Giant Dirigible Reaches Lakehurst, N. J., From Friedrichshafen, Germany.

SAFELY MOORED

Makes Flight in Eighty Hours, Averaging Speed of 60 Miles an Hour.

Associated Press Despatch. Aerodrome, Lakehurst, N. J., Oct. 15.-The giant Zeppelin ZR-3 was safely moored in her berth at the naval air station aerodrome, Lakehurst, at 10:45 a.m. today.

She completed her journey from Friedrichshafen, Germany, a distance of approximately 5.000 miles, in 80 hours and 45 minutes.

Immediately that she snubbed fast, her navigating officers and crew dis-embarked, officers climbing into her hull and cabin with field mechanics to begin an inspection of the gas bag dural unique structure, and matters

duraluminum structure and motors.

The safe arrival of the ZR-3 from Friedrichshafen, Germany, marks the fourth successful attempt of humans to span the waters of the Atlantic ocean in non-stop flight. The blg craft arrived here today, 89 hours and 45 minutes after she sailed from Germany.

Germany.

Aeronautic experts of army and mavy regard the trip of the ZR-3 as the most significant, if not the most spectacular flight in history. They declared today as the huge liner ended the longest continuous aerial pas-sage in history and headed toward her berth to settle docilely and be fied up, that the world was witnessing undeniable evidence that the dirigible was destined to be the inter-continental passenger ship of the near

Why I Shall Vote O.T.A. SETTLERS

E. E. REID, General manager of the London Life Insurance Company.

"Having had the opportunity of seeing the resalts of government control in its various forms in the other provinces, I know that no right-minded man, having the good of this province at heart and knowing the conditions that have developed in these other provinces, would vote for anything but the strengthening of the present temperance act.

"The moment the sale of liquor in any form is authorized, the opportunities for drinking are enlarged, the amount of liquor consumed is greatly increased, and the abuses that undoubtedly do exist under any form of prohibition are multiplied many

"Aside from all other considerations, it seems to me that the almost universal use of motors should make any sane citizen hesitate to make drinking easier than at present. The combination of whiskey and gasoline is critically dangerous for motorist and pedestrian alike.

"The strengthening and better enforcement of the present act is surely the direction in which we should move."

FOX'S TRIAL STARTS GIRL TAKES STAND

Farmer Tells of Hearing Screams on Asylum Sideroad.

DENIED BY PRISONER

The case of Thomas Fox, charged with the rape of Susie Kilty early on the morning of July 29, will be concluded before a supreme court jury early this afternoon.

The girl, who is but 17 years of age, told her story this morning and was corroborated by her sister Gladys, who was also taken on the wild motor ride by Fox and his companion, Sylvadore Sansone. latter was found guilty late last night

of indecent assault on Gladys Kilty During cross-examination by J. A. Braden, counsel for defence, Susie Kilty broke down and wept for several minutes. V. A. Sinclair, K.C., of Tillsonburg, is acting for the crown and is being assisted by Crown Attorney Albert M. Judd.

Evidence of the girls, that they screamed and called out and were answered by a farmer on the On-tario hospital sideroad, was corroborated by William Box, a farmer of London township. It is likely that his evidence will go far to offset the evidence of Fox, who stated that Susie Kilty did not object when he became intimate with her on two occasions that night during the course of the automobile ride

The manslaughter case of William Hodges will be tried at the conclusion of the Fox case.

First Witness.

Susie Kilty, 16 Wilson avenue, was the first witness called by Mr. Sinclair. She said she was 17 years of age last January. She first saw Thomas Fox at midnight, July 28.

The girl then told of being yanked into the Fox car at Dundas and Ridout streets, by Sylvadore Sansone Fox and another man were in the car. The third man got out of the car at Oxford street, and she was told to get into the front seat with

One thousand students of the three units of the London collegiate institute passed 85.3 per cent of the papers written at the departmental examinations last June. The value of the university of Western Ontario honor matriculation scholarships won by students of the collegiate totalled

Such were the outstanding facts of a very interesting report submitted to the board of education by Principal Everton A. Miller. The report indicated that splendid success had at-teded the efforts of the staff and students of the collegiate institute. The report proved also that the condon collegiate institute stands nigh among the secondary educational institutions of the province, both as to the academic work done in the class-

room and also all the various activ-

Principal Milier referred to the fact that each year certain papers cause more difficulty than others and hence statistics alone could not be reited upon to give all the information necessary to

arrive at conclusions which would be fair with regards a summarization of the results. Average Unusually High.

Principal Miller assumed the attitude, too, that the mere ability of having students pass examinations successfully should not be regarded as the only essential, or even the greatest essential, in the qualification of a

successful teacher. In connection with the honor matriculation scholarships, Miss Katharine Tilden was specially mentioned, she having captured two scholarships to the value of \$400, a general proficiency scholarship and a special tuition scholarship, as well as ranking first and second for three other scholarships are in Fractical to the scholarships and second for three other scholarships. scholarships, one in English one in English and mathematics and the third in mathematics. Miss Tilden ranked for scholarships to the value of \$625, and in doing so, obtained first class honors, 75 per cent or over on eight papers, and second class

honors, 67 to 74 percent on two other papers.
Other scholarships captured by students of the L. C. I. were: scholar-ship in mathematics and physics, value \$150, Russell Munroe; scholarships in Latin and in Greek, each valued at \$75, Arthur Hedges; schol-

MAYOR TO LAUNCH PROBE TONIGHT

Question of Firemen's Absence at Country Blaze To Be Considered.

SUGGESTIONS MADE

Interesting progress in the matter of county fire protection is promised by Mayor Wenige, in discussing problems for tonight's session of No. 1 committee of the city council. The mayor admitted today that he had not yet received any written explanation from Fire Chief Aitken regarding the latter's action in recently taking part of the fire fighting equipment and six men to a barn fire in

ment and six men to a barn fire in Lobo. However, developments, which he was not yet ready to disclose, had come about, the mayor declared.

With county fire protection a live issue in municipal circles, the matter may be brought to a head with strong forces at work in the council. Some aldermen object to the mayor's criticism of the chief's action, and aver

aldermen object to the mayor's criticism of the chief's action, and aver that the chief is not altogether in the wrong when he tries to co-operate with rural districts.

Here is one suggestion from an individual not on the council. The county pays a percentage of the cost of jail administration in London—Why not contribute towards the upkeep and privilege of using portable fire annaratus in the city?

fire apparatus in the city?

J. M. Parsons' Suggestion. cites an agreement which he believes to be in effect, that use of city apparatus in rural fires be charged to the community served—\$100 for each fire and \$50 for each \$100 for each \$10 fire and \$50 for each hour which the department is away from the city after the first hour. This agreement serves only London township, how-

ever.
Mr. Parsons suggests that suitable apparatus for farm fires be maintained either in the city or at country points. He declares that the apparatus of the London department is not intended to fight rural fires. and that specially-devised pumps are necessary to handle dirty water from creeks. His argument, at the same time, contains some criticism for Mayor Wenige, as he points out that if the statute to collect for rural fires really is in effect, the mayor should

see that fees are collected.

"Apparatus such as that of the I ndon fire department is not suited for combatting fires on farms," says Mr. Parsons. The pumper is in-tended to force the water pressure from hydrants. On farms creek water is usually dirty. Dirty water would ruin the type of pumper on the city's apparatus. A piston pump is what is needed for fire-fighting in rural dis-tricts. Small apparatus such as that could be purchased economically by

any group of farmers.

Mayor to Open Probe.

"There is no need for any district in Canada to be without fire protecin Canada to be without fire protec-tion. Small pumps that will pro-ject water from a dirty creek or from a well can be purchased for a few hundred dollars. Water thrown from a pail loses 98 per cent of its ef-ficiency, but a small portable pump can do much better work than that." Further suggestion of Mr. Parsons in discogning fire regulations is that in discussing fire regulations is that fire inspectors be appointed by the government and not be in the pay of the underwriters' association. He is an advocate of municipal fire insur-ance and offers a boost for closer co-operation between the fire departments of London and nearby munici-

palities.

Mayor Wenige discussed the matter only briefly today, but intimated that a thorough probe would be opened at tonight's committee meeting.

In many cities where early enthusiasm was not met with the response expected, and where a large system of school building was under taken together with an ambitious layout of the city, the taxation falls very heavily on the present citizens. How to get the immigrant to settle n the land and how to get the right ype of immigrant in the first place

Mr. Cronyn regards as the crux of the position.
"I think," he said, "that the government must be prepared to spend more money on this work, if the required ends are to be achieved. I know it means another bureaucracy in the government, and a number of new appointments, but the imperative need of the west, and indeed of the whole dominion, is sufficient justi-

RIGORS OF WINTER British Columbia Defended From O.T.A. Slanderers

In his address last night, Mr. George M. Murray of Vancouver, B.C., gave an effective reply to the slanders which have been so freely published in the O.T.A. press of this province about the situation in British Columbia.

He gave a flat contradiction to the statement that many failures had resulted in British Columbia since Government Control had been adopted.

Mr. Murray repudiated the slanders of Rev. A. E. Cooke, who has been so freely quoted in O. T. A. literature, and showed how Rev. Cooke has finally been compelled to leave Vancouver and accept a call in a small town in Wyoming, U.S.A., the country he originally came from.

Mr. Murray named many prominent men in British Columbia, men whose reputations and public spirit are unassailable, who are strongly in favor of the present law.

He showed how bootlegging and the moonshine industry took their rise under prohibition, making it harder to deal with those evils today.

His entire address was a smashing attack upon the exaggerations, misrepresentations and slanders which have been given such prominence in The Advertiser and other papers supporting the O. T. A.

The Question of Importation

Dealing with the question of importation, Mr. Murray explained that the Doherty Act was not in force in British Columbia because no referendum on importation had been taken while prohibition was in force. The Premier and Attorney-General besought parliament to legislate this power to the British Columbia government and an act was passed in the Commons but was killed in the Senate so that importation into British Columbia, unlike the situation in Ontario,

He pointed out that the Doherty Act prohibited the importation of liquor for any purpose that was made illegal by the law of the province.

He concluded his address by saying: "An ironclad liquor control law, such as we have in British Columbia, in the hands of a government desirous of proper enforcement, coupled with a government monopoly of importation, such as is now possessed by Ontario, would, in my opinion, render this province more nearly dry than it has ever been in its history. Under such conditions the bootlegger must cease to exist."

These are the words of a man who is absolutely disinterested in the present plebiscite campaign in Ontario, and speaks only for his own home province. He has seen the working of both Prohibition and Government Control in British Columbia. He is not a drinking man himself, has not even obtained a permit to buy liquor, but he believes in Government Control because he has seen its effect.

Easily and cheaply made at home, but it beats them all for quick results.

Thousands of housewives have found that they can save two-thirds of the money usually spent for cough preparations, by using this well-known old recipe for making cough syrup at home. It is simple and chean but it has no equal for prompt results. It takes right hold of a cough and gives immediate relief, usually stopping an ordinary cough in 24 hours or less.

Get 2½ ounces of Pinex from any druggist, pour it into a 16-oz, bottle and add plain granulated sugar syrup to make 16 ounces. If you prefer, use clarified molasses, honey or corn syrup instead of sugar syrup. Either way, it tastes good, keeps perfectly, and lasts a family a long time.

It's truly astonishing how quickly it acts, penetrating through every air passage of the throat and lungs—loosens and raises the phlegm, soothes and heals the membranes, and gradually but surely the annoying throat tickle and dreaded cough disappear entirely. Nothing better for bronchitis, spasmodic croup, hoarseness or bronchial asthma.

Pinex is a special and highly con-

RAILWAY BOARD

Commissioners Order Withdrawal of Crow's Nest Pass Agreement.

IN FIFTEEN DAYS

Canadian Press Despatch. Ottawa, Oct. 14.-The board of railway commissioners today issued an order disallowing the Crow's Nest Pass rates and requiring them to be withdrawn from operation within 15 days from today.

The majority report, which was prepared by Commissioner A. C. prepared by Commissioner A. C. Boyce, and is concurred in by the chief commissioner and by Commissioners Calvin, Lawrence and Nantel, disallows the Crow's Nest Pass rates and orders that they be withdrawn from operation within 15 days from the date of judgment. The days from the date of judgment. The net result is that railway freight rates remain as they were on July 6 last. Flour Rates Remain.

Eastbound rates on grain and flour which were in effect before July 6 are not affected by the judgment. The judgment specifically disallows those freight tariffs which were filled by the Canadian raily s following the revival of the fu tow's Nest Pass agreement on Ju. 6 of this year. While eastbound rates on British Columbia fruit remain undiscrimination. discrimination changed, alleged discrimination against the British Columbia fruit grower is, it is pointed out, removed by the board disallowing the westbound commodity rates in effect on July 6.
From the judgment of the majority,
Commissioners McLean and Oliver

Commissioner Boyce finds in his judgment that the railway commis-sion has jurisdiction under the rail-way act, over the tolls and tariffs of all railway companies within its furisdiction and of its remedial func-tions and for the purpose of adjust-ing the present disparaties and disocation of rates may and should make such adjustments as will restore equalization and stabilization of railay rates throughout Canada. The board, he contends, while paying due regard to agreements, is in no con-clusively bound by them.

Mrs. Chapman's Letter Reads as Follows:

New Albany, Ind.—"I took Lydia E. Pinkham's Vegetable Compound for a weakness which many women have from over work, and from which I suffered for quite a while. I wasn't fit to do my work and my sister advised me to take this medicine. After the first few days the pains were not so severe as they had been and after taking a few bottles I am not bothered any more. I am doing my housework every day and highly recommend the Vegetable Compound to any woman suffering from female trouble. Oct. 23, the date of the taking of the plebiscite on the O. T. A. This decision was reached at yesterday afternoon's meeting of the union, on motion from Mrs. May R. Thornley. Mrs. A. J. Chapman, the vice-president, was in the chair.

The meeting was devoted entirely to intercession on behalf of the temperance cause in connection with the coming vote. The prayer period was opened by Mrs. John Vale, who earnestly urged the women to do everything in their power to retain restrictive liquor legislation in the interests of the young people of the country. She had seen, she said, the disastrous conditions which prevailed in the lord Roberts school, with Mrs. H. T. Reason in the chair. Guests of the club for the evening were the teachers of the school, and a welcome was extended to them.

At the conclusion of the business meeting, Mr. Arthur Kennedy gave a very interesting and eye-opening talk on "The Plebiscite," presenting the O. T. A. question in such a way as to show in what a disastrous way government sale would affect the home, the wife and the mother.

He pointed out the fact that no one knew what government sale would really mean—in other words, to vote for it was to vote blindly. He also stated that the revenue from

A Tragedy of Middle Age Dorothy Dix

Problem for Mrs. Legion

If Your Children No Longer Need You and Your Husband Doesn't Appreciate You, Try Going Away for a Year-You'll Find You'll Return to "Live Happy Ever After."

She is a middle-aged woman and her name is Mrs. Legion. You know her. She lives just around the corner from you-a stout, grizzle-hairea woman, plainly dressed, with dull, listless eyes and a fretful expression about her. Often she drops around in the twilight and tells me her troubles.

She was married when she was a young girl to a boy as poor and as young as she, and they started out together to make their fortune. They both worked hard and scrimped and economized, but they haven't piled up much of a fortune-just barely enough to save them from dependency in their old age, for the babies came thick and fast, and it takes so much money to feed and clothe a houseful of children in these days.

Mr. Legion was just an ordinary, commonplace sort of a husband. He thought that if a man supported his family and didn't beat his wife he had done his full duty by them. It never occurred to him to try to make Mrs. Legion happy or to do any especial thing for her pleasure. He would have considered it almost nambypamby to have paid her a compliment or showed her any appreciation or tenderness.

For the rest, Mr. Legion was an irritable man, often overworked and nerve-rasped, and he vented on his wife all of the rage and surliness that he dared not visit on customers or his boss. There were times when he would sit up for days in a black silence that terrorized the household; times when he would rave like a madman in a fury over nothing; times when he would curse Mrs. Legion as if she were a dog. A hard man to get along

There were terrible scenes over the household bills, though Mrs. Legion pared them down to the bone. Always she had to screw out of their father every dollar for the things the children needed. As for herself, she never had a penny for her very own. She never dreamed of such a folly as trying to collect any part of the wages she earned as cook, and housemaid, and seamstress, and

Matrimony brought more kicks than ha'pence, as the saying goes, to or Mrs. Legion, but she never noticed it while she was bringing up her children. She was too busy with her babies, with her growing girls and boys, with her grown sons and daughters, to stop and think about whether she was happy or unhappy. There were too many meals to cook, too many childish quarrels to settle, too many stockings to darn, too many party PLANS DANCE, BANQUET dresses to make for the girls, for her to observe her husband's attitude toward her and ask if all was well with her world.

> It takes leisure for introspection and for the measuring of ne's grievances, and, unfortunately, Mrs. Legion has it now. Her children are all married and gone about their own affairs, and there is no one left in the old home except herself and Mr. Legion. The hands that have been so busy for so many years are idle. Mrs. Legion has time now to realize her unhappiness, and in the long. dull hours that she sits alone she adds up the account, that she had been subconsciously keeping ever since they were married, of Mr. Legion's sins against her

3 o'clock on Wednesday afternoon, at St. Paul's cathedral, when Miss Ama G. Walker, daughter of Mrs. Mary Jane Walker and the late Joseph Walker, of London, became the bride of Mr. William Tenhallurick of Buffalo. Dean Tucker officiated.

November 9.

The poppy selling campaign will start on Friday, November 7, and start on Friday, November 7, and of the King for me," she says, "because I had the children then. But now they are gone. Now I do nothing but think of it and wonder how I stood it. Twenty-five years of it! And now I feel that I have come to the end of my endurance. I can't stand it any longer. I would leave him and get a divorce, only I don't want to shame my children, and I don't know what start on Friday, November 7.

Poor Mrs Legion! That stout, grizzle-haired, middle-aged woman, with the dull, lacklustre eyes and the fretful lines around her mouth, that lives around the corner, what is she to do?

Divorce isn't the answer to her problem. A woman such as she must have her settled place in society, her own house, the knowledge that the neighbors do not talk about her when they gossip over the back sence or across the airshaft. She would be utterly miserable living around among her children, dependent upon them, and she has no private fortune. Nor could she endure knowing that other women give her the contemptuous pity that they feel toward all women who have made a failure of matrimony. And she would have even more leisure to indulge in self-pity that she has now.

Little as Mrs. Legion suspects it, in spite of her husband's neglect, A splen- spite of the fact that she thinks she dislikes him, there is still that strange, mysterious tie of the marriage bond that holds her to the man who is the father of her children, the yoke mate by whose side she has pulled the heavy load of a family for a quarter of a century. There are habits that bind people as closely together as affection.

> Divorce would not solve her problem, and get the remedy for Mrs. Legion, who at middle age is tired of her husband and wants to get rid of him, is separation. If she could only go away somewhere and stay a single year it would secure the happiness of all the balance of her years. It would give her and Mr. Legion a new perspective upon each other. It would fan the embers of the old love to fire and make them see that two elderly people are happiest when they jog along together.

What a pity that Mrs. Legion hasn't enough sense to pack her bag and buy her ticket as far away as her money will take her. DOROTHY DIX

It is hard to analyze the reasons for the change that has come over the Liberal party in Britain-it is easier to contrast its fine history with its present drifting. One can hardly imagine Gladstone being a party to a compromise arrangement with his political opponents. Kincardine Man Recalls Some of the Scenes and Incidents When Liquor Was Plentiful.

Kincardine, Oct. 13, 1924. Editor of The Advertiser:

Sir,-In your issue of Saturday is a question which has prompted me to write, and which you have answered satisfactorily, and I feel it my duty to add to the arguments in favor of the O. T. A. An ancient philosopher has said:

"He who only knows one side does not know the truth."

I have been in debates on the public platform in defence of Bible temperance, and elsewhere, and have come to the conclusion that there are favorable and unfavorable passages regarding prohibition, but as nothing was known of the great varieties of distilled liquors of today, in biblical times, I wish to say that it was usually the fermented juice of the grape that a warning was uttered against, and woe unto him who would give his neighbor drink and make him drunken also. These woes have become greater

and society demands greater privi-leges and greater restrictions. civilized community. Why? Simply filth engenders disease, because

by changed conditions since then,

which is caused by infection. This is why all cities and towns, "not enslaved," demand that no filth enter into the drinking water, and taxes are exacted to keep it clean or doctored to kill noxious bacteria. It is claimed by some eminent doctors that drunkenness is a disease engendered by intoxicating liquor. Of course it is contended that all do not become drunkards, true, nor vet,

do all take typhoid fever, but many do: neither are wealth, position, family or strength proof against it. Our dearest and loveliest fall alike, the most moral as well as the most

will be lessened by a freer use of drink. In early days I have seen it carried at bees in a pail with a tin dipper in it. Did that lessen the drink-ing? These were the days when liquor ould be bought for about the same price as coal oil today. Never has freer liquor led to less drunkenness. They say "It will stop bootleg-gers." We had bootleggers, but by another name. I could relate heart-rending stories of some that lost all they had. One had a still in a bush a half mile from my farm. He lost all self-respect. Springwood Meet Will Commence at 10 o'Clock.

Friday of this week the trapshooting championship of the city of London for the season of 1924 will be decided at the Sprinngwood gun club. Broughdale, when local trapshooters will gather for this yearly event.

Competition will commence at 10 a.m. The annual tournament of the club will be conducted along with the city championship meet, and present indications point to a record entry.

The city championship has caused some speculation, as recent competitions have shown that several of the local big guns are in fine form. The city title will only be open to residents of London although not necesarily members of the Springwood gun club.

RUGBY SPREADING.

Stratford saw its first O. R. F. U. rugby game Saturday, and each season lately, sees new towns making their appearance on the rugby map. Galt and Kitchener have played off and on at the game, but are now fairly warm centers for the fall pastime.

The Wossa series, especially the second series, is a new source of rugby development, and already this year several new towns have been added to rugby. Fergus, long the home of lacrosse, is playing its first rugby this year, and so is Tillsonburg. Wiarton and Owen Sound dabbled last year

A SENSIBLE CHAMPION.

Howard Mayberry, who for the first time defends his newly-won title at the arena here Friday night, has apparently made as many friends in Hamilton by his clean-cut personality as by his fighting ability. Mayberry's father, Jack Mayberry of Duluth, an old-time boxer, started his son out on his career as a fighter. He trained and seconded him in his early ring engagements which quickly brought him a reputation as one of the best bantams in the division. Pere Mayberry probably trained his son out of his own experiences, and one of the cardinal principles of the game the youngster early learned must have been that of condition. Mayberry's appearance is that of the how who taken been or these northern towns.

EPOCHAL HOCKEY.

Hockey is going through a change this year that must have had its St. Pats bought in at \$5,000. A year later it cost the Hamilton club \$7,000 to sit in the same party. Here's Something New For Golfers

Associated Press Despatch.
New York, Oct 14.—A novel golf tournament, intended primarily to arouse interest in the betterment of golf courses through the work of the greens section of the United States golf association, was announced today by W. D. Vanderpool, president of that association.
The tournament will take place on Oct. 25. It will be an 48-hole affair, the winner being the player who on that day playing his home club handicap, makes the best score against par. Ejery club in Canada or the United States may participate without interfering with local events or regular week-end games events or regular week-end games

November 7.

BY Marty Burke recently and the tall Texan is not going to call off the proposed bout between Fulton and Luis Angel Firpo. Rickard still believes that the pair would put up a remarkable struggle, and perhaps he is right.

One thing alone will keep Rickard from bringing the men together. If there is the least sign of trouble from the law horrible concerning Firpo, Rickard will wash his hands of the match. He realizes that Firpo is of that peculiar nature that he can't stand the fear that every man he sees will gallon up with a blue paper. Old Loo doesn't like the law horrible, and he's looking for a man who does.

Otherwise, Rickard thinks he has a corking match for Nov. 7.

Marty Burke, strange to say, is one of the men Firpo has always wanted to meet. Before he came to this country Marty Burke was one name that had been rooted in his mind. How he came to pick Burke out as one of the terrors in this country Luis has never explained. He thought he had a line on Burke because Burke had whipped a man that had stuck a little longer distance with himself. For that reason Loo always wanted to check up on Mary on a ring. It would be quite to Firpo's liking if Burke and not Fulton were asked to meet him.

Firpo wasn't anywhere near his best against Wills. Paddy Mullins' Brown Panther won easily, and he would win just as easily nine times out of ten against Firpo. He has Firpo's old number. No getting away from that fact.

Firpo must get a trainer that knows his business. Even his closest friends

It is rather surprising to see in the course of a senior game evidence of the lack of knowledge of the rules displayed by players. One would imagine that the players themselves would be keen to know the rules perfectly and understand what they can and cannot do. However, this is far from the case, and an occasional quiz on the rules would be of very great benefit to all concerned and would make for better football.

In the Varsity-McGill game on Sat-urday there was a case in point. A McGill half had booted a short kick and then followed up sharply and had passed

A free kick was taken by one team after marking a catch, and these players following down thought they were offside and quietly allowed the other team to get possession. If they had considered for a moment they would have known they were onside, because they were behind the ball when it was last played by one of their own side.

Another rule often overlooked is the one relating to interference in the open.

A bear as a mascot brought luck to Queen's, but the bear got a lot of assistance from Leadley. Batstone, Evans, McKelvey and others. At Ottawa this year they have a bear, and they expected that he would bring them all the luck in the world. The Senators have lost twice, but evidently the bear was not to blame. The scores were close, at any rate.

Windsor C. I. Won Title Last Year From London South.

TOWNS ARE ADDED

Associated Pre Latonia, Ky. Octobe son of losing ground, but rather gaining, and this second season of the game promises some fine competition.

Three groups have been formed from the teams entered. There is a city of London group and a Border Cities group and a group to the east, composed of Woodstock College, St. Marys and Simcoe. Each group will have to have its champions declared by Oct. 25, within the pily-offs will be commenced.

The winners of the London group will play off in the first round, according to the draw, with the champions of the eastern group the winners meeting the border champions in the finals.

Last year London South, which won the local group, got a bye, and played with Windsor, losing the title only after a close and exciting series.

The London group is composed of the following: East C. L. South C. I. and Technical school.

The Windsor group has three schools, Windsor C. I., last year's champions.

Walkerville C. I and Windsor-Walkerville Technical school.

Associated Press Despatch,
New York, Oct. 14.—Sparks from the
bomb thrown into baseball by the
suspension of Cozy Dolan and Jimmy
O'Connell for attempted bribery will
probably be stamped out separately and
with deliberation during the winter by
Commissioner Landis.
"The investigation is still being conducted," Judge Landis said last night
before leaving here for Chicago."
"In investigation is still being conducted," Judge Landis said last night
before leaving here for Chicago. "It
with how far I've gone already. The
future will tell that."

Other trails broken during exploration of the Dolan-O'Connell exposure,
and which may be followed by
Eam Johnson, Barney Dreyfuss and
"Red" Dooin, a former catcher.
Johnson's allegation went back into
the world series of 1903, when he asserted that Lou Criger, a catcher, had
been approached by gamblers. Dreyfuss accused Cozy Dolan of tampering
with "Pie" Traynor. Pirate thirdsacker. Dooin declared that a former
catcher of the Glants had offered him
a \$40,000 bribe.
Johnson and Dreyfuss have threatened to force an investigation to the
separate threads, and many well-known
sporting writers encourage a complete
inquiry for the good of the game.

Real Fireworks Expected In McDonald-Schmidt Mix

Mayberry's Appearance Here Will Be First Since Acquiring Crown.

SEAT SALE BRISK

The Tommy McDonald-Joe Schmidt Friday night's fistic card at the arena has been rather obscured by the fact weight champion of Canada, is here naking his first ring appearance since making his first ring appearance since he donne? the sky-piece which Bobby Eber wore for over four years, sometimes at a tipsy angle, but mostly set square on the great little champlon's head as if in deflance of the best in the world to knock it off.

This McDonald lad has probably not been as consistent as he might be in his early fights, but he has shown plenty of consistency. The "Miniature Greb" as they call the Hamilton boy because he has a jumping unorthodox style of milling something like the Pittsburger, in his last appearance knocked out Allan Holmes of Toronto in four rounds.

Has Good Record.

Holmes was the boy who drew with Ray, the little Virginian flyweight, shortly after he appeared here. Holmes had just beaten Johnny Lear, whom many Canadian and Detroit admirers believed was the coming flyweight champion, when McDonald stepped in and handed him a sleep potion while he was still in the first flush of victory. Lear had beaten Johnny Buff as a preliminary to going on in main events oreliminary to going on in main events at Detroit, several of which he won McDonald has beaten Phil Lisner ex-

McDonaid has beaten Phil Lisher ex-actly six times since he decided to turn pro, and he's only 18 years of age-right now. He's had 19 fights and won, the last three in a row last year. He's starting out a fresh season, and it isn't likely that he'll let the Buffalo boy who is a hard hitting youngster, smear it up thus early.

MAYOR FIGHTS FOR REMOVAL ON RICHMOND ST. TAXI STAND OF MANSLAUGHTER

Suggests That Rear of C. N. R. Station Be Used by Cab Drivers.

GOES TO COUNCIL

Removal of the Richmond street taxi stand, opposite the Tecumseh House, to the rear of the C. N. R. depot is recommended by Mayor George Wenige. His worship laid out his proposal at last evening's session of No. 2 committee, and was able to have it indorwsed and sent on to the council.

It is claimed that just now the busses clutter up Richmond street right at the railway crossing. Traffic is impeded and the presence of so many cars does not assist safety measures. The mayor proposes to have the taxi stand moved to the railway property at the rear of the depot. The city would cut away the curb and provide for parking space on York street to avoid any impediment to traffic at this junction.

It was reported that Charles G. Forrester, superintendent of the London division of the C.N.R., lauded the idea and promised to have a sign erected on the station platform so that the taxi stand would be clearly nat the taxi stand would be clearly ndicated to the travelling public. During the meeting last night, Chairman Jack Greer spoke on the celephone with Chief of Police Birell and secured his indorsation for the scheme.

Edna street was considered to provide a better crossing over the L and P. S. R. tracks, because an overhead bridge would be necessary. A meeting in Chelsea Green to explain the situation was suggested.

No action was taken regarding the construction of a \$4,800 breakwater along the River Thames between Oxford street bridge and the C. P. R. tracks in West London. Objection was made on the grounds that the property was in private hands and no provision had been made in the stimates.

People in Assurance Plan of Provincial Savings Bank Get Old Rate.

Canadian Press Despatch.
Toronto, Oct. 14.—Supplementing his announcement that the government would cut its interest rate from 4 to 3 per cent on deposits in provincial savings bank, Hon. W. H. Price, provincial treasurer, today said that depositors who have entered into the combined savings and assurance plan will continue to receive under their contracts four per cent for the 120 months of their contract. He said that some half a million dollars of the total \$21,000,000 deposits are covered by this exception. He further announced that some six weeks ago the government severed relations with the private company soliciting the assured saving accounts and that no new contracts of this nature have since been received.

JURY WOULD STOP DRIVING CLARE IS GUILTY BY ACCUSED IN DEATH CASES

Jury Takes Less Than Two Hours To Return Verdict -Urge Mercy.

NOTHING TO SAY

Thomas Clare, found guilty manslaughter by a supreme court jury at 6 o'clock last night, will escape a penitentiary term, the presiding judge, Mr. Justice Riddell, announced. Sentence will be pronounced later in the week, his lordship

After being out one hour and 45 minutes, the jury brought in a ver-dict of guilty with a doubly strong recommendation for mercy. Clare was charged with manslaughter as a result of an accident on Waterloo street on the evening of June 4 last, when in turning his motor car from Unionists Picture Bewhiskered Waterloo to Hill street, he struck a motorcycle driven by Charles Lane. 8 New Ford Sedans and 8 New Fordson Tractors Fored Contest Announcement

The Ford Motor Company of Canada, Limited, has now been in business for twenty years. During that time 340,364 Ford cars and trucks have been built and the Ford

has won a nation-wide reputation for giving satisfactory service. In our relations with the public as local Ford dealers we have learned that the best advertising we get is the recommendation of a satisfied customer. Many Ford cars are sold on such recommendations and many more will be sold in the same way. If you are one of the many thousands of Canada's farmer Ford-owners, here is a big

Three farmer Ford-owners or members of farmer Ford-owners families in each township in this territory will be given the privilege of taking orders for Ford cars, trucks and tractors. Only the first three to apply for this privilege in each territory will be

enrolled. You can enroll immediately. Order forms and complete instructions will be supplied to all contestants.

All you are expected to do is to tell your friends who need a car, truck or tractor of your own experience with your Ford. If they decide to buy, you take their order and send it to the Ford branch in this territory.

On all such orders you will get credit in points at the rate of 5% on the list price of the order. The contestant gaining the highest number of points in each Ford Branch territory will receive, absolutely free, a Ford Tudor Sedan, fully equipped, all taxes and delivery charges paid, and with 1925 license, ready to run.

Next highest contestant will receive, free, a Fordson Tractor, fully equipped with fenders and belt pulley, ready to work. All contestants who do not qualify for first or second prizes will receive credit for 3% of the list price on all orders taken by them. This will be awarded in any kind of

Ford-made merchandise or in cash. This contest closes December 30. Prizes will be delivered January 15. Enrollment applications will be sent to all farmer Ford-owners, but if you wish to enroll immediately in order to insure acceptance application may be had from the undersigned.

PROOF LINE ROAD **ACTION IS URGED**

Recommendation of Broughdale Residents Is Sent to Hon. G. S. Henry.

On the recommendation of residents of Broughdale and deputy minister of public works Squires, at a meeting in the Tecumseh house last meeting in the Tecumsen nouse last night, it was decided to send a letter to the minister of public works, Hon. G. S. Henry, who was unable to attend the meeting on account of illness, asking that a 14-foot strip of payement he laid on the west side of pavement be laid on the west side of the Proof Line road this fall, and that the east side be repaired so that traffic would be able to use the road. Reeve Hodgins of Broughdale stated that at the present time the

street railway company could not undertake the work of laying the street car tracks in the middle of the road because of the financial outlay required. The officials of the company state that the moving of the tracks is a dead issue with them until 1925, when the franchise expires, and they will do nothing on the problem until April 1.

The cost of laying new tracks in the middle of the street would be \$37,000, according to the railway officials, and they could not make this

ficials, and they could not make this outlay at the present time. They want it to be known that they do not oppose the changing of the posiof the tracks, but that it is purely financial reasons that keep them from changing the tracks this

year.
No engineers of the public high ways department were present at the meeting, and the problem of grading could not be discussed. Mr. Squires will put this matter before them a decision as to the grading will be made shortly.

It was first decided at the meeting to send a letter to the minister of public highways, asking that no paving be done on the Proof Line road this year, but this decision was later changed to the one mentioned in the

Crown Attorney Busy With Work at the Fall Assizes.

At the request of the crown at-torney, who is busy this week with the supreme court sittings, the cor-oner's inquest into the death of 2-year-old Kathleen Laughrey was adjourned for a week. The little girl, the daughter of Frank and Mrs. Laughrey of 339 Simcoe street, was struck by a car driven by Mrs. M. B. Fenton on Wednesday morning last while playing on Waterloo

She was taken to Victoria hospital, where later she died. J. Cameron Wilson, M.D., as coroner, stated that the induest would be held on the evening of Tuesday, Oct. 21, at 8 o'clock. Witnesses and jury were asked to be present at that time.

LONDON BOY HONORED BY AMERICAN SOCIETY

Honor for a London boy, Professor Robert W. Angus, of the department of mechanical engineering at the University of Toronto, has come with his election to be vice-president of the American society of mechanical engineers. With a membership of over 18,000, the society is the largest ing organization in the worl and has prominent engineers enrolled from all parts of the universe.
Professor Angus received his

primary education in London schools He is the first Canadian to receive high honors in the A. S. of M. E.. and has been the recipient during the past few days of congratulations from Londoners who know him. Prof Angus was mainly responsible for the founding of the Toronto branch of the society, which now boasts a membership of over 140 engineers.
