(From our own correspondent.) Ottawa, Nov. 29.—There was no vote on the Borden and Monk amendments tonight, and the debate goes over. The reason was an extraordinary tumult in which the House became involved, through Conservative resentment of the attitude towards a member of that party by Mr. Speaker Marcil (Bonaventure; \$125 per head). The Conservatives carried their point, and forced him to deal equal measure; but when the fifteen minutes' fight which was necessary, had ended the temper of the House was so ruffled that Mr. Crothers, who was about to speak, ad-

fourned the debate. The affair arose over a piece of bad rliamentary manners, to which the Liberals are particularly prone. It is natural for a party to back its leader when he is making a speech, and no fault can be found with the Liberals for flocking in when Sir Wilfrid is up; but they have a trick of rising the moment he finishes and ostentatiously and noisily trooping out, Tonight Sir Wilfrid Laurier finished his speech at 10.30 o'clock. Mr. Crothers rose to The Liberal exodus was so noisy as to drown his opening sentences, though the Conservatives raised cries of order. FIVE CHILDREN LEFT.

MOTHER DIED OF CONSUMPTION AND ONE LITTLE GIRL IS NOW AT GRAVENHURST.

A short time ago a woman in the advanced stages of tuberculosis died in her ier. own home. By her death five little ones were left without the care of their mother. There was money enough in the family to make some provision for the care of the children, but it was almost impossible to secure any-one who would render this service, so afraid are many people of this dread disease. A visitor to the home says that time and time again she had found the baby sleeping in her sick mother's bed, and near by food the baby sleeping in her sick mother's bed, and near by food the shidten market. was stored from which the children par-took. A sequel is revealed in the fact that to-day one of these five children is a patient in Gravenhurst, and the baby is in the children's ward at the Toronto Free

flight of oratory, with the new facts in it standing out rather indefinitely. He spoke well and was a master at sarcasm, satire and inferences. He said M.L.A. that the money paid for the bonds belonged to the province of Alberta and that the opposition was that of Con-servatives and was therefor legitimate, as the Conservatives were elected to oppose his government. He said that he had always favored the development of the north and that within a reasonable time railway construc tion would start north . He said he refused to deal with W. R. Clarke any where except at Edmonton Clarke had not come. Bennett in a brilliant speech of over two hours tore the statements of the premier to shreds, showing by legal authoriwhich the bonds practically are, and the extreme wealth of the world's premier sliver camp. FIGHTING FOR THEIR LIVES.

The Government has never faced so serious a situation as the present since condition of affairs does exist or not. it came into power in 1896. So dein constructing legislation, and so ofhim out of a tight corner that the loss as that which is alleged by these Westof Mr. Fielding to the Premier will be ern farmers to exist. of the most serious matter. The Premier's first lieutenant is the ablest the state and operation by an indeman in the Liberal party. He may lack pendent commission is the only the spectacular personality of some others, notably the Premier himself, but the fact remains that he has been the main stay of the Government for the last fourteen years. Without him the administration is a rudderless storm driven craft. It is stated that are paid in the United States and high-Mr. Fielding may be able to return to active duty next January, but meanwhile there is little prospect of this. It is more likely that he will not be

rest for about a year.

Another weakness which has developed is that the Secretary of State true there ought to be a remedy. And has contrived to awaken the hostility I want to know from the Government of the French-Canadians, especially whether they believe them to be true those of the Nationalist persuasion, or not. If they say that they do no and that they have sworn to defeat know, I ask why they have not taken him at the next election. It is ad- means to know; if they say that these mitted that he cannot be elected in claims are not true, I ask upon wha Russell again, but it is stated that the evidence they base that assertion an party will find an Irish Catholic con- what they purpose to do in the pre stituency for him. It is obvious, however, that no political party would stick to any man who was proving a weakness to it. It is well known that there has been a battle royal between Mr. Parmelee, the King's Printer, and Mr Murphy. It is understood that the Secretary of State tried to get Mr. Parmelee dismissed, but this evoked a storm of protest. Mr. Parmelee is a former Quebec member, and if dismissed would assuredly enter the House again. The public accounts committee will reveal much this session, and it is promised that there will be a furious time over the Printing Bureau scandal. Men were dismissed before they had a chance to defend themselves, and it is freely stated that when Mr. Murphy found that the enquiry was leading to a revelation of the scandalous means taken by the Government to raise campaign funds, he stopped and contented himself with making scapegoats of some of the employees by declaring them incompetent. Therefore they were fired. It is pointed out that this should have been the function of M. Parmelee, but he was not given power by the minister in charge, Mr. Murphy. Another disappointment to the Liberal party is that Hon. Rodolphe Lemieux, the Postmaster General, is in South Africa, and will not be here until some time in January. This lessens still further the fighting strength

of the Government. The situation is further complicated by the result of the Drummond-Athabaska election. Mr. Brodeur has lost prestige and the Quebec members generally are resenting the position in which they have been placed by the Government over the navy bill.

From ministers such as Messrs. Pugsley and Graham not very much help can be epected from them by the Prime Minister. They are kept exceedingly busy minding their own affairs. Indeed the former will be one of the ministers who will not lend much credit to the Government's version of the session, as there are one or two matters with which he has been connected that will ensure some warm debating and exercise all Mr. Pugley's wits to defend.

As to the others, Mr. Aylesworth is too deaf to be of any use in the House, and has been known to debate a subject that was not under discussion. Mr. Paterson has reached the "slippered ease" stage. Mr. Mackenzie King is green. Sir Frederick Borden is tired of politics. Mr. Brodeur is ill. Sir Richard Cartwright is hors de combat, and Mr. Fisher is no use on general

occasions. In a word the cabinet is done. They have had their day, and it is past. They are going to the way of all flesh

### THE DEMANDS OF THE WEST.

One passage in Mr. R. L. Borden's speech in the debate on the address at the opening of Parliament is of special interest to the West. He reviewed the manner in which Sir Wilfrid Laurier in his western visit last summer dodged the tariff issue and tried to bribe the people with public

works, and he then went on to say: "Mr. Speaker, the West presses cer tain claims, and is entitled to have

these claims considered by this gov-

"The West asks also the redress of grievances in the operation of the terminal elevators. They declare that the farmers of the West are shame lessly robbed through these elevators -that ten per cent, of No. 1 wheat goes in and thirty per cent, goes out and so on all along the line. They declare that this condition of affairs has existed to the knowledge of the government for many years and with out redress. And I say that the government of this country ought to be responsible for knowing whether that

> "In the fourth place, as I under stand it, the West demands that the government of this country should hand over to the people of the three Western provinces their public doernments under control of their own free men, and being free men in a free country, they have as good a right to control through their own local legis latures and by their own provincial executive the administration of their public lands as have the people of any of the eastern provinces who enjoy and have enjoyed that right."

### LAURIER ON COMMISSIONS.

ecalling of an old speech by Sir Wil frid Laurier. He recalled the Premier's dodging of the tariff issue during his Western tour, and in particular noted his promise of a commission to investigate the tariff. It happens that fifteen years ago the same Sir Wilfrid Laurier expressed the opinion that this business of appointing commissions is pure humbug. Here is what Wilfrid Laurier, leader of the Opposition, said in Toronto on February 5th,

"When in power I think I know way in which I can maintain my reputation-that is when a question comes before me that is difficult to solve; to avoid it, to do nothing, and to look wise.

"For instance, suppose when Liberal government were in power they had to deal with the question of prohibition. There would be a possibility of alienating the sym-

hip to control the rates on the canal

Mr. Lancaster, of Lincoln, has begun session by introducing another of the railway bills which he so determinedly advocates. His explanation as given in the House of Commons is:

"The object of this bill is to require all Dominion railways, in case of any person being killed on a train or on the property of the company, of the Thousand Delegation who will to cause an inquest to be held by the nearest coroner forthwith. There has been a great many deaths throughout this country caused by railways without any enquiry being made as to the cause of death. This is becoming a scandal in some parts of the country, and this bill is intended to remedy that evil." Now watch the interests buck him.

Undoubtedly present session of Parliament was his the ideal system would be that of state ownership with proper provisions for a sample market with full protection being given to the grain of the individual farmer from the time it is harvested till it reaches the Liverpool market. Of course it would dep nd entirely on the farmers themselves whether such a system as outlined by the commission would be a success, and it places on the farmers the whole burden of responsibility. We do not think the farmers are averse to taking their share of re sponsibility, but the government is merely a committee of the people's representatives to carry out their wishes, and if the Grain Growers of Saskatchewan prefer government owned elevators to the scheme outlined by the commission, they have a perfect right to demand that the goverment should inaugurate such a system. BAN ON HATPINS

Proposed Law in Philadelphia Impos es \$50 Fine for Each Offence. Philadelphia, Dec. 2.-In an effort to urtail the long hatpin evil in this city an ordinance was introduced in Cour cil today providing that no person upor the public streets or on conveyances shall be permitted to wear a hatpin the exposed point of which extend more than one-half inch beyond the crown of the hat. A fine of \$50 each and every offence is provided for in the proposed ordinance.

Councilman Schumucker declared that the lives of riders on street cars

and pedestrians on crowded streets are imperiled by long hatpins.

Secured Realistic Effect. Vienna, Dec. 2. - Friedrich Steinschmied, the playwright and poet, January 5, 1911. surrendered to the police of Prague today, confessing that he was guilty of arson. He said that while rehearsing one of his plays, in which a peasant sets fire to the barn, he failed to make the scene realistic. He decided that he must himself experience a criminal's impression. He, therefore, went into the country and set fire to a barn, taking notes of the incident and his own feelings. These he incorporated into his play, which is now running in Bohemia with great success.

Emulates Eve. Portage la Prairie, Man., Dec. 6.a stitch of clothing on was wandering around the streets. She was only out a short time when she was taken in charge and taken to the hospital. She was severely frost-bitten. Miss Cutler came here this fall from North Dakota and had a permit to teach for one year. Worrying over religious affairs was the cause of this morning's incident.

Up to last night the Unionists had a clear gain of five. The returning of the tide toward Liberalism is a surprise and a great disappointment for the Unionists, who counted upon capturing half a dozen seats from the enemy. The greatest surprise was in Coventry, because that is the seat of motor manufacturing and the protectionists had put great stress on their plea that tariff reform would prevent the growing competition from America.

### THE HAGUE TRIBUNAL now know better.

Address is Passed After Minister of Justice Makes Statement up- subject. But there were some fresh on Award—Government Change and interesting points. of Front.

(From Our Own Correspondent.)
Ottawa, Dec. 3.—There was just one Ottawa, Dec. 3.—There was just one event in the House today. The address ada is that, the Americans having ex was passed after Mr. Aylesworth had made a statement upon the Hague Arbitration and Award. This was a fine pronouncement, grave, modest, and marked by a spirit of sobriety and a sense of respectability. It, and the hearty reception given to it by the Op position, exhibited the Canadian House of Commons at its best, just as two or three incidents of the last ten days have shown the House at its worst. By far the most important feature of the speech-which must rank as the pronouncement of His Majesty's Canadian Government on the subject-was the following notable passage. It deserves to be quoted in full; it should be learned by heart by every High School pupil in Canada:

"I would wish only to say this further, not with reference to that particular treaty alone, but with general references to all the various international arrangements and agreements which, during the last 130 years have been entered into between the statesmen of Great Britain and those of the United States, that while it seems to be rather the fashion, or to have been rather the fashion in this country to take the view that in the greater number, if not all of those international arrangements, the United States has succeeded in getting the better of it, and that there has been in perhaps most instances on the part of British statesmen some sacrifice or some failure to recognize sufficiently the rights and interests of the British colonies in North America, I, for my part, speaking certainly after considerable study of the matter and with some knowledge of it, do not in the least degree share those views. I think it is no more than simple justice that I should say with respect to the arrangements which, from time to time, have been entered into with regard to the various matters of difficulty which have arisen tween the United States and Great Britain, that the general interests of the Empire at large have been well considered by the representatives of the British Crown in those negotiations."

Seven Years Ago. What a change the last few years has wrought! Seven years ago Sir Wilfrid, Mr. Aylesworth himself, and many others were cursing the British Government on the ground that it had sold Canada over the Alaska Affair; whereas the fact was that Sir Wilfrid Laurier, realizing in advance that the result would not be to his liking, had insisted upon having Lord Alverstone a member of the Tribunal-for the premediated purpose of throwing the worth say himself? Recall this utter

"The award cannot be justified on indicial promise dividing disputed territory be tween the two contesting parties. Sir Louis Jette and I said throughout that if we could look at this thing as diplo mats and give and take, we had no objection, but we were there held down to a judicial interpretation of treaty, and we could not say to United States representatives that if give us a port somewhere else. It was purely a question of what the treaty

Prime Minister Recalled. We need not peer too far into the

past; but we may go back as far as 1892, when Sir Wilfrid Laurier said: "Is there a Canadian anywhere who would not hail with joy the day wher we would be deprived of the services British diplomacy. What has been British diplomacy to us, sir? British diplomacy, so far as Canada is con cerned has been a record of failure and surrender and sacrifice. British British diplomacy has sacrificed our lake fron tier. British diplomacy has sacrificed our Oregon territories. British diplom acy has allowed the State of Main to indent our own country. British diplomacy has sacrificed our Feniar claims, even though at that time the services of British diplomacy had a Canadian negotiator. It is wen known and I will repeat it, that I have no very great confidence in hon. gentlemen opposite, but I would rather have a Canadian Tory than an English Liberal for the negotiation of a treaty with a foreign country in the interest of Canada. Those gentlemen opposit are really too timid."

No Surrender. One of these utterances is eighteen years old; one is seven years old. Only four years ago a Canadian public servant who said that British diplomacy has served us well, became the object of a storm of obloquy. Well the facts are otherwise; and a fev years of steady effort on the part of a few enlightened men has caused ; revulsion of opinion. Educated opin ion in Canada knows today that the old tradition of "British surrenders" is wrong, is false, is disloyal. Educat ed opinion in Canada will no longer tolerate the public preaching of suc! doctrine. And so today we have Mi Aylesworth, follower of the Sir Wilfrid Laurier who in 1892 longed to get rid of British diplomacy, the same Mr. Aylesworth who in 1903 was st vehement on the same side, making the sane and generous statemen which heads this letter.

Perhaps the new desire to wave the British flag over the broad constitu encies of the hitherto despised On

change. But the reason is also to be sought in the fact that the public now know better

Hudson Bay Sovereignty.

Mr. Aylesworth stated that the Canadian authorities had deliberately and of set purpose excluded the own-ership of Hudson Bay from the ques pressly admitted the rights of the Hudson Bay Company, there is no Parliament Buildings at Ottawa question whatever as to her ownership of the Bay. Consequently, she had no interest, but rather the opposite, ir raising the question. Mr. Aylesworth specially praised

ed a remarkably interesting, and, from the technical standpoint, beautiful argument on the question of bays. In Europe, owing to the circumstances and history of the nations which in the earliest treaties of the 17th .cen tury onwards the European nations which colonized North America set up a totally different practice with regard to bays in the North American coast line; from the first and uninterrupt edly, they treated them as territorial waters. The United States had no ooner set up as a nation than they asserted the same doctrine as wit ness the case of Delaware Bay. Thus international law is different as regards bays in Europe and bays in America. The one exception to this is the Bay of Fundy; this became internation alized in 1845, through the action of Lord Aberdeen, who offered to recognize American rights to it if they would abandon their claims elsewhere on the Canadian coasts; the Ameri

President Diaz Opens Negotiations with the Rebels.
Chinhauhua, Mexico, via El Paso Dec. 4.-Reports of the battle at Padernales, Tuesday were confirmed today. Some of the Mexican regulars, who were taken prisoners, went over to the rebels. The Mexican soldiers in the fight were those who left the train at St. Andreas Septeminal elevators at the head of the Great Lakes. This latter will be the last (if attained) of a long series of victories over the private grain comber 22, when the train was wrecked. Ottawa, Dec. 4.—The need of trengthening the R. N. M. P. is emhasized in the annual report of Com missioner Fred White. On September 30th there were in Alberta 261, Saskat-chewan 302, N. W. Territories 26, and the Yukon 60.

"In the last report," says Colone White, "I ventured to express to you my views upon the inadequacy of our present strength. The experience of the past year has only confirmed and strengthened these views. Settlemen is going on apace, railways are buildng into every portion of the province and towns are springing up along these lines. No one will dispute the value of maintaining law and order among the newcomers from the very beginning. The moral and material advantage to Canada of a well-ordered and well-conducted population in these new provinces are so well understood that I feel justified in submitting the question of an increase of strength." During twelve months, 10,480 cases ere entered and convictions resulted in 9,042 cases, being 86 per cent. of the cases tried; 1,258 cases were dismissed or withdrawn and 148 cases were awaiting trial on September 30. There is an increase of 3,193 convictions over last year. This appears startling, but on an examination of the returns it is found that the increase is almost en-tirely due to convictions in mino: Assaults account for 231, of under the Vagrancy Act for 1.130, theft 223, and the convictions un der provincial laws which are not criminal for 1,113.

Particular credit due H. W. Laird, who, although arrayed against the big corporation lawyers, ably and persistently present ed Regina's claims before the commission. It is not merely a victory house the lighting service in the for Regina, but one for the province city has been particularly poor the of Saskatchewan and Alberta as well. The reduced rates that will now be obainable will be of inestimable ben in the development of Regina. The as sistant chief commissioner summar-izes the finding as follows: "I am of the opinion that it has been proved that the special class freight tariffs o the Canadian Northern Railway Com pany and the Canadian Pacific Rail way Company between Port Arthur and Fort William and points wes thereof unjustly discriminate in favo of Winnipeg and other points in the province of Manitoba to the prejudice and disadvantage of Regina and Moose Jaw, and other points west of that province, and that the companies should be required to reduce their rates so as to remove this discrimina-

### ON HORSE BREEDING

New Regulations in Western Provinces Regarding Stallions
In Alberta as in Saskatchewan and Manitoba, a regulation is in force whereby all stallions standing for pub lic service must be recorded with the ninister, of agriculture. Also on the bills announcing that the stallion is standing for service it must be indieated whether the stallion is a purebred, cross-bred or grade. The fact is regretted and yet it is a fact that in Alberta there are at the present time more grades and cross bred stallions recorded and standing for service than there are pure breds. There does not seem to be any remedy for this condition unless it is with the farmers themselves. As soon as the farmer is able and willing to appreciate the value o. breeding and blood just so soon will matters tend to right themselves. The use of grade stallions on the native stock is a practice which cannot be too severely condemned. It has ben shown how use of the wen bred male improves the native stock. The necessity of the continued use of high bred males in order to continue the improvement is just as essential as the use in the

### SAW STRANGE WARSHIP.

Australian Defence Department Look-ing Into Peculiar Report. Melbourne, Dec. 5.—In western Australia earlier in the present year a station owner made a report to the government authorities which aroused ch speculation in official circles. He declared that off the coast he had seen a number of strange steamers, in ppearance resembling warships, which he judged were engaged in carrying out manoeuvres. Beyond the specul tion aroused by the story nothing developed, and the matter was soon forgotten. Now it has been revived. The mysterious warships have been seen again further to the north of their last reported appearance. The matter has been placed before the defence department, which is making inquiries. So far as known there are no war vessels belonging to any power in these waters.

Vessel Released. The steamer Papanui, the vessel which had been refused a clearance from Melbourne, because the marine board refused to pass it as seaworthy, has sailed it having been discovered that as the vessel is flying the Nicaraguan flag, and is apparently intended for service, under the laws of foreign state, the government has no right to

Church circles are much exercised over the announcement that Rev. Mr. Herring, an English vlergyman, who married his deceased wife's sister, and who, since the legislation of such unions in Great Britain, has been engaged in a controversy with the church authorities, is to take charge of a parish here. Other clergy are protesting. Some even invoked the aid of bishop who, however, maintains that the Rev. gentleman's action, although opposed to church doctrine, nevertheless is quite legal under the laws of the state.
