The copy filmed here has been reproduced thanks to the generosity of:

Canadiana department  
North York Central Library

The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

The last recorded frame on each microfiche shall contain the symbol  $\rightarrow$  (meaning "CONTINUED"), or the symbol  $\nabla$  (meaning "END"), whichever applies.

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

L'exemplaire filmé fut reproduit grâce à la générosité de:

Canadiana department  
North York Central Library

Les images suivantes ont été reproduites avec le plus grand soin, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filmage.

Les exemplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par le premier plat et en terminant soit par la dernière page qui comporte une empreinte d'impression ou d'illustration, soit par le second plat, selon le cas. Tous les autres exemplaires originaux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'illustration et en terminant par la dernière page qui comporte une telle empreinte.

Un des symboles suivants apparaître sur la dernière image de chaque microfiche, selon le cas: le symbole  $\rightarrow$  signifie "A SUIVRE", le symbole  $\nabla$  signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être filmés à des taux de réduction différents. Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaire. Les diagrammes suivants illustrent la méthode.

# Have You Guarded Your Estate from This?

"The late James Gordon Bennett, publisher of the *New York Herald*, appointed James Stillman one of his executors. Within a few weeks after Bennett's death, Mr. Stillman died without having had an opportunity to administer the Bennett estate. Subsequently another executor of the Bennett will asked to be relieved of his appointment. When Stillman died it was found that he had appointed as executor of his estate, John W. Sterling, the eminent New York corporation lawyer. Before Sterling could take up his duties under the Stillman appointment he also died. Sterling had appointed James O. Bloss, a New York banker, as executor of his estate, and the grim record was carried on by the recent death of Mr. Bloss. These estates involved about \$75,000,000.

"These are but a few of countless proofs of misdirection which result from the appointment of individuals."—*Trust Companies, March, 1919.*

To make a will is not enough. So far as possible you should see that the provisions of your will are carried out. The appointment of a trust company insures your estate against your executor's dying before his duties are complete. *Write for our Booklets.*

## 41st Successive Year

"Victory Year" marks the forty-first anniversary of the Canadian National Exhibition. Toronto's first Fair was held in 1846, under the auspices of the Agricultural and Arts Association. The Fair alternated between various Canadian points until 1879, when a few public-spirited citizens, led by the late Mr. J. J. Withrow, established a permanent institution. The beginning was a modest one, a grant of a few acres of Dominion Government ordnance land on the lake shore, and about \$100,000 worth of buildings erected by the city. The grounds are now 264 acres in extent, stretching for about one and a half miles along the shores of Lake Ontario, almost in the heart of the city. There are over 70 buildings used for Exhibition purposes. The grand stand seats 16,800 people, and there is accommodation on the lawn for 8,000 more. At a conservative estimate the plant and grounds could not be duplicated for \$7,000,000.

This great expository enterprise is an institution unique among short-term exhibitions, is national in aim and purpose, and universal in scope and appeal, boasting many of the outstanding features of a World's Fair. Located in the capital city of Ontario, it represents no district or section, no one interest or industry, having long ago outgrown all local limitations.

The Exhibition is managed by a Board of twenty-five Directors, eight selected by the City Council, and the remainder the choice of the fifty other bodies represented in the membership, which covers almost every conceivable branch of Agriculture, Trade and Commerce, Science, and the Arts and Crafts. There is a prize list of approximately \$60,000, practically all of which goes to agriculture, while an additional \$250,000 is spent in staging the Exhibition each year.

Last year there was an attendance of 946,000 people, a daily average for the twelve days of nearly 79,000 people. On Labor Day, 1918, there was an attendance of 174,500 people, breaking all previous records by over 20,000. The record for two weeks is 1,009,000, reached in 1913.

The new Midway attraction promises to be just as entertaining as its title might lead one to expect. It is the largest carnival in the world and the second largest travelling combination, and takes over forty cars to transport. No matter how diverse are one's tastes, something can be found in the Johnny J. Jones' shows to appeal. The saucer-eyed boy will have no more fun there than his father, while mother will likewise find everything in the way of entertainment that will amuse and nothing that will offend. The new surprise, "Over the Falls," is the greatest laugh-provoker of modern times. Other riding devices, costing as high as \$20,000, will be found in profusion, while animal shows, illusions, autodromes, midgets, wild west shows, fat people, magicians, mysteries of the Far East, electric lady, Bughouse, and a score of other attractions will be found along this greatest of all midways. "Stella," the art sensation of two continents, will also be there, and promises to attract the same tremendous crowds that have visited this mysterious art production on other occasions when it has appeared at Toronto. The Johnny J. Jones' shows are high-class in every sense, and are a gloom-chasing combination of merit and quality.

**To be given by the Percheron Society of America, Chicago, Ill.:**

1. Special ribbons will be awarded to the three American-bred horses, either bred in the United States or in Canada, that stand highest in their respective open classes, both sexes. Example: If the 1st, 3rd and 4th prize aged stallions in the open class are American bred, and the 2nd and 3rd prize stallions are imported from France, the three special ribbons given by the Society will go to the 1st, 3rd and 4th prize stallions. The same arrangement applies to all other classes where individual animals are shown, except for championships. Animals imported in dam from France are considered as imported animals.

2. Special ribbons will be awarded in the Championship classes, and where the exhibitor is not the breeder of the animal that is awarded championship, either stallion or mare, a properly engraved sterling silver medal will be awarded to the breeder of that animal. In case the exhibitor of the champion animal, either stallion or mare, is the breeder of said animal, a sterling silver trophy will be awarded to the said breeder-exhibitor, but only one such trophy will be awarded on one animal in one season, regardless of how many fair championships said animal may win.

**Conditions.**—All animals competing for the above prizes must be recorded in the Canadian Percheron Horse Breeders' Association in the name of the exhibitor.

**HEAVY DRAUGHT (Canadian Bred only).**

**May be entered in Harness Classes 204, 205.**

A qualified hunter is a gelding or mare at least four years old, dating from the 1st of January of the year of foaling, that has been regularly and fairly hunted, by an amateur member of a Hunt recognized by the Canadian Hunt Association, or by a person holding a certificate as a gentleman rider from the Canadian Hunt Association, or from the National Steeplechase and Hunt Association, at not less than five advertised meets, in the year 1918, or in the year 1919, of a Hunt recognized by the Canadian Hunt Association.

A Green Hunter, for the purposes of this Show, is one which has not been hunted with a recognized pack of hounds, and has not won a first prize in Hunters' Classes at any recognized Horse Show.

To determine the merits of horses entered in the Saddle, Hunter and Jumping Classes, the Committee reserve the right of holding preliminary trials in the morning, and only such horses shall be allowed to compete in the finals as may be selected by the judges.

The average weight of a horse capable of carrying a heavy weight when in fair hunting condition exceeds 1,150 lbs.; middle weight, between 1,050 and 1,150 lbs.; light weight, less than 1,050 lbs.

**JOHN DEERE**

**WELLAND, CANADA.**

THE TRADE MARK OF QUALITY  
MADE FAMOUS BY GOOD IMPLEMENTS.

The "leaping deer" trade-mark is Deere & Company's stamp of approval. It distinguishes John Deere implements from inferior goods. It means that the implement was made in a John Deere factory in the John Deere way. It is a guarantee of satisfaction and an insurance policy against disappointment. Don't forget that each John Deere factory is a leader in its field -- that every implement it turns out is worthy of the name "John Deere."
