LAURIER MOVES TO CENSURE
ALLEGED NEFARIOUS METHODS
OF MINISTERS IN ELECTIONS

Reign of Terror Declared to
Have Existed in Macdonald and
Richelieu Contests—Laurier Taunts
Borden With Preparing For
Imaginary Empire Crisis—
Premier Makes Brief But
Effective Reply.

OTTAWA, Nov. 25.—(Special).—The
debate upon the address, which
began this afternoon, may last for
several days. It lost something of
interest from the fact that the
naval issue is being reserved for
another debate, but is already
developed a great deal of partisan
bitterness. The alleged
misconduct of the government in
the Macdonald and Richelieu
elections furnished the basis for
attack by the Liberals.

Sir Wilfrid Laurier, in opening
the debate for the opposition,
offered an amendment to the
address censuring ministers of
the crown, presumably Messrs.
Rogers and Roche, for conniv-
ing at nefarious practices in
these electoral contests.

Hon. Frank Oliver, who followed
Mr. Borden this evening, devoted
almost his entire speech to the
Macdonald by-election.

Sir Wilfrid Laurier spoke over
long for him this afternoon and
at times rather tediously. Mr.
Borden had little time to reply
before the recess for dinner and
spoke almost too briefly.

Touched Naval Issue.
The address was moved by Mr.
Rainville, Conservative M.P. for
Chambly-Verchères, who, like the
ex-premier, is eloquent in two
languages. He spoke first in
French and then in English.
W. F. Nickle of Kingston seconded
the address in a thoughtful
speech, which touched upon the
naval question and the highway
bill slaughtered by the senate
at the last session. Rather out
of the ordinary, but of interest,
was his earnest advice to the
minister of agriculture to get
together and evolve a plan by
which the penitentiaries of the
country could be transformed
into farms of demonstration.

A passing reference to Hon.
Adam Beck was greeted with great
applause. The demonstration of
the day, however, greeted the
prime minister, when he rose
to speak. The Liberal members,
although few in numbers, gave a
good hand to Sir Wilfrid, who
spoke immediately after the
member for Kingston.

Sir Wilfrid Caustic.
Sir Wilfrid explained that he
would not discuss the naval policy
of the government until it was
disclosed to parliament. What
policy was a man knew, "The
Lord knows," he continued,
amid Liberal applause and
laughter, "because He knows the
minds of the ministers. The
ministers do not know their
own minds."

He would say, however, that
the statement put in the mouth
of the governor-general to the
effect that the opposition to
statements made by Mr. Asquith
and Mr. Churchill, who had
declared over and over again that
England would co-operate with
the government's proposals when
they came before parliament, with
the evidence to support them. He
hoped there would be no division
of sentiment in the house.
Certainly Quebec Liberals would
co-operate with their brethren
from the other provinces if an
emergency really existed. "There
may be a few, I think very few,
people in Quebec who say we
ought to go to England. They are
not so numerous as they were
before Sept. 21, 1911, but some
gentlemen most vehement in
the past in declaring that we
ought to go to England, now occupy
seats in this house and on the
treasury benches.

Drift to Annexation?
Sid Wilfrid then criticized the
action of the government in having
the railway companies procure
special rates from the U. S.
commerce commission for the
transportation of western grain,
heavily suggesting that the
western farmers who shipped their
grain over American railroads
might become annexationists.

He referred to the rumors that
the standard of the National
Transcontinental Railway had
been degraded on the Superior
junction and Quebec, and
demanded some statement from
the government.

Reference was then made to the
cut in the cement duty last
summer, and complaint was
made because the speech from
the throne did not provide
for a redistribution bill. "What
similarity is there between the
speech of an opera that is full
of enchanting music."

Cholera Spreads Among Troops.

LONDON, Nov. 25.—(Can. Press).—No
further operations have taken
place on the Tchatalja lines, says
The Morning Post Constantinople
correspondent. The Bulgarians
are believed to have withdrawn
considerable of their forces in
the direction of Adrianople and
the Dardanelles. A vigorous
action against the Dardanelles
and the Greek and Bulgarian
forces is expected unless an
armistice is promptly concluded.

The Daily News correspondent
in a despatch which evidently
evaded the strict censorship,
says the cholera is pressing north
from Constantinople. Already
there are several hundred cases
at Mustafa Pasha, and the scourge
has entered Bulgaria. The
foreign doctors have met to
consider what advice could be
offered the government respecting
precautions against the spread
of the disease.

The cholera, the correspondent
adds, is raging at Adrianople
and is spreading among the
Serbians. The losses to both
Turks and Bulgarians have been
enormous, but the demoralization
of the main Turkish army has
not extended to the garrison at
Adrianople, which daily displays
desperate gallantry.

MODEL SYSTEM OF PARK

F. S. Spence Spoke to West
End Ratepayers on Toronto's
Great Future Waterfront.

The Annette Street School
Assembly Hall was filled last
night at the special meeting
called by the Ward Seven
Ratepayers' Association to hear
Frank S. Spence of the harbor
commission explain the harbor
and lake front improvement
plans.

Mr. Spence was accompanied
by the chief engineer of the
commission, E. L. Cousins, and
also brought with him all the
original maps and plans in
connection with this magnificent
undertaking. A. B. Rice, vice-
president of the association,
occupied the chair, and introduced
the speaker with a few well-
chosen remarks.

Mr. Spence commenced with
a brief history of the harbor
commission and a resume of
their work up to the present
proposal, "by which," he said,
"Toronto will in a few years be
transformed into a huge
metropolis with a frontage on
Lake Ontario not the size of
the dirty smudge which now
exists, but a spreading expanse
of smiling park enclosing one
of the finest harbors on the
continent."

The district in which the
commission will work is bounded
on the east by Scarborough
Town line and on the west by
the Humber and will extend
about a mile into the lake at
the south. The work of preparing
the plans and drafts was in
itself an immense undertaking,
in which J. J. Sims, the
government engineer, and Mr.
Cousins were assisted by a staff
of 27 engineers.

While working at the foot of
Strachan avenue late yesterday
afternoon, John Wardrobe,
Morrison street, Earlscourt,
fell 30 feet down a sewer shaft.

The injured man was rushed to
Grace Hospital in F. W. Matthews'

with four broken ribs and
injuries to his back. Wardrobe
was employed by the McLean &

new trunk sewer for the city.

Six teachers on the staff of
Harbord Collegiate Institute
have come to the defence of
Principal Hagarty. They state
that they back up every word
written by Mr. Hagarty regarding
the disturbance by a crowd of
Varsity students, at a recent
dance in the school, and even
go so far as to say that they
would have used stronger
language than the principal
in giving an account of the
actions of the students. The
following is what they say:
"We the undersigned teachers
of the Harbord Collegiate

Fullerton, engineer in charge
of construction, went over and
described the entire
propaganda contemplated by
this company, which has already
been granted a charter
permitting the construction
and operation of 500 miles of
road in Ontario, and has applied
for charters to allow construction
of joining pieces of the line in
Quebec and Manitoba.

This winter the first 75 miles

PEACE OF EUROPE HANGS
ON SLENDER THREAD ONLY
POWERS PLAINLY ANXIOUS

Eagerness of Governments to Deny That
Warlike Movements Are Under Way
Is Accepted as Ominous Sign—Serbia's
Refusal to Treat With Austria
Makes Situation Critical.

LONDON, Nov. 25.—(Can. Press).—The
extreme anxiety manifested by all the European
governments to deny the reports
of warlike preparations and to
represent the political situation
as peaceful and satisfactory is
in itself an indication of how
slender a thread the issues of
peace and war in Europe now
hang.

The danger arises not alone
from the conflicting interests
of Austria, Serbia and other
powers, but from the possibility
that Turkey, following the
traditional policy of profiting
by the embroilment of the
great powers, may adopt an
irreconcilable attitude in the
peace negotiations.

Beyond the fact that the
plenipotentiaries met today,
nothing is yet known—even
whether an armistice has been
arranged. There appears to be
a suspension of operations at
Tchatalja, apparently by tacit
consent rather than by formal
agreement.

TURKEY PLAYING DOUBLE.
The semi-official Bulgarian
newspaper, The Mir, in an
editorial, voices the governmental
irritation at Turkey's dilatory
methods of negotiation, and
accuses the Porte of deliberately
nominating delegates from
remote points in order to gain
time. This probably refers to
Osman Kizami Pasha, the
ambassador to Germany, who
only arrived at Constantinople
from Berlin today.

In the diplomatic field the
most important reports are
that Serbia declines to reply to
the Austrian demands until the
war is concluded, and that
Germany has not undertaken
to mediate between Austria
and Russia. The news that
Serbia is throwing further
obstacles in the way of the
Austrian representative in
search of Prochaska, the
Austrian consul at Prisdend,
is another disquieting feature.

Fighting continues around
Adrianople, where the
besieging forces are reported
to have drawn their investing
circle to within two-thirds
of a mile of the town.

MONTREAL BRANCH
SECURED BY G.T.P.

Running Rights Over North
Railway to Bell River
Junction is Solution
of Problem.

MONTREAL, Nov. 25.—(Special).—It
is officially stated here today
that the Grand Trunk Pacific
Railway's long talked of
Montreal branch has been
secured by an agreement entered
into with the North Railway
Company whereby the G. T. P.
will secure running rights over
that line from Montreal to the
Bell River, where the North
Railway crosses the Trans-
continental 250 miles from
here and half way to the
James Bay.

The North Railway, which has
been subsidized to the extent
of \$6400 per mile for the total
500 miles from Montreal to
the mouth of the Nottaway,
will be put under contract
from the Bell River to the bay
by the first of the year, when
the locating party of engineers
are expected at the Trans-
continental.

R. W. Newman, the naval
architect of the North Railway
Company, has also prepared
plans for two 6000-ton
steamers, carrying each 200,000
bushels of grain and with
accommodation for 100 first
and 200 second-class
passengers. These steamers
will be named Nottaway and
Nelson and will be named
after those two ports.

Violent Explosions of Chemicals
Jeopardize Lives of Workmen—
Loss Reaches Nearly Million.

NEW YORK, Nov. 25.—(Can. Press).—
Brooklyn's east river waterfront
was the scene today of the
most serious explosion and fire
which that section has known
for years. Fifteen men
were removed to hospitals
suffering burns and injuries,
from which a number may die,
and several persons on the
scene at the time were
killed. The fact that the

up and that Dineen is asking
only last year's prices
would suggest that a visit to
Dineen's would be reasonable
and wise.

Kootenay Landing, derailed
in a heap about 2:30 a.m., at

250 miles from here and
half way to the James Bay.

The North Railway, which has
been subsidized to the extent
of \$6400 per mile for the total

Of the eight injured who
were taken to the hospital on
the arrival here of the
rescue train, one, George
Dowling, a carpenter of this
town, will likely die. He is
in a precarious condition.
The others are seriously
hurt, and it will be a few
days before it is known
what the outcome will be.

C. P. R.'s Statement.
At the C. P. R. offices this
evening the following official
statement was issued:
"Herewith list of persons

All the above were taken
to the Medicine Hat Hospital,
and are expected to
return to their homes.
"So far the investigation
shows that the accident was
due to the excessive
speed of the train when
passing over the west switch at
Fitzgerald."

NAVAL EXHIBITION STAYS THIS WEEK

Realistic Pictures of Britain's Navy at Massey Hall Every Day Except Friday.

From a comparatively meagre attendance on the opening night of "Our Empire Navy" patriotic exhibition at Massey Hall last week, the measure of support accorded this deserving institution has been increased by leaps and bounds. Thus including Mr. Guy Bradford to remain over a further week in Toronto. That his judgment was fully justified was amply demonstrated last night, when another large and enthusiastic audience greeted the pictures, the lecturer, the Apollo quartette, and the musicians, with loud and continued applause. Mr. Bradford is running "Our Empire Navy" as a commercial proposition.

An interesting announcement is made nightly respecting a prize competition for the youngsters, entries for which may be made up to and including next Friday evening.

ODESSA YOUNGEST OF EUROPEAN CITIES Founded Over One Hundred and Twenty Years Ago by Turks. Odessa is one of the youngest of European cities—only a hundred and twenty years ago Haji Bey, a little Turkish settlement, nestled on the cliffs that overlook the harbor and dived under the sultan across the Black Sea. The long arm of Russia reached out and took it, and planted there, upon the plateau overlooking the bay, the beginnings of a commercial city that now holds between five and six hundred thousand. The revolution in France soon sent refugees scattering over the world, and noble names came to Odessa, and one may read their names on street corners—Darbass, Richelieu and Langeron. Later, Eng-

lishmen came and brought ships to carry away Russian grain; and then friendly relations were established between the English and the Russians, and afterwards the Germans came, and afterwards the Americans, with reapers and plows and steam traction engines, to help the Russians to grow more richly the grain that they carried to the world. Last of all came the Jews, and they cut the business to the bone. Last of all came the English, and they cut the business to the bone. Last of all came the Jews, and they cut the business to the bone. Last of all came the English, and they cut the business to the bone.

Modern football is a direct descendant of an ancient Roman game called "harpastum," in which the object of the players on each side was to seize the ball and carry it, by some means or other, across a line marked on the ground in the rear of their opponents.

New McMaster University To Be a Majestic Structure

Site for Building Has Been Secured at Avenue Road and Eglinton Avenue, and Plans for Handsome National Baptist University Now Are Being Prepared—Bloor Street Site Will Be Sold at Satisfactory Figure.

Toronto is to have one of the most majestic piles of university buildings in the world when the new McMaster rears its head skywards on the magnificent and wide-spreading site. As previously announced in The World, the Baptist seat of learning will dispose of its present buildings in Bloor street, having purchased a splendid new acreage on the corner of Avenue road and Eglinton avenue. It was yesterday authoritatively learned that a special committee of the most prominent and financially substantial Toronto members of the institution had been appointed to have the new site prepared for the erection of the new buildings. First of all the committee will secure the services of a landscape architect of eminence in his profession to prepare plans for the improvement of the land. Will Sell Site. The McMaster University property on Bloor st. has not yet been disposed of, but the committee will purchase on the supposition that before the new university is completed either the provincial government or private capital will be ready to absorb the buildings and lands at satisfactory figures. The new McMaster is to be on a national scale, with an alternate capacity for a thousand students. It has in affiliation the Baptist College at Brandon and seminaries at Woodstock and other places. The big men of the denomination have taken hold of the project in a large way and the structure promises to be an architectural feature which will be one of the educational show places of the Dominion. In Baptist circles the project is one of inspiring and absorbing interest.

PLANNED TO BLOW CITY OFF THE MAP

McNamara's Fell Designs on Los Angeles and Panama Canal Foiled By Arrest.

INDIANAPOLIS, Nov. 25.—(Can. Press.)—The contents of the defence that the McNamaras and Orlie E. McManigal alone were responsible for explosions and that the Ironworkers' Union and executive board and President Frank M. Ryan knew nothing of any \$1000 expended from the property, were returned from the examination of McManigal in the "dynamite conspiracy" trial today. Before being turned over by the government McManigal had told stories of how he and the McNamara had talked of blowing up the locks of the Panama Canal and how James B. McNamara was to return to Los Angeles "and wipe that city off the map" by a series of explosions carrying out these plots by their arrest. He also had related that after his return to Chicago, James B. offered Guy Biddinger, a detective, to allow them to escape, telling Biddinger you don't get it Clarence Darrow will.

Senator John W. Kern for the defence cross-examined McManigal. "Was the pay for the McNamara your motive in causing many explosions?" asked Senator Kern. "No, it was not money, Herbert S. Hockin, when he first started me in the dynamiting business, terrorized me, saying if I didn't do it he would prevent me from getting work. Then I was prompted by a foolish notion that it was for the good of the ironworkers' union. My mind was inflamed with the idea it would build up the union. McManigal admitted he had been arrested three times, twice for larceny and once for disorderly conduct. "After the Los Angeles Times reported that he had deliberately killed the 21 persons, that he was a printer and he knew he would kill someone who put the bomb in The Times building, and yet you continued to associate with him." "Yes, I did." McManigal had said that when J.J. McNamara, secretary of the union, planned the wholesale explosion, including the blowing up of Los Angeles City, he was afraid the "executive board would cut off his allowance."

ENLARGE SOO PLANT. Several Million Dollars Will Be Expended, is Statement of Manager. SAULT STE. MARIE, Ont., Nov. 25.—(Special.)—The steel plant of the Lake Superior Corporation is to be greatly extended at once at a cost of several millions. Another blast furnace will be built, cooking plant increased, and other facilities necessary to steel making proportionately enlarged. J. F. Taylor, manager, said the corporation had made plans to greatly extend the steel plant so as to increase the output. The new blast furnace would be built and corresponding increase in cooking plant and other factory plants would have to be made.

WATERLOO NEW FACTORY. WATERLOO, Nov. 25.—(Special.)—At tonight's board of trade meeting the Retail Bros. contractors of Waterloo, made a proposition to erect a cash and door factory and planing mill at a cost of \$35,000. They agreed to pay interest at the rate at which debentures are issued for a loan of \$25,000. The board of trade favored the proposition, and will ask the council to submit a bylaw to the ratepayers at the annual municipal elections.

to submit as many as five answers to each proverb picture. Mothers, teachers, business men and children make up the long line which files into the office of The World each day, and it proves conclusively the earnest endeavor for the contest for the long list of prizes has aroused among people of every class. Everyone realizes that each problem solved means another day nearer the time when the fortunate one will get their prizes, and each one is setting forth his or her best efforts to solve the pictures correctly. The special free coupon offers make entry to the contest exceptionally attractive and at the same time effect a great saving in price to regular contestants who desire to secure extra pictures and coupons for additional prizes. Why not enter the contest now and start your gray matter working for a prize? No one should hesitate because the contest is now in its last half, or because there are so many entered. It's simply a battle of "wits" and the sooner you enter the greater advantage you will have, for it takes time to make out the solutions to the pictures. Hurry! Hurried decisions, you know are not always the best. The long list of prizes is varied enough to satisfy the most exacting. If you do not like automobile or motorcycle, or one of the other fine prizes, or be happy in the possession of a pair of white sparkling diamonds or one of the many other valuable and handsome rewards. TORONTO WORLD'S PROVERB PICTURE NO. 55

Rules Governing the Contest.

The Toronto World Proverb Contest is a test of skill and diligence, designed to encourage thought and research on the part of the young and provide a pleasant mental diversion for everyone. Every day, for a period of seventy-five (75) days, there will appear in The Toronto Daily and Sunday World, an illustration, cartoon or other representation of a commonly used and well-known English proverb. The Toronto Daily World will award PRIZES AGGREGATING OVER \$5000 IN VALUE to readers of The Daily and Sunday World who send in the correct or nearest correct answers to the entire series of illustrations. The first proverb picture was published in The Daily World, Thursday, Oct. 3. The last will be published on Dec. 16. The correct answers, to serve as a basis of awards, are being selected according to their common use by the Contest Manager and three representatives of The Daily and Sunday World, and will shortly be placed under seal in a Safety Deposit Vault. This list of correct answers will remain under seal until called for by the judges, whose names will be announced in due course, and who will have full control of the examination of the answers and awarding of the prizes. The correct answers are included in The Toronto World's Book of English Proverbs, which is published as a guide and reference for contestants' use in the contest. To compete for the prizes, contestants need only to supply the proverbs represented by the illustrations that will appear daily, and send in their answers at the close of the nearest correct list of answers to the person sending in the correct or nearest correct list of answers to the entire series of illustrations. The person sending in the second nearest correct list of answers will receive the second prize, etc., etc. Entry may be made any time before the contest is entirely closed. Rules follow: 1. The Toronto World's Proverb Contest is open to all readers of The Daily and Sunday World in Canada, except employees of The Daily and Sunday World, and members of their families. Anyone not exempt as above mentioned may enter the contest by simply becoming a regular reader of The Toronto Daily and Sunday World. 2. Contestants must write the Proverbs represented by the illustrations upon the coupon provided therefor and which will appear every day during the Contest. Answers may be written with pen, pencil or typewriter, and arranged in any manner so suit the contestant. 3. Each picture represents only one proverb. Where contestants are not certain as to the correct proverb represented, they will be permitted to send five (5) answers (not more) to each proverb illustration. If the correct answer is given, incorrect answers will not count against a contestant. 4. Only one answer may be written upon a single coupon. Extra coupons must be used for additional answers, and all coupons of the same number must be kept together in making up the set. 5. Different members of a family may compete in the contest, but only one prize will be awarded to any one family or household, and only one set of answers will be accepted from any individual contestant. 6. Answers must not be sent in until the first picture has been printed. Contestants must arrange their coupons in numerical order, fasten them securely together (package not folded or rolled), plainly address to the Contest Manager, The Toronto World, Toronto, Canada, and have the time specified in the following rule. 7. The time of receiving answers will have no effect upon the awarding of the prizes, with this exception: All answers must be delivered at the Office of The Toronto World or bear postmark of mailing of not later than midnight, December 2, 1912, twelve o'clock. 8. In sending in the answers at the close of the contest it is important that contestants should indicate the number of the picture, and if mailed, contestants should enclose a stamped envelope, containing answers, and a return address, and the postage paid at the office of The Toronto World of Toronto, and two (2) cents per ounce, or fraction thereof, outside of Ontario, to pay postage due on any set of answers. 9. In making the awards, the judging committee, whose names will be announced in due course, will take into account the similarity and exact wording of the proverbs and three representatives of The Daily and Sunday World, and as contained in The Toronto World's Book of English Proverbs; correct construction of the proverbs are the essentials that will be graded. 10. In making the awards, the judging committee, whose names will be announced in due course, will take into account the similarity and exact wording of the proverbs and three representatives of The Daily and Sunday World, and as contained in The Toronto World's Book of English Proverbs; correct construction of the proverbs are the essentials that will be graded. 11. Where a set of answers is securely fastened together, the contestant will be permitted to stamp (with rubber stamp) or letter for same, and omit the full address PROVIDED THAT SIXTY-FIVE (65) NAME, PLAINLY AND DISTINCTLY WRITTEN UPON THE FIRST SIX AND LAST SIX BLANKS OF THE SET. 12. COMMISSION GOVERNMENT IS COMING IN TORONTO

Mayor and Aldermen Admit That It Would Be Advisable to Raise Salaries of Controllers and Have Them Devote Their Whole Time to the City's Business, With the Council as a Legislative and Checking Body.

Ald. Sam McBride, at the council meeting last night, asked that the board of control be instructed to provide funds to the amount of \$25,000, or sufficient lands to carry on the necessary works to place the principal thoroughfares at Eastcourt, Wychwood, Midway and West 7 in a passable condition and that money be placed to the credit of Commissioner Harris.

"Outside roads are in a disgraceful condition," he declared, "and I would advise the members of council to pay a visit to the suburbs and see for themselves what the results in those districts are up against."

"Those people have to pay \$20 per year for coal, and it is a crying shame that roads in Rosedale and other sections should have asphalt, sewers and every modern convenience, and the poorer districts have no proper facilities for delivering the groceries and household supplies, let alone sanitary conveniences. Something must be done to prevent this discrimination, giving the preference to localities already built upon."

The board will report on the matter.

Exhibition Stables.
 The stables at the exhibition will be pulled down and erected on Garrison Commons by day labor; it is alleged that the many difficulties standing in the way of making estimates offset the advantages.

Ald. Anderson made one more request for the board of control to go ahead and support Commissioner Harris' intention to construct a water main from the westerly limits of Queen street to E.D.H. avenue pumping station. The alderman has started the excuse of better fire protection, but others are opposed to mechanical filters. The alderman has started the suggestion for a subway at Royce ave. He also moved that the city go ahead and expropriate those portions of the Toronto Suburban Railway Company within the city limits.

The board of control will report on the advisability of reorganizing the police board to five members, consisting of the mayor, the county judge, appointee of Local Council of Women and appointee of board of Local Moral Reform Association.

Abolish Committees.
 The alderman's committee will be abolished. If Controller Foster has his way, when only three will be left, namely: Committee on works, property and

parcs and exhibition. He wants the legislation and reception committee merged in the board of control, fire and the property committee, except matters pertaining to fire department, which shall be transferred to board of control. The island committee should be merged into parks and exhibition.

Ald. Austin wants the treasury board abolished and the duties of that board included in the sphere of work taken up by the board of control.

Commission Government.
 Ald. Anderson said: "We will soon have commission government. Why not raise their salaries and expect them to devote more time to the city's business?"

Controller McCarthy: "The time will soon come when the members of the board will be required to devote their whole time, and council will assume the position of a legislative and checking body."

"We are often turning deputations away because they come to us with matters that should go to the committees."

"I would have obtained more pleasure out of my period of office as a controller had I been responsible for a department, not to take over the executive control of the work of this specific department, but to be responsible for the affairs of work accomplished and contemplated, and discrepancies."

Controller Foster supported his motion to have the board of control a step in the right direction.

Ald. Spence wants the controllers elected and to form a cabinet system of government in Toronto.

"The people in this city would get better service from the controllers if they were made responsible for any one particular department," declared the mayor. "It is simply beyond the scope of human brain to keep track of the city affairs of the city as a whole. I don't want to take the commissioner's job, but I should, as a controller, bear my own burden and be responsible to the electors if the department falls down."

Controller Maguire declared that the controller and reception committee work was too large to be vested in the board of control. He wanted it left as it is.

Ald. McBride wanted the system left as it is.

The matter was referred back to the board of control.

CITY WILL SPLIT PROFITS FROM SALE

Council Comes to Agreement Over Tax Lands Claimed By Horace Thorne.

The council came to a settlement in the matter of the sale of tax sale lots by the city, which were originally purchased by Horace Thorne, K.C. It would appear that when Mr. Thorne first purchased the land from the city he did not pay the necessary taxes. By means of the property to fall back into the hands of the city. He says that he was not aware of the debt against the land, otherwise he would have paid them.

Ald. McBride moved that the action instituted by Mr. Thorne to set aside the sale of these lands by the city, which are situated on East Gerrard street, at the southwest corner of Pape avenue, be not considered, and that the lands be sold to the best advantage and the proceeds to be used in payment in arrears of taxes on the property in question with interests and the balance be divided between the city and Mr. Thorne.

The property is reported to be worth \$15,000. The tax arrears amount to \$300.

WASTED MORE TIME OVER FAIR WAGE JOB

Motion to Repeal the Present Bylaw Was Killed by City Council.

The fair wage officers received considerable attention from the council. Ald. Robbins wants the appointee placed under the supervision of the board of control.

Ald. Sam McBride jumped at such an opportunity to hold forth on the iniquity of appointing a labor man. He wants the position left under the control of the city collector, which would entail less bias being entered into judgments. He resorted to his usual cry that it would be a chance for members of council to look for votes, but he was not going to lend his influence and vote to any change being made in the present appointment.

Ald. Raventhorn wants the position to be subservient to the city architect.

The majority of members said they would not give their support to the change unless Ald. Robbins could produce evidence that an injustice could be found in the administration of the office.

The motion to repeal the present bylaw failed in committee by a vote of 11 to 10.

Album of Aldermen.
 Ald. McMurich presented a council with an album containing photographs of members of council since 1851.

Against Selling Nurseries.
 A deputation, headed by J. D. Graham, attended the council meeting to protest against selling the city's lot at the corner of King and Dufferin streets to the Ormsby Safety Door Company. The purchasers of this land are paying a price which the city \$10,000 profit in advance of the original price. They guarantee to erect a building satisfactory to the requirements of the board of control.

Another Bylaw

"Are you in favor of applying for legislation to assess improvements on a lower basis than land?" is another question the council yesterday decided to submit to the people.

Two readings were given to all bylaws to be submitted to the electors on Jan. 1 next.

TOBOGGANING ON SUNDAY KILLED

Council Voted 16 to 6 Against It—No Discussion as to Bylaw.

Prospects of Sunday slides during the coming season were destroyed by the vote which was cast at the council meeting yesterday, which was as follows:

Controller Maguire, Controller Church, Ald. O'Neill, Ryding, McMurich, McBride—6.

Against—Mayor Hooken, Controller Foster, Controller McCarthy, Ald. Dunn, Anderson, May, Spence, Saunders, Robbins, Wainley, Austin, Yeoman, Weston, Hilton, McBrien, Graham—16.

There was no discussion on the feasibility of submitting the question to the vote which was cast by Ald. Sam McBride moved his motion because he had been promised support from some members of council. This he did not get.

Gibson Granted A Reserve Case

Court of Appeal Will Decide Upon the Admissibility of Eli Dunkelmann's Evidence.

Charles Gibson, convicted murderer of Joseph Rosenfeld, was granted a slight reprieve by Chief Justice Sir William Mulock yesterday, when he allowed Defence Counsel Aubrey Bond's motion for a reserved case, as to the admissibility of the evidence of Eli Dunkelmann. Should the court of appeal decide that the evidence should not have been admitted, another jury will be empaneled and Gibson given a new trial.

On the other hand, should the court conclude that Chief Justice Mulock was right in admitting such evidence, the chief justice will have no course but to pass the death sentence.

As Gibson has no money, Mr. Bond asked the chief justice for an order for the expense in connection with the appeal. "I make no application as far as I am personally concerned," said he, "but it is for the actual outlay in getting the evidence transcribed that I make application."

His lordship instructed Mr. Bond to apply to the attorney-general for the sum of \$2000, in payment of the costs of \$1900 each, made by Mr. Wainley to the Muskoka Free Hospital and the Toronto Free Hospital for Consumptives.

Public Works Contracts Let

Long Branch Ribs Range to Be Constructed at Cost of \$18,000.

OTTAWA, Nov. 25.—(Special.)—Several contracts for public works were awarded at this afternoon's sitting of the city council. The new ribs range at Long Branch is to be constructed by A. T. McKeester at a cost of \$18,000. To Mr. John Stockton was awarded the contract for the construction of the ribs range at Collinswood, the contract price being \$85,121.

Messrs. William Kennedy & Son of this side, an elaborate system of stop-log winches to the government at \$27,900 each.

The Future Toronto

It is expected that Mr. Home Smith's address to the Canadian Club tomorrow will contain much of interest to everybody who believes in Toronto. He is expected to speak of the city of tomorrow and of our duty in regard to the making of its future. As a member of the harbor commission and in other capacities Mr. Smith has shown constructive ability; he is known to view civic problems in a broad way; he is an excellent public speaker and his remarks should prove of real interest to all who would like to see Toronto developed on an intelligently conceived plan.

Explosion Kills Starch Workers

Estimates of Dead at Waukegan, Ill. Run From Three to Twelve—Victims Foreigners.

WAUKEGAN, Ill., Nov. 25.—(Can. Press)—An explosion which wrecked the starch plant of the Corn Products Co. at this place this afternoon killed between three and twelve starch workers, injured 27 others, several of whom will die, and caused about \$100,000 property damage.

Uncertainty as to the number of dead was caused by the inability of the firemen to search the burning ruins because of continued minor explosions. Edward Conrad, deputy in the Lake County coroner's office, was authority for the statement that 12 men at least had been trapped in the wrecked building.

Charles Ebert, superintendent of the starch house, said that only three men had been killed and 27 injured by the explosion.

Mr. Ebert admitted it was possible that additional workmen not employed in the starch house might have been caught in the explosion, but said this was improbable.

Some of the workmen killed or injured were Polish or Austrian.

British Paper Scores Borden Naval Policy

Result Will Be to Inspire Germany With New Suspicions, Says "Nation."

LONDON, Nov. 25.—(C. A. P.)—The Nation contains a wholehearted protest against the "vigorous organized endeavor to induce, incite or compel all parts of the empire to arm," and says the younger nations of the empire are thereby drawn into the vortex of the old. It incidentally trounces Borden for seeking to scare dollars from our countriesmen. It proceeds: "If these benevolences were really a spontaneous proceeding from a reasoned colonial policy, we would regard them with admiration and respect. But they will be to inspire Germany with new suspicions of our eagerness to increase our naval superiority."

The Nation insists Britain must never be suspected of saving money for domestic programs by shifting any part of Britain's burden as a European power to the shoulders of the dominion governments.

EVIDENCE OF WITNESS

Crown Adjourned the Inquest in Order to Get More Facts on Mrs. Smaleing's Death.

That two lives might have been spared if Dr. H. W. Aikens had gone to the assistance of Mrs. Joseph Smaleing, who supposedly took carbolic acid on Sunday morning, Nov. 17, was the one of the chief points of evidence taken at Coroner Hopkins' inquest last night. The evidence taken proved to be of such a sensational nature that the inquest was adjourned for the second time to allow of some investigation.

Mr. Smaleing, the husband of the dead woman and father of the unborn baby boy, is what clerk in the treatment home. According to the statement of Miss Minnie Gossard, the mistress of the house, there is a small street, he was in the habit of quarrelling with his wife when under the influence of liquor. "Come over," said Mrs. Smaleing, "I have a letter for you." She handed him a letter and he went to the room upstairs. "I ran upstairs," said Miss Gossard, "and informed Dr. Aikens 'Come over, there's a young lady who has taken poison.' I said, 'but he replied: 'Get an ambulance and send her to the hospital; that's the place for those people.'"

One Hour Passed.
 Mrs. Smaleing was taken to the emergency ward in St. Michael's Hospital, but it was 1:45 when Dr. James McCullough began to work with her, and according to the evidence, one hour had passed since the carbolic acid had been taken. Dr. McCullough told of what he and Dr. McVittie did for the woman, but said that she never regained consciousness. At 7:10 she died, and after that she never regained consciousness. The baby was a seven-months boy, but all efforts to bring it to life proved fruitless.

"Do you think this woman's life might have been spared if a doctor had immediately attended her at the house?" asked Coroner Hopkins.

"She could be taken to the hospital before a doctor could get his instruments together," said Dr. McCullough.

The inquest will be resumed next Monday.

Both Smaleing and Miss Gossard have lawyers looking after their interests.

DELAY OF AN HOUR IN TREATING WOMAN

Dr. H. W. Aikens Said to Have Refused to Attend a Case of Attempted Suicide.

APPLYING NOW FOR INDUSTRIAL SITES

and waterways are accessible to every section of it.

The entire harbor is to be deepened to 24 feet instead of 14 feet as at present, but the inshore docking arrangements must necessarily be left until plans are done with regard to the steam lines bordering it. A sea wall will extend three miles to the east from the present eastern gap, and two miles to the west from the east. Adjacent to this is a boulevard drive 50 feet wide with a 10 foot walk on each side. An elaborate system of lagoons, island studded, forms a continuous sheltered passage for small craft between the harbor and the eastern gap with a 200 foot bastion bridge continuing along the southern shore of the island to the western channel.

Grand Start.
 "This project is not chimeric," explained Mr. Spence. "Why applications are coming in for factory sites already, and the entire industrial property will be taken up as fast as we can build them. By means of the steam docks with modern warehouses; 350 acres of waterfront park; a boulevard drive of 11 miles and sheltered waterway for small craft 12 miles in extent."

For the formation of the new land in the 200 foot section, 22,000,000 cubic yards of sand will be required, which will be delivered 4000 feet away by zero depth dredging. By means of the sand, 28,000 tons per day. This territory will be so divided that adequate rail pump will come in for factory sites to Hanlan's Point.

At the western end of the harbor, south of the western channel, 70 acres have been given by the government to Bathurst street will be continued down to the island boulevard drive, so that any citizen will be able to get from any corner of the city to Toronto island for a 4-cent fare.

The present sea-wall at Sunnyside is 200 feet from the shore. It is the commission's intention to build a wall from the western gap to the Humber, with apertures every 2000 feet, with feet from the shore. Thus a protected boating channel will be formed from the extreme east to the Humber, an extent of 18 miles.

The plans for the transformation of Sunnyside are very clear. Eighty feet is given to radial railways; a newly-laid road of 65 feet extends from the Humber to Rosnyvalles avenue. South of this is a strip reserved for amusements, etc., then comes a promenade 30 feet wide, outside of which a sloping 60 feet beach will extend to mile and a half, one of the finest on the continent.

The total cost to the city will average less than \$2000 per acre for the 894 acres of newly-made park area. In city will be asked to build a bridge over the Don, costing \$70,000, and a \$70,000 wall at the Exhibition grounds. The total cost has been estimated, even to the cent, at \$158,333.40.

At the close of the address Mr. Cousins spoke briefly, answering the queries of the audience, and outlining the different opinions as to the best method before a doctor could get his instruments together, said Dr. McCullough.

In his report of the post-mortem examination, Dr. Thompson gave a different opinion when asked this same question. "My opinion," said Dr. Thompson, "is that she was dead when I was treating this case at the hospital, as an hour had passed since the taking of the poison. There would be a far greater possibility of saving her life if she had been attended to at the hospital before a doctor could get his instruments together," said Dr. McCullough.

"Should you have waited until the mother was dead before performing

CHEQUE FOR SANITARIUM.

The National Sanitarium Association has received from the National Trust Co., as executors of the estate of the late Thomas Wainley, the well-known insurance broker, who died last March, the sum of \$2000, in payment of the bequests of \$1900 each, made by Mr. Wainley to the Muskoka Free Hospital and the Toronto Free Hospital for Consumptives.

HOW TIME IS WASTED

Aldermen Talked and Talked on Minor Questions, With the Result That Council Had To Adjourn Until This Afternoon.

Talk seemed the dominant motive of many members of council at its meeting yesterday, when many useless dilations destroyed the effectiveness of the debates on various questions that in reality necessitated but little discussion, as they would invariably have to be referred to the board of control for further consideration and information.

Hours were wasted on questions of greater importance were placed under the ineffective fire of the more verbose aldermen, more particularly Aldermen McBride and Robinson, to be subsequently left over until today's resumption of proceedings.

Controller Foster's motion to abolish the smaller committees, a comparatively unimportant matter, considering the proximity of the elections and the many important bylaws and questions to come before the electors, was given precedence over the latter, and it was on this question that the members exercised their garrulous propensities.

At times the corridors of the hall veritably resounded with the rattle of voices. Some wanted to go home; others wanted to stay, while others rights and privileges, with the result that the decorum naturally looked for in such an assembly seemed a thing almost unheard of.

The members of council were informed that the matters yet to be dealt with were of such import that they necessitated proper care and minute attention, and therefore perhaps it was better that they adjourn the meeting until this afternoon. This was emphatically proposed by members, among whom were those whose lengthy talks had brought about the distasteful state of affairs, and who loudly called for the meeting to continue until at last it got out of the control of Alderman Ryding, who was chairman of the committee of the whole.

A greater interest in the proceedings by Alderman Robbins would have permitted a vote being taken of the proposed bylaw to be submitted to the electors asking for \$100,000 for the good roads commission. He waited until the matter had been discussed at length and then succeeded in getting a majority for an adjournment of the meeting before a vote on the bylaw could be taken.

The mayor has important business at Ottawa, and the new state of affairs may detain him here.

ELECTRIC LINES WILL ENMESH THE NORTH

harbor on Lake Superior and coming in on the benefits of the proposed Dominion Government projects. From there the line will run west to the Manitoba border, to be covered by the charter now applied for in the western province.

On the east and covered by the Quebec charter will be a line running from the border, 190 miles, to a point on the G. T. P. Transcontinental system, and midway from this section a line will run southeast to Mont Laurier, connecting there with the C.P.R. to Montreal. A still further projection will run northeast to Quebec City, passing close to Three Rivers.

Many connections.

Thus an electric railway will run from Quebec to Winnipeg with line running thru a country not served by any of the three great transcontinental steam roads, but with connections with all of them at at least one point of junction. In Quebec and in Ontario as far west as Nipigon, the line will run between that of the G. T. P. on the north and the C. N. R. on the south. As yet there is no line from Nipigon to Winnipeg which will be run upon a survey made a few years ago by Sir Sandford Fleming.

Nine Junctions.
 This will give six junctions with other roads in addition to the triple connections at Quebec, where it will meet the G. T. P., the C. P. R. and the C. N. R. In addition to connections with several roads now running into Winnipeg, there will be these there will be a junction with the C. P. R. and C. N. R. at Nipigon.

Running Rights.
 The piece of road which is to be immediately surveyed and constructed will stretch from Larder Lake south-east to North Timiskaming, where it will join the C. P. R. now being pushed north from Mattawa. This line will intersect the T. and knowledge and research. Foreign Capital.
 Considerable foreign capital has been interested in the project, and is represented upon the directorate by S. P. Dallas, Toronto, vice-president of the company. The president of the company is F. G. Earl, New York City. Richard Mallet, Dublin, Ireland, and W. J. James, Allandale, Ont., are also vice-presidents. Henry Rowland, a member of the city council, secretary-treasurer.

FOOT BADLY CRUSHED
 Victor Burns, aged 23, a married man living at 82 Allan street, had his left foot badly crushed between two freight cars on the C.P.R. near Lockport, last night as he was brought to Toronto on the train en route to the Western Frontiers.

YEAR'S RACING ON CANADIAN TRACKS

All Records Broken in Regard to Distribution of Money, Which Was \$684,900.

HALF MILERS' SUCCESS

British Columbia Meetings Ran Over the Allotted Seven Days Regardless of Miller Bill.

During the season that recently came to a close, Canadian racing continued to regain the ground lost when the Miller bill, under the provisions of which the sport is now conducted, became effective in 1912.

The continued suspension of racing on the metropolitan course of New York State again played an important part in the success of the Canadian season and was a great factor in the financial prosperity that attended the various meetings.

The Canadian Racing Association's track made a better daily average showing than any other, their totals remain materially less than those of the Miller bill.

The prospects for next season are even better. The Canadian Racing Association will be strengthened by the addition of the Ontario and Quebec clubs, whose new course at Ottawa will be opened in the spring.

The following table shows the money was distributed during the season of 1913 on the various tracks of Canada:

The success of the Schorr stable was one of the outstanding features of the season. R. T. Wilson and August Belmont, prominent New York racing men, are third and fourth respectively.

Ban Johnson Sends J. M. Ward's Thousand Dollars and Withdraws Appeal in Libel.

NEW YORK, Nov. 23.—Ban Johnson, president of the American League, has settled the libel suit brought against him by John M. Ward. The case was on the calendar of the United States Circuit Court of Appeals. Johnson withdrew his appeal and sent a cheque for \$1000, the full amount of damages awarded in the lower court, to Ward, who thereby received a complete vindication.

The suit grew out of Ward's candidacy for the office of president of the National League in December, 1910. Johnson in a public statement declared that he was not standing for Ward's election and would not stand for Ward as a member of the National Baseball Commission. Johnson explained his hostile attitude by declaring that Ward had been a troika in his had induced Player George S. Davis to sign with the Giants ten years ago. Although Davis was bound by a contract approved by Ward to accept an engagement with Chicago White Sox. Partly because of Johnson's opposition, Ward was unable to secure more than four votes. AUTO POLO GAME IS A REAL THRILLER

NEW YORK, Nov. 25.—There's a new game in town. They call it auto polo, and it's more thrilling, as all who attended a private exhibition at American League Park yesterday afternoon can testify. Auto polo, as the name implies, is polo with automobiles instead of horses. Only two machines are used—one on each side and the number is quite sufficient. More cars would be in the way. Cars are manned by two persons each—one to drive and the other to wield the mallet. These cars are of the runabout type, stripped down to the chassis, with a running board on the side and a hoop-like contrivance immediately back of the seat. That hoop is quite necessary, and it plays its part when the car turns over, if it wasn't for the hoop there wouldn't be any auto polo; players would be put out of commission faster than they could be engaged. The man who does the playing stands on the running board, or when the opportunity affords, takes his seat alongside the driver. Little time is found for sitting. The mallet used is shorter than the regulation polo mallet and weighs a trifle more than two pounds. When the game begins, the opposing automobiles start from immediately between their goal posts, and at a given signal dash for the centre of the field, where the ball has been placed by the referee. This ball is made of leather and is a trifle smaller than the usual basket ball. The game is portended into five five-minute periods, and as time is taken out by the spectators are ensured that the game is not a long one. The fifty minutes of excitement, points are scored when the ball is driven between the goal posts. The game yesterday, because of the lateness in getting started, was limited to three periods, but it had not been under way many seconds before the spectators were in an uproar. With the mallet the cars lunge forward like things of life and went thundering toward each other, head on. During the few brief seconds when the players cover the intervening space every one held his breath in anticipation of the crash that seemed inevitable. The car crashed the objective point almost simultaneously, and the drivers swerved just enough to clear and give the players a chance to wield their mallets. The way it all unfolded was so exciting that the spectators were on their feet, while the opposition consisted of Ross King and Clyde Ferrer, the last named doing the driving. The manoeuvring in rushing, blocking and dribbling calls for skill. In fact, participation in the game, as one who tried it later in the day declared, demanded a skill to escape the thousand and one dangerous situations, the latter were forgotten in the excitement of the conflict, while the general sensation of darting higher and thither—now forward, now backward—and then swerving round on two wheels, was delightfully thrilling. The real excitement came toward the end of the first period, when King's car in attempting too sharp a turn, rolled over on its side. In some seemingly injured, and in a trice had their car upright and off again, full of fight. When about to start the last period an accident occurred to a tire on Sterling's machine. He was at the far end of the field at the time, but it required only four and a half minutes to replace the old shoe with a new one. The game was on again, and Sterling's team had won by 3 goals to 2. The game was first introduced in the west a short time ago, and at once became popular in such places as Kansas City, Des Moines, Wichita, St. Joseph, Lincoln and Detroit. It was at the latter city that William Poth, connected with the Garden Athletic Club, first saw auto polo. In fact, he made a special trip from New York there to see for himself. He at once became enthusiastic, and it was at his suggestion that R. J. Marino and R. A. Hankinson, the originators of auto polo, were induced to come east. They say that the game will be at least thirty per cent faster in the Garden than it was on the grass yesterday, for the reason that the cars will start and turn quicker, besides giving the contestants a chance to play the ball off the side walls at all sorts of angles.

TUESDAY MORNING, NOV. 26, 1913

UP WITH THE LANDLORD; DOWN WITH THE TENANT.

The Telegram is strong on giving seven votes to the landlord and no vote to the tenant.

The Telegram also continues its absurd contention that the house with a tenant's vote would have two votes, while the house occupied by the owner would only have one vote.

The Telegram will find it difficult to discover any examples of this kind. There are few people who would meet the case. The Telegram has invented an argument against giving the tenant who pays the taxes a vote. But the Telegram does not hesitate at the intention to deceive.

A house could only have two votes in cases where the landlord did not live in his own house, but was a lodger in some other place in the same ward, and claimed a vote on his rented property. Are there any such cases? Scarcely one, but the Telegram thinks it can fool its readers by supposing things.

A landlord can only have one vote in each ward. If he lives in his own house he votes on that. He cannot vote again on his tenants' houses unless he is a repeater. If he has property in the other six wards he can claim a vote in each. The Telegram is very solicitous for this privilege. As the Star puts it, The Telegram is more anxious for mud than for men. If it does not want the 33,000 tenants of the city to say what should be done with the taxes they pay.

MR. FORMAN'S REPORT

Commissioner Forman's rejection of the tax reform principle is based, if on anything, on a denial of the soundness of the belief of tax reformers that the incidence of taxation on land, instead of on improvements, would tend to solidify the real estate situation. In other words, Mr. Forman doubts the ultimate success of the plan. To exempt buildings from taxation, he declares, "is, in a measure, to drop the substance for the shadow." The new generation of tax officials look on land as the substance, and a good many of the old generation do so also. The force of experience elsewhere, and to some extent, in his own experience, forces from Mr. Forman the admission, however, that "were it not for the needs of the city, and speaking personally I would favor a lower rate of assessment on the value of improvements."

If the theory of placing all the taxation on land and exempting improvements be correct, it would lead to regular and uniform occupation of the land in the order of its convenience, and bring about, to a great extent, a much needed relief from suburban real estate speculation. As a result there could be no setback at any time in values, for the speculative values would be eliminated, and only the actual demand or market values would hold, and they would be relatively permanent.

Mr. Forman doubts the value of the theory and he looks forward to a "breaking of the boom" time in the western municipalities where tax reform has been adopted. If there be no artificial exaltation of prices, no boom, in fact, there will be no subsequent period of depression. This is what tax reform is largely intended to bring about, but Mr. Forman doubts its efficacy.

Those who are satisfied with its operation so far will be disappointed to find Mr. Forman lining himself up with the land speculators, the boomsters and the real estate butchers, who are all dead against having taxes levied anywhere, till they see their way to unload them on those who come after. He is the friend of the land holder rather than of the land improver.

Mr. Forman takes the ground that it is the buildings that are the cause of taxes being levied at all. If there were no buildings there would be no taxes, he says, "rendering necessary, as they do, fire and police protection, schools and in fact all civic services."

This line of reasoning indicates an attitude of mind which we are accustomed to in the street railway and some other big corporations, but we had scarcely expected to find in the tax assessor. The elementary principle that land is valuable according to the use it is put to, and that land with a building is more valuable than land without a building or buildings near it, and should be taxed accordingly, seems sufficiently simple for a child to understand.

But Mr. Forman hesitates to make the rash and daring experiment of admitting as much. And of course the owners of vacant land, or of land with poor buildings upon it, which is im-

mensely valuable on account of its situation and of the big buildings next door, these owners object exceedingly, and they will be correspondingly pleased with Mr. Forman's adhesion to their views.

The issue is narrowed by Mr. Forman's report to a doubt as to whether the tax reform, placing all tax values on the land, would have the effect of preventing speculation in land at prices not actually warranted by the demand. If the tax reform had the effect its advocates allege, then Mr. Forman has not a leg to stand upon.

Commissioner Harris of Winnipeg states that the exception of improvements has a centralizing influence in the location of buildings. This is what The Telegram, the Street Railway Company and its "genial manager," the land speculators and the speculative interests generally are all against. Has Mr. Forman not got among the wrong crowd?

CANADIAN LAND PROMOTION.

Miss Agnes C. Laut, a Canadian writer of stories and fiction, has taken on a new role, that of real estate expert. In the last issue of The Philadelphia Saturday Evening Post, this lady writer essays to state the Atlantic to the Pacific in a most unmerciful manner. We must give credit to Miss Laut for revamping the opinions of many critics, both in Canada and in Britain, for roundly criticizing many of the Western Canada real estate subdivisions, but when she attempts to put Toronto and Montreal real estate in the same category as that miles away from little by-stations on the transcontinental railways, Miss Laut has evidently allowed her enthusiasm to run away with her judgment. There is no business man in Canada but condemns the selling of building lots around hundreds of small settlements in the west. With a few exceptions it is known that these settlements will never amount to anything more than distributing points for a surrounding farm community. Even some of the large western cities and towns are laid out to accommodate populations far in excess of that of Montreal and Toronto, and investors in these properties, unless they are close in, will find themselves possessors of nothing but empty parcels of taxes.

When Miss Laut attempts to decry Toronto and Montreal subdivisions, she should be more specific. Those who know the outskirts of this city recognize that the subdivision promoter has been moderate in his anticipation. Toronto at present is unable to house its population properly, and with a yearly increment of 30,000 people or more, new areas are necessary to provide the accommodation. Toronto will double its population in fewer years than some pessimists imagine, and subdivisions now occupied will be overrun. Toronto subdividers have endeavored to keep legitimately ahead of the public demand and cannot be classed with those who attempt to divert prairie land from its natural purposes.

SHORT TIME LEFT TO OBTAIN A BIBLE

Judging from the large number of certificates redeemed the last week, it now looks as though the last of the Bibles will be gone in a day or two. Owing to the fact that there will be only a few days remaining for the distribution of The Toronto World's \$5 Bible only one certificate instead of six, as heretofore, is required.

Tell your friends about this great offer. Let them know there are only a few more days of this distribution. There are both Catholic and Protestant editions to select from in two styles of binding, the only difference being that the Catholic edition contains the full page engravings, approved by the church, without the Tinsot and text illustrations. The Diocesan statutes urge every Catholic to have a copy of the Holy Scriptures, and this edition enables all to comply therewith.

In the Protestant edition the pictures are printed in with the type, so that they make plain the meaning of many obscure passages. Every man, woman and child should have this Bible, whether they belong to a religious organization or not.

Only a few days now remain, and readers are urged to clip the certificate and present it at the earliest possible moment. Find today's certificate printed on another page of this issue.

FINED FOR SHOOTING BOY.

ST. CATHARINES, Nov. 25.—(Special.)—Staford Jen was found guilty today of shooting Charles Romancy, a delivery boy, on Thanksgiving Day. Judge Carman allowed Jen to go on with costs, and assessed him suspended sentence, and assessed him with costs the amount of \$30.

Sent No Letters to Senators.

John Galbraith, who argued in a letter to Le Devor, that parliament had no power to appropriate any part of the consolidated revenue for a contribution to the imperial government, denies that he sent communications to members of the senate.

A Superb Christmas Box.

A copy of the new illuminated Bible, bound in limp leather, with overlapping edges and gold lettering, would make a suitable Christmas gift. The certificate for the Bible will be discontinued after Saturday next.

ANNOUNCEMENTS.

Nov. 26, 1913. Judge's chambers will be held on Tuesday, 26th inst. at 11 a.m. November sittings of divisional court concluded. Foreclosure list for court of appeal for Tuesday, 26th inst. at 11 a.m.: 1. Rex v. St. Clair (to be continued). 2. Rex v. Bachrach. 3. Rex City of Toronto and Toronto and York Radial Ry. Co. 4. Pearson v. Adams. 5. Hitchcock v. Sykes.

Master's Chambers.

Before J. S. Cartwright, K.C. Master. Rex v. Thompson—W. M. Hall, defendant. J. T. White for plaintiff. Motion by plaintiff for further production of plaintiff and for further examination for discovery. Judgment: I am unable to see how what is asked for is relevant to the issues on the pleadings, or how it can advance defendant's case or destroy plaintiff's. At present the motion fails and must be dismissed with costs to plaintiff in the cause. Jencks Machine Co. v. Weatherly Brown (Guelph) for plaintiff. Motion by plaintiff for substitution of service of writ of summons herein by registered letter. Order made.

Smith v. Bander—H. S. Merton for plaintiff. J. T. Loftus for defendant. Motion by defendant for judgment under C. R. 602. At defendant's request motion enlarged until 27th inst. he undertakes to produce defendant's costs reserved to taxing officer on final taxation.

Defendant and Commercial Travelers' Mutual Benefit Society—O. H. King for the society. Motion by the society for judgment under C. R. 602. Order made for payment in less costs, fixed at \$20. Notice to be given to claimants.

Judge's Chambers.

Before Kelly, J. Rex v. Cook—F. Haverson, K.C. for defendant. Motion by defendant for an order quashing a conviction for being found upon a public place in an intoxicated condition owing to the drinking of liquor in a municipality in which what is known to be a public place is in force. Judgment: I am unable to agree with the contents set up that the railway company refused to place where alone the accused was found intoxicated at the time in question, is a public place within the meaning of section 13 of the amending act, and the conviction on that ground alone, apart from any other, must be quashed. The magistrates are protected.

Single Court.

Before Middleton, J. Re Windatt and the Georgian Bay and Seaboard Railway Co.—N. W. Howell, K.C. for plaintiff. S. Denton, K.C. for the railway company. Motion by each party to set aside the award made by three arbitrators, dated June 25 last. Judgment: It is conceded by counsel that in view of the fact that the award cannot stand, and I have therefore no course open to me but to set aside the award. As each party has attacked the award and neither has attempted to support it, I do so without costs. The land owner requests that the award and neither objects that I make some provision respecting the costs of the arbitration. I have come to the conclusion that I have no jurisdiction and even if I had I would not under the circumstances make any order, but would simply leave the parties to their legal rights. If the award is wrong, an appeal will lie, but both parties elect to accept the award, the there was certainly no moral misconduct on the part of the third arbitrator, who in his desire to end an unreasonably expensive litigation, may have technically erred. Mowat v. City of Ottawa—H. M. Clarey, K.C. for plaintiff. Motion by defendant. Motion by plaintiff for an order continuing the injunction herein. Motion dismissed. Costs reserved.

Single Court.

Before Garrow, J.A.; Maclaren, J.A.; Meredith, J.A.; Magee, J.A.; Rex v. Mansell—H. Ludwig, K.C. and J. MacGregor, for defendant; E. Bayly, K.C. for the crown. Motion by defendant for an order directing hitting George D. Lawrie, police man, to enquire into, investigate, or try or otherwise act upon or in connection with a certain information or complaint against one Egerton Rea, charged with the theft of a horse, the property of William J. Rea. The order complained of dismissed the application. Appeal argued. Judgment reserved.

This completed the November sittings of the court.

Court of Appeal.

Before Garrow, J.A.; Maclaren, J.A.; Meredith, J.A.; Magee, J.A.; Rex v. Mansell—H. Ludwig, K.C. and J. MacGregor, for defendant; E. Bayly, K.C. for the crown. Motion by defendant for an order directing hitting George D. Lawrie, police man, to enquire into, investigate, or try or otherwise act upon or in connection with a certain information or complaint against one Egerton Rea, charged with the theft of a horse, the property of William J. Rea. The order complained of dismissed the application. Appeal argued. Judgment reserved.

Herron v. Toronto Railway Co.—H. H. Dewar, K.C. for defendants; A. MacGregor for plaintiff. An appeal by defendant from the judgment of a divisional court directing a new trial, the action having been dismissed at the trial on the answers of the jury to the questions submitted to them. Argument of appeal resumed from Saturday last concluded. Judgment reserved.

Dinnick v. McCallum and the City of Toronto—W. C. Chisholm, K.C. for plaintiff; G. R. Geary, K.C. for defendant. An appeal by plaintiff from the judgment of a divisional court, dismissing an application for a mandamus compelling defendants to issue a building permit to plaintiff for the erection of an apartment house at the northeast corner of Avenue road and St. Clair avenue, Toronto. Appeal argued and judgment reserved.

Rex v. St. Clair—W. E. Raney, K.C. for defendant; J. R. Cartwright, K.C. for the crown. A case stated by Denison, J.J. of the County of York, by whom defendant was convicted on a literature. Appeal partially argued, but not concluded.

U. S. WARSHIPS MAY LEAVE GREAT LAKES

Eight-Hour Law Causes Shipbuilding Firms to Refuse to Sign Repair Contracts.

WASHINGTON, Nov. 25.—(Can. Press.)—All United States naval vessels may be withdrawn from the great lakes as a result of a refusal of the shipbuilding companies on the lakes to enter into repair contracts with the navy department on account of their hostility to the eight hour law. The lake plants are operated on a ten-hour basis, and, although Attorney-General Wickersham ruled that a company working on a government contract could use its men on other work after the employing them eight hours after the government job, none of the companies a contract from the department. The navy department has endeavored to employ them eight hours after the government job, none of the companies a contract from the department. THE VERY NEWEST NEGLECTE.

Every woman really wants to see herself dressed "a la Turque." This charming negligee will accomplish this easily and will prove a desirable garment for those who try it.

The material used for the one sketched is figured and plain China silk. The cut of the garment is similar to the "crepeur" made for children, and is put on over the head, tied at the neck with a gilt ribbon, and buttoned from ankle to ankle with snap fasteners.

The two large buttons are connected under the front panel by a wide ribbon, and the girle is stitched under one button and fastened under the other after putting on the garment. This arrangement can be replaced by a soft sash with good effect.

Other People's Children

No, I know you are not directly concerned with the bringing up of other people's children; yet I venture to talk about them in this, your column.

As a taxpayer and a citizen you have an interest in every child in the city, and as a parent you are intimately concerned with the training of your children's associates. It is very important that parents know something of the playmates and companions that their children spend much time with every day. Fathers and mothers who believe in keeping close to their children's interests know that there is always a reason for companionship; if you can understand the reason why Jack likes to associate with a boy you never dreamed could care for you, you will understand the influence companionship has on his life.

Now that does not mean that you are to torment poor Jack with comments, or bombard him with questions concerning his new chum. A certain sensible latitude must be allowed, else you will make the boy antagonistic, or entirely dependent. The best, in fact, is to have the child's interests in mind, and to do so with whom he is, is to keep fast his confidence in you. If father and mother are the best chums children have, they are sure to know all about the other companions.

It is perfectly natural to make comparisons, but it is not wise to criticize other people's children in the hearing of your own. Nor is it an unqualified duty to the "creepers" of children, and neighbor continually held up to him as a shining example of what should be done from a child's point of view. Companionship is very strong, and a child should be deprived of friendship with children. Rather encourage it under reasonable oversight. When your child goes out, remember, he joins the throng of other people's children, and other people think of him and you, what your training leads them to think.

HOME HELPS

It frequently happens that painters splash the glass windows when this is the case melt some soda in very hot water and wash the glass with it, using a soft flannel. It will entirely remove the paint.

A simple and excellent way to remove dirty marks from a raincoat is to cut a raw potato in slices and rub it well on the marks.

When using marking ink for linen, first make your initials on the linen with an ordinary lead pencil, and then trace with your ink over the pencil marks. The pencil will prevent the ink from bleeding, and give the linen a blotted appearance.

To take machine oil out of white materials dip the spot into cold water while it is fresh.

Never allow a cooking utensil to stand and dry before washing. Put cold water in it immediately.

If windows stick rub a little melted lard on the sash cord and between the frame and casing.

Christmas Ideas

What to give a rich girl who has money enough to buy all she wants is always a problem at Christmastime. Last year a girl of this sort settled the question for herself, and the way she did it may apply to others. She asked her friends if they would give her before Christmas something suitable for a child, instead of getting something for herself. These friends entered into the spirit of her wish, and the result was that a number of children were made unexpectedly happy. Moreover, the girl herself said that it was the happiest Christmas in her life.

A pin cushion and sewing-bag combination will make a pretty Christmas present. Cut in halves a piece of silk ribbon five inches wide and one yard long. Sew the pieces together, one on the other, in the middle, making a little pin cushion four inches by five; the piece of ribbon serves as the top, the other the bottom. Stuff the cushion with cotton. Make a bag on each side of the cushion by sewing up the ends, leaving one or two inches open on each side. Sew the ends of the cushion large enough for a tassel to carry thread, thimble, etc.

For Christmas Giving

Christmas is now less than one month away; thousands of people are puzzling their brains to think of some gift to present to friends and relatives.

The gift that is always suitable, always practical and always appreciated, is a copy of the book, "The World as You See It," which is distributed by the World, which is a gift that is always suitable, always practical and always appreciated. When you can secure one that is difficult to get, and which is a present that you can give with a great deal more assurance than you can the ordinary stereotyped book. The handsome illustrated hand Bible now being distributed by the World, will make a suitable Christmas present for the cash-poor. It is a book that is always suitable, always practical and always appreciated. CATTLE STEADY IN MONTREAL

Supply Was Large, But Steady... Feeling Prevailed—Hogs... Up 25c Per Hundred Pounds.

MONTREAL, Nov. 25.—At the Montreal Stock Yards, West End Market, the receipts of live stock for the week ended Nov. 23 were 230 cattle, 125 sheep and lambs, 230 hogs and 70 calves, while the offerings on this morning were 150 cattle, 150 sheep and lambs, 160 hogs and 65 calves.

There were no further changes in the condition of the market for sheep and lambs, but the market was strong and prices have an upward tendency on account of the continued demand from butchers and packers. Calves were active. The demand for packers was stronger and prices advanced 25c per cwt. The demand for packers was stronger and prices advanced 25c per cwt.

Buffalo Live Stock. EAST BUFFALO, Nov. 25.—Cattle—Receipts, 600; fairly active and 15c to 25c. Prime steers, \$8.50 to \$9.25; butchers, \$6.75 to \$8.00; bulls, \$4.25 to \$5; stock heifers, \$4.25 to \$4.50; shipping, \$7.50 to \$8; medium, \$4.50 to \$5; cows, \$3.50 to \$4.50; active and firm, at \$5 to \$5.50.

Liverpool Cattle. LIVERPOOL, Nov. 25.—John Rogers & Co. cable that trade in Birkenhead today was quiet, about the same, the demand is good and quotations may be given the same as Saturday, say 11 1/2c to 12c per lb. for fresh steers.

Chicago Live Stock. CHICAGO, Nov. 25.—Cattle—Receipts, 1,000; market strong. Steers, \$2.35 to \$3.10; cows and heifers, \$2.70 to \$3.50; sheep, \$2 to \$3. Hogs—Receipts, 4,000; market weak; light, \$7.45 to \$7.90; mixed, \$7.40 to \$7.85; heavy, \$7.35 to \$7.80; rough, \$7.20 to \$7.65; pigs, \$5.75 to \$5.85; bulk of sales, \$5.45 to \$5.75.

MONTREAL GRAIN AND PRODUCE. MONTREAL, Nov. 25.—Cables on Manitoba spring wheat came strong at an advance of 4 1/2c to 5c. The demand was good, but owing to the higher price ruling in Winnipeg the volume of business done was small. The local trade in corn was active and firm. Demand for cheese increasing and more orders being received for fall season supplies than in previous months.

How to Cure Horse Distemper. An Experienced Horseman Satisfactorily as Nerviline. Says Nerviline is Fine Liniment. "After fifty years' experience in raising horses I can safely testify that no remedy gives such good results for an all-round stable liniment as Nerviline. This opens the very earnest letter of J. J. Evanson, who lives near Wellington, Ontario, a very valuable horse that took distemper a month ago and was afraid I was going to lose him. His throat swelled and his lungs developed. His nostrils ran and he had a terrible cough. I tried different remedies, but was unable to relieve my horse until I used Nerviline. I started to use Nerviline. I mixed a bottle of Nerviline with sweet oil and rubbed the mixture on his throat and chest three times a day, and you would scarcely believe the way that horse picked up. Nerviline cured him. I also have used Nerviline for colic in horses and cows, and earnestly recommend it to every man that is raising horses."

WINNIPEG GRAIN MARKET. WINNIPEG, Nov. 25.—Wheat—The wheat market was decidedly unsettled and prices boomed during the earlier part of business hours. Demand was improved. The political situation in Europe was the influencing factor, causing uneasiness. The opening was 1/2c to 3/4c higher, and advanced steadily to 1 1/2c, which was not maintained, however. The close showed a main of 1/2c for the day. Cash demand was good and prices higher. Offerings were light. Export houses bought moderately. Oats and flax advanced in sympathy with wheat. Oats closed 1/2c to 3/4c, and flax to 1 1/2c higher.

YORK COUNTY AND SUBURBS COUNTY COUNCIL MEETING AGAIN. Industrial Home Will Have to Be Enlarged—Arranging Warden's Banquet. The council of the County of York started to hold their annual session yesterday afternoon, and on opening the meeting of Warden Gardhouse welcomed the members back after having called hard in the harvest fields since the June session. He deplored the fact that many contracts are under construction, but owing to the state of the weather he was afraid that these contracts will not be finished this fall. He urged the members to be prompt in their attendance, as a large amount of work is on hand for their deliberation.

HARD TIMES? NO SAYS CARNEGIE. Human Race Climbing Upward and Women Are Little Lower Than Angels, Opines Oracle. NEW YORK, Nov. 25.—(Can. Press.)—"The universe is well," according to a sweeping diagnosis of affairs which Andrew Carnegie made in a genial philosophical mood on his 77th birthday today. He said that anyone who believed the country was going "to the bow-wows" was sadly mistaken. "We pick out our own kings," he said, "in comment upon the elections, and we always pick good ones."

SAVES HOLDING THE LINE. The present arrangement of the telephone instrument which occupies at least one hand of each of the persons on the street is now being improved in the invention of an Englishman who has devised a simple arrangement for freeing both hands, and thereby saving time. In "holding the line" one places the "holding the line" device on a platform which presses the complete against the receiver on a platform against the small end of a sound-magnifying trumpet. The trumpet, not unlike a flattened motor car horn in shape, talks out into the air, enabling one to hear while leaving both hands free for looking up references or filling the waiting time in any other way.

Cobalt Stocks Are in Active Demand—Peterson Soars Again

WARISCARE IS UTILIZED TO MARK UP WHEAT PRICES AGAIN

Chicago Pit Had Rumors of Ugly Developments in Europe and Market Scored Advance Thereby—Corn and Oats Showed Firm Tone.

CHICAGO, Nov. 25.—Excited upturns in wheat quotations today on account of unconfirmed war rumors brought about heavy sales presumed to be for leading holders. The market closed nervous at an advance of 1-3/4 to 2-1/4 net. In corn the outcome varied from 1-1/2 lower to a shade up, and provisions irregular, strong up from a slight decline to a rise of 1-1/2 to 2-1/4 net.

Notwithstanding that the principal owners of wheat sold on bulges, speculative longs increased in number and courage. Ordinary influences were ignored and the market awayed according to the latest talk in regard to probable closing of the Dardanelles or concerning an armistice for a week before the close and resulted from reports of an outpost clash on the Austro-Serbian frontier. Absence of foreign demand for shipments of the United States proved the chief handicap for the bulls.

Rural selling of December delivery weighed on the corn market while wheat strength borrowed from what faded away. The close was easy, a shade up. Cash grades were weak.

Smallness of primary arrivals had a sustaining effect on oats.

Provisions developed steadiness owing to chances for greater export call.

BANK CLEARINGS OF THE CONTINENT

Standing of the Principal Cities Last Week—Toronto in Eleventh Rank—A Fair Showing.

The record of bank clearings for last week at all cities of the North American Continent shows further adjustment in the standing of the Canadian centres. Montreal ousted from its former position by San Francisco, the eastern city ranking eighth last week, the poorest showing in some time in Winnipeg and Toronto, on the other hand, manifested improvement, both beating out Baltimore, and moving into tenth and eleventh positions, respectively. For the second week in succession, the money market surpassed that of Toronto.

In point of percentage gain over last year, San Francisco led the list, as usual, reporting an increase of 17.3 per cent. The largest gain in the Dominion was in Regina, where the clearings improved 10.9 per cent.

The detailed record follows:

City	1913	1912	% Change
New York	212,577,000	183,994,144	15.0
Chicago	225,250,000	235,470,929	5.3
Boston	22,500,000	22,237,288	1.2
Philadelphia	18,043,286	18,727,677	3.6
St. Louis	15,977,279	15,232,266	4.8

CROPS MOVING AND ITS EFFECT UPON BANK CLEARINGS

Figures Are Running Well Over Last Year, But Not Up to Recent Records.

Crop-moving exercises in the Dominion are being reflected in our own record in the bank clearings, which are still running considerably under recent records, owing to the fact that the bulk of the money market is being diverted to the west. Last week clearings in Canada, with a gain of 1.5 per cent. over the preceding week in 1913, the corresponding period in 1912, the previous week it was 13.3 per cent. Previous week's gain ran generally well over 20 per cent.

Uncle Sam's bank clearings last week in respect to the percentage gain for the year. The total clearings across the border were \$2,100,000,000, against \$2,000,000,000 last year, and \$1,800,000,000 the year before. The movement in this issue is based on the fact that the property held under lease in Canada is being sold, and the proceeds are being used to purchase Canadian securities. The market through was in highly favorable condition, and gave indication of working considerably higher. The public are once more taking an active interest in the mining stocks, and as long as this continues prices are likely to continue to advance, and the levels which were warranted in view of the more favorable conditions.

DULUTH SUPERIOR REPORT OF EARNINGS

The effect of the strike continues to show in the Duluth-Superior Traction Company's earnings. A fraction of 1 per cent of November will show decreases as compared with the corresponding weeks last year. The figures are as follows:

Year	1913	1912	1911
Nov. 1-10	100,000	100,000	100,000
Nov. 11-20	100,000	100,000	100,000
Nov. 21-30	100,000	100,000	100,000

BULLS HAVE MARKET IN PERFECT CONTROL

Stocks are in strong hands, with the market in perfect control. Bear raids are thus infrequent and prices remain irregular, but not depressed. The rise is only deferred and is quietly waiting for normal money conditions. Meanwhile bear transactions are being about temporary declines, but the operation is difficult.—J. S. Bache & Co.

SMALL-SIZED PANIC ON BERLIN BOURSE

Charles Head & Co. to J. E. Osborne: The foreign news this morning was disturbing and taken in conjunction with weakness in London, where prices were weak, it caused our market to open heavy. Rumors of a panicky feeling on the Berlin bourse, due to Austria's war activity, caused less demand, and some realizing, but after the noon hour the market was in a stagnant condition with only 38,000 shares between 12 and 1 o'clock, after which time call money was something of a surprise. It was a most favorable. We would delay buying.

MONEY SITUATION LEADING FACTOR

Erickson Perkins & Co. (J. G. Beatty) had the following: The heavy loss of cash to the sub-treasury since Friday amounting to \$2,200,000 up to today with the sub-treasury a creditor for \$1,500,000 at the clearing house today, was something of a surprise. It was taken to mean that interior institutions are drawing down their balances with New York banks heavily because of crop moving demands and trade activity. The money market will be a good deal of a factor in the stock market until the war situation changes.

COTTON MARKET AT NEW HIGH FOR SEASON

Nell, Beatty & Co. comment on the cotton situation at New York. The cotton saw another period of advancing prices for the season. It is being compared with the close of 1912, and of about three dollars and a half per bale, and standing at the highest figure for the season. The market is being ordered, and until there is a shaking up in demand, it is an important thing that the big spot interests who seem to have a material setback in price does not seem probable.

ACTIVE PUBLIC INTEREST IN THE MINING MARKETS

Peterson Lake Rises to New Record of 18 1/4, and Other Cobalts Maintain Buoyant Tone—Preston East Dome in the Limelight.

The mining market got off to a good start this week, an active public demand being in evidence yesterday, and this sufficing to carry several of the favorite issues to higher prices without any difficulty. The Cobalts again held the centre of the stage, with Peterson Lake and Beaver the most agile performers. Elsewhere there was a good call for stocks, but prices did not respond to any considerable extent.

Peterson Lake was soaring all thru the session, with the price up to 18 1/4 at the close, a net gain of a full two points for the day, the highest in years. The fact that the Seneca Superior shipped three cars of ore last week, two of them high grade, and that the Peterson Lake comes in the demand, but the buying in reality was nothing more nor less than a continuation of the same movement which carried the shares up so rapidly last week. The public have become appreciative of the remarkable merit of the stock at its present level, and any new factors which arise only strengthen this belief.

Speculation Much More Active

There was aggressive buying of various of the other Cobalt issues, and the business for the day ran into much greater volume than usual. On the Standard Stock Exchange upwards of 125,000 shares changed hands, or about three times the usual daily record. This in fact was the result of the broadening public interest.

Beaver rose 2 1/2 points to 45 under active call, and it was accepted as significant. The Cobalt market came out on the advance. Only 1100 shares were traded in, and the bids were kept at 45 until the close. At the same time Wetlaufer was raised a point to 26 on the dividend declaration. Chambers, Ferland and City of Cobalt did nothing more than hold firm at their respective prices. Bids on Crown Reserve were raised five points to \$3.35, without attracting any stock.

ISLAND SMELTING BONDS NOT TO GO TO THE PUBLIC

Represent Part Payment for Trout Lake Smelter—Redeemable in Common Stock.

Considerable interest was taken yesterday in the announcement made exclusively by The World that the Island Smelting and Refining Co. planned to make an issue of bonds in order to provide for the acquisition of the Trout Lake smelting plant located at Trout Mills, Ont., about three miles west of North Bay.

Cobalt Camp Production Runs Below Last Year

But Output Will Establish New High Water Mark in Value—Comparative Output of All the Mines—Bullion Shipments Well Above Last Year.

From all present indications the Cobalt output this year will run considerably below that of 1911, the high water mark to date. The total shipments of ore up to the end of last week amounted to 18,418 tons, contributed by mining companies. For the whole of last year the production was 24,272 tons, which represented the combined output of 21 mining companies. It will thus be seen that there are five less companies contributing to the shipping list than there were a year ago.

WETLAUFER RUMOR IS SET AT NAUGHT REGULAR DIVIDEND

The directors of the Wetlaufer have declared the regular quarterly dividend of 2 1/2 per cent, and bonus of 1 1/2 per cent, payable Jan. 20 next, thus setting at naught the rumors of a pending cut in the rate. The record follows:

HALF A MILLION OF SILVER IN VEIN AT SENECA SUPERIOR

All eyes are focused on the big vein recently discovered at the Seneca Superior property, held under lease from the Cobalt Lake. This fine vein, which is the biggest thing in the Cobalt camp and from all accounts will be the richest vein of similar size ever uncovered.

BUY AND HOLD

On all Stock Exchanges frequent opportunities arise for taking a PLUTTER, or in other words a speculative purchase for a quick profit. Our experience is that those who buy more with the investment are the ones who finally make the money. When PETERSON LAKE was 12 1/2 cents we sold to BUY and HOLD. We still give the same advice, assuredly, our information. CHAMBERS-PRELLAND will also do to BUY and HOLD. Orders promptly executed.

Porcupine and Cobalt Stocks

On the basis of last year's production, the output of the Cobalt Camp this year will be increased to the extent of \$2,000,000, due to the advance in the price of silver.

We advise the purchase of stocks in Cobalt mines which are doing active development work.

ANOTHER BREAK
OF THREE POINTS
IN CAN. PACIFIC
 Other Stocks, However, Held Up
 Well in Montreal—Trading
 Turned Inactive on Decline.

MONTREAL, Nov. 25.—Local stocks held remarkably steady today in the face of another break in C. P. R., on which the price fell to its lowest level of the last two weeks, and of the continued stringency in the money market. Prices eased off pretty well all thru the list, but as on other days recently, when news has been unfavorable, trading became very light and the general characteristic was one of dullness rather than weakness. A few issues, as usual, moved contrary to the general trend of the market. Detroit was firm between 72 and 73 1/4, and closed at its best price. Canadian Converters gained one point to 46. Apart from C. P. R., in which the day's turnover was nearly 1500 shares, and Detroit United in which 500 shares changed hands, business was very light. Less than 100 shares of Montreal Power changed hands, with the price of 1 1/2 on the day. Steel was down 3/4 on a turnover of about 150 shares, and Richelieu declined 1 3/8 with less than 200 shares. Dominion Textile was inactive, with the wide quotation of 78 5/8 asked, 73 3/4 bid at the close. C. P. R. opened 1-1/2 lower and declined thruout the day. Most of the trading was done around 264, with 262 1/4 the lowest price of the session. Last sale was at 263, leaving a loss of 3 points on the day.

FOREIGN CRISIS
HAD EFFECT ON
LONDON MARKET
 Berlin Was Heavy Seller of C.P. R. and Prices Declined—General List Was Weak.

LONDON, Nov. 25.—There was no American demand for the \$5,000,000 new gold offered in the open market today and the entire offering was taken by the Bank of England. Money was in good demand and discount rates were high. The continental political situation was responsible for an easier tendency of the stock exchange, while the commencement in the mining settlement further restricted business. Paris sold Rio Tinto and Kaffra, and Berlin offered Canadian Pacific freely. Home rails were the weakest shares in the British section. American securities opened easy and declined during the forenoon under the lead of Canadian Pacific. Later weak, while not weak, continued to sag in the absence of Wall street support. The closing was dull.

HOW CANADIAN PACIFIC WILL
TAKE CARE OF ITS DIVIDENDS
 When Canadian Pacific's new \$50,000,000 stock is all paid for, and drawing dividends, on Dec. 31, 1913, the company will have the full authorized \$250,000,000 of common stock outstanding. On a 10 per cent. dividend basis, \$25,000,000 will be required for annual disbursements. The task will not be a hard one for the great Canadian transcontinental, however.

In the year to June 30, 1912, there was available, after dividends on the 4 per cent. preference stock, a balance of \$38,000,000, or \$12,000,000 in excess of what common stock 10 per cent. dividend requirements will be after the beginning of the 1914 calendar year. With such a margin to start with, it is not unreasonable to expect a total net vastly greater, for the road is enjoying the most phenomenal growth in its history. To appreciate that fact, one need merely to glance at the income results of recent operations.

In the three months to September 30, for instance, Canadian Pacific piled up \$25,833,847 gross, an increase of \$5,750,000, or 18 per cent., over the same period of 1911. Over 1909, the gain was \$13,000,000, or 56 per cent. The progress in net was hardly less impressive, the \$12,400,000 for the above-mentioned quarter being 15 per cent. ahead of a year ago, and 44 per cent. in excess of 1909. It is clear, therefore, that the capital expansion of Canadian Pacific is keeping well within the growth of its earning power.

EUROPEAN OUTLOOK
OCCASIONS ALARM
 Toronto Market Showed Weak
 Tone in Common With
 the Other Stock
 Exchanges.

BRAZILIAN IN THE LEAD
 The Stock Broke Thru Last
 Week's Low Record
 —Money is Very
 Tight.

Apprehension over the status of affairs in European diplomatic circles, occasioned by alarming reports of developments in the Austro-Serbian situation, was reflected in all the stock markets yesterday. This was a factor was all the more effective on account of the acute stringency of money. Funds yesterday were, in fact, even tighter than they have been here, and brokers found anything but consolation in the general belief that there would be another calling of loans later in the week as the month-end draws near.

The Toronto market early in the day held its own fairly well, Brazilian being practically the only issue to evidence any material weakness. As the day wore on, however, additional liquidation came into play, but the very completeness of the decline was sufficient in itself to exert an adverse influence on sentiment.

Brazilian broke thru last week's low record early in the day. London quotations here were lower, and at the opening here the shares were off a full half a point from the previous close. This loss was added to from time to time, until at the close of the day the stock was down 1 1/4 points, a full 1 1/4 points for the net, as 10 1/2. Other instances of weakness were Richelieu, which broke down to 112 1/8, a net decline of 7-8; Burt preferred, which sold off 1-1/2 to 105, just a shade above its record low record, and Pacific Burt preferred, which was down to 93. Maple Leaf preferred at 94 showed a decline of 5-8. Mackay was down 1-4 at 35. Spanish like amount at 64, and Toronto Railway small fraction at 129 7-8. Russell Motor common was stronger, gaining a full point over at 23 1/2. Canadian Machinery sold at 70, which compared with the last previous sale at 70 on Nov. 12. No official business was forthcoming for this big movement.

HUNDRED MILLION
IN DIVIDENDS IS
DUE NEXT MONTH
 Total Payments of Interest and Dividends for Year Will Amount to 1 1/2 Billions.

Total dividend and interest disbursement in the United States for December, 1912, are estimated at \$91,000,000. Up to the present time dividends declared upon the stocks of New York city banks and trust companies, and the various railroad, industrial, electric, street railway, and other corporations of the United States, aggregate \$40,603,680, which compares with \$45,000,000 estimated for last December, 1911, a decrease of almost \$2,000,000. This decrease may be attributed largely to the fact that during December, 1911, several concerns distributed extra dividends.

Interest payable on the bonds of railroad, industrial, and miscellaneous companies, as well as on those of cities, states and counties in the United States, and the government debt, total \$70,330,251, compared with \$45,851,166 in December, 1911. The grand total of bonds of every class outstanding upon which interest is payable in December, is \$2,362,633,000.

Disbursements for the full twelve months of 1912 aggregate \$58,000,000, made up as follows: September, \$1,000,000; October, \$114,000,000; November, \$114,000,000; December, \$114,000,000; January, \$114,000,000; Men's Winter Suits

Our Men's Ready-for-service Suits are the products of the skilled manufacturers. Expense is not spared to produce a garment that is faultless in every particular. The material used in this suit is a heavy English tweed, showing a rough surface, in brown and grey mixed colors. They are cut single-breasted, to close with three-button. The linings are strong and the tailoring is fine. Price 13.50

Suit of Plain Brown Worsted English Cloth, that will keep its fresh appearance and give service, with nothing in any way freakish in cut, yet has just the little extra smartness that meets the approval of the younger men. The style is single-breasted, three-button. Workmanship and linings are good. Price 13.50

A point to remember is that our ready-for-duty Men's Suits, that are marked \$15.00, are of very exceptional quality, in style and value they are far in advance of everything you can procure elsewhere bearing a \$15.00 price. In blue and black, single and double-breasted styles. In tweeds and worsteds, single-breasted. Price 15.00

Men's Suits that are made from some of the finest English and Scotch tweeds, in fancy stripe designs, that can be procured. Some in the extreme English style, with narrow shoulders, soft roll lapels. Nothing but the finest workmanship and trimmings. Price 18.50

Here is a suit that will give the ordinary tailor a problem he could not work out to produce a suit with such style out of such materials that fit like this one for thirty-four or forty dollars. Made from West of England worsted, in stripe, brown color. Beautiful mohair linings and tailoring, smart single-breasted, three-button style. Price 25.00
