THE ALLIES MAKE GREAT GAIN ON THE YSER

Advance on a Front of Fifteen Miles and Take Ten Villages

London, July 31.—The official statement from British headquarters in France tonight reports the capture by the Allies of the following villages: "La Basse Ville, Steenstrate, Bixchoote, Verlorenhoek, Frezenberg, Saint Julien, Pillekem, Hooge, West Hoek and Hollebeke and more than 3,500 prisoners. The operations of the Allied troops began this morning in the neighborhood of Ypres and have been continued with success during the day despite unfavorable weather. The enemy's positions during the day have been entered and our line has been advanced on a front of over fifteen miles, from La Basse Ville, on the River Lys, to Steenstrate, on the River Yser. Both of these villages are now in the hands of the Allies.

The German front line trenches were entirely smashed to pieces, and the wire entanglements before them were torn away. The British and French went into battle under cover of what was perhaps the greatest barrage fire seen during the war. The great guns of the Allies opened up at the appointed time, and for hours hurled an avalanche of shells into the enemy territory with drum fire intensity. A large number of tanks, which were in the attack are reported to have done invaluable work during these trying stages of the battle.

London, Aug. 1.—German counter-attacks yesterday afternoon and last night against the new British positions at Labassee Villa and north of Ypres-Commines Canal in Belgium were successfully repulsed.

WOMEN'S RESPONSIBILITIES OF TO-DAY

A Notable Address to the Women's Institute By Mrs. Warren.—How Women Can Help

Women's Responsibilities of To-day were most ably dealt with in a lecture in the Town Hall last night by Mrs. Philip Warren, an English lady who is at present residing in St. John.

Rev. S. Gray presided and introduced the speaker of the evening with a few well-chosen remarks.

Mrs. Warren who is one of the four lecturers chosen to address the 92 Women's Institutes of N. B. during the present summer vacation, gave a most pleadingly eloquent appeal for women's help to win the war. She said, in part, as follows:

There are people in the world today who have not realized their responsibilities. She was afraid that the war was going to be a very long one. Nothing else than the necessary home duties should matter now besides winning the war. Do we realize that the women of France have no vacation? No sitting in the rocker chattering for them. All pleasure should be put aside and nothing done that is not of use. Knitting should be done. Red Cross supplies kept up. In Canada we are still leaning towards pleasure and things are too easy for us. When we see people just enjoying themselves, it is difficult to believe that a war is going on.

One of the current American Women's Magazines (all of them are specially good) says: When our men come home how shall they find we have kept what they went out to defend?

When the boys come home they may not want to talk of what they have passed through. Don't urge them, but have everything home to welcome them. Many men who saw very little of religion at home, have found God in the trenches.

Food Consumption

We hear so much about food conservation, yet, perhaps, we do not realize how important it is. Have we thought of the difficulty in the way of the Food Controller? Let us do cheerfully all he asks us to do, although we may not always agree with him. Practically all the food the Allied armies need must come from this side. Food conservation is necessary to win the war. Every citizen must realize that Britain, France, Italy and the other western allies are wholly unable to supply their armies in the field and on the way. Their men are at war, and their countries partly overrun by the enemy. Australia and Argentina are since ships are so scarce, too far away to supply much food. It must come from Canada and the U. S. A. We must have national self-denial. All possible must be produced, the perishable food eaten first, waste prevented, and aid volunteered to the Food Controller.

Great War Veterans Organize

A Branch of the Association Formed at Chatham Friday Evening

Charles Robinson of St. John, secretary of the Returned Soldiers' Association, held a meeting in the Chatham Town Hall Friday evening. R. A. Murdoch presided, and J. W. D. Mann was chosen secretary. The meeting resolved to form a branch of the Great War Veterans' Association for Northumberland, Gloucester and Restigouche, with headquarters at Chatham. The branch, it is proposed, will have a room in Chatham which may be furnished with periodicals, pool tables, etc., by subscriptions and the proceeds of entertainments. Mr. Robinson assured the returned soldiers that suitable employment would be found for each. The men who have artificial limbs that don't fit will be sent to Toronto for new ones, all their expenses being paid and wages allowed them, and those who are willing to qualify as chauffeurs, engineers, or any other employment for which they have the necessary physical and mental equipment, will be paid expenses and wages while attending the schools for returned soldiers. The Canadian Government would do all in its power to assist returned men.

Willard Appleby was reported missing and no word has since been heard of him.

Let Women Step Out for Return

Don't be afraid of your neighbor, speak right out and act at once. Bring these questions up in your churches, institutes and other organizations and make every woman express herself.

In St. John 400 girls had banded together in a Patriotic Association, to take the place of men at such work as ushering in theatres, etc. etc., turning over all their wages for patriotic purposes. These girls can talk now, also, in any meeting! Canada has got to wake up and change its mode of life.

The Institute should try to get, not only high school girls but all girls in the evening clubs. Girls parading round town in nice white clothing should be at work. In England women and girls get up at 5 o'clock, milk cows, make butter, make the hay. So can Canadian women and they should. What an example if the news should go out tomorrow that 250 Newcastle girls were going out to work on the farms! The boys in the trenches are looking to those at home to back them up. If we fail, history will fix the responsibility upon us, as it will also upon the men who can go and don't. In N. B. there are still 27,000 unmarried men between 18 and 35. Surely they are not all physically unfit! It may be all right in times of peace for young men to be riding around in autos on pleasure, but it is not the proper thing now. Imagine the sufferings of the men at the front.

France must be helped this present year. The peasants in the lands being vacated by the Germans have nothing left—farms, fruit trees nor houses. Send everything for French relief to FRENCH WOUNDED EMERGENCY FUND. 44 Lowndes

Let us work all winter to help these French peasants and replenish all Red Cross supplies for the big offensive next spring which will probably be the last.

"In conclusion," said the speaker, "I will leave this motto with you: 'I can't do nothing; 'I'll try does wonders; 'I'll do, everything.'"

A most hearty and unanimous vote of thanks was given the speaker on motion of H. H. Stuart and Miss Louise Harley.

God Save the King.

Presentation to Miss Edna Vye

Honored by Members of St. Andrew's Sunday School on Eve of Departure for Fredericton

On the eve of Miss Edna Vye's departure to reside in Fredericton, the teachers of St. Andrew's Sunday School, Blackville, called at her home and presented her with a beautiful Morocco leather Bible, accompanied by the following address:

To Miss Edna Vye:

The Sabbath School Teachers of St. Andrew's Church, Blackville, wish on the eve of your departure from our midst to acknowledge in some way the position which you held in the Sabbath School as a teacher and treasurer. To you indeed was assigned a task which required tact and perseverance and a great deal of self denial. To you was assigned a class of boys who were of the age which required a great deal of skill and study to command their presence and attention, but you have done your work creditably and discharged your duty nobly. If your class was a class of younger boys we could fill your place more easily, but we must have regard to their desires. It was very evident that you were their choice, and that they respected yourself as well as your work. As a small recognition of the place which you filled in our church, both as a teacher and treasurer, we present you with the book which contains the best of earth's treasures. We present you with a Bible, not because you have none in your possession but because your work in the Sabbath School was dealing with the Bible. This book of books can do more for you than any other gift which we could give you. It will guide you safely through life's perilous journey, it will speak comfort and peace to you. It will cheer you and inspire you on the upward journey and guide you to the Father's Home, in Glory. We are glad that although circumstances necessitate your departure from our midst that you are still to be near us although not with us, and should the Lord so appoint it that you return again to Blackville to live amongst us, we shall welcome your return. We wish you every success in life and pray that the God of Peace be with you in whatever place your home may be such is the wish of your friends.

Rev. L. Beaton read the address and the secretary, Miss Janet Walls made a brief, but suitable reply.

Interesting Ceremony At Tabucintac

Flags of Great Britain and United States Raised in Front of Club House

The Tabucintac Club at Wishart's Point, composed of American sportsmen, recently gave a reception to their neighbors on the occasion of the raising of British and American flags on the poles in front of the Clubhouse, which is on the shore of the Tabucintac river. About two hundred and fifty people attended. Rev. Mr. Curtis, Pastor of the Methodist church, offered prayer. A short introductory speech was made by Mr. Ferdinand Wilcox of New York who acted as Master of Ceremonies, in which Mr. Wilcox pointed out the great significance of the Union of Great Britain, Canada and the United States in the war. Mrs. Wilcox then spoke most entertainingly of the character and scope of Red Cross work which she had been doing in New York. Mr. W. R. Sears of Boston spoke of the historic struggles of the present allies, Great Britain, France and the United States, on the continent of North America. Dr. Frederick B. Land of Boston, then read an original and soul-stirring war poem (a copy of which we have through life is too short in war time to decipher it) and afterwards spoke briefly of his work as a surgeon in France, with the first Harvard University Unit of which he was a member. Mr. Curtis then pronounced the benediction. Light refreshments were served to the gathering. Before they left, on motion of Mr. Curtis, the guests of the Club passed a resolution of thanks, concluding with three hearty cheers.

GERMAN CRUELTY IN BELGIUM

London, July 31.—A despatch received today by the Wireless Press, from Amsterdam says:

"The German authorities at Liege, Belgium, arrested, tried and sentenced to death within three days an influential Liege merchant, named Greiner, his wife, and their two daughters, aged twenty and fourteen years on the unproved charge of espionage."

"The father and mother were shot to death in the presence of their daughters. The latter were offered their freedom if they revealed the names of their parents' accomplices. The girls refused, the eldest stating: 'If we speak we might cause fifty people to be killed. We would rather die alone.'"

"She was immediately shot. The youngest girl was tortured, outraged, and also shot."

Hands Across Border

LT-COL. JOHN S. DENNIS, who has been loaned by Lord Shaughnessy as Commanding Officer Recruiting Mission, Western Division, for the recruiting of British and Canadian subjects in the United States. Col. Dennis is stationed in Chicago at the present time.

YOU wouldn't exactly call it hands across the sea, because Canada is only across a lake; but Canada is part of England, which is a long way from South State Street. Anyway, what I'm driving at is this: Lieutenant Colonel J. S. Dennis, officer commanding the western division of the British Recruiting Mission, recently clasped hands with Captain F. R. Kenney, officer commanding the recruiting district of Northern Illinois for the United States Army.

When two belligerent parties shake hands there are only two things which the referee or third party can say—either "Take your corners" or "Bless you, my children."

I said neither. But I held my breath, for it was an impressive moment, the formal enactment in Chicago of immortal history; the physical union of the fighting strength of two great nations. And the spirit of patriotic co-operation in the common cause of justice sanctified the alliance.

Colonel Dennis and Captain Kenney joined in plans. What they want is men to send to the front. Neither has any choice as to whether the men go in Canadian kilts or American khakis.

At every one of the dozens of scattered stations under Captain Kenney's command volunteers of Canadian citizenship are being taken for the expeditionary forces of the Dominion; at every headquarters over which Colonel Dennis has control volunteers of American allegiance are being taken for our own National Army.

Captain Kenney is credited with being a bit of a heart on the science of recruiting. But he was immensely impressed with the policies and ideas expressed by the distinguished Canadian man of war.

The solid week of British rallying here will show some fireworks illustrative of the spirit that created and immortalized Canada's first 100,000. A little band will whoop it up, there will be mass meetings and noontday oratory and thousands of direct ap-

GRADUATED INCOME TAX FOR CANADA

Will Provide \$20,000,000 Revenue And Supercede the Business Profits Tax

Ottawa, July 25—A graduated income tax was introduced in the commons by Sir Thomas White, minister of finance. Sir Thomas White gave a rough estimate of the probable revenue at from \$15,000,000 to \$20,000,000 per year.

The bill provides for exemptions of all incomes up to \$2,000 per year in the case of unmarried men or widowers without children and \$3,000 per year in the case of married men. After that up to \$6,000 per year, the tax is four per cent. per annum; between \$6,000 and \$10,000 per year, six per cent. between \$10,000 and \$20,000 per year, nine per cent.; between \$20,000 and \$30,000 per year, twelve per cent.; between \$30,000 and \$50,000, fourteen per cent.; between \$50,000 and \$100,000, fifteen per cent.; and over \$100,000, twenty-nine per cent. All business firms and corporations, where the profits are in excess of \$3,000 per year, are liable to a tax of four per cent. per annum, but if the business tax now in force exceeds the amount which would be taken under the income tax, the higher amount only is taken.

Sir Thomas White announced that there was no intention of continuing the business profits tax. After that the income tax will supersede it. The tax is to be in force for the duration of the war.

The new tax will work out as follows:

Income	Single Men, Widowers, Persons	Amount paid	Other Persons
\$ 4,000	\$ 70	\$ 40	
5,000	120	80	
7,000	220	180	
10,000	400	360	
12,000	580	540	
15,000	850	810	
20,000	1,300	1,260	
30,000	2,500	2,460	
50,000	5,300	5,260	
75,000	10,050	10,010	
100,000	14,800	14,760	
150,000	29,300	29,260	
200,000	43,800	43,760	

The finance minister stated that the act provided for a number of exemptions. It was proposed to allow on the taxation which would be payable by firms and corporations the amounts which they paid under the profits tax act for the accounting period of 1917. In the case of a partnership each partner would be entitled to deduct such portion of the tax paid by the partnership under the tax act as corresponded to his interest in the partnership.

A similar deduction should be made to cover taxes paid under the special war revenue act. The tax applies to corporations and joint stock companies.

Messrs. A. K. MacLean and F. B. Carvell, Liberals, believed the thought of Canada would approve of the principle of the bill. It would augment revenue and equalize taxation.

FOUR MIRACULOUS CURES REPORTED

Four confirmed miraculous cures were recorded at Ste. Anne de Beaupre on July 26th, the festival of St. Anne, when some 10,000 pilgrims were praying at the shrine. The certified miracles are as follows: Mrs. Mary Russell, 96 Beach street, Holyoke, Mass., left her crutches at the foot of the statue of the saint cured of chronic lameness. Gregoire Belliveau, Three Rivers, Que., left his crutches and now walks without them. Leona, six years old, daughter of Leo Picard, Lauson, Levis, cured of lameness and defective sight, a little Syrian girl from the Maritime Provinces, recovered lost sight.

Right to Search Hubby's Pockets

The right of a wife to search her husband's pockets for funds, from time immemorial a favorite subject with humorists, assumed a new position in the St. John police court Monday morning, when Magistrate Ritchie gave a ruling on the matter. Percy O'Toole was before the court charged with leaving his five months' old baby alone in the house without provision for its care. He blamed his wife, who was absent from the home, and the wife alleged that she had left because her husband failed to support her. In the course of the hearing the magistrate announced for the benefit of this woman and other wives that any of them has the right to go through her husband's pockets to secure money for household purposes.

The Studebaker Car. A Safe Investment

STUDEBAKER cars are built in Studebaker factories at Walkerville, Ontario. They are built with full knowledge of Canadian roads and conditions throughout the Dominion. The men who build them are skillful, trained mechanics.

Their work is carefully supervised by the most expert engineers in the automobile industry.

The materials used are tested and proved in the great Studebaker laboratories.

Many materials have been developed by Studebaker solely for Studebaker purposes.

No car at any price uses higher grade steels than Studebaker. Studebaker uses drop forgings instead of castings at every possible point—this insures lightness and great strength.

The Studebaker motor has been developed by four years' experience with the same basic design in the hands of thousands and thousands of owners in every part of the world. It is an evolution, not an experiment.

It is the most clean cut, accessible motor you ever saw.

Its valves are noiseless and do not require frequent lubrication. It is probably the most powerful motor ever used in a car of such light weight as the Studebaker car.

Its power is free flowing and flexible. Its response to the throttle is instant.

It is very economical in its consumption of gasoline.

The Studebaker electric system is simple, accessible, never failing. It is the best electric system that the highly

organized skill of Studebaker and Wagner engineers working in close harmony could devise.

All wiring is easy to get at—all wires are protected from grease and damp by flexible steel conduits.

No matter what the climate the Studebaker starter never fails. It exerts a cranking torque equal to two hundred pounds. It always starts the motor.

Studebaker cars are big and roomy. The front seats are individual and form-fitting, adjustable forward and back to all leg lengths, the one next the driver is reversible—its occupant may face the tonneau if desired.

The tonneau seat is 48 inches wide—the ideal width for a five passenger car.

There are two auxiliary seats, arm chairs in fact, stored under the tonneau seat, enabling you to carry extra passengers in comfort if desired.

These chairs are standard in both FOUR and SIX cylinder touring models.

All Studebaker upholstery is of genuine, high-grade, hand buffed leather. Studebaker doors are wide opening—easy to enter or leave.

These are only a few of the qualities that make the Studebaker car the great value car of Canada today. No other car at anywhere near the Studebaker price offers them all.

You owe it to yourself to let us prove in an actual demonstration the quality and value of the Studebaker car. We are at your service at any time.

There will be no change in Studebaker models this year, but the increased cost of materials and labor may force Studebaker to make an advance in prices at any time without notice.

NEWSY LETTER FROM ENGLAND

Sapper Sam Craig Meets Lord Beaver Brook—Also Many Miramichi Soldier's.—Two Bartibogue Men Win D. S. M.—Was Through Air Raid

The following was received a few days ago by a friend from Sapper Sam Craig of Newcastle, who has gone to Europe to do his bit for King and Country:

Edinburgh, July 18th, 1917.
Dear Friend:—Just a line as I promised I would drop you a few lines. We are getting on as well as could be expected out here, in fact, I should say good. We landed here, that is in Liverpool, May 14th, went from there to Crowborough, Sussex, England, the same evening at midnight—the trains run some here.

There are quite a few fellows from Newcastle and around there in this camp. I will give you a list of them that are here in camp: Pat Randles, Mike O'Brien, Garf Troy and Tom McCafferty, also Randall McDonald from Bartibogue another chap I enlisted. His brother has been in France for two years and has won the D. S. Medal. Also another Bartibogue boy is here in the Machine Gun Section, Martin Johnson. He also has won the Distinguished Service Medal. So you see us fellows from town ain't in it with the down river fellows, some of them at least. But, of course, Bob, we have not been over to France yet. So we only have to wait, hope and expect. I think the boys from town ain't any worse than any of the rest of them, but that waits to be proved from some of us. I don't think we will be any worse than the rest of the boys that went ahead of us, hope not at any rate. There are also a few from Nordin and Douglstown, William Russell from Nordin and Edward Johnson and a young Cowie and a Young from Douglstown. So we ain't badly represented out here, for all we have none from Chatham with us. I am in Edinburgh, Scotland, I am

on 6 day's leave, spent two days in London, I met Lord Beaverbrook. He's just the same old boy, inquired all about the folks in town. He has one of the finest places anyone ever set their eyes on. I tell you he is a wonder. I called on Mr. Sawyer, the wireless chap from town, but could not find him. Edinburgh is a dandy place, away ahead of London, clean and handsome. This is a pretty country all through, got our country skinned a mile for looks.

We are having great weather here ever since we came. We celebrated our 1st July Dominion Day at Crowborough Camp, on July 2. All kinds of sports. We had a great church parade on the first, and a dandy sermon on the fiftieth anniversary. I am sending you an account of the parade.

I don't expect we will be over to France for two months yet. I was in London July 8th, the day of the big air raid. I was all over the country where the bombs struck. One struck on one side of London tower, the other on the other, not more than 100 yds on either side. It looks as if that was what they were after. Of course there were about twenty other bombs.

I was all over London, the Abbey, the Tower, and all other noted places. Since coming here I was through the castle, and saw Walter Scott's monument, but I have a lot to go through here yet. Of course I have only been here a little over a half day yet, so I guess I better close and take in the city.

Good-bye from your friend CRAIG, Address: Sapper S. Craig, No 2000789, Crowborough Camp, Crowborough, Sussex, England

To Solve The Food Problem
All Classes to be Represented on Food Boards

To endeavor to solve the food problem in Canada there will be six departments to deal with various phases of the food problem.

There will be a central advisory committee composed of representatives of the government, the churches, labor organizations, educational departments and institutions, urban interests, farmers, rural municipalities and men's and women's organizations. The central body will advise the departments through the food controller.

Provincial machinery is to be established through the creation of special provincial committees to advise upon plans prepared by the departments and approved by the Food Controller. Each provincial committee will include in its personnel representatives of the government, the churches, schools, farmers, labor, urban and rural districts, and men's and women's associations. In addition special committees, representing producers, handlers and consumers of food products will be appointed to investigate and formulate plans of action, individual problems dealt with by the departments. Action has already been taken in this regard by the creation of the food consumption control committee and the fish committee. The interior organizations of the Food controller's office will include: Food saving department, food industries department, food distribution department, information and statistics department, business and office department, educational department.

MRS. CASTLE PLAYS THRILLING SCENES

Mrs. Vernon Castle's ability as a swimmer was severely tested in several of the episodes of "Patria," the fifth episode of which will be shown at the Happy Hour theatre Monday evening. As the heroine, resolutely bent on teaching America the necessity of "preparedness" she falls into the hands of unscrupulous enemies, who cast her overboard from the upper deck of a Soviet steamer.

Mrs. Castle has many adventures in "Patria." In one scene she is shown on the screen coming to the surface of the water, freeing herself from her bonds and tearing away the gag by which her screams were prevented. The camera then graphically records her dextrously removing her shoes and stockings and heavier garments and swimming out of the picture triumphant.

In the fifth chapter she escapes again from her foes by diving boldly into the Sound, and swimming under water to escape the bullets sent after her. She is finally rescued far from shore by a hydroplane. It is the first time the aeroplane has been used in rescue work. The camera shows her climbing aboard the hydroplane very wet, but very glad to find that her sweetheart is the pilot. A little later she is seen under way in the hydroplane skillfully manipulating a gun at a flying machine sent after her by her relentless enemies.

The Fox-Dickens Masterpiece "The Tale of Two Cities" will be shown here on Tuesday, Aug. 14th. Reserve that date.

CONSERVATIVES HOLD P. E. I. SEATS

In the two bye-elections in P. E. I. last week, the remainder of the Legislature being Conservatives 15 and Liberals 13, the Conservatives again won both seats, making the House again 17 to 13 and obviating the necessity for a general election.

PAV OR FIGHT

The Government's new income tax will be accepted by the public with the cheerful equanimity deserved by all measures well designed to win the war.

We all belong to the State. At any time the State has the right as well as the wonder to command our full service. In war time it asserts that right to the extent of commanding its citizens' lives. Those who cannot or do not give their lives should be glad of all opportunities to give their substance.

The proposed taxes are not over heavy, even when added to our present burden. Where Canada takes forty per cent. Britain takes twenty-five per cent. Canada has got off very easily in this war so far, considering the interests she has at stake. She has still a long way to go before she reaches the limit of her duty.—Montreal Star.

PROGRESS OF THE WAR

After launching a victorious inroad on the Austrian lines, on the first of July and keeping up the advance for three weeks, mutiny suddenly broke out in many regiments of the Russian army in Galicia, resulting in wholesale retirement, with loss of many men and much artillery to the enemy. There is strong ground for supposing that the enemy has many sympathizers in the Russian forces, at the time and place agreed upon deliberately acted in such a way as to disorganize the Russian offensive and compel a retreat. The retreat has continued until the Russians are now almost all expelled from Austrian territory, thus having to give up strong positions they have held for a long time.

In the northern sectors, however, the Russian armies are holding more firmly, although, even there, giving way steadily. In the Vinea province, the Russian female regiment went into action on the 26th ult., losing five killed, but fighting with the utmost valor and with good success. Many more women are now training for the Russian army.

To more effectively deal with mutiny and desertion in the Russian army, the death penalty has been restored. On July 23rd, the Russian government were given absolute authority. The All-Russian congress, called for July 31st, had to be postponed on account of the internal troubles of the country.

It is also reported that women are in the German army operating against Russia. In northeastern Roumania, the Roumanian army has won notable successes during the past week. The German troops are pounding away incessantly on the French, British, Canadian and Belgian lines in France and Belgium, but without making any gains of territory.

Another small body of United States troops has been landed somewhere in France.

SGARING PEOPLE WITH CONSCRIPTION TALK

The recent statement of the finance minister, denying any intention on the part of the government to "conscript wealth," comes none too soon. The loose talk of many Canadian newspapers and parliamentarians in their attempt to pander to and please certain classes with this flimsy, has in reality done an immense amount of harm. One might well imagine, and many did, that the government would eventually shake down the entire country for every loose dollar available. Conscription of wealth never did mean anything, but, unfortunately, people were inclined to take it seriously. The only sort of conscription of wealth we are going to be subject to is taxation, and this is nothing new. We will merely get a little more of it than of old, and that is all. Badly needed capital is not coming into our country as freely as of old, partly for the reason of the general slump which has been sent broadcast by this conscription of wealth talk, but even Canadians have been

means been unaffected by the pattern. There are many instances where people are known to have withdrawn large sums from the banks and buried them in unfrequented spots through fear that the government would seize their money. It need hardly be pointed out that the proper place for savings is a bank, and not a hole in the back yard. We have only to duplicate the actions of these timid people many times and a most alarming condition of affairs would be created.

Any taxation which the government may resort to from time to time, according to the statement of the finance minister, will be in accordance with legitimate and established forms sanctioned by the traditions and experience of British self-governing communities, which may be taken to mean that later on we will probably have a federal income tax, to which, if enacted upon proper lines, there can be no possible objection.—Toronto Saturday Night.

AFTER THREE YEARS

On the fourth instant the British Empire will have been at war three years. The third anniversary of the war has already passed, the Austro-Serbian clash having occurred on July 28th, 1914, but it was August 1st before the Germans, Russians and French were engaged and August 4th before the British and Germans opened hostilities against each other and August 23rd when Japan came in. Later in 1914, Turkey joined the Austro-German party, and in 1915 Bulgaria joined the enemy and Italy espoused the cause of the Entente Allies. Not till last spring did the United States enter the conflict and since then Cuba, Brazil, China and Siam have broken off relations with the enemy, and have rendered some assistance to the Allies in the matter of naval and commercial accommodation.

The Germans, who barely missed capturing Paris in the first month of the war, still hold practically all of Belgium and the chief coal and iron districts of France. Austria and Germany hold a vast territory in Russia, while the four enemy nations hold in common, all of Serbia and Montenegro, and most of Roumania and Albania. To offset this, the Allies hold a little bit of Austrian and German territory in Europe, several slices of Turkey in Asia, and all the German colonies. The territorial gains of the enemy would, however, be much more valuable than those of the Entente, were the war to close at once on the basis of the war map.

The territorial gains of each side to date are about as follows:

Enemy Gains	Sq. Mi.	Population
Russia:		
Poland	49,000	12,750,000
Courland	10,900	1,250,000
Part of West Russia	49,000	6,000,000
	108,000	20,000,000
Roumania (part)	39,000	5,700,000
Serbia	34,000	4,250,000
Montenegro	5,000	600,000
Albania (part)	7,000	600,000
Belgium	11,000	7,000,000
France (part)	7,000	2,000,000
	211,000	40,000,000
Allied Gains:		
Sq. Mi.		Population
Bukowina (Austria)	4,000	750,000
Part of Alsace (Germany)	1,000	250,000
Total in Europe	5,000	1,000,000
N. E. Turkey	30,000	1,500,000
S. E. Turkey	75,000	1,500,000
Turkish N. W. Arabia	100,000	1,000,000
German Colonies	925,000	8,000,000
	1,135,000	13,000,000

The most serious drawbacks to Entente successes are the weakening of Russia and the tremendous activity of the enemy submarines, which are destroying shipping faster than it is being replaced. The enemy, outnumbered and blockaded, are evidently staking everything on the effort to crush France by land attack and the cutting off of supplies and reinforcements by sea before the huge and fresh American army can arrive to save her. Germany must not be allowed to succeed in this, because, if she does, it means either the conquest of the world at once by Germany, or at the least, such an extension of German power as will compel the unconquered nations to keep an available man permanently trained and equipped for war in order to preserve their independence. Canada has enlisted the enormous number of 425,000 men, and still more are needed, if the German host is to be rolled back from the lands of our allies, and if our own country is to be relieved of the danger of invasion.

A FAIR TAX

During discussion of the Conscription bill it was more than once pointed out that Canada's increasing war burdens made certain the recourse to new methods of taxation, and that such and every action taken to increase the size and efficiency of Canada's fighting strength inevitably

The Preeminent

William Farnum

IN A

William Fox
PHOTOPLAY

A Tale of Two Cities

By Charles Dickens

A Masterful and Powerful
Screen Play of a Heroic
Sacrifice for Love.

Regarding this picture the St. John
Globe of July 24th says:

Rivalling The Deemster in spectacular scenes, equally gripping in its story, Charles Dickens' master tale of the French Revolution was shown on the Gem scene last evening in seven reels of superior motion pictures. It is one of the super de luxe features announced some time ago by William Fox for his stars, and this one exploits William Farnum. We see him in the double role of Sydney Carton and Charles Darnay, two essentially different characters, and his consummate skill and art are given a grand opportunity here. This will be the more readily acknowledged when, under the witchery of the camera men of today, Farnum as Carton and Farnum as Darnay, are made to appear in the same picture, living and moving. It is a remarkable bit of photographic art that shows the two characters, played by the one man, sitting at table together, gazing into each other's face as they meet at the trial in the Old Bailey; and, more remarkable than all, in the prison scene in France when Carton overpowers Darnay, chloroforms him and takes his place to await the call of the guillotine. It was a wonderful triumph alike for actor, director and photographer.

The staging of the Tale of Two Cities was done by a master. The mob scenes in the days of the Revolution are wonder pictures, the glimpses of Old London most interesting. All settings and costumes are of time and place. Dickens lovers received a new pleasure indeed in viewing the production; knowing the characters by reading of them, they now saw them as if in life.

LOGGIEVILLE

Loggieville—Shortly after midnight last night, the citizens of this town were aroused by the alarm of fire. The night was dark, and the conflagration, when noticed, had illumined the whole place. Men and boys rushed to the scene of the "blaze, which took them to the "old homestead" property of the Loggie brothers (the firm of A. & R. Loggie.) Every possible means available was used to save the burning buildings, but the fire could not be controlled and the house, barn and other buildings in connection therewith, went down to ashes. The loss was a heavy one. The barn contained a large quantity of hay, this season's cut. At time of writing it is not definitely known how the fire originated. The many friends of the members of the firm are sorry to learn of their loss. The Loggie homestead was situated on one of the pretty spots on the Miramichi.

WHY WOMEN WRITE LETTERS

To Lydia E. Pinkham Medicine Co.

Women who are well often ask "Are the letters which the Lydia E. Pinkham Medicine Co. are continually publishing, genuine?" "Are they truthful?" "Why do women write such letters?"

In answer we say that never have we published a fictitious letter or name. Never, knowingly, have we published an untruthful letter, or one without the full and written consent of the woman who wrote it.

The reason that thousands of women from all parts of the country write such grateful letters to the Lydia E. Pinkham Medicine Co. is that Lydia E. Pinkham's Vegetable Compound has brought health and happiness into their lives, once burdened with pain and suffering. It has relieved women from some of the worst forms of female ills, from displacements, inflammation, ulceration, irregularities, nervousness, weakness, stomach troubles and from the blues.

It is impossible for any woman who is well and who has never suffered to realize how these poor, suffering women feel when restored to health; their keen desire to help other women who are suffering as they did.

FIVE WEEKS MORE LOBSTER FISHING

An order in council passed last week provides for a special lobster season this year for Northern New Brunswick and Prince Edward Island from August 11th to September 15th. The usual lobster season runs from May 25th to July 10th. The trial of a special season this year is with a view to testing out the theory that the later open season would give better results in the quality and character of the catch.

WOULD NOT RE-OPEN SCHOOLS IN AUGUST

The St. John City School Trustees want the summer vacation extended one week, schools not to open until the day after Labor Day, which falls on the first Monday of September. Many pupils do not begin school until after Labor Day, making it impossible for the teachers to get the new classes arranged until after that date. Under the circumstances, many think it would be better to have nine weeks' holidays instead of eight.

WOUNDED BY SNIPER

Mrs. James Fenelon has received a letter from her son, Pte. Bertram Fenelon, who was recently reported wounded. Pte. Fenelon enlisted with the Cameron Highlanders in Winnipeg and passed through Newcastle last fall en route to the front. After going to England he was transferred to the 43rd Battalion and it was while fighting with that unit that he was wounded. He expects to be sent to England shortly, but states it will be some time before he will be able to use his left arm.

BE CAREFUL OF THE CALOSOMA

It would be well for everybody to know what the Calosoma beetle looks like so that none of these insects will be killed. They are our friends, brought here by the Dominion Department of Agriculture to destroy the Tussock caterpillar and the various other moths and caterpillars injurious to vegetation. The Calosoma beetle when full grown is 3/4 of an inch long, and 1/2 inch wide. The color is changeable, a greenish red of shot effect. It has six legs, its shell is hard, more so than that of the potato bug. It can fly very long distances in search of suitable food. It feeds on the injurious insects when they are in the caterpillar stage, and is therefore well worthy of our protection. Become acquainted with it so that you will know one when you see it.

CHARLES DICKENS' VIVID NARRATIVE OF "LA GUILLOTINE"

In the William Fox Super De Luxe production of "A Tale of Two Cities" which will be shown here on August 4th, in which William Farnum plays the dual role of Charles Darnay and Sidney Carton—Charles Dickens gives this vivid description in his book "La Guillotine," which plays so prominent a part in this masterful photodrama.

"It was the popular theme for jests; it was the best cure for headaches, it infallibly prevented the hair from turning grey, it imparted a peculiar delicacy to the complexion, it was the National Razor which shaved close; who, kissed La Guillotine, looked through the little window and sneezed into the sack. It was the sign of the regeneration of the human race. It superseded the Cross. Models of it were worn on breasts from which the Cross was discarded, and it was hewed down to and believed in where the Cross was denied.

"It sheared off heads, so many, that it and the ground it most polluted, were a rotten red. It was taken to pieces, like a toy-pistol for a young Devil, and was put together again when the occasion wanted it. It hushed the eloquent, struck down

MOUNT ALLISON INSTITUTION

In another part of today's issue will be found the advertisement of the Mt. Allison Institutions located at Sackville, New Brunswick. These institutions have had a most honorable record extending over more than half a century. They have contributed much to the industrial, educational and moral life, not only of the Maritime Province, but all parts of Canada as well as many other portions of the globe. The fact that so many Mount Allison men have enlisted and are doing their part in the great world war speaks well for the training which they received at "Old Mount A."

The teachers and professors associated with Mount Allison are men and women eminently fitted for the tasks which they perform, and with such well known men as Rev. B. C. Borden, D. D. Rev. Hamilton Wigle, B. A. and Dr. J. M. Palmer, as heads of the University, Ladies' College and Academy respectively, parents may send their sons and daughters to Mount Allison with the confident assurance that they will be well looked after and receive a training which cannot be surpassed anywhere in Canada.

MARRIED SECOND WOMAN OF SAME VILLAGE

Wesley Tracey Morgan, of Tracey Station, Sunbury Co., who had been married nine years, took himself another wife (Miss Viola May Thomas, daughter of Marvin Thomas recently burned to death) on June 23rd. The second wife lived in the same village as the first, and he paid the mother \$21 for the latter's consent as Mrs. Thomas was short of funds for her own marriage to Frank Morey. Both marriages took place on the same day. Frank Morey and his bride were tried for the murder of Marvin Thomas, but were acquitted. Out of the \$21 received for her daughter, Mrs. Thomas paid all her son-in-law's wedding expenses. The bigamist was taken to jail last week.

Dear Mother—
I am keeping well, have good food and well protected from the weather, but have some difficulty keeping uninvited guests from visiting me.

Have you any patriotic drug-gifts that would give something for a gift overseas—if so do you know something that is good for everything? I do—OH MINARD'S Liniment.

Your affectionate son,
Rou.

Hanson-McCormack Wedding at Chatham

At St. Michael's Cathedral, Chatham, at seven o'clock Monday morning, Miss Mary Jeannette McCormack and Mr. Percy Louis Hanson were united in the holy bonds of matrimony, by Rev. Fr. Martin, who celebrated the Nuptial Mass. The singing by the Children of Mary was splendidly rendered. The bride was beautifully dressed in sand shade silk voile, with Georgette crepe and Persian trimmings, with hat to match, and carried a beautiful bouquet of bridal roses. The bridesmaid, Miss Margaret Shea, of Fredericton, wore a suit of navy blue gabardine and carried a bouquet of roses. Mr. J. C. McCormack supported the groom. After the ceremony the bridal party returned to the home of the bride, where a sumptuous breakfast was served. The house was nicely decorated, the color scheme being white and pink. The many handsome gifts received, including cheques, cut glass and silver showed the popularity of the bride. The happy couple left on the 10.20 for a short wedding trip. On their return they will reside in Fredericton, where the groom will occupy an important position. The groom's gift to the bridesmaid was a pearl necklace and to the groomsmen a gold cigarette case.

Red and Gun for August.

Bonnycastle Dais writes of experiences with wildfowl on the Pacific Coast in the August issue of Red and Gun, which is now on the news-stand, while in The Letter of the Law, Leslie Hayward describes entertainingly the experience of a typical Maritime province guide with a troublesome party in New Brunswick woods. A Day's Fishing in Temagam records a perfectly satisfactory outing by a number of Torontonians on one of the dog days of last summer. Other articles are King of the Stream, Canoe Racing, The Prairie Chicken, The Criminal, etc. In addition departments devoted to Guns and Ammunition, The Trap, Fishing, Kennel, etc., are well maintained. This representative Canadian sportsman's publication is put out by W. J. Taylor, Limited, Publisher, Woodstock, Ont.

MIRACLE OF SURGERY

Dead Hand of Teamster Made Alive by Skill

When a teamster, who had come into Montreal to work in a machine shop, stumbled against a steel-cutting circular saw, that perfect piece of machinery obediently bit through every fraction of bone and flesh presented to its iron teeth, and the man's hand, cut through the back at the wrist, hung limp and helpless. The superintendent bound stout cord above the worker's wrist, made a rough tourniquet of a pen holder, and phoned up the general hospital. Within seven minutes, the ambulance pulled up at the factory doors, and five minutes later the teamster was in the big outpatient hall of the general, where some 400 men, women, and children, all poor people, patiently waited attention. He was summoned at once—there was urgency in his case—into a bright room of wondrous order and cleanliness, where a white-robed surgeon examined the wound with eyes in which the teamster could divine nothing but quiet, critical observation. What followed was in the nature of a jig-saw puzzle of flesh and sinews. A nurse assisting, the teamster's hand and half his arm were put into an artificial swathe, and five minutes later he was lying on a table, his hand being evicted like bad tenpins. Followed a series of most delicate operations. One half of the severed tendons, elastic as rubber, was cut and the teamster's arm; the other half had been drawn towards the finger tips. Like cables that have snapped in deep-sea water, these tendons had first to be located, then joined together and sutured. To pull these elastic fibres into position, sharp incisions were made in the arm and hand, so that the pieces could enter, grip them and stretch them out. It was a splendid feat of surgery, by which a man's right hand, dead and useless, was re-joined with life, restored to action, rescued from total inanition.

Lord Lyveden sold for nearly \$1,250,000 property in the U.S.A. which he bought thirty years previously for a small sum. This is well in accordance with his lordship's motto—"A Vernon always flourishes." But there were times when Lord Lyveden must often have doubted the sincerity of his family motto. For many years he courted sickle fortune in several capacities—soldier, sailor, purser, actor, steward, and hurseryman.
"Once," recalls Lord Lyveden, "I arrived in North Carolina with only 75c in my pocket. Like a young fool, I went to a first class hotel and stayed there several days. When the bill was put in front of me I had no money. I was turned out, but as I was leaving the door the clerk pressed fifty cents into my hand, saying, 'I guess you'll want a bed for night, and I'll lodge you over a stable that night, and in the morning go to work driving a cab. As soon as I was in funds again I went and settled my bill like a Briton.'"

Mae Murray

a sensational successful and charming screen star has secured a play ideally suited to her. Also, there is little Billy Jacobs as a crippled child and Tom Moore as the young doctor.

The "Primrose Ring"

is a fantastic story, with enough of the prosaic for balance. It will be one of the signal successes of the year. Everyone should see this screen masterpiece.
