Everything else, except seating and pulpit, to be furnished by the contractor, and the building finished according to plans and specifications, which may be seen at the office of Mr. Fleming, County Clerk, Chatham. The lowest or any tender not necessarily accepted. Rev. A. E. Jones, Chairman, and Mr. David Clark, Secretary of Trustees Board. Will 227.3 w31.

Your step has lost elasticity because your blood has lost vitality, which Hood's Sarsaparilla will restore.

BITTER ALL-DAY FIGHT WITH FOUR HUNDRED BOERS

British Position Repeatedly Rushed—General Kitchener Makes Capture—The Blacklisting of London Mail Discussed in Parliament.

Durban, Natal, July 30.—Details received here of what at first seemed an ordinary skirmish between a British column and a Boer commando, near Nquna, July 25, show, that a hard all-day fight occurred, in which the British narrowly escaped the loss of a gun of the 67th Field Battery. Four hundred Boers repeatedly rushed the British position, killing Major Edwards and Gunner Carpenter. The gun was limbered up and taken at a gallop for three miles under heavy fire. Five British were killed.

A SHARP FIGHT.

London, July 30.—The War Office has received the following despatch from Lord Kitchener: "Gen. F. W. Kitchener, after a long chase of Ben Viljoen's commando, caught up with it. A sharp fight ensued. We captured a pom-pom and 22 wagons and took 32 prisoners. The British had five wounded."

CASE OF THE LONDON MAIL.

London, July 30.—In the House of Commons yesterday, Secretary of War Broderick, in reply to a question by Col. Francis Alfred Lucas, Conservative member for the Lowestoft division of Suffolk, repudiated the suggestion that the London Daily Mail had been excluded from the list of newspapers which received official war despatches because of its report in regard to the shooting of British wounded by the Boers after the Vlakfontein fight. Mr. Broderick added that the reason for the exclusion of the paper from access to these reports was that twice this year the Daily Mail had published information based on confidential official documents, which both the Times and another journal, for patriotic reasons, had refused to print.

London, July 30.—The printer and publisher of the Daily Mail, of this

city, had a narrow escape to-day from being ordered to appear at the bar of the House of Commons on Thursday next, as the result of observations made in connection with the War Secretary's (Mr. Broderick) report of that newspaper on account of the South African Blackboers. The Daily Mail this morning characterized as "baseless and mean" Mr. Broderick's assertion in the House of Commons yesterday that the paper had a habit of surreptitiously buying secret War Office information, adding that if Mr. Broderick ventured to repeat outside the House that the paper had stolen official documents, it would prosecute him for libel. In the House of Commons this afternoon, Swift McNell, Irish Nationalist, made a motion to the effect that the Daily Mail's challenge was a breach of the privilege of the House. The Government leader, Mr. Balfour, assented. But, apparently not desiring to stir the matter up, he said he thought it was not necessary to press the motion. Mr. McNell, however, insisted, and the motion was carried without a division. Mr. McNell then moved that the printer and publisher be ordered to appear at the bar of the House to-morrow. The motion was defeated by 288 to 128 votes.

AN UNRULY MEMBER.

James J. O'Shea, Nationalist member for West Waterford, was suspended in the House of Commons to-day for disorderly conduct, in applying the term "judicial blackguardism" to the conduct of Baron O'Brien, Lord Chief Justice of Ireland, in charging the jury at the recent trial of Walsh, chairman of the Waterford county council, on charges of conspiracy at Cork. Walsh is connected with the United Irish League, and the latter boycotted a man who rented a farm from which the previous tenant had been evicted. The charge of conspiracy arose this morning. The Nationalists contend that Baron O'Brien conducted the case in an extremely partisan way.

AT PRACTICE

Members of the Maple City Gun Club Preparing for the big Tournament.

A capital practice shoot was held at the grounds of the Maple City Gun Club yesterday afternoon. Several members of the club were present and participated, the scores being as follows:—

Sweep No. 1, ten birds—Wilson 7, Richards 8, Nichol 6, McKay 7, Tristram 10, Glassford 4.

No. 2—Wilson 6, Richards 8, Nichol 6, McKay 6, Tristram 8, Glassford 4.

No. 3—Wilson 8, Richards 6, Nichol 6, McKay 4, Tristram 7, Glassford 5.

No. 4—Wilson 7, Richards 6, Nichol 6, McKay 4, Tristram 7, Glassford 5.

These shoots are being held preparatory to the big Leamington tournament, which takes place at Leamington on Thursday and Friday of next week. The Chatham club will have a representation there. Among those meant for the tournament are: A. F. McKay, L. F. Wilson, W. S. Richards, Thos. Nichol, Joseph Oldershaw, the Oldershaws, John Moore, W. Tristram and W. H. Fisher.

GENERAL STRIKE

One Ordered Yesterday May Mean Closing Port of San Francisco.

San Francisco, July 30.—Labor troubles in this city reached culmination last night when the City Front Federation ordered a general strike on the docks of San Francisco, Oakland, Mission Rock and Port Costa to go into effect this morning. The result will be temporary paralysis of the shipping business of San Francisco.

This action, which is a direct outcome of the lock-out of seafarers, will make a total of over 25,000 union workmen who have stopped their labors.

The labor unions hope to stop the loading and even to prevent the moving of ships that are not almost ready for departure. This will practically mean the closing of the port and the suspension of business in the wholesale and manufacturing sections of San Francisco and Oakland.

Members of the Employers' association state that they have fully considered the cost of the strike and are prepared to meet it.

Your step has lost elasticity because your blood has lost vitality, which Hood's Sarsaparilla will restore.

ALARMISTS' TALK

Dr. Kempster, of Milwaukee Fears Bubonic Plague Will Sweep America.

Milwaukee, July 30.—Dr. Walter Kempster declares bubonic plague will sweep the country before long unless extreme measures are taken to prevent. The state board of health also fears spread of plague.

Dr. Kempster says the way officials at San Francisco, from supreme court judges down, have acted is little short of criminal. The plague has now fastened itself there and appeared in New York and it is only a matter of a short time before it will make its appearance in the interior of the country. The time to prevent the spread was now, when active steps ought to be taken to kill it.

New York July 30.—New York physicians condemn Dr. Kempster as an alarmist and his views calculated to cause a panic. Dr. A. H. Doty, health officer of the port, says that, while the plague might be destructive to people in India, the conditions are different here. In India people sleep with rats and vermin. In the last three years the plague has been in Rio Janeiro, Lisbon and San Francisco. The time to prevent the spread at any of those places, Dr. Doty declares he has no fear whatever of the plague gaining any foothold here.

HIS SONS

They Will Fight for Share of Reuben Purser's Estate.

Windsor, July 31.—A caveat has been filed with F. E. Marcon, clerk of the Surrogate Court of Essex county, against the probating of the will of the late Reuben Purser. The will has not yet been filed with Mr. Marcon, but the contents was learned by some of the children of deceased and they at once had the caveat issued to head off the will.

According to the will Mr. Purser has cut his sons off without even the proverbial shilling, and has left his entire estate, both real and personal, to his widow and daughters. The widow is left his personal estate, which will amount to about \$5,000, and the daughters, of whom there are five, will share equally the real estate owned by the deceased.

James E. Purser, the eldest son, who succeeded to his father's plumbing business in Windsor a few years ago when the latter retired, is not pleased over the contents of the will. He claims that he purchased the residence and grounds which the father has given to his daughters and that he also assisted the father in amassing the money he left. He says that he will attempt to have the matter settled in an amicable manner, but that if this cannot be done the courts will be asked to deal with it.

CUBANS TO RULE

Electoral Scheme Bars all but Natives from the Isl. and Senate.

But Will Permit the President to Be a Naturalized Citizen of the Country.

Havana, July 30.—Electoral bill as drafted by the electoral commission was submitted yesterday to the constitutional convention. The measure provides for universal suffrage, but restrictions as to ability to read and write, are imposed in the case of officeholders.

Governors of provinces and provincial legislators must be of Cuban birth or have been naturalized for a period of eight years. They must be at least 30 years of age. They must possess title by public decree or have filled office by popular vote. The same restriction regarding citizenship are laid upon congressmen, who must be 25 years of age. Senators must be Cubans by birth and 35 years of age.

The president must be a Cuban or naturalized. In the latter case, as provided by the constitution, he must have served in the Cuban army for 10 years. He must be at least 40 years old. The same conditions apply to the vice-president.

Senators shall be elected by provincial legislatures and an equal number of citizens. In the provincial legislatures minority representation is provided for. Havana having 20 members, Santa Clara 17, Santiago 17, Matanzas 15, Pinar del Rio 12, and Porto Principe 8.

Havana will have 17 congressmen, Santiago 13, Santa Clara 14, Matanzas 8, Pinar del Rio 7, and Porto Principe 8. Four senators shall represent each province. Havana will have 21 presidential electors, Santiago 17, Santa Clara 18, Matanzas 12, Pinar del Rio 11, and Porto Principe 8.

The project provides for two elections. At the first will be elected governors of provinces, provincial legislators and senatorial electors. At the second, to be held eight days later, congressmen and presidential electors will be chosen. Thirty days after the second election the presidential electors will meet in Santa Clara to elect the president.

RADCLIFFE TO ACT.

Ottawa, July 31.—Radcliffe, of Toronto, is to execute O'Brien, the Dawson murderer. As soon as the information reaches Ottawa that Lord Minto has signed the order-in-council for the hanging of O'Brien, Radcliffe will be instructed to set out for the capital of the gold territory. Radcliffe will need to make fast time in order to reach Dawson in time.

THE KING'S DECLARATION.

London, July 31.—At a great Protestant meeting held last night in St. James' Hall, London, Lord Kinnaird presiding, a resolution was adopted protesting against any change in the King's accession declaration. It was also decided to address a memorial embodying the resolution to the House of Commons.

RAVAGES OF SMALL-POX.

Albany, N. Y., July 31.—There were 74 deaths from small-pox in this State during the month of June, which is the largest number for any month in the history of the State, according to the records in the department of the State Board of Health. Of this number 71 deaths occurred in New York city, where 350 cases were registered as having developed during the month. About 100 cases developed in other parts of the State.

R. STEPHENSON - Proprietor.

BRITISH LIBERALS.

There is much magazine discussion in the Old Country at present over the way in which the Liberal party might be rehabilitated if the leaders would only pursue certain courses which the writers indicate, says the Toronto News. They might as well discuss plans for a junction of the high Tories and the extreme Radicals. The differences between Lord Salisbury and Mr. John Burns are no more insurmountable than those between Mr. Asquith and Mr. John Morley or the other members of the party who would drag the country into the mire of humiliation by a cowardly withdrawal from South Africa. The party lost its ablest and most influential men when the Duke of Devonshire, Mr. Chamberlain, and Mr. Goschen seceded, with their followers, rather than endanger the integrity of the Empire by assenting to Gladstone's Home Rule scheme. The present issue is not less vital, and there is as little possibility of Mr. Asquith or Lord Rosebery reuniting with the men who wish to sell their country in Africa, as there was of the return of the Liberal-Union leaders under the banner of those who wanted to sell it in Ireland. The Liberal party is hopelessly smashed in the verdict of all impartial observers. And, worst of all, it has not gone down fighting bravely for some great principle, interwoven with the freedom or prosperity of the nation, but has brought about its own demolition by leaguing itself with the bitterest enemies of England and declaring a policy which would make her a by-word and a mockery in the mouths of the nations of the world.

"ENGLAND'S NEW PERIL."

Russia may properly be called the mischief-maker of Europe, comments the St. Thomas Times. (Ever since the seventeenth century, when Peter the Great led away, she has had her agents intriguing in many parts of the world, and especially in the far east, and stirring up strife. Year by year she has been encroaching southward towards China, Afghanistan and India, and further west towards Turkey, the object, of course, to secure a preponderant influence and dominate the whole Eastern Hemisphere. It was, indeed, the announced policy of Peter the Great to secure possession of Constantinople, but Great Britain was always in the way. With the Turkish capital and its fortresses in the hands of Russia, it would be an easy matter for the Czar's government to swallow up the "Sick Man's" country and dictate terms to Europe. John Bull, however, has always been on the alert and Russian aggression has been checked.

The last Afghan war, which cost Britain so much, was a result of Russian intrigue. The "Amoy" was co-opted with, and it was thought he would break his compact with Great Britain and go over to Russia. The energy of Britain in suppressing the revolt, however, brought from Abdurhaman Khan a renewed declaration of loyalty, and the trouble was suppressed. The latest disturbance in Northern India was another outcome of Russian intrigue, which cost England much in loss of life and money.

Now comes a report by way of Washington diplomatic circles concerning England's new peril. The "Amoy" is again said to be wavering in allegiance. He has been increasing the strength of his army, and while Britain has a right to suppose it was to resist Russia, the fact is said to be that he is preparing to assist the latter in a raid on India. This, in conjunction with the large increase in the Russian army contemplated for this year, is taken to mean that India is menaced. However, India is probably able to take care of herself. The Boer war has demonstrated that an army of 100,000 men, acting on the defensive, can keep in check an offensive force of half a million men. India has a regular army of nearly 73,000 men, which would easily be raised to a strength of 250,000, and with this available the actual invasion of India would be a difficult matter. Besides, Russia is always crippled financially and would not be able to sustain a lengthy campaign, whereas Britain, now stronger than ever before, and with unlimited credit, could play a defensive game until her adversary was exhausted. Thus "England's New Peril" need not cause alarm. Russia has so many internecine troubles that she must do something to avert a civil war, and a foreign war is one way of getting dissatisfied subjects out of the country, by sending them to the battlefield. Defeat by a foreign power would be preferable to rebellion and disruption at home. Russia, however, keeps encroaching

Salt Rheum

You may call it eczema, tetter or milk crust. But no matter what you call it, this skin disease which comes in patches that burn, itch, discharge a watery matter, dry and scale, owes its existence to the presence of humors in the system.

Hood's Sarsaparilla

It is always radically and permanently cured by

in the far east, and practically controls Tibet already, while China's northern Province of Manchuria will, according to appearances, soon be under her domination.

AN OPENING.

Woodstock Express. With Rosebery plowing his own furrow and Salisbury drifting with the tide there ought to be a grand opportunity for a real statesman in Great Britain just now.

SOMETHING LACKING.

Ottawa Citizen. In figuring out a comprehensive title for Edward VII. the fact seems to have been overlooked that Britannia also rules the sea, as well as the dominions beyond the sea.

THEY ARE GETTING IT.

Goderich Signal. It's strange but true, the same people who were shouting for warm weather a few weeks ago are now wanting to sit on ice, with an electric fan working overtime.

SOUND SENSE.

Bobcaygeon Independent. The determination to have but one language taught in the schools in South Africa is a wise course. It would be sowing the seed of future disaster to allow the slightest spark of sympathy to enter into the African policy. The political existence of the Transvaal has ended. The policy to be adopted, in the best interests of peace and the country, is the one that will most effectually extinguish the Boers as a people, and in the shortest time.

IT COST MONEY.

Many a man has spent all his earnings in trying to get rid of rheumatism. It cost Mr. James Devison, Oshawa, Ont., between \$1,000 and \$2,000 before he tried Dr. Hall's Rheumatic Cure. He was a helpless invalid for six years but suffered from sciatica in his hip joint for ten years. Six bottles cured him completely and he is now working his farm. This great blood purifier is put up in bottles containing ten days' treatment. Price 50 cents at all drug stores or The Dr. Hall Medicine Co., Kingston, Ont.

A DECISION IN ADVANCE.

Vankleek Hill Review.

How is it that as soon as a man is appointed to a position of trust or responsibility that all the newspapers suddenly find out that he has a brilliant record and is "just the man for the position he has been called upon to fill"? We are strongly of the opinion that the newspapers know nothing whatever about him and publish a deal of trash which ought not to be published. Let every man prove his fitness for the position and then say the nice things about him.

HOT STUFF.

Laurel Era.

As a sample of how a man can write on politics when he feels like it we give an extract from a correspondent to the Weekly Sun of July 17: "Clean out the Aegaeon stables of unfulfilled promises, wilful and deliberate deceptions; throw out Laurier and his silver tongue; French Tarte and his tri-color; Society Sift, arm in arm with his handy-legged dancing-master. Shovel them into the storm-tossed Atlantic, or where the laughing, rollicking Pacific lags the crazy ledges of rock-bound British Columbia."

SMIFF KNOWS HOW IT IS.

Bobcaygeon Independent.

The Duke of Orleans is said to be out on a cruising trip in the Mediterranean, and posing on board as Emperor of France. But that need not cause the republic any alarm. When the Kaiser gets out on a cruise he talks about what "I and Gott" are going to do, and as Smiff, when he is out on a fishing toot, land sakes, you would think he owned the earth, and most of the sky. All the republic has to do is to see that the duke is provided with a bottle of pickles and a few red herrings as soon as he lands.

BIG CELEBRATION

One Will be held at Dresden on the First of August.

Program, 10 a. m.

The program will be inaugurated by a grand street parade at 10 a. m. in the following order: The Mayor in a carriage, Dover brass band, from 50 to 100 horseback riders, citizens and others in carriages, Wabash brass band, 25 to 50 boys in uniform, uniformed Masons, citizens and others on foot. After parading the principal streets the Mayor will tender an address of welcome to the visitors at the Fair grounds, at 11.15. A baseball game will be played between Chatham and Buxton on Dawn Valley. To satisfy the hunger of the immense crowd, a monster barbecue will be provided, at which a whole roast beef, a whole hog, dozens of chickens, vegetables and all usual refreshments will be served. Speeches appropriate to the occasion will be delivered by Geo. Stephens, M. P. and 'N. H. Stevens, Chatham; Rev. P. Henderson, M. A., Chatham; Rev. I. Smith, Grand Rapids; James Houston, Dresden, and others. At 3 p. m. there will be a sham battle, bicycle races, foot races, and other interesting events, the proceedings meanwhile being enlivened by choice musical selections from Dresden, Dover and Wabash brass bands. In the evening the three bands above mentioned will give a grand concert, all to conclude with a grand display of fireworks.

Half fare on the L. E. & D. R. R. has been granted to Dresden from Walkerville, London, Cleveland, (via Str. Urania to Dresden), Blenheim, Sarnia, and all intervening stations. Train will leave Blenheim for Dresden at 8.40 a. m., and Chatham at 9.11 a. m.

Admission, adults, 15c. Children, between 8 and 12 years, 10c.; Dinner from 15c. to 25c.

Committee of arrangements—H. Baynard, Wm. Green, A. Kersey, A. Eady, J. Lucas, J. Ritchie, marshal of the day. T. H. Morris, Manager.

HERE AND THERE

The corks of bottles or jars containing substances apt to be sticky should be dipped in salad oil before being replaced.

A trial shipment of finished iron has left the Birmingham, Ala., district for foreign shores, and it is believed that a trade similar to that now going on with foreign countries in pig iron may be worked up. The trial shipment is but 20 tons, though the original order is for 100 tons of bar iron. It is stated that the iron went from the Bessemer rolling mills, and if the shipment proves successful a large number of orders will be sent in this direction. Like the crude iron, the product went over in the bottom of a ship more as ballast than as freight. Ship rooms is rather scarce just now, but it is believed that when this trial shipment has been tested there will be more room on ships and a good trade can be established.

It is idle as well as cruel to beat a horse for shying, says Our Animal Friends. That only increase his alarm, and may easily reduce him to the state of terror in which he loses his head entirely. Horses in that state seem to lose not only their heads, but their perceptive senses, and a horse in that condition may dash headlong against a stone wall. The habit of shying when once formed is difficult to cure, but it may almost always be prevented by such consistent kindness of treatment as to overpower the inherited instinct of instant flight from possible danger in which the habit originates.

The Squirrel Inn, says the Churchman, has at last become a reality, not precisely as an inn, but as a model eating house, where good food will be given without the accessories that increase its cost to the consumer many times over. This restaurant has been for a long time a favorite project of the Bishop of New York and of the church temperance society. It was opened on Decoration Day. The building, 121 Bway, has been given, rent free for five years. The funds necessary for the first year's running expense—\$15,000—have been subscribed.

A farmer who keeps sheep says he has no trouble from dogs worth speaking about, because the pastures are surrounded with dog-proof fences. His fence is made of driving posts into the ground and stretching wire, the first strand about three inches from the ground, gradually increasing the distance between the strands until the top ones are eight inches apart. On the top is a rail and over that a strand of wire. Neither sheep nor dogs can get through or over. Dogs are not apt to jump over a fence unless they can get their feet upon the top.

Pipes lined with glass were found recently by workmen repairing the plumbing in a handsome old Boston dwelling. By inquiry among the old residents it was learned that the house was originally built about 1840, by a man named Price. About that time there was a panic in regard to lead poisoning, and pipes were lined with zinc, brass, etc. Mr. Price was wealthy, and decided to have his pipes lined with glass. The experiment was not successful, as it was impossible to make tight joints, because the heated solder cracked the glass.

Horsehoes are of uncertain date, and have caused some discussion among military historians. Nailed shoes were not known by Greeks, for Xenophon gives minute instructions for hardening the hoof. Nor did the Romans use them. Nero had mules shod with a plate of silver fastened by cross thongs to the hoof. With Pompey, his later wife, it is said these plates were of gold. The earliest positive evidence of nailed shoes is furnished by the skeleton of a horse found in the tomb of Childeric I. (458-51) at Tournay, in 1853.

R. S. Brookings and S. S. Cupples, of St. Louis, have transferred property valued at \$5,000,000 to Washington University of that city. By this transfer of one of the largest private shipping stations in the world, known as the Cupples station. Mr. Brookings, who has been receiving a salary of \$25,000 a year as manager of the terminal association, has agreed to give up his salary and serve the university in the same capacity for nothing.

If a man follows his own trumpet, can his opinion be sound? A lady in Paris advertises for employment as "ornamental guest at dinner and evening parties."

A German scientist has been making some observations in South Africa on the subject of the influence of repeated detonations on the ear. He examined the ears of 96 soldiers before and after a battle, and found marked changes in no fewer than 44, or nearly 50 per cent. In seven cases he found small hemorrhages in the ears, and in one case a large bleeding, while the firing caused the edge of the ear drum to become red in 37 cases.

The tax budget of the city of Paris is \$75,000,000 a year, or about \$10,000,000 less than the amount to be raised in the city of New York from taxes.

WHAT A WOMAN THINKS

If you would not be known to do a thing, don't do it.

A woman is often credited with being mad when she is only very much in earnest.

It is strange that the man who knows it all turns his knowledge to so little practical account.

You can learn more about a person when it is five minutes too late than in five years before.

We are always particularly pleased with ourselves when some one also relies our opinions.

The Secret

Of womanly health would be esteemed as priceless by thousands of suffering women. Each month sees them moaning in a darkened room. At the best they endure pain every day. At the worst the pain becomes torment.

The secret of womanly health is in keeping the womanly organism in a perfect healthy state. This can be done by the use of Dr. Pierce's Favorite Prescription. It regulates the periods, dries debilitating humors, heals inflammation and ulceration, and cures female weakness. It makes weak women strong and sick women well.

Women suffering from chronic forms of disease are invited to consult Dr. Pierce, by letter, free. All correspondence is held as sacredly confidential and womanly confidences are guarded by strict professional privacy. Address Dr. R. V. Pierce, Buffalo, N. Y.

Accept no substitute for Dr. Pierce's Favorite Prescription. There is nothing else "just as good" for womanly ailments.

"I suffered for more than ten years with female weakness of very bad form," writes Mrs. D. Marwood, of Tremont, Macdonald Co., Manitoba. "I used Dr. Pierce's Favorite Prescription and Golden Medical Discovery with good results. I am now able to do all my own work now. I do not know how to thank you enough for the kind advice you have sent me by letter. Your remedies did for me more than all other doctor's medicines, and I have taken lots of them."

Dr. Pierce's Pleasant Pellets cure biliousness.

A Pathetic Sight.

There is nothing more pathetic than the sight of a young man going away from home to make his own way in the world. It is never entirely certain that he will succeed. At best he has a terrible gauntlet to run. Snafes and pitfalls are set for his feet on every hand. The world, the flesh and the devil are all against him. It is a struggle from start to finish. No wonder that the gentle mother whom he leaves behind him wears now and then a sad face, and prays a little more earnestly for him than usual. No wonder that the father who has not been so accessible and companionable perhaps as he ought to have been, finds himself feeling a deeper concern than ever before. Blessed is the boy who carries with him the memories of a happy home, and who knows that, come what will, there are hearts that will not cease to love him till they cease to throb.

The recollection of his earlier years and assurance of this present sympathy, cannot fail to increase his strength in every conflict.

How Process Butter is Made.

Here is a description of process butter: "This butter is made from old, rancid and useless dairy butter, purchased from the country storekeepers in the states farther west and shipped in old barrels, tobacco pails, shoe boxes, etc., which appetizing mess is put through a process of boiling and renovating to remove the nauseating odors and through other treatments which have brought it under the ban of the pure-food laws of several states, after which it is worked over in a sweet butter mill, which gives it a temporarily a fairly clean flavor." See that this stuff is not worked off on you by your grocer. The "green" woods are full of it.

Why Pulverization Pays.

The chief supply of drink to growing plants is moisture brought up from below the capillary action, and therein consists the necessity of pulverizing the soil thoroughly before planting, and continuous surface cultivation afterward. Weeds are sometimes counted as a blessing because their presence compels the farmer to continue really necessary cultivation, which he might otherwise feel justified in omitting to the detriment of the crop.

If a man follows his own trumpet, can his opinion be sound?

ALL SORTS

There is a noticeable increase of vegetarianism in Philadelphia. At the corner of Park avenue and Berks street there is a church whose attendants are all vegetarians. It is an Evangelical church, and differs in its creed from other denominations in the fact that its members are pledged to forego a diet of flesh.

A French plumber named Garand undertook a short time ago to ride a bicycle round the stone coping of a house at Lyons sixty feet above the street, and successfully accomplished the foolhardy feat.

Many officers of the British Army are now wearers of armor. As a general rule the mail is inclosed in leather casing, which is sewn inside the tunic so as to be invisible unless the garment is picked to pieces. And the same with the helmets—a similar device is fixed as lining, so as to give additional protection in case of need.

At a recent fair sale a Parisian purchased in the open market a black Siberian fox skin, 48 inches by 8 inches, paying for it the sum of \$3,000. When dressed it will cost its wearer \$5,500.

China has still the old-fashioned system of private letter-carrying. Letter-shops are to be found in every town. If he has a letter to send the Chinaman goes to a letter-shop and bargains with the keeper thereof. He pays two-thirds of the cost, leaving the receiver to pay the rest on delivery.

To prevent the carrying of plague, Dr. Agony, of Constantinople, proposes to kill rats on board ship by carbonic acid gas. The gas, being heavier than the air, would sink to the bottom of the hold and there stifle the rodents.

A strange clock was made during the last century for a French nobleman. The dial was horizontal, and the figures, being hollow, were filled with different sweets or spices. Thus, running his finger alone the hand, by tasting the owner could tell the hour without a light.

The healthiest spot in the world is Ajaccio, a French village containing forty people. Twenty-eight of the inhabitants are over eighty years of age, and three have passed a century. There are no graves in the local cemetery, and the oldest inhabitant cannot remember seeing a funeral.

The largest and most cumbersome form of money is found in Central Africa, where the natives use a cross-shaped lot of copper over ten inches long. It is heavy enough to be a formidable weapon.

GEMS.

Practice what you preach—Young. Brevity is the soul of wit—Shakespeare.

Obedience is the bond of rule—Tennyson.

Remembrance oft may start a tear—Burns.

Death but embosoms the body; life the soul—Young.

All is not false which seems at first a lie—Southey.

Be thou familiar, but by no means vulgar—Shakespeare.

Choose an author as you choose a friend—Racine.

Often change doth please a woman's mind—Sir T. Wyatt.

Blood only serves to wash ambition's hands—Byron.

Ask me no questions and I will tell you no fibs—Goldsmith.

Courage from hearts, and not from numbers, grows—Dryden.

Curses, like young chickens, come home to roost—Southey.

Only they know how to live who live to die—Whyte Melville.

All argument will vanish before one touch of nature—Colman.

Dangers breed fears, and fears more dangers bring—R. Baxter.

Character must be kept bright, as well as clean—Lord Chesterfield.

Custom is the pillar round which opinion twines, and interest is the tie that binds it—T. L. Peacock.

God weigheth more with how much love a man worketh than how much he doeth—Thomas a Kempis.

Some people are always grumbling because roses have thorns. I am thankful that thorns have roses—Alphonse Karr.

The heart which can carry the burdens and sorrows of even the most forsaken, which can make room for the griefs and toils and cares of the hapless multitude, is filled without measure with the life and love of God—Charles F. B. Mid.

Religion has not primarily come to man by deliberate ratiocination, but by spontaneous experience. It is the whole of man responding to the whole of God. Human nature has not thought out, it has experienced religion—John White Chadwick.

Try to realize God's presence; the realizing it ever so little has a wonderfully soothing and calming influence on the heart. Say secretly: "The Lord is in his holy temple (his temple of the inner man); keep silence, O my heart, before him." The mind wanders, hedges, or talks as we like about a wise scepticism, we are really doing volunteer military service for one side or the other—William James.

The soul is such an instrument that no sooner is it set in peace with itself than it becomes an instrument in tune, a living instrument, discoursing heavenly music in its thoughts and chanting melodies of bliss even in its dreams. When a soul is in this harmony no fires of calamity, no pains of outward torment can for a moment break the sovereign spell of its joy—Horsen Bush.

CEYLON AND INDIA NATURAL LEAF GREEN TEA.

Is Free from Any Particle of Coloring Matter; is Dainty and Invigorating; is the only tea that suits fastidious palates and is wholesome for the most delicate digestions.

IT IS ALSO A BRITISH PRODUCT

PROBABILITIES.
(Special to The Planet.)

Toronto, July 31.—10 a. m.—Moderate to fresh westerly to north-westerly winds; fine and a little cooler to-day and on Thursday.

The following official figures were registered at noon to-day at Burt's weather bureau:
Barometer 29.40.
Thermometer 65.
Highest yesterday 86.
Lowest yesterday 60.
Direction of wind, west.

THE LOCAL BUDGET

Dr. Tye returned last evening from a short visit at the Eau.

Mrs. Jacob Colby, Murray St., is somewhat improved to-day.

Miss Mary Emery, Murray street, is spending the day with friends at the Eau.

Harold English, of Blenheim, is spending the day with friends in the city.

The excursion committee of St. Joseph's Court, C. O. P., will meet to-night at the Park House.

Misses Florence B. Tilt, of this city, and Nellie Andrews, of Cleveland, O., are spending the day at the Eau.

Mr. and Mrs. James Capman, of Mt. Peeler, Ohio, are visiting the former's parents, Mr. and Mrs. Edward Capman, Taylor avenue.

John Mounter, Park avenue, had on exhibition in Ald. Mounter's shop a number of the bugs that are causing so much trouble among the sugar beet. The work is all done by the young bugs, who entirely strip the leaves.

We Will Sell

At a low figure 27 acres of good land on Con. 3, Chatham Tp., one mile from Chatham.

We have several desirable homes in this city which we will offer this month at bargain prices. We have a few houses to rent.

In Our Optical Department

We are as Busy

in hot weather as in cool weather. With the bright sun continually shining in weak eyes during the day, people afflicted in this way are reminded of the fact that through neglect their eyes are going to get worse, so then come and have them properly treated with our lenses.

A. I. McCall & Co., Druggists
We close to-night at Eight.

1. S. McCallum, of Tilbury, spent yesterday in the Maple City.

T. H. Wyke, a student in the dental office of Dr. A. W. Thornton, is spending the day in Detroit.

Jack Jarvis, of the firm of the Sutherland-Innes Co., is spending his holidays in the Muskoka District.

The residence of Duncan McNaughton, of the 9th concession, Chatham Township, was struck by lightning during the recent storm. Considerable damage was done.

Mrs. McCole, of the 10th concession, Harwich, entered St. Joseph's Hospital last evening. She is seriously ill and but slight hopes are entertained for her recovery.

Chatham won yesterday's county association bowling match by seven shots. Wilson Taylor's rink defeated R. L. Gosnell's rink by 12 shots, while Dr. Langford beat Dr. Bray by five shots.

Messrs. Knight & Co. are shipping oil from their wells located near Lawville, Mich. They say prospects are splendid for a good field in this section, and operating will soon be commenced on an extensive scale.

The Lake Erie & Detroit River Railway officials say it is impossible for them to furnish coaches for a late train to leave the Eau on Thursdays. The demand for coaches at this season is taxing all railroads to their capacity.

"COLLEGE BOY" DEAD.

College Boy, a "bay stallion" owned by D. McLachlan, of this city, died yesterday at the track at Columbus, Ohio, of congestion of the lungs. He had a record of 2 1/4-11-4. By his death Mr. McLachlan has sustained a severe loss. At the blue ribbon meeting held in Detroit about a week ago College Boy won second money in a purse for \$1,400.

D. McLean, of Dutton, was in the city yesterday.

James Sterling, of Blenheim, spent yesterday in the city.

Rev. Mr. Robertson, of McKay's Corners, is in the city to-day.

Ernest Bailey, of Kingsville, was in the city yesterday on business.

Mrs. William Peck and family are spending the day at Paradise Grove.

Mr. and Mrs. Geo. McCormick, of Bay City, Mich., are Chatham guests to-day.

George Thompson, of Goderich, called on his Chatham friends yesterday.

Trainmaster K. R. Cameron, of Ridgetown, was in the city yesterday.

Harry Duff, Park avenue, has returned from a week's visit in Leamington.

F. McRae, of Detroit, called on a number of his Chatham friends yesterday.

Mr. and Mrs. Wm. Somerville, Wellington street, are spending the day in Detroit.

Frank Peck, of Jeanette's Creek, was registered at the Rankin House yesterday.

County Commissioner James Ross, of Tilbury, was a Chatham guest yesterday.

The Separate School Board will hold their regular monthly meeting next Monday evening.

Charles Lynn, of this city, leaves tomorrow for Cleveland, where he has secured a position.

Mr. Fox and Miss Surby are to-day writing on their examinations in the shorthand department of the C.B.C.

Mrs. Side, Bakeigh street, and Mrs. Phelps, Gray street, spent yesterday with friends at Erieau.

Thomas L. Buller, of the Buller Windmill Company, of Ridgetown, spent yesterday in the city.

Misses Margaret and Jessie McIsaac, of Eberts, spent yesterday with friends in the city.

Mrs. Lucinda Griffiths and daughter, of Lincoln, Neb., are spending the day in the Maple City.

A large mudslide was struck by the city of Chatham last night. The fish measured 47 inches long.

C. Austin and family and Dr. Poole, of Detroit, who has been visiting him, are spending the day in Detroit.

Jas. Langstaff, of Chatham Township, who has been seriously ill in St. Joseph's Hospital, is to-day doing nicely.

Mrs. W. J. Kenny and daughter Elsie, of Muskegon, Mich., are guests of Mr. and Mrs. E. Putman, Queen street.

This is the closing day at the Canada Business College. The College will be opened again on the 8th of September.

Ernest Burton, of the business department of the Canada Business College, leaves for his home in Leamington to-day.

Mr. and Mrs. Bert Snook, of Big Timber, Montana, is visiting in the city to-day. Mr. Snook is a former Chatham resident.

A. T. Kelly, of Wallaceburg, a student at the Canada Business College, has secured a position in the Bank of Commerce at Wallaceburg.

Geo. J. Peace and A. I. McCall, of this city, spent the day fishing at the Eau. They returned to the city laden with a goodly number of the finny tribe.

Gordon Stewart, a school teacher in Chatham Township, and well known in the city, is confined in St. Joseph's Hospital, receiving treatment for his hip.

A very large number of excursionists attended the band concert at the Eau last night. The 24th Regimental Band played a number of new waltzes for the first time.

The funeral of the late John Galbraith, who died in Calgary, took place yesterday from the residence of his father, Duncan Galbraith, of McKay's Corners, to the Botany cemetery. Rev. Mr. Robertson, of McKay's Corners, officiated.

THEY HAVE KICK COMING

Local Census Enumerators have Many Complaints as to Pay.

Commissioner Waugh Will Seek to Straighten them out—Says one man is instigating the trouble.

James Waugh, census commissioner for West Kent, is at present paying the enumerators for their work. He reports that a number of complaints have been made by the enumerators as to the way they are paid.

The Government has left the matter entirely in the hands of the commissioners with certain rules to govern them. The schedule for paying the men is five cents a head, and five cents for each 25 cents for each farm, and 30 cents for each industry. In the cities, however, a special enumerator was appointed to take the industries in charge.

Although the commissioner has certain rules to go by, he has the opportunity of using his own discretion as to whether the enumerator is really earning all that he receives under the schedule rate. In some of these cases, therefore, the enumerators have handed in accounts which to the mind of the commissioner are too much. He consequently makes a reduction, and hence the complaint. The complaints, however, he says, have not been serious, and have been instigated, it is understood, by one of the enumerators who has brought his influence to bear on the others.

It is expected that the work of paying off the men will be completed in a few days.

TELEGRAPH

Lord and Lady Minto were at Fredrickton yesterday.

Mr. McDowell, an Alliston barber, is down with the smallpox.

Wheat cutting has commenced at Souris and Greenridge, Man.

There were 74 deaths from smallpox in New York State during June.

The body of Frank Marsh was found in the water at Hamilton Beach.

Thomas Bugg and George Patterson, farmers, near Cheney, were killed by their horses and killed.

The turnkey of the Toledo, Ohio, jail was held up by armed prisoners, locked in a cell and four prisoners walked out.

Hon. A. G. Blair and Hon. W. S. Fielding will leave England for Canada in the Allan Liner Australasia on Aug. 1.

TOWN HALL, DOVER.

D. Daggett is on a business trip to Detroit, Windsor and Amherstburg.

N. H. Bechard and wife have returned from a week's outing in Detroit and other western cities.

Alex. King, Creek Road, has leased his farm to Joseph Provost.

Miss Julia A. McLean entertained a number of friends to tea cream, etc., previous to her departure for Detroit.

The threshing so far has not turned out extra well. Owing to the dry season the barley and wheat are both light.

NO CHANGE

Prices at this Morning's Market: the Same as on Saturday.

There was a very good market this morning. The prices remain the same as on Saturday. There is not much new stuff coming in.

Potatoes sold at \$1.25 a bag, thin-skinned at 10 to 12 cents a box and cherries at 10c. a box. There were a few apricots offered at 10c. a quart. Cabbages sold at 5c. each and pears at 5c. a box. Tomatoes sold readily at 10c. a quart. This price is considered very moderate as the tomato crop is very poor this year. A few summer squashes were sold at 5c. each.

TORONTO FRUITS.

Toronto, July 30.—The wet weather caused a diminution in the receipts at the local market and trade was quiet. Small stuff was not in good condition and it sold slowly. The general demand was up to the average, however, and nearly all the offerings were sold. Raspberries were a shade easier owing to the quality of the stock; red sold at 7 1/2 to 9c, and black were generally lower at 7c to 8c. Deliveries of Canadian tomatoes were very heavy and the market weakened, closing at \$1.15 to \$1.25. The total receipts were about 3,000 packages. We quote—Bananas, per bunch \$1.50 to \$2.; cherries, per basket, 90c to \$1.25; currants, black, per basket, \$1.40 to 60c.; gooseberries, per basket, small, 25c to 30c, medium 40c to 50c, large 60c to 75c.; huckleberries, per basket, 90c to \$1.; lemons, per box, \$4.50 to \$5.; oranges, California, per box, \$4.50 to \$5.; peaches, California, per box, \$1.60 to \$2.; do Texas, per crate, \$1.75 to \$2.; do Georgia, per crate, \$2.50 to \$3.; pears, California, per crate, \$3.50 to \$4.; plums, California, per box, \$1.75 to \$2.; tomatoes, Mississippi, 4c, \$1.75; do Canadian, per basket, \$1.15 to \$1.25; watermelons, each, 20c. to 35c.

VERY SERIOUS.

Hamburg, July 31.—At a late hour last night the condition of the Dowager Empress Frederick was reported to be very serious.

TENDERS.

Sealed tenders will be received up till noon, Aug. 10th, 1901, addressed to Lindsay Road Committee, Turnerville, for the work of brick veneering, with brick or stone foundation, plastering and painting; also building an addition, etc. Parties tendering will get full particulars by calling on the building committee at Turnerville.

The lowest or any tender not necessarily accepted.

By order. B. C.

Turnerville, July 30, 1901. td

CLOTHING DEPARTMENT

Never Dull Never Sleepy Never Monotonous

We're in the business for all its worth, making the store bigger and making the service better. Right now, when everybody expects to do little or nothing, we keep everything lively at it. Trade at the Big Store hasn't reached high water yet; and we know it. An express train doesn't slacken its speed because it happens to be night, and there's no reason why we should stop growing because it happens to be the month of July and August. There's more business to be got and we're after it.

The Greatest Suit Sale Of the Age

Now in Full Blast

Men's honest wearing Tweeds and plain Serge Suits, single and double breasted style, reg. \$5, \$6 and \$6.50 suits, for your choice.

\$3.95

NOTE—The quantity is limited, the price is good while they last. These values were never equalled in the history of the clothing trade.

Special Table of Men's and Boys' Dress Straw Hats

Made from fine braid straw, fancy and black bands, dressy, sizes 6 1/2 to 7 1/4, worth regular up to 50c, clearing at.

25c

Men's Overalls

Boys' knee moleskin Pants, neat checks, all sizes 5 to 13 years, black and blue, special

25c

Men's special Duck Overalls with and without bibs, all sizes, black and blue, special

50c

Boys' and Youths' Overalls with bibs and braces, for ages 3 to 16 yrs.

50c and 40c

Men's Mole Overalls, neat gray stripes, all sizes

75c

Men's Mole Pants, well stayed and cut, good pockets, all sizes

Chatham to Rond Bau and return any day, any train, 25 cents; return following day, 50 cents; going Saturday, returning Monday, 50 cents.

Mr. and Mrs. Robt. Park, Mr. and Mrs. R. W. Park, W. E. Park, C. K. Park left to-day for Buffalo on a visit to the Exposition. They will return on Saturday.

The Excelsior Band excursion to Port Stanley, Aug. 7th, promises to be a big success. The tickets, which are good to return the following day, are for sale by all band men. 10c.

Miss Grace Smith, Prince street, left this morning for the Pan-American, Buffalo. She will visit her brother there, who represents the Manson Campbell Farming Mill Co. in this city.

A meeting of the members and supporters of the cricket club will be held at the Club House on Friday evening to complete arrangements for the proposed tour. Let all interested be present.

The second eleven of the Chatham Cricket Club left for Kingston this morning to play the team of that town. This is the first match for the "colts," but their recent good work has given great promise.

A young man, charged with violation of the bicycle by-law, was the only invited guest at this morning's police court sitting. The authorities amended the date of the alleged offense and the defendant, who pleaded not guilty, secured an adjournment till Monday.

In view of the fact that the lacrosse match, scheduled for to-morrow afternoon, has been postponed, Michael McCarthy will endeavor to arrange a local ball game between the barbers and the dry-goods clerks. It will prove an enjoyable way in which to utilize the day holiday.

PAN-AMERICAN, BUFFALO: N. Y. Parties who intend visiting the Pan-American Exposition at Buffalo, can secure private accommodation within ten minutes' walk of the grounds. For particulars and rates address M. H. Terry, formerly of Chatham, 1222 West Ave., Buffalo, N. Y.

There is more catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For great many years doctors pronounced it a local disease, and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease, and therefore requires a constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

Address, F. J. CHENEY & Co., Toledo, O.

Sold by Druggists, 75c.

Hall's Family Pills are the best.

FIGHT IN A BROTHEL.

Fort William, Ont., July 31.—As the result of a fight in a brothel in the bush near here Monday, Dan. McFadden lies at the point of death from two knife wounds. One Paddy Walsh, who is supposed to have inflicted the wound, is missing, and McFadden is too badly wounded to give a statement of how the affair occurred.

"We were very much pleased with the design you sent. It was beautiful and appropriate." The Victoria Ave. Greenhouses receive such words of commendation every day. Telephone No. 181.

WEAKNESS OF MEN AND WOMEN

Could we read the hearts of every man we must, what a load of sorrow and despair would be disclosed. Indiscretions and excesses, mental and physical, have caused more physical weakness than all other causes combined. They strike at the foundation of manhood, they sap the vital forces, they undermine the system, and not only do they often destroy the family circle, but they may even extend their poisonous fangs into the next generation. If you have been a victim of early sexual habits, remember the seed is sown, and sooner or later you will reap a harvest. If your blood has been diseased from any cause do not risk a return later on. Our New Method Treatment will positively cure you and you need never fear any return of the disease. We will give you a guaranteed bond to that effect. We would treat you sincerely against the pernicious and evil mercury, which does not cure blood poison but simply suppresses the symptoms.

WE CURE OR NO PAY.

Don't let your life be drained away. There is no room in this world for mental, physical or sexual diseases. Our New Method Treatment will Stop all Unnatural Losses, Purify the Blood, Strengthen the Nerves, Restore Vitality, and make a man of you. If you are in trouble, write and consult us. Consultation is Free. We treat and cure Drains, Blood Diseases, Venereal Diseases, Stricture, Urinary Discharges, Gleet, Kidney and Bladder Diseases, No cutting or operation. No dangerous drugs. Everything confidential. Consultation Free. Books Free. Question Blank Free for Home Treatment.

Township Councils,

Howard Council.

The municipal council of the township of Howard met on Saturday, July 28th, as per adjournment. All members present.

The minutes of previous meetings and of Court of Revision on Crouch drain were read and confirmed.

From J. C. Fleming, county clerk, stating that the amount of county rate levied on Howard for the present year is \$3,992.95. Legislative school grant \$435.

From George E. Clark, stating that owing to a defective culvert on concession 2, he had broken his bicycle and asked the council to remunerate him to the amount of \$10, being the cost of repairing the same.

From George R. Rivers, Watford, quoting prices for concrete stone pipe.

From the Assessors of Camden, Chatham, Harwich and Howard, re the equalization of S. S. No. 8, Camden—Camden to contribute 50% per cent. Chatham 12, Harwich 19 and Howard 7% per cent.

From the Printing Committee, stating that they had asked for tenders for the printing of 200 copies of the voters' lists from the local papers. The printer, being the lowest, was awarded the contract.

The committee appointed to procure earth re the approach to Kent Bridge reported that as yet Mr. Arnold has refused to sign the agreement prepared but was willing to abide by the one signed by him on May 1st, at Kent Bridge.

From J. C. Williams, stating that he had the drain on the town line complained of by E. Arnold, repaired at a cost of \$5, entitling Richard Spencer to said amount.

From J. C. Balmer and J. C. Williams, committee appointed to have the Arnold creek bridge put in proper repair, stated that with the exception of about one day's work that said bridge is in good repair. Have not received the account for the cement and oiling. The cost of building concrete abutment, filling in same and right of roadway \$288 for building wall and filling in approaches—N. Roe and A. Culter, \$288 for building wall and filling in approaches; Charles Brown for roadway \$15.

The following persons addressed the council:—J. E. Brown, Watford, Tape, William Brien and C. W. Richardson re sheep killed by dogs.

John Crawford, wishing to know if the council intended building a hall, as the Howard Insurance Co. was requiring an office for the safety of their books and papers and, as they had used the township hall ever since said company was organized, free of charge, they hoped the council would build a hall and that arrangements could be made for a suitable place for the company.

Zechariah Spencer, in reference to a petition of himself and several ratepayers in that locality, asking to have the old road opened to the gravel pit on lot 4, con. 1 w. b.

Resolutions

Williams—Brien—That the accounts as presented be paid.—Carried

Wilson—Brien—That the report of J. C. Williams and J. C. Balmer on the Arnold creek bridge be adopted also of J. C. Williams re cleaning ditch on town line from the to Brown drain and that the contractors be paid as report.—Carried.

Brien—Balmer—That after hearing the evidence of Z. Spencer, that this council leave the matter over until next meeting of council and that the reeve, D. Wilson and the mover be appointed committee to examine gravel pit and report at next meeting.—Carried.

Balmer—Wilson—That the Court of Revision on McGregor Creek and Buller drain be postponed until August 3rd, McGregor at 2 p. m. and Buller at 2.30.—Carried.

Brien—Williams—That complaint of George Clark re damages to bicycle on 2nd con. be held over for further consideration.—Carried.

Wilson—Brien—That the Township of Howard hold their annual picnic to the Provincial Park, London, Aug. 15, and that the clerk extend a cordial invitation to the councils of the Town of Ridgeway and the Townships of Oxford and Harwich and their friends to attend same.—Carried.

Wilson—Williams—That the reports of the assessors of Howard, Harwich, Chatham and Camden, re equalization of S. S. No. 8 Camden, be received and that James Hurst be paid \$12 as per account, same to

HEADACHES.

Indolent feeding, rich food stuffs, and a thousand and one causes are enough to send the delicate brain cells, through the blood, and produce headaches.

Powley's Liquefied Ozone will take the poison out of your blood and then heal your stomach's action. Take the dose every twenty minutes if the headache is severe.

"Since my infancy I have been troubled with bilious headache. I used to suffer dreadfully, especially during summer months. I consulted three years with my family physician, but received no benefit. I tried two or three other doctors, and many so-called remedies, but got no relief. I came to the conclusion there was something wrong with my blood. During that time I gained eleven pounds and felt like a new man. I now recommend it to all who suffer from bilious headache." (Signed) J. R. BREWSTER, Centerville, Ont.

Powley's Liquefied Ozone is one dollar a bottle; your druggist has it. Send to us for any additional information you require. Our literature is free.

be charged to No. 8, Camden.—Carried.

Wilson—Brien—That William Brien be paid \$16.66 for one sheep killed, L. Tape \$6.66 for one lamb killed, J. E. Brown \$4 for two lambs killed by dogs, being two-thirds value and charge to dog fund, and that J. F. Brown shall also receive \$5.00 for killing dog as per resolution of council.—Carried.

Brien—Wilson—That parties having sheep killed must have said sheep examined by some responsible person who will be prepared to state in his opinion such damage has been the work of dogs, also said owner of sheep must be prepared to satisfy council that he made thorough search as to ownership of dogs.—Carried.

The by-law in reference to prohibiting streets and highways being used for games and other amusements was read and returned number of times and finally passed.

By-law for repairing Crouch drain was read a third time and finally passed.

Balmer—Wilson—That this council adjourn to meet Saturday, Aug. 3rd at 10 a. m.

GEORGE M'DONALD,
Clerk.

Chatham Tp. Council.

The council of the Township of Chatham met on Tuesday, July 30th, 1901, pursuant to adjournment. The members were all present. The minutes of the last meeting were read and confirmed.

A communication was read from the County Clerk, stating that the amount required by the county from the township of Chatham for the present year is \$457.50 and also that the amount due the House of Refuge for the care of inmates for the year ending 31st of May is \$181.21.

A notice was read from David Wise stating that if the Turrell drain is not repaired this summer he will hold the township liable for any damage.

damage his farm may receive from the overflow of water.

Mr. Ben Richardson addressed the council claiming remuneration for keeping H. Croxley and family for several months.

Mr. Peter Crawford, a member of Dover Township Council, was present, in reference to leveling the earth taken out of the Chatham and Dover Town Line drain by the dredge at the intersection of the concessions with the townline road to render the approach accessible from the concessions to the townline road on the Dover side.

The Reeve stated that the Reeve of the Township of Camden, called his attention to the fact that the bridge over Dustin's Creek on the Chatham and Camden townline road is in a dangerous condition and should be repaired or rebuilt at once.

Stephens—Tompkins—That the claim of Ben Richardson re keeping the family of H. Croxley for the winter of 1901 be referred to the Reeve to investigate and with power to settle. Carried.

Stephens—Tompkins—That the Clerk be hereby instructed to request W. G. McGeorge, C. E., to examine the Turrell Drain and make a survey and report on the necessary repairs and required improvements on said drain as early as possible.—Carried.

Stephens—Tompkins—That Council George McGeorge be appointed with the Reeve of Camden Township to have the bridge on the Chatham and Camden townline over Dustin's creek, repaired or a new bridge built if the same is necessary, and charge to townline account.—Carried.

Stephens—Tompkins—That councilor Tompkins and W. G. McGeorge, C. E., make an examination of the bridge over Charteris creek, on the River road, with a view to its repair or of building a new bridge, if necessary, and that Mr. Tompkins be empowered to do what he thinks best in the matter.—Carried.

The by-law appointing the following persons as inspectors for the destruction of thistles and noxious weed and for preventing the spread of diseases effecting fruit and ornamental trees was finally passed:—Edward Stover, division No. 1, Alfred E. Burleigh, division No. 2, Peter McKernall, division No. 3, John T. Holmes, division No. 4, James McCarron, division No. 5, also the by-law in reference to borrow the sum of \$2000, to purchase a site and build a school house for school section No. 14.

The following accounts were paid:—Laird Brothers, material for culverts, \$27.35; Albert Miller, assistance granted, \$2.50; Chatham Banner-News printing, \$12.25; John Delme, two-thirds value of one sheep killed by dogs, \$4.00; George Green sheep inspectors fees, 75c.

Meeting adjourned.

Good Metal in Bad Money.

"The manufacture of spurious shillings out of genuine silver—an offense against the law—is a very recent time—still going on actively. The root of the difficulty is the great fall in the value of silver bullion. Roughly speaking, an ounce of silver is just now worth only three shillings 3d, whereas, when coined at the mint, it becomes worth five shillings six pence. The fraud cannot be detected by weighing, for the weight is that of a good shilling; neither will ringing the coin on the counter help one, for the silver is genuine, and of the right standard.

On the attention being directed, however, to the workmanship of the base coins it is seen that the milling of the rim and the edges of the devices engraved in relief are less sharp than they ought to be. This arises from the fact that instead of being struck the false shilling is cast in a mold. When roguery shall have enlisted the services of a skilled engraver and die sinker it is not easy to see what steps can be taken to avert the evil, unless it be determined to increase the size and weight of our silver coinage to an extent that will reduce the coiner's gains. Unfortunately this would also deprive the mint of an important source of profit. Meanwhile, the Bank of England keeps a watchful eye on parcels of silver—particularly on Victorian shillings of recent date—and a spurious shilling is promptly cut in halves, and returned with the laconic note, "Not made at the mint."—London News.

Misquotations.

A writer in the Pall Mall Gazette has been making a collection of common misquotations. The list is a long one, and to a large number of people who pride themselves on their stock of quotations will come as something of a shock. In some cases the misquotation seems preferable to the correct rendering. The following are some of the most common (the misquotation is given first as follows):

"Charity covereth a multitude of sins." for "Charity shall cover the multitude of sins."

"A little knowledge is a dangerous thing." for "A little learning is a dangerous thing."

"Make assurance doubly sure." for "Make assurance doubly sure."

"Pleth as the gentle dew." for "Drop as the gentle dew."

"The man that hath no music in his soul." for "The man that hath no music in himself."

"Fresh fields and pastures new." for "Fresh woods and pastures new."

"The even tenour of their way." for "The noiseless tenour of their way."

WOMANLIKE.

One evening Adam was making love to Eve, but she seemed dissatisfied.

"What is troubling my darling?" he asked.

"Oh, Addie, dear," she sighed, "if I am the only woman you ever loved."

A lost art—Family government.

Fishing Tackle

If you want to be assured of catching the 'biggest fish in the pond buy your fishing tackle at Geo. Stephens, Quinn & Douglas. They have nearly everything in the fish tackle line that can be thought of, their prices are right, and as a rule the fish tastes sweeter caught on their hooks.

Geo. Stephens, Quinn & Douglas

Kidneys and Bladder

Don't neglect these most important organs of the body, as you will regret it. Have you pain in the back, a dull feeling in the region of the kidneys? At times your water comes freely, a large quantity, light in color, with no peculiar sensations, while at other times you do not make it quite so freely, it is dark in color, you make a small quantity, and a sort of burning sensation? If such is the case give your condition immediate attention or more serious complications will set in. Our Latest Method Treatment guaranteed as a positive cure for such conditions, and remember WE CURE YOU OR NO PAY.

BLOOD POISON

If you have this awful disease you are in danger until completely cured; the various symptoms you notice should be a warning to take immediate treatment. Don't put it off until too late, as it continually gets worse. If you have sore throat, patches on tongue or mouth, swollen glands, hair falling out, blotches on body, itching skin or other signs of this awful disease call on us. We give you a written guarantee to cure you by our LATEST METHOD TREATMENT without Mercury or Potassium, and you

PAY WHEN CURED

You need pay nothing until you are convinced that a thorough and complete cure has been established. It makes no difference who has failed to cure you, call and see us, as we will give you a thorough examination free of charge and may be the means of saving you years of suffering.

Each time you call you see Dr. Goldberg personally. He has 18 diplomas, certificates, etc., which testify to his standing and abilities. The number of years we have been established in Detroit and the cures we effected have ranked us the foremost specialists of the country. We can give no stronger guarantee of our ability to cure you than the fact that you need pay nothing until cured.

OUR LATEST METHOD TREATMENT GUARANTEED TO CURE

Varicose and Stricture without cutting, stretching, or loss of time; also Blood Poison, Chronic, Nervous, Impotency, Kidney, Liver, Bladder, Stomach, Female and Rectal Trouble. CONSULTATION FREE. Call or write for blank form home treatment.

ST. THOMAS BUSINESS COLLEGE

The growth of this institution during the last two years has been wonderful. The attendance has been doubled on account of the thorough course of training which we give. One of our young men is now drawing a salary of \$1,800 a year; another \$900; others from \$400 to \$800. Within the last month two of our students have gone direct from the College to positions paying \$500 a year. WE QUALIFY OUR STUDENTS TO FILL THE BEST POSITIONS.

Young people are foolish to spend the best part of their lives learning Latin, French and the dead languages, when a few months spent in our Commercial or Shorthand Department will fit them to earn salaries like the above.

Eighty-seven per cent. of all our students who have written on the examinations of the Business Education Association of Canada this year have been successful.

THE ORCHARD.

Some information regarding the Cultivation of Fruit.

Apples in a cultivated orchard ripen later than in one that is not cultivated, the fruit hangs on the trees better, and it keeps better than fruit which ripens earlier. Fruit trees should occupy the best land on the farm, as it requires a good soil to furnish the constant supply of plant food that is consumed by the trees, for a bearing tree consumes more food from the soil than a tree which does not bear; hence the importance of heavily manuring orchard land. Fall is the best time for setting trees, for trees set in the fall, become well established, and are ready to grow when spring comes. The wound on the roots, made in transplanting, heals over during the winter, the soil becomes firm around the roots and resists drought much better than spring planted trees. The holes which are to receive the trees should be at least three feet square, and of sufficient depth. The soil should be thoroughly mixed with well rotted manure and well filled in and pressed among the roots. Trees set in this way will grow twice as rapidly as trees set in a haphazard way. All cross limbs and water sprouts should be cut off each year, and shortening the tops annually is advantageous, as trees are not so liable to break down when loaded with fruit, and the fruit is more easily gathered.

Grass should never be grown in an orchard, nor any grain crop, as they tend to draw the moisture from the soil and leave the trees without the necessary supply to mature the fruit and sustain the wood growth. Turning under growing crops of clover and cow peas, adds a large quantity of humus to the soil. Potash is generally deficient in old orchards, and to supply this important element, of plant food there is nothing better than hardwood ashes applied at the rate of 150 bushels per acre.—C. W. Norris.

Sunscald Among Fruit Trees.

In some parts of the country sunscald is one of the most important factors in growing fruit trees. Especially is this true in the southwestern states, where the danger from sunscald controls the whole practice of cultivation and pruning. In that country the trees are headed low, even down to within a foot or six inches of the ground, in order to protect the trunks. At the same time any considerable pruning in the tops is avoided, because it would expose the larger branches to the deadly sunscald. This difficulty is less frequently met in the northeastern states, but the writer (P. A. Waugh, in The Country Gentleman) has lately visited an orchard as far north as Canada and New England line, where nearly 50 per cent of the trees were ruined by this trouble. They were pruned too high, with heads six and eight feet from the ground.

Sunscald is usually worse on apples and pears, but it may appear on almost any tree. The accompanying illustration is from a tree of Downer's Late Red cherry grow (or dying) in Maryland. When the damage is as old as this, where it has been accumulating for several years, it is doubtful if any remedy can be applied, though one can see in the photograph how persistently this tree has tried to heal over the wound. When taken in the early stages, sunscald may be cured by protecting the trunk with boards, papers, straw or some similar material. At the same time the scaly, burned parts should be cleaned away, and some sort of wax may be applied. The best treatment for sunscald, however, is to avoid it.

Sunburns are usually only the beginning of other serious troubles. Borer commonly follow closely after bacteria and molds rain access and cause increased damage to wood and bark, and the rain and sun check and crack the exposed tissues, to their great and permanent detriment. It is doubtless a fact that sunscald is a more important enemy of fruit trees than many of the fungi that have been extensively studied and elaborately discussed in recent books and bulletins.

More Sure of Success.

Agricultural success is becoming more certain. We are acquiring more of a love for the occupation, raise more of a diversity of crops, till smaller farms and are acquiring a greater knowledge of the business. A great deal more interest is being taken in the surroundings and we see many farm homes with nice level lawns, kept as neat as those in the city, and the house supplied with modern conveniences. The brighter side of agricultural life is more discernable, diversified farming causes the agriculturist to be less discouraged with a partial or even an entire failure of one or more of his crops. He has thus fortified himself against disastrous failures and has become a contented and successful business man.

CURES CREATE CONFIDENCE

That is Why Dr. Chase's Kidney-Liver Pills Have Won the Confidence of the People of this Continent—Read These Letters.

Dr. Chase's Kidney-Liver Pills have the largest sale in Canada of any treatment recommended for diseases of the kidneys. They have won the confidence of the people by actually curing the ailments for which they are intended, and are known in nearly every home in the land. Scores of hundreds of people could write just such letters as these that follow:

Mr. James Clark, Concession, Prince Edward County, states: "Eleven years ago I was taken with pains in my back, settling in my hips and extending up my spine. The pain was very severe and at times almost unbearable, and many days I was not able to do an hour's work. My weight was reduced from 190 to 160 pounds, and, though I had consulted many first-class physicians and tried several advertised medicines, I could get no relief."

"At this time my father-in-law told me to try Dr. Chase's Kidney-Liver Pills, and said he knew they would cure me. I secured one box, and great was my surprise when I began to feel better after using only one box. I continued their use until I had taken about four boxes, which made me a sound man, and I also regained my usual weight, 190 pounds. I can not say too much in favor of Dr. Chase's Kidney-Liver Pills, which have done so much for me. I have recommended them to a number of my friends and have never met with one case where they have not met with good success. My daughter, Mrs. Charles Phillips, has also been cured of a severe stomach trouble by the use of these pills."

Mr. Geo. Cummings, Barrie, Ont., one of the best-known engineers on the G. T. R., and whose name is between Toronto and Barrie, writes: "For years I suffered from kidney disease brought on by railroad life. The doctors called it 'railroad kidney,' but could give me no permanent relief. A friend recommended Dr. Chase's Kidney-Liver Pills, saying they had cured his own case. I secured a box of this grand medicine, completely cured me, putting an end to the dreadful pains in the back and greatly strengthening the body. Being as well as to-day, thanks to Dr. Chase."

There is no uncertainty, no experiment, about taking Dr. Chase's Kidney-Liver Pills. They have cured such a variety of cases, and have been so thoroughly tested during the past quarter of a century that you can be absolutely sure of being benefited by their use. If you have been disappointed with other remedies you will all the more appreciate the genuineness of this sterling remedy of Dr. Chase. Each pill costs 25 cents a box, at all dealers, Dr. Edmanston, Bates & Co., Toronto.

"The idea of that college making Roxley a LL.D."

"Yes, these colleges do some idiotic things."

"They do, indeed, and yet they are all supposed to be in possession of their faculties."

What does it profit a woman if she gain the whole world of knowledge and lose her own health? Young women students, and school teachers, ambitious, energetic, and full of energy, very often neglect their health in the struggle to gain education. They eat insufficient food, and at irregular hours, they allow irregularity of the womanly functions to be established, and the result is that they become chronic invalids with all their education practically worthless. There is a case, marked by the feet of thousands. It is the use of Dr. Pierce's Golden Medical Discovery for diseases of the stomach and digestive and nutritive organs, and Dr. Pierce's Favorite Prescription for diseases of the delicate organs of womanhood. A cure so certainly follows the use of these remedies that out of hundreds of thousands who have tried the treatment, ninety-eight in every hundred have been perfectly and permanently cured. Constipation, with its calamitous consequences, which is a common ailment of students, can be entirely cured by the use of Dr. Pierce's Pleasant Pellets.

Ulm's cathedral spire, which is 531 feet high and the loftiest structure in the world, is to be used for a meteorological station.

Why Catarrh Cures Catarrh

Because it is carried by the air you breathe to diseased parts, because it destroys the germ life that maintains the diseased condition, because it powerfully stimulates the mucous membrane to its normal action, because through its oxidizing power it burns up rapidly the old tissue and stimulates the formation of new healthy tissue. Catarrh is an absolute specific for Catarrh of every form, and never fails to cure. Catarrh is the only remedy sold with a guarantee. At all dealers, 25c. and \$1.00.

Bill—His automobile seems to have almost human intelligence? Jil—How so? "Why, it broke down in front of a saloon."

NOTES.

Farm life is what you make it, with possibilities in favor of health, happiness and good living.

Study the farm in all its phases; there is some general information, applicable in all cases, but there are also special features in every case. "Study to show thyself a workman."

The farm should be made more attractive than it is, and I think I see that the signs of the times promise something along this line. If you would realize the best results from the farm animals, you must treat them with kindness. Whether guided wholly by instinct or partly by reason, they soon realize the nature of their treatment, and in a measure govern themselves accordingly.

Some farms are kept in a slovenly manner, which clearly indicate a shiftlessness which must be sadly felt by the farmer and his family. A poorly kept farm is a sorry source of revenue. See to it that the farm tools are not exposed to the weather. Many farmers are careless in this respect, and much damage and loss are thereby incurred.

After some years' actual experience in farm life I observe that he is a poor farmer who does not see work to do at all times on the farm. Our farmers certainly need rest, and they should not stint themselves in this respect. But when they feel like working, they should be able to see something to do about the premises. I have a theory that work done creates work to do. I think you may neglect your farm work till speaking in the abstract there is nothing to do.

You should look after the comfort of your poultry during the winter. You

Poultry Yards.

Rake the poultry yard thoroughly and cart off the trash.

Ducks are great eaters, but if sold at half grown are quite profitable.

Fowls left to run pick up much of their living where they have the freedom of the fields.

Poultry manure should be piled up in some place where it is not liable to be leached by water for use on the garden.

Chickens are great insect destroyers; an old hen and a brood of chicks in the current patch is almost equal to a treatment of paris green. There is no green stuff equal to cabbage for fowls. They will eat everything but the stalk and every try to get the pit out of it. It is difficult to keep cabbage all winter, hence the necessity of preparing other feeds for green stuff during the cold weather.

If the farmer has no alfalfa growing, he should at least secure a load or two from his neighbor for winter feed for his fowls. Hens eat this best when run through a cutter; but they will eat the most of it without. We would recommend the second growth as it is less woody.

Another method of breaking up the setting hen is to place her in a barrel containing a few inches of water, allowing her to stand on a brick placed in the center and just enough above the water to keep her feet dry while if she attempts to sit down her feathers will go into the water.

Chickens are a success in the poultry business, unless you look to its comfort, in several ways, and one way is to have suitable houses to protect the fowls from the rigors of winter.

If you study the farm, your success will be commensurate with that study.

There is a science in farming, through most of our farmers have something of a program, a mere routine of work to be done, and do not give the matter study in a manner that is calculated to develop better methods.

Frank Monroe Beverly.

Judging Cows by Looks.

The best looking cows are not always the best performers in the dairy. A striking illustration of this was afforded by the recent experience of a well-known Jersey breeder. This gentleman had for years made the dairy qualities of his cattle a subject of special study, and prided himself upon the fact that he possessed a thorough knowledge of the proportionate values of the various cows owned by him. With the intention of weeding out some of the worst members of his herd, he recently proceeded to single out several of them, but before finally deciding on the point he had the milk of these cows analyzed, with the result that one of them, which he had priced among the very lowest, was found to be yielding at the rate of 16 pounds of butter per week, though his reputation prior to that only credited him with producing about half that quantity.—Dairy and Creamery.

The Rose Slugs.

To get rid of rose slugs the work must be undertaken before a bug is to be seen. While buds on rose bushes are very small and before the bugs have begun to appear, the surrounding soil should be soaked with kerosene emulsion and have plenty of soot sifted on. I treated two or three large rose bushes by stirring the soil for about two feet around the bush, digging down as deep as I could without disturbing the rootlets then mixed it a lot of manure. After smoothing and pounding it down with the spade, I laid flat stones all over to keep the chickens off. Two or three times before the roses were in bloom, I lifted the stones and poked-out the great worms which I found very thick directly under the stones, then sprinkle the ground with kerosene emulsion and soot. When the bushes were covered with roses what a relief it was not to see the slugs. Soot is also good for killing currant worms and should be put on while the bush is damp.—Marie, in Farm and Home.

In Germany 11,585,000 persons are insured. All workmen, assistants, journeymen, apprentices, sailors, domestic servants and clerks above 15 years of age earning not more than \$500 yearly are bound by law to insure.

PARAFFINE WAX

Don't tie the top of your jelly and preserve jars in the old fashioned way. Seal them by the new, quick, absolutely sure way—by a thin coating of pure, refined Paraffine Wax. Has no taste or odor. Is air tight and acid proof. Easily applied. Useful in a dozen other ways about the house. Full directions with each barrel case. Sold everywhere. Made by IMPERIAL OIL CO.

"Here are the eggs, mum." "Lay them on the table." "I am not the hen, mum; I'm the grocer's boy."

Remember

We don't advertise for mere effect, but for business. We know that, if you are subject to cramps, that you cure—has a wonderful and immediate curative power. It relieves in one minute; it cures in five. Pleasant to the taste and the best, known remedy for pain.

A baldheaded man may always expect to find a friend and sympathizer in the manufacture of wigs.

ONE TEASPOONFUL of Pain-Killer if hot water sweetened will cure almost any case of flatulency and indigestion. Avoid substitutes, there is but one Pain-Killer, Perry Davis', 25c. and 50c.

In the seventeenth century the epithet "miss," applied to females, was considered a term of reproach.

Gas on the Stomach

result of imperfect digestion pressing up against the heart, it excites alarming symptoms. Instant relief is afforded by taking half an hour after the meal, ten drops of Peppermint Nervine in a little sweetened water. Nervine aids digestion, expels the gas and imparts a sense of comfort. Nervine is good for lots of other things, and wise people keep a 25c. bottle in the house for rheumatism, cramps, neuralgia, toothache &c. Try it.

A sentimental youth says he prefers hanging on to the neck to hanging by the neck, but that both are dangerous.

IS TUBERCULOSIS TRANSMITTED FROM DISEASED CATTLE?

City Physicians Give The Planet Their Views Upon Dr. Koch's Conclusions—The Medical Problem of This Age—The Diagnosis Differs.

In view of the world-wide interest and discussion—even among the laity—which has centred upon Prof. Koch's address on the transmission of tuberculosis, made at the recent meeting of the British Congress on this dread disease, held in London, and the diversity of opinion existing thereon, even among physicians, The Planet has secured interviews from a few of the local physicians, all of whom have been close students of the question.

Dr. J. H. Duncan is completely in accord with the conclusions of the eminent German.

"There is no doubt," he said to The Planet, "that Dr. Koch's conclusions concerning the non-identity of bovine and human tuberculosis are startling and must, if accepted, revolutionize sanitary systems, and change the attitude of all thoughtful persons towards this subject."

"The whole question resolves itself into this—Are Dr. Koch's conclusions (I do not call them theory) true? My own opinion is that Dr. Koch is, and must be, correct, for the following reasons:—

"The experiments upon which the conclusions are based are almost certainly correct, both because they are readily carried out and verified, and because Dr. Koch's work has proved him to be a most careful and correct experimental bacteriologist."

"If these experiments have been sound and thorough, then the conclusion must be correct that human tuberculosis cannot be communicated to cattle."

"Now it is scarcely conceivable that if bovine tuberculosis can be communicated Dr. Koch should not have had some such cases among his many experiments."

"The again, granting the experiments to be correct, bovine and human tubercles are distinct varieties because cattle react differently to the two forms. If, then, bovine tuberculosis can be communicated to human, it would have two forms of the disease in the human, which we have not."

DR. HALL.
Dr. W. R. Hall, Chatham's Medical Health Officer, who has made a very thorough investigation of the subject, is inclined to question Koch's views. He said:

"In reply to your question as to my opinion of the positive statement made by Prof. Koch at the Anti-Tubercular Convention held in London, England, lately, that the consumption of cattle cannot be communicated to man, and that therefore man cannot, by eating the meat or drinking the milk of consumptive cattle, contract the disease, and that the consumption of cattle is practically a different disease to that affecting man."

"The statement was a startling and sensational one, made in such a way and at such a time as to produce a dramatic effect. It was a startling surprise."

"The statement is not accepted by the general profession nor, as far as I can learn, by the scientific world in that special line of study. On the contrary, many English and French authorities say the statement, which is founded on laboratory experiment, is disproved by actual experience, and that the laboratory experiments were not complete enough to warrant the conclusions arrived at."

"That at most the experiments could only prove that by ordinary methods of inoculation tuberculosis of man could not be communicated to the animal. The converse is not proven by the evidence produced, but only inferred."

Prof. Koch's announcement about 18 years ago of his discovery of tuberculosis as a cure for consumption made him famous throughout the world. Had it been made less dramatically, less positively, and more scientifically it would not have made him so famous or done so much to stimulate scientific research, which has resulted in much increased knowledge of the subject."

"The future may show that his last statement, like the first, although not absolutely true or false, may open up a new field for investigation which will result in great onward progress in checking the ravages of this great white plague."

DR. HOLMES.
Dr. T. K. Holmes said of the matter:—
"Dr. Robert Koch, of Berlin, in 1890 discovered the cause of tuberculosis disease to be a vegetable parasite, which is capable of marvelous multiplication under favorable conditions. These conditions are found in the blood and tissues of man and many of the inferior animals. It has been found by careful investigation that as many as four and a half billions of these germs may be disengaged from the lungs of a consumptive patient in twenty-four hours, so that the wide dissemination of the disease can be easily accounted for if it be realized that the spectrum from such a patient on becoming dry soon contaminates the dust of the air we breathe and the food and drink we swallow. As much domestic animals suffer from tuberculosis it has been almost universally believed by scientific men that tubercular bac-

illi, as the vegetable parasites are called, may be communicated from man to domestic animals and vice versa. Great interest was therefore aroused when at the recent meeting of the congress on tuberculosis held in London Dr. Koch announced his belief that the disease in man and in cattle is not identical and that it is not transmissible from the latter to the former."

If the correctness of this statement be substantiated by future investigation, it will greatly narrow the source of infection and will direct the efforts of sanitarians to the prevention of the dread disease by controlling its spread from persons already suffering."

"Some of the most eminent authorities, however, think Dr. Koch is wrong in his conclusions and that the milk and flesh of tuberculous cows is one of the fruitful causes of consumption in the human subject."

Until this question is settled it will be well to exercise the greatest care in guarding against risks in using the products of the dairy or the flesh of tuberculous animals."

DR. RUTHERFORD.
Dr. J. P. Rutherford, when interviewed by The Planet, said that he would not wish to press his opinion on the matter or criticize Dr. Koch's theory, as the subject had not yet been discussed in any of the medical journals. Also he had not seen any original articles written by Dr. Koch in explanation of his experiments or of his theories. Before expressing any opinion in the matter whatever he would wish to make a very close study of and be present at meetings of medical bodies where the matter would be discussed in order that he might understand clearly every experiment that Dr. Koch has made."

Effort was made to secure the views of other local physicians, but they were absent when The Planet visited their offices."

LAWN BOWLING

A List of Players who Will Take Part in to Morrow Afternoon's Sport.

The members of the Bowling Club are looking forward to a pleasant afternoon's sport to-morrow, when the smokers will play the non-smokers with 215 o'clock sharp. The players will be selected from the following:

Smokers—J. G. Kerr, W. A. Thresher, Dr. Fleming, Dr. J. L. Bray, N. H. Stevens, Geo. Merritt, J. Sowerby, A. H. Vandenberg, J. Henderson, H. Reid, W. Underwood, A. E. Jewett, L. E. Tibbott, J. E. Thomas, G. P. Schofield, S. J. Sutherland, W. N. Morley.

THE HOT SPELL

Buffalo Cool as a Cucumber While Other Cities Sweltered.

During the hot spell that has been experienced throughout America, the latter part of June and the early part of July, a comparison of temperatures, taking in the principal cities of the United States and Canada are most interesting and would hardly be believed; but the figures are authentic, being compiled by the Government official of the United States Weather Bureau. Taking the City of Buffalo for instance, this being the Pan-American Exposition City and the objective point of thousands of travellers, who are interested in knowing the weather conditions of that city and comparing figures with those of 48 other cities throughout America, the comparison is most noticeable.

The summers in Buffalo are without doubt the most perfect on the continent. Every day there is a cooling breeze wafted over the bosom of Lake Erie that keeps the temperature down and tempers the humidity of the atmosphere; it is rarely that the mercury reaches 90 degrees. During the most oppressive days of the late hot spell while the thermometer was 92 degrees in Chicago, 98 degrees in St. Louis, 92 degrees in Boston, 90 degrees in Montreal, 94 degrees in Toronto and 94 degrees in Detroit, the temperature of Buffalo was 82 degrees. The highest that the thermometer recorded during the week was 86 degrees, compared with a record in other cities of a temperature ranging from 96 to 104 degrees.

It is, therefore, seen that anyone contemplating a trip to the Pan-American Exposition need not postpone their journey on account of the hot weather, as Buffalo is one of the coolest places on the continent and conditions will undoubtedly be maintained during the summer, judging from the records of past seasons.

W. E. Rispin, City Passenger and Ticket Agent, 115 King street, will issue tickets July 24th, 25th and 26th to Chicago and return at \$8.70 each, good returning July 31st, and extension of time can be granted on payment of 50 cents in Chicago, good until 24th of August. He is also selling cheap tickets to Pan-American Exposition, Buffalo, and to Winnipeg and all points in the Northwest, special excursion July 23rd.

THE BEST WORSTED SUITS

When we say "best" we mean something thoroughly high-class; something that shows the happiest union of quality and style.

The difference between best and other qualities of course begins at the mills. Fine suits must have fine cloth, and a big purchaser gets finer cloth for a given price than a small purchaser does. These great rolls of English worsteds that are labeled T. & D. at their very birth mean the plumpest value for your money, Mr. Retail Customer.

Then, having right material at a right price, the factory coins the suit and puts the guinea stamp on it. A clear cut, unmistakable stamp. "Fineness" it says, "fit, finish and long satisfying wear."

Three Prices by way of Example:—

Here's a line of suits, in dark blue clay worsted, to realize the inner excellence of this suit you'll need a sample of the cloth, ravel it out and see how even, fine and tough the yarn is, made with double breasted vests, raised trouser seams and full equipment of side, hip and watch pockets, not a hint of ready-made anywhere about it. \$12.00
Men's Suits, of fine, even worsted, in either blue or brown mixture, made with choice of single or double breasted vests, raised trouser seams and both side and hip pockets in trousers. \$13.00
Men's Very Natty Suits, of fancy check worsted in black and gray with red hair line. This suit single breasted, step collar vest, side and hip pockets, raised trouser seams and a general air of expensive tailoring about it, the price is \$15.00

THE MARKETS.

THE LOCAL MARKETS

Planet Office, Tuesday evening, July 30th.

The following gossip was given to The Planet by Harry Stevens, of the Canada Flour Mills Company.

Wheat—New wheat is rising quickly in the market, varying according to the sections in which it is grown. Some of it tests 63 pounds to the bush and other 55 pounds.

Oats—There are no new oats on the market as yet.

Barley is coming in with a very bright color, but a very light weight—quite different than it has been for some years past.

Corn—is selling at from 45 to 47c a bushel.

Beans are quite active at from \$1.10 to \$1.30 a bushel, according to quality.

Buckwheat—None offered.

The following are the prices:

Wheat, 63.

Mixed oats, 30c.

White oats 32 to 33c.

Barley, 70 to 75c.

Corn, 45 to 47c, shelled.

Ear corn, 45c.

Beans, primes, \$1.10 to \$1.30.

Buckwheat, 50 to 55c.

HAY.

The following are the prices:

Hay, clover, \$5.50 to \$7.

Hay, baled, \$9 to \$10 per ton.

Hay, loose, \$7.50 to \$8.

Hay, buyers are paying \$5 to \$6.

SEEDS.

Millot, 40c.

Red clover, \$5 to \$6.

Alfalfa, \$5 to \$6.

Alsike, \$5 to \$7.

Timothy, \$1.50.

WOOL AND HIDES.

Wool, washed, 12 to 12 1/2c.

Wool, unwashed, 7c to 8c.

Calif skins, 6c to 7c.

Lambs and Shearings, 10 to 15c.

Cow hides, No. 1, 5 1/2c; No. 2, 4 1/2c.

Felts, 10c.

Horse hides, \$1 to \$2.

Dog skins, 25 to 75c.

Coon, 25 to 75c.

Muskats, 5 to 10c. each.

Mink \$1 to \$1.50.

Skunk, 25 to 75c.

Red fox, 75c to \$1.50.

MEAT.

Spring lamb, 85c to \$1.15 per quarter.

Pork, 9 and 10c.

Mutton, 7 and 8c.

FISH MARKET.

Smoked Herring, 40c. per doz.

Pickered, 10c. per lb.

White fish, 10c. lb.

German carp, 2c. per lb.

Catfish, 20 to 25c.

HOUSEHOLD SUPPLIES.

There was not a very good market Saturday. Owing to the rain Friday night, some of the farmers were not able to come in. Potatoes are still very scarce at 25 cents a peck. Apples are coming in at 20c, a peck. Old potatoes are sold at 40 cents a bag.

The following is the price list.

New potatoes per peck, 25c.

Old potatoes per bag 40c.

Red Currants, per quart, 7c.

Gooseberries, per qt. 7c.

Black raspberries per box, 9 to 10c.

Thimbleberries, per quart, 12c.

Red Raspberries, per box, 9 to 10c.

Beans, per quart, 5c.

Red Currants, per box 7c.

Cherries, per box 5c.

Radish, 3 bunches for 5c.

Spinach, 10c. per peck.

Onions, per bunch, 5c.

Rhubarb, 3 bunches for 5c.

Chickens, each, 30c.

Butter, 19 to 20c.

Harvest apples, per qt. 5c.

Honey per rack, 12 cents.

Green corn per doz. 15c.

Apples per peck, 30 to 25c.

Spring chickens, each, 20 to 25c.

Tomatoes, per box, 10c.

Cabbages, each, 5 to 10c.

Black currants per quart, 20

Eggs, per doz, 10c.

Eggs, dealers' price 9c.

Carrots, per bunch, 2 for 5c.

Geese, 45c.

Spring chickens, 80c. a pair.

Beets, per bunch, 3 for 10c.

LIVE HOGS.

O'Keefe & Drew report that the price of live hogs has dropped since

THE MARKETS.

OUTSIDE MARKETS

TORONTO GRAIN MARKET.

Toronto, July 30.—The market was quiet to-day, with the feeling easier. There are sellers of No. 2 red and white at 64c north and west, and at 65c middle freight. No. 1 white offered at 66c, middle freight, and No. 1 spring sold on Midland at 66c, and No. 2 spring at 65c. Goose wheat is nominal. Manitoba wheat easier, with sales of No. 1 hard at 81c, and of No. 2 at 79c. For Toronto and west 2c lower.

Millfeed—The market is unchanged. Bran quoted at \$12.50 to \$13 middle freights, and shorts at \$15 middle freights.

Corn—The market is easier. A car of No. 2 Canadian yellow sold at 47c. west. United States yellow offered at 56c. on track here, but buyers hold off.

Buckwheat—Market dull, with the prices purely nominal.

Rye—The market is quiet, and prices nominal at 46 to 46 1/2c middle freight.

Peas—Trade quiet, with prices nominally unchanged.

Barley—There is very little doing. No. 2 is nominal at 42 1/2c middle freights, and No. 3 extra 41 1/2c middle freights. New feed barley nominal at 35 to 36c. August shipment.

Oats—Buyers holding off and market weaker. Exporters quote 33 1/2c. middle freight for No. 2 and 34 1/2c to 35c. for No. 1, on Midland. New oats offered at 31c. middle freight.

Flour—The market is dull, with little demand from exporters. Ninety per cent patents are quoted at \$2.55, middle freights, in buyers' sacks. Straight rollers in bbls. \$2.50.

Lower Provinces \$3.05 to \$3.10. Manitoba patents, \$4; and strong bakers', \$3.70.

Outmeal—Market is firm at the advance. Car lots at \$3.75 in bags, and \$3.85 in wood. Broken lots, Toronto, 25c. per bbl, extra.

TORONTO PRODUCE.

Toronto, July 30.—Butter.—The heavy shipments of dairy continue to arrive and the market is well supplied with tubs, pails and crocks. The demand is fair, and the medium to low grades do not sell at all quickly. The best lots are steady at 16c to 17c, while the other grades are rather slow at 12 to 15c. Pound rolls are firm at 17c to 18c for the best grades. Creamery is active and prices are unchanged at 21c for prints and 20c for rolls.

Eggs—Selects are firm at 12 1/2c, but fresh gathered are plentiful at 11 to 11 1/2c. Seconds are slow at 8c to 9c.

Potatoes.—The offerings of new stock are very light and dealers say that the season is decidedly backward. On this date last year they were quoted at 85c. to 40c. per bushel to the trade out of store and 45 to 60 retail.

Present quotations are more or less more or less nominal on account of the very small supply. Dealers pay \$1 to \$1.15 per bushel by the load, and potatoes out of store bring \$1.20 to \$1.25. Stocks carried by the trade here are very small and one prominent buyer stated that he was unable to buy any at all this afternoon. The market was firm at the prices quoted. Old are practically out of the market and are nominal at 30c. per bag for car lots and
