FOUR PEOPLE WERE OVERCOME BY FUMES FROM A GAS STOVE AND ONE WOMAN MAY NOT LIVE

Arrangements Were Being Made to Remove Patient to Hospital and When Ambulance Arrived, Patient, Nurse and Visitors Were Found Unconscious.

Overcome by gas fumes while making arrangements for the removal of patient to the hospital, three women and a man were found in an unconscious condition at 89 1-2 West Bloor street Saturday night by the driver of the ambulance for which they had previously phoned.

Mrs. James Meredith is the mother of Ald. J. W. Meredith. The premises at Bloor street are owned and occupied by H. S. Meredith, who conducts a tailoring establishment and real estate office.

After completing a sale in his office, Mr. Meredith walked towards the kitchen and detected gas. He rushed up the stairs and attempted to get in to the front room. The fumes were too strong. The man dropped to his knees and had to crawl to a window.

When Cody, a member of the firm of Cody Bros., undertakers, drove up to the door at 7 o'clock, returning from his job, he detected the odor of gas.

SIX IN FAMILY FROZE TO DEATH

Were Overtaken by Blizzard—Mother Found With Baby Clapsed to Her Breast.

Special to The Toronto World. RAPID CITY, S. Dak., March 16.—Overwhelmed by a blizzard on the open prairie, 16 miles from here, A. F. Perry, his wife, three daughters and a son, who were trekking from the Black Hills, were found frozen to death Friday morning, according to word just received here.

With their household belongings in a prairie schooner and the two older sons driving their 26 cattle ahead, they left here, despite repeated warnings. Out on the prairie the full force of the storm struck them.

PROSPECTS FOR IRELAND NEVER WERE BRIGHTER SAYS JOHN REDMOND IN ST. PATRICK'S DAY MESSAGE

Special Cable to The World. LONDON, March 16.—(Copy-right.)—John E. Redmond, the leader of the Irish parliamentary party, sends thru The World this important St. Patrick's Day message: I send hearty greetings to the Irish and the friends of Ireland on this festival of St. Patrick, the national apostle of Ireland, and can assure them that never have the prospects for the old land been brighter, nor more full of hope and promise.

The house of lords on its first being sent up to that assembly by the house of commons, need not be disheartened or dispirited by the friends of Ireland. The passage of a parliament act for which the Irish party was largely responsible, has limited the veto power of the house of lords so that it has now only a power of delay, whereas formerly it had the power of destruction.

possibility of evoking any sympathetic response in their campaign in the English constituencies. It is clear that the people of Great Britain have become convinced of the justice and urgency of the Irish demand and they are determined that it shall be met on the lines of the bill for which the prime minister stands sponsor.

GALT HARD HIT LIGHT CUT OFF

Citizens Share Brantford's Misfortunes—Protest Against Inactivity of Government.

GALT, March 16.—(Special.)—Three-fourths of the population of Galt are sitting in darkness. Yesterday about noon the natural gas supply suddenly ceased. Kitchen ranges went cold, furnaces, domestic and in the workshops were put out of commission as night fell.

There has been an unprecedented run on the coal oil dealers and the supply is not adequate. Lamps are being sold like hot cakes. The grocery stores have run shy of candles, so great has been the demand.

Surrender or Closure

The Canadian Parliament is about the last assembly of its kind that retains unlimited discussion. It is a valuable privilege, provided it is not abused.

Why not try to keep this privilege? The Liberals can say that having exhausted every constitutional means at hand to delay the passage of the Naval Bill they leave the responsibility of what they consider a bad measure on the government party and retire from the struggle.

But even here you strike a state of affairs in England very different from our own: The Liberals have partially wiped out the veto of the house of lords and intend in the reorganization of that body, announced last week, to do away with it almost altogether.

A reasonable suggestion to avoid closure would be for both sides to agree, on the introduction of a bill, on the number of days it is to occupy the time of the house and to live up to that agreement.

SUFFER RIGORS IN BRANTFORD

Gas Main Washed Away by Grand River Flood—Dykes Resist Pressure.

BRANTFORD, March 16.—(Special.)—Hundreds of people suffered from cold here today, as a result of the high water of the Grand River, washing away the big gas main which is the main supply to this city.

Several inches of mud washed over the track was responsible for the derailment of a Brantford and Hamilton Radial car, above Ancaster, early this morning.

Otherwise we are up to closure now. Or the opposition must quit the fight.

RIOTOUS SCENES IN COMMONS WITH DR. CLARK STORM CENTRE AIR IS FILLED WITH EPITHETS

Speaker Sproule Threatens to Name Red Deer Member For Defying Rules of House and Pandemonium Follows—Premier's Tactful Handling Relieves Situation Almost Unparalleled in Tensity—Opposition Will Continue the Fight, Despite Borden's Warning.

OTTAWA, March 16.—(Special.)—Scenes of violent disorder, perhaps unparalleled in Canada, and seldom exceeded in the mother parliament, characterized the closing hours of Saturday night's debate on the naval bill in committee of the commons.

Dr. Michael Clark, Liberal member for Red Deer, was "named" by the Speaker and threatened with suspension. Had it not been for the prime minister, who induced Dr. Clark to make an explanation and the Speaker to withdraw his censure, something like a riot might have been precipitated.

When Mr. Robidoux, as chairman, rose to end the protracted discussion, there were loud cries of protest from the opposition benches, and Dr. Pugsley, stepping into the aisle in front of his desk, insisted upon Dr. Neely, member for Humboldt, who had risen at the same time as the chairman, being heard first.

Mr. Speaker Sproule, who a few moments before had entered the chamber in his robes of office, ascended the dais, and commanded order. His voice for the time was lost in the whirlwind of noise.

"I will name you, Dr. Clark," he shouted to the Red Deer statesman, "for open defiance of the rules of the house."

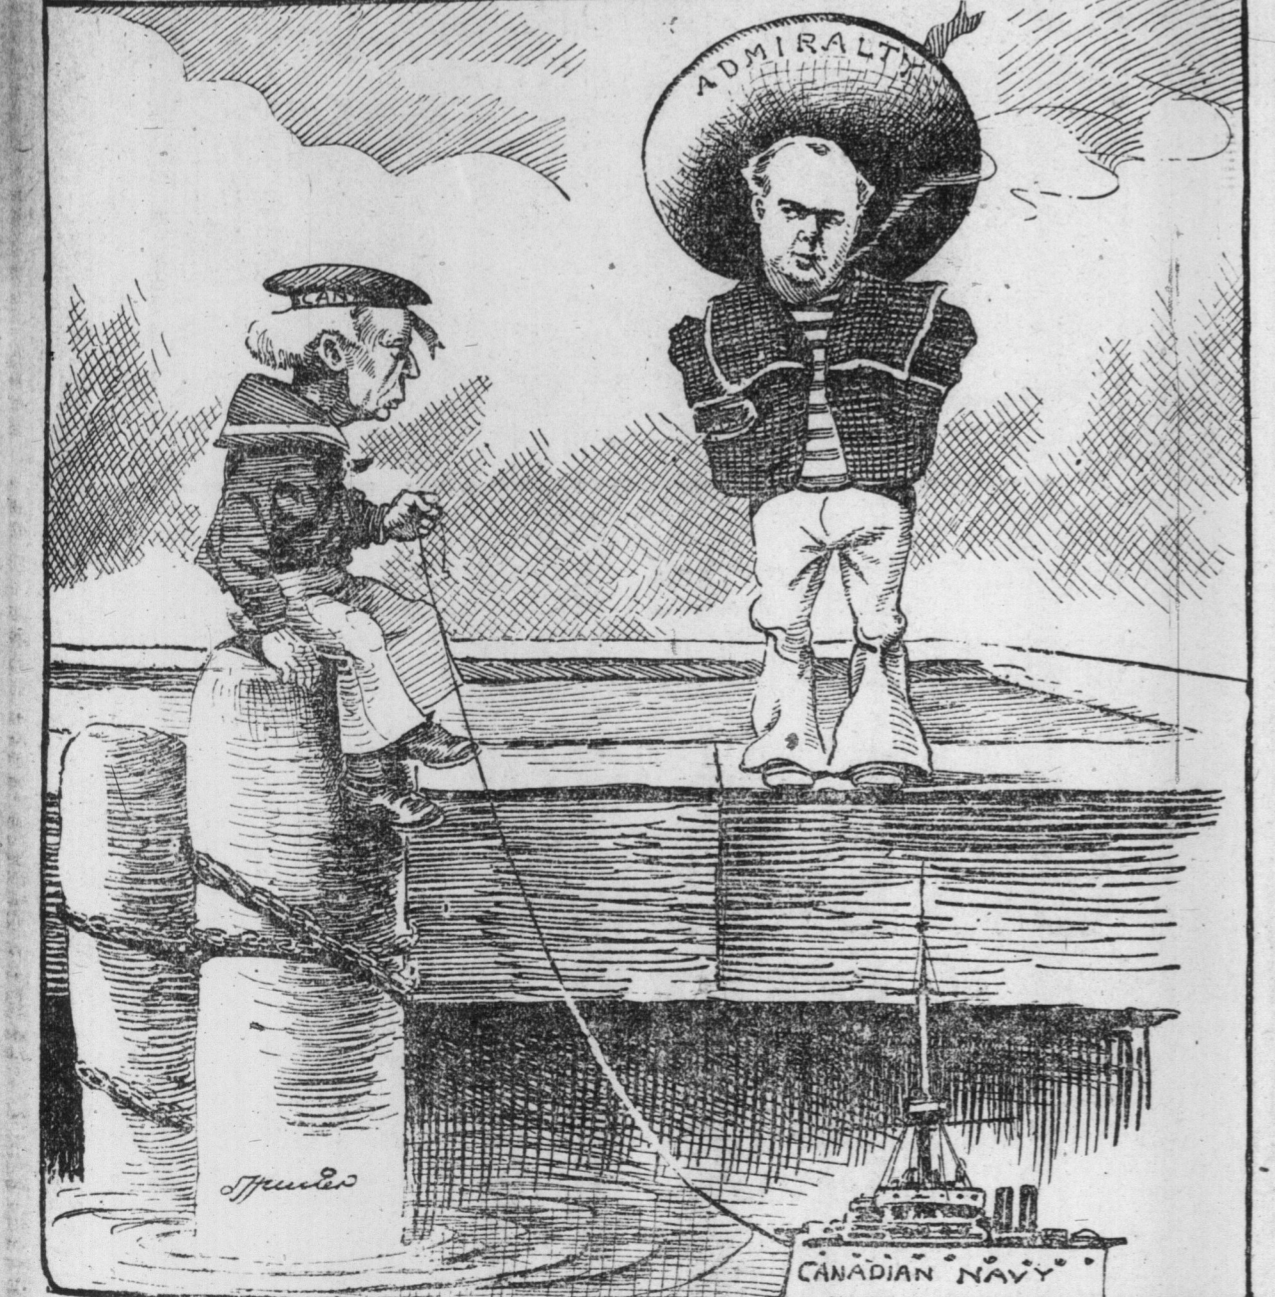

An hour later another contentions scene, but one much less turbulent, occurred. Mr. Blain of Peel was in the chair and Mr. Martin of Regina was speaking. The latter, he observed that a mild form of closure had been twice put in use that day.

In the colloquy which followed, amid uproar on both sides of the chamber, Mr. Martin said that members had been "gagged."

Another scene of confusion followed, and again the Speaker took the chair. He sustained Mr. Blain's ruling, and commanded Mr. Martin to withdraw his statement about closure.

Almost immediately afterwards the prime minister moved that the committee rise and report progress. In doing so, he said that while the minority had rights, the majority must rule, and to inform hon. gentlemen," he said, "that we propose to carry out that policy for which we have the mandate of the people."

SUFFRAGETTES IN HYDE PARK TARGETS FOR MANY MISSILES POLICE DEFIED BY HUGE MOB

Clods of Turf, Oranges and Miscellaneous Other Articles Showered Upon Mrs. Drummond and Supporters—Hoodlums Equipped With Trumpets and Bells Successfully Drowned Words of Speakers.

LONDON, March 16.—(Can. Press.)—The suffragettes who again attempted to hold a Sunday afternoon meeting in Hyde Park were mobbed by a crowd of 10,000 persons.

The trouble began when "Gen." Mrs. Flora Drummond mounted a wagon and started to speak to the great assembly, which was largely made up of youths who had armed themselves with ammunition of various descriptions, or with trumpets, mouth organs and bells.

The thieves gained access to the pawnbrokers' richly stored vaults by means of a tunnel from an abutting building on a neighboring street. They made a clean getaway with their valuable loot.

TORONTO UNION FORMER BANKER NOW MAY STRIKE READY TO FIGHT

Three Thousand Garment Workers Will Demand Wage Increase and Improved Shop Conditions. Charles W. Morse Back in New York Prepared to Regain His Standing in Financial World.

A strike of the United Garment Workers is now threatened. This includes all those who work on men's garments, in Toronto and take in about three thousand workers.

A meeting to deal with the matter was held in the Labor Temple yesterday by the Toronto District Council of the United Garment Workers of America, under President Fred Busch.

The matter is to be finally decided at another meeting of the District Council, which will be held in the Labor Temple on Tuesday night, on which night a meeting of the union also is to be held in the Musicians' Temple.

It Requires An All-English Company. In speaking of the play "Milestones" which opens a week's engagement to-night at the Princess, many of the leading American critics express the opinion that it would be next to impossible to stage this play successfully except by an all-English cast as Messrs. Kiaw & Erlanger are doing.

FUTURE MATRIMONIAL PLANS OF COUNT DE CASTELLANE

They Depend on the Final Decision of the Ecclesiastical Court at Rome This Summer, But He Already Is Making Plans to Conquer Paris Society.

Special Cable to The World. PARIS, March 15. (Copyright.)—Count Boni de Castellane's future matrimonial plans, which depend upon the final decision some time during the summer of the Ecclesiastical Court at Rome, are not directed toward the eastern shores of America, where he won and lost a "dot" of \$15,000,000, but are confined to his own country and that charmed circle known as "Haute Finance," where the great bankers are at home.

There the Rothschilds receive the homage of eastern potentates from hundreds of humble Jewish refugees, and there they entertain their friends of the new nobility with the splendor of kings.

Count Boni has a sponsor there in no less a personage than the Baroness Henri de Rothschild. It was Mme. de Rothschild whom Anna Gould (when Countess de Castellane) said she was forced to receive at the Bois de Boulogne. She thought that the baroness had stolen Boni's heart—or what remained of it after the actresses and the duchesses had taken their share.

But Baron Henri still lacks something. He does not belong to the Jockey Club. It is the fortress of the old nobility to which Boni de Castellane belongs. Baron Alphonse de Rothschild, who dictated from his chateau at Ferrières the terms of peace which ended the Franco-Prussian War of 1870, made the boast that the men of the old French aristocracy would in a few years all belong to the Jockey Club.

But Baron Henri still lacks something. He does not belong to the Jockey Club. It is the fortress of the old nobility to which Boni de Castellane belongs.

It is not likely that the baroness will capture a Rothschild for Castellane. It would not be impossible on account of his not being a Jew. Lord Rosebery did not change his faith when he entered the Family (one always spells it with a capital "F"). But Boni's spendthrift habits are too much for a Rothschild.

The Family has made it plain that its members do not support him financially, but they all wish him well. He has the entire to the houses and can enjoy himself in Baron Edouard de Rothschild's house at No. 2 Rue Saint-Florentin, which used to belong to the great Talleyrand, and which Anna Gould, now the Duchess of Talleyrand, would be willing to buy at almost any price.

It may not be that the Rothschilds love Boni so much, but that they hate the Guilds more. For in years gone by old Jay Gould waged a famous war in American railroad stocks with Baron Gustave de Rothschild, in which Gustave lost \$23,000,000 in cold cash. Gustave became from that time on forever barred from financial dealings by the Family. He is now the Austrian consul-general in Paris, with harmless hobbies for pictures and flowers, and is seldom seen at the bank in the Rue Lafitte.

Extraordinary Parties. Baron Henri, at whose house in the Faubourg St. Honoré, Castellane is so much at home, is a doctor of medicine. Of course, he never practices, but sometimes he and his wife give extraordinary parties to display his medical accomplishments to their friends. At these parties a moving picture show illustrating Dr. Galoi's method of curing hunchbacks at the Rothschild Hospital in Paris—truly an incongruous accompaniment to a marriage feast.

Baron Henri is a leader in the newest and richest society set in Europe, and he possesses the most important man wherever fashion gathers. He belongs to more clubs than he can count on his fingers and his toes—the Automobile Club, the Aero Club, the exclusive Société Sportive de l'île de France, which monopolizes one of the most charming spots in the country near Paris; to golf clubs, literary clubs, etcetera ad infinitum.

Lacks Something. But Baron Henri still lacks something. He does not belong to the Jockey Club. It is the fortress of the old nobility to which Boni de Castellane belongs.

It is not likely that the baroness will capture a Rothschild for Castellane. It would not be impossible on account of his not being a Jew.

"MEN DRIVE US TO FIGHT" SAYS MRS. PANKHURST

English Militant Leader Tells World Why Peaceful Methods of Suffragettes Are Impossible in Great Britain—English Politicians Dread Purifying Effect of Women's Vote—Calls Lloyd-George a False Friend and Winston Churchill a Weathercock.

Following the destruction of a pavilion in the Kew Botanical Gardens in England, the blowing up of the country railway stations and other deeds of violence, the World called Mrs. Emmeline Pankhurst, as leader of the militant suffragists, asking if better results could not be obtained by following the peaceful methods used so successfully by the women of several American states.

Mrs. Pankhurst's answer is as follows: BY MRS. EMMELINE PANKHURST. London, March 15, 1913.

To the Editor of The World: Seven states in America and Norway, Finland and New Zealand having granted votes to women, Great Britain can never have the glory of being the first to recognize women's citizenship, but we hope it will escape the disgrace of being the last.

Even the labor party is a broken reed. It keeps the government in power despite its betrayal of women. Men's parties will not fight for us; therefore we fight for ourselves. Politicians are responsible for our violence.

British women today occupy the same position that the American colonists did and they have adopted the same policy of rebellion. Shameful violence has been used by the ministry against women—arrest, imprisonment, forcible feeding and violent ejection from meetings. One woman is now imprisoned under an eighteen months' sentence. Others are at the point of death through starvation. These sufferings have been endured for liberty's sake.

Let Americans denounce their men's parties and proud of their folk, who do not compel them to adopt violent methods, sacrifice their liberty and risk their lives before giving them the vote.

REMARKABLE COSTUMES WORN AT DUCHESS' SURPRISE PARTY

Gorgeous Gowns, Ragtime Music and Outre Dancing Marked a Gathering at the Duchess of Manchester's—Gay Young Prince in Pretty Romance.

Special Cable to The World. LONDON, March 16. (Copyright.)—Prince Paul Karageorgevitch, nephew of the King of Serbia and a gay, good-looking youth, sent to England to study at Oxford, passes all of his time at the Ritz Hotel in London and dancing devoted attendance on Lady Diana Manners.

The Duchess of Rutland does not see her way to acknowledge him as a suitor for the hand of the only unmarried one and the most beautiful of her three daughters, as his father, Prince Arrene Karageorgevitch, has nothing to give him. But the romance is very pretty and all their friends are wondering how it will end.

Surprise Party. Lady Diana and Mrs. George Keppel were concerned in a surprise party at the Duchess of Manchester's this week. The duchess who was Helena Zimmerman of Cincinnati, having been merely informed that some friends might turn up for dinner on a certain night, arranged a regular feast for thirty guests, and had the drawing room cleared for dancing.

It happened the duchess was confined to her room the day before, but she managed to rig herself up in a becoming shell pink wrap with a fancy head-dress and after dinner, which was presided over by the duke in Japanese costume, held a small court of her lady friends.

CONNERS MAKES A SKY VOYAGE

"Me For One of Those Air Things," Says Buffalo Man.

Special Cable to The World. PARIS, March 15. (Copyright.)—Wearing a silk hat and carrying a gold-headed cane, William J. "Fingy" Conners, proprietor of the Buffalo Courier and former chairman of the New York State Democratic Committee, caused a sensation today in Paris today from Berlin, where he made an air voyage last Monday in a Zeppelin dirigible-balloon.

"I'm going in for aeronautics," he told the World reporter, "and I may buy a dirigible here. Taking a trip in one is like going up in the elevator of a high office building in New York. What! Me scared? Not so much that you could notice it."

"I never saw the earth before as I did when I was a mile and a half above the ground. The air looked like a flower bed, and I saw Linden like a pair of shoe strings. Emperor William and his staff, riding thru the Brandenburg Gate, seemed mere toy soldiers in a children's playground. Men were mites and women ink spots in the wonderful panorama."

There were six passengers in the car: Mrs. Conners, her sister, Miss Margaret Jordan (the pluckiest woman in the world), two German army officers, Alfred Caisman, who gave the sky party, and myself.

"We traveled a hundred miles in many circles, being two hours and a half in the clouds."

ST. CLAIR RIVER OPEN. SARNIA, March 15.—The new steel car ferry, which is to run at the Macdonald Straits, and which was built at Toledo, passed up this morning after a trip thru the heavy ice of Lake St. Clair from Detroit. The boat did not stop at this point, as intended, but kept on to the north.

A Constant Change In Body's Tissues

"Our bodies," says Huxley, "may be likened to an eddy in the river, which retains its shape for a while, though every instant each particle of water is changing."

The tissues of the body, composed of millions of tiny cells, are being constantly broken down and wasted away by the process of life, and especially by overwork, worry and disease.

In order to reconstruct these wasted tissues there are necessary such elements as iron, sulphur, magnesium, potassium, etc., and when these are not supplied in sufficient quantities in the food we eat, it is necessary to aid nature by the use of some restorative preparation.

HUNGER STRIKE NOW SPREADING

Kitchen Staffs in London Hotels Called Out Before Lunch.

LONDON, March 15. (Copyright.)—The guerrilla war against the fashionable hotels and restaurants started this week by the Amalgamated Union of Hotel, Club and Restaurant Workers, continued today. The entire kitchen staffs were called out before lunch at the Criterion Restaurant, the South Kensington Hotel, where the employees are endeavoring to insist on the recognition of their union, the management conceded the demand for a half holiday weekly.

Comedy was lent to yesterday's proceedings at the Criterion Restaurant, prevented the waiters from serving a special luncheon prepared for the members of the Incorporated Association of Hotel and Restaurant Proprietors, who were having their annual meeting and who were conveyed by taxi to two hotels at which a strike occurred today.

Several restaurants and hotels have escaped trouble by their managers immediately capitulating.

THIEF BURNS STOLEN MONEY. Earl Redmond Pleaded Guilty to Stealing From Dominion Express Company.

KINGSTON, March 15.—Earl W. Redmond, arrested for stealing \$1674.08 from the Dominion Express Co., pleaded guilty in court and was fined \$100. Asked if he would make restitution, Redmond replied that he would, but could not do so now as he did not have any money. After taking the package, he burned the money.

BALKAN LEAGUE LACKS HARMONY. Opposition in Bulgar Parliament Attacks Greeks and Servians.

SOFIA, March 15. (Can. Press.)—Premier Gushoff's statement in the senate Friday, that despite the incidents at Nigrita and elsewhere, the allies composing the Balkan league, were firmly united, was the subject of an extended debate in the house today. The opposition leaders declined to share the premier's optimism regarding the final results of the Balkan union. They denounced the Greeks and Servians, whom they accused of persecuting the Bulgarians and of occupying territory in order to denationalize them.

They asserted that Bulgarian schools

had been closed, churches and non-asteries violated, priests driven out or compelled to change their ecclesiastical allegiance by the Greek and Servian authorities who were constantly interfering with the religious affairs of the populations.

An open propaganda has been carried on with a view to forcing Bulgarians to change their nationality, and finally came the engagement between the Bulgarians and the other members of the alliance at Nigrita, Subotzke and other places.

The speakers contended that these acts were not due to the excessive zeal of subordinates, but were part of a system of hostility to the Bulgarians showing that the Balkan union was endangered by territorial ambitions.

If the Greeks and Servians cherished the idea of a Great Serbia and a great Hellas extending to the mouth of the Danube, they desired victory disappointed. Saloniki, they declared, was the port of all Macedonia, even of Sofia, and should not be given to Greece.

The opposition representatives urged that the Bulgarian government display greater firmness in dealing with the unjustified claims of Roumania.

KAISER BECOMES STOCK BREEDER

Germany's Monarch Refuses to Sell His Horses and Cattle.

HE IS DEEP IN BUSINESS Stock Raising Is Big Hobby With Him—Has a Large Ranch.

Special Cable to The World. BERLIN, March 16. (Copyright.)—It is not widely known that Emperor William has another iron in the commercial fire besides his famous pottery works—which will soon celebrate their one hundred and fiftieth anniversary. His Majesty has entered the field with a vengeance as a cattle breeder.

He differs vastly from his cousin George of England, who carries off the chief prizes at all the agricultural shows in his kingdom without as much as ever seeing his own beasts till they are herded in the arena. George is an enthusiast, keep in what some farming classes of his realm; William doesn't care a jot about keeping in with anyone, but is an enthusiast merely because it amuses him and pays well.

All the snobs in the Paterland are trying to buy his animals. Very few succeed.

The imperial ranch is no small concern, the stud farm is. The emperor showed his keenness the other day by making an impromptu appearance at a meeting of the Farmers' Congress here. Mounting the rostrum, he delighted his hearers by giving details of the imperial farm. He mingled many a joke with his words; indeed, he was in his very best form. Here are some of his remarks:

Breeding Remounts. "Last year I bred 60 horses, this year 30 more—excellent remounts for my cavalry. I have 250 bays instead of 150; 250 pines instead of 50. And my corn. You should see my corn! It stands straight up like the lances of my Chians. People come from all sides with me. Some day we may be able to do without foreign corn and meat."

Having thus advertised his farmyard the emperor left.

Medical men are much puzzled over the imperial family's immunity from measles until late in life. Every child of the Paterland has German measles; it is part and parcel of the school routine. Not one of the Hohenzollerns, however, has been attacked during school days, all attended public schools and universities.

Prince Adalbert, the emperor's third son, caught the measles at 28, and the crown prince and Ethel at 28 and 19 respectively, but not one of the other four children has had it. The emperor himself, like his brother, Prince Henry, fell a victim to the disease fairly late in life, at 25.

ANCIENT RITES WERE OBSERVED

All Churches in Toronto Celebrated Palm Sunday Yesterday.

TOKENS OF FORTUNE

Huge Number of Palm Leaves Distributed as Sacred Emblems.

Yesterday was Palm Sunday, and not only in the Roman Catholic Church, but in Protestant Churches also the ancient usages of the day were observed. A thousand years ago the Christians borrowed from the Jews the practice of bearing green boughs in processions as a part of their rites, but instead of the oak leaves of the pagans, they used the palm, because those who went on pilgrimages to Jerusalem returned carrying palm branches.

POOL ROOMS DRAW YOUNG MEN ASIDE

Their Multiplication in Toronto Is Deplored by All Churches.

In Holy Trinity Church yesterday the Rev. Dr. T. Owen, and his assistant, the Rev. John Hodgkinson, preparing their congregation for the reflection, self-examination and devotions of holy week, preached sermons intended to put those fortunate enough to hear them into the proper frame of mind for the special religious exercises of the week, in which the church commemorates the passion and death of Jesus Christ. In the morning the subject of the pastor's eloquent and appealing discourse was "The Time to Pray," and in the evening the able assistant preached with strength and earnestness to the young men of his flock. The title of his sermon was "A Message to Young Men, and in it he denounced the pool rooms and the other evil devices which in the City of Toronto and elsewhere coax the young man from the paths of circumspection, in which he should walk. The preacher passionately deplored the multiplication of pool rooms in the city, which, he said, were night and day filled with young men. He regretted the materialistic way of life which filled the thoughts of youth with worldly ambitions and left little room for sober contemplation of life's most important part, the duties of religion. From the romantic story of Moses, whose manliness and moral strength and love of truth he asked his hearers to imitate, the preacher drew his analogies, and strove to teach his young hearers the true philosophy of life.

EVILS ARE DENOUNCED

Rev. John Hodgkinson Says Young Men Wander From Right Path.

In Holy Trinity Church yesterday the Rev. Dr. T. Owen, and his assistant, the Rev. John Hodgkinson, preparing their congregation for the reflection, self-examination and devotions of holy week, preached sermons intended to put those fortunate enough to hear them into the proper frame of mind for the special religious exercises of the week, in which the church commemorates the passion and death of Jesus Christ. In the morning the subject of the pastor's eloquent and appealing discourse was "The Time to Pray," and in the evening the able assistant preached with strength and earnestness to the young men of his flock. The title of his sermon was "A Message to Young Men, and in it he denounced the pool rooms and the other evil devices which in the City of Toronto and elsewhere coax the young man from the paths of circumspection, in which he should walk. The preacher passionately deplored the multiplication of pool rooms in the city, which, he said, were night and day filled with young men. He regretted the materialistic way of life which filled the thoughts of

CANOE CLUB ARE CITY CHAMPIONS

Defeated T. R. & A. A. by Doubling the Score—Black and White Languid Except Heffernan.

Another surprise—but what's the use? Poor Dr. Dope is dizzy, and when Toronto Canoe Club came out and trounced T. R. & A. A., O.H.A. champions, on Saturday night by the score of 6 to 3, we never budged an inch, but took it calmly, as one more of those interesting results that crop up in the ordinary course of events. So confident were the champions that they were wagering 2 to 1 on their chances, and felt perfectly safe at that.

No excuses were available, as it was evident to all who saw the struggle that the better team won, and by a long margin. And what? In the first place the paddlers were out to play hockey in an earnest and whole-hearted manner, with only one aim in view, that they should win.

Only one excuse on reason was offered, and that was Meeking, at center. That his reputation will need more boosting after Saturday night's exhibition is certain. No one would like to call him a quitter after the manner of other strenuous games, but that he managed to loaf in a district absolutely foreign to the puck was a real feat of achievement of the evening. He was not sick or afflicted with anything except cold feet, for between the two displays his ice-like form for several seconds together.

Paddlers in Great Form. The canoe squad were in gala form, and they had speed to spare. In the first half they had a light lunch, and rarely did the black-and-white forwards possess enough ginger to try to frustrate their opponents.

On the whole the exhibition was considered to be called brilliant, altho the last half was not far behind in comparison. The last half, however, was justice to the black and white, saw them all come to life except Meeking, and his aimless roaming was received with jeers by the crowd. Naturally, with the centre weak, there was always an outlet for the paddlers when in that quarters, and they usually found it.

The Stars. Tommy Swan and Jack Gooch were the stars. Tommy worked like a trojan, and his two-hand shooting kept Addison on pins and needles all the time. Gooch was there with several end-to-end rushes, and he performed well on the defence. Homer and Resor were very consistent and fed their team-mates well. Moore Heffernan was the hero of the night, and he took up and down the ice, but his team-mates lagged perceptibly, and rarely came to his assistance.

This gives Toronto Canoe Club the city championship and the Ontario Wilson Cup. All kinds of wise and otherwise sayings will be ventured to explain the result, but on the whole, the best team won, and we're from Missour!

First Half—The game opened at 8.40 with both teams at full strength, but Resor scored in 20 seconds with a shot of McKenzie's skate. Gooch and Swan opened up several end-to-end rushes. Resor got Addison napping again when he bulged the net with a long shot from the side. McLean replied Birrell. The paddlers exhibited some great shooting, and the game was kept busy. The canoe boys began to come and broke away from their checks time after time. McLean was benched for tripping Birrell. Waugh was benched for tripping Meeking and McKenzie respectively. Romeril followed soon after for tripping Swan. Dopp rushed up the side and passed to Gooch, who scored, making it 3 to 0, and things began to look black for the reds here.

TIM JORDAN SEEMS TO MEAN BUSINESS AS A HOLDOUT

Joe Kelley and His Champion Leafs Are in Macon Today—The Toronto Baseball Squad Gathering From Different Quarters.

BALTIMORE, March 15.—(Can. Press.)—When Joe Kelley's southbound party leaves this city tonight it will be the smallest in some years, most of the players have reported to the manager here, but at least half a dozen of the men go direct to Macon. There are no indications that Tim Jordan will be at the training camp. He has not reported here and has not even replied to Kelley's telegram. He is expected to be in the city, but a determined holdout.

Jordan seems to mean business this time all right," said the Toronto manager to the Canadian Press this afternoon. He was emphatic in his statements that he would not report at the salary offered him. When I saw him in New York a week ago no amount of persuasion had the slightest effect on him. Salary limit restrictions have us tied hand and foot.

DISCOUNT UNDERSTATER WINS GREAT BOUT

Defeats Heavyweight Wrestler in Middleweight Final—Close of City Tournament.

The city wrestling championships were decided Saturday night mostly on close decisions. Only three of the grapplers were able to put down their men. Out of the eight bouts there were from falls and five won by decisions.

The first bout of the night was a semi-final in the 146-lb. class between Gibson of Kelo School and Brown of Brantford. Gibson was a hard hitter, but his opponent was evenly matched and showed that they knew the game. They slipped from one side to the other, but Gibson's speed, and it was hard to say which man was the better. At the end of the time limit the referee could not give a decision and ordered an extra three minutes, at the end of which the decision was given to Gibson on a technicality.

The great bout of the evening was in the 155-lb. class, between Lappanen of the Finnish Club and Rios of Buffalo. Both men were evenly matched and showed that they knew the game. They slipped from one side to the other, but Lappanen's speed, and it was hard to say which man was the better. At the end of the time limit the referee could not give a decision and ordered an extra three minutes, at the end of which the decision was given to Lappanen on a technicality.

The other bouts were well contested. In the 125-lb. class Duran and Snelgrove of Kelo School went the limit, Duran getting the decision. The same with Walsh and Jacobs of C.Y.M.C.A. in the 135-lb. class. Both men were evenly matched, but Walsh did his best to down Jacobs. The decision was given to Walsh.

CANADIAN BALL SEASON DATES

Opens Week Earlier This Year on May 7—More Games For the Larger Cities.

The Canadian Baseball League schedule was issued by President J. P. Fitzgerald on Saturday. The season opens Wednesday, May 7, a week earlier than last year, and closes Labor Day (Monday, Sept. 1). The openings are:

Ottawa at Brantford; Brantford at Hamilton (p.m.); Guelph at Hamilton; Brantford at St. Thomas; Peterboro at Brantford.

July 1—Hamilton at Guelph; St. Thomas at Brantford; Berlin at Ottawa; Peterboro at London.

Civic Holiday—Ottawa at Hamilton, Brantford at Ottawa, London at Brantford, Guelph at Peterboro, St. Thomas at Guelph, Berlin at St. Thomas, Peterboro at Berlin.

Labor Day—Ottawa at Peterboro; Guelph at Hamilton; St. Thomas at London; Berlin at Brantford.

Each club plays 107 games, but not the same number at home as abroad, owing to the difference in the population of the cities. With the teams pooling ten per cent of all games, the league expense, this difference in the number of games at home is at least partially equalized.

The following umpires have been appointed: Jocko Halligan, Brantford, last year with the Canadian, and formerly with the International; J. M. Daly, Rochester, a strongly recommended by Six O'Leary; B. McLaughlin, Brantford, last year with the O. and P.; R. M. Black, Camden, N.J., an old International League umpire.

QUEEN'S OWN WIN ALSO GRENADIERS

Highlanders Experience More
Hard Luck—Body Guards
Beaten Easily.

Queen's Own 16, Highlanders 7, tells the story of the first game of the armistice on Saturday night. The Highlanders have not had any luck this season, and a majority of the large crowd present were pulling for them to break into the win column, but Queen's Own could not see it that way, as they needed the game to stay in the running. With the exception of one inning (the first), the game was very even, both sides making some nice plays. Wright doing very well around second base. Clarkson in left field for Queen's Own, was good, also he pulled off some funny stunts. Gordon Morrison hit the ball hard. On the night's play, Queen's Own deserved the win, but did not look like a championship team. They will have to show more life. Grenadiers left no room for doubt in the second game, overwhelming the Body Guards in every department. They seemed to hit at will, everybody taking a hand in it. Morrison and Greene showed the lead, closely followed by A. Gooderham and Bearmore. The Grens, playing as they did in this game, will be a hard team to beat. Grenadiers and Queen's Own are now tie for first place and will meet next Saturday night to settle who will hold the cup for the season. It should be a dandy game, and a big crowd will be on hand.

RIOTOUS SCENES IN COMMONS WITH DR. CLARK STORM CENTRE

Continued From Page 1.

Mr. Graham, replying for the opposition, submitted that the government had acted tyrannically in insisting that clause two must be passed before an adjournment would be granted. "We are human beings on this side of the house, accustomed to the ordinary sleep. The ultimatum of the government would have been resented by any assembly of white men in the British Empire."

When the house adjourned some enthusiastic Quebec Liberal shouted, "Vive Laurier." Three cheers were then given by the Liberals for their chief and "O Canada" was rendered. The government supporters left the chamber without any demonstration.

Upon this dulatory motion of Dr. Pugsley the debate raged all thru the night. The Laurier amendment and the McKenzie sub-amendment to clause two, which had been debated for nearly a fortnight, were declared to be in order. The government amendment was interposed about Friday midnight, but was supplemented by Dr. Pugsley's motion that "the chairman move the order of the day."

At 5 o'clock Saturday afternoon Mr. Robidoux (Montreal) rose to address the house, and Mr. Blain, the Conservative member for Peel, who was presiding, called to the chair Mr. Robidoux (Montreal). He did this because Mr. Verville was speaking in French and it was considered only fair that a member understanding the French language should be called to the chair.

Just what led up to the outbreak and uproar is somewhat in dispute. Mr. Robidoux had risen apparently to rule on the point of order raised by Mr. Verville to speak. When the chairman proceeded to speak Dr. Pugsley stepped out into the aisle and called his attention to the fact that the present was demanding recognition. Conservatives say that Mr. Pugsley actually put his hand upon the chairman in an attempt to prevent him from speaking. This is denied and the point is in dispute.

When the storm burst and there were cries of "order" and "order" benches and the epithets above mentioned were hurled back and forth across the chamber. As Mr. Robidoux stood in the aisle and Dr. Pugsley ascended the steps to the data, loudly calling for order. For several minutes the chamber was in chaos and the speaker was unable to get a word in.

Dr. Clark proceeded to ignore the cries of "sit down" and evidently encouraged by the unruly and disorderly members again commenced to address a question to the Speaker.

with his hon. friend from Red Deer. The reason that he was named by the Speaker was that he was standing when the Speaker was standing and calling order. The duty of the hon. gentleman under the rules of the house would be to have taken his seat and that is the particular matter to which I direct his attention. However, I understand he makes his acknowledgment and I trust that you, sir, under the circumstances will see fit to withdraw what has been done in naming the hon. gentleman and we may regard the incident as closed."

Duly Apologized.
 For his violation of the rules Dr. Clark apologized and his apology being accepted by the Speaker, order was again established.

Chairman Robidoux then ruled that he was properly in the chair and an appeal being taken to the house, his ruling was sustained; year 80, says 51. When the house got back into committee, however, Mr. Blain resumed the chair and speeches were delivered by Mr. Verville and Hon. Dr. Beland.

Mr. Martin (Regina) followed. "In the corridors of the house," he said, "I have heard threats that the government would introduce closure. I have heard threats that the government press. Well, if the government intends to introduce closure, let them come out in the open with it in their own hands. (Cheers.)

Law Should Stop Sale Of Elastic and Spring Trusses
 Such Misery-Causing Makehifts Are the Ruptured Man's Worst Enemies
 Unlike everything else for rupture, it is self-regulating, self-adjusting—instantly and automatically protects you against every strain, so your rupture can't possibly come out. And in addition to constant holding—without which you can never get well or even get better—this elastic truss is so constructed that unless constantly held together—in addition to that the Clute Truss provides the only relief for the pain of protrusion, the weakness which is the real cause of rupture. It does not do this—only elastic trusses—only—its all explained in the free book which the coupon below will bring you.

WHY SAVE YOU FROM OPERATION?
 The Clute Truss has such a remarkably strengthening and beneficial effect that it has completely cured hundreds and hundreds of people whose cases seemed almost hopeless. It has so thoroughly proved its merits that many physicians in all parts of the country now recommend it instead of advising operation.

No Belt—No Leg-Straps—No Springs
 This guaranteed rupture holder does away entirely with the cumbersome belts, leg-straps and springs. People say it is as comfortable as their clothing. It is water-proof—will hold in place. Also perspiration-proof and easily kept clean.

Get World's Greatest Rupture Book
 There are so many wrong ideas about rupture that we have taken the time to sum up in a book all we have learned during forty years of experience. This remarkable book—cloth-bound, 96 pages—is full of facts never before put in print. It shows why depending on elastic or spring trusses is about the worst thing you can do. Explains why drug stores and many self-styled "truss-fitters" should not be allowed to sell their misery-making trusses. It exposes the "pumpkin" appliances, "methods," "plasters," etc., and shows how old-fashioned elastic trusses are misapplied under false and misleading names. It explains the dangers of operation. And shows why if you do manage to live through it, you may have to keep on wearing a truss. It tells all about the Clute Truss—how simple it is—how it ends constant expense—how you can last it on sixty days for fifty cents. It tells how to get it—just use the coupon or simply ask in a letter or postal card.

MATCH LONDON IS INTERESTED IN

Lord Ribblesdale's Daughter Will Wed Half-Brother of a Duke.

Special Cable to The World.

LONDON, March 16.—(Copyright.)—A betrothal which greatly interests society is that of Percy Wyndham of the Oldstream Guards and the Hon. Diana Liston, the only unmarried daughter of Lord Ribblesdale, the most picturesque of English peers. Young Wyndham is the only child of the Right Hon. George Wyndham, formerly chief secretary for Ireland, and of Countess Grosvenor, the mother of the present Duke of Westminister, who therefore is his step-brother.

George Wyndham has been noted as one of the handsomest men of the handkerchief box type—in English society—and his son is very like him.

Diana Liston's mother also has the very distinguished appearance of her father.

The engaged couple are cousins. It is said that they never met until a rich man some day, at his father's, a very large owner of landed property in Wiltshire. He is 26, and will be 29 in May.

Archbishop of Canterbury Officiates in Royal Chapel.

LONDON, March 16.—(Can. Press.) Princess Mary, the only daughter of King George and Queen Mary, was confirmed by the Archbishop of Canterbury, in the Chapel Royal at Buckingham Palace, this afternoon. All the members of the royal family and many members of the household and servants of the palace were present. Large crowds assembled outside the palace to witness the arrival of the Queen Mother Alexandra.

Manitoba Law Does Not Give Authority Asked by Rate-payers.

WINNIPEG, March 15.—The public school law of Manitoba, as amended by the legislature in 1912, does not authorize the public school board of Winnipeg to take over and administer the Catholic parochial schools of the city. In accordance with a petition of Catholic ratepayers, presented to the board.

This is the opinion of J. H. Munro, K.C., to whom the Winnipeg School Board submitted the matter for consideration.

17 MARCH

IF THIS IS YOUR BIRTHDAY

Take no risks, for some mischievous threepenny boys also avoid us on your behalf. You will be amused by letters or by the acts of simple-minded people.

These born today will have attractive personalities and some real friends. These attracted. These will be their words in time of trouble. Naturally too generous to be saving, these children should be taught thrift.

NURSERY

CONDUCTED BY Elinor Murray

The Nursery.

There is no question of greater vital importance to the nation than the preservation of the mental and moral safeguarding of the children. That the greatest number possible shall be well born and wisely reared is of prime importance in the civilization of today. Large amounts of money are being spent, numbers of men and women are devoting their energy to solving those problems which concern the child and his welfare. But, after all, it rests with the mothers of the growing children to decide what shall be the condition of the next generation. And, fortunately, the mothers of today are showing the greatest interest in everything that concerns their babies. Babies, you know, may be any age, but they are always just babies to mothers. It is the intention of the Nursery Column to try to be of some service to our mothers and babies—especially the young mothers and the "wee" babies. The feeling of helplessness that comes over the little mother when she is left quite alone with the new baby is very commonly known, but none the less hard to bear. She is so anxious to do what is best, but how can she be expected to know what that best is?

We are going to be of practical assistance to her, and of general interest. We hope to everybody.

A PURITAN AT THE COURT OF LOUIS XIV.

Last of Series of Lenten Lectures Delivered at Trinity College by Prof. W. L. Grant of Queen's University.

"Look here, upon this picture—and on this!" gives the key to the contrasts in the lecture delivered by W. L. Grant, M.A., professor in Queen's University, at Trinity on Saturday afternoon.

The address was the last of the Lenten series and had been a very attractive course. As scheduled the subject of the lecture was "A Puritan at the Court of Louis XIV." the puritan in question being one Denzil Hollis, son of the first Earl of Clare, and ambassador to the court of France, the contrast arising between the blunt and ready-to-go-off-at-any-moment temper of the English statesman, and the manners and customs of a court whose king could make the autocratic king of France.

Denzil Hollis had a somewhat varied career. In 1624 he entered parliament. He was one of those who held the position of puritan. His first difficulty was his famous appeal to the king, which was his lot at the hands, both of Charles I. and Cromwell, and he had to consider the matter of his own safety on one occasion, at Edgely. In 1658 he was sent by Charles II. as ambassador to France. His early correspondence to France, his early comment upon by the lecturer as having two marked qualities, pedantry and verbosity. His first difficulty was with the customs, who wished to search his belongings, but this he considered beneath the dignity of England's representative. As a consequence time dragged on, the irate ambassador going from Dieppe to Paris, then to Rouen with "no clothes and no furniture," and still protesting he would permit no search except by the king's command. His second difficulty was a matter of insufficient funds. He was to receive £2,000 a month, paid quarterly, and he asks: "Does this mean I have to wait three months? Lunar months won't do." Letters to Arlington, the home secretary, were filled with trivial complaints, to which Arlington at last got a chance to retaliate by telling Hollis that the paper he used in correspondence was unsuited to his position, and the ambassador replied, "I did it for good husbandry."

Another difficulty, and one that stretched out over some months, was as to whether the carriages of the princes of royal blood should precede his at his formal entry. He insisted for the contrary, and the French court as stoutly determined on the opposite course. After long delay a compromise was effected, by their being no formal entry, the ambassador starting upon his journey without it.

To illustrate the attitude of the court towards Louis, Professor Grant related the incident of a joker who introduced to the assembly in the court chapel that the king would not be present at prayers. In a few moments the chapel was vacated. "Such," said the lecturer, "was the atmosphere to which plain-spoken Hollis had to accustom himself. Other reasons for complaint were found by the ambassador in the fact that on a certain occasion the queen had not kissed Hollis, and again that he himself was not addressed as 'your excellency.'"

Political Situation.

Referring to the political situation, Mr. Grant stated that in the 17th century Holland was the greatest naval power of the world. She had 15,000 ships, Britain had 100, and France less than 1000. The attitude of the French king toward England followed was very perplexing. Hollis when in 1655 war was declared

SPIRITUAL MILITANTS

ISSUE A MANIFESTO

Prominent Women Included in New Organization Launched in London.

LONDON, March 15.—(Can. Press.)—We have banded ourselves together with the aim of concentrating attention on the spiritual and vital issues involved in the women's movement.

This is the opening statement in a manifesto issued by a new suffrage organization, entitled "The Spiritual Militancy League for Women's Character, Rights and Liberties," of which the most prominent members are Lady Aberdeen, Mrs. Despard, sister of Gen. Sir John French and Mrs. Flora Annie Steel, the novelist.

The symbol of the league is an orange scarf on a black dress. Bands of spiritual militants clad in black and orange will attend the services at St. Paul's and other churches tomorrow.

The league has sent a letter to clergyman, urging them to abandon their attitude of silence and neutrality.

SOCIAL CLIMBERS

MUST BE LIBERAL

"Pay Guests" Are Now Quite Numerous in London Society.

Wandering American Hostesses May Return to Metropolis For Season.

Special Cable to The World.

LONDON, March 16.—(Copyright.)—All signs point to a record season of social activity in England this spring and summer. The hostesses, the dress-makers and the caterers are beaming with content.

The Prince of Wales will be presented to society, which is one reason for predicting a brilliant season. He will appear at Ascot in June, driving down the course in the state carriage with the King and Queen on the two principal days. But he will not be allowed to go on the two "men's" days, when the lady will also accompany the Prince, which will also accompany the Prince, which will also accompany the Prince.

This will form the Prince's initiation to Paris during his visit there last spring, and it is well known that the lady will follow in his grandfather's footsteps and have a racing stud of her own. The Queen has refused to hear of the Prince's marriage, and has his establishment.

King George is said to be planning to buy the Durand, for the King and Queen, the notice of the Prince, which his stud while he is a bachelor.

A Clever Woman.

But the most important influence upon the coming season undoubtedly is the presence of Mrs. George Keppel at Ascot, and most intimate functions given recently by the King and Queen. It is astonishing even the most debility to get what clever woman's indication of race tact and wisdom on the part of King George and Queen Mary.

Mrs. Keppel and her husband both belong to the aristocracy of centuries ago. She could not possibly be so ostracized now, except for one reason. King Edward were improper. The news that the late King's memory in the coronation was by including her among their special friends.

It must be gratifying to her to see what an honor has been given to her by her return to court. The great and the Duchess of Devonshire, continue to ignore her. But dozens of others, the lesser nobility and among the admirers of the "wee" people are taking it for granted that they, too, may have a chance to shine once more in royal favor, and they are planning to entertain again a picture of Louis set in jewels. Had sent as a gift by the king, saying he wanted "no present from a monarch who could not obtain him an apology from a subject."

A final cause for complaint against France arose when in February, 1665, Lady Hollis died, and he quarreled over the size of the vessel to take the corpse to England.

Despite his lack of success with France, Hollis was esteemed in England and regarded as honest, fearless and patriotic, and as one who endeavored to do his duty to the vessel to take the corpse to England.

Honor Uppermost.

Professor Young expressed the appreciation of all present to Professor Grant. He also thanked those in attendance, and the press for reports of lectures. He hoped the committee would be able to present as attractive a course next year.

Clean pots and pans with GOLD DUST

Germs of decay accumulate on off-used pots and pans, and ordinary soap and water only cleans off the surface.

Gold Dust does the work—and does it right. It digs deep after germs, cleans like a flash and leaves your pots and pans as bright as the day they were new—and sanitariously safe.

Gold Dust does this work in just half the time required by soap or any other cleanser. Does it better, too.

Gold Dust cleans everything like magic.

Gold Dust is sold in 5c size and large packages. The large package means greater economy.

"MILESTONES", PLAY OF THE CENTURY

Will Return to the Princess Theatre This Week With the Original Company.

First Appearance in Toronto at Alexandra—Top-Notch Vaudeville.

Toronto theatregoers will again be able to laugh and cry with the delightful members of the Rhead and Sibley families as they grow through three generations, for dainty, delightful "Milestones" returns to the Princess Theatre tonight for a week's engagement, and with the same splendid company of actors from London, who look Toronto by storm in December last. A better play more beautifully acted than "Milestones" has never been seen here, and it is safe to say that the brilliant organization brought here by Klaw & Erlanger and Joseph Brooks, will receive an ovation tonight. Owing to the great demand for seats a special matinee will be given on Good Friday.

Richard Carlle and Mattie Williams. Commencing Easter Monday evening at the Princess Theatre, those two popular fun-makers, Carlle and Mattie Williams, will be seen in Charles Frohman's production of the big musical success, "The Girl From Montmartre." Heretofore both these stars have been seen at the head of their own organizations, therefore the present measure of entertainment signifies a double measure. It affords an opportunity to see Mr. Carlle and Miss Williams appearing in a new role, something new for both of them, and due to the presentation of J. M. Barrie's problem play satire "A Slice of Life."

A New Production.

"Value Received," the latest effort by Augustus MacInnis, author of "Officer 666," will open the engagement at the Royal Alexandra tonight, the company arriving here yesterday from Montreal, where the critics were inclined to be little surprised at the frankness of the play, but not sparing in their praise.

Mr. MacInnis, who has been working on the piece during the winter, was forced to go to New York to speak at St. Patrick's Day dinner at the Waldorf tonight, but will return later.

Cyril Scott, who has been seen here since his successful engagement in "The Lottery Man," has the lead in the new production, which is no company on the road today that has made a better impression with the patrons than this one. Upon the scene it outtrials all others, for comes with a new production and is sufficient. More comedians, more variety, more specialties and two grand queens are to be seen. The curtain goes up on a spectacular melange, entitled "A Garden of Affinities," introducing a host of novelty and a series of comic dians, led by Johnny Jess, the king, laugh maker, and including J. Cogan, Dan Riley, William Sisto and Harry Mack, six ex-corsairs. The company is headed by the two queens of burlesque, Ruby Leon, the model burlesque, and Beatrice, the lyric star. The closing burlesque is a satire on New York's latest craze, and is brimful of novelty and introduces all the popular songs.

A Children's Chorus.

The executive of the Ontario Society have decided that the children's chorus of 500 voices shall sing at both concerts of their festival, to be held at Massey Hall on Monday, March 18, and Tuesday, March 19.

Broome's return to the city a few days ago he found the children's chorus in a better condition and singing so well that it was considered advisable to have them sing the cantata, "Vogelweid," the Messenger, both of these cantatas in one of the finest pieces of modern composition offered in Toronto this season, and will be a great treat to hear the children sing it.

Good Friday Concert.

The plan of Mr. Campbell's Good Friday concert, on March 21, in Massey Hall, will be opened at the hall this morning at 3 o'clock. For the convenience of downtown business people there will be a plan also for Nordheimer's music store, East King street. As the popularity of this annual concert is now well established there is sure to be a large sale of tickets, and bookings should be made early.

Polard Opera Company.

The Polard Juvenile Opera Company at the Grand this week is an essentially Australian organization. These bright youngsters who have won for themselves such deserved popularity in the United States, Canada, Jamaica, Africa, Australia, and the East generally, are samples of "Young Australia," of which any country might be proud.

It is curious, but a complimentary fact to Australia that after a unique experience of over twenty-seven years the Polard management have found that Australian children are not only more adaptable but in every way more suitable than those of any other country for theatrical purposes. Clever children, with strong dramatic instincts are to be found in the United States and Canada and the old country, but for various reasons and after long and patient trials, the Polard management have found them unsuitable, and have continued to draw from Australia. The company will open their engagement with "Sergeant Brummage" and will present during the week "The Mikado" and "The Toy Maker."

"Dinkelspiel's Christmas."

Manager Shea has selected a great bill of acts for his patrons at the great vaudeville house this week. As a headline attraction, "Dinkelspiel's Christmas" will prove a favorite. This is Joseph M. Hart's best comedy dramatic offering, a play with a tear and a laugh a story full of human interest and human nature, and with a clever cast. The special attraction for the week are Edward Gillette's animals featuring Adam and Eve, original bowlers, and John P. Wade & Co. presenting "Marse Shelby's Christmas Dinner."

Other features included in this week's bill are "Low and Dolly," Fred St. Onge, Jessie and Marion Standish, Devine and Williams, John Higgins and the kinetograph.

fering a two-act musical burlesque, this being the second of the series, the "New York in Two Reels," the author claims this piece to be something of the nature of a kaleidoscope view of various phases and aspects of metropolitan life, and they incidentally mention that his chief point of merit is different from the ordinary run of the style of entertainment. A late dramatic comedy star, in the person of Harry Fields, is entrusted with the principal comedy role, but far from having the entire field to himself, ably surrounded and supported by a cast of almost, if not quite, equal fame and ability. Miss Blanche Curtis and Miss Lilla Brennan divide the key-note feminine roles, and a young and vivacious chorus of twenty girls are supposed to supply the necessary action in the numerous musical numbers.

Famous Gracker Jacks.

Bob Manchester's famous Gracker Jacks come once again to the Gaiety Theatre for a week's stay. This time no company on the road today that has made a better impression with the patrons than this one. Upon the scene it outtrials all others, for comes with a new production and is sufficient. More comedians, more variety, more specialties and two grand queens are to be seen. Great Men Have Been Quietly Persevering to Make Improvement.

Rev. Dr. Murdoch Mackenzie before a crowded audience in the Canadian Institute on Saturday evening gave a masterly resume of "Chinese nation, its history and its people." Its geographical position accounts to some extent for its complete isolation from the other nations of the world.

The inhabitants number one-quarter of the entire inhabitants of the globe. They live in villages, towns and cities. They are remarkable for their industry and perseverance. Wherever you find him the Chinaman is a busy man.

Today savants are "digging up" for us the history of the ancient world. We have in China a nation that was a contemporary of ancient Babylon, Assyria, Greece and Rome, of the empires of medieval times, and is a contemporary of the great nations of today.

SQUARE FOOT BASIS BEST IN VALUATING PROPERTY

Is More Likely to Work Out Equitably Than in Appraisals Made by Frontage Foot Prices—Can Be no Rigid Rule Set Down, But a General Acceptance of the Square Foot Principle Would Leave Less Room for Inequalities.

It would seem to be about time that Toronto quit buying and selling property on the front foot basis and get into the way of handling ground on the more equitable square foot basis.

Front foot values extended along a block front that really the standard from which the square foot appraisal is made, so that frontage prices will always be a feature of realty trading.

There are several rules of percentage applied. They do not differ greatly, being founded on the averaged prices obtained in thousands of deals tabulated for the purpose.

The assessment departments in every city have their own table of percentages for depths, but it is never rigidly adhered to; in this city there is a general rule of procedure in assessing lots varying from the usual depth, but first consideration always is given to the nature of the employment of the ground.

Percentage for Depth

Table with columns: Ft., P.C. Ft., P.C. Ft., P.C. Ft., P.C. Ft., P.C. Ft., P.C. Ft. and rows of numerical data representing percentages for different lot depths.

OSHAWA READY FOR BUILDING ACTIVITY

Home Builders and Factory Contractors in Eastern Town Preparing for Heavy Demand.

Two searchlights playing their rays all night long so that work may proceed without interruption on one of Oshawa's big railway projects, is an incident characteristic of the energy with which this town is being pushed along towards a city.

At the opening of the building season, residents are able to see a year of unexampled improvement. The local house constructors have in view all the work they can handle, and outside builders are trooping in ready to start operations in the profitable effort to meet the demands of the industrial workers.

A Toronto and Eastern Railway official says that if terminal facilities can be arranged in Toronto by them, in June, cars will be operating on this radial between Oshawa and Toronto.

How Do You Spell "Home"?

One fellow climbs four flights of stairs, dodges the gable, creeps in under the rafters, throws himself into a rickety chair, grins at his chum and says: "By Jingo, I'm glad to be home." Another fellow tiptoes into a Brownstone front, tries to bow to a lot of faces just off the ice, sneaks into his \$40 parlor suite as if they were after him, sinks into an easy chair that's big enough and comfortable enough for an Archduchess and says: "This is... a Dickens of a place." Happiness isn't in the furniture nor on the Mantel piece. Happiness is on the tongue of the fellow who says: "Glad to see you," and means it, and in the eyes of the girl who asks if you have had a hard day, and seems to mean it anyway. Now there is plenty of this happiness to go around, but you've got to find it, and if you haven't got it, you've got to look for it. There are plenty of Rooms to rent in this City in homes that have enough good Cheer to go around twice and tie a Bow Knot. And if you haven't got one of these rooms it's your fault, so don't kick. Most of the people who have these good, home-like, pleasant rooms to rent, advertise them. And such rooms do not usually wait very long. So if you want to find a room that makes you feel that there is still a little welcome left in the world, you'd better turn to these Room Ads now and call up and answer a few of them before all the good ones are gone.

And be sure and tell them that you saw their ad in this paper.

Speculative Interest at Ebb in the Stock Markets

NO ENTHUSIASM IN TORONTO MARKET

Quiet Speculation and Narrow Price Swings the Only Features.

BRAZILIAN SHADE LOW

Decline in Consumers' Gas May Presage a New Stock Offering.

Quiet speculation and narrow price swings were the only features of the stock exchanges on Saturday. Speculative enthusiasm was clearly lacking, and, with nothing in the weak-end developments to inspire confidence on either side of the market, the general list of securities was allowed to drift almost idly in the wind.

The action of London and New York was not at all significant, consequently there was nothing in the usual round of news to influence sentiment either way. Traders were still inclined to view the money stringency as the greatest bugbear, and while a more cheerful feeling had been engendered by the more favorable expression from banking interests regarding the prospects of a relief from the severe tension, it was clear that the brokers were not over-enthusiastic, since similar beliefs had existed at regular intervals a month and two months ago.

DULL TRADING AT MONTREAL

Changes in Prices Were Nominal—C. P. R. Held Recent Advance.

MONTREAL, March 15.—Prices were practically stationary in the local stock market and business was on an extremely light scale. Closing quotations, except in a few instances, showed changes of only the smallest of fractions from Friday, and general dullness was unrelieved. Canadian Pacific held firm at 225, the high price of the week touched in the closing transactions on Friday, and closed 224 3/4 bid, 225 asked, as compared with 224 1/2 bid, 225 asked the previous day.

NEW YORK BANKS IMPROVE RESERVES

Favorable Showing Made in Their Weekly Returns.

NEW YORK, March 15.—The statement of the actual condition of clearing house banks and trust companies for the week shows that they hold \$9,227,450 reserve in excess of dividend requirements. This is an increase of \$5,863,200 from last week. The statement follows:

S. A. WARRANTS.

BIG MARKET TRADERS OFF TO SUNNY SOUTH

Quite a number of Wall street operators have recently taken their departure for the sunny south. That does not by any means mean that they have no interest in the market. It probably means the reverse. It is a practical certainty that some of them were heavy buyers of stock on the recent decline, and now in the firm belief that they will only need to wait for profits, they have gone away to rest. When they come back it may be to conduct selling operations.

BANK CLEARINGS SHOW SMALL GAINS

Last Week's Record in Dominion Indicative of Less Active Trade.

Outside of the active industrial centres of Hamilton, London, Quebec and Fort William, the weekly clearings in the Canadian cities, other than Montreal and Toronto, were poor. Montreal had a good increase, and Toronto an unusually high one, but in the provincial cities there were many decreases and stationary figures, and the increase for the Dominion was the small one of 8.8 per cent.

MEXICAN EARNINGS REDUCED BY REVOLT

Recent Crisis in Mexico Reflected in Reports of Canadian Companies.

As had generally been anticipated on "the street," the Mexican Companies, in which Canadian capital is interested, were more or less tied up by the recent revolution in which the Federal administration was overthrown. The February statements of earnings of the Mexican Tramways Co. and the Mexican Light and Power Co. show that earnings were materially reduced, falling considerably below the receipts for the same period last year.

FREE GOLD FOUND AT FLYING POST

SOUTH PORCUPINE, March 15.—Prospectors returning from Flying Post, 100 miles southwest of here, section which it was thought for a time contained some iron deposits, say that those who hold interests there are gradually abandoning the diamond drilling operations. It is said, however, that there are reasons to believe some gold veins may be discovered. Free gold has been found on some of the properties they claim, but so far there has been nothing but surface development.

GETS A PERPETUAL DELAWARE CHARTER

DOVER, Del., March 15.—The All-Chalmers Manufacturing Co. was given a perpetual charter here today with a capital of \$42,500,000. The capital is divided into 125,000 shares of \$100 each, and the company is authorized to begin business with \$1,000,000. The incorporators are Francis J. Bangs of New York and J. P. Winchester and W. J. Maloney of Wilmington, Del. The charter is the main office will be in New York.

AYRSHIRE BREEDERS MEET.

BELLEVILLE, March 15.—(Special.) Many breeders were in the city on Saturday afternoon attending the third annual meeting of the Middle District Ayrshire Breeders' Club. After dinner the officers for the year were elected.

MORE CONSIDERATION FOR RIGHTS OF PUBLIC

BOSTON, March 15.—Major H. L. Higginson says officials of corporations are growing better and there are less abuses in conduct of corporations than years ago. That corporation official who feathers his own nest at the expense of the owners of the stock is a rarity and growing rarer.

HEAVY CLOSE TO A DULL MARKET

Adverse News Regarding Hariman Dissolution Plan Proved Decided Damper.

A DROP IN NEW HAVEN

Lowest Point Touched in Generation—Bank Statement Surprisingly Good.

NEW YORK, March 15.—Fluctuations of the important stocks today were confined within fractional limits. Trading was unusually light, and operators seemed to have little interest in the market. The opening was on a slightly lower level, with Southern Pacific touching its bottom price of yesterday and New Haven, making a further decline to 118 1/2, another low record for the last generation. Goodrich also weakened again, slumping 2 points to 31 1/2. The market as a whole was little affected by these fluctuations, and losses were soon made up.

The narrowness of the movements and the reluctance of speculators to take a position on either side of the market reflected the uncertainty which prevailed regarding various matters, which hang over the market. In particular, the Hariman plan of dissolving the company was not until shortly before the close of the market that word was received of Chairman Lovett's announcement that the modified dissolution plan could not be put thru. This news was responsible for the selling of Union Pacific in the last few minutes.

The banks made an unexpectedly good showing. The cash loss at the close of the week was less than \$2,000,000. Loans were scaled down heavily and the poor condition of the banks was corrected, there being an increase of nearly \$6,000,000 in excess reserves.

LA ROSE MINE'S INCREASED OUTPUT

February Production Showed Improvement—Well—Financial Statement For the Month.

The February statement of La Rose Consolidated Mines shows a total output of 230,100 tons, an increase of \$136,182, against 219,977 tons valued at \$134,724 in January. Sunday income for the month amounted to \$220,000, an increase of \$18,512. With deduction of \$57,409 for marketing and concentration and other expenses, this left a balance of \$162,600 for the month, against \$76,275 in January.

PREVENT SALE OF CITY OF COBALT MINE

Toronto Broker Asses Injunction—Claims Better Offer Was Made For the Property.

An injunction to prevent the sale of the City of Cobalt property, as authorized by the shareholders at their recent meeting, has been filed by R. R. Sproule, broker, of Toronto, acting for several large stockholders. The case will come for argument at Osgoode Hall today.

PUBLIC IS TURNING FROM SPECULATION

Demand Now is For High-Grade Investment Securities.

REACTIONARY TONE IN MINING MARKET

Acute Money Stringency Reflected Even by the Lesser Securities.

DIP IN ISLAND SMELTER

Further Liquidation in General List—Buffalo at Highest Record in Years.

The mining stocks showed a generally reactionary trend at the week-end, scattered liquidation carrying the list to lower quotations. Porcupine Gold, Buffalo and Great Northern all improved their position, but this buoyancy proved the exception rather than the rule. The market was clearly under the influence of the selling tactics of traders who were inclined to view the situation with a degree of apprehension. Presumably the reason of the money stringency and the rather uncertain tone of the larger stock exchange and many holders are taking up their heads of late, and consequently, it is only natural to look for a hesitant trend from time to time.

Numerous of the Porcupine issues are ruling considerably above the levels current one and two months ago. The holders are taking their profits, a fact which is sufficient in itself to explain the recent weakness. On Saturday McIntyre sold back to \$47 1/2, after a fraction at 68, and Swastika was easy at its recent reaction from the previous spurt. West Dome sagged to 23 again, against 24 1/2 on Friday. Porcupine Gold came in for a smart recovery to 26 1/2, up 2 for the day.

The strength in Buffalo, which advanced 20 points to \$270, a new high record since 1909, was the feature of the Cobalts. The shares sold last year as low as \$120. The recent extra dividend of \$100,000, and the improvement. Great Northern gained a point at 9 on the announcement that the company had acquired property in the Kirkland Lake district. City of Cobalt opened at a 3-point decline, but rallied to 45 again before the close. Peterson Lake sold at 22 1/2.

VEIN IS RICHER AT LOWER LEVELS

Ore Values Increase at Depth at the Pearl Lake—Official Report.

The official statement of the results of development at the 600-foot level of the Pearl Lake Gold Mine property in Porcupine, a report which has been awaited with considerable interest by "the street," was handed out by Samuel W. W. Smith, in charge of the mine. As anticipated the document was of a very favorable nature, and the ore values had increased at depth, the mill test indicating a value of \$35 in gold to the ton.

GENUINE REFORM IS NEEDED IN WALL ST.
Practical Financial Man Suggests Salient Points Which Call For Redress.

NEW YORK, March 15.—A practical man of affairs who is a member of a large commission house, and has handled business for some of the biggest and boldest operators of our time, is in favor of certain reforms which he thinks would restore confidence and induce heavy public participation in the market.

He expresses his views as follows: "The first and most important of the necessary reforms is to compel companies whose stocks are dealt in on the exchange to furnish full reports of their earnings quarterly, and to give complete official information at least once a year on every detail of their business about which the investor or ought to know."

There should be a strict rule regarding the amount of margin required on speculative accounts, and the rule should be enforced by expulsion of members whose firms violate it. "There is a rule now, but it is not enforced, and the houses doing a conservative business, in a conservative way, know that 'inducements' are offered to their customers by houses which agree to carry stocks on a very light margin, or no margin at all."

Another reform—which is beyond the power of the governing committee of the national securities exchange, Bank, Limited, while in this country the stock was offered by the Dominion Bond Company, Limited, in Toronto, Montreal, and Vancouver, the Atlantic Bond Company, St. John, N. B., and Halifax, N. S.

The issue price was \$95 per share, which makes the yield 7.37 per cent. In addition the participating feature allows of enhanced dividends, as the preferred stock shares equally in all profits after eight per cent. has been paid on the common stock. The present earnings are equal to seven per cent. on the preferred and eight per cent. on the common, and judging by the fact that sales have increased 300 per cent. during the last four years, there is every likelihood that these earnings will be considerably increased in the future with the possibility of additional dividends on the preferred stock.

The A. Macdonald Company is the largest wholesale grocery company in Canada, and the present sales of \$3,000,000 a year have been built up entirely on the mail order principle.

MONTREAL GRAIN AND PRODUCE.
MONTREAL, March 15.—Cables on Manitoba spring wheat came, and a further decline of 1 1/2 to 3c, and as the prices bid figured out fully 1c per bushel below cost, no business was done. Cables on oats and barley were also weaker, and the undertone of the market was dull as ever, with prices nominally unchanged. Receipts for the week were 1530 packages, against 2031 a year ago. Cheese firm and supplies on spot now for sale are small. Receipts for the week, 235 boxes, against 205 a year ago. Eggs fairly active, and receipts for the week were 6010 cases, against 5100 a year ago. Provisions strong, and prices advanced 1c per pound.
