reluctantly as a public duty, on the personal assurance of the Premier, and the written statement of the Provincial Secretary, that the Government desired a fair, fearless and non-partisan administration of the license act.

During the period in which they have held office, they have sought to be sane, fairminded and just in the discharge of duties singularly unpleasant, and personally distasteful to all the members of the board.

To insure this fairmindedness, from the first they decided as a policy of the board, for its own guidance, that they would seek only to take such action as carried their unanimous judgment. All decisions which have been reached were in accordance with this policy, on no question has a decision been arrived at and acted upon except on the his assistants, and there is unanimous approval of the board.

An important part in the stylish effectiveness of a lady's toilette.

#### A Very Important Part,

indeed. Why, a very ordinary dressmaker can often turn out a fairly modish dress if fitted over a graceful, perfect-fitting corset. But an expert dressmaker-an artist in her line -is greatly handicapped when she has to model a beautiful, stylish gown over a poor, ill-fitting Corset. Don't handicap your dressmaker. Come here. Not only have their successors failed to carry the scheme to completion, but there is too much reason to fear a reversal of what has already been done in the way of forest preservation. An ominous step in this direction are the changes in the forestry branch of the lands and mines department. Mr. Thomas Southorth director of colonization and forestry, to whose close study of the queson and persistent efforts to impress the Administration with its importance, the setting aside of the reserves, with some measure of fire protection, s mainly due, and Dr. Judson Clark, who has had a thorough technical training in forestry, and holds the position of provincial forester, have suddenly been transferred from the ands and mines to the agricultural department, with instructions to confine their efforts in that direction strictly o "farm forestry." As that branch already has an able and practical exponent in Professor Zavitz, of the Guelph Agricultural College, it is apparent that Hon. Frank Cochrane's action is simply to get rid of the only pfficials having any functions in connection with the larger aspects of forestry, and thus quietly shelve the whole question. For the past ten years he was the central imposing figure at the quaint ritual of the Gorsedd, Dressed in his bardic robes, with his breast bedecked with numerous trophies, and on his head a crown of acorns, he stood on the hogan stone and awakened the echoes with his mighty roar of "A oes heddwch?" ("Is there peace?") Having received an affirmative re-

# High Constable of Quebec

After Suffering For 10 Years With Pain In The Back He Was Completely Cured By "Fruit-a-tives."

"Fruit-a-tives" cures diseased and irritated kidneys when all other treatment fails.

The proof that "Fruit-a-tives" is the greatest kidney, cure known to science is demonstrated by these tablets removing all pain in the back-making the kidneys healthy—and curing chronic constipation.

ST. HYACINTHE, P.Q., June 10th, 1905.

I have much pleasure in testifying to the great good which "Fruit-atives" have done me. I was a constant sufferer from severe constipation and severe pain in the back for the last ten years. I tried many kinds of pills and tablets and physician's medicines but the relief was only temporary. Not long ago

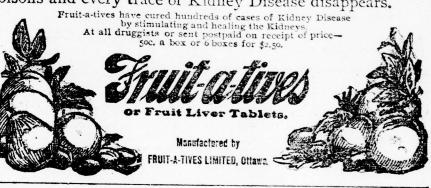

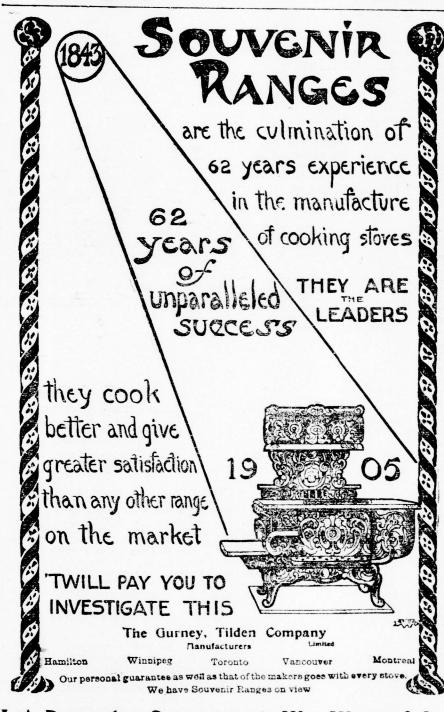

I tried "Fruit-a-tives" and now I am entirely well, no pain, no constipation and my stomach and bowels act naturally. I cannot say enough in praise of "Fruit-a-tives" they are a grand medicine, mild as fruit in their action and easy to take. (Signed)

H. MARCHESSAULT,

High Constable. Do you know that every drop of blood in your body goes to the kidneys to get rid of some of the impurities? When the bowels don't move regularly, the blood takes up poisons in the bowels and carries them to the kidneys. Then the kidneys get overworked—inflamed. Then comes the pain in the back-headaches-constant desire to urinate—nervousness—sleeplessness.

"Fruit-a-tives acts directly on the Kidneys-cleans, heals and strengthens them-makes the liver give up more bile to move the bowels regularly—and stimulates the glands of the skin to increased action. These rid the system of all poisons and every trace of Kidney Disease disappears.

Russian premier has expressed to the Vatican authorities his personal willingness to consider the proposals repeatedly submitted by the Vatican to the Russian Government for the formal establishment of diplomatic representatives both at Rome and at the an able maneuver of Count Witte to enlist the Pope's sympathies with the Russian Government at this critical moment, especially regarding the attempts at independence recently made

in the Polish provinces. It has become known here that the Russian representative at the Vatican has recently laid a formal protest before the papal secretary of state complaining that many among the Polish clergy had placed themselves at the ead of the insurgents in Russian Poland, and that he has insisted that all uch priests be reprimanded by the Vatican authorities. It is now proposed to go further and persuade the Polish Catholics that the Russian Government and the Vatican authorities are now on the best of terms. As a matter of fact, diplomatic relations between the Russian Government and the Vatican have been more or less strained ever since the late Mgr. Tarnassi, who represented the Pope at the Czar's coronation and who at the late Pope's orders had attempted to make

a plea for the establishment of diplo-

matic relations, was promptly turned down through the exertions of some members of the Holy Synod, so that on his return he was practically disgraced at the Vatican and was never intrusted again with a diplomatic mission

from the church. Pius X. is known to have expressed himself several times as in sympathy Widow Back From Labrador with the Polish people in their struggles for independence, and some recent utterances of his on the same subject caused such an alarm in Russian Government circles that the Russian representative at the Vatican was instructed to make a formal protest opinion here that Pius X. will refuse to intervene in Polish political matters

The announcement that John L. Sullivan and Frank Slavin are to tour the world in sparring exhibitions, has caused a greater chill to the admirers of boxing than did the report that Sullivan and Mitchell were to fight. It is reported that the Gerry Society will interfere. The officials of that organ-Ization believe they have ground for interference in the fact that both Sulliwan and Slavin are in their second childhood.

Speaking of the lightweight championship, one of the leading oracles of the east says: "Up to Gans' advent the honors belonged to Kid Lavigne." Poor Erne! The Buffalo man thought he won the title from Lavigne.

The Pittsburg Dispatch hands this one to Fitz:

"Fitzsimmons would help his bout with O'Brien if he would shut off the financial hot air in which he has indulged for some weeks past. Every time Fitz opens his face he talks about betting from \$1,000 to \$10,000 on the result of the bout. Everybody knows that Fitz stopped his dramatic career because he was losing money, and, old as he is, he returns to the fighting game because he needs some small change. He hasn't got any \$1,000 to bet on himself, and no one else is going to wager that amount on him. He may win, but he is getting too well along in years for anyone to take long chances on

P. S.-Jack O'Brien is a Pennsylvanian. Enough said.

Answer to J. S.-Yes. Hall beat Fitzsimmons in Australia before Fitz reached this country, but Fitz claims that he needed the money and laid down for \$50. He afterwards defeated Hall at New Orleans.

The thirty-four new 2:10 trotters for 1905 is the greatest number yet produced in any year. The total consists of eight stallions, sixteen mares geldings. The percentage of stallions is slightly less than in pre-Grouped into families the new 2:10 performers trace their ancestry as follows, and therein lies much meat for breeders to digest: George Wilkes, 12; Alexander's Abdaliah, 7; Electioneer, 4; Dictator, 3; Artillery, 2; Happy Medium, 2; Strathmore, ; Ed win Forrest, 1; Edwin Everett, 1, and miscellaneous, 1. With the single exception of Edwin Forrest, all of the above-named sires trace in the paternal line to Hambletonian 10. Another Ceature for breeders to ponder over is that 281/2 per cent of the 2:10 trotters

The automobile season is now practically closed, and local auto owners claim that it was one of the most successful in the history of the machines. The weather since April has been uniformly good, and the number of new machines purchased in this district has been greatly increased.

London has been somewhat backward in the past in the matter of autos, but the craze appears to be gaining ground here. A years ago all the autos in the city could be counted on the fingers of one hand, but now they are quite plentiful here. A cut in Ford prices resulted in quite a few of these machines coming to London last midsummer, and this make of machine a very much better class of machines will be offered the public at prices which formerly commanded only a very poor class of auto, so that a special Inducement for people to buy may be expected in 1906.

The following gentlemen of London own autos, and in explanation it should be stated that there are several others in town, but the names of the owners do not at the moment occur to the writer:

C. E. Burdick, Ford; F. Mitchell, Ford; J. Mitchell, Cameron; J. P. Evans, Ford; A. H. Brener, Ford; P. Bindner, Ford; D. McMartin, Ford; Ed Hunter, Ford; F. Kerrigan, Ford; J. Smallman, Cameron; C. E. Bermard, Queen; F. J. Darch, Detroit; Wm. Payne, Rambler; C. P. Raikes, Northern: Dr. Seaborne, Olds; Mr. Abel, Marble Swift; W. Southam, Marble Swift; John C. Green, Ford; Mr. Barton, Special; J. Duffield, Thomas; Geo. Young, Ford

Autoing is sure to grow in popularity in this part of the country, because the reads of Western Ontario are the finest on the continent, and are known and appreciated far and wide. Right here it should be pointed out that the worst roads in this section are to be found inside the precincts of London, where the condition of the streets is so bad that the rocky roads of Dublin are billiard tables compared with them. WEEKLY REVIEW.

Thursday and Friday.

There was not as much business transacted on the market the past six days in the previous week. The condition of the reads was a factor in the light delivery of produce. The demand is good n all lines, the only exception being butchers' meats. Prices are firm, especially for dressed hogs and potatoes. Grain—The demand for oats continued o be brisk; the supply is a little slow, nd as a consequence prices are firm; ales are made mostly at \$1 03 and \$1 04 per Barley sells mostly at 95c and \$1 per cwt. Not much wheat offered; prices are steady, at 75c per bu. Corn is scarce, at \$1.05 per cwt. Peas bring \$1.10 per cwt. Hay and Straw-The supply of hay the past week was large; prices are easier, at \$7.50 to \$8.50 for the best loads; there is a large quantity of hay in the country be sold; in Huron County the packers are paying only \$4.50 per ton in the barn; In fact, there is hardly a county in Ontario that the crop of hay this year was not above the average; it is not likely that prices will go any higher. Straw in demand, at \$3 to \$3 50 per load, or

5 50 to \$6 per ton.

Dressed Hogs—The supply is short of the demand; prices are higher, at \$3 10 A busy man has no time for those to \$8.25 per cwt, mostly at the last-named who make a specialty of killing time.
