Poetry. FEATHER YOUR NEST.

When thrown out of place, we bluster and storm, Cry loud for Retrenchment, and vote for Reform.

When out, we contend that the humblest right Must be respected—for justice we fight.

Against us, should any poor wretch speak a word, Knock him down, kick him out, condemn him unheard!

Should the people complain, and our measures condemn, A fig for the people! & what care we for them?

When our term shall expire, through sunshine and rain, (With smiles) My dear people, we'll meet you again!

THE people of Upper Canada do not understand the question—they have not brains enough.

was ascertained that Chaplin contemplated moving on Tuesday night, the 6th instant; accordingly he paid his bill, and his carriage was driven away by a free yellow man.

On the 8th, Chaplin bought another horse, and settled his bill about ten o'clock in the morning, and Harris drove off again.

The police being eleven in proper number, at the appointed moment a fence rail was run through the hind wheel of the carriage by Capt. Goddard.

From the National Intelligencer, Aug. 10. ELECTRO-MAGNETISM AS A MOTIVE POWER.

Professor Page, in the lectures which he is now delivering before the Smithsonian Institution, states that there is no longer any doubt of the application of this power as a substitute for steam.

The most beautiful experiment we ever witnessed was the loud sound and brilliant flash from the galvanic spark, when produced near a certain point in his great magnet.

He then exhibited his engine, of between four and five horse power, operated by a battery contained within a space of three cubic feet.

Truly the age is fraught with wonders; and we can now look forward with certainty to the time when coal will be put to better uses than to burn, scald and destroy.

ARRIVAL OF THE EUROPA. HALIFAX, Aug. 19. ENGLAND. The Atlantic arrived at Liverpool at midnight on Tuesday, the 6th. Serious apprehensions are beginning to be entertained for the potato crop; the rot is said to be extending. The question relative to Baron Rothschild's taking his seat in the House of Commons, has been postponed till next session, when the Ministers are to introduce a new bill on the subject. The House of Commons have, by a large majority, granted the Duke of Cambridge a pension of £12,000 a year. This Irish Franchise Bill, as mutilated by the Lords, has been rejected by the Commons, who have substituted a £12 qualification, which, it is stated, added 170,000 votes to the Irish constituency. The harvest operations have commenced, and the crops promise well. The man who threatened the life of Lord John Russell has been committed for trial. The American Minister, lady and daughter, are on a visit to the Duke of Northumberland, at Alnwick Castle. It is said that the Great Britain steamship has been purchased for £25,000, and that she is to carry passengers on the Pacific, between Panama and San Francisco. The composition of the new Cabinet at Washington is regarded by the leading English journals with great favor. REMOVAL OF THE COURT TO BALMORAL. It is supposed the Court will remain at Osborne till the 20th of August, when it will remove to Balmoral, to which place the Royal party will proceed by railway, &c., making the journey (it is said) from Osborne to that place in one day. Morning Herald.—[This confirms what has been rumored, that Her Majesty will make no stay at Holyrood Palace, as originally intended, in her progress to Balmoral, on account of the advanced period of the season at which Parliament will be prorogued. Her Majesty will probably defer her residence in Edinburgh till her return to the south.—Aberdeen Jour.] DREADFUL EXPLOSION OF FIRE-BAMP. Glasgow, July 21.—Yesterday a frightful catastrophe occurred in one of the coal-pits belonging to Mr. Sneed, situated at Commanade, in the immediate neighborhood of the borough of Airdrie. The miners to the number of 20, descended to their work about 6 o'clock, when, of a sudden, a terrific explosion occurred, which instantly killed 19 out of 20, and shattered and destroyed all the implements and machinery in the pit. Only one man escaped. The house in which Burns lived and died in Dumfries has been purchased by Lieut. Colonel W. N. Burns, the second son of the poet. THE POST OFFICE.—Lord Marcus Hill laid before the House Her Majesty's reply to the late address, praying for an enquiry into the practicability of reducing the amount of Sunday labor in the Post-office, without entirely putting an end to the collection and delivery of letters. Her Majesty has been pleased to accede to the wish of the House; and, from a statement made by Lord John Russell on Friday, we find that Lord Clanricarde, the Postmaster-General; Mr. Labouchere, President of the Board of Trade; and Mr. G. C. Lewis, one of the Secretaries of the Treasury, have been appointed to conduct the enquiry. His Lordship was of opinion that the enquiry would occupy only a short time, and that the Government would speedily be in a position to state what course it would be most desirable to adopt. All churchyards in London are to be closed for ever on the 1st of July, 1851, when burials are to take place in the suburban cemeteries, four miles from the city. OXYGEN GAS A CURE FOR CHOLERA.—In a recent impression of the Times it was stated that Dr. Macrae, civil surgeon, of Howrah, East Indies, had cured fifteen European seamen, in the last stage of cholera, by causing them to inhale a certain portion of oxygen gas. About two months ago Mr. Ferguson, of Masbro', addressed a communication to the health committee

of the Town Council of Sheffield, treating on the cause and cure of cholera, in which he affirmed "that cholera is produced by the want of a sufficient quantity of oxygen gas in the atmosphere; and that any person may increase this by placing a good fire in the room of the patient, and causing him to inspire hot, dry air."—Sheffield Times, 20th July.—[The important discovery above alluded to was made by Mr. Ferguson (a native of Thornhill, in this county) so far back as the 30th October, 1849, while cholera prevailed; and during this critical period our countryman succeeded in curing every patient he tried. And as the circumstance speedily became known, Mr. F. was honored by a vote of thanks from the Health Committee of the Town Council of Sheffield, the President of which forwarded his correspondence, along with certificates of the various cures effected, to the General Board of Health London. Dr. Macrae's notice, on the other hand, did not appear in the Times until the 6th ultimo of the present year; and as his views are almost entirely coincident with the facts first promulgated, the public can have no difficulty in distinguishing between originality and what are called reflected lights. The claim of Sheffield to priority in this case appears to us indisputable; let honor, therefore, be awarded where it is so justly due, in deference to the good old maxim, detur dignitas.—Dumfries Courier.] [The scientific discoverer of the cause and cure of this most fatal scourge of humanity is a brother of Mr. Jas. A telegraphic despatch, dated Hamburg 1st inst., states that General Willmsen had declared that he will hold the Danish Provinces responsible for what may happen to those of the Schleswig-Holstein party. No change has taken place in the position of the armies. Willmsen has issued another proclamation, praising his troops and declaring that they cannot be driven from the soil of Schleswig, except by a second and third battle, and they will be more bloody than the first. Powerful medicines were administered, and the child had apparently recovered, but about three weeks afterwards he was taken suddenly ill. A physician was called, who pronounced it a case of poison; and, after he had been informed of the cause said that a particle of the phosphorus had remained in the stomach, causing inflammation.—Newark Ad. IMPORTANT INTELLIGENCE FROM BRAZIL.—PROBABILITY OF A WAR WITH GREAT BRITAIN.—The New York Herald says, "We received some very important intelligence from Brazil, yesterday, which renders it likely that a war between Brazil and Great Britain may take place. It appears that a serious collision occurred between the British steamer Cormorant and the commander of a Brazilian fort in the harbour of Paranaguá. The Cormorant was in the act of bringing into that port four Brazilian barks, which were captured for being engaged in the slave trade, and the fort fired upon her, killing a British sailor. The fire was returned, and the four vessels were burned by the British seamen. "As might be expected, the intelligence created a great sensation at Rio Janeiro, as well as in other places, and no one knew what would be the result. It is no trifling matter, and bears a very serious aspect at present. No one can tell what the end will be. It is very well known that Brazil is extensively engaged in the slave trade, and if the British Admiral in those seas has received orders to capture the vessels of that nation engaged in such traffic, as it is alleged he has, it is not improbable that a war between the two countries will grow out of it." CHOLERA IN THE OHIO.—From the following article in the St. Louis Republican of the 3rd inst., it appears that the cholera is coursing its way along the river in the vicinity of the mouth of the Ohio River.—Dr. Spencer, of Brunswick, Mo., died

of cholera on board the steamer Visitor during her passage from Cincinnati to this city, and was buried at the head of Treadwater Island. One other death from the same disease occurred on board—the child of a German emigrant. We hear that this dreadful scourge has made its appearance on both sides of the Ohio below Shawpeetown, and that quite a number of persons have died of it. At one plantation near Treadwater, fifteen deaths had taken place among the slaves, and from three to five persons, white and black, have died from the same disease in other neighborhoods. PROCEEDINGS OF CONGRESS.—The week which commences to-day, will be an important and eventual one to the republic; for before its close, it will in all probability be decided whether the slavery agitation shall be peaceably and amicably settled, or whether this confederacy is to continue in harmonious whole. The Senate will to-day take up the last of the bills before it in connection with that matter, the fugitive slave bill; and the House will, we suppose, be engaged with the civil and diplomatic appropriation bill, and afterwards with the Senate bills. We hope and trust that there are patriots enough in that body to insure the passage of those measures.—New York Herald 19th inst. GENERAL CHAPLIN, a candidate for the office of Lieutenant Governor of the State of New York, is now in goal in Washington, for attempting to aid the slaves of Messrs. Tombes, Stephens, and other southern gentlemen now in Washington, to make their escape. He will be tried for the offence by the authorities of Maryland. (See first page.) THE "HIGHWAY ROBBERY." As was to be anticipated, the recently detected attempt to swindle the public out of some of the most valuable roads in the Province has attracted the attention, and met, as it merited, the unqualified condemnation of every independent journal in the Colony. The facts of the case were from the first plain and obvious, and the character of the parties implicated so notorious, that the judgment was spared the usual process of ratification, and conviction of the business of the design came simultaneously with the narration of the fact—further inquiry had caused the affair to show darker and more despicable. Of course, the Globe has been striving to prove to its patrons that "the laborer is worthy of his hire" securing "out, foul staining" as in duty bound, and one or two of the reflectors of the greater light are waiting forsooth for "further particulars" before they condemn Mr. Hinks to the extent that several journals have done, i. e. waiting to see how the cat will jump. "Pat. I say, it is the moon. I know it is. Kath. Nay, then you lie; it is the blessed sun, Kath. Then God be blessed, it is the blessed sun; but can it be not, when you say it is not? And the moon changes, even as your mind. What you will have it named, even that it is; And so it shall be so, for Katharine." Our readers are aware that some months since the public roads were offered to public competition, an advertisement in the Canada Gazette requiring tenders to be given in within six weeks from date. The time was evidently too short to ascertain the value of the property and make arrangements for such large investments, and the County Council had an even briefer period permitted them for deliberation, it being necessary that they should treat, if so inclined, previous to the day fixed on for receiving tenders. Deliberation in the matter, however, was rendered unnecessary—the Colonist having, immediately on the appearance of the official notice, shown that the Government had exceeded the powers conferred by the Act of 1849, in offering a sale to private companies, and so was postponed sine die. There is every reason to suppose that this first start of the affair was arranged by Hinks at the instigation of Beatty, with a view to the result since attained—it being in evidence that the latter worthy had used the very considerable influence possessed by him with the Radical Members of the York County Council to prevent the Council from purchasing the County Roads for £75,000, the sum he himself afterwards agreed to pay, and his representations of how exceedingly unprofitable the speculation must needs be from the bad state of the roads, the expense of keeping them in repair, collecting revenue and the like, and that Government would soon have to make a free gift of them to the Corporation, is understood to have been the chief reasons inducing the Municipality to decline the purchase. The Administration having procured an amendatory act enabling them to sell to private companies, which had been previously illegally attempted, it was to be anticipated that the property would be advertised anew, that so parties deterred by the knowledge that the previous attempt to sell was unwarrantable, might now confidently come forward with their offers. Nothing of the sort. Messrs. Hinks and Beatty could arrange the affair better and more agreeably without publicity, or fuss, and so, having first managed to depreciate the value of the property by persuading the Inspector General to remove toll gates on Yonge Street yielding £1,200 per annum, to be restored when desirable, and to substitute a new tariff of tolls, which prevented nearly the whole of the remaining ones from being leased—Mr. Beatty became the purchaser of the York County Roads at a credit of 20 years without interest, terms on which they might have been leased by the veriest pauper in the Province. The Colonist thus notices the affair:— "Was there ever such a job perpetrated in Canada? Be it remembered, too, that it was done by a Government claiming to be regarded as a 'reform Government,' headed by Robert Baldwin—James Robert, as he is called—and having as his associates or colleagues from Upper Canada, James Harvey Price; Francis Hinks; and William Hamilton Merritt!!! We wonder what sort of turn will 'reform' take next, under such 'useful' auspices? It would be hard to tell—however, the eyes of the people are being opened, and it is a high time! For that, the corruptionists

are little at present, as the season is over, they have got the apples, and they are much to be envied to enjoy, during a long recess! A fig for the people and public opinion, say they! We are about to close—but before doing so, we must notice one fact—a particular act, connected with the transaction, which goes far to show, that the Government and Beatty, or Hinks and Beatty, were in treaty for the sale of these roads, when the first offer of them was made to the County Council, and that means were used to dissuade the County Council from purchasing them. Mr. Beatty put himself in communication with one or more of the leading and influential members of the County Council, on the 15th of June, and advised them by no means to agree to purchase these roads at the price asked by the Government, for the Government would be compelled to hand them over to the County, without charge! The known intimacy of Beatty with Hinks, produced its effect in this case, from which arose the chief opposition in the County Council to the purchase of the roads at that time! Beatty & Co. have since purchased them at the same price, £75,000! More anon!" Discouraged by the premature discovery of this very gross affair, and the shouts of public reprobation with which they were from all quarters assailed, the Ministers have flattered in their attempt. The organ now alleges that the matter is not yet decided; that is to say, Mr. Hinks will now, if he can, cheat his friend out of his bargain, having been thwarted in this endeavor to cheat the Provincials out of their Roads. Moreover, it would seem that Mr. Hinks is not the only "dishonest politician" of the party. Peter Perry, of immaculate Clear Grit notoriety, must also have a finger in the pie; it being reported that Peter has got Whitty Harbor on much the same terms as Beatty has the Roads, for his share of the spoil. "The Port Dover Harbor, which cost some £15,000, has been sold to Messrs. Crouse & Powell, particular friends of the Government, for £5,000," of which the particulars have not yet appeared. A correspondent of the Colonist says:—"There is quite a commotion here about the sale of the Dover Harbor to Dr. Crouse, and J. Powell, Esq., late members of the Council, and now in Toronto, to conclude the bargain; he left here purposely, as given out for Beatty, but he did not go from Hamilton in the Buffalo boat. They are going to call a meeting of the Township Council, to inquire into the affair. Dr. C. and Mr. P. are both in the Council, and advised the Council to offer only three thousand pounds for the Harbor; they were sent on the trip to treat with the government on behalf of the Council, and offered five hundred pounds on their own account. The people here are greatly excited." But we haven't done yet. Mr. Commissioner Merritt has a son who must needs be helped to a slice, and he is quarreling on the Welland Canal. The Spectator promises "further particulars." "We shall, in a few days, be in a position to speak of a purchase of the Welland Canal, by a son of Mr. Merritt, which will form a pleasing addition to the foregoing. Truly we have arrived at a new era in the 'liberal' system. Formerly useful patriots were rewarded by elevation to office—now they are enabled to make private bargains—and buy public property at one-half its value. The latter plan is by far the best, for all the parties concerned, except the people, who of course will consider themselves honored by being robbed in a 'liberal' way. Hurrah! for the Radical reform-making martyrs! Who wouldn't be a Radical—if not for the hour, at least for the profit of the thing!" JURY BILL.—(UPPER CANADA.) The mode of choosing Juries under the old Act was liable to many and grave objections, for forming a part of the duty of the Sheriff, alike responsible and invidious, parties deeming themselves aggrieved, were ever prone to charge on the administrator the injury of which the system was redolent. Individuals residing a long distance from the County town were frequently subpoenaed to almost every other Court, while others resident perhaps in the immediate vicinity of the Court-house enjoyed a dispensation of many years' endurance. Much apparent confusion obtained also as regards qualification, a person being summoned as a Grand Juror on one occasion, and as a Petit Juror on the next. The new Act obviates many of the evils of the former system, creating little apprehension of partiality as regards the Selectors in the first instance, and leaving the after results to the decision of the ballot under adequate superintendence; a great improvement on the old plan, which, admitting of much laxity and partiality in its working, occasioned great inconvenience, and was the subject of many complaints. The new act constitutes the Mayor in cities, and the Reeve in towns and townships, with the Assessors, ex officio Selectors of Jurors. On the 1st of September annually, the Jurors List is to be made up by a selection of not less than two-thirds of the names on the Assessment Roll, at the discretion of the Board of Selectors; the Mayor, Reeve, or in his absence the Assessor holding the largest Assessment Roll, having a casting vote. The parties named on the list are to be divided into four classes, according to their competency, in the estimation of the Selectors, for the functions respectively assigned them. 1st, Grand Jurors in the Superior Courts; 2nd, Grand Jurors in the Inferior Courts; 3rd, Petit Jurors in the Superior Courts; and 4th, Petit Jurors in the Inferior Courts—the Selectors making a declaration as to their having performed according to the best of their judgment and information, without fear, favor, or affection, the duties of their office, and drawing up a duplicate report of the selection and distribution. The Clerk of the Peace is to prepare ballots from a "Juror's book" deposited with him, the ballot to take place in open Court at Quarter Sessions; the Court having determined, from the appearance of the calendar, whether a full, a third, or a half Jury List will be requisite. A full Jury List comprises 48 Grand Jurors for the Superior Courts, 144 Petit Jurors in the same, 96 Grand Jurors for the Inferior Courts, and 936 Petit Jurors in the same. The balloting to be performed by the Chairman of the Court and Clerk of the Peace, and from the list thus balloted, the Sheriff is publicly to draft the panel. The roll of Petit Jurors, unless by order of the Judge, in no case to contain less than 48, nor more than 72 names, from which the Clerk will ballot the panel as required. BEWARE!—It will be noticed, from a statement we copy from the Hamilton Gazette, that two of the attendants on Raymond & Van Amburgh's Menagerie have been arrested in Toronto, charged with passing forged notes of the Montreal Bank. As it is evident that the proprietors of such an establishment have it not in their power, however desirous, to prevent such delinquencies on the part of their servants—among whom may not unfrequently be found, not the choicest specimens of humanity—our store and tavern keepers will do well to have their wits about them during the anticipated visit of the Menagerie next week.

DEATH BY LIGHTNING.—We were visited by a thunder storm on Saturday evening, which, although of no long continuance, was yet, while it lasted, of considerable intensity, and attended, we are sorry to say, with a fatal result—the electric fluid having struck the dwelling-house of Mr. John Hinds, farmer, in this township, about five miles hence on the Waterloo Road, sending it from the chimney to the ground. The fissure is not, however, of great breadth. The family had retired early, and about nine o'clock Mr. Hinds was awoke by a thunder-peal and simultaneous crashing of glass. Leaping from bed, he hastened to the kitchen to procure a light, apprehending that the house was struck, and would be on fire. Stumbling over some object laid on the floor, he stooped to ascertain what it was, and raised in his arms the lifeless body of his daughter, Elizabeth Montgomery, a fine young woman in her twentieth year. There was a wound as if by a blunt instrument on the left elbow, and a similar one on the left side, where the elbow would rest were the arm hanging perpendicularly; these, with a red line on either breast from the collar bone to the axillaries, were the only marks of injury on the body; there was no blood, nor was the dress soiled, but bearing a strong sulphurous smell. It appeared that the unfortunate girl, thus enwrapped in so awfully sudden a manner, had been fringing at a table, between which and the fireplace the bird stood with an iron of 7½ lbs. weight in her hand—which was driven against the wall of the room, breaking a hole of its own size—and that the electric matter had come down the chimney, part passing along a stove-pipe into an upper apartment and doing some slight injury, but the main body descending by the iron hook into the lower room. A pile of wood, at a considerable distance in the yard, was also thrown down. The aged parents, thus so suddenly deprived of an amiable and affectionate daughter, are objects of deep commiseration; and the sentiment that "in the midst of life we are in death," has had a striking and awful illustration.

HAMILTON GRAMMAR SCHOOL.—We learn from the Spectator, that the Annual Examination of this Seminary, which is under the direction of Mr. Geo. Emslie, recently in charge of the hundred inspection here, took place on the 17th and 18th inst. A searching examination, conducted partly by the Trustees and partly by the Teachers, and continued throughout the two days, showed the School to be in a high state of efficiency in all the branches. The five first prizes, the result of a superior exertion by the Honors and Zephyrus, in Algebra, Arithmetic, and History, were awarded to George Elmslie, jun., and on Friday, the 19th inst., at a comparative examination between the Hamilton and Ancaster Grammar Schools, the result was— 1st prize to George Elmslie, Hamilton, 1st in 3 branches. 2nd prize to John Sutherland, Hamilton, 2nd in 3 branches. 3rd prize to N. McGavin, Ancaster, 1st in 2 branches. 4th prize to Henry Tazie, Hamilton, 1st in 1 branch. The average attendance during the last six months has been 66.

STONE CURTAIN.—We believe it is not generally known in the adjoining district, that Ornamental Stone Work, of almost every description, and equal in execution to any in the Province, may be procured in Guelph, and that consequently orders are frequently transmitted to a distance. We saw at Mr. Kennedy's, the other day, some admirably finished Sun Dials, with appropriate and elegantly cut pedestals, and handsome Tombs, with various devices—but that's a grave subject; we refer to advertisement.

CRICKET.—On the 21st inst., the Woodstock beat the Toronto Club, 102 to 100, with one wicket to go down. The play was on the Woodstock ground.

FIRE COMPANY.—The annual meeting of the Company for electing officers, &c., takes place in "The British" on Tuesday, the 3rd Sept., at half-past 6 P. M.

CAUTION—COUNTERFEIT BILLS.—We would recommend our citizens to be cautious as to what bank bills they receive. Two swindlers, named John Bolander and Stephen Moore, were arrested in Toronto on Thursday last, on the charge of circulating counterfeit bills, under the following circumstances. Bolander purchased a vest from a salesman in the store of Messrs. Walker & Hutchinson, for the sum of 12s. 61., in payment for which he tendered a \$10 note, purporting to be of the "Citizens' Bank, Montreal," which was unsuspectingly accepted, and the change handed over to the party in current coin. Next morning the note was discovered to be bad, and it having been ascertained that Bolander was connected with the Menagerie Company, (which will visit this city next Friday,) the salesman proceeded to their station, and immediately identified the culprit. When taxed with having passed the bill, he denied it, although he at once admitted the purchase of the vest from his accuser, asserting that he had paid for it with three \$1 bills. The other criminal, Stephen Moore, offered to supply G. F. Bowington, another person connected with the same Company, with any quantity of these notes, if he would give him a per centage, and stated that he (Bowington) could dispose of them as soon as they arrived at Hamilton! He said he purchased them at the rate of \$14 for \$100. A person in the employment of Mr. Foster boot and shoemaker, deposed that he sold Moore a pair of boots for \$3, and received in payment thereof a \$5 bill on the "Bank of Montreal." After he left the store Mr. Foster examined the note, and proved it to be a counterfeit, whereupon he made application at the Police Office to have the party arrested. The prisoner offered to settle the matter, provided Mr. F. would say nothing more about it, but which offer was declined by the latter.

An examination took place on Thursday last, but at the request of the prisoners' counsel, further proceedings were stayed for a day or two, in order to enable them to procure evidence.—Hamilton Gazette.

The Phœbe Mercury states that the potato blight has made its appearance in many places in the neighborhood of Quebec.

A copy of a Report made by the Referring Commissioners to the Legislature, and dated the 6th of July last, states that the number of claims filed before them are 2,027, amounting to £202,080—that they have examined only 692 claims, amounting to £55,790 5s 9d, leaving 1,335 claims to examine, amounting to £106,289 14s 5d. By the statute of 12 Vic., Chap. 58, all the claims must not only be examined, but adjudged on or before the 1st September next.

A correspondent of the Montreal Herald remarking on the above says, "You will see that the Commissioners, since their appointment to office, have examined only 692 claims, one-third of the total; leaving to examine 1,335 claims—that is, to state more especially the sums they shall have allowed to each claimant respectively.—Is it not beyond human possibility for the Commissioners to make such an adjudication within the limits of the law? According to what they have done, the Commissioners will take two years more to make a final report.

MELANCHOLY ACCIDENT.—Fourteen ladies of a picnic party were drowned on the 15th inst. at Lynnhill, near Boston, by the upsetting of a boat in which they were sailing.

BIRTH.—At Fergus, on the 20th inst., the lady of James Webster, Esq., of a daughter.

DIED.—At Guelph, on the 21st inst., Malcom, infant daughter of Dr. Clark, aged 10 minutes.

GUELPH MARKET.—Aug. 27. Fall Wheat, per bushel, 3s. 3d.; Spring do. 2s. 6d. Flour, per 100 lbs., at Mill, 12s. 6d.; do., Farmers', 8s. 9d. Oats, per bushel, 1s. 3d. Butter, per lb., 6d. Eggs, per dozen, 5d. No change in other produce.

NOTICE.

THE Partnership heretofore existing between the Subscribers, under the firm of "SMITH & McDUGALL," Merchants in Elora, is this day dissolved by mutual consent. JOHN SMITH, DUNCAN D. McDUGALL.

N. B.—All claims against the late firm will be settled by D. D. McDUGALL, who still continues the business on his own account; and all debts due the late firm must be paid to him immediately. 163-3

FARM TO BE LET.

TO BE LET, for such term as may be agreed on, the farm of Maryville, in the township of Nichol, distant 24 miles from Elora, and about 3 miles from Fergus, consisting of about 100 Acres, 60 Acres of which are in cultivation and mostly clear of stumps. There is a two-story stone and frame Dwelling-house on the Premises, furnishing suitable accommodation for a large family, frame Barn, stable, cow-house, cattle sheds, &c. The Farm is beautifully situated about a mile from either the Grand River and the Irvine. Apply to the Proprietor, GEO. PRILE. Herald Office, Guelph, 169-4f. Aug. 27, 1850.

ENCOURAGE LOCAL ARTISTS.

WILLIAM KENNEDY in returning thanks for the patronage received since he commenced business as Stone Cutter in Guelph, begs to call the attention of the public to the various patterns of Sun Dials, Grave Stones, Curling Stones, Land-mark Stones, Stone Pipe Stones, &c., &c., which he has on hand, all which he will sell low for Cash or Trade. W. K. cuts ornamental devices of any required pattern or design. York-Road, Guelph, 166-4f. Aug. 26, 1850.

Beautiful Small Property FOR SALE.

THE FARM known as "Springfield," situated within 1 Mile of Fergus, 3 of Elora, and 14 of Guelph, the County Town—consisting of ONE HUNDRED ACRES OF EXCELLENT LAND, of which Seventy Acres are cleared and fenced, well watered, &c., &c. The Buildings are of a superior description, and fit to accommodate a large family. Terms very reasonable, and time to be given for a considerable portion of the purchase money. Application to be made to Messrs. FERGUSON & HURD, Guelph; J. JOHN MILLAR, Esq., Galt; JAMES L. SMITH, Esq., Fergus, or to the Proprietor on the Premises. WM. MOOREHEAD. Fergus, Aug. 23, 1850. 166-4f

JACK'S ALIVE!

REPORTS having recently been current that Jack was shelled up, he just looks out to say that he is not only wide awake, but is now actually selling Men's STRONG DOUBLE-SOLED BOOTS AT 12s. 6d. CASH, and other articles in his line, of superior workmanship and material, at equally low prices. Jack has had considerable difficulty in bringing down the prices of workmanship in Guelph to the rates paid elsewhere; but now the thing's done, the public will reap the benefit. GUELPH BOOT AND SHOE WAREHOUSE, JOHN HORNING.

JACK will pay CASH for HIDES and SKINS. 16th August, 1850. 165-4f

Rebellion in Upper Canada!!!

The subjects of King Charles, actuated by the principles of their Royal Founder and Governor, have REBELLED against Two of his Generals in Guelph. Other officers in command enjoy the confidence and esteem of ALL.

CERTAIN Manifestoes and Proclamations of dubious import having been published, the following queries demand unequivocal answers:—

- 1. In reducing the wages of Journeymen Shoemakers, Is there no other object in view than that the "public" may reap the benefit?
2. Will "Jack" & Co. explain how a reduction of 7½d. per pair in the manufacture enables them to sell Boots at 2s. 9d. per pair below the price charged last year?
3. If an article of EQUAL QUALITY can be furnished at 3s. 9d. less, from a reduction of 7½d. in the workmanship, will "Jack" & Co. please to name the date when their principles changed from bravado to zeal for the "public benefit"?
4. Will "Jack" & Co. inform the public how much profit there is on "Dundas slip work retailed here at 12s. 6d. or 13s. 9d. per pair for Men's Course Boots, and "other articles in the trade proportionately low"?
5. Do "Jack" & Co. think it reasonable to expect, or honorable to ask, men to work in Guelph at "the rates paid elsewhere," when Bread is 7½d. while at Galt it is only 5d. per loaf, and other articles of Provisions, and even Clothing (as "Jack" & Co. supply them, through TRADE and ORDELS), "proportionately" high?
6. Assuming 4s. 4½d. per pair cannot be the "highest rate of wages in the trade," when 5s. has been, and still is paid in Guelph. Must this assertion be ascribed to mistake through ignorance, or to wilful falsehood?
7. Do "Jack" & Co. imagine the public will believe that "SCABS" have principle (even though they had the ability) to work as well as those men whose magnanimity and independence prompted them to resist tyranny, detest hypocrisy, and stand up for their rights as workmen and members of society?
8. Till these queries are satisfactorily answered, the public would do well to keep as "wide awake" as "Jack" fancies himself, and call elsewhere.

Should these queries remain unanswered for two weeks, the inference will be, that "Jack" is really "shelled up," to "look out" no more to the dishonor of the trade and the amusement of the public. Agreed to at a meeting of Twenty Sons of Crespin, and approved by others. Guelph, Aug. 24, 1850. 166

*Constantly on hand, and more expected.

NEW BOOT & SHOE ESTABLISHMENT.

GEORGE GOW & JAMES BENZIE (late in the employ of Gow & Orme) respectfully announce to the inhabitants of town and country, that they have commenced business in the above line, in a Wyndham Street, immediately opposite Mr. Daniel Linderman's Blacksmith Shop, under the firm of "Gow & Benzie." As G. & B.'s Boots and Shoes will be entirely of their own workmanship, or manufactured under their immediate inspection, they believe the quality will be such as to insure a preference over Imported Sale Work, though offered at lower prices.

Long experience in some of the best shops in the Metropolis of England, by one of the firm, enables them to offer Gentlemen's Dress Boots of a style and quality which have never been surpassed in Guelph; and the long practice of the other in Ladies' Dress Boots gives them good grounds to anticipate a liberal share of public patronage. STRONG BOOTS AND SHOES, of all sizes, and of the best material and workmanship, made to order. LEATHER and PEGS by Retail, for Cash only. HIDES and TALLOW taken in exchange. Guelph, Aug. 19, 1850. 165-4f

NEW BOOT & SHOE STORE

THE Undersigned beg to announce to the Inhabitants of Guelph and Vicinity, that they have opened a NEW BOOT AND SHOE STORE, in the Brick Building, near the Advertiser Office, Market Square; and hope by strict attention to all orders, combined with their ability and intention to manufacture as good Articles as any produced in Canada, to merit a share of public support. Country Produce taken in Exchange. HOWARD & NORRIS. Guelph, Aug. 20, 1850. 165-3m

WASHINGTON Farmers' Mutual Insurance Company, Capital \$1,000,000. EZRA HOPKINS, HAMILTON, Agent for the Counties of Waterloo and Huron. August 27, 1850. 160-1y

RAYMOND & Co. AND VAN AMBURGH'S LONG ESTABLISHED MENAGERIES, Valued in one lot, and varied exhibition, consisting of all the Rare Animals now extant, numbering Over One Hundred Specimens.

Will exhibit at GUELPH, on MONDAY, September 2, 1850—Open One o'clock, P. M. Admission, 25 cts.; Children under 10, 12½ cts. Amongst the great Collection, which is the largest ever exhibited in America, is the Rhinoceros; or, the Unicorn of Holy Writ; The first and only one in America since 1836. The great curiosity of capturing this huge and savage creature, together with the almost impossibility of keeping him alive in a climate so unpropitious to his habits and constitution, renders the Exhibition of a Rhinoceros against THE GREAT CURIOUSITY OF THE ANIMAL KINGDOM. ALSO, THE GREAT GRIZLY BEAR, FROM CALIFORNIA. In this great collection of animals, will be seen FOURTEEN LIONS, Of the Finest Specimens from different Countries, some of which were presented to the Emperor VAN AMBURGH, by HER MAJESTY, QUEEN VICTORIA, in his recent tour thro' Europe.

The Monster Elephant COLUMBUS, The largest in America, weighing 10,730 Pounds. ALSO, THE Beautiful Elephant, TIPPOO SULTAN, Which has caused such a great sensation all over Europe, will go through a variety of Performances, such as Walking, Balancing, &c. &c. the same as performed by him in all the principal cities of Europe, with such GREAT SUCCESS.

MR. VAN AMBURGH, The most Celebrated of all Annual Performers, WILL GIVE AN EXHIBITION IN A DEN OF WILD ANIMALS. His Performances with the Terrible GROUP of LIONS, TIGERS, LEOPARDS, CONGARS, PANTHERS, &c. the same as performed by him in all the principal cities of Europe, with such GREAT SUCCESS.

Hiderago, the Lion Tamer, WILL GIVE A PERFORMANCE IN A DEN OF WILD ANIMALS. Separate, and altogether different from Mr. Van Amburgh's, making TWO GRAND ANIMAL PERFORMANCES in the same Exhibition.

Many other Performances will be given in the course of the Exhibition, such as PONIES, MONKEYS, &c.

A full description of the Animals, which the great experience, enterprise, and resources of the Proprietors have enabled them to bring together in one LARGE and SPLENDID COLLECTION, will be found in the Bills, at the principal Hotels, previous to the arrival of the Company. Guelph, Aug. 20, 1850. 165-2
