Stronger Lights Will Be Used at Victoria-New Water Fountain.

Discussion of the request of the G. W. V. A. that the commission furnish, free of all expenses, light and water for the carnival which is being put on in Queen's Park in June, and of the request of R. H. Cullis of Horton street that a water service which has become clogged up should be renewed to the street line at the expense of the commission, occupied the greater portion of the time at the meeting of the public utfities commission yesterday afternoon. The meeting was not a long one. Incidentally the council was indirectly censured for granting the free use of Queen's Park for the use of the carnival. Both requests were refused.
The G. W. V. A., it appears, has made arrangements with a Toronto carnival company to put on a week's show in June. The local association will receive what of the arrangements. T. W. McFarland was in favor of giv-

Vining west Proposition Chairman Philip Pocock expressed the same sentiments, and it was de-cided to furnish water and light at the regular rates.
Secretary O. Ellwood stated that a

council last year requesting that no person be allowed to use the park without paying \$100 to cover the expenses of cleaning up. The question was raised as to why the council had ssioner McFarland suggested that the control of Queen's Park should be under one body. Commissioner Vining concurred, say-ing that the parks board was generally

ang that the parks board was generally made the goat.

R. H. Cullis appeared before the board in support of his written request that the commission renew a water service in his livery which has gone dry. He thought that the board should renew the service to the street line at its own expense. The board took a different view. Mr. Cullis also wants a new service in. Mr. Cullis also wants a new service installed in the building next to his livery, and the board proposed that if he pay for the repairs to the payement, \$27, the commission would install the new service and renew the old one to the street line. A third service which he stated

go to this expense at present.

Possibly everybody anticipates a long, dry season. At any rate, there was an application for the installation of a drinking fountain at Tecumseh Park.

The commission laid this over for a report from the manager. The offer of the Humane Society to provide a drink-ing fountain for horses near the corner of Dundas and Wellington streets was

of Dundas and Wellington streets was accepted. The commission will furnish the water.

John Garvey asked for a refund of \$3 on a water account. The meter had stopped, and his bill was estimated from the same period of last year. The next bill after a new meter was installed was \$3 less than the estimated one. His request was refused. It was recalled that he had been allowed a rebate once before on account of a leak.

Assistant Manager Hunt reported that the well at the Westminster Hospital had not produced water in any quantity, and the drilling rig had been moved to a spot a short distance away to make another trial. The well was sunk 150 feet. An application for water out of the limits was laid on the table.

Ballots Only Tool With Which to Relieve City's Muddled Time Toothache

Widespread civic peevishness is not a healthy condition for any municipality. The fact is as its domain until its inspiring tinkle is heard in all apparent as a man with a black eye that London parts of the land. is now suffering from a grouch, and the cause of the grouch lies in daylight saving. Many people are violently in favor of daylight saving, and of it. The fight is on, and it is a free-for-all, with no referee and resembling largely one of the "battles roval" that were conducted in the no referee and resembling largely one of the "battles royal" that were conducted in the Southern States. Six or seven or more negro gentlemen were placed in a ring to fight for a town turns out, the mayor or reeve is on hand, gentlemen were placed in a ring to fight for a and it did not matter who was hit or by whom.

muddle have been joined by other factors. The the homekeeping hearts of his own little country man who does not care which side wins is in it himself now. In some cases houses are divided, and the thing is as irritating as a sore tooth. The city council is blamed for having adopted the system, but the city council acted probably as it believed the majority wished it to act. It is almost certain if the city council had expected such late for the people when the people have expressed themselves only in a haphazard way.

The only way to get rid of the sore tooth is the family would leave the aching tooth in the jaw, while the other declares it must come out, and another still would have it filled temporarily, the best thing is to seek the advice of a dentist. When he says the word, either leave the thing as it was or have it out by the roots.

to the dentist, may not be a pleasant thing, but it is by long odds better than having the civic toothache. And unless London gets down to the taking of a vote at the very earliest possible moment, this aching tooth will trouble the city and lead to further contention all through the summer

The city council cannot settle the matter to the satisfaction of either side. It is scarcely fair to ask the city council to decide for the people when there is no means of ascertaining public opinion, and when public opinion, as represented by a majority of citizens, should decide the issue.

But the average citizen is good enough "sport" to accept any decision reached by the majority. The controversy is hot enough to insure that the people would vote on the question. The Advertiser believes it would be a good thing for them to vote; good not only so far as the hours of work and recreation are concerned, but good from the standpoint of stimulating civic interest in our affairs.

Largely daylight saving is a matter of sentiment and comfort, rather than of materialism and dollars. It is the kind of a question that demands a decision. The city council cannot properly give that decision until public opinion has been properly sounded. Today we are only at the threshold of summer. In a few weeks, possibly before the 24th of May, the city can reach a decision satisfactory to all, because it would express the will of the majority of the people. That is the system we should look to more and more, the submitting of contentious matters to pert. Don't spill 'em. the people as a whole. Let a vote be taken as soon as possible.

More Lunacies By Lenine

In primitive days when man's necessities he had no desire for articles save such as are essential to the simplest existence, the barter was natural, beautifully simple and direct. As man moved upward new desires and wants essential to a higher plane appeared, and from these sprang the industry and commerce on which eivilization is largely based. This has produced a complex system of trade and finance which suddenly removed would set the world's marts reprieved until June. Knowing the Toronto

As Boris is not collecting georgette blouses that season the best he will do is half a chop, so that Marie has to leave a written promise to make up the discrepancy later. Boris, in his turn, uses this note to wipe off the slate he has been carrying at the Red Flag bar, and so it gets back to Marie via the black. O'Neal sat in the train, his big proprietor's wife. Its purchasing value increases hands clasped around one propped-up or decreases according to the necessity of a knee, his sensitive face bent over buyer or seller, just as with cash. As vast numbers of these notes circulate and accumulate there follows the banking necessary to handling them and the business they represent expeditiously.

To all intents and purposes this is money under any other name is just as devilish of Washington to find a home where he would not have daily to see her as or beneficent, as Lenine will presently discover.

It must be said for the Bolshevist Government that they are consistent. The plan to wipe out money is quite in keeping with the whole nightmarish scheme that has made of Russia a topsy-turvydom, but it will not have permanence topsy-turvydom, but it will not have permanence any more than the other grotesque proposals of layer. But O'Neal had not thought this Leninism that must have originated in a mad-house under a new moon. If Lenine sincerely he first carried her hunchbasket to house under a new moon. If Lenine sincerely desires to bring happiness and prosperity to Russia, instead of trying to send the eash register to the junk heap he should make social conditions such as will restore the cash register and widen

DEFEATED RED SOX SARNIA SOCCER LEAGUE OPENS SEASON TODAY

BOSTON. May 1.—Boston lost its home opening game to New York, 7 to 3, at Fenway Park today. Loose pitching by Mays and indifferent support were factors in the visitors' triumph. Feeling between the teams was intense. Pipp was expensed from the game from disputing a decision of Umpire Connelly, and Mays and Pratt were separated by players before they came to blows. Magridge filled the bases with none out in the eighth with his team leading, 3 to 1. Quinn then relieved Mogridge, and Boston tied the score, only to see the Yanks, with two out in the ninth, make four runs on a double, a single, three errors, a wild pitch and two bases on balls.

CATARRHAL DEAFNESS MAY BE OVERCOME

If you have Catarrhal Deafness or are even just a little hard of hearing or have head noises go to your druggist and get 1 ounce of Parmint (double strength), and add to it ½ pint of hot water and a little granulated surer. Take 1 to it ¼ pint of hot water and a little granulated sugar. Take 1 tablespoonful four times a day.

This will often bring quick relief from the distressing head noises. Clogged nostrils should open, breathing become easy and the mucus stop dropping into the throat. It is easy to prepare, costs little and is pleasant to take. Anyone losing hearing or who has Catarrhal Deafness or head noises should give this prescription a trial. uld give this prescription a trial

Church, Medical Profession and Public Behind "Baby Week"

London is to have another hig Child Welfare week, the first week in June, when the eyes of the public will be fixed upon and the interest of the public centred in King Baby and his little brothers and sisters of pre school age, meaning five or six years old. Of course, this isn't any particular news. The papers have been printing paragraphs about Child Welfare week with its big exhibit and clinic, and reports have been appearing of the manner in which preparations have been getting under way for the big early summer campaign in London's battle for the health, strength and life of London's babies and future citizens. It is a different proposition interesting the citizens in a Child Welfare exhibit this year from what it was eighteen months ago. For example, it is a very benighted person who doesn't at least know child welfare by name and that it aims to save little ones from preventible deaths and physical handicaps.

The ministers are always making the citizens are always making the citizens are always making. The ministers are always making the citizens are always making the ministers are always making the ministers are always making.

The ministers are always making the citizens in their districts, who were non-members of the clubs.

It is the "forlorn little waifs" or the difficult cases which are harge of the clinics and when on uch tot makes marked improvement great is the rejoicing.

"Famine" Baby Becomes Plump and Rosy "One of the most interesting cases,"

says the child welfare nurse reminiscently, and also gleefully, "was a babe that was brought to the clinic in January immediately after it was opened. The mother had died of influenza during the epidemic of the fall, and it had been impossible to find any kind of food that would agree with the baby.

Talk about famine children in India Talk about famine children in India or China, or Belgian refugee bables, I never saw such a little living skeleton as that baby when it was brought to the clinic in January. It was one of the worst cases of malnutrition I had ever come across. You should see it now, its cheeks plump and rosy and the little thing gaining every week. I believe that baby has made about the best record of progress of any that we have on our clinic roll."

Another of the little "living skeletons" has undoubtedly been saved through the care bestowed at the clinics and the ministry of the welfare nurses. The mother, who is overjoyed each week now when the tot is weighed, states that she had previously lost four bables from a "wasting disease."

Like this little one, they were born normally plump and apparently in good

Likens Present Church Government to Monarchy, and Registers Objection.

E. M. Hawkins, M.A., who ned he farewell sermon on Sunday as rector of St. James' Anglican h, Hamilton, resigning from the of clergyman owing to his convictate made a statement of his positive. he fact that I could not hold my s and honestly retain a position as nister in an orthodox church. Money the important points on which fer from the church, which would it impossible for me to stay in the tare the intellectual position of church, the monarchial form of church, the monarchial form of church the democracy towards which world is progressing, the social sof the church, and finally its attended to the church of the church

absorbing problems of life and amon to every important sphere of nan experience, and marks a crisis n its history.

inprejudiced thought it would

The unprejudiced thought it would be an that such a crisis has arisen in the story of the 'Christian church, and en are being called upon to choose hich way they shall take. This is my yn experience, and I have made my loice. One of these ways lead to the ty of the status quo, over whose gate leology has placed the motto, "Let lings be as they were and are." This ad is paved with the well-worn stones dogma and tradition. It is fenced ith creeds and confessions. Its directon follows the straight and narrow he of conventional orthodoxy. Its end authority. Enthroned in the city to hich it leads are popes, bishops and lests, who assume moral, intellectual hid, in certain cases, temporal control yer the masses of men. The other way add to the city of perpetual progress, yer whose portal humanity has incribed, "Let things not remain as they ere and are." This road is paved with the yleiding sods of intellectual freedom. Is fenced with the open sward of rethe yielding sods of intellectual freedom. It is fenced with the open sward of religious faith. Its direction follows the natural wind of hill, plain and valley, its end is liberty. Enthroned in the city to which it leads are the Christs, prophets and teachers, who offer their moral and spiritual counsels to the wayfaring multitude of humanity.

The Choice Made. It is this latter way that I have chosen to follow. And there are certain great facts that have impelled me to this decision. To the unbiased judgment of intelligent minds it would appear that organized Christianity has, in great measure, falled to supply the deeper needs of man's religious instinct. I have referred to Christianity as the church has sought to present it in its institutional aspect, in its externality, its ritual, dogmas, sacraments, orders, and so forth. Why has it falled to satisfy these deeper longings

ments, orders, and so forth. Why has it failed to satisfy these deeper longings of the human soul? Chiefly because it has not kept abreast of world advancement. Organized Christianity, whether it be in the form of Roman Catholicism, Anglicianism, Lutheranism, Presbyterianism, Methodism, or what not, reveals an obsolescent, and in many instances, an obsolete philosophy of religion, metaphysic, cosmology, psychology, While human knowledge, in the manifold spheres of human activity has advanced beyond almost the power of the human imagination to picture. Organized Christianity has, in the main rganized Christianity has, in the main mained stationary in its intellectual itlook. More than this, it has per-stently opposed the advancement of

knowledge, even to persecution and death. Had it not been for the apathy, neath. Had it not been for the apathy, ndifference and antagonism, which the church, during the Middle Ages and at other times, displayed toward the advancement of knowledge, the evolution of human society would now be some centuries in advance of what it actual

Knowledge Diffused.

Knowledge Diffused.

The present age is characterized by a wide difference of knowledge, resulting chiefly from a courageous criticism of phenomena, coupled with the invention of printing, which has evabled the fruits of human thought and imagination to become the common heritage of the race. This advanced knowledge has come into conflict with the authorized teaching of Organized Christianity, and we are forced to admit has won a ized teaching of Organized Christianity, and we are forced to admit has won a signal victory. The conflict is not at an end. It will continue for some time to come. But the victory of advancement will, as the years go by, be the more complete. What alone it would seem, will save the church from collapse is the renewing of the old wine skins of its organization, that they may be fitted to receive the new wine of advancing knowledge, which, year by year, comes fresh from the vineyard of God. The church must renounce its reactionary position, and look to the present and future for its inspiration, as well as to the past.

"Our little systems have their day They have their day and cease to be."

The lesser achievements of the past must give place to the greater achievements of the present. Paul, Augustine, Athanasius, Aquinas, Calvin, were great theologians in their day, but their theology must humble itself before the onward march of truth. The light with which they sought to dissipate the darkness of error will not suffice to filumine the problems of this great age. Hence the necessity of laying aside what is no longer useful and displacing it with that which will move the world and roll it on in its everaseending course. "The world is full of stale religion," the church is full of stale theology. And the world is hungering for bread, since it cannot longer live on the food of antiquity. We must stale theology. And the world is hungering for bread, since it cannot longer live on the food of antiquity. We must have a religion, a church, a Christianity competent to minister to the needs of the living present. The great historical religions and churches that have been, and still are dominant in the world, came into being as expressive of certain great, absorbing ideals of the time. They are colored by the intellectual outlook of the ages in which they were being evolved. But this outlook has, in great measure, long since passed away. Therefore, these great religions and churches, if they would utter the ideals and minister to the needs of the present, must be brought down to date. Freedom Hazardous.

This is what I have been advocating for some time past, but freedom of speech in the church is abuot as hazardous as freedom of thought is difficult. Hence the comparative imporency of my advocacy. In the ministry, a man supposed to be the spokesman of the church's teaching, how greatly soever it violate his own convictions. If he counter the church's teaching his efforts, are viewed with suspicion, and his future is marked by uncertainty. I want to be above sus-

The Right Way To Cook Macaroni

FIRST:—Be sure you get Catelli's. There can be no mistake then. It is the best Macaroni made. Contains nothing but milk and the finest Semolina Wheat Flour, richest in the body-building gluten. Made in a factory which is the very embodiment of cleanliness. Always sold in sealed packages. You cannot buy better food.

MILK MACARONI

NEXT-To a saucepan, on the fire, two-thirds full of water, add a level tablespoonful of salt for each quart of water. A half-tablespoonful of butter may be added. This improves the flavour. When boiling fast, throw in the macaroni. Boil until it yields easily to pressure between the fingers. Drain in a colander. Rinse thoroughly in cold water in which it should remain until you are ready to finish it according to any given recipe. This recipe applies to Catelli's Spaghetti and Ready-Cuts, also.

Our new Cook-Book, with 115 splendid recipes, free on request. Try this recipe from it .-MACARONI OR NOODLES WITH MOLDED HAM

K package Catelli's Noodles, 1 cup diced cooked ham, 1 teaspoonful poultry seasoning, salt and pepper to taste, 2 cups unflavored gelatine, 1 tablespoonful grated cheese, parsiey. 2 cups unnavored getatine, I tablespoontul grated cheese, parsiey.

Mix the ham with the seasonings, then turn it into a wet mold; strain gelatine over it and set aside to become firm. Prepare egg noodles by boiling, and let cool. Turn ham on to a dish, surround with noodles, sprinkle over with the grated cheese, and sarnish with parely.

BYLAW TO SUE CITY FOR \$7,500

Can't Let City Bamboozle Us, Said One Councillor.

HELD SPECIAL SESSION

Fresh Resolution Passed Calling For North Route For Highway.

"That a bylaw to bring action against the city of London for \$5,000 maintenace and \$2,500 construction on uburban area be drafted, and the clerk be given leave to prepare same, and it e passed at this session of the county ouncil now assembled."

This resolution, which was moved by David Smith, and seconded by T. W. Morrison, was passed unanimously at special meeting of the Middlesex County council held in the county buildings yesterday afternoon. Later, a bylaw such as was asked for was passed, giving the county solicitor power to proceed with the case against the city.

the city.

There was little discussion on the subject, the councillors being of the opinion that the county must find out soon as to how it stood, regarding the maintenance and construction of suburban area roads.

"We can't let the city bamboozle us," declared W. E. Grieve.

"If we don't collect now, how about 1919 and 1920?" asked J. L. Robson.

In order that the Provincial Government may know that Middlesex is still strong for the Longwoods road route for the provincial highway the following resolution moved by A. J. Blakie, and seconded by E. F. Reycraft, was passed.

"That the municipal council of the County of Middlesex in session assembled place itself on record as being of the opinion that the Longwoods road from London to Windsor should be the route chosen for the provincial highway, believing that it is the most direct route and will serve the most people, it having been for many years, as expressed by the deputy minister of highways in his report for the year 1913, the main thoroughfare from London west, and that this road through Middlesex County, both east and west of London, should not be constructed of gravel or water-boune macadam, but should be paved with modern paving material. This council is also of the opinion that the road from Lambeth through St. Thomas to Port Stanley should be assumed by the Provincial Government, as it is, with the exception of the Longwoods road, the most heavily traveled road in Western Ontario. This, with the Longwoods road, will render a much better service to rio. This, with the Longwoods road, "

STR. WAR TORONTO AGROUND. QUEBEC, May 1.-The Canadia steamer War Toronto is aground Cape St. Michael, near Montreal.

VER three hundred thousand teen-age boys are growing up to replace the wastage of Canada's man-power in the war, and to "carry on" as her future citizens. What work of reconstruction—financial, industrial, or commercial—is so vital to the nation as the reconstruction of Canada's Manhood!

Canada lost 60,383 men in the great war, and 156,799 men were wounded. More than ever is it important that the growing boys of this country be efficient, manly and be inspired with true ideals of Canadian Citizenship. Literally is it true that Canada's future depends upon

Nation-Wide Appeal CANADIAN CANADIAN SI.100.000 May 5th to 9th

> In co-operation with the Churches the Young Men's Christian Association is extending its service to Canadian boys. The Y.M.C.A. is essentially an institution for boys, and a large proportion of its work since its first establishment has been with boys.

What the Y.M.C.A. is Doing for Boys

There are four phases to human development—physical, intellectual, spiritual and social. The Y.M.C.A., in close co-operation with churches and Sunday schools systematizes the development of boys in each of these four phases by what is called "The Canadian Standard Efficiency Training." A boy is "charted" and his development is noted periodically. His record helps the Y.M.C.A. to supply the training he needs most to bring him up to the efficiency standard. With his record chart before him the boy is inspired to improve the faculties wherein he is deficient and to make himself a "four-square man."

What Makes the Four-Square Man

PHYSICAL TRAINING of boys includes camp craft, health education, swimming, running, jumping, throwing, basket ball and other team and group games.

INTELLECTUAL TRAINING includes supplementary school or college work, direction of home reading, educational lectures, practice in public speaking, sex education, craftmanship and

SPIRITUAL TRAINING supplements and supports the work of churches and other religious bodies; it spreads the ideal of daily prayer and scripture readings among boys; it inspires interest in nature,

SOCIAL TRAINING gives the boy an idea of his duty towards others, inculcates ideals of clean speech, clean sport, clean habits, teaches good citizenship and heips a boy choose his life work to best advantage to himself and to society.

in music, in things artistic.

The "Y" in High Schools

The Y.M.C.A. recognizes the great field for reaching teen-age boys found in the high schools, and is promoting the establishment of activities in that field. In the High Schools committees and "Boys' Cabinets" are organized and programmes put into operation to stimulate scholarship, inspire purpose, encourage clean speech, clean sport, and clean habits, to direct towards their true vocation in life boys who are "drifting," and to develop manliness and character.

Many boys are forced by circumstances to leave school and begin the battle of life before they are fully equiped. The

Y.M.C.A. wants to reach out to these boys by way of athletic meets week-end camps and social work in the industries, the shops, and factories. Problems such as gambling, industrial relationships, thrift, home relationship, sex education, etc., will thus be dealt with.

"Underprivileged" boys are those whose environment has been poor, boys who have had little opportunity for mental, physical, religious, or social development. The Y.M.C.A. wants to help these boys, by increasing their interests in wholesome sports and games, attracting them to the Y.M.C.A.'s and the Churches, inculcating in them and in the boys born of foreign parents, Canadian ideals of

Red Triangle in Rural Life

The Y.M.C.A., in co-operation with the churches and other social organizations, is carrying the Red Triangle to the boys on the farm, the boys in the villages and small towns which lack Y.M.C.A. buildings and equipment. The Y.M.C.A. organizes these Church groups and others to carry on active work to interest, entertain, instruct and develop boys; trains their leaders and stimulates and supervises.

The Y.M.C.A., in co-operation with the churches, will hold con-

ferences and camps this year to train leaders in Boys' Work, and in Canadian Standard Efficiency Training methods. These men will go back to their own communities equipped to "carry on." From 18,000 to 20,000 delegates will attend these conferences throughout the Dominion.

The "Father and Son Movement," by which fathers and their boys are brought together in sympathetic relationship is another branch of useful Y.M.C.A. work.

All Y.M.C.A. work is fundamentally religious, and by reaching the boys the Y.M. C.A. reaches men. Fifty per cent. of the Y.M.C.A. work for boys is done in the churches and the proportion is growing.

Helps Boys to Choose Vocation

The "Find Yourself" campaign of the Y.M.C.A. has helped many a boy to analyse his natural abilities and circumstances so as to make the most of himself and his opportunities. A boy is examined and advised what he is fitted for and what amount of education, time and expense is necessary to attain vocations for which he may be suited. In that way he is helped to make

For Canada's Girlhood

The Dominion Council of the Young Wom-

supervision, promotion and stimulation of all the varied national and local activities of the

Y.W.C.A., including the work of caring for the soldiers' wives and dependents coming to Canada from overseas. The Y.W.C.A. budget for Dominion Council purposes this year amounts to \$175,000, and it is planned to set aside that

amount from the total objective of the Red

Triangle Campaign for the purposes of developing Y.W.C.A. work for Canada's girlhood along

somewhat similar lines to those followed for boys.

The expenditure of the Dominion Council of the Y.W.C.A. comprises items for the promotion

and superintendence of Immigration and Travel-

lers' Aid, under which head comes the work of

caring for soldiers' dependents on the boats and

trains; the direction of local Associations in the cities; supervision of Y.W.C.A. girls at work on fruit and dairy farms during the summer; exten-

The Ladies Home Journal Over Two Million Copies of the May Number

The Government has lifted the restrictions on paper.

Now, I can give magazines of a size I never dreamed of before.

I used to think a 100-page Ladies' Home Journal a marvel: this month it is 184 pages.

Instead of 4 stories, we are giving 8.

Instead of 40 articles, we are giving 60 and 65 in each issue.

We gave our wonderful war pictures in full colors. Now, we give not only those but the pictures to our stories have started in full colors.

Almost double in size is the magazine: yet the price is the same: 20 cents.

Girls Who Won Out

Not once, but three times. The cream of the girls of 10 states. What did they do? It's told in the May LADIES' HOME TOURNAL.

Did You Know They Were Making Pictures With the Typewriter?

Portraits of the American girl, of Clemenceau, and, of all things, a landscape! Every typist can be an artist. See the pictures given on a full page in the May LADIES' HOME JOURNAL

Four Full-Color Peace Pictures

No finer souvenirs of the great Armistice Day can be imagined. Thousands will frame them. You get not one-but four-all for 20 cents, in the May LADIES' HOME JOURNAL

"Honest: They Let Me Lie Here And Rot-That's Wot They're Doin'"

That's what our wounded boys in the hospitals write home. Is it true? We have the right to know the truth. And the truth is here: in an article you can believe. Every one of us who has a boy in the service who is wounded or may get sick should read this story. It is in the May LADIES' HOME JOURNAL.

Does Housework Prevent Childbirth?

A Man Says "Yes"

Here is a startling question. A great Englishman says that all but the glasseyed will answer "Yes." So Zona Gale went into this throbbing question, investigated it, and her article fairly sparkles with interest. It's in the May LADIES' HOME TOURNAL

What are We

Women Going to Do? So busy were women in war days. But the war is over. Now, what? Hundreds of women are asking this. One woman in Washington has the answer, for she sits at a great gateway of women's industries, and thousands of women write and talk to her. She has dug deep. Read her article that points the way in the May Ladies' Home Journal.

That is what the radiant rollicking stories in the May Ladies' Home Journal make you do-you feel as if you have had a bath of laughter. Try them-and feel

Stories That Will Make You Feel Young

The 1-Cent-A-Week Man

A man refused a job at the rate of 1 cent for the first week-2 cents the next-double each succeeding week. The employer then figured out how much he would have earned at the 52d week. No corporation could pay it: the United States Government couldn't. No one could. How much do you think it was? It's in the May LADIES' HOME JOURNAL.

A Man Shaves 20 Miles

During his lifetime. That is, if he is fair-skinned. If he is dark, he shaves even more. You don't believe it? It's all figured out for every man in a little table, as the razor goes over his face, in the May Ladies' Home Journal.

Want, Really, to Laugh?

Then do read about the Professor who really didn't want to kill Germans, but killed and captured them on every hand. He just couldn't help it. The story is in the May LADIES' HOME JOURNAL.

A Whole Spring Dinner on One Plate

Why not save steps, plates, dishwashing? And the plates are made so that you can do it. Look, too, what you get on them and what to put on. Beautiful pictures show them to you in the May LADIES' HOME JOURNAL.

Superlatives cannot do it justice. It is the most thrilling American

Two Millions of One Magazine

Last month the public pushed THE LADIES' HOME JOURNAL beyond the 1,900,000 mark. Yet over 20,000 persons were disappointed because they couldn't get the magazine!

This month we not only touch the wonderful 2-million mark but go over it - a figure that no monthly magazine has ever reached: an uncharted land!

The magazine this month reaches the high mark of 184 pages: 60 pages more than any May number in its history.

That means the printing of 368 millions of pages of one issue of one magazine-an edition so gigantic as to be almost unbelievable.

It required a month of all-nights and all-days to print it.

I Whacked Him in the Face: The First Time I Met My Future Husband

Think of starting a courtship in that fashion: a marriage that was to last for fifty years and give to one woman the greatest experiences that could come to her. She really lived the most thrilling romance that a girl could read of or dream of in her wildest dreams. She married Buffalo Bill! And out into that trackless West she went with him. Can a Woman Run Her Home as a Man Runs His Business?

Most women say "No: It can't be done." But, is that so? At least, here is the man who has gone into this subject deeper than any other man in America. Read what he says. He shows how it can be done. It's in the May LADIES' HOME JOURNAL.

Does a Wife Like Her Husband?

Thousands have said this would happen if women got the vote. Now, is it true? A woman has gotten at the facts, and she tells them, just as they are, in the May Ladies' Home Journal.

When Paderewski Closed His Piano

To become the Premier of Poland we saw one of the most dramatic and romantic pictures of the war. How did it come about? Why did he give up an income of \$200,000 a year? What did he say himself just before he left America? Here is the complete story from information from his own stepson. It's in the May LADIES' HOME JOURNAL.

Now, Mother Really Would Not Behave!

So thought her big daughter and bigger son, and they didn't know what to do! For mother would be young-she would be happy; she would push back her yellow locks of hair, smile at her big girl and boy, and then she would do something

else. One day out went every old dry dusty book in the house: the next day, old pictures would go and new ones would appear. New colors ran riot over the house. Old wall papers went and new cretonnes came. Then dinner parties began. And mother would go to the games. She would go and live in the college town where her children went. But

the climax came when the daughter came home to find her mother swapping chocolate peppermints with her dignified Professor of English Literature. That was too much! The daughter was in despair. The boy merely said "Gee!"

It's just pure comedy in this story-deliciously fresh, rollicking with fun. You'll feel after reading it as if you had a bath of laughter.

Americanization is Everywhere in the Air

But what do they mean by it? We ought to know. It is already a question, and it's going to be a bigger question. The man who knows more about it than anyone else is Secretary of the Interior Lane. That's why THE LADIES' HOME JOURNAL asked him to explain it. And he does in the May number. Read this brief article and you know.

thorities, are due nine times out of ten to an excess of hydrochloric acid in the stomach. Chronic "acid stomach" is exceedingly dangerous and sufferers should do either one of two things.

Either they can go on a limited and often disagreeable diet, avoiding foods that disagree with them, that irritate the stomach and lead to excess acid secretion or they can eat as they please in reason and make it a practice to counteract the effect of the harmful acid and prevent the formation of gas, sourness or premature fermentation by the use of a little Bisurated Magnesia at their meals.

There is probably no better, safer or more reliable stomach antiacid than Bisurated Magnesia, and it is widely used for this purpose. It has no direct action on the stomach, and is not a digestant. But a teaspoonful of the powder or a couple of five grain tablets taken in a little water with the food, will neutralize the excess acidity which may be present and prevent its further formation. This removes the whole cause of the trouble and the meal digestants.

Why Italy Defied

With rare foresight more than two years ago a German newspaper, the Bremen Weser Zeitung, named the Adriatic question as "the surest source of future d iscord within the ranks of the present Allies." Its prophecy was vindicated in startling fashion on April 23, when President Wilson gave to the world his reasons for opposing Italy's claims to the Adriatic port of Fiume, and Premier Orlando, protesting that the

president's statement "ruins everything," quit the peace conference. The leading article in THE LITERARY DIGEST this week makes clear all the points in this latest development. It shows what Italy is striving for, who is opposing her, and why; it explains the positions of Lloyd George, Clemenceau, and President Wilson; it presents all shades of public opinion in the countries

CHARLES RAY IN HIS NEW PLAY AT THE

Frankie Callan of "Midnight Frolics" in New Song Program.

A wonderful study in courage is afforded in "The Sheriff's Son," the new Paramount picture in which Charles Ray is starred, and which is being shown at the Majestic Theatre today and Friday. The hero is a young man who has --- 14c Each inherited a great fear from his mother, who witnessed an attack on his father before the boy's birth. He grows up with this sense of fear hanging over him, but the story is constructive throughout and shows how he battles splendidly to overcome his weakness and how he succeeds, winning the girl e loves in the bargain.

SESSUE HAYAKAWA IN EXCELLENT ROLE IN ORIENTAL PLAY

'The Courageous Coward," Two Comedy Films, Vaudeville Now at Patricia.

Sessue Hayakawa, the well-known Japanese screen star, appeared at the Patricia Theatre yesterday in "The Courageous Coward," one of his most gripping and entertaining photoplays. This feature film and other attractions rnis leature nim and other attractions will be shown again today and Saturday.
"The Barbary Coast," San Fransisco's notorious Chinatown district, is he scene selected for the unfolding of the drawn that implies the drama that involves the cataclysm fe events resulting from a conflict of riental ideas and American standards. beautiful Japanese girl's love for one of her own race leads her into the un-derworld of Chinatown and involves her of her own race leads her into the underworld of Chinatown and involves her in a dubious romance with an American all-'round sport. Her lover kills a gambler and makes his escape, leaving an innocent man to stand prosecution.

Suki, the Oriental lover, a brilliant prosecuting attorney, is branded as a coward when he refuses to go on with the prosecution. Rather than betray the American lover of the Japanese girl, he bears the stigma of a coward. The climax of the story when the murderer confesses and removes the stain of cowardice from Suki's reputation, is sensational and gripping.

One of the striking bits of realism is the Chinatown celebration of the Chinese New Year, a riot of revelry and an orgy of bacchanallan splendor. Hayakawa is supported by Tsuru Aoki, his charming wife, Francis J. McDonald, Toyo Fujita and George Hernandez. McDonaid, Toyo Fajita
Hernandez.

An Alice Howell comedy, a Mutt and
Jeff animated cartoon and the Thomas
Trlo, in an acrobatic act, complete a
thoroughly excellent program.
