MAN LYING ON THE TRACK.
The Discovery Made Yesterday by a Brakeman.

POOR FELLOW HIS KNEES
Fell Over and Died Soon After Assistance Came to Him.

The Cause of Death a Mystery—The Man Turns Out to Have Been a Laborer, and Worked in East Flamboro—It is Believed to Be a Case of Heart Failure—Accidents—Police and General News.

Hamilton, Oct. 10.—(Special)—About 5 o'clock this morning the brakeman on a freight train from Toronto saw a man lying beside the track near the telegraph operator's chalet at the X, a short distance west of this city. He informed the operator, who went down the track to examine the man. The poor fellow was on his knees and said he was cold. He was assisted to the chalet and he fell over and expired in a few minutes. The body was removed to the morgue and Coroner Philip ordered an inquest. No marks of violence are to be seen on the body and the cause of death is a mystery.

The Body Identified.
To-day John Hopkins, a farmer, identified the body as that of Thomas Kalleas, a laborer from East Flamboro, who has been in the city yesterday. It is supposed that the dead man was seen at the Valley farm yesterday. Some have a suspicion that he died of heart failure.

THE BATTLE GROUPS. Under stress of public opinion, Sir Wilfrid Laurier has found it expedient to abandon his antagonism to the principle of the Imperial Zollverein. At the banquet given in his honor last week he took occasion to apologize for his public disapproval of the project while in Great Britain. He did not deny that he had rejected the advances of Hon. Mr. Chamberlain. He merely tried to explain away the effect of his conduct in so doing. Even yet Sir Wilfrid doesn't seem to understand the question, or at least he has failed to recognize his duty in connection with it. At the banquet the other night he told us that the question of England's granting Canada a preference in her markets was now open for discussion, "but," said he, "the battle must be fought in Great Britain much more than in Canada. There is the ground to have the battle fought." Such an assertion as this would emanate from no statesman who honestly believed in the project. If the establishment of an Imperial Zollverein is a commendable project then one part of the Empire is as much interested in advocating it as another. But the brunt of the battle will have to be fought by Canada. We who would like to see an Imperial Zollverein established and who believe in the principle ought to furnish the arguments to support our contention. It would be absurd for Canada to sit idly by and leave the battle to be fought out in Great Britain. We differ most emphatically from Sir Wilfrid Laurier. It is here in Canada that the battle must be fought if we ever expect to achieve victory. One of the conditions necessary to the establishment of the Zollverein is the ability of the colonies to supply Great Britain with the breadstuffs and other food products consumed by its inhabitants. Whose duty is it to establish this fact? Who leaves it to the people of England to ascertain whether the colonies can produce all the wheat required by Great Britain, or should the colonies themselves furnish the statistics? Instead of assuming a passive attitude, Canada ought at once to institute an active propaganda in the United States. A tariff on wheat in the United States, if levied, would have the effect of reducing the price of wheat in this country to a point where it would be impossible for us to export it. This is not the intention of Sir Wilfrid Laurier, but it is the intention of the British statesmen who are now waiting for the Government to prepare a plan of campaign on this very matter. The people of Great Britain must be educated to appreciate the possibilities of this country, and in order that they may be able to do so it is the duty of the Dominion and Provincial Governments to furnish them with reliable statistics. For instance, the Provincial Government ought to make an estimate of the amount of wheat, bacon, eggs, fruit, etc., that Ontario could, and would, produce if a preference were extended to such produce in the British markets. Manitoba should furnish particulars of the extent of its wheat fields and let the Mother Land know just how many million bushels could be expected from that province. The same kind of statistics should be furnished by the Dominion Government in regard to the Northwest Territories. The first move in the campaign to secure preferential treatment from Great Britain is the preparation of reliable facts and figures. The statistics hitherto published in regard to Canada are all too indefinite. We are told, for instance, by Dr. Dawson that the width of the permanently habitable area west of the Rocky Mountains is fully 800 miles; that its width east of the Rockies, according to the report of Senator Bacon, is 1000 miles; that in the longitude of Manitoba the habitable belt is somewhat narrower, although even here it is 700 miles; that from the extreme southern limit of Ontario to the northern limit of permanent civilized settlement, according to Dr. Hudson's exploration of the country round Hudson's Bay, about one thousand miles. Then we have heard much of the possibilities of the Peace and Mackenzie valleys for the production of wheat. But these statements are altogether too vague and indefinite. What the Government should do is to set down in black and white just what this country is prepared to furnish in the event of a preference being given to colonial products. Let us tell the people of Great Britain just how many million acres of wheat lands we have in Canada await-

NOTES ON NEWS.

There is no honor of plays in the United States, but the announcement that the crime of which the German Luetger is charged at Chicago has been dramatised, and will be produced at a local theatre to-night, will doubtless suggest to some of the people of the State of Illinois that the time has come for the appointment of such a functionary. Luetger's crime, or rather the crime he is charged with, is no ordinary one, nor is his trial any ordinary trial. He is accused of murdering his wife, in order to leave himself free to enjoy the pleasures of a paramour, and of boiling her body to nothing. It can easily be understood that there is ample opportunity here for the making of a play that shall rival in gruesome horrors, if not in construction and language, Shakespeare's revolting and earlier tragedy, "Titus Andronicus." It is stated in despatches from Chicago that "Der Wurst Fabrikant von Lake View," which being interpreted means "The Sausage Manufacturer of Lake View," is in for a long run, something that have not heard since the story of the fearful Tamora ever experienced.

THE DINGLEY TARIFF AND BRITISH TRADE. The Board of Trade returns for September show that there was a decline of 7 1/2 per cent. in the exports from Great Britain, as compared with the figures for the same month last year. The Times attributes the decrease to the operation of the Dingley tariff, in virtue of which British goods are being excluded from the United States, and advises the manufacturers to accept the situation and seek an opening for their goods elsewhere. The United States, France, Germany and in fact all the leading countries of the German empire, including Great Britain from their own markets, but are competing with her in the neutral markets of the world. Nothing remains for Great Britain but the adoption of a policy of self-defence. She must establish an Imperial custom house, the same Germany did, and extend her territory over all territory which she rightly claims as her own. Great Britain imports from the United States \$26,000,000 worth of produce annually. If that trade were diverted to the colonies, these in return would purchase ten times the volume of goods that are now sold to the United States. The proposed tariff in Canada to start with, and the cut of 25 per cent. in Great Britain's favor will make our tariff, as far as that country is concerned, an extremely moderate one. The method Great Britain should adopt to increase her diminishing trade is to encourage the production of wheat in the immediate vicinity of Kingston. It is a fact that the Government has recently ordered for three locomotives for the Intercolonial Railway. The Kingston Locomotive Works put in an estimate, but they were underbid by an American firm, which consequently got the work. The Whigs claim that if duty had been levied on the American wheat, the order would have been the lower. In these days, when the United States is excluding every nation from its markets, and particularly the Dominion of Canada, it is a shame that our Government should give an American firm a contract which Canadian workers are entitled to. This plan, which is the policy of the Canadian Government will be repudiated by all patriotic Canadians, especially at the present time, when the Americans are treating us with so little consideration. The Whigs are naturally indignant at the preference shown by the Liberal Government for the American wheat. It is a pity that those who have families to support in Kingston.

RELIGION IN THE SCHOOLS. A few days ago we noticed that a Separate school supporter requested that his school taxes should be applied to the Public school fund instead of for the benefit of the Separate schools. At the present time a large number of Catholic parents send their children to the Public schools in Toronto, although Separate schools exist in every section of the city. There is no doubt that many of our Catholic fellow-citizens are beginning to appreciate the fact that the Public schools are superior to the Separate schools from an educational point of view. They wish to give their children as good a start in life as Protestant boys and girls receive, and furthermore they abhor the idea of the children of the same community being segregated merely because of their religion. These influences are at work, and we sincerely believe that the day will yet come when the Separate schools of Ontario will quietly drop out of existence. But that day will be postponed for many a long year if the Anglican clergymen are allowed to introduce religion in the Public schools. Our only hope of ever securing the union of the Public and Separate schools is in keeping the former strictly neutral, from a religious point of view. The World does not anticipate that any such retrograde action as the teaching of religious doctrines in the Public schools will be countenanced, but we know how soon our splendid Public school system would be ruined if the Anglican clergies had their way. But they won't have it.

THE CAPTIVES. The Olympic Club of Buffalo is trying to arrange a boxing match between Frank Erne and James Popp, who fought to a draw before the Toronto Athletic Club last Saturday week. Although the trotting meetings held in Canada during the season just closed have not been over successful, there are few such gatherings in the United States at which Canadian horses do not get some of the money. The last to be heard from is Ace, a pacer by Delmarsh, owned in this country, that captured the 214 pace at Lexington, heading a good field and pulling in a liberal supply of greenbacks for his backers. Two weeks ago the same horse made a sensational win at Allentown, Pa. W. S. Gilbert will write no more plays because he objects to being made "a cockable correspondent" by newspaper critics, so says a "by" of newspaper critics, so says a "by" of newspaper critics. It was ever thus—the longest litter objecting to be hit. Fancy the author of "Pinafore," the man who held the late Right Hon. W. H. Smith up to universal ridicule as First Lord of the Admiralty, protesting against criticism! There is no man living who has dealt severer raps than the same Mr. Gilbert, and he has dealt them with an utter disregard of the feelings of the people he was striking. Bidefine is the hardest and harshest kind of criticism. The Captives One. RECEPTION OF THE FREESHITES. East Hall of University College was gay with autumn leaves, foliage plants and scarlet geraniums on the occasion of the reception of the freshettes by the upper years, on Saturday evening last. Besides the second, third and fourth year girls, a great many of the well-known graduates were present, and among the distinguished guests were Mrs. Edward Blake, the patroness of the Woman's Literary Society, and Miss Wilson, the daughter of the late President, Sir Daniel Wilson. The floor of the hall was dotted with tiny tables on which were snowed, dotis, flowers and sparkling silver. The hundreds of groups of four and six the guests sat down to dainty "fandangos" while the school in academic robes, dispensed the cup that cheers from quaint old silver tea pots. At each cover was placed the program and toast list, the daintiest imaginable. The "Does" included the following: "The Silver King," performed, with its own orchestra, at the capital of France, of the Marquis of Castel, for burglary, that the "Spider" is not altogether an imaginative creation. The Marquis is not charged with anything, but in selecting the house of the President of the Court of Appeals for despoiling he showed a good deal of dare-devilry. If Mr. Warner's team of English cricketers had played here last Wednesday and Thursday, as they proposed to do, the weather would have prevented an attendance of 200 people at any one time. It was, therefore, fortunate that Mr. Warner's Toronto correspondent hesitated to give the guarantee asked for. Next year, it is to be hoped that, having regard to our difficult conditions, any English cricketers crossing the Atlantic will play here first and go South via Niagara Falls to the matches in Philadelphia and New York. There seems to be a partial paralysis here in the "Wives of the Faculty" in Toronto, and it is a pity that some live, energetic man cannot be found to restore the fortunes of England's noble game. The midget bicyclist, Jimmy Michael, is making strenuous efforts in America to equal the performances of J. W. Stocks in the rear. On Saturday at Philadelphia he beat Stocks' old record of 32 miles 4 1/2 yards in an hour, by covering 32 miles 6 1/2 yards, but Stocks has placed the mark at 32 miles 3 1/2 yards, or within half a dozen yards of a quarter of a mile further on. It is noteworthy that 10 years ago, W. A. Howe held the world record in America at 22 miles 150 yards in 59 minutes. The record in England at 20 miles 900 yards. The best record for 32 miles was F. F. Ives' 1 hr. 35 m. 3 1/2 s., made at Springfield, Mass. Senator Morgan of Alabama is a terror to talk. He is who led the Opposition to the arbitration annex of Sandwich Islands. Irrespective of the fact that they were discovered 119 years ago by Capt. Cook, an Englishman, Senator Morgan says the 75,000,000 people of the United States are three means for crushing the English aggression in those islands. Senator Morgan is forever moving about with a chip on his shoulder. If Britain had wanted Owyhee she should have held on to it when she was in possession, more than a hundred years ago. Never before has a Majority contest been the subject of such widespread interest as is that now in progress in New York. The fact that the successful candidate will for the first time hold sway over three millions of people, as represented in Greater New York, is of course the main cause, but the candidature of Henry George, an Englishman and a single taxer, is an important feature. Judging from the newspapers, the man of the idea is putting up a bold fight and is meeting with much encouragement. If he should come anywhere near being elected his defeat will carry more significance than the success of any one of our three rivals. An Wyck of Dammany, Seth Low of the Citizens' Union or Gen. B. F. Tracy, Republican nominee and Secretary of the Navy in President Harrison's administration, I might mention, is also a great lover of the trotter and has to be credited with the fulfilled prediction that in five years from the time Nancy Hanks trotted in 1894, that is, from Sept. 1892, the light harness horse would cover a mile in two minutes. The story that the Prince of Wales intervened with the Jockey Club in favor of Mrs. Langtry, that modern Cleopatra, is probably about as true as a thousand and one other things that have been called civilization that a high-born gentleman cannot follow such pursuits as please him without hearing his name tacked on to numerous little bits of scandal. The publication of such reports is the one great blot on modern journalism. Well might Her Majesty, the Prince's mother, write to his three means for crushing the horrid publications whose object is to promulgate scandal and calumny which they invent themselves! The Mikado of Japan is sending an agent to Kentucky to buy horses. Another sign of Japanese progress. Wonder if we couldn't strike up a trade with China in 1892, that high harness horse would cover a mile in two minutes. FRESH WAR IN GUATEMALA.

Just When Dictator Barrios Thought He Was on Top a New Serious Obstacle Comes Up. Santa Ana Salvador, via Galveston, Tex., Oct. 9.—Just at the moment when it seemed certain that Dictator Barrios of Guatemala would triumph over his enemies and with the rebellion, news comes which shows decided and unexpected reverses for the Government forces. Now it is predicted on all sides that the situation is due largely to the fact that Jose Leon Castillo, who was one of the candidates for President of Guatemala, has contrived, despite the efforts of the Salvadorean Government, to invade Guatemala from Salvador with a large force and capture the cities of Jutiapa and Cuzcatlanajapa.

LITTLE RESISTANCE. According to the reports received here on Saturday evening last, besides the forces guarding the cities, and is now in undisputed possession. He is accompanied by Gascondo Santa Cruz and Pedro Barillas. The cities are nearer to the capital of Guatemala than any others ever held by the rebels, and it is believed that the insurgents will soon move against the city of Guatemala.

THE AUTHOR AND PLAYWRIGHT. New York, Oct. 10.—A snatch to the Times, probably the most considered as a playwright, has no question that his personal audience of any What he does, therefore, has formed a company which he has tested by a double-column advertisement in the Daily Telegraph name eight times in his render of the nostrum.

REINFORCEMENTS SENT OUT. Late last night more reinforcements were sent to Totonicapan. Thousands of persons gathered around the Presidential palace and paraded the streets till a late hour last night, discussing the evening's events and waiting to hear the latest tidings from the field of battle. Church bells pealed and a band played in the principal plaza.

HE HAD TWO WIVES. Number One Did Not Want Him and Number Two Did So David Got Out With a Light Sentance. Kingston, Oct. 10.—David Howard of Arden was tried yesterday on a charge of bigamy. His wife, Mrs. Howard No. 1, nee Elizabeth Hefferman of Collingwood, appeared in court in the uniform of a Salvation Army lass and with a look of forgiveness on her benevolent countenance. Wife No. 2, Sally Boncarter, was also present. David pleaded guilty. He was sentenced to six months in jail, and never heard of again. The Collingwood woman did not want him, as she was married to one J. W. D. D. The judge gave him 60 days in jail. His wives congratulated him on his light sentence.

MURDERER'S MOTHER SUICIDES. Morrisburg, Oct. 10.—Mrs. Brown, mother of Clark Brown, who was hanged at Cornwall in 1889 for the murder of his father and sister, committed suicide at her home in Winchester to-day. She was about 70 years of age.

AYER'S CATHARTIC PILLS have, from the time of their preparation, been a continuous success with the public. And that means that Ayer's Pills accomplish what is promised for them; they cure where others fail. It was fitting, therefore, that the world-wide popularity of these pills should be recognized by the World's Fair medal of 1893—a fact which emphasizes the record: 50 Years of Cures.

ART EDITOR DEAD.

In W. Van Deusen of Outing Magazine and N.Y.'s Companion.
Lawanda, N.Y., Oct. 9.—Allen W. Van Deusen, first editor of Outing Magazine New York, died at the home of his wife, O. B. Van Deusen, in this city, this morning. Mr. Van Deusen had been in poor health for several days, and on July 6 left New York for Saratoga Lake, N.Y., to recover his health. He stopped at Saratoga, N.Y., and while there he caught the typhoid fever. He was taken to the hospital, but he never recovered, and he was brought home Sept. 27.

It is possible that the Boston City will recall his health. He now will go to as strictly man for next winter's clothing life.

LUETGERT GIVES HIS VIEW.

Thinks the State Has a Weak Case Against Him.

HE DENOUNCES THE POLICE

And is Particularly Bitter Against Prof. Dorsey, the Bone Expert.

The Prosecution's Case is Built on Lies. Affirms the Slaughterer-Police Bulldozed and Threatened Mary Stemmmering and Tried It on Him, But He Soon Shows Them Off—Believes Mrs. Luetgert is Alive and Will Some Day be Discovered.

Chicago, Oct. 9.—Adolph L. Luetgert this morning gave out an estimate of the case the prosecution has made out against him. He was bitter in his denunciation of the police and Prof. George F. Dorsey, the chief osteological witness against him.

"I have kept quiet about what I thought of the case that was being made out against me, expressed no opinion during the trial, because by so doing I thought I might injure my case. But now I will say that, in my opinion, the case of the State is weak. It is built upon lies. Why, Frank Odorofsky and Frank Lewandowsky would swear to anything. They are liars, pure and simple. Neither of them worked for me the week ending May 1. Odorofsky came to my factory on Friday, April 30, and had nothing for him to do, and told him to come back again on Monday. He was not at the factory again, and all the evidence he gave about what he saw and did at the factory on Saturday, May 1, was manufactured. I did not go to make soap in that vat. That is the absolute truth of the matter. The soap washed out of the vat, and I gave up the job."

"I had intended to hire my men to scour the sausage factory from top to bottom, and put it in first-class shape to be sold."

"The police treated Mary Stemmmering shamefully. They prosecuted her, bulldozed her and threatened her. They tried it on me when I was first placed under arrest, but I stopped them ever afterwards. They could not put me in the sweat-box. I knew my constitutional rights, and informed Inspector Schaeck that he was not acting in the capacity of a trial court and that I did not have to answer any of his questions. He dropped me then. Pulbeck, who swore that Mary Stemmmering told him on May 3 that Mrs. Luetgert was still alive, is a base falsifier. That fellow has not seen a sober day in years. He used to come to my factory intoxicated, and to some to my factory in a way he'd say, 'Don't drive me away, Luetgert; I wish you were here. He is an liar, and that is what Luetgert's brain is no good. They are foolish. I remember things well. People are under obligations to me were on the witness stand and swore against me. Some time in the future I will buy something to say to these people. Mrs. Johanna Loeber, Fred Miller and Dietrich Bickner, who delivered the evidence that Mrs. Luetgert always treated her children well. How could they know? They only called it as 'my home occasionally.'"

AN ABUSED WOMAN'S REVENGE.
She Eloped With a Married Man Who Had Her Life Miserable, and She "Gave Him Away."
Washington, D. C., Oct. 9.—A sequel to an elopement story which came from the Atlantic City last night has just been worked out in the State Department, which today issued a warrant for the surrender to the Russian authorities of Judko Kaplan. This man was arrested in Atlantic City last summer for abducting a young woman supposed to be his wife. The girl, to avoid herself for ill-treatment, confessed that she had eloped with Kaplan, who was Russian. Before the Russian authorities could be communicated with the man escaped and fled to Europe with his wife and child. The girl's statement proved to be true. Judko Kaplan was a poor tailor, living in a small town of Kiev. Near by lived a well-to-do merchant named J. Kaplan. Judko availed himself of the merchant's name to get a draft for 20,000 roubles drawn to the order of the merchant, and escaped to America, leaving in Europe a wife and child. Coming to Boston, he met his cousin and eloped with her. The State Department has issued its warrant for his return to Russia, upon the commitment of a commissioner in New York.

BRITAIN AND EGYPT.
France Withdraws Her Opposition to John Bull's Occupation, So a New York Correspondent Says.
New York, Oct. 10.—The London correspondent of The Sun says: France has withdrawn from the present her opposition to the British occupation of Egypt. This news, which is of the highest diplomatic importance and significance, comes from a source which entitles it to full credence, although the story will probably be no official confirmation for several weeks.

The announcement of the other day that Lord Salisbury had conceded everything France claimed in Tunis has been received with astonishment and outrage, party, and savage denunciation by the Opposition press and leaders.

Lord Salisbury can well afford to bide his time under such attacks, when he has, or thinks he has, acquired Egypt in exchange for giving France a free title in Tunis. A little serious thought ought to have convinced even the bitterest enemies of the Prime Minister that he would hardly make such a sweeping and important concession without any quid pro quo except a paltry 5 per cent duty on sugar. Lord Salisbury has been yielding all along the line the beginning of the present Ministry, wherever stern pressure was applied, but notably ever knew him to give away a good thing diplomatically and voluntarily and without compulsion. If he has gained a free hand in Egypt he should not get the best of the present bargain, for it is practically certain that no other power will interfere if France is satisfied.

FOR THE DEADLOCK IN THE SEALING CONFERENCE.

Ottawa Gives the Orders and the British Foreign Office Puts Them Into Execution.

Such is the Tenor of the Cable Despatch From London to the New York Tribune—Mr. Chamberlain is Working the Whole Business, While Lord Salisbury Remains at Home With His Wife, Who is in Failing Health—Purchase by the United States Suggested.

New York, Oct. 10.—Under the heading "Missus in Her Own" and "Our Lady of the Snows DeLates Britain's Sealing Policy," The Tribune publishes today the following despatch from its London correspondent, Mr. Isaac N. Kard: "The comments of the English press on the deadlock in regard to the sealing conference are amusing to anyone who knows what is going on behind the scenes. Starting with the assumption that the idea of inviting Russia and Japan was an afterthought on the part of the State Department, designed to draw England and Canada into a conference in which they would be outvoted, the leader-writers commenced Chamberlain for republishing the latest pretension of Washington diplomats, and advise Secretary Hughes to stick to his own self-created difficulty as best he can. This conclusion is based on an inaccurate report that the English press assumed that the participation of Russia and Japan was an afterthought on a bit of Chamberlain's sharp practice. This letter was suppressed, and the English press, having been misled at the outset, clings to a false premise. It is the duty of consistency and because it does not like to confess that the Foreign Office takes its orders from Ottawa on questions of American diplomacy."

Take Chamberlain's Advice.
"Lord Salisbury ought not, however, to be charged with disingenuousness and bad faith. His heart is in the matter, and just now, for his wife is in failing health and he seldom goes to the Foreign Office. He takes the advice of Mr. Chamberlain on all questions in which the colonies are concerned, and that statesman considers the participation of Canada to have her own way in diplomacy relating to the Behring Sea fisheries and the proposed extension of the fur trade. Mr. Chamberlain would venture to affront Canada in the face of the differential tariff in favor of British goods, and the latter the example set which all the merchants and traders of the United Kingdom would be followed by all the colonies."

Ottawa Controls.
"The plain facts of the situation which the States Department in America generally will do well to recognize are: 'First, that the control of the British policy on the sealing question is in the hands of the Foreign Office; secondly, that Canada, having no vote in the conference, has no voice in the matter; thirdly, that the British Government, when the power of initiating new or directing old policies is not there, has no voice in the matter; fourthly, that the British Government, when the power of initiating new or directing old policies is not there, has no voice in the matter; fifthly, that the British Government, when the power of initiating new or directing old policies is not there, has no voice in the matter;
