All Affected by 50 Per Cent Cut in Supply-Outlying Parts of City Likely To Be in Darkness Tonight.

Practically every factory in the city was shut down for an hour today, and hundreds of men were thrown out of employment for the vole day, when another sudden power shortage occurred. London's allotment of power was suddenly cut 50 per cent.

To meet this sudden shortage, not only domestic and commercial circuits were shut off, but industrial circuits as well. Manufacturing plants were notified that the situation was not likely to improve during the day. Consequently all employees working with power machines were allowed to go home. In severe allowed to go duced 50 per cent. As a result service was far below standard.

Little promise of an improvement by tonight is given. It is probable that the outlying sections of the city will be in darkness. There will be sufficient power for the downtown streets only.

Ice Again.

Ice in the Niagara River driven into the intakes of the power plant by an east wind is given as the cause of this sudden development.

General Manager E. V. Buchanan had to causel a vacation trip to meet the as well. Manufacturing plants were notified that the situation was not likely to improve during the day. Consequently all employees working with power machines were allowed to go home. In some cases they returned in the afternoon. In others they are remaining off for the day. Several factories are running on their auxiliary plants.

Only One Hour Generally.

The general shut-down lasted from about 9 o'clock until 10 o'clock. Power circuits were rearranged by that time, and factories were supplied. Most of them are receiving power this afternoon.

The power allotment of the street railway was cut in half. While no cars in the case of this given as the cause of this sudden development.

General Manager E. V. Buchanan had to carse is affecting the state of the utilities commission, and he had to take over the work just as he was on the point of leaving.

Domestic users were the first affected by the latest shortage. With the city running 20 per cent below its normal supply of electricity, these users have been supplied with power until 9 o'clock in the morning. Today they were shut off before this hour. The power was not available to them during the other periods of the day as usual during the first days of the shortage.

The governal shut-down lasted from about 9 o'clock until 10 o'clock. Power circuits were rearranged by that time, and factories were supplied. Most of the morning. Today they were shut off before this hour. The power was not available to them during the other periods of the day as usual during the first days of the shortage.

TO RELIEVE CONGESTION

Suggests Separate Building For Lower and Middle School Pupils.

Build South London collegiate for lower and middle school classes to relieve the crowded condition of the present high school," was the advice of F. W. Merchant, of the department off education, to the board of education at its regular meeting Tuesday

The upper school should be mainained in one building, because the city cannot economically provide more than one efficient upper school department in charge of specialists of the first rank," he said. "At present there are 51 pupils enrolled in the upper school and of these 31 come from the central section of the city. "The commercial department should

The instruction of these special students can be provided most efficiently and economically in one "To relieve the present congestion, the accommodation for the commercial school could be found for a time in the technical school if the rooms in this building now occupied by the soldiers' civil re-establishment department for office purposes and possibly also for academic classes be taken over by the board of education. The soldiers' civil re-establishment department could doubtless find office accommodation, and, if necessary, accommodation for their academic classes in other buildings in the city, but no steps should be taken to take away from the soldiers the opportunities which they now have for instruction in the technical school technical school if the rooms in

LOWER AND MIDDLE SCHOOL CLASSES IN SOUTH LONDON, PLAN

Dr. Merchant Advises This For New Collegiate.

Analysis of the attendance at the Colegiate to determine how overcrowding uld best be relieved has been made Principal W. H. T. Mooney. This shows that 216 pupils attend from East London; 499 from the centre of the city; 196 from South London, and 36 from West London; a total of 947. County pupils number 105, bringing the ggregate attendance to 1.052. For South London.

For South London.

Dr. F. W. Merchant of the department of education told the board of education Tuesday that he thought these figures indicated that a branch collegiate would be most useful in South London. He advised that only lower and middle school classes be accommodated there, and that the upper school be a unit at the centre of the city.

This plan would guarantee an attendance of 152 for South London. Of the remainder of pupils from that district, 32 attended the commercial school and 12 attend the upper school classes.

Good Attendance.

attende the commercial school and 12 attend the upper school classes.

Good Attendance.

Mr. Mooney's report for January showed 887 pupils on the roll of the general school with an average attendance of 807. In January, 1919, the number on the roll was 822 and the average attendance 752. In the commercial school last month there were 222 pupils on the roll with an average attendance of 201 compared to 206 on the roll, and an average attendance of 193 in 1919. This makes a total roll of 1,109 compared to a total of 1,028 in 1919. The average attendance, however, was 1,008, compared to 945 in 1919.

Evening classes show increase over 1919. Forty-five are enrolled in the commercial and 34 in the general, a total of 79. Last year there were 46 in the commercial and 28 in the general classes a total of 74.

Coming Season

Most women welcome the season when they can don a trimly tailored suit—the basis upon which rests so often the smart wardrobe. Many advance styles are here.

The end of stocktaking here last week saw the launching of the modes that are destined to rule in the fashion world of discriminating women and with this new month begins in good earnest the business of assembling the spring wardrobe. The pleasure of selecting will certainly be added to when one has choice from assortments so varied and so early in the season.

DELEGATES TO HEAR HOW DETROIT WORKS GOVERNMENT PLANS

W. P. Lovett To Explain the Commission-Manager Scheme.

OPERATES WITH LEAGUE

Latter Affords the Citizens a Chance To Demand Reforms as Recommended.

City Government by Commission Manager, a form of administration which is attracting a great deal of favorable attention in the large cities of Canada and the United States at the present time, will be one of the chief topics discussed at the annual convention of the United Boards of Trade of Western Ontario, being held here tomorrow and Friday.

This subject will be introduced by W. P. Lovett, executive secretary of the Detroit Citizens' League, an organization which is largely responsible for that city's present form of government. for that city's present form of government. He will speak on that subject at a dinner to be tendered to the visiting delegates by the London Chamber of Commerce in the Tecumseh House of Commerce in the Tecumseh House tomorrow at 6:30 p,m,

Mr. Lovett has had long experience in municipal affairs and is stated by those who have been associated with him in his work at Detroit to be a well-equipped and forceful speaker. The organization he represents works in conjunction with the Detroit Bureau of Governmental Research, and the congination is stated to be a most the combination is stated to be a mos effective one.

The Citizens' League in Detroit is the popular side of the team. It affords a channel for the citizen to react to the stimulus of the research bureau. The business of the latter is to point out the need of an improvement, a correction or a reform and the league affords the citizens an opportunity for an organized demand that the change be made. Both organizations function outside of partisan control and have for their purpose the promotion of the city's best interest.

AT ESTIMATES FOR SOUTH COLLEGIATE

Board of Education Is Divided in Opinion.

Money for a branch collegiate may be refused by city council when board of education estimates are brought before it. This would be done on the ground that a central school can be maintained until at least a hundred thousand population is reached. population is reached.

Opinion on the school board itself is divided, and unless a strong recommendation is made to the council for one plan or the other it is not likely to receive the assent of the council. Dr. F. W. Merchant of the department of education has added weight to the arguments in favor of a branch collegiate in South London by indorsing that plan. opulation is reached.

Board Divided. In spite of this, however, there is still a faction on the board of education which thinks that a central school would be the most economical and serviceable. They claim that a brauch school would cost at least \$100,000, and that the yearly maintenance would be between \$30,000 and \$40,000. They assert

CITY MAY REQUEST REBATE ON STREET LIGHTING PAYMENTS

Alderman Thinks Dark Nights Should Mean Discount.

Reduction of the city's lighting bill because the streets have been dark several nights through the power shortage may be demanded by the city council. The question will be considered with estimates for 1920. Ald. G. B. Drake is of the opinion that some allowance is of the opinion that some allowance should be made to the city. It is not receiving value for its money, he claims. Some provision in regard to this may be made when the estimates are struck this year.

The city pays a flat rate for its street lighting. Ald. Drake points out that while this may be satisfactory, the city ought to receive a "flat" service.

SAFELY, IF NEEDED

Special precautions to guard against accidents have been issued to all railwaymen working on the Grand Trunk in this district, by H. R. McLennan, district trainmaster. Engineers are given specific instructions to use their own judgment in regard to the reducing of speed when they have reason to believe that the track may be heaved, owing to the cold weather. Trainmen, who are sent out to protect their train, in case of the train being stailed, will place two torpedoes and a fuse burning red on the rails, if they are recalled before another train passes, are recalled before another train passes, according to the instructions issued by Trainmaste; McLennan. They will also place torpedoes and lighted fuse along the track as may be essential in the insuring of full protection.

It is stated by officials of the Grand Trunk that the severe weather of the past six weeks might cause the heaving of the rails and for this reason every precaution is being taken to pre-

vent an accident. There has not been an accident in this district of a serious nature in years, due to the precautions which have been taken each year. TWO BURNED TO DEATH WHEN FIRE DESTROYS MONTREAL PAINT SHOP

EAST KENT LIBERALS GENEROUS. East Kent Liberals have wisely and gener ously decided not to oppose Mr. Doherty. There is a strong feeling among Liberals all over the province that the Drury Government should be given a chance to make good. Little wonder! Liberalism is always concerned for principles first, and when the differences between the U. F. O. and Liberal platforms can hardly be made out with a microscope, Liberals are generally willing to accept Messrs. Drury and Company as their advocates.

Then besides, the government of Ontario must go on, and the only feasible combination of forces to conduct the administration at present is that under the direction of Premier Drury Liberals both in and out of the House will be lending their help to make the Government a decided success.

Mr. Dewart himself can be depended upon to be a help in various ways by his experience, energy and acumen. He has a gift of finding out things and throwing light on things in general or particular. He has the faculty of research and of fearless frankness. There is no use in blinking facts. You never know how or when they may be useful.

For reasons of provincial weal, East Kent Liberals have shown their public spirit and political sense in allowing Mr. Doherty's candidature to go unopposed and giving him a chance to contribute his executive talents to the Drury Administration.

WHAT LENINE WANTS.

Lenine is badly in need of raw material and other goods, but what he wants much more is recognition by the Allies of the Soviet Government. He appears to have made considerable progress towards securing this through the desire of the Allied ministries to reopen trade Russia. The proposal of the Supreme Council is that the Allied nations trade with Russia through the Russian Co-operative Associ-This, it was intended, would not involve recognition of the Bolshevist administration. Lenine shrewdly realized that the influence of the Allied business world, anxious to get a slice of the rich trade with Russia, would fit in neatly with his game, so he sends an agent to the page advertisement of a New York tailor ad-Supreme Council with word that no business vises the students that "the jackets of the suits can be done with enemies of the Soviet. Peace must be made if commercial relations in any form are to be resumed, and peace, of course, means recognition of the Red Government. For the present the negotiations have fallen through, but pressure on Lloyd George from the Labor party and the business world may compel him to make a peace with the Reds. In that case unless Lenine and Trotzky could be pledged to call off their propaganda in other lands, the Allied nations would be thrown wide open to the agents of disorder and discontent. Lenine seems to have played a card that will be difficult to beat.

ICE AND THE POWER.

Engineer Gaby says that the reason for the shortage of light and power supplied by the Hydro-Electric Commission is due to the accumulation of needle-ice in the machinery of the company's generating plant. The commission also announces that there is no remedy for this condition, that when low temperatures, combining with other weather conditions, prevent the manufacture of power, those who utilize it in mills and factories must sit back and wait until unkind fate is through with its pranks.

Commenting on this statement, the Hamilton Times pertinently inquires if this is to go on forever. What, asks the Times, will be done when the needle-ice ties up the machinery in coming winters, and puts the hydro radial lines out of business all over the province? The point is a serious one. We are putting millions into the development of hydro in different forms. Is it to become a com mon nulsance throughout the months of the Canadian winter? Now is the time, while the Government is at the commencement of Falls' power development, to provide some sort of auxiliary system. The Times suggests pumping stations for the purpose at different points in the province. It is clear that something should be done to head off future experiences such as the people of Ontario have been going through of late to their great loss and exasperation.

INDIA AND THE MOSLEM.

One of the principal reasons given by those who oppose removing the sultan from Constantinople is that such a policy would at once turn the entire Mussulman world of the near east against the British, with grave peril to India. Don't interfere with the Moslem's religious traditions, is the warning, for fear of starting a holy war. Revolt and massacre are certain to follow such an insult to the Mohammedan as ousting the supreme head of the church from his sacred quarters. Whatever is done in the reconstruction of the near east, the first consideration must be the protection of the Mohammedan Church from the contamination of the infidel. This is the gist of the advice that is handed out by statesmen and travelers when the disposal of the Turk is under dis-

It is interesting to learn that so great an authority as Lord Bryce takes issue with the above generally-accepted view. Bryce, who

there would be any danger in removing the sultanate from Constantinople to some point in Asia Minor. He draws attention to the fact that it is generally overlooked that the Turkish metropolis and capital is not a holy city, like Mecca or Medina, and that the greater portion of its population is Christian.

Bryce deprecates any timid approach to the Turk question. He thinks the Allies will be much safer if they act boldly. Like the Hun, the Turk must be "treated rough." Lord Bryce would have the sultan's throne removed to a city of Asia Minor, in some section where the population is entirely Moslem. All parts of the empire that are Christian he would have placed under the protection of the Allies or given independence. This is a radical departure from the time-honored method of handling the unspeakable Turk, but as the old way did not stop in the slightest the periodical massacres of Christians, the Allied world might give at a test while they are in a position to back it up with force of arms.

The Paisley by-election is the most important political battle that has been staged in the Old Country for some time. Should Asquith win it will be a big step towards the come-back of the Liberals. It is surprising what a lot of superstition reigns all over the country. People avoid the number 13 in every sort of way. VERNON CASTLE'S LAST DANCE WITH HIS

[Exchange.] "I have taken out all that seemed too sacred to be made public and locked it tightly in my heart."
These words appear in the preface of a poignant human document, "My Husband," written by Irene Castle, the dancing partner of young Vernon Castle, who sacrificed a salary of \$5,000 a week, and late his life, to serve his country in the Royal Flying

Vernon Castle, whose sunny nature won him friends in all parts of the world, was killed in Texas in February, 1918, at the age of 29, while attempting to save the life of a flying pupil he was instructing. In the story of his life, written by his widow, Vernon Castle appears in the role of the ideal lover. The young couple started life together practically penniless, their only asset being their art. From a varied career in dingy cabarets in Paris the couple danced their way to fame and fortune, which was at its height when war and separation came.

Here is the account of the great parting: "Swallowing hard, I waved feebly out of the window as the train moved from the platform, leaving him standing at the salute, every bit a Once out of sight I sobbed to my heart's content, and as the fields and hills rolled by hazily I wrote this little prayer for him. It's poor, I know, but I quote it because he wore it tied around his neck with a dirty little string for the next nine

"Almighty God, if Thou art there, Listen to my humble prayer, Keep him in your care alway. Watch o'er him this weary day, And keep him safe. Make him feel my love and sorrow, Bring him back some near tomorrow, And keep him safe."

The last dance of the dancing partners took place while Vernon Castle was on leave. "On the night of the benefit he danced divinely. At the close of the performance many beautiful flowers were handed to us over the footlights.

"In the wings Vernon nervously kissed my hand and there were tears in his eyes. I wonder if he guessed? We had danced our last dance, and the last ring of applause for us was still. The world had been very good to us. Together we tasted success, fame and money. Thank God that at no time during that night did I dream it was the end." In summing up his career, Mrs. Vernon Castle

"Vernon was so like a little boy. He was in-terested in everything. I have heard of no one who disliked him. In spite of the money he made he never had any. He loved spending it. You simply could not persuade him to save for the future. am happy now that he spent and enjoyed the money he had to the fullest degree."

THE FUR TRADE AND ADVERTISING.

[Quebec Telegraph.]
There is perhaps more boosting done in the wholesale fur trade in the United States than in any other industry. At present there is an enormous rivalry between New York and St. Louis for world, for the storage and sale of raw furs. The rival announcements of the two cities and their leading fur organizations are costing hundreds of thousands of dollars. St. Louis claims that at her forthcoming fur sales, no less than 80 per cent of the world's visible supply of furs will be on exhibi-tion and sale. Meanwhile London has been announcing her forthcoming sales in American papers, and purchasers from this side are preparing o cross for them, while from Asia as well as from Europe leading furriers are sending representatives to the American sales. But where will these and the English sales be when Canada gets well started? American sales. But where will these and above generally-accepted view. Bryce, who possesses a profound knowledge of near eastern political and religious affairs, denies that duced in Canada?

TO AID THE MINISTRY.

[Kingston British Whig.]

Seeing there is so great a shortage of men for the ministry and mission fields, why do the churches not make it a little easier for capable and willing men to reach the pulpit. The seven-year university course has been the means of keeping hundreds of willing men out of the ministry because of financial difficulties. Here is a matter for the Forward Movement officials to consider.

"Plays among?" repeated the other. He followed McTavish into the house and sat down heavily on a stool. "what doy you mean by 'plays among?"

"I mean that he moves among the wild things and they are not scared of him the same as they are of you and me or anybody else. They do say that he can fondle the cubs of bears, and wolf-kittens. I've seen him playing with a big snake, myself,—not a poisonous one, of course. Seems as though Davie can pick out the things that are harmful quick enough. Inquiries, being received by the department of education indicate that there is great interest throughout the province in consolidated schools, which were made possible by an act introduced at the last session of the Legislature. His hand brought forward a leather wallet. A hard smile warped his mouth as he opened the wallet and drew out a small photograph. It was the likeness of a young women with event force and great even voman with sweet face and great eyes. Woman with sweet face and great eyes.

"Till see him—leave that to me," paisley replied. "And I'll see the rest of the Bushwhackers, even old man Broadcrook and his sons, who haven't any particular use for me, somehow."

"I guess what the Broadcrooks do won't matter much," laughed Boy. "They hate everybody and everything, it seems. I don't know why."

He picked up the fork and turned toward the path. A west wind had piled up a bank of long drab clouds above the wood. The wind was damp, and from the distance came the dull boom of the waters beating upon the mucky shore of the bay.

A few yards down the path Boy halted.

"Say, Bill, dad was tellin me about the talk you had with the teacher. I wish you'd get better acquainted with him and make him see that his place isn't here."

"If he was half as smart as he thinks he'd see that it isn't." replied Paisely. "And, Bill," called Boy from the edge of the wood, "I guess Mary Ann knows as real man when she sees one. Keep askin' her till she says 'yes,' Bill."

The Hacking Cough

STRAINS THE LUNGS

The terrible, hacking lung-racking cough that sticks to you in spite of everything you have done to get rid of it is a great source of danger to your health, and the longer it is allowed to

You can easily get rid of the cough or cold at its inception by using Dr. Wood's Norway Pine Syrup, a remedy that has been universally used throughout Canada for the past 30 years.

Mrs. Samuel Matthews, Portage, P. E. writes; "Last winter I caught a heavy cold, and was laid up for some "All I know is, we're thankful to time. Peace Incomes and War Prices

EN years ago a Canadian clergyman was forced by illness to retire from active work. The largest salary he had received in the forty years of his ministry was \$1000 and a furnished house. The average did not exceed \$800.

On this sum he had maintained and educated his family. He and his wife were given to frequent hospitality. They supported every good cause, and even contributed to the maintenance charges of the Church they served.

A Minister's Budget

By good management and economy they were able to carry an endowment insurance policy, pay an assessment to their Church Superannuation Fund, and accumulate some small savings. When that clergyman was superannuated in 1909, he bought a house. His income

during the first year of retirement was as follows:-The retiring allowance from the Church (being \$10 for each year of active work) - - - - \$400.00 Interest from investments - - - -Wedding fees and sundries - - -

> Summer supply work - - - -Against this total of \$675 stood the charge for taxes, insurance and maintenance of the house; say, \$75, leaving a net annual income of \$600.

The Shrinkage in Values

Before the war, the rise in the cost of living had necessitated careful management of this income. Today, the pressure is too great to be borne. If the statisticians are correct, the dollar of 1913 is worth now in purchasing power

Therefore, the real income available to

maintain these people of refinement and culture is \$282 a year.

Do you say that this is an exceptional case? On the contrary, scores of retired clergymen are not so well situated as this one. Some are tasting the bitterness of destitution, since in a few instances no retiring allowances are provided for.

Veterans of the Cross

These men gave a lifetime of unselfish service for their Church, their country, their neighbors; visiting the sick, burying the dead, comforting the bereaved, preach ing Christ crucified, and doing their part in making Canada "God's country." In a

time when the payment of pensions to old employes is accepted as a reasonable thing by industrial firms, these veterans deserve more consideration than they have been getting from the Christian people of this

Y. W. C. A. HAS NO OPTION ON LOCAL **BUILDING FOR HOME**

General Secretary Indignant At False Reports Circulated.

Mrs. Henderson, general secretary of the Y. W. C. A., declares that there is no truth in the story circulated by a local paper that the Y. W. C. A. has an option on property which it intends to convert into a new recreational and administrative building. For some months past the Y. W. C. A. board has felt the great need of a new building better adapted to its purposes, but abandoned the idea of such a building for the present, when the last campaign for funds was launched. This campaign was advertised as one to raise funds for "carrying on" purposes only.

only.

It would be impossible for the Y. W. C. A. board to option a building, when there are no funds available for its purchase. It is true that a better-equipped and larger Y. W. C. A. building is necessary in London, and that without doubt the Y. W. C. A. will come to the city for funds in the near future to make such a building possible, but that there is to make such a building possible, but the steron no steers toward the purchase. it has taken no steps toward the pur-chase of such a building as yet. Not Eating Much.

Fat folks who are frankly and avowedly fat are crabbed by nature, contrary to a popular belief. It is the folks who are getting fat, not yet avowedly fat, who are good natured. These folks are too good natured about it for their own welfare. They actually welcome the excess weight, in many instances, as a sign of health, whereas it is a sign of impaired physical efficiency and an onen of shortened life.

It is a most amazing thing, how complemently a human being takes a steadily increasing obesity. It a man has a woman does not become too fat unless the horse a certain amount of feed everyday and a certain amount of feed everyday and a certain amount of exercise, to keep the animal in condition. When a man feeds a horse too much or fails to give the horse a sufficient amount of daily work or exercise to burn up the nutriment assimilated, people feel sorry for the man, for he isn't bright. Both teams had been playing a great deal of combination all through the first two periods without results. However, it took shape in the third period for two goals. London started in to play at top speed in this period, and took the disc along the boards and notched the opener on a wicked shot from his wing position in seven minutes. The forwards combined and went down. Logan took the rubber out of the mixup for another counter in nine and s-half. This evened things up, and the fans started to take a little interest and give the boys a CARAVELLA

TO RELIEVE CATARRHAL DEAFNESS AND HEAD NOISES

If you have Catarrhal Deafness or are hard of hearing, or have head noises, go to your druggist and get 1 ounce of Parmint (double strength), and add to it ¼ pint of hot water, and a little granulated sugar. Take one tablespoonful four times a day.

This will often bring quick relief from the distressing head noises. Clogged nostrils should open, breathing become easy and the mucus stop dropping into the throat, it is easy to prepare, costs little and is pleasant to take, Anyons who has Catarrhal Deafness or head goises should give this prescription a grial.—Advt,

KITCHENER WINS, 9 TO 7.

NEW HAMBURG, Feb. 3.—In a fast and clean game, the first round, the Kitchener intermediates took the measure of the local team to the tune of 9 to 7. Referee Lawson Whitehead, who incidentally had a hard game to feleree and filled the bill, did not have to hand out a penalty. In the first period the locals had far the better of the play, but Schmalz, the Kitchener goals in with a spurt, scoring three goals in the six minutes, but in the next four minutes, with a spurt, scoring three goals in the final period the visitors displayed their best hockey of the game and scored four goals to the locals 'two, the final score being 3 to 7 in favor of Kitchener.

For New Hamburg Bowman was the best, checking his wing to a standstill and making some pretty rushes through the Kitchener defence. For the visitors G. Schnarr showed the best form, while Schmalz, in goal, was responsible for the Kitchener victory.

The association went on record in favor of having all sheep bred in Canada and sold as pure breds registered at Ottawa. This decision was made because a number of Canadian breeders had kept records of their flocks in American registers, and Canadian breeders buying this stock have had difficulty in securing Canadian registrations.

trations. Reduce Milifeeds.

A resolution was passed declaring that milifeeds should be reduced in quality, that the legal definition of feeds was not sufficiently clear, and that many of these feeds contain injurious seeds. It was therefore asked that all classes of milifeeds be clearly defined, and that the enforcement of the law be in the hands of the department of agriculture.

Lieut.-Col. McEwen, in speaking on the matter, said repeated representations had been made to the Government in the past, and it was a pity that action had not sooner been obtained.

WALL STREET.

New York, Feb. 4.—Wall Street, 10:30 to doay's stock market session pointed to a continuance of the recent unsettlement created by the demoralized foreign exchange situation. Even before the market opened, demand bills on London were offered at \$3.27\%, or 5\%c under yesterday's lowest quotation. Motors, steels, oils and shippings were foremost in the early reaction, losing 1 to 3\%c points. Equipments and unclassified specialties followed at similar losses. A few leaders made moderate rallies withing else. Guaranteed to give absolute satisfaction or money refunded. The Pinex Co., Toronto, Ont.

Barley opened 1c down for May at \$1 \$3 \frac{1}{2}.

May flax opened 5c lower at \$4 95.

Chicago, Feb. 4.—Material declines in the corn market today were due for the most part to sympathy with the demoralization of sterling exchange. To some extent the virtual embargo on grain shipments eastward from Chicago was also a depressing influence. Selling, however, was not of an urgent character. Opening prices, which ranged from \(\frac{1}{2}\)c to 1\(\frac{1}{2}\)c lower, with May at \(\frac{1}{2}\)13\(\frac{1}{2}\)20 \(\frac{1}{2}\)12, were followed by a moderate further setback.

****** The Quick Way to Stop a Cough

This home-made syrup does the work in a hurry. Easily pre-pared, and saves about \$2. & You might be surprised to know that the best thing you can use for a severe cough, is a remedy which is easily prepared at home in just a few

moments. It's cheap, but for prompt results it beats anything else you ever tried. Usually stops the ordinary cough or chest cold in 24 hours. Tastes EXCHANGE DROPS LOWER.

New York, Feb. 4.—Demand bills on the English pound sterling, which dropped yesterday to the low record rate of \$3 33, were offered at \$3 27½ at pleasant, too is pure and good.

Spanish preferred dropped a point to 11s. Quebec eased to 27\%. Steel of Canada sold unchanged at 79\%. Iron opened a fraction off. On the other hand, Riordon opened a point higher at 176, and rallied a point soon

made cough syrup.

And as a cough medicine, there is really nothing better to be had at any price. It goes right to the spot and gives quick, lasting relief. It promptly heals the inflamed membranes that line the throat and air passages, stops the annoying throat tickle, loosens the phlegm, and soon your cough stops entirely. Splendid for bronchitis, croup, hoarseness and bronchial asthma.

Pinex is a highly concentrated compound of Norway pine extract, famous for its healing effect on the membranes.

MABEL NORMAND IN "PINTO," SHOWING AT WORKERS IN CHURCH

Photoplay of Pep and Action
Will Be Presented For Last
Time Today.

Speakers From Toronto Encourage Campaigners.

"Pinto," starfing Mabel Normand, will be shown at the Majestic Theatre for the last time today.

"Pinto," starfing Mabel Normand, will be shown at the Majestic Theatre for the last time today.

It presents the vivacious little star in a role that is in direct contrast to the characters she has portrayed in the past.

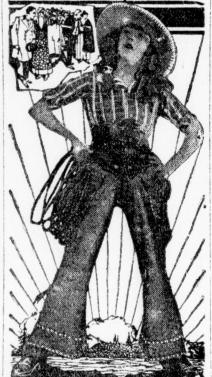

Pinto is a girl of the west who has grown up under the guardianship of five ranchmen in whose care heir father left her when he died. Her daring exploits on her pony, Legs, nearly drive the cowboys on the ranch to distraction. Consequently, they are overloyed at the news that Pinto is to go to New York for a year to visit with Pop Audry.

Pinto's first shock in the east comes with the knowledge that New York is not a ranch, as she had thought. A young fellow of engaging personality hamed Bob De Witt helps her find Pop Audry's home, and they become very in this district.

Find Made Movement of court were not in existence. Modern Dances Unclean.

He criticized the modern dances, many of which he said were unclean and silly, and he went on to say that certain classes were making vilgar and ostentations display of wealth while Bolshevism and anarchy looked through the window. He declared such people harmed the country from these dangers.

Mr. Gundy took as a theme for his talk the disgust expressed by a returned soldier friend in regard to the general seifishness of the Canadian people who, while their sons were bleeding in France, were living on the fat of the land and rolling up riches. Mr. Gundy said that the people of this country had fallen down in their duty to their church and themselves in the nast.

He said he answered the arguments of his friend with the statement that he believed the great unselfish motives which prompted the soldiers to give their all on the fields of Flanders formed the basis of the character of the Canadian people, and that the apparent selfishness were only debris on the surface. Nevertheless, he said, he could see many things that would cause his soldier friend to feel as he did.

The latter found on his return to the campaign would prove highly successful. All the speakers told of huge submany cities in Canada.

Many who visit the Grand this week and view Mary Pickford's first United Artists' Corporation feature, "Polly-anna," will wonder where she learned the quaint little dance which features

isters who had spend 30 and 40 years in the building up of the character of Canada cut from \$400 and \$500 to half that amount by the increased cost of living. He said that \$1,500,000 of the amount of money raised in the national campaign would go toward relieving the hardships of the retired pioneers. He spoke of the heavy debts under which all the colleges of the Methodist Church throughout the country were struggling, while thousands of returned boys clamored at their gates for edu-

Women who are in this condition may rely upon Lydia E. Pinkham's Vegetable Compound to restere them to health and strength.

It was far safer to conduct business where there was many Christians than where was many Christians than where few in number. It would not pay to pi'e up money for the children of the next generation if they would have to spend it flighting the yellow peril.

Bringing in the tithes was far more effective than merely praying, while still hanging on to the money that belonged to God. Mr. Gundy said that there never was a time when the Canadian people did not pass their objective, and so not forman, a returned soldier, and so not

Ambassadors of God.

He concluded by urging the canvassers not to go into the campaign unless they were prepared to make sacrifices themselves. They must remember that they were ambassadors of God, and that their clothes must be clean, and their heart right, and that they were confecting a spiritual campaign.

The funeral of John O'Conner, Wellington street north, who died Saturday night at the age of 73 years, took place this morning to St. Marys Cemetery.

were ambassadors of God, and that their clothes must be clean, and their heart right, and that they were concurring a spiritual campaign.

Dr. Graham paid tribute to the leaders in London. He said that in spite of the many who were asking "What is wrong with the age when plagues and wars are prevalent?" and in spite of the belief of some that the world is nearing its end, he believed that the world was entering a wonderful age, in which the little things would not count and that already great things were looming on the horizon.

"Democracy is in the laboratory and we wnder whether a heautiful crystal or a poisonous gas will come out of it. Christianity is at the crossroads, and you dare not say 'God is on the throne and all will come right with the world.' Millions soff at Christianity and say, 'You Christians put up with all the wrongs because heaven is your home.' It has come to the place where we must decide whether we are to be governed intelligently or by class rule, or by chaos, or by Christ."

Dr. Graham said he did not apologize worth fighting for. He spoke of what it meant and related many instances in which heroic acts were performed through Christian faith. He said than nothing but the spirit of Christ in human folks could make Canada safe, and Christian faith. He said than nothing but the spirit of Christ in human folks could make Canada safe, and Christian faith. The latter found on his return to this country that the number of motor cars had increased tenfold, the savings of the people from one billion to two billions, besides another two million which had been loaned to the Government at a high rate of interest. The insurance companies had done the greatest business in their history during the past year, and an occasional farmer had paid off his mortgage.

"Canada is deluged with riches as she never was before. "She has a great future, but it is in peril—the peril of riches."

"He went on to say that the people had allowed the salaries of ministers to be cut in two, in effect, by the high cost of living.
