally unknown. These gangs or mobs are made up of men who will stop at

HAVE FAITH IN THEIR OWN TOWN

Campbellton Men Tell of Past Growth and Future Prosperity

Fredericton, April 17.—It does not profit a man to be pessimistic about New Brunswick when Mayof McKay of Campbellton is within hearing distance. The latter speaks from the Campbellton viewpoint, but he talks with effect.

In the Queen Hotel in Fredericton one evening this week he set forth some facts. Campbellton has been growing. It borrowed \$200,000 under the housing act and built more than fifty houses. All these are occupied and payments are regularly made. There are no vacant houses. Last summer the town was offered four hundred families but could not house them. It has enlarged its water system until it is not necessary to use a pump in the highest house, and the supply is ample for twenty years. The town now has a good sewerage system. Its main business street has been paved, and it has over a dozen miles of permanent sidewalks. The Chateau Restigouche, a splendid hotel, is almost completed. As a result of legislation just secured, cheap power from Metis Falls in Quebec will soon be available to meet all present needs.

"Now," said Mayor McKay, who was re-elected in the last civic elections, "the town is ready to go on growing. It has the essentials. It will be able to supply industries with power. It has carried the burden of the great fire splendidly. There have been times when it had to carry a heavy over-draft, and the way of progress has not been easy, but Campbellton today is one of the most promising towns in the province."

This, in effect, was what the Mayor said, and he had a stalwart delegation with him whose faith in their own town was not a whit less strong.

nothing in order to carry out their purposes. The thief generally may operate either for his own account selling the car stolen as best he may, or on a commission basis for a registered automobile concern. Such concerns are now being set up in the city and in some cases interchanging engine blocks, body and chassis with those of other cars. Or he operates for the benefit of a dishonest assured who wishes his car disposed of in order to collect insurance. In the latter event the car is very often either destroyed or disposed of by the thief for his own benefit.

Some of the Gangs According to the New York Weekly Underwriter, that has been making extensive investigations lately there is one gang which operates in co-operation with a garage in Albert, Vermont, directly across the border, and which specializes in stealing cars and altering the numbers. These people are so expert in their work that the alteration can barely be traced even by the expert automobile dealer. In the case of this gang the cars are stolen in Montreal or vicinity and taken through by way of St. John's and Noyan Junction. There they are placed in barns near the border and driven across the line during the night. The numbers are altered, the car disguised in some instances by alteration in paint. Then it is disposed of through one or other of a number of registered automobile dealers who are registered for this sole purpose, and a list of which has been prepared by the insurance men.

There is another gang operating in Valleyfield district which is operated jointly by a man well known with two others whose names we also know. Their specialty is to find a client for a high class car at a bargain price preferably in the country, and in most cases that have come to notice in the Lower Quebec Province and even so far as New Brunswick and Nova Scotia having found such a client they proceed to sell the car and under cover of night, drive down to this party and receive payment. This gang operates on both sides of the border and they cater to the Canadian trade as well, by stealing American cars and bringing them across the line. A company in New Jersey has recovered a Marmon 1923 touring worth \$4,700, which was sold in Montreal by the men referred to, to one of the foremost citizens of Riviere du Loup, P. Q. The car was sold to him July 22, 1923 for \$2,000. There are several other gangs operating around Valleyfield district, but the clique referred to seems to be the most important. Another gang operates in connection with a garage in Joliette Street. This concern seems to be owned by a party operating a drug company in Montreal, and who is well known to the insurance men. Another gang—one of the most dangerous—is run by an Italian who operates in the night of the city, particularly on the other side of the C. P. R. R. tracks, and whose method is to use these cars for bootlegging purposes. Their method is to steal a car during the night, drive it through L'Assomption and hide it on farms near the border. The main outlet, however, for stolen Ford cars is to be found in and about Noyan Junction, which is on the Quebec and Montreal Southern Railway in the County of Miramichi. It is a village of 168 population about three hours journey from Montreal. The most notorious receiver of stolen cars in that district is a farmer whose name is known. He has been known, particularly in the winter to accumulate as many as 20 Ford cars of recent model in his barn with a view to disposing them in the spring, to farmers in the surrounding district or

Quality Plus

When you buy King Cole Tea you expect quality. But you also look for something more—for a certain taste that is pleasant to you, and that will be repeated in every cup you make. The quality is produced in Nature's Garden; but the taste is the outcome of expert blending which gives King Cole its characteristic rich flavor—the flavor you like. Is it not worth much to have your cup of tea always—as you like it?

"You'll Like the Flavor."

RECOMMENDS FOUR WHEEL BRAKES

Testimonial letters have been pouring into the Buick Motor Company ever since the introduction of the four-wheel brake job. The following is one that will be of particular interest to Buffalonians, as it comes from one who is well known in this city.

Department of Public Safety
City of Buffalo, N. Y.

John F. Burfield, John S. Marnon, Chief of Police, Deputy Chief

Buick Motor Co., Flint, Mich.

Gentlemen:—The Department of Police on August 27th, 1923, purchased two Buick four-wheel brake touring automobiles, and at that time was skeptical as to their braking efficiency under various conditions. At this time I am pleased to say that all doubts that I may have had have been removed.

I personally drove one of the four-wheel seven-passenger touring automobiles about 1000 miles, taking in the State Fair at Syracuse, N. Y., week of September 10th.

It was a great test as I encountered all kinds of weather and road conditions, heavy traffic, steep hills. The four-wheel brakes worked wonderful. I drove up and down the Camillus Hill three times, one of the worst hills between Buffalo and New York, and brought the car to a dead stop with seven passengers within 25 feet at 20 miles per hour, and at no time during this 1,000 miles did I have any trouble with the four-wheel brakes on the automobile, and I wish to honestly say that I am enthused with the four-wheel brakes, and will recommend them for use in the police department in the future.

(Signed) HENRY W. ALT, Supt. of Motive Power and Supplies, E. SULLIVAN, Local McLaughlin-Buick Dealer.

even taking them across the line for disposal there. Other important points for receiving and distributing stolen cars are Hemmingford, Orms-town, Granby and Huntington.

CHEVROLET

—an essential in business
—a necessity to most families

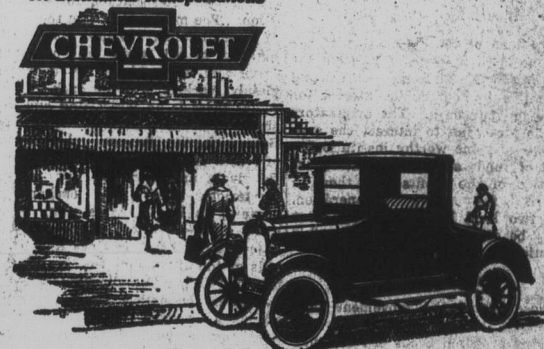

AMONG the greatest and most practical of man's inventions, one of the most vital instruments in modern business and one of the most useful and beneficial influences in family life is the modern automobile.

Dependable, Comfortable, speedy, unconfined in scope, unlimited in endurance and eminently practical in the economy of its operation, the automobile has contributed more to man's earning power and to his enjoyment and health than any other single factor.

And unique among automobiles, Chevrolet provides everything any car can afford at a cost that is unapproached by another fully equipped quality car in the world. Chevrolet has the power to go any place and do anything that is possible for any other car, and at the same time it holds the world's record for low running cost and economy of upkeep.

Make a personal inspection of Chevrolet. Examine it thoroughly. Ask us for a demonstration.

Ask us about the G.M.A.C. Deferred Payment Plan for Economical Transportation.

THE LOUNSBURY CO., LTD., CAMPBELLTON, N. B.

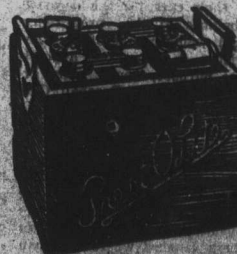

The Factory Prest-O-Lite Built

From the earliest days of the Automobile, Prest-O-Lite has been a familiar name to car owners. When electric starters were invented Prest-O-Lite was ready with a battery to turn over the engine. As one refinement after another was added to make motor cars more efficient and more comfortable, Prest-O-Lite kept pace and developed refinements in battery-building.

As cars increased in number and production on the present vast scale developed, Prest-O-Lite plants were built and out-grown. The present plant at Hillcrest Park, Toronto, was erected to take care of the ever increasing out-put of Prest-O-Lite Batteries.

The selection of Prest-O-Lite as original equipment on the majority of Canadian-built Automobiles and the replacement of worn-out batteries with Prest-O-Lites by car owners who demand the best battery, enabled Prest-O-Lite to build the largest battery plant in the British Empire and develop the greatest chain of service stations in Canada.

Prest-O-Lite Batteries now sell at the lowest prices at which this high quality battery has ever been sold. Let us show you how you can save money by buying a Prest-O-Lite.

Cause of Early Old Age

The celebrated Dr. Michael, an authority on early old age, says that it is caused by the accumulation of acids in the blood. When your stomach digests food properly it is absorbed without leaving poisonous matter. Fatigue, lack of sleep, and overeating are the causes of early old age and premature death. 16 to 20 drops of "Doctor's Syrup" after meals makes your digestion sound. To

Small Fruits for The Home Garden

(Experimental Farms Note)

A naturally well-drained loam is preferable for all small fruit plants. Heavier soils, however, if there is sufficient subsoil drainage, to prevent an excess of stagnant ground water, will give good results. On the first type of soil planting may be done without staking, but on the latter type it is better to ridge the soil slightly with the lowest part midway between the rows. The soil should be fertilized with a liberal application of stable manure, and plowed deeply. This should be done as soon as the ground is dry enough to work in the spring so that early planting, which is an important factor, may not be delayed.

Strawberries are set in rows four feet apart and twelve inches apart in the rows. Currants and gooseberries are set in rows five feet apart each way. Raspberries are set in rows six feet apart and one and a half feet apart in the rows. Two year old plants of currants and gooseberries are the most satisfactory for planting. Care should be taken to keep roots of the plants moist until planted, by giving protection to prevent them from drying out.

The strawberry may best be set by using a spade, thrusting it into the

Here and There

For the first time in Ontario, an attempt will be made this spring to organize a voluntary sea pool. Arrangements for the undertaking have been completed by the United Farmers' and Growers' Company, and it is hoped to control absolutely the egg market in the province.

During the year 1923, 2,880 tourist automobiles entered the province of Nova Scotia, the Land of Evangeline, according to the annual report of the Nova Scotia Tourist Commission. Altogether 63,000 tourists visited the province and the islands, and the Commission estimated that \$6,000,000.

A picked detachment of an officer and ten men of the Royal Canadian Mounted Police recently crossed the Atlantic on the Canadian Pacific liner "Malta." Their duty will be to guard the Canadian exhibits at the British Empire Exhibition. The exhibition and buildings, cost about \$200,000,000.

A chain of factories stretching across Canada will be established by the Dominion Tar and Paper Company, a subsidiary of the Canadian Paper Company. This was announced by the Earl of Dufferin, V.O., and Sir Harold Sifton after a recent visit to Canada. Sites have already been secured in Montreal, Winnipeg, Vancouver and Toronto.

Canada's trade balance is being steadily maintained for the first time since the war. The balance for the February returns, just issued, shows a surplus of \$1,000,000. The imports for that month, which amounted to \$1,000,000, were a decrease of \$1,000,000 from the same month last year, while the exports for February, which amounted to \$2,000,000, were an increase of \$1,000,000.

Hon. George H. Henry, Ontario minister of public works and highways, has announced a change in the method of financing the construction of trees along public highways. Instead of sending out its own workmen, he says the Government has a scheme whereby farmers planting trees in front of their own property will be rewarded so much per tree for planting.

Over \$1,000,000 has been paid by the Province of New Brunswick in wild cat bounties since the commencement of the present fiscal year. An act approximately 400 claims for the \$3 bounty offered for each animal have been handled by the Game Warden's branch of the Department of Lands and Forests, as compared with the 51 claims made in 1923, following the bounty offer passed by the legislature in that year.

The splendid success attained by irrigation in Alberta is evidenced by the fact that the Government of the Taber Irrigation District. The report reveals a total surplus collectable on or hand of \$20,000, of which \$7,000 is on deposit in the bank. Operations have been so satisfactory that the district has been able to pay off its debt of \$10,000 in full.

The Canadian Pacific Railway announces that it will resume its winter cruises in 1925, one round the world and the other to the Mediterranean. The 22,000-ton Empress of France has been selected for the former cruise, which will last four months and will completely encircle the globe. She will start from New York on January 27th. The ship has been recently converted to an oil-burner and entirely renovated. The Empress of Scotland, 22,500 tons, will make the Mediterranean cruise, lasting four months and completely encircling the globe.

The Trans-Canada Limited, the Pacific Mail, the Canadian Pacific, the Canadian Northern, and the Canadian Government, are the longest distance and fastest long-distance express in the world, will resume service May 1st at both ends of the route. The running time between Montreal and Vancouver, formerly 92 hours, has been reduced to 72 hours. The running time between Montreal and Vancouver, formerly 72 hours, has been reduced to 60 hours. These cuts will benefit the traveling public in many ways.

Crimean Veteran Praised "Fruit-a-tives"

MAJOR GEO. WALKER

Major George Walker, now a familiar figure in Clitham, Ontario, is one of the men who went through the terrible Indian Mutiny. As he says: "I am a veteran of the Crimean War and the Indian Mutiny, serving under Lord Roberts. I have seen hand-to-hand fighting and continual exposure to a great deal of suffering from Rheumatism, so much so that my legs swelled up, making it impossible for me to walk. My bowels were so constipated that I was in terrible shape until I began to use 'Fruit-a-tives.' They relieved me both of the Rheumatism and the Constipation. Today, I enjoy perfect health—no more Rheumatism or Constipation."

And in another letter, written December 1st, 1923 (eleven years after), Major Walker says: "Fruit-a-tives are keeping me in the best of health and I shall never be without them."

"Fruit-a-tives" are the famous Fruit Treatment—intended fruit juices combined with tonics—that make you well and keep you well. 25c and 50c—at all dealers or from Fruit-a-tives, Limited, Ottawa, Ont.

And in another letter, written December 1st, 1923 (eleven years after), Major Walker says: "Fruit-a-tives are keeping me in the best of health and I shall never be without them."

Potato Varieties

(Experimental Farms Note)

The following is the average yield per acre for a seven year period of the ten leading varieties of potatoes tested in duplicate on uniform test plots at the Dominion Experimental Farm at Nappan: British Queen 412-6 bushels, Arran Chief 395-9 bushels, Pioneer 376-7 bushels, Factor 350-3 bushels, Rawling's Kidney 348-4 bushels, King Edward 337 bushels, Rochester 336-9 bushels, Green Mountain 330-5 bushels, Irish Cobbler 321 bushels, Carman No. 1 307-2 bushels. The first four varieties were imported from England in 1906 and for the first four or five years did not succumb to leaf roll or mosaic but retained a heavy green foliage until late in the season. During the last two years, however, British Queen developed 8 per cent leaf roll, and 20 per cent mosaic, Factor 12 per cent leaf roll and no mosaic, Pioneer 15 per cent leaf roll and 5 per cent mosaic and Arran Chief 2 per cent leaf roll and 20 per cent mosaic. Both the Arran Chief and British Queen were potatoes of excellent quality, equal in quality and grows too large to be a real desirable table potato. Usually the large potatoes are hollow hearted. Dalmeny Beauty was our poorest producer having an average yield of 143-3 bushels over a six year period. The preceding yields were obtained from one strain of each variety without roguing or selection.

The most profitable varieties to grow are those in greatest demand, which in Eastern Canada are without a doubt Irish Cobbler and Green Mountains. When grown on our medium to heavy clay soil, the Irish Cobbler has yielded a potato of slightly better quality than the Green Mountain, is a little earlier and has proved to be a good keeper and a fair shipper. It is a little rougher and for that reason may be slightly more later and larger potato, a good yielder. The Green Mountain is a water, keeper and shipper, of fair quality, and smooth with little waste.

variation in yield when grown under our conditions. (2) There is a great difference in the productiveness of strains of the same variety. (3) Practically all varieties were susceptible to the following diseases: Leaf roll, mosaic, rhizoctonia, early and late blight; (4) Diseased stock was not as productive as disease-free stock. (5) Only by careful roguing and selection can one hope to maintain disease-free stock of high yielding quality.

A few examples may serve to illustrate the value of selection of strains. In 1918, four strains of Green Mountain and three strains of Carman No. 1 were planted in uniform test plots of 1-100 of an acre each, in duplicate, and the yields ranged from 185 bushels to 396 bushels in Green Mountains, a variation of 203 bushels per acre from the same variety but different strains. Carman No. 1 ranged from 213 bushels to 340 bushels, a variation of 127 bushels per acre. To demonstrate what the selection of disease-free stock would mean, selections were made from the Green Mountain and Carman No. 1, with the result that the next year the plots had a range of 328 bushels to 386 bushels per acre for the Green Mountains for the same four strains, and for the same three strains of Carman No. 1, the range was from 270 bushels to 379 bushels.

The fair deductions one would draw from the preceding results are that, while the varieties tested showed some difference in yield, yet a great if not greater, variation was noted in the different strains of the same variety and that the productiveness of strains may account for some of the variation in the yielding ability of the varieties tested, together with their susceptibility to disease and the degree of infection. The fact that a grower has obtained certified stock at one time is no guarantee that it will always retain its high quality. In order to keep it disease free, a careful roguing and selection must be made each year. The increased production together with the certified stock obtained will pay for the extra work involved.

They can't slip with the bull-dog grip

Many farmers are surprised to find Maritime fencing, even when it has been up for a number of years, remarkably free from loose or broken uprights and laterals. Examination shows, however, that the Maritime "bull-dog" lock holds the joints so rigidly that they cannot give or pull out of shape; and because we use nothing but large, strong, "live" wire—No. 8 heavily galvanized—they are able to stand the daily stress of wear and tear without breaking.

Maritime fence is always slightly, always straight, and always efficient. It's bull-strong and hog-tight, because it is made to withstand far greater strains than any it is likely to endure. It gives you all that you can expect in a wire fence at a reasonable price.

Before you buy or erect your fencing, learn first what the Maritime has to offer in the way of REAL fence service. A postal brings our illustrated catalogue with full particulars.

Campbellton, N. B., April 24, 1926

ONE DUTY OF AGE

R. W. Beatty, president of the Canadian Pacific Railway Company, addressing the United Service Clubs at a luncheon a few days ago urged prominent business men to interest themselves in boys' institutions because of the great influence they might exert in moulding boys' ideals. Mr. Beatty declared that what a boy needed most was encouragement from those he looked up to.

If Mr. Beatty is right—and his remark seems a very logical one—and boys in Campbellton are of the same general make-up as in other parts of the world, it would appear that, as far as one very necessary phase of their life is concerned, they have looked up in vain. Energetic efforts were put forth last summer and fall by a few in an endeavor to establish an athletic association here through which our youth could secure athletic training and enjoy the advantage of participating in good, clean, healthy outdoor sport which they have wished for so long. Considerable progress was made but in the end the project fell through. Spring with all its opportunities in this connection is here again but so far no one has made any effort to revive the undertaking. It is a shame and the saddest feature of the matter is this: If our recognized leading citizens of the present shift such an obvious responsibility to the youth of our town what may we expect of that younger generation when the passage of time has placed them in the position which we occupy today?

The duty of youth to its elders is a worthy subject which is ever a popular theme in parental admonition and a time-worn text in orations from the pulpit. Let us hope that it may retain its popularity as long as it is needed. But the responsibilities of older people to youth is a very grave and definite one and something that is all too often forgotten. It is to be hoped that something may come to pass that will bring it into the prominence it deserves in the minds of citizens generally.

A NECESSITY

When the "permanent sidewalk" movement was undertaken a few years ago and carried out so successfully the plan of procedure somehow or other did not include any improvements for the west side of O'Leary Street. Probably this was poor judgment but to be generous-minded we would prefer to regard it as an oversight.

We have not forgotten that the present contented entered the last civic contest with a promise of economy in so far as such a policy was found consistent with good government. Neither have we forgotten that we have on various occasions advocated greater economy in some of the branches of local administration. But on the other hand—we realize that economy and actual necessity should not be confused. Even economy has its limitations.

the foot path along the west side of O'Leary, especially near Roseberry Street, is a better of mud most inviting to the eye and very bad for shoe-leather. Right at this point will be found two business places—a bakery and a butcher shop—and the entrance to a private dwelling over grocery store which is located on the corner. When people pass this way in order to get to a certain point farther up the street they are obliged to wade valiantly through this mire which has evidently been accumulating for years. It is safe to say that the condition of the street at this point has been instrumental in a loss of trade to the two business places located there as well as a great discomfort for residents who live along that particular street. It is only a wonder that tax-payers in this locality have not demanded some improvement long ago.

We have conceded the absence of this very necessary improvement to be merely an oversight. All over-sights should be corrected with as little delay as possible. Let us hope that there will be no exception in this case.

THE FRUITS OF CO-OPERATION

Perhaps not in years have the citizens of Campbellton been given more practical demonstration of the fruits of co-operation than that presented by the passage of the town's Hydro Bill last week and the efforts made in connection with the matter. Those who opposed the measure received a rude bump but their discomfort was fitting compensation for their efforts which were apparently motivated by self-interest and evidently attended by ridiculously poor judgment to say the least.

In reflecting on the matter today we allowed our imagination to amuse us with speculation on the wonderful place Campbellton would be to live in if our recognized leading citizens would put their shoulder to the wheel in this manner on every occasion when an issue of importance to the town's welfare presents itself. Many times a year some question or problem incidental with the town's advancement is brought before the town council, the Board of Trade or citizens generally for disposal. We can all recall numerous incidents when worthy objects have been defeated by the selfish and narrow-minded action of a few while those who should have been on the defensive went about grumbling about the deplorable condition of affairs—which would not exist had they done their duty.

We hope however that such incidents now belong only to the past and that they may be confined to the discard of history where their memory will become more and more remote with each passing year of progress. There will always be knackers in abundance to oppose every progressive measure that is proposed but we need the whole-hearted co-operation of our influential citizens to promote the advancement of the town's best interests. If those we depend on fail in this they are no longer worthy of a place on the list for co-operation in sustained effort for the common good is obviously one of the first duties of a leader. Let us hope that last week's memorable demonstration of the fruits of "community teamwork" will be taken seriously to heart and that all may profit by the lesson.

CAMPBELLTON FIRST

We were in a local store recently when a man came in to look at some articles. He said that he had just sent to a mail-order house for the same article and told what he had paid. The man discovered that he could have saved the freight by buying it here. We venture to say that the same thing happens very frequently in every line of business represented in our town.

New, honestly in this sending away for everything, fair? The druggist the clothier, the grocer, the hardware man—each and all are our neighbors. The home merchants improve the streets, sidewalks, etc.; help the schools, the churches and other institutions. He must make a living as well. What a thriving town we would have if we all patronized home more and thereby helped each other. There are, probably, instances where money has been saved by sending to mail-order houses, but in most cases the goods are really inferior. In the end, we lose. Any money saved by buying out of town never built any castles—neither do we think it has ever built a home. Let us say, "Campbellton First."

FIRST OR "BUST"

Side by side in the newspapers are two stories from "great republic to the south of us."

One tells about the new American secretary of the navy, Curtis D. Wilbur, who wants to spend \$10,000,000 to make his country first among naval powers.

The other story is from Kansas City and tells about Frank Raffalo, champion spaghetti-eater of the world. Last night Frank met Joe Cassana of St. Louis in a mighty gorging contest. Both of these gentlemen who wanted to be first among spaghetti-eaters are seriously sick today.

The day's news gives a cross-section of human nature. And that cross-section shows that human nature is pretty much the same in high and low, in government offices and in spaghetti parlors.

Milton's Satan said that he would rather reign in hell than serve in heaven. Apparently that is the way Mr. Wilbur and Mr. Raffalo feel too.

"What a Wife Learned"—A powerful love story of a man and woman who achieve an ideal marriage.

THE PROGRESSIVES' VISIT TO THE MARITIMES

Mr. R. A. Hoey, M. P., speaking apparently for the Progressive members of Parliament who recently visited the Maritime Provinces on what appears to have been the invitation of the Provincial Premiers, says that the ports of Halifax and St. John are ready over developed. Otherwise the provinces look good to him. Yet Mr. Hoey saw little or nothing of the substantial and the most enterprising sections of New Brunswick where we manufacture paper and pulp, last blocks from the English market, where we manufacture lumber in great quantities for the British, European and United States markets, where we get the fish which supplies nearly one-third of the home needs of Canada and also make up nearly one-third of the total trade of the country in that line; where we grow our apples and make ready for shipment to the markets of the world, where we manufacture our steel and iron for home and foreign consumption, where we mine our coal largely in demand in all parts of Canada; where in mixed farming, we have produced results which have given to our farmers not only the comforts of home but the spirit of independence—a spirit of independence which revolts against the action of a class who would seek and force legislation demanding of the banks of the country, in defiance of the sound principles of banking and regardless of the interests of depositors, what money it needs in loan years and in periods of speculation to carry along. Nor were the Progressives, as the guests of our Governments, permitted to see our great chocolate factories and their allied industries whose annual output is several million dollars each, nor our big cotton, print and gingham factories. We in the Maritime Provinces make the best shoes in the world, the best larrigans and shoe packs, the best canvas canoes, with their big markets in continental Europe. But there were—the ports which do business in the winter season.—Gleaner.

NOTE AND COMMENT

Did you hear what some Parisian Style designer wants to make out of our women folks—Angels.

Never lose faith in Humanity. There are over six thousand people right here in Campbellton who have never played you a dirty trick.

Not many weeks ago we heard a St. John gentleman say that hydro was saving the citizens of that city quarter of a million dollars annually.

The Tribune says hydro has fallen down in the towns served from Musquash. We would suggest that the editor of that paper pay a visit to the towns between Moncton and St. John and hear what their citizens have to say on this hydro question.

His Worship the Mayor and the Town Councilors, as well as the citizens generally are not worrying over the Tribune's editions upon the Council's hydro policy. Plans are being prepared to bring the matter to a head at an early date.

Mayor McKenna of Sussex recently made some very favorable remarks as to what hydro had done for Sussex and Kings county. Doubtless the editor of the Tribune was too busy studying his musty law books to see anything favorable to hydro. But of course these remarks did not coincide with his own views.

Campbellton has the lowest tax rate, with possibly one exception, of any town in this province, and although there is a slight increase in the amount of estimates this year, due to larger interest and sinking fund payments, made necessary by the water and street improvements put in last season, it is confidently expected that the rate will not be over two per cent, or about the same as last year.

Of the visit of the Progressive M. P.'s to the Maritimes the Halifax Chronicle says: "When the West really knows the East of Canada, and the East really knows the West of Canada, sectionalism will vanish in the light of the big vision of what a combination of the two could mean to both sections, to the country as a whole, and to the world at large. Let there be more of such interchange of courtesies."

The Tribune says Campbellton cannot legally sell electric current, or erect lines outside the town limits. If the editor had not been so busy looking for sections which upheld his contentions he would have found one which states that Campbellton has the legal right "to go upon any street, highway, or by road in the county of Restigouche to erect poles and stretch wires thereon." But of course the discovery of this section would have destroyed his entire argument against hydro.

Not That Kind "Dad," said the hapless, who was thinking of branching out in the world, "whadda you think of that business for me?"

"Well," said the wise one, "dunno, son. It costs a lot to feed 'em. And if you ever start using taxi-cabs you will go broke."

Absent-Minded "Ma, I just hate this bread with butter in it."

"Don't be so fussy! You don't have to eat the holes—leave them on your plate."

Ment Keep your Wives away from "What a Wife Learned."

HAS HUGE "RENT" BILL TO COLLECT

Employee in Albany, N. Y., Lunch Room Expects to Come Into \$20,000 as Share of Litigation Against City of Wilmington

Albany, N. Y., April 23.—Robert F. Springer, known to patrons of an Albany lunch room as "Smiling Bob," dishwasher, quit his job and last night was aboard a train bound for Wilmington, Delaware, to collect \$20,000,000 as his share of litigation against the city of Wilmington for land upon which that municipality is built.

The land lease, according to Springer, dates back to the eighteenth century and was executed by his great-grandfather Christopher Springer. Two sisters and a brother a Supreme Court justice in the west, Springer said, will divide the money, \$20,000,000 in all, with him. Springer said that when the "rent" was collected, he expected to return to Albany, "give all the boys in the room a good blow out, then go west, buy a ranch and live his life." He is a veteran of the Philippine expedition and formerly was a rancher.

TO CONFER ON ALBERTA'S NATURAL RESOURCES

Calgary, Alta., April 23.—Premier Herbert Greenfield and J. E. Brownlee, Attorney-General, have an appointment with Premier McKenzie King in Ottawa in May in regard to the matter of Alberta's natural resources. In an interview last night Mr. Brownlee expressed the hope they would be successful in coming to terms and said that whatever was done at the conference would be final. "We shall either get what we want or nothing," he said.

FAMOUS FRENCH FOREST VISITED BY BLAZE

Versailles, France, April 23.—Seven cases of the famous Meudon forest in Seine-et-Oise have been destroyed by fire the origin of which is attributed to a careless smoker. Firemen from neighboring localities managed by heroic efforts to prevent the flames from spreading to adjacent forests.

NEW ZEALAND RAILWAY WORKERS ON STRIKE

Wellington, N. Z., April 22.—The railwaymen throughout New Zealand struck today for higher wages. All service on the roads is at a standstill. Thousands of Easter holiday-makers have been stranded away from their homes.

The wonder man of the age is a fellow who does not brag about his baby, automobile or his radio.

In thirty years, it is predicted women will not have to do any work. That means that the movies will have to run on a twenty-four hour schedule.

The man who marries a school teacher will realize his mistake when his wife demands a written excuse every time he stays out late.

VILLAGERS ENJOYED FEAST OF WILD BEAR

Grenoble, France, April 22.—An avalanche sweeping across the Bourd'Oisans road near Rochefortille recently left a huge block of ice in which was encased the body of a wild bear. When thawed out the meat was found to be excellently preserved and the villagers enjoyed a feast.

Absent-minded

"There's a poor man at the door. Mum. He has a sign 'Deaf and Dumb.'"

"Tell him I haven't time to listen to him."

Unnecessary

Mr. Fussy—"Here, waiter, bring me a spoon for my coffee."

Waiter—"Sorry sir, but we don't serve them, the music is so stirring."

No News

A whoop-it-up London newspaper publisher was complaining one afternoon that the day had brought forth no news.

"Well," said a member of parliament who happened to be calling, "you know the old adage?"

"What old adage?"

"No news is good news."

"Still," declared the publisher, "it isn't good enough to call for an extra."

Changed Days

It has almost gotten to the point where a wife will divorce her husband for such a trifle as his ability to support her. In the good old days that was considered sufficient grounds only for taking in boarders.

Outside Aid

Hi—Did the doctor use a local anesthetic?

St—No, by heck; he sent all the way to New York for it.

WESLEY CHURCH SERVICES

Next Sunday night, the Wesley Church Choir will render the Easter Cantata, "Our Living Lord." This means to all music lovers a great enjoyment, and all such are invited.

ON THE WAY

A carload of Dodge Brothers' motor cars are expected by Mr. E. W. Dimock about May 1st in this shipment. Will be a type A, Sedan, a Business Sedan and a Special Touring model. Parties interested in purchasing a new car for this season should wait and see this display.

SLIGHT RUN-UP

Travelling on the I. N. R. branch was tied up Tuesday by a run off beyond Upsalquith which occurred Monday evening. Six loaded cars went off the rails and tore up the roadbed for a considerable distance. The wrecking crew was sent out from Campbellton and had matters set to rights by Tuesday afternoon.

RETURN TO RESUME DUTIES

H. Francis G. Bridges, principal of the Campbellton Grammar School, who spent Easter with his parents, Dr. and Mrs. H. B. Bridges, returned to Campbellton last night. He represented Restigouche County at the teachers' convention held in St. John on Friday last—Wednesday's Fredericton Gleaner.

NEW POSTMASTER

Major Arthur McIntyre, Campbellton, who has recently been appointed postmaster of that growing town, is spending a few days here visiting friends. His many business acquaintances are happy to congratulate the former commander of the Battalion unit of the 18th Batt. on his well merited recognition—Restigouche Light.

CARD OF THANKS

The Nurses of the Hotel-Dieu Hospital extend their sincere thanks to all who contributed to make their "White Party" a success. Special thanks are offered to the donors which are as follows: Mr. J. G. Christie, Mr. Thos. Wran, Dr. F. G. Gaudet, Mr. Ernest Bennett, Miss Pauline Lavigne, and the chaplains, Mrs. C. Boudreau, Mrs. P. Dupuis and Mrs. Faubert who poured the coffee. All returns are not in this a. m. Proceeds shall be published next week.

SINGER PLEASURES

An agreeable addition to the regular programs at the Opera House this week has been the appearance of Miss Florence de Corvoent, mezzo-soprano in well-chosen and very pleasing selections that could not help but show up to advantage the well-tuned voice and clever versatility of this popular young lady. That she is indeed an artist, no one will dispute. We are informed by the Opera House management that they have received many favorable comments from patrons and have noticed a goodly number in attendance each night who do not attend as a general rule. This is a good sign and certainly reflects creditably upon Miss de Corvoent. We congratulate her and wish her every continued success. The present engagement, we understand, will last for the balance of the week at least and no doubt many will avail themselves of the opportunity of hearing this talented singer.

Is Marriage a Business?—For the answer, see "What a Wife Learned!"

LIGHTENING

Some vivid flashes of lightning were observed here Tuesday night.

RED CROSS TAG DAY

Tuesday was tag day for the Red Cross and \$508.15 was realized. This amount will go towards paying the expenses of the health nurse here.

FOR SPRING BUSINESS

Order your supplies of stationery for the summer's business now. Our samples are on display and the prices are right. THE GRAPHIC, Limited.

CARD OF THANKS

Mr. Cecil H. Dwyer of Bel Shore and family wish to thank their many friends for their kindness and sympathy shown to them in their recent bereavement.

RETURNING TO CAMPBELLTON

Word received from Mr. W. H. Wallace to the effect that he, and Mrs. Wallace, with a friend, will leave Jerome, Arizona about May 1st by auto for Campbellton.

FREE OF ICE

The ice run out of the St. John river from above Edmundston to Fredericton on Tuesday. The entire river is now open. The ice in the Miramichi is also reported running to-day.

PROMOTION FOR

ENGINEER SMITH
L. N. R. Divisional Engineer R. H. Smith, is being transferred to Montreal. Engineer Robinson of Bridge-water will succeed him here. The change will be made about May 1st.

CONFIRMATION AT

CHRIST CHURCH
His Lordship the Bishop of Fredericton will make his official visit to Christ Church, Campbellton, for the purpose of Confirmation. The ceremony will take place at 7.30 p. m. Friday of this week. An invitation is extended to all.

SAWING SHINGLES

The St. John's Co., shingle mill will commence this season's work last Saturday. Of about a hundred men employed in this mill last season, all but two or three turned up for work Saturday morning when the whistle blew.

STREET APPRECIATED

The new paved Water Street is much appreciated by our citizens this spring. Instead of a foot of snow or mud, there is a firm hard street. The winter accumulation of dirt has been cleared off by the street department and the paving seems to have wintered in good condition.

EASTER IN THE BAPTIST

CHURCH
The choir of the Baptist Church rendered special music at last Sunday evening's service. The story of the prodigal son was put on in song. Following is the programme which was warmly enjoyed by a large audience. Drilling—Jest—Mrs. Weatherly and Mr. Miles.

Where is my wandering boy to-night—Solo and chorus—Mrs. Nelson and choir.
Softly and Tenderly—Quartet—Mrs. Nelson, Mrs. Weatherly, Mr. Miles and Mr. Gilker.
Only a step—Chorus—Choir.
Almost persuaded, above named quartette.
The mistakes of my life have been many—Solo and chorus—Mrs. Steeves and choir.
I surrender all—Chorus—tenors and alto.
Lord I'm coming home—Solo and chorus—Miss Gilker and choir.
Lead Kindly Light—Choir.
Home sweet home—Duet—Mrs. Keith and Miss Ferguson.
He lifted me—Solo and chorus—Miss Delaney and choir.
Ring the bells of heaven—Choir.

What is Marriage?—See "What a Wife Learned!" and see!

OBITUARY

Mrs. Lawrence Connell
The death of Mrs. Margaret A. Foster, wife of retired C. N. R. Baggage Master, Lawrence Connell, occurred at her home Friday morning at an early hour at the age of 61 years. Deceased had been in failing health for some time, but it was not until the last few weeks that her condition became critical. She leaves to mourn their loss a husband and two daughters, Mrs. N. A. Chalmers of Norwich, Conn., and Miss Florence at home. Also three sisters and three brothers, Mrs. William Bosty of Wabigo, B. C., Mrs. Fred Bottrell of Moose Jaw, Sask., and Mrs. James Crawford of Apolauqui; John B. Foster of Lynn, Mass., Thomas D. of Heston and William J. of Oak Bay, B. C. The funeral took place from Christ Church on Sunday afternoon at 3.30, Rev. A. Brock Humphreys officiating and was largely attended. The pall bearers were Messrs. E. R. Perry, W. A. Rogers, A. E. Whyte, Chas. Goss, F. Mills and J. Smith. The many beautiful floral tributes received testified to the general high esteem in which the deceased was held.

TRIPLETS ARE BORN TO PITTSBURGH WOMAN
She is New Mother of Eight Children Within Four Years.

Pittsburgh, April 23—With the arrival a few days ago of triplets, Mrs. Louis Hoffman, aged 36, of Logan Way, Knoxville, has become the mother of eight children in less than four years, her first experience in motherhood having been on Aug. 30, 1920.

The stark first brought twins, Rose and Louis. The next child, a girl, Madeline, was born in October, 1921. Then two twins, Ralph and Regis, were born in October, 1922. Now have come the triplets, Norbert, Leonard, Joseph Anthony and William. All the children are living except Madeline, the only one born singly.

Five babies in the Hoffman home are being fed on bottle milk. These are the two boys born sixteen months ago, and the newly arrived triplets.

MISSING MAN HAS NOT BEEN LOCATED

Police And Others Continue For Search for Mr. McAfferty

James McAfferty of McAllen's Lane, who was reported to have disappeared from his home on Sunday evening last, is still missing. Inquiry is being made by the local police and employees of the T. Eaton Company Limited, where Mr. McAfferty has been employed, but no trace has been found.

It was reported this morning that a man had been seen near the Natural Park, but so far as could be learned there was no evidence that it was Mr. McAfferty.

It is proposed to organize a party to search for the missing man. The local War Veterans are interesting themselves in the case. The local branch of the I. W. O. V. is also assisting the children of Mr. McAfferty.

STATEMENT ISSUED BY HARRY M. DAUGHERTY

No Promises Were Made by President Harding

Washington, April 23—Harry M. Daugherty, in a statement issued last night, declared that "President Harding was nominated and elected the freest man that ever stepped across the threshold of the White House. All the cheap, sensational talk by a partisan committee and others, in regard to the manner in which President Harding was nominated and elected is false," the former Attorney General declared. "There was no oil derrick at the convention or during the Harding campaign, no promises were made by him to any man nor did I make any promises for him and if they were made they never came to our ears." The assertion with reference to the late president was made in the course of a defence of his position in connection with the Senatorial investigations.

SHIP ASHORE IN ST. LAWRENCE WAS FIRST UP RIVER

Cornishman, White Star Dominion Freighter, on Way to Montreal

Quebec, April 23.—The White Star Dominion freighter "Cornishman" which was the first trans-Atlantic steamer to come through the Gulf of St. Lawrence and proceed up the river this season, ran ashore at 10.35 o'clock this morning while steaming into the middle ground entrance to the South Traverse, some sixty miles below this port. The steamer was due to pass Quebec on way to Montreal about three o'clock this afternoon.

It is believed that something went wrong with the "Cornishman" when she entered the Traverse, and that before anything could be done she ran aground.

The tug Strathcona left here shortly afterwards for the scene of the mishap. Attempts will be made to refloat the vessel at high tide.

Practising It on Him

"You are a fine fellow, but you need to give me a little more of that old song you used to sing." "Oh, no, Jack," replied the sweet girl, "this is a new one. I have been studying at a school of dramatics."

MAGIC BAKING POWDER

Magic Baking Powder is scientifically made and has never failed to give the maximum leavening efficiency. Because of this and the uniformly satisfactory results obtained by its use we recommend it as Canada's perfect baking powder.

Rheumatism Gone, Claims Mr. Merlinger

Rheumatism is said to be due to acid in the blood. Whatever its cause, only those who have it know the suffering it produces. While Carbol is not claimed as a specific for rheumatism, it did wonders for Mr. Merlinger. Sufferers from rheumatism may profit from his experience which follows:

"For the past two years I have been a martyr to rheumatism. It affected my muscles and joints which at times became quite swollen. I suffered excruciating pain. I tried several 'sure cure' remedies for rheumatism. Some of them gave relief for a time. Others were of no use. At times the pain was more than I could stand. Some nights I only got a few hours sleep. I was completely run down. I felt that if the rheumatism continued I would have to quit work. I was becoming worried. In reading the Hanover Post one day I noticed an advertisement for Carbol. I started taking it and shortly afterwards got ease and relief from pain. It helped me wonderfully. I was able to sleep soundly, something I hadn't been able to do for months. I can recommend Carbol to everyone suffering from rheumatism."—G. Merlinger, Hanover, Ont.

Carbol is sold by all good druggists everywhere.

WRIGLEYS

After every meal

A pleasant and agreeable sweet and a laxative benefit all.

Good for teeth, breath and digestion. Makes the next meal taste better.

Of Interest to Women

Four New Ways to "Dress Up" a Home Dinner

Unusual little dinners are always appreciated for the home tables, "made dishes," so called, are quite a treat instead of the heavier roasts that best befit the Sunday table. These little dinners are not perhaps cheaper than a roast, which lasts for more than one meal, but they are a change, and as such are welcome.

Sausage Steeples.
Make a good pie-crust and roll it out thin, then cut it in strips three inches wide. Remove six sausages from their cases and season the meat with a little pepper, salt, the juice of an onion, a teaspoonful of Worcestershire sauce, a teaspoonful of minced celery leaves and a tablespoonful of very finely-chopped walnut meats. Add a beaten egg and a tablespoonful of cream. Spread the pastry strips thickly with the mixture then roll them and pinch the tops to steeples shape and place them on a shallow buttered baking pan. When the pastry is cooked the sausage mixture will be done. Remove the steeples to a hot dish and serve them with apple sauce.

Sweetbread and Oyster Pie.
Parboil a large pair of sweetbreads in salted water for twenty minutes, then blanch them in cold water for five minutes, trim and dice them. Drain a quart of oysters—about four dozen—and heat the liquor. When it is at boiling point drop in the oysters and cook them two minutes, then drain them. Make two cupfuls of well-seasoned cream sauce and add the sweetbreads and oysters. Have ready a dish lined with good crust. Pour in the mixture, cover it with the top crust, in which vents have been placed, and bake until the crust is done. Serve the pie hot.

Escalloped Scallops.
Add to one quart of fresh scallops a beaten egg, pepper, salt, the juice of a large onion, and a tablespoonful of chopped capers. Butter a baking-dish and dust it with fine crumbs. Put in a layer of the scallops, then a layer of crumbs. Do this layer with butter, add another layer of scallops, then crumbs and so on until all the materials are used. Sprinkle a little grated English cheese over the top, add a small-cupful of rich milk or light cream and bake the scallops about half an hour in a medium oven.

Sauced Eggs.
Heat a shallow baking-dish, then put in little lumps of butter to grease it well. Break in carefully, eight or more eggs without breaking the yolks. Pour over them a sauce consisting of one ounce of butter, a little spiced syrup, pepper and salt, and bake them until they are set. Serve them garnished with broiled baked strips.

KILLARNEY PUDDING.
This is a steamed pudding. Chop enough tart apples, after paring and coring, to fill two small cups. Add to them a quarter of a pound of chopped suet, a quarter of a pound of coarse dry crumbs, a saltspoonful of salt, a grating of nutmeg, two beaten eggs and a quarter of a pint of rich milk. Let this mixture stand for a half hour, until the crumbs have absorbed some of the liquid. Add a half cupful of rich milk or cream and pour the mixture into a well buttered mould. Steam it for two hours. For the sauce melt a glass of gooseberry jelly, or make any other pudding sauce desired. If preferred, pistachio cream may be served instead of the pudding. With the cream, small pound cakes with green colored frosting flavoured with almonds, may be served. A jelly-roll with mint jelly is a novelty worth trying.

A contemporary balks at the word "close." What would it do if it had "hebetudinous" and "matagrobolism" thrown at it?

Solving Some Summer Comfort Porch Problems

Paint and prospect travel hand in hand. The owner of a country home uses his paint constantly if he is wise the value of his property. Women are catching the spirit also and are painting their furniture in most fascinating fashion.

Now that the season of outdoor living is nearly here, painting and preparing the porch for summer occupancy is a subject of grave consideration. The porch furniture, if of mission or other wood, probably will need only a fresh coat of oil after it is washed. Or perhaps a coat of waterproof paint, or varnish may be advisable if the porch is not deep enough to offer complete protection from the elements.

Should the furniture be of willow, the possibilities are unlimited. After the pieces receive a good brushing with a stiff brush, they should be scrubbed with soap and water or with paint remover if the color scheme is to be changed. Then, as soon as they are dry, the artist may go ahead. Porch colorings should follow in tone the color of the house walls that surround the porch. If they are brown, the gamut may be run from tans to orange coloring. If the walls are gray or soft green, blues and greens may be used. If white is our background, a black and white scheme may be worked out with the furniture. Cushions will furnish for color needed and the porch may be shaded by the rusty red of Venetian sail-cloth awnings.

Water-proof leather is among the materials being used for porch cushions. These cushions may be had in old blue, soft willow green, rusty red—which is called "tile" color this season—gray, brown, tan and black. The pillows come in square, rectangular and round shapes. Some have a dull gold medallion in the centre. The edges are seamed, puffed and in some cases fringed in short lengths. Standard and table lamps of wicker are part of the porch outfitting and are, of course, painted to match the lining of shades being of wash silk. Extremists in color painting are buying fabric porch rugs and painting them to add to the color scheme.

These cushions may be had in old blue, soft willow green, rusty red—which is called "tile" color this season—gray, brown, tan and black. The pillows come in square, rectangular and round shapes. NOTED NOVELIST DIED ON MONDAY IN ENGLAND

Marie Corelli Ended Her Career At Stratford-on-Avon—Had a Remarkable Career as a Writer of Prose.

Stratford-on-Avon, April 21—Marie Corelli, famous novelist, died at her home here today, after an illness of considerable duration.

From the time of her first published work "A Romance of Two Worlds" Marie Corelli was a pronounced success in the literary world. Born of Italian and Scotch highland ancestry, she was adopted in infancy by Charles Mackay, song writer. She received her earlier training in French and later studied in a French convent.

Besides paying particular attention to literature she was trained to become an accomplished musician.

Among her famous works are "Vendetta," "The Sorrows of Satan," "The Master Christian," "God's Good Man," "The Young Diana" and recent published articles dealing with the war.

Precaution
"What are you cutting out of the paper?"
"An item about a California man securing a divorce because his wife went through his pockets."
"What are you going to do with it?"
"Put it in my pocket."
"Better the Doubt
"But if I don't say anything they'll think me a fool."
"Well, if you do they'll be sure of it."

The Wrong Sister
Mrs. Grump—Emily Smith of the flat upstairs fell on the icy sidewalk and sprained her wrist.
Grump—What infernal luck! Why wasn't it Geraldine, who pounds the piano?

"PROHIBITION IS IN THE UNITED STATES TO STAY"

While addressing a gathering in Montreal, R. N. Holaspie, State Sup't. of the Anti-Saloon League of Michigan, made the above statement. Mr. Holaspie delivered a strong indictment of the so-called liquor traffic on economic grounds. He used cogent figures to illustrate the gradual economic progress which, he said, is fast rendering alcohol an impossibility. Business, he said, would not tolerate the return of the saloons. The railroads with such a large mileage and employing so many million men, would stand alone against the saloons. During the last year there had been no railroad accidents attributable to liquor, and railroads fine heavily any engineers violating the no-drinking rule. Industrial plants know that factory more accidents happened on Mondays after weekends spent in debauchery. They could not afford to see liquor remain and to pay out money, under the Workmen's Compensation Act. Mr. Holaspie asked what would be the result in a city like New York where the traffic is so great if there were saloons on every corner. Many and appalling would be the extent of the accidents.

—From White Ribbon Tidings

Almost A Billion Dollar Increase in Reserves of National Banks

According to U. S. A. Government officials, the resources of the 8,241 national banks of the country on June 30th, 1923, totalled \$21,511,765,000—an increase of \$806,766,000 as compared with the same date last year. On the same day this year these same banks carried deposits aggregating more than one-half billion dollars in excess of the same date last year. The total increase in national banking capital was \$21,675,000. State and Savings Bank also show a big increase. The people have more money in the banks and building and loan associations in the country now than in any period in the history of financial institutions. Prohibition is responsible for much of this increase, yet wets predicted that if the people stopped spending money on drink that the country would go to the dogs—American style.

TENDERS FOR COAL

Sealed Tenders addressed to the Purchasing Agent, Department of Public Works, Ottawa, will be received by him until 12 o'clock on Friday, May 3, 1924, for the supply of coal for the points comes especially for the purpose.

Specification and form of tender can be obtained from the Purchasing Agent, Department of Public Works, Ottawa, W. Bishop, Inspector of Dominion Buildings, Halifax, N. S., W. W. Allington, Hamilton, Ont., or from the Clerks of the various Dominion Buildings.

Tenders will not be considered unless made on the forms supplied by the Department and in accordance with departmental specifications and conditions. The right to demand from the successful tender a deposit, not exceeding 10 per cent of the value of the contract, to secure the proper fulfillment of the contract is reserved.

By Order,
L. H. COLEMAN,
Secretary,
Department of Public Works,
Ottawa, April 14, 1924.

He Knew
Two small boys once halted before a brass plate fixed on the front of a house whereon was inscribed in bold characters the word "Chiroprapist."

"Chiroprapist?" remarked one of them perplexedly. "What's that?"

"Way," replied his companion, "a chiroprapist is a chap what teaches canaries to whistle."

The Victim—I want you to send a bouquet to the lady at the address on this card.

The Clerk—What sort of flowers, sir?

The Victim—Oh, use your own judgment.

The Clerk—Yes, sir, but it would help me if you would tell me whether you are saying it with them, or just admitting it.

Not Accepting to Schedule
Doctor—"I suppose, Mrs. Johnson, that you have given the medicine according to directions?"

Mrs. Johnson—"Well, doctor, I done mah best. You said give Sam one o' dese 'neah pills three times a day until gone, but I done run out o' pills an' he hadn't gone yet."

FREE—10 Much Finer Shaves! Cleaner Shaves—Quicker with no skin irritation!

If you were paid for putting into words the perfect shave, you would probably define it as "the cleanest, quickest, easiest on skin."

Because that's what 1000 men told us a really good shave should be.

Now we ask you to judge how well we've put these three requisites into a shaving cream. At our expense. We've put it up to millions of men. And, having tried it, they refuse to use any other cream or soap.

There are 5 distinct superlatives, shaving advantages, in Palmolive Shaving Cream. It cost us 18 months' work, 130 laboratory experiments, to perfect them. Now judge our work.

You'll find cream multiplying itself 250 times in luxurious lather.

You'll find that lather softens the most unruly beard in one minute—without any irritating "rubbing in."

You'll find the lather remains rich and creamy for 10 minutes on your face, if necessary.

You'll find cutting easier, cleaner, because bubbles of extra strength hold each hair steady. This is important. Finally, you'll marvel at the cool, soothing "after feel"—a result of the carefully blended palm and olive oils.

We ask your judgment on these points as a favor. Failing, please hold each hair steady. Send along the coupon for your ten free shaves.

Economical for Cooking

THERE is no waste with Carnation Milk. It stays fresh in the can indefinitely and for several days when opened. It serves in place of cream at breakfast and later in the day will add richness to your cooking.

Carnation is just pure fresh milk, evaporated to double richness, kept safe by sterilization. By adding a little more than an equal part of water you have milk of natural consistency for every milk use.

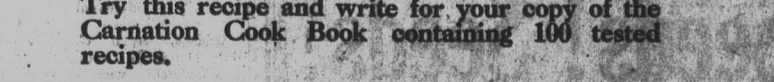

Order several tall (16 oz.) cans or a case of 48 cans from your grocer.

Try this recipe and write for your copy of the Carnation Cook Book containing 100 tested recipes.

DEVIL'S FOOD CAKE: 4 egg yolks, 2 cups sugar, 1 cup water, 1/2 cup Carnation Milk, 1/2 cup butter or margarine, 1/2 teaspoon salt, 1 egg white, 1/4 cup flour, 1/2 teaspoon baking powder, 1 square unsweetened chocolate, 1 teaspoon vanilla.

Beat the butter or margarine, add the sugar gradually, then the well-beaten egg yolks. Add alternately the milk, diluted with water and flour mixed and sifted with baking powder and salt. Add melted chocolate and vanilla. Beat the stiffly-beaten whites of eggs. Bake in a loaf from 45 to 60 minutes. This recipe serves from twelve to fifteen people.

Tenor and Alto Duet—Mr. H. B. LeRoy and Miss Warren.

This week he is the prospective heir to an estate worth about \$25,000. An elderly widow who lives alone, though she has none of her own, reading the story of his hardships, wishes to adopt the youth. In making her application to Juvenile Court authorities the woman stated she had no one to leave her property to. If she took the boy, she said, and he behaved himself, she would make him her heir.

This application to the Juvenile Court for permission to adopt the boy is only one of many that have been made on his behalf.

No decision has yet been made. Police are attempting to locate the boy's missing relatives.

OVER \$100,000 RECEIVED SO FAR

More Licenses Taken Out For Motor Vehicles Than Ever Before at This Date

Fredericton, April 21.—More than \$100,000 has been received in motor vehicle licenses for the year ending at the Motor Vehicle Branch of the Provincial Department of Public Works.

These figures come from an authoritative source and show a considerable increase over the figures of last year, or any previous year up to this time. The increased receipts probably mean that there will not be the congestion or delays from new cars that occurred last year and the increased number of closed cars means that a larger number of automobiles are being used in New Brunswick practically all the year.

It is understood that up to the close of last year a considerable number of car owners who had taken out their licenses before the expiry of 20 per cent. went into effect to pay for highway patrol refused to pay the additional amount or did not do so. It is said in this connection that instructions have been given that licensees upon which the extra impost was not paid last year will not be renewed this year until the extra charges which remain outstanding have been added, the Government thus taking advantage of the “whip hand” which it holds in the matter.

Impressos
“And what gave you the impression that the man was drunk?” asked the English magistrate.

“Well, sir,” replied the witness, “he dropped a penny into the pillar outside the House of Commons, an ‘old starting’ at the Big Ben, and when I questioned him he said ‘he was waiting to see his weight told.’”

SCHOOL ON SATURDAY, APRIL 26.
Campbellton Public Schools will be in session on Saturday April 26th in compliance with the regulation passed by the N. B. Board of Education calling upon the schools to make up for Monday June 9th, a regular authorized teaching day on which the schools will be closed.

TO WAGE BATTLE ALL OVER AGAIN

Batteries of Church Union and Anti-Church Union to Assemble in Ottawa

Ottawa, Ont. April 21.—(By Canadian Press).—Heavy batteries of church union and anti-church union will be assembled here within the next week or two, when the big issues raised by the bill for the union of the Presbyterian, Methodist and Congregational churches of Canada is brought before the Private Bills Committee of the House of Commons, after the reassembling of the members of parliament here on Thursday next following the Easter recess. It is expected that the battle will be fought all over again on the church union question.

The situation in regard to the church union bill in the various provincial legislatures of the Dominion at present is as follows:

Prince Edward Island—Passed by Legislature but not assented to by Lieutenant-Governor pending information being sought from Ottawa.

Nova Scotia—Not yet reported by the committee of the Legislature.

New Brunswick—Passed without amendment.

Quebec—No bill presented.

Ontario—Bill withdrawn following amendment by Private Bills Committee.

Manitoba—Passed by Legislature without important amendment.

Saskatchewan—Passed without substantial amendment.

Alberta—Passed with minor amendments.

British Columbia—Bill to be presented at next session of the House.

CYR—WELLMAN

Council of Education Plans Programme

The Council was formed as a result of a conference held in Winnipeg in 1919 and attended by over 1,200 persons from all over Canada. The second conference was held in Toronto in April of 1923 and was attended by about 1,500 persons, representing the nine provinces. This conference, through many brilliant speakers on the programme, among them Sir Michael Sadler, Sir Henry Newbolt, Lord Robert Cecil, Sir Robert and Lady Baden-Powell, sought to set forth the Council's conception of the role of Education as a citizen builder.

The plans for this third conference now pending were laid at a meeting held in Montreal, presided over by Sir Arthur Currie, in the absence of the Chairman, and attended by several of the leading officers of the Council in the person of Mr. Vincent Massey, President of the University of Toronto; Sir Arthur Currie, G.O.M.G., Principal of McGill University; and Mr. E. W. Beatty, President of the Canadian Pacific Railway. It has as its principal object: (1) That education should concern itself with the development of character and should provide a full education for all.

The Council is now engaged in preparing a programme for the second annual session. It has been decided that the second annual session of the Council will be held in the University of Toronto, Ontario, in the summer of 1924. The programme will include the following: (1) A session of the Council, (2) A session of the National Council of Education, (3) A session of the National Council of Teachers, (4) A session of the National Council of Parents, (5) A session of the National Council of Students, (6) A session of the National Council of Workers, (7) A session of the National Council of Farmers, (8) A session of the National Council of Merchants, (9) A session of the National Council of Manufacturers, (10) A session of the National Council of Professionals, (11) A session of the National Council of Clergymen, (12) A session of the National Council of Judges, (13) A session of the National Council of Lawyers, (14) A session of the National Council of Doctors, (15) A session of the National Council of Ministers, (16) A session of the National Council of Priests, (17) A session of the National Council of Bishops, (18) A session of the National Council of Cardinals, (19) A session of the National Council of Popes, (20) A session of the National Council of Emperors, (21) A session of the National Council of Kings, (22) A session of the National Council of Queens, (23) A session of the National Council of Princes, (24) A session of the National Council of Princesses, (25) A session of the National Council of Dukes, (26) A session of the National Council of Duchesses, (27) A session of the National Council of Counts, (28) A session of the National Council of Countesses, (29) A session of the National Council of Barons, (30) A session of the National Council of Baronesses, (31) A session of the National Council of Knights, (32) A session of the National Council of Ladies, (33) A session of the National Council of Gentlemen, (34) A session of the National Council of Dames, (35) A MRS. DAVIS NERVOUS WRECK

Tell Women How She Was Restored to Perfect Health by Lydia E. Pinkham's Vegetable Compound

Winnipeg, Man.—"I cannot speak too highly of what Lydia E. Pinkham's Vegetable Compound has done for me. I was a nervous wreck and I just had to force myself to do my work. Even the sound of my own children playing made me feel as if I must scream if they did not get away from me. I could not even speak right to my husband. The doctor said he could do nothing for me. My husband's mother advised me to take the Vegetable Compound and I started it at once. I was able to do my work once more and it was a pleasure, not a burden. Now I have a fine bouncing baby and am able to nurse her and enjoy doing my work. I cannot help recommending such a medicine, and any one seeing me before I took it, and seeing me now, can see what it does for me. I am only too pleased for you to use my testimonial."—Mrs. Emily Davis, 728 McGee Street, Winnipeg, Man.

Lydia E. Pinkham's Private Text-Book upon "Allments Peculiar to Women" will be sent you free upon request. Write to Lydia E. Pinkham Medicine Co., Oshkosh, Ont. This book contains valuable information.

There is as much comfort in good pure food as in any other blessing with which man is endowed. Our bread is at the top of the perfect provender program. It is uniform in quality. Ask for our bread by name.

Too Complicated. A tourist who had lost his way near a Blackfoot reservation saw an Indian approaching. The tourist hailed him with a series of grunts and the salutation "How!" "I am quite well, thank you," replied the red man. "Injun sabe paleface lingo?" "Not that kind," declared the Carle graduate. It is too complicated for me to follow.

ALL THE NEWS DALHOUSIE, THURSDAY, APRIL 24, 1924 EVERY WEEK

PERSONAL NEWS

Mr. Wm. Rinsler, Bathurst, was a visitor to Dalhousie on Tuesday. Mr. W. A. R. Cragg, Manager of the Royal Bank, in the shiretown, spent the Easter vacation with his mother in Bridgewater, Nova Scotia. Miss Mattie Cook, of the P. Q. Lumber Co. office staff, is taking a few days in Halifax, the guest of her brother Mr. Ole Cook.

Mrs. James Wall, Campbellton, spent the week-end in Dalhousie, the guest of her parents Mr. and Mrs. John B. Delaney.

Miss Peggy Savidant, Campbellton, was the guest of her friend Miss Bernice LeBlanc during the Easter vacation.

Mr. Alfred LaBilloy, Maguasha, P. Q., was in town on Monday and informed your correspondent that his daughter, Miss Helene LaBilloy, one of Quebec's teachers, who has been at the Hospital of St. Agathe des Monts, P. Q., was to undergo an operation in a Montreal Hospital this week, and they had every hope that she would soon be able to return home much improved in health.

Miss Taggart spent Easter Sunday at her home in Richmondville.

Mr. and Mrs. Allan J. LeBlanc, Campbellton, were the guests of Mr. LeBlanc's parents, Postmaster A. J. and Mrs. LeBlanc, on Sunday.

Mr. D. A. Stewart, M. L. A., was a visitor to the shiretown on Monday.

Miss Mary Farrell, Principal of the Atholville Public School, spent the Easter holidays in Dalhousie, the guest of Mrs. Joseph Barthe.

Miss Louise Barthe, stenographer in Chicoutimi, P. Q., after visiting her cousin Mrs. Joseph Robitaille, in Three Rivers, P. Q., arrived home on Saturday to spend some time in Dalhousie, the guest of her parents, Mr. and Mrs. Frank Barthe.

Mrs. Albert Boudreau and little daughter Rose, spent Easter Sunday with their Bathurst friends.

Miss Ida M. Barthe, teacher at Atholville, spent Sunday at her home in Dalhousie.

Mrs. Walter Marquis and little son Master Collie were in town on Saturday, the guests of Mrs. Marquis' parents, Mr. and Mrs. A. G. McKenzie.

A white party held on Easter Monday evening under the auspices of the R. C. Sewing Circle, at the home of Mr. and Mrs. Arthur Hayes, was a great success, there having been over one hundred people present.

The prizes won after a most enjoyable game of cards, were presented as follows: Ladies 1st prize, Mrs. K. Colombe, Ladies 2nd, Miss Albina Harquail; Gent's 1st, Arsene Allain, 2nd, Edward LeVoyer. Dainty refreshments were served. Mr. and Mrs. Hayes are being highly praised for the success of the White Party.

Mr. Donald Campbell, who left Restigouche Co. in 1881 for the West is now visiting his brother-in-law Mr. James Wright at Eel River Crossing. During recent years Mr. Campbell has been residing in Calgary. He is a retired C. P. R. conductor. On his way to New Brunswick he spent four weeks with his sister, Mrs. Pacifico, in Wellington, Mass., and they both came to their native county together and are enjoying the hospitality of their friends. Mrs. Pacifico's husband is a successful decorator. Mr. Campbell's two sons are in the railway service in the West. Mr. Campbell's last visit to Restigouche was made twenty years ago. He finds many changes. Then he visited the old home in Shannon Vale, which was occupied by Mr. and Mrs. James Wright, who are so well known for their great kindness and true hospitality.

The Misses Brou and Doyle, teachers in the Dalhousie Superior School spent the Easter vacation at their respective homes in Chatham and Nelson, N. B.

Miss Margaret Meahan of the P. Q. Lumber Co. office staff, spent Easter at her home in Bathurst the guest of her parents, Dr. J. C. and Mrs. Meahan.

Miss Myra Wallace was the guest of Miss Doyle during the Easter vacation at Nelson, N. B.

Mrs. Andrew Allain paid a visit to her Campbellton friends on Monday. Mrs. Mabel Wright and Miss Annie Campbell of Campbellton were the guests of friends in the Parish of Dalhousie on Monday.

Mr. Anderson, Principal of the Dalhousie Superior School, spent the Easter vacation in Chatham, N. B. Again the ground is covered with fleecy whiteness and Easter bonnets were not much in evidence Sunday morning.

Rev. E. J. Shaw paid a visit to

NEW COUNCIL OF SHIRETOWN HOLD EMERGENCY MEETING

C. H. LaBilloy Appointed Town Clerk and Treasurer—Committee to Make a Complete Inspection of Town Books Etc.—Accounts to be Audited by an Expert Auditor.

An emergency meeting of the Dalhousie Town Council was held on Saturday afternoon. His Worship Mayor Montgomery presiding. There were present Aldermen Arthur Thompson, Frank Valdon, Sr., Arthur McMillan, D. G. Stewart, A. H. McKenzie, L. J. LeBlanc, John Bateman and Wm. Letourneau.

In the absence of Mr. Wendell Harquail, the regular Town Clerk and Treasurer, who is away from the shiretown since the day following the Town election, Mr. Clark Barthe was appointed Secretary of the meeting pro tem.

The meeting was called to order by His Worship the Mayor, who explained its object.

It was moved by Alderman McKenzie and seconded by Alderman Letourneau, that C. H. LaBilloy be appointed Town Clerk and Treasurer—Carried unanimously.

Moved by Alderman McMillan and seconded by Alderman McKenzie that the Town Clerk and Auditor, Wm. McNeil, be given the keys that are in sealed envelopes, and instructed to make a complete inventory of everything contained in the Town Clerk's office, including all papers, documents, books, etc., in the safe, all papers in the locked ballot box, and in the Town Clerk's desk or files, and that they submit the said inventory to the council at its first meeting, and to keep a copy of the same on file.

Application from Wm. Comeau, Auditor, read and ordered placed on file.

Moved by Alderman LeBlanc and seconded by Alderman Letourneau that a committee of three be appointed to select an auditor to audit the Town books.—Carried.

Moved by Alderman Stewart and seconded by Alderman McMillan, that His Worship Mayor Montgomery, Aldermen McKenzie and LeBlanc be appointed the committee to engage the Auditor.—Carried.

On motion of Alderman Thompson, seconded by Alderman Letourneau, that a committee of three be appointed to select an auditor to audit the Town books.—Carried.

Alderman McKenzie proposed, seconded by Alderman LeBlanc, that the Mayor be allowed to seek legal advice when deemed necessary.—Carried.

The Council then adjourned.

Campbellton Sunday.

Mr. and Mrs. Duncan McLean were in Campbellton for the holiday.

The newly elected Town Council held their first meeting Saturday afternoon when C. H. LaBilloy was appointed Town Clerk. It is rumored that appointments are to be made in the near future.

Friends of Mrs. A. H. McKenzie regret to hear of her illness and wish her a speedy recovery. Dr. Fleck is in attendance.

Mrs. C. H. LaBilloy and grandson Charles Colton arrived from St. John Tuesday evening.

Mrs. L. D. Jones entertained at the tea hour on Saturday. Bateman and Mr. and Mrs. Allan LeBlanc spent the holiday in town guests of Mr. and Mrs. Alex LaBlanc.

Miss Mattie Cook is visiting friends in Halifax.

Official notice has been posted in town calling for tenders for the maintenance of 37 bridges in the Restigouche River and Chaleur Bay.

Miss Katherine Doyle is spending the Easter vacation at her home in Nelson.

LOCAL NEWS

The sale of Home Cooking, held by the ladies of the W. A. on Saturday afternoon in the McDonald Store, was a decided success.

Mr. Samuel Norton of Maguasha, P. Q., was in town on Saturday and informed your correspondent that the report that said he might have lost a valuable horse in the ice, recently was a little exaggerated. It is true that the horse fell through the ice; but there was no difficulty experienced in saving the beast.

The first test that was made of the Radio that was recently placed in the Rooms of the Dalhousie Social Club, took place on Friday evening, April 18th. It turned out to be a regular concert. Mr. Armand LeCouteur and Mr. J. P. Breaux were in charge. The test was a most satisfactory one and the members of the Club are delighted with their experiment. Among the members of the Club who were present were: Dr. Fleck, Murray McKay, J. P. Breaux, Caleb McNeill, J. B. McKay, Allison Powell, James Gould, John O'Keefe, Albert McNeill and C. H. LaBilloy.

CELEBRATED THEIR SILVER WEDDING

Friends of Mr. and Mrs. D. W. Mill Surprise Them on Occasion of the 25th Anniversary of Their Marriage

On the occasion of the twenty-fifth anniversary of their marriage, Mr. D. W. Mill, Superintendent of the Surveying Service former Maria man, and Mrs. Mill of the City of Quebec, were given a surprise party on Wednesday evening, April 16th, when a number of land surveyors called on them unexpectedly at their residence on Maple Ave.

An address was read by Mr. F. X. Fafard, one of the members of the surveying profession while Hon. Mr. Mercier, Minister of Lands and Forests, paid a tribute to Mr. Mill and compliments to Mrs. Mill. The address was accompanied by a splendid cabinet of cutlery as well as one of cut glass of intrinsic value. To Mrs. Mill was presented two magnificent sheaths of roses, one with 25 white roses and the other 12 red roses, a touching allusion of her twelve children.

Mr. Mill cordially thanked his friends for the fine testimony of friendship.

Among those attending in addition to the two mentioned were Senator Casgrain, J. E. Fafard, M. P., T. Simard, M. L. A., F. X. Lemieux, Deputy Minister of Lands and Forests, C. F. Gauvin, secretary of the Battelliers Commission, George Cote, Assistant Superintendent of Surveying Service; Patrick O'Sullivan, Arthur Smith, Thomas Kirk, Paul Jones, Paul Malouin, J. M. Ray, and a large number of others.

Mr. D. W. Mill is a native of the Bay of Chaleur. He is a son of the late James Mill of Maria, Bonaventure, P. Q. Mrs. Mill is a native of Dalhousie, N. B., being a daughter of the late J. William Cullen, who for many years was Harbour Master of the Port of Dalhousie. Mrs. Mill has relatives in Campbellton, Dalhousie and Carleton. One of her sisters is Superior of the Infirmary in Halifax, N. S. Mrs. Mill's mother was formerly Miss Esther Meagher of Carleton, P. Q., and resided in Dalhousie for many years. She now lives in Quebec with two daughters, Mamie and Eva, who hold lucrative positions with J. E. Livermore Limited, one of the oldest firms in the city.

The Fancy Circle Mission Band Dalhousie Jet, held a sale and served tea on Thursday evening, April 17th at the home of Mr. and Mrs. Alexander J. E. Fournier, Fishery Officer, will be at the Carrier Hotel on Tuesday next for the purpose of issuing salmon fishing applications.

Mrs. Fred McDonald, of the Junction, was a visitor to town on Tuesday.

George C. Scott, who has been visiting his wife and children in Boston for the past six weeks, has returned to town.

W. S. Montgomery was elected mayor last Tuesday.

Mrs. H. E. Moss and her children Miss Elizabeth and Master Billy, spent the week-end in Campbellton.

Miss Myra Wallace is the guest of Miss Kathleen Doyle, at the latter's home in Nelson during the Easter vacation.

The Girl Guides spent a happy day on Thursday in going to the River Crossing under charge of Mrs. H. Hoogwood.

Easter Day opened with a heavy snow-fall. The attendance at the churches were good and the Holy Week services were well patronized.

Miss Kathleen Doyle, at the latter's home in Nelson during the Easter vacation.

The Bear That Thought He Was a Dog

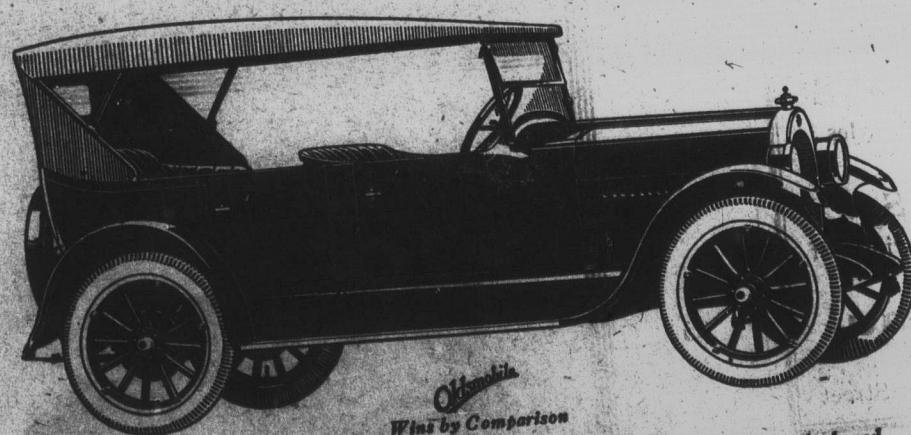

The game, black mother lifted her head from snuggling happily at the feet of her little one. The cub was not twenty-four hours old, and as pressed every motion of her savage head, but her ear had caught the sound of heavy footsteps coming up the mountain. They were confident, fearless footsteps, taking no care whatever to disguise themselves, no whisper to suggest that they were the she knew at once that they were the step of the only creature that she presumed to go so boldly through the great silence. Her heart pointed great silence. Her heart pointed great silence. Her heart pointed great silence.

She saw a man—a woodsman in brownish-grey hosepans and heavy leg-boots, and with a gun over his shoulder—slouching up along the faintly marked trail which led close past her doorway. Her own great past her doorway. Her own great past her doorway. Her own great past her doorway.

When her master returned, and came and looked in hesitatingly at the stable door, the brown mother saw the small furry shape in the crook of his arm. She frowned upon the crook of his arm. She frowned upon the crook of his arm.

New Columbia Phonograph

—it starts itself —it stops itself

HAVE you heard the clear, lifelike tone of the NEW Columbia? Have you seen its beautiful cabinet and its exclusive niceties of mechanism? Here is a phonograph that is NEW—a phonograph entirely different and better than any other type of instrument. The NEW Columbia is not what you may think it is—a mere phonograph—it is a new musical instrument of the highest order.

The delightfully rich tone is created by the NEW Inter-national reproducer—the achievement of years of research. Once created, this tone is correctly and fully amplified through the straight brass tone arm and tone amplifier. The NEW motor is a marvel of accuracy and simplicity—it is started by placing the tone arm on the record, and is stopped when the music ceases, by the Non-Set Automatic Stop.

The NEW Columbia is made in many styles—both up-right and console and the price is remarkably low for either type. Ask to hear the latest Columbia Records played on the NEW Columbia Phonograph.
