Town and County News

BOGUS BILLS.—The public must be on their guard when receiving money. There are a number of bogus bills in circulation, principally of the denomination of two dollars, issued by the Bank of Western Canada. Several of those bills have been circulating in this neighborhood lately. It is only necessary to say that no such bank does exist or ever did exist.

BONE FELON.—The London Lancet says: "As soon as the disease is felt, put directly over the spot a fly blister, about the size of your thumb nail, and let it remain for six hours, at the expiration of which time, directly under the surface of the blister, may be seen the felon, which can instantly be taken out with the point of a needle or a lancet."

THE PERSANTRIES OF PUBLIC LIFE.—Mr. J. W. Bengough gave his lecture on the above subject last night in the Town Hall to an excellent and appreciative audience. It was given under the auspices of the Y. M. C. A., and the lecturer was appropriately introduced by Dr. McGuire, the President. For nearly two hours the audience were most agreeably entertained by "pearls at random strung" of the true Grip type—wit, humour, playful fancy and gentle ridicule alternating. Many excellent hits were made at the foibles, frailties and foolishness of public men. Politicians of course got the lion's share of attention—as they deserve—and the Fourth Estate was touched with a gentle hand and pitted as being more sinned against than sinning. The running commentary in the shape of illustrative sketches was, however, the great feature of the entertainment, and as one after another of our notable public men, or well-known local celebrities, were limned by the deft pencil of the clever illustrator, the likenesses to the originals were almost universally recognized by the audience, and greeted with unbounded laughter. Were we not too modest, we would be inclined specially to compliment the artist on the excellent portraiture of the chiefs of the Mercury and Herald, who had ceased to be belligerents and like John A. and Mackenzie, had grasped each other's hand. But we cannot particularize when all was so good, and so life-like. A subject of this kind must of necessity be treated in a desultory fashion. This is the charm of the lecture, which skips from "grave to gay" from lively to severe, while the illustrations serve to give point and vivacity to the whole. The entertainment was a most enjoyable one, and every one present was highly pleased with Mr. Bengough's racy lecture, and still racy sketches.

DOMINION DAY.

HOW THE TIME WILL BE SPENT IN GUELPH.

To-morrow (Wednesday) will be the eighth anniversary of the Confederation of the different Provinces which now compose this Dominion, and as such should be observed in a right loyal manner. The citizens of our good town have done more, we think, than those of any other place in the Dominion to make the day pass pleasantly, and we have no doubt that it will be thoroughly enjoyed. The full programme of amusements was published in the Mercury of last week, but as it has undergone some changes, we refer again to the scenes of enjoyment.

Commencing at seven o'clock, we hear of several base ball matches between our town juniors, in different parts of the town, whilst some are going into the country to test the mettle of base ballists there. At half-past eight o'clock wickets will be pitched on the cricket ground for a match between the Berlin and Guelph clubs. At ten o'clock the games on the Fair Ground and Market Square will take place. Judging from the amount of "practice" some individuals have gone through lately there will likely be "some" competition in several of the games. Then there will be that tempting \$5 bill fluttering in the breeze, stuck on top of the greased pole, which no doubt many enterprising youths will go for. About the same time the different battalions of volunteers now in camp will parade the principal streets, headed by their bands, and will fire a *feu de joie* on the Market Square. This parade takes the place of the review, which is deemed inadvisable on account of the short time the men have been in camp. In the afternoon the volunteers will be allowed freedom from service, and many will no doubt attend, the base ball match between the Red Stockings of Boston, and the Maple Leafs of Guelph, which commences at 2:30 o'clock. From four o'clock onwards a strawberry festival will be held in the Drill Shed, and should the day be warm the demand for ice cream and soda water (not to speak of other drinks) in the different restaurants will be great. About nine p.m. the fireworks will be let off from the bar stand on the Market Square, and will wind up the day's proceedings.

BASE BALL ITEMS.

PROFESSIONAL GAMES.

The Mutuals played their third championship game with the new nine of the Hartford club on the Union Grounds, on Saturday, in the presence of about 1,000 spectators. The Mutuals, by errors of Addy at second base, scored 5 runs, when they should have been whitewashed. This lead the Hartford were never able to overcome in their other innings, and consequently, they had to suffer a defeat, the score standing 7 to 3 in the Mutuals' favor. Score by innings:

Hartford	1	2	3	4	5	6	7	8	9
Mutuals	0	0	0	0	1	0	0	0	0

The most exciting game that has been played in Philadelphia for a long time was that on Saturday, when the two professional teams of that city engaged in their fifth game together, the Athletics having won the first four games. The game was looked upon with a great deal of interest. The Philadelphia did some fine batting toward the latter part of the game, but nevertheless, had to succumb to a defeat by one run. Score by innings:

Philadelphia	0	2	1	0	4	5	7	8	9
Athletic	3	5	1	3	0	0	0	0	0

The Chicago White Stockings received their fourth defeat at the hands of the champion Boston Red Stockings, at Boston, on Saturday, by the following score:

Chicago	1	2	3	4	5	6	7	8	9
Boston	0	2	1	0	0	0	0	0	0

CHAMPIONSHIP RECORD.

The following is the championship record of games played, won and lost by the eight clubs in the arena up to the 27th inst.:

Club	Games played	Won	Lost
Boston	29	20	6
Athletic	27	18	9
Philadelphia	25	14	11
Philadelphia	23	11	12
Hartford	20	6	14
Baltimore	16	5	11
Chicago	18	7	11

The Bradford tournament opened yesterday with the county match. The prizes contested for were the County Championship Badge and a purse of \$125. First prize \$85, and \$40. The entries for these prizes were the Athletics of Bradford; Hard Batters of Oakland; and the Foresters (Indians) from Tuscorora. The Hard Batters won the prize, beating both the Athletics and the Foresters.

This afternoon the Red Stockings, of Boston, champions of the United States, and the Maple Leaf, of Guelph, the Canadian champions, will play.

Mr. Anderson requests us to state that he has made arrangements for a telegraph of the score immediately on the conclusion of the match between the Boston and Maple Leaf, in Bradford, this afternoon, and which will be placed as usual in front of his store.

DOMINION DAY.—Anderson's bookstore will be open for the delivery of the Toronto papers, and from 1 to 2 for the delivery of the American.

A young man named Lighthorn, a native of the Bahamas, standing seven feet four and a half inches high, and weighing two hundred and four pounds, was in Hamilton the other day.

Day's bookstore will be open to-morrow for the delivery of the daily papers at the usual hour.

WOODSTOCK FAIR GROUND.—It is said that the directors of the new Fair Grounds in Woodstock carry out their plans of preparation and planting with trees, it will make one of the handsomest exhibition grounds in the Province.

THE BRIGADE CAMP.

TUESDAY, JUNE 30.

By Monday night the Camp was in good shape, and a good night's rest enabled the men to enter on their duties to-day in pretty good spirit. The Perth Battalion reached Guelph by a special train on the G.T.R. at four o'clock, and headed by their fine band marched through town to the camp. At five o'clock the Bruce Battalion, and two companies of the Wellington Battalion, arrived, having come by special train on the W. G. & B. R. The men proceeded at once to put up their tents.

The Exhibition ground is admirably adapted for camping purposes, the only drawback being the long grass, which in wet weather would make marching or walking very uncomfortable. The disposition of the camp is as follows:—At the extreme north-west corner the tents of the 30th Battalion have been pitched. South of them the Bruce Battalion is located, on the same ridge. On the level ground east, and fronting the cattle sheds are the Waterloo and Perth Battalions. Between the main Exhibition building and the horse stables are pitched the tents of the Wellington Field Battery, and here also their guns are placed. Towards the south end of the horse ring are the tents of the Brigade staff. Attached to each Battalion is a large tent for the officers' mess; also a canteen, where no liquor stronger than beer is allowed to be sold. Eight men are allotted for each tent. The cooking arrangements are of the simplest and most primitive description. A square hole is dug in the ground, where the fire is placed, and pots, pans, &c., are suspended from a temporary fixture above in true gipsy fashion. The rations which are ample, are all supplied by requisition sent to the Supply Officer, and these again are re-divided among companies and messes. The wells on the ground supply sufficient water for the whole camp. The tents belonging to each Battalion are generally laid out with great regularity, and look like a small town under canvas while the cooking and other domestic operations—the rushing to and fro of orderlies, the knots of men which here and there are seen eagerly discussing some question pertaining to the camp—make up a scene at once novel and full of interest.

The composition of the camp is as follows:—

BRIGADE STAFF.

Lieut.-Col. Clarke, of the 30th Battalion, in command.

Brigade Major Service, of 2 Division, First District.

Major McMillan, of the 30th, Brigade Major.

Madrid, June 29.—Despatches received by the Government this morning state that Marshal Concha was killed yesterday in the attack by the Republican troops upon the Carlist entrenchment at Muro, three fliometers from Estella.

The National forces heard of the death of their commander, they returned to their former positions, without disorder, leaving no trophy in the hands of the enemy.

The command of the Republican army will now be taken by General Seabla, President of the Council and Minister of War. Senor Otonor will succeed Gen. Seabla as Minister of War, and Senor Sagasta, Minister of the Interior, becomes President of the Council.

Boston, June 29.—Joseph S. Sprague, thirty years of age, shot his daughter, aged six years, and then himself, yesterday. He left a note saying where the bodies would be found.

Washington, June 30.—The Chronicle, in an editorial upon the removal of General Sherman's headquarters to St. Louis, says:—"We have the highest authority for saying that the personal relations between the Secretary of War and the General of the army are cordial and friendly, and that there has been no open rupture."

London, June 30.—The Communists in this city gave a banquet to Jourde and Grousselt last night.

A correspondent of the Daily News telegraphs from Rome that the Pope is growing weaker daily, and several foreign representatives have notified their governments to that effect.

A special despatch to the Times from Madrid says the army of the North will continue its operations against Estella. Gen. Mariones has been appointed Chief of Seabla's staff.

St. Louis, June 29.—A well dressed young man, name unknown, jumped off the east pier of the bridge to-night. He struck the base of the pier in his descent and was not seen again after striking the water.

New York, June 30.—Weather cloudy and cooler. The record shows yesterday was the hottest day in this city for many years.

Henry M. Parkhurst publishes in the Tribune his calculations with regard to the new comet, by which he brings it about the 20th July as near the earth as Venus, and thinks the eastern edge of its tail will envelop the earth about July 22nd.

Seven mad dogs were killed in this city yesterday, and four persons bitten. The Herald's Washington special says:—"Grave rumors are afloat of a serious difficulty with Spain, growing out of a peremptory demand of our Government, through Minister Cushing, for full indemnity for the Virginian prisoners slain by order of Burriel. Hamilton Fish on being interviewed on the subject, said: "You may say that the American Government has made a prompt demand and one quite as decided and peremptory as that made by the British Government for indemnity for the lives of the prisoners destroyed and the loss of their families."

Rev. Leonard Bacon, to whom Tilton's letter was addressed, stated to the Rev. Dr. Buckingham, of Brooklyn, soon after the publication, that if Plymouth Church did not reply within twenty-four hours by a suit for libel in behalf of its pastor it would have no case on which it could stand before the Christian world. He observed that if Tilton had not published the letter, he, Bacon, should have done so.

W. F. West, a member of Plymouth Church, writes to the Rev. Leonard Bacon correcting a statement about him in Tilton's letter. He says he preferred the charges against Tilton in order to purify the Church and put an end to the scandal; that the charges were adopted by the Examining Committee in July last, but by the negligence of the clerk, were not sent to Tilton till October; and that they were intended, not to investigate, but to vindict, Mr. Beecher.

THE PACIFIC RAILWAY SURVEYS.

There is one painful circumstance connected with the Pacific Railway surveys. We allude to the loss of life among those who have been engaged in the work. During the three years 1871, 1872 and 1873, twenty-one deaths occurred in the whole country, of whom two were white and five were Indians, were suddenly encompassed by fire in the woods north of Lake Superior, and being unable to escape, perished there. In 1873, five lost their lives—three from hardship and exposure. Of the total, fifteen were white men, and six were Indians. It is some consolation to learn that in the case of the former (with one exception, as to whose family no particulars could be obtained), a grant equal to 18 months' salary in each case has been made by the Government to their families; and also that the families of the Indians have been settled with their satisfaction.

Five thousand Government troops defeated twice that number of Carlists in an engagement thirty-eight miles north of Valencia. The latter were under the command of a brother of Don Carlos.

THE OWEN SOUND GOING CASES.

The adjourned investigation into the charge of coinage against Randel Bentley and William Bond, took place on Thursday forenoon last, ten magistrates being on the bench. Additional interest was manifested from the fact that Mr. Smith, Provincial detective, who has been investigating the case, was in attendance. The County Attorney was still unreedy with evidence, and asked that the prisoners be remanded again. The prisoners counsel protested against the injustice of arresting men on suspicion and remanding them there after time when nothing could be proved against them. After consultation the magistrates decided that the investigation should proceed, and the prosecution then withdrew the charges.

The Great Western elevator at Hamilton has been quite insufficient for the winter's business; so much so that the Company had to lease another store house, and now that the Hamilton and Lake Erie, with its Grand Trunk and Canada Southern connections, is completed, the amount of storage required will no doubt be even in excess of that proposed in the new elevator. It is to be situated at the terminus of the Hamilton and Lake Erie Railway.

THE HOLIDAY.

To-morrow being Dominion Day, no paper will be issued from this office.

Hon. Sydney Smith has resigned the position of Inspector of Registry Offices, with a view to re-enter political life in the Local Legislature.

Arrangements are being made for holding a Reform Convention in East Elgin, to nominate a candidate in place of the late Mr. W. Harvey.

The Kingston News regrets to learn that the state of Sir John Macdonald's health is such as to cause uneasiness to his friends. Since his severe illness a few years ago he appears not to have regained his strength.

The elections in New Brunswick have turned, mainly, upon the School Bill, and have resulted in a complete triumph for the non-sectarian party. The returns show that thirty-six members have been returned in favor of the non-sectarian School Act, four adverse to it, and one doubtful.

The Atlantic and Pacific Telegraph Company has contracted for shore connections with the new cable at Rye Beach. The Cable Company is also negotiating with the American Press Association to furnish news for several years, and expects to compete with the Associated Press at reduced rates.

A measure of great importance is now pending in the English Parliament looking to statutory provision for accurate vital statistics. Viewed as a humane act such a law, fairly executed, will prove a most powerful check on crime, for a good registration of births and deaths, requiring accurate returns, is the best detective of many forms of murder.

The Reciprocity Treaty.

We have been unable to find room before for the digest of the full text of this Treaty, which has been published in full in the Toronto and New York papers. As the subject is a most important one, and of special interest to farmers, merchants and business men, the following synopsis will be read with interest, and should be kept for future reference, when the question comes up for discussion, as it will do next winter, both in Congress and in the Dominion Parliament.

The Treaty will be known as one "For the reciprocal regulation of Commerce and Trade between Canada and the United States." Accompanying the draft submitted to the Senate was a message from the President, earnestly commending it to the consideration of that body, but expressing no opinion absolutely as to its provisions.

The following are its leading provisions:— The first and second articles give to the respective countries the right of free fishing and drying and curing fish off each other's sea coasts. Shell fish are reserved from the operation of the Treaty, as also are the salmon, shad, and other fisheries in the rivers and mouths of rivers.

By Article 3 places reserved on the coast of either country from the common right of fishing under the Treaty of 1854 are to be so reserved under the new Treaty. In case any question arises as to the right of fishing in places not so reserved, Commissioners are to be appointed to designate such places, in the same manner as under the former Treaty.

ing between the canals wherever necessary. This work is to be completed by the 1st January, 1880.

By Article 6 Canada agrees to construct on or before the first of January, 1880, the work known as the Caughnawaga Canal, to connect the St. Lawrence with Lake Champlain with the same stipulations as to draught of water and lockage as apply to the existing canals.

Article 7 throws open the island coasting trade to the vessels of either country.

Article 8 provides for an equality of tolls levied on Canadian and American vessels passing through the canals of the Dominion. Canada is to impose what tolls she pleases on shipping passing through her canals; but without any discrimination as to the destination of the vessels, or whether one or more canals be passed.

Article 9 provides for free trade in ships between the two countries. By Article 10 it is agreed to appoint a joint commission for advising the erection and regulation of lighthouses on the Great Lakes.

Article 11 provides for a joint commission for the propagation of fish in the inland waters common to both countries.

By Article 12 it is provided that the stipulation of the Treaty may be extended to Newfoundland.

Article 13 declares that the Treaty shall be in force for 21 years after the necessary legislation has been passed by the several contracting parties, and until the expiration of three years after notice.

Articles 14 and 15 are of a formal character only. The Treaty will become void if, within a given period to be hereafter inserted, the necessary legislative measures, to give it effect, have not been passed by either of the Legislatures respectively interested.

Special Notices.

D. B. WHEELER'S ELIXIR OF PHOSPHATES and Calisaya.—After having used your Compound Elixir of Phosphates and Calisaya for over two years in my daily practice, I must give it my unqualified approbation. During a practice of over twenty years, I have used many scientifically prepared compounds, made to fulfil the same therapeutical indications as your Elixir, but none of them proved with me as valuable as yours. To the medical profession and the public, I would especially recommend it as the best remedy with which I am acquainted for the successful treatment of the large and constantly increasing class of cases of over-worked and nerve-exhausted women. Yours truly,
N. WATKINS BUEL, M.D.

BEARINE

For the Hair!

Prepared from the pure grease of The Canada Bear.

It produces a luxuriant growth. It beautifies and strengthens the hair. It makes the hair soft and pliant. It imparts to the hair a rich glossy finish. It is perfectly harmless—not sticky or unclean. It stimulates the roots of the hair. It enlivens brassy and weak hair. It prolongs vitality.

First-class Instruments!

Similar to those shown at the last Central Exhibition, and for which he was awarded the first prize.

They are equal in compass of tone, finish and durability to the best instruments of any of the celebrated manufacturers, and as such an opportunity seldom occurs, parties in want of pianos would do well to avail themselves of it.

An inspection invited.

A competent person will be on the premises, near Mr. John Harris's, who will show the instruments.
