Technical and Bibliographic Notes/Notes techniques et bibliographiques

The Institut has attempted to obtain the best original copy available for filming. Features of this copy which may be bibliographically unique, which may alter any of the images in the reproduction, or which may significantly change the usual method of filming, are checked below.

L'Institut a microfilmé le meilleur exemplaire qu'il lui a été possible de se procurer. Les détails de cet exemplaire qui sont peut-être uniques du point de vue bibliographique, qui peuvent modifier une image reproduite, ou qui peuvent exiger une modification dans la méthode normale de filmage sont indiqués ci-dessous.

<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
12X	16X	20X	24X	28X	32X

The copy filmed here has been reproduced thanks to the generosity of:

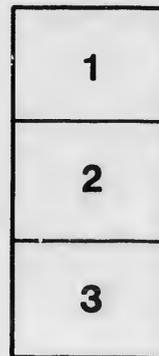

Seminary of Quebec
Library

The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

The last recorded frame on each microfiche shall contain the symbol \rightarrow (meaning "CONTINUED"), or the symbol ∇ (meaning "END"), whichever applies.

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

L'exemplaire filmé fut reproduit grâce à la générosité de:

Séminaire de Québec
Bibliothèque

Les images suivantes ont été reproduites avec le plus grand soin, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filmage.

Les exemplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par le premier plat et en terminant soit par la dernière page qui comporte une empreinte d'impression ou d'illustration, soit par le second plat, selon le cas. Tous les autres exemplaires originaux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'illustration et en terminant par la dernière page qui comporte une telle empreinte.

Un des symboles suivants apparaîtra sur la dernière image de chaque microfiche, selon le cas: le symbole \rightarrow signifie "A SUIVRE", le symbole ∇ signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être filmés à des taux de réduction différents. Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaire. Les diagrammes suivants illustrent la méthode.

Québec, QUE.*

To Officers of Railroads.

We must urge upon officers of Railroads the necessity of furnishing us with their new Time-Tables at the very *earliest moment* after their issue. There are many who have uniformly responded to our often-repeated requests, and promptly forwarded their Tables; while others have neglected their own interests, as well as ours, by failing to enclose them to our address. It is very important that the Tables should be correct; and if there is any failure, it certainly cannot be charged to our account, as we use every endeavor to keep up with the changes on all roads. Again we say, on every change of time, SEND YOUR TIME-TABLES EARLY.

Our New Railroad Map.

We this month present our readers with a New Railroad Map of the United States and Canadas, from the well-known establishment of E. R. JEWETT & Co., 161 Main street, Buffalo. It is neatly executed, and we flatter ourselves that, all in all, it is the best Map published in any Railroad Guide. Officers of Railroads are requested to examine the routes of their respective roads, and if any errors are found, to report the same to us for correction. We are determined to spare no pains or expense in making the Guide superior to all others in the amount and correctness of the information it contains.

Business prospects for the Western country are good at this time, and there seems to be a general stirring up of the elements of trade. In Chicago there has been a large influx of eastern capital, estimated by some at not less than \$1,000,000. Improvements are being made, and with the help of one or two good crops, the city will assume her place on the high road to commercial independence.

For interesting reading matter refer to page 138.

CHICAGO.

RICHMOND HOUSE, CHICAGO.

We have promised the readers of the Guide a short historical and descriptive sketch of the city of Chicago; and while we lay before them the result of our labors in tracing the rise and progress of this great commercial centre of the North and Northwest, the chief merit of our production will perhaps be recognized in its brevity. Our limits will not permit us to search the records of by-gone and nearly forgotten times for details, which might be interesting to the "oldest inhabitant," but would possess little interest for the enterprising, "Young America" representative of the present age. It will be a history without antiquity—a history of one of the most remarkable instances of rapid growth in communities, which our nation, perhaps the world, furnishes. It must date within the memory of men now living; and although the city has become widely known, for its commercial character, and its commanding and central position in a wide expanse of country, we hope that a perusal of some of

the leading incidents connected with its prosperous career will prove interesting to the general reader, and at least serve to while away the weary hour of the traveler whose eye may chance to rest upon the sketch we lay before him. We do not propose to trace the history of this locality prior to its settlement by the white population, when tribes of Indians held undisputed title to the uncultivated soil; when the waters of our lakes and rivers were navigated only by savages in their rude canoes of bark, but will commence at the period when civilization sent her first delegate to explore the "boundless continent" of the West.

It was a *naïve* saying of the Indians, "that the first *white* man who settled here was a *negro*." Of course, the remark was only intended to preserve a proper distinction between their own race and that of the native of St. Domingo, Point-au-Sable, who made his advent here in 1796. This "gentleman of color" put on an air of importance among the unsophisticated savages, claimed to have been a chief among the white men, and no doubt expected to receive many honors from his newly made friends. He commenced building him a house, and made some improvements, but not having been recognized by the Indians as a chief, in answer to his ambitious royal aspirations, he left in disgust, and ended his days at Peoria, with a St. Domingo friend, Clamorgan, who had obtained large Spanish grants of land about St. Louis. Soon after, a Frenchman, Le Mai, took possession of the improvements made by Point-au-Sable, and commenced trading with the Indians. Of his operations, we find but little account, except that he remained a few years, and then sold out his possessions to John Kinzie, an Indian trader in the St. Joseph country, Michigan, who came with his family to Chicago in 1804. John Kinzie, then, was the first permanent resident, and to him is accorded the honor of being the Father of Chicago. He saw, no doubt, that the location would, at some future day occupy an important position in a commercial point of view; and, acting upon that conviction, he set himself about establishing the first regular system of trade that existed in this region. The house, commenced by Point-au-Sable was finished, and though it would not have borne a very favorable comparison with some of the palaces now standing in the vicinity, it was no doubt comfortable, and perhaps as happy a home as though constructed of marble or granite. Improvements were made, the adjacent country explored, and various points selected as suitable locations for carrying on a traffic with the Indians

TREMONT HOUSE, CHICAGO.

Stations were established among the different tribes—one at Milwaukee, among the Menominees; another at Rock River for the Winnebagoes; another on the Illinois river for the Pottawotomies; and others on the head waters of the Kaskaskia, for the Kickapoos. Each station had its superintendent and a number of operators, and was supplied with teams of pack horses, and equipments of boats and canoes. These conveyances were continually employed in bringing into the general depot at Chicago the furs and peltries collected at the different stations, and were loaded in return with "cargoes" of goods necessary to keep up the "balance of trade." Goods were gathered up from the Indians along the course of the Mississippi, sent up the Illinois river, and taken across the portage between the latter river and the lake, by cattle teams. The stock thus collected was shipped off by a small sail vessel, which made its regular *semi-annual* trips, bringing in the spring and fall the season's supply of goods, wares and merchandise, or the "stock in trade" for all the different "commercial houses" of the West.

Such was the character and extent of the first regular business established in Chicago, which continued without interruption until the breaking out of hostilities with the Indians, which resulted in the massacre of 1812. At the head of this trade was John Kinzie, who, by his uniformly consistent, kind and honorable course with the Indians, had gained their confidence, and bound himself to them in strong ties of friendship, to which he

was indebted for the preservation of himself and family from the horrid fate of his neighbors who fell into the hands of the savages at the time of the massacre.

In 1804 the government had built the first United States fort occupying this locality. It was situated on one of the most beautiful sites on the shore of Lake Michigan, and was called Fort Dearborn. It was furnished with three pieces of light artillery, and a company of United States troops—about fifty in number—constituted the garrison. In 1812 there were but five houses outside the fort. The garrison, at this time, numbered about seventy-five men, many of whom, from sickness and other causes, had become quite inefficient as soldiers. The officers in command were Capt. Heald, Lieut. Helm, (son-in-law of Mr. Kinzie,) and Ensign Ronan. Between the Indians and troops there had usually been a good understanding, though hostilities had been prevalent for some time at other places in the west. For a short time previous to the declaration of war with Great Britain, which was made on the 19th of June, 1812, there were signs of dissatisfaction apparent to all who were not lulled into security. Several depredations had been committed within a few miles of Chicago, and in some instances the settlers had fallen victims to the tomahawk and scalping knife. The general massacre of the garrison occurred on the 15th of August. Thirty-eight men, two women, and twelve children were killed, after leaving the fort, and while proceeding on their way to Detroit, in obedience to the command of Gen. Hull. The remainder were taken prisoners, or most of them, and suffered death, or worse than death, during their subsequent captivity. The family of Mr. Kinzie, as before stated, were saved by the friendship of a few of the Indians who acted as protectors. His house was also spared, while all others, including the fort, were destroyed. Mr. Kinzie, however, was surrendered as a prisoner of war, and kept in confinement, away from his family, with a view of sending him to England. At the close of the war he was released.

We have given these particulars in relation to the massacre, for the reason that they are so intimately connected with our main subject as to render it necessary to a complete understanding of the difficulties and hardships encountered by the hardy pioneers who first commenced the settlement of the Western country. The first marks of civilization had been destroyed, the settlers had fled from their homes, or had fallen victims to the

relentless savages. But the tide of emigration was not to be stayed.

In 1816, Mr. Kinzie returned to Chicago, took possession of his home, and resumed his trade with the Indians, which he followed for years, on his own account and as agent for the American Fur Company, and resided here until his death, in 1828. He was the first to establish permanent trade, and improvements, and to give form and being to those enterprises which have marked the progress of the city up to the present time. It is true, he did not live to see the result of those enterprises, but his posterity are enjoying the reward of his labors, as well as the honor of being closely related to the largest commercial city of the West.

The growth of the city was slow for years. In 1816, the fort was rebuilt on the site of the old one, and remained until 1856, when it was demolished. From 1816 to 1830, Chicago had gained the number of twelve or fifteen houses, and a population of less than one hundred. This was the "slow" era in the history of the West. The present generation rightfully claim the title of a "fast" people. The iron horse thunders along over the same routes plodded by Kinzie's cattle teams, while the steamer traverses the waters of our Lakes and Rivers, with more of life than was dreamed of in the days when each man "paddled his own canoe."

The reader, who to-day reclines in his velvet-cushioned car seat, listlessly gazing upon the unbounded prairie on all sides, turning from one object to another to seek relief from the tedium of travel, has little conception of the vast amount of enterprise necessary to accomplish these changes in a period of little more than a quarter of a century. The wilderness has been explored by the hardy sons of toil, and the plow has revealed the treasures of earth. The untrodden paths have become the highways of civilization, and commerce holds absolute sway over our broad Lakes and rivers. The pioneers who have wrought these great changes need no costly statues or lofty monuments to perpetuate their memory. Theirs is a fame more lasting than the noble structures reared upon the scene of their primitive wanderings.

Let us now take a glance at the vast extent of country of which Chicago may be said to be the commercial centre. The term "Northwest," embraces the States of Ohio, Indiana, Illinois, Michigan, Wisconsin, and that portion of Minnesota lying east of the Mississippi and the Lake of the Woods; and was designated as the "Northwestern Territory" in the Ordinance of 1787, and upon the old maps. The territory was divided and subdivided, as the population continued to increase, and now it represents six States of our Union. The order in which the several Territories were formed, and subsequently admitted into the Union as States, is as follows:—On May 7, 1800, Indiana Territory was formed. November 29, 1802, Ohio was admitted as a State. January 11, 1805, Michigan Territory was formed. February 3, 1809, Illinois Territory was created. December 11, 1816, Indiana was admitted into the Union. August 26, 1818, Illinois became a State. April 20, 1836, the Territory of Wisconsin was formed. January 26, 1831, Michigan was admitted as a State. May 29, 1848, Wisconsin was also admitted. The Territory of Minnesota was formed March 3, 1849, and became a State in May, 1858. All these States have a common interest, and may well be proud of their common origin. We will give some statistics in reference to their productions, manufactures and improvements, and for our convenience, shall tear down their "line fences," leaving them in their original position of unity. In 1850, the farms of the Northwest numbered 368,257, containing 22,912,190 acres under cultivation, and 27,276,685 acres of woodland. The value of these farms was estimated at \$671,678,075. The following tables give the quantity of productions, for the year 1850:—

Indian Corn.....	177,820,241	bushels.
Wheat.....	39,328,222	"
Oats.....	35,466,777	"
Rye.....	775,166	"
Barley.....	586,377	"
Buckwheat.....	1,516,096	"
Peas and Beans.....	219,666	"
Potatoes—Irish.....	13,417,941	
Sweet.....	549,181	
	13,976,122	"
Clover seed.....	142,316	"
Flax seed.....	237,074	"
Other grass seeds.....	77,985	"

Making a total production of *two hundred and sixty-nine millions six hundred and sixty-six thousand two hundred and four* bushels of grain, seed and roots.

Besides these there was produced,

Tobacco.....	12,342,977	pounds.
Cotton.....	5,600	"
Sugar (maple).....	10,809,075	"
Flax.....	1,257,009	"
Beeswax and Honey.....	3,099,285	"
Silk cocoons.....	3,285	"
Hops.....	186,571	"
Hay.....	3,128,920	tons.
Hemp.....	150	"
Molasses.....	415,084	gallons.
Wine.....	67,016	"

The estimated value of the foregoing productions was *two hundred and twenty-two million one hundred and four thousand seven hundred and twenty dollars and ninety-eight cents.*

The other productions of the farm, such as cattle, wool, butter, cheese, &c., swell the total value of the yield of the different branches of agriculture, for the year 1850, to the enormous sum of *two hundred and sixty-six million seven hundred and twenty-nine thousand two hundred and fifty-one dollars and sixty-eight cents.*

The iron, lead, coal and copper mines of the Northwest, are inexhaustible; and though this branch of industry is yet in its infancy, the annual yield of these mines is estimated to be seventy millions of dollars. The yield of the fisheries is estimated at three millions; that of the pineries forty-five millions of dollars per annum. The total annual products for the year 1850, may be summed up as follows:

1. Agriculture.....	\$266,729,241 68
2. Mining.....	70,000,000 00
3. Fisheries.....	3,000,000 00
4. Forests.....	60,000,000 00
5. Salines.....	330,000 00
6. Manufactures.....	123,959,653 00

Total value.....\$524,018,904 68

The commerce of the Northwest is another great source of wealth and power. Her lakes, rivers, canals and railroads, give open communication with all the markets of the world. She commands two outlets to the Atlantic—by way of the Mississippi and the Gulf of Mexico—and by the Lakes and River St. Lawrence. Her foreign commerce alone can be accurately ascertained. In 1850 her exports were \$3,716,796, her imports \$1,649,259. Her domestic commerce is estimated as follows, for 1850:—

Lakes.....	\$276,000,000
Rivers.....	220,000,000
Railroads.....	250,000,000
Canals.....	120,000,000

Her total tonnage in 1850 was 128,676 tons. She had in operation, in 1857, 8,586 miles of railroads, which, with their equipments, cost \$223,143,353. Length of Canals, 1,428 miles, costing \$107,000,000. Telegraph lines, 6,966 miles, costing \$150,000. Such is her array of improvements, only seventy-two years from the first private entry of public lands!

The rapid increase in population of the cities of the Northwest is unparalleled in the history of any country. Cincinnati, Cleveland, Milwaukee and Detroit, have advanced rapidly; but we have not before us the statistics of their growth. The statement which follows, shows the actual increase of the population of Chicago, taken from official returns:

1840.....	4,853	1848.....	20,023
1843.....	7,580	1849.....	23,017
1844.....	10,864	1850.....	29,963
1845.....	12,088	1852.....	38,734
1846.....	14,169	1853.....	60,628
1847.....	16,859	1858 (estimated).....	120,000

According to the same ratio of increase it will advance to 150,000 inhabitants in 1860.

This growth of a town, which in 1830 had a population of less than one hundred inhabitants, challenges the cities of the world to a comparison. She has risen to her present important position through her superior facilities for commercial intercourse with the whole world. Thirty-six years ago, a government official, sent to make a report on the subject of building a canal to connect the Illinois river with Lake Michigan, among other equally discouraging remarks, informed the world, that, "as a place of business, it (Chicago) offers no inducement to the settler; for the whole annual trade on the lake did not exceed the cargo of five or six schooners, even at the time when the garrison re-

ceived its supplies from Mackinaw." He further states that it *may possibly* become one of the points of communication between the Northern Lakes and the Mississippi, but "the intercourse which will be carried on through this communication will at all times be a limited one." We will turn to the statistics of 1858, and see how "limited" that intercourse has been, and also show something of the extent of the greatest grain and lumber market in the world.

There are twelve elevating warehouses, and their capacity for storing and handling Grain, with the names of proprietors, are as follows:—

ELEVATING WAREHOUSES.			
	Capacity for storage. bu.	Capacity to receive & ship pr. day bu.	Capacity to ship per day. bu.
Illinois Central R. R. (Sturgis, Buckingham & Co.'s A house)	700,000	65,000	225,000
" " " " " " " " B house)	700,000	65,000	225,000
Rock Island Railroad, (Flint, Wheeler & Co.)	700,000	55,000	200,000
Chicago and Galena Union Railroad, (S. Howc.)	500,000	50,000	125,000
Gibbs, Griffin & Co.,	500,000	60,000	150,000
Munger & Almour,	300,000	50,000	100,000
Munn & Scott,	200,000	30,000	75,000
Flint, Wheeler & Co.,	160,000	5,000	50,000
Mitchell & Dupuy,	100,000	25,000	50,000
S. A. Ford & Co.,	100,000	40,000	45,000
Jas. Peck & Co.,	60,000	20,000	40,000
Walker, Bronson & Co.,	75,000	30,000	60,000
Total,	4,095,000	495,000	1,340,000

The capital invested in these warehouses alone amounts to over \$3,000,000.

The following is a statement of the quantity of Flour and Grain received in 1858, and stored in this city:

Flour.....	522,137	barrels.
Wheat.....	9,639,614	bushels.
Corn.....	8,252,541	"
Oats.....	2,313,597	"
Rye.....	71,012	"
Barley.....	413,812	"

The amount shipped by Lake, Canal and Railroad was—

Flour.....	470,352	barrels.
Wheat.....	8,850,257	bushels.
Corn.....	7,716,264	"
Oats.....	1,619,069	"
Rye.....	7,569	"
Barley.....	132,020	"

The lake tonnage enrolled at the port of Chicago in 1858, amounted to 8,151 tons in steam vessels, and 58,771 tons in sail vessels. The value of these vessels is estimated at \$2,383,025,

which is more than double the value of 1855. There are owned at the port of Chicago, 152 canal boats, employed on the Illinois and Michigan canal, which cost, on an average, \$1000 each; making the aggregate cost of lake and canal tonnage belonging to Chicago, \$2,535,025.

The value of the commerce of Chicago, by the several principal avenues of trade, was, in the year 1858, as follows, viz:

IMPORTS.

1. By Lake Vessels	\$27,194,144 24
2. By the Illinois and Michigan Canal	4,377,370 55
3. By Railroads	60,064,575 71

Total value of imports in 1858\$91,636,090 50

EXPORTS.

1. By Lake Vessels	\$21,261,074 73
2. By Illinois and Michigan Canal	1,390,067 12
3. By Railroads	60,608,779 35

Total value of Exports in 1858\$83,259,921 20

Aggregate value of Imports and Exports of Chicago

during the year 1858\$174,896,011 70

The total number and tonnage of steam and sail vessels that arrived at the port of Chicago in 1858, was as follows:

Number of arrivals of Steam Vessels	901
" " " Sail Vessels	5,981
Total tonnage of Steam and Sail Vessels arrived	1,644,060

The total number and tonnage of steam and sail which cleared from the port of Chicago in 1858, was as follows, viz:

Number of clearances of Steam Vessels	908
" " " Sail Vessels	5,860
Total tonnage of Steam and Sail vessels which cleared	1,640,643

The number of arrivals of canal boats at the port of Chicago in 1858, was 2,231; the number of clearances during same period was 2,224

We have thus far endeavored to inform the reader in regard to the great facilities for shipping which are found at this point. And we must say that the city is as much entitled to credit for its manufactories, its banking and mercantile institutions, as for its commerce. Its educational interests are well attended to, and the city government is as good as in any other city of its size. The "tricks and traps of Chicago" are no more numerous than in other places, (if we except the slight differences in grade of the streets) but plenty of them may be found by strangers if they possess a peculiarly inquiring disposition. As to the streets, they are fast coming up to the high grade, and whole blocks of stores, hotels, and even banks are "going up" every day. Several blocks have been raised within the past few weeks, streets have

LIND BLOCK, (MARKET STREET, COR. RANDOLPH) CHICAGO.

been raised and paved, each finding their proper level about five and a half feet above the old grade. Chicago is not yet finished. Some very fine buildings are being erected, and maps show that

"additions" are ready to be spliced on, though the ground does not command quite so high a price by the square inch as it did before the revulsion of '57.

The Rail Roads terminating here are numerous, and deserve special notice. We will give their names and location of depots, and can only say to the public that they are all good roads and well managed. The Chicago and Milwaukee Rail Road has its depot on North Branch north of West Kinzie St; Chicago Rock Island and Peoria Branch, at corner Sherman and Van Buren Sts; Chicago, Burlington and Quincy, at Union depot, foot of Lake St; Chicago, St. Paul and Fond du Lac, at North Branch north of Kinzie St; Galena and Chicago Union, trains leave from North Wells, corner of North Water Street, and from Union depot, foot of Lake Street; Illinois Central, (Chicago Branch,) trains leave from the depots (freight and passenger) foot of South Water street; Michigan Central, depot foot of Lake Street; Michigan Southern, depot corner Van Buren and Sherman Streets; Pittsburgh, Fort Wayne and Chicago, trains leave from Rock Island depot, corner Van Buren and Sherman Streets; St. Louis, Alton and Chicago, trains leave from Michigan Southern depot, corner Van Buren and Sherman Streets.

The Hotels of Chicago are as fine specimens of buildings, and kept in as good style as those of any city in the Northwest. They have the best of facilities for supplying their tables, and no want of the traveler need be unsupplied. The largest of these, and in fact the largest hotel in the Northwest, is the

TREMONT HOUSE.

This house was completed in 1850, and was built by Ira Couch. It was known for a long time as "Couch's Folly!" but the rapid increase of population in the city, and the consequent increase of travel and business, have rendered it one of those paying "follies," so numerous in this section. It is built of brick, 5 stories in height, situated on the corner of Dearborn and Lake streets, fronting 180 feet on Dearborn, and 160 on Lake. There is a Telegraph station in the rotunda of the hotel, connecting with all stations in the United States and Canadas. It contains about 275 rooms, and is capable of accommodating 500 guests. The suites of parlors, dressing and bath rooms, are well fitted for families, furnished in fine style, heated by steam, and contain all the modern improvements. A large Billard room is connected

with the house. Gage, Brother & Drake, Proprietors. Next in size is the

BRIGGS HOUSE.

Situated on the corner of Randolph and Wells streets. This is a fine building, 5 stories in height, built by William Briggs, in 1854. It contains 218 rooms, will accommodate 400 guests, and is in every respect a first class hotel. Wm. F. Tucker & Co., Proprietors.

THE RICHMOND HOUSE.

Is a splendid marble front building; situated on the corner of South Water street and Michigan Avenue, near the Union Depot. It was built in 1856 by Thomas Richmond; six stories high, fronting 180 feet on South Water street, and 90 on Michigan Avenue. Its rooms are furnished in elegant style, and for comfort and convenience, is second to no hotel in this section. Taber, Hawk & Co., Proprietors.

THE REVERE HOUSE.

Is a five story brick building, situated on the corner of Randolph and South Dearborn streets. It was built in 1855, by Isaac Cook, and is a first class house. David Runnion, Manager.

THE METROPOLITAN HOTEL.

Is situated on the corner of Wells and Randolph streets. It is six stories in height, fronting 80 feet on Randolph, and extending 100 feet on Wells. It was built in 1856, and contains 150 sleeping rooms; owned by Isaac Speer. A. L. Gates, Proprietor.

THE FOSTER HOUSE.

Was built by Geo. F. Foster, Esq., and is situated on the corner of Clark and Kinzie streets. It is a first class hotel, and will compare favorably in its appointments with any hotel in the city. M. H. Baxter, Proprietor.

THE ADAMS HOUSE.

Is situated on the corner of Lake street and Michigan Avenue. It was built in 1857, by Hugh Mahyer; is five stories high, and contains 100 rooms, newly furnished. W. L. Pearce & Co., Proprietors.

THE SHERMAN HOUSE.

Situated on the corner of Randolph and South Clark Streets, directly opposite the City Hall, is a large house, and furnishes a comfortable home to the traveler. The location is excellent, the

table is first class, and the proprietors and *attaches* of the house use every effort to please the traveling public. The house is to be rebuilt in a year or two. Tripp & Hale, Proprietors. C. W. Russell, Clerk. Board; \$1.50 per day.

THE MATTESON HOUSE,

On the corner of Dearborn and Randolph streets, has just been "elevated," repaired and newly furnished, and makes a very comfortable home. Bissell & Goodrich, Proprietors.

THE MASSASOIT HOUSE,

Corner of South Water street and Central Avenue, directly opposite the Union Depot, is a large house and well-kept. J. W. Humphrey, Proprietor.

But it cannot be expected that we will be able to give illustrations or descriptions of all the hotels in the city. We can only mention a few, though there are many others, equally meritorious, which we would be glad to notice, would our limits permit. There are about one hundred hotels in the city, including all classes, and the traveler can easily find his way to any class of house he may prefer.

On another page will be found a view of Lind's Block, on Market street, corner of Randolph, which contains some important business houses. We will mention particularly the firm of CHAPMAN & MAY, No. 30, heavy dealers in Agricultural Implements and Seeds. Their catalogue contains everything necessary for a complete outfit for the farm, and their Farming Tools have a world-wide reputation. Among these we notice Danford & Maury's Reaper and Mower, Morehouse's Improvement on Brown's Double Planter, Farmers' and Lumbermen's Feed Mills, Railroad and Farmers' Wood-Saws, Threshing Machines, Corn and Cob Mills, Cider Mills, Cummin's Straw and Feed Cutters, Cast Steel Plows; and nearly two hundred other kinds of implements for use on the farm, besides a complete assortment of seeds.

No. 28, next door, is the extensive Mill Furnishing Establishment of J. T. NOYE & Co., whose advertisement may be found on the last page of our cover. Their reputation stands high in their department, as all can testify in the vicinity of Chicago or Buffalo.

There are several other important branches of business in this block, which we cannot mention particularly at present.

Lake street contains some of the finest iron-front buildings in America, and here we find some of the largest Mercantile Houses in the West. The most extensive Book Establishment in this

section is that of S. C. GRIGGS & Co., Nos. 39 and 41 Lake street, in one of these splendid blocks, called Burch's Building. Their Sales Room is the largest, with one exception, in the United States; being 45 feet front, 165 feet deep, and 18 feet high. The list of works published by them embraces almost every department of Literature and Science, and their reputation stands high among the first-class Book Houses of the United States. No one visiting Chicago should fail to call at their Rooms, where an hour may be most pleasantly passed in viewing the extent and arrangement of one of the most important mercantile institutions of the city.

The next number of the Guide will be devoted to descriptions of Manufactories, and the principal Mercantile Houses of Chicago, which we have been obliged to defer on account of lack of space. We intend to give a fair idea of the principal business interests of the city, and shall spare no pains to make it interesting, not only to the general reader, but to those who are pecuniarily interested in the prosperity of the city.

To Advertisers.

We would call the attentions of Advertisers to the fact that the GUIDE is rapidly increasing in circulation, and as an advertising medium is unsurpassed by any publication in the United States. It is a work which finds its way to the most important business points of the country, is distributed free to the principal Hotels and Railroad Stations throughout the States and Canadas, sold on every Railroad in the West and East, and by News Agents and Booksellers generally.

The new feature which we have introduced in this number will make it still more valuable as an advertising medium. It is our intention to visit all the principal cities in the States and Canadas, and give historical and descriptive sketches of each, in one or more numbers of the GUIDE, together with notices of the principal Business Houses and Manufactories, statistics of Trade and Commerce, and such other information in regard to their business interests as may be interesting to the public generally. In this way we anticipate a still more extended circulation, both in the particular localities visited, and throughout the country, where the prosperity and advancement of one section contribute to the general welfare of the whole.

One great advantage of the GUIDE over ordinary advertising mediums, is the fact that it is *preserved*, instead of being destroyed immediately after a perusal of the reading matter. Each number will be more valuable to the advertiser than a hundred, perhaps a thousand, ordinary newspapers, as it is kept for months for reference in relation to Railroad matters, and for general information in regard to business interests of particular localities. Advertisers will be readily convinced of its utility, and will consult their interest by employing its pages for their mutual benefit.

NEW YORK AND ERIE RAILROAD—Main Line.

CHARLES MORAN, Pres., S. F. HEADLEY, Asst. Pres., N. Y. City; HUGH RIDDLE, Sup't., E. Div.; J. A. HART, Sup't., West. Div.

CHICAGO AND ROCK ISLAND, AND PEORIA AND BUREAU VALLEY RAILROADS.

[ADVERTISEMENT.]

This is the only Railroad that Crosses the Miss'ippi River,

And without the delay of ferrying and change of cars; being in operation to the Capitol of Iowa, the most westerly point yet reached by rail.

FOR CENTRAL AND WESTERN IOWA, KANSAS AND NEBRASKA

The Traveler will particularly notice this Fact!

AT IOWA CITY—Two Daily Lines of Mail Post Coaches leave upon the arrival of Trains from Chicago, to all parts of Central and Western Iowa, Kansas and Nebraska. All Baggage re-checked at Chicago, and transported Free from Connecting Routes.

MISSISSIPPI & MISSOURI RAILROAD.

JOHN A. DIX, Pres., New York, City. J. F. TRACY, Supt., Davenport, Io.
B. L. CARROLL, Western Agent, Davenport, Io.

†Connects with Quincy and East. RR, open to Mt. Sterling, and from thence by stage to Naples; ‡Stages to Keokuk and Warsaw; ¶Con. with Chicago, Burlington & Quincy RR. ¶¶Con. with Peoria and Oquawka RR.

Chicago, Burlington and Quincy Rail Road,

[ADVERTISEMENT.]

The only direct and expeditious route from Chicago to Burlington and Quincy. Two through trains daily each way; fast Express time from Chicago to Burlington, 10 hours and 5 minutes; from Galesburg to Quincy, 5 hours. All baggage checked through.

The railway connections at Chicago are the Illinois Central, the Galena and Chicago Union, Michigan Central, Chicago and Rock Island, Michigan Southern and Northern Indiana, and the Chicago, St. Paul and Fond du Lac Railroads. At Mendota, there are stage connections to Dixon, Lyons, Fulton, and Rock Island. Passengers for La Salle, Bloomington, Centralia and Cairo will have to change cars at Mendota; passengers for Quincy change cars at Galesburg. Trains make close connections and leave immediately on the arrival of the cars from Chicago.

FOR KEOKUK.—Two packets leave Quincy daily for Keokuk, making the trip in from 3 to 4 hours. Stages leave Plymouth on the arrival

[April 3.

Chicago, Burlington and Quincy R.R. Continued.

[ADVERTISEMENT.]

of Night Train from Chicago and Morning Train from Galesburg, reaching Keokuk at 3 P. M. An early Morning Stage also takes passengers who have remained over night, reaching Keokuk at 1 P. M. Only 23 miles staging.

FOR HANNIBAL.—Two packets leave Quincy daily for Hannibal, connecting with the Hannibal and St. Joseph Railroad.

FOR ST. LOUIS AND ALTON.—Two packets leave Quincy daily for Alton and St. Louis, making the usual landings.

FOR ST. JOSEPH.—A line of Mail Coaches leaves Quincy Mondays, Wednesdays and Fridays, (it will soon be a daily line.) for Palmyra (connecting with the Hannibal & St. Joseph Railroad,) and St. Joseph. By far the pleasantest and quickest route to Kansas and Nebraska. Frost's Line of Coaches from St. Joseph to Council Bluffs. There are five lines of Daily Stages running from St. Joseph to all parts of the West. The Quincy and St. Joseph Coaches will run from the end of the track of the Hannibal & St. Joseph Railroad (now being fast built,) in the spring, and will lessen the time over the river route from four to eight days, and about two days less than through Iowa.

Through Tickets can be purchased at all the Principal Offices.

During navigation a Daily Line of First Class Packets will run in connection with the Road, from Quincy to Keokuk, Warsaw, Alexandria, Tully, Canton, La Grange, and to Marion City and Hannibal. Also a line to Alton and St. Louis, making the usual landings.

—The Hannibal and St. Joseph Railroad is now finished, and as the Coaches will run from the end of track, travelers will find it to their interest to take this route. The Quincy & Palmyra Railroad will be completed at an early day. In the interim, Coaches will make prompt and sure connections. Entirely new, four horse Concord Coaches are run and it is probably the best stage line in the West.

TUNIS' INTERNATIONAL

The Season at Niagara Falls.

We have had a most delightful opening of the season at this place, which has infused new life into every department of business. We are enjoying our first instalment of warm weather and if it continues, it will rapidly increase the number of visitors. The present appearances are decidedly favorable for a prosperous season. The well known "Cataract House" was opened on Saturday last, April 30th, and some few visitors are daily arriving. This old established House promises to maintain the reputation it has enjoyed for many years under the management of Messrs. WHITNEY, JERAULD & Co., the present proprietors, who are in every respect well qualified to dispense the luxuries of life to a pleasure-seeking public. The house has been thoroughly repaired, the rooms newly papered and painted, and it seems more inviting in appearance than ever. We need not inform the public of the character and standing of this house, as it is well known throughout the country, especially to those who have made it their home while visiting the Falls. Its situation is felicitous, near the banks of the river, commanding an excellent view of the Rapids, while the cool breezes from the rushing waters are truly refreshing in warm summer days or evenings. The internal arrangements of the house are perfect, blending the luxuries of a city home with the healthful influences and pure atmosphere peculiar to this locality. It has always been a favorite, and bids fair to receive its full share of patronage during the season which has opened so auspiciously.

The Clifton House and International are not yet opened, but are being well fitted up, preparatory for the busy season. We understand they will open about the 20th.

RAILROAD GUIDE.

Railroad Items.

The Michigan Central Railroad is one of the best conducted roads in the United States. R. N. RICE, Esq., of Detroit, Superintendent, is well known to the public as a most efficient manager, and his reputation as a man carries an influence highly beneficial to the interests of the road. Persons going west cannot select a more comfortable, safe and expeditious route than by the Great Western and Michigan Central. Both roads are furnished with sleeping cars, so that a night's travel is attended with no inconvenience or fatigue.

— The Buffalo, New York and Erie Railroad, with A. D. PATCHIN, as President, cannot fail to command a liberal share of the public patronage. The management of this road cannot be excelled by that of any other road in the country. Every convenience connected with Railroad travel will be found on this line, and it will continue to be a favorite route with the traveling community, as it is a connecting link between the Western roads and the N. Y. and Erie Railroad to New York City.

New Advertisers.

A. E. Goodrich & Co., J. D. Smedley, Agent, Nos. 154 and 156 South Water St., Chicago, are extensive Manufacturers and dealers in all kinds of Oils, and possess unusual facilities for furnishing Rail Roads, Machinists, and Tanners with superior qualities of oils suitable for their respective uses. (See adv. p. 147.)

Dr. Cadwell's Eye & Ear Infirmary, Corner of Randolph & Dearborn Sts., Chicago, is an important institution and we learn, from a personal visit to his rooms, as well as from published testimonials, that the doctor is meeting with unusual success in his treatment of the many dangerous diseases of those delicate organs. No one should delay in calling upon him at the first appearance of the diseases to which he devotes his entire attention. (See adv. p. 147.)

TUNIS' INTERNATIONAL

Oscar B. Sloan, No. 24 South Water St., under Richmond House, Chicago, is proprietor of Sloan's celebrated Ointments and Condition Powders which are known and appreciated throughout the country. (See adv. p. 156.)

G. H. Hull & Co, Commission Merchants, No. 223 Kinzie St., Chicago, are reliable in their business transactions, and use every endeavor to further the interests of consignors. (See Card on p. 156.)

Harvey & Wallace, Lock St., Buffalo, Carriage and Sleigh Manufacturers, are turning out great numbers of fine specimens of workmanship in their line, which for elegance and durability are not surpassed. Give them a call. (See adv. on p. 151)

Geo. D. Teller, 194 Washington St., Buffalo, is an extensive Manufacturer of Looking Glass and Picture Frames, and dealer in Mirrors Rail Road Companies Manufacturers, and business men generally, who wish their Show Cards framed in beautiful style, and at moderate rates, should not fail to call on him.— (See adv. on back of Map).

Bonney's Hotel corner of Washington and Carroll Sts., Buffalo, is a popular house, and merits a good share of public patronage. E. Younglove, proprietor. (Card on p. 151.)

The Mansion House, corner of Main and Exchange Sts., Buffalo, is well kept in a central location, and commands a liberal patronage from the traveling public. P. Dorsheimer, proprietor. (Card on p. 151.)

Geo. Roche's Saloon, at the Hamilton station on the Great Western Railway depot, furnishes excellent meals and refreshments which are always ready on the arrival of all trains. It is a first class Saloon, and well kept. (Adv. on p. 53.)

At Chatham station, on the Great Western Railway, passengers will find good refreshments, while trains stop to wood and water. (Adv. on p. 53.)

A PARSON reading the funeral service at a grave forgot the sex of the deceased, and asked one of the mourners, an Emerald, "Is this a brother or a sister?"

"Nather," replied Pat; "only a cousin."

New Books.

HIGH LIFE IN NEW YORK, by Jonathan Slick, Esq., with Humorous Illustrations, neatly bound in cloth, 300 pages. Philadelphia, T. B. Peterson & Bros.

This work is decidedly rich; depicting the interesting adventures of a "live Yankee" in the fashionable society of the great Metropolis, and promises to eclipse any of the former productions of the "Slick" family. It is full of fun, written in the genuine Yankee vein, and Mr. Slick has described his various comical adventures with a flow of wit, and freshness of humor rarely equalled. We think no one can read it aloud without contracting the "rale gennewine" nasal twang, so peculiar to the distinguished author from Weathersfield. If the old saying is true, none but spare individuals should read the book,—they will become decidedly *embonpoint* before they reach the last chapter.

"THE HARP OF A THOUSAND STRINGS," is the title of a new book, published by Dick & Fitzgerald, New York. This is not a medical work, though it is an excellent prescription for invalids, especially for those inclined to be a *little bilious*. Neither is it a particularly religious work, though containing a sermon from that celebrated divine of the "Hard Shell Baptist" persuasion, who first introduced the unequalled musical instrument of 125 octaves,—th

TUNIS' INTERATIONAL

"harp of a *thou*-sand strings" It is full of laughter-provoking sketches, comically illustrated, and contains no indelicacy or grossness. It must be a favorite with a fun-loving public; contains 368 pages, neatly bound, and will be sent to any address in the United States, free of postage, at \$1,25.

HARPER'S WEEKLY.--This popular Illustrated Family paper has just commenced the publication of Dickens's new serial, "A Tale of Two Cities," which will be continued from week to week until completed. The Weekly has no superior in the list of illustrated papers for interesting and instructive matter. See advertisement, on map.

THE WAVERLEY NOVELS—T. B. Peterson and Brothers, Philadelphia, are issuing a cheap edition of the Waverley Novels, those standard works from the pen of Sir Walter Scott. They are neatly printed, and the low price at which they are published will place them within the reach of all classes of readers. We have several of the list—"Ivanhoe," "Guy Mannering," "Rob Roy," "The Antiquary," "Old Mortality," "The Abbott," "Waverley," &c., and a new number is issued every week. The list numbers twenty-six complete volumes, which are mailed, free of postage, for five dollars, or sold in single volumes at 25 cents. Sold by all News dealers throughout the country.

RAILROAD GUIDE.

Steamboat Offices at Niagara Falls.

H. MCKAY, Esq., long and favorably known as the Agent of the American Line of Steamers, has opened his office in the Cataract Block. These steamers leave Toronto at 1 o'clock and Lewiston at 4 o'clock, P. M., touching at Rochester, Oswego, and connecting at Ogdensburgh with River St. Lawrence steamers for Montreal.

S. D. HAMLIN and M. D. PALMER are Agents for the Royal Mail Line of Canada Steamers, and have opened their office at the corner of Main and Bridge sts. They are also agents for the Buffalo, N. Y. & Erie, and New York & Erie Railroad route from Buffalo to New York.

All Sorts.

On the arrival of a train from the north, at Sandoval, Ohio, the other day, among the passengers in one of the cars was a Frenchman, who afforded no little amusement. Immediately after arriving at Sandoval, the locomotive was detached for the purpose of "wooding up." The Frenchman, thinking he was about to be left behind, started after the engine. The engineer ran slow till he got hold of the tender, and then commenced "pulling out." For about a mile the Frenchman made very good time, greatly to the amusement of a crowd of passengers collected on the platform. The engineer finally stopped, and explained matters, when "Monsieur" started back, blowing and swearing. On arriving at the station, he was greeted with deafening cheers. He not yet appreciating the joke, turned round to the crowd, with—"He dat takes me for a fool is himself picked up for a fool. I will see about dis!" And he made his way back to the car from which he emerged, amid the laughter and applause of the amused spectators.

TUNIS' INTERNATIONAL

FIRST class in natural philosophy stand up.—John Tompkins, what is attraction?"

"Dun'no, sir."

Urchin from bottom of class—"Please, sir, I know."

"Well, what is it?"

"It's the look that a blue-eyed gal gives to her lover."

"Right, sir. Now, tell me what inertia is."

"Inertia, sir, is a desire to remain where you are—a feeling that a piece of calico experiences when leaning against a canary-colored velvet vest."

"Right, again—spoken like a young philosopher.—Take the head of the class—go to the foot, John Tompkins—I'll never make a philosopher of you. Next class in philosophy, stand up."

A FELLOW went, some time since, into the store of a fashionable dress-maker.

"Have you any skirts?" he asked, with a serious emphasis.

"Plenty of them!"

"What is the lowest price per cord?" said the chap.

"A cord?" replied the woman, in astonishment.

"Yes, about a cord. Up in our diggings the petticoats has gin out. I see you advertise 'corded skirts,' and I thought, while my hand was in, I would take what you had corded up."

The dress-maker fainted.

Why is an overworked horse like an umbrella?—Because he is used up.

Always doubt the sincerity of a girl when you see her wipe her mouth after you kiss her.

EYE AND EAR INFIRMARY,

Cor. Randolph & Dearborn Sts.,

(Over Thayer's Drug Store.)

CHICAGO, ILL.

DR. CADWELL,

(Formerly of Toronto.)

Has opened an Infirmary at the above location, and is treating all diseases of the Eye and Ear with a success never before equalled in this country, as testimonials from the highest sources will prove. There are but few, if any, diseases of these delicate organs which he cannot cure, if applied to in season.

Examinations and advice free. Also, his work on Diseases of the Eye and Ear furnished gratis on application.

CHICAGO, May, 1859.

Western Land Agency,

OF

A. J. GALLOWAY & CO.,

75 Lake Street,

Chicago.

This Company have for Sale

100,000 ACRES

Of Land, lying on the Line of the

ILLINOIS CENTRAL RAILROAD

Which they will sell to actual settlers in tracts of 40 acres and upwards, on long credit, with three per cent. interest. These lands were long since selected in the vicinity of Stations, affording to the purchaser a ready and convenient means of transportation of produce to market. The facility and economy with which they can be cultivated, their fertility and productiveness, and easy terms of payment, render them desirable to those who wish a home which can be paid for from its own productions. In addition to these they have

200,000 ACRES

Of Lands in Illinois and Iowa, most of which are adjacent to Railroads, which can be sold at low rates for cash or short time payments, either for settlement or speculation. They have also **TOWN LOTS** for Sale at the principal and most thriving Stations on the Line of the Illinois Central Railroad; and will sell lots in the Towns of Kankakee, Onarga, Loda, Urbana, Tolono, Effingham, Farina, Edgewood &c., to persons wishing to locate permanently in business on reasonable terms and credit.

They have established Branch Agencies throughout the State, where lands or lots will be shewn to those, desiring to purchase, free of charge.

ROBERT BONNER, Publisher N. Y. Ledger,

DICK & FIZGERALD,

CARSON & HARD.

FRENCH MEDICAL INSTITUTE,

FOR THE TREATMENT OF

Chronic and Specific Diseases,

512 BROADWAY, - - - NEW YORK.

DR. SAMSON,

Has the honor of informing his former patients and the public generally, that he has returned from his travels in Peru, Brazil and Ecuador, and re-opened his offices at No. 512 Broadway, New York, opposite the St. Nicholas Hotel.

The success which he formerly enjoyed in the treatment of Diseases of the Lungs, Chronic and Specific Diseases of any kind, will be still increased by the splendid collection of wonderful Vegetable Remedies, which he brought with him from his travels in South America, and principally from the Valley of the great Amazon River.

He mentions particularly the Peruvian Coca, or Indian Betel, which is an unfailing Remedy in all cases of Consumption, Bronchitis, Asthma, Nervous Debility, Rheumatism and Paralysis, and crowned with immediate success in Neuralgic Affections. It is recommended by Von Humboldt and the late Lt. Herndon, U. S. N., in their works on the exploration of the Amazon River.

The Flor del Ucayali, another new remedy, will eliminate out of the system every trace of bad humor, is far superior to Sarsaparilla, is purely vegetable, and the most effectual remedy in all cases where the body has been or is still affected with that horrible disease Syphilis in all its forms, which destroys the organism, and is inherited by children and grandchildren.

In Peru and Brazil, where this Disease exists to a great extent, the Flor de Ucayali is considered the only reliable Remedy, giving purity to the blood, curing in a very short time and forever all ulcerations and discharges of a specific nature, and re-establishing the tone and vigor of the System in a few weeks, even in the oldest and most neglected cases.

General Debility and Impaired or lost generative powers, Seminal Weakness, &c., &c., are cured with certainty by this great Remedy.

He may confidentially be consulted at his Rooms, 512 Broadway, opposite the St. Nicholas Hotel, from 10 a. m. to 5 p. m. (where references and certificates can be had), or by correspondence, by addressing Box 3,576, General P. O., New York.

 CHARGES MODERATE. 

Consultations in English, French, German, Spanish, and other Languages.

512 BROADWAY, opposite the St. Nicholas Hotel.

February, 1859.—y1

BOOKSELLERS'
— AND —
NEWSVENDERS' AGENCY.

ROSS & TOUSEY.

We would respectfully invite the attention of BOOKSELLERS, Dealers in Cheap Publications, Periodicals, etc., to our unequalled facilities for packing and forwarding everything in their line to all parts of the Union, *with the utmost promptitude and dispatch*. All goods packed with the utmost care and forwarded, in all instances, by the *very earliest conveyance* following the receipt of the orders, sending by special arrangement with Passenger Trains. Dealers will find it convenient to have all their Orders packed at this establishment, particularly with regard to Newspapers and Periodicals, as we can supply them up to time. Small parcels from the Trade, back numbers of Serials, and single numbers of Books, etc., also procured, promptly packed and forwarded, with Papers and Magazines—thus saving time and extra expense. *Orders solicited.*

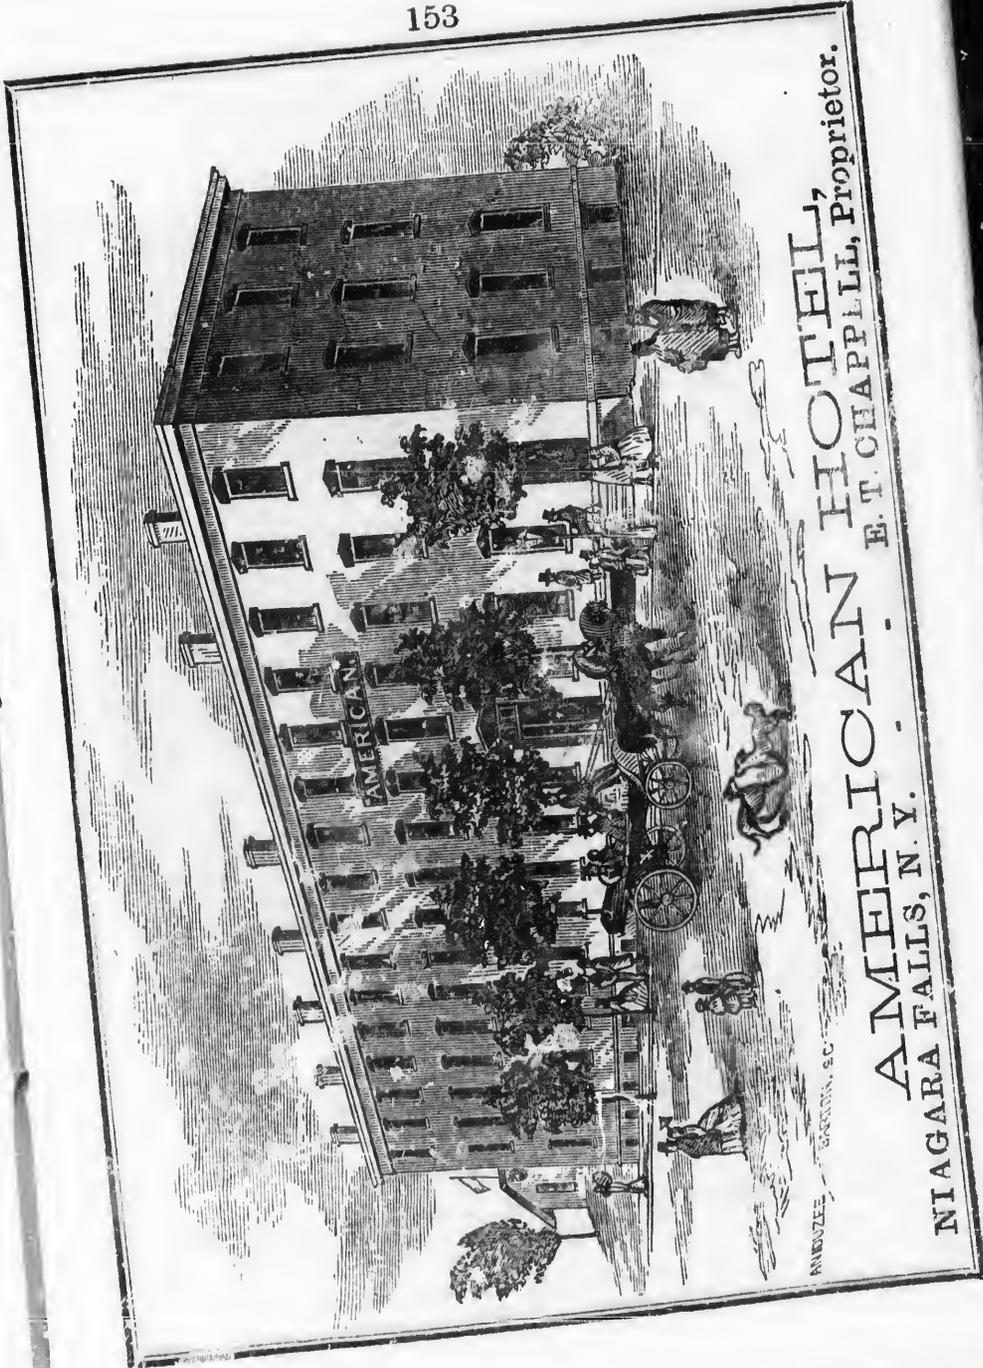

We are Agents for, and take the whole Millions (except mail subscriptions) of the *New York Ledger, Yankee Privateer, Pic'orial Clipper, New York Clipper, Nick Nax* and *National Police Gazette*, and are also Agents for *'Temis' New International Railroad Guide*, and the leading Weeklies. Orders from the Trade solicited, and promptly filled.

ROSS & TOUSEY,

No. 121 Nassau St., N. Y.

Refer to the principal Booksellers and Publishers of
New York and Boston.

OIL! OIL!!

PEASE'S IMPROVED

**ENGINE AND SIGNAL OIL,
FOR RAILROADS,**

For Every Class of Machinery, and for Burning,

IS SUPERIOR TO SPERM

Or any other Oil Whatever,

And the only Reliable Lubricator that is a superior Burning
Oil, that will keep bearings cool, and

WILL NOT GUM.

This improved Oil possesses qualities vitally essential for lubricating and burning, and found in no other oil. It stands a greater heat by 20 degrees than any known Oil; consequently it will not consume as fast, and is unaffected when other Oils are burnt or dried up. It is 33 per cent. cheaper in price, and will last 25 per cent. longer than the best Sperm Oil. For sale only by the inventor,

F. S. Pease, Manufacturer and Wholesale Dealer in

Pure Sperm Oil,
Elephant Oil,
Whale Oil
Lard Oil,

Linseed Oil,
Tallow Oil,
Axle and Car Oil,
Doping Oil.
