

EATON'S DAILY STORE NEWS

HAVE YOU A "D. A."?
A deposit account is one of the greatest conveniences in ordering goods by telephone. Apply for particulars at the "D. A." Office on the Fourth Floor.

At Yonge, Queen and James Street
Doors are boxes where orders or instructions may be placed. These boxes are emptied every hour until 1 p.m., and twice in the afternoon.

1869—GOLDEN JUBILEE—1919

STORE CLOSSES SATURDAY AT ONE P.M.—NO NOON DELIVERY

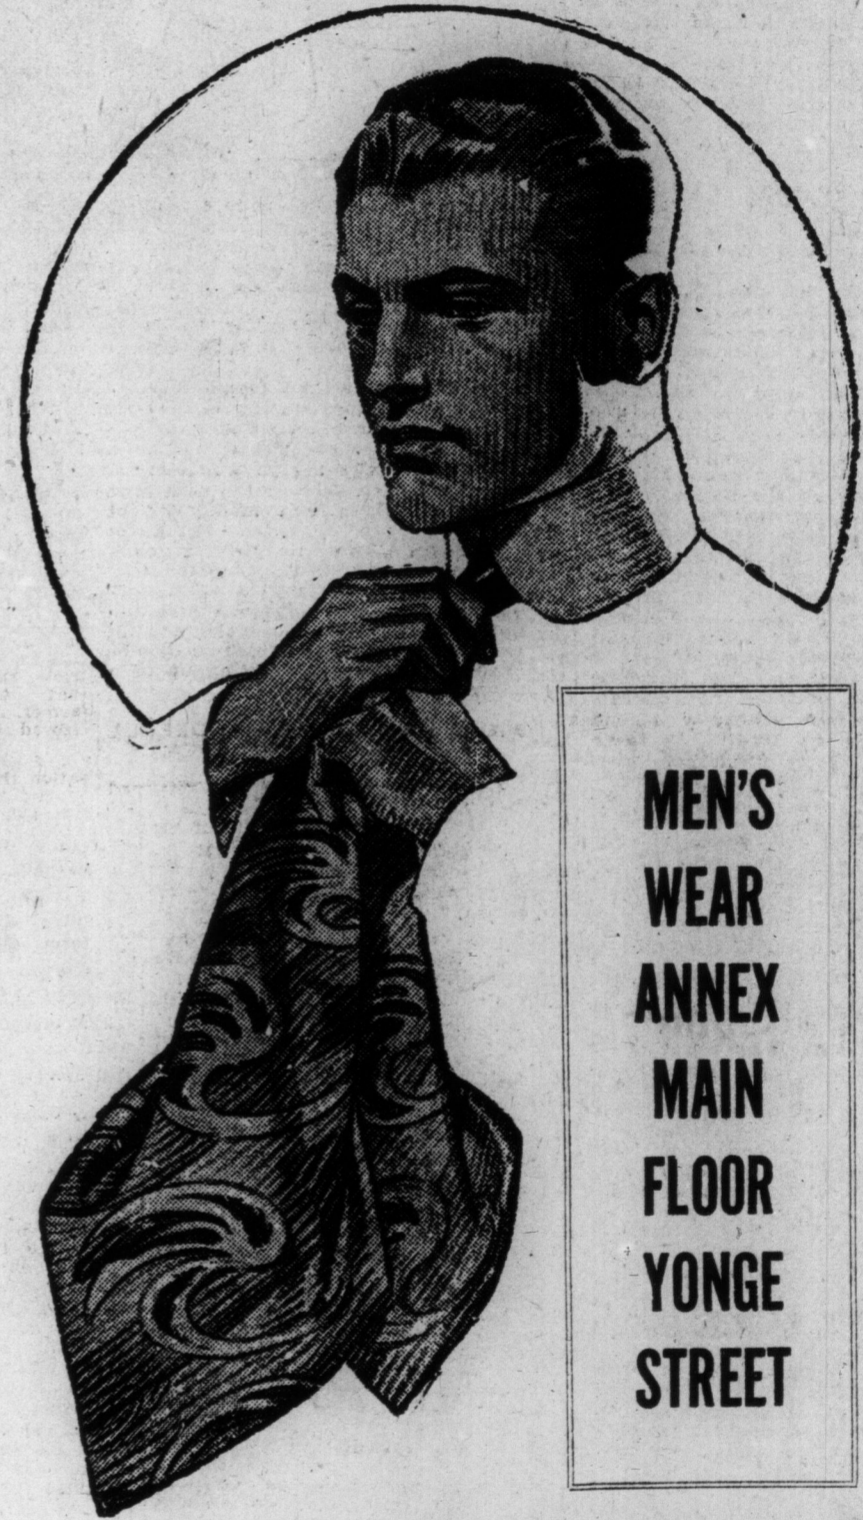

New Shirts for Men! In New and Attractive Color Designs Moderately Priced at \$2.00 to \$11.00

Dependable Qualities at Prices That Uphold the Standard of EATON Values

TO MEN of good taste and who appreciate smart dressy shirts with unique colorings, we suggest a visit to the Men's Wear Annex to see the huge variety of fresh, new patterns for spring wear. The novelty of the clustered stripes, the rich, gay combination of color and the exquisite woven effects of the fabrics are the chief features that comprise a most striking and attractive display.

And of course soft cuffs still predominate. Included are such noted brands as "Emery," "Quaker City," "W., G. & R.," "Tooke" and the "Cluett" brands. A great variety of patterns in every line from \$2.00 to \$11.00. A brief description of some of the lines.

MEN'S WEAR ANNEX MAIN FLOOR YONGE STREET

At \$2.00 The "Regal" brand of excellent quality cambric, with raised cord and cluster stripe effects, in blue, black or mauve. Have the popular French cuffs and are in the coat style. Sizes 14 to 17 1/2.

At \$2.50 are corded percale, a material that always gives satisfaction; have grouped stripe patterns, in several color combinations, as green, pink and white, mauve, black and green, or blue, gold and white. This line is also cut with soft double cuffs. Sizes 14 to 17 1/2.

At \$3.00 are Shirts, "W., G. & R." brand, have patented double wear cuffs, made of fine corded cambric, with single stripes of blue, black or mauve, on light grounds. Sizes 14 to 17 1/2.

At \$4.00 are Men's Shirts, "Emery" brand, of a good, firm cotton crepe, with satin stripe, in basket weave effect, grouped with several pin stripes. Are in coat style and have soft double cuffs. Various sleeve lengths. Come in blue, black or mauve on light colored grounds. Sizes from 14 to 17.

At \$7.50 are Men's Imported Shirts, Japanese make, of 12 mummy silks. They have the soft double cuffs and laundered neckband. There is a large range of fancy stripe effects, some in very rich and delicate shades far too numerous to mention. Sizes 14 to 16.

At \$11.00 are Men's Shirts, "Emery" brand, of a heavy messaline satin, in plain shades of Nile green, canary yellow, salmon pink or light mauve; are coat style, have soft double cuffs and various sleeve lengths. Sizes 14 to 16 1/2.

Also Men's Neckwear in Smart Styles for Spring at \$1.00 and \$2.00

At \$1.00 They have a small neat pattern worked out in two tone effects and surrounded by a moire pattern in scroll effect. Colors of blue, green, purple, brown or grey. Has wide flowing ends and thin bands that will slide easily in the collar. Material is of silk and fibre silk mixture, \$1.00.

At \$2.00 They're printed silk and artificial silk mixture. Have large scroll pattern in several well blended shades, the grounds being purple, green, black or wine shades. Made in graduating shape with wide flowing ends, and slide-easy neckbands of satin, \$2.00.

PROF. CHANT WANTS CITY OBSERVATORY

Revives Interest in Proposed Astronomical Building on Bathurst Street.

MIGHT BE A MEMORIAL

Suggested That Military Bodies Build It to Honor Dead.

Prof. C. A. Chant of the department of astronomy at the university, in the course of an address at the Electric Club yesterday, described the plan that had been suspended at the opening of the war and was now being revived, to have a popular observatory in the city. There has been a great lack in Toronto for years of such an observatory, he said, at which the people, students and others could become familiar with the wonders of the heavens. A proposal to establish such an observatory has been made, and a "good site" on Bathurst street, now in possession of the city, could be had. If this were done, the observatory authorities would provide assistants nightly with two or three telescopes. The university authorities would also assist. Before the war this proposal had been approved

by the parks commissioner and the parks committee. Prof. Chant dilated on the value to the public of such an institution. The proposed site, it is understood, is on high ground across from Cedarvale, and had been chosen by York county as the site of an isolation hospital. It has also been suggested that some of the military bodies take the matter up and develop the idea as a military memorial.

Recent Developments. Prof. Chant gave an interesting talk on astronomy and its recent developments. To it we owed accurate time, the ability to navigate the ocean, to survey new lands, and as a special charm, it aimed to give us information of the great universe to which we belong.

Among recent developments was the very simple theory which had led to the determination of radial velocity, motion in the line of sight being spoken of as radial. A heavenly body going directly away from or coming directly towards us was outside the usual methods of velocity measurement. In 1842 it had been observed that as we approached or receded from any unchanging sound that the pitch was raised or lowered as the case might be. In one case the vibrations came more rapidly, and in the other more slowly to the ear. The principle was applied to light in 1848, and was treated as academic until 1870. Dr. Fizeau developed the idea, and the spectroscope was of assistance also.

By Photography. In 1837 the photograph plate began to be applied to the problem, and it began to be solved at once. The necessity of accurate measurements was well known to electricians, but their accuracy was nothing as compared with the measurements of

astronomy. It was found that our universe was proceeding towards the star Vega at the rate of 7.17 kilometres per second.

Prof. Chant described the nebulae and stated that astronomers were now practically of one mind as to the character of these nebulae, believing them to be other universes such as ours. If we could go far enough and get beyond the stars that belong to us, each of these nebulae would be found to be separate universes in space. Conservative estimates give 10,000 years as the time necessary for light to come from the nearest of them.

D. H. McDougall presided.

"Jack Canuck's Storehouse" At the Moss Park Centre

Moss Park Recreation Centre gave an interesting and unique entertainment last night to a packed house. Under the direction of Alderman Ramsden, who acted as chairman, the little girls and boys of the centre put on a program consisting of a dramatic play, entitled "Jack Canuck's Storehouse." The moral was pointed out by the chairman that "Canada was for Canadians and Canadians for Canada," and that people from other countries should adopt Canada and Canadianize themselves, and by so doing form a great united Canada. The balance of the program consisted of illustrated nursery rhymes, which were recited by the little tots as they were shown on the screen. Also thru the kindness of the Ontario Safety League an instructive film called "Careless America" was put on.

PATRIOTIC FUNDS OF YORK COUNTY

Sir William Mulock Congratulates Citizens on Their Liberty.

WILL HELP VETS' WIVES

Association Joins Rotary Club in Assisting Dependents on Arrival.

Subscriptions for the past five years to the Toronto and York County Patriotic Association are as follows:
1915 \$ 991,521.11
1916 2,215,098.37
1917 2,924,018.42
1918 2,302,885.30
Of these subscriptions \$996,152.13 is outstanding.
The annual report of the association, together with the report of the 50,000 Club, were presented yesterday afternoon at a meeting in the council chamber, presided over by the president, Sir William Mulock.
The report of the financial committee shows that on Dec. 31, 1918, a total of \$9,424,969.79 had been subscribed to the fund, and of this amount \$8,434,433.20 has been paid. The 1917 campaign produced the

largest results, amounting to \$2,924,018.42, \$600,000 over last year's.

An analysis of the subscriptions show that the city of Toronto subscribed \$1,000,000, equal to 31 per cent; County of York, \$300,000, or nine per cent; American and Canadian mail and telegram remittances, \$56,948, one and three-quarters per cent; general subscriptions, \$1,563,504, 58 1/4 per cent. The cost of administration from Sep. 1, 1914, to Dec. 31, 1918, was \$142,475.12, an average of \$2739.91 per month. In December last 7956 families received allowances, averaging \$18.33; the number of individuals 20,618 and the individual allowances \$6.30. During the year the committee in charge of granting allowances report 14,279 interviews and investigations, visits to homes 13,796, application for benefit 2071.

Many Helped. A total of 20,618 persons have received relief, compassionate allowance and transportation, amounting for collection. They have organized the association.
The sum of \$274,000 was allotted to the 50,000 Club during the past year for collection. They have raised \$275,370.85, and it is expected when all subscriptions are in a total of \$300,000 will have been received.
A report on the return of soldiers' dependents from overseas states that expressions of gratitude to the citizens of Toronto for their great liberality were voiced by those present. Sir William Mulock said that in every line there was a theme for a text. He paid a high tribute to the people who had lived up to promises to such a great extent. In a few remarks he reviewed the work of the association since its inception. It is estimated that not less than

DEVONSHIRE TO ATTEND BANQUET IN ARMORIES

The second banquet of returned soldiers will be held in the armories on Wednesday, February 28, commencing at 7.15 p.m. His Excellency the Duke of Devonshire, who is to be a visitor in Toronto then, will be present and give a short address. All returned officers, n.c.o.'s and men who have not registered ought to do so at once.
Registration may be made at the following places—Sergeant-Major Creighton, city hall, main corridor; the secretary of the G.W.V.A., at Riverdale, 348 Broadview avenue; Central, 705 Yonge street; Parkdale, 1091 West Queen street; West Toronto, 895 West Bloor street; Earis court, 1218A St. Clair avenue; the Grand Army of Canada, 1 Elm street; the Red Triangle Club, corner Victoria and Queen streets; the secretary, I.M.C.A., at Central, 40 College street; Broadview, 275 Broadview avenue; West End, corner College and Davenport road, and School of Science, University of Toronto.
Arrangements are being made to have about 2000 soldiers sit down at the banquet.

MISSION TO LEPERS.

The February meeting of the Mission to Lepers was held yesterday afternoon in the Sherbourne House Club. Mrs. Trees presided, Mrs. J. C. Willmott gave a recitation, and an interesting address was given by Mrs. R. H. A. Haslam. The secretary's report was read by Miss Mullin, and Miss Lila Watt stated that \$565.70 had been received from Toronto since the beginning of the year.

BAR WOULD HAVE SOLDIER COURSES

Justice Lennox Advocates Post-Graduate Training for Returned Lawyers.

FEES PAID IN DUST

Justice Craig Tells of Introduction of Law Into Yukon.

A post-graduate course at Osgoode Hall for the benefit of returned soldiers was advocated yesterday at the meeting of the Ontario Bar Association by Mr. Justice Lennox. The speaker pointed out that new statutes had been passed and reforms brought about since the war. These should be introduced to the soldiers by means of lectures. It was the consensus of opinion that everything possible should be done for the returned men. A few remarks emphasizing his regard for the Ontario bar was made by Dr. John Hoskin, treasurer of the Law Society of Upper Canada.

"Lawyers made money fast in those days but few retained it," was the statement of the Honorable Justice Craig in his address on the introduction of law into the Yukon. In those days and in that locality gold was as dirt and everything was paid for in spoils of the precious metal. Fortunes were made in a moment. Out of a piece of ground 65 feet square a miner extracted \$1,500,000, the richest piece of ground in the world, the speaker told his audience.

Hon. Justice Riddell was the first speaker of the afternoon, and in a most interesting summary told of William Campbell, the first judge to be knighted. He was a Highlander, a private soldier. Speaker of the house and a member of the legislature. Chief Justice Beverley Robinson was described as the handsomest man of his time. Generally speaking, all Canadian histories dealing with the early judges are unreliable as to minutiae, although often very readable, was the opinion given by the speaker.

In Illinois. Much light was thrown on judicial practice in the state of Illinois by the address of Henry R. Rathbone, counselor at law of Chicago, who declared that the cock-sureness with which the people of the states used to regard their institutions was a good deal changed. When things go wrong now in judicial cases the remark is often heard: "How much better they do it in England?" In the United States there is a great tendency to specialize, with the result that there are a great number of courts. The court of domestic relations, the boys' court, divorce court, speeders' court and juvenile court were among those mentioned.

Lack of uniformity of procedure had been felt to be a disadvantage which it was hoped soon to rectify. Mr. Rathbone gave a splendid account of the working of the draft act, of which he declared that nowhere had there been a more deadly blow to Germany than its sudden passing. It stands today a monument of the United States to the success of which people contributed.

The address of John Lord O'Brien of Washington dealt with the efficacy of the internment statute. "This had been introduced 125 years previously, of the time of the Napoleonic wars, and had since been almost forgotten. Through its resurrection the president was able to use aliens as he saw fit. People learned of the law only when in one night 70 German spies disappeared. In his own experience Mr. Rathbone had examined about 6000 cases of alien enemies. Another great thing that had been done was that prohibitive areas had been laid out along the coast from Mexico to Vancouver and 900,000 photograph passes made. The work done had led to the suppression of sedition and good order had been everywhere preserved," declared the speaker.

Morale Never Better.

Still another speaker with an interesting story was Capt. Adolph Moulthout, of the 22nd Battalion from Quebec province. "I put on the uniform because I could not do anything else," said the speaker, who told some interesting experiences, in one of which his party went into an engagement 600 strong and came out about 100. It was in 1917 that the men learnt that somehow the allies had lost the initiative, yet morale was never better. Capt. Moulthout gave great credit to the men with the Canadian Motor Machine Gun Corps, and said that the soldiers generally were men thru and thru. "You can't tell me there is danger from Bolshevism," he declared. Men who were so self-sacrificing must be the friends of law and order.

The officers chosen for the Ontario bar for the ensuing year are: Hon. president, N. W. Rowell, K.C.; president, Norman E. Gash; vice-presidents, Col. W. W. Fontaine and J. H. Rodd; treasurer, C. F. Ritchie; recording secretary, A. A. Macdonald; corresponding secretary, Z. Gallagher; historian and archivist, W. S. Harrington; Toronto members of the executive, Frank Denton, K.C.; J. A. McAndrews, J. R. L. Starr, J. H. Spence, Daniel Brundhart, W. K. Murphy and Gideon Grant.

REGISTERED CLYDESDALES AND PERCHERONS.

Catalogs are now ready for the great annual breeders' combination auction sale of 100 Clydesdale and Percheron stallions, mares, colts and fillies, to be held at the Union Stock Yards, Toronto, on Monday and Tuesday, March 23rd and 24th.

WILL HOLD INQUEST.

George Hurst, 118 Berkley street, died in the Isolation Hospital yesterday from diphtheria. Hurst was injured about the head when he was struck by a motor car last week. He was admitted to St. Michael's hospital. Three days later, diphtheria set in and Hurst succumbed yesterday. The body was removed to the morgue and coroner G. W. Graham will open an inquest this afternoon.

WILL ATTEND FUNERAL.

Among those who left Toronto Friday evening to attend the funeral of Sir Wilfrid Laurier, were A. E. Haeker, England, and W. J. O'Reilly, who was his representative in Paris, for the soldiers' overseas vote at the last two Dominion elections. These were the last two of the appointments made by Sir Wilfrid in Ontario.

ARE YOU AWARE OF THESE FACTS?

GREAT BRITAIN

After March 1st of this year, practically all manufactured goods from other countries will be barred from the United Kingdom, except those imported under special licenses, which at present are difficult to obtain. This regulation amounts to almost total prohibition of imports of manufactured goods, except those purchased directly by the Government of the United Kingdom. The object of this prohibition as announced by the British Government is: **To have British goods manufactured in British factories, and thus give employment to the rapidly demobilizing British Army and the war workers.**

FRANCE

The tradesmen of France, generally speaking, are not permitted to buy manufactured goods from other countries except under special licenses. **France is determined to keep her own factories busy and thus furnish employment for French soldiers and war workers.**

The industrial systems of Britain and France are disorganized by the transition from war to peace. Consequently, they are being given the greatest measure of protection ever known in history. They are erecting encircling walls to shut out goods manufactured by other countries.

CANADA

During the war, Canada scrapped many peace industries for war industries. The reverse is now being carried out. Canada must provide positions for over 200,000 soldiers who are not yet demobilized. When the armistice was signed, there were about 700,000 people employed in Canadian manufacturing establishments. This number included a considerable percentage of the 300,000 soldiers who were discharged during the course of the war, and also the makers of munitions and war material. Canada must use her utmost efforts to retain these in employment or to find them new employment.

Canadian industry during readjustment is not safeguarded by an almost impassable wall similar to those now being erected by Britain and France. Exclusive of the special war tariff, levied generally on imports, both dutiable and free, by the Government for the purpose of raising war revenue, the Canadian Customs tariff in the fiscal year 1918 imposed an average rate of only twenty-one and two-fifths (21.25) per cent. on dutiable goods coming into Canada.

Yet, at this critical time, insistent demands are heard from certain sections of Canada that sweeping tariff reductions must be made immediately without any preliminary study of the probable result on commercial and financial conditions. If these demands are met other countries will be encouraged to dump their surplus manufactured goods into Canada and increase unemployment here.

Shall we tear down even what safeguards we possess, at the very time that older and stronger countries are so greatly increasing theirs?

Issued by

The Canadian Manufacturers Association

CITY ITEMS

Albert Jennings, 97 East Charles st., was arrested on Yonge street last night by Constable McArthur. Jennings had two bottles of whiskey on him and is held, charged with a breach of the temperance act. Bessie Goldman, 28 Kensington ave., had her arm lacerated last evening, when she shoved it thru a window at the G.N.W. Telegraph office, on Wellington street. She was removed in the police ambulance to the General Hospital.

Charles Wilson, 523 Oakwood ave., was admitted to the General Hospital yesterday afternoon, suffering from concussion of the brain. Wilson was injured when he lost his balance and fell from a scaffold in a building in the course of construction at 143 West Adelaide street.

Mike Masokis, 71 Niagara street, suffered scalp injuries yesterday afternoon, when he was caught in a freight elevator at the Matthews-Blackwell plant, foot of Bathurst

street. The police ambulance removed him to the Western Hospital.

COBOURG WINNERS.

Special to The Toronto World. Cobourg, Feb. 21.—In the last of our home and home games between Cobourg and Port Hope, played at the covered rink here last night, the home team won from Port Hope by a score of 18 to 5. Cobourg has won three of the four games. At Port Hope a few nights before, Cobourg defeated Port Hope by a score of 10 to 4.

APPOINT DR. Q. F. MCKENDRICK.

Galt, Feb. 21.—Dr. Q. F. McKendrick, who arrived in France with the R.A.M.C. with rank of captain, today received official notice of his appointment as medical representative of department of soldiers' civil re-establishment.

Brantford.—The sum of \$52,000 will be required for fire protection purposes in Brantford in 1919, as compared with the sum of \$44,000 expended last year.

Liquor Sent to Trenton; Addressees Not Knowing

Belleville, Ont., Feb. 21.—License Inspector Arnot of this city, yesterday at Trenton, seized four parcels containing liquor, which were expressed to prominent citizens of that town without their knowledge. The packages contained G. and W. and Walker's whiskies, and were valued at \$200.

Frank Knox of Trenton, today, before Judge Willis, of this city, pleaded guilty of opening a mail package and extracting therefrom some of the contents. Owing to the fact that it was his first offense, and that he had been wounded whilst overseas, a suspended sentence of one year was imposed.

TRENTON BOARD OF TRADE.

Trenton, Ont., Feb. 21.—At the annual election of the Trenton Board of Trade tonight the following officers were elected: Arthur Allen, president; N. J. McNair, vice-president; J. E. Fraser, secretary, and an executive committee of 25 to be sub-divided into industrial, advertising, housing, reception, etc.

Ernest H. Owen of Toronto Dies Suddenly at Halifax

Halifax, Feb. 21.—Ernest H. Owen of Toronto, representing George H. Hees & Son & Co. of that city, was found dead in his hotel yesterday afternoon. It had not been known that Mr. Owen was ill. He had been coming to Halifax for 25 years, and was well-known to the house furnishing and druggists trade. The remains will be sent to Toronto for interment.

PENETANG HAS THE ICE.

Penetanguishene, Feb. 21.—Ice cutting operations have started here, and there is no shortage of ice, being seventeen inches clear. Last year the field at this time was twenty-two inches thick. The local needs are being supplied and shipments could be made to outside points, where there is a possible shortage.

Winnipeg.—A message was received here today announcing the death of Joseph Burke, late provincial immigration agent in Winnipeg, at his home in California.

TWO YEARS AT FARM FOR MILITARY ABSENTEE

Peterboro, Feb. 20.—In today's police court, Charles P. Doherty, merchant at Kinmount, was sentenced to two years, less one day, at the Guelph prison farm for being an absentee from his Majesty's forces. According to the evidence, he was ordered to report on March 22, 1918, at Kingston, but failed to do so. On February, of this year, he was arrested in his store at Kinmount.

"If the 500,000 Canadians who went overseas had made excuse, what kind of an army would we have?" inquired Magistrate Dumble of the prisoner. Doherty offered as an excuse that he had written to Major H. P. Cooke, then the registrar at Kingston for leave, but that he had received no answer.

S. O. E. WILL HOLD MEMORIAL SERVICE.

At a well-attended meeting composed of the delegates from the 45 Sons of England lodges in the city, held at the headquarters on Richmond street last night, it was decided to hold the annual church parade and service on Sunday, May 23. A committee composed of J. W. Brewster, chairman; F. J. Norris, vice-chairman; W. G. Jones, treasurer, and T. A. Warrington was named to look after the preliminary arrangements.

The gathering will take the form of a memorial service for the 745 members killed during the war, and the 6,853 enlisted from within the city limits.

It was also stated during the evening that the war claims paid so far, exclusive of the beneficiary claims, amounts to \$93,550. The offertory at the memorial service on May 23 goes toward a fund for the returned soldiers' "welcome home."

MURINE EYE REMEDY
L. D. Red, Weak, Watery, Itchy Eyes For Bats of Eye with And Granulated Eyelids. O.S. Hutton Co. Chicago

The Toronto World

FOUNDED 1880. A morning newspaper published every day in the year by The World Newspaper Company of Toronto, Limited.

SATURDAY MORNING, FEB. 22.

Community Singing.

Dr. Hollis Dann has been urging the wisdom and necessity of the adoption of community singing, and his plea should receive attention.

The secret appears to lie in the fact that man is not merely matter and energy, but, as Huxley said, consciousness also, and in this third term he neglected, unused, unexercised, or if it be out of accord with its environment it will be difficult to get the best out of it.

Music, and singing particularly, has a peculiar accordant effect on the human organism and all of its three terms.

In a world where efficiency, co-operation, more effective production and distribution are becoming dominant notes any element that will tend to soothe the social or individual ferocity and enable people to take sane views of life is not to be despised.

The Bolshevists Again.

A third Bolshevistic pamphlet has been printed and circulated in the city, and the police and other authorities appear to be unable to locate the source of the underground stream of poison.

Whoever prepares these Bolshevistic circulars is utterly ignorant of Anglo-Saxon common sense, or the historical development of our system of government. What is advocated carries us away back to Jack Cade and the days of absolute monarchy.

These Bolshevistic pamphleteers have a lot to learn about Canada. They are not earning their German money, but the Germans are too stupid to know any better.

For this the Bolshevists would substitute the slaughter and destruction, the starvation and desolation that follow in the trail of Bolshevism, where it has had its pitiful successes.

The Liquor Scandal at Homer.

If Mr. Ayeaert (formerly a member of the board of license commissioners for Ontario, now the chief officer for the enforcement of the temperance

act in the province) has no better explanation to offer than what he allowed to come out in evidence at St. Catharines on Thursday of this week in connection with the seizure of illicit liquor at Homer the week before, then we say his usefulness has gone and it is time Sir William Hearst relieved him of his duties.

And The World has this also to say as far as the Ontario government is concerned: that Hon. Mr. McGarry ought to give an explanation as to the evidence of the man, Clyde, who swore that the money that he used in paying for the whiskey came from a man named White in the department, and as far as could be gathered in the department of the treasurer, and there happens to be a man in the treasurer's department named White, who is very close to his chief in the administration of the department.

The World also wishes to say that it is no longer surprised that The Globe newspaper, the apostle of prohibition in Ontario, and The Star newspaper, another apostle of prohibition, have not a single word to say in comment on this surprising condition of affairs that prevailed in Homer during election week.

Another Bolshevistic Leaflet.

Editor World: Enclosed you will find a leaflet, which I found in the letter box of my domain this a.m. (Sunday, Feb. 16), the same having evidently made its way thither on the wings of night. Now, sir, my purpose in sending this piece of seditious literature to you is twofold. First, because I know you to be a true champion of real democracy, and that you have the power and the means to teach the masses of the people the fruits of democracy without the aid of the forces of revolution which, for lack of a better name, is called Bolshevism.

Less the foregoing be construed as an apology for or on behalf of the so-called capitalist class, I hasten to state that this is not the case, for I believe that we have to combat revolutionary propaganda in the form of Bolshevism or any other form, I recognize that the world cannot go back to the conditions of pre-war days. At the same time I realize that no power or force can construct or to use that much overworked term, reconstruct society by destroying the existing machinery of society, without even setting up a temporary structure which would at least save the world's people from being buried under the debris.

League of the Empire.

A special meeting of the Imperial Union of Teachers began in London on the 8th of February, called together by the League of the Empire. Prince Arthur of Connaught, in opening the conference of the Imperial Union of Teachers convened by the League of the Empire for overseas soldier teachers, and held in the Marble Hall of the India office at which 5,000 attended, said he hoped that before they returned home they would see as much as possible of the motherland. A message was read from Queen Alexandra, which mentioned the League of the Empire and the establishment of residential headquarters in London for overseas teachers, as a memorial to overseas teachers who had fallen in the war.

Visits to the London schools, polytechnics, trade schools, centres, and others with demonstrations on the newest methods in London education (by kind and random) of the education committee, London county council, Visit to Windsor. Visit Eton College by invitation of the provost and fellows. A visit to Lambeth Palace by invitation of the Archbishop of Canterbury and Mrs. Davidson. A visit to the old Charter House by permission of the master of the Charter House. A visit to Hampton Court Palace by invitation of Lady Napier, of Marsala, and the Duchess of Mountbatten. A visit to the studio of the late Mr. Holman-Hunt by invitation of Mrs. Holman-Hunt. A visit to the houses of parliament under the conduct of Mr. Evans Hopkins, M.P. A joint evening reception by the National Union of Teachers and the London Teachers' Association. All soldier teachers from the overseas dominions were cordially invited to visit and the houses of parliament did not permit attendance at the whole conference either the first or second week could be taken.

THE SAME HUN BRUTE

And Canada will "deal" with him as she dealt with him in Flanders.

THE PROMOTER'S WIFE

By JANE PHELPS.

Bab's Mother Gives Her Good Advice.

CHAPTER XV.

Neil was a man of slight artistic culture, but he took an instinctive delight in the beautiful. Anything really lovely gave him pleasure and inversely anything ugly gave him pain that at times seemed almost physical.

"You like it?" he asked. "It was our first visit to the new apartment we had rented since it had been decorated for us."

"Like it? I just love it, and who wouldn't? But it is so large and I shall have to have another servant. I dread that."

"Never mind. Call her the thorn in your rose, if you like, but don't let her spoil the beauty of the rose for you." And Neil, well grounded, alert, brimming over with good nature and satisfaction, eager and keen, drew me to him, and kissing me many times, added: "My rose, aren't you, Bab? The setting is none too good for you."

When Neil was like this it was reassuring to his part I would forget everything save that I loved him and that he belonged to me. I was overwhelmed by the optimism of prosperity, and it brushed from my mind all misgivings. I seldom allowed them room, save when something was said to cause them. But as I knew few people, most of them introduced by Neil, it was rare that anything unpleasant or unsettling reached my ears.

The World Gives the News.

Exbridge Journal: Some Toronto editors have tried to write editorials on the North Ontario election and apparently did not know much about it. The best article we read was in The World. It showed a desire to be fair to both candidates and carried evidence of a knowledge of the candidates and the situation in the riding.

MINISTRY OF HEALTH FAVORED BY HASTINGS

The establishment of a federal ministry of health is strongly supported by Dr. C. J. Hastings, Toronto's medical officer of health. Tuberculosis and mental and venereal diseases were of national importance, he said, and therefore ought to be handled by the government.

SOUVENIRS FOR ALL AT SOLDIERS' BANQUET

Great things are promised for the next soldiers' banquet in the armorial hall of the Victoria Hotel. General and General Pau will be there, and souvenirs will be given to everyone present.

ALLEGED BOY FOOTPAD

Fred Plews, 537 West Dundas street, and Frank Dymond, 37 Sackville street, were arrested last afternoon by Detective Stewart, charged with attempted theft of a motor car. Stewart was standing on James street when he noticed the two boys walk alongside of a standing automobile. The boys entered it and were about to drive away when Stewart halted them and placed them under arrest.

DIED OF BURNS.

Mrs. Mary Buckner, aged 34 years, who was badly burned when her clothing caught fire Thursday night, died yesterday morning in the Western Hospital. Her husband, Nick Buckner, and Felix Barron, who were also burned in attempting to beat out the flames in Mrs. Buckner's clothing, are still in the hospital. Their condition is not serious.

GIVEN SPECIAL DECORATION.

The Navy League in England has recently sent through the Navy League in Canada a Special Service Decoration to Mrs. A. E. Gooderham, president of the Imperial Order of the Daughters of the Empire. In recognition of her work on behalf of the sailor, and in particular the society's efforts in assisting the Navy League in collecting funds for their general relief work, she is awarded a special decoration.

BLACK KNIGHTS PROTEST.

At the last meeting of the Ulster Receptory, No. 876, Black Knights of Ireland a motion was unanimously passed condemning the action of the board of education, "especially the members of the Orange order." In protesting against the Catholic teachers as directors of the kindergarten.

FARCICAL COMPLAINTS.

Principal Hill says that the complaints respecting the boys and girls playing together in access at Franklin school are farcical. Seven teachers are on duty and no improper conduct is tolerated.

A Each Day of Cheer

By John Kendrick Bangs. (Copyright, 1919, by the McClure Newspaper Syndicate.)

WASHINGTON.

"Mid all the glory great of war, And power vast as that of kings, He never lost his passion for The world of peace and simple things. Surrounded by vast selfishness, With high ambitions face to face, Unselfish ever did he press On to the freedom of his race."

Osgoode Hall News

Appellate Court, First Division. List of cases set down for hearing on Monday, February 24, at 11 a.m. Rex v. Hoffman. Rex v. Gurofsky. Rex v. Sanderson. Whimby v. Whimby. Weston and Toronto Suburban Railway.

BREAKER OF WINDOWS IN HOSPITAL ON BAIL

W. H. Graham, West Lodge avenue, who was charged with having broken 187 windows in the factory of the Gutta Percha and Rubber Co. Limited, in an effort to impress upon the company the inconvenience they were causing the residents of the neighborhood by running heavy machinery, which is alleged to have caused vibration and led to the nervous breakdown of Mr. Graham, was released yesterday on \$500 bail. He was taken to St. Michael's Hospital for treatment of injuries he is said to have received from employees of the company who attacked him when he broke the windows.

CANADIAN CLUB LUNCHEON.

General Pau having requested (Friday afternoon after the club's tickets had been placed on sale), that the luncheon and dinner being tendered him by the Canadian Club and the Empire Club be combined, it has been arranged that the luncheon on Tuesday will be a joint luncheon of both clubs.

WILLS AND BEQUESTS.

By a will made Dec. 29, 1918, Susan Kennedy, a widow, left her estate valued at \$18,255 to her daughter Sarah Elizabeth Phillip, and her son Dr. Loftus Thackeray Kennedy. Another son, Dr. L. T. Kennedy, received \$277, which was cash in the bank at the time of testator's death.

DESIGNERS BUSY.

A traveler for a Toronto and Montreal firm, who make a specialty of supplying draughtsmen and designers' supplies, told The World yesterday that he had never had as good business as in January. He accounted for this because of the large amount of remodeling which is being designed for many manufacturing plants, and thought that this indicated a return to big business. Just as soon as the expenditures commenced.

SPEECH FROM THE THRONE.

Announcement was made at the parliament buildings, Queen's Park, yesterday afternoon, that the address in reply to the speech from the throne would be moved by Z. A. Hall, South Waterloo, and seconded by Irwin Hilliard, Dundas.

IDA RE THE POLICE UNION

By IDA L. WEBSTER.

There are a few people in this city who seem to be fearfully anxious to let us know their views about the police union. To be perfectly frank we are not at all interested in the ideas of the persons in question, that is on any subject, but most particularly on this vital one of the Toronto policemen.

Therefore, why should these "well informed" young men, or stool pigeons, or whatever they may happen to be, waste their valuable time sending us notes? If it will help any of them in any way, we might say, that we are saying so.

As for the men getting cold feet and giving up their charter, personally we do not think that they are going around talking about the prospects of a sympathetic strike, should the men be allowed to affiliate themselves with the Trades and Labor Congress. It is ridiculous to worry about such a remote difficulty. The Labor folks themselves acknowledge that the step would not be called for at any time, or at least not unless there was the severest sort of reason, in which case they made the suggestion that the militia would have to be called upon.

With regard to the union, we are surprised to know that there are so many men who are supposed to know what union means, who are going around talking about the prospects of a sympathetic strike, should the men be allowed to affiliate themselves with the Trades and Labor Congress. It is ridiculous to worry about such a remote difficulty. The Labor folks themselves acknowledge that the step would not be called for at any time, or at least not unless there was the severest sort of reason, in which case they made the suggestion that the militia would have to be called upon.

Unions these days are made up of law abiding citizens, and the men in authority are those who want to see the good of the city. It is not to be said that they would go to any trouble to avert an unpleasant situation of any kind. Can you then think that they would be shaking up, before the policemen to "walk out" in order to gain an end, which they would be able to reach in another manner?

OVER ONE HUNDRED TRIPS TO EUROPE

English Buyer for Hobberlin, Limited, Has Remarkable Record.

Mr. Samuel Jagger, woolen expert of Huddersfield, Yorkshire, England, and resident English buyer for The House of Hobberlin, Limited, after a short stay in Toronto, has started his return trip to England on the Baltic. This makes his one hundred and fourteenth trip across the Atlantic.

"The journey was uninteresting with the exception of addresses given by several American soldiers who had been made prisoners in the German hands. Not one of them had been prisoner any longer than six months, and they appeared to have been fairly well treated, which is a very different story from the prisoners who have re-

turned to Yorkshire, England, giving most thrilling accounts of the brutality practiced on prisoners during the last four years. It is understood that the men would be sent to civilian use, and the guilty punished. Our men must not be so inhumanly treated."

Referring to the woolen situation in England, Mr. Jagger said, "Canada needs quick no rapid drop in prices, as this will be impossible, because of the amount of clothing that has to be furnished to each demobilized man, who is to receive a suit, overcoat, cap and shirt. All these goods have to be manufactured into cloth for something like six million soldiers. This is going to take a great deal of machinery which has been used for military clothing, and it will take some time before it can be put to civilian use, couple this with the fact that all of the neutral nations are without wool, and draw their own conclusions. The great nations, with the exception of United States, England and Australia, are also without wool, which shows that there will be a great demand when the woolen market is re-opened again."

ANOTHER TRIANGLE FUND IS TO BE RAISED

At a meeting of the campaign committee of the national council held in Toronto yesterday arrangements were made for the next Red Triangle fund campaign, which the Y.W.C.A. in conjunction with the Y.W.C.A. is to hold "throughout Canada on May 5-9. The objective of the campaign will be to raise \$100,000, which is the amount of new funds required by the national councils of the two organizations for their extensive work for this year. This is a most important sum, which was asked from the people in last year's campaign, being less than one-half of the amount requested and less than one-third of the amount subscribed. The smaller sum is made possible because of the balance in the hands of the organization from the campaign of 1918 and the amount expected from the liquidation of overseas assets.

CHATEAUGUAY CHAPTER, I.O.O.F.

The seventh annual meeting of Chateauguay Chapter, I. O. O. F. E. was held at the house of Mrs. Beaty, 6 Queen's Park, on Wednesday, February 12, 1919. Mrs. Wallace Neath, the regent in the chair. The reports of the officers which were read showed that during the war the chapter had raised \$12,000, including the sum of \$2,300, the proceeds of the Easter fair and mart. During the year just passed the chapter had contributed to the prevention fund and took an active part in promoting the sale of Victory bonds and also in the work during the recent epidemic.

TO MAKE BETTER KNOWN MUSEUM'S TREASURES

Miss Margaret MacLean Has Been Appointed Official Guide. In order to make the treasures of the Royal Ontario Museum on Bloor street near Avenue road better known to the public, that institution has appointed Miss Margaret MacLean official guide. Miss MacLean is well qualified for the position, as she lived for many years in Japan and China when her late father, Alexander MacLean, was trade commissioner for the Canadian government. This enabled her to gain an insight into the customs and thoughts of these countries. She has also traveled extensively in Korea, India, Ceylon, Egypt, Europe, United States and Canada, and has personal knowledge of Indian life in the Rocky Mountains.

INTERNATIONAL CODE TO PROTECT NEGROES

Pan-African Congress at Paris Passes Resolution to Present to Conference.

Paris, Feb. 21.—The pan-African congress representing the negro peoples of six different nations, today passed a resolution for presentation to the peace conference...

It proposes that the allied and associated powers establish an international code for the protection of negroes, similar to the projected international labor code...

The resolution covers regulation of the investment of capital, the granting of concessions, political and religious liberty, and demands that negroes have equitable representation in the international institutions of the league of nations.

Pilsudski Confirmed as Dictator, and Paderewski Outlines Program of Government.

Warsaw, Feb. 21.—The second important meeting of Europe's newest parliament, the Polish national assembly, was held yesterday in the city, marked by the formal turning over to Gen. Joseph Pilsudski of his authority as dictator, and the returning of it to him, with the approval of the diet.

Ignace Jan Paderewski, the premier, informed the parliament of the country's situation, and for a vote of confidence in the ministry.

The narrow balconies were crowded with spectators while the lower floor was reserved for the members of the assembly. The presence of peasants in national costume, with here and there priests and rabbis, testified that the assembly was not ruled by a clique of landed nobility.

The proceedings were strikingly quiet and orderly, and with the white walls and the modest character of the assemblage, gave the entire scene the atmosphere of a church rather than of a legislature.

Pilsudski's Accents Appointment. Gen. Pilsudski, in accepting his appointment as head of the state, effected applause by saying he accepted the duty imposed upon him, but felt that he had too arbitrary a tenure for a role which required the ordinary attributes of a statesman.

Premier Paderewski, in a lengthy address, rousing with patriotism, declared that the country's service in order to fight Bolshevism. Secondly, he said, another effort must be made

to promote the prosperity of the workers, and give them better homes. Land must be secured to peasants who had none, and more given to those who had only a little, but land reforms must not be carried out too hastily.

Poland. M. Paderewski declared, should never forget that Techen is hers, as are also cities like Vilna, The Lithuanians and Ruthenians, he said, should be permitted to develop their own language, customs and schools.

HENPECKED'S CORRECTION. A hen-pecked man being told that an old acquaintance was married exclaimed, "I'm glad to hear it."

PENNY POST RETURN URGED BY LONDONERS The Council of the London Chamber of Commerce has taken over a memorandum to the British premier, the president of the board of trade, and the postmaster-general urging a return to the penny post and other pre-war conditions.

UNEMPLOYED WOULD CONTROL INDUSTRY

Mass Meeting Unanimously Vote to Seize Reins of Production. O'LEARY REFUSES

Trades Council President Fears at First to Present Resolution.

The feature of last night's mass meeting of organized unemployed labor at the Labor Temple was the resolution of the delegates of the Trades Council and Federation of the Marine Trades Federation to have the workers take over the industries of the country, with the intention of operating the mechanism of production and administering industrial affairs democratically in the interests of the whole people.

Not Natural. John Macdonald was the first speaker. He stated that there were 20,000 unemployed in Toronto, many of whom belonged probably to the building trades, always unemployed during the winter months.

Frank Watkinson, who followed, believed that the city of Toronto had been hard hit by the cessation of hostilities. Absentees from the war were a little better off than they were 400 years ago; relatively they were worse off.

The speaker criticized the personnel of the Toronto Housing Commission. Labor was not represented, not even Controller Robbins being on the board. Agitation, continued agitation, and still more agitation would achieve the desired results.

John Vick, business manager for the Bricklayers' Union, pointed to the various efforts of the government to deal with the present situation. Two hundred and forty millions were being spent upon feasible schemes.

Following a short discussion of the results as they affect the industries in the country was passed as noted.

Harper, customs broker, 39 West Wellington street, corner Bay, Adelaide 4682.

GERMANY ABLE TO PAY THREE BILLION YEARLY

British Banker Says She Can Do So Without Burden Falling on Wage Earners.

London, Feb. 21.—Herbert Gibbs, a well-known banker, in an address here today, declared that, having made a special study of the subject he was able to say that the savings of Germany were very great. Germany could easily pay \$2,000,000,000 yearly, the burden of which, he asserted, would fall not on the wage earners of Germany, but on the people who had made the war.

DODD'S KIDNEY PILLS

WILL NOT AFFECT THE PANAMA CANAL

Will Not Be Included by Conference in Internationalized Waterways.

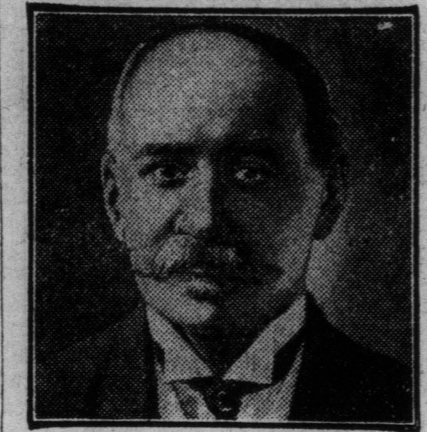

COMMITTEE IN SESSION

Completes Half British Draft on the Freedom of Traffic.

Paris, Feb. 21.—It has virtually been decided that there is no possibility of the Panama Canal or any North America waterway coming before the peace conference, as the subject of proposed international regulations. The special commission on the subject of international waterways, it is believed, will confine itself entirely to a discussion of European rivers, making the ground for the existing arrangements between the United States and Great Britain relative to boundary waters sufficient. It is asserted that the Panama and Suez Canals are not regarded as international waterways, each being within one country. The following official communication was issued today: "The sub-committee of the commission on the international regime of ports, waterways and railways, and for the study of freedom of transit, held a meeting today at 10 o'clock. The chairman, referring to the dastardly attack on M. Clemenceau on the previous day, expressed the sympathy of the sub-committee and their satisfaction that the attack had not had more serious results. It was agreed that a resolution in that sense should be signed by all the members of the commission and be sent to M. Clemenceau by the secretary-general. Subsequently an interesting exchange of views took place on amendments to the British draft convention on freedom and transit, which had been proposed by the United States delegation, the Portuguese delegation and the Grecian delegation. First Half of Draft Completed. "The discussion of the first half of the draft was completed and it was agreed that a further meeting to complete the discussion should be held on Monday, February 28, at 10 o'clock a.m. An official statement issued by the commission on international labor legislation says: "The eleventh meeting of the commission on international labor legislation took place under the presidency of Mr. Samuel Gompers this morning. "The discussion of the British scheme was continued and the commission considered the method of ratification and enforcement by the different states of the conventions adopted by the international labor conference. It is officially announced that the question of the creation of a neutral zone between the Hungarians and Rumanians in Transylvania has been referred to the supreme war council at Versailles. Referred Economic Measures. The council of ten today referred all transitory economic measures to the special economic commission, and a permanent economic commission, and a permanent commission which is to be named shortly, according to an official communication issued tonight. The council referred the Schleswig-Holstein question to the commission on Belgian affairs. Official announcement was made today that the representatives of the allies at their meeting at the Quai d'Orsay today government's efforts to should recognize the Polish government headed by Ignace Jan Paderewski. BAVARIAN REVOLUTION COST EIGHTEEN MARKS The Paris Matin publishes an interview with Dr. Kurt Eisner, the Bavarian premier, who stated that the Bavarian revolution cost exactly 18 marks. He had no more money than that in his pocket when he decided to overthrow the Wittensbach house. The throng of this thousand-year-old party was won from Eisner and a mere touch sufficed to demolish it. KEEP URIC ACID OUT OF JOINTS Tells Rheumatism Sufferers to Eat Less Meat and Take Salts. Rheumatism is easier to avoid than to cure, states a well-known authority. We are advised to dress warmly; keep the feet dry; avoid exposure; eat less meat, but drink plenty of good water. Rheumatism is a direct result of eating too much meat and other rich foods that produce uric acid which is absorbed into the blood. It is the function of the kidneys to filter this acid from the blood and cast it out in the urine; the pores of the skin are also a means of freeing the blood of this impurity. In damp and chilly cold weather the skin pores are closed, thus forcing the kidneys to do double work; they become weak and sluggish and fail to eliminate the uric acid, which keeps accumulating and circulating throughout the system, eventually settling in the joints and muscles, causing stiffness, soreness and pain called rheumatism. At the first twinge of rheumatism get from any pharmacy about four ounces of Jad Salts; put a tablespoonful in a glass of water and drink before breakfast each morning for a week. This is said to eliminate uric acid by stimulating the kidneys to normal action, thus ridding the blood of these impurities. Jad Salts is inexpensive, harmless and is made from the acid of grapes and lemon juice, combined with lithia, and is used with excellent results by thousands of folks who are subject to rheumatism. Here you have a pleasant effervescent lithia-water drink which helps overcome uric acid and is beneficial to your kidneys as well.

TORTURED BY RHEUMATISM

"Fruit-a-tives" Brought Quick and Permanent Relief.

MR. P. H. McHUGH.

103 Church Street, Montreal, December 10th, 1917. "I was a great sufferer from Rheumatism for over 16 years, I consulted specialists, took medicines, used lotions; but nothing did me good. "Then I began to use 'Fruit-a-tives'; and in 15 days, the pain was easier and the Rheumatism was better. Gradually 'Fruit-a-tives' overcame my Rheumatism; and now, for five years, I have had no return of the trouble. Also, I had severe Eczema and Constipation, and 'Fruit-a-tives' relieved me of these complaints; and gave me a good appetite; and in every way restored me to health."

P. H. McHUGH. 50c a box, 6 for \$2.50, trial size 50c. At dealers or sent post paid on receipt of price by Fruit-a-tives Limited, Ottawa, Ont.

MINERS AND OWNERS TO MANAGE MINES

British Federation Has Decided to Invite Formation of Joint Councils.

London, Feb. 21.—The Miners' Federation has decided to accept the invitation to attend the industrial conference which the government has called for February 27. It has decided also to communicate with Premier Lloyd George and inform him that the executive committee has not passed any resolution concerning the proposed miners' strike on the lines recommended by him, but will leave it to the delegates to the miners' conference to arrive at a decision. The Mining Association of Great Britain, which comprises all the leading colliery owners, according to The Evening Standard, has decided to invite the formation of joint councils of miners and owners to manage mines in certain defined districts. These joint councils would arrange and fix the standard of wages, labor costs, management and interest on capital. The miners also would be brought into immediate contact with all problems relating to selling prices and costs. Will Vote for Strike. The proposed of the strike ballot of the miners leaves hardly a shadow of doubt that there will be an overwhelming vote for a strike. Whether the government's efforts to avert a strike have succeeded will not be known until Wednesday, when a national conference of the miners' delegates will meet to consider the government's offer of a royal commission to endeavor to settle the controversy. The Miners' Federation executive committee has resolved to leave the conference unfettered by any recommendations, and this is considered an adverse sign. On the other hand the belief is expressed that the railway union and transport workers, like the miners, will agree to enter the national conference Thursday, which leaves some hope that an acceptable settlement will be reached. In the meantime the government will introduce in the house of commons on Monday its bill creating a royal commission. No Settled Policy. The official report of Premier Lloyd George's speech to the miners' executive committee Thursday, which was made public today for the first time, shows that the government apparently has no settled policy as yet about the nationalization of mines. The premier, indicating his readiness to set a time limit for the royal commission's report on the question of wages, hours and other matters, said it was difficult to impose such a limit on the question of nationalization, because the discussion would involve the future management and control of mines, whether joint control by employers and workmen or whether nationalization or the present system should be continued. Mr. Lloyd George devoted himself largely to emphasizing the gravity of a strike at the present time, when the nation is crippled by the gigantic cost of the war, and its industries are virtually at a standstill. He said that moreover a conflict under existing circumstances would not, as formerly, be a conflict between miners and mine owners, but between the miners and the state. Conflict Would Be Grave. The premier said he could conceive of nothing graver than such a conflict, because the state would be unable to surrender without abandoning its functions. Another serious reason against the nationalization of mines, Mr. Lloyd George added, was the effect it would have on the distribution of food and the possibility of causing serious privation to the community. For all these reasons, the premier concluded, it was the earnest business of the government, as well as of the miners, to find a way out of the difficulty. For the government to purchase a few weeks' peace by surrender, he declared, would only aggravate the trouble. Appeal to Miners. Mr. Lloyd George, alluding to the

Paris conference, said he believed the workers of all nations supported the league.

have succeeded in starting up the machinery for substituting reason for force," he continued, "and I hope that strife between nations has gone forever. Is it conceivable that the area of conflict is to be transferred to industry?"

Strongly repudiating any desire to adopt a tone of menace towards the miners, the premier appealed for acceptance of his plan. The conference then resolved itself into a prolonged conversation between Mr. Lloyd George and Mr. Robt. Smillie, leader of the miners, on the merits of the miners' demands. Smillie strongly contended that there was only a few years of ordinary investigation, the government could convince itself the mining industry could stand an increase of wages without increasing the price paid to the community, and he considered the miners could not wait for the commission's report. The premier intimated that the government must have a definite opinion, and said if the miners refused to wait he should deeply regret it, but the responsibility would be theirs.

TEN THOUSAND MORE TROOPS ON ATLANTIC

Four Ships Coming—One Brings Over Thousand Wives and Children.

London, Feb. 21.—Fourteen hundred Canadian soldiers with their wives and children sailed from Londonderry, Ireland, aboard the Melita with three hundred ordinary soldiers in addition. The Lapland left yesterday from Londonderry and men. The Scotian sailed on Wednesday with the same number. The Belgica leaves tomorrow with nearly four thousand.

The sailing of the Melita today with its married passenger and off-spring is noteworthy in view of the allegations that were made here recently that young wives of soldiers were arriving in Canada and Australia "have been received by leering crowd and on one occasion at least were pelted with street refuse, and had to be protected by the police."

Whatever the truth, if any, in this story, it had no effect upon the spirits of the Melita's passengers. The Scotian in London begins to look like its old self nowadays with specials running to Liverpool, Liverpool, on the morning of a big sailing.

Col. Bruce on Board. Today's ship was crowded especially in the third-class with honest service. Among the passengers were Mrs. G. H. Brown, a fair proportion of whom carried busy infants. Many hundreds more went to Liverpool direct from different centres in England, and were landed on the ship by their soldier husbands, who came up in a body from the Canadian discharge depot at Buxton. A band on the landing stage played the airs during embarkation and everybody appeared to anticipate their future life with a lively cheerfulness. Amongst the ordinary passengers were Col. Herbert Brown, the president of the assembly, read a telegram from the Polish national council at Teschen, Austrian Silesia, to the effect that the Czecho-Slovaks had refused to evacuate Teschen despite the agreement made in Paris on February 3. Previously, Premier Paderewski had been applauded when he declared that Poland only had fulfilled its duty in the peace conference regarding territorial ambitions. President Trompynski then prepared a telegram for three heads: M. Paderewski to the inter-allied mission now in Poland, concerning the incident. Allied representatives at Paris, the Canadian and French, it is said, are fully informed over the situation at Teschen.

CZECHS HAVE REFUSED TO EVACUATE TESCHEN

Warsaw, Feb. 20.—During the session of the Polish national assembly today, M. Trompynski, the president of the assembly, read a telegram from the Polish national council at Teschen, Austrian Silesia, to the effect that the Czecho-Slovaks had refused to evacuate Teschen despite the agreement made in Paris on February 3. Previously, Premier Paderewski had been applauded when he declared that Poland only had fulfilled its duty in the peace conference regarding territorial ambitions. President Trompynski then prepared a telegram for three heads: M. Paderewski to the inter-allied mission now in Poland, concerning the incident. Allied representatives at Paris, the Canadian and French, it is said, are fully informed over the situation at Teschen.

"IMPROVERS" FOR BREAD MAKE ANIMALS SICK

Commenting on the "improvers" to white bread, recommended to millers in a report by a committee of the food minister, the Times writes that the rural council that had given some of the "improvers" a test, and he never saw poor pussy again. It was found that a dog, who was afterwards ill for days.

DRINK A GLASS OF REAL HOT WATER BEFORE BREAKFAST

Says we will both look and feel clean, sweet and fresh and avoid illness.

Sanitary science has of late made rapid strides, with results that are of untold blessing to humanity. The latest application of its untiring research is the recommendation that it is as necessary to attend to internal sanitation of the drainage system of the human body as it is to the drains of the house. Those of us who are accustomed to feel dull and heavy when we arise, splitting headache, stuffy from a cold, foul tongue, nasty breath, acid stomach, can, instead, feel as fresh as a daisy by opening the sluices of the system each morning and flushing out the whole of the internal poisonous stagnant matter with pure water. Everyone, whether ailing, sick or well, should, each morning before breakfast, drink a glass of real hot water with a spoonful of lime-stone phosphate in it to wash out the stomach, liver and bowels the previous day's indigestible waste, sour bile and poisonous toxins; thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach. The millions of people who are bothered with indigestion, rheumatic stiffness, others who have sallow skins, blood disorders and sickly complexions are urged to get a quarter pound of limestone phosphate from the drug store. This will cost very little, but is sufficient to make a most pronounced crank on the subject of internal sanitation.

EXTRAORDINARY FEATURE

Gen. Pershing's Own Map of The Great Argonne Battle

This splendid Map, in colors, was sent to THE LITERARY DIGEST by General Pershing, and occupies two full pages in the February 22d number. It is accompanied by a thrilling article drawn from the American Commander-in-Chief's own report of the battle, which was sent with the map. In this tremendous eleven day's fight in the Argonne forest 600,000 American doughboys faced the crack divisions of the German Army and put them to rout, capturing 468 guns and 16,059 prisoners. Never before was an American Army engaged in such a great battle, and never before in any battle did any army face such almost insurmountable obstacles.

This unusual Map made by the army cartographers at headquarters in France during the progress of the great push will be invaluable for preservation. The position of every Division engaged on every day of the advance, and in some cases the morning and afternoon positions on the same day are clearly shown; the heavy German defense systems that were broken are clearly indicated, showing the irresistible impact of the American push. Every River, Railroad, Wagon-road, City and Town in the Meuse-Argonne region is plainly given.

In a million American homes this number of "The Digest" containing the splendid Argonne Battle Map will be read with intense interest. Every returned soldier and every relative of a hero in this great drive will be particularly eager to have "The Digest" this week. As no extra copies will be printed, we advise you to go to the news-stand NOW and get yours before they are all sold. Other features of striking value and interest in this number are:

"The Digest" is For Your Children as Much as For You

"The Digest" will prove to be the most educating influence in your child's life. Ten thousand high-school teachers have adopted it in their classes for their pupils, and the United States Government, recognizing its universal school use, is supplying special war-time lessons for every issue. Give your children the advantages of this worthwhile magazine. It will delight as well as benefit them, for in it fascination is equally blended with education. This is the magazine that will help train the growing minds of your children; that will direct them to the best kind of reading; that will equip them better for their school work; that will lead them to form the habit of keeping well informed on the big questions of the day that vitally concern them.

February 22d Number on Sale Today—All Newsdealers—10 Cents

FUNK & WAGNALLS COMPANY (Publishers of the Famous NEW Standard Dictionary), NEW YORK

LEAGUE OF RED CROSS SOCIETIES

(Continued From Page 1).

will devote itself, not to the actual study of human diseases, but to the co-ordination of the results of such studies. This bureau would be kept fully informed of all of the work being done. This not only would avoid duplication, but would result in intelligent direction of endeavor. "Any pertinent development or discovery of importance in science would at once be transmitted to Geneva and from there in turn immediately be transmitted to every Red Cross organization in the world. The result of this program as we see it, may be briefly stated under three heads: "First—it would awaken the peoples in every country in the world to a sense of their obligation to their fellow-men, and there would naturally follow in each country an awakening to the needs within that country and a determination to meet them as far as possible. "Second—it would throw light on the darker corners of the earth, and would give to all the world the full benefit of scientific study and experience in the prevention and cure of disease. "Third—it would make possible the immediate co-operation on the part of the various organizations to render aid when necessary in the case of great disasters. "It had been possible to effect this organization two years ago it is conceivable that there would be going today to the various countries now in distress supplies and aid which would give comfort to and restore to health millions of people who cannot now be cared for. No one knows how many millions have died during the last year from influenza. I have been told that the losses of India in the war were about 20,000,000 that deaths from influenza in that country alone are estimated to be about 2,500,000. "If the organization which we are planning had been operating a year ago it would have been in a position to know of the start of this unprecedented and terrible wave of disease which has swept across the world. It would have called upon experts best qualified to study the disease, and would have requested them to report to Geneva plans for the campaign against it, and thru efficient organizations could probably have stopped or stayed its progress, and undoubtedly have saved numberless lives. "One of the strongest features of the plan, as I see it, is that it encourages all endeavor. It can create no jealousies. It conflicts with no societies and involves an expenditure trifling in amount when compared with the results to be obtained."

LOLD GEORGE MEETS BERNÉ DELEGATION

Hears Resolutions Passed at Conference and Approves Number of Them.

London, Feb. 21.—Premier Lloyd George on Thursday received at his residence in Downing street the British delegation to the international labor and socialist conference, held recently in Berne. Lord Curzon of Kedleston, president of the council, was present with Mr. Lloyd George. The resolution submitted by the delegation dealt with responsibility for the war, the league of nations, territorial questions, an international labor charter and prisoners of war. Another resolution dealt with democracy and dictatorship. It affirmed the accepted political principles of democratic socialism, as opposed to the Bolsheviki theory as generally understood, and favored the appointment of a commission of inquiry to proceed to Russia to investigate the situation. A very full discussion took place. The premier indicated his agreement with a number of problems. He emphasized now the same difficulties that had been encountered at Berne had been encountered by the government at the peace conference. He indicated that the work at Berne had been of value and that he would see to it that the resolutions of the delegates were brought to the attention of his colleagues.

PLENTY OF WHISKEY ALL THRU NIAGARA

Entire Peninsula Honeycombed With Illicit Liquor Centres.

From a Special Correspondent of The World. Niagara Falls, Feb. 21.—The partial light thrown upon the liquor seizure at Homer a few days before the St. Catharines by-election has aroused a great deal of interest here. This neighborhood, in fact the whole Niagara peninsula, is honeycombed with illicit whiskey traffic. The distributing centres in Grand Island, and anyone who wants the stuff on the Canadian side can get it from there. The traffic is done by automobiles. A case is reported a little while ago of an auto turning turtle in the ditch and spilling whiskey bottles all over the place. The man in the auto gathered up a pile of bottles and hid them under the shrubbery in the park lot he could right his car. In the meantime a crowd of boys got wise and made off with the bottles in every direction. The man thought it best to decamp, and the car was claimed by a garage. There is an immense traffic in whiskey across the river, and there is usually a big stock in the customs here seized from persons who attempt to bring it in returning from Buffalo and Niagara Falls, N.Y.

MUNICH SPARTACANS FOILED IN RISING

Copenhagen, Feb. 21.—Spartan forces in Munich, Thursday, stormed the police station and arrested the chief of police and several other persons, according to reports from Berlin. The government attacked the Spartacans and by 7 o'clock in the evening had recaptured all public buildings. Several soldiers were wounded in the fighting. Soldiers who formed the Spartacans, under the name of the "committee for protection," surrendered. Early in the day the Spartacans had arrested the secretary of Premier Eisner and two members of the workmen's council, in addition to the chief of police.

Estate Notices

NOTICE TO CREDITORS—IN THE Matter of the Estate of William Wrigley, Late of the City of Toronto, in the County of York, Deceased.

NOTICE IS HEREBY GIVEN, pursuant to the provisions of the Revised Statutes of Ontario, chapter 121, section 56, that all creditors and others having any claims or demands against the estate of the said Lucie Quereux, who died on or about the 15th day of September, 1917, are hereby required to send in their claims and statements of account, with full particulars in writing, to the undersigned solicitor, on or before the 22nd day of March, 1919, to send by post, prepaid, or deliver to Owens & Goodman, Imperial Chambers, Toronto, solicitors for Donato D'Allesandro, executor of the estate of the said deceased, the Christian and surnames and addresses, with full particulars in writing of their claims and statements of account, and the nature of the security, if any, held by them, daily, before the said day.

AND TAKE NOTICE that after the said 22nd day of March, 1919, the said executor will proceed to distribute the estate of the said deceased amongst the persons entitled thereto, having regard only to the claims of which they shall then have had notice, and that the said executor will not be liable for the said estate or any part thereof to any person or persons of whose claim they shall not then have had notice.

DONATO D'ALLESANDRO, Executor. By his solicitors, Owens & Goodman, Imperial Chambers, Toronto, Solicitors for the said deceased. Dated at Toronto, this 18th day of February, A.D. 1919.

Estate Notices

NOTICE TO CREDITORS—IN THE Matter of the Estate of James Seymour, Late of the City of Toronto, in the County of York, Gentleman, Deceased.

NOTICE IS HEREBY GIVEN, pursuant to the provisions of the Revised Statutes of Ontario, chapter 121, section 56, that all creditors and others having any claims or demands against the estate of the said James Seymour, who died on or about the 17th day of January, 1918, are hereby required to send in their claims and statements of account, with full particulars in writing, to the undersigned solicitor, on or before the 22nd day of March, 1919, to send by post, prepaid, or deliver to Owens & Goodman, Imperial Chambers, Toronto, solicitors for Ethel May Miles and Robert J. Patterson, Executors, for the said deceased, the Christian and surnames and addresses, with full particulars in writing of their claims and statements of account, and the nature of the security, if any, held by them, daily, before the said day.

AND TAKE NOTICE that after the said 22nd day of March, 1919, the said executor will proceed to distribute the estate of the said deceased amongst the persons entitled thereto, having regard only to the claims of which they shall then have had notice, and that the said executor will not be liable for the said estate or any part thereof to any person or persons of whose claim they shall not then have had notice.

ETHEL MAY MILES and ROBERT J. PATTERSON, Executors. By their solicitors, Owens & Goodman, Imperial Chambers, Toronto, Solicitors for the said deceased. Dated at Toronto, this 18th day of February, A.D. 1919.

Estate Notices

NOTICE TO CREDITORS—IN THE Matter of the Estate of Stephen Mahoney, Late of the City of Toronto, in the County of York, Gentleman, Deceased.

NOTICE IS HEREBY GIVEN, pursuant to the provisions of the Revised Statutes of Ontario, chapter 121, section 56, that all creditors and others having any claims or demands against the estate of the said Stephen Mahoney, who died on or about the 20th day of March, 1918, are hereby required to send in their claims and statements of account, with full particulars in writing, to the undersigned solicitor, on or before the 22nd day of March, 1919, to send by post, prepaid, or deliver to Owens & Goodman, Imperial Chambers, Toronto, solicitors for Mary Catherine Way, executrix of the estate of the said deceased, the Christian and surnames and addresses, with full particulars in writing of their claims and statements of account, and the nature of the security, if any, held by them, daily, before the said day.

AND TAKE NOTICE that after the said 22nd day of March, 1919, the said executor will proceed to distribute the estate of the said deceased amongst the persons entitled thereto, having regard only to the claims of which they shall then have had notice, and that the said executor will not be liable for the said estate or any part thereof to any person or persons of whose claim they shall not then have had notice.

MARY CATHERINE WAY, Executrix. By her solicitors, Owens & Goodman, Imperial Chambers, Toronto, Solicitors for the said deceased. Dated at Toronto, this 18th day of February, A.D. 1919.

Estate Notices

NOTICE TO CREDITORS—IN THE Matter of the Estate of George B. Metherell, Insolvent.

NOTICE IS HEREBY GIVEN, pursuant to section 56 of the Trustee Act, R.S.O. 1914, chapter 121, that all creditors and others having claims or demands against the estate of the said George B. Metherell, who died on or about the 2nd day of February, 1919, are hereby required to send in their claims and statements of account, with full particulars in writing, to the undersigned solicitor, on or before the 22nd day of March, 1919, to send by post, prepaid, or deliver to The Toronto General Trusts Corporation, a corporation having its office at 385 Bloor Street West, Toronto, solicitors for the said deceased, the Christian and surnames and addresses, with full particulars in writing of their claims and statements of account, and the nature of the security, if any, held by them, daily, before the said day.

AND TAKE NOTICE that after such last mentioned date the said administrator will proceed to distribute the assets of the said deceased amongst the persons entitled thereto, having regard only to the claims of which they shall have had notice, and that the said administrator will not be liable for the said assets or any part thereof to any person or persons of whose claim they shall not then have had notice.

Dated at Toronto, this 20th day of February, 1919.

Estate Notices

SOME SHARP GAINS
IN LOCAL MARKETS

Twin City, Maple Leaf, Petro
leum and Tuckett's Lead
ers in Upturn.

Traction, Maple Leaf Milling, Inter
national Petroleum and Tuckett's To
bacco were outstanding features of
the exchange yesterday. There has been
a distinctly better demand for utility
stocks in the New York market lately,
and this sentiment is having its effect
upon locally listed traction issues.
Twin City sold up to 50, the highest
point of the year, and an advance of
three points from the previous sale.
Toronto Railway continued its ad
vance to 51 1/4, but later sagged to
50 3/4, reducing its most active stock of
the day, with a turnover of 313 shares,
moved up 3/4 to 52 and held the entire
gain. Barcola was shaded 1-8 to
10 1/8, but held up well in view of
the fresh evidence of serious uncer
tainty in Spain. Winnipeg Railway retained
its advanced ground at 48. Duluth
superior was an exception to the rule,
however, five shares coming out at 28,
the lowest price on record, and 18
points under the minimum price re
cently established. The company's ear
nings are showing marked improvement,
but the cancellation of the Superior
contract is a disturbing influence.
Maple Leaf Milling, which closed on
Thursday at 136, opened up two points
at 137 and extended its rise to 139 1/2,
quitting the record price attained last
November, and then reacted to 139.
The buying which has lately carried
up Maple Leaf 18 points is said to be
of inside character. Petroleum, which
closed at 23.00, the highest price on
record, reflected the movement in the
stock on the New York curb where
there is much talk of a prospective
strike there. In the afternoon
there was a brisk movement in Tuckett's
Tobacco which opened strong at
11 1/4 and closed at 23 1/4, a net gain
of 1 1/4. The company's annual re
port is expected to show a small im
provement in the highest price on
record in the history of the stock.
Steamships were firm at 103. Steamship
was inactive and heavy, a small im
provement in the closing bid was at
41 1/2. Two shares of Bank of Ham
ilton sold at 185, the best price under
the level of Thursday.

The 1918 Victory issue featured the
war loans, affecting with a fair de
gree of certainty the 1922, 1924 and
1926 issues. The 1922 issue, at
155 1/2; mines, 100; bonds, \$112,400.

BANK OF FRANCE.
Paris, Feb. 21.—The weekly
statement of the Bank of France
shows that the circulation of
gold in hand, increased 13,910,638
francs; silver in hand, decreased 422,
742,000 francs; treasury deposits, de
creased 56,933,921 francs; general de
posits, increased 15,969,657 francs;
total deposits, increased 12,448,213
francs; advances, decreased 2,193,118
francs.

NOVA SCOTIA DIVIDEND.
Dividend has been declared by
the Bank of Nova Scotia of 4 per cent
for the quarter ending March 31, payable
April 1, record March 15. Books
close March 17 to 21 inclusive.

MACKAY DIVIDENDS.
New York, Feb. 21.—Mackay Com
pany has declared its regular quar
terly dividends of 1 1/2 per cent on
the common stock and 1 per cent on
the preferred, both payable April 1
to stock of record March 8.

LOEW'S STOCK ISSUE.
The Oxford Securities Corporation are
offering \$150,000, 7 per cent, preferred
stock of the new Loew's London Theat
re, Limited. A site was recently purcha
sed and work on the theatre building wi
begin shortly. The preferred shares
are being offered at par with a 25 per
cent, common stock bonus.

MONEY AND EXCHANGE.
London, Feb. 21.—Money 3 1/4 per cent.
Discount rates, short and three months
1 1/2 to 1 3/4 per cent.

McIntyre and Crown Reserve
Under Pressure—Adanac
Is Firm.

Trading on the Standard Exchange
yesterday was of greater volume than
the preceding day, in the face of the fact
that the decision announced after the
morning session to dispense with the
Saturday board, as a mark of respect to
the memory of Sir Wilfrid Laurier, had
a restraining effect on business in the
afternoon. There were a number of de
clines, but, save in one or two instances,
they were not material, and several
stocks, including Lake Shore, Dome Lake
and Adanac, displayed firmness. The
most conspicuously weak stock was
Crown Reserve, which appeared to have
been singled out for a bear raid, and was
marked down four points, to 48, closing
at the low. There was no news to ac
count for Crown Reserve's behavior. We
from the few workings as usually assum
ing for use in the morning, was prob
ably so toward the end of the day.
The ore will run, it is assumed,
about 1000 to 1500 tons, and the
return promises to add materially to
the company's cash surplus within a short
time.

In the gold group, McIntyre attracted
attention of a three-point decline to
1 1/4, owing to being in a bear. Youn
man has been usual of late. The dip
was taken advantage of by acquirers of
shares to pick up stock at what they re
garded as bargain prices. The company
is understood to be adding steam to its
ore reserves, as well as to its cash
surplus. Lake Shore weakened 1/2, to 52,
and tenamacher, at 37. There were
no transactions in Dome, which came out
in New York, however, at 12 1/2, as
against 12.00 on Thursday. Dome Lake,
at 23; Newray, at 15 1/2, and Kirkana
Lake, at 4 1/2, each showed a gain of half
a point. Lake Shore was strong at 54,
while West Dome, at 10 1/2; Baldwin, at
34, and V.M.T., at 25, also held their
ground.

Hollinger sold again at 6 3/4. The
share is beginning to wonder how long
it is to be freely offered around this
level. Probably the directors could give
some enlightenment if they cared to do
so. The tonnage being treated at the
Hollinger Consolidated is said to be in
regularly increasing, which fact would indicate
output in excess of half a million dollars
monthly, and points toward profits, or
perhaps toward dividends every four weeks,
or sufficient to cover dividend disburse
ments of the former part of one per cent.
The consensus of opinion in the north is that the Hollinger
can be counted upon to soon return to
par, annually, with fair promise of even
larger dividends, perhaps by the be
ginning of another year.

The resumption of construction work,
including the erection of a larger number
of dwelling houses, will be rushed,
and in the afternoon sold up to 1 1/2, at
which price it closed, a net gain of 3/4. Ophir,
at 84, and Porcupine Lake, also at 84,
both likewise firm. Treadwell declined
1 1/2, to 38, and Timiskaming 1/2, to 32.

NEW YORK INTERESTED
IN WEST SHINING TREE

A local mining broker just returned
from New York reports unusual
interest there in the West Shining
Tree camp. Several syndicates are
being formed to take up properties
and develop them, and the working
parties in some cases are already on
the ground. Among others, the Atlas
Mining Company is laying out a big
season's work.

Another offer for control of Wasa
nauca has been made by New York
people at 50 cents a share, but the
offer has been turned down.

BANK OF NOVA SCOTIA
DIVIDEND IS INCREASED

The Bank of Nova Scotia has declared a
quarterly dividend of four per cent, for
the first three months of the current
year, or at the rate of 16 per cent, per
annum, as against 14 per cent, per an
num, which the bank has been paying
since 1912.

The Bank of Nova Scotia paid 14 per
cent, during the seven years 1912 to 1918,
inclusive, 13 1/2 per cent, in 1911, and 12
per cent, prior to that.

ONTARIO-KIRKLAND PLANT.
Kirkland Lake, Feb. 20.—After con
siderable delay in being able to ac
quire adequate electric power, the new
plant of the Ontario-Kirkland pro
perty is in full operation. Adequate
finances are officially stated to be in
the treasury to cover the cost of close
to 1500 feet of underground work.

NEW YORK CURB.
Closing prices yesterday in the Coblentz
and Porcupine stocks on the New York
curb, as supplied by Hamilton & Willis,
in the Willis Building, were as follows:

Table with columns: Name, Bid, Asked, and values for various stocks like Abitibi, Apex, etc.

MONTREAL STOCK EXCHANGE.
Supplied by Heron & Co.

Table with columns: Name, Bid, Asked, and values for various stocks like Abitibi, Apex, etc.

MARKET HOLIDAY

Today is a market holiday in
Canada, as well as in the United
States. The Toronto Stock Ex
change, the Standard Stock Ex
change, the Montreal Stock Ex
change and the Winnipeg Stock Ex
change will be closed today, as a
mark of respect to the memory of
Sir Wilfrid Laurier, who in the
United States, the birthday of
Washington will be observed.

U. S. Steel Develops Strength in
Closing Hour — Motor
Stocks Prominent.

New York, Feb. 21.—Disregarding the
impending double holiday, a condition
which usually begets caution and pro
fit-taking, bull power continued in con
trol of the stock market today, the gen
eral level of prices recording highest
levels in the very active class.

Trading concentrated to an unusual
extent in motors and allied rubber shares,
especially Kelly-Springfield Tire, Good
rich, Ajax Rubber and United States
Rubber, the extremely favorable reports
of the first two named being primary
factors for call buying.

Copper shares lagged at the outset, but asserted
much of their recent prominence later,
especially in the case of the poor, but
trader's, the extremely favorable reports
of the first two named being primary
factors for call buying.

The strength of copper was unexpected
because of the poor, but trader's, the
statements of earnings issued by several
of the leading companies and further re
flected in the price of the refined
metal.

United States Steel, which moved
within fractional bounds most of the
session, came forward with a rush in
the last hour, starting at 94 1/2 on
high-grade rails also developed strong
interest toward the close, their rise
following news that the house of rep
resentatives has authorized another large
appropriation for maintenance. Sales
amounted to 80,000 shares.

Stocks in general were firm, the Lib
erty issue alone manifesting some ir
regularity. Total sales, par value, ag
eared to \$17,000,000. United States
bonds were unchanged on call throu
t the week.

PAPER STOCKS HIGHER
ON MONTREAL EXCHANGE

Laurentide Leads in Activity With
Gain of Five-Eighths
Point.

Montreal, Feb. 21.—The paper stocks
were again the prominent feature on
the Montreal Stock Exchange today, but
interest was more widely distributed than
on the previous day, and, with few ex
ceptions, closed higher, without, how
ever, any spectacular moves, the
price movement being relatively limited,
particularly in the paper group.

Laurentide led the list in activity,
buying of 1000 shares advancing
the price to 20 1/2, a net gain of 1/2-point,
the most active buying of 500 shares
at 3 1/2, Laurentide Power was quiet, only
318 shares changing hands, while the
price eased by 1/8.

Of the other paper stocks, North Amer
ican Pulp, in the United Department,
was the most active, buying of 500 shares
advancing the price a small fraction, to
4 1/2, Brompton was strong, gaining 1/8
to 8 1/2, while Wascana, sold off to
1 1/2, on a turnover of only 50 shares,
and a new high, at 1 1/2, the
steels were quiet.

The listed paper stocks were more or
less inactive, Montreal selling again at
89, and Shawinigan again at 11 1/2, the
steels were quiet.

The listed paper stocks were more or
less inactive, Montreal selling again at
89, and Shawinigan again at 11 1/2, the
steels were quiet.

NEW YORK BANKS

New York, Feb. 21.—The actual condi
tion of clearing house banks and trust
companies for the week (five day)
shows that they hold \$16,821,810 reserve
in excess of legal requirements. This is
a decrease of \$25,637,670 from last week.

The statement of Loans, discounts,
etc., etc., \$1,084,000; cash in own vaults,
members of federal reserve banks, Inc.,
\$1,076,000; membership in federal reserve
bank of member banks, dec. \$1,076,000;
aggregate reserve, \$23,244,000; excess re
serve, \$16,821,810; dec. \$16,529,670.

New Spring Silks and Dress Fabrics

That Jubilantly Express the Spirit of Peace, Victory and the Coming Colorful Season

Spend an hour or so on our Second Floor, among the great assemblage of exquisite silks and dress fabrics that have recently arrived.

It will repay you—for you will obtain the most beautiful and fashionable weaves of the season—in high-grade qualities—at prices as low as good quality is obtainable for anywhere.

So different—so exquisite to feel and to see—so altogether lovely are these fabrics that description is impossible. Here are a few of the new notes:

Kumsei-Kumsei—a shimmering silk of serpentine crepe finish—one of the latest fads.

Peau de Peche, an exclusive French fabric for coats and cloaks—its velvety finish denoted by its name.

Unique conventional designs of surpassing beauty, largely used on silks, and very effective.

Spots, in all sizes and many stripes and checks, in both silk and wool materials.

Blues, fawns and greys of every description, lead the colors, supplemented by odd shades of henna, platinum, dying fox, jade, coral, victory red, parchment, etc.

Altogether such a wonderful gathering as we have never shown before—we invite your inspection.

Bon Ton CORSETS

Faultless--Fitting New Models For Every Type of Figure

Famous modistes of Paris, New York and London invariably agree on Bon Ton as the criterion of Corset style.

For they know from long contact with well-gowned women in many lands that Bon Ton is favored by women who really care.

So, no matter what you figure—you may feel assured that we can fit you with Bon Ton Corsets in such a way as to assure perfect comfort and faultless contour. Before you buy your new Spring frock or suit, have the satisfaction of knowing that you are correctly corseted—the satisfaction that comes from wearing Bon Ton Corsets.

Among a Score of Bon Ton Styles

Model 824—
A particularly comfortable Corset for the woman of average figure is of firm pink or white coutil. It has a rubber top, that gives perfect freedom to the bust and adds shapeliness. Back-laced. Price, \$5.00.

Model 819. Price \$6.
Full-figure style, in pink coutil. Full-cut bust, elastic inserts.

Model 1004—
Another smart average figure model in the wanted pink brocade. Featuring the elastic patch gore in the skirt back, which helps to control the figure. Back-laced. Price, \$6.50.

Model 1040—
Particularly cut to suit the stout figure, from excellent white coutil. The front-lacing, scientific boning and broad elastic inserts assure correct lines. Price, \$7.50.

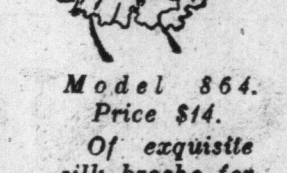

Model 913—
Another pleasing style, particularly adapted to the needs of the larger woman. Featuring a triple front boning that supports the abdomen, elastic lacing below clasp, and cloth gores at bust. Back-laced. Price, \$8.00.

Model 894—
A beautiful average figure style, developed in high-grade pink brocade. Well-rounded hips, medium bust, deep cloth gores at bust, and elastic inserts. Price, \$9.50.

Model 859—
A very popular Corset for the slender or average figure. Made of firm pink or white coutil, with semi-elastic top, wide free hip-space and medium skirt. Back-laced. Price, \$5.00.

Model 1059—
A beautiful average figure model of pink silk figured broche. Front-laced—panel back and elastic section below, and semi-free hip space. Price, \$11.50.

Model 1008. Price \$6.
A dainty style in pink and white coutil for the average figure.
