Failing Health. Ten years ago my health began to fall. I was troubled with a distressing Cough, Night Sweats, Weakness, and Nervous-ness. I tried various remedies prescribed by different physicians, but became so weak that I could not go up stairs without stopping to rest. My friends recommended me to try Ayer's Sarsaparilla, which I did, and I am now as healthy and strong as ever.—Mrs. E. L. Williams, Alexandria, Minn.

I have used Ayer's Sarsaparilla, in my family, for Scrofula, and know, if it is taken faithfully, that it will thoroughly eradicate this terrible disease. I have also prescribed it as a tonic, as well as an alterative, and must say that I honestly believe it to be the best blood medicine ever compounded.—W. F. Fowler, D. D. S., M. D., Greenville, Tenn.

Dyspepsia Cured.

I have been greatly benefited by the prompt use of Ayer's Sarvaparilia. It tones and invigorates the system, regulates the action of the digestive and assimilative organs, and vitalizes the blood. It is, without doubt, the most reliable blood purifier yet discovered.—H. D. Johnson, 383 Atlantic ave., Brooklyn, N. Y.

PREPARE FOR COLD WEATHER By Having Your House Thoroughly Heated.

WE are now prepared to put this popular system of Heating into Dwellings, Stores and Buildings of every description. With our present facilities we can guarantee work second to none in the Province. We use the Gurney Hot Water Boiler, which, for simplicity, economy and durability cannot be excelled. There are thousands of them in use and working satisfactorily. We can supply other Boilers if required. The following testimonials speak for themselves:

Charlottetown, Sept. 28, 1887.

fesses. A. White & Son: MESSAS. A. WHITE & SON:

DEAR SIES,—After giving the Hot-Water Heating Apparatus you placed in my house in the fall of 1885 a pretty thorough test, I have arrived at the conclusion that your system is the right one, and much superior to steam, which I use in my office. The heat is very steady and pleasant, caused, no doubt, from the atmosphere in each department being heated without disagreeable drafts of any kind. On the important score of economy I, do not think anyone could complain, as it-seems unimportant what grade of coal is used.

Wishing you every success in your line of business, I am yours truly, Summerside, August 1, 1887.

W. A. BRENNAN.

I have much pleasure in giving my unqualified approval of the Gurney Hot Water Boiler placed in my house two years ago. It has given me great satisfaction, and I can recommend it to anyone wanting a thoroughly good heating apparatus. I have used hard coal in it until lately, when I changed to soft, and find it quite as satisfactory. I intend to use the soft coal in future. Yours truly,

A west or two ago, the teachers of St. Peter's, Midgell and Southampton schools, arranged a picnic for their pupils and friends, which was held on The children attended in large numbers, besides many parents and friends of the pupils. Amusements suitable to children were provided, and everything done which would tend to please them. The efforts of the teachers were highly appreciated by the little ones, whe enjoyed themselves to their heart's content. The teachers also addressed the assumbled entells on the great edvan-

The ball passed off as balls generally do. The usual number of quadrilles were walked; there was waiting for the sative and whisting for the passing, and those elderly guests who are wont to declare 'that their dancing days are over.' In short, a cursory observer would have seen nothing in this particular ball to distinguish in from any other ball. To Fanny Beaumonth, however, it was an epoch. Mr. Wilton Morris, a young gualtena who possessed a large property in the neighborhood, paid her attentions on much more marked than any she had received from him at their former massings in society, that they became the current talk of all the downgers present.
